The regularly scheduled meeting of the Taneytown Kiwanis Club was held at Taney Inn, Wednseday, at 6:30 P. M. with President Lewis Crumpacker presiding. The quintet sang as their opening numbers "Tramp, Tramp, Tramp" and "Street Urchins". Two Tramp" and "Street Urchins". Two solos were then sung by David Reifsnider entitled "The Open Road" and "O What a Beautiful Morning." The quintet concluded the program by singing two spirituals, "Climb Up Ye Chillum, Climb" and "I Ain't Gonna Grieve My Lord Any More." Those in attendance enjoyed these selections very much. This same quintet had the opportunity of repselections very much. This same quintet had the opportunity of rep-resenting Taneytown High School in

Miss Alexander rendered the difficult and varied program with an ease and assurance which thrilled the music lovers assembled there. The brilliant musicianship and emotional interpretation displayed by Miss Alexander, conveyed to this group the beauty and feeling of the following program:

D. Scarlatti, two Sonatas, B minor, D major; Gluck-Friedman, Ballet des ombres heureuses (from Orfeo); J. S. Bach, Prelude and Fugue in G major; L. van Beethoven, Sonata, Op. 31, No. 2, Allegro, Adagio, Allegretto; F. Liszt, Canitque d'Amour; C. Debussy, Two preludes, Voiles, Les sons et les parfums tournent dans l'air du soir; A. Chasins, Rush Hour in Hong Kong.

LIONS CLUB MEETING Nominations of Officers Were Made

At the meeting of the Taneytown Lions Club held Tuesday evening last at the Taney Inn the presiding offi-cer, President Robert Feeser announced the nomination of a nominating committee at a recent Board of Directors meeting. Chairman of the nominating committee is Lion John Hoagland who read a report from the committee. Nominations were made from the floor and the official election of officers, to serve for the ensuing fiscal year, will take place at the next meeting on May 23rd. It was announced that the installation of the elected officers will be conducted at the last meeting in June so as to be prepared to take over their new post of duties on the

following meeting in July. Lion Singleton Remsburg, Chairman in charge of arrangements for the District Convention, as far as the Taneytown Club is concerned, read the program of events scheduled for each day at the Convention. The District Convention will be held this year in Baltimore, May 24-27. Secretary-Treasurer Don R. Webb read a letter of appreciation from Lion and Mrs. L. J. Dunlap for their remembrance of him during his illness with special thanks to President Feeser for his effort in securing for Mr. Dunlap's use a regular hospital bed. Lion Webb also read a letter of thanks from Glenn B. Springer, Treasurer of the Emmitsburg Reformed Church in behalf of the congregation for their expressions of the grift donest. their appreciation of the gift donated by the Lions Club toward helping rebuild their church building recent-

ly destroyed by fire.

President Feeser welcomed back
Lion John Hoagland, who recently
returned from a six months winter vacation in Florida and other south-ern states, as well as Lion Merwyn C. Fuss who also enjoyed a bit of Florida sunshine during the winter. After listening to a brief but interesting talk from each regarding the joyful moments of their vacations, we are sure we have some real fishermen in our club, as was evidenced by Mr. Hoagland's catch during February which averaged eight large

bass per day. Entertainment for the evening was furnished by Lion M. S. Ohler and was in the form of a fine sound movie, "The Flying Fishermen" produced by Eastern Airlines. The picture was intensely interesting from beginning to end and proved, by illustration, that deep salt-water fishing in the Atlantic or fresh water fishing in the inland waters of the north are but a few hours away by traveling to these havens of sport by Eastern Airlines. As a result of this modern and fast transportation it is possible for a Sportsman to work a full week at his regular job, leave for a week-end for a catch of sword fish in the Atlantic or a mess of trout in Maine and return to his job refreshed early Monday morn-

SPRING IS HERE

Spring is here and we have had

It has been cold and the ice has frozen on the creek, and perhaps some have filled the old-time icehouse, but modern invention, where with electricity we can create ice cubes in the refrigerator has done away with the need of the ice house.

The lack of snow has been a hindrance rather than a benefit. The wheat crop will not be as good as it should be because much of the wheat during the thaws and freezes has been "frozen out."

In these parts we have had abundance of rain and for that should all be thankful. W. J. H.

THE POWER OF THE PRESS

The biggest newspapers in the United States always brag about themselves. The New York Times tells us that over the past 20 years U. S. daily newspapers have a daily average circulation of nearly 14 million copies each.

We country boys who grew up with the local weekly newspapers haven't gone down an inch in forty

The World Almanac shows that there are now 1,781 daily newspapers in the United States and 13,-643,465 weekly newspapers.

Local family daily and weekly newspapers are read by all members in the households. Daily newspapers have a limited existence especially in the great cities where commuters on the way to their daily work read the papers while the subway or train is moving. Nevertheless, the best estimates are that the average family newspaper is in the hands of the household for three hours and a half.

The power of the press is in the so-called grass roots. The figures for 1950 prove it.

The number of daily newspapers has been falling steadily. But total circulation has more than kept-up with the rising population. A little under one for every three persons reads the daily papers.

Quite recently 1,200 publishers and newspaper executives representing 778 newspapers gathered in New York. The feeling was general in the groups that increased costs of production has been the prinicpal factor in the decline of the number of daily newspapers.

In fact, the local family newspapers in the Grass Roots are in good health-and growing.-National Industries News Service.

The American Psychiatric Association of the United States has been holding its annual meeting in Detroit this week and if only half of what the good doctors have been telling one another about the mental condition of the inhabitants of these United States is correct then we are in-deed living in a goofy continent. The bad state of mental health in the United States where, according to Dr. Robert Morse about one-half of all the hospital beds are occupied by mental patients of one type or another is shown by contrast-to the war ravaged countries abroad. In spite of the hardships suffered by he war, and the terrifying effect of being bombed, there has been no increase in insanity. For some unexplained reason modern warfare seemed to have had a soothing ef-fect upon the brain and nerves of the population of war torn Europe. Maybe hardships and suffering in a group seems easier to bear than in-dividual suffering. Whatever the cause, nervous and mental disease here at home is becoming more and more serious. If it is due to our way of living or thinking then its time to oring about a change before all of us become victims of a neurosis or psychosis. There have been instances in history where an entire nation suffered hysteria or fear neurosis. Lets hope that isn't happening to us, although one must confess there are times when we listen or read what's going on in Washington we think our congressmen and senators are afflicted with something closely resembling hysteria.

Why has the occupation of "house wife" deteriorated in the eyes of the world, and particularly in the eyes of the housewife herself. Perhaps it is because men and women have ceased to think about the real happiness in life and, instead mistakenly reason that it is wrapped up in "How much money will I make?" The housewife has been set down in the world's estimation because she doesn't make money and cannot be judged by a pay check. As a result the house wife is frustrated because she is left at home while more important things (she thinks) are happening in the world. But the rewards of being a housewife are in your own achievements and contributions. Payday comes every day as you see your children developing into happy, healthy and useful citizens, your husband contented and your home a comfortable and gracious meeting place for family and friends. If feeling needed is one of the esential ingredients for happiness, in this job its yours for the asking. Though you serve for love instead of money. IN THE LOW-PRICE FIELD

(Yet it costs so little to own)

JUDGED "FASHION CAR" OF 1950 Yes, Ford has again been judged "Fashion Car of the Year" by the New York Fashion Academy ... two years in a row.

THAT'S ALL IT TAKES—10 minutes behind the wheel of a '50 Ford—and you'll realize that quality has invaded the lowprice field. Ford's new V-8 power will show you in a matter of seconds why America's costliest cars favor this type of engine: (But in the low-price field only Ford has it.) Yet with all its roadcommanding power, this V-8 never raises its voice.

For comfort you'll like Ford's lower, level "Mid Ship" Ride and Sofa-Wide seats. For safety, its 13-way stronger "Lifeguard" Body and 35% easier-acting King Size Brakes. And for your pocketbook's sake you'll be glad to learn you can own even a Ford V-8 for hundreds less than most "sixes" (and Ford's "Six" for even less). Yes, you'll find Ford a sound investment-low in first cost -low in maintenance and low in depreciation.

Forgiving Love

Lesson for May 14, 1950

ALL RELIGIONS believe in God, but not all religions know the God who loves. Gods that rule, gods that threaten and punish, gods that sit on high and distant thrones-

yes, the history of religions shows plenty of these. But it is not every religion that believes in a God capable of love. We Christians say that God is love, but centuries before Christ the

inspired Hebrew Dr. Foreman prophet Hosea was saying that the high God, the holy God, not only can but does love his creatures on earth.

Love With an IF

BUT HOSEA goes further than this. Even the religions that teach the love of God do not always understand it. That there are "favorites of heaven" is an idea common to many religions, ancient and recent.

The notion that God loves those who love him, that his love is a reward for good behavior, that he loves good people but not bad people, in short that he loves only the lovable—this is believed by a great many, but it is not true. To put it in another way: Many religions, and even some persons in the Hebrew and Christian religions, suppose that God loves us with an IF

Some of the more primitive religions think of God as loving only if he feels like it, if he happens to be in the right mood. There is no telling when he may love and when not; he is as unpredictable as spring weather. The higher religions know better; God is not capricious and impulsive like a child.

But still sometimes even in better religions God is thought of as loving with an IF. If you love me (he is thought of as saying) I will love you. If you are good enough to love, I will love you. If you earn my love, I will pay you by loving

No IF in God's Heart

HOSEA HAD LEARNED a deeper lesson from God. Through his own bitter experience (see last Sunday's lesson) he knew that his own love for his wife outlived all the shame she had brought to his heart and home. In himself he knew, as a living fact, love for an -and so much more-God could. would and did love his unfaithful people Israel.

"God so loved Israel-," said the prophet. "God so loved the world," says the Gospel. God's love is not the bargaining kind. He does not wait till we are "good enough." His love has no IF in it.

Suppose We Say No?

AT THIS POINT something must be said that would seem to go without saying, only there are so many persons who misunderstand the truth just here. God is love: we learned that in Sunday school when we were small, we have seen it in mottoes on the wall, we have grown used to the idea. But sometimes we twist this truth into some-

We think, "If God is love then it doesn't matter much what we do. He is going to look after us and see that we come out all right. Nothing's going to hurt us because our loving Father is right here to protect us." This is a mistake.

Hosea teaches, and the Bible as a whole teaches, that God's love is not compulsive; that is, his love must be freely received because it is freely offered. We can say "No" if we insist.

And if we do turn our backs and run away, the consequences are terrible and not even God's love will keep us from them.

It is only the person who turns his heart to God who finds that love, like sunlight, casting out the fear and the evil from his mind and

The Cost of Love

THE DEEPEST TRUTH of all is one which Hosea partly sees, but is fully seen only in the New Testament. God's love for sinners is costly. It is not a light thing, easily given.

As Hosea's forgiving Gomer cost him much, so the love of God for his wandering children costs him more. That this is true, Hosea realizes.

But to know what the love of God really costs, we have to stand in the light of Calvary. Paul speaks of the church of God "which he pur-chased with his own blood." There can be no higher price than that.

IN YOUR CAR'S FUEL SYSTI

One Speck of Rust Can Stall your Car

Pictured above is a Carburetor Jet many times actual size. It shows how one tiny speck of rust or corrosion can stop the flow of gas through one of your carburetor jets and stall your car. Rust and corrosion particles in fuel systems can cause many other engine ailments such as stalling, slow pick-up, jerky operation, wasted gas and costly repairs.

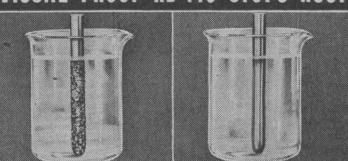

RD-119 Guards Against Stalling, Slow Pick-up, Jerky Operation, Repairs

Your car needs new BETHOLINE or SIN-CLAIR—containing RD-119—to guard the fuel system against rust and corrosion trouble and damage. HERE'S WHY: water collects in your gasoline tank—yours and everybody else's—as a result of moisture condensation. RESULT: the inside of your gasoline tank can rust while other non-ferrous engine parts corrode. Tiny rust and corrosion particles plug carburetor jets,

hamper fuel pumps, cause other troubles. The new, miracle chemical RD-119 in BETHOLINE & SINCLAIR coats the inside of your car's fuel system with an invisible protective layer . . . stops rust and corrosion ... protects your car's power and performance. DRIVE IN today for a tankful of Anti-Rust BETHOLINE or SINCLAIR. Both are power-packed.
