THE CARROLL RECORD.
(NON-PARTISAN.)
Published every Saturday, at Taneytown,
Md., by The Carroll Record Printing
and Publishing Company.
P. B. ENGLAR, Editor and Manager.

BOARD OF DIRECTORS.
D. C. BIRNIE, Pres. G. A. ARNOLD,
GEO. H. BIRNIE, V. Pres. JOHN S. BOWEN,
F. H. SEISS, Sec. & Treas. P. B. ENGLAR,
E. E. REINDOLLAR.

TERMS: One Dollar per annum in advance.
Six months 50c. Trial subscriptions, three
months, 25c. Please do not receive this paper
after your subscription has expired, unless
you mean to pay for it. The label on paper
contains date to which the subscription
has been paid.
All subscriptions will be discontinued on
their expiration, when requested to do so;
and no credit subscription will be continued
longer than one year after the date to which
it has been paid. This provision is to be
considered merely as an extension of credit,
and not a favor, to subscribers, and is not a fixed rule
for all cases.
ADVERTISING rates will be given on
application, after the character of the business
has been definitely stated, together with
information as to space, position, and length of
contract. The publisher reserves the
privilege of declining all offers for space.

Entered at Taneytown Postoffice as Second
Class Matter.

SATURDAY, AUGUST 31st., 1907.

All advertisements for insertion, and 3rd. pages
must be in our office by Tuesday morning,
each week; otherwise, insertion cannot be
guaranteed until the following week.

**England's Interest in Japanese
Emigration.**

It appears from the London corre-
spondence of the North American Re-
view, that the question of restricting
Japanese immigration to the United
States has aroused no little interest in
Great Britain—in official circles as well
as among the people. It is understood
that any issue which may arise between
the United States and Japan in regard
to the exclusion of Japanese of the
coolie class "lies wholly outside of the
scope of the alliance between Great
Britain and Japan." But, as the writer
in the North American Review points
out, the British Government is watching
the United States "for a hint as to how
to deal with or, rather, as to how not to
deal with a problem that sooner or later
will confront Great Britain in British
Columbia, in New Zealand and in
Australia." Recently, it is stated, the
Imperial Government has found itself
obliged to discontinue a regard for the
Legislature of British Columbia exclud-
ing Japanese coolies. "In Australia the
feeling against the yellow man as a com-
petitive settler is perhaps the nearest
approach to a really national sentiment
that the antipodean continent can
boast," asserts the English correspond-
ent of the North American Review. He
adds to this statement of Australian
sentiment the following significant
declaration: "The Australian feeling
toward Great Britain, at whatever popu-
larly to the Japanese alliance, must ultimately
associate herself."

The United States is in the habit of
solving its problems along the lines of
national needs and enlightened self-
interest. At the proper time it will
settle the question of Japanese immigra-
tion and naturalization in accord with
the practical interests of the American
people, the security of the nation, and,
as far as possible, with due regard for
the sensitiveness and the self-respect
of Japan. The position in which the British
Government finds itself is far more deli-
cate than that which the United States
occupies in relation to Japan. The ties
between Great Britain and her depen-
dencies are not so strong as they used to
be. Sentiment might move the Cana-
dians or the Australians to send soldiers
to South Africa to fight under the British
flag to maintain the supremacy of the
British Empire in that quarter of the
globe. But sentiment would not be con-
sidered by the practical and business-like
Australians and Canadians if their
interests should require the exclusion of
Asians from Canada and Australia.
They would feel under no obligation to
submit to unrestricted immigration
from Japan because Great Britain and
Japan had entered into an alliance for
the protection of their interests in the
Far East. If ever a crisis shall arise in
which Great Britain must choose between
her colonies and Japan on this issue of
immigration, there can be little doubt
as to what that decision will be. The
London Spectator puts the case in this
manner:

"We have the highest admiration for
the valor, the patriotism, the genius and
the great spiritual qualities of the
Japanese. At the same time we must
stand by our own people, and by
the communities which form part of our
empire. This does not, of course, im-
ply standing by them in outraging any
moral or religious or political obliga-
tion, but standing by them in the sense
in which we are vindicating with reason
and moderation and a due regard to justice
their instinctive feeling that they can
only develop their national life on the
highest scale if they remain white men's
countries, governed in accordance with
the ethical and religious ideals of the
Western races."

The London correspondent of the
North American Review observes, with
what seems to be genuine amazement,
that "the Californians, in their proceed-
ings against the Japanese, have found
in Australia, New Zealand and British
Columbia the approval and support
apparently denied to them by their fellow-
countrymen." It is yet to be shown,
however, that "the approval and sup-
port" of the American people are with
the Japanese, and not with the people
of the Pacific Coast, on the issue of un-
restricted Japanese coolie immigration.
We cannot settle such questions in the
United States as quickly as they do in
Great Britain. But when the issue is
fairly and squarely presented to the
American people there is little reason to
think that their attitude toward Cali-
fornia will differ from that which the
London Spectator asserts Great Britain
must assume toward Australia, New
Zealand and British Columbia. Still,
as the question is one for deliberation
and settlement in the future, there is
no reason why Americans or Japanese
should become excited now. Prudent
and practical statesmanship at Wash-
ington and Tokio ought to be able to
find a basis for settlement which will
not interrupt the good relations between
the United States and Japan, but, on
the contrary, by removing a possible
cause of misunderstanding and friction,
will strengthen the ties of friendship be-
tween the two nations.—Sun.

Increased Cost.
Like everything else, the cost of mak-
ing a newspaper has increased. A dozen
or so years ago the getting out of a paper
was comparatively inexpensive. Help
was cheap, paper stock was low, and
less reading matter was required. To-
day a different situation has arisen. The
wages that they got twelve years ago
and another increase is to go into effect
Sept. 1. The price of paper stock has
risen fully a third and is still rising.
The introduction of the linotype into
newspaper offices was felt to be the
downfall of compositors; but time has
shown that there are more men and

women at work today on newspapers
than ever before. The reason is that
newspapers give more in the money
than formerly give more reading and a
larger and better paper in every way
than was the case in former years.
There is nothing on the market that
people get so much of for their money as
they do in newspapers at the present
time. It is rich in news, full of enter-
tainment, indeed, a necessity for the
counting room, the store and the home.

With this increase in the cost of pre-
paring and getting out newspapers will cer-
tainly come increased rates of advertis-
ing for the merchants, for there is noth-
ing else left for the papers to do.

**Where Maryland Counties Derived
Their Names.**

One is often confronted with the ques-
tions: Where do you live? In what
county? After whom was your county
named? After whom or what was such
and such a county or town named?
One should be familiar with the history
of the several counties, or at least a part
of the following, as a matter of general
history will be both instructive and in-
teresting to those who have never heard
where our counties in Maryland found the
names for our counties.

Allegheny—Indian word "wellich-
hanna," best of fairest stream.

Arundel—Named for the first Lord
Arundel, second Lord Baltimore.

Baltimore—Named for Cecilius Calvert,
Lord Baltimore, proprietor of Maryland,
whose brother Leonard Calvert
made the settlement of the colony
in 1632 in St. Mary's.

Calvert—Named for Cecilius Calvert,
Lord Baltimore.

Caroline—Named in honor of Caroline
Calvert, daughter of Charles, fifth Lord
Baltimore, and wife of Robert Eden, the
last proprietary Governor of the province.

Carroll—Named for Charles Carroll of
Carrollton, who lived at Doughnut
Manor in the county of the same name.
Cecil—and Cecilian, a town in that
county—Named for Cecil Calvert, second
Lord Baltimore.

Charles—Named in honor of Charles
Calvert, son of Cecil Calvert, second
Lord Baltimore.

Dorchester—Named for the Earl of
Dorchester, a favorite friend of Calvert's.

Frederick—Named for Frederick, son
of Charles, fifth Lord Baltimore. It may
also have been named in reference to
Frederick, Prince of Wales.

Garrett—Named for John W. Garrett,
President of the Baltimore and Ohio
Railroad.

Howard—Named for Gen. John Eager
Howard, of Revolutionary fame.

Harford—Named for Henry Harford,
the heir of Frederick, Lord Baltimore,
the sixth, and proprietor at the time of
the Revolution. His claim to the province
was derived from a devise, and not by
inheritance from his father, who de-
scribed him in his will as "a certain
youth, called or known by the name of
Henry Harford, the son of Hester
Wheland."

Kent—Named for the County of Kent
in England.

Montgomery—One of many in the
United States named for Gen. Richard
Montgomery, who was killed in the
assault upon Quebec.

Prince George's—Named for Prince
George, of Denmark, afterwards King
of England.

Queen Anne's—Named for Queen
Anne of England, reigning at the time of
its organization.

Somerset—Named for Lady Mary
Somerset, daughter of the third Lord
Baltimore.

Saint Mary's (the river and county)—So
named because the first settlement of
land was made on the day of the Annun-
ciation.

Talbot—Probably named for Sir Robert
Talbot, who married Grace, the daughter
of Sir George Calvert, the first Lord
Baltimore, though some authorities state
that it was named for Sir William Talbot,
son of Sir Robert and nephew of Cecilius,
Lord Baltimore, who was appointed Chief
Secretary of Maryland in 1639.

Washington—One of the many in the
entire country named for Gen. George
Washington.

Wicomico—Indian, named for the
river Wicomico.

Worcester—Named for the Earl of
Worcester.

The Army Canteen Again.

Once more it is asserted that the cham-
pions of the military canteen propose to
make a vigorous effort for its restora-
tion. The organization of Spanish war
veterans is represented as having made
preparations to present data and argu-
ments before Congress on this subject
next winter, with a view to persuade the
legislators that the abolition of the can-
teen, instead of improving army disci-
pline and lessening impotence, has
had exactly the reverse effect. Other
associations are said to contemplate
action for the same purpose.

So far as the testimony of experienced
officials is concerned, it is practically
unanimous on the side of the canteen as
it formerly existed. Multitudes of re-
ports have been sent in by post com-
manders and other army officers, show-
ing that when the canteen—where only
a moderate amount of beer and light
wines could be consumed by the soldiers
was swept away—low dives and grog-
geries promptly sprang in the vicinity of
practically every post in the country. In
his annual report, Acting Judge Advo-
cate General Porter points out this clearly
and strongly. Not a few observers
have been inclined to place much of the
responsibility for the deplorable large
percentage of desertions on this cause.

It has been held that many men who
had disgraced themselves and their uni-
form by drunken and disorderly con-
duct while under the influence of the
vile and potent stimulants dispensed in
the surrounding dives, have forsaken
the colors rather than face the punish-
ment which they knew awaited them.
Whether this theory is correct or not,
there is no doubt as to the fact that
military discipline is overwhelmingly
in favor of putting the canteen back on
its former basis.

Yet the success of any such movement
seems doubtful. In dealing with the
army and navy Congress often refuses to
hear expert advice. This, perhaps, is
one of the reasons why there are so
many unsatisfactory features in both
branches of the national service.

Japanese Armament.

Unless nearby observers on the spot
are untrustworthy, it must be taken for
granted that Japan is engaged in the
work of warlike preparation on a scale
which is perhaps without a parallel any-
where else in the world, when her popu-
lation and financial resources are con-
sidered. It would be easy to disbelieve
the reports sent out by one or two or
even half a dozen of the correspondents
who write about the incessant activity
that is going on in the arsenals and na-
val yards of the island empire. But when
practically the same assertions come
from a multitude of individuals and in-
dependent sources, it is impossible to
regard them with incredulity.

It may be said that Japan, like every
other nation, has the right to build up
her army and navy to suit herself. That
is quite true. Assuredly no intelligent
American would think of disputing the
proposition. Yet it is worth while to
note the declaration that in the arsenals
of the Japanese government about fifty
thousand workmen are constantly em-
ployed in turning out rifles, cannons and

ammunition of the most approved pat-
tern; while in the great navy, the
Kuro and other points more than 80,000
individuals, many of them highly skilled
artisans, are engaged in building and re-
pairing warships of nearly every type.

A decade ago Japan was dependent
upon other countries not only for her
armor plate and ordnance, but for her
battleships, cruisers and torpedo boats.
Now she is able to supply these chiefly
from her own resources—and experts in-
dicate that the result is inferior to the
best European or American products.
The array of armorclads which the Jap-
anese captured from the Russians have
been virtually rebuilt, and are now prob-
ably in better condition than they ever
were while in the hands of their original
possessors. Several huge battleships,
with numerous armored cruisers and tor-
pedo boats, are under construction; and
notwithstanding this activity in their
home yards, it is reported that the Jap-
anese have just ordered another 18,000-
ton battleship built at Glasgow.

The question why so great an expendi-
ture should be made through these chan-
nels naturally arises. Russia, crippled
as she has been by defeat, the destruc-
tion of her navy, and by internal dissen-
sion, is certainly not to be feared as an
antagonist in the Far East for a long
period to come. With Great Britain
Japan has a close treaty of alliance, and
she has recently entered into an agree-
ment of entire amity with France. Her
scheme for completing the conquest of
Korea and insuring Japanese domination
over a large portion of Manchuria will
undoubtedly require the maintenance of
large garrisons in these regions. This,
however, does not explain the almost
feverish energy which she is displaying
in building up her naval strength.

The only conclusion which commends
itself to rational minds is that the Jap-
anese are endeavoring to plant the seeds
of men of the Japanese Empire propose
to make their nation the supreme power
at the threshold of Asia. Hand in hand
with the task of commercial exploitation
and industrial development, there goes
the work of creating a naval power which
shall be entitled to rank with that of the
leading nations of the globe.—*Phila.
Bulletin.*

Those who have stomach trouble, no
matter how slight, should give every
possible help to the digestive organs, so
that the food may be digested with the
least effort. This may be done by taking
something that contains natural digestive
properties—something like Kodol for
Indigestion and Dyspepsia. Kodol is a
preparation of vegetable acids and con-
tains the very same juices found in a
healthy stomach. It digests what you
eat. Sold by J. McKellip, Druggist,
Taneytown, Md.

Goods We Buy Abroad.

Some Americans are fond of saying
that if a Chinese wall were built about
this country and it was made impossible
to import anything, the country would
scarcely feel the effect, since it produces
everything that it needs. Superficially,
this is true, and yet a study of imports,
in which the Bureau of Statistics is now
engaged, will show that, while the country
might get along without assistance from
other nations, it certainly does not do so.

The mere fact that it imported
\$1,400,000,000 worth of materials last
year shows that it felt considerably short
of supplying our wants, real or imagi-
nary.

It is a further surprise to note that
these imported articles were. Four of
them were foodstuffs—sugar, coffee, tea
and cocoa—and they alone accounted
for \$200,000,000 worth. Three of these
are not produced in this country—for
the experiments in tea raising in South
Carolina have had no practical results as
yet—but, with all the sugar grown in
the United States, one is hardly pre-
pared to read that nearly \$100,000,000
worth of our imports consisted of this
article. Uncle Sam certainly has a sweet
tooth.

Similarly, we learn that with all its
flocks and herds, the country produces
a far less quantity of hides and skins
than it uses, for it imported \$80,000,000
worth last year. Imports of raw silk,
too, increased from 9,500,000 pounds in
1899 to 16,500,000 pounds in 1907. India
rubber imports increased from 31,000,
000 pounds to 77,000,000 pounds in the
same time; wool from 77,000,000 pounds
to 204,000,000 pounds. Copper, tin and
other metals increased in proportion.

Even raw cotton, of which we are
pleased to think we have enough for
ourselves and a great deal for export,
increased from 50,000,000 pounds imported
in 1899 to 105,000,000 in 1907; while im-
ports more than doubled in the
seven years.

A gratifying deduction from these fig-
ures is that the United States is doing a
deal of the world's work, since the great
increase in raw materials is for the pur-
pose of manufacturing them into prod-
ucts which will be sent abroad as well
as used at home.

"We never repent of eating too little,"
was one of the ten rules of life of Thomas
Jefferson, president of the United States,
and the rule applies to every one without
exception during the hot weather, be-
cause it is hard for food, even in small
quantities, to be digested when the
blood is at high temperature. At this
season we should eat sparingly and
properly. We should also help in the
stomach as much as possible by a use of
a little Kodol for Indigestion and Dys-
pepsia, which will rest the stomach by
digesting the food itself. Sold by J.
McKellip, Druggist, Taneytown, Md.

**Intelligent Forestry Taking the
Place of Barbarism.**

The State of New York is grappling
with the forestry problem in a way that
will produce great results eventually and
add immensely to the value of State re-
sources. Beginning in 1905, the State
has planted on barren tracts several
million trees, in one plantation alone
the State foresters have set a million
young trees, of which 200,000 are white
pines brought from Germany. The
white pine is a tree that once grew
abundantly in our Northwest, but has
been practically exterminated in many
districts by reckless lumbering; a pro-
cess which, it should be remembered, has
been encouraged by the tariff. Other
trees that have been planted in large
numbers are Scotch pine, Douglas fir,
European larch and black locust. They
thrive so well that the loss has not ex-
ceeded 10 per cent. of the number plant-
ed. The lands on which the planted
forests stand were denuded wastes,
which, left to themselves, would have
grown up in worthless thickets.

Recent bulletins of the United States
Forestry Service present interesting evi-
dence that unused ground in any part
of the country can be made to produce each
year from \$8 to \$20 an acre through the
intelligent planting of forest trees. There
are trees suitable to every region that
can be planted with complete assurance
of commercial success if the plantation is
properly established and cared for. Ap-
preciation of the importance of this
matter is growing throughout the country,
and particularly in the Middle West,
from which come some striking in-

**Buy Hair
at Auction?**

At any rate, you seem to be
getting rid of it on auction-sale
principles: "going, going,
go—no!" Stop the auction
with Ayer's Hair Vigor. It
certainly checks falling hair;
no mistake about this. It acts
as a regular medicine; makes
the scalp healthy. Then you
must have healthy hair, for
it's nature's way.

The best kind of a testimonial—

seems to be dependent upon gravity
motor.

The Governor of North Carolina
doesn't make any bones about making
dry speeches.

The telegraph strike is to be a fight to
a finish. That's what the country wants
to see—the finish!

The King of Siam has purchased a
thimble, which cost \$75,000, for one of
his wives. This was seen rather an
aristocratic implement for the ancient
and honorable viceroy of Siam.

A town in New York is holding a "fire
sale" of coal, as the pockets of the sell-
ing company were destroyed by fire.
They do not claim, however, that the
cost is reduced because the smoke dam-
aged the goods.

"No honest man," says the President
in his speech, "need fear." The pessim-
ists are now ready with the suggestion
that it is in order for a modern Diogenes
to be lighting up his lantern and looking
for the fearless ones.

London Tit Bits comments upon the
number of English families that have
birds in their enclosures. In America
we hear mainly of the noble English
families that number birds among their
contemporary members.

A Colorado judge says that a woman's
vote \$15, while it is only necessary
to pay \$2 for a man's. Which proves
what suffragettes have always contended
that woman pays a higher value upon her
precious franchise privilege than men do.

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera
and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this
unsolicited testimonial. About a year
ago when I had a severe case of measles
I got caught out in a hot rain and the
measles settled in my stomach and bow-
els. I had an awful time and had it not
been for the use of Chamberlain's Colic,
Cholera and Diarrhoea Remedy I could
not have possibly lived but a few hours
longer. But thanks to this remedy I am
now strong and well. I have written the
above through simple gratitude and I
shall always speak a good word for
this remedy.—SAM. H. GWINN, Concord,

gist, Taneytown, Md.

**Excutor's Sale
OF
VALUABLE REAL ESTATE**

Situate near Taneytown, Carroll County,
Maryland.

The undersigned, executor of the estate of
the late CHARLES H. ROOP, deceased, do hereby
offer for sale, on the premises, on
SATURDAY, SEPTEMBER 14th, 1907,
at 10 o'clock, A. M., the following val-
uable real estate, containing

12 ACRES OF LAND, MORE OR LESS,
situate at the intersecting point of Gettys-
burg and Walnut Grove roads, about one and
one-half miles north of Taneytown, and
improvements thereon con-
sisting of a two-story BRICK HOUSE, and
BOARDED DWELLING HOUSE, Bank Barn, Hog Pen,
etc., etc., and also the contents of the
cabinets and school house. Well of good
water.

On the whole, this is a very desirable small
farm in the market for a small farm.

TERMS OF SALE: One-third of the purchase
money to be paid to said Nelson Hawk on day
of sale, or on the ratification thereof by the
Court; the residue to be paid in cash, or in
one payable in six and in other twelve
months, with interest thereon, and the credit
payments to be secured by the bonds or single
bills of the purchaser or purchasers, with
deeds passed thereon to make sale of, or
of day of sale, at the option of the purchaser
or purchasers.

NELSON HAWK,
8-24-07
Excutor.

**In Return for the Great
Profit in Lime to the Farmer.**

The LeGore Combination of Lime
is said by practical farmers to pay at the
following rate. One ton of lime, before
it is worn out, will bring in five or release
plant food enough to produce:

1 ton of wheat worth \$20.00
24 tons corn " 50.00
4 tons of hay " 40.00

Cost of 1 ton of lime about 4.00
This will leave a profit to the farmer \$106.00

How can the farmers afford to put off
liming and expect to make up the great
loss in their crops? The LeGore
Combination of Lime is guaranteed to
show paying results for twenty years. If
the farmers lime for grass, wheat and
corn, they will grow good crops and lay
the foundation for permanent improve-
ment. The farmer makes more clear
money by the use of one ton of lime
than the manufacturer does from the
sale of 100 tons. Putting off liming is
like not putting off doing what is right—
the longer you wait the harder it will go.
It does not pay to put out any crop with-
out liming if the field has not had any
lime for 4 or 5 years.

If the farmers wish to grow abundant
crops of wheat, grass and corn profitably,
they must use a good combination of
the salts of lime.

Orders should be given to the ware-
house people early, or send direct to—

**White
Flour**
is not only absolutely pure
and unusually healthful,<

CHRISTIAN ENDEAVOR.

Prayer Meeting Topic For the Week Beginning Sept. 1.

By REV. S. H. DOYLE.

Topic—"Can" and "Can't"—Isa. xxxv. 4, xxx. 15; Heb. vi. 12.

"Can" and "can't" are two small words, and yet their influence upon the lives of men is tremendous, affecting even their eternal destinies. The man who possesses the "can" spirit is usually able to accomplish the work which his desires to perform, while the man who lacks confidence in himself and folds his arms and says "I can't" seldom accomplishes anything.

Never say "I can't." Any Christian Endeavor should be a training school for an expression. Even if we have not sufficient confidence in ourselves or the grace and power of God to say "I can," yet let us at least be willing to say "I will try."

Try always to say "I can." Paul said it concerning all things. "I can do all things through Christ." Self-conceit should have no part in our opinions of what we can do.

Try always to say "I can't." Paul said it concerning all things. "I can do all things through Christ." Self-conceit should have no part in our opinions of what we can do.

Japan to Geneva. This message was called to the Geneva convention: The Switzerland of Asia to the Switzerland of Europe—Geneva.

Higher than our Alps or our Fuji are the ideals of Christ. Higher than our Alps or our Fuji are the ideals of Christ. Higher than our Alps or our Fuji are the ideals of Christ.

The Profits of Missions. The Epworth Herald thus outlines a good plan for a missionary meeting: "A most striking feature of the gains of missions may be made, dividing the subject into these parts: The commercial gains, the geographical gains, the scientific gains, the gains of civilization in general, the spiritual gains.

A New Invasion of Russia. A note from Rev. Frederick Blecher, secretary of the German Christian Endeavor Union, says: "We have now two Christian Endeavor societies in Russia and hope for more soon."

Its Chief Work Ahead. "The Christian Endeavor movement," wrote the Rev. F. B. Meyer recently, "has achieved marvels in the twenty-five years which have now passed over it; but its greatest work lies ahead."

How to Clean a White Straw Hat. The following materials are needed for cleaning a white straw hat, says the Cleveland Plain Dealer: White soap, a quart of cold water, one ounce of 5 cents' worth; hot water, sufficient to entirely cover the hat.

The effect of malaria lasts a long time. You catch cold easily or become run-down because of the after effects of malaria. Strengthen yourself with Scott's Emulsion. It builds new blood and tones up your nervous system.

Selling Eggs for Hatching.

For Summer Outings.

Cool and exceedingly pretty is the frock of white linen here shown in the accompanying cut. It is not of the stiffened kind of linen, but has a soft droll finish and hangs in graceful folds.

The main part of selling eggs for hatching and the disappointments that result when the chicks do not hatch, is the expectation of the purchaser that the seller is liable to a great deal of criticism, some of which is just and a good deal of which is not.

No doubt there are a few who knowingly sell eggs that are from stocks inferior to that which might be expected by the purchaser, judging by the advertising matter put out, and these cases of "cool deception" have a detrimental effect on the whole business and cannot be held to have had the misfortune to do business with the few dishonest ones to believe that the whole poultry fraternity who sell eggs for hatching are "sharks" as a matter of fact.

One chief cause of complaint is on account of poor fertility. More eggs for hatching are sold early in the season than at any other time because the majority of those purchasing eggs are doing so in order to get their flocks ready for their next season's breeding pens, and want them early in order to get the birds well mated.

It is evidently true that the early fall will usher in some sensations in the way of trimmings. There must be something new to distinguish the new season, and, although there are countless ways of combining laces and broderies, the designers' energies are rather beat just now toward the development of something that is an enhancement of the ornaments to which we have accustomed ourselves.

It is interesting to note that the early fall will usher in some sensations in the way of trimmings. There must be something new to distinguish the new season, and, although there are countless ways of combining laces and broderies, the designers' energies are rather beat just now toward the development of something that is an enhancement of the ornaments to which we have accustomed ourselves.

WOMAN AND FASHION.

For Summer Outings.

Cool and exceedingly pretty is the frock of white linen here shown in the accompanying cut. It is not of the stiffened kind of linen, but has a soft droll finish and hangs in graceful folds.

The main part of selling eggs for hatching and the disappointments that result when the chicks do not hatch, is the expectation of the purchaser that the seller is liable to a great deal of criticism, some of which is just and a good deal of which is not.

No doubt there are a few who knowingly sell eggs that are from stocks inferior to that which might be expected by the purchaser, judging by the advertising matter put out, and these cases of "cool deception" have a detrimental effect on the whole business and cannot be held to have had the misfortune to do business with the few dishonest ones to believe that the whole poultry fraternity who sell eggs for hatching are "sharks" as a matter of fact.

One chief cause of complaint is on account of poor fertility. More eggs for hatching are sold early in the season than at any other time because the majority of those purchasing eggs are doing so in order to get their flocks ready for their next season's breeding pens, and want them early in order to get the birds well mated.

It is evidently true that the early fall will usher in some sensations in the way of trimmings. There must be something new to distinguish the new season, and, although there are countless ways of combining laces and broderies, the designers' energies are rather beat just now toward the development of something that is an enhancement of the ornaments to which we have accustomed ourselves.

THE GRANGE.

Conducted by J. W. BARRON, Chatham, N. Y.

AN IMPORTANT QUESTION. If a Grange Disbands, What Should Be Done With Its Property?

Under New York state grange laws, the personal property of the grange, which comes from the national grange and is taken by the national grange and held in trust by that body until such time as the grange should again become active. The real estate, such as land, barns, etc., are sold at public auction under the direction of the state grange, and the proceeds of such sale are divided equally among the members of the grange who were in good standing on the date at which the grange became dormant.

CUPID'S COURT.

An Adverse Decision, an Appeal and an Argument.

The judge's daughter was perturbed. "Papa," she said, knitting her pretty brow, "an in doubt as to whether I have kept to the proper form of procedure. In law one can err in so many little technicalities that I am ever fearful. Now, last evening George—"

The judge looked at her so sharply over his glasses that she involuntarily paled. "I thought you had sent him about his business," he said.

"I did have sent him an adverse decision," she answered, "and he declared that he would appeal. However, I convinced him that I was the court of last resort in a case like that and that no appeal would lie from my decision."

"Possibly the court was assuming a little more power than rightfully belongs to it," said the judge thoughtfully, "but let that pass. What did he do then?"

"He filed a petition for a rehearing." "The usual course," said the judge, "but it is usually nothing but a mere formality."

"So I thought," returned the girl, "and he had prepared to deny it without argument, but the facts set forth in his petition were sufficient to make me hesitate and wonder whether his case had really been properly presented at the first trial."

"Well," she replied, blushing a little, "you see, he applied by letter, and his counsel expected that the case was of that peculiar character that cannot be properly presented by briefs, but demands oral arguments. The fact that the latter had been omitted, he held, was such a novel error, and the point was such a novel one, that he wanted to let him argue it. Then his argument was so forceful that I granted his petition and consented to hear the whole case again. Do you think?"

"I think," said the judge, "that the court favors the plaintiff."—Chicago Post.

MONEY SIZES. The World's Coinage Middle and the Range of Units of Value. Twenty-six different monetary units are used by the forty-eight principal countries of the world. Thus Great Britain uses the sovereign or pound sterling, the United States uses the dollar, and Canada and the United States use the dollar.

In value these different units range from 4.4 to 49.23 cents of money of the United States. They are represented in their turn by coins the values of which are either multiples or fractional parts of the value of their own chief units. There are no doubt at least 200 such sufficient to make up not one of which seems to have a value equal to that of any commonly known unit of weight, as the gram, for example, or the ounce of gold, although forty-three of these units are not in circulation.

This lack of logical relation of coins to any widely used unit of weight of the present day is due to the fact that money systems seem to have grown up haphazard, under diverse conditions of life, in different parts of the world.

Such diversity in money matters has been of little moment when millions of people spent their lives knowing nothing of the existence of other millions and there was little traffic. But these differences in monetary units are of importance now that international commerce includes millions of tons of products of the toil of all lands and billions of dollars each year to settle trade bills, for such differences put upon the trader a heavy and unnecessary tax. No account is made here of the burden laid on domestic trade by like variations in the value of such units at home, as the case of the tal of China, which has six different values within that empire.—Moody's Magazine.

TANEYTOWN LOCAL COLUMN.

Items of Local News of Special Interest to Home Readers.

All copy for ADVERTISEMENTS in this column should be in hand early on Thursday morning of each week, except special notices and also announcements.

Mrs. Jennie B. Kreglo, of Hagerstown, is visiting her sister, Mrs. Samuel Null, of near town.

C. Edward Slonaker left on Tuesday, to accept a position as barber, at Chambersburg, Pa.

Judge Clabaugh and family, of Washington, are now occupying their home in this place.

Miss Edith Witsotkey, of Baltimore, is spending some time with Mr. and Mrs. Ernest Bankard.

Mr. Geo. W. Feiser brought to our office two fine potatoes, weighing two pounds. Thanks.

Mr. and Mrs. E. F. Black, of Thurmont, spent several days with Mr. and Mrs. Annie Payne.

Sannel H. Mehring and H. Clay Englar left on Thursday, for a stay of a week at Atlantic City.

Miss Mary Shamm is spending some time in Baltimore, visiting Misses Henrietta and Gertrude Adams.

An important meeting of the Odd Fellows will be held this (Friday) evening. All members are requested to be present.

Mrs. Philip Lemmon and daughter, Miss Blanche, of Baltimore, were the guests of B. O. Slonaker's this week.

Chas. E. Ridinger, son and daughter, Lloyd and Helen, spent Sunday and Monday at Pen-Mar, with his brother, Joseph and wife.

Mr. Jacob Witmer and Mr. and Mrs. Henry Witmer, from Lancaster Co. Pa., were the guests of Mr. and Mrs. Jessie Myers, of Mill Ave.

Mrs. Mary L. Motter, Miss Ellen Snyder and Mrs. F. E. Cunningham and son, of Washington, D. C., are visiting friends in Taneytown.

The P. O. S. of A., will hold a special meeting and banquet, on next Thursday night, Sept. 5, at 7:30 o'clock, to which all members are invited.

Mr. Thad Crapster, who is cruising on the training ship, Itasca, is now in Italian waters, the last letter from him having been mailed at Florence.

Regular preaching services will be held in the Lutheran and Reformed churches, on Sunday, both pastors having returned from their vacation.

Don't fail to attend the free lecture and musical given in Reindollar's Opera House, Monday evening, Sept. 9, by W. L. Loeser, of Harrisburg, under the auspices of Carroll Conclave No. 333 I. O. H.

Dr. C. Birnie, Rev. and Mrs. W. E. Wheeler, Mr. and Mrs. P. B. Englar and daughter, Beulah, returned home, this week, from Mountain Lake Park, where they spent the past two weeks very pleasantly and beneficially.

Mrs. George Storm and children, Agnes, Andrew, George and John, of New York, are here on a visit to Mr. and Mrs. Jerome Storm. They will stop at Columbia with their sisters, Mrs. P. A. and J. H. Gable on their way home.

Monday next, Sept. 2nd., Labor day, being a legal holiday, there will be no delivery of mail by Rural Carriers, on that day. The Postoffice will be open from 8:30 until 10:30 a. m. and from 3:30 till 6 p. m. Baltimore mail will not arrive until ten o'clock train.

The Editor has received a complimentary pass to the Jamestown Exposition grounds, good for seven days. If anyone admiring friends will send me free transportation, and another good sized roll for hotel accommodations and incidentals, we will try to do the Exposition in proper style.

Proprietor Bankard, of the Elliott House, Charles E. H. Shriner and Mrs. David Bollinger are having an extensive cellar drain dug, amounting almost to a sewer, in order to rid their cellars of water and to prevent ice-clogged gutters in the winter. The drain runs from the hotel to the railroad, on Baltimore St.

Dr. F. H. Seiss has been elected a member of the staff of Frederick City Hospital and training school. The honor was entirely unexpected, and it will not in any way interfere with his home practice. This hospital has been doing splendid work and has already had many patients from this section.

On Sunday Sept. 1st, services in Taneytown Presbyterian church at 10 o'clock; and in Piney Creek church at 2 o'clock. On Sunday Sept. 8th., the services will be in the Piney Creek church at 10 o'clock, and in Taneytown at 8 o'clock. Immediately after a congregational meeting will be held, for the purpose of voting for a pastor.

The following letter received from John C. Smith will be of interest to his many friends: "Please change address of my RECORD from Tipton, Iowa, to Flora, N. Dakota, as I am in the harvest fields of the Northwest, and would like to hear the news of Old Taneytown, while I am up here. Harvest up here is good in some places, but in other places wheat has been hauled out and damaged by ice on August 20th. Will be here until the latter part of November."

A SURPRISE PARTY. A very pleasant surprise birthday party was given last Thursday evening, August 22nd, 1907, at the home of Mr. and Mrs. W. H. Weast, in honor of Mrs. Weast's birthday. The affair was indeed a complete surprise to her. After forty-nine persons had arrived with boxes of good things and took possession of the kitchen and dining room and prepared a sumptuous repast, of ice cream, cake, candy, peanuts and fruit, to which all did ample justice, the time for saying good-bye came too quickly, and all departed wishing Mrs. Weast many happy returns.

Notes From the Garden. The little, shrinking violet. Will find more sense, we hope, and have themselves from shrinkage. Use good good soil now.

UNDER THE ARCH

On the banks of the Grand canal of Venice and directly facing the palace of the doge a great group of men and women were gathered and threatening vengeance on somebody in their midst.

On the stone flagging of the canal bank and surrounded by the crowd lay a cursing man, his clothes dripping with water.

Near him and held tightly by two men is a small goblinitke piece of humanity, with a torn dress. His age exceeds twenty. His height, six more than three and one-half feet, his dark hair falling over his broad shoulders and his small, black, twinkling eyes give this small fellow the appearance of a supernatural goblin of the old school.

"Oh, if I was only strong enough! If I could only get this water out of my eyes and eyes, wouldn't I have vengeance?" shouts the man on the stones in a raging voice.

"Don't tell you all 'twas but an accident?" cries out the dwarf, who has no friends in the crowd.

"Throw him into the canal. He shall drown, as he well might caused Matteo to do."

"Hold, you wretches!" "Senora Valdols," murmurs the populace in surprise.

"Yes," answered the lady, who is quite young and handsome. "What do you wish for, dwarf?"

"A little devil, senora," said one of the gondoliers, "who in a foul and malicious manner did cast into you canal this poor and innocent fellow."

"'Twas false!" stoutly denied the dwarf. "That base coward"—meaning the man—"for three days has done naught but drink, and this morning did knock most heavily 'gainst me as I stood on the bank of this canal. Without looking, I pushed him aside, and the first I knew was his cry for help as he tumbled into the water."

"What is your name?" the lady asked. "Braganta, senora," the dwarf replied.

"You must release this fellow," the lady said. "But, senora, he is the pest of the canal. We must cast him into the canal."

Senora Valdols, making a sudden movement, catches the dwarf and has him at her side.

"Now, at your life's peril, touch him!" cried the brave woman to the revengeful populace.

She turns quickly, pushes the dwarf before her, and both quiver and descend the water stairs and enter the senora's gondola, which rapidly disappears under one of the arches of the doge's palace.

Night on the Grand canal of Venice. Senora Valdols, sitting in her gondola, accompanied by Lucretia, her maid, enjoys the beauty of the night.

The great bell of St. Marie, pealing out midnight, makes the senora's maid ask:

"Did we not better turn to home, senora? 'Tis midnight."

"That is early for a night might like this. Why, you're not afraid?" And the lady laughs.

Passing of the Manuscript.

The typewriter is greatly harming the business of manuscript collecting, for in the future there will be no more manuscript, everything being typewritten.

The authors whose manuscript will ultimately be worth collecting, all with hardly an exception, use the typewriter.

Some collectors propose to regard typewritten copy as manuscript and to collect it accordingly. But they are in the minority. Their opponents point out that the typewritten matter may not even have been typed, but may have been written by the secretary or wife, so that it has really no greater value than so much printing. — New York Press.

Why They Killed Captain Cook. At the recent celebration of the one hundred and thirty-seventh anniversary of the landing of Captain Cook at Botany bay, near Sydney, a remarkable link with the past was presented in the person of a man of a rather unimpressive appearance.

A Sample of Chinese Cake. Says the North China Daily News of Shanghai: "At the instance of a Chinese gentleman a shopkeeper was charged at the mixed court yesterday with selling a cake unfit for human consumption. The cake was produced in court and contained quite an entomological collection, including several cockroaches, two or three centipedes and a beetle. A servant of the complainant gave evidence of buying the cake. Accused apologized for his mistake. He had prepared the cake for medicinal for himself. His assistant had sold it to the servant by mistake. He was fined \$2 and cautioned."

Smiling. When the weather suits you not, Try smiling. When your coffee isn't hot, When you're nervous don't do right, Or your relatives all fight, Sure it's your smile that's the best. Don't it change the things, of course, But it cannot make them worse. And it seems to help your case, Brightens up a gloomy place; Then it's your smile that's the best. —Sunshine Bulletin.

A SURPRISE PARTY. A very enjoyable surprise party was given at the residence of Mr. and Mrs. John Ault, on next Thursday evening, August 22nd, in honor of Mr. Ault's birthday. The affair was indeed a complete surprise to him. After forty-nine persons had arrived with boxes of good things and took possession of the kitchen and dining room and prepared a sumptuous repast, of ice cream, cake, candy, peanuts and fruit, to which all did ample justice, the time for saying good-bye came too quickly, and all departed wishing Mr. Ault many happy returns.

Notes From the Garden. The little, shrinking violet. Will find more sense, we hope, and have themselves from shrinkage. Use good good soil now.

THE MANAGEMENT OF MARYLAND COLLEGIATE INSTITUTE, UNION BRIDGE, MD., INVITES THE READERS OF THE RECORD TO THEIR OPENING EXERCISES, ON TUESDAY, SEPTEMBER 3, 1907, AT 10 A. M.

Private Sale of Valuable Farms and Lots. The undersigned, Real Estate Agent, has for sale the following Farms, Lots, etc.:

No. 1.—145 Acres Farm, for sale, with one mile of Harney, along the banks of Monocacy; churches, schools and stores in Harney. The improvements are a good 2-story stone house, with 9 rooms; bank barn, (46x78 ft.); good large wagon shed, with two corn cribs attached, and sheds on side; two hog houses, grape vine, and all other necessary outbuildings, with three wells of good water—two at the house and one at the barn. The fences are fairly good, and the land is in a good state of cultivation, and produces well. This farm is well adapted to stock raising, at least 50 acres of it with water on the ground. About 8 acres are timber land. This farm will be sold as a whole, or with about 48 acres less of the cleared land off, at the low price of \$40.00 per acre. This makes a very cheap farm.

No. 1.—Farm of 212 Acres of very productive land within 2 miles of Taneytown, west. About 15 acres of good timber, with 2000 ft. of good water on the ground, large brick house, bank barn, wagon shed, hog house, and all other buildings. Running fountain of spring water, right out of the rock, and good well of water at the barn, with wind pump; fencing good. The cheapest farm in this county, price \$40 per acre. Quick sale on this, so give purchaser chance to put out fall crop.

No. 2.—Farm of 100 acres of very productive land, with 2000 ft. of good water on the ground, large brick house, bank barn, wagon shed, hog house, and all other buildings. This land is very productive; about 30 acres of good timber, the fencing all good. Two wells of water, one at the house, the other at the barn. Price of this farm \$40 per acre; buildings cost more than is asked for the entire tract.

No. 3.—Farm, 964 acres of land, situated on the public road leading from Bridgeport to Emmitsburg. The land has recently been limed and produces good crops. Buildings are fairly good—large house; the Barn is good, but not a bank barn; 5 acres of Timber, and 2 good wells of water, one at the house and the other at the barn. Price of this tract, \$35.00.

No. 4.—74 acres of good productive land. This farm is situated on the public road, 2 1/2 miles north of Taneytown. The land is in a very good state of cultivation and has been recently limed; good fencing, good building, good spring of water near the house. About 4 acres of good timber. Price of this tract, \$33.00.

No. 5.—We also offer for sale a number of building lots, situated on the Littlestown road; or would sell the entire tract of what is left of the Reindollar farm, about 54 acres—2 of the finest stone quarries in this locality. Lots sold from \$75 to \$200 each. Sewer pipes laid for each lot. Will sell cheap.

No. 6.—128 acres of the best land in Taneytown district, situated on the Westminster road; suitable for building or pasture lots.

No. 7.—Small property, 8 acres of excellent land, 8-room house, good stable and all other outbuildings. Plenty of water, and never-failing well of water at the door. This property is located on the cross-roads, near Washington school house, on the Littlestown road, formerly occupied by F. G. Hiltebrick.

No. 8.—73 acres of good, well improved land; about 10 acres of good timber—about 5000 ft. of good timber posts. New house, new barn, hog house, wagon shed, chicken house, lot shed; a never-failing well of good soft water, with wind pump. Everything in first-class order. All the buildings were built within the last 4 years. This farm will be sold very cheap. Inquire at once.

T. H. ECKENRODE, Agent. 7-4-07.

Notice to Tax-payers! The undersigned, collector of taxes for the year 1907, District No. 1, gives notice that he will be in his office every Saturday afternoon, commencing August 17th. I will be in the office every day from the 1st of August, except Thursday 29th, which day I will be in Harney at M. R. Snider's store, from 8 a. m. until 4 p. m., for the convenience of the tax-payers of Harney and vicinity.

STOCK CATTLE. I expect to have two loads of Stock Cattle, on Thursday, September 5, 1907. If you are in the market, telephone me Tuesday evening, and learn what I have. The high price of this fall, makes our signment uncertain. For that reason I ask you to phone me, as I might be disappointed and not get them.

EDW. E. REINDOLLAR, TANEYTOWN, MD.

RATIFICATION NOTICE. In the Orphans' Court of Carroll County, August Term, 1907. Estate of Hezekiah Fox, deceased. On application, it is ordered, this 20th day of August, 1907, that the sale of Real Estate of Hezekiah Fox, late of Carroll County, deceased, made by Granville S. Fox and Henry Hays, Executors of the last Will and Testament of said deceased, and this sale reported to the Court by the said Executors, be ratified and confirmed, unless cause be shown to the contrary on or before the 31st day of August, 1907. A copy of this order is inserted in three successive weeks in some newspaper printed and published in Carroll County, between the 4th, Monday, 11th, and 18th of September, next. The report states the amount of sale to be \$6,121.21.

KOONS BROS., Taneytown, Md

TO BUY RIGHT MEANS TO SELL RIGHT

To select the Up-to-date and Catchy Stuff, means quick and ready sales. This is the great secret in satisfying our customers. The selections and efforts we have made for our Fall arrivals have been made with the greatest possible care and study.

SHOES. The arrival of Shoes is the greatest in the history of our business. Our Calkin Shoes are winners every time.

OUR READY-MADE CLOTHING is superior to anything we ever attempted to buy for the retail trade. Medium and Stout to suit all, comprise the selection of this purchase. From working clothes to wedding clothes, we can accommodate you in every sense of the word.

Notice Our Toilet and Perfumery Line, the greatest in the history of our store, with premiums and art pictures with every purchase. Ask for a certificate.

Reduction on all lines to make room for the new goods. Come one and all and join the throng that are going to—

MEHRING & BASEHOAR.

ONCE FITTED ALWAYS. FITTED IS THE INVARIABLE RULE WITH DOLLY MADISON SHOES. THEY AFFORD YOU THE EASE AND COMFORT YOU'VE LONGED FOR BUT NEVER FOUND. ONE PAIR WILL PROVE MORE THAN A VOLUME OF ARGUMENTS. SOLD BY REPRESENTATIVE DEALERS. \$3.00 \$3.50 \$4.00.

Sold by—C. EDGAR YOUNT & CO.,—Taneytown.

TANEYTOWN MUTUAL FIRE INSURANCE COMPANY OF CARROLL COUNTY.

Why send your money away for Insurance? See The Taneytown Mutual Fire Insurance Company before Insuring.

Can't they prove their plan is cheaper, more satisfactory and convenient, than outside Insurance? Show your pride in home and home enterprise. If you are of the people be with the people. If you want to grow you must unite; in unity is strength.

We are a Company of the people, for the people—not a corporation for self and the middle man. We cut out the middle man and give protection at home, at first cost. Statistics demonstrate the value of our plan.

Non-Clogging Spring-tooth Harrow

This Harrow is the greatest thing in the Spring-tooth Harrow Line ever put out. All the faults of the old Spring-tooth Harrow completely done away with. No trouble, no care, no extra work—a pleasure to use. There is no clogging by trash. Easy draft, easy to handle—so simple a child could handle it.

Main Feature: A device on the side bar, which, by a simple pull of the chain relieves the Harrow of all trash, without stopping the team or without any labor. Just the thing for grassy corn ground. Must do the work, will do the work, and does the work, or money refunded. Positively relieves itself of all trash in its own length.

Sold 20 of these Harrows last season, all of which are giving the best of satisfaction.
