## LIONS CLUB MEETS

### Installation of Officers Takes Place

At the meeting of the Taneytown Lions Club held Tuesday evening last at the Taney Inn, Massey H. Rowe, retiring Lions District Governor of Hagerstown in his final address for the fiscal year just closed, as far as the Taneytown club is concerned, expressed his deep appreciation for the help and support given him by the club during his year as District Governor. Mr. Rowe, a living symbol of true Lionism and all it stands for, has worried untiringly, unselfishly and given many hours of his time, during his Governorship, for the advancement of all Lions clubs in his district. Even though it will be a great relief physically, he expressed a deep sorrow that his year at the helm of his district has now expired. During his one hundred and one official visits to lions clubs the past year has resulted in a strong friendship throughout the district which will be his consoling factor as he hands the reins to his successor, Lion Alvin E. Yaste of Cumberland. Mr. Rowe commended the club on its outstanding achievements during the last half of this year and made worthy mention of the excellent record set by all club secretaries in reporting their respective clubs monthly activities on schedule. Due honors was bestowed upon Lion Wilbur Thomas as he went forward and received from Mr. Rowe a gift, a token of appreciation from the District Governor, for his excellent, superb and proven qualities as Editor of the clubs semi-monthly bulletin. Lion Thomas has done a marvelous job in this capacity and as a result was elected to continue as Editor through the coming year.

Installation of the newly elected officers was in charge of the District Governor. After taking their oath of office District Governor Rowe then presented President Robert Feeser the gavel, symbol of authority, and wished each officer the utmost success during the new year. With such an active and capable group of men in charge the new year should be, without question, a year filled with happy experiences and success from which the community should benefit. The concluding service was also a pleasure to witness during which Mr. Rowe presented to twenty-five members the 100% attendance pins, emblem of 100% attendance throughout the year. President Feeser announced our next meeting July 11th to be in charge of the Citizenship and Patriotism Committee with Lion Rev. E. P. Welker, as chairman.

## CHAMBER OF COMMERCE MET MONDAY EVENING

### Will Hold Annual Outing on Thursday, August 10th

The June meeting of the Taneytown Chamber of Commerce convened last Monday night in the Municipal Building. This will be the last meeting of the season until September 25. The President, Merwyn C. Fuss, presented the newly elected Mayor, Raymond J. Perry. Mr. Perry thanked those who voted for him and announced that John Chenoweth had been elected president of his cabinet. He outlined plans for the future of Taneytown including an extended water main from the east end to the west end of town.

Edward Morrison reported on plans for the annual outing and picnic which has always been a big event among the members. The date set was August 10. This year the trip will be Washington, D. C. Busses will be chartered for that date and will leave town at 9:30 a. m. The trip will include a tour of the most outstanding places in Washington. Letters will be mailed out soon to ascertain how many members can go in order to know how many busses to reserve. From Taneytown the busses will go first directly to the National Airport where luncheon will be served around noon. Then the tour will take place. It will include a visit to a few select places of unusual merit such as the Lee Mansion Memorial, Bureau of Printing and Engraving, Botanical Gardens, Capitol and Smithsonian.

After the tour dinner will be served at Hogates at about 5 p. m. Then will come the big event of the day. The Chamber of Commerce will take the picnicers, without cost to them, to the major league ball game between Washington and Boston.

The financial arrangements for the outing this year appear very favorable to the members in spite of increasing costs. Each member will pay only \$2 toward his bus fare plus his own meals.

David Smith reported on the recent visit of the Executive Committee to the State Roads Commission. He said that the new road, by-passing Westminster, will include an extension toward Taneytown, coming into the present road at Rook's Mill. He also reported that the shouldering of the Keymar and Littlestown road, was a temporary expedient, and that a more permanent job would be done later when the next allotment was made.

The death of one of our members, Mr. Garrow, was reported by the president who said that flowers had been telegraphed to his funeral.

Murray Baumgardner reported on the proposed sidewalk to the new elementary school. He presented a favorable report about the recent visit to the County Commissioners, and the cooperation of the Board of Education, with reference to the undertaking. A verbal right of way for the walk from the respective property owners, he said, had already been secured.

It was reported also that the Chamber had sponsored the sending of Arthur Garvin to Boys State which opened last Friday.

President Fuss spoke about the Liberty Bell Caravan coming to town Tuesday noon to encourage the purchase of U. S. Saving Bonds in the drive to reach the quota for Carroll County. Since he could not be present for the occasion, he appointed Rev. Charles S. Owen to act as master of ceremonies and to present the new mayor.

Inasmuch as the distinguished speaker, advertised for the meeting, could not be secured, the Rev. Chas. S. Owen was asked to give a travelogue to Cincinnati as one of the Commissioners from the State of Maryland to the General Assembly of the Presbyterian Church. Mr. Owen told many interesting facts about the trip and what happened at the Assembly, including a tour of Proctor and Gambel, the largest soap factory in the world.

After the travelogue the meeting was adjourned to the Central Hotel where refreshments were served.

## GIRL SCOUTS GO CAMPING

The Girl Scouts of Troop I, Taneytown, had their first taste of primitive camping on the week-end of June 23-25, at Natural Dam. A camp site was established on Thursday evening preceding the arrival of the girls on Friday morning. The girls quickly adapted themselves to camp life by performing the various duties assigned them by scout mistress, Mrs. C. L. Pennington, who was ably assisted by Mrs. G. Ingram.

Delicious, well balanced meals, cooked on an open fire, soon vanished due to healthy outdoor appetites. In addition to various scout activities the girls took advantage of the pleasant weather by a goodly amount of swimming and sun bathing. The roasting of marshmallows and singing of songs around the campfire added to the gay atmosphere of the evening. Sunday was observed by the teaching of the Sunday School lesson and singing of hymns.

Respective visitors to the camp site were Mrs. M. Reid, Mr. and Mrs. J. Turner, Mr. and Mrs. Heiner and family, Mr. and Mrs. E. Reid and family and Mr. G. Ingram.

The Girl Scouts wish to extend their sincere appreciation to all those who assisted in making this pleasant week-end possible.

## LIBERTY BELL CARAVAN

### Arrived in Taneytown on Tuesday

The Liberty Bell Caravan, touring Carroll County, reached Taneytown on Tuesday at 11:15 a. m. Soon many children, and others, gathered around to see the bell and have the thrill of ringing it themselves. This historic emblem of American democracy, is a replica of the original. The Caravan for Carroll County was in charge of C. R. Fogle, of Westminster. He was escorted by Trooper First Class Glenn B. Markle. The driver of the truck on which the Liberty Bell was mounted was William K. Heiser of Woodlawn, Baltimore. Mr. Heiser won the award last year of the Champion truck driver of Maryland and came out in sixth place in the National Truck Rodeo at Boston.

The Caravan first stopped in front of the Mid-Town Electric store, then the Cambridge Rubber Company and the Taneytown Manufacturing Co. The replica of the Liberty Bell represents gifts from many parts of the country. The copper in it was donated by six copper companies, the steel by the U. S. Steel Company, the truck by Ford Motor Company, the Standard Oil Company, and the driver is donated by the Davidson Transfer Company.

The purpose of the Caravan is to stimulate interest in the U. S. Saving Bond Drive which ends on July 4. On the body of the truck beside the big bell, were these words: "Save for your independence. Buy U. S. Saving Bonds." The quota for Carroll County is \$73,500. Two thirds of this amount has already been subscribed, Mr. Fogle said. He reported also that Carroll County has never yet failed to reach its quota in any similar undertaking.

What is taking place in Carroll County is being duplicated also in all of the 2500 counties in America. Replicas of 52 similar Liberty Bells have been made with which to tour America. When the drive is over these bells will go to the respective states, one for each of the 48 states, and one each for Washington, D. C., Hawaii, Alaska, and Virgin Islands.

For the visit in Taneytown, Rev. Charles S. Owen was asked to act as master of ceremonies. After bringing thanks to the Caravan for coming to Taneytown, and greetings to the people, and presenting the mayor, he rang the Liberty Bell seven times in token of the fact that Maryland was the seventh state to ratify the Constitution. The new mayor of Taneytown, Raymond J. Perry addressed the audience as follows:

Fellow towns-people and Carroll County citizens: Taneytown is one of the 2,500 communities, towns and cities in our nation which during the past two weeks and in the next week shall be acting as hosts to one of 52 copper bells which are exact copies of the Liberty Bell of history which was cracked in 1835.

Ours is the rare privilege in the few minutes of an hour while the bell shall be with us to recall the many years of outstanding history associated with the only bell in the world to which all men take off their hats.

That bell which weighs slightly over a ton challenges the citizens of America today to be possessed by the spirit which was so strongly evidenced in the sacrifice and devotions of the first settlers of America. They came here to build a free America, and did it. They did a real job with their limited resources. Our responsibility is to keep our land free and independent in the years that are still to be.

The freedom of our land and the independence of its people must be as lasting as is the copper of which that bell is cast. When we would of independence in America, we would think of an independence which makes no discriminations. For all men there must be independence that is political, social, national and financial. Don't all of us want to see these things? Certainly we do.

As that bell speaks to you and all American citizens in this brief period, it is challenging us to enter into the Independence Savings Bond Drive NOW in order that that our future may be secure and our nation may remain free and independent.

## REPORT OF MEETING OF CARROLL CO. HISTORICAL SOCIETY

An executive meeting was held in Westminster at the home of the Carroll Co. Historical Society June 22nd. At this time reports of the committee on work done in restoring and modernizing the kitchen were heard and acted upon. After which all enjoyed a pre-view of said kitchen and pronounced it perfect. The afternoon of July 7th was decided on for the "Annual Garden Party" and Open House, when all can see the results of work and intellectual planning.

There was discussion regarding a note which has been in local papers in an effort to interest someone of pleasing personality and gracious manner who would enjoy living in this delightful old house and would help to catalog and care for its treasures.

It was suggested, as a fine beginning toward a future genealogical department, if those who could find the time, and were so inclined, would write up their family histories. There are many inquiries coming in constantly.

A nominating committee was appointed to report at the fall meeting, after which we adjourned.

## THIS 'N' THAT

### (Your Chatty Column)

With all my heart, I wish you every morning A smile that shall last until the next day's dawning. I wish you health—life's greatest wealth! I wish you always near so that I may help to cheer Each future day and in some way—help to bring you happiness!

The neighbors across the street would come over to the shady side and sit on our steps and bring their only child—a growing daughter who was my best friend and in their hands, they carried the fire works! The adults just sat there and watched the kids light their packs of shooting crackers but the real high-light began when my Beloved Dad handed me his '32' to shoot skyward! That was the Fourth of July along a row of city houses in Philadelphia!

Calling all the Irish! God Bless them! Your Observer holds a special reserved corner in my heart for the Irish! Now, this is a true story! An Englishman who was a Gentleman Boxer arrived from Lancaster, England to visit his sister who resided in Philadelphia. He arrived on the Fourth of July and it so happened that his sister was not at home. So the young man sat down upon the step to await her return and was bewildered at all the plucked up courage enough to ask the big Irish lady who was standing on the top step of her front door next door. "I beg your pardon, Madam but I am most curious to know about all the celebration. Would you kindly enlighten me, please?" The quick reply, "Wall now, don't ye be telling me that ye don't know what this dey is of all deys?"

A big grin spread over the good natured Irish face when she saw the puzzled expression on the Englishman's face. Placing her hands upon the broad hips she continued, "Well, I never!" and with a disgusted last glance waving her hand as she turned to go in the door, she glanced quickly over her shoulder and with Irish sarcasm laughingly said, "Why, lad this is the day we beetcha!"

Folks, do you really know that the English never teach their pupils that America won the big war and that from a real Englishman! I looked at him in astonishment and then this came, "Well Americans don't really know what 'Guy Fox Day' is which we celebrate in England!" Nuff sed!

Years ago it was known the world over that the Englishmen were the biggest sports in any country and their technique of Gentlemen Boxing was out of this world but Your Observer recently saw Lord Leslie with Jim Londo's friend on the wrestling mat on T.V. and was my face red!

He actually kept telling our referee how to count as he did not count fast enough to suit that Englishman! There never will be and never was a more fair wrestler than Argentine Rocca. The American public is going for him in a big way! He is loved as much as The Duke of Windsor! That reminds me! Did you read "The King's Story" in a complete novel in "Life"? The book will be out soon. Better get that one.

Do you recall the names and signatures of the signers of the Declaration of Independence on July 4, 1776? There were four from the State of Maryland, Charles Carroll, William Paca, Thomas Stone and Samuel Chase. These four portraits hang on the walls of the spacious Rotunda of the old State House, two on either side in Annapolis. There were fifty-six names in all—one name larger and bolder than the rest and that is something you have often heard—which means, "Sign John Hancock right here on the dotted line!" That is really where the original saying came from due to the bold signature of the latter.

On Tuesday, July 4-'39' Ginger Rogers was in Radio City playing, "Bachelor Mother" in Music Hall in N. Y. with David Niven, Irene Dunn with Fred Mac Murray in "Invitation to Happiness" and Greer Garson, "Goodye, Mr. Chips", Virginia Bruce and Walter Pidgeon in "Stronger Than Desire" and "Cavalcade" with Clive Brook and Diana Wynyard!

In the flag room in the Old State House is the only Star-Spangled Banner in existence known to have been carried in battle during the War of Independence. The flag was carried by the Maryland Troops during the War of the American Revolution and is thought to be the oldest U. S. flag (Continued on Eighth Page)

## KIWANIS CLUB OUTING

The Kiwanis Club held their annual outing at Big Pipe Creek Park, on Wednesday evening, June 28th, starting promptly at 6:45 P. M. About 30 Kiwanians and their ladies were present.

After a delicious buffet supper, served by the "Albaughs" of Taney Inn, Norman Graham, chairman of the outing, announced that a "soft ball game" would be the feature of the evening festivities. "Lefty" Crumbacker's Crushers" thought they had something soft when they met "George Shower's" "Shellackers," but after a "tight" pitchers battle, between "Lefty" (who was relieved by Dr. Legg in the 3rd inning) and "Doc" Hopkins, the game was called "and on account of "sore muscles" (and for safety of the players) with the score tied at 47 all. A good time was had by all.

Next week's meeting will be in charge of Wm. Hopkins, of the Education and Fellowship Committee and will be held at the Taney Inn on Wednesday, July 5th, at 6:30 P. M.

## HISTORY THE BUNK

I think it was Henry Ford who said, "history is the bunk." Be that as it may, history is the only means we possess by which we are enabled to compare the present with the past. The history of the world unfortunately is the history of wars, since the dawn of history no single age can be named in which wars did not predominate. War seems to be the lot of mankind. Almost every family in America can point to one or more members who have been engaged at wars. Many have come back unharmed. Many remain where they fall.

I hate war and long for the day when the sword shall be beaten into the plow-share, and the spear into the pruning hook but I fear that day will not come during your life time and mine. Civilization is beginning to learn that arbitration is better than conflict hence there is hope that in time men shall learn to war no more.

Let's hope so!

## YOUR POSTMASTER ISN'T TO BLAME

Washington, D. C., June, 1950—Everybody in the United States depends upon the Post Office Department. Now the Department strikes against the public. There is enough money in the United States Government to improve the mail service—instead of ripping it all apart. It is shameful to relate that a piece of mail that used to arrive overnight may be delayed three days before it arrives at its destination.

The private telephone and telegraph system are taking up the slack caused by the scandalous curtailment in the Post Office Department. There is no common sense in this cut-back in the mail service—now for the first time on a broad scale in the history of the Post Office service.

Has the time arrived when this proud boast engraved in stone on many of our Post Office buildings should be chiseled out? "Neither rain nor snow, nor heat, nor gloom of night stays these couriers from the swift completion of their appointed rounds." But the Postmaster General's order does.

There isn't any common sense in the cutback of the mail service now being made for the first time on a broad scale in peacetime history. All of a sudden, after 175 years of progress, the Post Office Department has fallen down. While Government offices all over the District of Columbia are bulging with hired help, the greatest peacetime service we have is cut down by political chiselers. The slow-down of the mail hits both businesses and individuals. A letter that used to arrive over-night may be in the mails three days now. That isn't common sense.

Newspaper correspondents seldom offer "advice", but this once, we suggest: Write to your Congressman and Senator and object to needlessly slowing down the United States mails.—J. E. Jones.

## THE COUNTRY PRESS SAYS

ARTESIA, N. M., ADVOCATE: "A total of 19 states in the nation have adopted resolutions calling for the limiting of Federal spending to 25 per cent of income and efforts are being made to obtain approval of 13 more states to give the necessary three-fourths to make it mandatory for Congress to submit a constitutional amendment."

ASTORIA, OREGON, BUDGET:

"There is a tendency for the Federal government to step in and take over functions which local taxing bodies cannot perform because the voters won't give them the necessary money."

"The fact that the voters have indicated they would just as soon do without such functions by voting down the taxes for them is no deterrent to the Federal government."

MORGAN CITY, LA., REVIEW: "While basic material prices are rising and advances are being announced for numerous finished products at the manufacturer and distributor levels, the retail merchant generally is doing business at the old prices. Spending has not been carefree along Main Street Plenty of goods are moving, but the customer is choosy."

KNOXVILLE, IOWA, EXPRESS: "If the government places shackles on the three largest meat packing companies it would not be long before shackles would be placed on the next ten or twenty meat packing companies and so on down the line. It would be next to impossible to socialize an industry like the meat packing business without placing the source of the raw material under socialistic control. You farmers in... the entire nation better think about this and think hard before it is too late and not let socialism in this country go to such an extent that it cannot be stopped."

GORDO, ALA., PICKENS PROGRESSIVE AGE: "Public ownership or control of enterprise, public operation of a profession such as medicine, public financed housing for able bodied citizens, any enforced distribution of wealth that denies property rights; these are all standards of Socialism in any Socialist textbook."

## SEEKS RE-ELECTION

Congressman Wm. P. Bolton

I have today filed for re-election to the House of Representatives from the 2nd Congressional District with a much clearer realization of the duties incumbent upon a Member of Congress than I had two years ago. These two years of experience have given me an insight into the workings of the legislative and executive departments of the government, our national defense program, the complex problems dealing with our foreign policy, and the many ramifications of our national economy. Because of the experience gained as your Representative in the 81st Congress I feel that I am in a much better position today to represent you than I was when elected in 1948.

The 2nd Congressional District comprises Baltimore, Harford, and Carroll Counties, the 15th, 16th, 26th, 7th, 9th and precincts 1 through 8 of the 25th ward of Baltimore City containing in all about 700,000 population. It is composed of great farm areas, tremendous commercial, industrial and manufacturing enterprises, large wholesale and retail areas, marine and shipping interests, and city and suburban residential communities.

The 2nd District population, however, represents a wonderful cross-section of American life and I have been more than fortunate in having the suggestions and honest criticism of my constituents in all walks of life. Their advice has been most instructive and helpful and I have been deeply grateful to all those who took the time to write me about legislative matters pending in Congress.

If we are to maintain our democratic form of government we must try in every possible way to confine our expenditures to our national revenue. We must insist upon the continuation of our system of private enterprise as opposed to government control. We must impress upon the American people that we cannot increase governmental spending on one hand, and reduce taxes on the other; and our people also must realize that deficit financing is a most dangerous policy. Government borrowing decreases the purchasing power of the dollar and tends toward runaway inflation. Our Budget should and must be balanced in order to protect our domestic economy.

It has always been my policy in any campaign not to criticize any opponent, and I certainly do not intend to inject any personalities into this campaign. I am a staunch believer in our two-party system in this country, and I recognize the right of any American citizen to be a candidate for any office—free and unhampered. I sincerely hope this campaign may be conducted on an impersonal level and that we will all emerge from the Primary Election good Democrats, no matter who may be the victor.

I am deeply grateful to the many who supported me so faithfully in the last election and shall appreciate their continued support in the coming primary.

## Let's Think

by G. H. ENFIELD

### A NEW HEAVEN AND A NEW EARTH

Anything new makes a new appeal. A new car, a new house, or a new baby, attracts the eye and elicits comment. Those who feel they own the old earth surely have a different feeling when they possess a new earth! But lest you fool yourself, remember, that the new earth is a spiritual possession. The old earth is material. The new earth can be a new value placed on old things.

A new heaven and a new heaven go hand in hand. A person cannot come into possession of the one without coming into possession of the other. Isaiah and John both speak of the two together: A new earth and a new heaven.

Where are we to find the new earth and the new heaven? We are to find them within ourselves. They are not exotic possessions. They are blissful rewards of a blissful life. The new earth and the new heaven are results; they are heart qualities, mercy, sympathy, and acts of love, they are the measurements of love between one's self and one's neighbor. A new earth and a new heaven issue as one goes about doing good. Can one perform a noble act, do you a favor, without creating something new? New hopes, new aspirations, new outlooks, new affections. Do these not belong to the new earth and the new heaven?

A new heaven and a new earth do not imply the destruction of the present physical earth. It has nothing to do with the material universe. It is a figure of speech to express an era in which evil and distress no longer exist. When John speaks of "a new heaven and a new earth" he is not suggesting that a new world, a new physical universe of stars, moon, animals, plants, and minerals, are to be created. But he does mean that a new age is to dawn so much better, and more glorious, and more in keeping with the ideal heaven we now know, that it may well be described in the words of Isaiah as "the new heavens and the new earth." It will be a time of joy and peace. The prophet Joel had this period in mind when he uttered: "Proclaim ye this among the Gentiles; Beat your plow shares into swords, and your pruning hooks into spears; let the weak say, 'I am strong.'"

Obedience to God's will qualifies one for citizenship in the new heaven and the new earth. Every man decides where his soul shall dwell, and what shall dwell within his soul.

## INDEPENDENCE

July the Fourth—all people say  
Is reckoned Independence Day—  
Day our forefathers long ago  
Pulled back the string of the long bow  
That shot the arrow hence to show  
The whole world—far and near—  
That we held freedom very dear.

## THE DAY IS DONE

The day is done, the hour gone  
But Independence still rolls on  
And will continue thus to do  
While we the Citizens are true blue.  
We have the men, we have the might,  
We have the impulse to do right,  
But, when others our rights restrain,  
They'll find they have but little gain.

**SCHOOL NEWS**

Many Carroll County teachers will be attending summer school; the county supervisor staff is arranging for workshops to be conducted at various times during the summer months directed at the improvement of planning the assembling of teacher materials for the school year 1950-51. The fall term will open on Tuesday morning, September 5th. During the week prior to the opening teachers will be engaged in working in their respective schools and attending various meetings which will be organized on a county level for the teaching staff of 1950-51.

The Board of Education makes announcement at this time of the retirement of two Carroll County teachers, Miss Estie Bosley of Finksburg, Md., at present principal of the West End school in Westminster will be retiring as of July 1, 1950. Miss Bosley has been a long time resident of the Finksburg community, and is a graduate of the Franklin High School. She has studied also at Johns Hopkins University, The University of Maryland, and Western Maryland College. Her teaching career in Carroll County began in 1913 there she was assigned to the principalship of the Pine Knob School in Freedom District. She has served as principal of the Pine Knob School, The Mexico School, and was for a number of years the principal of the Finksburg Elementary School. Miss Bosley has also served as teacher in the Charles Carroll Elementary School, and the Pleasant Valley School. She was appointed principal of the West End School in 1938 and has been in charge of this school for the past twelve years. Her services in Carroll County has been noteworthy, and there are many friends among teachers and pupils who will regret her decision to leave the service at this time. Miss Bosley expects to spend her retirement years in her native home at Finksburg.

Another announcement is made by the Board of Education of the retirement of Mrs. Arintha Marsh, present fifth grade teacher at the Elmer Wolfe School at Union Bridge. Mrs. Marsh has a continuous record of teaching in Maryland schools since 1904 when she began her teaching career at the Roesville Elementary School in Somerset county. Mrs. Marsh served as principal of several elementary schools on the Eastern Shore including those at Rhodes

Mrs. Marsh made many friends among the teachers and pupils of the county schools, and her decision to leave the service will be regretted by her many friends. Mrs. Marsh expects to spend her retirement at the home of her daughter Mrs. Geo. Cramer in Union Bridge.

The Board of Education extends to both teachers its appreciation for their loyal and devoted service to the schools and children of Carroll county.

**REPORT ON THE GIRLS' SOFTBALL PLAYDAY**

The second successful playday sponsored by the women teachers of the Carroll County Physical Education, Health, and Recreation Association was held on June 2, 1950 at Westminster High School, Westminster, Maryland.

This playday was the culmination of the girls' intramural softball programs held throughout the county. Each school in the county was invited to send one team of girls to the playday, each girl to play a different position. Although ten players on a team is not in accordance with the

N. S. W. A. rules, we played with a short fielder to give one more student a chance to participate. Eight schools were represented: Elmer Wolfe, New Windsor, Taneytown, Mt. Airy, Sykesville, Hampstead, Manchester, and Westminster.

Upon their arrival, the girls chose colored slips of paper and formed eight teams: blue, black, green, yellow, orange purple, red, and grey. The girls' Physical Education teachers acted as the umpires for the games. The teams were paired off and after the first round, the black, green, yellow, and grey teams were the winners. After the second round, the green and yellow teams played the final game (officiated by Mr. S. M. Jenness and Mr. H. G. Curd) leaving the yellow team as the champion for the day. The members of that team were: Ruby, P., Mt. Airy; Baust, C., New Windsor; Fair, 1b., Taneytown; Simpkins, 2b., Manchester; Deardorff, 3b., Westminster; Angell, B., ss, Taneytown; Tenney, sf, Westminster; Lee, lf, Hampstead; Fisher, cf, Sykesville; Blackston, rf, New Windsor.

And now we read about tapping the seas for "oceans of food" that have never been tapped. Dr. Bergmann, Yale University, chemist, of New York, states that the oceans and seas in the not too distant future, may be a source of new wonder drugs—medicine that may even exceed the powers of penicillin and the sulfa drugs. Bergmann estimated that there are 300,000,000 cubic miles of water in all the oceans and contains 117,000,000 million tons of common salt in one cubic mile. Beside the salt the following could be

taken from a cubic mile of sea water, six million tons of magnesia, 4,000,000 tons of potash, 300,000 tons of bromine, 2,200 tons of iodine, 200,000 tons of borate, 900 tons of iron, 450 tons of copper, 70 tons of uranium, 15 tons of silver and a nice chunk of gold. Well we hope that Dr. Bergmann's dream comes true, and that some day there will be a cure for all dreaded diseases.

**New Betholine & Sinclair**  
**Breaking Records**

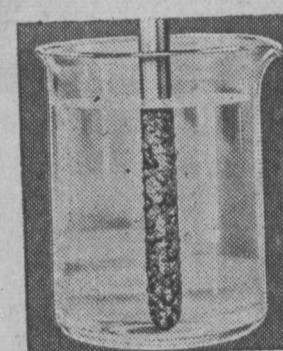

**World's First Anti-Rust**  
**Fuels with RD-119**  
**Selling at Record Rate!**

There's a big swing to NEW BETHOLINE and NEW SINCLAIR. Smart motorists tested NEW BETHOLINE and NEW SINCLAIR against their former fuels and they're coming back for more and more . . . and no wonder! NEW BETHOLINE and NEW SINCLAIR are the World's First *Anti-Rust* Fuels. They have the *Highest Anti-Knock* in history. They're *Power-Packed* with High Octane components. They're *great* fuels and they're selling at a *record* rate.

**More Than Ever POWER-PACKED**

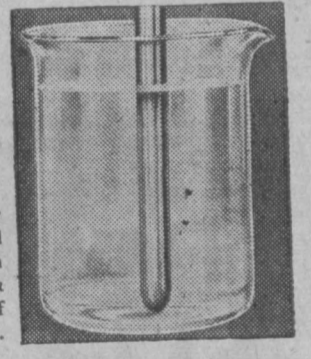

It takes skillfully-blended, great gasolines to release the amazing power of modern high-compression engines. That's just what you get in NEW BETHOLINE and NEW SINCLAIR. More than ever, they're power-packed with volatile High Octane components to give you *fast getaway* in traffic . . . *smooth surging power* on the open highways . . . *reserve pep* for instant response on hills. Add all this to the highest anti-knock in history and you've got really great fuels. Test NEW premium BETHOLINE or NEW regular priced SINCLAIR . . . each is a leader in its field. Find out for yourself why they are winning more and more Maryland motorists . . . breaking all sales records.

**START NOW to STOP RUST!**

**HERE'S PROOF**

**← RUSTED** (left) During prescribed laboratory test, this steel rod was rusted in ordinary gasoline containing a small amount of water.

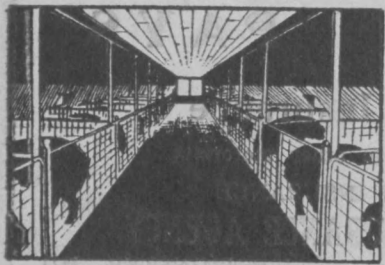

**→ PROTECTED** (right) During the same test, this steel rod was protected from rust in new BETHOLINE & SINCLAIR containing the same amount of water plus Anti-Rust RD-119.

**RD-119**, the miracle Anti-Rust chemical in new BETHOLINE & SINCLAIR gasolines, guards your fuel system against rust and corrosion. Here's how: water collects in your gas tank—yours and everyone else's, due to moisture condensation. Result: the inside of your tank can rust while other non-ferrous engine parts corrode. Rust and corrosion particles in carburetors and fuel pumps are frequent causes of stalling, slow pick-up, jerky operation, wasted gas and costly repairs. Start now to stop rust. Drive in at the BETHOLINE-SINCLAIR sign.

# DON'T BE FOOLED!

WARTIME EXCISE TAXES WILL NOT BE REPEALED OR REDUCED

UNLESS

CONGRESS FIRST FINDS REPLACEMENT REVENUE

BY TAXING THE UNTAXED

The politicians—in an election year—are trying to fool you into believing they are trying to repeal or reduce wartime excise "nuisance" taxes that you are still required to pay on everyday needs and minor luxuries.

PRESIDENT TRUMAN HAS AGAIN FLATLY STATED HE WILL VETO ANY EXCISE TAX CUT UNLESS CONGRESS REPLACES THE LOST REVENUE BY CLOSING EXISTING TAX LOOPHOLES OR BY INCREASING INCOME TAX RATES.

Any proposed legislation that purports to repeal or reduce excise taxes without FIRST making up the lost revenue is just so much eyewash intended purposely to fool you and give the politicians an "out" in an election year. Furthermore, closing tax loopholes will produce more than enough NEW revenue to balance the loss resulting from excise repeal or reduction—NO INCREASE IN INCOME TAXES IS NEEDED.

DON'T BE FOOLED!

WRITE YOUR CONGRESSMAN AND SENATORS TODAY. THEN CLIP THIS AD, SIGN YOUR NAME ON IT, AND MAIL IT TO THE WAYS & MEANS COMMITTEE, HOUSE OFFICE BUILDING, WASHINGTON, D. C. DEMAND THAT EXCISE TAXES BE REPEALED OR REDUCED AND THE LOST REVENUE REPLACED BY TAXING THE UNTAXED—NOT BY INCREASING YOUR INCOME TAXES. Tell them to tax the untaxed FIRST.

Prestomatic Fluid Drive Transmission consists of three compact units . . . gyrol Fluid Drive, the Safety Clutch and Prestomatic Transmission. Each unit is designed with a minimum of moving parts, and each unit is ruggedly built to give trouble-free service for the lifetime of the car.

Make no mistake! Although most cars use the Fluid Drive principle that Chrysler first introduced 12 years ago—there's an all-important difference in automatic gear shifting today! Chrysler and only Chrysler gives you full control of your car. While others shift you up and down—even when you don't want to shift—Chrysler's simple, cool-running transmission takes its orders from you. ## Black and White

Lesson for July 2, 1950

A GROCER in Minneapolis received a letter from a former customer who had left the city owing a large grocery bill. "I have been converted in a revival here," the letter said, "and I want to make everything right in my life that has been wrong." Enclosed there was a certified check for the old bill. The grocer wired back: "Who was the evangelist who converted you? We need him in Minneapolis."

Dr. Foreman

Conversion is God's operation on the heart. No one can actually see the heart, but if the operation is successful, the symptoms of disease will disappear and the symptoms of health can be seen by any one. The patient is a new man.

### Jacob Black

PERHAPS the most notable case of conversion in the Bible, aside from the Apostle Paul, is the man named Jacob. His life is a study in black and white; up to a certain point hardly anything good could be said of him, but after that point he can hardly be accused of anything bad.

All his younger days he was principally noted for giving trouble to other people and "doing them out of" something he wanted for himself. First he tricked his older brother into selling him the family birthright, for the ridiculous price of a bowl of soup (potage).

You would not think any one would sell his birthright; but Jacob caught Esau when he was dog-gone hungry. . . . Then we see him outsmarting his brother again by birthright; Jacob was by that time a shameless liar and thief. It became so hot for him at home that he had to leave town.

We have a glimpse of him on his journey, dreaming about a ladder to heaven. Evidently his conscience did not trouble him. Indeed, he proceeds to bargain even with God; if God will prosper him, he says, he will see that God gets ten per cent. God did indeed prosper him; but he grew no better for it.

The rest of his life, for the next twenty years, is one piece of trickery after another, he and his uncle Laban taking turns trying to out-smart each other, with Jacob usually coming out ahead.

### Jacob White

THINGS came to a climax on the night when Jacob, fearing death at Esau's hands, arranged his family to go ahead of him, keeping himself in the safest place in the rear. . . . and there at last he came face to face with God.

The story of his all-night struggle at the brook Jabbok is a strange one; but one thing is certain. After that night even his name was changed, for the man himself was a new man.

He is patient in trouble, no longer resentful. He is not only a good man himself, he does his best to help others. He conducts what can only be called a family revival; he persuades one and all to give up the idols they had been worshipping and turn to the one true God. He offers sacrifices, like his fathers before him.

He goes down into Egypt at last, a humble man, no longer the conceited young crook he had been when he went to Padan-Aram. He depends now on God and not on himself.

### The God of Jacob

A FAMILIAR Psalm carries this refrain: "The God of Jacob is our refuge." Why the God of Jacob, not Abraham nor Isaac? Well, if it were only the God of Abraham, most of us might as well give up. For Abraham was a great genius, a man such as appears scarcely once in a century. Or if he were the God of Isaac only, we would be led to think of him as caring especially for the weak-minded, the lame and the lazy. But Jacob—just a plain man full of meanness? Yes; the same God who changed him can change the meanness of us.

The real test of religion is not what support it can give to noble souls, or what comfort it gives to the weak. The real test of religion is: Can God turn black into white? Can God take an ordinary, conceited, slippery customer and make a good man of him? The God of Jacob can do this; and he is the God most of us need.

## Facets of Freedom

July 4

Liberty is the one thing you can't have unless you give it to others.—William Allen White.

Democracy means not, "I am as good as you are," but "you're as good as I am."—Theodore Parker.

As I would not be a slave, so would I not be a master.—Abraham Lincoln.

Those who expect to reap the blessings of freedom must, like men, undergo the fatigues of supporting it.—Thomas Paine.

Eternal Vigilance is the price of liberty.—John Philpot Curran.

Is life so dear, or peace so sweet, as to be purchased at the price of chains and slavery? Forbid it, mighty God! I know not what course others may take, but as for me, give me liberty or give me death! —Patrick Henry.

No man is worth his salt who is not ready at all times to risk his body, to risk his well-being, to risk his life, in a great cause.—Theodore Roosevelt.

I have not yet begun to fight.—John Paul Jones.

The sacred rights of mankind are not to be rummaged for among some old parchments or dusty records. They are written as with a sunbeam in the whole volume of human destiny by the hand of divinity itself, and can never be erased or obscured by mortal power.—Alexander Hamilton.

For what avail the plough or sail, Or land or life, if freedom fail? —Ralph Waldo Emerson

Liberty will not descend to a people, a people must raise themselves to liberty; it is a blessing that must be earned before it can be enjoyed.

They that give up essential liberty to obtain a little temporary safety deserve neither liberty nor safety.—Benjamin Franklin.

I only regret that I have but one life to lose for my country.—Nathan Hale.

What is liberty? Liberty is an elusive thing. It isn't a thing that you can lock up in the safe, turn the key and go away, and expect to find there when you come back. Eternal vigilance alone is the price you pay.—Alfred E. Smith.

The accompanying map from the Maryland State Roads Commission shows in dotted lines the approximate route to be followed in the 3.4-mile extension of dual highway along U. S. Route 140 between Reisterstown and Westminster. Bids for this project were opened by the Commission recently and award of the contract will be made in the near future. The work includes, drainage and surfacing of two 24-foot traffic lanes separated by a 50-foot center parkway. The heavy double lines extending south from the new project in the sketch show a portion of a 3.5-mile project now under construction along Route 140. The latter job is being done by the Nello L. Teer Company and was started last January 26. When the two projects are completed, motorists using this route will have a dual highway available for virtually the entire distance between Reisterstown and Westminster.

**THIS 'N' THAT**

(Continued from First Page)

in existence made in accordance with the Act of Congress June 14, 1777.

It was positively known to have been carried as the Regimental Flag of the Third Maryland Regiment under John Eager Howard at the battle of Cowpens, S. C., in Jan. 1778 in which battle it was carried by William Bachelor. Bachelor was wounded in this battle and sent to his home in Baltimore bringing with him the flag! When the British invaded Maryland in 1814, this flag which had remained in the Bachelor family was again carried at the Battle of North Point by Bachelor's son, William who was a member of the 27th Regiment Maryland Militia! It was carried in all the parades by William Bachelor up to 1840 when the regiment organization expired. He died in 1885 at the age of 99. The flag remained in the family until it was presented to the State of Maryland at Annapolis October 19, 1907.

Now, here is a funny one, Folks! Bachelor's dad was born in Kingston, Virginia British West Indies was named for George Washington and named in which he first saw the light of day was draped with a large American flag as his Mother (My grandmother—Caroline DeSousa de Mendonca looked on)! Umph!

Did you know that Marjorie Main recently played in "Ma and Pa Kettle" was from Littlestown. Since she was in California she has never visited the grave of her husband on Decoration Day!

Recently when visiting the Congressional Library in Washington I saw in the main entrance in a glass case the original written music of the "Star Spangled Banner" by Francis and John Philip deSousa and his brother-in-law, The Stars and Stripes.

"Family affair" and a nice one that in Westminster of the town where home-made foods are so inviting! The mother is the father is manager, the cashier and the brother waits tables! The atmosphere is most pleasant and restful with the quiet decoration throughout!

Coming of Westminster, have you seen "The Looking Glass," ladies? That score in a later column

was hail out the 71 Highway during the storm on Wednesday, June 21 and the white pieces were as big as quarters!

That was too bad about the young man (truck driver) out Keyway who laid his wallet containing \$64.00 on a fender of another truck and did not realize it until the next morning and the truck went on!

Remember, "Mary had a little lamb, It's fleece was white as snow, and everywhere that Mary went, the lamb was sure to go?" That was not a Fairy Tale, Folks but a true tale and here it is! Mary Sawyer was the daughter of a farmer born in 1806 near Sterling, Mass. One cold winter morning when she was five years of age, she went out to the barn with her father and there she found a new born lamb deserted by its Mother and nearly dead. Mary begged to take the little creature into the house where her Mother fed the starving lamb. Mary sat by the fireside all night holding the little lamb in blankets and by morning it had become quite strong again. By evening it was frisky enough to return to the barn where Farmer Sawyer made it a snug nest. By the time that warm weather arrived the lamb was fine, plump and playful. Mary's older brother teased her about the lamb stating she would not be able to go to school in the Fall without the lamb. Mary took along her lamb and the little creature lay quietly under the desk until Mary was asked to recite in the front of the room. It was then that every one heard the clatter of little hoofs as Mary's little lamb had followed her to the front of the room. The lamb was banished to the woodshed and Mary placed in a corner of the room. A young poet was visiting the school teacher at that hour whose name was John Roulstone and the next morning he rode on horseback to call upon Mary and present her with the poem which became famous from that year with the additional verse—"And it followed her to school one day, which was against the rule. It made the children laugh and play, to see the lamb in school!"

So long, Folks. Have a safe and sane Fourth! Be careful and be good! Will be seeing you next week. Until then D.V. I am, Faithfully,
