## SOUTHERN STATES AS SEEN BY REV. OWEN

#### An Account of Recent Trip Made by Minister and Family

BLUE RIDGE

Across the Swannanoa Valley from Ridgecrest and Montreat, the Southern Baptist and Southern Presby-terian Capitols, is located the relig-ious capitol of the Southern Y. M. C. A. This is a non-sectarian religious summer assembly open to people of all faiths. It is named Blue Ridge. From here, one can look across the valley and see Montreat and Ridgecrest set, like gems, against the op-

osite mountain sides.
Blue Ridge is said to be the most complete and spacious resort in the south. It is situated in one of the most beautiful spots in America. It might well have been called the Lap of the Gods. For if the mountain overlooking the place might be thought of as a god sitting in a huge armchair, this religious capitol would be located in his lap, and the valley be located in his lap, and the valley below his footstool, and around his shoulders above, like a collar, is etch-ed the visible Blue Ridge Parkway. Here the Y students from the Col-leges and Universities all over the south, come for their summer assem-

bly. It might be added that the Y. M. C. A., a national and international organization, to promote moral character and christian service among young men, conducts student branch-es in the southern Colleges and Uni-

versities. Many years ago, when in college, I recall having attended one of these summer assemblies at Blue Ridge for a week. Representative student bodies from many southern educational in-stitutions, were there. It was like a lot of colleges suddenly merged into

one with each respective unit trying to outdo the other. What those groups could think of and do in terms of dramatic stunts, captivating college yells, and ingenious tricks, exceeded all imagination. Many southern col-leges have built their own home here for their student delegations to oc-

Some of the palatial structures are enormous in size. The largest is the famed Robert E. Lee Hall, named after one of the great southern heroes.

In another direction you look upon the Craggy Range on the crest of which can be seen another view of the Blue Ridge Parkway in the distance. Or in another you look down on the city of Asheville, the metropolis of the Land of the Sky, and many other points of interest. Few places provide such a splendid view as that of Blue Ridge.

We have not and do not conserve our resources from this "farm" as we should. I am informed that at one time the bay yielded 15 million bushels of oysters annually while in recent years the yield has been only about 11/2 million bushels. We could improve that yield greatly if we would scatter over the bottom of the bay from the Potomac river up to the region of Easton. The shells are there and useless. If scattered, after three or four years the oyster yield could be brought back to its former greatness. Why we do not do this is a thing I have not been able to

Oysters form one of our most delectable foods and their culture should not be neglected. If properly cultivated they would give employment to thousands of our citizens. For one I'd like to see this industry revived and brought back to the good old days of the past. W. J. H.

## Let's Think

G. H. ENFIELD

#### EVERYDAY THOUGHTS

Many modern marriages surely were not made in Heaven. Neither does it seem that Heaven is invokedto maintain them.

How strong was your love for the one who stood in all her girlish beauty at the marriage altar, if another by her illicit solicitations can steal the husband's affection, and break up what promised to be a happy home Is not marriage meant to be the most holy bond of all human relationships, and the home the most sacred of all earthly institutions!

That great National Document—Declaration of Independence—declares that it is self evident that all men are endowed with certain unalienable rights, that among these are life, Liberty and the pursuit of Happiness. Then, comes along a per-vert and snuffs out a man's life, and destroys his own liberty. Is human life so cheap that some have no scruples in slaying a human being in an instant by a shot from a gun or by a knife used to slaughter swine? Yes, the Declaration of Independence recognizes man's rights to Life, Liberty, and the Pursuit of Happiness; and the Constitution of the United States guarantees them.

If mortal life is lightly regarded by a man, what hopes does he enter-tain of eternal life. How much does he case about it. What appeal can be brought to bear upon him! Does life beyond the grave have an appreciable value for such a character

What is the cause of all this? Have material values outbidden spiritual values? Have holy institutions failed to function in lives that proved per-verted? Has the carnal nature dominated the thinking and impulses and actions of him who left his Creator in God's image and likeness? Has such a person lost his hold upon the Divinity within himself?

Must children continue to suffer

because of the sins and wickedness of a parent or parents? Is society merely to wink at the perpetration of wrong, and not strive to remedy the conditions responsible for wrong? Must the Kingdom of God on earth be deprived of the services of a sin-

gle soul because some one insists up-on his pound of flesh?

The husband who grieves for a wife whom death has taken from him, the wife who mourns for a departed husband, are unable to understand the mental quirk of one who slays a companion in cold blood. To call such a one a brute may be an injustice on the one hand, and on the other hand, it may savor of an insult to the dumb creations in the ower animal kingdom.

Firemen from Taneytown, Fairfield, Gettysburg, Thurmont and Blue Ridge Summit were promptly on the scene with nine engines and scores of volunteer fire-

Congregations of Elias Lutheran Church and St. Joseph's Catholic Church were dismissed with prayers as word of the fire spread and many of the members of those congregations joined in bringing the fire under control. Members of the Lutheran Church and the proprietor of the bowling alleys provided sand-wiches and hot coffee for the halffrozen firemen.

Rev. Mr. Welker, Pastor of the church said that he was teaching a class of boys in the Sunday School when it seemed to get dark in the room. One of the boys looked up-ward and noticed smoke seeping from openings in the ceiling. Smoke driftng by the windows from the burning roof had given the first warning and the boy's observation of the ceiling started an investigation.

When the roof was found in flames, a general alarm was given those in the building. All hurried out and there was no time to remove any furniture.

Many in the building were children. He said there is little doubt that the fire started from faulty wiring overhead. It was generally agreed, he said, that the fire could not have started overhead from any other cause. The fire could have been smoldering between the ceiling and roof for some time, it was explained, and when the building was opened Sunday morning sufficient air reached the source of the fire to cause it to break out. Once ignited the roof, it was pointed out, the strong wind quickly whipped a fury of flames.

The church is about a half block tersection of several main highways. Members of the congregation of the Evangelical and Reformed Church of the Incarnation, of Emmitsburg, which was destroyed by fire Sunday, lecided last night to rebuild. The Rev. E. P. Welker, pastor said

it was definitely agreed that building plans should be started. The Emmitsurg chapter of the Veterans of Foreign Wars has offered a contribution of \$1,000 when construction is begun.

At a congregational meeting last night, the church members voted to accept an offer to use the Emmitsburg Methodist Church until the E. and R. Church can be rebuilt.

Wartime excise taxes on many necessities, as well as luxuries, can be repealed without loss of income to the government. All Congress has to do is TAX THE UN-TAXED profits of tax-exempt commercial corporationssuch as Co-operatives, Foundations, Trusts and others. Taxing the untaxed will produce ONE BILLION DOLLARS in brand new revenue. That's more than enough to repeal a good portion of present wartime excise taxes—or reduce all of them. Tell your Congressman that you and everybody else want wartime excise taxes knocked out. Here's the way it can be done-by taxing the untaxed, first.

#### Base of Operations

Lesson for March 5, 1950

THERE IS NO RULE in the Bible forbidding Christians to have posed to lay aside your mind when you become a Christian. This has had many illustrations:

let us take Ephesus for one. Put yourself, in imagination, back to

the first Christian century. Ask your-self: Where can we start a church where it will do the most 'good? Where can we put a church that will spread out, one

of the Empire, you would have lighted on Ephesus as the very place. It was a true capital, not a old side board, enamel range, extenmerely political one. merely political one.

T was a master-stroke, selecting Ephesus as a base of operations. It made possible the rapid spread of the Christian faith into the province of Asia. The decision to plant a church there had been matched Christian history since then. One of these was founding the churchin Rome. That was an even greater carry and capital than Ephesus, and the residue in two equal payments,

If the Christian church had been content to be provincial, all right for the smaller towns but afraid to tackle the big ones, if the early church had feared to seat itself in Rome, the whole history of Europe would have been different.

When the Roman Empire crumbled, as in time it did, the church rose on its ruins and took its place as the great civilizer of Europe, the strong force that kept a continent from decay for nearly a thousand years.

FROM THE DAYS of the early F. Neal Parke, Attorney. Our Ancestors Roman church there comes a well-known story which may be true. In the slave market at Rome the Pope saw some handsome small boys, whiter than the average Roman, for sale. Who are you? he asked. "Angli," they said-Angles, from far-off marshes along the North Sea. No, smiled the you are too good looking for that; "Non Angli sed Angeli," not Angles

but Angels. Anyway, the church did send some missionaries to far-away Anglia and elsewhere in Northern Europe. It turned out to be another strategic base of operations. Eventually France and Germany and England and the other countries in that part of the world were converted to Christianity. The time came when those very nations took the lead in moving into the rest of the world, into the western hemisphere, "down under" to Australia, even into Africa. Where they went, they carried their religion with them.

Suppose the church had not thought our ancestors worth converting? Suppose all the colonizing movements of the 16th and following centuries had been waves of sheer pagans?

It is not mere racial pride to say that the sending of missionaries to those savage peoples of northern Europe was one of the most strategic moves ever made by the Christian church.

And Today?

THE CHURCH has not always been smart. Sometimes we have missed the boat. There have been strategic centers we might have occupied-and did not.

There was a time, for instance, when Russia, that mighty nation, was open to Christian teaching. Many who knew that country were saying about 1918 that it was possible to capture that land for Christ. But the Christian church was little interested . . . and now whatever Christianity is there has

to stay underground. Farther east, our own General MacArthur has been calling for missionaries to Japan, thousands of them. Japan is wide open to Gospel today as never before. But where are the missionaries? Going over

in driblets. Whenever Christianity has seen a strategic point and taken it, future generations have been blessed; whenever we miss our chance, future generations will wonder how we could have been so blind.

When I was a little girl, I had a sudden desire to learn the mute lan-guage and it came in handy in the very first parsonage I lived in as there were two people in the neigh-borhood in that little village who spoke that language and I carried on the conservation which pleased them.
