

A Great Offer.

In our advertising columns on the fourth page will be found the greatest combination offer ever made by any paper in this county. A first class New York paper every day in the week, for only \$1.50, when taken in connection with the RECORD. New subscribers get the two papers one year for \$2.50. Old subscribers may have the same opportunity, by paying their present subscription to the RECORD one year in advance from the date of the expiration of the present year, and \$1.50 additional for the New York *Morning Advertiser*. Sample copies of the *Advertiser* may be had at this office. Read the announcement.

LOCALS AND PERSONALS.

After the Rinehart article comes the history of New Windsor.

Mr. Chas. E. H. Shriver commenced work on his new addition on Monday.

Mrs. Geo. W. Fox of Littlestown, is visiting among her many friends in this place.

Miss Margaret Robb Fox of Washington D. C., is visiting Miss Anna Mary Motter.

The proceedings of the last meeting of the School Board are of interest to our district.

Don't forget that bundles of 100 or more old newspapers may be had at this office for only 15 cts.

A heavy thunder storm, accompanied with strong wind and heavy peals of thunder, passed over this section on Thursday afternoon.

Mr. J. J. Garner, a former citizen of this place, has opened an ice cream parlor at Linwood, for Saturday afternoons and evenings.

In our next issue will appear a detailed account of the C. E. Convention which convenes here just as this weeks paper goes to press.

Mr. George Null, formerly of our district, but for the past four years living in Dixon, Illinois, is visiting his father, Mr. Daniel Null, near town.

Mrs. G. W. Clabaugh and Mrs. Dr. Hewson of Philadelphia are at "Antrim," where they will spend several weeks. Mr. and Mrs. H. M. Clabaugh and family will come in June.

The body of Young Fitz who was drowned last Tuesday a week, at Maxell's mill, was found on Sunday afternoon last. For particulars see our Bridgeport correspondence.

At the annual session of the Maryland Pharmaceutical Association held in Baltimore this week, Robert S. McKinney of this place, and L. H. Diehlman of New Windsor, were elected among other new members.

The Governor has been petitioned to pardon Mr. Reuben F. Bittle, formerly of this district, who was convicted two years ago of attempting to poison Miss Angell. His sentence of four years does not expire until June 6th, 1897.

Dr. Charles Thomson, wife and daughter are visiting friends in Middleburg. They have been in the west for the past nine years, and expect to make their home in "old Maryland" again. The doctor expects to locate at Oakland Mills.

The corporation election passed off very quietly, there being no contest. This is the first time that there has been an election since the late members of the old board were re-elected. H. D. Mehring, Burgess; Dr. Geo. T. Motter, Wm. J. Roberts, E. K. Keaver, Edward Kemper and Joshua Koutz, commissioners.

The Republicans of this district contemplate forming a Republican League Club, which will be regularly officered and be a member with representation in State League Conventions. There seems to be no difficulty to get members, but to secure a suitable hall for the meetings is not so easy. It may be that an arrangement, with restrictions, may be made for the use of the Lodge hall in the Eckenrode building.

Through the courtesy of Mr. G. W. Clabaugh of Omaha, Nebraska, we have received a copy of the *Omaha Bee* of May 1st. It is a monster issue, being 28 pages edited by the ladies of the city; the revenue from this special edition is to be devoted to some object of charity. There is evidently a considerable amount of literary ability, and knowledge of art in this far western city, judging from the variety of topics included and their general excellence.

The "Twice-a-week" edition of the *New York World*, (formerly the *Weekly*) has proved a phenomenal success. It is a Semi-Weekly of six pages, mailed Tuesdays and Fridays; eight columns to the page; forty-eight columns each issue. It gives the news fully half a week ahead of any weekly paper, and, at the same time, retains all the literary, agricultural, miscellany and other features which made *The Weekly World* so popular. Yet the price is only One Dollar a year. Arrangements have been made by which we can furnish this paper at the *Twice-a-Week New York World* all for \$1.50 a year. Take advantage of this offer and get your own local paper and the *Twice-a-Week World* at this special rate.

During the thunder gust on Thursday afternoon, lightning struck in the barn on the farm of Mr. E. O. Garner near Copperville. The bolt struck in the comb of the roof on one gable end, and a portion of it went straight down and into the stable; the main force of it, however, ran down the edge of the roof, tearing off shingles and splintering a rafter until it reached the spouting, when it followed that to the other end of the barn. It then took a downward course, striking a downward course again, and came out through the end wall, striking a bullock which was close to the wall, killing it instantly. Mr. Percy Garner and Mr. Fogle were also at the end of the building only a few feet away from the course of the bolt, and the former was severely shocked. Fortunately the building did not ignite, possibly the rain which was falling, saved it.

NOTES HERE AND THERE.

The Annual re-union of the Reformed church will be held at Pen Mar on July 18th.

Senator Thos. G. Hayes is making a tour in his interest for the gubernatorial nomination.

The bonded debt of Frederick city is \$347,000. Of this, \$70,000 is the remaining cost of the city waterworks.

It is announced with some degree of proper authority, that Gen. H. Kyd Douglas of Hagerstown, will soon marry Mrs. Nellie Grant Sartoris.

The municipal election in Westminster resulted in favor of what was termed the Electric light ticket, headed by ex-mayor Milton Schaeffer; the majority was about 200.

John Dorsey, a colored citizen of Baltimore, attempted suicide last Saturday night, by butting his head against a wall. It is needless to say that he did not succeed, though his head was badly cut.

An effort is being made to have the Pennsylvania legislature to pass a bill prohibiting the sale of liquors on Decoration day. Petitions for and against the bill have been sent to Harrisburg from Adams county.

No new developments in trolley affairs, the road is coming, and we are led into saying that it will be here within a certain time, we will want to personally see the management shoveling dirt.—*Littlestown Independent*.

Mrs. Frank Brown wife of Governor Brown is critically ill at the Hotel Rennett. For about three weeks she has suffered from a complication of liver and kidney troubles and this week her condition became very serious. She is dangerously ill and may not recover.

Webster Barriek, of Frederick county, a blind man who has tramped considerably over this section selling ballads, was recently sentenced in the Allegany County Court to the Maryland penitentiary, for four years, for the abduction of a little girl 11 years old, from Frostburg.

Washington County farmers are unwilling to part with their wheat, even at the advanced price, and are holding on for better prices. Some of them think they will yet get \$1.00 for it. A number of local mills which have been running day and night have closed down, owing to the scarcity of wheat and have sent out buyers.

Marshall E. Price was on Friday last sentenced to be hanged for the murder of Sallie E. Deau on March 23. He made a confession a few days ago, in which he now says that he did not murder her, but was removed to the Baltimore jail on Wednesday for safe keeping. On Thursday, Governor Brown designated July 5th., as the date for the hanging.

The Emmitsburg *Chronicle* says: "The venerable Dr. Andrew Annan, who resides with his daughter, Mrs. O. A. Horner, of this place, celebrated his ninetieth birthday on Monday. The doctor spent the day with his son, Isaac S. Annan, who resides at the old Annan Homestead, at the west end of town. Dr. Annan is enjoying remarkably good health, considering his advanced age."

The stockholders of the Littlestown Savings Bank on Tuesday last elected the following directors: George Stonesifer, George S. Kump, A. L. Bishop, S. D. Mehring, Wm. McSherry, John Shorb and P. M. Weist. The late deficit in the funds of the institution which amounted to about \$51,000, is gradually being made good, and while there will in all probability be a considerable sum which will never be recovered, the loss will not be a serious one, and in no wise injure the solvency of the bank.

Rev. James K. Nichols, D. D., of Johnsville, Md., died last Monday morning, aged seventy-eight years. He was a life-long member of the Methodist Protestant Church, having entered its ministry in the infancy of the church. He was at one time president of the Maryland Annual Conference, and was one of the ablest ministers of that conference. For the past fifteen years he has not been in the active ministry. He leaves a widow and two daughters. He was buried in the Central Chapel, Frederick county, Md., on Wednesday morning.

Mr. Clem. Spangler, of York, had been ill for many months, and was unable to associate with his family. The symptoms of his illness resembled a severe form of indigestion, but remedies for said disorder gave no relief. Recently he called in a physician, and among the doses administered by the man of medicine, was a strong emetic. When this began to work, Clem. vomited a lizard three inches long, which gave him great relief, although he is still sick. Mr. Spangler is a popular member of the Laurel Fire Co., and has many friends in Hanover.—*Hanover Herald*.

The will of the late Rev. Father Delaney, was fled at the wills office, Washington, D. C., on Tuesday. It bears date of November 16th., 1894. He gives \$5,000 to Cardinal Gibbons, trustee for the Holy Name Church. He gives \$500 to Rev. John Glyod, of St. Patrick's Church, to be used by him as privately directed; also, \$500 to Rev. J. L. Andreis, pastor of St. Leo's Church, Baltimore, to be expended in having masses said for him. He gives \$250 to Wm. Lusby, in trust for the poor of Holy Name Church; also, \$250 to each St. Vincent's, St. Joseph's and St. Ann's Asylums and to the Little Sisters of the Poor. He directs that the library and pictures of the Holy Name rectory, except family portraits, be retained at the rectory. He gives his watch, canes and other personal effects to his relatives and friends; directs Rev. Father Glyod, his executors, to use \$350 in the rectory at the time of his death as privately directed and the residue for requiem masses. He makes his sister, Mrs. Margaret Robinson, his residuary legatee.—*Advocate*.

The 'Phones must Wait.

The Western Maryland Telephone Company began distributing its poles on Baltimore street on Tuesday, but the corporation authorities interfered and all the poles were unloaded out of town except one.

The authorities do not mean to offer any objections to the Company unless they can be shown, but intend to go slow about allowing the use of our main thoroughfare without any restrictions. The granting of the franchise to the company is valuable; more so than may appear at first sight. Property owners too, may properly object to the placing of the poles in front of their dwellings and places of business, and, if possible, it would seem that the poles should be placed on the alleys and not on the street.

As the Chesapeake and Potomac Company also intends to build its line here, and should both companies be allowed the unrestricted use of Baltimore street, the number of poles would very likely be a nuisance. The authorities are that the houses there will be in reference to the case, and will act on the subject by passing an ordinance as soon as they come to a conclusion.

While we want the telephone service badly, we want it in a proper way, with clearly defined rights both for the companies and the citizens. This is no more than right, and it is the business of the town officials to act deliberately and wisely in the matter.

Proceedings of the School Board.

The School Board met on Monday. All the members were present. Messrs Myers, Angell and Ott, trustees of Shaw's school, in Taneytown district, were before the Board praying for a new school house to be built at that place, stating that the house there was too small to accommodate the pupils of the district, and that it was hardly fit for occupancy. The matter was left in the hands of Dr. Rein-dollar who was requested to confer with those interested.

Mr. John A. Martin, one of the trustees of Martin's school, was before the Board and asked that the Martin's school district be not divided as it would decrease the attendance of pupils at said school and would probably be the means of breaking it up. He also stated that the schools at Martin's and Ore, on afford ample facilities for the pupils who reside between the two schools. Mr. Martin was told that a committee of the Board had been appointed to visit said districts, and that which they would consider the advisability of making a change there.

It being the time fixed by law for the annual appointment of trustees, the following were appointed: Dr. George T. Motter at Taneytown in place of Charles C. Jones; Millard F. Hann at Martin's in place of David Trimmer; H. H. Weaver at Uniontown; Lewis Myers and Levi D. Maus at Baust's church in place of Henry Sell and Jacob Rodkey; U. Grant Yinging and Benjamin Flea-city at Mayfield in place of J. Wesley Marker and D. F. Phillips; John E. Maus at Maus's in place of Martin Bechtel; William E. Keefe at Green Valley in place of Samuel E. Keefe; Urias Markle at Cherry Grove in place of James C. Jones; J. J. Shroy at Morgan Run in place of J. M. Owings; Mr. Stambaugh at Highland View in place of Luther M. Bushey; Jacob Miller at Kroh's in place of Joseph Price; James E. James and Jonas Warchem at Old Fort in place of Leonard Kroh and Elias Shroy; E. Benton Handy at West End in Westminster; Francis E. Reese and Wesley A. Steele at Cranberry in place of George K. Shaffer and to fill the vacancy; Ephraim Bachman at Stonestown in place of J. Wesley Beegs; S. T. Gorsuch and Augustus C. Barnes at Frankville; John H. Roog at Park Hall in place of Solomon S. Ecker. The above changes were made principally on account of resignations.

The old boards were reappointed in other places, except a few which were deferred for further information and will be made at the next meeting on the first Monday in June.

Legal Postoffice Holidays

The postal laws and regulations regarding holidays have been amended by the act of Congress of the 23rd of February 1895, which provides that postmasters may observe as holidays January 1, February 22, May 30, July 4, the first Monday in September, known as Labor day, December 25, and such other days as the president of the United States or the governors in their respective states may designate, as East or Thanksgiving day, or proclaim specially as holidays. On other occasions, their offices can be closed only after permission obtained therefor.

Letters testamatory on the estate of John H. Schmidt, deceased, were granted to Leonard H. Schmidt and John H. Schmidt.

Jessie R. Lambert, administratrix of Harry E. Lambert, deceased, returned list sales of goods and chattels.

Letters testamatory on the estate of W. Wilt, deceased, admitted to probate.

THURSDAY, May 8th., 1895.—Jacob H. Wisner, executor of Christopher Wisner, deceased, settled third and final accounts.

Tobias H. Eckenrode, administrator of John Eckenrode, deceased, settled second account.

The Baltimore Exposition.

EDITOR CARROLL RECORD.

The Baltimore Centennial Exposition will be an exhibition of the products of the soil, mine and sea. In all we expect to have fourteen (14) great buildings and a myriad of small ones. The total expenditure, as estimated by the manager Brackett, will be \$5,750,000. Every State and Nation will be represented, and the grand aim of the management will be quality in preference to quantity.

Besides giving a reproduction of the various villages which gave such general satisfaction at the World's Fair, Chicago, it is anticipated that all of the different Orders throughout the land will hold their annual meetings here sometime during the Exposition period.

The Midway Plaisance—which will be the central attraction, at Chicago—will be one of the principal features here, and, it is emphatically declared that, owing to the experience gained by exhibitors at Chicago during the progress of the World's Columbian Exposition, the Baltimore Midway will excel in many respects, that of the above named City.

There will also be in operation on the Fair grounds a "model farm" of 50 acres of improved land. This is an idea of Secretary Wedderburn's, and will give the farmers of Maryland, as well as those of the United States and of the World, a knowledge of how farming is conducted in the Southland, since all of the cereals, (including wheat, rye, corn, oats, barley, etc.), sugarcane, cotton and tobacco, will be grown, manufactured and sold on the grounds.

Electricity—the greatest invention of the Ages—will be harnessed in such a manner as to present to the World not merely an idea of its strength, but its beauty also, since it will be exhibited in water and in air.

Music will be another important feature of the Baltimore Exposition, the general manager, Major Brackett having estimated that the musical part of the program will cost \$300,000. The Fisheries Building will contain some of the wonders of the mighty deep. Chicago will not be in it a little bit in this respect. The waters of the Chesapeake team with the gems of the ocean, and its numberless in- habitants. The population of our World over for beauty and size.

During the period of the Exposition many thousands of strangers will visit the "Monumental City" and the business of this great Southern metropolis will be increased many fold.

Of those who come from distant quarters, many will doubtless be induced to make this their home, (if not the city, the surrounding country,) and it is for this reason that those who are living in the country should subscribe to the capital stock of our Association. Don't be alarmed about the tide of population not moving in the direction of Carroll County, for as that is the most beautiful part of Maryland, it is only natural that it will move westward. The population of our country will increase, and in this way the Exposition will be a boon not only to the city of Baltimore, but to all of the towns of Maryland.

Think over this latter thought. A share of our capital stock will only cost you \$10.00 and you have 18 months in which to pay for it, one dollar at the time of subscription, one dollar three months later and one dollar at the expiration of six months, one dollar at the end of nine months, two dollars at the end of twelve months, two dollars at the end of fifteen months, and two dollars at the expiration of eighteen months.

Then let our readers subscribe to the stock of the Baltimore Exposition, for, like the tide, it is cast upon the waters, it will return.

D. T. R.

Mayberry.

The inclemency of the weather has caused the farmers much delay with their work, but they are making up for it by taking advantage of the long days. Some are planting corn, while others are not done plowing yet.

The beautiful appearance and sweet fragrance of the elm, indicate an abundance of fruit this season.

The much talked of Telephone line has at last decided to reach Mayberry, connecting with Taneytown and Westminster. The line from here to Westminster is rapidly approaching completion, and shortly after Messrs William Humbert and William Rodkey, the contractors for the delivery of the poles from Tyrone to Taneytown, have fulfilled their contract, we may expect the entire line to be in operation.

Mr. Augustus Morelock, of Roberts' Mill, succeeded in capturing a fine German carp, which measured 23 inches in length, and weighed 6 lbs. Mrs. Jerome Kooztz was the recipient of the monster prize.

Mr. Clinton Peggleson, while hauling telephone poles with a six-horse team, narrowly escaped what might have been a serious accident. While coming down a very steep grade with a heavy load, the brake gave way causing the wagon and team to dash down the hill at headlong speed. Fortunately he succeeded in stopping them in time to prevent any serious damage.

Uniontown.

Elder G. W. Sellhamer and wife returned this week from a brief tour through the western part of Maryland.

The residences of the Doctors Weaver have been beautified with paint.

The meeting of the Women's Missionary Society of the Lutheran church, here, will be held on Thursday this week, and was largely attended.

The love feast of the Pipe Creek congregation held on last Saturday had a larger attendance than for some years past.

Gentlemen of the Western Maryland Telephone Co., let us have a line. We won't kick on the planting of the poles through our streets.

COUNTY CORRESPONDENCE.

Harney.

On last Sunday afternoon, Rev. Wire of Littlestown, preached at St. James' Church, near this place, on the subject of baptism; in his sermon he said that he felt that there are three distinct modes laid down in the scriptures—sprinkling, pouring and immersion.

The principal topic of the day is white-washing and corn-planting. At last we have procured what some of our people have been advocating for quite a while, that is, a temperance hotel. Mr. Burk is a man of considerable experience in the hotel business and especially in the manufacture of temperance drinks, which are free from alcohol, and contain nothing but the pure extracts of barks, roots and herbs, all of which are conducive to good health; now we think that the proper method for our temperance people to pursue is perfectly plain, and they have the assurance that if they show the proper disposition to help support a house of this kind, license for the sale of intoxicants will not be taken out.

Now ladies and gentlemen of the temperance society, you have a chance, but remember that you cannot expect to gain anything in the way of reform, if you are going to push up the cold shoulder and not take any interest in helping to make the business a success. It is a fact that every good work must be liberally supported; this we learn from being asked so often to contribute to the support of the many different things connected with the churches, now if temperance work in the way it is conducted is such a good work, and we believe it is, and a temperance house such a good thing as is claimed, then in our opinion, people who advocate the cause honestly, sincerely and truthfully, must give it support like all other good works if they wish to get their duty.

Mr. J. Newcomer recently purchased a fine pair of sorrel colts; once they are thoroughly broken we have every reason to believe they will make a dandy pair of driving horses.

Mr. Walter Bush and his mother are visiting friends in this place; both are looking well and we are glad to say that they are always considered welcome visitors in our midst. Walter has a special friend of all who knew him, and after an absence of two years his many friends are glad to see him again.

Scarlet fever is still raging in our midst; two new cases are reported this week.

Mr. George Shriver had the frame work for his new barn raised on Thursday.

Mr. Jacob Yealey will remove his family from Baltimore to this place some day this week; the exact date of their coming is not known at this writing.

Grandmother Gettler removed from this place to Mr. William Clutz's, where she expects to make her future home. The members of the U. B. church are having a new wire fence woven around their cemetery. Mr. Martin Stagle is doing the work. Those who have the writing of the History of Harney in charge, would be pleased to have any person who can give any information concerning the early days of the town, send their communications to P. O. Box 72, Harney, Md.

Silver Run.

Farmers as a rule are all busy at this time getting their corn planted. Some have pretty well finished while others seem to have gotten behind time a little and still have considerable plowing to do.

Grain and grass are looking extra good since the rain of a week ago. Everybody expects plenty of fruit this year, and the prospect is very bright. The trees being loaded with blossoms makes them quite ornamental.

Mr. Wesley Hahn, proprietor of Hahn's Mill, is preparing to build a new barn. Mr. Andrew Wisner, our Central Hotel man, also preparing to put a piece to his house.

Some of our young folks attended love feast Saturday night at Pipe Creek.

Work on the Lutheran church has been rapidly pushed during the past two weeks. They got it ready for dedication which takes place Sunday, May 12th. A large audience is expected at that time.

Rev. Dr. Dreishubach, pastor of St. Mary's Reformed church of this place is busy visiting and getting himself acquainted with the members of his charge, which numbers nearly 500.

Mr. Emanuel Erb and brother Joseph, visited their mother Mrs. Hannah Erb, on Sunday last. Mr. John Bittle and family also visited Dr. C. A. Stultz, on Sunday.

Mr. Jerome Kooztz recently lost a valuable horse from the effects of colic.

Dr. D. M. Stultz left here on Tuesday for Richmond, Va., to meet the State Medical Examining Board of that place.

Mr. Jerome Kooztz is on the sick list.

Mr. Ezra Lemmon, of Virginia, paid us a short visit this week. He is a son of Mr. Jesse Lemmon, a highly respected farmer living close to West's Mill. Mr. Lemmon is the picture of perfect health.

York Road.

Mrs. Mary Sherry of this place, in company with Mr. and Mrs. Lippy of Rocky Ridge, will leave on Friday for the Eastern Shore of Maryland, to attend a Love Feast to be held in the German Baptist church there. Mrs. Sherry will remain some time with her daughter, Mrs. Brumbaugh.

Mrs. Robert Koons of Baltimore, spent a week at this place, with her aunt, Mrs. George Koons. Miss Gertrude Eyer of Hagerstown, spent several days with Miss Florence Koons.

The Sunday School at Bruceville re-elected officers, last Sunday, for 1895, as follows: Superintendent, C. R. Wilhide; assistant superintendent, S. L. Fuss; secretary, Harry Crouse; assistant secretary, Florence Kooztz; treasurer, Mrs. B. Knott; librarian, John Airing.

Mrs. Wm. Dayhoff is the recipient recently of a half dozen fine lobster.

Union Bridge.

Base ball seems to be the order of the day. Our first team played the Westminster team last Saturday, at Westminster, and was defeated by a score of 17 to 1. The second team of this place played the New Windsor team at the latter place, and came off victorious by the score of 13 to 7. A game will be played on Saturday afternoon of this week, between the second team and the Westminster Juniors.

Mrs. Fannie Little and Miss Mary Ebbert were delegates from the Lutheran church to the Woman's Home and Foreign Missionary Convention, which was held at Uniontown on Thursday last.

On next Wednesday, May 15th., the Union Bridge band will run an excursion to Baltimore, at which time Barnum & Bailey's Circus will appear in Baltimore, and the above excursion will afford a good opportunity for those desiring to see the great show.

The Church Work Society of St. Paul's Reformed Church will hold its annual festival in the rink, on the evenings of May 30th. and 31st., and June 1st.

The Musical and Literary Concert given by the Union Bridge band on Thursday evening, was quite a success, financially and otherwise. The attendance was large, and the program was rendered to perfection, which was creditable to the members that took part. Such a band as we can boast of certainly deserves patronage in whatever movement it makes in entertaining the people of its home. Our band will arrange to give weekly open air concerts during the summer months, and we are sure that such concerts will be acceptable and appreciated by all music lovers.

Westminster.

Mr. G. W. Albaugh, is building an addition to his wholesale store room, which will be ready for occupancy in a few days.

The meeting last Monday for municipal affairs on our streets this week, among those was the Editor of the RECORD, and other prominent gentlemen from Taneytown.

Last Wednesday evening a very heavy rain and thunderstorm visited this city, which did not do much damage on John Street, knocking Mrs. Whitmore and Mrs. Samuel Haines unconscious for some time. The lightning followed a wire clothes line to the house, shaking the inmates up considerably.

The Junior Base Ball club, of this city, played the Junior club of New Windsor, on the latter grounds, last Saturday, in which the Juniors of this city came off victorious. Score 9 to 6.

On last Friday the Union Bridge base ball team played a game of ball with the Western Maryland team on the College grounds; the score was 20 to 1 in favor of the college. Batteries: Wells and Miller for college; Whitehill and Davis, for Union Bridge.

The meeting last Monday for municipal officers resulted in electing a full electric light ticket. The election was very exciting throughout, and much interest was manifested three or four days previous to the election. The vote was as follows: Mr. Mayor, Mr. Milton Schaeffer, 357; Common Councilmen, Messrs John B. Saylor, 404; Charles Hesson, 390; Emanuel Mackley, 376; Martin Leahy, 368; A. C. Strasburger, 326.

Linwood.

The Union Sabbath School will hold its Strawberry and Ice Cream festival on the night of the 21st. of May, and afternoon and evening of June 1st. Proceeds for the benefit and enlargement of the chapel.

Mrs. Ezra Garner and daughter, Mrs. Jerry Garner, met with an accident, which might have resulted seriously, while driving a New Windsor horse. Mrs. G's horse fell while going down Hyde's hill, but fortunately help was near at hand, and the ladies were assisted out and the harness and horse righted. No damage was done.

Mr. A. Huber and daughter, Miss Maggie, of Westminster, were the guests of Mr. and Mrs. Lee Royer, on Sunday.

Miss Tempest Sauble, of near Richmond, Va., is visiting friends in the neighborhood.

Miss Margaret Englar of the "Mills," will visit friends in Taneytown, during the C. E. convention.

We thought the history of Union Bridge published in the RECORD was a good thing, but now think that the editor should have given some account of the location, as two of our young friends had quite a time finding it Sunday night, drove about two miles out of the way and arrived to late for church; they were given a seat on the front bench.

The Dinkard Love-feast at Pipe Creek was largely attended. Elders Wm. Anthony of Pa., and Barnhart from Hagerstown, Md., officiated.

The editor of the RECORD will please accept thanks for programme of C. E. convention. We regret much our inability to attend.

Bridgeport.

The body of Samuel Fitz, who was drowned in Maxell's mill dam on April 30th., was found, on Sunday May 5th., by Adam Hahn, about a mile from the scene of the accident. It was found in a good state of preservation, and was about 100 yards from the place where it was found on Sunday, many of whom were engaged in searching for the body and it is needless to say that much joy was mingled with the sorrow of the struck family and the whole community.

This body was in a good state of preservation, save a few scratches on the face, and was buried at Mountain View cemetery, Emmitsburg, amid a large concourse of sympathizing friends on Monday, May 6th. A strange coincidence is connected with this sad accident; the boy was drowned at 1:30 p. m., April 30th.; the body found May 5th., at 1:30 p. m., and buried May 6th., at 1:30 p. m.

Mr. Samuel Garber of Johnsville, Md., on his way to Gettysburg, spent some time with Mr. E. F. Saylor this week.

Mr. Charles Hockensmith of this place, visited friends at Fairfield, Pa., last Sunday.

A very heavy rain accompanied with hail and wind visited this community to-day, May 9th.

GENERAL NEWS.

Nicaragua has agreed to pay England the \$77,500 demanded, within fifteen days after the war ships have been withdrawn from Corinto.

John R. McLean has purchased the *Morning Journal* (New York) and, it is said, will run a paper on the Western plan, of giving the news of the whole world, and not ignoring events west of the Alleghany mountains, as New York papers largely do.

The re-hearing of the Income Tax question was held during the week, before the full bench of the Supreme Court. Justice Jackson being present during the hearing. The Court meets again on the 20th. of this month, when its decision in the case will likely be handed down.

A complete executive office will be established at Gray Gables for the President's use this summer. No appointment for other business transacted by the President will be furnished to the public at Buzzard's Bay, but will be sent to the

TERMS \$1.00 PER ANNUM IN ADVANCE. ADVERTISEMENTS will be inserted under contract at the rate of \$2.50 per inch per annum. Rates for Special Advertisements given on application.

FINE JOB WORK a specialty, at lowest rates. Samples and estimates furnished on all classes of work.

CORRESPONDENTS must avoid personal reflections, of a non-complimentary character, and only make statements which can be easily verified. All communications must be signed by the writer's own name, otherwise they cannot be used.

ADVERTISEMENTS and contributions for the inside of the paper should be handed in by Tuesday evening to be guaranteed insertion.

ENTERED AT TANEYTOWN POSTOFFICE AS SECOND CLASS MATTER

SATURDAY, MAY 11th., 1895.

A Great Offer.

In our advertising columns on the fourth page will be found the greatest combination offer ever made by any paper in this county. A first class New York paper every day in the week, for only \$1.50, when taken in connection with the RECORD. New subscribers get the two papers one year for \$2.50. Old subscribers may have the same opportunity, by paying their present subscription to the RECORD one year in advance from the date of the expiration of the present year, and \$1.50 additional for the New York Morning Advertiser. Sample copies of the Advertiser may be had at this office. Read the announcement.

THE HISTORY of Union Bridge proper, closes with this issue, but it will be followed with an article by Mr. Wolfe, giving a brief biography of the world renowned sculptor William H. Rinehart, which may very appropriately be considered a portion, probably the most valuable part, of this interesting historical sketch. Both the history and the Rinehart article are much shorter than we desire, but feel truly thankful for what the author has found time to write for us.

THE COUNTRY at this season is certainly beautiful, and this year it seems almost as if the colors of growing vegetation, and the verdure of the trees and shrubbery have taken on an extra degree of splendor. The spring poet has some excuse after all for allowing sentiment to boil over, as it were, from the inspiration of the beauties of nature, and even unpoetic effusions represent thanks and praise to the Creator for his many beautiful gifts which serve in part to make life less commonplace.

THE RAPID GROWTH of the summer conference idea as a factor in American progress is illustrated by a somewhat elaborate article in the May Reviews of Reviews, in which forecasts are given of not less than seventy-five important scientific, religious, patriotic, reformatory and educational gatherings to be held in the United States during the next six months. The article is of value to teachers and other intellectual folk as an aid in determining the mooted question, "Where to spend the summer."

Our Columns are Open.

It is the opinion of the RECORD that a paper which has for its aim the benefit of a community, and which does not particularly represent either politics, creed, or trade, should offer its columns freely, with as few restrictions and qualifications as possible, to the people of its section for the ventilation of the ideas of those who do not stand in such a position with the management or ownership, as to demand access to its columns.

The RECORD extends this invitation. While the paper, of a necessity, has an editor and board of directors, it desires the people to feel that they are welcome contributors when their articles do not mean the ventilation of personalities, and are of a character purely legitimate and honest, and such as are not of a character to destroy the neutrality of the paper in any way. All articles for publication should be brief, practical and timely, and with the idea of ventilation for the public good. It cannot be correctly held that the publication of personal views on the question of reassessment, of taxation, or of the actions of public officials, is an evidence of political preference or design.

As we elect a legislature in this state this fall, those questions which are likely to, or should, be brought before that body, are also questions which may properly be discussed in this paper. Those of our patrons or citizens who have anything to say on any public topic of general interest. Outside of this particular line, wit and wisdom in general, is always desired. The ladies are not debarred; our late "ladies' edition" was not designed as a chance for them to say all they wanted, and then forever after to keep still. We want to hear from the bright minds in our section, and desire to state emphatically that we do not concede that this class is a small one. There are lots of intelligent people in this county who may want to be heard occasionally, and whose ideas are worth promulgating. The RECORD invites this class to contribute to its columns.

Cupid, Cupidity and Politics.

It is likely true that many of the high social and political positions, are, directly or indirectly, purchasable. In many of the marriages of so-called high life, Cupid seems to have changed his name to Cupidity, and the mercantile idea of value is closely connected with that which should properly be an affair of the heart only. Family name, title, position, wealth, all seem to be tending toward the level of a commodity which might properly be chronicled with the reports of the prices current of a stock exchange.

Naturally it must follow, that if sordid motives enter into what should be love affairs, those offices and positions which are further from the innermost feelings of humanity, are the more certain to be measured by the standard of dollars and cents.

The long drawn out effort of the legislature of Delaware, to select a Senator, if reports are correct, is an illustration of the money value of, or money power in, the selection of a person to the honorable position of a seat in the United States Senate. Mr. Addicks, who alone stands in the way of the republican legislature in making a selection, seems to have no extraordinary fitness for, or any particular claim to the honor, except that he spent many thousands of dollars to make Delaware a republican state.

Whether or not the state was changed politically by the means of his money, is an unsettled question. In the light of the results in other States, more strongly democratic than Delaware, it is at least reasonable and logical to think that his money was not needed. Neither the republican party, or any other, can afford to purchase its way to power, and it is safe to say that there is too much patriotism in our citizens to allow any party to practice this plan to any considerable extent, and, except in a few instances, such as this one, the safety of the country is guaranteed, because the people, and not money, rules.

Victims of Persecution.

Dr. C. Hart Merriam, chief of the division of ornithology of the Agricultural Department, has been for several years engaged in examining and analyzing the contents of the stomachs of hawks, owls, crows, blackbirds, meadow larks and other birds of North America which are supposed to be strikingly beneficial or injurious to the crops of farmers. The stomachs of over 7,000 birds, taken at different seasons of the year, have been already analyzed and the contents determined. The results in some cases have been remarkable, showing in several notable instances that popular ideas regarding the injurious effects of certain birds were wholly mistaken and that they have been the victims of an unjust persecution. This has been found to be especially the case with hawks and owls for the slaughter of which many States give bounties. Pennsylvania in two years gave over \$100,000 in hawk and owl bounties.

Examinations of the stomachs of these birds proved conclusively that 95 per cent. of their food was field mice, grasshoppers, crickets, &c., which were infinitely more injurious to farm crops than they. It was found that only five kinds of hawks and owls ever touched poultry, and then only to a very limited extent. A bulletin now about going to press on the crow also shows that bird is not so black as he is painted by the farmer. The charges against the crow were that he ate corn and destroyed the eggs of poultry and wild birds. Examination of their stomachs showed that they eat noxious insects and other animals, and that, although 25 per cent. of their food is corn, it is mostly waste corn picked up in the fall and winter. With regard to eggs it was found that the shells were eaten to a very limited extent for the lime. They eat ants, beetles, caterpillars, bugs, flies, grubs, etc., which do much damage. Bulletins are also being prepared on the cuckoo and other black birds, king birds, meadow larks, cedar birds, thrushes, cat birds, sparrows, etc. In many cases popular ideas are found to be untrue.

In the case of the kingbird, killed by the farmer under the impression that he ate drones and other robber flies which themselves feed on bees and which destroy more bees in a day than a kingbird does in a year. The kingbird, therefore, is to be encouraged rather than slaughtered.

Horse Talk.

A scaly skin is usually caused by imperfect digestion. Food rich in sugar, like carrots or turnips, will sometimes produce it. Rub vaseline and sulphur upon the skin after washing with warm, soft water, and feed two large spoonfuls of linseed meal night and morning in the mess for a week, and follow it with a dram of carbonate of potash daily for a week.

Don't rage and work yourself into uncomfortable feelings. Just push the forefinger into his mouth, making one lip ride on a tooth and he will open his mouth involuntarily. The best of it is that the intelligent ani-

Royal Baking Powder

ABSOLUTELY PURE

mal will learn in a few lessons that when you push on his lower lip with one finger he is to open his jaws and he will make no more trouble. Never confuse him by loud words.

Colic, that most dreaded of all horse ailments, because of its sudden appearance and fatality, may be controlled. Every stable ought to have a bottle of chloral hydrate. It should be labeled plainly as follows, and kept in plain sight. "Chloral hydrate; good for colic of all kinds. It is a medicine that overcomes spasms, relieves pain and acts as an anti-ferment in the horse's stomach. Give one ounce in half a pint of water in a drench. If not relieved in one hour, repeat." For mild cases baking soda in doses of two to four ounces will relieve. Induce the horse to eat it in salt, or holding the tongue at one side out of the mouth, throw it into the mouth. Few horses will reject it.

Working the colts may be fun for the boys, but the chances are that it is spoiling the colts. Boys and colts are too much alike. See that the collars fit the shoulders and that the hames fit the collars. It pays to let the horse roll each evening after the harness is stripped off him. This is his bath. Bathing regularly makes him stronger and healthier. And how he does enjoy it! That alone pays for the little extra grooming. And if you select a clean spot for the horse to roll, there is but very little if any, more grooming to be done.—Farm Journal.

The 5000 Best Books.

When a woman sends her subscription to *The Ladies Home Journal* special privileges seem to go with it, besides getting her full month's worth in the magazine. She can take the fullest advantage of a perfect educational plan by which she can educate her daughters or sons at the best colleges in the country free of charge, and now the *Journal* has arranged it so that she can buy her books—even a single book at a time—at prices heretofore obtained only by large buyers. There comes to us from this magazine a very artistically-gotten-up illustrated booklet of over 350 pages, called "5000 Books," which serves as an easy guide to the best books in any department of reading. This guide is very well done. The best literary experts of New York, Boston and Philadelphia were engaged by the *Journal* to select the five thousand books which it presents as the most desirable for a home library, and their work has been admirably carried out. Very clear, explanatory comments are given by these men of books, and besides there are given not less than 160 portraits of leading authors. No book will, perhaps, do so much to extend good reading as this guide, so carefully gotten up, so beautifully printed, and so generously offered, free of any charge, by the publishers of *The Ladies Home Journal*. "5000 Books" is unquestionably the best and easiest guide to a wise selection of books that has been issued for a long time.

Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in the house. For sale by R. S. McKinney, Druggist, Taneytown, Md.

How's This!

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. E. J. CHENEY & CO., Prop's, Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm. PREPARE FOR DROUGHT.

By Arranging For Irrigation at a Critical Stage In the Crops' Growth.

Some of the experimental stations are giving considerable attention to studies regarding the amounts of water required by different crops for perfect development, as well as the best time and methods of applying it.

A deficiency of rainfall during a comparatively short period at a critical stage of the growth of a crop—as, for instance, at the time of formation of seed—may result in serious reduction in yield and quality of crop or in total failure.

The most reliable safeguard against such a result is irrigation in some form. There is reason to believe that the systems of irrigation now so extensively and successfully practiced in the arid and semiarid regions may be employed in modified form and on a smaller scale with marked advantage on at least the more valuable farm lands of the humid regions of the United States.

In such regions there is usually little trouble in securing all the water needed for purposes of irrigation. By impounding the small streams and utilizing the springs which occur on almost every farm sufficient water might be stored at a small expense to carry the crops safely over the one or two "dry spells" which are likely to occur during the growing season.

Such a system intelligently practiced would very largely eliminate the element of chance in farming operations and reduce the culture of the soil more nearly to a science. Besides affording greater security, it would permit of intensive cultivation and the widest diversification of crops.

What Ears For Seed Corn? Rural New Yorker says: "For 20 years we have carefully selected seed corn. For 20 years we have selected the Chester County Mammoth Yellow dent. The Flint was always selected with a view of increasing the length of the ear; the Mammoth with a view of raising two or more ears to a stalk.

Spring In the Apiary. A Massachusetts beekeeper very truly says in The New England Homestead that not one colony in a hundred will manage to hold their own the first three or four weeks after beginning to gather pollen.

New, Early and Prolific Peas. The editor of The Rural New Yorker reports that the new early pea, Exonian, was tried at The Rural grounds last season. Planted April 19, the first picking was June 18.

It is claimed for the Long Island Beauty muskmelon that it is the earliest of all. The melons are nearly round, the lobes not deep, heavily netted.

Dozens of cows' heads in terra cotta, bronze, gold and silver were found at Mycenae. They are believed to be the symbol of the goddess of the city.

HOME MIXED FERTILIZERS.

Helpful Hints Gleaned From a Paper Read Before a New York Society.

At the annual meeting of the Western New York Horticultural society, Dr. G. C. Caldwell of Cornell university presented a paper on home mixed fertilizers. In this paper he first made some explanations concerning commercial fertilizers with a view not only to assisting purchasers to buy intelligently, but to compare with home mixtures. He said:

Twenty pounds is the unit of measure in a ton, or 1 pound to 100. If a fertilizer has 5 per cent of potash, that means that there are 100 pounds of potash in a ton. At present market prices for the chemicals used in fertilizers \$1 is enough to pay for a unit (30 pounds) of potash, \$1.80 is enough to pay for a unit of phosphorus and \$3.60 for a unit of nitrogen.

Suppose a fertilizer contained 1 1/2 per cent of potash. This would make the value of potash in a ton \$1.50. Eight per cent of phosphoric acid multiplied by the unit of that value of that article would make \$10.40 as the worth of phosphorus in a ton containing 8 per cent in the published analysis. If it contained 2 per cent of nitrogen, this would make \$7 more, or a total of \$18.90. A fertilizer of this analysis was upon the market at \$28 per ton.

Buy in the market the plant food you want, mix in the barn in the leisure of winter, and by comparing it with the certified analysis of brands in the market, estimated upon the per cent they contain, you can tell what you have to pay manufacturers for the simple work of mixing.

The New Jersey experiment station analyzed 700 tons of various fertilizers and found that consumers were paying on an average nearly \$20 per ton more than the materials were worth. As to whether the farmers can mix the materials as well as the manufacturers, Dr. Caldwell said a good many comparisons were made, and in all cases those mixed by farmers were as well mixed as those purchased already mixed.

A Discussion on Crimson Clover. Crimson clover was one of many subjects discussed at the annual meeting of western New York horticulturists.

This breed of poultry is rapidly growing in favor in this progressive age of poultry culture as their good qualities are better known. They are of Spanish origin, but have been bred for many years in England.

Black Minorcas. This breed of poultry is rapidly growing in favor in this progressive age of poultry culture as their good qualities are better known.

Odd Mention. The New York state fair will be held this year during the week beginning Aug. 30.

The editor of The Rural New Yorker reports that the new early pea, Exonian, was tried at The Rural grounds last season.

The Mistaken Poet. He—Here is a very pretty bit of poetry. Shall I read it to you? She—What is the title? He—"The Empty Sleeve."

While in Stockton, Cal., some time ago, Thos. F. Lanzan, of Los Banos, that state, was taken very severely with cramps and diarrhoea.

HISTORY OF UNION BRIDGE.

BY DANIEL WOLFE.

Part VI.

Plymouth Lodge No. 143, A. F. & A. Masons were organized May 10th., 1890, under a charter granted by the most worshipful Grand Lodge of Md. with ten (10) charter members, who were members of "Door to Virtue," and "George Washington" Lodges of Westminster, Md. Its first officers were: Isiah Lichtner, W. M.; J. M. Hollenberger, Sec. W.; J. Derr, J. W.; A. T. Geaty, Secretary; John T. Hedrick, Treasurer; D. E. Buckley, S. D.; A. L. Beard, J. D.; J. M. Purney, Tyler. Since which time the Lodge has been in active operation. Acacia Lodge of Mechanicstown (now Thurmont) is its sister lodge. It has never lost a member by death.

Olive Council No. 50, Order United American Mechanics, was instituted March 21st., 1875, by the officers of the State Council of Maryland with 30 members. It is in a progressive and flourishing condition, and has a large membership. It received 30 applications for membership at its last meeting. It has lost three (3) members by death.

"Monocacy" Tribe No. 90, Improved Order Red Men was organized September 17th., 1887, with thirty-seven (37) members, and now numbers about 60 members. They have expended quite a sum in silver and gold medals, and at this time are in a flourishing condition.

The M. E. church was formed under the supervision of Rev. Thomas Slicer. It was built in 1868; prior to this date services were held in the public school house. The officiating ministers were: Rev. Montgomery, Rev. M. Ferguson, Rev. D. C. Smith, Rev. Reuben Kolb, Rev. Edward Koonz, Rev. J. J. Sargent, Rev. J. Wright, Rev. Winstead, Rev. Jones, Rev. Bolt, Rev. Meitz, Rev. Savage, Rev. Thomas Wood.

The organization of the M. P. congregation at Union Bridge was consummated in the year 1877, in what is known as the Hall over the Anders' building, by the Rev. W. E. McClain, minister in charge. The ministers who then followed were: Rev. J. M. Brown, Rev. J. E. Maloy, Rev. Wm. S. Hammond, Rev. Dr. J. J. Murray who is still in charge of the congregation.

St. Paul's reformed congregation of Union Bridge was organized August 15th., 1885. At a congregational meeting held September 4th., 1885, a committee, consisting of Dr. J. W. Dehoff, Wm. H. Morningstar and Oliver Stoner, was appointed, to ascertain whether or not it would be possible to build a chapel. This committee reported favorably, and a lot was purchased, and on October 19th., 1885, Brother John Hesson Sr., removed the first earth for the foundation of the edifice. The dedicatory sermon was preached by Rev. Rupp D. D., of Manchester, Rev. D. A. Souder was called to the pastorate and entered upon his duties July 1st., 1886. Rev. Flor succeeded Souder, and Rev. Kent O. Spessard followed Flor, and is the minister now officiating.

The German Baptist church (Dunker or Tunker more commonly called) was built 1877, and presided over by Elder Ephraim Stoner, who is often assisted by ministering brethren from abroad.

The Lutheran church was built in 1882 and dedicated January 1st., 1883. The first pastor was Rev. C. L. T. Fisher, of the theological Seminary, Gettysburg, followed by Rev. W. E. McClain, succeeded by Rev. G. B. Brown, followed by Rev. Robert L. Patterson, who now occupies the pulpit. The parsonage was erected in 1880.

Our town has a population of 600 or more with a town hall (erected 1884). Two hotels, three saloons where evil spirits are not east out—but in, three dry good stores, one shoe and notion store, two bakeries, with confectionery and notions attached, two hardware stores, one drug store, one jewelry store, three groceries, one green grocery two butcher shops, one coal and lumber yard, and one with coal only, one furniture store, three medical doctors—two allopathists and one homeopathist, one dental doctor, and one veterinarian.

In closing this imperfect and fragmentary history, I wish to acknowledge the kind assistance of a number of citizens. Especially under obligations to S. Shepherd and Jos. W. Farquhar for contributions. I also wish to say that the task has not been done to my own satisfaction. It is incoherent and incomplete in many respects, but I think I could state under the circumstances, best I am always a busy sort of fellow. My farm and lime kilns consume all my time through the day, and at night I feel tired. My evenings are short, too, now so I have all imperfections will be overlooked by my readers and that the manager of the RECORD, if disappointed in his expectations, will accept the history as an honest effort on my part to please.

Yours truly,
DANIEL WOLFE.

Next week—the Rinehart biography.

Frederick County Schools.

The Board of County School Commissioners have prepared and submitted to the County Commissioners a statement, in which they show that the receipts to the close of the fiscal year, July 31, 1895, for maintaining the public schools of Frederick county, will show a deficit of \$694.80. The estimated expenses are \$23,550, and the receipts \$22,855.20. The School Commissioners say that, notwithstanding a large increase in school attendance this year over previous years, the deficit is very little more than in 1894, but this is due to the fact that teachers' salaries were reduced and repairs to schools postponed. They claim that the \$65,500 appropriated the County Commissioners is not enough to maintain the schools properly for three years, and call attention to the fact that Frederick county receives less in proportion to the number of pupils enrolled than either Allegany, Baltimore, Carroll, Howard, Montgomery or Washington counties. They believe that not less than \$38,000 will be required from the county to conduct the schools for three terms during the year beginning August 1st., 1895, and closing July 31, 1896. The state quarterly appropriations have shown an annual decrease since 1891 of \$4,000.

The condor is the largest bird in existence. Some of those shot in the Andes had a spread of wing of eighty or twenty feet.

A Diplomatic Editor.

John M. Lamb, editor of the Delmar (Del.) Budget, got on a rampage the other day, unslinging his gun, and took the camp. When he sobered down and got his senses he fined himself \$50, he being a high moulg justice of the peace. When he fined himself he told the constable to put the culprit in jail at once if the fine was not paid. The editor and justice of the peace had to go to the damp jail. His wife roared like a lioness and vowed she would burn the jail down if her precious consort was not liberated at once. The newspaper man and justice of the peace who stood behind the bars as a righteous act of his justice, told the constable to stand firm and execute and respect the order of the court. The woman fainted, and by this time the community was aroused from centre to circumference and there was (im-burger cheese on the moon and a graveyard expression on the faces of the large throng of troubled people. The man who had pushed for the bastle and in their frenzy twisted the door off its hinges and requested Mr. Lamb to walk out. He refused unless the fine and costs were paid. The fine and costs would be five dollars a week for the infuriated mob and told them \$25. A paper was circulated and the money was raised in a jiffy, and they handed the fine and the eccentric justice of the peace and paroled him. He paid the constable \$10 for his fees, and the jailer \$5 for his lodging, and \$10 to have the door of the jail repaired. In the meantime the hero of the escapade told the spectators to be present the next morning at his temple of justice.

About 7 a. m. the judge and bland editor opened court. The first thing he did was to remit his own fine of \$50. The journalist and peace officer then informed the audience that he had \$200 in cash that had been given for his freedom from durance vile on the previous day. He asked as a favor that every individual who had plunged up a cent toward his liberation from prison come forward and give his name and the amount he had subscribed. Just 113 men and a little boy arose and handed toward his Honor. It was a case where each man put up two dollars apiece and a boy one dollar. After considerable bookkeeping and figuring on his books he vociferated in a baritone voice for the 113 men and boy to march in front of the jail, the man of judicial ermine and a Napoleon Bonaparte eye for cute journalism stood before his friends and trembled for awhile with mute emotion. He then heaved a love-sick sigh and handed each man a two-dollar receipt for delinquent subscription to his newspaper right there on the spot. Everything was so still in the court room while this was going on that the sizzling hum of a little peanut rattle would have sounded like the thundering intonation of Vesuvius when belching forth its red hot lava. This is the only instance in the history of the world where a newspaper man made \$200 by fineing it.

Imported Potatoes.

The Baltimore News of April 29th. says: "The steamship Indrani of the Donaldson Line, in port here a few days ago, brought as part cargo from Halifax, a large quantity of Nova Scotia Potatoes, consigned to a Baltimore produce firm. Arrivals of Scotch and German Potatoes have also been numerous during the winter—larger than the uninitiated would suppose. The forthcoming April report of the Statistician of the Agricultural Department at Washington, which will be issued in a few days, will give some suggestive figures in regard to the extent to which this country is importing a mass of farm products which might be produced here in the United States. During the ten-year period ending June 30, 1894, there were imported into this country 29,495,417 bushels of potatoes, with an aggregate value of \$13,155,431, or an average of 44.6 per bushel. The net excess of imports over exports for the same period was 24,347,405 bushels with a value of \$9,296,345.

"That we should go abroad to buy potatoes or any other farm products is a matter of surprise to the Agricultural Department, but statistics that cannot be denied show that during the 10 years just passed almost ten millions of our gold has gone abroad to pay for this tuber, which forms such a great percentage of the aggregate of our farm products."

Household Hints.

Mutton tallow is the best thing ever discovered for chapped hands.

Change the baby's position now and then, and the rest and change will prevent its crying.

Try powdered soda for burns. Cover the burn thoroughly and wrap firmly in a soft linen rag.

Burnt camphor, inhaled, will cure a cold in the head. So will inhalations of alcohol and sulphur.

Keep a salt-bag in the house for use in cramps, neuralgia and kindred troubles. Make it of strong cotton cloth, fill with common salt and sew up tightly. When wanted, heat as hot as can be borne in the oven and apply to the afflicted part.

Many ladies are fond of perfumes but do not like to use the old-fashioned kind of liquid perfumery that comes in bottles. A newer and daintier way to perfume the clothing is to make sachet bags of silk, satin, or even of pretty cambric, which can be filled with drugist's cotton into which can be liberally sprinkled Russian violet sachet powder, which keeps its strength a long time and emits a most refreshing and delightful odor. It is a good way to make several long, narrow sachet bags and lay them in the bottom of bureau drawers or hang them in the closet where they will lend a delightful perfume to dresses and underwear, that is at once ladylike and delicate.

A VALUABLE FIND.

After years of study and labor, there has at last been discovered a sure and never-failing remedy. It has been tested on patients, who have despaired of ever being cured, the result has been in every case, wonderful. Groff's Rheumatic Cure is unequaled as a positive remedy in all cases of Chronic and Acute Inflammatory Rheumatism, Gout, Lumbago, Sciatica, Neuralgia, especially Ovarian Neuralgia, Dysmenorrhoea and all kindred affections. It is also a valuable Blood Purifier, being especially useful in Eczema, Psoriasis, Scrofula, all Glandular Enlargements and diseases of the Liver and Kidneys. It is absolutely free from any narcotic. Severe attacks are relieved in from one to three days and a positive cure effected in from five to eighteen days. For sale by J. McKellip, Drugist, Taneytown, Md.

Betrayed by a Pen.

"Annabel" called a Harlem mother over the banisters as she heard the front door close.

"Yes, mamma," replied a sweet girlish voice, and Annabel Geogan slowly framed herself in the darkness of the staircase.

"What's that, Tinberry, Annabel?"

"It was, mamma."

"Do you know it is twenty minutes past 11?" came in cold tones from the wrapped figure in the upper hall.

"Mamma, we hadn't the slightest idea it was so late," said the young girl, earnestly. "You see," she continued, "Mr. Tinberry has been telling me about China and Japan. He said everybody ought to know about the war, and it was so interesting we never thought how late it was getting. Do you know, mamma," added the sweet girl, as she reached the landing, "that in China they—"

"Did Mr. Tinberry draw a map of China for you, Annabel?" asked Mrs. Geogan, and the daughter—

"Why, mamma?" said the daughter in startled tones.

The young girl rushed to a mirror and saw with horror stricken glance that the left side of her face was streaked and stained with ink.

"Heaven and earth," she screamed, "his fountain pen must have leaked into his waistcoat pocket!" and with a shriek of horror the beautiful girl fell fainting to the floor.

The whole population of the United States could be concentrated in Texas without bringing up the density of her population to that of Massachusetts. In fact, if an area equal to that of Indiana were cut off from Texas, the state would still hold the entire population of the United States without crowding us as the people of Massachusetts are crowded. Delaware would have more than room for us all, could the whole population be crowded as are the inhabitants of New York city.

Whooping Cough.

There is no danger from this disease when Chamberlain's Cough Remedy is freely given. It liquefies the tough mucus and aids its expectoration. It also lessens the severity and frequency of paroxysms of coughing, and insures a speedy recovery. There is not the least danger in giving the remedy to children or babies, as it contains no injurious substance. For sale by R. S. McKinney, Taneytown, Md.

Moneymong Signs.

There is a young couple in this city who can never go away from home together without being taken for a newly married pair. So they decided to ask the waiter at a hotel where they stopped what the signs were. The gentleman began the conversation.

"Would you think we were just married, John?" he asked, on the second day of their arrival.

"Yes, sah," said John, with a broad grin; "I spotted you as soon as I see you. I been ten year in dis hotel, an' dere can't nobody fool me."

"Now, John," said the supposed bridegroom, as he slipped a fee into the waiter's palm, "just tell me what the symptoms are."

"Dere's a heap of 'em, sah," answered John. "I hears you ask yob lady at breakfast if she like bried eysters, an' you tell her she mus' learn to drink her tea straight, 'cause it was bettal, an' you ask her whar she want to go for. Dem's all signs, certain shuh, sah."

"But," said the young matron, "don't old husbands talk in the same way?"

"No, indeed, miss—sense me, ma'am, they don't indeedy." "Sides, yob gentleman han you de mornin' papah, 'stead of readin' it himself. An' dere ain't no gettin' aroun' the lovin' looks he been castin' on you, miss," and John smiled with an air of superior wisdom.

"Now, tell us how the old married men conduct themselves," said the lady.

"De'y mighty short, miss, mostly, an' dey'd de papah jes' like dey was alone."

"And the lady, what does she do?"

"Jes' waits, miss. Kind of looks tired, an' waits, an' looks at the res' of the folks in the dining room. You see, miss, it's a heap of difference, an' taint no use in their eyes, either dat makes the honey-moon, sah, it ain't." They did not deceive John, and he does not know that for once all his signs had failed him.

Got Mixed On Soda.

The proprietor of a Columbus avenue drug store in an Italian boy to tend the soda fountain. "It's all right about that boy," he said contentedly to the cashier; "if he can't talk American he won't be wasting his time with the kids. I'll teach him the sirups myself."

So the new boy practiced the names of the sirups, and began duty last Wednesday morning. He got along first rate until about 5 o'clock in the afternoon, when the cashier was out and the proprietor was upstairs pasting "your own brand" on a new lot of line of spring fever pills. The door opened and a thin old woman with a dog-eared satchel and a black veil, with a hole in it where her nose rubbed, came slowly in. She went over to the new boy.

"Sunny," she said, benevolently, "do you keep postage stamps?"

"Lemon, vanilla, chocolate," he answered.

The newcomer looked surprised.

"I want a two-cent stamp," she said.

"Pineapple, strawberry, blood orange—all kind-a," he repeated.

"Flavored postage stamps, hey?" said the old woman, wondering.

"Well I never! What won't they do next? It's a good idea, though," she added. "Give me a vanilla two-cent stamp."

"No two cent—a five cent—a big glass," said the boy, encouragingly.

"Only got five-cent stamps flavored hey?"

"No, no! All kinds—vanilla, chocolate, raspberry, pine—"

"Stop your nonsense, boy," interrupted the old woman angrily, "and gimme a postage stamp, quick!"

"Ice cream soda next month-a," he said.

"Hey?"

"Month-a, boy," he repeated, looking relieved.

"Stamps next year, hey? Send me word when they get here," sneered the old woman, starting toward the door.

"What'll you have, madam?" called the proprietor, hurrying down the office stairs.

"Oh, never mind," shouted the would-be purchaser as she opened the door; "your bright young man says you're going to have some stamps next year, so I'll drop in year after next and see if you have a two-cent stamp left over. That's all; don't trouble yourself for the world," and she slammed the door so hard that a cake of desiccated sea salt fell into the sponge rack.

Unprecedented in the History of Journalism.

The publishers of the CARROLL RECORD have made a special arrangement with the publishers of the New York Morning Advertiser and Sunday Advertiser whereby they can furnish the CARROLL RECORD, and both of the above papers to a limited number of subscribers for one year for \$2.50.

BY THIS OFFER YOU GET IT FOR VIRTUALLY \$1.50.

Sample Copies of the Advertiser can be seen at the RECORD office.

Egg Problem, and Bean Vine.

Mr. Robert Davis of Reisterstown, sends a correct answer to the egg problem—301. He asks whether she carried the basket, or hauled it to market.

Mr. H. C. Witt of this place also gives 301 as the first correct answer, and says the addition of 430 to 301 will give another, and by adding 430 to that sum another will be secured and so on. He furnishes the following, as a puzzle:

Suppose there be a round column of equal size throughout, being one foot in diameter and 20 feet high, and a bean vine entwining itself around it just twelve times at equal distances in passing from the foot to the top. How long will the vine be?

Special Notices.

MR. M. P. FINK has just returned from the city with a full line of Summer Millinery.

WHY NOT BUY YOUR WALL PAPER of EDW. P. ZEPP? HE IS THE MAN who sells the Latest and Most Beautiful designs at Sets. and up.

It is with pride and pleasure that we announce to the general public, that our new Sample Book for the season, are guaranteed to represent the finest and best Wall Paper we have ever handled, and the entire stock of one of the greatest Wall Paper manufacturers in America, who controls the largest and best equipped factories; thus by buying of our samples, and seeing them in our sample book, we are enabled to offer new goods, new colors, new designs, new plain and blended effects, etc., in great numbers, and the accumulation of years, shop worn and out of date—such as you will find most dealers handle whose stock is but limited and are obliged to carry many patterns over from season to season.

So the new book we have to offer, are our \$1000. PRIZE DESIGNS which have been so highly complimented by the great daily papers, and leading periodicals all over the country. They are a special line of goods superior to anything in the market. Compare our samples and prices with those of your local dealer and form your own conclusions. We offer you better value for your money than any other house in the trade.

If you are thinking of papering a room or a whole house, write to me and I will call on you personally with a better variety of designs than can be shown by any other house in the United States. Hoping to be favored with a liberal share of your esteemed patronage, I remain Sincerely Yours,

THE TRUTH OF IT!

Some people seem to doubt the genuineness of my "closing out" sale of CLOTHING, because it has the appearance of an advertising scheme; some attempt to deny the truth of it for reasons of their own, while others are carrying off the goods without caring whether it is genuine or not.

NO MATTER WHAT THEY SAY! I am offering my Entire Stock of Men's and Boys' Suits at and LESS THAN COST. The way to test this statement is to get prices elsewhere, and then come and see for yourselves. If you don't find bargains—don't buy!
