

# THE GAZETTE AND RECORD.

Vol. 4., No. 50.

TANEYTOWN, MARYLAND, SATURDAY, JUNE 11, 1898.

\$1.00 Per Year.

## Local and Personal.

This is meant to be a purely Local News column, to which the RECORD invites contributions. Events of local importance, whether current or in the near future, accidents, cases of extreme illness, society and church happenings, marriages, deaths, etc., should be reported to the Editor in writing, otherwise they may not appear.

The Cook Books are gone—no use to send in any more orders.

The Fire Company will turn out again, for practice, on Monday evening, providing the weather and streets are favorable.

Edwin F. Smith, of near Bridgeport fell through a hay hole in his barn, on Tuesday forenoon, and dislocated his right shoulder. The accident, while painful, is not serious.

The P. O. S. of A. Camp, of this place, has suspended a new bunting flag from the front of their hall, on Frederick street, where it will remain until flags go out of style.

Mr. George Baumgardner and sister, Jane, of Halltown, W. Va., attended the funeral of their uncle, Mr. E. Mathias, on Tuesday, and returned home Wednesday.

Home Circle page this week contains a lengthy article of interest to all who contemplate going to the Nashville C. E. Convention. The route, cost and general information, are clearly set forth as they refer to Maryland people.

In our last issue we unintentionally omitted the name Mrs. Carrie Mehling, of near Bonneauville, Pa., as a sister of Mr. Charles M. Hess. Those from whom we gathered information relative to the family, failed to remember Mrs. Mehling.

Oliver J. Stonesifer left his old post at Roberts' Mill, on Thursday, and removed with his family to Tyrone, this county, to take charge of the mill at that place. Mr. Stonesifer is a model citizen and a good miller and we wish him much prosperity.

The standpipes and mains were completely emptied of water on Tuesday, in order to get rid of the cloudy water caused by the recent excessive rains. How the muddy water gets into the supply well is something of a mystery, which will no doubt be solved in the future.

Mrs. S. W. Quinn and children, of Brooklyn, and Mrs. W. F. Hoover and daughter, of Philadelphia, arrived in Taneytown, Tuesday evening, being called home by the extreme illness of their father, Mr. John D. Hoover, who continues to grow weaker every day.

Charles A. Foreman, while helping to put a girder under a barn at Isaiah Reifsnider's, on Friday last, was struck on the wrist by a log chain with such force as to almost fracture the bones. A prize broke, which caused the chain to become loosened and fly around with the result as stated.

As announced last week, special closing exercises will take place at Milton Academy next Monday morning, at 10 o'clock, to which all friends and patrons of the school are invited. This school, under the able principalship of Prof. Henry Meier, is rapidly making for itself an excellent reputation and is one of the most creditable institutions of Taneytown.

Weather observations for May, in Taneytown: Maximum temperature, 96° on the 1st; minimum temperature, 34° on the 9th; mean temperature, 65.69°. Total rainfall, 5.52 inches. Number of clear days, 10, partly cloudy 13, cloudy 8. Prevailing wind, South. Frost on 9th; hail on 8th, thunder and lightning on 7th, 12th, 15th, 16th, 19th, 20th, 21st, 22nd, and 23rd.

We are indebted to Fire Marshall E. J. Lawyer for a handsome badge, such as used by delegates to the State Firemen's convention held in Salisbury this week. We note that several Firemen's journals have commented favorably on the retention in office of Mr. Lawyer, by Governor Lowndes, upholding him in not issuing a commission to Ex-Speaker Shaeffer who was named as his (Lawyer's) successor.

Some people use the water for sprinkling, both foolishly and lavishly, and certainly not within the intention of their contracts. Our water supply is neither a plaything, or as inexhaustible as the Atlantic ocean, and some restrictions must be placed, or we are likely to be without sufficient force in case of fire. Certainly, those who pay for pure washes should have the benefit of their use, but it should be a reasonable use.

The Summer school at Clearview, taught by Miss Nellie Duttra, closed on Tuesday last, at which time the pupils were treated to a lawn supper at the home of the father of the teacher, Mr. George K. Duttra. Refreshments, consisting of cake, confectioneries, bananas, lemonade etc., were served and much enjoyed by the pupils and a few invited guests. The remainder of the evening was spent in playing croquet, etc.

Our newly organized board of town Commissioners has an opportunity to make an excellent record, without the expenditure of much money, by doing just two things; first, to devote special attention to gutters, pavements and trees, and to cover the public well and remove the ugly posts and iron bars. Every street in town needs repaired or new gutters, and in some places, improved pavements. As a whole, our pavements are very good and gutters very bad—too bad to be left alone. The public well matter is so glaring a nuisance, now, that there is no argument in favor of allowing it to remain.

## COUNTY AND STATE.

### News Notes of General Interest from various Sources.

Robert H. Miller, a director of the Maryland Experiment Station for the past seven years, has resigned and will return to his farms in Montgomery county.

A note to the RECORD says: "On the 13th of May, Mr. and Mrs. Thomas Newman left their home at York Road, Carroll Co., to visit their children in Baltimore and also friends in Catonsville. They enjoy good health, and are having quite a pleasant time. They expect to remain until July."

At Kossuth, Ohio, last Saturday, indignant citizens stripped a man, coated him with axle grease and hanged him up by the heels and would not let him down until he had cheered three times for Uncle Sam and the stars and stripes. The cause of his punishment was his saying that if the United States and Germany got into war he would go to Germany and fight against America.

The dwelling house of Mr. Hammond Urner, son of ex-Congressman Urner, in Frederick city, was destroyed by fire at 1 o'clock Wednesday morning, and the adjoining properties of Mr. Thomas Ramsburg and Dr. Wm. H. Baltzell were badly damaged. The fire was discovered by a servant girl in an attic room occupied by herself, and is supposed to have caught from the explosion of a lamp, which she had in the room.

Messrs Andrew A. Annan and A. V. Keppers, Registers of Voters for Emmitsburg district, have completed the work of transcribing the names of qualified voters from the old registration books to the books provided for the new precincts, according to the law passed by the late Maryland Legislature, dividing Emmitsburg into two voting places. As the names on the books now stand, the number of voters in precinct No. 1 is 465, and in precinct No. 2, 348.

The new oath provided by an act of the last General Assembly is now being administered in all Maryland Courts. Under the new oath the person to be sworn holds up his right hand and the following is propounded to him: "In the presence of Almighty God I do solemnly promise or declare to tell the truth, the whole truth and nothing but the truth. It is unlawful to add 'So help me God,' which ended the old oath, or any imprecatory words whatever.

The funeral of Mr. Thomas Jones, who died at Glyndon on Friday, took place at Central Methodist Protestant church, near New Market, on Monday. Mr. Jones was an examiner in the appraisers' department of the Baltimore custom-house, an office which he had held about thirteen years. Previously to his appointment he was a merchant at Union Bridge. His remains were taken to Union Bridge over the Western Maryland Railroad, and conveyed from thence to the place of interment on Monday morning.

The Maryland State Council O. U. A. M., met in Salisbury this week. The secretary's report showed a gain in membership during the year of 590. The financial statement was the most satisfactory that has been received for many years. The condition of the order generally is most encouraging to its membership. The committee on appeals reported that no appeals were presented during the year, thus making six consecutive years, that this condition has prevailed. This is a good showing of harmony.

We are indebted to State Fire Marshal, Edwin J. Lawyer, for a pamphlet containing his "impressions" of what he saw and heard at the 25th. Annual International Association meet of Chiefs and Marshals at New Haven, Conn. His impressions are graphic and interesting, indicating the ability of a quick witted man to note and appreciate the many points of business and pleasure connected with such meetings. His description of New Haven and surroundings, with the scenes attending the event, is particularly interesting and no doubt perfect, considering the limited number of words used.

There being no provision in the laws of this state for soldiers who are voters to have the privilege of casting their vote in state or municipal elections while serving in the field, those members of the First and Fifth Regiments who are voters when at home will lose their votes at the next election. In fact, they would be obliged to be here, or in the country, where they claim residence, some time prior to the election, in order to register. The Governor will not call a special session of the legislature to pass a law to enable the soldiers to vote in the field. As the voters who are soldiers are probably about evenly divided between the two leading parties, it is felt that no material political advantage would accrue to either of them, by making provision for such voters, or otherwise.

The business of the sixth annual session of the Maryland State Firemen's Association closed on Thursday morning. Resolutions of respect were passed on the death of the senior vice-president, Charles T. Holloway, of Baltimore. The Veteran Volunteer Firemen's Association of Baltimore also passed resolutions on Mr. Holloway. Resolutions were also adopted commending the action of Gov. Lloyd Lowndes in retaining in office the present fire marshal, Mr. E. J. Lawyer, and declaring that every succeeding fire marshal should be a volunteer fireman. John J. Stump, of Cumberland, was elected president of the association, and Charles V. Wanz of Westminster, secretary.

## REGISTERS OF VOTERS.

### Appointments made by the Supervisors for each District.

The Supervisors of Elections for Carroll county, Messrs Howard F. Schaeffer, James M. Pickett and Chas. V. Wanz, appointed a clerk to the Board and registers of voters for the several districts and precincts of the county on Tuesday. John H. Mitten, business manager of the *American Sentinel*, was appointed clerk, and the following, who will also act as judges of election and registers of voters: Taneytown District—William Withers, of Taneytown; J. Vincent Eckernode, of Harney.

Uniontown District—George C. Harman, of Prizellburg; John Sentz, of Pleasant Valley.

Myers District—Harvey S. Morelock, of Silver Run; George E. Bowman, of Silver Run.

Woolery's District—Lewis H. Knox, of Gamber; Charles Taylor, of Carrollton.

Freedom District, Precinct No. 1.—Charles H. Orraler, of Harriottsville; Simon Gohlbar, of Eldersburg.

Freedom District, Precinct No. 2.—Francis W. Buckingham, of Woodbine; R. H. H. Shipley, of Gist.

Manchester District—Cornelius Miller, of Manchester; Hiram S. Musselman, of Manchester.

Westminster District, Precinct No. 1.—Washington L. Brown, of Westminster; Charles H. Fowler, of Westminster.

Westminster District, Precinct No. 2.—Joseph H. Krichton, of Westminster; Joseph Franklin, of Westminster.

Hampstead District—William A. Murray, of Hampstead; J. Thomas Green, of Hampstead.

Franklin District—James A. Easton of Winfield; Lewis C. Franklin, of Taylorsville.

Middleburg District—Martin L. Koons, of Middleburg; John P. Gardner, of Middleburg.

New Windsor District—Joseph E. Engler, of New Windsor; William D. Lovell, of New Windsor.

Union Bridge District—J. M. Hollenberger, of Union Bridge; Joseph W. Baker, of Union Bridge.

Mount Airy District—J. Theodore Gosnell, of Watersville; Thomas M. Anderson, of Mount Airy.

The first named in each district is a Republican, and the last named a Democrat. Ivan L. Hoff was appointed attorney to the Board.

## Hay on the Move.

A race, runaway, or both, between two four-horse teams hauling hay, occurred on Baltimore Street on Tuesday morning, making things lively for a time. It appears that the team of George A. Mehring, with a load of hay was standing on the side of the street, on its way to Reindollar & Co's. sheds, when the team of P. S. Hiltterbrick, bound for the same place attempted to pass it. Just then the Mehring team was started and somehow or other the two went down street at a lively rate; Hiltterbrick's team could not be controlled until it reached John Baird's. In the first rush, a road cart, also belonging to Mr. Hiltterbrick—which was hitched opposite where the Mehring team was standing—was caught by his own load of hay and completely demolished, and the end is not yet, as Hiltterbrick claims that Mehring was at fault, and has entered suit to recover the amount of damages done to the cart.

## Rev. O. C. Roth at Altoona.

Rev. Oliver C. Roth, who has recently resigned the pastorate of Grace English Lutheran church, Broadway and Gough street, Baltimore, moved on Wednesday with his family to Altoona, Pa., to take charge of the First Lutheran church of that city. Rev. Roth was given a farewell supper by the council of the church at the residence of Mrs. L. Stulman, 1708 Eastern avenue. Rev. Dr. William Freas, of York, Pa., has accepted the call to Grace church, and will take charge on July 1st. In the meanwhile the pulpit will be filled by the Rev. Frank Manhart, of the Lutheran Deacons' Home.

Charles Stiffely, of Double Pipe Creek, died suddenly on Wednesday with convulsions, brought on by drinking a large quantity of iced milk. He was 48 years old and leaves a widow and five children.

Our country is looking grand; grain and grass is looking well, and corn is growing nicely; potatoes are in blossom and garden vegetables keeping place with all the rest of nature's products.

## Church Notices.

Annual Children's Day Jubilee at Pipe Creek M. P. Church, Sunday at 10:30 a. m. Preaching at Uniontown at 8 p. m., conducted by the pastor. H. W. KINDEL.

Children's-day services will be held in the Reformed church, Taneytown, on Sunday morning, June 13th, at 10 o'clock.

## DIED.

Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free of charge.

BOWERSOX.—On June 8th, at New Windsor, Mr. Beniah Bowersox, aged about 72 years.

## IN MEMORY

of Peter Warchime, who died one year ago. "Gone, but not forgotten." God, in His infinite wisdom, removed from our midst, one year ago, our dear brother, Peter, whose loss we deeply feel. Thou hast left us to mourn our loss, and the hours lonely and sad without thee, dear brother, but God doeth all things for the best, and still, we will—Forget not when flowers are sighing And evening sunsets fade along the west, Thinking of thee, dear brother, yet not pale and dying, But living, smiling, radiant amidst the bright, By his sister, KATIE WARCHIME.

## CAMP RICHARDSON, CAL.

### North Dakota Patriotism up to the Proper Standard.

After reading a late issue of your paper, I concluded to give you, as nearly as possible, a description of the patriotism of the people of North Dakota. On the 26th, day of April, 1898, when the call was made for 135,000 volunteers, there were just 80 men in Co. G., Valley City, where I then was; on the 27th., we had 100 men ready for examination and willing to go to the front, as cavalry or infantry; on May 2nd, we went into camp, at Fargo, and on May 10th, a company was formed with 73 men all ready to volunteer.

After drilling, and anxiously awaiting orders, we finally broke camp, Friday, May 26th., for San Francisco; the 1st. Battalion, to which I belong, via N. P. R. R., and the 2nd., via Great Northern. We can simply say, our trip was made as pleasant as possible through North Dakota and Oregon; at every stop hot coffee and elegant lunches were served by the citizens, and the kindly feeling with which they treated us was unmistakable. When we arrived at Portland, on Sunday, May 29th., the ladies met us at the train, gave each a bunch of roses and a lunch box with a daintily arranged lunch, served us with dinner, bidding us God speed and decorating the train with beautiful roses; and, through the entire state of Oregon, our path was literally strewn with roses.

On May 31st., we were met by the Red Cross Society at the depot here, dined, after which we had an enjoyable march of six miles to camp. The climate is excellent—sand only about six inches deep—we have an excellent corps of officers and every courtesy they can offer is extended to us. Day before yesterday, we were, as a Company, taken on the street cars to Sutro's baths, and enjoyed the pleasure of a warm salt bath at Valley City's expense.

By the way, we have a company fund of \$600.00, given us by the Valley City people before we left there; at the same time, the President of the Bank instructed our captain that his draft, for any amount the Company needed, would be honored, let him draw from any point on earth. We are anxiously awaiting our accoutrements and orders to the front.

June 4, '98. S. A. GALT. (S. A. Galt, who is better known here as "Archie," is a son of Mr. and Mrs. Henry Galt. We should be pleased to have other letters from him.—Ed.)

## Temperature and Rainfall.

The following table, made up from observations covering five or six years of establishments, as nearly as possible, the normal temperature and rainfall for Taneytown and vicinity:

Month	Temperature	Rainfall
January	28.0	1.88
February	33.3	3.30
March	44.4	3.25
April	52.4	3.35
May	61.5	5.00
June	69.8	4.31
July	77.2	4.29
August	81.4	3.57
September	68.2	3.62
October	54.8	2.29
November	46.6	4.06
December	36.4	2.28
Annual average	53.7	3.68

## New Postage Stamps.

A new series of postage stamps to be known as the trans-Mississippi series, commemorative of the Exposition to be held at Omaha, Nebraska, during this summer and fall, will be issued by the government the last of June. The stamps will be oblong, much the size of the Columbian series, and will be in all regular denominations up to \$2.00. The one cent stamp will represent "Marquette on the Mississippi," from a painting by Lamprecht, now in possession of the Marquette College, of Milwaukee, Wis., representing Father Marquette in a boat on the Upper Mississippi preaching to the Indians. Color of border, dark green. Two-cent, The "Mississippi River Bridge," from an engraving, a representation of the bridge over the Mississippi at St. Louis. Color of border carmine. The government finds it quite profitable to issue special series of stamps because of the large number sold to stamp collectors and therefore not actually used for mailing purposes. The regulation size and color stamps, will be made and sold as usual, and none of the new ones, except ones and twos, will likely be sold in the country.

## Stop My Paper.

The following clipping has appeared in nearly every paper in the country, which seems to indicate that it is a "good one," therefore we fall in line, a little late, and publish it too. We don't feel this way about our subscribers, consequently are not "hitting" at anybody; but, if the squib is true, the RECORD family might as well have it shot at them as a sort of advance argument; "After you get angry and stop your paper, just poke your finger into water, pull it out, and look at the hole. Then you will know how sadly you are missed. A man who thinks a paper cannot thrive without his support, ought to go off and stay a while. When he comes back, half his friends will not know he was gone and the other half will not care, while the world at large kept no account of his movements. You will find things you cannot endorse in your paper. The 'Book of Books' is often very plain and hits some hard raps, but if you were to get mad and burn your Bible, the hundreds of presses would still go on printing it. So, when you stop your paper and call the editor names, the paper will still be published, and what is more, you will read it on the sly."

## NEW WINDSOR COLLEGE.

### Interesting Commencement Exercises held this Week.

The Opening Exercise in connection with Commencement at New Windsor College, was the Baccalaureate service, which was delivered to a crowded house on Sabbath morning in the Presbyterian church, by Rev. Dr. Jas. Fraser. The following is the program of the Elocutionary Contest, all of which was rendered in a manner to do credit to the participants and show thorough training by their instructors. "Anvil Chorus," School; recitation, "Death Doomed," Miss Elsie Stevenson; declamation, "Jerry," Willie Fraser; duet, "March de Girondin," Misses Addie B. Manahan and Nellie Hibberd; recitation, "The Ladies' Whist Club," Miss Marie Baile; declamation, "The Stability of our Government," Clarence Anders; recitation, "Spinning Wheel Song," Miss Mary Repp; inst. solo, "Bonte en train," Miss Jeannette Mussina; recitation, "The Stowaway," Miss Olive Wolfe; oration, "Our Country," H. P. Sanders; recitation, "The District School," Miss Grace Smith.

Trios, Bolero, "Cuban Dance," Misses Nellie Hibberd, Elsie Stevenson, Florence Nusbam; recitation, "The Maiden Martyr," Miss Emma Ecker; recitation, "The Kitchen Clock," Miss Lamora Bankerd; declamation, "Our Duty to the Republic," Truman Pearre; duet, "Le Postillon d'Amour," Misses Elizabeth Roberts and Elsie Stevenson; recitation, "Charity's Meal," Miss Edna Snader; oration, "Reformers and Progress," Kelo Anders; "Seen' Things," Wallace Fraser; duet, "Ventre a Terre," Miss Addie B. Manahan and Mrs. A. B. Nusbam; recitation, "The Ride of Jennie McNeal," Miss Marie Sensey; chorus, "The Star Spangled Banner," school.

Commencement day, Thursday, was ushered in by a very interesting program of music, essays and addresses; and though there were but two graduates, there was a large attendance.

The degree of A. B. was conferred on the members of the graduating class, Charles Lyman, of Washington D. C., presenting the diplomas. A statement was made in relation to the college by Rev. Charles H. Bamsdell, D. D., secretary of the Board of Trustees, and addresses were delivered by Hon. Robert H. Smith, Rev. John P. Campbell, of Baltimore; Rev. James M. Nourse, of Washington, D. C., and Rev. Henry Branch, D. D., of Ellicott City.

The winners of prizes in the elocutionary contest, which took place on Tuesday night, were announced, as follows: First prize for recitation, Miss Mary Repp, of Union Bridge; second prize, for recitation, Miss Marie Sensey, of Union Bridge; prize for high oration, Henry P. Sanders, of Highlandtown; prize for best declamation, Truman Pearre, of Union Bridge. The following general prizes were also announced: Faculty prize, for highest general average in all branches, Mrs. Benjamin Segelken, of Eastport, Md.; prizes for best average in any branch of mathematics, given by Rev. Harry S. Ecker, to Miss Olive Wolfe, of Union Bridge; prize for composition, best essay on "Vanity Fair," to Henry P. Sanders, of Highlandtown.

The Crockett gold medal, for proficiency in Greek, and the Rohan gold medal, for proficiency in natural the history, were awarded to Charles Benjamin Segelken, and the Wright prize \$15 in cash, for proficiency in Bible study, to Henry R. Sanders. Prizes were awarded to Miss Florence Engler for excellence in preparatory Latin, Miss Mary Repp for excellence in preparatory Greek, and Miss Virginia Richardson for proficiency in arithmetic and also for progress in English history.

## New York—Gettysburg.

(For the RECORD.) "The Grand Army of the Republic of the city of New York have arranged a select tour to Gettysburg. The special express train of parlor cars will leave New York on Friday, June 17th, at 4 p. m., reaching Gettysburg at 10:30 the same evening. Saturday the 20th., as the guests of the P. R. R. Company, the tourists will be taken all over the famous battle-field in carriages accompanied by competent guides. At night the local Post G. A. R., and the citizens generally, will entertain the distinguished visitors at a camp fire, at which General J. P. S. Gobin, Commander-in-Chief, G. A. R. will preside. Music, stories and speeches will be the programme carried out.

Among the many already booked are Generals Albert D. Shaw, N. Y. Dept. Commander; Wm. D. Whipple, Commander of Washington Post; Daniel Butterfield, Commander of Lafayette Post; George B. Loud, Commander of U. S. Hancock Post; Col. J. A. Goulden, Chairman G. A. R., of New York City; Col. E. J. Atkinson, Post Dept. Commander; General Thos. J. Stewart, Adjutant General of Pennsylvania; General B. S. Williams, Inspector General, Providence, R. I.; Hon. John M. Coffey, City Recorder; Hon. Samuel McMillan, Hon. John M. Kerney, Hon. John E. Ennis, Hon. Henry A. Rogers, Hon. John Jasper, City Supt. of Public Schools; Dr. E. D. Shriner and Prof. H. N. Johnson, Associate Supp's. E. W. Stitt, James W. Davis, E. A. Giddies, E. H. Boyer, W. P. McCarty and other school buyers.

The excursionists will spend Sunday in Gettysburg, leaving there at 4 p. m., and making New York at 10 o'clock. A uniformed drum corps of the American Guard Public School boys will accompany the tourists. G. A. R. comrades cordially invited to meet the visitors, and attend to camp fire.

## CORRESPONDENCE.

### All communications for the RECORD must be sent by the writer's own name, not necessarily for publication, but as an evidence that the matter and facts transmitted are authentic and correct. Items of a mischievous character are not wanted.

## Harney.

Rev. C. F. Sanders and wife, of Avonmore, Pa., spent several days visiting friends in this place during last week. We are glad to say that both are looking well.

Children's-day exercises at the U. B. church on last Sabbath were well attended, and all say it was the best exercise ever held at that place.

The members of Harney Castle, Ancient Order Knights of the Mystic Chain, will hold an all-day picnic in the grove at this place, on July 2nd. A full program will be given later.

On last Saturday evening our band serenaded the town. They marched every street, and we are glad to say they have proved themselves to be thoroughly prepared for the coming season.

Mr. Lincoln Withrow succeeded last week in getting the tools of his well driller loose again. The bit got fast some time ago, and they were compelled to dig down after it; fortunately he did not have to dig more than about 20 ft.

Some of our citizens have been making a raid upon the English sparrows; they are plentiful, and it would be a good thing if every person would get for them. They are nothing but a nuisance any way, and besides are very destructive.

Mrs. Lavina Shriver, of this place is spending some time visiting her son, J. W. Shriver, at Littlestown. The members of the U. B. church met on Thursday, and put up a lot of new hitching posts; this is quite an improvement and was badly needed.

On last Tuesday morning, Mr. Samuel McCutcheon started from Mr. John Ridinger's, and walked to this place. Mr. McCutcheon is a very old man, and any one who sees him walk would think it an impossibility for him to make such a long march. When we saw him coming, we expected to see him fall at every step, but he managed to get through all O. K., by holding on to one with one hand, and supporting himself with a cane in the other hand.

Mr. Samuel Hyser has just finished painting his building, and needless to say that a little paint makes quite an improvement on the looks of his property. It is true that it costs something to paint a full set of farm buildings, but then it more than double the cost to the value of the property afterwards.

Children's-day exercises will be held at St. Paul's Lutheran church, on Sunday afternoon, at 2 o'clock. We are told that the program is a most excellent one, and we know that every effort will be put forth to make it a success.

We are informed that Mr. Dory Fessler expects to buy a new threshing rig in the near future. Dory has considerable business, and we believe that he will make it a success.

Mr. H. F. Clinegan spent last Tuesday on a business trip to Harrisburg, Pa.

We are glad to learn that our friend, Amos Trimmer, who succeeded Mr. Chas. Brown in the creamery business at this place, is getting along nicely, and that he is liked by the people.

Mr. Albert Sherman and family, accompanied by several friends, are camping on the Monocacy, near this place. Mr. Sherman closed his summer school at this place on last Monday. Nearly all the children have the whooping cough, consequently quite a number were unable to attend.

On last Tuesday evening Mr. Harry Stonesifer succeeded in landing an 11 pound carp.

Mr. Wanzeltz, of Thurmont, is visiting his sister, Mrs. Eyer, on Gettysburg St. He generally visits this place once a year; we are glad to note that he is looking well. He informs us that his health is generally good, although, of course he begins to feel that old age is having its effect upon him. Having passed the three score and ten several years he says that he is travelling upon borrowed time, and that his days for the active work of life are over.

## Fourpoints.

On last Sunday, Mr. B. L. Leatherwood took a trip to Camp Alger, Va., to see his son Scott, who is a member of the 6th. Ill., Regiment. Mr. Leatherwood reports having a very pleasant trip and says the boys are all in the best of spirits, and are ready at any time to go and help give old Spain a complete thrashing. The health is very good in camp. He says there was a very large crowd there on Sunday, people going and coming all the time, wishing the "boys in blue," success in their grand and noble work.

Mr. James Martin and wife spent a very pleasant day on a visit to Mr. and Mrs. Ezra Conover, of Bridgeport last Tuesday.

Master Archie Fisher visited relatives in Frederick this week.

Mr. H. F. Maxell and wife spent Wednesday and Thursday visiting friends in Union Bridge.

Mr. John Clutz, supervisor on the road from Monocacy to Toms Creek, has just finished making it. Mr. Clutz has made a model road; it would be well for some of our supervisors of this district to go over his road, and pattern after him. He also says he has one-fourth of the regular appropriation which is \$15.00 to the mile, left to work on the road in the Fall, which goes to show that the roads can be made good for the money they get.

## New Windsor.

Beniah Bowersox, a prominent farmer, died at his home in New Windsor district, on Wednesday night, 8th, inst., aged about 72 years. He was a leading member of St. James' M. E. church, and an ardent democrat, and was held in high esteem by all who knew him. Funeral will take place this Saturday morning. Interment at St. James' cemetery. Deceased leaves a widow, one son and two daughters.

After July 1st., our combination offer, of the RECORD with the *N. Y. World*, will be advanced to \$1.65, from \$1.50.

## Union Bridge.

The Summer school scholars who received the most head-marks in their respective grades were: Lala Lindsay, Elsie Lambert, Bennie Phillips and Netta White.

The Fireman's Fair closed on Tuesday night, and will open on Saturday night and have auction. We hope everyone will come and bring their pocket-books as there is quite an array of cakes and fancy articles to be disposed of.

Mr. and Mrs. C. C. Little spent Sunday in Taneytown.

The Sunday schools of Union Bridge contemplate holding a union picnic on July 16th. We expect the affair to be a grand success.

The body of Thomas Jones, of Glyndon, Md., was brought to Union Bridge on the 10:30 train, on Tuesday and was taken to the Central M. P. church near New Market for burial. Mr. Jones was for a number of years a merchant in Union Bridge, where he leaves a number of friends and relatives.

William Wood will have sale of his personal property on the 18th., after which he will remove with his family permanently to Brooklyn, N. Y.

At the annual meeting of the Trustees of Franklin and Marshall college Lancaster, Pa., held this week, the degree of Ph. D., was conferred on Rev. K. Otis Spessard of this place.

Mrs. Chas. E. Gray and Master Willie Gray, accompanied Miss Clara Myers to her home in Fairfield, Pa.

their Postmaster to do so. The label on paper  
contains details as to what the subscriber  
should do. No paper will be discontinued  
until all arrears have been paid, except  
at the option of the publisher.  
ADVERTISEMENTS will be inserted un-  
der contract at the rate of 25c per inch, per  
annum. Rates for Legal Notices, Special  
Advertisements and short term contracts,  
given on application.  
ENTERED AT TANNEYTOWN POSTOFFICE AS SECOND  
CLASS MATTER  
SATURDAY, JUNE 11th., 1898.

THE RECORD does not claim any great degree of merit for its editorials, except that of originality, yet it does not relish having them used by exchanges without the proper credit being given. We're "techy" on this point, we're willing to admit.

"GREAT GUNS" is an appropriate expression nowadays, on opening the average daily paper, as guns of some kind or other are apt to be found staring us in the face with a more or less wicked suggestiveness. They form an important factor in the regulation plan of modern journalism, as we have it now—sale bill type for head lines, a lot of war ships and imaginary cuts of imaginary events, supplying "the latest" war news, all for a cent.

THE AMERICAN flag is frequently termed "Old Glory," as a pet name, but it's slang and we don't like it. The "Star Spangled Banner," according to Francis Scott Key, is all right; but, aside from this, and its true name, there does not seem to be any further liberty for experiment allowable. Let us stick to plain "American flag," as a name, as we do to American, which it symbolizes, without any frills or attempts at frivolous familiarity.

THE LATEST Democratic candidate for Congress in the Second district is Dr. J. W. Hering, State Senator from Carroll county, and the names of Delegate Wirt, of Cecil county, and Mr. George M. Jewett, of Harford county, are also being mentioned in the same connection. The leading candidate in Baltimore county are Hon. J. Fred C. Talbot, Mr. Lewis M. Bacon and Mr. Harry Malcolm. It is thought the Democratic nomination will come to Baltimore county this year and there will no doubt be a lively fight for it. Mr. Bacon, who for twenty-four years held positions in the Court House, the last six a Clerk of the Court, has just been admitted to the bar. He is a successful farmer in the 8th. district.—*Balt. Co. Union.*

THE AMERICAN MONTHLY REVIEW of June is a well-illustrated "war number." The magazine opens with the editor's review of the first month's campaigning in our contest with Spain. This is followed by the detailed account of the struggle in the "Record of Current Events" and "Cartoon Comments" on the war, chiefly from foreign journals. The contributed articles include a character sketch of Admiral Dewey by Winston Churchill, two articles on the Philippines, and one on "Spain and the Caroline Islands" from a missionary point of view. The department of "Leading Articles of the Month" also deals with many questions growing out of the war. Altogether there are more than eighty pictures of subjects related to the present crisis.

EX-SENATOR John J. Ingalls, of Kansas, whose famous and brilliant writer, a man of remarkable scholarship and literary attainments, is even greater than that of the distinguished senator, announces a new book on the subject of the American-Spanish-Cuban War. It is entitled "America's War For Humanity in Picture and Story." It is published by the N. D. Thompson Publishing Co., of St. Louis, Mo., and is an exhaustive discussion of the causes of the war, and an equally exhaustive history of its incidents, and a brilliant analysis of the famous characters conducting it. It promises to be the one great and popular work called forth by this wonderfully interesting national episode. Whatever Senator Ingalls touches he adorns; and this book shines and sparkles in the light of his genius. The present work is worthy of his genius, and will be a monument to his fame. The subject now so engrosses the popular mind as to forecast for this book a sale that will be universal. It will be sold by subscription only, and the canvassing samples are now ready for agents. We advertise it in another column.

**The Summer Outing.**  
The time for going to country and sea shore is again at hand for city folks; some to one place, and some to another, as inclination directs and purse permits. The reasons for this exodus are various; and, notwithstanding the presumption that everybody "goes away" for rest and health, it is likely to be a pretty truthful guess that but very few, after all, go for this reason alone, which may be supplemented with a second guess, that, by far the large majority of people who actually need rest and recreation are not among those who take it.

In many cases, men heroically supply the means with which to send their families to the country, while they—who need more truly than those who are sent—continue the steady grind at their business or profession, with possibly an over Sunday visit to the resort selected. Some, no doubt, are rested by having their families away, but this does not seem a pleasant way of stating an unpleasant truth.

and destroy their working facilities for the future, by penitently deciding that they "can't afford" the cost of a few weeks outing. Rest, is as actually necessary to vigorous work, as strength—the two are synonymous—and needed recreation, when taken, is an asset worth much more than its cost in cash.

**Lynchers Take Notice.**

Our Maryland lynchers should take notice that their brothers in Louisiana, one day last week, improved on the old style of lynching, by burning a negro to death at a stake in regulation "yellow back" novel Indian style. Since Dewey has blockaded Manila, and thus advanced the price of rope, on account of shutting off the shipment of raw material to this country, lynching, via the rope and limb route, is likely to be a too expensive amusement; besides, it's very prosaic in detail, and burning at the stake will add a novelty and zest which will likely be much enjoyed by the murderers, while the victims will care but little as to the means used. By all means use fire and stake.

**The Days made too Long.**

The time of year is here when the town and village business man has a rather hard time of it, if he attempts to be on duty at times to suit all people. When farmers are busy, they will, as a rule, work until late in the evening and go "to town" either late at night, to attend to business, or very early in the morning. This means that business places, in order to accommodate some, must be kept open until ten or eleven o'clock at night, and to be open for others, from four to five in the morning.

This leaves but few hours of rest for the business man, and is asking more from him than can reasonably be expected, particularly as there is no real necessity for the demand. Everybody needs rest, who works, whether with muscles or brain, and this early and late business should never be left interfere with the taking of a sufficient amount of sleep and rest. Farmers break themselves down in body, unnecessarily, very often, because of making the days too long, and it is only a matter of time when the effects of the practice will surely show.

The man who comes to town at daylight, and grows because the stores and postoffice are not open, should remember that other people were in the night before, while he was asleep, until a very late hour; and, should the business man accommodate both, he would be required to make his working day from eight to twenty hours long—a proposition utterly without reason.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in his medicine chest. It cures all the ailments of the stomach and bowels, and then ruin his best horse doctor for a doctor and have a big doctor bill to pay, besides, one pays out 25 cents, the other one out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. For sale by R. S. McKinney, Druggist, Taneytown, Md.

**The Philippine Islands.**

All Americans are interested now in the Philippine Islands, which Admiral Dewey has captured, and which are to be occupied by troops from the United States, and we compile the following information from a consular report made by Consul Oscar E. Williams, just issued by the state department, and from other government publications.

The area of the islands is estimated at 150,000 square miles and they have a population of from eight to ten millions. The island of Luzon, on which is the city of Manila, is larger than New York and Massachusetts, with a population of five millions. There are scores of other large and populous islands. The total number of islands, large and small, is about 2,000 occupying a land and sea area of about 1,200 miles of latitude and 3,400 miles of longitude.

In 1896 the imports into the islands were valued at \$10,631,250, and the exports from the islands were valued at \$20,175,000.

For the years 1896 and 1897 the trade of the United States with the Philippine islands was as follows:

Hemp, manilla.....	1896	1897
Cane sugar.....	\$2,094,444	\$2,701,621
Vegetable fiber.....	2,279,942	1,192,252
Vegetable fiber.....	68,338	384,155
Fiber, mfrs. of.....	39,428	22,170
Straw, mfrs. of.....	81,361	72,137
Tobacco.....	298	2,328
Miscellaneous.....	35,095	1,687
Total.....	\$4,982,857	\$4,283,740
Cotton, mfrs. of.....	1896	1897
Mineral oils.....	\$ 9,714	\$ 2,164
Wool.....	89,658	46,968
Woolen goods.....	1,500	2,328
Miscellaneous.....	61,254	44,289
Total.....	\$102,446	\$94,597

Mr. Williams says that of the total exports of hemp from the Philippines for the ten years ended 1897, amounting to 6,528,965 bales (914,055 tons), 41 per cent went to the United States. During the same years the Philippine Islands exported to the United States and to Europe 1,683,904 tons of sugar, of which 875,150 tons went to the United States, 696,391 tons to Great Britain, and 41,363 tons to continental Europe; showing that of the total exports more than 55 per cent went to the United States. Mr. Williams says that the trend of trade is toward the United States and that his "best endeavors will be exerted toward its further extension." There are twenty-two consulates on the islands, but the volume of export trade coming under his official supervision equals that of the other twenty-one consulates combined.

There are about 25,000 foreign residents on the islands, about half of them at Manila, the mentor of the colonial government. English, Spanish, German and American houses are engaged in trade. They advance money to the natives on their crops. "Such business methods," we are told, "involve risks and necessitate large capital in the beginning but the profits are immense." The land is fertile and productive, and lacks

The Royal is the highest grade baking powder known. Actual tests show it goes one-third further than any other brand.

**ROYAL BAKING POWDER**  
Absolutely Pure  
ROYAL BAKING POWDER CO., NEW YORK.

only intelligent cultivation. Hemp is the chief source of wealth. Sugar cane does not give satisfactory returns, owing to the ignorance of the planters. The average production has been 165,186 tons. The cultivation of tobacco is an important industry, but is capable of much greater development. The native coffee, although not equal to the mocha or bourbon varieties, has a fine aroma. It goes chiefly to Spain. Cocoa trees grow in abundance, and the oil is used for light, famous for its superior qualities. The native of the island are ignorant and indolent and have been the victims of years of plunder and misrule by Spanish officials.—*Ex.*

**The President was Right.**

Every day it becomes more and more apparent that President McKinley was right in opposing the recognition of the Republic of Cuba. A few weeks ago senators, representatives and thousands of citizens were clamoring for official recognition of the alleged government of the Cuban insurgents. In the face of all this President McKinley stood firm.

It is now certain that those who were howling for recognition did not understand the situation. There is no Cuban Republic, neither is there an insurgent army of any magnitude. The Cuban Junta in this country has flourished through misrepresentations. It has lied about the strength of the insurgents and has underestimated the strength of the Spanish army. The President's conservatism was the acme of wisdom.

Another thing. The criticism of the course of the President in not at once sending a few thousand regulars to Cuba is proved to be without foundation. With the condition on the island as now known it would have been utterly folly to have thrown a few thousand men there to oppose an army of 100,000 Spaniards. Quick action would have been disastrous.

As the war progresses the position taken in the beginning by President McKinley must be generally recognized as being sound in every respect and history will make it clear to every doubter.—*Toledo Blade.*

**Yellow Jaundice Cured.**

"Having my humanity should be surprised, it is with pleasure we publish the following: 'This is to certify that I was a terrible sufferer from Yellow Jaundice for over six months and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky.' Sold by R. S. McKinney Druggist.

**Firing Big Guns.**

Gunnery today is an intricate science requiring skilled and educated men to master it, and it has reached a state of development never dreamed of by the naval heroes of the past. A modern monster rifled cannon will hurl a huge projectile with tremendous force and frightful destructive possibilities through some 15 miles of space. This is much farther than the unaided eye can see clearly or aim a gun with anything like effective accuracy, for it is science that must supplement the eye and bring to its aid certain delicately adjusted instruments before the shots of these great guns can be made fruitful at long range. Assisted by these instruments, it is not only possible, but probable, that a skilled gunner would be able to hit an enemy's battleship at a distance of six miles or even farther from the muzzle of his gun.

The projectiles from these cannon do not travel in straight lines, but in curves, and their range or point of contact with the earth is determined by the angle of the elevation of the gun barrel. The elevation angle of elevation of each gun in order to throw a shot a certain distance is known to its gunner. Hence if the distance of a ship or other objects from the gun is known the gunner has only to elevate his gun to the proper angle, aim it so that it will be in line with the target and fire, with the certainty that his shot will strike the mark or near to it.
