Aerial Electrical Cars. High speed is possible and practical on a cable way if light weights are carried, but it is necessary to reduce the speed or use a rail instead of a cable if the velocity is maintained. This axiom must be remembered in all cases where quick transit is desired. It is impossible to transport a vehicle at a high ed from one point to another unless a perfect rail or line is provided. It will be found upon investigation that the expense of following out this precept is a great veto to the attempt. With the high speed of 100 or 150 miles an hour it is almost impossible to stop a car with any degree of abruptness and not wreck a section of the road or line.

AK HALL'S REDUCTIONS.

Sales are in Progress Now!

We don't propose to argue the pro and con of Price-cutting. We believe that prices need trimming at times, just as surely as your razar needs sharpening, The motives for cutting prices are two-fold. The first is the moving out of goods that will not sell. The second is to show to our trade that we are not afraid to apply the knife, when confronted with the fact that we have too much stock.

In OUR SURPLUS STOCK, we have found the following goods; Men's Clothing, Overcoats, Ladies' Coats, Children's Coats, Ladies' and Children's Shoes, Blankets, Comforts, Lap Robes, Dress Goods, Caps, etc.

All the above goods have been cut in prices that will surely move them. ALL OUR CHRISTMAS TOYS to go at Half Price, DOLLS included.

This advertisement represents the close of my business life in Taneytown as a dealer in Clothing and Hats—the end of seventeen years full of hard work and varied experience. To my successors, on March 1st., will be turned over the balance of stock on hand at that time, and all my financial interest in the same.

During the weeks intervening, in which I yet have control, the remaining stock of CLOTHING AND HATS (not other goods) will be sold AT AND BELOW COST in order to reduce the stock to the LOWEST POSSIBLE point.

Everybody will clearly understand that there can be no deception in this statement. I either sell the goods to the PEOPLE, or to my SUCCESSORS, and it naturally follows that the former will be sold to at as low a price as I expect from the latter. That's all there is of it—it makes no difference to me whose money I get.

Those now indebted to me will please make prompt payment, as I desire the old business to be fully settled up by April 1st.

To my many friends, I return my sincere thanks for their patronage through the past years, and trust that they will transfer their support to my successors, who are fully deserving and will no doubt be more active in business than I have been, and attract a larger amount of trade.

Respectfully Yours,

P. B. ENGLAR.
