He describes the breathless pursuit for agents-in which bakers, grocers, and fish-cart peddlers were enlisted, and 'summer-schools' started for the purpose of roping in college graduates. He tells how under the bonus system ings and expensive banquets have been lavished on agents at the expense of the | SOn. policy-holders; of how a large traffic in deceptive policies has been carried on; and of how the vicious system of rebating has continued in defiance of the laws passed against it. All of these evils he traces to the one source-the mania for a big annual showing.

With the exposure of this last, most astonishing "graft," which this history has retailed, Mr. Hendrick comes to the conclusion of his story. The final paragraphs which sum up the problem now before the policy-holders of the country will rank as one of the most masterly statements which the life-insurance in vestigation has called forth.

Prayer Meeting Topic For the Week Beginning Nov. 4. Dy REV. S. H. DOYLE.

Topic.—The blessedness of commu with christ.—John xiv, 15-26. Communion with Christ is one of the greatest blessings that result from Christian discipleship. There are various ways of communing with Christ. We may commune with Him in prayer. Prayer is not simply petition. It does we pray. We talk to them as child to parent or as friend to friend, and not the least of the blessings of prayer is this communion and fellowship with the Saviour. "A little talk with Jesus, how it smooths the rugged road." We may commune with Christ through His word. In the Scriptures He speaks to is, and in listening to Him we enjoy the best of fellowship with Him. In the celebration of the Lord's supper we hold communion with Christ. It is called the "communion" not only because Christians enjoy each other's sacrament, but also because the through the emblems that represent His broken body and shed blood. But the chief avenue of communion with Christ's departure from the earth He representative in the hearts of believwe have the sweetest communion with should be faithful in communing with Him who is the source of our spiritual

To not start off as if they knew everyhold communion with the good and great of the earth through personal intercourse or through their written words is a source of untold blessing; but He is the greatest of the great, the best of the good, and communion with 1x, 6). A good question is found in Jer. Him consequently produces far greater

In the results of communion with Christ we see its blessedness. 1. Such communion comforts us amid life's troubles and afflictions. What a friend we have in Jesus, All our sins and griefs to bear;

What a privilege to carry Everything to God in prayer! 2. It is a source of knowledge. In our intercourse with Him through the spirit we are taught concerning spiritual things. The spiritual knowledge and discernment of many who are ignorant and unlearned are sometimes remarkable. But it is easily explained. They live close to the Master, and He reveals many things to them. Spiritual things are spirituany discerned, and if we would attain to unusual spiritual knowledge it must be through a life of fellowship with the Holy Spirit, who dwells within us. "He will reveal all things unto you.

3. Communion with Christ is an inspiration to Christian service. We cannot live in loving fellowship with Him who died for us without wanting to do

4. It deepens our faith; constant comever before us His reality, which is a great support of faith. To many Christo be and the cause is largely from their neglect to commune with Him as they ought. Let us not miss the sweetest and best joys of our Christian lives by neglect of communion with Christ; but let us live in daily fellowship with Him.

Younger Officers.

The feeling is growing that the young people of our churches must be induced to join the Christian Endeavor society and that one reason why it is difficult to do this in some places is that so edied. In fact, it must be. The very life of the Christian Endeavor society depends upon it. We can have a young people's society only when we have a society of young people. This has been said before. But it needs to be said again and again; for in some churches the situation is so serious as to cause alarm. Give the young people a chance with the young people's society. Put them into places of responsibility and leadership.--Rev. W. Knight Chaplin.

"Seed Sowers."

Endeavore of the Japanese church of Honolulu have organized themselves into a band which they call "Seed Sowers," whose purpose it is to distribute tracts throughout the city. There are twelve companies of these Seed Sowers. They preach in the streets, with a chair of singers, on Saturday evenings, and if any member of the band is unable to distribute tracts on the Sunday following he contributes a sum of money toward the expenses.

In the Midweek Meeting. A few years ago President Walden of the Australasian Christian Endeav or union obtained from fifty societies the statistics of the midweek prayer meetings of their churches and found that the Endeavorers furnished 75 per cent of the attendance.

Australian Growth. Australia now has \$5,000 members of Christian Endeavor societies and expeets to reach 100,000 during the pres- only eat and drink judgment to them-

Who is the nation's autocrat?
For what prevails, who's spanding pat,
If good or ill, alert or flat?
The voter. Who is to blame when things go wrong, And public rights sold for a song, Not given where they should belong? The voter.

Who turns from good, true men away And lets the rascals have full play, Without disturbance of their sway? The voter.

Who thinks it is a trouble great To take much interest in the state, And on his duty lays small weight? The voter.
