Death of Dr. U. A. Sharetts.

News was received here on Monday of the death of Dr. Upton A. Sharetts, at Colorado Springs, Colo., on Sunday night, of hemorrhage of the lungs, aged 46 years. He was a son of the late Jacob Sharetts, of Bruceville, and a brother of D. A. Sharetts, of Woodsboro, and Edwin A., Luther and Frank Sharetts, of Bruceville, Mrs. Frederick Conner and Mrs. Jacob Weybright, of Pa., and Mrs. Marshall Mehring, Bruceville. Dr. Sharetts first entered the Lutheran Seminary, at Gettysburg, with the intention of entering the ministinued practicting with great success.

On account of failing health, he discontinued practice and traveled extensively in Europe, spending considerable time in Switzerland and the Alps. On his return he again took up the practice of medicine in Frederick, but about five years ago, thinking the high altitude of Colorado would be beneficial to him, he located in Colorado Springs. He martives, in Baltimore, have openly announced themselves as being opposed to the amendment; they are James E. Hub-The body of Dr. Sharetts will be brought to Maryland for burial, interment to be made at Haugh's church,

BUILDING GOOD ROADS.

State Highway Engineer Crosby Reports to Governor.

Governor Warfield has received a communication from Mr. W. W. Crosby, State Highway Engineer, giving a resume of the work done by the Good Roads Commission. Mr. Crosby, in speaking of the data furnished the Governor, said the department had been in operation less than one year, but that in that time had done, according to his judgment, excellent work. Massachusetts built only 40 miles of road in five years, and by the expira-

application as early as possible for the roads they desire to build, as surveying can be done during the winter and all the matters pertaining to the construction of the road completed by the

committee, held on Thursday at the Rennert. He is said to be in thorough accord with their conclusions Senator Brewington, of Wicomico, and Ex-Congressman Miles, who were present, said the counties on the Eastern Shore were in good shape and would undoubtedly furnish democratic majorities. Ex-Governor Smith also attended the meeting. He says so far as Worcester is concerned. He says so far as Worcester is concerned | a means of promoting the agricultural | stone road exceeds that of a shell road (For the Record.)

> the 59th Congress, soon to convene, the bill will be enacted into law. It is inconceivable that Congress will refuse to extend the relief to the country which is present and deliver an address. The public is cordially invited to attend.
>
> | Conceivable that Congress will refuse to extend the relief to the country which is public is cordially invited to attend. bill will be enacted into law. It is inaccording to Census figures, the value of farm products in the United States for 1899 footed up the total of \$4,739,118,752, and that every dollar's worth of this product is moved over the public roads all of it, less the live stock, hauled in wagons—to the railroads and water-ways, and that these wagon roads as a rule are deplorably bad, the necessity of relief impresses itself without argument. Old systems of road improvement are worthless. Local effort has proven a flat failure, as the experience of seventyfive years has proven beyond cavil. States and counties, with a few wealthy exceptions, are unable to cope with the trouble. There must be Government aid, and the Brownlow-Latimer bill provides for it. The man in town will stop to note where his interest lies in this matter. There is a loss to the farmers of \$1,500,000 by reason of bad roads. eyery time the sun sets. The price and quality of farm products is effected by highway conditions. Take into account, too, that agriculture sustains all our business and institutions, and that agricultural life and productiveness is not on well-paved streets of towns and cities, but on the rural highways; and when the whole question is studied as it should be, sit down and write your Senater and Representative a letter demanding support of the Brownlow-Latimer bill for National aid to highway construction and improvement.

Unfavorable to Standard Oil.

Railroad rate legislation and the oil situation, with special reference to the Middle Western field, were discussed on Calv Thursday by the President and Representative Campbell, of Kansas. Mr. Campbell talked briefly of railroad rates Kansas and the oil combination. He assured the President that the people of Kansas and the oil combination. He assured the President that the people of Kansas and the oil combination assured the President that the people of Kansas and the oil combination. He assured the President that the people of Kansas and the oil combination. He assured the President that the people of Kansas and the oil combination. For Your Consideration.

It is but three weeks from next Tues day until the election, which means that it is high time for voters who are undivided as to how they will vote-or rather how they will try to vote-to post this county it is probable that there will of negroes; they would never have been friendships, so far as the body of the ballines on account of the amendment, as that is in reality far from a party question, notwithstanding the rather clear called Warfield-Bryan amendment if it division between the two parties on it.

The first thing for every voter to consider is how not to spoil his ballot, and cause it to be rejected at the count. Last year, in this county, about 500 ballots were rejected or about one to every fourteen cast; and this was the result with a of suffrage, while disfranchising practic was also the result almost without referwhere this vote is small, rejected ballots as a choice of evils. We, here in Marystill appeared in large numbers. It is land, are not subject to the necessity of Maryland, and we know there never est good to the largest number, and beballots were cast by white men.

Many of these lost votes were certainly due to poor eyesight or other physical infirmity, but many were rejected simply because fairly intelligent men failed to post themselves fully before attempting to vote. Every man should have pride to vote. Every man should have pride to vote. Every man should have pride to vote. enough about him to be sure that his vote is cast so that it must be counted, to read, as well as ask for, all the information which will enable him to beat the its adoption.

Governor Warfield, Attorney-General adopting, in the most extreme form ever therefore not a party question but one of honesty and right, accordingly as one ty in the situation. That in certain parts and so much being said on both sides, that it is the duty of every citizen to follow the argument closely, especially if his mind is not already made up.

to vote for party men for the legislature, be men, first, and party followers, next. These are the issues to be considered during the coming three weeks, and the was not before, but after the establishtime is short enough.

Hard on the Nerves.

If there is anything more trying on the nervous system than installing a new press and engine in a printing office, and at the same time getting out the paper, as usual, taking care of the job department and making everything go, with a compositor short to top off with, we don't want the job. The past week we had at work machinists, carpenters, of nervous prostration by a hair's breadth.

hands of our readers we hope to have all the machinery in full working order, the floor plan of the office rearranged, and all lumber, dirt and tools foreign to the printing business, out of sight; after which, any of our subscribers who care which, any of our subscribers who care of the discretionary power conferred by the opposition party—white voters, too—would be disfranchised by the perfectly legal, though absolutely inequitable, use of the discretionary power conferred by the opposition party—white voters, too—would be disfranchised by the perfectly legal, though absolutely inequitable, use of the discretionary power conferred by the opposition party—white voters, too—would be disfranchised by the perfectly legal, though absolutely inequitable, use of the discretionary power conferred by the opposition party—white voters, too—would be disfranchised by the perfectly legal, though absolutely inequitable, use of the discretionary power conferred by the opposition party—white voters, too—would be disfranchised by the perfectly legal, though absolutely inequitable, use of the discretionary power conferred by the opposition party—white voters, too—would be disfranchised by the perfectly legal, though absolutely inequitable, use of the discretionary power conferred by the opposition party—white voters, too—would be disfranchised by the perfectly legal, though absolutely inequitable, use of the discretionary power conferred by the opposition party—white voters, too—would be disfranchised by the perfectly legal, though absolutely inequitable, use of the discretionary power conferred by the opposition party—white voters, too—would be disfranchised by the perfectly legal, though absolutely inequitable, use of the discretionary power conferred by the opposition party—white voters, too—would be disfranchised by the perfectly legal, though absolutely inequitable, use of the discretionary power conferred by the opposition party—white voters are the property of the discretion pa

Move The Cannery.

Taneytown has had the experience of point so far as teams are concerned, and the result is, as we pictured before the trol of the government. This proposition business was established, very unsatisfactory. In fact, it is now pretty generally conceded to be a nuisance, and this can be said without special reflection on the owner and manager of the plant, uprising. In this situation there is but who no doubt did the best he could without going to excessive expense, to keep the premises clean. The business, to the prevention of a change in the orlongs on the outside of an incorporated

affected, is, that the cannery should be oved. Indeed, it would not be a hard natter for an injunction to be secured, order to bring about the same end, hould the officials fail to take action, so noises, smells and generally existing conditions.

The News on the Disfranchising Amendment.

The following questions were recently the Constitutional Amendment Campaign Committee;

In order that your position in this campaign may be more definitely and distinctly understood, will you be frank enough to answer the following ques-1. Do you favor negro disfranchise-

2. Would you support any other mendment having for its admitted puroose the disfranchisement of negroes and the saving of whites? 3. Were the Fifteenth Amendment not in existence, would you favor the disfranchisement of negroes along the line mittee that Governor Warfield's Supervisors of Election will have the appointment of the election officials is deliber-

Warfield-Bryan amendment if it were 5. Are you opposed to all amendments having for their purpose the suppression of negro activity in politics? 6. If you favor negro disfranchisement REPUBLICAN and at the same time admit the advis- have it in their power to run things to facilities in the country, the giving to 1eability of protecting all whites, both native and foreign, is there any legal or honorable means other than indirect

neans which can be brought into service to achieve that end? 7. If the Fifteenth Amendment, repuliated by Maryland in the first instance, DEMOCRATIC inflicted upon this State a political curse do you not approve the adoption of any legal measure, even though indirect, which will destroy this visible and abom-

The replies of the News were as follows. Read them carefully, in connection with the questions, as they cover the whole subject;

"1. We do not favor the disfranchisement of negroes or anybody else for its own sake; we would favor it or not favor it any particular case according as it deprive these citizens of their right to aid of the general government of that isfranchisement of negroes necessary, these enormous powers to the election

we should support an amendment of the Constitution to that effect. Officials? 3. If the Fifteenth Amendment were themselves on candidates and issues. In be no occasion for the disfranchisement be but little "cutting" done, except that which usually occurs because of local which usually occurs because of local ment was, in our opinion, a deplorable is the law; any other course surely would error; but it is one thing not to confer friendships, so far as the body of the ballot is concerned, but there will likely be considerable falling away from party take it away by wholesale after they have indirectly what the Constitution of the sed it for 36 years.

4. We are not prepared to say whether we would or would not support the sowere now pending; we should certainly not oppose it in the way in which we are opposing the Poe amendment.

5. Answered under 1. 6. This question is very clever, and scores a real point. It is, in fact, impossible under the Fifteenth Amendment to protect absolutely all whites in the right comparatively easy ballot and after sev- ally all negroes, except by "indirect and action thereunder as a conspiracy eral years trial of the new method. It means," or we will go farther and say and a great political wrong. That was means involving constant and systematic fraud. In some of the States of the far ence to the colored vote, for in districts | South, this course has been resorted to | aggerating the negro question. There | should be expended for their benefit in a afe to say that fully half of the rejected of the "Warfield-Bryan" amendment, as negro population is rapidly increasing is distinguished from the Poe amendment, is that, while disfranchising the great mass of the negroes and faw whites it is that the negroes and faw whites it is designed to put the detailed operation of the law upon the basis of something like a square deal, letting in some negroes whole population, and the census of 1900 showed that they were only 18 per cent of the whole. This is an actual deal age than the States or the people.

But now let us get away from broad statesmanlike to increase race hatred and vague speculations and come down and ill will when it is evident that the and for this reason he should not he sitate to the facts which actually confront the negroes will continue to live in our people of Maryland. It is not the busi- midst, no matter what action may be ness of a newspaper to construct gener- | taken on the Poe Amendment? Maryal codes of political action, or to settle land, fortunately, is in a very different law which has disfranchised so many in advance questions which may arise at law which has disfranchised so many in advance questions which may arise at hundreds in this one county alone since some time in the future; still less to set There the negroes constitute about onets adoption.

The second consideration is how to to The second consideration is how to vote on the amendment. According to conditions of to-day were different from simply because it is Southrrn! If we our view, the only right way is to vote what they are. What is actually proposagainst it, and such good democrats as ed to the voters of Maryland is the passage of a Constitutional amendment Bryan, Senator Raynor, Ex-Gov. Whyte proposed anywhere, such measures for and many others, take that view. It is the arbitrary determination of the right of suffrage as have elsewhere been dictat ed only by elements of extreme difficulviews honesty and right. There is such of Maryland there is crying need for ted. That such a measure for the reme-

a division of sentiment over the question, some remedial measure must be admitdying of local evils need take the shape of a Constitutional amendment is, however, at least doubtful; that it calls for worthy of reproduction. the adoption of a measure so dangerous, the adoption of a measure so dangerous, so evidently fraught with possibilities of vital and pervasive evil as the Poe amendment, is an assertion which to our mind has absolutely no ground to stand of right the best? Voters cannot afford of right the best? Voters cannot afford to vote for party men for the legislature, for legislation is not for the interests of party but for the people. It is high time to cut loose from party subserviency— cials the power of determining every man's right to vote would not better ac-

rnmental affairs.

everyone see that it is not in human na- the 'cello and the bass fiddle in the corcalls for their use? Whatever might be is a democratic newspaper, and does true the first year or the second, the time not presume to interfere in the internal would be sure to come when, the election affairs of the opposition. If the republiagers, with ample time to prepare a very different measure, and with full warning from such men as Governor Warfield and | we have said nothing. But when, in the Attorney-General Bryan, have deliberately placed before the voters of Maryhaving a corn packing establishment in the centre of the town, and at the busiest print so far as teams are concerned and moreover, is made to them by the very people whose outrageous abuse of op-portunities of the same kind, though dif-

Democratic Opposition

The Democratic Anti-amendment Association, of Baltimore, composed of 500 democrats, representing every ward unpopular and objectionable are the in the city, and thousands of others who agree with them; has issued an open letter to "Democratic Voters of Maryland," of which the following para-

graphs are a part: "While the proposed Amendment seeks, on its face, to make the registration officers conduct an impartial exami propounded to the Baltimore News by nation in Constitutional law of all those unfortunate citizens who are discrim nated against because they do not b long to certain privileged classes, the Democratic managers assure the public that the examinations will be conducted dishonestly and contrary to the law, and that not a single white man will lose his They tell us that, while the registration officers are sworn to act impar-tially, as a matter of fact they are expected to perjure themselves, and will be selected for the office on account of their willingness to break their oaths. The statement of the Democratic com ment of the election officials is f race cleavage?
4. Would you support the so-called that Governor Warfield will be going out of office at about the time that the Amendment would become operative if it should be adopted at the November It is realized by all that, when removed, the Democratic managers will

suit themselves Do you believe in adopting dishonest practices, even though in your opinion this dishonesty will lead to ultimate good? Does the end justify dishonest means? Do you believe in giving up your present absolute right to vote and to receive in exchange a mere promise from politicians? It is true that these politicians say that your rights will be quite as secure in the future, because they propose to dishonestly administer An early reply to this will be greatly preciated. the law, and by means of this dishonesty relieve you of all annoyance; but does not the mere statement of the case show you the great dangers which would surround you and warn you to avoid the necessity of relying upon promises? Is it not altogether probable that, when political enemies appear before partisan election officials a difficult examination, eemed or did not seem called for by the vote? And is it not true that no court ircumstances of that case.

2. If "the saving of whites" made the such action, for the law specifically gives in Maryland would be able to prevent

Whatever you may think of the Fifteenth Amendment to the Constitution of the United States, which gave the right of suffrage to the negroes thirty-six years ago, it is clearly the duty of good | distributing taxation equally, and as all citizens to uphold the law as long as it the people should contribute to the conlead to anarchy and contempt of all United States forbids being done direct-You can, under the Constitution. legislate against ignorance wherever portion of the expense for the construcfound, but you cannot legislate against | tion and improvement of the roads which negro ignorance alone, nor can you so it uses for the delivery of the mails and interpret a law which is otherwise ex-The statement is constantly made that similar amendments have which are the arteries of interstate combeen pronounced Constitutional by the merce Supreme Court of the United States. By REV. S. H. DOYLE. Topic.—Better work our society should do.—Heb. vi, 7-12; xiii, 20, 21. Christianity has always stood for progress. No matter how high the standard of personal life preached or how efficient has been the active service rendered, the command has always teen "Go forward," "Let thine eyes look right straight on," "Grow in grace and in the knowledge of our Lord Jesus Christ." "Better things" are always expected of the Christian and of every organization formed for the advancement of Christ's cause. The old principles are never to be abandoned but while not neglecting the eternal truths we are ever to advance in personal attainment and to better and more effi-

cient service. Christian Endeavor has been especially particular to follow this phase of Christian life and service. It was organized upon certain definite, permanent principles, and these have never for a moment been abandoned, but new lines of service have ever been introduced and new inspirations suggested for carrying forward both the old and the new work. One of the remarkable features of the Christian Endeavor movement has been the development of new and attractive methods of Christian work. It has done much to fore their birth. Let the scholars tell popularize mission work and made 8 their names. Every thought and purrevolution in missionary literature and

The idea of the comrades of the quiet hour has had unparalleled success in developing the devotional spirit and habit. The glory of all suggestions for unique methods of work has been their practicability. Nothing has been sensational or effervescent, but sensible and permanent, and the movement still calls for advancement, and all Endeavorers should respond to the call. The quarter of a century anniversary of the movement will soon be upon us. Dr. Clark has asked Endeavorers to celebrate it by leading 1,000,000 souls to Christ and giving \$1,000,000 to missions through our denominational boards. What manner of celebration can be more inspiring than this-the winning of souls at home and the spreading of the gospel abroad? Every Endeavorer and every Endeavor society should respond to this appeal. Let us, above all, do better work in winning souls for Christ and in advancing Christ's kingdom throughout the world. And that we may do this we must depend upon One who is able and willing to "make us perfect in every good work to do His will" and increase our personal devotion to Christ and the efficiency of every prayer meeting and of every committee. If we will do this the work will be done and Christian Endeavor will receive a new lease of life upon which to start its second quarter of a century. May every Endeavor society realize its opportunity and rise to meet it, "trusting in the Lord Jesus Christ for strength." BIBLE READINGS.

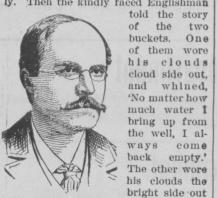

Prov. xl, 30; Dan. xii, 1-3; Matt. v, 48; xxviii, 19, 20; John xiv, 12; Rom. xii, 1, 2; I Cor. xv, 58; Gal. vi, 1-10; Phil. iii, 8-15; Heb. vi, 1-3.

Professor Wells described a feature of one of the Baltimore convention Junior meetings in these words:

"Rev. Carey Bonner of London the arch back of the pulpit. On it was printed Miss Ellen T. Fowler's stanza: "The inner side of every cloud

Is bright and shining; I therefore turn my clouds about And always wear them inside out To show the lining.

"Mr. Bonner sat down at the piano, and played a little tune for the stanza, which the children learned immediately. Then the kindly faced Englishman

the well, I al-The other wore his clouds the bright side out

REV. CAREY BONNER. and cheerily said, 'No matter how often I come to the well empty, I always go away full of water for thirsty souls."

Rev. Carey Bonner is famous on the other side of the Atlantic as a Christian Endeavor enthusiast and as the author of many of the best liked and most used Christian Endeavor hymns. He made his first appearance at Baltimore as an international convention

It Can Be Done. In his address before the Baltimore convention Dr. Clark, the founder of the nation and kingdom that will not the Christian Endeavor society, discussed the important matter of evan- Ps. lxxii, 10, 11). gelization among and by the young people of the land. THE SUNDAY SCHOOL.

LESSON III, FOURTH QUARTER, INTER-NATIONAL SERIES, OCT. 15.

Text of the Lesson, Ez. i, 1-11-Memory Verses, 5, 6-Golden Text, Ps. exxvi, 3-Commentary Prepared by Rev. D. M. Stearns,

Copyright, 1905, by American Press Association.] The kingdoms of this world had passed from the head of gold, Babylon, to the breast and arms of silver, the Medes and Persians (Dan. ii, 32, 37-39). The lion had given place to the bear (Dan. vii, 4, 5), which bear, although so described in reference to other nations, is spoken of as a ram, a harmless domestic animal, in reference to Israel because of the kindness of Cyrus and Darius to Daniel's people (Dan. viii, 20), The seventy years of Judah's captivity were ended, and the time had come for her restoration, according to Jer. xxix, 10. Not only had the restoration been foretold, but the very king who should accomplish it had been mentioned by name some 200 years be-

fore (Isa. xliv, 28; xlv, 1).

Josiah, one of the good kings of Judah, was mentioned by name about 300 years before he was born (I Kings xiii, 2; II Kings xxiii, 15-17). Besides these five others are named in Scripture be pose of God will surely be fulfilled; His counsel will stand, and He will do all His pleasure (Isa. xiv, 24; xlvi, 10; Ps. xxxiii, 11). When His time has come He stirs the hearts of whom He pleas eth to accomplish His pleasure. He may have used Daniel, His servant at the court of Cyrus, to enlighten Cyrus concerning His purpose, but He alone could make Cyrus willing. Throughout the whole Bible it is most fascinating and inspiring and leads to heartfelt adoration of Jehovah to watch Him working, whether as Creator or Redeemer, Israel's Messiah, the Great Head of the church or the King of kings and Lord of lords. Notice in the first two verses of our lesson such statements as "the word of the Lord," "the Lord stirred up," "the Lord hath given me" and "He hath charged me,"

to the word of the Lord. The central topic of the book of Ezra is the rebuilding of the house of the Lord at Jerusalem, as will be seen more fully in our next lesson, and this izes the entire system and makes life house is mentioned at least fifty times worth living, no matter what your station. Trial bottles, 25c; regular size, 75c. as a nation apart from the temple or tabernacle, for no sooner had God eytown, Md. brought them out of Egypt than He gave commands to Moses to have them build Him a sanctuary that He might dwell among them (Ex. xxv, 8). While Israel is for the present blinded, the fullness of the gentiles is being gathered, and another house is being builded, a living temple made of living stones, with which we have to do (Rom. xi, 25, 26; Eph. ii, 19-22; 1 Pet.

To gather the material for this building, the church, the gospel must be preached everywhere, and, as in the days of Cyrus, so now the word is, Let him go who is willing, and God soon. will be with him, and whosoever remaineth let him help with gold and sil- a sign of hasty news. Thus, many a ver and goods those who go forth (verses 3, 4). Whether we abide at home or go to the ends of the earth, unchurch, the body of Christ, we are not er work through those who have gone and bring blessing from heaven to any

part of the earth In verses 5 and 6 we see the willing ing offerings, for God was working (Phil. ii, 13). If there be first a willing mind it is accepted according to that a man hath and not according to that he hath not, and God only expects us to do as of the ability which He giveth (II Cor. viii, 12; I Pet. iv. 11). If we are only yielded to God He will not leave us untalented, but we must be section, luck will be good, but if several sure to use the one talent if only one | sections be crossed the hunt will be a

WINTER EGG PRODUCTION.

Points to Observe In the Care and The production of eggs is an easy matter in spring and summer, when the hens lay naturally, but to raise a summer product in the depth of winter is less easy of attainment, says A. V. Meersch in Western Poultry Journal. There are two reasons why the "egg farmer" should make every effort to secure the production of as great a number of eggs in winter as at other seasons-first, because eggs are very much dearge in winter than in sumwer, and the efore the profits of the year will largely depend on the proportion of eggs which the hens can be induced to lay at that season, and, sec ond, because in order to work up ound business connection with consumers the producer must be in a position to supply his customers' wants all the year round. To secure a good winter supply of

eggs the following should be observed: A good winter laying breed must be kept. The hens must be of a highly pro ductive strain and bred if possible from several generations of good winter lay

The pullets which are to be kept for winter layers must be hatched neither ROADS AS CIVILIZERS too early nor too late. The hens must be more than two years old.

The houses, yards and all appliances must be laid out and constructed so as to insure comfort. The food must contain a sufficiently large proportion of those elements

which are necessary for the formation of eggs, the repair of tissue and the production of heat. It may be taken as a general rule read a paper on "Good Roads and Good that it is a good plan to allow the hens | Citizenship" before the Oregon good

to hatch and raise one, two or three roads convention, held at Grant's Pass, broods of chickens during the season when egg; are cheap. Time apparent ly lost in this way is made up for by the greater number of eggs produced when they are dearest and in greatest No single breed can be said to be

the best for winter laying, for a breed which will do best under certain cir cumstances may not be suitable in others. If, however, the different breeds are divided broadly into classes, the weight of evidence points to the conclusion that for winter laying the small nonsitting breeds are excelled by the heavy sitting varieties. The nonsitters will lay a greater number of eggs during the year, but the "general purpose" or sitting breeds are better winter layers. Among the most popular of these may be mentioned the Plymouth Rock, Wyandotte, Orpington, Faverolle and Langshan, and when kept under favorable conditions fowls of any one of these breeds can be depended upon for a regular supply of winter eggs.

EFFECT OF IMPROVED HIGHWAYS ON GOOD CITIZENSHIP.

Evils of Poor Roads Contrasted With the Benefits Obtained From Good Ones-How the Standard of Mankind Can Be Raised.

Judge John H. Scott, who recently Ore., said in part:

There is a great effort being made the standard of citizenship of the individual. The greatest good cannot come from our efforts toward individual development unless we have free access to mingle one with the other. It is human nature to be sociable and to desire

HARD ROAD TO TRAVEL. the companionship of one's fellows. Deprived of this pleasure, as many are do. who live in the rural districts, they become dissatisfied with country life and move to the towns and cities. Is it to

be wondered that so many boys and to urge people at this season of the year girls leave their country homes and go to the city as soon as they become old to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be bury's father. to the city as soon as they become old needed before winter is over, and much Wallace Hubbard, assistant forester Our bad roads prevent the women and our young people from driving out | contracted and before it has become setand mingling together as they should | tled in the system, which can only be in order to develop the social side of done by keeping the remedy at hand. their natures that is so essential in This remedy is so widely known and so forming the most useful and well rounded life. If the women who live in the country were to wait for their hus- Druggist, Taneytown, Md. bands to take them calling, their calls would be few and far between. The long winter evenings should be the most pleasant time of the year upon the farm; it should be the time for social and mental improvement. Liter-

ary and social gatherings should be had, adding both pleasure and improvement that would do much to make our young people content with country life. Our bad roads prevent to a large degree this being done. If the gether frequently, contentment and prosperity would come to many a farm home that is now ruined by dis-

and girls from the farm to the city. It has been wisely said "that the schoolmaster and good roads are the back from London, does not wax en- Bitters. of our young people that each of us has a duty to perform; that we owe a says Mr. Zimmerman. that we should always endeavor to develop the individual and mold character that will make the best citizens and belp to develop the district where we reside and not live for self alone. Unless our young people have an opportunity of mingling together in a social way they will become selfish and narrow and will not develop into that broad minded citizen that is desired for a full and speedy development of the

United States. We should as far as possible get away from that petty selfishness that often prevents us from making the most out of our lives and is so often noticeable in highway improvement. All of the roads cannot be made good at once. Why not help build a good piece of road in one section of your county and not refuse to work if that right along by your farm? We must and rheumatism, Pain Balm is unequal-necessarily begin somewhere with perded. For sale by R. S. McKinney, Drugmanent road improvement if we ever | gist, Taneytown, Md. expect to have any. One reason for the prevalence of bad roads throughout the United States is lack of agreement and

united action among the advocates of highway improvement. Everybody prefers good roads to bad. Everybody knows that the roads can be improved only by the expenditure of money and labor, but there the agreement ends. There is a great variety of ideas and schemes for securing the desired object. Some people would rather travel through mud than to have the road improved by any other plan than their own pet scheme. Holding conventions of this kind will not in themselves build good roads. We must unite in support of a few general principles and go to work upon some general plan. With a united effort we shall be able to accomplish The vicar of an English health resort | much good in highway improvement has issued the following notice: "To but in order to unite some of us will meet the convenience of visitors ar- have to give up some of our pet projrangements have been made with the ects as to how the work should be done Better roads will enable us to have school districts, better schoolhouses and have our schools better graded and run for less expense per capita than we

PREVENTION OF GAPES.

Cleanliness and Variety of Food Are Essentials.

The old saying that "an ounce of prevention is worth a pound of cure" is certainly true in this disease of young chickens, writes an Ohio correspondent of American Poultry Journal. As I have had the chicken fever for over a quarter of a century, my experience might be of some value to a beginner. When I first tried my hand at raising chickens I would always lose quite a number with the gapes. When the gapes would put in an ap-

pearance I was always ready to try ev-

ery new remedy I chanced to hear of.

One of the first cures I remember of

hearing was to take a handful of air slaked lime, put the same into a tight box, give the box a shake, then insert the chick as quick as possible for a moment and remove. As I had a brood of white face Black Spanish at the time affected with the dread disease, I thought I would try it on one. I did so and succeeded in curing the gapes, but upon examination I found the chicken had lost the sight of one eye. in the operation. Next I was told blowing tobacco smoke down the windpipe would kill the worm. I tried that treatment on a young game. The smoke killed the worm all right, and the chick went the same route a moment later. Then I heard that by not depositing the droppings where the young chicks could get to scratch in them it would have the desired effect of preventing the gapes. I tried that and found I was not troubled so bad as formerly. Next I was told that by feeding cornmeal it would cause the gapes. As we used to use it quite extensively, I quit it and found we had better luck in not losing so many chicks. Then I was told if the mother hen was troubled with lice that would cause the chicks to have the gapes. I gave that matter some attention, with satisfactory results. Then throughout the United States to raise I heard that campness was a breeder of gapes, so I gave that some consider- at onceation and received further benefits be keeping the chicks dry

I don't think I have lost a dozen chicks from the gapes in the last five years, and by observing the following I am no longer troubled with the

First.-Keep the henhouse and fowls free from lice and the runs in a sanitary condition, having no manure heaps of chicken droppings for the chicks to scratch in.

Second.—When you set the hen give her a fresh nest, with new straw in

Third.—When the chicks hatch put them and the hen in a nice dry place, where the hen can dust herself and the Sahara. chicks be kept dry in damp weather. Fourth.-Feed chop feed for soft feed In place of cornmeal and only feed what they will eat up readily with a simanacs in the United States. despair.

"When the call's a close one, in an emergency which requires prompt action I think I'd tie to men; but in the matter I think I'd tie to men; but in the matter The American ice cream saloon is of physical suffering, give me the woman every time and deliver me from the still in its infancy in the British metropman."-Providence Journal.

Insomnia and Indigestion Cured. "Last year I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months when I used Chamberlain's Stomach and Liver Tablets and received immedi-ate relief," says John Dixon, Tullamore, Ontario, Canada. For sale by R. S. Mc Kinney, Druggist, Taneytown, Md.

Why He Couldn't Help Her.

A very pretty young man slipped and fell on the stone steps in front of her father's house, spraining her knee. She disliked doctors, but the knee finally grew so bad that she was persuaded to call in medical advice. She wouldn't have this doctor or that one, but finally said she would consent to have called in a certain spruce-looking young man carrying a homoeopathic medicine case who passed the house every day.

The family kept a sharp lookout, and when he came along called him in.
The young lady modestly raised her skirts and showed the disabled member. The young man looked at it and said:

"Well," said the young lady, "what shall I do?" send for a physician."

"If I were you," he said, "I would him?"

ANIMALS AND TOBACCO.

A Dog That Smoked and a Parrot That Chewed the Weed. Most animals have an utter abhor rence of tobacco in any shape or form, have myself made even a really ferocious dog turn tail simply by puffing smoke in its face, but I do not recommend the means as one to be always

But to this rule, as to all others, there are exceptions, and numerous instances are known of animals porsesspainted 24 Rolling-Mill houses one coat ing a positive love for the fragrant Devoe at a saving of 11 per cent for paint weed. Dogs, it is well known, can be taught to do almost everything but talk, and in my early days I was conwhat really happened.

The buyer, as usual, went by the cost

The buyer, as usual, went by the cost

The buyer is usual, we continue to the cost of of paint; got bids. Lead-and-oil bid low the unique attraction of a terrier which in the art of smoking a clay pipe. The curious point was that the animal actually got to enjoy its pipe and would every Sanday, as in the performance

> The parrot is perhaps of all birds the most apt to take up bad habits. A Yale Musical school, is to provide the friend of mine has one which is pastobacco. If given a sufficient quantity novel, "The Prince of India." the bird will make itself positively the actions of an intoxicated human mittee of international artists' conbeing. Long practice has made the gress, which will shortly meet in Vebird something of a connoisseur re- nice specting its favorite luxury, and it now treats fine cut tobaccos with contempt. Its particular delight is the plug af-

fected by sailors. It is among the simian tribes that tobacco loving quadrupeds are most frequent. This is probably owing to the monkey's overpowering faculty for imitation, which sometimes gets it into trouble. I remember an amusing instance. A man after puffing at a cigarette for a time threw it down near a monkey which had been watching the proceedings intently. The animal snatched it up and puffed gravely for a few minutes. Then a look of intense bewilderment stole over its face, and, throwing the eigarette down, it retired

into a corner, evidently very ill. A gentleman in the north of England has a monkey which is addicted to snuff. The animal has been taught to take a pinch from the box of a visitor with all the courtly air so prevalent in the days when snuff taking was the fashion.—London Tit-Bits.

SAVING CENTURIES.

Americans Gain 455 Years Annually by the Telephone Alone. It may sound queer to say that recent improvements in the telephone have made possible the saving of centuries to Americans every year, but nevertheless it is a fact capable of mathematical demonstration. For instance, in less than a decade engineers have reduced by four seconds the time central requires to answer a call. Last year the Bell companies had 3,598,998,000 calls. Four seconds saved

on each of these gives a total of 14,-\$59,992,000 seconds, or an aggregate a little more than four and a half centuries. In other words, the telephone exenough time out of every twelve months to take us back to the birth of Columbus, to the days when the bloody War of the Roses was devastat-Turks were not yet heard of in Con- and absolutely pure. stantinople and when the Spaniards had not yet entirely conquered the dusky Moors. Four centuries and a half ago was long before Shakespeare's birth, and still longer before

Cromwell wrested the power of self This saving of time to telephone users has been effected only with incessant care and vigilance. A system of rigid inspection is applied to every Bell exchange in the country, and for carrying it out there is a large force of experts, whose only duty is to watch and stables in Hanover, on Saturday, of improving it, especially in respect to speed, and suggest short cuts and time economizing devices in every department of the business-mechanical.

Kirssin's Underselling Store

We wish to announce to the people of Taneytown

Clothing, Furnishing Goods, Hats, Caps and a full line of Ladies' and Gent's Shoes

the Finest line we have ever carried, of New and Up-to-date Goods, and as it was all bought for Cash, we are in a position to sell you good, reliable goods at prices that will astonish you. All we ask of you is to come in and inspect our new lines before buying.

the way of New, Stylish, Up-to-date Clothes that can not be had in another store in the county.

We offer you the greatest values that have ever been offered in

We carry everything from the heaviest Working Shoes to the Finest Shoes—both for ladies and gentlemen.

In Our Hat Department

You can find anything you desire in the way of a Hat, from a

In Furnishing Goods

We are bound to suit you, as we carry as Full and Up-to-date a line as any store in any town five times the size of Taneytown, and at Underselling Prices.

All we ask is for you to come in to see us before buying elsewhere, and

or not tied to any one particular dealer, agent, or concern, it will pay you big to buy of me when you want a

Talking Machine or Records, Piano, Organ, Washing

Machine, Wall Paper, Enlarged Portaits or Frames, Come to me and let me demonstrate to you the purchasing power of your dollar; also how and why I can give you more and better value for the same and less mone than you can get elsewhere. Try Me! A Trial will Convince You. Any Fine Carriages, Buggies, Old Terms!

> but because the greatest men of the world say so. No matter where you are, it brings to you the violin of Kubelik; the most famous Bands and Orchestras of Europe and America; the most popular Songs, sung by the popular singers of the day—and Entertainment of every sort. Wherever one of my machines is heard, the verdict is, "It beats anything I have ever heard." If you want to save from \$3.00 to \$30.00, on a machine, and want the latest and best the market affords, I can give you something you cannot get elsewhere, and it's a VICTOR, just the same.

> I am Headquarters. I have the inside track. See! Send for Catalogue. Don't let any one put a bug in your ear, trying to make it appear that I cannot do as I say, and that the goods I sell are not the right kind and worthless, and that you will get into trouble if you buy of me, but give me a trial, and I will stand the brunts. Everything I sell or do is positively guaranteed—must be right.
