RALLY DAY

Mr. McKeldin Speaks in Reformed Church

The annual District Sunday School Rally was held last Sunday night in the Reformed Church. The Rev. Morgan Andreas, pastor of the host church, presided at the service and conducted the worship. The church schools cooperating in the project are the four Protestant Churches of Taneytown, the Lutheran and Reformed Churches of Keysville, Piney Creek Church of the Brethren, and Piney Creek Presbyterian.

One of the largest audiences on record featured this climax of the year's work. The entire seating capacity of the church was taken. And many chairs were brought in to accommodate the overflow. More than 300 were in attendance.

The President, Franklin Fair, whose gifted and consecrated leadership during the past year, amazed everyone, conducted the business session and called on Pastor Glenn L. Stahl to preside at the annual election of officers. Those nominated and elected by unanimous vote, were: President, Franklin Fair to succeed himself for a second term; First Vice-President, Wilson Utz; Second Vice-President, Edward Fink; Secretary, Charles Conover, and Treasurer, Murray Baumgardner who has so well served in this capacity for the past 15 years.

Rev. Charles S. Owen, press reporter for the Association, was called upon to install the new officers. With appropriate ceremony he administered the vows of office and pledged of fidelity thereto.

One of the highlights of the program was the presentation of the Banner to the Sunday School having the highest percentage attendance of the enrollment during the past year. Piney Creek Presbyterian won over the Piney Creek Church of the Brethren by the microscopic margin .006 of 1%.

Norman R. Hess, superintendent of the Piney Creek Presbyterian School, was called forward to receive the Banner awarded to his school.

Another pleasing feature of the evening was the musical numbers presided over by Mrs. Albert Baldwin at the organ. Mrs. Margaret McGuire and Miss Martha Herman, students at Gettysburg College, favored the audience with a duet and double relay solo. Mrs. McGuire and her husband are juniors at the college. Upon graduation she plans to teach and he plans to enter the Seminary as a Divinity student. Miss Herman and her fiancé are likewise juniors and both plan to enter the teaching profession.

Mr. M. C. Fuss, special friend of the speaker, was called upon to present the Honorable Theodore McKeldin, former Mayor of Baltimore, distinguished Christian layman, son of the paragon, one who narrowly escaped being a minister himself, and one of the most gifted lay preachers of America. Mr. McKeldin, a household name in Taneytown, stirred the audience with an arousing address that filled every requirement of a model sermon. Everyone felt that this was the finest and most successful Rally Service on record in our community.

JOINT MEETING HELD BY LUTHERAN SOCIETIES

Mr. Paul Cessna of Gettysburg Was the Speaker

The Women's Missionary Society and the Mission Circle of Trinity Lutheran Church joined in observing the annual Fall Rally on Wednesday evening.

The president Mrs. Elwood Baumgardner presided at the meeting and opened with the "Call to Worship" followed by the business session. Announcements were made of the 67th Annual Convention of the W. M. S. of the Evan. Lutheran Synod of Maryland, to be held at Catonsville, on Oct. 19-20, and the District Fall Rally at Burkettsville, on November 3rd, and the Annual Thank-Offering service to be held in the local church on November 6, the speaker to be announced later.

An interesting program was arranged under leadership of Mrs. Mervin Conover, Mrs. Ruth Sauble and Mrs. Daniel Nail with Mrs. A. D. Alexander pianist. The topic used was "The Lutheran Student."

The program opened with a piano solo by Miss Edith Hess followed by hymn "All Hail the Power of Jesus Name" and prayer by Mrs. W. O. Ibach; Richard Clingan sang a solo and Leon Fritz recited; Mrs. William Hopkins read a poem and Miss Lorraine Sauble sang "The Lord's Prayer" accompanied by the Misses Hazel Hess. Highlighting the evening was an address by Mr. Paul Cessna, secretary of the Alumni Association of Gettysburg College. Mr. Cessna was presented by Pastor Glenn L. Stahl and pleased the group of close to one hundred members and friends. He featured "Christian Higher Education" pointing out that the home, the school and the church play the chief role in primary and secondary Christian education. The home needs to encourage youth to see that living a good life is more valuable than to make "Big Money." Mr. Cessna personally strongly approves religion being taught in the public schools, but since that is not permitted he advocates the parents making sure that the teachers over their boys and girls are of fine Christian character. He says a disturbing factor in our colleges today are the answers "unsettled," "undecided," in too large number to the questionnaire regarding religious beliefs, etc. Mr. Cessna reminded the audience that Gettysburg is the oldest Lutheran College in America, is patronized by all denominations and has greatly increased enrollment over the past few years.

Following the address Mr. Cessna showed several reels of activities on the campus at Gettysburg College during commencement time. Pastor Stahl closed the meeting with the Benediction after which light refreshments were served by the following committee—Chairman, Miss Nettie Putman, assisted by Mrs. Franklin Fair, Mrs. M. Ross Fair, Miss Clara Devilliss, Miss Edith Hess, Mrs. Edward Harner and Mrs. Herbert Winter.

LIONS CLUB MEETING

Welfare Work was the Subject of Discussion

Members of the Taneytown Lions Club met Tuesday evening at Taney Inn to hear an instructive talk on the work of Carroll County's Welfare Board given by Miss Ebaugh, supervisor of its effort, with headquarters at Westminster.

Following the opening ceremonies conducted by President, Robert E. Thomas, and a delicious dinner prepared by Tom Albaugh; a number of guests were introduced. There were Lions Fritz and Burton from New Windsor, Lions Quintal Weant, Dutterer and Kuhns from Westminster, as well as Albert Webb, guest of his brother, Lion Don Webb. Miss Ebaugh was also accompanied by Miss Dodd, local care worker for the Welfare Board who, it was learned, will shortly be residing in Taneytown.

By way of introduction for the evening's address, President Thomas related the experiences of the club's Executive Board, who recently had been approached to see if they might consider assuming the burden of several cases in the Taneytown district which do not fall within the categories which can be adequately covered by county, state or federal welfare funds. Strange as it may seem, even though dire need is apparent, the providing of eyeglasses, certain dental care, and some forms of physical rehabilitation cannot be borne by the Welfare Board. Unless the service clubs or similar groups step into the breach, the patients needing such attention are patient left to get along as best they may. This no doubt explains why the committee on sight conservation and the blind is one of the more important ones in any Lions Club. The work they have done nationally forms a tremendous total, and it now becomes essential that some portion of this burden, which hitherto has been carried by the Westminster Lions should be shifted to the local group. This question the Taneytown Executive Board has been investigating.

Miss Ebaugh cited with elaborate detail the various welfare board functions and the requirements for public assistance in each of its four main categories; old age assistance, and to dependent children, help for the needy blind, and general public assistance. It was interesting to learn that funds of this board come from all three governments, county, state and federal, with a complicated sharing system, the accounting of which indeed calls for a recognized bureaucracy on its own behalf in the person of a finance officer.

Lion Tamer Singleton Remsburg was unusually persistent in the course of the evening at trying out some new songs, but the most important decision of the business portion of the program dealt with dues.

It was voted that club dues, meals, contributions to convention funds, and an increase in the cost of dinner should all be payable quarterly beginning January 1, with the change in style and price of food service to take effect at once.

The committee in charge of the Second Annual Amateur Night headed by Don Webb, announced that Dec. 1st had been selected as the date, and that tickets priced at 50c would be available for distribution shortly, five to each member. A committee session was held afterwards.

P. T. A. MEETING OCT. 21st.

The regular monthly meeting of the Taneytown Parent Teachers Association will be held next Friday, October 21, at 8 P. M. in the High School auditorium. An evening which should prove interesting and informative to all parents has been planned by the program committee.

Miss Ruth DeVore, Supervisor of Elementary Education in the Carroll County Schools, will explain the system of sectioning children in the elementary school. There will be time for discussion. During the business session health and safety measures for the school and medical aid to injured pupils will be discussed. Musical entertainment will be furnished by a quartet, the 4M's. Light refreshments will be served by some of the parents of the sixth grade pupils.

Come and lend your support to this worthwhile organization. Remember, the meeting night is the third Friday of each month.

WALK WITH GOD

I know I can walk with God,
Paths the unredeemed never trod;
Why, then, assail His holy Name,
Because of wickedness and shame.

God guides the stars on their way,
Sends the sun to open the day;
I, more noble than all of these,
May God's mercy and justice see.

A trust in God's saving grace
Brings one before Him, face to face,
No life on earth is lived in vain
That wholly trusts in Jesus' Name.

Then, live as one who understands,
The meaning of Christ's pierced hands
And when the trumpet sounds your name,
You'll mount heights of eternal fame.

The gold of earth is alloy
With which the avid loves to toy;
Treasures of the Celestial Land
Gives joy the world can't understand.

Doff the hat to all who walk
And with the Savior daily talk;
This is a vision of true worth,
Occasioned by the Second Birth.

An Account of Recent Trip Made by Minister and Family

PART II MONTICELLO

Our gallant guide, mentioned last week, was a handsome young man from Arlington. He was a junior in the Medical School. His name was Adrian Wainwright, relative of General Wainwright, hero of Corrigidor. Being quite familiar with the home of Thomas Jefferson, and having a pass thereto, he graciously volunteered to take us to Monticello and act as our guide there.

The mansion is located on top of a little mountain about two miles away from the University, close enough that Jefferson could watch the progress of the builders by means of his big telescope. Monticello is the name Jefferson coined himself, being formed by the French "Monte" meaning mountain, and the Italian "Cello" meaning little, and together meaning Little Mountain. It is a beautiful mansion designed by Jefferson himself who brought his bride there and lived in a little pavilion while he supervised its erection and landscaping. Now it is being kept up by a patriotic association.

It is one of the most unique structures I have ever seen, while most of the colonial fathers built their mansions in the fertile valleys, Jefferson built his on top of a mountain, symbolizing his high ideals.

REFORMATION SUNDAY

The Protestant Churches of Taneytown are planning to observe Reformation Sunday on Sunday evening, October 23rd, at 7:30 P. M. in the Presbyterian Church. This is the first time that this day has been observed in a unified effort. It is to bring to the attention of the members of the churches the great heritage which men believed in and died for centuries ago for us. The Reformation trend dealt with the change of the religious beliefs and teaching of different doctrines which several men in different countries taught and preached about the same time. Then there was another revival in literature and classical art about the same period and this was known as the Renaissance era.

The Protestant Churches received these doctrines which changed the forms of worship in the early church and the Rev. Douglas Chandler, D. D., of Westminster Theological Seminary, will be the speaker on the Reformation of the early church. Dr. Chandler is the teacher of Church History in the aforementioned institution.

Local talent will furnish the music for this occasion. More information will be given next week.

GIGANTIC HALLOWEEN CELEBRATION

This year The American Legion is planning one of the biggest Hallowe'en celebrations ever to be held in this town. Friday, October 28 will be the big night. It is the hopes of The American Legion that this will be an annual affair. This, of course, depends on the number of people who participate this year.

Beginning at seven o'clock there will be a parade of costumes, lead by The American Legion Drum and Bugle Corp. At eight o'clock the annual American Legion Kiddies Party will be held on the second floor of the Firemen's Building, to which all children up to the age of twelve are invited. Also slated for eight o'clock is a street dance and block party for young and old alike. Music to be furnished by Dusty Stardon and his Rhythm Ramblers.

Everyone in the community is invited to turn out in costume for this occasion and to help to make it as big as possible. We assure you that you will have an enjoyable evening. However, if you do not want to wear a costume, come out anyway. We will only be too glad to have you with us. Watch for further details in next week's paper.

AROUND THE TOWN

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth!
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

Newspaper Boy's week brings back the time when Your Observer delivered the late afternoon edition of "The Evening Bulletin" in Philadelphia when I was twelve years of age for the corner stationery store which was called, "Gosner's". There were quite a few customers and a young boy had the route but the customers complained that they failed to get their papers several nights a week. Then that nice plump lady who was the wife of Mr. Gosner approached me to make inquiries if I would take over. So that is how I became The Philadelphia Evening Bulletin News Girl!

What a meal last Saturday by the Pythian Sisters! If you missed that one—you missed a grand one. Those sisters worked as though their very life depended upon it. It was not just whichever you desired ham or chicken but both served to you for the same price. A little daughter (black eyed one) the very likeness of her Mother was sitting next to me and she was much concerned because I did not have any ham on my plate. Later, to my surprise she was holding a plate of ham before me. Her lovely Mother happens to be one of those Pythian Sisters! The evening was a delightful one and there was some crowd and everyone was pleased. Hope there will be a "Repeater" soon.

Very few towns could boast of the excellent dentists which we have "Around The Town." There is a sign on the wall opposite the chair which you just have to read as you sit there and here it is: Without Teeth, There can be no chewing—There can be no nourishment. Without nourishment, there can be no health. Without health, what is life?

Thinking about open country. Did you ever take a real hike? One I will always remember was a hike from Philadelphia to Washington, D. C., with my eldest sister and her husband. It was the finest week's vacation that I have ever had. We had the one week and we took our time. My sister's husband is quite a fine opera singer and when we wanted to rest, we would bathe in a stream along the highway as Emanuel's deep baritone voice would sing out, standing on the rocks high above us. We met wonderful people and most interesting. We remained at lovely farm houses on the way. In little towns they would photograph us with our walking khaki colored clothing and the pack on our back. It was delightful all the way. That was really living in the open for one week. The cost was a little over \$25 for each one. At the expiration of that week, it was difficult to be "housed in" after so much space of God's country. Try it once and it will linger in your memory and something which you wish you could do again.

What a lovely home right "Around The Town" which is fifty years old and the charming hostess belongs right there. The furnishings are, of course, a part of the charm. Old things are more substantial in comparison with things today. Have heard many say that "they prefer today with it all" of the fast life and modern improvements and so on but Your Observer has many times wished that I had lived in those old days when everything was serene.

That other nice plumber "around the town" was most kind. It was last 4th of July when the belt broke on the motor in the well at "Loves' Retreat". Even that holiday he came forward with the belt. That would not have been done in the big city. See what I mean when I say about country people, folks?

Did you know that the Battle Monument in the heart of the financial district in the big city is a memorial to the citizens of Baltimore who died at North Point, Sept. 12, 1814? Dwarfed by the structures that surround it, this 62-foot centaph is one of America's oldest monuments. It's shaft in the form of a fasces is bound with fillets bearing the names of Baltimore men who perished in defense of their city. Completed in 1825 the Battle Monument has been used on the Seal of Baltimore since 1827.

Although a little cherub in the form of a girl was desired by the little German bride who arrived in America last Christmas night and all preparations were made for that little girl, 'twas a little boy who arrived at 5 a. m. on Saturday morning, Oct. 8 at the Union Memorial hospital in Baltimore. This was the phone message . . . "Grandmother?" as I picked up the receiver. I waited! "You know that boy you said would arrive? Well, that's just what happened! I will name him (Douglas Henry, Jr.!) That was the shortest telephone message Your Observer ever received. Nuff said. I think you know just what I mean.

Many times in visiting a home, I am ushered in a dark room which is quickly opened to very special company. Now, that is one thing Your Observer does not understand. No matter how beautifully the room may be furnished, there are many who still maintain the idea to have the room closed will keep it clean and non-fading. How awful not to have the wonderful sun in every room of the house. That is a place where

THAT BAY BRIDGE

Again some one has started talk of constructing a Bay Bridge across the Bay from Ant Island. When will talk cease to be mere talk and turn to action?

Baltimoreans are down right fools to stand in the way of the Bridge. The rich produce from the Eastern Shore would come to Baltimore instead of going to Wilmington, Philadelphia and points north.

When will we learn to look out for our own interests.

A simple toll would soon pay off the entire cost and a lesser toll would pay the upkeep. Why delay longer?

KEEP IT THIS WAY

The drive to advertise hard liquor over the radio has received a healthy setback. It has not been conclusively stopped. Even the radio networks which have announced their decision not to accept liquor advertising claim their right to do so when and if they wish. And Schenley Distillers, Inc., which started much of this furore by announcing its intention to advertise over the air but later reversed its decision, declares:

"The time is undoubtedly coming when distilled-spirits advertising on the major radio and television outlets will be accepted as completely for our industry as advertising in the major magazines and in newspapers is today. . . . Therefore, the department will keep the matter of radio and television advertising under exploration and consideration."

With equal or greater self-confidence, an alert public will do well to keep the liquor companies' ambitious plans "under exploration and consideration." Prompt and outspoken protest has prevented the attempt at this time to enlist the unctuous voice of the radio announcer in the service of more widespread drinking. The American home remains free from programs that come over the air with a whisky breath. Distillers and broadcasters alike need to be kept aware this is the way the public wants it.—Christian Science Monitor.

SOME THINGS YOU SHOULD KNOW ABOUT COMMUNISM AND RELIGION

This is to tell you what will happen to YOU and YOUR CHURCH if Communism ever takes over the United States of America.

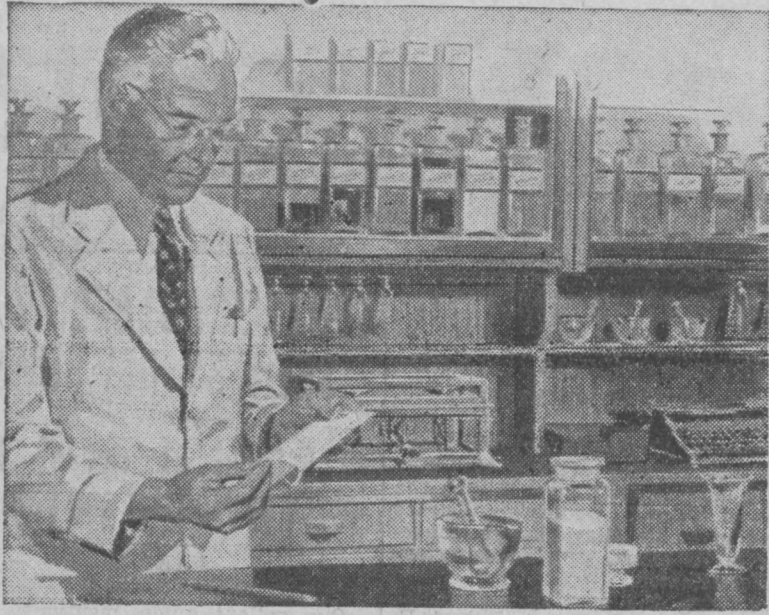

The long and short of it is just this: You cannot be a Communist and believe in God. You cannot believe in God and have a peaceable life under Communism.

In all their plans and actions, the Communists mark down religion as Enemy No. 1. Where they dominate, they attack it head on. Where they do not dominate, they try to deceive and to corrupt from within just as they do in government, in education, in labor unions, and throughout a nation's life in general.

The aim and object of Communism is always the same—complete control over the human mind and body, asleep and awake, in sickness and in health, from birth to death. That is why Communism marks religion Enemy No. 1, for religion in some form is always a basic influence in the life and thinking of any people.

Communism cannot dominate family life, for example, until it has first fought its way past the influence of religion upon the family.

Communism cannot force its own brand of moral code upon a person without first destroying his moral code rooted in religion.

Prescription 1

If a PHARMACIST were to start his career with a prescription for himself to follow, it's certain that professional service to his community would be the main ingredient. You see evidence of it in everything he does.

You see it in the painstaking care he devotes to the preparation of every prescription your doctor orders—whether it be a simple mixture, or one of a highly complex nature.

You see it in the precision equipment he uses with scientific skill, and in his knowledge of the thousands of drugs and chemicals he keeps on hand, so that your needs can be supplied promptly and completely.

You see it in his participation in organizations of his profession, and in his technical library . . . through which he keeps abreast of the latest medical developments, the newest drugs, and the constant improvement in pharmaceutical products and practices.

Your pharmacist pledges himself whole-heartedly to the ideals of his profession. Every day, in communities large and small, he is helping to make and keep America the healthiest nation in the world.

Get better acquainted with your pharmacist—he's a man you can rely on.

Today I received through the mail a bit of clever advertisement. It was a chart showing one the number of dishes one washes in proportion to the number of years one has been married. According to the chart I have washed 600 thousand dishes and spent 350 days doing them. As you may have guessed the store that mailed this gem of information out is trying to sell electric dishwashers. I told the head of the house how much time I had spent doing dishes and he (clever man that he is) wanted to know what I would have been doing with that time if I hadn't been doing dishes. As you can guess--no electric dish washer sale at our house.

David Buffington spent the week-end with Mr. and Mrs. Millard Roelke. A gentleman farmer is one who raises nothing but his hat.

Some time ago in a heated discussion among a group of friends the question arose as to what makes a successful farmer. Each person present had his own ideas and they were quite interesting but the definition I liked best was this: "Success is defined by each of us according to our standard of life. To some, an accumulation of money alone is success. To others, money is only secondary. Briefly, a successful farmer is one who, by his skill with crops and livestock, produces enough to maintain his soil resources and support his family at the level above the average of his community. In addition, he should be a man with enough reserve energy to assume active leadership in his school, his church and his farm organizations. It goes without saying he should be a good family man."

As one enters the mansion he is deeply impressed with the genius of Thomas Jefferson in almost every area of life. In the day when there were no convenient gadgets in the house, he fashioned many for himself. He invented the automatic double door, fashioned a device to register each day of the week, designed and had made to order some of the rich furnishings of the house, ranging all the way from window curtains to the silver teapots on the table.

At the east front is a grandmother clock above the door which is still running. It has a face on both sides so the time may be seen whether in or out of the house. It is operated by means of a cannon ball attached to a pulley. The clock was wound by a servant each Sunday morning by means of a folding ladder and a big crank like Henry Ford used to make for his cars. As the cannon ball unwound down the wall through a hole in the floor to the basement, it registered each day of the week as well as the hours. The house was richly furnished in the most attractive fashion. Much of the original furnishings are there including some of the glass in the big windows which is rougher and more cloudy than modern glass. I have stereoscopic pictures of the mansion and its furnishings which anyone may see by calling at the house.

The superb genius of this patriot in almost every area of life, reached its flower in the form of one of the world's greatest statesmen. Few men, if any, did more to shape the character and destiny of our country. He filled with brilliant success almost every political office of his day: Governor of Virginia, Ambassador to France, Vice-President, Secretary of State, President of the U. S. for two terms. He devised the U. S. decimal system of money, and secured its adoption. Almost 100 years before the Civil War he advised the abolition of slavery. Looking ahead to a nation from coast to coast, he negotiated the Louisiana Purchase, and sent Lewis and Clark on an expedition to the far west.

He had hundreds of honors, either one of which would make a man famous. But on his tomb, in the family cemetery, near the mansion, he chose to be remembered by three things. Strange as it may seem, he did not mention that he was President of the U. S. That is the highest honor within the gift of our country. But Jefferson had still more brilliant. Here are the three honors he chose as the highest by which to be remembered:

(1) That he was author of the Declaration of Independence—one of the most famous documents of all history.

(2) That he was author of the Statute of Religious Liberty, so deeply cherished in American tradition.

(3) That he was the father of the University of Virginia.

Here is the epitaph inscribed on the granite shaft at the head of his grave:

"Here was buried Thomas Jefferson, Author of the Declaration of American Independence, of the Statute of Virginia for Religious Freedom, and Father of the University of Virginia."

To visit such a shrine of democracy is an inspiring lesson in patriotism. If some of our communists and fellow travelers should visit a place like that, they might be cured of their illness.

those awful pests of moths come in any place where it is dark. Try living with every room opened. Folks, even if there is a little fading of colors in materials in that room, there will be a warm breath of Heaven when the sun shines in.

So long, folks. Have a grand week end. Always allow "God To Shine In" for then you will be like those two songs, "Your Smile Will Be Your Umbrella" and you will then be "Living On The Sunny Side of The Street." See you next week. Until then.

STRANGE AND TRAGIC ACTS OF SLEEPWALKERS

There is virtually no end to the peculiar things somnambulists will do—including robbery, suicide and murder. Read how mail clerk stole \$30,000 while asleep, and a man dreaming he was Santa Claus got stuck in a chimney in "Perils of Sleepwalking," appearing in October 3 issue of

SOUTHERN STATES AS SEEN BY REV. OWEN

olic perhaps of an elevated soul. The most unique feature about it is this: The Plantation houses are all invisible. None of them can be seen. This is the way he did it. On the west front he fashioned a half terraced lawn, shaped like a horseshoe, with the mansion at the open end. On the north side of the terraced lawn he sunk the stables, carriage barns, ice house, and laundry, back into the ground with the roof level with the lawn. Into the south side of the terrace he sank the kitchen, dairy, living quarters for his 125 slaves, in the same way. The roof of these buildings blended with the lawn bordered with flowers, and adorned with a fish pond. On the east side of the mansion he fashioned a beautiful park adorned with shrubbery of almost every variety.

Two NATIONAL RECORDS on LARRO DAIRY FEEDS

This makes her the only Holstein to hold two National Records in the yearly division on 2x milking and gives her the highest America production record for the first two lactations on A.R. test. As a Junior 2-Year-Old she was fed Larro 32% Dairy Concentrate. As a 3-Year-Old she was fed Larro Dairy Feed. During both test years feeding and management was the same as we recommend to dairymen. God and Nations

Lesson for October 16, 1949

WHEN the Spanish fleet was about to invade England, back in Queen Elizabeth's time, nothing the English had could stop them. But when the Armada arrived, that vast fleet had been blown to bits by a storm, and the English neatly mopped up what was left. How do you account for that? The English always said God was with them. When the Nazis had overrun France in 1940, it would have been simple for them to invade England. There was next to nothing to stop them. But Hitler delayed from summer till fall . . . and by that time the British were able to mount an invincible defence. How do you account for that? Over and over again in history the unexpected, the unexpected, the "miraculous," has happened. Some call it chance; but others call it God.

Dr. Foreman

God In History

BUT GOD does not always or usually operate in spectacular ways. God works in history as he works in nature, out of sight, visible to the eye of faith but seldom if ever otherwise. History, from the Christian point of view, is the working-out of the purposes of God.

The pattern is not entirely clear to us, because we cannot see enough of it at once. But looking back through history, we can see signs that God has been there. This is the message of the prophets of Israel, especially of the great Isaiah.

In a troubled era, when everything seemed to be in most complete confusion, Isaiah gave out some clear and plain truths from God, and helped men then and now read the pattern of God's design.

The Life Of A Nation

ONE TRUTH is that justice is a nation's life and sin is a nation's death. God being the God of justice, his purpose is to set justice in the earth. God plays no favorites among nations. Any nation that lives by God's laws, lives; that nation that defies God has signed its own death warrant. There are no peoples who can "get by" with what they please, if what they please is not the will of God. There are people now who do not believe that. They would say, Look at Russia! In Isaiah's time there were those who would say to Isaiah: You must be wrong—look at Assyria! There is a nation that does not know God, and yet grows every year stronger and stronger.

God's Ax

ISAIAH has a startling answer to that objection. (Chap. 10.) Assyria is a tool in God's hand, no more. He admits that Assyria has no standard but force, she worships only sheer Power. But there are other nations, wicked ones, which God intends to punish: one of these is the nation of Israel.

Assyria was destined to destroy Israel once and for all, and to damage Judah so severely she never would recover. All this, Isaiah says, is in God's plan.

God does not punish an evil nation with legions of angels; he punishes it with invasions and defeats in war. Assyria was an ax in the hand of God, cutting down the rotting trees of selfish and unjust nations.

Return To God!

PEOPLE in Isaiah's time were putting their trust, just as we do nowadays, in alliances, pacts, international combinations of all kinds. Isaiah warns ominously that this will not do, by itself. Not that all alliances are bad; in chapter 19 he actually pictures Assyria, Egypt and Israel as brothers-in-arms.

But he does not hold out any political scheme or combination as the best hope of a nation. Return to God! is the prophet's call. So in our time, whether it be a general MacArthur or a theologian Brunner.

Many of our ablest men are warning us even now, that humanity is facing an alternative: Either go on the way of selfishness and war down to destruction, or else go back to the Source of justice, truth and love, the God in whom alone is salvation.
