Beware of Ointments for Catarrh that contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood, and mucous surfaces of the system. Do You Use It?

It's the best thing for the hair under all circumstances. Just as no man by taking thought can add an inch to his stature, so no preparation can make hair. The utmost that can be done is to promote conditions favorable to growth. This is done by Ayer's Hair Vigor. It removes dandruff, cleanses the scalp, nourishes the soil in which the hair grows, and, just as a desert will blossom under rain, so bald heads grow hair, when the roots are nourished. But the roots must be there. If you wish your hair to retain its normal color, or if you wish to restore the lost tint of gray or faded hair use

Its corps of contributors is composed of writers far above the average county correspondent, and and we are proud of the fact that the truthfulness of their reports are seldom questioned.

Once a Subscriber—

Always a Subscriber is the rule with patrons of the REC-ORD. Few indeed, have discontinued the paper, and the few have been those who had no grievance against, or fault to find with, the RECORD. Our subscribers, in fact, have assisted materially, by their personal influence and solicitation, in swelling our list until now our circulation is over 1,000 copies weekly.

JOB PRINTING

Is a leading item of the business of the Carroll Record Co. Our equip-ment for Job Work of all kinds is second to no office outside of the large cities, and we prove this by the excellence of our work, and by the amount of it turned out.

ADVERTISING

Pays best in a paper which is read, and which makes a point of being first a news paper rather than an advertising medium. Sheets which cater to all classes of advertisers, by cutting up their columns to grant special positions, and intermingle news and advertising matter, generally succeed in pleasing neither the reader or advertiser. The RECORD belongs to the former class.

Diamonds In an Extinct Volcano An interesting discovery from a geological point of view was recently made by an explorer in the mountains of Witzies Hoek, Natal. On the summit of an extinct volcano, on the edge of a lake that occupies the crater, soundings revealed a layer of sand inclosing small diamonds. It would be interesting to know whether these diamonds were "Yes," responded the youngster, with there accidentally—that is, as the result of washing operations carried on by the natives-or whether this discovery corresponds to an actual mine of diamonds, for the hills of Witzies Hoek are not situated in regions known to A young English girl, at a reception be diamond bearing. On the last hypothesis the presence of precious stones in the crater of a volcano would doubtless
