

FOR RURAL FREE DELIVERY.

A Practical Mail Box, Approved by the Post-office Department.

The Rural Free Delivery Mail Box designed by P. B. Englar, of Taneytown, mention of which has frequently been made in these columns, is briefly described in the following paragraphs for the benefit of those who may be interested in the subject.

The above cut shows box closed, displaying signal to carrier and method of locking. It is simple in construction in all parts, entirely free from springs or delicate parts apt to break—even under rough usage—is rapid and positive in opening and closing, and fully waterproof.

The top is pivoted at the ends, and balanced, so that but a very slight effort is required, either in opening or closing. When open, access is had to the box through a space of 3x17 inches, which permits the quick reception or collection of bulky packages and newspapers, neither force nor skill being required in these operations; besides, the entire interior of the box is in full view, the top remaining at rest, requiring but a slight downward pull to close.

The material is 24 gauge Galvanized Iron, coated with aluminum. The careful seaming of the connections, together with the generally circular shape of box, adds greatly to its strength. A central brace is riveted to the inside, from front to back, and a heavy plate riveted to the bottom, at the point of attachment to post, completes the strengthening of the box, making it almost indestructible.

The inner bottom is semi-circular, which permits the collection of mail matter and small coins without picking up—simply by drawing them forward over front edge of box, an operation satisfactorily performed with a gloved hand. (This dial is also of shape of inside bottom.) There are no corners, cracks or sharp edges to injure or interfere with either carrier or owner.

The lock is fastened to a strong light chain which is attached to the inside of box, thus preventing its being accidentally dropped to the ground. In its dial is also a spring inside the box, as the patron desires. In unlocking and locking, it is but a little more trouble than an attached lock, and much less liable to wear out or become out of order. Each lock is supplied with two keys, and, as any number of changes may be made each day, it will have a different key from every other, while a large master-key in the possession of carrier will unlock all boxes on his route.

A watch for which the owner paid \$800 in Switzerland is at Jaeneret's jewelry store in this city. For repairs. It is the ordinary size of a pocket timepiece, but the works, enclosed in a case of gold, are something intricate and wonderfully complicated, comprising less than 1,400 separate parts, 76 jewels and 48 springs. The watch repeats and stops and tells the hours, quarters and minutes to come. In its dial is also a standard thermometer and the date of the week, as well as of the month, are indicated.

John T. Buckingham, under indictment for four alleged forgeries and who was recently identified by State's Attorney E. O. Weant in the case of George H. B. Jones, who had been committed under the name of John Brown, was brought to this county by Sheriff Motter and is now in the Westminister Jail. The charges against him are forging the name of Andrew Wilson to a note for \$60, the name of John Berry and Martha Berry to a note for \$85, the name of John C. Hays to a note for \$100, and the name of William W. Dorsey to a note for \$45.

Kent county has a peach tree believed to be the largest in the United States. It is on the farm of Allen Harris on the Eastern Neck Island, Kent county. The tree is also a standard thermometer and the date of the week, as well as of the month, are indicated.

When box is locked, there is no opening through which mischievous persons may insert objectionable matter, as is sometimes done. In fact all times strictly without exception, being forced into the box. (See cut.) The edge of lid is sealed, and flanged out a inch along the entire front, affording an easy means of opening and closing it.

The box may be attached directly to the top of a post, with screws through the bottom plate; but, the preferable method is shown by the cuts, which permits the carrier to drive close to box without striking the post. The no lock box recommends itself to carriers, for the reason that they may readily believe in passing it into it without stopping, and patrons who do not want the bother of locks and keys, will find it the box par excellence in every respect. It is probable that the general use of lock boxes would result to the disadvantage of the system, as much more time would have to be required for the carriers to cover their routes.

Samuel Stoner. Samuel Stoner spent his entire life in Carroll County. Few men have been more successful in business, and none have made a fairer record for consideration for those with whom he associated. He was energetic and careful in business, kind to his employees, and by encouragement and advice assisted them to better their condition. He responded to every call for the alleviation of the distressed and gave liberally in the most generous manner, thus illustrating his love for the Master, in whose presence we trust and believe he shall be forevermore.

TRIBUTE AND WORLD Renewals. For almost a year we have been "renewing" subscriptions to the above papers without interruption. Rates—35c and 65c additional—without having any contract, or authority, for so doing. We now give notice that, hereafter, no such subscriptions can be received. It may be that combination offers will be regularly taken up by us, in the future, but, until this is done, the Record must stand on its own merits, without prize offers.

Church Notices. Preaching in the U. B. church at Harney, next Sunday, July 15, at Taneytown, at 10 o'clock a. m. All are welcome. A. B. Moyer, Pastor.

Union Bridge charge. Reformed church—St. Paul's, Holy Communion 10:30 a. m. preparatory service this Saturday, 7:30 p. m. by communion August 7th. Ladies' Aid, next Sunday, July 22nd. Ladies' Aid, next Sunday, July 22nd. Ladies' Aid, next Sunday, July 22nd.

Brief Items of General Interest.

The Lutheran Re-unite, at Pen-Mar, will be held July 25th. Postmaster Geo. F. Young, of Gettysburg, has resigned, and last week William C. Colthenny was appointed in his stead.

The Linwood Union Sunday school will hold their annual picnic in the grove at Winters' church, Saturday, Sept. 7th. Band will be in attendance.

Extensive preparations are being made to entertain the vast crowd of persons that usually gather at Linwood Camp-meeting, which begins July 28th.

The Peninsular peach crop is estimated at 2,000,000 bushels—about half the size of last year's crop. It is claimed that prices will be much better and that the growers will make more money than last year.

It has been decided by the Western Maryland Railroad Company to publish to the full extent of the law all persons caught jumping trains at stations. This dangerous practice has been indulged in by small boys for some time and the company will have it stopped.

"Economic Aspects of Reciprocity," comprising two lectures delivered by John P. Young, before the College of Commerce, at Taneytown, Md., on July 10th, has just been issued in document form by the American Protective Tariff League. Two copies sent to any address for three cents. Ask for document No. 49. Address: American Protective Tariff League, 135 West 23rd Street, New York.

Treasurer William Jennings of the Hargetown Railway Company, has left Mayor Schmidt under the impression that this company will accept the franchise granted by the City Council of Hargetown, Md., to the road to Boonsboro at once. It is understood the projectors also intend extending the trolley road to Keedysville and Sharpsburg, and also to Myersville, Frederick county.

Rev. Dr. Kuhlman, who has been elected secretary of the board of foreign missions of the Lutheran church here, was requested at a congregational meeting of his charge on Sunday evening not to accept the offer. The meeting was held after the evening service. A series of resolutions commending his faithful ministrations to his flock here in the last 14 years, and prevailing upon him not to accept the new position were adopted, and will be presented to him.

The new public library in Hargetown, which was endowed by the late B. F. Newcomer of Baltimore, is now ready for occupancy. The interior of the building, it is expected, will be finished this week and the keys turned over by the contractor to the generosity and benevolence of Mr. Newcomer. The building is built by every true resident of the county.

How to Secure a Park. Several weeks ago you suggested that our town should have a park. I have since then been thinking about the thing in hand. Now while I don't feel competent to undertake the job, yet being of the feeling that I take the liberty of saying a word on the subject, as your suggestion was brought forcibly to my mind one day lately. It is no news that we had some decidedly warm words on the subject of a park, and a woman's also—to find the coolest possible place, or the least breath of air. In such a quest, I sat on the mountain one day, hoping for a breeze from the mountain, nor was I disappointed, but alas! between me and the mountain was situated my neighbor's hog-pen, over which fragrant spot the breeze passed, catching up the delightful odor and wafting it generously into the room. You can imagine how refreshing it was.

Tuesday, July 9th, 1901.—Letters of administration were granted to Lydia A. Frock, deceased, granted to Alice J. Frock.

James G. Berret, administrator of H. Emma Berret, returned inventory of personal property.

Orphans' Court Proceedings. MONDAY, July 8th, 1901.—Mary C. Gilbert and Eva E. Gilbert, executrices of the estate of the late John P. Gilbert, inventories of personal property, debts and money, and received order to sell personal property.

Francis A. Sharer, deceased, returned inventory of money.

Margaret A. Henry, administratrix of the estate of the late John A. Henry, returned inventory of personal property and money.

The Westminster Deposit and Trust Company, bonded as guardian to the estate of the late Howard Pickett, infant children of Thomas Pickett, deceased.

Tuesday, July 9th, 1901.—Letters of administration were granted to Lydia A. Frock, deceased, granted to Alice J. Frock.

James G. Berret, administrator of H. Emma Berret, returned inventory of personal property.

Orphans' Court Proceedings. MONDAY, July 8th, 1901.—Mary C. Gilbert and Eva E. Gilbert, executrices of the estate of the late John P. Gilbert, inventories of personal property, debts and money, and received order to sell personal property.

IS IT A BOOMERANG ?

The Annapolis Election proves that Illiterates can Vote, as Usual.

At the municipal election in Annapolis, on Monday, the Republicans elected their candidates for mayor, councilmen and aldermen. The vote was comparatively light and the majorities small. A large number of ballots were defective and the first ward 34 votes were rejected, in the Second ward 25 and in the Third 64. A significant fact was that most of the ballots thrown out because of bad marking showed that the voters intended to vote the Democratic ticket.

The defeated candidates will contest the result. They claim that in one ward 15 Democratic votes were thrown out because the Republican ballot clerk failed to put his initials upon ballots that were handed to Democratic voters. It is also claimed that the Republicans obtained an official ballot, which was given to their voters to assist them in voting.

It is supposed that the Republicans generally succeeded in voting, as they were liberally coached, some of them being indulged in by small boys for some time and the company will have it stopped.

O. E. Day at Devil's Den.

On Wednesday, July 11th, the Adams County Christian Endeavor Union will hold their Annual Open Air Assembly and Re-Union at the Devil's Den, on the Battlefield of Gettysburg.

The President of the State C. E. Union, Rev. C. E. Eberman will deliver an address on "Christianity and Progress." Rev. C. A. Oliver, State Sup't of Evangelistic Work will deliver an address. Rev. G. W. Enders, D. D., will deliver an address on the part of the C. E. Pledge "I Promise Him," and Rev. A. H. Hiebman will deliver an address on "The Christian."

The music will be a special feature of the meeting. Prof. C. L. Lowe, of Philadelphia, will have charge of the music, and in the evening Prof. and Mrs. Lowe will give one of their delightful Services of Illustrative Song and Story, with selections on the "Musical Bells" as a prelude to the entertainment; Prof. A. C. Gardner's orchestra will assist in the music.

All members of Sunday Schools, Epworth Leagues and other Young People's Societies, and everybody interested in work for Young People, are invited to attend. Everything possible will be done to make the day one of pleasure and profit to all.

Village Improvement Societies. The ladies of Centreville have organized a Town Improvement Society and will unite their efforts in beautifying the town. The society will be organized by Mrs. Maria McKenney, who has started the fund by a contribution of \$50, and other generous citizens. The society will be equally liberal.

The Centreville Record, in commenting upon the work said editorially: "Centreville is a striking illustration of what may be done if our ladies will only unite and push the movement. Only a few years ago Centreville was a village, and now it is a town. It is a town because of the ladies who have taken it into their hands. The work of your women will not be confined to the specific plans outlined by the society, but your town officials and people should be urged to improve and beautify."—Centreville Transcript.

COLLEGE PARK LETTER.

Our Versatile Correspondent discusses Various Topics of Interest.

We are now busy making hay; have already cut about forty acres of grass, and are about ready to cut the rest. The grass made a very poor start in the Spring, but later on improved wonderfully and the probability is that we will make at least 10 tons per acre. The alfalfa clover made quite a heavy crop wherever sown.

The heavy straw was apparently made at the expense of the heads which were not well filled on the lowlands. Most of the upland fields gave a shorter straw, with a small but plump grain. The threshing has been done in the principal wheat-producing counties, but in Anne Arundel and to the south and east this work has not progressed. Both harvesting and threshing were conducted with difficulty during the week, owing to the high temperatures which drove labor from the fields during the mid-day hours.

Harvest is generally over, with average to good crops as a rule. Barley has generally yielded well, but the weather has been too hot and dry for oats until the close of the week, and the returns elsewhere have been poor to fair, the crop for the entire crop being below average. Pastures have been under a very close watch, the recent rains will be of benefit to them, as well as to young timothy and clover, which had begun to suffer. Considerable of the timothy seed crop is to be cut in the upper counties. Corn does not seem to have been hurt by the high temperatures, but in places, especially in the southern counties, the lack of rainfall was beginning to be felt at the close of the week.

Where most advanced, corn is four to five feet high. Fields have been well plowed and cleaned, and the crop is laid by.—Md. Crop Bulletin.

President on His Vacation. The Presidential party which left Washington Friday evening for Canton arrived in that city Saturday at 10 o'clock. President and Mrs. McKinley will spend the summer vacation in Canton, the President returning to Washington at short intervals to attend to official business.

Wheat Harvest Results.

Wheat harvest will begin in Garrett county within a few days, the outlook there being favorable for good yields. In Allegany County the harvest is now in progress, giving heavy straw and an average yield of grain. Elsewhere throughout the section the crop is practically sown, and is generally well up to the yield of the year in general, but it seems that they

ENTERED AT TANEYTOWN POSTOFFICE AS SECOND CLASS MATTER

SATURDAY, JULY 13th., 1901.

FOR SOME REASON or other, the newspapers have left the war in the Philippines, end. A war that cannot influence public sentiment against the government, is a mighty poor sort of a war, and this, we suspect, is the reason why the affair has dropped out of sight.

PERSPIRING is exceedingly disagreeable, but, it's healthy. Only in very rare cases does sunstroke ever occur when the victim is perspiring freely, and, in a general way, the body is thus relieved of impurities.

WHILE THE senatorial subject is one of considerable interest to both Democrats and Republicans, in Maryland, one scarcely hears the name of Senator Wellington mentioned, except as an individual holding a seat over which there will be the hottest kind of a contest.

NEWSPAPERS COULD have a large influence toward the settlement of strikes, by taking no account of them; or, at least by not writing up every little feature each day, making tremendously important affairs of them.

ACCORDING to the prevailing style of local baseball enthusiasts, in the country, the "home club" always gets licked through "rank robbery" on the part of the umpire; but, when it wins, the opposing club, is composed of but a very few men, who, from personal—possibly ambitious or vindictive—motives, succeed in establishing a decision, possibly righteous in name only.

In General Good Health. Notwithstanding the ne'er-do-wells and malcontents, we have a wonderfully prosperous country. In all lines of manufacturing, there is activity, which indicates demand and general circulation of capital.

Rural Delivery Does it. "The stump speaker has lost his trade," declared a prominent Indiana man the other day.

Shirtwaists in Obvure. A St. Louis minister broke the chains of custom last Sunday and appeared in his pulpit in a white shirtwaist, instead of the usual frock coat of the evangelical preacher.

When American farmers note what is going on in intensive farming, irrigation, cattle raising, improvements and preservation of products, management of soils, betterment of facilities to reach markets and new uses for waste products, they will see that their industry is truly the most expansive as well as the greatest.

While there is a general fear of, and opposition to, trusts, those who have made the most profound study of the subject, admit that as yet the dangers from this source are largely theoretical.

Tariff reform may be a National issue in 1904, but, if it is, a period of "hard times" must intervene, or it will not materialize as a power.

When you want a modern, up-to-date physics, try Chamberlain's Stomach Liver Tablets. They are easy to take and pleasant in effect.

"Let Us have Peace."

There are those who say, "Let us have peace," and immediately follow it with the mental reservation that the expression is a command, rather a genuine offer of the olive branch.

We do not believe in "Peace at any price," for this may mean dishonor and disgrace; but, when peace is tendered without pusillanimity, we can then truly feel, "Blessed are the peacemakers," as it is the most God-like proposition which may be made, one man to another.

When we offer peace, following strife, we should stop quarreling, and doing those things which provoked strife, originally. It is also best to stop prating of our own immaculacy.

Some of the questions which divide us are those of administration. As such, they are most difficult to determine, for right. Neither judge, jury nor congress, can go further than arrive at a consensus of opinion, which, after all, may represent the influence of but a very few men, who, from personal—possibly ambitious or vindictive—motives, succeed in establishing a decision, possibly righteous in name only.

The Wall Street panic of the early part of May seems not to have disturbed the actual business life of the country to any extent whatever. It checked for a time the spirit of wild speculation on the stock exchanges, and such a result was desirable rather than otherwise.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions.

A Good Example.

Mr. Charles G. Dawes, Controller of the Currency, has set an admirable example to office-holders with political ambitions. He cherished the legitimate and commendable wish to be United States Senator from Illinois.

This is the right course for him to take, and he is to be specially commended for it because it has not been the usual one. For years, men in both parties holding high office have considered it no impropriety to devote a considerable part of their time, and indirectly such influence as their official position gave them, to the accomplishment of political objects either partisan or personal.

Prosperity and Economy. Prudent and careful management through a period of several years in which crop and stock prices have generally prevailed, has wrought a marked transformation in the farming States of the Mississippi Valley.

The Wall Street panic of the early part of May seems not to have disturbed the actual business life of the country to any extent whatever. It checked for a time the spirit of wild speculation on the stock exchanges, and such a result was desirable rather than otherwise.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions.

Original articles solicited for this department... The Unruly Member.

The Unruly Member.

Nearly three thousand years ago a wise man said, "Curse not the king, nor not in thy wrath; for he is the rich in thy bed chamber; for a bird of the air shall carry the voice, and that which hath wings shall tell the matter."

Dear Aunt Polly.

As I am feeling very well this morning I will answer your nice letter of several weeks ago, in the Record. I just got into the high school when I was very sick since I wrote to you, but am now feeling quite well again. I will have to stay out of school a whole year, but I don't want to, for I just got into the high school when I was taken sick. Yes, Aunt Polly, sickness does teach one to be patient; for, although every one at the hospital defines as "confidential" or "intimately personal" remarks about other people, even if you know it to be the truth, and especially if it is only a trifling or groundless report. For one thing, it is certainly a violation of the Golden Rule, and then, no matter how privately or confidentially your remarks are made, the "bird of the air" is sure to carry it, and by the time it has passed through several versions, it is not only very much altered, often, but also very much added to, so that it is almost sure to do such an one feels they have a just cause of quarrel with you. Here again the wise man's words are appropriate: "Curse not the king, nor not in thy wrath; for he is the rich in thy bed chamber; for a bird of the air shall carry the voice, and that which hath wings shall tell the matter."

San Diego is beginning to get ready for the Fourth of July. A street fair, water carnival, and fire works are the principal features. It will be a four days celebration.

On the 23d. of May, San Diego gave a water carnival in honor of the "Waspette"—a British man-of-war—which came to this port. There was a procession of boats on the bay, led by a float in which were the Queen of the carnival and her maids of honor. The fire works in the evening were beautiful.

Memorial day quietly passed, as usual, here, exercises being held at Mt. Hope cemetery, and flowers were strewn in the ocean for the soldiers buried there. One or more of the old veterans visited the school and spoke very appropriately to the children, and they in turn sang songs and recited pieces.

Blackberries are ripening now, and strawberries, apricots and cherries are in market.

San Diego, Cal. DORA ECKENRODE.

Comfort While Traveling.

When one is about to start on a journey that will take several hours it is well to thoroughly equip one's self so that one may be as comfortable as possible. Especially is this necessary when there are little children to consider as well as older persons.

yourself with a drinking cup, for it is far from attractive to think of drinking from the same cup as is used by anyone who chances along.

It is contended by some that criticism tends to make one correct the fault which is criticized, and there is perhaps a measure of truth in this, but although, it is true that "faithful are the wounds of a friend," if spoken directly to the individual, and in a kindly spirit, yet as a rule, gossip or criticism is not to be desired. It is prompted rather by a malicious than a kindly spirit, and an ounce of keep-your-mouth-shut is better always than a pound of explanation after you have said it.

Dear Aunt Polly. As I am feeling very well this morning I will answer your nice letter of several weeks ago, in the Record. I just got into the high school when I was very sick since I wrote to you, but am now feeling quite well again. I will have to stay out of school a whole year, but I don't want to, for I just got into the high school when I was taken sick. Yes, Aunt Polly, sickness does teach one to be patient; for, although every one at the hospital defines as "confidential" or "intimately personal" remarks about other people, even if you know it to be the truth, and especially if it is only a trifling or groundless report. For one thing, it is certainly a violation of the Golden Rule, and then, no matter how privately or confidentially your remarks are made, the "bird of the air" is sure to carry it, and by the time it has passed through several versions, it is not only very much altered, often, but also very much added to, so that it is almost sure to do such an one feels they have a just cause of quarrel with you. Here again the wise man's words are appropriate: "Curse not the king, nor not in thy wrath; for he is the rich in thy bed chamber; for a bird of the air shall carry the voice, and that which hath wings shall tell the matter."

San Diego is beginning to get ready for the Fourth of July. A street fair, water carnival, and fire works are the principal features. It will be a four days celebration.

On the 23d. of May, San Diego gave a water carnival in honor of the "Waspette"—a British man-of-war—which came to this port. There was a procession of boats on the bay, led by a float in which were the Queen of the carnival and her maids of honor. The fire works in the evening were beautiful.

Memorial day quietly passed, as usual, here, exercises being held at Mt. Hope cemetery, and flowers were strewn in the ocean for the soldiers buried there. One or more of the old veterans visited the school and spoke very appropriately to the children, and they in turn sang songs and recited pieces.

Blackberries are ripening now, and strawberries, apricots and cherries are in market.

San Diego, Cal. DORA ECKENRODE.

Comfort While Traveling.

When one is about to start on a journey that will take several hours it is well to thoroughly equip one's self so that one may be as comfortable as possible. Especially is this necessary when there are little children to consider as well as older persons.

GOOD ROADS ARGUMENT.

Free Mail Delivery to Cense Where Highways Are Neglected.

The postoffice department is trying to use the rural free delivery experiment as an argument in favor of good roads, and where the experiment has failed to improve the bad roads along the routes the service will have to be abandoned.

HORTICULTURE EXHIBIT.

Will Be One of the Principal Features of the Exposition.

Horticulture, viticulture and floriculture are linked together in one great class. In the midst of a country of orchards and vineyards the Pan-American Exposition will have abundant material close at hand and of the finest quality from which to make an exhibit worthy of the great event.

Heartburn.

When the quantity of food taken is too large or the quality too rich, heartburn is likely to follow, and especially so if the digestion has been weakened by indigestion. Eat slowly and do not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided.

The Kitchen Stove.

No part of the kitchen furniture is so important as the stove, for no matter how many useful and handsome articles the room contains, the work of preparing the meals cannot be done without a good stove. The steel range is probably the most satisfactory, but their cost prevents many of us from having them. A No. 8 stove with four lids on the top, and a reservoir, is the best size for the ordinary family. Have the kettles, pans and other utensils, of granite ware as far as possible, for it is lighter to handle than iron, and does not rust like tin.

Railways and Highways.

How the Former Are Benefited by Improved Roads.

The Illinois Central railroad has started a very practical movement in this section in the interest of good roads, says the New Orleans Times-Democrat. It is one that will have, we feel confident, the support of all and will be followed by the other companies as well. It is needless to point out that a railroad is benefited by good roads in the country it runs through. Whatever brings prosperity to the tributary region of course brings business and prosperity to it.

DON'T WAIT.

If you know how SCOTT'S EMULSION would build you up, increase your weight, strengthen your weak throat and lungs and put you in condition for next winter, you would begin to take it now.

THE HOME GOLD CURE.

An Ingenious Treatment by Which Drunkards are Being Cured Daily in Great Numbers.

It is now generally known and understood that Drunkenness is a disease and not weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an absolute capable of neutralizing and radiating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of business by this wonderful "HOME GOLD CURE" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

WIVES CURE YOUR HUSBANDS! CHILDREN CURE YOUR FATHERS!

This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "CURE" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. DO NOT WAIT. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "HOME GOLD CURE" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effective than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar.

Our Job Printing has a deservedly wide reputation.

Why? Because it is always clean, first-class work. The proof that it is appreciated, and in demand, is the fact that we are always busy. We rarely solicit—the work

TANEYTOWN LOCAL COLUMN.

Current Items of Local News, of Special Interest to Home Readers.

Mrs. Addie Kerr, of Columbia, Pa., is visiting friends in this place.

Mrs. Stone, of Baltimore, is visiting her daughter, Mrs. Rev. A. Bateman.

The Reformed re-union, at Pen-Mar will be held next Thursday, the 18th.

Communion services will be held in the Lutheran church, on Sunday morning.

Mrs. P. B. Englar has been spending the week with Mr. E's mother, at McKinstry.

Mr. and Mrs. W. J. Gallery and child, of Baltimore, are visiting Mrs. H. J. Arnold.

A good horse belonging to Samuel H. Little, of this district, died from the effects of heat, last week.

The steam thrasher is now at work on every side, which means that the season's crop will soon be measured in bushels.

Rev. F. R. Wagner, who recently filled the Lutheran pulpit as a supply, has been called to the pastorate of the Froburg charge.

Miss Beulah Fawcett, of Rockville, Montgomery Co., and Miss Lillian Fleagle, of Mayberry, are visiting Mrs. L. D. Reid, on Emmitsburg St.

D. W. Garner is on a visit to the U. S. Butter Extractor Co., Bloomfield, N. J., and to Atlantic City. He will be absent from home about ten days.

The Pic-nic of the Harney P. O. S. of A., on August 3rd, has been declared "off," on account of the date having been already taken by nearby points.

Mr. and Mrs. John Culbertson, of York, Pa., were visiting Mrs. Josiah Snyder, on Thursday. Mrs. Harry Arthur and daughter are also visiting her mother, Mrs. Snyder.

Miss Daisy Withrow, has returned from Baltimore for the summer. She was accompanied by Miss Della Hays, of Marion, Ind., who will spend some time visiting friends in this section.

The prevalence of barn fires, at this season of the year, should prompt farmers to so arrange their stock and stables that in case of fire the animals may be easily and quickly removed.

A special meeting of the Fire Company has been called for this (Friday) evening at 8 o'clock, at the school house. As important business will be transacted, a full attendance is desired.

We acknowledge the receipt of a handsome contribution from Miss Fanny Birnie to the Chinese Famine Fund. This, as well as all other contributions, will be sent in on Monday next, therefore, if others desire to assist in this worthy charity, they should hand us their contributions not later than Monday morning.

The heaviest rain for years visited Taneytown Thursday night, beginning just before midnight and lasting nearly an hour in a terrific down-pour. It was local in character, as a few miles west the precipitation was not more than an ordinary shower. At times, a strong wind and unusually heavy thunder accompanied the rain.

June 30th, Rev. A. A. Parr completed the 14th. year of his work as pastor of St. Paul's Lutheran church at Spring Grove. During this time he attended 4000 services in the church, preached 1053 sermons and made 8619 pastoral and sick visits. The membership of the church is 345, a gain over all losses of 165 members. Rev. Mr. Parr is well known to many in this section.

Oliver J. Stonesifer, of this district, who recently passed the Civil Service examination with a good average, has been tendered a position as book-keeper in the Navy Department at Washington. Mr. Stonesifer has accepted, and will likely report for duty on Monday. The position is worth about \$1000. a year, with chance of promotion. His many friends here wish him success.

The yield of wheat is undoubtedly disappointing, as well as the quality. The grains are small, and in some cases, shriveled and of a dull color. Small lots have been threshing from 20 to 23 bushels to the acre, but the average will hardly reach this point. Both the yield and quality varies considerably, some fields being much better than others. The crop of hay is fine in quality, and heavier than was expected.

A Familiar Character.

Newspaper publishers are all acquainted with the dead beat who writes "contributions" in which he rings in a lot of free advertising in a very innocent but a very telling way. The writer of this class of contributions gets very angry if his stuff isn't printed, too, and generally "stops his paper," if he is a subscriber, which generally he is not. The Martrethboro News-Banner caught one of these gentlemen in "good fashion" recently. He wrote the News-Banner a very funny communication advertising a resort of which he is proprietor. The newspaper printed the communication after eliminating all names, dates and localities, which made the dead beat very mad, and he sent the newspaper editor a scorching letter, which the editor good-naturedly printed verbatim et literatim, as follows: "This is the grandest insult that I ever got or ever heard of. I have often wrote papers just for past time, but you will never have the chance of hearing from me no more. I would wait money with your paper. I would take your paper if I never did get to read any more paper and see any more, so I will bid you adieu, so good bye."

The spelling, etc., give a pretty good clue to the class of people who attempt this kind of dead beating business.—*Newsperdom.*

A Good Cough Medicine. Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat or lung trouble, give it a trial for it is certain to prove beneficial. Coughs that have resisted all other treatment for years, have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that the climate of famous health resorts failed to benefit, have been permanently cured by its use. For sale by R. S. McKinney, Druggist, Taneytown, Md.

Double Pipe Creek.—Setting on a screen box for a writing desk, between times unloading wheat, is the position in which we pen these lines. We have a splendid view over Monocacy and Tom's Creek across fields of beautiful corn and grass, and shocked wheat. We have not heard the click of the binder this morning, and have come to the conclusion that the crop is now out. Farmers are wanting more help, and none is to be found except the wife and daughters who are strong enough to put the work through. Some farmers are inducing hands from others to leave; this we have had a taste of.

Mr. Samuel Weybright attended the funeral, on Monday last, of Wm. Garber, at Beaver Dam German Baptist church.

Our new steam thrasher, Jacob Young, of Woodstock, started out with his full rig, and from the amount of whistle-blowing, he is confident of giving good satisfaction to the farmers who may employ him.

Came North to be Cool.

One of the most uncomfortable persons in Baltimore during the recent unpleasant weather was a young woman from Havana. She had come North to keep cool during July, and all that she could do when the thermometer reached the 100 point was to lie in a hammock and wield a fan and wish she were in Cuba again.

"I have never felt anything like it," she gaped one day at the 9 o'clock breakfast. "You have tropical heat here, yet you don't seem to know how to dress for it, not even for the heat."

"What would you say," he cried in low, lusty tones, leaning toward the dainty victim occupying the other end of the boat. "If I were to tell you that I think of you day and night and even dream of you?"

"Well," she replied, with a soft sort of gurgle, "I would say you were capable of most beautiful thoughts."

After that he roved viciously.—*Denver Times.*

The Venal Feeling.

"Ah, Mr. Wrenschum," said Miss Gabbighi, "you make one feel that it is spring all the year round whenever you call."

"Now, that's nice," said Mr. Wrenschum, while the rich redness of his bluish crept toward his countenance.

"Yes, you do," continued the young lady. "You know that spring always gives us that tired feeling."—*Baltimore American.*

Does It Pay to Buy Cheap?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What should you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case make the best use of the remedy that has been introduced in civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommend many years to all druggists in the world. Get Green's Prize Almanac. R. S. McKinney, Taneytown, Md.

Manila without the Canteen.

A lieutenant of the Twenty-seventh Infantry, stationed at Santa Mesa, in writing to a friend in New York City about the practical effects following the abolition of the army canteen, says:

"You understand how the canteen is run. No whisky has ever been sold in them, beer and light wines being the only drinks on tap, and these cost the soldier less than if bought from outside. All the profits are divided among the companies for mess funds. The amount sold to each man is limited, and he must drink it on the canteen premises.

"The grog shops around our forts are usually kept by women. They sell the worst sort of 'fireworks' and encourage absences without leave. The soldier is fined, gets drunk again, desert, is captured, and sent to prison—and the woman gets the profits. The natives here sell 'bino' at 10 cents a centesimal. The man prefers beer, but, having no canteens, drink this. Nine-tenths of the men who have deserted to the enemy, who have been coliced on the road and who have gone home sick or insane, were 'bino' fiends. It lures you like absinthe, and is much more deadly."

Feelings and Fingers. A boy was asked which was the greater evil, hurting another's feelings or his finger.

"The feelings," he said.

"Right, my dear child," said the gratified questioner. "But why is it worse to hurt the feelings?"

"Because you can't tie a rag round them."

Stale Candy. Stale candy can generally be worked over by reboiling it. In the case of acid candies, such as lemon drops, the candy is boiled, the acid is withdrawn by the use of lime or chalk, and the syrup may then be used in the manufacture of that or any other species of candy.

Bricks From Coke ashes. A European scientific journal reports that the coke ashes of gas works are now manufactured into bricks resembling pressed brick, but considerably harder than the latter. Hereofore these ashes were looked upon as absolute waste and were often piled up on land which might have been profitably cultivated, so that the innovation is doubly profitable.

The manufacture of coke ash bricks is a very simple one. The ashes are carefully reduced to a fine powder, mixed with one-tenth part of slaked lime and, after the addition of water, kneaded until the mass forms a stiff paste. Then it is treated like ordinary clay and formed into bricks by the use of suitable presses. The bricks are then stacked, protected from rain and dried in the air. No artificial heat is required. The air dried bricks are very hard and make excellent building material.

A Wonderful Sun Finder. August Steiner of Waukesha, Wis., believes that he has solved the secret of the solar system. He has invented an instrument which, he believes, will soon do what man has hitherto vainly sought. He has had for some time the idea that there is more than one sun, and by means of his instrument he shows all the way from 2 to 36 suns. The numerous suns appear in a group, one directly above the other. The instrument when placed in another position shows the suns in another position apart. He says that he can, by means of his apparatus, bring the moon so close to the earth that every line on it is discernible, and he says that it is full of holes. He also tells wonderful tales of the inhabitants of the planets. He intends to take his instrument to the State observatory at Madison.

New England Has Its Own Fuel Plant. Dr. G. M. Randall, a practicing physician in Lowell, feels sure that he has solved the fuel problem which has been bothering manufacturers in the east for many years.

Peat is the basis of his fuel, and, owing to its cheapness and abundance in the vicinity of Lowell, it is possible to run the mills of the Spindle City for the next 50 years without going to the coal producing states for coal.—*Boston.*

A Warning to Bad Writers.

Brown—Hello! What's the matter? Green—I'm in an awful fix. I proposed to Miss Grey by letter and have just got her answer.

Brown—And she's refused you? Green—I don't know. I can't read the letter. (Collapses once more.)

Sweet Concert.

There was moonlight, and the waters of the lake glistened like molten diamonds. A thrush sang sleepily, and from a boat rocking on the bosom of the placid waters came the faint tinkle of a guitar.

"What would you say," he cried in low, lusty tones, leaning toward the dainty victim occupying the other end of the boat. "If I were to tell you that I think of you day and night and even dream of you?"

"Well," she replied, with a soft sort of gurgle, "I would say you were capable of most beautiful thoughts."

After that he roved viciously.—*Denver Times.*

Groceries!
\$2,000 worth of Clothing must be closed out before Aug. 24th, as we have not got the room to carry them from season to season; so we will offer to you and all your friends, a special discount of 30 per cent on all Suits. Think of it! You can buy a \$1.00 Suit for 70c; \$2.00 Suit for \$1.40; \$3.00 Suit for \$2.10; \$4.00 Suit for \$2.80; \$5.00 Suit for \$3.50; \$6.00 Suit for \$4.20; \$7.00 Suit for \$4.90; \$8.00 Suit for \$5.60; \$9.00 Suit for \$6.30; \$10.00 Suit for \$7.00. You can get all this season's goods—not a lot of old style or shabby worn goods—first class in every particular, and every Suit guaranteed to give satisfaction, and be just what we say, as we buy every suit we sell, of the manufacturer's, where we can get all the latest colors, stripes and checks, and besides we save you the middleman's profit, which really saves our clothing 15 to 25 per cent cheaper than those who buy of the wholesale houses, and pay the middleman's profit. Now, among this lot of goods, there are lots of Suits suitable for Fall and Winter wear. Don't miss these bargains, as they are Bargains, which can easily be proven to you when you come and look at the large stock of Clothing on the second floor, as we have anything and just what you want. Men's Suits, \$1.00 to \$12.50; Boys' 3-piece Suits, \$1.00 to \$7.50; Boys' 5-piece Suits, 35c to \$3.50; Boys' Vestee Suit, 3-piece, 50c to \$2.75; and Men's Fine Shoes, for whatever we advertise we have in stock and plenty of it.

Shoes and Slippers.
Every week we have large bargains to offer in this department, as this is one of our special lines—also one in which we do not stand back for anybody in large or small cities. And now we will offer Greater Bargains than ever before. Ladies' Slippers, 75c, now 50c; \$1.00, now 75c; \$1.15, now 80c; \$1.25, now \$1.00. Also a lot at \$1.00 and \$1.25—now they are at 49c. A lot of Misses' Slippers, 90c and 70c—now 40c and 50c. Boys' Shoes, 10c and up; Ladies' Fine Shoes at great sacrifice prices—5c to \$2.50. We will close out our entire line at a discount of 10 to 20 percent on the \$1.00. Women's Fine Shoes, 90c a pair and up; Men's Fine Shoes, 80c to \$3.00, which will also be allowed the same discount as Ladies' Fine Shoes—10 to 30 per cent. These large discounts won't be given after August 24th, on these fine shoes. Men's Heavy Shoes, worth \$1.25—our price, 85c; Crookes, worth \$1.25—our price, 85c. Men's Kip Shoes, worth \$1.25—our price \$1.00. We can give you anything you want in Every-day Shoes, as we have 30 different kinds, prices ranging from 85c to \$1.75. Why can we not please you and save you money, as we guarantee all our prices as low as any, and Quality up to the standard. Don't forget the large discount on Ladies' and Men's Fine Shoes, for whatever we advertise we have in stock and plenty of it.
