The floral display at the marriage of Miss Consuela Vanderbilt to the Duke of Marlborough next Wednesion in New York. Rare plants from Australia, Europe and the Orient will, with those from the jungle, with orchids clinging to them, be seen with the rarest of all home-grown plants-the pink chrysanthemum. It is claimed that to buy the plants to be used at the wedding would cost between fifty and sixty thousand dollars.

The drouth, which has continued with only the interruption of a slow, slight shower for fully three months throughout West Virginia and the upper Ohio Valley, and which was the most disastrous and wide-spread ever known, was completely broken on Thursday. There was a steady downpour of warm rain for fifteen hours throughout the region, and the ground is thoroughly soaked for three inches. The Ohio River has risen two inches, and navigators are hap-In the interior the timber men are preparing to move their logs, which have been lying in the streams for months. The rain comes too late to do the agricultural interests much good, though it may help late pastures.

Extensive improvements are being made at the Capitol, and will proba-bly be completed by the time Congress assembles. The old gas system of lighting the House and Senate after dark will give way to a complete and finely-equipped electric plant, that will suffice to light the building in FOWLER-REAVER .- On October all its parts during the protracted night sessions that are likely to be heid as the session draws into its old age. This electric plant will consist of two sets of engines in each wing of the Capitol, and each set will con-sist of two engines and dynamos capable of furnishing 16,000 incandescent lights. The system will be so arranged that in case either set of engines gives out the other can be the entire building.

Senator Carter, chairman of the

Republican.National Committee, has been questioned as to the probable time of holding the next republican convention. He said he had not con-ferred with the other members of the committee in regard to the date, but as six months notice must be given of the date after the meeting of the committes, the convention could not be called earlier than about the mid-dle of June. It is thought, however, that it would be the general desire not to have the convention meet until after the adjournment of Congress, journ until about the middle of June. A fair inference from Senator Carter's remarks is that the convention would not be called to meet earlier MRS. C. L. BRICKER. than the last of June.

Carroll County Figures. A study of the result of elections in

Carroll county for the last ten years, PUBLISHED EVERY SATURDAY AT TANEYTOWN, MD. is interesting, and surprising too, when we note the fluctuation of the vote of the two parties. As will be seen from the subjoined table, the republicans have carried the county but once, (1894) yet their vote in 1888, of 2674, would, if cast, have beaten the democratic vote four times in the nine preceding years, and their vote ballots posted outside, with simple of 1891, three times. Liver pills have their good and bad side. They cleanse the bowels and clean out the system, but they leave the patient weak, exhausted and unstrung, with no appetite and no strength.

If you were to go to a physician he would tell you that your liver pills were all right but that they did not go far enough. You need something else to restore the appetite, repair the waste, purify the blood and build up the system. He would give you a tonic.

We supply you with the regular physician's medicine for an entire treatment of nearly three weeks. There is one small case of ten of the Liver Pills (the finest in existence) and there is another box containing fifteen of the Tonic Pellets. You get them both for 25e. Ask your druggist for Ramon's Tonic Liver Pills and Ramon's Tonic Pellets. Together they make a sure treatment for Constipation and Biliousness.
