There is more life at the headquarters of both political parties, and before the beginning of the week the pot will be boiling. The Republicans are now looking after the state committee, while the city executives are attending to that branch of the campaign work in the city. The democrats are working better here than their opponents, but the gains are so slight that they will not amount to anything unless the election should happen to be close.

The first and second floors of the store building at the Schriver cabinet factory, Littlestown, Md., were destroyed Wednesday from over weight. The floors were loaded with canned goods ready for shipment. The first floor sank about four feet and the second floor dropped about three feet. The canned goods were thrown in all directions. Several employees were at work on the ground floor, but they escaped from injury was miraculous.

What many grain merchants regarded as one of the finest crops of wheat ever received in the county, was received from a nearby point was received last Wednesday from Frederick county. It was played on the Chamber of Commerce, a general attention, dry, plump and clean, with a rich color. It sold at \$1.24 a bushel, with a 14 cent premium higher than ordinary prime samples were selling for at the same time. The wheat was intended for seed purposes.

The Maryland College of Music of Baltimore, Md., 325 McMechen St., had their annual reunion on Thursday, Sept. 25, at the Hotel Washington. Mr. Alfons W. West Virginia Republicans are going after Ex-Senator Rogers, who is reported to be sticking on account of his alleged hostility to pensions for Civil War veterans. In a recent speech at Parkersburg, he referred to the famous Order 78, which he has as having said that by placing abolished the pension roll it greatly increased the expense of the Government. This sort of talk is not at all to the taste of West Virginia Republicans. They believe in the pension roll, and are trying all possible ploys for campaign funds, at least, and anybody who finds fault with it is little short of a traitor to his country.

It is probable that the Hon. Thomas E. Watson, of Georgia, Populist candidate for President, will be compelled to abandon his speecing tour of the South in consequence of his health. Mr. Watson, who is a frail man at best, is recovering slowly from a severe attack of influenza which he contracted in Jacksonville. His health has so improved that he was so prostrated after it that he had to be conveyed to his hotel in a carriage. A physician was summoned. After work, however, by an Dr. W. H. Franklin, restored him. The physician told Mr. Watson that he was in no condition to continue his campaign, and advised him to abandon it and return to his Georgia home to rest.

The following resolutions were adopted: Emma Elbert read, "The Woman's Work." Very sensible advice to the women of the county, and was well received. "Rural Mail Delivery." This small carrier has had his salary increased, and is a great benefit to the farmers; this is a great convenience, in progress in the wrong direction.

Wm. Elbert read, "Why do some farmers get rich and some don't?" The success of one farmer, one found out the cause of farming suited his land, stuck to it, succeeded; the other, changing around and going at things blindly, failed.

Jennie Fuss read "The wheat crop." For the locality and the farm is doing time for the more progressive farmers to improve their variety by the methods of the "wheat grower." The acre is much further increased." Jesse Smith read "Kuropatnik and the Czar." A joke on the Russian war. Conn. E. J. Smith and wife are on a tour. The day is spent on motion club and supper.

The Man Who Keeps Still.

Prayer Meeting Topic for the Week Beginning Oct. 2. Topic.—How we are in training to succeed others.—Deut. xxxiv, 7-12; Josh. i, 1-2.

The worker may fall, but his work goes on. God always has men in training to succeed the workers in His vineyard.

God, knowing that this hour of transfer of place and power would come, had Joshua in training for it even before Moses died.

Great preachers, great leaders, great workers, fall by the wayside, but some where, perhaps in an unknown, obscure place, God has one ready to take up and carry on the work.

Another evidence that Baltimore business men were not discouraged by the death of Strayer's Business College.

Another evidence of the progressiveness of the institution is to be found in the fact that Mr. Charles S. Catherman, formerly a prominent member of the school, has been engaged as Superintendent of the Baltimore school.

Mr. C. A. Braniger, who for the past seven years has been the head of the Commercial Department of the Mount State Business College at Parkersburg, W. Va., has been selected as principal of the Commercial Department of the Baltimore school.

Good for Children. The pleasant to take and harmless One Minute Cough Cure gives instant relief in all cases of Cough, Croup and Laryngitis.

What Dr. Dunn Says. "Did you ever know a pig to have neuralgia?" asked Dr. Leavitt Dunn. How is one to tell what a pig has? It squeals when you are never sure of the cause of the squealing.

Eight cents a pound is what a young woman paid for twelve pounds of flesh. She was thin and weak and paid one dollar for a bottle of Scott's Emulsion.

The man who speaks a dozen tongues, when all is said and done, is a fool. The man who keeps still, who knows how to take a cup of good things here, things that make folks tired, and more, and does "Oh, you can't do it," things brought through his mouth, put on a frown and just keep still.

Everything is strapped. There are graduated strappings, and stitched ones, and braided-trimmed ones, and scroll strappings, and those in horse-shoe shapes. There are zig-zag strappings and serpentine ones. Sometimes they are caught down with buttons, and sometimes they are not, and the woman without her straps this winter will get as much out of it as the soldier without his buttons.

There are no plain skirts. Those which are not strapped are trimmed with buttons, ruffles, stichings, tabs, or plaids. A touch of velvet is found on most skirts.

The wrinkled leg-o'-mutton and the peg-top sleeves are seen in the new suits. It is going to take some time for us to become used to these times turned topsy-turvy, but doubtless before long well commenced we will consider them the wisest thing ever thrust upon womankind.

There are very few one-color effects. A touch of some brilliant shade brightens almost everything. The fancy vest and the cutaway coat render coquetish some gowns of dull tints.

Removes Corns and Bunions without pain. Gives no trouble. Makes the feet comfortable. Sprays the corns and try it. J. McKellip, Druggist.

Fashion Tips.

It is to be a button season, and trousers which have lain hidden for years in old button boxes, should now be brought out and refashioned.
