TRAIN TRIP TO THE PACIFIC COAST

Rev. Enfield Describes Ride on the B. & O. Railroad

From Baltimore to Chicago by the B. & O. one crosses or touches Maryland, District of Columbia, West Virginia, Pennsylvania, Ohio, Indiana, and Illinois. At Garrett, Indiana, a passenger, going west, turns his watch back an hour, from Eastern Standard Time to Central Standard Time. Some other cities through which the train passes are Washington, D. C.; Martinsburg, West Virginia, Cumberland, Md., Pittsburgh, Pa.; Youngstown and Akron, Ohio, and Gary, Indiana. In Chicago there are three train stops, South Chicago, 63rd Street, and Grand Central Station, the terminus. It takes 45 minutes to travel from South Chicago to the Grand Central Station. One transfer in luxurious limousine from the incoming station to the outgoing station, or to any hotel or other destination in down town Chicago. A transfer coupon is part of the railroad ticket.

Route of the streamlined Empire Builder: Great Northern Railway's transcontinental "Route of the Empire Builder" extends westward from Chicago 2260 miles to Portland, Oregon. The rails of the lovely train across the top of the nation span a rich and colorful empire of eight western and midwestern states. They follow the banks of the majestic Mississippi for 300 miles, across two major mountain ranges, and skirt the border of America's second largest national park.

Between Chicago and the Twin Cities, St. Paul-Minneapolis, Minnesota, the Empire Builder travels over the tracks of the Burlington Route, first through the rolling farm lands of northern Illinois, then up into Wisconsin and thence for 300 miles along the mighty Mississippi to St. Paul the capital city of Minnesota. The Twin Cities are joined by many bridges. The Historic Stone Church Bridge, over which the Empire Builder passes, is the oldest bridge across the "Father of Waters." The distance between the Twin Cities is about ten miles.

Leaving the flour milling city of Minneapolis, the Great Northern's route traverses the rich farm and dairy land of lake-studded western Minnesota, then extends across the broad, fertile wheat-lands and undulating prairies of North Dakota.

Soon the train begins its long, easy climb up the backbone of the Rockies, across another state border into Montana, past Fort Buford, at the junction of the Yellowstone and the Missouri, where Sitting Bull surrendered in 1881, through vast farming and cattle country, past the oil and gas fields of Shelby and Out Bank.

The great train crosses the Continental Divide at Marias Pass, 5213 feet above sea level and the lowest rail crossing of the Rockies in the United States north of New Mexico.

In full view are the soaring peaks of Glacier National Park, and for 60 breath-taking miles the rails parallel the southern boundary of this popular wilderness playground.

Down the west slope of the Rockies the train follows a route used from time immemorial by Indians journeying to the Columbia, and on into the rugged northern Panhandle of Idaho.

At Spokane, Washington, the train becomes two. For here the Empire Builder is divided, with one part proceeding straight west to Seattle, and through the famous Cascade tunnel 7.79 miles long; the other part of the train moving south and west along the Columbia River to Portland, Oregon's "City of Roses."

AROUND THE TOWN

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth!
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

Recently, Your Observer was witness to a marriage ceremony which interested me greatly. "Standing by" and seeing so many marriages performed all throughout the years and then this one that was so different. Why? Because it was a young couple who had been married a few years ago and who decided to agree to disagree! They realized that they could not live without each other after the divorce was granted and were married over again! She, now 27 years of age and he 32. Just like that song, "We thought that love was over." That pleased my Minister immensely as he is bitterly opposed to divorces!

Did you know that the nice Post-Mistress out at Keymar delivers the mail to the boxes once yearly? It is so nice to know that the American Designer for "Milady's" garments will not follow the trend of the French fashion by having such scant affairs to the materials. So, therefore neck lines will be in their proper place and all else! As one designer puts it, "We are a moral race and women here have realized that a male is more intriguing to a male than revelation."

There is a Mother and young married daughter who are seen together a great deal. How nice I only knew one other Mother and Daughter who were so very companionable. This young girl is getting to be a real beauty since she has put on a few pounds! She still maintains that precious apartment.

Now, this is to the ladies while on the subject of being beautiful! Not long ago, I called upon a very close friend who has one grown son. This friend did not seem to care much about her appearance. Her age? Well, around 35 or so. She was overly stout, rather short and combed her hair real tight back in a knot at the nape of her neck. She seemed always to have a worried expression and her attitude was one of "I don't care how I appear!" It was about a year that passed in which time, I did not see my friend. That call I made simply glued me to the steps as I could not stand when the door was opened. Instead of my friend standing there—there was a new personality entirely. She had taken that wonderful "Dunbar" course with Miss Ann Delahudt who is Director of The Richard Hudnut Salon in New York City. The course is sent by mail. There was a beautiful woman, slenderized, charming and her hair in the latest becoming fashion looking about 23 years of age! The husband and the grown son were so proud that she was taken everywhere. She was simply made all over again and although she was always the very sweetest disposition—all this transformation made her doubly so!

Everyone should read that letter by G. H. Enfield on his trip West! Especially women who have children! They may learn plenty! And that reminds me by, no means miss the article in The Ladies' Home Journal of this month, "Jimmy John" by Anna Perrott Rose. You will benefit greatly and it will make you do some thinking!

Remember that old saying, "There is a Skeleton in everyone's closet!" Which meant, "Before you speak ill of anyone always remember that!" No need to explain further! Eh?

Two of the nice men around the town with fine characters are the two former partners of the gas station! None finer!

A lady knew the correct answer when called by the Taneytown Radio Quiz to "Why does a coffee pot have the spout at the top and tea pot, the spout at the bottom?" (So the grounds can settle).

The brothers on the "Square" simply grow and grow and grow on acquaintance!

There is a very nice gentleman in our midst whom I learned only recently is a Bachelor. That seems strange for such a substantial, wholesome and most domesticated individual! How come?

Who could be a finer partner in your business than your wife? The PP's wife is a grand one. Nothing seems to ruffle her and she is most conscientious and dependable.

The little elderly and Sainly lady never fails to wave as Your Observer passes by as she sits on the narrow porch out Frederick Street. She has a "Mona Lia's smile."

One of those brilliant sons of the Minister at the Middleburg Church had a birthday, July 3rd. He does shine!

While I write this column, there is a lovely aroma of "Roses" Why? The Aroma is not from my garden where those pesky Japanese Beetles did so much damage regardless of the did so much damage regardless of the numerous sprays) but from a little box in which holds a salve which I purchased a few weeks ago from a little salesman who was driving a Woodcoupe. He stated he was from Woodsboro and was quite surprised that my education was sadly neglected as this old fashioned "Smith" Rose Bud in Salve" made by a druggist there in the year of 1892! Well, folks, after hearing all that, Your Observer could not refuse to purchase a box of the reliable soothing salve. It uses of sun benefited in a couple of uses of the like, burn, chapped hands and the like. The delightful fragrance is quite pleasing, too especially after having

OUR GREAT PRESIDENTS

Three of our Presidents are outstanding for greatness—Washington, Lincoln and (my choice for third) Theodore Roosevelt. Washington was said to be first in war, first in peace and first in the hearts of his countrymen. A young lady teacher thus once described Washington to her class, when one small boy declared but he was not the first man, cause he married a widow. Many marvelous things have been attributed to Washington. He was said never to have told a lie, hence the legend of the axe and cherry tree. He was said to have in youth thrown a silver dollar across the Rappahannock River, whereas neither of fat silver dollars had not yet been coined. The fishermen have also their tales to tell. One fisherman caught a striper one hundred inches long, when another claimed Washington had caught one one hundred and fifty inches long. Tall tales they are for no one seems even to have seen such a fish even one hundred inches long. Washington deserves all the praise we can bestow upon him and needs no exaggerated accounts to enhance his greatness.

Lincoln because of his humble birth and later greatness is in the minds of many as even greater than Washington even greater than Washington. Certainly Lincoln had in the trying times of the Civil War more to contend with than Washington did in the Revolutionary War. John Wilkes Booth cut down Lincoln at the Zenith of his power and fame, and perhaps helped add glory to his name.

Theodore Roosevelt's greatness was in his versatility. Born with a weak constitution he by trial and provocation became one of our most rugged presidents. His books "The Winning of the West" and "Of Writing Tales of the West" alone would have made him famous.

His explorations place him well up among the topmost, both in Africa and South America.

For versatility he was perhaps the greatest of our presidents.

All of our presidents have been great but none greater than these three.

W. J. H.

LOOKING TOWARD 1952

There won't be another Presidential election until 1952. But next year's Congressional elections will hold far more importance than they usually do, as an indication of what is to come, and as a test of power between strongly divergent philosophies of government.

The main interest will center in Ohio, where Senator Taft will run again. This contest will have a truly national significance. For Taft has clearly proven himself to be the most adroit and effective opponent Mr. Truman has.

As everyone knows, the Truman legislative program has fallen on evil days. He lost out completely on his request for repeal of the Taft-Hartley law. He will get only a small part of his all-inclusive social security program. The chance of the Columbia Valley Administration being approved by this Congress is so slim as to be almost non-existent. His ideas on tax increases have found deaf ears in Congress. His leaders have been out-manuevered time and time again. Senator Taft has not done all this alone by any means, but he has been the leading spirit. It is not remarkable that a large group of Washington correspondents, of all political views, recently voted overwhelmingly for Taft when they were asked to name the ablest Senator. He has few equals as a parliamentarian. Perhaps no one

now in Washington has so wide a knowledge of the complex workings of the government. He is famous for tenacity, and he can be a very tough man when Republicans show signs of wavering on policy. He frankly wants to be President, and twice tried for the nomination.

Joseph Alsop writes, "Immense forces will be rallied for this Ohio struggle. The labor group will put everything they have into the effort to defeat Taft. Businessmen all over the country are already laying the cash on the line to aid the Taft campaign." It is expected that the Senator will actually start campaigning very soon—more than a year before the election. Ohio is as perfect a state as exists for a great test of this kind. It has a big population, a large electoral college vote, and it has always been a pivotal state. It has large labor groups and large agricultural and business groups as well. It is normally Republican, but not invariably so—last year it went for Truman, and elected a Democratic Governor.

If Taft loses to an opponent running on the Truman platform, his wing of the Republican party, which is the only wing that has taken strong issue with the Administration, will receive a body-blow setback. If he wins, he will have the inside track for the 1952 GOP nomination, and those who hold similar beliefs will take new heart.—Industrial News Review.

DO ALL BUSINESSES PAY FEDERAL INCOME TAXES ON THE SAME BASIS?
 ... WOULD IT PUT THEM OUT OF BUSINESS IF THEY DID? ... TRY THESE
 AND OTHER QUESTIONS AND LEARN THE FACTS ...

TRUE OR FALSE QUIZ

TRUE OR FALSE? All businesses do not pay income tax on the same basis:

TRUE. Co-operative corporations, foundations and charitable trusts engaged in commercial business and other tax-exempt commercial enterprises escape all or a major part of income taxes on profits.

TRUE OR FALSE? Paying Federal Income Tax like other business would put Co-ops; for instance, out of business:

FALSE. Any well-managed co-op or other tax-exempt business can pay full federal income tax on profits and still do its business in a normal manner. Paying taxes has not put other commercial enterprises out of business!

TRUE OR FALSE? When some favored concerns are permitted to escape taxes, the other taxpayers must make up the difference:

TRUE. When certain forms of business are permitted to dodge taxes, the rest of us have to pay more. It is estimated that present tax-exempt business is escaping a BILLION dollars in federal income tax every year. YOU make that up in YOUR TAXES.

ALL BUSINESS SHOULD PAY TAXES ON THE SAME BASIS

Congress is out looking for four billions in additional federal revenue. Every present income taxpayer should **INSIST** that Congress **TAX THE UNTAXED FIRST** before adding this extra burden upon present taxpayers who are already carrying their own load and the load of the tax-exempts as well. Contact your Congressman **NOW**. Tell him to **TAX THE UNTAXED FIRST.**

During the war Dr. Helwig was stationed in the Philippines and learned to know Lorenzo. FEESERSBURG

Monday evening, between 5 and 6 P. M. a baby tornado struck the Mt. Union area, uprooting trees and doing considerable damage to corn fields and gardens. At Merry Knoll trees were uprooted and part of the barn roof torn off, and the west side of the house flooded. Two large trees were

blown down at the Mt. Union Church and several at the Raymond Wilson farm and the Frank Martin farm. Mr. Brook Helbridge had a lovely row of lima beans strung on poles and these were crushed to the ground. The storm was purely local for Union Bridge, A. Daleburg and Taneytown escaped with only a shower. The tornado cut a path a quarter of a mile wide and wore itself out in about 15 minutes. But those minutes seemed like hours to anyone going through it.

Eighty-three percent of a man's knowledge is brought to him through vision. The rest he gets from his wife. Mr. and Mrs. Russell Bohn gave a party Sunday afternoon to a group of friends and relatives in honor of their grandson, Lewis, who celebrated his 6th birthday. Besides reaching the ripe old age of six, he is looking forward to going to school this fall, which indeed is a milestone in anyone's life.

There is no elevator to success, better try the stairs.

A hard up sportsman bought a horse but neglected to pay its former owner. Later he met the man who sold him the horse. "I'm not at all satisfied with that animal," the hunter said. The Girl Scouts of Union Bridge had a stand at the Veterans Carnival and did very well considering the limited amount of articles they were permitted to sell. In fact, if the truth was known, they are about the only ones who actually made any money. Due to the bad weather and poor crowds, the Veterans did not do so well. Carnivals have lost their popularity and some other means will have to be found to raise money.

Guests of the Frank Martins this week were: Mrs. Eva Currey, Mrs. Esther Hartle and Raymond Wilson, of Hagerstown.

The James Bookers had a phone installed last week. Nothing gives one the feeling of security as a phone does when one lives in the country. I have heard any number of persons say they would part with most anything before they would give up their phone.

Nature is amazing. Who would have thought of growing a fly-swatter on the rear end of a cow?

AROUND THE TOWN

(Continued from First Page)
pointed a great many hours this day. All of you must know the "Rose Bud Salve" being sold throughout the counties.

Many of my readers, no doubt have read a few weeks ago of the death of that famous personality, Bob Ripley. I had the pleasure of meeting him on the train going Northward from Florida two years ago at Easton. He was most interesting as he had traveled all over the world. It was not long before his death that he wrote to me stating he was going to use the "Believe it or Not" which I had sent to him at his request which he thought quite a miracle. One can hardly realize his death which was so very sudden as he was the picture of health.

So long, Folks. Have a grand week end. Will be seeing you and in the meantime never say anything to anyone for which you may be sorry!
Faithfully,
Your—
OBSERVER.

The Piney Creek Presbyterian S. S. held their summer social on the church lawn on Wednesday evening. There were about 100 present. On Thursday evening a shower was given for Miss Nancy Markle. Many useful and lovely gifts were brought by the 34 members of the church. Delicious refreshments were served Smorgasbord style.

TURN YOUR GRAIN into Big, Early Laying PULLETS

Tests at the Purina Research Farm show that birds can start laying 1 1/2 months sooner and lay up to 21 more eggs per bird by 32 weeks of age—when they get a balanced growing ration.

Purina Chowder Will Do the Job
 Aim for these extra early fall eggs when prices are highest by letting us grind your grain and balance it with Purina Chowder. It takes so little Chowder per bird to balance your grain to grow big well-developed pullets for early laying.

The Truth About Electric Appliance Prices

Are Prices Too High? Are you getting the New Features and Quality You Expected in Post-War Appliances?

If your family has been thinking of buying a new appliance, you may be confused by conflicting stories about today's prices and values.

The fact is, there is no purchase you can make at this time that brings you more real value for your money than a good electric appliance. While the cost of living is up 70 per cent over 1939, according to government statistics, the average price increase of Ranges, Refrigerators, Washing Machines, Water Heaters and Dishwashers is only a little more than half that!

For example, today you can buy a brand new 1949 Hotpoint Refrigerator for \$189.75—only \$10 more than the same kind and size cost in 1939—and this is a lot better Refrigerator and has many improved features. When you consider that the dollar today is worth just 60 per cent of its 1939 value, you must agree that this new, vastly improved Hotpoint post-war Refrigerator actually costs a lot less.

Compare this with the price increase in automobiles, houses or almost anything you buy—up from 50 to more than 100 per cent.

We see no reason for you to wait to buy a new appliance. At today's new low appliance prices you get the greatest dollar-for-dollar values we have ever been able to offer. We say this knowing full well that our future depends on satisfying you. We sell a lot of things—everything for the complete electric kitchen and home laundry—so we can't afford to lose you as a future customer when you buy any one of our appliances.

"You can Look to Hotpoint for the Finest—FIRST" is no idle statement. We mean it. So, we back it up with the greatest dollar-for-dollar value in quality appliances ever offered—right now!

Right With God

Lesson for July 24, 1949

"GET RIGHT with God" is an expression which has been sometimes used by people. It is not a coarse or cheap idea. It is the most important thing you can do. Think what it means to be wrong with God! That means to be out of harmony with his will, going "across the grain of reality" as the old Greeks used to say. To be wrong with God means to be a rebel against reality, to have the power of the universe working against you, and so to be headed for sure destruction. Wrong with God, you cannot win. Right with God, you cannot lose. To be right with God means to be in line with the purpose that runs through all things; it means in the simple language of the Bible, to live as a child of God.

Dr. Foreman

They have to be caught, harnessed and driven. But God does not want to treat human beings like that. Getting right with God is not a business of getting into harness, being beaten into walking on the right road.

Mule or Man?

THERE are two ways in which man can come into line, so to speak, with God. One is by being whipped into it, and the other is by a free act of will. The poet of the 32nd Psalm begs his readers not to be like mules or colts (Ps. 32:9). These animals can be broken and controlled by their masters. But they do not understand what is going on, and if left to themselves they would never serve.

That is not God's way. He pleads with us through his inspired poet: Be not as mules—be men!

Facing Up to Yourself

THE short good Bible word for being wrong with God is Sin. The very first step toward being right with God is to see yourself as you are. No one ever went to a doctor till he at least suspected he was sick. No one ever went to school of his own accord who thought he knew everything. And no one will come to God who thinks he is as good as he needs to be. When life goes hard with us, when everything about our life seems twisted and rotten, we make all sorts of excuses for ourselves, we lay the blame on our parents or our friends of the social and economic system in which we live (doubtless all these have a share in creating our troubles), but we hate to look at ourselves in the mirror of truth.

This comes first: recognizing our own wrongness, not just weakness but wrongness. When we reach the point where we can say with the Psalmist, "Create in me a clean heart, O God, and renew a right spirit within me," then we are on the right road.

"Hide Thy Face"

THERE are two things we never hear about in the Bible. One is that God never forgave anyone who did not repent, and the other is that he refused to forgive any one who did repent. But repentance is not merely regretting that a wrong was done; still less regretting being caught. Repentance, the kind the Bible describes (as in these Psalms for example), means a complete change of attitude, it means coming over on God's side and seeing sin the way he sees it, seeing life the way he sees it.

God's forgiveness is not of the grudging, remembering, reminding kind. But condoning and forgiving are still a world apart. Condoning means saying in effect, It is all right, it makes no difference, you can go on sinning for all I care.

Some human "forgiveness" may be like that, but not God's. His forgiveness is based on real repentance, and the aim of it is to save the sinner from his sin.

Plenteous in Mercy

THE Psalmists saw clearly what kind of God we have. He is not like the holder of a mortgage waiting till the first time some payment is deferred gives him a chance to pounce down and evict his tenant. We are not criminals against whom God is a prosecuting attorney, trying to pile up evidence against us. "If thou shouldst mark iniquities, who shall stand?" We are children, lost and wandering children, rebellious and disobedient children, but still children; and God holds open the door of mercy.

OUR DEMOCRACY — by Mat

TYPICALLY AMERICAN

IN THE DEVELOPMENT OF AMERICA MANY TYPICALLY AMERICAN QUALITIES HAVE COME TO BE ASSOCIATED WITH PARTICULAR SECTIONS OF THE COUNTRY. THE TERM "YANKEE THRIFT", FOR EXAMPLE, STEMS FROM NEW ENGLAND, YET WE RECOGNIZE THRIFT AS A TRADITIONAL VIRTUE OF AMERICANS IN GENERAL.

NO BETTER EVIDENCE OF THRIFT AS A NATIONAL CHARACTERISTIC CAN BE FOUND THAN IN THE OWNERSHIP OF LIFE INSURANCE BY FOUR OUT OF FIVE AMERICAN FAMILIES.

THEY GAIN, THROUGH THEIR THRIFT, SECURITY FOR THE FUTURE AND CONFIDENCE TO GO FORWARD TO FRESH ACHIEVEMENTS.
