## SOLDIER'S LETTER

### Interesting Write-up from Taneytown Boy

Wednesday evening, 7 P. M.

Dear Editor:

This may come as a surprise to you and maybe I'm surprising myself, but after thirteen months of service with the Air Force I certainly wish to express my sincere thanks of appreciation for receiving the Carroll Record weekly. When home I merely glanced through it, but since entering this life and having quite a bit of leisure time I read it throughout. Keep up the good work in the future and much success to all of you.

Within the past two weeks this base has received a new name, "Forbes Air Force Base" in honor of Maj. Forbes who was killed last year in a Flying Wing out California way. The official date for the dedication is July 13, at 2:30 central standard time.

The Governor plus Mrs. Forbes and many other prominent citizens are scheduled to attend this impressive ceremony. I'm inclined to believe that the base will be open to the public.

You have probably been wondering for quite some time about the mission of the 55th strategic Rec. Wg. and here it is, the primary purpose is to establish Geodetic control and take aerial photographs. The planes involved are B-17's and B-29's and total twenty in number. The famed B-36 was authorized here, but after due consideration in regards to the runways, this plan was cast aside. When I arrived here last October the strength numbered one thousand and since that time it has grown to twenty-three hundred men. Within the next few months it will increase to approximately four thousand. At present it is impossible to be transferred to another base because all men are considered a "must". Maybe in the very near future I'll be lucky enough to leave and gain more knowledge of the states especially the "West" Coast. Here's hoping!

This includes about all of the news for this time and until a later date remember me to all those good people back home. As always,

"JOE".

Pfc. JOSEPH B. SHAU.

Miss Sauble is the daughter of Mr. and Mrs. Norman R. Sauble, of Taneytown, Maryland.

## DAILY VACATION

### BIBLE SCHOOL

### Largest Enrollment on Record. 153 Enjoy Picnic at Park.

The Vacation Bible School in Taneytown will close this evening at 7:45 with an appropriate program under the direction of Mrs. Wallace Yingling as coordinator. It is expected that numerous patrons and friends of the school will attend the closing ceremonies and visit the exhibits in each room where the classes have been held during the past two weeks.

Yesterday morning the annual picnic and outing of the school was enjoyed at Big Pipe Creek Park. Volunteer cars were in abundance to take the children to and from the Park. 153 were in attendance at the picnic. This year the Vacation School paid the admission for the children to the Park and furnished the dinner. Good things to eat were in abundance. Last Tuesday night the mothers of the children met with Mrs. Wallace Yingling to plan the lunch to be served which consisted of chicken sandwiches, potato chips, pickles, hot dogs, ice cream and ice water, and cookies. Others serving on the table committee were: Mrs. Kenneth Shorb, Mrs. Singleton Rensburg, Mrs. Roy Lambert, Mrs. Theodore Jester, Mrs. Charles Owen, and Mrs. George Shriner. Everyone had a delightful outing and picnic.

The Vacation School began on June 20 and was held this year in the public school building. Everyone was delighted with the experiment of holding the sessions in this place where there were class rooms for each grade, together with the use of the shop for craft work to delight the boys.

The sessions opened each day with a devotional period conducted in each room and graded according to the age of the children. This was followed by a study period including instruction in the Bible. Then came the play period where the children enjoyed the facilities of the school playgrounds. This was followed by the hand craft period where the children learned by doing things.

One time per week, to symbolize the weekly church service, the children assembled in the auditorium, arranged to typify the church. There a little service was conducted under the leadership of Pastor Stahl, a master in the art of juvenile worship.

The Staff consisted of Mrs. Wallace Yingling who served as Educational Director and Musical Instructor, Pastor Glenn L. Stahl as dean, Pastor Arthur Garvin as secretary, and Pastor Charles S. Owen as reporter and treasurer in addition to sharing part of his time with a similar school in Emmitsburg.

Associated with this staff were 19 teachers who volunteered their services and proved faithful to their duties. There were 21 Beginners taught by Mrs. Arthur Garvin, assisted by Rhoda Rohrbach, Shirley Null, Janet Flickinger, and Una. Ridinger. The First Grade was taught by Miss Beulah Englar assisted by Suzanne Shower and Mary Jo Robb. 21 were enrolled. The Second Grade was taught by Barbara Echols and Janice Naylor the first week, and by Mrs. Wallace Yingling and Janice Naylor the second week. In this class 15 were enrolled.

The Third Grade enrolled 25 students. This class was taught by Mrs. Harry Mohney assisted by Joyce Owen and Lorraine Sauble. The Fourth and Fifth Grades enrolled 35 pupils and were taught by Dorothy Alexander and Charlotte Lookingbill while Caroline Shriner taught the hand craft by taking half the class the first period and the other half the last period. The Sixth and Seventh Grades were taught by Mrs. Robert Clingan assisted by Marian Martin and Betty Byrd. This group enrolled 19 students.

The high school girls, or recent graduates, who helped, showed very fine skill and ability as teachers and leaders in their classes. This constituted a splendid tribute to the quality of work being done in the public school from year to year.

One of the most popular features of the Vacation School with the boys was the Craft Department in the Shop under the direction of Francis Myers. Mr. Myers conducted his department with the skill and efficiency of a professor and proved a very popular instructor with the boys. The first period he took the Fourth grade. Then he took the Fifth, Sixth and Seventh grades for the second period.

This is regarded as the most successful Vacation School in the history of Taneytown with the largest enrollment and the largest number of teachers. The enrollment was 150. Of this number 21 pupils came in from Mayberry by means of the Taneytown Taxi Cab service. Credit for this accomplishment goes to Mrs. Maxine Corbin, of Mayberry for her interest in the children of that community.

A large part of the unusual success of the Bible School this year goes to Professor Shower. From the very beginning he showed a fine spirit of cooperation. He permitted us to use the school building, aided in the publicity among the children, and in many other ways showed a splendid spirit of helpfulness which everyone deeply appreciated.

Another helping hand unobserved in the background was Miss Belya Koons. Prevented from teaching because of business duties she lent a helping hand each night by coaching some of the girls who were to teach the next day. Thus she was on the faculty by proxy.

## SERVICE CLUBS MEETS

### Lions and Kiwanians Hold Joint Meeting

Sixty-five members of the Taneytown Lions Club and the Taneytown Kiwanis Club, with guests, held a joint meeting, on Tuesday evening at Bankert's Inn, near Gettysburg, Pa.

At the head table were President, M. S. Ohler who conducted the meeting and Secretary Murray Baumgardner of the Lions Club and President John Skiles and Secretary Robert Smith of the Kiwanis Club. Lion Merwyn C. Fuss of the Program Committee introduced the speaker, Mr. M. W. McFarland, of Baltimore. Mr. McFarland, a Special Agent of the F. B. I. spoke on the important work being done by this law enforcement and investigation department of the U. S. Government that was formed in 1908 by a Maryland man.

Ernie Kessler and his orchestra furnished music for the occasion.

The Kiwanians witnessed the important operation of the Lions Club's Tail Twister, S. E. Rensburg who mingled with the group with his "skillet" invoking fines on the men, irrespective of their affiliation, which resulted in much mirth and amusement among those present.

Elwood Baumgardner spoke on the work being done by the Taneytown Recreation Association and urged wholehearted cooperation of everyone present on the success of the Taneytown Park.

The meeting next week of the Kiwanis Club will be held Wednesday evening at Taney Inn in charge of George W. Crouse of the attendance committee.

## ON THE WAY TO THE PACIFIC NORTHWEST

At 3:25 E. S. T., on the afternoon of June 15, I boarded the New Columbian, a train of the Baltimore and Ohio system at Camden Station, Baltimore, enroute to the Great Northwest region. My train destination was Portland, Oregon, however, my final destination was Salem, Oregon. The fifty miles from Portland to Salem was made by automobile. It was my pleasure to make the acquaintance on the train of Professor Oliver, an English instructor of Willamette University, Salem, who was returning from a church meeting in Boston, and who accompanied my son and family, and me to the Oregon Capital.

It is no secret to say that I was perturbed upon detouring at Portland, to discover that my baggage had not arrived. Either in Baltimore or Chicago, somebody had fallen down on his job. Lack of time could not have been responsible for the delay. Just another instance of someone's carelessness and negligence, for I had arrived at Camden Station three hours before train time, and there was an interval of more than five hours between trains in Chicago. Since my son had to leave on the following day for another part of the state, and would be away for the week, in the prosecution of two condemnation cases in court, there was nothing else for me to do than to suggest that the baggage upon its arrival be sent by railroad express to Salem. When the baggage came, a bill also came for \$2.81. Negligence and carelessness always costs somebody something.

This is a great country. Even those who live here will tell you that. And it is an interesting experience to travel across the continent. You learn many things, make interesting observations, and encounter an occasional problem. Here you have an opportunity to study psychology at first hand, and under given situations. Many children were in evidence on this trip-ranging in age from a very few years to early teens, and an observation which one could readily make was, that many of these wanted both to be seen and heard. This is a characteristic of the modern age. A characteristic in years gone by was to be seen and not heard. Well one thing that was quite apparent respecting these children was their home training and discipline on the one hand, and the lack on the other. These children were doing away from home what they were permitted to do at home. And though a few mothers appeared to be disgusted, with the antics of their "darlings," a number of passengers, by their facial expressions, appeared disgusted with the mothers of these darlings. One evening the confusions became too pronounced that the conductor turned out the lights at a very early hour. Oh, yes, educators are saying, "don't restrain the child, let him give free expression." It may be all right to give free expression if there is something worthwhile to express. Most free expressions should be reserved for times when no one is about.

Unless you conclude that some of my free expressions should be held in reserve, I am going to end this particular article, NOW.

G. H. ENFIELD.

One of the magnificent services in behalf of the Bible School was provided by the generosity of the Kiwanis Club. This fine service club in the community furnished a bottle of milk each day for the 41 children of the beginners and First Grade. By this means the children could be taught to offer thanks to God, in the form of a Grace at the table, for the good things we have to eat.

## C. OF C. WILL GO ON

### PICNIC TO BETTERTON

### Plans Were Made for Annual Outing on Thurs., July 28th

The June meeting of the Chamber of Commerce was held in the Firemen's Hall, Monday night with President, Merwyn C. Fuss in the chair and acting Secretary Sam Breth as recorder. Inasmuch as no meeting is planned for July and August this is to be the last meeting until September 26th.

The annual outing and boat trip down the Bay was set for Thursday, July 28. On that date chartered busses, leaving Taneytown at 7:30 A. M., will take the Chamber in a body to Baltimore. From there a boat trip will be taken to Betterton where dinner will be served at noon at Hotel Betterton for the men in a body. Choice of roast turkey, fried chicken, or sea food, is offered.

The Secretary was asked to ascertain by double postals how many members plan to go on the outing and how many dinners of each kind to be served. This annual outing provided by the Chamber each year for the members, is one of the outstanding events of the season. The members look forward to it with a lot of pleasure.

The Secretary read a communication stating that the Carroll County Board of Education planned to introduce into the Taneytown High School this fall the new course on the science of safe driving to be taught in the senior class. Last spring the Chamber petitioned the Board of Education to do this inasmuch as Carroll was the only county in Maryland not yet providing this instruction. Therefore it was a source of great satisfaction brought to our community. The feeling prevailed that such a course of study would teach the students to be careful drivers, save lives and become the beginning of a movement to decrease the awful toll of accidents on the highways. It has been explained that this course of study can be introduced without great cost because the automobile companies furnish a new car free for this purpose at the beginning of each school year.

The guest speaker of the evening presented by President Fuss, was the popular Policeman E. G. Gamber who has recently come as the officer of our community. Mr. Gamber told about his service in the Navy as Police Officer on one of the large battleships. He paid high tribute to the good behavior of the people of the community and seemed deeply impressed with the apparent deep interest everyone, both young and old, to conduct themselves in an orderly manner as ladies and gentlemen on all occasions.

Rev. Charles S. Owen was asked to act as the publicity committee and press reporter to publicize the events and activities of the Chamber.

The President of the Town Council reports great satisfaction with the new parking meters installed a few weeks ago. The income therefrom has exceeded expectations so that they will be paid for sooner than first contemplated and thereafter provide a substantial income for the service of the community.

The meeting adjourned to Don's Blue Ridge Restaurant, located next door, where the members were treated to ice cream and cake around the fellowship of the table.

## FATHER SHAUM WILL GO ON VACATION

The Reverend David W. Shaum, assistant pastor Saint Vincent de Paul Church, Baltimore, and instructor in Sacred Music at Mount Saint Mary's Seminary, Emmitsburg, will leave next Sunday on an extended vacation to Florida, and Havana, Cuba. Enroute southward, Father Shaum, son of Mr. and Mrs. Francis E. Shaum, 12 Middle Street, will visit his cousin the Rev. Eugene H. Livelsberger, Burlington, North Carolina. After visiting points of interest in Florida Father Shaum will board an American Airlines plane for the flight to Havana, Cuba, where he will attend lectures at the University.

Upon his return to the States, Father Shaum, will journey homeward via New Orleans, and the Mississippi River Valley. The young priest will spend some days at the Trappist Monastery of Our Lady of Gethsamane in Nelson County, Kentucky, where Thomas Merton, author of the outstanding best seller, "The Seven Store Mountain," is a choir religious.

## PYTHIAN SISTERS PUT ON FOOD SALE FOR BENEFIT OF RECREATION PARK

The Recreation Association is deeply grateful for the spirit of co-operation and the splendid donation received from the Pythian Sisters who last Saturday put on a food sale in the Municipal Building and turned over the proceeds to the Recreation Association to be used in the development of the Recreation Park. This is indeed a challenge to other organizations. The American Legion has already turned over the proceeds of one money raising activity and they have made plans to put on others. The Chamber of Commerce has approved the formation of the Taneytown Recreation Association and plan to put on a money raising activity of some kind for the benefit of the Recreation Park project.

## AROUND THE TOWN

With all my heart, I wish you every morning  
A smile that shall last until the next day's dawning.  
I wish you health-life's greatest wealth!

I wish you always near so that I may help to cheer  
Each future day and in some way—help to bring you happiness!

The death of Mrs. Chauncey Olcott brought back two of the still popular tunes. Those called, "When Irish Eyes are Smiling" and "My Irish Rose" which her husband wrote of and to his wife! Ever notice, girls when men do big things in life there is a little woman in the picture somewhere or other? At least Henry Ford admitted that to the world!

Have thought many times why there isn't a little or several youngsters "Around The Town" thinking about going into that "Snow Ball" business. One sees that no matter where the drive all through little towns. There is nothing to cool one off as those snow balls for they seem just to be the ideal thing. Flavors can be home-made, too instead of those awful artificial ones.

One of the nice Realtors "Around The Town" has a real hobby. Going into the Bee business. He is wise and someone sure did put a Bee under his Chapeau!

The cute little girl who was rushed to the hospital about a week or so ago for an appendix operation is home again and doing nicely. Here's best wishes!

One of the cutest things and most realistic in that movie called, "The Parkleys of Broadway" was when Fred Astaire and Ginger Rogers sang (dressed beautifully for the part) that real Scotch melody which is sweeping the country.

In a suburb of England, 96 young couples are living with in-laws—but not their own. They swap in-laws with another couple, have fewer tiffs, take better care of the furniture. It is very evident that everybody's happier. Now, that is an idea! But not in America here for every one is too independent.

Was in a bus to the big city last week and that nice elderly young gentleman got on the bus at Frizzell. Sorry his trip was not longer as he got off at Westminster but before doing so informed Your Observer that he always reads this column with a magnifying glass due to the condition of his eyes! That touched Your Observer deeply!

The Stork paid a visit to the daughter of the Realtor on June 15. It's a boy! Best wishes to that little chap and in getting such a nice Mother, too!

And that reminds me, saw that cute chip of The Taney Inn who sure is a "Chip off the Old Block". That little Mother is about the most fascinating young Mother I have ever met which I thought the very first day I saw her and still thinking just that way!

Now this will please the ladies! Perhaps many of you know already. No more do you have to struggle trying to whip cream for your desserts and wondering if the cream will really whip or not. There is now on the market a container full of that luxury for the price of 49 cents. All you have to do is shake before using and always keep very cold. You remove the little plastic top, press the side of the tip and out comes this wonderful "Reddie-wip Topping". Demand it in every store "Around The Town".

There is no deposit or return on the container and it is always ready to use. It will be a "must" in every household and all the big cities are selling it so why not "Around The Town"?

The son of the P. P. "Around The Town" sure appeared quite handsome in his gray suit. Clothes may not "make the man" but it sure adds an awful heap! Eh?

The wife of our nice Mayor was called on the phone to answer a quiz if she recognized the tune of a record and she gave the correct answer which was "So Dear to My Heart" and was sent a merchandise certificate that could be used in the stores "Around The Town". That's nice advertising! Plus interesting, too!

If a salesman who is the very image of our former President Franklin Delano Roosevelt arrives at your farm door do show him in. You will find as I did—just about the most interesting individual! You will have confidence in him immediately as he is 100 per cent. He represents a million dollar concern and that company surely can be proud of him. He will tell you the truth even if he loses business by it; knowing full well that that will mean business for him in the future. Honesty pays and pays and PAYS—every time!

A gentleman from "Around The Town" really asked me not long ago, "For whom did you take over in writing this column?"

Well, well, well—he really believed it was the Masculine Gender, too! He still thinks there was a man in the picture somewhere or other as there was a little twinkle in his eye as he doubted me.

Believe it or not, folks as I told this very nice gentleman, when several ladies "Around The Town" thought it was a certain someone they knew, you should have read those letters to that certain party but when they really learned from my column it was of the Female Gender—well no more letters arrived but it was fun while it lasted!

So long, Folks Have a grand week-end. Go a little slower in your work as long as it is hot. Am sure the Boss won't mind. Next week, my column will be called, "Foundry Row".

Faithfully yours,  
OBSERVER.

### A SAFE FOURTH

Fourth of July is not far distant. And it's a good idea to plan, in advance, certain precautions that can prevent the holiday from being a time of tragedy.

The old saying about observing "a safe and sane Fourth" may seem trite from years of repetition. But it is as sound as it ever was. Every year failure to follow it results in death and injury, and property destruction by fire.

Fireworks are the most obvious hazard. At best, they are dangerous. They should never be used in congested areas, or in woods and fields where a spark may cause a runaway fire. Children should not be permitted to handle them except under strict adult supervision.

Each Fourth of July, millions of people go into the country for picnics. The national parks and other spots are filled to overflowing. The careless use of matches, smoking materials and campfires is responsible for a disgraceful and totally unnecessary toll of the woods and the wildlife in them. The simplest, most obvious precautions will save these resources for the future.

Fire safety should be practiced on the Fourth—and on every day in the year. Of late, there has been a small but encouraging decline in monthly fire losses. The waste is still criminally high, and the experts say that around 90 per cent of it is attributable to human carelessness alone. It is up to us to decide whether fire shall continue to kill and maim and destroy. We can stop it if we will.—Industrial News Review.

### INDEPENDENCE DAY

July 4th is rightly called Independence Day because on that day our founding fathers solemnly decreed that these United States ought to be and should be free and independent. It took courage, spunk and determination to so act. It required eight long years of bloody strife under the leadership of the noble Washington to prove their cause and resolution was right.

Washington had proved his title to leadership by his gallantry and courage in the French and Indian wars. When victory had been won and independence secured Washington could have easily become King had he been so minded; he preferred the humble title of president which since his day, and largely due to his guidance has become the loftiest title for ruler that the world knows. His tomb at Mt. Vernon is the most sacred shrine in America. None is greater anywhere in the world. The Puritans of New England, and the Cavaliers of the Southland were God fearing and humanity loving people. We have a noble heritage to be the progeny of so noble sires.

So let us all fling Old Glory to the breeze and celebrate the day because of what it has brought to us.

## PAYING SOMEONE ELSE'S TAXES!

"My Husband and I Pay Our Income Tax Before We Do Anything Else With Our Money. We Think Co-ops and Other Tax Exempt Businesses Should Do The Same."

Many people do not realize that one of the big reasons why income taxes are so high is because there are favored profit-making businesses that are permitted to escape all or most of their income tax. What they do not have to pay is added to the burden of the rest of us—naturally.

Who are these tax dodgers? Well, CO-OPERATIVE CORPORATIONS for one, government businesses for another. Even some colleges and universities own and reap tax-free profits from commercial enterprises making big profits. ALL escape entirely or avoid a major portion of their income tax liability to Uncle Sam.

## TAX THE UNTAXED First!

An estimated BILLION DOLLARS EACH YEAR is lost to Uncle Sam in income tax revenue by such exemptions. YOU make it up! Right now Congress is talking about getting even more from present taxpayers. Contact your Congressman NOW. Tell him to TAX THE UNTAXED FIRST before adding more income taxes onto present taxpayers. All present tax-exempt businesses and individuals.

Colonel Beverly Ober, Baltimore Police Commissioner, Colonel Carey Jarman, Superintendent of the Maryland State Police, Robert M. Reindollar, Chairman State Roads Commission, and William H. Bishop, Jr., Director of the Maryland Traffic Safety Commission, plan a special safety vigil for the long July 4th holiday.

Having established one of the finest safety records in the U. S. during the 1948 July 4th week-end, Maryland's guardians of highway safety will be out in full force.

All leaves, furloughs and vacations for all traffic enforcement officers on Maryland highways are cancelled to put the full weight of traffic assistance at disposal of motorists who will be traveling Maryland highways over the long week-end.

According to Maryland's Bureau on Traffic Statistics, pedestrian casualties still head the list. Special caution and warning is directed to pedestrians who cross roads where there is no intersection or no traffic signal.

Crossing against the signal, walking in roadways, stepping from behind parked cars or lying in the roadway while making tire repairs also stand high on the list of accident causes.

# THE STORY OF TEN LITTLE FREE WORKERS

THESE ARE THE WORKERS

REDDY DOCTOR RAILROADER MINER STEELWORKER FARMER LAWYER GROCER SALESLERK REPORTER

Ten little free workers in this country fine and fair.  
But if you cherish your freedom—worker have a care!  
Ten little free workers—Reddy was doing fine  
Until the socialists got him—then there were nine.

Nine little free workers laughed at Reddy's fate  
Along came federal medicine—then there were eight.

Eight little free workers thought this country heaven  
But the government took over the railroads, then there were seven.

Seven little free workers—till the miners got in a fix.  
Uncle said coal's essential and took over leaving six.

Six little free workers 'till the day did arrive  
The steel mills too were federalized—then there were five.

Five little free workers—but the farmers are free no more  
The farms have been collectivized—that leaves only four.

Four little free workers till the government did decree  
All must have free legal advice—then there were three.

Three little free workers—the number is getting few.  
But with government groceries selling food—then there were two.

Two little free workers—our story's almost done.  
With clerks at work in federal stores—that leaves only one.

One little free worker—the reporter son-of-a-gun  
Mustn't criticize government—so now there are none.

Ten little workers—but they are no longer free  
They work when and where ordered, and at a fixed rate you see,  
And it all could have been prevented if they'd only seen fit to agree  
And work together instead of saying "it never can happen to me!"

After one week Union Bridge's new dial telephone service seems to be working efficiently and every one likes it better than the old system. Under the new system 650 telephones are working as compared with 480 in operation at the end of the war and 38 telephones when the Union Bridge office was first opened in 1905. A regular issue of the telephone directory will be delivered in August. In the meantime a local directory has been mailed to each subscriber listing the new numbers. On July 6 and 7th the public is invited to inspect the new telephone building during the hours of 7:30 to 9 P. M. Boyd E. Sprinkle is the local manager.

Mr. Clarence Buffington, of Mt. Union announces the marriage of his daughter Betty Jane to Mr. Charles Preston Saylor, Wednesday, the 22nd of June at Jones Mills, Pa. The bride wore navy blue with white accessories and a large picture hat. Her corsage was pink rosebuds. The ceremony was witnessed by a few friends and relatives. Raymond Hitchcock, son of Mr. and Mrs. Martin Hitchcock met with an unfortunate accident when the automobile which he was driving crashed into a culvert along the Westminster-Littlestown highway at Mt. Pleasant. Evidently Raymond fell asleep and lost control of the car. The vehicle was demolished by the impact but Raymond was only slightly hurt. His two cousins, Treva Rippeon and June Rippeon, who were riding with him received lacerations and suffered from shock. Both were taken to a Baltimore Hospital.

Did you know that it is more important for the wife than the husband to be a church goer? The reason is that church going women are more stable emotionally, sociable and solid in character than non-church goers. Wives have to make far more changes and adjustments than husbands. This emotional "stay-ability" enables church-goers to negotiate these changes better than less stable non-church goers. Studies show that more church-going women than non-church goers are happily married.

Mary Margaret Baumgardner, of Westminster, and Nancy Roelke, of Mt. Union, were guests of Mr. and

Mrs. Merle Wilhide for several days. Mr. and Mrs. David Miller, visited with the Rev. Charles E. Birk and Mrs. Birk, at Sparrows Point, one day last week.

A Quaker pioneer, walking from his clearing to the meeting house, had his trusty flintlock ready. A non-believer accosted him saying, "Brother Nathan, is it not your belief that what is destined to be, will be?" "Yes." "Then if all the Indians in the province attacked the meeting house and your time had not come, you would not be harmed?" "No," answered the Quaker. "But if your time had come then no matter what you did, it would do no good?" "That is right." "Then why do you carry your gun to the meeting?" Gravely the Quaker replied, "On my way to or from the meeting I might see an Indian whose time had come."

Mr. and Mrs. Edward Roelke, of Evanston, Illinois, and Mrs. Florence Bennett, of Washington, D. C., visited the George Roelke family, of Union Bridge, and the Millard Roelke's of Mt. Union, last week.

We should all be better, I think, and more contented if we associated more with animals. They are perfectly old-fashioned; they do not read the newspapers and they do not vote. They have other delightful virtues. They think so much better of us than we are that it is an encouragement. They give so much to us in proportion to what they get that it shames our poor generosity. I respect considerable the idea that God made them to be, not exactly an example to us, but a suggestion.

This is the kind of week on the farm, that makes me wonder why I ever was so eager to share a farmer's life, and why I listen with concealed fury when my city cousin says "All those lovely things to eat and they didn't cost you a cent." No sister, not much. Those eight acres of peas planted themselves and hopped in the cans. The barley just grew and somehow got into the bags by mistake. The hay now days grows in bales and by remote control gets to the barn. The cows watch the clock and come into the barn twice a day and hook up the electric milkers and milk themselves. I could go on, but I think this is enough to give you the general idea. Do I sound disillusioned—well I am not—it's just the humidity. I will walk out into the twilight, sniff the fragrance of the newly cut hay, watch the fireflies do their ballet dance of the night and hear the soft chirpings of the birds putting themselves to bed and I will forget how tired I am and will be ready to face another day.

Mr. and Mrs. Clarence Myers and children and Mrs. Alton Dudderar, visited the Russell Bohn's over the week-end.

A young couple were driving thru the countryside at high speed. Suddenly he turned to her and said: "Isn't it great—speeding like this for mile after mile? Doesn't it make you glad that you're alive?" "Glad" she gasped. "I'm amazed!"

Advice to 4-H'ers with livestock projects. Produce winners if you can and by all means, produce choice animals, but conduct the enterprise on a sound basis so that the animals will show a profit even if sold at commercial prices.

Belts used to operate farm machinery should be just tight enough to prevent slippage.

Building costs have more than doubled since 1939. The question for the farmer or the home-owner is "Have I increased my insurance sufficiently?"

The first step to high quality eggs is frequent gathering and immediate cooling in a room with a 50° F. temperature.

Winners in livestock shows are not necessarily the individuals who started with the best animal. Good feeding, fitting, and showing make a difference and that is why such a project is good experience for a club member.

## Mother Liberty's Responsibilities

### A Task for Truman

President Truman has before him  
one of the greatest opportunities that  
any president has had during the first  
half of our century. Oddly enough,  
this chance of the century comes to  
the President through the foresight  
and statesmanship of the 80th Con-  
gress that last year absorbed so  
much punishment, politically, from  
Mr. Truman. It was the 80th Con-  
gress that set up the Hoover Com-  
mission on government reorganiza-  
tion.

### Nobody's Fault

Our only living ex-president gladly  
accepted the job of guiding the "task  
force" of experts through some 19  
months of detailed investigation. Mr.  
Hoover has played well the role of  
public servant in past crises. This  
time he accepted the task as chair-  
man of the Commission, believing  
it to be his last opportunity for im-  
portant public service. At this writ-  
ing, 18 "task force" reports have  
been sent to Congress. Only the final  
summary report remains to be made.  
The work of the Commission is so  
important that it must be placed  
above all politics. Like Mr. Hoover  
says, it's nobody's fault that our gov-  
ernment has got itself all tied up in  
knots, with inefficiency the general  
rule. Government "just grew" that  
way, Topsy-like. It is definitely  
not a political, not a party, question.

### Support Needed

Every one of us will be to blame,  
though, if we fail to get squarely  
behind both President Truman and  
the Congress and stay there pushing  
until this job of reorganization is  
done.

The tendency, naturally, is to let  
it go. Yet, right now, when the na-  
tion is faced with such tremendous  
expenditures of public money at  
home and abroad, it is downright  
foolish not to practice economy.  
Estimates show that recommenda-  
tions of the Hoover Commission  
would mean a yearly saving to tax-  
payers of more than 3 billion dollars.  
I feel confident the savings could be  
larger than that. If real efficiency  
and economy is to become the rule  
of the federal government, the peo-  
ple will have to support it.

### Way to Survival

Time is running short. Our sprawl-  
ing bureaucracy will not of itself  
change its habits. Instead, if left  
alone to grow, expand, and mush-  
room as it will, our financial burdens  
will never cease. The latest report  
of the Hoover Commission deals  
with government agencies that are  
engaged in business enterprise. It  
catalogs more than 100 concerns of  
substantial size that are owned or  
controlled by the government. Large  
sums could be saved, according to  
the Commission, by cutting this num-  
ber by almost one-third.

It is evident that unless we do put  
our government house in order, there  
is no way for this republic to sur-  
vive. As burdens of supporting huge  
and wasteful government grow in  
magnitude, we endanger the whole  
financial structure of the nation.  
Moreover, with continued growth of  
big government, we can arrive at  
state socialism some day without  
ever having voted for it. It's hard to  
believe, but already one of every six  
adult Americans receives regular  
checks from Uncle Sam!

## REMEMBER THE 4th

TO KEEP IT SANE

### Sylvester Says:

"Here's the  
plot! Now, who's  
home shall we  
build on it?"  
When the Fed-  
eral Govern-  
ment builds  
"public housing"  
it uses the same

materials and the same men pri-  
vate industry is using now to build  
5 homes a minute every eight-hour  
working day.

If the government takes men and  
material away from a home being  
built for your neighbor, it stops  
your neighbor from building his  
house.

If the government takes your tax  
money to build a house for your  
brother (public housing) it doesn't  
add a single house to the present  
supply. For, it must tear down  
your brother's old house to justify  
its spending of your tax money.

But if your neighbor has a good  
house and builds a new one, there  
would be two houses—one for your  
neighbor and one for your brother.

### Uncle Sam Says

I am looking for a man who vows  
he is going to save some money and  
yet never seems to get started. I am  
going to ask this man to go to his boss  
or down to his bank and sign up for  
the Automatic Savings Plan for the  
purchase of U. S. Savings Bonds. Then  
he can sit back and watch his Savings  
Bonds pile up. Save the automatic way,  
through the Payroll Savings Plan where  
you work, or if self-employed, the  
Bond-a-Month Plan where you bank.

# THE BIBLE SPEAKS

## Songs for All Hearts

Lesson for July 3, 1949

THE greatest hymn-book in the world is to be our study for three months. Not the oldest; that honor belongs to the Vedic Hymns of ancient India. Not the largest; the hymn-book of your own church may easily be twice as large. But the greatest hymn-book in the world is the book of Psalms. This collection of religious poems was used as the hymn-book of the temple which was built when the Jewish exiles returned to Babylon. It was the hymn-book of Herod's temple, and we know our Lord used and loved it. It is indeed the song-book of the Bible. It was the only hymn which the first Christians used, for some time. Indeed the book of Psalms is probably the only hymn-book honored and used by three separate religions—Judaism, Mohammedanism and Christianity.

Dr. Foreman

### How It Grew

LIKE all hymnals, this book of Psalms grew by degrees. It was not written all at one time or by one person. David wrote some of the Psalms, how many we do not know. The "titles" of the Psalms were added by later Hebrew editors, are no part of the original Psalms, and are often inaccurate.

It is very likely that as much as a thousand years went by between the first of the Psalms to be written, and the last. Every modern hymnal that is any good is in part a collection of the best of the old hymnals.

So our book of Psalms, as it finally took shape, came from older collections. A glance through it in the American standard version will show that in its present form it is made up of five smaller books, ending with Psalms 41, 72, 89, 106 and 150. Each book ends with a doxology and book V ends with a magnificent series of them. Sometimes the editors left in duplicates. Reading Psalm 14 side by side with Psalm 53 will show that these two are exactly the same, only using different names for God. At least one of the Psalms is made up of "clippings" from earlier Psalms: thus Psalm 108 is made up from Psalm 57:7-11 and Psalm 60:5-12. The Psalms were cherished and preserved generation after generation because of their heart-appeal. Our Psalm book has gone through centuries of sifting; many were dropped out and forgotten, but the best were saved and sung; and what we have is the cream of the best of the singers of Israel.

### Mirror of Man

JOHN CALVIN called the Psalms the "mirror of the soul." All the varied moods of man—hope, despair, triumph, envy, doubt, aspiration, loneliness, hatred, fear, irritation, patriotism, joy, bitterness, weariness, amazement, anguish, rapture—almost every emotion that can be felt toward God or man breathes somewhere or other in these Psalms.

Since not one of the authors of the Psalms was a Christian, of course, we should not be surprised to find, here and there, expressions (for example) of hatred which are out of harmony with the spirit and teaching of Jesus. The wonder is that there is so little of that kind of thing.

For every Psalm in which the poet says something cruel or hateful (e. g. Psalm 137:9 or 109:6:14), there are scores that breathe a spirit of gentleness and grace. For every note of despair (Psalm 88 is the only completely gloomy one in the whole collection), there are many hallelujahs of hope and gladness.

### Message of God

IF the Psalms are so human, how can they be also God's Word? Yet they are also, truly, a message of God. For they not only cast a divine light on the state of man's heart, but they show what the life of man is when God becomes real. For God was real to each poet who contributed to this great book. In latter weeks this summer we shall be looking at the Psalms from various special angles. This week it will be helpful to sit quietly with the three typical Psalms, 1, 67 and 100, and as you ponder over each one in turn, ask yourself: What does this show me about God? What does this show about life when it turns to God?

## SHORT STORY

### Just a Softie

By LILLIAN MITCHELL

MILLY KENYON pulled her last year's hat closer over her right eye and pushed ahead through the rain. Milly was old enough to know that wet feet would give her a red nose and a cold in her head and also that a hat worn in the rain never looks like much in its later life.

### 3-Minute Fiction

"There's Fran Kord and there's Daisy Ledoyt. They've both bought stories from me. Both of 'em. Fran Kord, good old scout! Many's the time her checks have come just in the nick of time to replenish the empty larder."

Milly peered near-sightedly at the street sign and turned the corner. The switchboard girl dressed in tomorrow's frock smiled at her brilliantly. Yes, Miss Kord was in. Yes. The name? Yes, just a moment, please. Yes, if you will go in, Miss Kenyon. And Milly was standing abashedly in a swanky inner office glittering with chromium and glass.

Fran Kord looked up. She almost sniffed at the newcomer. "Humph, so you're Milly Kenyon, eh? Glad to meet you."

"SIT DOWN. I hope you aren't bringing me any hard luck tale. Plea-for-sympathy stuff. I've had three writers in here today begging me to buy a story because two kids are dependent on selling a story or Junior has to have a tonsil operation or the grocer refuses further credit. I hope you're not going to be Number Four."

"Oh, I'm not," Milly said swiftly. "I—"

"Good!" cut in Fran Kord. "I used to be a softie and fall flat-ter'n a banana skin for that sympathy plea but not now. No, sir, I was left a widow myself with three youngsters to raise and I sure was a softie after they gave me this editorial job. But papers aren't run for charity."

"Of course not," said Milly warmly. "I stopped in to—"

"Not that I ever bought a poor story, you understand," Frank Kord hastened to say. "I was spending the paper's money and I never forgot that fact. But when there are fifty good stories for every one we purchase, I bought because of my big heart time and time again."

"Yes, it's the head has to rule in business. Not the heart," Fran remarked, her eyes on the soft globe of silver light above Milly's head.

"Well, I mustn't keep you. I know you're busy," said Milly rising. "I just stopped in to ask you—"

"Glad you stopped, Miss Kenyon."

"Not that I ever bought a poor story, you understand," Fran Kord hastened to say.

I'm always glad to meet the writers."

Fran Kord dropped her eyes almost immediately to her tablet of paper upon which she had been writing when Mildred entered.

MILLY looked in at the coffee shop but resolutely continued along the corridor to the telegraph office. There she wrote a telegram to Daisy Ledoyt, Editor, Garden and Palace Magazine:

"As winner of the \$20,000 prize for a novel on the American home, I am asked to choose manager of bureau to consult sympathetically with promising writers who fail to make the grade. Salary twice your present salary. Wire me if I may present your name."

Mildred Kenyon. "I kind of favored Fran Kord, somehow," Milly said to herself as she went back towards the coffee shop. "Both editors have been wonderful to me but she is cold as ice."

"No sympathy whatever. And writers who don't make the grade need sympathy and a lot of it."

Fran Kord relaxed at her desk. "Hettie," she called sharply to her secretary. "Hettie! Send upstairs and have them put through a check for—lemme see—there's the camel story and this one—and this one—make the check for four stories, Hettie. Bring the check down yourself and here's pennies. Put a special delivery stamp on it for Mildred Kenyon. Poor old gal—she's certainly down on her luck, if ever a writer was! Broken shoes and that hat! Well, just call me a softie. I'll never get hard sense in my head."

## Sylvester Says:

"Your magic carpet — may turn out to be a throw rug."

Public housers and social planners are urging the Government to guarantee U. S. citizens food, clothing, housing, amusements, education and medical care. What happens when people are provided these things?

The American Indians have been pampered, and dominated by our government for 80 years. Here's what they had to say to Senate Committees:

"The flag that flies upon the Capital dome here, that says under the Constitution every man shall have his day in court, every man shall have his personal rights, his property protected — that means absolutely nothing on an Indian reservation."

"You give any race of people, regardless of creed, a dole and a hand-out and you have got a dependent, and they will continue to depend on that and sooner or later they become lax, lazy and undependable."

Reports on the Opportunity Savings Bonds Campaign for the period ending June 25 showed that Carroll County has sold only 68 per cent of its quota of \$145,000 and stands in 18th place in the list of the 23 counties and Baltimore City. This means that during the present "accounting period", up to July 15, our citizens must purchase \$46,378 worth of "E" Bonds if we are to match the record of the two Counties, Harford and Baltimore, which have already met and oversubscribed their quota.

The Opportunity Campaign ends formally June 30, but during the next two weeks, designated by the Treasury Department as "accounting period" all "E" Bonds purchased in the state will be credited towards the Maryland quota, Mr. Dixon said. The report just received gave the total state sales of the E Bonds as \$10,241,452, bringing it up to 80.6 per cent of the Maryland quota of \$12,700,000.

P. E. RECEIVES NATIONAL HONORS

Potomac Edison's Advertising Department topped national honors last month in three divisions of the 1949 Public Utilities Advertising Association's "Better Copy Contest."

Competing against utility companies from coast to coast, the Potomac Edison News took second place in the Company Publications division; a Hagerstown PE appliance store window arrangement took third place in the window display division; and the report to employees placed third in the literature for employees group.

The annual P. U. A. A. contest is conducted to encourage and reward better advertising by business-managed public utility operating companies. It is the oldest advertising competition in existence.

Awards were made this year at the Associations convention, held in Cincinnati, June 21st.

**Birthday of Democracy**

July 4th, 1776

1776—Born amid the cannon roar and fiery trail of rockets—the result of Washington's tattered, ragged army of inspired men.

1776—Young and vigorous, sometimes clumsy, this nation grew, became strong because her people believed in her.

1776 is more than a date in our history. It is the things we have done and will do in the future. On this 4th day of July, we celebrate the past sacrifices with confidence in the future, that liberty will endure and one day, burst forth for men everywhere.
