Slaughter houses have been declared Slaughter houses have been declared a nuisance, in Lonaconing, and the city council will rid the place of them. The action will be taken on the initiative of the birth of Abraham Lincoln who gave his life for the preservation of the Union and Dr. Bullock, health officer. 18+ 18+ +8+

The school directors of York City are considering the establishment of savings banks for the school pupils. The project has met with success in Pittsburg and other of the larger cities.

A Kansas poultry raiser repudiates the theory that the rooster is an early riser. True, he begins crowing at an early hour, but the poultry man affirms that after the bird has awakened everything in the neighborhood he goes back and takes another speaks.

True, he begins crowing at an early hour, but the poultry man affirms that after the bird has awakened everything in the neighborhood he goes back and takes another snooze.

The Canadian Government crop report estimates the yield of wheat in Canada this year at 124,690,000 bushels, an average of 21 bushels an acre; that of oats at 269,944,000 bushels, an average bushels an average of the plan provided for in said bill, as a suitable Memorial to Lincoln, upon the one hundredth anniversary of his birth. an average of 21 bushels an acre; that of oats at 269,944,000 bushels, an average of 34 bushels an acre, and that of barley at 49,488,000 bushels, an average of 27 bushels an acre.

Howard Smith, aged 17 years, a hired man on the farm of Lawyer Brothers, agar Littlestown, while laboring under a "brainstorm," superinduced by alcoholism, slashed himself with a razor on Saturday night with suicidal intent. The wounds are not serious and the The wounds are not serious and the young man will recover.

The final revision of the standing of the 61st. Congress gives the Republicans 219 and the Democrats 172, a Republican majority of 47. The result is a net loss of the Democrats and a net loss of the Democratic and the Democratic our for the Republican side, and a net ross of four for the Republican side, and a net gain of six for the Democrats, the discrepancy being due to present vacancies. All told, the Democrats gained 17 districts and the Republicans 12.

-0- -0- -0-It is now stated, pretty authoritatively, hat while Speaker Cannon is almost are of re-election, he will be a "new" annon, in harmony with the adminisration, and will be influenced by the signs of the times to forego many of his dious dictatorial actions of the past.

The opposition to him, it is said, will

to be strong enough to defeat him in

ng out of employment of about 1000 men with a pay roll of \$1500. a day. The Company asserts that it cannot pay the

dislation it proposes at a meeting to held in Baltimore, at the Lyric on unday afternoon, January 31. Mr. Seaforn Wright, of Georgia, who made the address at the first Lyric meeting last ear, will be the speaker. An effort will be made to have Mr. Wright speak at rederick, Hagerstown, Cumberland, Annapolis and Salisbury during the week ng the Lyric meeting. The meetng at the Lyric will be for men only.

According to the press the Presbyterians are moving toward a more adequate compensation for their clergy. A lnimum salary of \$1,000 and a resiace has been decreed by the General sembly, the national governing body the Presbyterians, and in pursuance order a special committee of the cinnati Presbytery has been appointsbytery in which the salary of the Dastor is below that figure and see what arrangements can be made to raise the to at least the minimum figure. instances several charges will be bined into one circuit, with a single pastor in charge.

Bryan May Run Again.

San Antonio, Nov. 18.—W. J. Bryan, on his way to Mexico, plainly was gratified by the cheers of the crowd that greened the cheers of the crowd that eted him at the railroad station. When Aterviewed he said:

If the party so demands and condias arise to warrant it I will be a candate for the Presidency four years

Asked if he would accept an election the United Senate Senate from Ne-taska two years hence, Mr. Bryan re-If the Legislature of Nebraska ald elect me I would accept. I conor next to that of the Presidency. Bryan dictated this statement as

Political future: friends do not require me to prege the future and I shall not take the e of my opponents on this subject, all continue to write and speak in hase of the things which I believe to

good for the American people. hope that it may never become 88ary to run for an office again, but not attempt to decide that quesuntil the time comes to act. I do ee any necessity to say more on the

am not at all discouraged as to the of the Democratic party. There is be a Democratic party in every ry, and I want our party to be cratic and I have no doubt that the try will see the necessity for the on of the reforms advocated by Democratic party. It is already a teducational force and I have no the that conditions will so vindicate party as to make the voters turn to as the best instrument for the accom-

NEWS NOTES HERE AND THERE Taneytown Grange Approves the Lincoln Memorial Road.

Condensed Items of Interest from County, State and Our Exchanges.

At the regular meeting of Taneytown Grange No. 184, held in its hall on Saturday last, the following was unanimously adopted after stirring speeches by Messrs Goulden, Garner, Smith, Eckert, Ohler and others Ohler and others.
WHEREAS, It is proposed to fittingly

Union, and
WHEREAS, Congress has created a
Commission to consider and recommend
a suitable Memorial to his Memory, and
WHEREAS, Congressman Lafean, of
the Twentieth Pennsylvania District
(Adams—York Counties) has introduced
a bill in the House of Representatives in
Washington to build and maintain a great
National Highway from the Capitol of
the Nation to Gettysburg, Pa., in honor
of Abraham Lincoln, therefore be it
Resolved, by Grange No. 184, Patrons

Fox---Kane.

Mr. Cleveland G. Fox, son of Mr. and Mrs. Wm. H. Fox, of near Harney, and Miss Cora Elizabeth Kane, eldest daughter of Mr. and Mrs. John D. Kane, of Tapoutowy. of Taneytown, were united in marriage, on Wednesday evening, at the Catholic rectory, in Taneytown, by Rev. B. J. Lennon. The event was largely a surprise to the friends of both, as very few there of it until receiping the printed are knew of it until receiving the printed announcements, on Thursday.

Early Christmas Shopping.

There are so many advantages in early Christmas shopping, that it is a wonder why so many put it off until the last week. In the rush and excitement of the end of the season, when stocks are broken and it is too late to send special orders to the city, a great many people meet both discomfort and disappointment; therefore, it is much the best pointment; therefore, it is much the best to wait for Christmas advertisements, and as soon as the merchants say they are ready, take your memorandum along to the stores and get to work.

Commission May Buy Turnpikes.

A strike at the South Baltimore Car Good Roads Commission, and Mr. F. Good Roads Commission, and Mr. F. C. Hutton, of Montgomery county, also a member of the Commission, were in Frederick last week to see about the proposed read improvement of about 1000 posed road improvements in that county under the State Road Law. The memcompany asserts that it cannot pay the increased wages demanded by the strikers in one department of the shops, and will close indefinitely unless the strikers return.

The Anti-saloou League of Maryland inaugurate its campaign for the election of a Legislature favorable to the egislation it proposes at a meeting to the held in Raltimore, at the Lyric on the commission," said Mr. Tucker.

The Anti-saloou League of Maryland will inaugurate its campaign for the election of a Legislature favorable to the election of a Legislature favorable to the election it proposes at a meeting to the held in Raltimore, at the Lyric on the Commission," said Mr. Tucker.

The Commission took a trip over the pike to Libertytown in Mr. Holmes D. Baker's automobile. Others who accompanied members of the Commission besides Mr. Holmes D. Baker were: Dr. C. H. Conley, Col. E. Austin Baughman, Mr. Cephas M. Thomas, of Libertytown; B. I. Jameson and Edwin Devilbiss, of Walkersville; D. K. Cramer and E. D. Shriner.

"The commission," said Mr. Tucker.

"The commission," said Mr. Tucker.

"The commission," said Mr. Tacker, "is, in general, opposed to buying turnpikes, but it would not be disposed to build roads paralled to turnpikes if the latter can be bought at a reasonable price. We are ready to receive any offers the turnpike companies may be disposed to make. If exorbitant prices are asked for the turnpikes, we will have to take other routes, which may be in some instance parallel the turnpikes. We have already received offers from some of the companies owning turnpikes in Frederick county, and expect to hear from others. We will only buy or build roads, however, that will be a part of a general system extending through the various counties. We will not build any roads that would serve as feeders for turn-

Mr. Tucker remarked that it should visit the various churches in that be borne in mind that after the State has made a road it will maintain it.

MARRIED.

ROBERTSON-COVER .- On Nov. 10th., 1908, at the Lutheran Parsonage, Taneytown, by Rev. Wm. E. Wheeler, Mr. Jesse Price Roberston and Miss Jennie Luellen Cover, both of York Road.

DIED.

Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

HARNER.—On Nov. 18, 1908, near Taneytown, Mr. David W. Harner, aged 80 years, 4 months and 23 days.

REAVER.—On Nov. 11, 1908, near Harney, Ross Motter, son of Mr. and Mrs. Frank P. Reaver, aged 8 years, 9 months, 9 days.

He's gone, but was so young and fair, He slumbers sweet, but knows no care, His heart was true, his life was young, Yet, not our will, but God's be done.

God took him from this world of pain, To dwell with him above: For the heavenly father thought it best, To take him home with him to rest. By his Parents.

He loved us, oh, so dearly, And we loved him with all our heart, And there never can be a day as sad, As the day we had to part. By his Brothers and Sisters.

Lonely the home and sad the hours, Since dear Rossie is gone; But Oh, a brighter home than ours, In Heaven is now his own. By his aunt, C. V. R.

Church Notices.

The Holy Communion will be held at St. Paul's Reformed church, Sunday at 10.30 a. m.: S. S. at 9.30 a. m. Services at Baust's at 2.30 p. m.: Y. P. S. at 7.30 p. m. MARTIN SCHWEITZER, Pastor.

Preaching in the Church of God, in Uniontown, on Sunday, at 10.15 a.m., and at 7 p. m. the protracted meeting will commence. Preaching at Frizellburg at 2 p. m.
L. F. Murray, Pastor.

THE LINCOLN MEMORIAL ROAD.

Congressman Goulden Thinks the Project a Worthy one, and is in Favor of it.

Congressman Goulden was interviewed by the RECORD, this week, regarding the proposed memorial to President Lincoln.

"Yes" he replied "I am familiar with Congressman Lafean's bill and believe it to be a proper and fitting manner to celebrate the one hundreth anniversary of the Nation's martyred president. Certainly no one deserves to have his memory honored more than Abraham Lincoln. It was my good fortune to hear his famous speech, on the 19th. of October 1863, on the world's most famous

october 1863, on the world's most famous battle field, Gettysburg.

I shall never forget the effect of that address upon the assembled multitude and on the country at large. I witnessed the great orator, Edward Everett, who had delivered a grand oration, warmly shake the president's hand and congratulate him. Every school hay and gratulate him. Every school boy and girl are familiar with Lincoln's short simple speech on that occasion, while but few have read the splendid effort of

Lincoln was a truly great man and to-day stands next to Washington in the hearts of the American people. Famed Gettysburg stands out in bold relief as the place where the decisive battle for life of the Nation was fought, and is by far the most interesting battlefield in the world's history. It is a sacred spot to all Americans and venerated equally North and South.

North and South.

People from the four quarters of the globe visit it. As an object lesson of patriotism it has no equal. The state of Pennsylvania and the National Government did well to preserve it for future generations to learn what their fathers did that the nation might live.

The excellent article in your last week's issue by the talented correspondent, Mr. J. E. Fleagle, should be read by every member of congress.

member of congress.

The various civic bodies and the press of the country should agitate and endorse the proposition to lay out and build a great public highway from Washington, the Nation's Capitol to Gettysburg, the country's famous battlefield.

The Laiean bill points the way, and if the people demand it, the Lincoln Me-morial Highway will be built, to honor his memory."

Frederick is in the field to direct the proposed boulevard through that city, and the President of the Business Men's Association has appointed a committee

to plan an active Campaign to that end. Congressman Pearre has declared his intention to introduce in Congress at the coming session a bill providing for the building of the boulevard through Fred-erick, and the Business Men's Association's committee will prepare argument to be submitted in support of this bill, and will also seek to enlist the support

Dorsey, near Bennett, was the scene of a very pretty wedding, on Wednesday after noon, Nov. 18, the contracting parties being their daughter, Mabel, and Mr. William Hiteshew, of Baltimore. Precisely at two-thirty, the couple unattended, entered the parlor to the strains of Mendelssohns bridal march, played by Miss Addie Barnes, of Winfield. Rev. G. J. Hill, of Uniontown, officiated, using the impressive ceremony of the Methodist Protestant church.

The bride was becomingly attired in white point de esprit over taffeta and carried a boquet of brides roses and fern. The groom wore the usual black. After the ceremony a collation of sweet meats was served. The bride was the recipient of quite a number of valuable and useful presents, including considerable cash.

In addition to Mr. and Mrs. Dorsey and the children at home, the following witnessed the marriage: Mrs. L. H. Hiteshew, Mr. and Mrs. J. J. Brandenburg, Mr. and Mrs. Michael Glennan, Mr. and Mr. and Mrs. Michael Glennan, Mr. and W. A. Dorsey, Mr. and Mrs. Byard Dorsey, Mrs. Margaret Dorsey, Mrs. Rachel Penn, Mrs. Jas. Shipley, Mr. and Mrs. Frank Dorsey, Mr. and Mrs. Clyde Dorsey, Mr. and Mrs. Howard Gearheart, Mr. and Mrs. Wm. Gearheart, Mr. and Mrs. F. I. Brandonburg, Mr. Mr. and Mrs. F. J. Brandenburg, Mr. and Mrs. A. U. Zile; Misses Hilda Hiteshew, Ella V. Smith, Sarah Dorsey, Hollus Frizzell, Mary Bennett, Florence Brandenburg, Ella Frizzell, Grace Pickett, Debbie Zile, Lottie Seipp, Effie Koontz, Lucinda Glennan; Messrs. Henry Cook, John Brandenburg, John Dorsey, John Barnes, Byron Gartrell, Willie Hughes, Erman Shoemaker and R. J. Brandenburg. The couple will reside in Baltimore.

Harig On Trial For Murder.

The trial of Wm. F. Harig, of Baltimore, charged with the murder of James M. Mahon, commenced in the Carroll County Court, on Monday, and it will likely be a long one as there are about 100 witnesses.

The following jurors were chosen: Messrs. George F. Dorsey, Jr., Jeremiah G. Mathias, David Beggs, William R. Blount, Oliver E. Doterer, David C. Nusbaum, Calvin A. Bankerd, John Bowman, Thomas Zepp, Benjamin Dorsey, Levi Maus, Jr., George W. Hy-

The following talesmen were challenged: By the State—Daniel W. Garner, Cornelius Koontz, Charles W. Fritz

and Henry Boyer.

By the Defense—Israel Utz, Daniel B.
Hoff, Ira R. Davis, Jacob H. Kridler,
Geo. W. Arnold, Charles Stewart, Geo.
W. Babylon and Edward L. Richard. Judge Thomas presides, with Judges

Brashears and Forsythe as associates.

The Court House was crowded all week, especially on Thursday when the accused was put on the stand to tell his own story. It is thought that the case may end on Saturday, arguments and all, and be given to the jury.

... Street Lights for Emmitsburg.

Emmitsburg has introduced large gasoline hanging lights for street lighting, and is well pleased with the improvement over the old system. We are still fully convinced that Taneytown should instal an acetylene plant, for both street and house use. We would prefer either electric light, or coal gas, but as these seem out of reach, on account of cost, acetylene is third best bytem. acetylene is third best; but, we are not likely to get even that. Our people refuse to be either interested, or convinced, and appear to prefer the good old darkness of the days of their grandfathers. The Emmitsburg *Chronicle* says of their

new lights;
"The new lights were tried on Monday night on Main Street and considering the fact that it was the first night they were fact that it was the first night they were used and that they have not been as yet adjusted to a nicety they were fully up to the expectations of the people. The night was smoky and their brilliancy could not be gauged. It is altogether likely that the commissioners will purchase two or more lights to fill several gaps that are a little too wide. On the gaps that are a little too wide. On the whole as an experiment with an excuse for inexperience every thing seems satisfactory. The few complaints that have been heard come as a rule from those who for one reason or another have not contributed toward the improvement and due allowance must be made for

Rev. H. J. McAllister in Accident.

Rev. H. J. McAllister, Reformed minister, of Newburg, Pa., formerly of Union Bridge charge, and his wife, met with a serious driving accident, last Sunday night. The Carlisle Sentinel says:

They were returning home from the evening service at Zion church. A short distance beyond town they were run into from the rear by a team driven by two young men, the horse of which was going at headlong speed. The Reverend and his wife were thrown out and painfully hurt. Their buggy was nearly demolished and the harness torn in several places, and had they not been quickly extricated from under the wreek, would likely have been trampled to death. Fortunately no bones were broken, but they sustained painful bruises and cuts and torn clothing.

Now It Is Cobless Corn.

Bloomington, Ill., Nov. 18.-And now it is the cobless corn. A year ago, H.J. Sconce and Taylor Garlough, of Vermillion county, Ill., purchased a quantity of seed corn in Indiana. In the shipment was a fresh ear, which, instead of the ordinary cob, had a core of husk, the grains being neatly wrapped on the soft foundation like peas in a pod. Mr. Sconce was impressed with the novelty of the find and decided to plant all the

kernels he found on the freak ear. To his surprise the ears produced this fall were found to be exact reproduc-tions of the single ear. He has decided to plant more of the corn next year, and will endeavor to improve it. He believes there is more to it than freakish-

The ears produced this year yielded as much corn as those provided with cobs, while the kernels were large and solid. The ears were well filled, kernels even growing among the silk. The freak ears were placed on exhibition at a county fair at Sidell last week and attracted much attention among farmers, who are greatly interested in the experiment.

Inland Waterways Convention.

At the final session of the first annual convention of the Atlantic Deeper Waterways Association at the Hotel Belvedere, on Wednesday, the body recommended by resolution that the We have the best combination federal government dig the proposed offer we have ever been able to system of inland waterways from Massmake as an inducement to persons achusetts to Key West, Fla., and that the money to be expended in this vast ROLL RECORD. Unfortunately, we of bonds. Another important recomenterprise be met by a government issue are not permitted to advertise it in mendation was that Congress should our columns, but can only say this: make the Chesapeake and Delaware he. "In every case where the voter made he." Canal the property of the federal govscribers between now and February ernment and that its reconstruction should be begun in accordance with the recommendations of the Chesapeake and Delaware Canal Commission, appointed by President Roosevelt, and of which . Felix Agnus was the chairman.

This latter recommendation is particuand best known papers in this coun- larly gratifying to the trade interests of Maryland and Delaware. The linking of the Chesapeake and Delaware Bays by a deeper and wider canal would give a wonderful impetus to traffic coming to Baltimore and would carry to a success ful consummation the labor of years on the part of some of the most distinguished sons of Maryland who have been knocking at the doors of Congress for federal

PENNA. CATTLE QUARANTINED.

The U.S. Government Prohibits Shipments of Cattle from Penna, and N. Y.

Washington, November 19.—Secretary Wilson, of the Department of Agriculture, today issued orders placing in quarantine the entire States of New York and Pennsylvania, and forbidding the interstate movement of cattle, sheep, swine and goats as a rough of the swine and goats as a result of the sud-den outbreak of a contagious foot and mouth disease.

Seventy-five of the most skilled vet-erinarians in the service of the depart-ment have been rushed into the two states for immediate and thorough in vestigation of the origin and extent of the disease. Dr. A. D. Melvin, chief of the bureau of animal industry, stated tonight that the department's probe has not thus for revealed the stipped to the state of the sta not thus far revealed the origin of the disease.

The only point in New York affected, so far as the officials know, is the stock-yards at East Buffalo, which were or-dered closed pending general cleaning up and the quarantine against the state was deemed imperative for the protec-tion of adjacent states

The disease first appeared in the United States in the winter of 1902 and 1903, when it affected portions of Massachusetts, Vermont, New Hampshire and Rhode Island, but by prompt action on the part of the department and the state authorities the infection was stamped

James D. George, administrator of Eugenia B. George, deceased, returned report of sale and settled his first and final account.

Law Applied Two Ways.

There must be something radically wrong with a law that permits the counting of ballots one way in the counties and another way in the city. The statement was made recently by a cratic party leader that in Carroll County the ballot was not invalidated when a mistake had been made in voting for any one candidate.

"We do not understand the law," said a mistake in voting for President and marked properly for the candidate for Congress, we counted the vote for the latter and let that for President pass. There is no reason why any other candidates should suffer because the voter had blundered in marking for another.'

This is a common-sense view of the law, but it is not accepted here, where is strictly construed. Hundreds of ballots went into the waste basket because of mistakes made in voting for the loans, quite a number marking for and against them, notwithstanding the votes for President and Congress had been properly recorded.—American.

Timely Poultry Notes.

A barrel full of dry dust is a good thing to store away for use in the poultry house this winter. Keep a box a few feet square

this winter. Keep a box a few feet square filled with it in a sunny corner of the house. The hens will enjoy their winter dust bath very much indeed.

Take the cabbages which are too small to use on the table, the small potatoes, beets, turnips, etc., gather them all in and store for the poultry this winter. They will make an excellent change in diet for the fowls.

There is an old, old saying to the effect that "All things come to him who waits."
Yes, roup and kindred diseases will surely come to him who waits until midwinter to stop up the cracks in his poultry house. If any window lights got broken house. If any window lights got broken out during the summer, replace them at once. Patch up the flaws in the roof, look out for knot holes in the walls of the building and see that there are no cracks or holes anywhere in the house through which the cold wind and other elements such as snow and rain can blow causing drafts and dangings which blow, causing drafts and dampness which

will result in colds, bronchitis and per-haps an epidemic of roup.

Give the poultry house and yard a thorough cleaning up and renovating now before disagreeable weather sets in permanently. If the poultry floor is earth, tion of adjacent states.

The outbreak of the disease in Pennsylvania seems of a grave nature. Its first appearance was about a week ago in the counties of Columbia, Montour, the columbia of Col the house; this makes it light and cheerful and destroys vermin and bacteria. Treat the roosts and nests for lice, then vermin will not be so bothersome this winter. Remove all the old nesting material, burn it and replace it with fresh. Rake up the yards and cart away all refuse matter and rubbish of whatso-ever kind that may have collected during the summer months.

Cold weather means that all the food should be warmed before feeding, as well as the drinking water. If mashes are fed, they should be mixed up with hot water. Grains should be placed in pans and warmed in the oven before feeding time. Corn becomes as cold as ice in winter time, and should never be fed thus. A good idea is to place a panful on the stove and allow it to char, and give the hens a warm feed of this about once a week. It is good for them, as well as furnishing variety in the

Good housing is essential in winter time, although this does not necessar-ily imply anything costly. Sometimes the homely looking house is as com-fortable to the hens as the more expensive one. The main idea in any house is comfort to the hens. Looks are sec-ondary. Buildings can often be made more warm by lining the walls with old newspapers, as paper is an excellent nonconductor of heat and cold. Of course tarred paper or roofing felt would be better, but it is also more expensive.

... Report of Springfield Asylum,

The State Lunacy Board has received the annual report of the Springfield State Hospital, submitted by Dr. J. Clement Clark, superintendent of the institution. It shows an unusually successful year for this institution. More patients were admitted during the year, more were cured and fewer died than in any year cured and fewer died than in any year for a long time. The report strongly urges the carrying out by the State of the policy of State care of the insane and in detail explains the progress made at Springfield in each department.

The report says:

Hospital September, 30, 1908. 491 The admissions, the largest for any year, have been mostly of the chronic and incurable type of insanity; 23 were of alcoholic origin,17 had general paresis, 28 were of the delusional type (paranoia), 17 had epilepsy, 23 were imbeciles and 30 had dementia præcox, leaving very few curable cases.

Of the ascertainable causes of insanity

of those admitted, heredity leads, with

alcohol second and epilepsy third. As the parents of epileptics are often alcoholic, probably alcohol may be considered first as a factor in causing insanity of those admitted. The discharges as recovered (53) are larger than that of last year, and the re-covery rate (24.61) is the second largest

since the opening of the hospital. The death rate (6.45 per cent.) of the total number treated, or 64 in all, is the smallest for several years. one death from typhoid fever and but one from tuberculosis. Our mortality from tuberculosis is probably lower than any institution of this kind in the country.

Dr. Clark reviews the operations of the farm and says the expenses per capita have been reduced.

A New Way to Raise Church Money.

A Massachusetts pastor, before taking up a special collection, announced that any one who put 50 cents or more into the contribution basket was entitled, and expected, to whistle. As the collectors were on their way, whistling came from all parts of the church, and was not far from universal. This is a reversal of the rule, which is, for the pastor to whistle when he sees how little the basket contains. "Whistling" collections ought to become the rage, if they always work as did this one in Massachusetts.

For the accommodation of shippers, we furnish blank shipping tags at 10% per 100, or 5% for 40. All railroad shipments must now be plainly markedeach separate item-consequently, tags are in demand. Buy a lot and keep them on hand.

Mr. John Matthews, of near Emmits-burg, has succeeded in growing a new variety of field corn, which for lack of a better name has been called "rainbow. The ear is of good size, fairly well-grained with kernels of widely different color.

Entered at Taneytown Postoffice as Second Class Matter.

SATURDAY, NOVEMBER 21st., 1908.

THE PROHIBITION electors in Maryland received an average of 3100 votes, the Socialists an average of 2200, and the Independent party 440. The last named served only to complicate the ballot, and received an insignificant vote in other states as well. Neither the Prohibitionists, nor Socialists, made any appreciable gain in the country as a whole.

WHETHER THE Duke of Abruzzi and Miss Elkins will be married, or not, is a matter which is taking up entirely too supervisors for these abortions. much newspaper space. They are simply two human beings, among some hundreds of millions on the face of the earth, the one with a title the other with a big fortune both of whom must ultimately go the way of all humanity, whether they marry or not. Let them alone. The public is a great deal more interested in the love affairs of those the intricacies of the ballot sufficiently who earn name and distinction, or who to make two X marks. build happy American homes.

THE GETTYSBURG-Washington Lin- electors coln memorial road is being called "Lefean's Dream," by some who know of the chances of its being constructed; nevertheless, sections off to the side of the direct route, are "taking notice" and making bids for the road. Our own opinion is that the "dream" conclusion partisan advantage. is pretty well founded; but, should it be a sure enough "go," of course the only single candidate, invalidates the whole proper route is from Gettysburg to ballot Taneytown, to Westminster, thence to Washington. The Frederick and Littles- poor eyesight and nervousness. town routes, are simply preposterous, and not worth considering.

...... The Political Influence of Newspapers.

We hear a great deal about" the power of the press," much of which is fantastic rather than real. That the press is a great power, and a director of public opinion, in a general sense, is undeniably true, but this power is not held in every line, and especially not in politics. It may be nearest the actual truth to say that the press is a great director and educator in directions in which the people are looking for direction and education. but not in directions in which opinions land are in favor of a simple form of and conscientious convictions are firmly grounded.

A man who is a Democrat, or Republican, and thinks he knows why, is not vote, should have that right, unhampered and unchallenged. If there is any apt to change his politics, even temporarily, simply because his favorite party disqualification it should be during the newspaper changes. A very few, will process of registration and not afterapparently do it, but the few are apt to people of this state to solve. represent, or be influenced by, great private interests, or some strong moral quality, which are not of much weight with the masses. Men who are wise inherited, or long-standing, political election returns would show "a million see what the old lady has put there for partisanship, are our very best and truest | Presidential ticket is estimated at from | luncheon; to lick into your work again jority sentiment.

studied. Too many voters know so little about the questions which underly partyism, and which are so constantly changing, that they are not always represent ative, through their votes, of what constitutes the best American citizenship. There are many who are voting today on their knowledge of Democracy, or Republicanism of a quarter of a century ago, and neswpapers cannot, and do not, influence such voters-they simply "stick to party"-right or wrong.

We are of this opinion; that, as a rule, representative party newspapers, of the first class, can be safely followed, in politics, even to the extent of denying support to party nominees. Such papers are not apt to sell their opinions, and when they advocate revolution it is likely to be because they have gone down deep into the subject-much deeper than the average reader can go-and that their conclusions are for the country's, if not party's, greatest good. Those who refuse to follow, but cry "turn-coat" and "traitor," are likely to be very wrong in so doing, and, in effect, place party before country. Newspapers cannot, and do not, influence such voters.

Maryland's Greatest Shame.

Maryland is notorious before the whole country for the infamy of its ballot laws. The Garrett Journal, one of our Democratic county exchanges truly says:

"This thing grows more and more disgusting with each repetition. It is a shame and disgrace to the state, and one likely to cause serious trouble if the Maryland vote should ever become important in a National election, or the majority in Congress be affected by it. It is the fashion to blame the election really they are not the people to blame.

* * * * The cost of conducting our elections is another crying shame, and the next legislature should repeal all objectionable features of the present law.

Here is a most disgusting situation for such a fine old state as Maryland: Thirty thousand or more ballots rejected because voters could not master

One party carrying the state by 600,

but the minority party getting 6 of the 8 Two distinct election laws for different

sections of the state. The arrangement of the ballot left to

partisan boards of county Election Supervisors. Residence qualifications based on

A ballot improperly marked for a

A ballot which takes advantage of

A ballot which a trained illiterate can mark, but which disfrachises intelligent but physically unfortunate voters.

Why lengthen the story of our shame ' As the Baltimore Sun says, "the situation is intolerable, and the people are getting tired of it." The Garrett Journal further says: "The trouble is in the law, and the blame should be placed on the party responsible for the law, and, more especially, on the party that refuses to correct the law." These opinions are generally held by the rank and file of both parties.

The Frederick Citizen (Dem.) says: "Many prominent Democrats in Maryballot. The latter is what we will really have to come to eventually. It is only right that any voter whose name appears on the registration lists as entitled to wards. That is another problem for the

Tariff Revision.

The Republican majority in Congress is pledged to revise the tarifi. The people have expressed their preference for another term of National republicanism, and expect tariff revision to be one of the important events of the administration. Not merely "revision" is expected, but a revision in the interests of the majority of the people-a revision downward, rather than upward. Perhaps on a comparatively few items the duties should be increased, but on most of them they should be lowered. The revision must not be in favor of manufacturers, alone; not for one class against is now practically completed. To conanother; not favoring one section and not

How to Cure a Cold.

Be as careful as you can you will occa-sionally take cold, and when you do, get a medicine of known reliability, one that has an established reputation and that is certain to effect a quick cure. Such a medicine is Chamberlain's Cough Remedy. It has gained a world wide reputation by its remarkable cures of this most common ailment, and can always be depended upon. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. During the many years in which it has been in general use we have yet to learn of a single case of cold or attack of the grip having resulted in pneumonia when this remedy was used, which shows conclusively that it is a certain preventive of that danger-Chamberlain's Cough ons disease. Remedy contains no opium or other narcotic and may be given as confidently to a baby as to an adult. For sale by R. S. McKinney, Druggist, Taneytown,

Farm and Garden

GOOD SEED CORN.

Selecting It a Matter of Care and Intelligence.

In order to secure the largest possible yields of corn, including grain and fodder, the grower must carefully and intelligently select, cure, test and grade his seed corn. It is true that many farmers obtain their seed corn from the crib in the spring and secure what appear to be good stands and reason-

A STUDY OF KERNELS.

The upper three kernels are well proportioned and occupy completely the space between the circumference of the ear and the circumference of the cob. The upper right hand two kernels are poorl shaped and leave a lot of unoccupied space. The lower right hand two kernels show how the white rice popcorn kernels occupy the space. The lower two kernels are of the shoe peg type. The left two kernels show the relative shape and canadian poultry experts. and position of flint kernels as com-pared with the upper three dent ker-

ably good crops. This does not mean, dowever, that the stand might not wave been made better and the crop larger had these same farmers given treatment of their seed corn.

ed at the Michigan Agricultural colege for vitality those selected from the shock invariably produced an exceedingly low number of germinations. More than 50 per cent of the ears produced no germination whatever, and of those that did show vitality it was fare that 100 per cent of the kernels serminated. The conditions under which corn passed the winter were exceedingly bad, but even with the best onditions there are influences, such as reezing, molding and the like, which of necessity tend to reduce the vitality of the corn.

The ear should be selected while it still remains on the standing stalk. The stalk should be of good size, with onsiderable foliage. The position of the ear should be considered. If too ow it is apt to mature late. It is the Dinion of the college experimenters that increased yields are secured by good layers when should be cylindrical, not tapering. Exare best.

Where they will dry in the shortest reasonable time, and various methods been employed for this purpose. There is no better method from the them in lots by strings and hanging in above near the stovepipe. This, howlot altogether satisfactory to the workers in the kitchen. A furnace

PRACTICAL RACK FOR DRYING.

In

ooln is a good place, provided it is well rentilated and an occasional fire lilt. Frequently the corn is left in es, and, while this is usually a sucmethod, there is more or less Ser from molding. Corn so stored be watched carefully until it lown to be thoroughly dry.

The cheap rack shown herewith is at the college for storing and dryseed corn. It is twelve feet long en feet in height, with a capacity hirty bushels of ears. The posts inches apart, each pair carrying used in nailing on the strips.

BREEDING THE DRAFT HORSE.

A fine big pair of draft mares, well harnessed and hitched to a clean comfortable rig, is the best advertisement a farmer can have. Every one knows when he sees such a pair that the owner has something back of him in storage - described his lard experi- a monetary way. One of the matters in our agriculture most freely critithan all others. His theory is that to cised by the foreigners is the lack of excellence in our farm horses.

There is room here for some discussion as to the best farm horse. My and the inside of the egg, for it is this preference is for a great big prompt continual exchange that causes putre- stepping expresser weighing 1,500 pounds, says a writer in the Breeder's feetly fresh eggs and covered them Gazette, Chicago. That kind is hard with lard so as effectually to stop up to get and hard to breed. After that all the pores. The shells were thus commend us to drafters with life and rendered impermeable, and the ex- action. As a commercial proposition change of air was prevented, the ob- there is little doubt that the drafters struction of the pores not permitting are the more valuable for the farmer, for bred within the proper lines they The whites and yellows of the eggs | are sure to return a profit. With the retained their colors perfectly, and the big expresser it is a much more untaste was not modified in the slightest | certain business. There is no knowing degree. When properly caked with what to breed such mares to to make lard, not too thickly, the eggs are put them reproduce their kind. However, in baskets or boxes on a bed of tow or if they are mated to good horses they fine odorless shavings and so arranged | will surely bring something that will that there will be no point of contact sell to advantage. Therefore figuring between them; otherwise a mold will it up one side and down the other, develop and putrefaction result. The though a pair of flash looking 1,500 packing room should be perfectly dry, pound mares may look a little more the question of temperature not being spry and dashing in the farm wagon important. By this process Dr. Cam- coming into town and will of course panini kept a quantity of eggs for a make their journey at greater speed

A PRIZE DRAFT GELDING.

the equally good pair of drafters is the better advertisement for the owner's farm-in fact, the very best he can possibly have.

It is true that much of the recently made farm machinery has been evolved in response to the high price and scarcity of farm labor which has prevailed for the past few years. It is also true that this season farm labor of a sort has been much more plentiful, but that does not make the necessity for powerful horses and heavy machinery any the less. It is an established fact that one man with the most modern farm implements and four good heavy horses will do more and better work than two men with five or six light horses working with old fashioned tools. The precision with which the heavy horses and heavy machinery do the work of tillage is just what is required, whereas the lighter tools and horses can not in the very nature of things perform such a good job.

Such an important matter has the Malks bearing two ears. The ideal ear the duck is in good demand at all times. use of heavy horses in the proper till-Pekin ducks are great layers, but are age of the soil become that it will in-Derience teaches that rough top kernels of no account as mothers; consequently, if they cease laying and remain on them if he has not been trying to big Percheron geldings. He had seen grade Percherons were all bought in Iowa.

There are two features about these to lay in February, it is not advisa- transactions which deserve comment. In the first place, any one driving ness is more fatal to young ducks than along the road and viewing these anything else, and early in the spring splendid big teams at work will at it requires considerably more work to once be impressed with the fact that look after them than later on, after the their owners know their business. A weather becomes more settled. For the glance at their premises emphasizes reason that they make better mothers this belief. These men live not far and bear the necessary confinement from Elgin, Ill., where the soil is not better than ducks it is best to hatch of the stiff black gumbo variety, but the first brood under hens. Fear keeps rather of a light reddish loam which them confined until the ducks are well responds splendidly to fertilization and fledged. There need be but little, if good tillage—the better the tillage the better the response. The benefits to be well started to feathering they are derived from the use of heavy machinquite hardy and can be turned out to ery and heavy horses may readily be

The other feature in connection with few fowls that can be raised with less the purchase of these eight drafters is that it resulted in an inflow of around \$2,200 into one small neighborhood in Iowa. The men who bred the horses had no commissions to pay, no bother; just sold them and led them to town sections where the ground does not better business in which a farmer can name in any country.

But, while it will pay to buy heavy the farmer can in a measure both eat ings to swell his bank account. There with good heavy drafters.

THE HART TEST.

Invention to Determine the Percentage of Casein In Milk.

Dairymen in many sections are interested in the new Hart test for casein in milk. Dr. E. B. Hart, the originator of the casein test, like Dr. Babcock, inventor of the Babcock test, is connected with the University of Wisconsin. Like Dr. Babcock also, he received some of his training in New York, having been connected with the Geneva

The test for the percentage of casein which he has invented is operated on

a plan very similar to the Babcock. In ters will be at the National hotel, a cordingly the bottles used in testing which will be of very considerable in are of quite different type.

This test is by no means so simple as the Babcock. Country Gentleman class on this occasion, and for the in says it is better adapted to use in the formation of those who may not have aboratory than in the dairy and that taken the sixth degree it may be stated t is doubtful if it will prove of much direct usefulness to the dairy farmer.

To some the test appears important in the possibility which it offers of the development of dairy herds for the specific purpose of producing milk rich in casein for the manufacture of

Useful Instrument For Dzirymen. A small silver, nickel plated or hard rubber tube is sometimes used to draw the milk from a sore teat and is a iseful instrument to have on the dairy farm. It is simply inserted into the milk channel, when most of the milk will run out without any squeezing or sucking. But it should be used with great care, so as not to injure the teat.

THE HORSEMAN.

ig acquaintance with the saddle and bridle at six months of age.

Curing a Puller.

It is claimed by one who has tried it that a driving horse that pulls on the bit can be cured by fastening a small ring on each side of the bridle and as near the brow band as possible. Pass the lines through bit rings and snap them into the rings at the brow band. This, with a common jointed bit, will enabled a child to hold a "puller," or hard mouthed horse, with ease under almost all circumstances. It can be used on a fast horse in double team or on both, as desired. It is cheap and easily applied, and it won't make the mouth sore.

Indications of Disease.

An irregular pulse in a horse is a strong symptom of grave disease. In a healthy horse the pulse beats thirtytwo to thirty-eight per minute, but forty-eight per minute may not denote disease in some horses. To take Oct. 1, 1908, as follows: the pulse place the finger of the right hand across the artery below the jaws. holding the watch in the left hand, and count the beats. A rise of temperature | Delaware above 100 degrees denotes that something is wrong. To take the temperature use a thermometer. By practice a high temperature can be easily detected by inserting the hand in the mouth of the animal. Cold legs and cold ears and cold sweat are bad symptoms. Difficult and quick breathing indicate lung trouble, and snoring is caused by disease of the brain. A rough coat is a bad symptom, denoting indigestion. Fever in a horse is indicated by dullness, a quick pulse, high temperature, extended and inflamed nostrils and usually great desire for water.

Feeding Wheat to Horses. Owing to the very high price of corn and oats many farmers have since harvest been feeding wheat to their horses. Wheat is about the poorest of all the grains as horse feed, not on account of its lack of nutritive qualities, but by reason of the fact that it forms a pasty mass in the equine stomwith great care in limited amounts is no subject which deserves more se- and with an adequate supply of some rious consideration by the farmer than | much lighter material it is apt to innever be fed whole to horses. It is always better to sell the wheat and buy some other grain, when that can The young pigs should be provided be done, even if a small loss is entailed with pienty of exercise. In the ab- in the process. But when such an exchange cannot be effected the wheat herdsman should turn the pigs out of should be rolled, coarsely ground or doors two or three times a day and soaked and fed with a plentiful supply of cut or chaffed hay.

The Grange In Vermont. Under the efficient leadership of State Master G. W. Pierce the grange in Vermont is growing rapidly. Not only is the total membership increasing, but the subordinate granges are also growing in numbers.

Massachusetts .. 2 Total

If you are carrying grange fire insurance, see that your dues are paid up. That's a condition of your policy.

The grange discourages litigation. It acquaints the farmer with the fellow on the other side of the line fence.

New Hampshire state grange will meet at Portsmouth on Dec. 15-17.

Grangers' farms should be the model farms of the town. Are they?

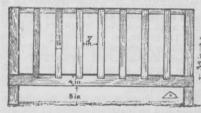

FEEDING SHEEP.

Hay and Grain Rack That Can Be Easily Made.

The rack shown in the illustration is one that is easily made and any length desired and to suit the space where it is to be used. They can when the sheep or lambs are fed alike in quantity and kind of ration be used to divide the pens. A rack for this purpos should be light and strong, so that it can be easily handled.

The plank and slats should be of some light wood, the posts of some hard wood that will hold a nail well. writes an Ohio breeder in the National Stockman and Farmer. Twenty inches wide is sufficient. Then a sheep or a lamb can push an ear of corn across the rack and hold it on the opposite side while it shells off the corn. The box part of the rack is four inches deep above the floor, the floor twenty inches wide, three ten-inch planks making the box excepting the ends. For posts shingle lath were used as well as for the top of the rack. If the slats are made to order at the mill

The posts are cut thirty-four inches long. The bottom of the rack is eight

HAY AND GRAIN RACK.

inches from the ground, the top of the box part twelve inches. The slats are nailed on, seven inches between them. The slats should not project above the top rail for the reason that in emptying a basket of corn into the rack it is much easier done if the top rail is

Thirty-four inches is plenty high to stoop over when cleaning out the rack. For slats barrel staves are used by many. Headless barrels are bought at the stores, knocked to pieces and the staves put in some convenient place with a box of nails and hammer ready so when a slat is broken it can be put on with the least possible trouble. The box part of the racks should be made of matched lumber, so bran as well as shelled corn can be fed without waste.

A rack twelve feet long built as de scribed will accommodate thirty-four feeding lambs weighing fifty-five pounds each

Breeding to Produce Right Ideals.

A successful sheep breeder gives the following advice: Do not breed to a dry fleeced ram. The sire is the proper improver, but in order to be such he must be a good individual and descend from the best lineage. Study sire, dam and blood lines. Follow the show ring, but show only good, weil fitted sheep. Have a right ideal and breed to produce it. Honesty is of as much importance in sheep breeding as it is anywhere else.

THE FEEDER

When feeding ground oats to young down the Potomac, the latter being pigs it is better to sieve the oats and

Feeding the Calf.

In ealf growing there is nothing more operative against success than overfeeding. The dairy calf's digestive organization is not the strongest part of its anatomy, and it must be treated with care and good judgment. A wholesome hunger in the young calf is a good thing and indicates that he is making use of his feed and may safely have the ration reasonably increased. But it is well to remember always that the calf does not grow and develop by the feed acutually eaten, but by the part that it digests and assimilates.

Oats Are Necessary.

Oats will be too high this season for indiscriminate feeding. There is no question, however, that oats are the best grain feed available on the American farm. Consequently, in spite of its high price, it must not be discarded entirely. Feed in connec tion with cracked barley where barley is grown, cracked corn in the corn belt and silage and root crops wherever they are available. Oats have a pe culiar value of their own hard to de scribe, but perfectly apparent when used intelligently.

Apples For Pigs.

Apples fed along with dry corn in the fall of the year impart a thrift to hogs that is difficult to get in any other way, says a breeder. Not only that, but apparently larger gains are made when apples are fed than when much heavier ration of corn is used without the apples. Apples have a cooling effect on the system of a hog and when new corn is first started the feeding of apples will tend to keep the system from being overheated.

Feeding Grain on Pasture.

One of the most common questions asked is whether it is best to feed dairy cows grain while they are on pasture. The whole subject may be summed up by saying that it will always pay to feed a heavy milking cow grain while on pasture, but it does not pay to feed the inferior or even the ordinary milker as long as the pas tures are abundant. When the pasture is scarce it will pay to feed grain even to ordinary cows. It is not necessary to feed the expensive purchased feed while cows are on pasture unless it be to those that are producing a very large amount of milk and for this reason are being fed a heavy grain ration.-C. H. Eckles, Professor Dairy Husbandry, University of Missouri.

SATURDAY, NOVEMBER 21, 1908. SPECIAL CORRESPONDENCE.

The Admirable Crichton.

The bearer of this honorable name was James Crichton, who was born in Scotland in 1560. He was the wonder of his age in scholarship and in all the accomplishments that could distinguish a gentleman. At the age of seventeen in Paris he challenged all the most famous scholars of the time to a public discussion, in which he held himself ready to answer any question in theology, jurisprudence, medicine, logic, mathematics or in any other science in any one of twelve languages and in either prose or verse. In this boast he succeeded, and it was then that the title of admirable was given to him. The Duke of Mantua in 1582 employed him as tutor for his son, a dissipated young man. One year later Crichton was one night during the carnival assailed by three masked men. He succeeded in disarming and unmasking the leader, in whom he discovered his pupil, the duke's son. He at once knelt down and offered the prince his own sword. and the young reprobate ran it through Crichton's heart. - Chicago

Conundrums.

Where can one always find happiness? In the dictionary.

A man and a goose fell from a balloon and landed on a church tower. How did the man get down? He picked the goose.

Why does a sculptor die a most horrible death? Because he makes faces

Why is life the greatest conundrum? Because we must all give it up.

The Weather Vane Says-Ah, who else sees so much as the wind and I?

We see the sun get up and the clouds sail the stars a-lighted in the evening

And when all the birds are sleeping then the moon comes by.

I turn to east and see the sun just getting

out of bed,
Or west and see him drowsily a-getting
in instead,

in instead.

Or north, and winter's storms and snows they blow all white and chill.

But to the south and springtime is coming o'er the hill.

ing o'er the hill.
On Sunday all the people come slowly sauntering
To the church beneath my steeple and enter in and sing.
But I need not wait to hear them a week nor half so long.
For every day I hear the wind that sings

a sweeter song. Sometimes the children fly their kites.

They come quite close to me.
All red and blue and white and pink;

they're very fine to see.

But sometimes if they float too near bank they are pulled again,

And all the little children shout: "Look out! The weather vane!"

Plays and Players.

Booth Tarkington is to write a play for Otis Skinner.

Frank Worthing is to star in a play called "Our Pleasant Sins." May Irwin is to appear in a one act play, "Mrs. Peckham's Carouse."

Edgar Smith, the author of "The Merry-Go-Round," is at work on a musical comedy for Eddie Foy.

Flora Zabelle (Mrs. Raymond Hitchcock) is not acting this season, but is devoting her time to the cultivation of

Ethel Barrymore says she likes her new play, "Lady Frederick," better than any other part she has had since she became a star.

New York City.

New York city consumes 718,000 pounds of butter each day.

For one item of diet New York city feeds its population with 50,000 tons of potatoes a month.

New York city has added an average every year since 1861. The average value of land on Man-

hattan Island, according to the assessment, is \$272,173 an acre. In New York city considerably more than one-half of all the people, or about 2,800,000 persons, have deposits in the savings banks .- New York Her-

AIS MISTAKE.

It Was Costly, but Cured Him of an Irritating Habit. Bunsen was always a great kidder.

He isn't any more. Bunsen is a lawyer, although, of course, he is known by a different name. Don't ever get the idea, though, that this didn't really happen just because Bunsen's real nomination isn't mentioned.

As we were saying, Bunsen used to be pretty much of a kidder. He would even kid his own patient little wife. Those who care to read on down a little farther will learn why he ceased to be a kidder.

One evening last week when Bunsen got home his wife had a new hat to show him. It was some hat. Anybody could have seen that it was the final phrase in female headgear.

But Bunsen started in to make fun of it. He said it looked as if it had been trimmed by a cross eyed milliner on an empty stomach. And he made a lot of other disparaging remarks that were extremely harassing to poor Mrs.

"D'je buy it sight unseen?" he inquired. "Say, how much do they pay the girl that sold you that? She ought to have a raise. Any girl who could put that one over a customer must be something of a smooth saleslady, I'm here to remark."

Mrs. Bunsen was almost in tears. Bunsen had to go into the other room to have a quiet laugh at her expense. Oh, he was the great kidder, all right. The next day, though, he had forgotten all about the hat.

The day after that he was reminded of his little jokefest. Mrs. Bunsen handed him a slip of paper when he came home to get his victuals that evening. It was a bill for retrimming that hat; \$18.34 it came to.

Bunsen paid it without a murmur and said the revised edition of the hat was just exactly right. He isn't making fun of hats any more.-Cleveland Plain Dealer.

NOTED ANAGRAMS.

Ingenious Transmutation of Names of Well Known Persons.

Anagrams that transmute the names of well known men and women are often startlingly appropriate. What could be better in this way than these announcements, evolved from two great statesmen's names when the reins of power changed hands: Gladstone, "G leads not!" Disraeli, "I lead, sir!" Quite as happy is the comment on the devoted nursing of Florence Nightingale, whose name yields "Flit on, cheering angel." Among those that are most often quoted we may mention Horatio Nelson, "Honor est a Nilo;" Charles James Stuart, "Claims Arthur's seat;" Pilate's question, "Quid est veritas?" ("What is truth?"). answered by "Est vir qui adest" ("It is the man here present"); Swedish nightingale, "Sing high, sweet Linda;" David Livingstone, "D. V., go and visit Nile;" the Marquiss of Ripon (who resigned the grand mastership of Freemasons when he became a Romanist), "R. I. P., quoth Freemasons;" Charles, prince of Wales, "All France calls, Oh, help!" Sir Roger Charles Doughty er Orton, biggest rascal here," and many shorter specimens, such as telegraph, "great help;" astronomers, "no more stars" and "moon starers;" one hug, "enough;" editors, "so tired;" tournament, "to run at men;" penitentiary, "nay, I repent;" old England, "golden land;" revolution, "to love ruin;" fashionable, "one-half bias;" lawyers, "sly ware:" midshipman, "mind his map;" poorhouse, "Oh, sour hope;" Presbyterian, "best in prayer;" sweetheart, "there we sat;" matrimony, "into my arm."-Chambers' Jour-

Air and Water "Cures."

It is a remarkable fact that, as with various natural so called "mineral waters" so with various "airs" which people find beneficial, no one has yet clearly and decisively shown, in the first place, whether they exert any chemical effect of a special kind on the people who seem to benefit by drinking the one or breathing the other. Still less has any one shown what is the particular chemical ingredient of the air or of the water of any given resort which exerts the beneficial effect attributed to that air or that water.-Sir E. Ray Lankester in London Telegraph.

A Habit He Won't Contract. A man who signs himself "A Son of Rest" sends us the following:

"Several people have asked me why I never work. I take this means of replying to all.

"The habit of working is like a habit of taking dope. If a man is a dope fiend and stops it he dies. Now, if a man gets the habit of working and then stops it he starves to death. Same I shall never contract such a habit."-Cleveland Leader.

Moral of the Garden. Nothing teaches patience like a gar-

den. You may go round and watch the opening bud from day to day, but It takes its own time, and you cannot urge it on faster than it will. If forced it is only torn to pieces. All the best results of a garden, like those of life, are slowly but regularly progressive.-Exchange.

Experience. "Experience would be a wonderful asset but for one thing." "What's that?"

"You never can sell it for what it cost you."-Cleveland Leader.

One day is worth two tomorrows. Have you something to do tomorrow? Do it today .- B. Franklin.

Moscow Has an Organ For Thieves and Vagabonds. Moscow has a curious newspaper

called the Bosatska Gazeta, which interpreted means the Barefooted Man's Gazette. It is a little weekly journal, onsisting of one double sheet of printed matter. It is ostensibly run by thieves and vagabonds for the benefit of thieves and vagabonds. The bulk of its contents consists of contributions from burglars and other folk who prey upon society, in which they describe their successful exploits. Its tone is humorous and racy. The text is enlivened with comic sketches, some of which are well done. Unless the police suppress it it bids fair to have a prosperous career.

It is not lacking in advertisements. most of them of a decidedly unique character. In one issue, for instance, a young man announces that, "being full of energy and temperament and having a loving heart, he seeks a life Partner in the shape of a young lady With small means." The adventurer goes on to say that, "having practiced housebreaking from his tender youth, he is now at twenty-five as expert a burglar as any in Moscow and can therefore assure his wife comfort and even luxury.'

The office is situated in the Nikitin-8ka, a shabby enough street, opposite a small theater. It is in a private flat. The editor is always out, and contributors are invited to leave their offerings ^{0h} the table, where lie an empty vodka bottle, a tea stained piece of blotting paper and a few cigarette ends.

In a word, the management of the Daper is wrapped in mystery. Nobody knows where it is printed, least of all the police, who have been on its track since the first number appeared. It comes out once a week and costs 5 kopecks (about 5 cents). - Chicago

An Unkissed Baby.

There is in England a nine-monthsold boy who has never been kissed. His parents have set up the following rules in a conspicuous place near the entrance to their home:

"Don't kiss the baby. 'Don't handle baby unless your

hands are very, very clean. "Don't bring baby's face close to

your own or to your hair, "Don't allow baby to touch your face or hair.

"Don't talk, breathe, whistle, blow, cough or sneeze into baby's face. We want him to live.

"Don't use your handkerchief on baby's hands, face or mouth."

At the foot of the rules is written: "To some these rules will appear comical or stupid. But they are not written as a joke or without thought. Therefore any person infringing these rules after having read them will inenr our displeasure extremely."-London Mail.

Men's Buttons \$100 Apiece

Here's a set of vest buttons at \$100 ing more luxurious in his dress. Soon, he keeps on, his bills will beat wo-

The buttons, four in number, were tor the white waistcoat of evening dress-a large pearl encircled with diahonds. With them went two pearl studs and a pair of pearl and diamond Sleeve links. The set cost altogether \$850. "Oh, yes," said the tailor, "I sell lots of these sets of buttons! They are the correct thing, you know. The thief if he ripped the buttons off the White vest of the average rich young lubman would probably get a haul Worth two or three hundred dollars." New York Press.

One Result of Prohibition. Governor Burke in a smoking com-

partment of a sleeper was telling how used to water the cows on his father's farm in Iowa.

Those cows were fearfully thirsty times," said the governor. "At times have carried ten pails apiece for every one of the twenty cows we

One of the party remarked that he had watered cows time and again, but hever saw one drink more than four Dails at a time.

Perhaps you're right," admitted the Rovernor, "but you must remember in 1950 will not be over 130,000,000 that those were dry times in Iowa, and after that date will tend to bewhen we had prohibition laws."-Minheapolis Journal.

Not a Joke.

On getting to his chambers in court a Paris judge was handed this note: Monsieur the Judge—In the belief that a judge can form an accurate Opinion only of matters of which he has personal experience we think that it interest you to be exactly acquainted with the facts of a case similar to many which are tried by you every day. We accordingly have the honor to inform you that we have had pleasure in burgling your flat "This," said the learned judge, Obviously a joke." But he found that it was not when he got home.

Beech Lumber.

Beech Lumber. ale lumber has the lowest market alue of any American wood. Lumermen pay \$4 a thousand feet as gainst \$35 for oak. It is useful in mines for ties, posts, stringers and and in buildings for studding, rafters, joists, etc., and should be used home, reserving more valuable trees Important use and for sale .- Ar-

DRIFTED MONTHS AT SEA.

Caroline Islanders Show How the Pacific Isles Were Peopled.

A few natives of the Caroline islands have again answered the old conundrum how the widespread islands of the Pacific came by the people who were found on them. The Caroline islanders are born seamen, and no mariner who knows their skill and daring will be surprised to hear that in March last year six of them confidently put to sea to visit Japan, over 1,200 miles away.

They were out less than a week when the terrible typhoon that in four days brought complete destruction to some of the islands wrecked the little vessel. She still floated, but had no rudder, mast, sails or oars. The men aboard her were helplessly adrift.

For two months they saw nothing but the heavens and the sea till one night a light shone out. But the castaways feared unfriendly natives and did not try to reach the light, though that very day their last bit of food had been eaten

They caught fish and turned their provision boxes into firewood to cook them. They partly assuaged thirst by spreading their garments to catch the rain. So on they drifted, half dead, seemed quite plausible, and no one and no one knows exactly how long, for the time was not recorded, when they were pulled out of their boat on the shore of north Formosa. All but | phantly one were senseless. Two died in a few hours, and the others recovered. The distance between their starting and landing points is 1,700 miles.

Some years ago all the records of drifts or long sea journeys of Pacific islanders were collected, and this mass of evidence left practically no doubt that the myriad islands were populated by such voluntary or involuntary wanderings.-New York Sun.

Would He Like It?

In defense of dress reform Mrs. J. Gardiner Merritt, the sculptress, said at a recent luncheon in Washington:

I heard a young man, a rather lazy young man, tell a pretty girl the other day that he envied woman her idle-with us now, daddy?"—Denver Repubness; that he would like to have been lican. born a woman.

"The girl, tossing her head and snorting, answered:

"'You'd like to be a woman! Oh, yes! Just try it for a day. Fasten a blanket and a counterpane around your legs, buckle a strap around your waist so tight you can't draw a full breath or eat a hearty meal, have your hair all loose and fluffy, so that it keeps tickling your ears and getting into your eyes; wear high heeled shoes and gloves a size too small for you, cover your face with a veil full of spots that make you squint, fix a huge hat on with pins, so that every time the wind blows it pulls your hair out by the roots, and then, without any pockets and with a three inch square of lace to blow your nose with, go for a walk and enjoy yourself. You would like it!" "

Wind Gauge For Trains.

A singular device for the protection of railway trains crossing a viaduct exposed to heavy winds has recently been employed at Ulverston, England. says Professor R. DeC. Ward in Sciapiece," said the tailor. "Man is grow- ence. It consists of a wind gauge fixed pipe. at the west end of the Levens viaduct. When the wind pressure reaches thirty-two pounds to the square foot an electric contact is made automatically and bells ring in the signal cabins on each side of the viaduct. Upon this all trains are detained until the force of the wind abates. The interruption | uv a crusty man. is telegraphed along the line. In February, 1907, a wind velocity of sixtyfive miles an hour was recorded. The danger of very high winds to trains on an exposed bridge or viaduct was tragically illustrated many years ago by the lamentable Tay bridge disaster in Scotland.

Our Future Population.

Many estimates have been made of what the population of the United States will be in 1950. They vary all the way from 175,000,000 to 200,000,-000. The latest person to make an estimate, however, takes quite a differ-. ent view. In the Atlantic Monthly W. S. Rossiter, a census expert, shows that the rate of increase in population is steadily declining. From 1870 to 1880 the increase was 31 per cent, from 1880 to 1890, 20 per cent, and from that date to 1900, 21 per cent. In view of this steady decrease in the rate Mr. Rossiter estimates that the population

Rotted Money Restored.

Mrs. A. E. Brown, for twenty-five years an expert in the United States treasury, recently finished a task that called for exceeding patience and deft-A roll of bank notes which had been hidden in a tin can and buried in the earth for two years was given to Mrs. Brown to examine. The money had rotted and was little better than green tinted pulp. She was so successful in separating the decayed paper. piecing the bits and deciphering the letters and figures that practically the entire amount was redeemed and made good to the distressed owner.

A Swiss Navy.

The authorities at Brest, the French naval station on the Atlantic, were astounded the other day to see a magnificent steamer entering the harbor and flying the Swiss flag. Had Switzerland really bought a navy? The truth was revealed when the vesse! came to an anchor. The boat had been chartered by a Swiss impresario, the director of a circus.-Paris Gaulois.

HUMOR OF THE HOUR

It Didn't Come Off That Time.

Billy had been taught that it is a sin to lie, so of course he never meant to tell a lie. Whenever he did stretch the truth, which occasionally happened in spite of his good intentions, he did so merely through the exuberance of his lively imagination. One day just as Billy perpetrated one of his whoppers the recently mended heel of his shoe came off. His mother noticed that the accident and the lapse from truthfulness coincided.

"There," she said severely; "see what happened to you as a result of your wickedness. Hereafter whenever you tell a falsehood something terrible will happen to you."

"Will my boot heel always come off?" asked Billy. "Quite likely," she replied. "If it isn't that it will be something equally bad."

For several days after that Billy talked but little, and what few statements he did make were carefully weighed beforehand. One day upon his return from school he became less eautious and entertained the family with the account of an incident that had enlivened his trip home. The story would have thought of doubting his veracity had not Billy, after looking at the heel of his shoe, exclaimed trium-

"There; it didn't come off that time anyhow."-New York Herald.

Discreet Prophecy.

"Why do you invariably predict the coldest winter we have had in years?" "Well," answered Professor Blatherton, "if it comes true people necessarily give me credit for great wisdom. And if it doesn't come true they are too thankful to hold any grudge."-Washington Star.

A Cause of Joy.

Jamie was begging his father for a second helping of preserves. "When I "Isn't dress reform needed—at least | was a boy," said his papa, "my father for all of us except the very slender? only allowed me to have one helping." Jamie was silent for a minute and

HOME DEPARTMENT.

Original and Selected Articles of

We invite contributions to this department from all readers who have something to say on topics which relate especially to home im-provement, social conditions, or moral issues. While we disclaim all indorsement of senti-ments which may be expressed by contribu-tors, and desire to be as liberal as possible, we at the same time request all to avoid person-alities, and stick to proper expressions of opinion.

Interest to the Home.

opinion.
All articles for this department must be in our office not later than Tuesday morning, of each week, to be guaranteed insertion the same week, and all articles must be signed with the name of the author, even when a nom de plume is given.

Thanksgiving Day.

(For the Record)

"For Hudibras who thought he'd won
The field as certain as a gun,
And, having routed the whole troop,
With victory was cock-a-hoop;
Thinking he'd done enough to purchas
Thanksgiving day among the churches."

—Butter.

About this time each year there are many inquiries concerning "Thanks-

giving Day."
"Who makes the Thanksgiving Proclamations?" asks a boy who just now is cultivating an appetite for roast turkey and cranberry sauce. He has been told by a chum that Congress orders them, or that there is a law requiring the President to issue them.

But this chum is wrong. Congress has nothing to do with the matter; nor is there any law requiring the President to issue any proclamation at all.

Thanksgiving among us is as old as the nation, the first proclamation having been issued by President Washington in In those days, however, the news could not be telegraphed all over the country in an hour, so the call of the President for a day of thanksgiving was issued early in October, in order that messengers on horseback and in mailcoaches might carry it to the remotest corners of the land.

Washington's example in issuing a thanksgiving proclamation was not followed by his successors. The custom stopped with him and was not revived until Lincoln became President. Since Lincoln's day, however, every succeeding President has issued an annual proc-

In the making of this document there is a good deal of form and ceremony.

In the first place it is composed by the President himself, and is usually written out in his own hand. This is not true of all state papers, as you know. When it is thus written, it is next turned over to one of the executive clerks to be copied. This copy then goes to the State Department where there are two or three clerks who make a specialty of ornamental penmanship. One of these next artistically engrosses the proclamation on parchment. This parchment is then sent back to the White House to receive the President's signature. The next thing placed on the document is the great seal of the government. This seal is kept by the Clerk of Pardons and Commissions and is very carefully guarded under lock and key. Its custodian will not get it without a special warrant signed by the President, and the making of an impression of the seal is quite a ceremony in itself. The President, of course, when he sends his proclamation to the State Department to receive the seal, sends with it a copy of the following printed form, duly filled out and

signed:
"I hereby authorize and direct the Secretary of State to cause the seal of the United States to be affixed to: dated this day and signed by me, and

for doing so this shall be his warrant.' When the clerk receives this order he unlocks the rose wood case in which the seal is kept, takes out the seal, puts a scalloped circle of paper in the press, and with a light turn of the heavy steel ball above brings down upon the paper the seal which leaves its impress there. Then this stamped piece of paper is fastened to the proclamation, and it is ready to be given to the world. When the proclamation has been thus duly signed and sealed many copies of it are made by clerks. These are sent to the Governors of the various states, and each Governor as he receives his copy issues a proclamation to his own state. Copies are also given to the agents of the press, who telegraph the contents all over the country, and in this way the day is an-

But now, what about Thanksgiving Day before Washington issued his proclamation in 1789?

Although the records of the colonists do not give many dates, nor describe the particular manner of observing the occasion, days of special thanksgiving are referred to so frequently that there can be little doubt that there was at least one in each community each year.

It has always been a matter of tradition that the first American Thanksgiving Day was observed among the New England colonists in the year 1631. But quite recently there have been found in Massachusetts and Pennsylvania documents, (accepted as authoritative by the historical societies of those states,) which prove that two earlier celebrations of Thanksgiving took place in New England, the first on August 9, 1607; the second in the fall of 1621,

The first mentioned is the earliest Thanksgiving known to have been observed by Christian men on the American continent. This service was held by members of the Church of England, the Popham colonists, who landed on Monhegan Island, Maine, near the Ken-nebec river. There under the shadow of a high cross they listened, on the day named, to a sermon by their chaplain, the Rev. Dr. Seymour, and, as the record states also, united in "gyving thanks for our happy metings, and saffe aryvall into the country.

The second Thanksgiving celebrated on American soil occurred in the autumn of 1621, ten months after the landing of the Pilgrims at Plymouth. Governor Bradford ordered this Thanks-giving Day. Edward Winslow, one of the Pilgrims, in a letter to relatives in the mother country, tells the simple story in language so graphic that it will at once reach the heart of every Ameri-

This is what he writes: "Our harvest being gotten in, our Governor sent four men off fowling, so that we might after a special manner rejoice together, after we had gathered the fruit of our labors. The four in one day killed as much fowl as, with a little help beside, served the company almost

THE CARROLL RECORD a week, at which time, amongst other figure in the center of a heroic epoch." recreations, we exercised our arms, many of the Indians coming amongst us, and among the rest their greatest King Massasoyt, with some ninety men, whom for three days we entertained and feasted; and they (the Indians) went out and killed five deers, which they brought to the plantation and bestowed on our Governor, and upon the Captain (Myles Standish,) and others. And although it be not always so plentiful as it was this time with us, yet by the goodness of God we are so far from want that we often wish you partakers of our

> Besides this first Thanksgiving among the Pilgrims a second was celebrated in 1623, and a third in 1632. The Dutch in the New Netherlands observed such days in 1644 1645, 1655 and 1664; and the English held two in New York City, one in 1755, the other in 1760. There were also Thanksgiving Days at various times during the Revolution, the Continental Congress appointing them. And when the American Book of Common Prayer was prepared for the Episcopal Church provision was made for a yearly Thanksgiving Day on the first Thursday in November, unless the civil authority should appoint some other day.

> Thanksgiving Day was kept by State authority in New England, and by the Episcopalian Church throughout all sections of the country, during the years between Washington's and Lincoln's ad-ministrations until 1863 when President incoln, at the suggestion of Mrs. Sarah J. Hale, proclaimed a national day of Thanksgiving. Since then we have had such a day every year—the last Thursday in November. Canada has also adopted the custom, the third or fourth Thursday of November being celebrated, according as the appointment is made.

Home-coming is one of the characteristic features of Thanksgiving in New England. The home, no matter how humble, is brightened and made happy on that day by the return to the old rooftree of sons and daughters, or of some of their children. Those who are so unfortunate as to have, as the saying goes, 'neither chick nor child' to come home have the deepest sympathy of their neighbors, and are made welcome at their tables and firesides.

Children who have wandered far from the old place in quest of wealth, or of homes of their own, are no less anxious to return to the scenes of their youth than the home folks are to have them come. This feeling, which has been bred in them from generations past, begins to assert itself when fall comes around, so that those who have been living in peace and contentment during all the rest of the year become restless near Thanksgiving time, and, if possible, go

back home once more.

Nor does distance seem to quench this feeling to any great extent. Devoted sons and daughters of New England may be seen homeward-bound any day just Every Western state, and even the Pacific slope, is represented in streams of home-comers.

"We must get home! All is so quiet there:
The touch of loving hands on brow and hair—
Dim rooms wherein the sunshine is made
mild—
The lost love of the mother and the child
Restored in restful lullables of rain—
We must get home—we must get home again!"
—James Whitcomb Riley.

For some reason or other those of us who have been brought up outside of New England have, for the most part, never fully gotten into the way of serving Thanksgiving as the New Englanders do. We have the form, but not the spirit. With us it is a holiday in the lighter sense of the word. With them it is a day of real thanksgiving "for the peace and plenty vouchsafed to them by a kind Providence, for deliverance from national woes, and for the deliverance of hemselves and friends from sore ities." Among them may this feeling, bred in them by their Puritan ancestry, never grow less! Among us may it ever

The Invalid's Thanksgiving. Must I, can I, give thanks? For what? Is such great happiness my lot?

The luscious fruit that came for me, The flowers so beautiful and sweet, The letters with their precious treat Of news from those I long to see, The pleasant calls, the books so rare, The constant, thoughtful, loving care, For these I thank Thee, Lord.

Give thanks for pain! When shortened breath And anguish make me long for death?

Yet e'en in pain thy love I feel;
And when, its fury o'er' all spent
I lie, and wonder what it meant.
So near Thou dost Thyself reveal—
Thy tender, pitying, loving heart—
My weakness in thy strength enfold,
My helpleseness with might uphold,
Strange sweetness to my life impart.
Shut in from all the world by pain
Thy friendship infinite I gain,—
For this, I thank Thee, Lord.
—Mary Warren Ayers,
The Common Sense Philosopher

THE COMMON-SENSE PHILOSOPHER.

Abraham Lincoln.

For the RECORD.)
Every school boy remembers the name of Lincoln. His remarkable and unexpected election to the Presidency, his emancipating the slaves, his memorable speech at Gettysburg-all are splendid eulogies of this man's character. Fisher Ames, one of the greatest men of his time, has beautifully said that "Great men are the glory of their country." No better could this statement be ap-

plied than to Lincoln. Monuments have been erected in honor of our heroic dead who fought on the field of battle, buildings have been reared to perpetuate the deeds of philanthropists, highways have been built in commemoration of great men who died centuries ago, and now this Nation is considering the importance of erecting a boulevard from the White House at Washington to the battlefield at Gettysburg, in honor of our immortal Lincoln.

This would not only be a fitting memorial to his valor and heroism, but would impart a beautiful lesson for succeeding generations. Lincoln was a born leader of men. He understood his fellow-countrymen, the drift of events, and the needs of the time as no one else understood them. He steadily refused to proclaim emancipation until the occasion was ripe, and this happened Sept. 22, 1862, and he was the man who knew when that would be.

He had become to every man, woman and child as a near and dear personal friend. He was a most exalted character, one of the noblest representatives of most matchless man. He was the Father of his Country, as much as Washington had been. The one gave us a Republic; the other preserved it.

Emergon says: "Parking to his kind, an alter to save his money for their sakes.

All this is very hard and humiliating to a man of generous impulses, and all this waits in the future for almost every

Surely, as time goes on, his reputation We are still too near him to measure his greatness. He was such a man as Nature produces only at long intervals; he was of the grandest type of men, of whom there have been few in the world. Although a mere backwoodsman, without education, he learned to use his native language, and by the light of a few pine knots, would read many useful books; that was the means of moulding a character which any boy can safely follow. Even if America should decline and decay, he would make it be remembered. If ever mortal were, Abraham Lincoln is booked

for immortality. His fame is fixed in the center of ages. The future will revere him as an ideal of humanity. I can no more fitly close this sketch than by quoting the tribute to Mr. Lincoln, by the late Henry W. Grady, of Atlanta, Ga.: "From the union of these colonists,

from the straitening of their purposes and the crossing of their blood, came him who stands as the first typical American, the first who comprehended within himself all the strength and gentleness, all the majesty and grace this republic, Abraham Lincoln. He was the sum of puritan and cavalier; for in his ardent nature were fused the virtues of both, and in the depths of his great soul the faults of both were lost. He was greater than puritan, greater than cavalier, in that he was American; in that in his homely form were gathered all the vast and thrilling forces of this ideal government of ours-charging it with such tremendous meaning, and so elevating it above human suffering, that martyrdom, though infamously aimed, came as a fitting crown to a life consecrated from its cradle to human liberty. Truly, can it be said:

Murmuring the names of mighty men, They bid our streams roll on; And link high thoughts to every glen Where valiant deeds were done."

H. O. HARNER.

.... A Little Sermon on Saving.

Most young men are ambitious and sensible enough to want to have some money laid by for future emergencies, but a great many of them find the sav ing of small sums so tedious and discouraging that they either never begin to save, or having begun, do not keep it up for any length of time. They would like to be rich, but they want to get rich quick. Nobody wants to transform our oung men into money-grubbing misers whose thoughts never rise above scraping and saving. The miser is about the unlovliest specimen of human kind it is possible to imagine. But there is a golden mean between the miser and the spendthrift, and young people should try to attain it. Here is some excellent advice in this connection from the Sav ings Journal:

No matter how little it may be, make a start to save. Begin to live on less than you make; begin to put by the capital which will one day mean freedom and opportunity.

We do not advise the saving of money merely for the foolish gratification of spending it. That would not be worth while. We urge you to save now that you may be spared the humiliation of slavish dependence later on. We advise you to save, above all, that you may be able to seize an opportunity, should one present itself.

Many of the world's brightest men are wasted because they lack the little ready money that would let them carry out their ideas.

Great inventions have been lost to the world for lack of a very little money. Some of the world's greatest spirits have lived miserably and died in because they could never learn to keep the money that came to them.

When you do get a little money together, put it in the bank. Don't buy anybody's watered stock. Let no trust mining scheme or other large-hearted swindle lure you. If those things ever do pay, they shake out the little men

Get enough money to free you from worry, and don't let anybody get it away from you. Don't put it into any scheme. Let it simply enable you to change your employment, if you see a better chance. Let it make you secure against poverty in old age.

Don't give up your little certainty. If it comes very slowly, let it go even more slowly. Begin now to save. Be one of those that are free, that have something. You will never know what real independence is until you are independent of any man's pocket-book save your

We are exhorted by Christ to lay up our treasures in heaven, and if we fail to do this-the most important duty of all-all our saving, all our scheming and planning, all our possessions or earthly riches, are of no avail. But our nature is two fold. Our life on earth has two sides, and the laying up of treasures in heaven does not preclude the wise fore-thought and thrift which bids us lay up some of this world's treasure for a rainy day. To be occupied altogether with worldly interests and affairs, to have astrous to our higher nature and our

eternal welfare. But we owe a duty to ourselves and our neighbors in the matter of saving our money. It should be the desire of each and every one of us to be so situated that we may not, when misfortune comes, be a burden to anyone. And the only way for the most of us to accomplish this is to get into the habit of saving a little when we are young. This means self-denial, of course. It means the loss of a reputation for being a good fellow. But it means a help toward the building up of a reliable character. means being in a position, later on in

life, to help others. The spendthrift is no good to himself or anyone else when the hour of trouble He can neither help himself out of a hard place nor have the satisfaction of helping another who may happen to be in straitened circumstances. He must ook helplessly on when some one whom he loves very much, perhaps, is in sore need of assistance. He is compelled to need of assistance. see his children take inferior positions in the world because he has never had the ambition or the strength of charac-

a Republic; the other preserved it.

Emerson says: "By his courage, his justice, his even temper, his fertile counsel, his humanity, he stood a heroic to a man of generous impulses, and an this waits in the future for almost every spendthrift, and can be avoided by the young people of today only by acquiring the habit of saving their money.

The one gave us that of generous impulses, and an transcription or attest the system, purifies the blood and is especially helpful in all forms of female weakness. 50c. at R. S. McKinney's drug store.

About Nut Eating.

Dr. Woods Hutchinson is a very interesting physician to read and have around, but somewhat disconcerting in his statements. Not long ago he wrote an article in which he pointed out that poison to a greater or less extent, lurks in almost everything we eat-especially the festive Boston bean, and the cheese of every variety, mild or strong, rank or predigested.

Now comes the season of nuts, which of any kind give pleasure to the eater of every class and every condition of servitude. Just as we were beginning to buy and enjoy them up rises our discouraging old Doctor Hutchinson, who has grimly and alarmingly asserted as his belief that none but a Shawnee Indian in hickorynut time would attempt to make a meal

on nuts.
Chemical tests show that in the slightly bitter integument of the kernels, if not in the texture itself, of walnuts, hickory nuts, pecans, peanuts, and filberts, among other kinds, is a principle that tends to irritate the digestive linings. Eaten as a staple food nuts are likely to "Fruitarians" blanch their

nuts, removing the tannin-bearing skins.
In Farmers' Bulletin 332 of the Agricultural Department, Dr. M. E. Jaffa,
Professor of Nutrition in the University of California, declares there is little force in the argument of the "fruitarians" that, inasmuch as primitive man lived on nuts and fruits exclusively, his descendants should do likewise.

But Prof. Jaffa is persuaded, after much experimentation, that nuts are not indigestible as commonly reputed. Here is his well-balanced statement

Discomfort from them is certainly not uncommon, and when it occurs it seems fair to say this is largely due to insufficient mastication and to the fact that nuts are often eaten when not needed, as after a hearty meal or late at night; though it is undoubtedly true that nut protein as ordinarily eaten is not so easily or so completely digested as meat protein.

It is quite likely no one will enjoy his nuts the less for all this, but will take them more rationally. The New York Times in discussing the subject dismisses

it with the reflection

The old Virginia cooks serve wild turkey stuffed with pecan nuts, and chestnuts are a favorite stuffing for the Thanksgiving bird. Salted almonds and nuts crystalized in sugar or stirred and mixed in salads and soups may with advantage be added to the dietary. Green walnut, hickory nuts, and butternuts are good for pickling, while green English walnuts, hazelnuts, and almonds are delicately palatable. But nuts served at dessert, or after a hearty meal, especially in the form of pastes, preserves, and candies, are to be tabooed because of their 'richness,' which in scientific terminology means a concentration of carbohydrates, fats and proteins.'

A Remarkable Verse.

The following, is going the rounds of

the papers;
In the twenty-first verse of the seventh chapter of Ezra can be found every letter of the English alphabet. It runs thus: "And I, even I, Artaxerxes the King, do make a decree to all the treasurers which are beyond the river, that whatsoever Ezra the priest, the scribe of the law of the God of heaven, shall require of you

it be done speedily."

The letter "j" is missing. The letters "i" and "j" were at one time used interchangably, the latter being a variant of the former, but as we use the letter j" at present, the claim made that the verse contains all the letters of the alphabet is incorrect; still, the verse quoted is a remarkable one.

How to Treat a Sprain.

Sprains, swellings and lameness are promptly relieved by Chamberlain's Liniment. This liniment reduces inflammation and soreness so that a sprain may be cured in about one-third the fields and keeps them clear of the detime required by the usual treatment. 25 and 50 cent sizes for sale by R. S. McKinney, Druggist, Taneytown, Md.

America Needs the gift of National Temperance.

If I had the power to give this country the one thing that I think it most truly needs next to the religion of Jesus Christ, and which in my judgment would be most conducive to the industrial education and moral upbuilding of the nation, would unhesitatingly give it a strong national temperance law, and compel its enforcement by the proper officers, says R. B. Glenn, Governor of North Carolina, in a symposium, "If I were a National Santa Claus," in the December

Delineator. I here assert that all the wrongs and iniquities of the tariff, and all the robberies, oppression and greed of monopolies, do not compare with the sorrow, the ruin, the misery, the crime, the poverty, the madness, the vice, the degradation, the death and damnation produced by strong drink. It destroys home life; breaks the hearts of mothers and wives; takes the clothes off the backs of little one's thoughts continually on the dollar, or the dime, or the nickel, all this is dismanhood; makes lewd women out of virtuous maidens; stifles ambition, de stroys hope, weakens the body, blights the mind and blackens the soul, until it turns this earth, made for man's happiness and use, into a hell for his ruin and

In the interest, therefore, of business; for the protection of helpless women and children, for the suppression of crime; the amelioration of want and poverty; the prevention of disease; the preservaion of life; the salvation of human souls, and for the sake of more than eighty-six millions of true, brave and noble American men, women and children, I would bestow this gift of national temperance, thus destroying a fearful curse, and re storing man to the godlike image in which he was created. I would offer this gift to the American people.

..... How is your Digestion. Mrs. Mary Dowling, of No. 228 Sth.

Ave., San Francisco, recommends a remdy for stomach trouble. She says: 'Gratitude for the wonderful effect of Electric Bitters in a case of acute indigestion, prompts this testimonial. I am fully convinced that for stomach and liver troubles Electric Bitters is the best remedy on the market to-day." This great tonic and alterative medicine invig-

Does Not Stimulate

Ayer's Sarsaparilla does not stimulate. It does not make you feel better one day, then as bad as ever the next. It is not a strong drink. No reaction after you stop using it. There is not a drop of alcohol in it. You have the steady, even gain that comes from a strong tonic and alterative. We wish you would ask your doctor about this. He knows. Trust him. Do as he says. J. C. Auer Co., Lowell, Mass. What are Ayer's Pills? Liver Pills. How long have they been sold? Nearly sixty years. Do doctors recommend them? Ask your own doctor and find out.

AMUSING WAR GAME.

Slate and Pencil the Harmless Weapons of Mimic Battle.

Draw on your slate or paper a plan like that in the cut below. The dots represent soldiers, one side being French and the other side German. Each player is provided with a sharply pointed pencil, and the gene is played thus:

The German, keeping the point of his pencil on a spot denoted by a cannon, draws it quickly across the slate in the direction of the other army. The pencil naturally leaves a line to mark his track, and if this mark passes through any of the men belonging to the other side they are considered dead. The game is over as soon as all the men on one side are dead. Each

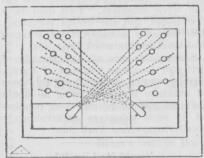

DIAGRAM OF GAME.

player has a certain space on the slate allotted to him, and he may dispose his men in whatever part of it he pleases.

The track of the pencil must be straight or curved. Any shot in which there is an angle does not count. We here give a battlefield where the strife is ended. In this the German side shots, while the French in eight have JAS. C. GALT, President. been able to kill only nine men.

ANIMAL DETECTIVES.

Bird and Insect Policemen Punish HENRY GALT. Rogues of Their Kind.

Birds and insects are wonderfully clever detectives. Upon one occasion a gentleman living in India observed a large flock of crows leaving a tree near his house. Shortly after they were gone violent disease broke out in that vicinity.

An English beekeeper placed a quantity of what he believed to be the best quality of sugar in his hives. But the bees promptly turned it out, and the man found later that the sugar was a cheap imitation.

Swallows and other birds that migrate always choose as their dwelling places localities which are healthful. People, knowing this, watch these birds and build their own houses ac-

Then there are bird and insect po licemen which kill the rogues among their kindred. Ladybirds, for instance, keep the queen flies off roses, and the reddish brown ant patrols the cotton structive cotton boll weevil.

Lesson VIII. - Fourth Quarter, For Nov. 22, 1908.

THE INTERNATIONAL SERIES.

50-53-Memory Verses, 39, 40-Golden Text, I Chron. xxviii, 9-Commentary Prepared by Rev. D. M. Stearns.

[Copyright, 1908, by American Press Association.] did He in heaven and in earth, in the seas and all deep places" (Ps. exxxv. 6). "The Most High ruleth in the kingdom of men and giveth it to whomsoever He will. He doeth according to His will in the army of heaven and among the inhabitants of the earth" (Dan. iv, 32, 35). Even when our Lord was crucified Herod and Pilate and the People of Israel did what the hand and ounsel of the Lord determined before to be done (Acts iv, 27, 28). So it is always, through good men and bad men, and even the devil, and through good men who often act unwisely, God is ever working out His eternal purpose which he purposed in Christ Jesus our Lord (Eph. iii, 11). He who sees and declares the end from the beginning says, "My counsel shall stand, and I will do all My pleasure" (Isa. xlvi, 10; Ps. xxxiii, 10, 11). Men are left free to do as they choose and are guilty if they do wrong, but God is ever working out His purpose in spite of everything and every one who may be set against Him.

Thus we see it in our lesson today. David being old, one of his sons, Adouijah, whom he had never displeased by even asking him why he did anything, exalted himself to be the king, though he knew that the Lord had siven the throne to his brother Solonon, and Joab, who was David's chief and Abiathar, the priest, whom Davio had so protected and made one with im, followed Adonijah (I Kings i, 5ii, 15). It does not seem so strange hat spoiled boys, like Absalom and Adonijah, should be so desperately icked, but to see a priest like Abiathar joining him is perplexing. It ms so easy to turn from what is right and do the wrong thing.

There were some who remained faithful to David, such as Nathan, the brophet; Zadok, the priest; Benaiah the 80n of Jehoiada, one of David's mighty den who slew a lion in a pit in snow wan's own spear, and did many highty acts (II Sam. xxiii, 20-23; I Kings 1, 8). Nathan told Bathsheba. Were going, and she and Nathan brought word to David, whereupon bavid called these three faithful men upon his own mule and have him anolated king over Israel and Judah, to do His will. And who can deny our that he might sit upon his throne and national iniquities? The greed for gold king in his stead (verses 32-35) This was as the Lord had purposed, gain it a luxurious life, with its infor He had said to David, "Behold, a evitable companions, vice and sin, is 80n shall be born to thee, who shall be the result. The marriage relation is a man of rest. * * * and I will give not held as sacred as it should be. The Deace and quietness unto Israel in his liquor power, though greatly decreased. days, * * * and I will establish the is still a mighty power. The Sabbath throne of his kingdom over Israel for- day is not remembered and kept holy. ever" (I Chron. xxii, 9, 10), a prom- as God demands. God's house is lightbletely seen in Jesus as the Son of their ancestors to it, should be filled bayid (Isa. ix, 6, 7; Jer. xxiii, 5, 6; Luke i, 31-33). Then sat Solomon the political world do not lack corrupupon the throne of David, his father, tion. God sees it all, but He is patient. and his kingdom was established but let us not think that His patience greatly (I Kings ii, 12), or as it is write means forgetfulness. Yet, with it all, ten in I Chron. xxix, 23, "Then Solothe signs of the times are favorable. mon sat on the throne of the Lord Tremendous forces are being arrayed as king instead of David, his father. against evil. There has been a great called the throne of the Lord. The until we shall not only know God's 's come when the same city, Jerusashall be called the throne of the .6rd and all the nations shall be gathd unto it, to the name of the Lord Jerusalem (Jer. iii, 17). David's arge to Soiomon in chapter ii and in 7; Rev. vil. 11, 12. Chron, xxviii is worthy of being up in the heart. Note specially se words: "Know thou the God of father and serve Him with a perfect ert and with a willing mind, for the ord searcheth all hearts and under andeth all the imaginations of the "ghts" (I Chron, xxviii, 9). or over twenty years I have found

becial blessing in these. That expres-"the imagination of the ughts," is found again in chapter Trix, 18, and again sad contrast in vi, 5. How deeply God searches of only the heart, but the thoughts of heart, and somehow, back of that, imagination of the thoughts! How and how continually we need the recious blood which cleanseth from all sin! In the last chapter of II Sam. find a word from David in verse 24 which is worthy of application to all evers, "Neither will I offer burnt ings unto the Lord my God of that which doth cost me nothing." And was in connection with the purchase of the place where the temple as afterward builded (II Chron. iii. It was also the place where Abrahad offered up his son Isaac, and great thought is redemption by a costly sacrifice. In David's abundant branching sacrifice in David's abundant was not allowed to build we see a not allowed to build we see a anifestation of that zeal which he ed that Solomon might have. He 'I have prepared with all my light for the house of my God, * * * ause I have set my affection to the of my God." Yet with all the ions which he gave he said, "All 88 come of Thee, and of Thine own

CHRISTIAN ENDEAVOR.

Prayer Meeting Topic For the Week Beginning Nov. 22, 1908. By REV. S. H. DOYLE.

Topic.—Songs of the heart.—XII. Grat-ttude and how to express it.—Ps. ciii. Thanksgiving day meeting.

With each recurrence of our national Thanksgiving day the hearts of all the American people, individually and coilectively, should turn to God with great Text of the Lesson, I Kings i, 32-40, gratitude for His blessings to us as individuals and as a nation. One Hundred and Third Psalm is a good model for this double purpose, and from it also we may learn how to express this twofold gratitude. "Whatsoever the Lord pleased, that It has been well said that it "is the outpouring of a full heart in thanksgiving to God for His grace and compassion, both as experienced in His own life and also as manifested to His nation in their history." Next to Israel and the Israelites God has seldom if ever bestowed greater blessings upon a people and a nation than upon the American people and the American nation. Therefore we may well call upon "souls and all that is within us to tressed than hers. bless His holy name and to forget not all His benefits."

The first call to gratitude is for personal blessings, both spiritual and temporal, and the second a call to national gratitude for national blessings. Seldom, indeed, have the goodness and mercy of God been so beautifully and comprehensively set forth and in so I'm mighty sorry." words as the psalmist expresses them here-how graciously the forgiveness of sins and the subsequent new life is expressed, "Who forgiveth thine iniquities; who healeth all thy diseases (spiritual); who redeemeth loving kindness and tender mercies: who satisfieth thy mouth with good things, so that thy youth is renewed like the eagle's!" We have received such spiritual and temporal blessings in the past year, and out of a full heart we should express our gratitude to

National blessings have also been ours in the past year. It is true that there has been financial adversity to some extent, and yet we have been preserved and wonderfully blessed. Famine, pestilence and sword have escaped us. No great national calamity has befallen us. This, too, as with Israel, in that, although God has made known His ways and His acts unto us, we, as a nation, have not always followed in these ways, and but for the fact that He is still "merciful and graclous, slow to anger and plenteous in mercy." His judgments might have been executed upon us. But the American nation needs to heed the psalmist's warning, "He will not always chide; neither will He keep His anger forever." Past nations have forgotten this warning and have fallen-Israel, Babylon, Greece and Rome. Will God spare us when He has not spared other nations? Nay. Our doom will be the greater because of our immensely greater advantages and opportunities was never greater, and to many who primarily, but only partly true of ly esteemed by multitudes of Protesomon, but yet to be fully and com- tants, who, recalling the devotion of prospered, and all Israel obeyed moral awakening in our land, and let No throne but this was ever us do all in our power to continue it ways, but do them.

A Pledge Arrangement.

The following logical arrangement of the Christian Endeavor pledge was made by Mrs. O. W. Powers of Dayton, O., the wife of the home mission secretary of the American Christian convention. It is a most logical arrangement and shows at a glance just Christian Endeavor pledge that is most | you in this lonesome spot.

commonly used: ACTIVE MEMBER'S PLEDGE.
Trusting in the Lord Jesus Christ for strength, I promise Him (1) that I wilt strive to do whatever He would like to have me do; (2) that I will make it the rule of my life (a) to pray and (b) to read the Bible every day and (c) to support my own church in every way, especially by attending all her regular Sunday and midweek services unless prevented by some reason which I can conscientiously ACTIVE MEMBER'S PLEDGE. some reason which I can give to my Saviour, and (3) that just so far as I know how throughout my whole life I will endeavor to lead a Christian

true to all my duties, (2) to be present at and to take some part aside from singing in every Christian Endeavor prayer meeting unless hindered by some reason which

mind my lugging you, Miss Barr. It's a case of necessity.

"I'll be good," said Ara. Cautiously picking his way, Delos

Elder did not notice the confiding clasp of her arms or her soft cheek pressed against his neck. He was only conscious of her behaving beautifully on a rather perilous journey and that sure footing was the imperative need.

As he trundled his delicate burden home in the dusty barrow all his thoughts were apparently bent on smooth wheeling, lest a jolt should bring her additional pain.

Hatless, coatless, perspiring, on trudged the concerted Delos and up to Judge Barr's summer cottage at last, to halt panting, weary and thankful.

"There!" he gasped. "I hope you weren't much joggled. Call some one. I'm going back to find my hat. You have been very brave. Tomorrow, when I am presentable, I shall inquire for you. Let us hope nothing serious and she sat down, jarringly, uttering will result from this experience. It was entirely my fault, Miss Barr."

"I'll forgive you," said the girl. It sistance. His face was even more dis- was too dark for him to see her eyes, else, disheveled as he was, he might have stayed.

> Bearing his dusty coat over an arm. he backed away with a hasty word of farewell, and a portly man strode out to the piazza.

"What's going on here?" demanded posed you saw me. I'm Mr. Elder a thunderous voice. "Ara, child, why.

Delos, in the darkness, heard the girl's laugh and a calm reply. He appreciated the effort.

"Oh, I twisted my ankle, father. A man was kind enough to wheel me He wouldn't stop to be Ara, had begged Carolyn to send him | thanked. I guess you'll have to carry

> A fortnight later Miss Seely had a call from the judge. "Carolyn," said he, "what can you

tell me of young Elder? He is visiting here, I believe.'

Oh! Delos?" replied his hostess. smiling. "Yes, he's still with us. Well. Mr. Elder is an old friend of mine. judge. He has some brains, plenty of money, an excellent character, belongs to a good family and is extremely particular regarding his clothes. Lately I haven't seen much of Delos. He has taken to out of door exercise; goes tramping and meandering about. He must have lost himself one evening awhile ago, for he came in greatly exhausted and a sight to behold. It was the next day he called at your house, I Ara had strained her foot. How is it?

"That didn't amount to much," said the old gentleman thoughtfully. "She was walking on it in a couple of

"Oh, so soon! I didn't know. I wrote her a note, but got no reply, so feared she was badly laid up. I've felt sorry for Delos, for I wanted Ara to see a good deal of him. Once I told her, and not so much in a joke, either. that they were the very ones to fall in love with each other."

The look of disappointment faded from her face as she saw a twinkle in her visitor's eye.

"No?" she exclaimed. "That's it, Carolyn," observed the HE TRUNDLED HIS DELICATE BURDEN judge, bursting into a laugh. "They

His Only Conundrum.

The old pilot of the little steamer Maid of the Mist, which used to carry passengers quite up to the foot of the thought, "Poor child. I'll bet that was falls of Niagara until the mist from the falling waters drenched the clothing of every one on board, used to perpetuate He leaped down and presently was one solitary conundrum each trip. It always commenced and ended the

Moving his hand along the sides of will sounded the call of the night; the the pllothouse and examining the woodwork minutely, he would look up mysteriously and remark:

"I say, stranger, do you know what this boat is made of?

"Made of? Why, pine and oak, isn't

"Hemlock?" "No."

"'Tisn't cedar, is it?"

"Oh, no!" tune.

"Well, iron perhaps?"

"What in thunder is she made of.

"She's Maid of the Mist, stranger; Maid of the Mist."

Then the pilot accepted his morning

Carrie's Maneuver.

Miss Hurryup-Ah, George, you cannot tell what troubles a girl has who is receiving the attentions of a gentle-

Mr. Holdoff-Troubles, Carrie? Of what nature, pray? Miss H.-Well, one's little brothers

are always making fun of one, and relatives are always saying, "When is it to come off?" as if marriage were a prizefight. But that is not the worst. There is the inquisitiveness of one's parents. They want to know everything. There's pa, now; he is constantly asking such questions as: "Carrie. what are Mr. Holdoff's intentions? What does he call upon you so regularly for and stay so late when he does call?" And he sometimes looks so angry when he asks these questions that I actually tremble.

Mr. H.-And what answer do you make to his questions, Carrie, dearest? Miss H.-I can't make any answer at all, for, you see, you haven't said anything to me, and-and-of course, I-I-

Then Mr. Holdoff whispered something in Carrie's ear, and next time her father questions her she will be ready with a satisfactory reply.-Boston

policies issued on all classes of desirable property, at rates which experience have tested to be as low as can be offered with safety.

P. B. ENGLAR, Agent, TANEYTOWN, MD.

Mrs. Ida Zollickoffer, and daughters, of Philadelphia, are visiting relatives in

visited her niece, Mrs. John W. Newcomer. Jr., the first of the week.

The customary Thanksgiving day sermon will be preached in the Presbyterian church, by Rev. D. J. Wolf, at 10 a. m.

Mrs. Robert S. McKinney, who has been quite ill during the past two weeks. with grippe and bronchitis, is very much

It is said that the brick yard property is becoming a resort for "hoboes." If this be true, the matter is one requiring official attention and action.

Both warehouses, and most of the business places in Taneytown, will be closed, on Thanksgiving day. The general public please take notice.

Regular Communion services will be held in the Lutheran church, on Sunday, preceded by the customary preparatory service, on Saturday, at 2 o'clock.

Mrs. Wm. E. Evans and two children, of Brunswick, Md., visited her parents, Mr. and Mrs. Geo. A. Shoemaker, this week; a daughter, Ruth, who has been visiting here for several weeks, returned home with them.

Miss Pauline Fuss, of McKinstry, a member of the Senior class of W. M. College, spent Saturday and Sunday on a visit to Miss Ada R. Englar. Her parents, Mr. and Mrs. Jesse W. Fuss, came for her, on Sunday.

Thanksgiving Day being a legal holiday, there will be no delivery of mail by Rural Carriers. Postoffice will be open from 8.30 to 10.30 a. m., and from 3.30 to 6 p. m. Baltimore mail will be received by train about 10 o'clock.

The first snow of the season came last Saturday, and was a "really" snow, falling to the depth of five inches, sufficient to start up sleighing. On Monday morning, the temperature was as low as 8° above zero. A pretty severe dose of winter, for a starter.

"Enclosed find 20c for which please send me copy of Choice Maryland Cookery. I had one but a lady asked me to loan it to her, but I gave it to her and will send for another. The book will soon be well represented in Oklahoma.' -MRS. G. W. MILNE, Verden, Okla.

For some reason, the visits of the Deputy Sheriff to Taneytown are regarded with more interest than usual, this Fall. He is a genial fellow, but some-how there are a good many in town who half cords. He said then that his do not care about cultivating his ac. quaintance, but feel more comfortable after he has departed.

Mrs. Mollie Albaugh, nee Currens, of Churmont, and Mr. and Mrs. Joseph Hays, of Grinnelle, Iowa, spent Saturday and Sunday here on a visit to Mr. and Mrs. E. K. Reaver and other friends. Mr. Hays, went West with his parents, 55 years ago, when he was 5 years of age, the trip being made in wagons.

"Dollar Wheat," last Thursday, caused a rush, on Friday, delivering the goods," something like 5000 bushels coming in this one day to both elevators. At one time there were fifteen teams standing in the neighborhood of Reindollar & Co.'s elevator, either unloading, or waiting. A great deal has been sold and delivered, this week, at 98¢.

Don't forget the Thanksgiving dinner and supper, at the Opera House, next Thursday, for the benefit of St. Joseph's Catholic church. A festival, at which refreshments and supper will be served. will be held on Friday and Saturday evenings. A musical will be given on Friday evening, to which an admsision fee of 10¢ and 15¢ will be charged. Dinner and supper only 25¢ each.

Mr. Washington Harner, one of the old residents of this neighborhood, died at the home of his son, Joseph H., near town, on Wednesday. He had been in failing health for several years. Mrs. Agnes Harner, of this place, is his daughter. Funeral services will be held on Saturday, meeting at the house at 9 the 1906 crop, and 17 cents per pound for 75 per-cent. of the 70,000,000 pounds of the 1907 crop.

This immense amount of money will

Taneytown Grange No. 154, had a largely attended and highly interesting meeting on Saturday afternoon last. Addresses were made by Messrs. Goulden, Garner, Eckert and Ohler, of an instructive character. The second named made a report of the National Grange, which met in Washington during the week. The meetings for the winter months will be in the afternoon, the next occurring on Saturday, November 28.

Prof. Wm. J. Heaps, of Baltimore, will be at Hotel Bankard, on Saturday, 28th., to demonstrate to deaf persons the benefit of Mears' Ear Phone, and to fit those so afflicted, or take orders. We personally know and recommend Prof. Heaps, and know of the great benefit the instrument has been in his own case. What he says can be depended on, and accept this opportunity of investigating designs, from sample book, if epicure.—Sydney (N. S. W.) Freeman's the merits of the instrument.

Hon. Jos. A. Goulden has been attending the Inland Waterways Convention, in Baltimore, this week. At the session of Tuesday afternoon, he presided. The American says: "He proved to be the very essence of good nature, and continually beamed a cheery geniality on the audience. When he arose to accept the chair, he was presented a large bunch of yellow chrysanthemums, and he hastened to assure the audience Mrs. C. E. Valentine, of York Road, that they were not the gift of some lady, as might have been supposed, but were sent by his own organization-the North Side Board of Trade, of New York. He naively stated that he made explanation because his wife was in the audience. ---

Colds and Croup in Children.

"My little girl is subject to colds, says Mrs. Wm. H. Serig, No. 41 Fifth St., Wheeling, W. Va. "Last winter she had a severe spell and a terrible cough, but I cured her with Chamberlain's Cough Remedy without the aid of a doctor, and my little boy has been prevented many times from having the croup by the timely use of this syrup. portunity! This remedy is for sale by R. S. McKinney, Druggist, Taneytown, Md.

---A Champion Wood-chopper.

A recent dispatch from Windsor, Vt., says: The boast of Maxwell Evarts, at a dinner in Washington last winter, that the Green Mountain State possessed a woodchopper who could go into the woods, cut down, chop up, split and pile five cords of wood between sunrise and sunset, was made good a few days ago in the woods at the north of this town, on Mr. Evart's farm, when Edward Moot, of Weathersfield, not only performed the feat, but did it in an hour and a half less than the required time, and had an extra eighth of a cord in his pile and an extra half cord of chopped and split wood on the ground.

The novel contest was witnessed by a number of prominent men whom Mr. Evarts had brought from Washington, New York and Boston, and by some 1,000 residents of the State who had gathered to encourage and applaud the prowess of the State champion. Among the guests were L. F. Loree, president of the Delaware and Hudson Railroad; L. A. Coolidge, Assistant Secretary. L. A. Coolidge, Assistant Secretary of the United States Treasury; Samuel G. Blytne, of New York, and A. B. Kitt-redge, of South Dakota.

Wagers aggregating several thousand dollars are said to have been placed on the contest. Champion Moot, in addition to receiving \$100 for his day's work from Mr. Evarts, is said to have won considerably more by backing himself

to perform the feat.
Woodchopper Moot laid out a row of axes, all sharpened to a keen edge, shortly before the rise of the sun, in the edge of a bass wood growth. Refreshing himself with a drink of brandy and milk, he made ready for the contest. His son, Frank, stood close by, ready to hand the chopper his axes and wedges as needed.

At 5.52 Moot drove his axe into the first tree. At 10.30 he had cut down eighteen trees, ranging in length from sixty to seventy feet, and from nine to thirteen inches in diameter at the base. muscle was as good as when he began. He believed that all of the five cords would be chopped and split by 2 o'clock in the afternoon, when he would begin to pile it. At 2.30 he had finished chopping and splitting the five cords stipulated, and the piling was about one-third completed.

Moot stopped to eat twice during the morning, consuming ten minutes each time. After 3 o'clock, realizing that he would easily win Mr. Evarts' wager, he worked more slowly, but at 4.22, an hour and twenty-eight minutes before sunset, he laid the last stick in place amid the cheers of the crowd.

Watched Fifteen Years.

"For fifteen years I have watched the working of Bucklen's Arnica Salve; and it has never failed to cure any sore, boil, ulcer or burn to which it was applied. It has saved us many a doctor bill,' says A. F. Hardy, of East Wilton, Maine. 25c. at R. S. McKinney's drug ----

Big Deal In Tobacco.

Louisville, Ky., Nov. 19.—The American Tobacco Company took over to-day 75 per cent. of the pools of the Burley Tobacco Society, of Kentucky, which, in the aggregate, will amount to nearly \$14,000,000. This is one of the biggest tobacco deals ever recorded to this country. These pools are of the crops of 1906 and 1907, and amount to about 60, 000,000 pounds. The Burley Tobacco Society has remaining for the 1902 ciety has remaining of the 1906 pool about 12,000,000 pounds and of the 1907 pool about 70,000,000 pounds. This year the society raised no crop in the Burley district. What little tobacco was raised was grown by independent growers.

The price paid by the American To-

bacco Company was $20\frac{1}{2}$ cents per pound for 75 per-cent. of 12,000,000 pounds of

be distributed, about two-thirds of it, to Kentucky banks, which have been carrying the growers for the last two years, and the other third will go the Eastern financial institutions, which have partly financed the Burley Tobacco Society.

The close of the deal means the ending to the night rider troubles in the Burley growing districts of the State, and guarantees peace and plenty to the farmers, who have stood a long season of short rations to win their battle against the trust.

Suicidal Flying Fish.

The Indian ocean is singularly devoid of fish and bird life, but one night dozens of flying fish flew on board a vessel there. They were attracted by the lantern on the foremast, against which they dashed and fell stunned to the deck. In appearance they are very like a sand mullet. The wings resemble an extended dorsal fin and open and shut like a lady's fan. Not only Journal.

Special Notices.

The Nine Tailor Saw. The tailor-he was a cutter at a big

salary-sighed as he looked about his luxurious apartment.

"She refused me," he said. "Why? Because she didn't love me? No. Because of that old saw about its taking nine tailors to make a man. And that saw is a mistake. It is a corruption of 'nine tellers mark a man.' It doesn't signify that tailors are effeminate. It simply shows that mankind is liable to error. The toll of a bell in the olden time was called a teller, and in the olden time the church bells tolled nine times for every man's T funeral; hence the saying 'nine tellers mark a man.' In our stupidity we have corrupted that into 'nine tailors make a man' or 'it takes nine tailors to

The cutter sighed. "This rank error," he said, "dooms me to bachelorhood."-New Orleans Times-Democrat.

The People's Verdict is Ours!

A comparison of our prices in each department, has resulted in a verdict of the people for us. How do we know? Many have told us so—and the ever widening circle of our business dealings, extending throughout the entire county, and even beyond its farthest borders—an increase in business convinces us and must make it plain to all that we are doing business as the public wants us to do-"Selling them what they want, when they want it, at the price they want.'

Are often caused by eye strain, and there is nothing in which delay is so dangerous as in eye trouble. When you consider that you get along fairly well without any sense except sight you will understand how important it is to take chances with it. Our business is to tell you when you need glasses. We have the proper means of finding out. We don't guess when we fit glasses. We have the scientific instruments for determining and correcting any and all defects of vision, no matter what the nature of your case. If your glasses do not suit you perfectly call on our specialist. Our work is guaranteed.
