Archie A. Crouse, of this place, a Western Maryland R. R. fireman, has temporarily, at least, quit the service of the road, on account of the fact that the connections with the Reading road has resulted in cutting down the number of trips for the Western Maryland crews to such an extent that the men cannot earn enough to pay their expenses. Should this condition be changed for the better, he will likely go back again.

There are two ways to help people out of their financial slough of despond. They are; TO GIVE THEM MONEY, TO SAVE THEM MONEY. Now if you will buy Harness, Col-

Then when you see what a good, durable article you have bought, you will wonder how we can sell it so cheap, and will take the money and buy something else; so you get two articles for the same money.

Johnston's Sarsaparilla QUART BOTTLES. THE GREAT SPRING MEDICINE.

SEVEN RUNNING SORES CURED. JOHNSTON'S SARSAPARILLA as a Blood Food and Nerve Energizer, is the greatest SPRING MEDICINE ever discovered. It comes as a rich blessing from heaven to the "worn out," the run down, the overworked and debilitated. That "tired feeling," those "sinking spells," the languor and despondency which arise from badly nourished nerves, from thin, vitiated blood and an underfed body, vanish as if by a magic spell. The weariness, lassitude and nervous prostration which accompany the springtime and the heat of summer, are conquered and banished at once. For every form of neurasthenia, and all ailments of the brain and nerve, insomnia hysteria and nervousness generally, it is almost a specific. It furnishes the very elements to rebuild worn-out nerve tissues. It feeds brain, nerve centers and nerves, calming and equalizing their action; it

But in this way, every part of the body became more or less diseased. Nothing can be more terrible than a horribly destructive blood taint. It not only attacks virulently the different structures of the body, but many times the bones are honey-combed and destroyed. It often seeks out the nerves and spinal cord, and again it will bring decay and death to some vital organ, as the kidneys, liver or stomach. There is only one or the multitude of smaller duties.

Sequence of the Americans spent Thursday in preparing for the attack. They had encamped the previous night beyond Guiguinto, about two and a half miles south of Malolos. The troops covered most of this distance on Thursday, and then made final preparations for what was expected to be a severe battle, but which, according to General Otis, was but a "slight resistance."

In the fighting on Thursday the American loss was four killed and twenty-three wounded. This makes the total American loss in the Philippines from February 4 up to, but not including any part of to-day, 171 killed and 947 wounded.
