KIWANIS NEWS

The Taneytown Kiwanis Club met with the Westminster and Mt. Airy Clubs on Wednesday evening on the grounds of the Westminster Forest and Stream Club. The meeting next week will be held at Trevanion as a guest of Dr. T. H. Legg. On Wednesday, August 10 the Club will hold a crab and shrimp feed at Big Pipe Creek Park. All Clubs in the 9th District and the Hanover Club have been invited. Income from dairy cows is an important factor in the well-being of thousands of rural families in Maryland. The margin of profit in the milk check determines in a large measure the things the family can have and do. While it may not be possible for the individual dairyman to influence materially the price he received for milk, it is possible for him to so feed and manage his herd that his net profit is increased. Littlestown, spent from Monday until Thursday of last week with their grandmother, Mrs. Harry Baumgardner. Evelyn Baumgardner returned home with them and spent several days. Miss Barbara Eckard and Miss Dorothy Ann Baker, are spending the week at Pine Grove Girl Scout Camp. Mr. Ira Hoffacker and his son, Ira Hoffacker and his family, all of Baltimore, spent Sunday afternoon with Mrs. Nettie S. Angell at her home.

THE WAGE-HOUR PROBLEM

The status of proposed changes in the wage-hour law is uncertain. There is a wide difference of opinion in Congress both as to the figure at which the minimum wage should be set, and also on other very important provisions of the legislation.

The "retail exemption" falls into this second category. It has existed ever since the first fair labor standards act was passed. What it does is to give retailing certain exemptions from regulations which apply to business as a whole. And this is not, as might appear on first glance, an example of favoritism to one enterprise at the expense of others. It is based on the fact that retailing is a special kind of business with special problems.

For example, stores cannot generally operate on a 40-hour week. This is especially true in the smaller towns, where farmers and others must do their shopping on week-ends and in the evening. If stores were forced to pay overtime after 40 hours, the burden would be a serious one, and it would be reflected in higher prices.

More important still, retailing offers unusual opportunity to part-time and unskilled workers. It gives young people and housewives a chance to earn a little money on the side. It gives others a chance to learn a skill and to increase their earning power. However, if the storekeeper were forced by law to pay a high minimum wage for the services of this kind of worker, he would cut out as many jobs as possible. Marginal workers simply wouldn't earn their keep. And so the opportunity to get the experience they need, by starting in at the bottom, would be denied them.

A sound wage-hour law is a difficult and complex matter. A bad law would hurt those it is designed to aid.—Industrial News Review.

K-F Vagabond Hauls 'Playloads' As Well As Payloads

DESIGNED FOR BOTH "play" and payloads, the Kaiser Vagabond is being introduced as the eighth K-F model for 1949. The 112-h.p. automobile combines station wagon utility with styling features available only in luxurious sedans of conventional design. Upholstery is of washable vinyl plastic. With rear seat cushions folded, 130 cubic feet of cargo space is accessible through the two hinged rear panels. With panels closed and seat up, the Kaiser Vagabond becomes a deluxe 6-passenger sedan.

Now... Chrysler Offers

1—Safer Driving! Through the years, the greatest advances in safety come to you first from Chrysler. Now there's a new advance in steering... Chrysler's "center control" steering! Your roads of fighting a wheel are over. There's greater road stability, easier handling, less road shock. Even the leather covered foam rubber Safety-Cushion dash, and the new "Bulls-Eye" headlight lenses are designed to give you extra protection.

2—Safer Design! Now the engineers who pioneered the first all-steel car bodies have developed a still safer body and frame design—23% more rigid. You have full control of your automatic gear shifting car. With Prestomatic Fluid Drive Transmission, the Safety Clutch enables you to take over in emergencies, select the gear you need.

3—Safer Vision! When Chrysler engineers introduced the first 4-wheel hydraulic brakes 25 years ago—they brought to the automobile industry a new idea. It is the idea of car design that begins with safety, then builds beauty, comfort, performance! You can't possibly appreciate the difference until you drive this car. Find out how much more confident you feel in this Chrysler with its mighty High Compression Spitfire engine.

FEESERSBURG

More than 200 farm animals in addition to exhibits of clothing, food, poultry and farm machinery was entered in the Carroll County Farm Bureau and 4-H County Fair in Taneytown, Wednesday. This joint affair took the place of the bureau sponsored picnic held annually at Big Pipe Creek Park. In spite of the very hot weather a large number of farm families attended. A program began at 1 P. M. before the grandstand which included speaking, the judging of the typical farm girl of the county to compete for the state farm queen. An interesting item on the program was the fashion show. It was very gratifying to see so many bright faced girls and boys interested in farming and from the exhibits, going about it in the right way. In this day and age when there are so many attractive jobs to draw the young people from the farm it is a good sign for the farm and nation to see that a good proportion of our farm children want to stay on the old homestead. They know that farming is no longer drudgery but a sure road to a good living and above everything else a place of mental security. Of course, not everyone is cut out to be a farmer, and its a good thing or our nations would soon become lopsided with too many people growing things and not enough to consume them. Here I had better stop or I will be mixed up in something that is way over my head.

Supper guests of Mr. and Mrs. Cleon Wolfe, Saturday evening were Mr. and Mrs. Roy Waltz, of Clear Ridge.

Mrs. Ida Brothers, of Westminster is spending a few days with the Maurice Grinders.

The Crum reunion was held at the home of Mr. and Mrs. George Roelke, near Union Bridge, Sunday. There were 75 members of the family present from Annapolis, Washington, Baltimore and Rockville. The dinner was served on the lawn, followed by a game of baseball and horseshoe pitching. If a family reunion serves no other purpose, it brings relatives together who otherwise would never meet only at weddings and funerals.

Virginia Lee and Lena Jane youngest daughters of Mr. and Mrs. Lee Fink were baptized by the Rev. Andrew Theisz, Sunday morning in the Mt. Union Church. The ceremony was witnessed by relatives and friends of the family and members of the congregation.

You don't need to be always told when you are naughty or even good. You can know by the look on your mother's face.

Among the stories about the late President Roosevelt as told by Miss Grace Tully who was his confidential secretary for 17 years is the one about his superstitions, particularly about the number thirteen and the practice of lighting three cigarettes on a single match. Many times F. D. R. went to great pains to schedule a trip departure on the 12th of a month or the 14th, in order to avoid starting on the unlucky day. Occasionally this meant pulling the train out at 11:50 P. M. on the 12th or 12:10 A. M. on the 14th. Even in death he escaped the day of ill omen—the end coming on the afternoon of Thursday, April 12th, less than 12 hours before that bugaboo of all days, a Friday the 13th.

No Red infest our rural nook,
In rustic quiet wrapped,
Yet every time I lift the hook
My telephone is tapped,
And hearing the receiver clicks
The grim suspicions mine
That certain comrades in the sticks

On Sunday Mrs. Lee Fink entertained a group of relatives and friends to a dinner in honor of her husband who was celebrating a birthday.

Ground is being broken for a new home at Mt. Union. This use to be a rural community but its fast becoming a home development project. Not that anyone objects for it's nice to see that one's community attracts others.

With so many drownings occurring during vacation months it seems to me that it would not only be sensible but down right necessary to teach a child to swim before he goes to school. Every community should have a swimming pool and furnish qualified persons to teach the young to swim and take care of himself in the water. Every parent knows that a child and water are attracted to each other like ducks and water. While they are at the age where they do not fear water is the time to teach them to swim.

How many of us would be mute if we were forbidden to speak well of ourselves and evil of others?

FRIZELLBURG

The Frizellburg community Home-makers Club, held their first family picnic, on Wednesday evening, July 20, at Big Pipe Creek Park, with Mrs. Andrew Theisz in charge. Family suppers were enjoyed. Mrs. Denton Wantz led in group singing. After all appetites were filled games and contests were played conducted by Mrs. Walter Myers, Jr., for adults and Mrs. Allen Morelock and Miss Jean Wantz were leaders for the children's games. Mrs. Robert Warner called the roll, each answered by telling how many friends accompanied them. There were 69 present. There will be no meeting in August

but the next meeting will be held Sept. 2, at the home of Mrs. Norman Myers, beginning at 2 P. M. Miss Evelyn Stott will demonstrate—streamlined meals.

The children had all been photographed and the teacher was trying to persuade them each to buy a copy of the group picture. "Just think how nice it will be to look at it when you are all grown up and say, 'There's Rose; she's married', or 'that's Billy; he's a sailor'." A small voice at the back of the room piped up, "and there's teacher, she's dead."

AROUND THE TOWN

(Continued from First Page)
County is worth the treat alone. There is another new addition, that of a large pavilion where eats, too, will be served. It surely has added to the entire community of Frizellburg. Good luck and best wishes, Willow Farms! Thinking of Frizellburg, met

the nicest kind of a "Grocery Lady" on the bus from that little town. A sweet face and pleasingly plump, but then, they say all chubby people are nice anyway.

A little girl returning home with her mother and sitting quietly enjoying the time of the evening as the car rolled along was admiring the beautifully colored sky, of deep

orange, purple and gold when suddenly she said in reverence and in a stage whisper "God is wonderful to splash so many colors in the sky!"
So long, folks. Will be seeing you. Have a grand week end.

Do You Get Your Money's Worth in Today's Home Appliances?

If You Need a New Appliance For Your Kitchen or Home Laundry, Be Sure to Read the Truth About Present-day Quality and Prices!

With so many conflicting stories making the rounds about all lines of merchandise and their prices, you may be wondering about the true value of today's appliances.

The fact is, you get more real value for your money in a good electric appliance today than in almost any other purchase you can make.

AS an example, we have a new 1949 Hotpoint 6-cubic-foot Refrigerator that you can buy for \$189.75—only \$10 more than the same size and kind cost in 1939—yet it's a great deal better. With today's dollar worth just 60 cents in terms of the 1939 dollar, we can honestly say that the actual cost of this new, post-war refrigerator is really a lot less.

By comparison, look at the price increase in automobiles, houses, or almost anything else you buy—up from 50 to more than 100 per cent.

If you are thinking of buying a new appliance, we see no reason for you to wait. We honestly believe that at today's low prices you will get the greatest dollar-for-dollar values in appliance history.

Quality is at an all-time high. From new post-war factories, Hotpoint brings you new, modern appliances that are as fine as technical facilities and human skill can produce, and we sincerely believe that you'll never buy a poor appliance with the Hotpoint name on it.

At your next opportunity, look over the new Hotpoint ranges, refrigerators, automatic washers, dishwashers and other appliances. We think you'll agree that you can "Look to Hotpoint for the Finest—First"—and be sure of the most for your money—right now!

Is Bigness Bad?
Many critics of our American system use big business as a special target for their attacks. According to their charges, big business throttles competition, creates monopolies, maltreats labor, and kills small enterprises. Their attitude toward big business represents more than a natural dislike for bigness in business. It also shows their shrewdness in using the propaganda weapon to destroy our system.

If they should succeed in getting public opinion on their side, it soon would be reflected in legislation which could well destroy this segment of our economy, and eventually turn our entire economy into state socialism.

"Grown Up" Business
Big business is nothing but small business grown up. They grew up because the public allowed them to do so. No business can become big business without public approval. Public approval cannot be bought. It is earned through the hard-work process of competing against scores of other companies and giving John Q. Public a better washing machine, dress, or automobile for his money. As demand for a product grows, facilities must be increased to meet that demand. A business grows as the public, with its buying, dictates.

Good Dividends
As business grows, it becomes more efficient and makes possible real savings to the public. Our \$1,500 mass produced automobile would cost \$50,000 if built with the tools of 1900. Mass purchasing, production and distribution result in economies impossible to small business. Larger investment provides also the necessary extensive research demanded by keen competition.

This huge investment pays dividends to workers, too. Labor-saving tools multiply the productive capacity of the worker and ease the load from his back. This greater production allows him higher pay and shorter hours and, puts him in a class far above workmen of any other nation.

Bad for Whom?
Small business has fared well in this progress story. You see, big business has created thousands of enterprises that owe their existence to its production. Without the huge output provided by the automotive industry, the average city would be without its many accessory stores, radiator shops, repair shops, filling stations, parking lots, and garages. Far from being exterminated, small business continues to develop.

Big business has made a striking contribution to our nation's prosperity and progress. As long as it is operated by human beings, there will be occasions for justifiable criticism. However, minor criticisms must not be allowed to destroy the true importance of big business to a growing nation. It is essential to a continued dynamic economy. The public, having created big business, will further prosper by its continuance.

Rations for Brood Sow
Good care and management of the brood sow and her litter may mean the difference between a small check or a large one at market time. One of the important factors is proper feeding, including access to good pasture. A good practice is to give the sow little or no feed the day she farrows. Provide fresh drinking water, and her first feed should be a cooling feed such as ground oats or bran, says the Louisiana State university agricultural extension division. A good ration for brood sows consists of two-thirds corn and one-third ground oats by weight. To this should be added one-third pound of tankage or a half gallon to three quarts of skim milk per day.

SIMPSON REUNION

The third annual reunion of the descendants of James and Susan Simpson was held at Big Pipe Creek Park, near Taneytown, Md., on Sunday, July 17, 1949.

A picnic lunch was enjoyed by all at noon at which time prizes were awarded to the oldest person present Mrs. Mettie Campbell; the youngest to Lana Rampley, Mr. and Mrs. Milton Seidman for coming the greatest distance, Mr. and Mrs. Mehrl Simpson, the newly wed couple, and a door prize to Mr. Monroe Simpson.

A short business meeting was held at which it was voted to keep the present officers for another year. President, Mrs. Russell Marteny; Vice-President, Mrs. Russell Snyder; Secretary-Treasurer, Alfred Simpson. Was also decided to hold the 1950 reunion at the same place on the third Sunday in July, and the following were appointed as a committee to arrange the program and entertainment for next year: Mr. and Mrs. Irvin Ihler, Mr. and Mrs. David Ohler, Mr. and Mrs. Roy Haifley, Mr. and Mrs. David Bowers, Mr. and Mrs. Horace Simpson, Mr. and Mrs. Malvin Simpson.

Those present were: Mr. and Mrs. William Simpson, Mr. and Mrs. Charles Simpson, Mrs. Mettie Campbell, Mr. and Mrs. Horace Simpson, Mr. and Mrs. David Ohler, Mr. and Mrs. Charles Ohler, Mr. and Mrs. Irvin Ohler, Mr. and Mrs. Leslie Keeney, Mr. and Mrs. Roy Haifley, Mr. and Mrs. Russell Snyder, Mr. and Mrs. Elwood Simpson, Mr. and Mrs. Albert Simpson, Mr. and Mrs. Alfred Simpson, Mr. and Mrs. Russell Marteny, Mr. and Mrs. David Bowers, Mr. and Mrs. Howard Welty, Mr. and Mrs. Mehrl Simpson, Mr. and Mrs. Guy Simpson, Mr. and Mrs. Dewey Simpson, Mr. and Mrs. Harold Simpson, Mr. and Mrs. Malvin Simpson, Mr. and Mrs. Milton Seidman, Mrs. Marie Wentz, Monroe Simpson, Mr. and Mrs. William Rampley, Mr. and Mrs. Arthur Dillon, William O'Connor, Charles Ohler, Betty Ohler, Catherine Ohler, Clarke Keeney, Doris Ohler, Theodore Simpson, Judy Haifley, Wayne Haifley, Kenneth Snyder, Jeanette Simpson, Dorothy Ann Hartsock, Olin Porter Simpson, Victor Welty, Mary Virginia Simpson, Barbara Jane Simpson, Audrey Bowers, Bruce Marteny, Wayne Marteny, Billy Rampley, Richard Rampley, Lana Rampley, Burl Preston, Jr.

Every farmer owes it to himself to provide adequate first aid materials and facilities to attend the frequent minor injuries incurred in farm work. These materials should be available both in the farm home and at some convenient points about the farmstead.

MRS. WILLIAM A. KUMP
Mrs. Mary Elizabeth Kump, 78, widow of William A. Kump, died on Thursday morning at 8:40 o'clock at the home of her daughter, Mrs. Harvey Wantz, Harney. She was the daughter of the late Emanuel and Rebecca Crouse and had lived with her daughter for the past 18 years since the death of her husband. She was a member of the Harney Lutheran Church and Sunday School. She is survived by the daughter and the following children: Charles W. Kump, Littlestown; Emanuel J. Kump, Emmitsburg; Mrs. Harry Cline, Greenstone, Pa.; and Walter J. and Howard G. Kump, both of Harney; also three grandchildren, two great-grandchildren and two brothers, Howard and Samuel Crouse both of Littlestown.

Funeral services will be held from the Wantz home, Saturday morning at 10 o'clock, with further services at Harney Lutheran Church with the Rev. Charles E. Held, officiating. Interment will be in Mt. View cemetery, Emmitsburg. Friends may call at the Wantz home from 7 to 9 P. M. this (Friday) evening. C. O. Fuss & Son are the funeral directors.

In Precious Memory of my Dear Sister, **MRS. CHARLES WELK**, who departed this life 4 years ago July 30.

Loved in life, in death remembered
The clock of life is wound but once
And no one has the power,
To tell just when those hands will stop
At a late or early hour,
It was late one Monday night
I shall never forget that day
When an Angel came and whispered
I must take your dear Sister away.
Your sad and lonely sister,
MRS. CHARLES MARKER.

IN MEMORIAM
HARTSOCK—In Loving Memory of our dear son, C. FRANKLIN, better known as (Buddy), who was drowned, 33 years ago, August 1st, 1916.

Ten years ago you were drowned,
Tis true, but oh, how sad,
Others may forget you soon,
But never will mother and dad.
It seems so long since you went away,
And we have missed you so,
But son, we hope some day to clasp your
hand,
Over on that golden shore.
Sadly missed by Mother and Father,
CARROLL and MARIE HARTSOCK
Brother, C. KENNETH HARTSOCK,
Sister, ANNA MAE OTTO.

Fly Immunity to DDT Is Debatable Question

Some Insects Develop Strain of Resistance

Do flies become immune or resistant to DDT after it has been used for a few years?

This question arises from the fact that a few fly-control failures on farms where DDT was effective in other years have been hard to account for. The explanation was that the flies probably had become resistant to the chemical.

Uncle Sam's entomologists admit that insects can develop resistance to the insecticides used against them, as in the case of the apple codling moth against which lead arsenate lost its effectiveness. Moreover, Uncle Sam's bug men say they have, in the laboratory, been able to develop a DDT-resistant strain of flies. It is not likely that a DDT-resistant strain would develop naturally in the short time since DDT was first used.

It is more reasonable to believe that the occasional failure on farms where DDT already has been used with good results is due to carelessness or inferior product.

One thing in particular that should accompany the use of DDT is the destruction or removal of fly breeding places, such as manure piles, weed piles, old stack bottoms and wet spots in barnyards. One or more such spots may be able to turn out flies faster than DDT can kill them, for DDT is not noted for fast action. A fly may survive for hours after alighting on a surface coated with DDT.

Herds and Flocks

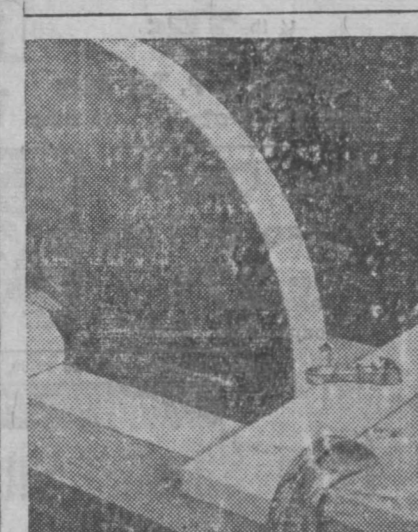

New insecticide, pyrethone, has proved its effectiveness in control of flies on livestock. Better than some of the old-time fly killing insecticides, the new material is being used now in some livestock fly sprays.

Use of protein supplements in rations for shots always has been profitable. Some farmers have failed to use these supplements, though, because of their cost. Now that grain is so high, the cost of protein supplements is relatively low. So, if the use of supplements is more important one time than another, now is that time.

It looks now like the farmer who has a flock of good pullets in the laying house next fall will get good prices for eggs. The better care you take of pullets now, the better they will be able to stand up under the strain of heavy laying next fall.

Benzene hexachloride, recommended by swine specialists at agricultural colleges for control of hog lice and mange, now is being incorporated in hog oils that can be used in dipping vats, hog wallows, hog oilers or on rubbing posts.

Reviving Grindstone

This farm grindstone, although badly battered about its entire diameter and worn quite flat in one place, was easily trued-up by dressing it with the sharp-pointed tool shown attached to the small board. The dark "cutting tip" of the tool is made of carbide cemented carbide, the hardest metal made by man.

Tests Show Tung Meal Poisonous to Chickens

Tung meal proved unsatisfactory as a source of protein in chick rations in tests conducted at the Florida agricultural experiment station. The tung meal proved poisonous, whether raw, heated or heated and sifted. It caused heavy mortality at 10 and 15 per cent levels. At 5 per cent and higher levels the tung meal interfered with feed utilization and growth.

A STRANGE THING ABOUT INCOME TAX

A strange thing about income tax is that some business enterprises making BIG profits do not have to pay it.

Salaried people have their income tax taken right out of their paychecks in advance. Business men and farmers and doctors and everybody else have to pay income tax before they do anything else with their money.

But certain favored commercial corporations—such as co-operatives, government businesses, so-called "trusts" and others are permitted to escape all or a major portion on the profits they make from commercial operations. Even some colleges and universities own and operate factories, stores, office buildings and

what-not for profit on which profits they pay little or no federal income tax. This has been going on for years. Too long, in fact!

It is estimated by tax experts that **ONE BILLION DOLLARS** in federal income taxes are **LOST** to the federal treasury as a result of exemptions and loopholes permitting these commercial enterprises to avoid all or most of their income tax liability for the support of our government.

That same billion dollars is added every year onto the amount that the rest of us must pay to make up this difference. **YOUR** income taxes are higher because others do not have to pay.

Co-ops, alone, do an estimated 17 billion dollars worth of commercial business every year on which they are able to avoid the greater part of federal income taxes on a billion in profits. Other tax-exempt businesses are comparable.

The Congress is out looking for four billions more in federal revenue. Plans are made to load that extra burden onto present income taxpayers. Every taxpayer should **DEMAND** that the Congress **TAX THE UNTAXED FIRST** before increasing income taxes on the rest of us. Write—telephone—wire or see your Congressman. Tell him to **TAX THE UNTAXED FIRST.**

ALL BUSINESS SHOULD PAY INCOME TAXES ON THE SAME BASIS

Your Congressman wants to know how you feel about increased income taxes at this time. He will reply to your request that he vote to **TAX THE UNTAXED FIRST.** Write him **NOW.**

God Can Be Trusted

Lesson for July 31, 1949

EVEN if you do nothing else with this lesson, it will be a good thing to learn by heart some of the Psalms of Trust which have been selected for your study this week. They are far too rich to be treated in one column.

Who Can Trust in God?

(PSALM 34:16-22.) Not every one has a right to trust in God. Those who do not believe in him, do not love him, work against him, try to break down and corrupt those who do believe in him — these need expect nothing at his hand. But there are three classes of persons who are encouraged to put their trust in God. One is the "contrite," the repentant, those who sincerely wish to be cut free from their sins—these can surely trust in God for forgiveness. One who cannot trust God for forgiveness has no right to trust him for anything else. Then the "righteous," as the Psalmist calls them, have a right to trust in God.

Dr. Foreman

If that word means only the perfectly and altogether good people, it would leave all of us out. But in the light of the Bible as a whole, the righteous are those whose dominant desire is to love and serve God.

Their service is imperfect, their love is far from perfect, and no man is without sin. But if you can say with Peter, "Lord, thou knowest that I love thee," then you have a right to trust in God. Also the broken-hearted can safely trust in him. Whoever else may break your heart, God will not. He is the great Mender of hearts. For the little sorrows there may be lesser comforters; but the real heart-breaks only God can cure.

Why Trust God?

PSALM 37 gives one answer: The opposite of trust is worry, and worry never did any good at all. Worry eats into the mind, casts no light, gives no strength, solves no problems, worry makes any trouble worse. Then the writer of Psalm 30 gives another reason for trust: he had tried it. If trust in God were simply a doctrine of theology or a theory of preachers, not many people would take it seriously.

Trust is really passed on by a kind of contagion from heart to heart. If there are not more people who know what trust means, it is because those who have known have kept it too much to themselves.

It would be a wonderful stimulus to most churches to have a little "cell" of people who would really agree to trust God every day.

When to Trust in God

One of Dicken's famous characters used to make a great point of being cheerful under the most un-cheerful circumstances. Anybody can be jolly when everything is lovely, he said. There's no credit in not worrying when there's nothing to worry about. Although the writers of the Bible, one and all, trusted in God, not one had an easy life. Read Psalm 46, for example; it gives a picture of a world much like ours of today, shaken to its foundations, torn by wars, a desolate, discouraged world. If it made sense to trust only under bright skies, religion would have perished long ago.

For What Shall We Trust God?

NO ONE PSALM puts the whole truth in one nutshell. If you read Psalm 91, for example, by itself, it would seem to prove that if you trust in God you will never die a violent death, nor an early one; but too many saints (and indeed our Lord himself) had died early and violent deaths, for us to take Psalm 91 in that way. Trusting in God does not mean he will give us long life. It means he will give us strength to match our days.

It does mean he will give us all we need. It does not mean we shall be shielded from troubles. It does mean he will save us from troubles greater than we can bear. It does not mean that in this life we shall be wholly free from burdens or from pain; It does mean we shall have strength in our souls (Ps. 138:3).

Which is the greater thing—to be a weakening wearied by a straw's weight, or to be one of God's athletes, able to bear the worst the world can pile on?

OUR DEMOCRACY — by Mat

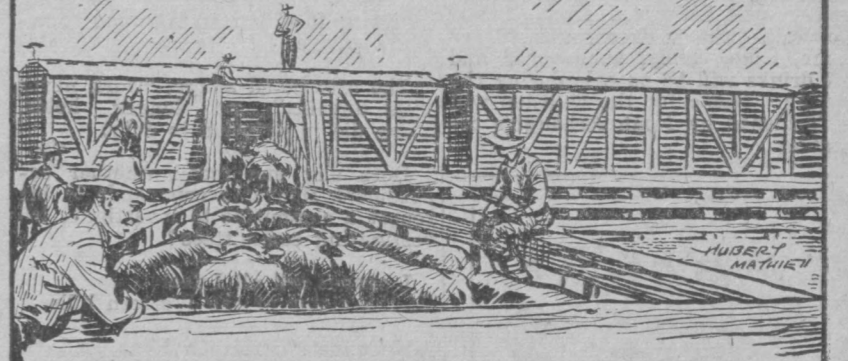

THE DROVER

IN THE EARLY DAYS OF OUR DEMOCRACY, CATTLE WERE DRIVEN IN SMALL DROVES TO THE NEAREST MARKETS. ON THE HARD JOURNEY, THE DROVER RISKED LOSSES DUE TO INJURIES AND SICKNESS — TO ATTACKS BY WILD ANIMALS AND BANDS OF THIEVES.

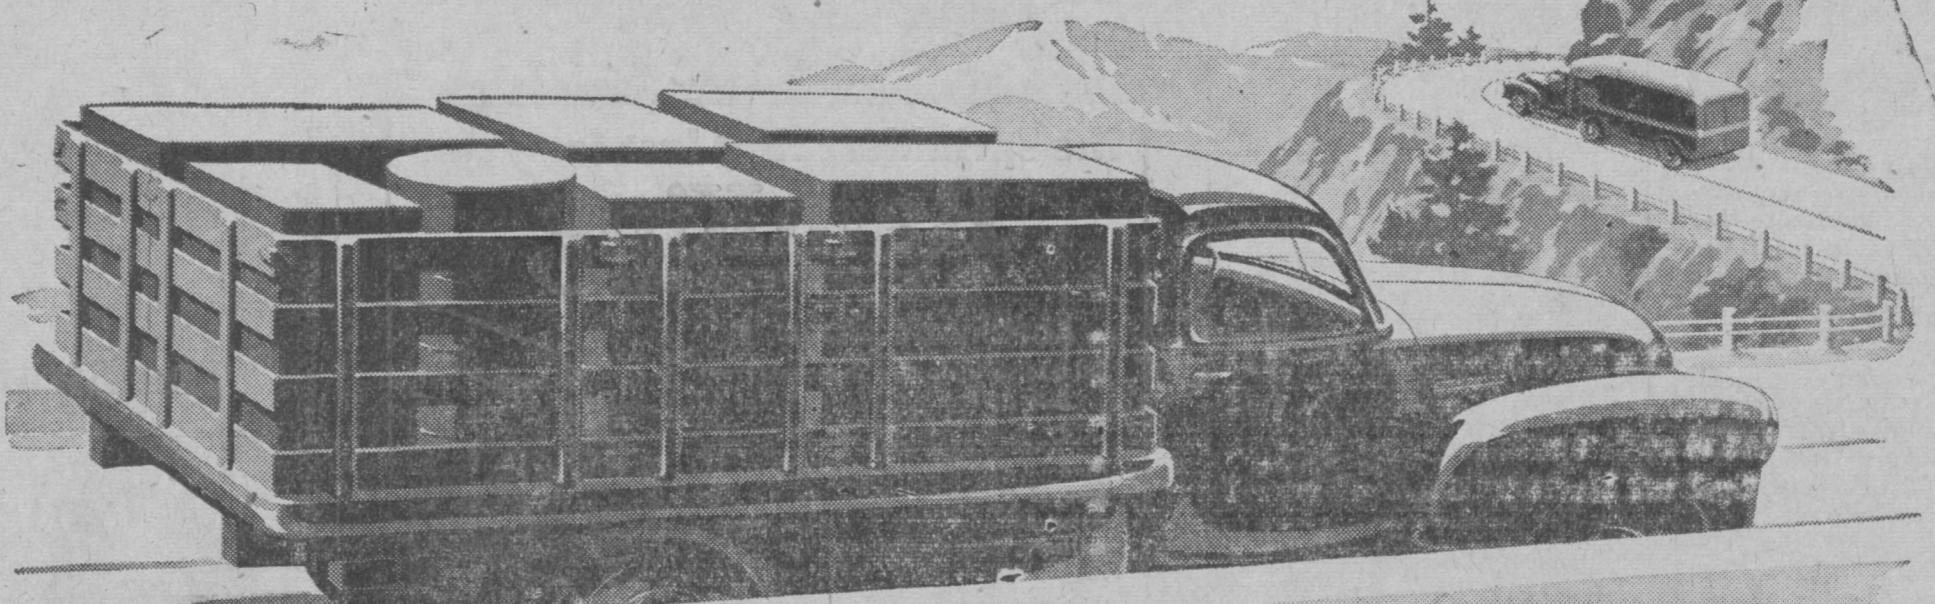

LATER, AS THE WEST OPENED UP, CATTLE WERE DRIVEN IN GREAT HERDS FOR LONG DISTANCES ACROSS BARREN COUNTRY TO RAIL HEADS... THE LOSSES, BOTH IN SIZE OF HERDS AND WEIGHT OF CATTLE, WERE ENORMOUS.

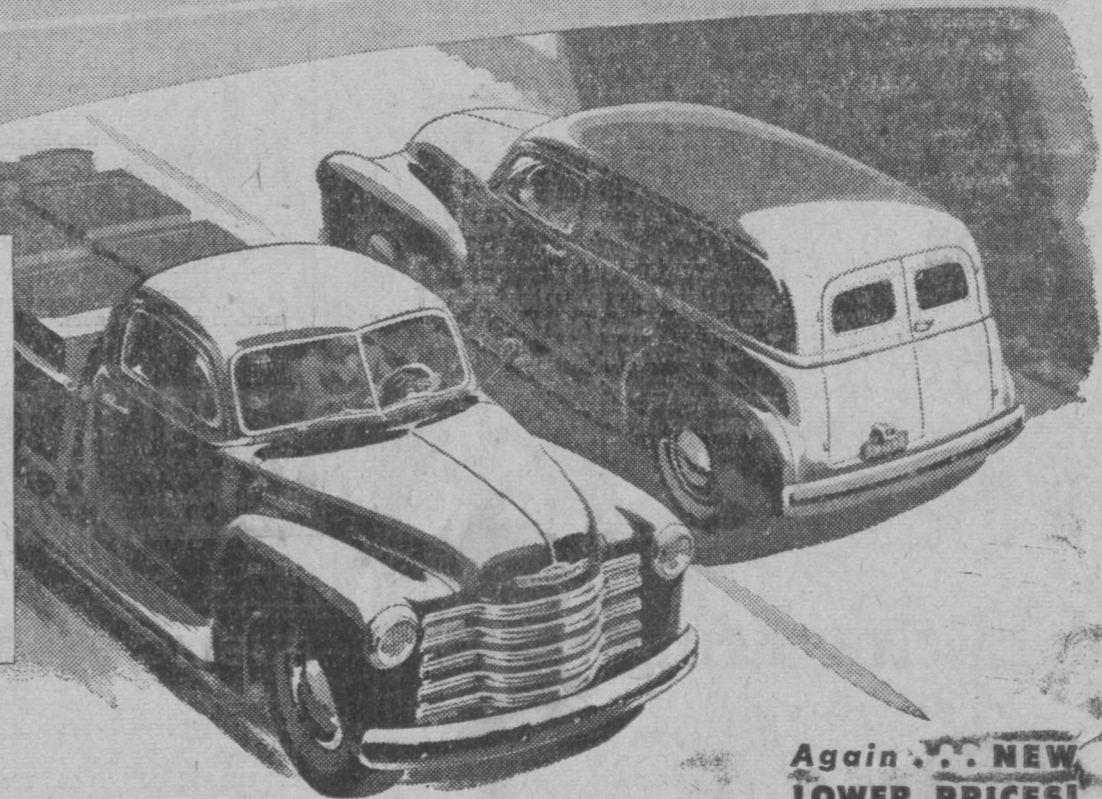

TODAY, OUR COUNTRY'S MODERN SYSTEMS OF TRANSPORTATION MAKE IT POSSIBLE TO SHIP CATTLE, BY TRUCK AND RAIL, WITH SUCH SPEED AND EFFICIENCY, THAT THEY REACH MARKET IN PRIME CONDITION WITH VIRTUALLY NO RISK — AND COMPARATIVELY LITTLE LOSS.

**OVERAGE RESERVE OFFICERS
MAY APPLY FOR NEW AP-
POINTMENTS**

Reserve Corps officers who have been discharged from the inactive reserve for being overage in grade may apply for a new appointment, according to a recent change in Department of the Army Regulations. The new regulation sets the maximum age for all officers, regardless of rank, in the inactive reserve at 60 years. Prior to the new regulation there was a maximum age for each rank. Renewal of appointments in the inactive reserve will be based upon the qualifications of the individual and the requirements of the service.
