Wm. F. Harig, who was on trial for will be rendered; wm. F. Harig, who was on trial for murder in the Carroll County Court, all of last week, was declared innocent by the jury at a late hour last Saturday night, the conclusion being that the shooting was done in self defense.

B. Frank Crouse, Jr., and Miss Bessie M. Bowers, of Westminster, were maried, in Baltimore, on Monday. The groom is 23, and the bride 19 years of age host. age, both well known young people of Westminster. The wedding was quite a

Speaker Cannon, in a published inter-lew, announces himself as favoring ariff revision, in accordance with the Republican National platform, and his statement is taken as meaning that he will be in harmony with Mr. Taft's ideas. It is also considered that he was forced to advance his chances for re-election as

President-elect Taft, who has taken a Cottage at Augusta, Ga., for the winter, said, on Tuesday evening; "When I consider all that has come to me I wonder, with the same with trembling, if there is not to be some creat misfortune to offset it all. We have our health and our children, with never 4 loss of a child. My parents are dead, but they lived to an honored and a Peaceful old age. I have much for which be thankful, and I cannot help won-dering if there is not to be some compensatory sorrow."

At its final business session Tuesday afternoon in the W. C. T. U. Building, Baltimore, the Maryland Woman Suirage Association decided to assist the national body to the extent of its ability in the work of the second session. attures to a petition to be presented to Congress asking that a sixteenth amendment ent, providing that women be allowed vote, be added to the Constitution of the United States. It has been planned to offer this monster petition on February 7 next, the date being the birthday of Miss Susan B. Anthony.

That John D. Rockefeller as well as eorge Gould and his associates may figre prominently in the purchase and reganization of the Western Maryland ailroad is the report circulated in railtoad and financial circles at Pittsburg. The Western Maryland Railroad's answer opposition to the formulation of the constitution of the formulation of the constitution to the formulation of the constitution to the formulation of the constitution to the formulation of the constitution of the c Onsenting to the foreclosure of the conertible mortgage and the sale of the load, has been filed in Baltimore, and Troad, has been filed in Baltimore, and there is a great deal of speculation as to what effect the reorganization of the important coal road will have upon the furm management of the Gould lines in the Pittsburg district.

(For the Record.)

Mr. Henry C. Cover, who was stricken with paralysis last Thursday morning, passed away on Monday morning, Nov. 23, 1908, at his home in Uniontown, aged 62 years, 5 months and 5 days. Mr. Cover was a prominent of the control of th that effect the reorganization of the important coal road will have upon the futhe Pittsburg district.

durses graduated from a university in delphia, spoke of their profession best paid one for women. He light also have laid stress on the fact lignity and respect due to such, and but e inferior in importance to that of medical profession itself. The time when nursing was an inferior occupais now past; it demands intelli-educated to the highest point, and tith the advent of the trained nurse has e not only an honorable and well paid prosession for women, but a boon also to humanity.

Secretary Cortelyou made public the houncement that he would receive is up to the close of business on nber 5th., next, for \$30,000,000 anama Canal bonds, or any part there-to bear 2 per cent interest. The will be dated November 1st., ones, thus making this a new issue, and onest will begin as of that date. The by the terms of the law authoriz g their issue, will be redeemed in gold ten years from their date and payable thirty years. As an evidence of good ath the secretary requires each bid to accompanied by a certified check bayable to the Secretary of the Treasury per cent of the amount of the bid.

secause he barely avoided running down the President of the United States with his bicycle while the latter was walking to a long he to church last Sunday, Gilbert Boyer hegro youth, was arrested on the bicycle. Boyer was released upon rather than stand trial yesterday on le charge. The episode became known night. President Roosevelt was Walking briskly down H Street Sunday two Secret Service men at his heels started to cross 15th. Street, when heard a shout of warning from some in front of him. The President prang back just in time to miss being Yas trying to steer the wheel with one and and carry a basket of milk bottles the other. When the President lted at him to admonish him for his ekless riding, the negro merely grinned pedalled swiftly away. It was not was pursued and arrested by the cret Service men at the dairy where was employed that the negro became aware of the President's identity.

#### ----Death of Mr. George A. Mehring.

Mr. George A. Mehring, son of the late Augustus Mehring, died suddenly at his home, near Kump, last Saturday morning, from cerebral hemorrhage. Mr. Mehring had not been ill, but was at work in the field, loading fodder, when stricken with an intense pain in his head. He at once went to the house, where his sufferings increased until he became unconscious, and died in about three and a half hours. Medical aid

was hastily summoned, but his case was beyond human aid.

Mr. Mehring was married in 1886 to Miss Villianna Belle Brown, near Littlestown, Pa., who, with two children, Hattie V. and Russel E., survive him. The deceased is also survived by his mother. deceased is also survived by his mother, Mrs. Matilda Mehring, one brother and two sisters; Albert D. Mehring and Mrs. J. H. Sell, Jr., of Hanover, Pa., and Miss Ella Mehring, at home. The funeral was held on The document was held on Tuesday afternoon, at 1 o'clock, services being at the Lutheran courch, Littlestown. Interment was made in Mt. Carmel cemetery. Rev. J. Jay Hill, officiating. Mr. Mehring was in his 43rd. year of age. ...

### Death of Mr. Henry C. Cover.

Cover was a prominent citizen of this Dr. Weir Mitchell, in addressing arses graduated from a university in community; for a number of years he followed huckstering, but for the past few years has been living retired. He was very devoted to his family neighbor and kind friend to all, and will be greatly missed in the community.

The funeral services were conducted at his late home on Wednesday afternoon by his pastor, Rev. G. W. Baughman, assisted by Revs. L. F. Murray and G. J. Hill. He is survived by his wife, and seven children, Dr. A. Sydney Cover, of Narrows, Va.; Mr. Edwin G., Thomas C., and the Misses Belle and Margaret Cover, of Easton, Md.; Mrs. Irene Shreeve and Mrs. Roy H. Singer. of Uniontown. Also by two brothers, Thomas Cover, of Winchester, Va., and James Cover, who just recently moved to Uniontown. Interment in the M. P. cem-

### Monument to Pennsylvania Regiments.

Frederick, Md., Nov. 24.-The monument to the Sixty-seventh, Eighty-seventh and One Hundred and Thirty-eighth Regiments, Pennsylvania Volunteers, erected by the State of Pennsylvania as memorial of the valor of the men in the battle of Monocacy, July 9, 1864, was unveiled at noon on Tuesday, in the presence of a large number of survivors

A special train was run from York, Pa., and on it came most of the veterans who attended the unveiling. On the rear end of the train was a Pullman car containing Lieutenant Governor Murphy, of Pennsylvania, and the Governor's staff, Governor Stuart, who was expected to be present, having been prevented

from coming.

Captain W. H. Lanius, chairman of the Monument Commission, of York, Pa., presented the monument to the State of Pennsylvania.

Lieutenant Governor Murphy accepted the monument, saying to the veterans: 'What you did here will live long after yonder noble shaft has disintegrated and become a shapeless mass of clay." After Lieutenant Governor Murphy's address the band played a selection and then Captain Robert T. Cornwell, of West Chester, Pa., was introduced and made the principal address of the day.

## CATTLE DISEASE AT LINEBORO

# the Disease.

Because Mr. H. M. Kneller, of Lineboro, Carroll county, purchased one steer which has since developed the dread foot and mouth disease, all of his cattle were killed by governmental auhority, on Thanksgiving day. The

American says of the incident;
Doomed to death are all the domestic Doomed to death are all the domestic animals, except the horses and mules, on the farm of Mr. H. M. Kneller, near Lineboro, Carroll county, because the foot and mouth disease, or infectious aptha, has broken out among a herd of cattle on the place. The wholesale killing will take place to-day, the object being to stamp out the malady, which has made its first appearance in Marvland on the Carroll county farm. Included in the slaughter will be:

Twenty two cows and steers.

Fifty-one pigs. Between 70 and 80 hens and roosters. Six pigeons.

The family cat is even doomed. The dog would meet the same dire fate, if

there was one.

Chickens and pigeons that were caught vesterday had their heads chopped off. They were doomed to die not because they are liable to contract the disease, but because they were its apt carriers,

thus causing its spread.

The killing will be under the supervision of Dr. F. H. Mackle, State Veternarian, a representative from the Federal Bureau of Animal Industry, and Dr. Herbert, of the Pennsylvania Live Stock Bureau. The carcasses of the cattle and pigs will be buried deep, and over them will be cast a pile of lime. Then they will be covered up. If facilities were at hand there would be a cremation on a big scale, All the provender and manure in the stalls will be hauled out on the farm and scattered, leaving on the sun's

rays the slaughter of the bacilli. Not a

twig as a resting place for them will be

left in the barn. Farmer Kneller may sigh and look sad when he sees his cows and his steers tumble and fall after the blows of the ax, and he may sigh again when he sees the blood spurt from the throats of his fat pigs, after the butcher's knife has made its fatal thrust, and he may feel lonely when the roosters' morning crowing is no longer heard, but he will find consolation in the fact that he is to be well paid for the loss of his live stock  $^{12.00~M}$ . and poultry. There will be nearly \$1,000 coming to him after the day's slaughter, and of this sum the federal government will pay two-thirds and the state of Maryland one-third. The one infected steer gave the disease

to 20 out of 22 cattle, steers and cows, on the farm. Dr. Mackie, state veterinarian, says that only one of the cases are serious, but regards the killing of all the only safe method to pursue, and to include the pigs, chickens and pigeons. For the information of farmers and dairymen it should be stated that the

mouth-and-hoof disease first develops in a lameness just above the hoof. The next symptom is the appearance of saliva, accompanied with a loss of appearance of saliva, accompanied with a loss of appearance.

(For the Record.)

A very pretty wedding took place at the part of the saliva and the part of the saliva are seen as a saliva and the saliva are saliva and the saliva and the saliva are saliva and th the beast.

Dr. Mackie says that milk of cows suffering with the disease is not injurious, though, he says, it is claimed that, if not boiled, it will produce a soreness of throat in children.

### Bare-Young.

(For the RECORD.)
The home of Mr. and Mrs. D. M.
Young, near Uniontown, was the scene of a very pretty wedding, on Tuesday, at high noon, Nov. 24, the contracting parties being their daughter, Hattie, and Mr. Samuel D. Bare, of near Uniontown.

At 12 o'clock, the couple, attended, by John Young and Miss Florence Young, brother and sister of the bride, Dr. Luther Bare, of Westminster, cousin of the groom, and Miss Bertha Hull, of Woodside entered the parlor, where they were met by Elder W. E. Roop, cousin of the bride, who performed the impressive ceremony which united the happy couple in holy wedlock.

The bride was becomingly attired in cream lansdowne, and carried brides' roses. The bridesmaids wore cream chiffon voile and carried pink and white carnations. After the ceremony, dinner was served to about eighty guests. The bride was the recipient of quite a number of valuable and useful presents. Mr. and Mrs. Bare, left on the train for Baltimore and Washington, amid a shower of rice.

Those who witnessed the marriage were: Mr. and Mrs. D. M. Young and family; D. J. Roop and daughter, Miss Annie; Mr. and Mrs. Harry Young and four children; Mr. and Mrs. Ira Young and son; Mr. and Mrs. John Burrall, daughter, Miss Amy and son Edgar; Mr. and Mrs. Thos. Roop and family; Mr. and Mrs. Scott Roop and daughter, Miss Henrietta; Mrs. John Cassel, Elder W. E. Roop and wife; Mr. and Mrs. S. W. Fair; Mr. and Mrs. Keener Bankard and daughters, Ethel and Evelyn; Mr. and Mrs. Guy Formwalt; Mrs. Rachael Caylor; Mr. and Mrs Harry Keefer and daughter, Beulah; Mr. and Mrs. Edward Beard; Mrs. Dr. Chas. E. Roop and daughter, Helen; Mr. and Mrs. Chas. Baumgardner and son, Charles; Mr. and Mrs. Chas. Baumgardner and son, Charles; Mr. and Mrs. H. E. Beard; Mr. Walter Snader and daughter, Henrietta; Mr. Harry Bankard; Mr. and Mrs. Edward Formwalt; Mrs. Cyrus Hull, Mrs. Emma Anders, Mrs. McCollum, Misses Lou Royer, Zella Fuss, Rachael and Martha Pfoutz, Minnie and Carrie Dickensheets, Lulu Norris, Margaret Smith and Sallie Myerly; Messrs. Frank Haines and Marshal Roop; Mr. and Mrs. Norman Fair and sons, Paul and Ralph.

The Sabillasville State Tuberculosis Sanitarium is now open for patients. It self. is open to white residents of Marylano admit of a reasonable possibility of a complete cure or permanent relief. Applicants must present themselves for examination before they will be admitted. finished the last st tentedly to work.

#### Meeting of Bee-Keepers of Maryland.

The first annual meeting of the Bee-Keepers of Maryland will be held in the 5th. Regiment Armory, Baltimore, on Thursday, Dec. 3. All Bee-Keepers in Maryland should make it a point to attend this meeting. The great need of such an organization in this State is evident to all. The addresses and discount to all. The addresses and discount to all. dent to all. The addresses and dis-cussions of subjects pertaining to Bee-Keeping will be of much benefit to every Bee-Keeper in the State, no matter to what extent he or she is interested in the industry. Go prepared to ask questions and give experiences that you have encountered in handling bees.

It is desired to have a good exhibit of honor ways and he keeping experiences.

encountered in handling bees.

It is desired to have a good exhibit of honey, wax and bee-keeping apparatus in conjunction with the meeting. All Bee-Keepers should send or bring a sample of honey, either in comb or extracted, and also wax. About ten pounds or more of each will make sufficient display by each individual. The bee explay by each individual. The bee explay by each individual. The bee explayers and congressmen who are and congressmen who hibit of fruits, vegetables and flowers made by the Maryland State Horticul-tural Society and the Maryland Cereal and Forage Crop Breeders' Association. As this exhibit will be installed Monday, November 30, all Bee-Keepers should send their exhibit by express, prepaid, addressed to T. B. Symons, 5th Regiment Armory, Baltimore, Maryland, so that it will arrive there by Monday, November 30. If it is impossible to send your exhibit, bring it with you when you come.

Please write the State Entomologist, College Park, Maryland, at once, stating bout the size of exhibit you will send or bring, as it is desirous to know the amount of space to reserve for the general bee exhibit. All exhibits will be judged and awards given for the best of each kind. The following program will be

### Horton---Harman.

the Reformed parsonage, Union Bridge, on Tuesday evening, when Mr. Ezra P. Horton was married to Miss Mary E. Harman, daughter of Mr. and Mrs. Frank Harman. They were unaccom-panied. The bride wore a handsome brown traveling suit. After the ceremony they left for an extended trip to Pennsylvania. Rev. Martin Schweitzer performed the ceremony.

### Reunion At Baust Church.

The first reunion of members added to Emanuel (Baust) Reformed church, Tyrone, Md., since Rev. Schweitzer's pastorate, will be held Wednesday evenng, Dec. 2nd., in the church. The number added is forty-three and all are ex-pected to be present. There will be a musical program rendered and an address by Rev. C. H. Rouck, pastor of the Third Reformed church, Baltimore; subject, "His experiences in the slums of New York city. All are invited to be present.

### Our S. S. and C. E. Columns.

We have had a recent request, which is in addition to several of like kind previously made, that we publish our Sunday School column a week earlier, in order to give those at a distance time to have full advantage of the lesson. In many cases, our subscribers at a distance do not receive the RECORD before Monday, which of course renders the column useless to them. The same applies to ture and a novel experience every day. our Christian Endeavor column.

If possible, we would like to have a general expression of opinion from our subscribers who make use of these two departments, as we can publish them a week earlier just as well as the week of their use, and it is our desire to meet

the wishes of our patrons in the matter. We will, therefore, make note of all replies received to this announcement, and providing there is a strong desire for a change, we will gladly make it. Let us hear from one and all who have a decided preference, one way or the

### Roosevelt Wants No Help.

Chicago, Nov. 25. - The "Evening Post" publishes the following from its Washington correspondent:

### THE ANTI-SALOON LEAGUE.

### Announces Its Platform for the Coming Year Respecting

The headquarters committee of the Anti-saloon League of Maryland, at a meeting, on Monday, adopted a platform for 1909 respecting proposed legislation.

Legislation.

The committee of the Anti-saloon League of Maryland, at a meeting, on Monday, adopted a platform for 1909 respecting proposed legislation.

Legislation.

The committee of Maryland, at a meeting, on Monday, adopted a platform for 1909 respecting proposed legislation.

State must meet on the second Monday in the meeting the meeting of the election of Presidential electors to the Government at Washington at the earliest practicable date.

Under the act of Congress approved February 3, 1887, the electors in each state must meet on the second Monday in the meeting of the election of Presidential electors to the Government at Washington at the earliest practicable date. The committee consists of Messrs. J. F. Heisse, chairman; H. S. Dulaney, David H. Carroll, Jonathan K. Taylor, Daniel Baker, and William H. Anderson, super-

States Senators and Congressmen who favor the "interstate liquor shipment bill," yet in the future, as in the past, everything else will be subordinated to the election in the fall of 1909 of a legislature which will pass what is commonly known as the "State-wide Local Option Bill."

Another declaration says the league is seeking to prevent the local option question from becoming a party issue and to this end adopted the following declaration of its specific intentions:
Wherever the candidates of both Dem-

ocratic and Republican parties are satisfactory, the league will remain neutral and allow its constituency to vote in accordance with their party preference

Wherever the Democratic candidates are satisfactory and the Republican candidates are not, the league will support the Democratic candidates—not because they are Democrats, but because their attitude is satisfactory on this question. If the situation is reversed and the Republicans anywhere nominate satisfactory men while the Democratic candidates are unsatisfactory, the league will support the Republican—not because

they are Republicans, but because on this issue their attitude is satisfactory. If anywhere some candidates of both parties are unsatisfactory and some are satisfactory, the league will support the most satisfactory ones from both tickets.

If anywhere none (or not enough) of the Democratic and Republican candidates are satisfactory the league will sup-port enough satisfactory Prohibitionists or Independents to make the requisite

The league will support any member of the last legislature of either party who voted for its local option bill against any fight made upon him by the liquor interests because of that vote.

The league does not ask any party to declare in its platform for the proposed bill. It prefers that local option should not thus be made a party issue. The leagne does not ask the party leaders to help pass the bill. It asks solely that they shall keep their hands off.

### The President's African Trip.

Mr. Carl E. Akeley, an African scientific exployer, of Chicago, visited the White House, one day last week, and Dr. Moriarty called attention to the had a talk with President Roosevelt over his proposed African expedition.

President on his trip to Africa, but two of the men who were with him will members of the President's party. They are Edmund Heller, a noted mamma-logist, who has spent years in Central America and Africa studying the species whose habitat the Roosevelt party will visit, and E. J. Cunninghame. The latter had charge of Mr. Akeley's "safari," or carnvan, and will serve in a like capacity for the President. The Akeley expedition extended from October, 1905, to December, 1906, and was undertaken in the behalf of science, as will be the Roosevelt expedition. Although the President's expedition will cover more territory than did Mr. Akeley, owing to the more extensive arrangements and facili-ties at the President's disposal, the trip will be made in a somewhat shorter period, it is said.

Mr. Akeley is confident that the President will be able to secure many fine specimens with which to enrich the National Museum at the capital of his coun-In portions of the country through which the Roosevelt "safari" will pass at least 50 different species of antelope abound, Mr. Akeley says, and as only one species is to be found in the United States, Mr. Akeley believes that the President will secure an excellent collection of these animals. He is equally confident that the President will find lions, tigers, elephants and other big game in sufficient number to give him an adven-

### Miners Sue Railroad.

Philadelphia, Pa., November 23.-Suits for damages aggregating \$338,606 have been instituted in the United States Circuit Court against the Pennsylvania Railroad Company for alleged discrimination in coal cars by the Puritan Coal Mining Company and the Stineman Coal Mining Company. The plaintiffs were the owners of bitu-

minous coal mines in Cambria county, and in their statements of claim filed to day it is averred that from April 1, 1902, until January 1, 1905, they had a constant demand for coal, greatly in excess of the tonnage of the cars furnished by the Pennsylvania.

The railroad, it is alleged, arbitrarily assumed the right to determine the ca-pacity of the plaintiffs to produce coal and the number of cars, and unduly discriminated in favor of the Berwind-White Coal Mining Company, which had mines adjacent to those of the plaintiffs.

It is also alleged that the defendant, to the disadvantage of the plaintiffs, transferred to the control of the Berwind-White Company 1,000 steel cars of large capacity, thus decreasing the percentage

of the plaintiffs' allotment. The Stineman Company brings additional charges that the Altoona Coal and

#### The Electoral System.

Washington, Nov. 24.—The Department of State is preparing to send out formal notification to the Governors of each State that they are required under the law to forward certified copies of the

in January next, at such place as the Legislature of their State may direct. The electors cast their votes on that day, and under the law the certificates and lists of votes for President and Vice-President must be forwarded to the President of the Senate as soon as possible after that time. Whenever a certificate of votes from any State has not been received in Washington on the fourth Monday in January, the Secretary of State, by law, is required to send a special messanger to the district indexes a special messenger to the district judge in whose custody one cerificate of the votes from that State has been lodged, and the judge transmits the list to the

seat of government.

The Governor must transmit to the Secretary of State a certificate setting forth the names of the electors chosen and the number of votes cast for each elector. These certificates show how many votes each elector receives and

which electors have been chosen.

In the State Department files is to be found a series of heavily bound volumes in which the certificates of previous Presidential elections are preserved. These certificates are not uniform, but vary in size, appearance and character, this being largely because the laws of the States differ respecting the manner in which the electors are chosen. The notification will be sent to the Governotic than the state of the covernor of the covernor of the state of the covernor of the co nors about December 1.

Controversies concerning the eligibili-ty of electors must be determined under judicial or other procedures, in con-formity with State laws, and all such determinations made at least six days before the electors are required to meet

and vote.
Whenever there has been a controversy and the contest has been decided the Governor has to transmit to the Secretary of State a certificate of such determination. Under the law the Secretary of State is compelled to have each certificate published in full in a newspaper and transmit copies of the certifi-cate to both branches of Congress, which meets on the second Wednesday in February for the purpose of opening and counting the electoral vote. This will take place in the hall of the House of Representatives, with both the Senate and the House present, and the President of the Senate as presiding officer.-

### Adams County Cattle Not Affected.

Dr. M. Moriarty, representative of the State Livestock Sanitary Board in Adams County, said to a *Times* reporter in an interview Monday morning that the dread foot and mouth disease which is working such havoc in various portions of the state has not yet appeared in Adams County and is not likely to do so-

fact that the infection is reported as existing in three herds in the lower part Mr. Akeley will not accompany the of York County and that this is the nearest approach the disease has made towards Adams County

Every day the local representative receives a communication from the State Board advising him of the progress of the disease and giving instructions for the prevention of it and the measures to be taken should it appear. Dr. Moriarty is especially anxious that, should any farmer or dairyman in this county discover symptoms of this disease in their cattle, that he be notified immediately. He cautions the unfortunate cattle owner strongly against attempting to treat the

Pennsylvania is supported in its fight against the foot and mouth disease by the National government and the latter pays two-thirds of the cost of killing all infected herds. The owners need only have their herds inspected and if it is found necessary to kill them they are paid at once full value for the cattle.

A well-known Adams County cattle dealer expects to import several carloads during the next few days and the question was raised here as to whether this would be allowed. As the cattle come from Chicago stock yards there will be no trouble as that part of the country is entirely free from the disease. New York and some portions of Pennylvania being the only places suffering.

The cattle which are now on their way here will be inspected at Pittsburg and no danger need be felt concerning them as they will be allowed to come through only after the most rigid examination. Coming from sections where the foot and mouth disease have not vet made their appearance it is practically impossible for them to have any trace of the dread disease. - Gettysburg Times.

### Our Very Best Offer.

We have the best combination offer we have ever been able to make as an inducement to persons to become subscribers to THE CAR-ROLL RECORD. Unfortunately, we are not permitted to advertise it in our columns, but can only say this; that we will send to all new subscribers between now and February 1, absolutely free of charge, a six month subscription to a splendid Illustrated undenominational Religious weekly-one of the largest and best known papers in this country-along with the RECORD for one year, for only \$1.00 for the two.

Send us your subscription and ask no questions. You will get the biggest Dollar's Worth you ever received, a statement which we make knowingly and without reserve. Tell your friends about it.

After all, being Presi-

the ideas of Mr. Taft, so far as he can as will be demanded by the incoming administration, or there will be war between the new President and Congress. Good for Mr. Taft; he means to carry out ante election pledges.

WHATA HORRIBLE recital, after all, was it. A life illegally taken, and a legal observant and apt pupils. Those who little longer. A story of most disgusting fail to observe and profit by corrections details, and yet, hundreds heard and read them with the greatest interest, and the evidence was discussed pro and con, as the leading topic of the day. Sometimes one is led to think that Foreign Mission work, after all, is misapplied effort.

### Is it Right, or Wrong?

Dr. Clark in his annual report of the Springfield Asylum, states that alcohol is the prime cause of the majority of cases of insanity. As the majority of murder and assault cases, as well as disturbances of the peace and family troubles are directly, or indirectly, due to the same cause, it is well worth considering whether alcohol does not produce a hundred fold more evil than measured misery and unhappiness.

But neither Christ wrong?

#### Writing for Newspapers.

The RECORD always wants meritorious articles for publication, but at times we are compelled to decline some of the efforts sent in, especially those which represent merely a play on words, without merit, either as news or literary productions. This is particularly true of poetry-so called. Almost anybody can hang together a lot of words which rhyme at the ends of the lines, but very few can write real poetry. Certainly, only those who are accomplished prose writers should attempt versification,

seriously. It is a mistake, on the part of newspaper contributors, to think that the Editor is anxious, and always waiting, for "Just anything to print." He has much higher desires, but is not so exact-After all, what does the publication of ly particular as to discourage the average person from writing, especially on topics worth while, even if they be not prepared in a scholarly manner. Indeed, for fear of being too choicy, or that he may scare away desired but modest con-As rules for cutting off debate in that tributors, he is apt to be very liberal with space.

Absolutely sincere tariff revision hand-writing. It is also frequently true that the most carefully prepared and mechanically perfect articles are of the least interest and value.

Newspaper correspondence, in reality, is an art, which, in its highest form, is possessed by but few; but, it is at the same time one in which the least exthe recent murder trial, in Westminster perienced and well equipped can make -there was hardly a redeeming side to decided improvement, simply by being fight made to save another life, just a continuously misspel simple words, and made in their work, do not get the full government revenue at too great a cost benefit of their experience, which is also true of those who fail to notice the omission of items sent in, which in many instances represents a hint that such items are not wanted.

There are however, very few communications entirely refused, as compared with the number received, for it must be very poor stuff indeed which the Editor can not work over, in some way, for he is desirous of having as large a list of contributors as possible, and never takes pleasure in dumping well-meant articles into the waste basket.

### Christmas Giving.

#### A Political Question Which Interests Everybody.

The Parcels Post system ought to be considered on its merits, and not as a means of supplying a large postal deficit on account of Rural Free Delivery. There was a time-when R. F. D. was first established-when we were told that the system would be self-supporting, and even official figures were given to sustain the claim; now, we are told the opposite, and the remedy proposed is one which, in its establishment, may be as faulty in results as was the claim made for the establishment of Rural Delivery. It is at least apparent that there is reasonable doubt as to the beneficial outcome of the Parcels Post system, to the whole country. A few things are very clear; it would benefit, very largely, the mail order houses and large city stores, and would extend the principle of "free trade", while it would correspondingly injure the small retail business of the country, and indirectly all the interests which are now benefitted by prosperous tradesmen in prosperous towns. Apparently it would also strike a hard blow at the express monopoly, which now takes advantage of our excessively high postal rates on packages of merchandise.

It is evident that there must be no curtailment of R. F. D. extension, and also that additional postal revenues must be secured, but it is not clear that the Parcels Post offers the best and only means of securing it. To the uninitiated, the reduction of foreign letter postage from five cents to two cents seems an illogical thing to do in the face of such an urgent demand for more postal, revenue, but it has been done. If this be a revenue producing plan, why not reduce domestic rates of postage on packages, but retain the four pound limit?

It also seems first in order to give the Parcels Post idea a limited trial, such as could easily be done over R. F. D. routes, without extending to direct interference with the business prosperity of the country. We are not in favor of continuing to protect the express monopoly by retaining high postal rates, nor are we in favor of extending the monopolistic power of the mail order giants, which, as a rule, do not actually benefit those who deal with them, but which drain rural districts, annually, of vast sums of money which should re- restriction of the liquor traffic by the main in local circulation for local pros-

The Parcels Post proposition, as we see it, should be wisely and fully considered, from every point of view, and haste in that direction made very slowly. ance? There is such a thing as securing more to the people, and this could easily result from the plan of carrying large packages by mail at a very low cost, which, in few words, is what the Parcels Post proposition stands for.

### How to Cure a Cold.

sionally take cold, and when you do, get a medicine of known reliability, one that has an established reputation and that is certain to effect a quick cure. medicine Cough Remedy. It has gained a world wide reputation by its remarkable cures of this most common ailment, and can always be depended upon. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. During the many years in which it has been in general use we have yet to learn of a single case was used, which shows conclusively that it is a certain preventive of that danger-Chamberlain's Cough ous disease. to a baby as to an adult. #### Resolution of the Catholic Abstinence Union.

The Catholic Total Abstinence Union and devoutly.

With indignation this Union protests

in the various trades and more responsitive of their pocketbooks in anticipation are necessary for life is the Catholic definition of temperance. To eat or Selfish giving, too, is much too com- drink merely for pleasure is a sin. In even the necessities of life, or through The temperance man must use this world season, are unrecognized. Fortunately, creep into even good men's lives. Christ are worthy cases in every neighborhood we are honest enough to call them by tion of our Christmas generosity and nor His church will have mercy on hypocrites and deceivers who claim to be eminently temperate because they are not drunkards. We do not ask every bloated glutton to sign a pledge of total abstinance, but we do insist that he respect those of us who believe that if any man would come after Christ he must deny himself and walk soberly and

> Catholic total abstainers should be able to give an account of the faith that is in them. They should read temperance literature and by prayer and study become apostles of sobriety. Above all, those who preach the Gospel should study what the Gospel aims at rather than what theology permits. Cowardice has silenced many a man who should speak out for individual sobriety and public decency. "He that denies Me him will I denv before My Heavenly Father.

Catholic periodicals that cannot live without liquor advertisements should die. Let them not drag down the Catholic name in their greed. Those who love the name Catholic must not permit it to be used by the traffickers in politics or in printer's ink.

We earnestly suggest that Catholic organizations which exclude saloon keepers from membership and which forbid the use of liquor at their meetings should not tolerate the formation of clubs within their membership which despise the spirit of those laws that have been made by their organizations for the honor of Catholic name.

This national union urges all its subordinate unions to enter into every movement that tends to silence the enemies of sobriety. The press must be made to fear the forces for decency as much as it fears the power of the brewer and the distiller. Where the press is decent it should be used for the education of the people in the principles of total absti-

While this national union cannot determine the policy which each subordinate union ought to pursue, it commends with joy the achievements of such local bodies as have helped to cripple saloons of their locality in any way. Local option gives the citizens the opportunity to restrain the arrogance of the saloon power. Let no temperance man miss such opportunity. Our pledge contains more than a promise of personal abstinence. It demands that we should do what we can "to discourage the drinking habits of society." Let no one be deceived. If power which local option puts into the hands of citizens does not make for a lessening of the use of intoxicating drink why do brewers and distillers enotest every inch of ground gained for temper-

The Anti-Saloon League has our hearty sympathy, and we rejoice that our subordinate unions have aided in its good work of banishing the saloon wherever this breeding place of iniquity can be banished. The Anti-Saloon League has struck the keynote of practical opposition to the saloon-it has joined intelligence to zeal and has become the most effective Be as careful as you can you will occa- enemy of the saloon. Let all Catholics take their consciences with them to the ballot box and prove the honesty of their

We congratulate these divisions of the Ancient Order of Hibernians which have repudiated the efforts made by the saloonkeepers and others to identify the Irish flag with the saloon business. It is no love of Irish ideals, but the basest greed that inspires the lavish display of the green flag over some saloons on festival days. Such display is an insult to every Irishman's intelligence as well as a reflection upon every Irishman's character. Irishmen are everywhere character. Irishmen are everywhere leaders of the temperance hosts, and few are proud of their countrymen who are in the saloon business

There should be only one opinion among Catholics as to the closing of the saloons on Sundays. The hierarchy of the country has declared its mind on the subject. We believe that those who feel that the American Sunday hampers their personal liberty ought to have stayed in their own country or ought to hasten back if they cannot content themselves

### Seven Years of Proof.

"I have had seven years of proof that Dr. King's New Discovery is the best medicine to take for coughs and colds and for every diseased condition of throat, chest or lungs," says W. V. Henry, of Panama, Mo. The world has edy for coughs and colds, la grippe asthma, hay fever, bronchitis, hemorrhage of the lungs, and the early stages of consumption. Its timely use always prevents the development of pneumonia. Sold under guarantee at R. S. McKinney's drug store. 50c and \$1.00. Trial

AN INEXPENSIVE ICEHOUSE.

No Reason Why the Farmer Should Be Without It.

An icehouse and cool room may be constructed as follows: Excavate a half cellar in a perfectly dry place, hydraulic cement. The floor is cemented. A frame or other building is built upon this basement to contain the ice. Twelve feet square will be large enough for a moderate sized fam-

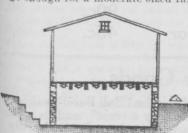

FIG. I.-ICEHOUSE AND COOL ROOM. lly, as an icehouse of that size will

hold about twenty loads or tons of ice. The main point is the division between the icehouse and the room below it. This must be perfectly air tight and a moderately good conductor following manner:

Beams of sufficient strength are laid across and the ends well bedded in cement. A floor of zinc sheets is then spring. laid upon the beams, the sheets being closely nailed to the beams upon strips of rubber sheeting to make the joints water and air tight. The beams should be dressed smoothly. The zinc sheets are bent, as shown in the illustration (Fig. 2). This is for the purpose of causing the moisture, which will condense upon the underside of this ceiling, to flow downward to the lower angle, where it will drip. The drip is caught in the little gutters of zinc shown in the figure attached to the ceiling and is carried off by a proper drain. With this water will also be carried off much of the impurity of the atmosphere, and if very little ventilation is given there will be little condensation and the air will be kept dry. This point must be well attended to, as the danger of excessive ventilation is very great. The beams and tine ceiling should be painted with White paint-lead and oil,

Above the zinc ceiling a thin layer of dry, fresh sawdust should be laid smoothly, and a floor of matched pine boards should be laid upon that and This floor should slope a little to one corner so as to draw the waste water from the ice there, and an S trap drain which the manure is applied. Land should be laid from that to carry off tloned. The usual layer of sawdust is needs manure. Make the application ald upon this floor to prevent too raplight and even, and only a spreader onveyance of heat from below to can do the work well. In the interest

Market Hogs. is below other products this kind of using very soft cloth bandages or hog sells for less than the light weight which will make handy pork loins and 800d hams without too much fat or. hem. Taking one year with another in eastern markets, the hog of 180 to pounds will hit the top oftener than any other weight. In western markets hogs of around 250 pounds probably average best. Sometimes lighter or heavier hogs will outthese grades, according to the ductuations in price of the product. In summer hog prices cover the widest range because there is the greatest difference in the yield of product at season. In the winter all hogs are 1 fed and yield more uniform quantitles of product. In summer many grassers that make low yields and inferior quality to corn fed hogs. A 200 pound hog that dresses 80 per Yields 160 pounds, one that dresses 75 per cent yields 150 pounds, and one yields that dresses 70 per cent yields 140 pounds, an enormous differtee in a carload of hogs, which the on foot. As a rule, of late the hooks at the top of the market bethey have yielded so much more oduct than the others, which looked the breed that killers like best, re than any other breed. But hogs

er black, white, red or spetted.

#### THE KING OF FRUITS.

No Other Disputes the Reign of the Popular Apple.

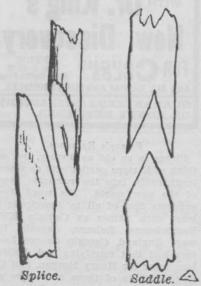

Whatever temporary allegiance we may owe to other fruits in their season, the apple is the acknowledged king. The orange, the pear, the plum, the grape and other products of the orchard all have their place of honor, but it is only the apple that is with us always. Scarcely have the winter apples of last season disappeared, scarcely has the last well preserved Baldwin been taken from the bottom of the barrel, when the summer apples from which the surface slopes (or may of the new season are ready for eatbe made to slope) in all directions, so ing. And what is more welcome, what as to prevent danger of moisture from is more fragrant, what is more luswant of drainage. A stone or brick clous to the taste and more beautiful wall is built around this and laid in to the sight than the reddening August boughs of the summer apple trees?

But, however delightful the summer and autumn apples may be, their short life deprives them of the perennial place in our esteem that we award to the Baldwin, the Northern Spy, the Hubbardston, the King and dozens of other varieties. Ripening when the first snows of winter are imminent, if they receive their deserved treatment of a cool habitat in a well ventilated cellar they will remain sound and eatable well on toward the opening of another apple season. But they as well as all apples must be well treated. An expert pomologist has said that apples should be handled as if they were eggs, and he is not far from wrong. The slightest bruise means the instant beginning of decay, and one rotten apple can infect an entire barrel. Lovers of apples should therefore learn that care is essential to the preservation of fruit of heat. The floor may be laid in the and that the better they are treated the longer the store will remain sound and healthy to meet the demands made upon it throughout the winter and

The Manure Spreader. There are not many farm implements that will pay for themselves more quickly than a manure spreader It saves labor, but that is not the big part of the profit. Some men must hesitate about a purchase if it means only a saving of labor. The use of the spreader means a great increase in the efficiency of the farm supply of manure. Some men cannot see this point. They say that they get the manure on the land and that is all that is necessary. But it isn't. Manure gives life to a soil even when the application is light, and it is poor policy to give one spot more than is needed while another spot is left bare or to make a heavy application to one acre and leave another acre without manure. We now know that it pays to make the manure go over a relatively large acreage. Director Thorne of the Ohio station has said that eight loads of manure per acre applied with a spreader have about as great efficiency as twelve loads put on roughly roughly coated with melted pitch. with a fork. Every foot gets a little of the material, and the effect is seen in the sod that follows or the sod to should not have a heavy dressing of water into the drain above men- manure when other land in the farm the ice above. Small double windows of better sods, which are the life of a soil, add to the efficiency of the manure by using a spreader. Some farming communities have learned this lesson thoroughly well, while others have barely awakened to it.

Potatomatoes.

In grafting the tomato on the potato low to prevent access of heat from the or the potato on tomato, or in making outside, and they should be fitted air any other graft of similar herbaceous Ventilation should be provided plants, the simpler methods are pretor by means of a wooden pipe with a ferred. The rest of want -ill top the market, wheth- the process is carried out exactly as elready described for the splice graft.

#### HOLSTEIN RECORDS.

Great Work of These Animals \*\* Shown by Official Tests.

During the last official year 1,725 Holstein cows and heifers of all ages were officially tested for a period of at least seven consecutive days, producing for that time 659,840.6 pounds of milk containing 22,629.929 pounds of butter fat and thus showing an average of over 3.41 per cent fat. The average production for each animal was 382.5 pounds of milk containing 13.119 pounds of butter fat, equivalent to nearly 27 quarts of milk per day and 151/4 pounds of the best commercial butter per week.

During the year 131 animals of all of thirty consecutive days, producing in that time 257,253.3 pounds of milk containing 8,876.896 pounds of butter fat and showing an average of 3.45 per cent fat. The average for each animal was 1,963.8 pounds of milk containing 67.762 pounds of butter fat, equivalent to 291/4 eight gallon cans of mik, or over 79 pounds of the best

PURE BRED HOLSTEIN. commercial butter. This average exceeds that of the preceding year by

104 pounds of milk and nearly 6 pounds of butter fat.

The great work that Holstein-Friesian cows are doing is shown by the fact that to the close of this volume of the Advanced Register 54 animals have made seven day records in ex-54 cows averaged 578.7 pounds of milk containing 22.662 pounds of butter fat, thus showing an average of 3.92 per cent fat, and every well informed person knows that this amount of fat is plication of water. equivalent to 26 1-3 pounds of the best of commercial butter

Dairy Cow's Ration.

Professor C. L. Beach, a man well informed on the feeding of dairy cows, gives the following advice in preparing not need any surplus flesh.

The more food the cow can be induced to eat the more milk she will mares with good dispositions, produces produce. Cows do not usually consume more food than they can properly digest. The ration, therefore, should be made as palatable as possible in order to induce the cow to eat larger quantities. The larger the amount of propart of his profit. No two cows can be ration and watch the milk flow.

### THE SWINEHERD.

The word develop is often misused for the word fatten. This is a mis-

Some Points on Feeding.

A breeder who has had much suc cess in raising pigs gives this advice: No food is equal to skimmilk and but termilk for young pigs. Feed at a to feed sour slops. Feeding a few formed in preference to others.

ounces of ground bone to young pigs will help make them stronger in bone. enabling them to carry more flesh than those that are not fed that kind of old enough to eat should be placed in pens by themselves. In giving a January shall go to the next national hog medicine the best and safest plan is to give it in his feed. Get rid of the sow that does not prove to be a good mother. It is a mistake to give the pig too much food. Overfeeding is as bad as underfeeding.

#### Alfalfa In Pork Production.

The North Platte substation of Nebraska recently made a report which gives some valuable data on the value of alfalfa in pork production. With mature hogs, thin in fiesh, they report ages were officially tested for a period daily gains of one-half pound. The result of feeding varying amounts of corn to pigs on alfalfa pasture seemed to indicate that the light grain ration was not the most economical. The most profit was returned where the pigs were fed corn at the rate of about two pounds daily per hundred weight

Crude Oil For Swine.

Some time ago we ordered a barrel of crude petroleum principally for the hogs, says a breeder. We have tried it in a number of ways. As a disin fectant it excels the refined product in the point of not evaporating so quickly, but being thicker it is not so easy to apply. It does not work well in the small sprinkling can. It somewhat disfigures the appearance of : hog for a week or two if he be light colored. Yet it does not burn the skin. M. Doty, formerly a member of the sist that the teamster handle the as kerosene sometimes does. It is excellent about the poultry house, especially when painted on the roosting poles. We believe the crude oil is a good tonic for the hogs, as we noted after sprinkling a few spoonfuls on

Health of the Work Horse.

A half pint of flaxseed jelly once or twice a day added to the ration will work wonders in a horse's condition. The jelly is made by pouring boiling cess of 21 pounds of butter fat. These water on whole flaxseed and allowing it to jell.

> Scratches in horses will never occur when the mud has been allowed to dry and then brushed off without the ap-

A remedy for scratches is oxide of zinc, one dram; vaseline, one ounce. Never apply water to the legs.

Hard driving to the horse is what fast living is to man; he cannot keep

Horses which have to work hard do

to train to the slow work of the farm.

Vacuum For Cleaning Horses

The vacuum machine as used for cleaning the furnishings of homes and tein in the ration the larger the milk office buildings has become a familiar flow. Protein in the ration is essen- sight in nearly all parts of the countial to the production of milk. The less try, but such a machine used for energy required to digest the ration cleaning horses is new to most peothe larger the milk flow. The richer ple. A horse can be thoroughly cleanthe ration the richer the manure. The ed by the machine in from three to dairy farmer must look here for a large five minutes, while with the ordinary currycomb and brush the task takes fed alike. Each must be studied dif. from twenty minutes to an hour of ferently. Increase the protein in the vigorous rubbing. According to Popular Mechanics, it removes all dirt on the animal's skin, cleaning both the surface and the pores.

Grieg's Tomb.

The last resting place of the great Norwegian composer, Edward Grieg. is one of the most beautiful in its natural surroundings that could be imtake. In order to develop a pig he agined. By the side of a lake, at the must have suitable food to keep up a extremity of a fiord, close to the comgood growth of bone and muscle and poser's native town of Bergen, there regular exercise to give him strength is a natural grotto formed in the solid rock, which rises precipitously from the water's edge. Here the remains of the famous musician are interred. The grotto is only accessible from the lake. The town of Bergen intends to erect a concert hall in memory of the regular hour each day and see that composer, which will bear his name all get their share. It is a mistake and where Grieg's works will be per-

### THE GRANGE

J. W. DARROW, Chatham, N. Y., Press Correspondent New York State

#### PENNSYLVANIA STATE GRANGE

The Next Annual Meeting to Be Held at Altoona In December.

The next annual meeting of the Pennsylvania state grange will be held in Altoona in December. The full corps of officers will be elected for : term of two years. State Master Hill is working hard to make the member ship of that state 100,000. In a recent address he said:

"Among the fraternal organizations there is none more potent than the grange. It came into existence fortyone years ago to fill a want. It continues to live and gain in strength and influence because it meets the social, educational, political and financial needs existing throughout the country today. Farmers in Pennsylvania rely upon the grange now as never before. and this nonpartisan, nonsectarian organization never hesitates to assume leadership for the betterment of farm conditions and the development of strong rural citizenship.'

A correspondent writing of grange work in Pennsylvania says that the grange is making very satisfactory growth in that state. Since the last state grange meeting twenty-one new granges have been organized and six dormant ones reorganized and one Pomona organized. The initiations in the old granges are fully equal to any

"We are a good deal worked up over national grange, and no less so at the arbitrary way in which the national grange authorities dictate as to where gain. Water is fattening also, and the the Order shall be planted and where food. Salt fed daily greatly increases not. That states which do not have the gain from the feed consumed. Pigs as many granges in them all told as we have organized since the 1st of grange meeting and have as much to say as we shall is un-American and unfair. If the Order is to continue to grow in this state there must be justice done. food they should have If the strong states will stand together in the matter it can be done peaceably. The fact is it must be done, and the sooner those who stand in the way become convinced of that fact the bet-

#### NEW YORK GRANGES.

Some Newsy Notes of the Work In the Empire State.

There are eight juvenile granges in the state. There should be more. Grange fairs are increasing in number every year in New York state.

Jefferson and Lewis county Pomonas have each established a scholarship in the Canton Agricultural school.

Recently a man went through the town of Farmington, N. Y., selling Red Wave wheat for seed at \$5 a bushel, taking orders for about fifty bushels. At a meeting of Farmington grange it was brought out that the same wheat could be bought of a nearby dealer for \$1.75. Many farmers not members of the Order were victimized.

Delegates to Pomona.

In one of the Pomona grange meet ings held recently in New York state a resolution was adopted making the Pomona meeting a delegated bodythat is, delegates were to be elected by the subordinate granges in proportion to their membership. There was some doubt about the constitutionality of this proceeding, and the state master was consulted. He advised that the Pomona is not a delegated body and cannot be made such with out amending the constitution. This item may be of interest to other granges in the state.

Neighbors' Night In the Grange.

Where granges are conveniently lo cated one to another it may be well for them to exchange programmes occasionally-that is, a programme prepared at one grange may be given at a neighboring grange and the exchange be made of mutual interest. Occasional debates between neighboring granges are also interesting and profitable.

Washington State Grange.

For the information of inquirers it may be stated that in the absence of the master of the grange the oversees or a past master of the grange who is presiding has all the prerogatives of

#### THIN HORSES.

Ration That a Breeder Says Will Rapidly Put Flesh on Them.

In the fall work horses often are too thin in flesh to sell well, yet there are more of them on the farm than the owner desires for winter. In that case it may be of benefit to know what to do to get the animal in condition as rapidly as possible.

The following ration has been known to put nearly two and a half pounds of flesh on a horse every may for the first month after it was begun, says a Michigan breeder. At the end of that time he was in fine form and easily worth \$50 more than before. No drugs whatever were given.

For the grain ration give three quarts of whole oats and three quarts of wheat bran three times a day. Put oats and bran in a bucket and add one tablespoonful of raw linseed oil. Then wet the whole with cold water till a stiff mash results. Stir well and give as one ration. Should the horse be old it may be better to feed the oats ground. In every feeding put a level tablespoonful of salt. With this give all the hay the animal will eat, removing what remains in the manger each time. Also give all the water he will drink. It will be well for this purpose to keep a pail of water in the stall where the horse can help himself as he pleases. A box stall is rather better than a narrow one unless the animal is regularly taken out for exercise.

The oil is by some horsemen said to affect the liver, but so far the writer has never seen any unfavorable re sults when given as above recommend ed. Better effects have been gained by period during the year. He further its presence in the ration than with the same grain fed without it. The salt. too, is a benefit. Some horses scour the question of representation in the badly under this feed. The sloppier the mash-that is, the more water it contains-the faster will the horse salt in the ration induces larger consumption of liquid.

The above is recommended for horses of medium size, say around 1,200 pounds. Larger horses require more food and smaller ones probably a little less. This is true of horses at all times. The more weight they carry the more

Handling the Horse.

The horse is a machine capable of doing so much work if full fed, capable of doing less according to the manner of his feeding and the work he has to do. Underfeed him and overload him, and you can soon tell how much he can or, rather, cannot do. When he is underfed and overloaded the driver too often essays to make up the difference in yelling, and vociferousness is the poorest sort of horse feed. One great and redeeming virtue in the man who has to do with horses is silence, says the Breeders' Gazette. Chicago. A horse is a stupid beast at the best. To yell at him is merely to In the thirty-five subordinate granges confuse him, and when a horse is ratin twenty-seven is held by a woman. do. Whether the work be in the field At the "old home" celebration at or the city street the driver who uses Middletown, N. the head, and the feed basket will be

The Hardy Mule. Mules live much longer than horses,

their working age being about twice that of a horse, says a writer in Country Gentleman. Their hoofs are harder, more horny and so slow in growth that the expense of shoeing is about one-half that of the horse. Moreover. the mule, while subject to the same diseases as the horse, is endowed with a stronger constitution, and conse quently one seldom hears of a sick mule. Its ability to work under the most adverse conditions is well known Many cases have been cited of mules working without water for twenty four hours and without food for three days and this without injury to them

zelves. As to the cost of a well matched team of mules, \$600 will purchase good pair f. o. b. in their native town or in any large stockyard. Of course extra fine animals fetch much larger prices; but, considering all their good qualities, \$600 is not a high price, and the writer ventures to say that such a team will prove far cheaper than a

\$400 team of work horses.

#### The Open Window.

Dr. Olsen, a great authority on the subject, writes as follows in Good Health: Every night hundreds of thousands, yes millions of people poison their lungs by breathing over and over again the foul fetid air of shut-in-bed-rooms. Even in the warm summer months the windows remain closed, and the atmosphere is nothing less than filthy. The of it is that people otherwise scrupulously cleanly cannot see that it is the height of uncleanliness to breathe stale, foul air, and compel their friends who call upon

them to breathe it too. Sanitary science is still in its infancy with us. It began with drains. Men recognized that the grosser wastes of the human body must be got rid of in some systematic way if life was to be sweet and wholesome. In very recent times it has begur to recognize the need of light, and some of the dark, dismal slum tenements in our over-crowded cities are being declared unfit for human habita-

Strange to say, the most obvious of all our requirements from the health standpoint is still practically ignored, namely, the primary need of fresh air.

The lungs are excretory organs. Let this apparently unknown fact be writ large in every text book of health. Let it be blazoned on the buildings. Let the public press carry the message into every

Not only are the lungs excretory organs. They are such par excellence. The other excretory organs may cease to functionate, and yet a man lives on ior hours and in some cases days: but when

The air that is expired from the lungs is laden with poisonous waste matter of which there is sufficient in a single breath to contaminate about three cubic feet of good air, rendering it unfit for use. Hence, our living and bedrooms, in order to be in any reasonable degree wholesome, must continually receive new and large supplies of pure air from

The model house of the future will probably be built in large part of porous materials, thus admitting fresh air from all sides, without draughts. The ordinary dwelling-house of to-day is about as nearly air-tight as it can be made, and scientifically less adapted to living purposes than the wigwams of the American Indian or the air dwellings of other savage tribes. In fact it is hardly less than a death trap, and if it were not for the incidental opening of doors in order to go out and in, and the badly-fitting window sashes and a few other crevices here and there, thanks to careless carpenters, the atmosphere of bed-rooms in many houses would soon become abolutely deadly

The best part of a modern house is its windows. To keep these open day and night, and to make the air inside approach as nearly as possible the air outside, should be the first business of the housekeeper. Everything else should be held subservient to the need of fresh air.

#### Cattle Barred From Highways.

Harrisburg, Pa., Nov. 24.—As a result of a report made on the manner in which the foot and mouth disease has been spreading in the fourteen counties of the state under quarantine, the State Live Stock Sanitary Board in special session this afternoon took the unusual precaution of closing the highways to cattle in all of the counties infected.

This will lessen the danger of infection by keeping suspected cattle off the highways. The action was taken in the form of resolutions, which name the counties and refuse the use of the roads to all cattle unless their owners obtain a

The resolutions are as follows On account of the prevalence of foot and mouth disease, a quarantine is hereby established on all public roads and highways in so far as concerns the use of such public roads and highways for the driving, movement or transportation of cattle, sheep, goats or swine in the following named counties, to-wit: Clinton, Union, Snyder, Juniata, Montour, Northumberland, Dauphin, York, Lancaster, Lehigh, Montgomery, Chester, Delaware and Philadelphia.

It is forbidden to drive, transport, or move cattle, sheep, goats or swine over or upon public roads or highways in the counties aforesaid, except upon specific permission in writing from an authorized agent of the State Live Stock Sanitary

Permits for driving, transporting or moving cattle, sheep, goats or swine over the public roads or highways must be taken out in advance and must be held by the person in charge of and accompanying such animals, and must be kept available for inspection. All sheriffs, constables, police officers and officers of the law are called upon to assist in the enforcement of these quarantine regulations.

### A Wasted Joke.

'I don't think I'll try any more prac-tical jokes on my wife. They don't pan out well. Elucidate.'

'You see, she has a habit of hoisting the window in our room every night. As I usually go to bed last, she depends on me to hoist it. Sometimes I forget it, and then there's a wild squabble. Frequently she wakes me up in the night and asks me to see if it is open. If I

don't she nags at me until morning.
"A night or two ago I resolved to give her a hard scare. I rolled up a lot of old newspapers into a long bundle and laid the package down by the window. Of course she was asleep and didn't hear me. Then I opened the window a little If you don't nobody will. It is your me. Then I opened the window a little business to keep out of all the trouble and crept into bed. Some time after

midnight she nudged me and said. ''Jim, I'm sure you didn't open that window. It's like a bake oven in the Get up and see.

"So I got up, went to the window and threw the sash as high as it wou'd go. As I did so I gave a little shriek and then flung my bundle down the walk below. It struck with a dull thud, and I dodged behind the question to a wait de-I dodged behind the curtain to await developments. The room was very dark and I couldn't see my wife, but I heard her raise herself to a sitting posture.

Then she spoke.
'Poor old Jim! she quietly said. 'He's tumbled out of the window in his raggedest nightshirt. What a spectacle he'll be when they find him in the morn-Then she lay down again and went to sleep.'
'What did you do?''

'Stood there shivering for a minute or two and then sneaked into bed.''—Cleve-land *Plain Dealer*.

The Uses of Adversity. "Grogan," said the head of the department store, eying him sharply, 'you've quit drinking, haven't you?" Yes, sor," answered the red headed Mibernian who worked in the packing department. "I haven't taken a thrink av annything sthronger th'n eed tay f'r three months."

"I am glad to hear it, Grogan. I'll make it an object to you to stay quit. But how did you break yourself of the habit?

"Be hittin' me thumb nail wid a hammer whin I was packin' a box o'

"I don't see how that could cure

"Well, Misther Barker, it was this way. If I'd been sober, d'ye moind, I'd niver have done it, but I wasn't. Whin I whacked me thumb instead av the nail I was thryin' to dhrive it made a black spot at the root av me thumb nail. I says to mesilf: 'Grogan, I'll punish ye f'r that. Ye shan't have a dhrink av ayther beer 'r whusky until that black spot has gone.'

"Well, sor, it was two months befure it had growed out to the end o' me thumb an' I cud cut it off, an' be that time I'd lost all me appetite f'r beer an' whusky.

"Thin I says to meself: 'Grogan, I'll reward ye f'r that. Ye're a sober man now, an' ye'll stay sober.' That's the whole story, sor."-Youth's Companion.

#### The Russian Joke Teller.

Story telling and jesting have always been counted the favorite amusements of semibarbaric people. To the first we owe the "Arabian Nights' and to the second the clowns, who were formerly the appendage of all great houses. In Russia the paid joker still flourishes, and the people pay so much an hour to listen to his jokes and witticisms. He provides himself with two or three hundred tickets, and, mounting a sort of rostrum, he announces that he is going to regale his audience with choice tidbits of mirth provoking lore. He begins selling tickets at a penny each. and when he has sold enough to warrant his beginning he turns himself loose, and the audience remains spellbound by his humorous stories for an hour or two. A recent traveler who saw a number of these jokers in St. Petersburg says, "I listened to them several times, and, although I could not understand one word the joker said, I was sure from the way the audience greeted his stories with roars of laughter that the jokes were above the average.'

#### Adam, Eve and Some Apples. How many apples did Adam and Eve

Some say Eve 8 and Adam 2, a total of 10. Others say Eve 8 and Adam 8 also; total, 16. But if Eve 8 and Adam 82, the total will be 90. Now, if Eve 8 1 and Adam 8 1 2 the total would be 893. Then if Eve 811st and Adam 812 the total would be 1,623. Or, again, Eve 814 Adam, Adam 81242 oblige Eve, total 82,056. Though we admit Eve 814 Adam, Adam, if he 8181 242 keep Eve company; total, 8, 182, 056. All wrong. Eve, when she 81812 many and probably felt sorry for it, and Adam, in order to relieve her grief, 812; therefore Adam if he 818 14240-fy Eve's depressed spirit; hence both ate 81.896,864 apple -Kansas City Independent.

Marriage Customs In Savage Africa. The charge which is sometimes brought against white men of "marrying for money" cannot be used against their sex in Africa, for there it is the other way about, husbands having to purchase their wives. When a man has a wife bestowed upon him as an act of charity he feels that she is not properly his own, and she, if she will, can treat him with contempt. This custom of wife purchase, although it is to be decried as tending to lower marriage to the level of a commercial contract, is an incentive to young men to work. Lazy youths cannot compete with energetic ones in the matrimonial market, as they are despised by the young women and rejected by their parents as being unworthy of their daughters.-Wide World Magazine.

### Sea Roses.

The sea rose is a leathery looking creature which attaches itself to a stone at the bottom of the sea in its infancy and ultimately attains a size about three inches in length and an inch and a half in breadth. When quiet and feeding under water its top opens and blossoms into the semblance of a large pink rose, with petals fully an inch long, a really handsome object. As soon as it is disturbed, however, it shuts itself resolutely into its leather pod.

### Southern Spoon Corn Bread.

Pour two cupfuls boiling water over a cupful cornmeal; cook five minutes, stirring continually; add a tablespoonful butter, two eggs well beaten, a cupful milk, a teaspoonful salt; beat thoroughly, pour into a well greased baking dish and bake thirty-five minutes in hot oven. Serve from the dish in which it is baked.-What to Eat.

Piracy's Romance.

Piracy is as old as history, but we think of it more particularly as woven inextricably into the romantic youth of the new world. The word itself suggests first of all to Americans at least such names as Captain Kidd, Bartholomew Roberts, Captain Edward England, Captain George Lowther and that terrifying and dashing buccaneer Sir Henry Morgan, and the chief exploits of these men were accomplished at the expense of the coast of North America and the much harried shores of the Caribbean. The history of piracy is full of drama, stirring action and daring deeds, and it is on this account rather than because of its darker side of fire, murder, killing and inhuman cruelty that children even today, years after the last of the genuine pirates has been swept from the seas, are constantly playing in imitation of piratical exploits and that men and women still find a unique fascination in reading of the followers of the black flag.-Jackson Cross in Metropolitan Magazine.

Like the Roar, the Roll and the Rattle of a Great Battle Is the Noise of the Exploding Stalks That Sometimes Shoot High Into the Air.

When the forests are afire, when the smoke makes dusk at noon and reddens the harvest moon a thousand miles away, there is the measure of a conflagration. When the prairies burn, as they used to before farms had crept upon the endless miles of grass. there was a fire which ran like mad and left behind it a blackened trail of death. If one could combine the speed of the prairie fire with the tumult of the blazing forest, that would be fire indeed.

Such a combination is effected when the bamboo groves catch fire. The bamboo is but a grass, a grass with the height of a tree, swaying stems reaching 100, even 150, feet in air.

In Cambodia, where the bamboo groves along the rivers cover the space of forests, it is no unusual thing for fires to break out and sweep all before them for many miles. If the summer has been dry the bamboo turns sea: and inflammable as any grass.

All that is needed is a spark; then ruin runs red. It is not necessary to upon the carelessness of the woodsman to start the blaze. The bamboo can kindle itself.

Let two swaying stalks of dry bamboo be set in motion by the breeze, let One rub across the other long enough. and the friction will set the spark, and the long dry leaves will feed the flame. It is known that many fires of the bamboo forests thus originate. Perhaps it was from observing such a sight that primitive man learned the Promethean secret. That theory has been advanced.

As soon as a flame in the bamboos has crept to the level of the tossing tips it spreads like wildfire. The wind arries a sheet of flame along the grove at tremendous speed. Some observers 8ay that such fires have been seen to move forward at the rate of more than mile a minute. Seen from below, it looks as if she sky had burst into an ustant flash of flame.

From such a burst of fire there could be no escape. Fortunately it passes high overhead at the tops of the bam-000s. It serves as a warning to the raveler who may be making his way along some one of the water courses by which the forest is intersected. The bamboo itself is almost an obstacle to travel of any sort. It is well nigh im-Possible to force a way through it except by the slow and toilsome labor of

bewing out a path. The fire in the great trunks moves More slowly, and if warning be taken may be possible to sink one's boat and throw up wet herbage and clay against the bank of the stream to prolde shelter until the furnace blast has blown by. Such a fire in the bamhas not only the speed of the prattle fire on its sweep overhead, but it as the same volume of fuel as is ound in any forest fire. It combines the two types.

Bamboo forest fires have another Quality which is all their own. They bang and rattle with thunderous crashes, as of artillery fire, without essation.

The stalks of these tree bamboos are requently more than a foot in diameter. Near the ground the joints are close together; in the younger growth nodes may be several feet apart. But, long or short as they may be, each joint of the sun dried bamboo is a ghtly sealed chamber filled with air. he partitions between the cavities are angularly tough; the outside rind of the stalks is almost pure flint.

When the blast of the flame sweeps onward the air in the stalks upon which it is driven is suddenly heated a very high temperature. The residof moisture which may be in the stems is immediately transformed into steam and at once subjected to superheating, thus becoming a violent explo-As the hot breath of the flame becomes hotter these joints burst with ud cannon discharges.

Sometimes the force of the explosion hear the roots is so great as to shoot the stalk like a javelin high into the Where it flashes into torchlike and is carried by the wind to spread wider disaster. The bursting the smaller joints is like the roll and rattle of rifles and machine guns. The effect is that of a battle hotly contest ed. Washington Post.

An Aquatic Outfielder.

One day a ship was lying at anchor at Boca Grande when the crew observed a dolphin chasing a flying fish. both coming directly toward the ship nearing the vessel the flier arose the air and passed over the bow Just abaft the foremast. As it did so dolphin went under the ship and. Coming up on the other side, sprang the water and caught the flying Oh "the fly" just as it was curving gracefully down in its descent to the water.—Punta Gorda Herald.

Missing Opportunities. "I have no patience with a man who hakes the same mistake twice," said hes, rather severely, in speaking of an unfortunate friend.

Neither have I," agreed his wife. when there are so many other mis takes to make."—Youth's Companion.

He that studieth revenge keepeth his own wounds green.—Bacon.

#### CHOICE MISCELLANY

Cremation Still Unpopular.

In spite of the strong sanitary arguments advanced in favor of it the practice of cremating dead bodies of human beings is but slowly gaining favor. This fact is confessed in the annual report of the French International Cremation society at Paris.

The society is doing its utmost to induce the French people to burn rather than to bury their dead. Owing to its efforts the number of incinerations is growing from year to year, but the increase is hardly perceptible.

Most of the cremations in France occur in Paris, as the country people do not take to this method of disposing of the dead. America, the report says, has the largest annual number of cremations. There are thirty-six crematories in the United States, in which last year nearly 4,000 bodies were consumed.

The greater number of the cremations in this country, it is claimed. take place in the case of foreigners. Germany has fifteen crematories, which last year incinerated nearly 3,000 bodies. In the Argentine Republie there were 976 cremations, in Switzerland 721, in Great Britain 705 and in Italy 442.-Leslie's Weekly.

An Imaginary War.

Some anonymous German writer has published in Berlin a work called "The Condor," in which he describes a war breaking out in 1920 between the United States and Brazil, Argentina and Chile, allied for the purpose of defending South American nations against the aggressions of the United States. In the imaginary war the United States is successful by sea, sinking the combined fleets of the allies, but when it sends to La Plata an army of 120,000 militia, under General Leonard Wood, the Americans, after four days of gallant but ineffective frontal attacks under cover of the guns of their warships, are decisively defeated and beaten back, the final stage of the battle becoming an utter route. Japan finally declares war and destroys the fortifications and floating docks at Manila, depriving the coming American fleet of a base. Europe then becomes inflamed against the Japanese and, including the British government, intervenes to arrest the progress of the conquering Asiatics. The book ends

abruptly at this point. Passing of Indian Dances. Of all the Indian flestas that of the eagle dance is perhaps the most im- Press. portant. During this ceremony a young eagle, the symbol of power upon earth, is killed, and its spirit, laden with messages, joins that of the dead chief. This ceremony has recently been held for the last time in the history of the people. It has always been a fiesta of rare occurrence, being held only in commemoration of the death of the ruling chief or a person of great importance. The fiesta has not been celebrated for more than twenty years, and this final one marks the death of the last of the hereditary chieftains of the tribe and in consequence the passing not only of this title with its sacred trust of legend and history, but of this peculiar and mysterious tribal rite. whose deep significance is now doomed Post-Dispatch. to oblivion .- Southern Workmen.

Couldn't Be Helped.

The Potter family at one time represented the most conventional of New dinner, and I do wish you would York's social ideals, but that was as far back as the time in which Mrs. James Brown Potter became an actress. It was not, as a matter of fact. an unprecedented thing for a bishop to have relatives on the stage. Marie Wainwright, for instance, is the daughter of a bishop. But until the wife of Bishop Potter's nephew took to the professional stage nothing of the kind had happened in New York. It was once while celebrating founders' night at the Players' club that one of a small party in a corner joked the bishop about the propriety of his presence in a club of actors.

"Oh, I realize how well I am suited to this gathering," he said, with a twinkle in his eye. "You know actresses will happen in the best regulated families."-Exchange.

A Plant That Weeds.

Scientific agriculturists are taking a great interest just now in a pretty plant with blue flowers, the Commelina nodiflora, for this plant eats up weeds. The plant comes from Malaysia, where it is of great service in exterminating the lalang and other weeds inimical to rubber growths. In the English botanical gardens at Kew tests have proved it to be equally powerful against the weeds of a temperate climate, and in Washington the Kew

demonstrations are being duplicated. The commelina grows rapidly, and weeds disappear before it. Will it some day supplant the human weeder with his raw fingers and aching back? shivered from the pelting sleet, "you -Exchange.

An Ancient Parsonage of Maine.

The Congregational parsonage at Kittery is one of the oldest houses in the state of Maine. It is the oldest ecclesiastical residence in the state and the oldest one in present use in New England. The house was built in 1729, in the days of the Hon, William Pepperell, father of Sir William Pepperell. It contains the library bequeathed by Sir William to Dr. Benjamin Stevens, for forty years minister of the Kittery Point church. Dr. Stevens in his turn bequeathed the library to the Congregational ministers of Kittery and York for all time. Many of these books contain the Pepperell coat of arms.-Kennebec Jour-

HE WAS ACQUITTED.

And by His Own Eloquence, Not by

His Lawyer's. "Strangest case I ever had," said the attorney, who was in a talkative mood, "was up in the northern part of

the state last summer. "I was back in the woods some miles from what you would call civilization on a combined fishing and hunting trip.

"While I was there an old man, who had been acting as my guide and very valuable in spite of his bibulous habits, was arrested for stealing a keg of

"The case looked pretty black for him, and the old man knew it.

"As the old man was almost indispensable to me, I volunteered to defend him.

"When the case came to trial I used all my wiles to get him clear. But I soon saw that it was uphill work and that the jury had a deep seated conviction that the old man was guilty. The old man realized it, too, and squirmed uneasily about upon his

"The case was about to go to the jury when the old man arose and insisted on addressing them before they retired. The court granted permission. and the old man turned to the jury

"'I jes' want ter ask ve one question. Ye all know me, and what I want to ask ye is this: Do ye think that if I stole that thar whisky that I would be sober now?

"This was putting the case in a new light, and it seemed to have great effect with the jury, for they declared him not guilty before leaving the box. "When it was over and the old man

was receiving the congratulations of his friends one of them said: 'Sam, how on earth did you man-

'Waal,' answered the old man as he solemnly winked one eye, 'when I toted that thar whisky home the old woman saw at once that the first thing that I would go and do would be to go and git full of incriminating evidence, so she took the keg and locked it up in the cellar till the clouds would roll by. But it's mighty lucky that the trial kim off jes' ez she did. fer I couldn't hev held out fer another

The Main Point.

The Englishman and the American were talking about honesty among

"Speaking about honest men." said the American proudly, "our George Washington was the most honest man the world has ever known. Why, he took a back at the cherry tree and then told his father about it.'

The Englishman pondered in silence for a long time. Finally he drawled: "It may be deuced clever in George

telling his father about taking the hack, but tell me this." "Well, what is it?"

He Said It.

"Horace," remarked Mrs. Figtree, "we are going to have company at brighten up and look less like an honorary pallbearer. Say something humorous.'

The company came, and, with a few preliminary coughs and winks, which were intended to announce to his wife that the witticism was about to be perpetrated, Mr. Figtree said timidly. "Mary."

"Yes, dear. What is it?" asked Mrs. Figtree graciously. "Have you got all of your hair on

this evening?"-Judge.

Too Late

Mr. Van Neere (entertaining a few friends) - You didn't brush the cobwebs off that bottle, William. William-Excuse me, sor, but I saw yer puttin' them on, and I wouldn't take the liberty unbid.-Pick-Me-Up.

Another Sufferer.

"Ah," said the shabby beggar as he don't mind weather like this."

"Who doesn't?" hastened the man in the fur lined overcoat. "Why, it is the hardest weather on automobiles I ever saw in my life."-Chicago News.

A Human Problem. Nell-I wonder why so many of the English fighting suffragettes are so

ugly and dress so awfully. Belle-My dear, if they were pretty and could dress stylishly they wouldn't have to be suffragettes. - Baltimore American

Aviating.

The Spectator-But what if the parachute should fail to work? The Aeronaut - Oh, that wouldn't stop me. I'd come down just the same.-Cleveland Plain Dealer

#### COSTA RICA.

SEND

FOR A

SAMPLE

She Has Not Much Need For Her Army, Such as It Is.

While for generations Central America has been the scene of frequent revolutions and nearly all of the countries there have been torn asunder by civil wars, yet Costa Rica has been exempt from these internal strifes and has remained peaceful and loyal to the constituted authorities. She stands out today as a conspicuous exception to her sister republics, and practically with out a navy and with an army of less than a thousand men, the country illustrates, in the habits of the people, in their cordial greeting to foreigners and foreign capital, in the confidence shown in each other and in the jusday ter save my life."-Detroit Free tice of the government, that the arts of peace are the best paying investment any nation can make. Her army is rarely needed, and during an interview which I had with her distinguished president, Cleto Gonzales Viquez, he told me that revolution at home was out of the question, and as Costa Rica had not had a claim from a foreign country for fifty years there was not much likelihood of an army

being needed to fight a foreign foe. Any healthy Costa Rican between the ages of eighteen and forty may enlist in the army. The soldiers are usually from the poorer class and come from the rural districts, many of them being of Indian descent and having very little education. The period | This fact was pointed out to him, and of enlistment is only four months, and at the expiration of that time they may go to their homes or re-enlist. which many of them do. While the greater part of the time is spent at drills, four months' practice is hardly sufficient to make a well disciplined soldier, even if he is anxious to learn and applies himself assiduously, and the Costa Rican soldier has both of these qualities. The army uniform is blue duck, and many of the men are without shoes-as one of them said to me, because he preferred it through force of habit and because he was more comfortable in his bare feet. He was reared in a village where boys rarely wore shoes, and as he grew to manhood the habit still clung to him .-Leslie's Weekly.

Some Names In Harvard. Three points of the compass are here -North, South and West-and there are Easton and Eastman, but no East. Here, too, are England, France, Ireland and Wales in full and the dwellers of many other countries-viz, Dane, Hun, Lombard, English, French, Scot. Dutch, Pollak, Norman, Rhinelander, Germain, Irish, Switzer and Welch, At a glance we discover Fayerweather. Cloud, Fogg and Gale, Frost and Snow; Rivers, Eddy and Ford; Hill, Highlands, Moors, Field and Meadows; Pool, Pond, Lake, Shore, Lee, Harbor, Haven, Whorf, Dock and Pier; Day, Noon and Morrow, but no Time; Spring, Summer and Winter, but no Autumn. The only Doubt who ever took a degree at Harvard graduated in 1747, just forty years later than Devotion. Gamble, Hazard, Risk and Luck are all on the roll. The body, too, is represented by Head, Arms, Hand, Legg, Shinn, Withers and Foot. For wear there are Brogan and Boote. Bonnet, Belt, Capps, Collar, Cape, and so on. Blight, Dole and Paine are balanced by Bliss and Joy, Wanton by Virtue, Noyes by Still, Moody and Cross by Smile and Gay, Stout by Leen, Short by Long, Far by Nye, Savage by Sweet, Poor by Rich.-Harvard Graduates' Magazine.

Only Self Supporting.

It is told that Cyrus Leland, while pushing his candidacy for the Republican gubernatorial nomination, wrote a letter to a Kansas farmer asking him for his support at the primary.

"Answer this letter, daughter," said the farmer to his fifteen-year-old girl, of whose penmanship he was proud, when the letter reached him. "Tell Uncle Cy that I am too busy in the field to do anything for him. Tell him I'm working early and late to get in my crops.' The girl waited until her father had

gone back to his fields and then penned this short note, which she thought told the story, "Papa has all he can do to support himself without supporting anybody else." She mailed it .-Kansas City Journal.

A General's Hobby. General Sir Beauchamp Duff is gen erally understood to be the most probable successor to Lord Kitchener in the supreme command in India, and this will be a fitting reward for one who has a very fine military record for hard, unremitting work. A short time ago another officer was trying hard to find out General Duff's recreations. "Do you play bridge?" he asked. "Not much," replied the general. "Billiards perhaps?" "Very little." "Chess?" "Badly." "Any outdoor sports?" "At rare intervals." The interrogator then lost his patience. "Then what on earth do you do?" "The rarest thing possible In the British army," was Duff's reply, "I work."-London Tatler.

He Made It Up. Clark Williams, New York's new superintendent of banks, said the other day of a bankrupt:

"It is no wonder the poor fellow went under. When it became neces sary for him to borrow, the securities that he offered were quite worthless. he produced other bundles of securities less valuable if possible than the first lot."

Mr. Williams laughed. "He reminded me," he said, "of a waiter whom I heard about the other day. This waiter was summoned an grilly by a guest. "'Look here, walter,' the guest grum-

bled, 'these oysters that you have brought me are bad.' "'I know that, sir,' the waiter answered, 'but we have given you three

more than you ordered to make up for How Business Men May Rest.

Miss Lillian B. Hill told a number of Duluth jewelers at a recent jewelers' banquet a good way to get off for a vacation without being missed from business. "During the last Easter holidays,"

she said, "I met a jeweler at a seaside hotel. "Why, I thought you were such a

busy man!' I said, 'How do you manage your affairs here at the shore? "'Oh,' said he, 'I am just keeping my

advertisement out of the papers until my return, and so, you see, there are no affairs to manage" "-Duluth Trib

Passengers as Bouncers.

A passenger in a full railway carriage in England has a perfect legal right to push away any one else who tries to get into it. This decision was given at Marylebone police court when a man complained that he was pushed out of a carriage at Bishop's road station by another passenger, who said the car was full. "It is the duty of conductors," said the court, "to see that the trains are not overcrowded. They are perfectly entitled to use reasonable force to prevent any one from boarding cars when they are full. If they fail to avail themselves of this right the passengers are entitled to act for themselves."

The Secret of Success. The motto of success was given in

this tale, told at a banquet: A Swede among the miners in the

west was noted for always striking pay dirt. His fellows thought that there must be some secret to the unusual success of the Swede and questioned him as to how he always succeeded in finding the spot where the gold cropped

"Vell, Ay don't know ef Ay can tell anytang 'bout dat," answered Ole. "Ay only know dat Ay yust keep on diggln'."-Milwaukee Free Press.

All articles for this department must be in our office not later than Tuesday morning, of each week, to be guaranteed insertion the same week, and all articles must be signed with the name of the author, even when a nom de plume is given.

Owing to the indisposition of our "Common-sense Philosopher," his articles may not appear for a few weeks, but we hope for their early continuance. We are not fully assured of how widely these excellent articles have been read and appreciated, but we do know this; that no newspaper in this state has been giving anything like their counterpart, and that those who have failed to read and enjoy them have missed a great deal .- ED. RECORD.

#### Is Homicide a National Habit?

The acquittal of William F. Harig, who was indicted for the murder of James M. Mahon in this city on the last day of March of this year, has excited some surprise among those who do not realize that the escape of the accused in cases of homicide in this country may almost be said to be the rule and their conviction the exception. The fact of shooting and killing Mahon was not denied. The verdict of "not guilty" was, it seems upon the theory of self-defense -that Harig took Mahon's life to save his own. The trial was a fair one, before an impartial court and presumably an intelligent jury of citizens of Carroll county. That jury had all the evidence before it and decided the case conscientiously and in accordance with its under-

standing of the testimony. Nevertheless, as such acquittals follow each other in rapid succession, there is a growing belief that in this country human life is too lightly esteemed—is held too cheap. In the United States in the year 1903 there were no less than 8,976 homicides, a number larger than the number of soldiers of the Union Army who were killed outright on the fields of Bull Run, South Antietam, Fredericksburg, Chancellorsville and Gettysburg combined, and in this list are some of the great and sanguinary battles of history. For all this slaughter only 123 persons paid the penalty on the gallows, although, of course, a number of others went to the peni-tentiary. In England and Wales in 1905 12,689 persons were committed for trial for various crimes, and of those 10,481 were convicted and punished. The city of London is far greater in population than the city of New York, and yet it is said that the number of homicides in New York greatly exceeds those in Lon-

A few years ago a leading citizen of Columbia, S. C., was shot down in the streets while he was unarmed, and his slayer was acquitted on the plea of self-defense. The conditions were such that one of the newspapers of the State was moved to remark that there were no circumstances where the plea of self-defense would not suffice unless a man were killed while he was asleep. But if such a thing as that should occur some other plea would be ready. Stanford White was shot under circumstances where there could be no pretense of selfdefense. But the plea of insanity was sufficient to acquit his slayer. In the Strother and the Loving cases in Virginia and the Bowie case in Maryland the "unwritten law" was the plea. These three pleas are deemed sufficient to secure acquittal on every charge of murder, and they prove so in the majority of

Is the fault with the system of jury trials, or is it that public sentiment is favorable to the taking of human life for trivial provocation? Just the other day the life of a brilliant statesmen and a useful citizen was wontonly taken in Tennessee, where he was shot down in the street without a cause which would have justified the killing of a dog. The usual plea of self-defense will, of course, be urged. In addition to the cultivation of a higher moral standard with regard to homicides, which would influence the attitude of both individuals and juries with respect to the taking of life, a large proportion of this slaughter could be prevented by putting a stop to the practice of carrying firearms concealed about the person. A man who, without some valid reason, equips himself with a murderous weapon has murder in his heart. For this practice of going armed the police courts are largely responsible. If a man is caught by the police with a deadly weapon he is at most subjected

a small matter.

The law of Maryland does not regard pistol-carrying as a slight offense. The prescribed punishment is a fine of not more than \$1,000 or imprisonment in jail or the House of Correction for not more than two years. If the courts would impose these maximum penalties in just a few cases, human life in Maryland would be infinitely safer. Just a few respectable persons who carry murderous weapons put to work in stripes for terms of two years, and the practice would be greatly lessened. The penalty for carrying concealed weapons should be made as stringent in every State of the Union as it is in Maryland, and the courts should inflict the full penalty on every offender until the American habit and this American disgrace has been stamped out .-Baltimore Sun.

to a slight fine and the offense treated as

## Learn To Let Go

One of the most practical and absolutely truthful bits of philosophy that has appeared in a long time was recently published in Medical Talk, on the wis dom of "letting go." Says the writer: "If you want to be healthy morally,

mentally and physically, just let go.

"That little hurt which you got from a friend, perhaps it wasn't intended, perhaps it was, but never mind—let it

Refuse to think about it. "Let go of that feeling of hatred you have for another, the jealously, the envy, the malice-let go of all such thoughts. Sweep them out of your mind, and you will be surprised what a cleaning up and rejuvenating effect it will have upon you,

both physically and mentally. Let them all go; you house them at a deadly risk.

But the big troubles, the bitter disappointments, the deep wrongs and the heart-breaking sorrows, the tragedies of life—what about them? Why, just let them go,too. Drop them! Soitly, maybe, but surely. Put away all regret and bitterness, and let sorrow be only a softening influence. Yes, let them go, too, and make the most of the future.

"Then the little pet ailment that you have been hanging on to and talking about, let it go. It will be good rid-You have treated it royally, but abandon it; let it go. Talk about health, instead, and health will come. Quit nursing that ailment, and let it go

'It is not so hard after once you get used to the habit of it-letting go of these things. You will find it such an easy way to get rid of the things that mar and embitter life that you will enjoy letting them go. You will find the world such a beautiful place. You will find it beautiful because you will be free to enjoy it-free in mind and body.

Learn to let go. As you value health of body and peace of mind-just simply

#### Christmas Candies.

Sea-Foam Fudge (Chocolate) — Put over the fire in a clean saucepan one cupful of light brown sugar, a half-cupful of water and a third of a cupful of grated chocolate and boil without stirring until it spins a thread from the point of spoon. Have beaten stiff the white of an egg; pour the boiling mixture upon it and stir until it begins to stiffen. Drop from a spoon on waxed paper in little bonbons, or pour into a greased pan before it begins to stiffen and mark

into squares with a buttered knife.

Sea-Foam Fudge (Nut)—Put into a aucepan three cupfuls of light brown sugar, a cupiul of cold water and a tablespoonful of vinegar. Bring this to the boil gradually and do not stir after it is once heated. Boil steadily, and when a little of it dropped into cold water forms a hard ball take it from the fire. Beat stiff the whites of two eggs and when the sirup has stopped bubbling our in on these and beat well. When t begins to stiffen, flavor with one teaspoonful of vanilla and add a cupful of chopped nut kernels—hickory, pecan or English walnuts. Drop on paper or turn into a greased pan and mark off in

squares or triangles.
"Divinity" Fudge—Boil together two cupfuls of granulated sugar, one cupful of maple-sirup, one cupful of water and a tablespoonful of vinegar until a little of it hardens when dropped in cold water and then add a teaspoonful of vanilla and take from the fire. While this mixture has been cooking, a cupful of granulated sugar should have been put over the fire in another saucepan. with a half-cupful of cold water, and boiled until the mixture spins a thread from the tip of a spoon. This should at this stage be beaten up with the stifflywhipped whites of two eggs, and this stirred into the first preparation, which should by now have cooled slightly. Beat the two hard until they begin to stiffen, when turn in two cupfuls of chopped nut kernels. Drop on paper or pour into pans and cut in shapes desired.—The December Delineator.

### How is your Digestion.

Mrs. Mary Dowling, of No. 228 8th. Ave., San Francisco, recommends a remedy for stomach trouble. She says: Gratitude for the wonderful effect Electric Bitters in a case of acute indigestion, prompts this testimonial. I am fully convinced that for stomach and liver troubles Electric Bitters is the best remedy on the market to-day." This great tonic and alterative medicine invigorates the system, purifies the blood and is especially helpful in all forms of fe-50c. at R. S. McKinney's drug store.

### Women's Feet Getting Larger.

If your shoe is No. five or six, or seven, you needn't be ashamed of itnot these days. For every one's feet are getting longer, and the size of shoes is increasing year by year.

We have all told each other about the

small boots that formed a part of our mother's trosseau, and the eyen tinie: slippers that our grandmothers danced in. Like as not they had to be made to order, those shoes. Certainly, in the days of our parents and our grandparents, women's shoes were several sizes smaller than they are now. They spoke quite casually, in those times, of ones and twos. Ones and twos, for-Fancy us in ones

And in the past decade the size of women's feet has been increasing even more rapidly than ever before. It is more rapidly than ever before. generally ascribed to the athletic habits of the women of the present generation, especially to the vogue of cross-country walks. But even in the Southern States, where the girls do not go in for sports, and, in truth, exercise comparitively little, women's feet are larger than they were a few years ago.

A few seasons ago women tried shamefacedly to conceal the fact that they wore —well, not threes. Now, however, largeish feet are become almost universal, and the woman who wears a six or seven is no longer anxious to make herself and her friends believe that she is really wearing four. At a fashionable boot shop in New York it is said that number seven is the average size for women's shoes in this year of grace, nineteen hundred and eight!

But if women's feet are getting longer they are also getting narrower. long ago, it was considered abnormal to wear a double A shoe. Now double A is kept in stock in all well-fitted out boot shops. The average width is A and B instead of B and C. Long, narrow feet are undoubtedly pretty and artistic. So it's not so bad after all.

### Educating Our Boys.

A resident of Dayton, Ohio, much interested in the subject of common-sense education, selected 10 boys from the High School there and not one of them could answer the following questions:
"How are bricks made?"

What is plaster composed of ?" "Can you tell smartweed from may-What legs does a frog use to jump

"What trees grows the fastest?"
"Which is the hardest wood, oak or

'Name five diseases that people die "How does a horse get up after lying

'How does a cow get up?" "How many teeth have you?"

# Woman's World

#### LEADER OF THE "400."

Mrs. John Jacob Astor Will Probably Be Queen of New York Society.

The death of Mrs. William Astor, who for thirty years had been the social dictator of smart New York society, left the very important position unoccupied. There is a rumor that the leadership will pass to her daughterin-law, Mrs. John Jacob Astor. This beautiful young matron is in every way splendidly equipped for the position should she elect to accept it. As Miss Willing of Philadelphia she was a belle of the Quaker City and surrendered to Jack Astor a name old and honored, thus uniting her high social position to his wealth. The Willing family helped make history and were prominent in this country before the Revolution, but the first Astor, as

MRS. JOHN JACOB ASTOR.

everybody knows, did not start in his fur trading venture till the beginning of the nineteenth century

The women of the Willing family have always been noted for their beauty, and Mrs. John Jacob Astor, with her lovely prematurely gray hair and aristocratic bearing, is no exception to the rule. As Miss Willing, Mrs. Astor made her first appearance in Newport in 1889. Jack Astor was there that summer. They met always at the same round of social bouts, and by the end of the season he was her devoted admirer. In February of 1891 they were married in the Willing mansion in Philadelphia, and, though this is no fairy tale, they have lived happily ever since. There are two charming children to make life more attractive for this fortunate couple-Vincent, a boy of fourteen, and Alice, a

tiny girl of three or four years of age. During the first years of Mrs. Astor's married life there were misfortunes one after the other to keep the family in mourning and prevent Mrs. Astor society. But for several seasons she has been prominent in London, at the opera in New York and in the summer at Newport. Although the Fifth avenue home, adjoining the late Mrs. William Astor's house, is magnificent enough to please the most fastidious, the country seat, Ferncliffe, on the Hudson, has always been Mrs. Astor's favorite residence. The stone house on an eminence near the river bank was built about forty years ago. It is not old enough to be called "colonial" nor new enough to be modern, but is justly entitled to the term "good old fashioned." It can put up half a hundred guests for a week end, and no one need sleep on the billiard table either.

On the estate there is a magnificent gymnasium costing \$200,000 and a wonderful tennis court. So it goes without saying that Mrs. Astor is decidedly an out of doors woman and devoted to sports. Indeed, she may be said to have the athletic fever. She rides horses, drives a spirited cob and is fond of running her own automobile. Another of Mrs. Astor's favorite sports is shooting. There is a big target at Ferncliffe bearing many marks close up to the bullseye placed there by this fair Diana's unerring aim with rifle and revolver. Besides, there is a clay pigeon trap, and more than once milady has been seen to bring down nineteen clay pigeons out of twenty. Then she plays tennis, and of course she is a good golf player. As for sailing boats, Mr. Astor always looks on with pride when his wife holds the tiller.

The magnificent Colony club of New York, one of the finest of woman's clubs, owes its existence to Mrs. Astor's influence.

### How to Use the Hands.

Many a woman has at times keenly sympathized with the amateur actress who exclaimed in dismay, "But what shall I do with my hands, monsieur?" The reply would be as unintelligible to a great many others as it was to her, "Let them hang at the end of your arms." Yet that is precisely the

thing to do with them. Delsarte's old law, "Strength at the center and freedom at the extremities," is one of the most effective rules for attaining grace of body-and one of the least understood. "Strength" is often interpreted as rigidity and "freedom" as carelessness, which is not at all a correct elucidation of the terms. Taken as a whole, the waist is the center, and the law means that it should be held firmly, the torso and lower portions of the body swung freely from it. So with the arms. The

wrist is the center, the hands the extremities, and therefore in moving the arm the wrist should lead always, the back of it in any upward movement, the front when the motion is down-

A beautiful hand is an inheritance to be desired, but it loses half its beauty value unless it expresses sympathy and grace in its every movement.

Here is one exercise, very simple and very old, but one which cannot he brought to mind too often:

Double the forearms against the upper arm so that the backs of the hands touch the shoulders. Drop the hands forward from the wrist as though there were no life in them and shake them from that position. This tends to make the wrist supple and leads to a second exercise that trains the wrist to lead. Allow the arms to hang limp at the sides. Lift the arm, then the wrist, then the hand. Each movement follows so closely upon the next that they seem to be one. A few moments of regular practice of this exercise, after the other devitalizing one, will really work an amazing improvement. Very shortly there will be no need for the question, "What shall I do with my hands?"

#### Washing Blankets.

When blankets are to be washed soan should be cut into small pieces and dissolved into a jelly. This should be added to warm water, enough to form a suds, and borax put in for softening and purifying purposes.

Into this the blankets should be entirely immersed and allowed to remain for half an hour. The water should not be allowed to get cold.

After the blankets are soaked through they should be soused up and down to release the dirt, then put through a wringer. After this the blankets are put through a second suds prepared in the same way as the first. They are squeezed, but not rub-

A board should not be used, and, above all, soap should never be rubbed directly on the blanket. This not only causes it to shrink, but the small hairs are all matted by the soap, and the blanket loses its fluffy appearance.

They should be rinsed in warm wa ter with borax or ammonia added to keep them soft and dried on a day of sun and wind.

#### Tinted Walls Attractive.

Many women who are having their houses done over this winter are choosing paint instead of paper for all the upstairs rooms.

They think this method more hygienic and more cleanly. The walls can be washed down and do not need to be renewed each season.

Not only pale tints, but rich, warm ones, are used, such as terra cotta, german blue and dull red. All the tones of heavy gray are popular.

For the nursery light blue, rose pink and leaf green are used. The ceiling and walls are alike, and there is no attempt at fresco or dado. A molding is used of stained wood, usually white or buff.

Painted walls, with varnished hardwood floors, insure cleanliness and health in a sleeping room.

Women and children who have tried these find themselves suffocating in from formally appearing or leading in rooms with carpets, thick wall papers and curtain drapery.

### Things Worth Knowing.

When sandwiches of different kinds are served on the same plate, they should be so arranged and marked that the guest may choose according to his or her taste.

A sweet sandwich having cherries inside should have half a cherry on one corner, and that with preserved ginger should be similarly marked with

That, if possible, a patient should be induced to give up tea and coffee during convalescence. In a weakened condition they are apt to induce nervousness and sleeplessness.

If lamp chimneys are so badly smoked that they are unsightly, clean them with vinegar and salt. This will remove spots of smoke and leave the glass bright.

### An Auto Workbasket.

An automobile workbox is one of the up to date possessions of the woman who does her own mending. The tiny straw car suggests tidiness and dispatch. Spools of thread, papers of needles, scissors and bodkins find a place in the various parts of the motor. Under the chauffeur's seat the spools are arranged, while the tonneau holds rows of needles and pins. The thimble occupies a place all its own on top of the steering wheel, while the car opens at the back to dissmall sewing conveniences which are always getting lost or misplaced in the large workbox of a single compart-

### Womanly Logic.

"Never," groaned the picture dealer, never try to argue a woman into believing that she ought to pay a bill when she thinks otherwise. I tried it this morning-presented a bill for some stuff ordered two months ago. Here was the irrefutable logic:

"'I never ordered any pictures." 'If I did, you never delivered them.'

"'If I did, I never got them.' "'If I did, I paid for them."

"'And if I didn't I must have had

some good reason for it.' "'And if I had of course I won't

Good wives and mothers are as plentiful as ever, and in these days many of our smartest women read and think and meditate and lead the simple life with earnest endeavor. There are marked signs of evolution among the flower of our womanhood.

# The Doctor's First Question

"How are your bowels?" This is generally the first question the doctor asks. He knows what a sluggish liver means. He knows what a long list of distressing complaints result from constipation. He knows that headaches, bilious attacks, indigestion, impure blood, and general debility are often promptly relieved by a good liver pill. We wish you would talk with your own doctor about this subject. Ask him at the same time if he approves of Ayer's Pills. Do as he says. J.C. Ayer Co., Lowell, Mass.

According to Law.

In one of the states an act was passed last year requiring heads of families to notify the health officer at once in case there was any contagious disease in the house. The following letter was recently received by a certain officer:

Dear Sir—This is to notify you that my boy Ephraim is down with the measles, as required by the new law. PETER ADAMS.

#### She Knew.

Little Girl-If I was a teacher I'd make everybody behave. Auntie-How would you accomplish that? Little Girl-Very easy. When girls was bad I'd tell them they didn't look pretty, and when little boys were bad I'd make them sit with the girls, and when hig boys was bad I wouldn't let them sit with the girls.

### Like Finding Money.

R. S. McKinney, the popular druggist, is making an offer that is just like finding money for he is selling a regular 50 cent bottle of Dr. Howard'scelebrated specific for the cure of constipation and C. & P. Phone. dyspepsia at half-price. In addition to this large discount he agrees to return the money to any purchaser whom the specific does not cure.

It is only recently, through the solici- TANEYTOWN tation of Druggist McKinney that this medicine could be bought for less than fifty cents, he urged the proprietors to allow him to sell it at this reduced price for a little while, agreeing to sell a certain amount. The result has justified his good judgment for the sale has been something remarkable.

Anyone who suffers with headache, dyspepsia, dizzeness, sour stomach, specks before the eyes, or any liver trouble, should take advantage of this opportunity, for Dr. Howard's specific will cure all these troubles. But if by any chance it should not, R. S. McKinney will return your money.

#### He Enjoyed the Rest of the Game. "Now, that is what is known as a safe hit," volunteered the escort, "and entitles the runner to take his place on

the second base.' "Yes." responded the damsel, "and if that duffer had the base running ability of an ice wagon he'd have stretched that bingle into a three bagger."-

### How to Treat a Sprain.

Louisville Courier-Journal.

Sprains, swellings and lameness are promptly relieved by Chamberlain's Liniment. This liniment reduces inflammation and soreness so that a sprain may be cured in about one-third the time required by the usual treatment. 25 and 50 cent sizes for sale by R. S. McKinney, Druggist, Taneytown, Md.

Memory Verse, 11-Golden Text, 1 Cor. ix, 27-Commentary Prepared by Rev. D. M. Stearns.

opyright, 1908, by American Press Association.] lessons can scarcely fail to be im-Pressed with this strange fact-that we never have a lessor from the prophets unless it is the quarterly temperance lesson, and in looking over the synopsis of lessons I notice that no essons from prophecy appear in the Course of study tili 1911 and then only n connection with studies in the lives of the kings. It would seem as if Prophecy was not considered a profitable study, as if it was considered a dark subject in the midst of much ght instead of a light shining in a dark place whereunto we do well that We take heed (II Pet. i, 19). Might not the Saviour have good reasons to say o the professing Christians of our Spoken?" (Luke xxiv, 25.) Preachers police can take care of them if they and people seem to have closed eyes and to be in a deep sleep concerning the wonderful purpose of God concernng the ages and are therefore said to e drunken, but not with wine; to adults are illiterate, but their children stagger, but not with strong drink (xxix, 9). Which is worse—that phase of drunkenness or the beastly drunkenness which is the result of literal incredible. They are mostly industri-Strong drink? If we judge from the ous and saving and are doing work in fact that the awful words which fell our land that Americans would defrom the Saviour's lips, and only from cline today. Many great recent na-His, concerning weeping, wailing and tional operations in our country have Shashing of teeth were spoken not only been made possible by the pres-Oncerning the openly ungodly, but ence of this army of workers, who Oncerning professing believers who have been willing to wield the pick did not believe, it should not be diffi- and shovel above ground or under cult to decide as to what He thinks ground. The present generation does

tried stone, the sure foundation, laid tional life. Continual intermarriage by God Himself (verse 16), and other among the same race of people causes foundation there is none, for all else is it to decline physically and mentally. a refuge of lies, a bed too short to For these reasons the coming generastretch oneself on, covering too nar- tion of the foreigners may be a great W to wrap oneself in, and when the factor in the perpetuation of the Amer-Lord comes in judgment and righteous- ican people and nation. hess to sweep away all false refuges 17-26; chapter xxvii, 6). Drunkenness wise and let state and church in their Phase of proud sinful self which, not make the way easy for them to betion in this form and calls it a glori-Ons good time, not considering that immigrants themselves. there is a judgment to come, a time When the sowing shall bring a fearful harvest of everlasting woe and all the glory and beauty (in their eyes) of the Present rioting shall forever fade away. The disgusting filthiness of their feasts, even though accompanied music and much that is attractive set forth in verses 8, 9. Not only the ets, those who should be the Lord's Messengers to the people and stand for be people before God, were guilty of this sin, which may perhaps have been the sin of Nadab and Abihu when they died before the Lord while officlating as His priests (Lev. x, 1-9).

Not the energy nor the excitement of the flesh can serve the Lord, but only the zeal which comes by the Spirit of the Lord; hence the admonition, "Be hot drunk with wine, wherein is exbut be filled with the Spirit," and that other word, "Not by might hor by power, but by my Spirit, saith the Lord of hosts" (Eph. v. 18; Zech by, 6). "Out of the way" is the expression used twice in verse 7 of our lesson concerning these erring ones. It is ound also in Rom. iii, 12, "They are gone out of the way." In Isa, liii. t reads, "We have turned every one to his own way." There is only way that is right, and that is way." even Himself (John xiv, 6). hose who followed Him are in Acts 2, margin, and elsewhere called be of "the way." "Blessed are undefiled in the way who walk in the law of the Lord" (Ps. cxix, 1).

We cannot lead others into this good and true way unless we are walking it ourselves-walking with Him in beace and equity. Then only shall we others from iniquity (Mal. ii, 6). How beautiful is verse 12 of our lesbut how sad its ending. "This is rest wherewith ye may cause the weary to rest, and this is the refreshyet they would not hear." See same sad refrain in xxx, 5; Matt. Till 37, "Ye would not." Hear Him o in John v, 40, "Ye will not come to In Matt. xv, 8, He had to use words of Isa. xxix, 13, "This peodraweth nigh unto Me with their buth and honoreth Me with their 8, but their heart is far from Me." is no hope for any sinner but the word of the Lord, therefore tse 14, "Hear the word of the Lord, scornful men." But they made Sht of Him and of it, asking if He ight they were babes just weaned. ey did not know, and many today ot seem to know, that "these things hidden from the wise and prudent Perealed unto babes" (Matt. xi). The day is coming when all the and pride and unbelief of man be laid low and the Lord alone be exalted. Then shall the Lord hosts be for a crown of glory and diadem of beauty unto all who truly His (verse 5).

#### CHRISTIAN ENDEAVOR.

Prayer Meeting Topic For the Week Beginning Nov. 23, 1908. By REV. S. H. DOYLE.

Topic.—Home mission. A million a year; our foreign immigrants.—Isa, ii, 1-22. Isaiah's prophetic description of all the nations of the world gathering together at Mount Zion seems to express in a way the attitude of all nations toward our land. From what Text of the Lesson, Isa. xxviii, 1-13. part of the globe do they not come t this fair and goodly land, upon which God has bestowed so many blessings? It is true that they come a million strong annually for the temporal and material good that is to be obtained. Any one who writes notes on these and yet their very presence here gives us a golden opportunity to bring them to the cross of Christ that they may be saved. God is giving us a foreign mission field at home, and we should take advantage of it, both for their sakes and our own as a nation.

The general tendency up until a short time ago was to look upon this great influx of foreigners, many of them "undesirable citizens," as a menace to our national life and institutions. But this view is fast losing Those who have carefull: studied the subject have come to the conclusion that they are to be a bless ing rather than a menace or a curse. It is true that they are vast in num bers, yet they scatter over large territime, "O fools and slow of heart, to tories and therefore can do no very believe all that the prophets have great harm. In our large cities the become dangerous. On Broad street in Philadelphia, three brave officers put to flight an Italian mob following the red flag. It is true that many of the

### Field Secretary Poling.

t new field secretary in the the natural man (chapter v, 12), is person of Rev. D. A. Poling, the son of President Poling of Western Union Ordinary people, but priests and proph- college, lowa. He has been a successful pastor and evangelist and for two years served as national field secre-

tary of the Intercollegiate Prohibition association, appearing before student bodies all over the United States, winning the hearts of the students by his earnestness and eloquence. Mr. Poling is one of the strongest all around college men that the Pacific coast has ever produced. He won high honors in oratory and scholarship, was a leader in athletics and social life and has been prominent in Y. M. C. A. and church work. He is brilliant, forceful and interesting. He is well fitted for the position of field secretary and will prove a great inspiration and blessing to the Endeavorers of Ohio.

The great wisdom of the author of the pledge is shown in the use of the word "strive" in it and in the name he gave the society. Much as I esteem the name Christian, I believe it is well the society was not named the Young People's Christian society. To include the word Endeavor in the title shows consummate skill. Very few are worthy of being unqualifiedly called Christians.-Charles M. Fillmore in Jamaica Endeavor Gem.

### CHARLESTONESSONSONSONSONS The Man Who Thought

He Was In Love.

By LULU JOHNSON.

Copyrighted, 1908, by Associated Literary Press.

&mmmmmmmm & was happy. "That," Buick told himself, "was the cap of the climax."

Had she been decently miserable, as he had been ever since they had had their quarrel, the misery that loves company would have drawn them together, and once more the superb solitaire which Teddy Buick had bought with a glad heart and a half of his savings would have gleamed on Alice Ryder's finger.

By all precedent that very thing should have happened, instead of which Alice presently became engaged to Harvey Post, and the expression of gloom which had become habitual to Ted's face deepened to a scowl. He took to reading poetry in the long hours of the night, and even in his dreams he lamented his lost love.

Reproachfully he gazed upon Alice's radiant face when he could not avoid meetins her in Harvey's society. At no matter how brightly the sun shone. and Teddy hurried home to brood over his great grief, made the sharper by the very apparent happiness that had some to Alice

The day that the wedding invitations were issued was Teddy's field day, and the sun was stealing through the half off his clothes and flung himself upon wakeful to dreamy grief.

He did not go near his office, but late in the afternoon his mother persuaded

him to take a walk, and he made for be observed.

He plunged into the woods, which in that happy summer had been the favorite objective point of their walks Now the foliage was sear and with-

ered, flung to the ground as his own heart had been, and the giant trees lifted their naked arms to the autumnal winds in dumb supplication. The place was thoroughly in har-

mony with his mood, and Ted flung himself upon a bank of moss to commune with his unhappy thoughts.

The woods represented his own life. Springtime, with its bursting buds and tender foliage, had marked the birth of love; then had come the summer of courtship, the rich fruition of promise under the ardent glow of the sun of

now the woods were, like love, dead. The chill of winter was in the air and in the dull November clouds.

The fancy pleased him, and so occupled was he with his thoughts that he failed to hear the footfalls on the rustling leaves until the newcomer hailed him with cheery cry.

"Mooning again, Ted?" cried Alice brightly. "Forget your troubles for awhile and help me gather some hick-

Ted rose slowly to his feet, and as he did so he glanced about and made certain that Harvey was not to make a third. He felt that he could not stand by and see the loving glances which the two would exchange.

Slowly he followed Alice along the path. Most of the nuts had been gathered, but some few remained, and presently Ted forgot his great grief in cases the doctor is imposed upon." Alice's merry chat

It was not until the nuts had been gathered and they sat down to rest on a fallen trunk that remembrance came for which not even the most profound

Alice saw the cloud that settled down own satisfaction. upon his face, and she turned abruptly. "Ted," she asked, "do you want to make me very happy?"

girl deserves to be." was the ungracious response. "What do you want?" "I want you to get married." was the surprising reply.

minded Ted, "but you wouldn't have it. Has Harvey jilted you?" me!" was the hurried reply. "I want

"That's what I wanted to do," re-

you to marry some other girl." "Rather hard on the other girl," commented Ted, "considering that I could

only offer an empty heart" "And an empty head," was the caustic interruption. "That's just the trouble, Ted. You are having a lovely time with your heartache, and you don't want to give it up yet, but I can't be really happy with Harvey with the thought of your accusing eyes following me.'

"Then forget it," advised Ted inele-

"That's what I want you to do," explained Alice. "You never were really in love with me. I know it, and you know it. That is why we were always quarreling. We used to get along beautifully before we became engaged. Then when you realized the mistake you had made you became ili natured." "All on my side?" asked Ted.

"I suppose that I was just as mean," admitted Alice, "but it was because we both realized that we had made a mistake. I want you to forget all about it. Marry Beth Agnus or Letty Fredericks or Nancy Bellman.'

"What's the matter with Audrey Dunbar?" demanded Ted. "She is the only eligible you left out."

"You wouldn't like her," protested Alice hastily. "I should hate to see you married to her. You would never get along with her."

"She's a nice girl," growled Ted, "but I'm not going to marry any one.

He rose to his feet again and shouldered the bag as an intimation that he was ready to depart, and Alice meekly

Ted carried the bag to Alice's home. and it was fate that on the way they should pass the disputed Miss Dunbar and that Ted should be unusually effusive, while Alice was barely civil.

He did not know that Alice could be so pretty, and he was glad when he could leave the burden on her porch closed curtains when at last he threw and hurry away before her little speech of thanks was half completed. his bed to gain a brief transition from She came flying after him and reached him before he had opened the gate.

"You won't marry Audrey, will you?" she asked pleadingly. "I told you that I was not going to

marry any one," was the impatient response as Ted shut the gate with a vicious bang and started for home. He was not yet ready to abandon his grief, but one ray of comfort

pierced his once pervading gloom. Ted disliked girls who decried others. He had never known Alice to do it before. Just to show Alice what he thought

of her conduct, he escorted Audrey to the wedding and smiled sardonically when she caught the bridal bouquet. unfailing sign that she was to be the next bride.

However, Alice kissed her in con gratulation with a warmth that little suggested the jealousy she felt.

There were three weeks of the honeymoon, and Harvey was giving the news to the new Mrs. Post after his first trip downtown.

"Ted's going to marry Audrey Dunbar," he announced as the choicest "So mother was telling me," was

the reply. "I expected it, but not so "I didn't suppose that you would relish such a quick desertion," said

Harvey, with a laugh. But Alice only smiled She smiled still more broadly when Ted proudly escorted Audrey to call and welcome them home. There was an air of defiance in his manner that

was amusing to the girl who knew him better than he knew himself, and Ted did not realize how truthful was Alice's declaration Audrey was the very girl she would have picked out. He could not tell that Alice was counting upon his stubbornness to

make her happy by removing his reproachful gaze. He only thought that he had shown her that he was a man of his own action, and therein he found great content.

### The Medical Fee.

Dr. Arthur C. Heffenger, discussing "The Medical Fee" in the North American Review, deplores the notion which prevails in some quarters that the physician charges more for his services than they are worth. He instances some abnormally large fees which have been paid to medical men and Ted skipped the harvest time, but shows that these were justified either by the delicate nature of the services rendered or by unusual conditions attending them. He says:

"The American Medical association, our highest medical authority, has never attempted to establish an ethical In point of fact, the fee evolves itself and ever has been and ever will be a graded one. The great bulk of practice is practically charity-that is, it represents small fees or no fees This is true alike in the remote country districts and in the great metropolitan centers. There is one difference, however, which should be distinctly remembered, and that is that rural charity is generally deserved, whereas urban charity is often misplaced. It is stated that practically 33 per cent of the entire practice of New York city is charity and that in a third of such

### Same Vintage.

There are some things in this world rural philosopher can account to his

"I never saw an animal move so slowly before in all my life!" cried an exasperated traveler in an Essex car-"You're about as happy now as one rier's cart, behind which the clouds of a rapidly rising storm were growing blacker every moment. "Can't the horse go any faster? You had an excellent one fifteen years ago when I used to spend the summer here.'

"That's the curious thing about it," said the driver, gazing first at his steed "Mercy, I don't want you to marry and then at the uneasy passenger in a mildly speculative way. "This hoss is the very same identical hoss that I drove that summer. I don't know what on earth's the matter with him! He seems to have lost his animation.' -London Telegraph.

P. B. ENGLAR, Agent, TANEYTOWN, MD.

There were a great many visitors in Taneytown, on Thanksgiving Day, so many that it is impossible to mention

Mrs. John C. Shreeve and children, of Waynesboro, have been spending the week here with the family of Mr. James

Miss Lillie Belle Hess, who has been spending some time in Baltimore and Westminster, has returned home for the

Mr. and Mrs. Chas. H. Mayers and wife, and two children, of Littlestown, spent Thanksgiving with Mr. and Mrs. Lewis Elliot.

Elder John Utz and wife left for Jacksonville, Florida, this Friday, where they expect to spend the winter. They also expect to spend some time in Georgia.

Mrs. V. J. Clousher, who was at a Baltimore hospital, for several weeks, returned home, on Wednesday evening, and is on the road to complete recovery.

Don't forget the musical and supper, at the Opera House, this Friday night. The program of the musical is given in trayerser.
State of Md. vs Michael Nelson, alias full, in this issue. Admission 10¢ and

The Uniontown baseball club won a game here, on Thanksgiving Day, by a score of 6 to 4. This makes two. Who says a visiting club can't win a game against Taneytown umpiring?

Last week we tried our own prescription, and advertised 100 calendars for sale, at a bargain. This week, as a result, we had four customers for them. Of course, the first one got them.

The RECORD received a nice little shipment of 3240 lbs. of paper, this weekover a ton and a half-consequently, the paper famine which is reported to be in sight, will not hurt us for a while.

Prof. Wm. J. Heaps, of Baltimore, will occupy a portion of the Christian Endeavor hour, at the Lutheran church, this Sunday evening, in a talk on "A million a year-our Foreign immigrants."

Mrs. Edna Burke and daughter, who have been here several weeks on a visit to her parents, returned home to New Castle, Del., on Monday. The many friends of Mrs. Bower will be glad to know that she is improving.

Constable Miller was struck above the eye by a piece of brick, on Tuesday night, thrown by some tough who belongs in the penitentiary. Mr. Miller is the best policeman Taneytown has ever had, and some of our law-breakers have learned to fear and hate him, one of which, no doubt, did the cowardly act. It is to be hoped that the law will yet reach a gang, here, which is giving the town a bad name.

from apoplexy, on Monday morning, at his first and final account. her home near Oak Grove school house. She had been in her usual health until but a very short time before her death, and received order to sell persoal propwhich followed closely after a feeling of erty faintness. She leaves a husband and one daughter, and four step-childrentwo sons and two daughters. Funeral services were held at the Reformed church, on Monday morning. She was in her 37th. year.

The following lots of real estate, belonging to the estate of the late T. H. Eckenrode were sold last Saturday by J. H. Diffendal, executor; vacant lot on Emmitsburg St., to Jas. H. Reindollar, at \$450.00; dwelling property, corner of mill road and George St., to Michael Fringer, at \$1500.00: dwelling property on George St., to Valentine Harman, at \$2290.00; about five acres of land along Piney Creek, to David Ohler, at \$387.50. There still remains for sale about 38 acres of land, adjoining the Littlestown road, for which the bids were not satisfactory.

On Saturday night, about 10 o'clock, fire destroyed the brick dwelling and summer kitchen on the farm of Mr. Daniel Null, near Kingsdale, tenanted by his son, Mr. David Null. The family were all at Littlestown, during the evening, and had not arrived home when the fire broke out. When help arrived it was too late to save anything. As it is reported that no fire was left in the stoves, the cause of the fire is mysterious. The dwelling was a good brick building, on which there was insurance of but \$800.00. There was also \$150.00 insurance on the contents, both in the Littlestown Mutual. The burned buildings will be replaced as soon as possible.

### Notice to Advertisers.

There is always increased demand for advertising space, during December, which makes it necessary for us to have more time than usual to properly handle "copy." We will be able to accomodate all, owing to the enlarged size of the RECORD, but must ask that space be engaged as soon as possible, and the copy for same handed in at least a day earlier than usual. Those who take extra space for the whole month will be given preference over those who take it for only a week or two.

### Floral Antiseptic Tooth Powder.

Efficient and exceedingly agreeable. Prevents decay and sweetens the breath.

### Plenty of Exercise Necessary.

first account.

Plenty of regular exercise must be taken in order to keep the body in a healthy condition. Any excessive or unusual exertion, however, is sure to cause stiffness and soreness of the muscles and joints.

To counteract this effect there is nothing better than Sloan's Liniment. Lay it on lightly where the muscles have been strained; it requires no rubbing for it penetrates right to the bone, relieves any congestion and inflammation and makes the muscles elastic and pliant.

Sloan's Liniment is a great boon to athletes, for it not only relieves pain and stiffness, but it is an excellent remedy for sprains, cuts, bruises and cramps.

Mr. J. F. Price, of Tuscumbia, Ala., Brown, Nelson A. writes: "I am an engineer on the Crebs, Maurice A. Southern Road from Chattanooga to Memphis, Tenn. The continued elevation of my arm upon the throttle gives it a sore feeling when on a long journey, and there is nothing that will take the soreness out like Sloan's Liniment, and I keep a bottle in my grip always."

### The Minister's Wife.

The minister's wife ought to be selected by a committee of the church. She should be warranted never to have headache or neuralgia; she should have nerves of wire and sinews of iron, she should never be tired, she should be cheerful and intellectual, pious and domesticated; she should be able to keep her husband's house, darn his stockings, make his shirts, cook his dinner and copy his ser-She should keep up the style of a lady on wages of a day laborer, and be always at leisure for "good works," and ready to receive morning calls.

She should be secretary of the Band of Hope and president of the Missionary Society; she should conduct Bible classes and mothers' meetings; should make clothing for the poor and gruel for the sick; and finally, she should be pleased with everybody and never desire any reward beyond the satisfaction of having Prevents decay and sweetens the officer. Price 10 cents a bottle. Manufactured. Price 10 cents a bottle. Manufactured. only by John McKellip, Taneytown, Md. done her own duty and other people's too.—Ex.

#### Injustice of the Trick Ballot.

Many people in Maryland, when the question of trick ballots comes up, dismiss it and satisfy their consciences for lack of interest in a matter that should concern all good citizens by saying: "Well, it is the illiterate voter who is disfranchised. It's his own lookout."

But it is not only the illiterate voter who is disfranchised. We should be entirely willing to let any fair-minded man

tirely willing to let any fair-minded man in the State-Taft man, Bryan man, Debs man or Hisgen man-determine whether the trick ballot, as used in some of the Maryland counties, does not violate every rule of fair play, whether the voter is literate or illiterate, learned or unlearned. We do not care how well a man may read and write, he is apt to make a mistake under the most favorable circumstances in marking a ballot filled with a long string of names.

How many educated Democrats would not bitterly resent running the chance of losing their ballot by marking it wrong if they had to hunt for names intention-ally arranged so as to lead to confu-How many of them would not feel that it was an outrage upon their rights as citizens if they saw the ballot so printed that voters of the opposition party had all the best of it? Would they be satisfied with the explanation that it was meant for the illiterates? It is not only the illiterate who are disfranchised; t is any and every man who in his haste makes an error. The whole business is wrong, and the people of Maryland, if they fully understood its iniquiwould indignantly demand that an end be put to it.-Balt. News.

#### ---Print Paper Famine Near.

Appleton, Wis., Nov. 21.—Unless altogether abnormal weather conditions prevail practically throughout the United States between now and the first of the year, this country will, within six weeks, face a serious print paper famine, according to the judgment of the largest paper manufacturers of Wisconsin. Conditions in the paper industry, it is said, have never been so dubious, and the steady depletion of water power streams through-out the paper-making district, both East and West, is adding daily to the uncer-

tainty of the aspect. Several weeks ago manu facturers de-clared that the lack of rain would soon make wood pulp worth its weight in gold. To-day they are asserting that even for its weight in gold the wood pulp in a few weeks more will not be attainable. Wood pulp mills of the Fox and Wisconsin Valleys are running at less than half capacity, and several of them are shut down entirely owing to a lack of water. The wood pulp mills of this State and Minnesota supply only about one-half of the total required by the paper mills of these two States. Wisconsin and Minnesota supply only about one-half of the total required by the paper mills of these two States. sota paper manufacturers are making heavy demands on wood pulp mills in the

East and in Canada. The Spanish River Pulp Company, at Espinole, Canada, controlled by E. A. Edmunds, of Appleton, announced to-day that its production had been cut to one-half the capacity of the plant.

### PUBLIC SALE!
