LARGE BARN BURNED

Fire of undetermined origin destroyed the large barn and its contents on the farm owned by Ernest Hyser, of Taneytown, and tenanted by his brother, Alvie Hyser and wife. The farm is located at Greenville, about 3 miles north of Taney-

The blaze was first noticed shortly after 2 P. M., on Thursday and Mr. Jas. Lord, Jr., a neighbor was the first man to appear on the scene, Mr. Hyser being away at work in Littles-town. The blaze, when first discovered, had gained so much headway that it was impossible to save two horses, one young heifer, sixty bushels seed wheat, about thirty tons of hay, one binder, corn planter and other small farm machinery that was destroyed by the flames.

The Taneytown Fire Company was summoned but the blaze had pro- Margaret Shreeve, gressed too far for the firemen to Tamsey Stonesifer. save the building but a building nearby was saved although considerably charred.

LIONS CLUB NEWS

Another regular session of the Taneytown Lions Club meeting was held last Tuesday evening at the Taney Inn and got under way promptly at 6:29 when 1st Vice-President Robert Feeser made con-tact, with the gong and gavel. The presiding officer was President Rob-ert Thomas. Invocation was offered by Rev. Edmund P. Welker. Group singing was in charge of Lion Single-ton Remsburg, Lion Harry Reindolton Remsburg, Lion Harry Reindol-lar as pianist and Tail Twister, Jas. Fiscus exercised his full liberty by sneaking through the crowd trying to spy any who may not be singing on which he would demand a fine of ten cents. The Tail Twister's joy seems to be centered mostly in col-lecting as many dimes as possible.

Middleburg Harney 15 Wakefield 15 Emmitsburg 0 18 .000 Junior Unger pitched his second straight shutout victory Sunday when Taneytown whipped Blue Ridge Summit 8-0 to keep the home team in the playoffs and move into a three-way tie for second place in the final stand-

ings. Because of the very close battle for second, third and fourth spots, a win meant the playoffs to about 5 win meant the playoffs to about 5 teams over the past week-end, Lit-tlestown kept in by defeating Han-over 4-3 in 10 innings to give Han-over their second defeat of the year Saturday night. Sunday McSherrys-town kept in place when they defeat-ed Littlestown 8-0. In other games Hanover beat Thurmont 6-3; Middle-burg spanked Emmitsburg 15-2, and Wakefield nosed out Harney 13-11. Other important news that effected Other important news that effected the standings was made at a special meeting of the league in Middleburg Sunday morning.

At that meeting, the case of Bob Weaver, Littlestown pitcher, was given rehearing. At a recent meeting Ralph Coe, president of the league, had held that Weaver was not eligible to pitch since it was claimed that is home was in Hagerstown. Then at Sunday's meeting Littlestown pre-sented affidavits proving that Weav-er resided in Littlestown while playing with the team and the 5 games declared forfeited were returned.

A drawing was conducted to determine the standing without playing any games to break the ties for sec-ond place. The results of this draw-ing matches Taneytown with Mc-Sherrystown and Hanover with Lit-tlestown in the best-in-three semifinal Shaughnessy playoffs.

Taneytown will play McSherrystown at McSherrystown on Sunday afternoon. This series proves to be a very close battle since it is noted that in the past three years these two teams have played a 16 inning, a 12 inning, and a 10 inning game. This year Taneytown won both regular season contests 3-1 in 10 innings and 3-2 on the home field. In the other semi-final game, Littlestown will play Hanover on the Hanover Moose diamond. Hanover was only beaten twice in the regular season, once by Taneytown and once by Lit-

Wondering how many of my readers have ever visited "The Con-vict Ship" called 'Success'. It is the oldest ship afloat and was launched in Moulmein, British East India in 1790. (Count the few years previous to that of our freedom) It has made me think about it very often. I vis-ited this ship many years ago and up to that time there had been 21 million people who did likewise as it .444 was on tour to the principal ports of the world as an educational object lesson. The figures of wax in each horrible cell as the ship was called "Ocean Hell" held some of its most notorious prisoners and was the time of the darkest days of England's was on tour to the principal ports of overseas transportation prison system. As I was a growing girl at the time, it did not have the effect of anything educational for me but deep in my heart made me (for the time being) hold a hatred for England in her treatment of the Irish, having so many prisoners that were tortured to death who were Irish. There were English men who manned the ship yet it had an American captain with whom I shook hands by the name of Captain D. H. Smith. The ship as was shown then was in its original was shown then was in its original state, all the airless dungeons and condemned cells, the whipping posts (where men were beaten for the slightest offence) the manacles, the branding irons, the punishment balls which weighed up to 70 pounds, the leaden-tipped cat-o-ninetails, the cof-fin hath which were call were all the coffin bath which was of salt water and other liendish inventions of man's brutality to his fellow man. This is the oldest ship in the world and the only Convict Ship afloat out of that dreadful Fleet of Ocean Hells which sailed the Seven Seas in 1790 A D. She was unchanged up to that time,

Mr. and Mrs. Theodore Jester attended the wedding on Tuesday of Miss Nancy Anderson, formerly of Tarpan Springs, Florida, and Mr. William Blakey, of Wilmington, Delaware. The ceremony was held in St. Anne's R. Catholic Church, in Wilmington, and a reception was held at the Du Paul Country Club immediately following the wedding.

The annual Sunday School picnic of Trinity Evangelical Lutheran Church will be held Thursday evening, September 1st, at 6 P. M., at Big Pipe Creek Park. It is hoped that every-one, young and old, will come out and enjoy an evening together in the great out-of-doors. Those who cannot come that early to see the game of ball, come when you can, for it is an evening outing. Some may want to bring their supper and that would be nice. After the day's labor an evening to-gether would be helpful to all. Those who haven't transportation ask someone who has a car to bring you. That person would be glad to share his or her car.

lecting as many dimes as possible. Sometimes we all believe he must possess quite a large dime bank.

This meeting was in charge of the clubs Health and Welfare Committee and was splendidly presented by its Chairman, Lion Kermit Reid who was instrumental in securing for this meeting our guest speaker whom he introduced as Miss Catherine Gaule. of Baltimore who represents the National Foundation for Infantile Paralysis. Miss Gaul's address took the attention of everyone present and was presented in a very understanding and able manner. Her main topic of discussion was centered on the dread disease of Poliomyelitis or polio or better known as infantile paralysis. During the year 1948 this Foundation spent a total of \$17,000,-000 for research work alone in addition to thousands of dollars for hospitalization and after-care of those stricken with polio. During the past eight years the Foundation turned over to Johns Hopkins Hospital, for research work in Polio, a total of one half million dollars. Miss Gaule explained that the average family is unable financially to fully care for a case of polio. It is not only the long hospitalization term required in most Albert Paris, 3300 Bayonne Ave., Baltimore Md. Passing from rear at roadway marking. Forfeited Supervision and treatments usually necessary afterwards in getting the afflicted person adjusted to normal or near normal, life as possible. When it is learned that the family can no longer continue the required treatmen or hospitalization due to financial circumstances, the National Foundation of Infantile Paralysis steps in and continues on with the necessary expenses or, if circum-stances requires, the Foundation will carry all the expense from the beginning. In some cases this involves the expenditure of thousands of dollars for a single case. This can be readily understood when you take into consideration the fact that hospi tal treatment is \$14.00 per day and certain cases requiring treatment as long as two to three years and more. The National Foundation is able to carry on this worthy and necessary work as a result of the funds received through the March of Dimes and special campaigns and personal do-nations. Miss Gaule ended her address in the form of a question and answer program on this subject. Sec'y-Treas. Chester Cartzendafner

made some remarks concerning the status of the treasury and President Thomas reminded the club that our next meeting, September 13, is our 2nd annual Charter night celebration and all members are urged to be present.

FRIDAY. AUGUST 26, 1949

CORN GROWING TIME

They used to tell me when I was a small boy that hot days and cool nights meant a good crop of corn at harvest time. I recall one occasion when I was passing down the road by the corn field that I heard a loud croaking noise that seemed to come from the middle of the corn stalk. I protested that I wasn't afraid to take these walks at night, but I realize that I quivered all over and was glad to get into the lighted room H. with other people.

PROGRESS

Forty years ago butchers advertised the price of beef at 15 cents a pound. This was in the days when you could get a two-bit haircut, or a fifteen cent shave.

But in spite of the four-bit dollar of today the consumer is getting more for his money when he buys meat than he did in 1910. Most meat now is rigidly inspected, skillfully prepared and of good quality.

In the "good old days" the butcher processed most of the meat he retailed to consumers and there was little check on its quality or condition. Now rigid standards are adhered to by packers themselves and on top of that inspectors are around to check.

The meat packing industry has filled an important gap in the preparation and distribution of meat. It not only provides a ready market for the farmer, but the industry-composed of approximately 4,000 companies-

Emotional Upsets May Cause Mishaps Suffered by Women

LONDON.-If mama continually trips over things and falls flat on her face, it may not be that she has two left feet. She may just need a bit of sympathy from the old man,

So says a British scientific survey. The survey was made by the London school of hygiene and tropical medicine for the British government's ministry of works, which is interested in the home accident problem.

Take jealousy, for instance. A jealous woman is a walking booby trap. Psychologists taking part in the survey found. For example: A woman tripped on an electric cord, spilling a teakettle and scalding herself. Psychologists found she was jealous of her husband, that the tea table conversation had been about him having his picture taken with a bevy of beauties. "What an effective way of

changing the subject and attractting attention and sympathy," said the psychologists' report, published in the Lancet, a British medical journal.

Extensive research is needed to show how many home accidents are caused by psychological factors, the report said. Preliminary findings definitely show that women who get little sympathy or understanding from their husbands are more prone to accidents than women who are content.

Valentino Revival Leaves Young Girls Cold as Cod

LONDON .- Just as a sort of experiment, the Hampstead theater put on a revival of Rudolph Valentino in "Son of the Sheik,"

Long lines of women waited to see it-those who swooned over the heart throb of the early 20's, and their daughters. The former reasserted their undying devotion. But the youngsters had other ideas. Young Norma Barnes, writing in the Daily Mirror, expressed it for them: "Maybe I don't swoon easybut he left me colder than a cod-fish on a slab."

Landlord Spends Cash To Keep Tenants Happy

GREAT NECK, N. Y .- A landlord, Paul P. Zinner, thinks the reason tenants dislike landlords is psychological-so he put up \$10,000 as a starter to make his 277 tenants happy.

The 34-year-old Zinner said he doesn't see why people can't get all the advantages of a private home in an apartment house. He can't see, for instance, why children have to be "caged birds" in a multi-family dwelling. He doesn't want that for the 90 kids on his property.

So, Zinner planned to install a hobby room, a gymnasium and recreation rooms in his new sixbuilding development.

Zinner said he'll install television

. Friendly headquarters for your children's "growing" needs !

TODAY it's bandages and antiseptics. Yesterday it was medicine ordered by your doctor for childhood ills. And before that-baby oil, bottles and nipples, special infant foods . . .

Just imagine what child-raising would be like if you didn't have your drug store to turn to!

When you reflect on the varied nature of the prescriptions your pharmacist is equipped to fill-and all the times you have depended on his services-you realize how essential he is to your family's health.

And when you consider the timesaving convenience the drug store offers . no wonder today's busy parents rely on it for so many of their "growing" needs!

They like the pleasant, professional atmosphere of the store. And they like the pharmacist himself-a friendly, warm-hearted man of science, whose spirit of service is an American tradition.

Secondhand Watch Buy **Usually Bad Business**

MADISON, WIS .- You're likely to wind up with a bad time if you buy a secondhand watch in a barroom, the senate committee on state and local government has learned.

Confidence men put expensive dials on cheap watches, tell a hard luck story at some bar, and stick their customers with a sorry bargain, said Ralph H. Young, La Crosse, president of the Wisconsin board of examiners in watchmak-

Young urged passage of a bill to increase the examination fee for a watchmaker certificate from \$15 to \$25 and a like increase in the cost of certificates to out of state watchmake. The bill also would require sellers of used watches with no established business place (bars included) to file an invoice with the clerk of the county in which the sale was made. It also would increase the pay of members of the examining board from \$10 to \$15 a day

Clarence L. Greiber; state director of vocational and adult education, said the governor's advisory committee had carefully selected the watchmakers' schools in Wisconsin for GI training, but said he knew of one state where 5,000 watchmakers were in training schools.

Bubble Gum From America Latest Istanbul Import

ISTANBUL. — "Texas Cowboy! Jumbo! Mickey!" they shout at you on Istanbul's main street these days. They are trying merely to sell bubble gum, the latest cultural import from the United States.

The gum actually isn't imported, only the idea and the names. But if the name isn't American and explosive, it isn't Turkish bubble gum. The enterprising Turkish probably never dreamed he would see such hubbling.

I have never met anyone other than a scientist or painter who could con-scientiously say that he had spent lfive consecutive minutes of his life looking at the sky above him. Yet, from dawn to dusk, pale tints of sil-ver, blue and ashes of roses lie all around the horizon. Hour after hour the sky overhead is passing from dark blue to pale yellow, from pale yellow to amethyst, from amethyst to opal. But all this is waste splendor as far as the average person is concerned. Someone tells him of the Alpine glow upon the snow cap of the Jungfraw and he goes there to watch perhaps days at a time, for its appearance when he might see the same pink glow upon his own skies at nome almost any summer evening .---John C. MARRIED

FREESE - HITCHCOICK

St. Joseph's Church, Taneytown, was the scene of a very lovely wedding August 20 at three o'clock in the afternoon when Miss Margaret Elizabeth Hitchcock, daughter of Mr. and Mrs. Lyman Hitchcock, Taneytown, became the bride of Frederick James Freese, son of Mrs. Emma Nagl and the late Mr. Freese, of Carroll, Iowa. The double ring ceremony was performed by the Rev. Charles Walker. Preceding the ceremony Mrs. George Emerson Rue, aunt of the bride sang O Promise Me, Because and Ave Marie, ac-companied by Mr. Bernard Arnold. The bride, given in marriage by her brother in Jaw, John Eiker of Erie, Pennsylvania, was attired in a gown of white taffeta fashioned with

fitted bodice and full skirt with flowing side drapes which extended into a full cathedral train. Her neck-line featured a deep yoke of illusion marquisette with tiers of lace. The sleeves ended in cala lily points over the wrist. Tiny self-covered buttons fastened down the back of the gown. She wore a coronet of orange blos-soms from which fell a veil of illus-ion net edged with lace and she carried a colonial bouquet of white roses and white orchids.

The bride had as her matron of honor her sister, Mrs. John Eiker of Erie, Pennsylvania. She wore a gown of white taffeta with a wide yoke of marquisette and a bertha of scal-loped taffeta, with bonnet and mitts to match, and carried a colonial bou-quet of red and white roses. The

bridesmaids were Miss Sarah Adams of Baltimore, Miss Charlotte Halter of Westminster, Miss Lois Ann Hitchcock, cousin of the bride, and Miss Louella Sauble both of Taneytown. They all wore gowns identical with that of the matron of honor and carried colonial bouquets of red roses.

Sandra Ramsburg was the flower girl gowned in a long white taffeta dress trimmed with lace. She wore a coronet of red rose buds and babys breath and carried a small basket of red rose petals.

The bridegroom had as his best-man, Jerry Stokich of Baltimore. Serving as ushers were Morris Platter, Joseph Gannen of Baltimore, Robert Hitchcock, cousin of the bride, of Westminster, and George Sauble,

Jr., of Taneytown. The bride's mother wore a street length dress of aqua crepe with black accessories and a corsage of yellow rosebuds

Immediately following the ceremony a reception was held on the lawn at Taney Inn for approximately 90 guests, after which the couple left on a trip to Atlantic City, New Jersey. For her going away outfit, the bride chose a suit of pink gabardine with navy accessories and a corsage of white orchids. Upon their return, the newlyweds will reside in their newly furnished apartment at 2219. East Baltimore Street, Baltimore.

The bride is a graduate of Taneytown High School and Church Home and Hospital School of Nursing in Baltimore, where she is at present employed as a Registered Nurse. groom is a member of the United States Coast Guard stationed in

I'd rather see a sermon than hear

one any day— I'd rather one would talk with me than merely tell the way.

The eye's a better pupil and more willing than the ear;

Fine counsel is confusing, but example's always clear.

The best of all the preachers are the men who live their creeds,

For to see good put into action is what everybody needs.

One good man teaches many; men believe what they behold.

One deed of kindness noticed is worth forty that are told.

Who stands with men of honor learns to hold his honor dear;

For right living speaks a language which to everyone is clear, Though an able speaker charms me

with his eloquence, I say I'd rather SEE a sermon than hear one any day."

CARD OF THANKS

We wish to thank our friends for George C. Elliot.

THE FAMILY.

Flowers will bloom in the summer In the Autumn, it will rain But the face of our dear Mother We would love to see again.

Oh, so often do we wander To the place where you are laid nd think if God had only left you Longer on earth with us to stay. And By her Loving daughter.

Gone, dear Mother, gone forever How we miss your smiling face But you left us to remember None on earth can take your place.

God saw the road was getting rough The hills were hard to climb He gently closed her loving eyes And whispered "Peace Be Thine."

She was a "Mother", one of the best How sweet the memory still But death has left a loneliness The world can never fill.

No one knows the silent heartache Only those who have lost can tell Of the grief that's borne in silence For the one I loved so well. By her loving daughter,

AROUND THE TOWN

(Continued from First Page) nothing being omitted but the "Hu-man Freight" and their sufferings from cruelties and barbarities pra ised upon them. There was a middle deck, a lower deck, the Officers which was the main deck. At that time, the daily papers were full of what the American Press felt. There had American Press left. There had been many prominent visitors, the governors of Louisiana, Rhode Is-land, Mass. King Edward of Eng-land, King George V, the Prince and Princess Henry of Battenberg and other members of the English Royal Family, the former German Empore Family, the former German Emperor, Captain Dreyfus of Devil's Is-land fame, Lord Charles Beresford, Hon. W. E. Gladstone and many other notables. There were 72 cells on the two gloomy lower decks of the Convict Ship. The bottom deck used for solitary confinement prisoners was below the water line. I ohers was below the water line. I have often wondered how the English nobility felt upon gazing at this horrible sight. However, it all hap-pened years ago and it was felt to be a great and striking object lesson of the softening and civilizing influences that are now animating human progress. It surely was one of cruel-ty and atrocious torture. It was in my opinion disgraceful to the human

race. One of the papers which was the Christian Science Monitor ex-pressed it in a nice way different than other papers. "A history so varied as to savor of romance". That, therefore did not leave the bitter taste in your mouth and I think you know just what I mean.

Now just what I mean. Now this is to the men "around any town". Statistics prove that women live longer than the average man and Your Observer knows the reason which she has observed for a long, long time and passes it on to you. (Hope the wife is reading too.) Men rarely relax! That's the secret of it all that makes you live longer. Women have more time during the day but when men can do the same upon entering their homes in the evening 'after work is done'. Many men are partial to showers and that is the reason of shorter lives. Of course, a shower is grand but not when you should be relaxing. Most women prefer a warm tub of water and do their relaxing right there and that is as it should be. After the bath of the evening before dinner, he should sit quitely and read for a few minutes and then eat his evening meal slowly and chew thoroughly. After the dinner which by the way should be a hap-py one which will then be a wholesome and nourishing meal, he should relax again in the living room with his evening paper. Before he retires which should not be too late of an hour, he should again sit in a warm tub of water (never a shower) before retiring. If this was a must in every household in five years-men would ive as long as women!

During terribly hot days (this is 9th, for both men and women especially T if they are inclined to be fat) refrain can from eating solid food for two days and instead take a glass full of any kind of juice (preferably grape fruit juice) every two hours. You will feel and think you were born over again! Fat people can really live on their fat and you know that old saying that all of us eat entirely too much. I

know many people who live to eat not the reverse of eating to live! The movie called "In the Good Old Summertime" starring Judy Garland and Van Johnson is most interesting with the sweetest complicated love story ever told! Don't fail to see it when it arrives "Around The Town, It will fascinate you from start to Sinish with the gay 1890 period! That's all for this week, Folks. Will be seeing you next week. Have a grand week-end. Until then Faithfully,

CONSERVATION FARMING

A year ago the correspondent for this newspaper followed the trail of the Governor of Maryland and a numberless lot of volunteers when owned by Mrs. Nellie V. Thrasher in Frederick Opunty, Md. Every-body pitched in to remake the widow's farm into an agricultural unit. The Governor of the State was the cheer leader and when these wide acres were all made over the waste land started on its way to prove that modern agriculture can turn over the rough land and develop into rich

A little more than a year ago Mrs. Thrasher had to buy hay for her cows. There had just been a wheat failure on the farm. But now a year later barley yields average 20 bushels per acre and corn on the farm this year is excellent. These broad acres in this new con-

servation wonder are known as Mrs. Thrasher's farm but today that farm is worth \$26,400 twice the val-

ue it was a year ago. Mrs. Thrasher likes the new plan, and would not like to return to the old system of square fields running up and down hill.

"Business is good," she told a group of newspaper men who were taken to see the farm.

Oldest Scrolls Of Bible to Go To High Bidder BALTIMORE. – Four leatherbound parchment scrolls, described

bound parchment scrolls, described by a Johns Hopkins university archeologist as "the greatest manuscript discovery of modern times," will be offered for sale to the highest bidder.

He will have to be wealthy. The documents are the four oldest manuscripts of the Old Testament known to date. Valued at more than a million dollars, they were brought secretly to this country early this year.

Discovered by wandering Arabs in a half-closed cave by the Dead sea in 1947, the parchments contain the entire Book of the Prophet Isaiah as it appears in the Bible, a commentary on the Book of Habakkuk, and a manual of discipline for a Judaic sect.

Experts say they were written 100 years before Christ-1,100 years before the date assigned to the oldest Hebrew Bible scroll previously known.

Sale Date Soon

An authoritative source, who declined use of his name, said the treasure would go on the block shortly. It is owned by St. Mark's Syrian Orthodox convent in Jerusalem.

Dr. F. W. Albright, professor of Semitic languages at Hopkins and one of the nation's top archaeologists, first established the authenticity of the scrolls from photographs sent to him.

Since then he has examined the originals. He reported:

"During the past few weeks any possible doubt about the age and authenticity of the scrolls has been removed."

He disclosed also that the documents were sent to the Metropolitan Museum of Art in New York. There chemists reportedly are working over one scroll whose condition has prevented its being unrolled.

St. Mark's was damaged badly in the recent fighting between Israeli and Arab forces in the Holy Land. It expects to get repair money from the sale of the manuscripts.

U. S. May Buy

The hope is that the U. S. Government may buy them. Among interested groups, however, is Yale University.

The find, whose worth to the Christian-Jewish world has been termed incalculable, was brought to America by Athanasjus Yeshue Samuel, Syrian archbishop of Jerusalem and Trans-Jordan and Orthodox apostolic delegate to the United States.

The documents were already in the U. S., it was disclosed, when dispatches March 18 reported them hidden and guarded in Syrian homes to prevent possible damage

Old Fluorescent Tubes Greate Health Hazards

NEW YORK.—Industrial representatives have joined with New York city officials in issuing a warning concerning disposal of burned-out fluorescent lamps.

At a conference called by the department of health and sanitation, it was said that broken fluorescent tubes may create health hazards.

The tubes—of which 200 million are said to be in use throughout the nation—are reported coated on the inside with a phosphor which usually contains beryllium, a toxic substance.

It was said that skin cuts from broken tubes might cause a condition known as granuloma, a benign skin tumor. There also is a danger in inhaling dust from broken tubes.

The conference, including representatives of firms which manufacture the tubes, unanimously adopted this list of precautions for disposing of burned - out tubes:

1. Keep discarded tubes away from children.

2. Never break tubes or place tubes in incinerator or open containers in the street.

3. Deliver tubes directly to refuse trucks.

4. Should a tube be broken, sweep up fragments and wrap them in heavy paper. Never handle broken fragments without gloves.
5. If cut by a broken tube, consult a doctor at once.

Modern Man Declared

Now Uglier Than Ever GRAHAMSTOWN. — "Men have never been so ugly as they are today," says Prof. I. J. Rousseau of Grahamstown, who advocates communal exercises on the beaches and folk dancing to "restore the physique of the South African male." The professor has campaigned against obesity for 15 years, describing the average male over 40 as "a comic, pot-bellied creature and a perambulating eyesore." Women's figures have improved, he thinks.

Broadcasting his plea for support for the United Nations Appeal for Children (UNAC), Trygve Lie, Secretary-General of the United Nations, turns his calendar to the climax day of the world-wide drive. UNAC, starting its campaign in February in the United States, Canada, Czechoslovakia and the Scandinavian nations, is asking for contributions of one day's pay, profits, earnings or work for feeding of hungry children in lands where war hit hardest. teen years ago the first Diesel-electric road locomotive in the world was put into service on the Baltimore and Ohio Railroad.[•] Today, almost fifty per cent of the passenger train miles and over thirty per cent of the freight car miles on the American railroads are performed by Diesel-electric locomotives.[•] Above— First Diesel-electric road locomotive of 1935. Below— Modern, two unit, 4000 horse-power Diesel-electric.

and no other, as the world on which God's light shines.

in its field!

The commandments of God are so many lengths of barbed wire to fence us in, rather road-signs to guide us on life's open highway. The Bible presents the "How" of living. It is God's map for me.

The Bible in The Heart **T**HE SENTENCE: "Thy word have I hid in my heart" (Psalm 119:11) is the clue to the right use of the Bible. When a Hebrew writer says "heart" he means something more than mere emotion. The word means character, what a man really is. A young Korean was learning the Sermon on the Mount, but making slow work of it.

When a missionary asked him about it, the boy said, "I have to be slow. First I learn a verse, then I go out and live it. I can learn the words in a few minutes; but it takes longer than that to live it."

. .

X.i

That is the right idea. One verse, translated into living, is worth more than a chapter that never gets deeper in than the edge of the brain
