

The Carroll Record.

INDEPENDENT IN POLITICS.

Published every Saturday, at Taneytown, Md., by The Carroll Record Printing and Publishing Company.

P. B. ENGLAR, Editor and Manager.
BOARD OF DIRECTORS:
DR. G. T. MOTT, Pres. G. A. ARNOLD,
F. H. SEISS, Sec. & Treas. DR. C. BIRNIE,
GEO. H. BIRNIE, JR., J. H. ENGLAR,
JOHN S. BOWEN.

TERMS: One Dollar per annum in advance. Six months, 50c. Trial subscriptions, Three months, 25c. Subscriptions will be continued as a rule, after the time for which the paper has been paid, has expired. Subscribers who wish to discontinue, should notify us, or ask their Postmaster to do so. The label on each paper contains date to which the subscription has been paid. No paper will be discontinued until all arrears have been paid, except at the option of the publisher.

ADVERTISING rates will be given on application, after the character of the business has been determined, together with information as to space, position and length of contract. The publisher reserves the privilege of declining all offers for space.

ENTERED AT TANEYTOWN POSTOFFICE AS SECOND CLASS MATTER

SATURDAY, July 6th, 1901.

Volume VIII.

The RECORD begins a new volume with this issue, having just closed the most successful year of its existence, from a financial standpoint. We make this statement in order to acknowledge the extent of the support our patrons, rather than for the purpose of claiming any extraordinary degree of merit for our own efforts. From the beginning, the RECORD has received a degree of popular support far exceeding the hopes of its promoters, and, as the old-time advertiser says, "we hope to merit a continuance of the same, by low prices and prompt attention to business."

The New Election Precincts.

The Board of Election Supervisors for this county "in their judgment and discretion" has "deemed it expedient" to create five new voting precincts in this county—one each in Uniontown, Woolerys and Manchester districts, and two in Westminster district. In order that this action may be the better understood, we reproduce the Section of the law under which these precincts have been created:

"Sec. 17A. As soon after the passage of this Act as shall be reasonably practicable, it shall be the duty of the Board of Supervisors of Elections of the several counties to examine the boundaries of the several election districts and election precincts in their respective counties and whenever in their judgment and discretion it shall be expedient to change the boundaries of any of said election districts or election precincts, having a number of voters in excess of six hundred, they are hereby empowered and authorized to make such changes, and to establish the boundaries of such subdivisions in such a way as to divide an entire new and different polling place or by providing for two separate polling places at or near the former polling place."

According to the *Sun* almanac, the districts containing over 600 voters are as follows:
Uniontown 769
Woolerys 761
Westminster, 1st 761
Westminster, 2nd 761
Westminster, 3rd 761
Westminster, 4th 761
Westminster, 5th 761
Without special reference to the new "special" election law, as to its justice, and the necessity for it—both very doubtful questions in the judgment of many—we can, with propriety, look into the matter of the creation of these new precincts because they stand for the addition of about one-third more to the previous cost of our county elections, which must be paid by the tax-payers.

We are of the opinion that an additional precinct in Manchester and Westminster districts might have been sufficient, in order to give ample time for voting, and that an additional booth in each of the district for every hundred voters, or fraction thereof, over 600, would have increased three of these new precincts, with their expensive registration and election officials, entirely unnecessary. As nobody knows what will be the result of the infliction of this new law—voting puzzle, educational requirement, disfranchisement scheme, or whatever it may be—it seems to us that it would have been fair all around to have tried one election without the creation of any new precincts or of any expense in addition to that already incurred by the special session of the legislature.

Leaving the division of districts to the "discretion" of a partisan Board of Election Supervisors, is an elegant opening for the exercise of political injustice. There should be no "discretion" about it. If Uniontown district with 672 voters and paying \$880.75 in taxes, and Woolerys district with 761 voters and paying \$467.35 in taxes are given another precinct, why should not Taneytown district with 769 voters and paying \$713.34 in taxes, be given one there, but it has a suspicious appearance.

Again, by adding together the registered voters of the two precincts of Westminster, we have a total of 1711. The creation of but one precinct would have given each of the three, less than 600 voters. Under the "judgment and discretion" of the Board of Supervisors, Westminster will now average but 428 to each of the four precincts. It may be politics, but we imagine that it will be a difficult matter to make the tax-payers of the county see the justice of, or necessity for, doubling the cost of elections in Westminster district, giving to each precinct but a few over 400 voters, while Taneytown is left to provide for 769, the 1st. precinct of Freedom 720, and Hampstead 612.

Evidently, this new election law is decidedly "educational." The 1st. precinct of Westminster has 765 voters, and is divided; the 1st. precinct of Freedom has 720 voters, and Taneytown 769, yet neither of these are divided—the "judgment and discretion" of the Board was kind to these districts in relieving them from the charge of piling up unnecessary expense on the tax-payers.

It is "educational," too, in the sense that it has shut the mouths and stilled the pens of many who used to rave against the extravagance of the late election law; in fact, this was a sort of clinching argument against it. We are not good at figuring the cost of elections in this county, but, from the last county statement it appears that the total cost was approximately \$4000 a year, for fifteen voting places. Now that five more have been added, with as many sets of registrars, judges, clerks, gate keepers, etc., it is in order

for those economists who were so exercised, previously, to give this phase of the "educational" law their personal attention.

Frederick, not so "Sweet."

Just now, something of a furor is afloat in Frederick over the fear that Hagerstown will secure control of the Frederick-Middletown electric road, build the connecting link from Myersville to Hagerstown, and secure the trade of the prosperous section traversed by this line. This little scare and the discussion of it throws a bright light on the "true inwardness" of all, or nearly all, electric railroads, and confirms the arguments advanced by the RECORD, in relation thereto, several years ago.

We stated then, that these roads were promoted by the larger towns for the purpose of benefitting the business interests of these towns, as against those of smaller places, and that benefit to the people along the line was a very small consideration. As long as Frederick, alone, draws sustenance from this particular road, the city considers it a very good thing for the whole county; but, as soon as Hagerstown makes an effort toward securing some of Frederick's present trade, through getting a hold on this electric road, both city and county will be injured, according to the following philosophy from the *News*: "The interests of Frederick and the Middletown Valley are not separate or antagonistic. What makes for the city's prosperity is of advantage to the whole county, and anything that benefits any section of the county is also a benefit to the city. Likewise, any blow at the prosperity of the city is aimed also at the welfare of the whole county, and any citizen who, directly or indirectly, would aid a scheme such as is believed to be on foot in Hagerstown would be disloyal to his county and blind to his own interests."

How the Middletown valley people are "benefited" by spending their cash in Frederick, alone, as against the choice of spending it in either Frederick or Hagerstown, is a conundrum for a Solomon. The solid truth is, Frederick—like all other trade hunting places—is "sweet" on electric roads only as long as they promise to benefit that particular place; and, as soon as trade finds its way to some other place along the line, the "sweet" suddenly becomes "sour."

We are not prepared to say that electric railroads are injurious to any class of people but tradesmen in the smaller towns and villages—the chances are they are a convenience to the majority of people, if not a direct financial benefit—but, the thing we have always objected to is the hypocritical method of promoting them: in claiming that everybody is benefited, especially the village, and in every effort being put forth to hide the guiding hand of the business interests of the large town which hopes to drain a section of country for its own greater good.

In these matters it depends vastly on "whose ox is gored." It is not now so much the concern of Frederick, as to whether residents in the country traversed by the road will be benefited by a chance to trade in Hagerstown, as it is the fear of loss to the business of Frederick. The pith of the whole question is that the building of these lines is always a purely selfish money-making proposition, for the benefit of the few, while the many are treated to an array of pictured advantages which are expected to hold their glitter, at least until after the stock is all subscribed and the road a "sure thing."

Senator Clay Outspoken.

Senator Clay of Georgia has come out boldly against latter-day Democracy. By latter-day Democracy, Senator Clay says he means Democracy tainted with Populism. Senator Clay insists upon his party abandoning Populist ideas. He says the Democratic party cannot win unless it secures the confidence of the business interests. The party cannot be victorious, he adds, unless it carries New York, Indiana, New Jersey and Connecticut. To carry these States, he says, the party must have a candidate whose name will not be like a red flag of danger to warn conservative people away from the polls.

"The Democratic party," continued Senator Clay, "has no fight to make on capital. The Democratic party recognizes the fact that when the business interests of the country are successful it results in great good to laborer and the farmer. The Democratic party, properly speaking, does not antagonize capital or any business interest. As I trust," he added, "that we may be able to meet the various issues that may arise in a broad and liberal way. For instance, I think we ought to be more tolerant of differences of opinion that may exist in the party, so that we can get together and agree upon a platform and a candidate that will commend themselves to the country."—*Eastern Ledger*.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctor gave up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now healthy and hearty. I have recommended this remedy frequently and have never known it to fail.—MRS. CURTIS BAKER, Bookbinder, Ohio. Sold by R. S. McKinney, Druggist, Taneytown, Md.

Dress Sensibly.

The following, from the Baltimore *Herald*, applies equally well to city and country, and is especially apposite to the present extremely hot spell: "If obliged to live and work in the summer in a hot city, why not be sensible enough to dress for it, and not wear a three inch collar for a neck or a heavy coat for a permanent Turkish bath steamroom. We do not encourage the eccentric or praise the lover of the conspicuous, but we do admire common sense and courage to put such common sense upon one's back, as well as to talk about it. Dress reformers and health reformers have flooded the market with a senseless theorizing, which has been partly sincere and partly daft, because of this, many ridicule all ex-

pression as to other than the customary ways and means of dress. But let us have liberty in this as well as in other matters of personal comfort, and we believe character and health will be benefited."

May it not be true that some of these cases of sunstroke and heat exhaustion have been the natural result of custom compelling a man of mild temper to carry around a complete clothing house and haberdashery's stock on his own person in order to make obedience to arbitrary style? If the God of Nature so ordered the shedding of the furry coat of the beasts that roam His forests, why not learn the lesson of comfort dictating as to what it is in dress to "do all things decently and in order?"

Benefit of Humus in Soil.

Humus, which is but another name for decaying and decayed vegetable matter, in the soil, is one of the necessary factors in the production of good crops, but all farmers do not appreciate its value, and so make no effort to supply it until compelled by poor yields to give their fields a rest while a crop of clover or other soil renovator is grown. This element in the soil renders it mellow and porous, therefore all vegetation thrives because the little feeding roots can branch out in every direction and find no hard earth to resist their growth.

A drouth cannot do much injury if there is plenty of humus in the ground for the soil particles are not adhesive and so do not form a crust on the surface to bake into cakes with large cracks from between which the moisture below readily escapes. On the contrary such soil just below the surface quite moist just below the surface even though no rain has fallen for weeks, while you will find the ground "dry as a bone" where there is little or no humus.

Paradoxical as it may seem, an abundance of humus makes the growing crops less susceptible to injury from continued wet weather because the surface soil being loose the water readily runs through to the subsoil and gradually penetrates it or is carried off in underground drains, natural or artificial. This consideration alone is enough to make it valuable, for often after a wet spell the weeds have taken a strong hold, and the farmer who is first in the field most easily destroys them and so insures a good crop, while his brother whose land has been exhausted of its humus, must wait for his ground to get in good condition to cultivate, and this waiting gives the weeds a stronghold and irreparable injury is done.—*Epitomist*.

Maryland Day.

The Maryland Commissioners to the Pan-American Exposition are arranging an elaborate program for Maryland Day, July 10, at the Exposition. The Governor and his staff and the commissioners will be in attendance. The Fifth Regiment Veteran Corps will accompany them. The commissioners have aroused great interest in the day, and it is expected that the crowds of Marylanders will be in attendance. Governor Odell of New York has been invited to introduce the Governor of Maryland, and Director General Buchanan of the Exposition has been asked to present Hon. Ferdinand Labroe, chairman of the Maryland Commission.

IN THE EDITORIAL department of the *Review of Reviews* for July Dr. Shaw discusses the prospects of the wheat and corn crops, the conditions of our export trade, and the recent growth of American capital; on the political side, the decisions of the Supreme Court in the insular cases are reviewed and summarized, together with Cuba's acceptance of the Platt amendment and the outlook for Porto Rico and the Philippines; Mr. Carnegie's gift to the Scotch universities, the choice of Dr. Rensen as the new president of the Johns Hopkins University, and the launching of the Washington Memorial Institution are among the educational topics treated in this issue.

THE WALL ST. *Journal* says: "The Pennsylvania R. R. company last year paid in dividends 6 per cent, requiring some \$9,000,000. At the same time, in one form or another, it appropriated from earnings a sum of money for improvement of the property almost as great. In other words, for every dollar paid in dividends it put a dollar of income into the property. All our roads are not Pennsylvania by any means, but all are doing this thing in greater or less degree, and some less, some more. Consequently, gross earnings can fall off very materially before dividends are endangered. Pennsylvania could probably lose \$10,000,000 per annum in earnings in its eastern lines and still pay 5 per cent on its stock."

When you want a modern, up-to-date phytic, try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. Price, 25c. Samples free at R. S. McKinney's drug store.

A WORTHY SUCCESSOR.
"Something New Under The Sun."

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing a crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a specialty and study of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This really reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES THE GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently, and is also wonderfully quick to relieve HAY FEVER or COLD IN THE HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form, stage, or used or unused, in the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and permanently and receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. C, 345 E. WILSON ST., PHILADELPHIA, 2330 and 2332 Market Street, Philadelphia.

This Business is Growing

greater and greater. In fact its growth within the past year has been nothing short of marvellous.

But then it might be considered natural enough when the causes of its growth are so visible to all who consider the store's policy and grand trading possibilities.

The character of the stocks we carry has long since stamped itself upon the minds of all within our reach, who like the best.

There's no extravagance in buying from such stock as ours. It's economy—the extravagance, in truth, lies in buying the other kind. Next to the importance of the stock is the service you get. Well, we do almost anything that's reasonable, as far as that goes. But, after all, we're not perfect, so come right out open handed and tell us our mistakes when you find them.

Two telephones and our mail order department at your service.

COME

Expecting to find the Greatest Bargains you have ever seen. This sale, in its magnitude, will eclipse all previous efforts. "Much for Little," is the motto!

GREAT JULY CLEARANCE SALE.

YOU

We inaugurate to-day, the Greatest Sale in the history of this Store. In connection with our special "Daily Sales," which we will hold throughout July, we to-day commence a sale which will embrace every article in this store.

Do you make money all the time? No merchant does, if he's got a grain of common sense in him. It pays to clear out certain lots, and odds and ends at a loss. We do not carry goods from season to season; therefore these sacrifice sales. We find it pays to give our customers great bargains, as often as we can. To make this sale all-embracing, we will allow 10 PER CENT discount on all goods not advertised at reduced prices.

will be surprised to find how much a dollar will buy in this sale. Every article in the store can be bought much under regular price. 'Tis a Wonderful Opportunity!

\$1.00 SILKS

REDUCED TO 49c.

We place on sale to-day, the balance of our Printed Foulard Silks, consisting of about 20 different designs and colorings—all of this season's style. Our own regular 24-inch Satin Foulards, that we have sold at \$1.00 per yard; all of superior finish and quality, perfectly printed, and goods that we can recommend to wear. We will also include in this lot, 5 pieces of 27-in. Black Japanese Silk, Lyons dye, and 3 pieces of 27-in. plain White Japanese Wash Silk—regular 75c goods; all

49c YARD.

Black Grenadines, plain, striped and figured, 45 inches wide, pure silk—goods that have sold at \$2.00 and \$1.50 per yard; reduced to

98c YARD.

Wonderful Sale of

Muslin Underwear!

A thousand new and dainty Undergarments, made up specially for this sale and for just such weather, are here to-day, at prices less than the materials would cost, without making.

NIGHT GOWNS AT 50c.

Worth every cent of 75c—made of good Muslin, Insertion yoke; others at very special prices from 63c up.

FINE PETTICOATS, 75c.
