TANEYTOWN, MARYLAND, SATURDAY, MAY 21, 1898.

Beeeeeeeeeeeee Local and Personal.

This is meant to be a purely LOCAL News column, to which the RECORD invites contributions. Events of local importance whether current or in the near future, accidents, cases of extreme illness, society and church happenings, marriages, deaths, etc., should be reported to the Editor in writing; otherwise they may not appear.

### The Sin of Fretting.

There is one sin which, it seems to me, is everywhere and by everybody underestimated, and quite too much overlooked in valuation of character. It is the sin of fretting. It is common as air, as speech, so common that unless it rises above its usual monotone, we do not even observe it. Watch any ordinary coming of people, and see how many minutes it will be be-

more or less complaining statement of something or other which probably every one in the room, or on the street corner, or in the car, it may be, knew It is cold, it is hot, it is wet, it is dry; somebody has broken an appointment. ill-cooked a meal; stupidity or bad house. faith somewhere has resulted in discomfort. There are plenty of things to fret about. It is simply astonish- days. ing how much annoyance may be found in the course of every day's living even of the simplest, if one things .- HELEN HUNT.

Spanish Pronunciation

The following, from a recent issue

ed Cooba; Junta—Hoonta.

a in ah, e like a in ale, i like e in eve, o like o, u like oo in ooze; y, when used as a vowel like e in eve.

Spencer, it is believed belongs the longs the long th used as a vowel, like e in eve.

When I was young, we heard a great Spanish is always silent. C, followed of the Four Hundred. She holds an Make a sheet of lemon jelly in the many stories told about the supernatural things that were seen about the ural things that were seen about the disk is by a, o, u, or by a consonant, sounds unquestioned position in society by like k; before e and i it has a sound of course I thought same way, using the juice of lemons instead of oranges, with a cup of sugar ties of beauty, blood and wealth. She and omitting the brandy. Color it a delay resembling that of th in thanks. Ch | was Miss Berryman before her marrithey were true. As a consequence, like ch in chess. G before a, o, u, or a age, a descendant of that sterling French vegetable coloring liquid. Make on the body and involves the permanent consonant, sounds like g in good. Be- merchant, Stephen Whitney. She is another sheet of fruit jelly of preserved improvement in character by the connear there alone. One day a little boy fore e and i, however, g has a strong a cousin of Mrs. Edgerton Winthrop, strawberry juice or of orange juice, cins and abnormal ideas. Every physiwas going to school alone, and when he came near the grave-yard, he saw a small dog and at once thought it was a spook. Instead of going straight on like a brave little boy, and as our was a spook. Instead of going straight on like a brave little boy, and as our boys at the present day would do, he ran across the field, almost scared to death, and came up to the school house on the other side. I do not think our boys and girls of to-day believe in such a thing as ghosts. Our people now know better than to teach people now know better than to teach on like a brave little boy, and as our man ch, as indicated above. Ll is used as a single letter. It has a liquid sound, like that of ll in brilliant, William. Q, qu, is pronounced like k, the urremaining silent. R is sounded as in English unless it begins a word, or after the consonants l, n doubled, or after the consonants l, n people now know better than to teach on like a brave little boy, and as our man ch, as indicated above. China Decoration.

It is of course well known that in double that amount. iar process, not so generally underit is poured an ounce and a half of aqua soon makes itself felt upon the flavor of regia—a compound of equal volumes of the drink. Clear, strong, fresh, hot chlorohydric and nitric acids-which dissolves the gold, by the next day the metal and acid forming a chloride of white powder in the bottom of the glass, which is chloride of silver from the alloy in the gold. The solution of gold is carefully poured off into another vessel to get rid of this deposit of silver. It is then diluted with water and protosulphate of iron added to effect precipitation. Immediately the liquid becomes clouded, and the gold, in the form of a light powder, begins to fall to the bottom of the glass. On the liquid being poured off and the gold powder washed several times with clear water it is drained and placed in a shallow plate before a fire to dry, after which the powder is ground or rubbed Take equal quantities of powdered oil called flux.
