He was a member of Acacia Lodge, A. F. and A. M., and of the Junior Order United American Mechanics. He is survived by a widow and one daughter.

By a decree of Judge Thomas J. Morris, in the United States district court in Baltimore, Saturday, the W. M. R. R. Co., is practically put on the market to the highest bidder. The decree is that the road shall be sold at auction unless the company pays within the next five days the sum of \$10,894,022.23 to the Equitable Trust Co., of New York, trustee, successor to the Bowling Green Trust Co., the original petitioner for the appointment of a receiver.

The cornerstone of the new \$100,000 church edifice now being erected by the congregation of Trinity Evangelical Lutheran Church, Hagerstown, was laid on Sunday at 3 o'clock with interesting ceremonies. Rev. Dr. Jacob S. Simon, pastor of the church, was in charge. Brief addresses were made by Rev. S. W. Owen, pastor of St. John's Lutheran Church, Hagerstown, and president of the General Lutheran Synod; Dr. J. A. Singmaster, of Gettysburg Theological Seminary; Rev. Edwin T. Mowbray, pastor of St. Paul's Methodist Episcopal Church, Hagerstown, and others.

The York County Agricultural Society will clear \$9,000 on the York county fair of the past week. This is about one thousand more than the profits of last year, but this year the expenses incurred in giving the exhibitions were considerably greater. As a result of this prosperous showing the society will probably of land adjoining the enclosure on the enlarging is required chiefly to care for the live stock, some of which was forced to go without shelter the last two years.

the Prohibition party, and Edwin Higgins, member of the state executive committee of the party, were in Frederick Tuesday afternoon with the hope of having a Prohibition ticket nominated in the county, in spite of the action of the recent county convention, which decided to make no nominations this year. Chairman Wood called a meeting of county Prohibitionists, with a view to having nominations for county offices made, but the response of the call was not of an encouraging nature. Mr. Wood then urged those present at the confer- secure representatives for us at the places

"The Middletown Register, as well as several highclass plays and lectures—a season's
amendment; as did also Governor Crothers. The Senator said; "Unless this
amendment is passed, Maryland will
be siezed by the Repuplican party. They
will put the emblem on the ballot and
Maryland will be taken from the Demon Maryland will be taken from the Demo-

going question. The unanimous sentiment was in favor of such a movement.

A committee was appointed to decide good of the state demands it. This amendment differs from the last amendment in that it permits the foreigner to vote and in that it leaves nothing to the register's discretion. Years ago we used to have to plead for the life of the Democratic party; now we do not plead for that, but for a greater issue, that means progress to Maryland, rather than retrogression; the elevation of the foreigner, rather than his disfranchisement.

emphatically and on my honor that there will not be a foreigner—to the most remote generation—who will be dis-franchised by this amendment. I was against the last proposed amendment because I believe some foreigners would be disfranchised, but under this amendment no white man can be disqualified. Don't forget this proposition; There is no foreigner to-day living in the state of Maryland who will even be put to the educational test."

Governor Crothers and Comptroller Hering also spoke strongly in favor of the passage of the proposed amendment. They declared that the passage of the the black race

For and Against the Amendment.

Investigating Gettysburg College Affairs.

The Investigation Committee of the Gettysburg College Board of Trustees which was appointed last June to investigate the alleged dissatisfaction with the administration of Dr. Hefelbower as president of the institution closed its sessions Wednesday afternoon after having met Monday, Tuesday and Wednesday in the parlors of the Eagle Hotel.

The Committee which was appointed at the request of Dr. Hefelbower, consists of the following: Dr. John Wagner, Hazelton; Dr. H. H. Weber, York; Charles F. Stifel, Pittsburg; Frank E. Covin, Bedford, W. L. Gladfelter, Spring

The sessions of investigations were taken up largely with the taking of testimony of various persons connected with the college in one way or another. Members of the College faculty, H. C. Picking, Treasurer. Dr. M. H. Valentine, Philadelphia, and Dr. William J. Gies, of New York City, were called before the committee which held its sessions behind closed doors.

The result is, of course, not known but a report of the committee's findings will be made at a special winter meeting of the Board of Trustees which will held at Harrisburg later on. -- Gettysburg

United Brethren Conference.

Carlisle, Pa., Oct. 14.-The second day's sessions of the one hundred and twentieth annual Pennsylvania Conferenc of the United Brethren church, now being held in Grace church, Carlisle, was largely attended by the laity. The morning's devotions were conducted by Rev. William H. Waggoner, of Dickinson. Addresses were made by Rev. G. D. Gossard, and Rev. Leonard Wood, of Baltimore, the latter representing the Anti-saloon League, and requesting the sympathy of the Pennsylvania Conference, as well as the votes of clergy and laity, in behalf of the Anti-saloon moveamendment would be a great boon to ment. The reports on Bible cause, the church home and temperance were presented by Revs. E. L. Hughes, Spry, Pa.; S. K. Wine, Scotland, Pa., and A. R. Ayres, York. Dr. James H. Morgan, dean of the Dickinson College faculty, valcomed the conterprocedularities. welcomed the conference delegates.

welcomed the conference delegates.
In the afternoon Bishop Bell, of the Pacific Coast, spoke, and Rev. A. N. Horn, of Windsor, Pa., made a report on church erection, and in the absence of Dr. Gable S. S. Hough, of Dayton, asked for the support of the conference in the church erection cause.

This evening's devotions were conducted by B. G. Huber, of Chambershurg

ed by B. G. Huber, of Chambersburg, and the educational report offered by It would make Maryland a one-party Rev. A. B. Statton, of Hagerstown. Encouraning reports were included in the addresses delivered by President Lawrence Keister, of Lebanon Valley College, and President J. P. Landis, of Bonebrake Theological Seminary, Day-

Electric Light in County Towns.

The Union Bridge electric light plant

Mr. E. A. C. Buckey, the power being statute book, and which Democrats have nated in an amendment offered at supplied from a dam near Middleburg, for eight years done all they could to meeting of the Presbytery some mont and has been under way all summer. The New Windsor plant is the developin the town for several years, the power for the enlarged plant being supplied by a large gas engine. Both towns are to be congratulated for having such enterprising capitalists.

..... Indians Dying Out.

Washington, October 10.—The popular idea that the American Indians are decreasing in number is dissipated by official figures showing that today there are more than three hundred thousand red men in the United States. The into decide public questions solely on their crease in population of about forty thousand during the last two decades is at-Because it will relieve the southern tributed to the government's constant ounties of the chief obstacle to progress. effort to uplift the Indian to the level of contemporary civilization. The government is not only providing the race with its powerful protection, but is providing every means for the upbuilding and enlightenment of the race and is injecting into the Indian's daily life civilized customs and modern methods. Three and one-third million dollars is being expended by the United States annually for the education of more than 30,000 Indian boys and girls.

Looking to the broader and practical education of the Indians, the government is extending its system of apportioning lands. The cultivating of these allotments by the Indians or the letting of them for short periods to white persons for farming or grazing is a matter toward which the Indian Service is directing much attention.

-0-0-0-Progress on Panama Canal.

Washington, Oct. 11.-The Washington office of the Isthmian Canal Commission to day received a cablegram from the chief engineer on the Isthmus, giving the amount of excavation on the canal for the month of September, 1909, as follows:

The total excavation for the month of September was 2,836,385 cubic vards, place measurement, against 2,755,178 cubic yards in the previous month.

There were 25 working days in September, against 26 working days in the previous month, while the rainfall for September was 10.07 inches, against 9.28 inches in August.

The average daily output in September was 113,435 cubic yards, against 105,969 cubic yards in August.

bic yards, against 7,643 cubic yards in the previous month, and 451,783 cubic

BONAPARTE AT WESTMINSTER.

Scores the Amendment and Points out its Dangers to State Government.

Westminster, Md., Oct. 13.—The first Republican meeting of the campaign in this county was held here to-night. Odd Fellows' Hall was filled, the platform being occupied by local candidates and committeemen. Mr. John H. Cunningham, county chairman, presided and introduced Mr. H. Peyton Gorsuch as chairman.

Mr. Frank E. Williams was the first speaker. In his address he attacked the suffrage amendment, the Election law and discussed the Corrupt Practices act. Former Attorney-General Charles J Bonaparte's address was almost entirely made up of an attack upon the amendment.

Mr. Bonaparte said, in part:

"Some years ago it was said of the Democratic candidate for the Presidency (I needn't name him, for there is only one) that he made 70 speeches a day; one of his rather numerous enemies in his own party explained this to mean that he made the same speech over again 70 times a day. Had it been Mr. Bryan's good fortune to have to find fault with the proposed amendment, against which you are all, I hope, going to vote as one man in 20 days, he need not have taken refuge in repetition: if one tried to say all the bad things which can be truthfully and ought to be rightfully said of that measure, he would fill up seven times 70 speeches of reasonable length

and yet leave much unsaid.
"It has, indeed, one merit: If adopted and sustained by the courts, it will do what it will put or keep the government of the State of Maryland and that of the city of Baltimore in the hands of present ring—that is to say, of a little group of Democratic politicians, who have long been and are now absolute masters of their party organization—it will put or keep the State and its great city under the heel of this handful of corrupt and unscrupious men, if not until kingdom come, at least during all of your days and all of mine.

"In 1896, when we had an honest elec-tion law, given us by a Republican Legislature, and when thousands of Democrats voted with us who had never done so before and have never done so since McKinley had a plurality in Maryland of 32,000; had this amendment then disfranchised 52,000 Republican voters, and everybody agrees it will do that much, if not more, the ring would have had 20,000 votes to spare after giving the State to

'So it could afford even to give us a fair election law and yet feel safe; but if any mind in Maryland to day believes it would give us a fair election law, or even an election law no more unfair than what it has given us since the extra session of 1901, that mind must have all the greenness of springtime and all the innocence of childhood. The men who make up our ring delight to cheat at elections just as dogs delight to bark and bite; if they is practically ready, and light will be turned on either to-night (Friday) or Saturday night. New Windsor has also their own hearts, and, when that shall their own hearts, and their own heart been quietly at work on a large and well equipped new plant, and it will be ready in a few days for operation.

their own ucates, and, come to pass, it will take a microscope stronger than any yet invented to find what will be left of the honest election what will be left of the honest election. The Union Bridge plant is owned by law which Republicans put on our terian ministers. The discussion original transfer of the control of the make dishonest.

'Now, what will it mean to have our ment of a small plant which has been ring firmly and securely and permanently in power, with nothing to fear from independent voters or reform organizations or a free press, and with a reasonable confidence in its ability to always command a majority, whatever it may do or leave undone, and even, if need be, to make that majority as large as it may see fit to order of its election offi-

"This will mean that if a Democratic State chairman shall rob the State of Maryland of, say, \$150,000, he need not be afraid of prosecution or exposure; that if a Democratic city chairman shall be the go-between in a scheme to bribe public officers, this trifle need not cause his retirement; that if a Democratic politician, as City Register, to oblige another Democratic politician, as City Councilman, shall replace an honest and capable Republican clerk by a protege of the Councilman who steals, say \$70. 000 of the city's money, nobody need be the worse for this, except the city and its tax-payers; it means that if a Democrat ic politician of great influence shall quarter a drunken son-in-law on the city of Baltimore, he need only smile complacently when the promising youth discovered to have tapped the city's till. 'If we may reasonably judge the

future from lessons of the past, and, for the most part, of the very recent past, incidents such as these may be expected so long as the Democratic party shall rule the State and the city and so long as the Democratic ring shall rule the Democratic party. If the amendment be adopted and Maryland be made, once for all and whatever betide a 'oneparty State,' when such things happen and we grumble that they do, it will doubtless be a comfort to have the statesmen of the ring look at us, with their hands in their pockets and their feet on the table and cigars, that we pay for, in their mouths, and to hear them say, as did that grand old Demo-crat of their type, William M. Tweed: 'Well! What are you going to do about it? and further to know and feel too truly that then we can do nothing about it; for all time, it will be then too late.'

John Prentiss Poe, one of the bestknown members of the Baltimore bar and politicians, died at 3 o'clock Thursday morning at the home of his daughter, Mrs. Alfred Tyler, at Ruxton, where The amount of concrete laid during he was stricken with paralysis last Sunthe month of September was 21,497 cu-day. Up to the day before he was stricken he had worked faithfully at his law practice and lectures at the Univeryards of fill were placed in dams in Sep-tember, against 454,677 cubic yards in even on last Saturday he was active in a quarters alone was returned to the subcase in the Superior Court.

Synopsis of Automobile Bill.

A synopsis has just been made by Osborne I. Yellott of the Automobile Club of Maryland of the proposed new auto-mobile law drafted by Col. Sherlock Swann and approved by the special commission to frame such legislation appointed by Governor Crothers. State Senator J. Charles Linthicum is chair-

man of the commission.

The bill provides for the appointment of a commissioner of motor vehicles for a two-year term, who must himself have driven an automobile more than 2000 miles. His salary will probably be

either \$2400 or \$3000 a year.

Motor vehicles must be registered and pay a license fee, and license numbers will be furnished to the owners. The commission has decided on the following fees for motor vehicle registration:

Class A—Six dollars per annum for each motor vehicle with a rating of 20-horse power or less, \$9 for one with a rating of more than 20-horse-power and not more than 30-horse-power, \$18 for one with a rating of more than 30-horsepower and not more than 40-horse-power and \$24 for one with a rating of

more than 40-horse-power.

Class B—Three dollars per annum for a motor vehicle used only for the transportation of merchandise. Class C-One dollar and 80 cents per

annum for each certificate of registration of a motor vehicle.

Class D-One hundred dollars per annum for assigning a general distinguishing number or mark to a dealer in motor vehicles other than motor cycles. If the gross sales of any dealer shall not exceed \$10,000 in any year, the commissioner of motor vehicles may issue a dealer's certificate to such dealer for \$25; if more than \$10,000 but less than \$20,000, \$50. Dealers are not compelled to get a dealer's certificate. They may get individual certificates at the regular rate for each car in actual research.

rate for each car in actual use.

Class E—Ten dollars per annum for each certificate assigning a general dis-tinguishing number or mark to a dealer

in motor-cycles. No person shall operate a motor vehicle without a license, except in a licensed operator's presence, and then the latter will be held responsible for accidents. Fees for operating autos are fixed at \$2 a year and for operating motor-cycles at \$1 a year. No person under 16 years shall receive a license to run an auto or

under 14 to run a motor cycle. If the rate of speed of a motor vehicle operated upon the public highways of this State exceeds 12 miles an hour in the thickly settled or business parts of cities, towns or villages, or 18 miles an hour in the certain or part thinkly settled. hour in the outlying or not thickly settled parts of cities, towns or villages, or 25 miles an hour in the open country outside of the limits of cities, towns or villages, such rate of speed shall be prima facie evidence that the person operating such vehicle is operating the same at a rate of speed greater than is reasonable

and proper. There are regulations concerning lights, bells and horns to warn drivers of other vehicles and pedestrians of the approach of motor vehicles.

-----Presbytery for Higher Salaries.

The Baltimore Presbytery, last week, had up for discussion the question of the minimum salary to be paid Presbymeeting of the Presbytery some months ago, and set for disposal at this meeting. Dr. E. H. Robbins, of Baltimore, introduced the minimum salary plan and after a wide range of discussion, in which Revs. Dr. Thomas Freeman Dixon, of Frederick; James E. Moffatt, of Cumberland; George S. Bell, of Annapolis; George M. Hickman, Second Presbyterian, Baltimore; Edw. A. Mc-Alpin, Babcock Memorial, Baltimore, and De Witt M. Benham, Central Presbyterian, Baltimore, and others took part, a resolution was adopted to the effect that the Presbytery hereafter will decline, except in extraordinary cases, to place a call in the hands of a minister unless it could assure him an annual minimum salary of \$1,000 a year, if married, and \$800 if single. The cost of a manse will be taken into consideration in computing the salary.

The Presbytery also announced that it will group two or more churches under one pastor whenever it is found that the increased minimum salaries decided on cannot be met otherwise. An effort will be made by the Presbytery to have the salaries of pastors now receiving a below the new minimum raised to that amount.

New York Employees Rewarded.

In appreciation of their co-operation in the handling of the unprecedented traffic incident to the Hudson-Fulton celebration, the Interborough Rapid Transit Company, of New York, announces that the directors voted \$25,000 to be distributed among the employes of the company on the elevated and subway lines. Among those who will share in this distribution are employes in the treasurer's office, who during the week were called upon to count more than \$750,000 in money of small denomina-

In the seven days from Saturday, September 25, to Friday, October 1, sive, 12,964,716 passengers were carried on the elevated and subway lines. Sat urday's traffic increased this number to more than 15,000,000.

For the celebration the company issued 10,000,000 free passes to the officers and men of the foreign fleets and to the accredited delegates from other countries. Just how many took advantage of this courtesy it is impossible to tell. That this vast throng was handled without a single serious accident is consider ed remarkable among transportation

In the counting of the receipts forty clerks were engaged, twenty working all day and twenty all night. On one of the heaviest days of the week \$36,000 in

during the coming year take into the fair grounds about fourteen more acres west which is owned by the society. The

Charles R. Wood, state chairman of

For Popular Local Entertainments.

The editorial in last week's RECORD Condensed Items of Interest from was exactly in line with a plan that the citizens of Middletown placed in operation last week-that of beginning plans for a series of entertainments this winter. We hope to see Taneytown take like action. Last winter we had a delightful operetta, "Pauline," rendered here several times, and also at other places. This winter, we should have one or tiful in New Jersey that they are selling in the markets at 10° per box. Some of the berries are larger than they were more like efforts, as well as several high-

be held in Christ Reformed Chapel last Friday night, a number of persons met and at some length considered the aforegoing question. The unanimous sentiupon prospective talent. This committee, consisting of Rev. Dr. Snyder, Rev. Mr. Brown, Dr. Bowlus, Mrs. Gaylor the mountains in a stage, and walked several miles to rest up.

and Miss Anna K. Rudy, had a meeting on Mcnday afternoon, and carefully considered a number of attractions, and unite in recommending a course of six entertainments to the people of Middletown and community. The course under consideration calls for a magician, two concert companies, with readers, one reader, one character portrayer, and companies are described. and one dramatist and monologist. Effort will be made to present the claims of this movement with the view of guar-Eighteen thousand post cards were anteeing the course before a contract will be effected. The entertainments are to be given at the Opera House and will be for the general good of the community. It is hoped that there will be enough to subscribe for tickets to assure

No Support to Individuals.

the course. Let every one lend a hand."

The RECORD received a letter for pubpublication, this week, from a sub-scriber out of the state, strongly com-mending one of the candidates on one of the tickets in this county. We cannot publish such letters, much as we would like to please both subscriber and candidate, for reasons which we think are

very obvious. The RECORD is not a party newspaper, and cannot lend its aid to the support of individuals, even indirectly, though we reserve the right to discuss issues. Our advertising columns, however, are open to the use of both parties, as are the columns of the city papers, and such letters will be published, as advertisements at our regular rates, when so de-

Wooden Wedding Celebrated.

For the RECORD.) On Tuesday evening, Mr. and Mrs. Stanley C. Reaver, in commemoration of their "Wooden Wedding," or five years of married life, appropriately and un-ostentatiously celebrated the same in

Good People and Moral Issues.

The candidate indorsing a moral issue, is at a disadvantage, for those whom the moral issue hurts, will "cut" him, while those whom the moral issue pleases, will still go on voting as though there was no such issue, and no special champion of it to be defended against enemies. This is the truth. It is not the politicians, the tricksters and the immoral elements that are responsible for bad legislation, but it is the good (?) church people. The former classes make a business of politics by shaping politics to suit their business, while the latter are too unconcerned, or too hide-bound, or perhaps "too good," to make use of their power for righteousness.

The church people make hypocrites and dodgers of candidates whose preferences and impulses are right, for they know what they will get from both classes-"cuts" from the one, and no help from the other. And yet, the people wonder why certain things can be. A candidate naturally wants to be elected; he wants votes, and in order to get them he thinks he must be all things to all people-a "straddler." Who is to blame? A candidate, ideally, ought to want to win on clear-cut issues; but when the issues are moral ones, he is confronted with the certainty that the moral people will let him fight, practi-

One need not be sarcastically termed a modern Jeremiah for voicing such sentiments. They are true, and will be, as long as our good people follow the lead of Ananias in shaping their claimed moral status with their politicial actions. Whatever the best people of any community really want, and will go after in the right way, they can have; but, the REPUBLICAN politicians have them sized up exactly right-they know that, as a rule, the 'good people'' vote the ticket straight. without asking questions, then go home and take no thought of public affairs

Financial Selfishness.

The present position of the West, with WE DO NOT take much stock in the reference to the tariff, is typical of the

not sensible, for one class to want to prosper without a fair distribution of its prosperity among all classes. The inthe disease from which the West is suffering at this present time, and in some measure this same spirit is manifest in every community, perhaps to a greater extent in purely agricultural communities than in others.

There are many lines of business, at this present time, struggling along, and not participating in the reign of high prices, such as farmers particularly enjoy. Labor, of the skilled sort, has adthe items which go to make up a business, have advanced; yet, the product, or merchandise, of the average business has not advanced in price.

The printing business, for instance, represents an illustration of this kind. There is not an office-in country towns -more than barely making expenses, if even that, notwithstanding the fact that these offices are located in the midst of prosperous surroundings. If any attempt is made to advance prices, it is characterized as "robbery" and at once posing amendments." an effort is made to find some shop willing to do work at hard-times prices.

There is mighty little of the proper spirit of "live and let live" going, these days, and the West is simply illustrating this, on a big scale, in its tantrums over the tariff. It is willing to get rich fast, on its own products, but not willing for the manufacturers to do the same thing, on theirs. Here is the right thing to do. Be happy because you are prosperous, and help others to be happy by dis- called, for the submission of amendtributing your prosperity among them. In the final summing up of life it will be amendment, although it is mentioned in realized-perhaps too late-that some the preambles to the resolutions. things are not worth while, and financial selfishness is one of them.

Changes of season affect cattle because their digestive organs have to become accustomed to the change of diet. This causes milk production to decrease. Forced feeding makes matters worse. Popular Government.

Sunday, at Fresno, Colorado, to an audiremarks were as follows;

"We all approve a popular government, although a lot of us don't know by direct vote, are: why. I think we make frequently ends of means. We talk about liberty as something to be accomplished as an end. We think popular government is something to be accomplished as an end. Well, neither is true. Liberty is a means

is the best government which makes Jersey most people happy and the reason is the people who are affected by the same set of circumstances, can by representa- Ohio, North Dakota and Wyoming. tion in the government be better trusted to look after their own interests than any other class can be trusted to look after their own interests, no matter how altruistic that class.

"So that if the class is represented, assuming that that class has intelligence, enough to know its own interest, we can count on that being a better govern-ment than one governed by one or a few only. That is a popular government, merely by calling it so. You have got to have some means of determining what shall direct the course of government, what shall decide. That is the majority. popular government.

down to the basis it is the control of the majority. Now you cannot have a decent, popular government unless that men ought to exercise if it is to be exer-

"I could call your attention to a good many instances where those who are in favor of popular government and who, if I may use the expression, pull the tail feathers out of the eagle in defying liberty and apostrophizing everything that we think dear, and yet just as soon as wheat. Shares are higher, but cotton they become a majority they think that gives them the right to control the minority show ity absolutely, and if the minority show any disposition to question it they send

A portion of the President's address today was interpreted by some of those who heard it as indicating that he was opposed to the election of Senators by popular vote. On this subject the Presi-

We don't vote directly under our Constitution. We have a vote which controls the lower house in the election of the members. We delegate to those members the power to make law. We don't make them directly. We elect legislators who elect Senators. These Senators are re-elected every six years. The members of the House are elected every two years and then we elect a President every four years. Each one of these show the popular will and the embodying of that will in the resultant course of the Government is something which the people voluntarily introduced To enable them to govern themselves, so that the first sway of popular will should not find immediate expression in legislation, but that the people should entire purpose with respect to the Gov-

ernment law and under the Constitution, and

and with the checks that were sure to secure moderate clear-headed, well-thought-out policies, and therefore when the American people voted that Constistinct is strong, everywhere, for the "big tution, and now they are maintaining it, fish to eat up the little ones" and that is supporting it, as I hope always will, they are governing themselves and are more to be credited than he that taketh a city."

Puzzle for Congress.

Washington, Oct. 8.—Congress will be confronted with an interesting and puzzling question when it meets in December. There will be put up to it the question as to whether two-thirds of the States of the Union have asked for a vanced; the cost of living and most of convention to be called to consider an amendment to the Constitution providing for the election of Senators by a direct yote of the people.

> This demand will be made under the fifth section of the Constitution, which

> "The Congress, when two-thirds of both Houses shall deem it necessary, shall propose amendments to this Constitution, or, on the application of the Legislatures of two-thirds of the several States, shall call a convention for pro-

It is claimed that twenty-six of the States have passed resolutions in their Legislatures requesting Congress to call a convention for the consideration of a Constitutional amendment providing that United States Senators shall be elected by the direct vote of the people. Five other States have asked that a convention be called, or have instructed their Senators and Representatives to use every honorable means to have one ments without specifying the Senatorial

The question to be considered by Congress is whether these indirect applications are to count as formal constitutional requests. There is no precedent for the calling for such a convention, all amendments hitherto having been submitted by Congress to the Legislatures. There is no time mentioned in the Constitution when the requests are to be made by the Legislatures and while the torial amendment has extended over a number of years, from 1895 to the present year, it is claimed that unless revoked by the States they are all valid.

Thirty-one are a two-thirds majority President Taft preached a sermon, last of the States and with twenty-six resolutions in direct form, the five indirect ence of 25,000 people, on "popular gov- resolutions would make the required ernment," his text being, "He who number if Congress accepts them as conquers himself is greater than he who constitutional. The States that have taketh a city." The substance of his passed direct resolutions asking for a constitutional convention to consider this amendment for election of Senators

Legislation Needed.

President Taft's demand for legislation regulating corporate action because prosperity bred dangers, and the "ec-I don't know any other method in a stasy of great profits" might lead men "We do have checks. We do have indirect means of giving expression to met the instant protest of financial and and corporations to lawless acts, has vote of the majority, but when you get commercial journals. They urge that a time of abounding prosperity is no time for new legislation on business

The people think otherwise. The opinmajority exercises the self-restraint that | ion of the great mass of business men, producers and wage-earners is with President Taft. The expansion which has carried all records of trade and production beyond 1907 is accompanied with rising price for food and the other necessities of life, which cramp the small income and wage. The consumpcloth, which the masses use, is dearer. shoes were disappointing. More people are at work than ever before and wages are maintained, but the purchasing power of the money earned is reduced by.

high prices.

No law can increase the cotton crop which brings dear cotton, but it might regulate Meat Trust prices for hides. Wheat is dear from causes beyond law, but more economical corporate management might make the transportation and distribution of food less costly. If the watering of corporate stock were pre-vented the fixed charges the producer and consumer pays for, might and would

These arguments carry weight to those who see more than the profits of the day, and now, as in the past, the time of large corporate profits will be a period of corporate legislation .- Phila. Press.

Money Comes in Bunches

to A. A. Chisholm, of Treadwell, N. Y. His reason is well worth reading: 'For a long time I suffered from indigestion, torpid liver, constipation, nervousness, and general debility," he writes. "I couldn't sleep, had no appetite, nor ambition, grew weaker every day in spite of all medical treatment. Then used Electric Bitters. Twelve bottlees restored all my old-time health and vigor. Now I can attend to business every day. It's a wonderful medicine." Infallible for Stomach, Liver, Kidneys, Blood and nerves. 50c. at R. S. McKin-

IDEAS ABOUT HAY.

Increase In Yield and How to Improve Crops.

The average yield of hay in the United States from 1865 to 1870 was 1.28 tons per acre. This yield was exyears from 1865 to 1905. The average yield for the third five year period, ending with 1880, was 1.29 tons; that of the seventh five year period was 1.35 tons, and that for the last five years was 1.47 tons per acre. The average yield for the last period shows an increase of 0.19 ton over that for the first period and an increase of 0.21 ton over the average yield for forty years, which is 1.26 tons per acre.

The average yield per acre in the ten leading timothy hay producing states for forty years varies little from that for the entire United States. There is a slight difference during the first

LOADING HAY BY HAND.

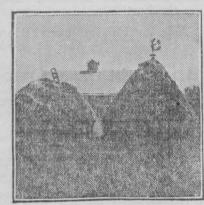

twenty-five years, when the yield was above that for the United States. The yield during the last fifteen years was nearly the same for both.

The feeding value of hay is often lowered when it is stacked out in the open. Considerable hay is often entirely spoiled so that it is unfit for feeding. The amount of spoiled and damaged hay depends upon the time the stack stands and upon the method of stacking. In Virginia a six to eight ton stack of timothy hay, after it has gone through the sweat, or, in three or four weeks, will have from 300 to 600 pounds of damaged hay. Most of this will be on the top and only a small portion on the sides and the bottom.

The market value of hay is frequently lowered because this stained hay is worked into the bales. It may happen that the spoiled hay will be no more than a couple of handfuls, which amount is really insignificant, but the inspector cannot tell how much the bale contains, so he is forced to grade it one or two grades lower. This causes quite a loss to those who sell hay. In Iowa and surrounding states considerable hay is stacked in the field. and the loss due to stacking is not thought to be enough to warrant the building of a barn for hay only.

The most important thing in determining the value of hay is palatability for if it is not relished not enough will be eaten to furnish much nour ishment to the animal. When hay is exposed in the field too long in the hot sun or is subject to rain its palatability will be lessened, which in turn lowers its market and feeding value. Low grade hay is not as palatable nor does it contain as much nourishment as the better grades.

In general there is little if any profit in growing and selling low grade hay. especially that made from the grasses. for the loss of fertilizing value or crop producing power of the land amounts

GOOD AND BAD STACKS.

to more than the net profit after the cost of curing, baling, etc., is deducted. The price of hay land is steadily rising in the tame hay section, and in order to make a fair profit on the value of the land it will be necessary for the grower to practice the best methods of culture, curing, baling and selling. Before there can be any material change in the quality of hay sent to the market it will be necessary for farmers to learn the grades of hay. for it is impossible to grow choice hay if the producer does not know what constitutes this grade.

Much of the heavy work in loading hay can be saved by using a hay loader. Take pains to stack well. Note the difference between the stacks in the illustration.

Extra Tillage. pays so well on the investment as the extra tillage requisite to secure ideal conditions. Clods repel the tiny roots, and vacancies between carry neither ready moisture nor food. Sometimes, especially in dry seasons, the difference in yield between a cloddy soil and one open, mellow, with pacity to get at the root of all the be available food easy to reach and moisture at will, approaches 100 per cent.

THE BANNER FARM STATE.

Missouri Tracts Smaller, but in Number They Exceed Others.

Missouri has more farms than any other state in the Union. Within her borders are 284,886 farms, which average 120 acres to the farm. The improved land to each farm averages 75 acres, or 621/2 per cent. These figures are based on the last census report. According to the report of the commerce and labor bureau, the farms of Missouri are worth \$34.75 an acre.

Among the states of the middle west Missouri has smaller farms than many of them. Ohio is an exception, where ceeded but three times during the forty | 276,000 farms only average 88 acres each. Illinois has 264,000 farms of 124 acres each. Iowa has 228,000 farms of 151 acres each. Kansas has 173,000 farms of 228 acres. In the United States farms average 146 acres, but only 50 per cent is improved land.

F. B. Mumford, professor of animal husbandry in the college of agriculture in the University of Missouri, has prepared some interesting facts about the amount of live stock there is on an average Missouri farm. This is considered a great mule state, and yet there are four times as many horses as there are mules in Missouri. The equipment . as Professor Mumford gives it is: Fifteen cattle, four horses, one mule, twenty-six hogs, five sheep

and a fraction of a goat. Fully one-third of the state's population depend directly or indirectly upon animal products for their existence. The income from animals and animal products is \$130,000,000 annually. Fifty-five per cent of the farmers have their principal income from live stock -in fact, more than \$800,000,000 are invested in farms, live stock and equipment for stock raising.

Missouri stands third in the middle west as the state having the largest number of renters on the farms. Illinois farms are tilled by 61 per cent owners and 39 per cent tenants. The percentage of tenancy in Iowa is 34.9, while Missouri has only three tenants in ten farmers, which means that seven farmers out of ten in Missouri do not pay rent, but have the title of their farms resting in themselves. The percentage of tenancy in Ohio is 27.5, but in Michigan it drops to 15.9.

There is said to be a tenant on land of David Rankin, in the northwest part of the state, making as much as \$10,000 a year on rented land. Tenant farming in Missouri as well as in all the best agricultural states is said to

be on the increase. Missouri does not get so much return from her lands per acre as do many of the other states. According to the last census report, the money made on each acre of improved land in Missouri was \$9.58 an acre. This is much less than in any of the best states surrounding Missouri. The return per acre in Ohio was \$13.36; Michigan, \$12.42; Illinois, \$12.48; Iowa, \$12.22.

Seeds a Cent Apiece.

Ginseng seeds are worth 1 cent apiece, or from \$80 to \$100 a pound. Dried root is worth \$6.25 a pound.

When first growing from the seed the ginseng plants have two forks or stalks and one leaf on each stalk. The second year it adds another leaf on each part, and the third year the plant grows in three parts with three leaves on each part, and this year a seed ball

This grows direct from the main stalk of the plant and from four to five inches above the foliage. The average plant produces from fifty to sixty seeds and sometimes goes as high as 100 seeds. Wild plants yield better than cultivated.

The fourth and fifth years one leaf is added to each stalk. The fifth year the plant is full grown, having three forks and five leaves on each stalk. It grows from one to two feet in height, sometimes as high as twenty-seven inches. The leaves are broad and flat, about four inches long and two inches wide when full grown with escalloped edges.

It takes five years to grow the root from seed for market and eighteen months to germinate the seed for growth. There is more cultivated root now on the market than wild. The plants are found on high, dry land in the woods and never in swampy places.

How Color Affects Growth. Color agriculture is the latest. Camille Flammarion put seedlings of the sensitive plant into four different houses-an ordinary conservatory, a blue house, an ordinary greenhouse and a red house. After a few months waiting he found the little plants in the blue house practically just as he had put them in. They seemingly had fallen asleep and remained unchanged. In the green glass house they had grown more than in the ordinary glass house, but they were weedy and poor. In the red house the seedlings had become positive giants, well nourished and well developed, fifteen times as big as the normal plant. In the red light the plant had become hypersensitive. It was found that the blue light retards the processes of decay as well as those of growth.

Stick to the Country.

Life in a metropolis makes young children sharp, but not clever. It often destroys their chance of ever being elever, for it hastens the development of the brain unnaturally; it makes Probably no operation on the farm | them superficial, alert, but not observnnt; excitable, but without one spark of enthusiasm. They are apt to grow blase, fickle, discontented. They see more things than the country bred child, but not such interesting things, and they do not properly see anything. for they have neither the time nor cawildering objects they crowd into their

little lives.

THE GRANGE

J. W. DARROW, Chatham, N. Y., Press Correspondent New York State Grange

NOT AFRAID OF SENATORS.

Grange Work.

State Master Stetson of Maine on

Some little time ago I was called to Portland to meet Senator Hale. He said: "You know the tariff is to be revised, and I want you to get a list of those things that farmers feel the need of the revision in. I agree with you that the revision of the tariff is a business proposition, and I want the northeastern part of our country which lies adjacent to a foreign one to be represented in the schedule." I have tried to get the granges to find out the conditions and report to their senators, and, by the way, I don't want any of you to feel about senators as I used to. I thought they were set upon a pedestal and did not care about the common people, but my experience has been of great men that the nearer you get to them the smaller they become. Abraham Lincoln said, you know, "that God must have loved the common people, for he made so many of them."

Now, I say to you there are great questions before us. One is the enactment of a parcels post law. Take it up in your meetings, read up on it, for I believe this is second only to day. the rural free delivery, which has been the greatest thing for the farmer and his wife that ever came to our coun-The other is postal savings

The grange of the future stands for good roads, good schools, better citizenship. I believe it will teach us to love our grange homes, love our own homes, where the strife of the world is shut out and the sweet things of life that we love are shut in. The grange of the future will teach us to do as well as we know, and we should dedicate our lives and impress on our minds that the grange we love, which cost so much in the past, means so much in the present and counts for so much in the future, must be kept together by you and me, working together for the best interests of the organization."

It is said that the seven founders of our Order pondered seven days to see whether the sisters should be admitted or not, and the reason against it was that no woman could keep a secret. Now, in my brief experience as state master I have talked some with the men, in stores, in blacksmith shops and other places, and I will say that as far as I have seen and am able to judge I'd rather trust a secret with the sisters than with the brothers. If it were not for the conscientious work of the sisters the Order would not stand where it does today. It is the one place where a man can take his family and place them among influences that tend for the betterment of humanity.-C. S. Stetson.

HIGH SCHOOL OF FARMING.

Model Institution Where Practical Instruction Is Given.

The president of the National Educational association declared in 1905 that the rural high schools ought to cease imitating the urban secondary schools and develop a curriculum of their own -one suited to the needs of a farming neighborhood. Through the encouragement of an act passed to stimulate the growth of high schools in the country districts of Massachusetts the township of Petersham, Mass., has an agricultural high school of precisely this the trough.

Along with courses in history, language and mathematics are taught, among other things, the wild flowers, birds and animals and their habits; the rocks, including their chemical composition and how they are made over into soil; the kinds of soil, the crops best suited to each and the best methods of cultivating; how to raise the best hop crop and the right sort of culture to be given all the common standard crops; how to raise small fruits and prepare them for market; how to conduct a market garden business, including the care of glass houses; injurious insects and harmful fungi; the principles of forestry and landscape gardening-how to lay out a home; the care of domestic animals, poultry and bees; how to manage a dairy; the use of common tools; the practical management of modern farm ing and dairy machinery.

The school has a \$20,000 building and ten acres of ground. The curriculum is being closely watched by the neighboring townships, and several similar schools are being planned. If it goes through Massachusetts with the rapid ity of most good things we shall speedily have a new chapter in the story of the New England abandoned

State Grange Meetings.

The next meeting of the Pennsylva nia state grange will be held at the state college, Pennsylvania, in Decem-

The New York state grange will hold its annual meeting at Watertown in February next.

The Maine state grange will hold its next annual session at Bangor, Dec. The Michigan state grange meets at Grand Traverse in December.

The West Virginia state grange has selected Elkins as its place of meeting Ohio state grange will meet in De-

cember at Springfield, O. The new grange building on the New York state fair grounds will be ready

for occupancy in September.

DAIRY WISDOM.

Attention to Details Sure to Bring the Best Results. Give the dairy utensils a good sun

bath each day. The stingy feeder cheats himself as

well as the cow. Oilmeal is good for the cows. It

will prove a pay ration. Insufficient feed and poor shelter

will ruin the most promising heifer. Fresh, clean water is important with every animal on the farm in the summer time, but above all others with the

A sour feed pail has wrought havoc among the calves on the farm. The time spent in scalding the pails is well

Pasture the cows at night and keep in the barn during the heat of the day. Needless to say the barn should be screened.

Garget, or congested udder, can be generally relieved by hot applications and vigorous rubbing and kneading of the affected part.

As compared with the old pan method of raising cream, the separator is as far ahead of the old method as the thrasher is ahead of the old flail method of thrashing grain.

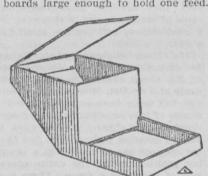

No trees in the pasture? Then make shade for the cows by putting up some posts and throwing over them a thatched roof. It is a shame to keep cows under the hot rays of the sun all

The ticks on cattle can be got rid of by going over the animals with a sponge moistened in crude petroleum. Go over again in about two weeks, when the eggs have hatched a new

Ringbone Remedy. Here is a spavin and ringbone remedy recommended by a noted veterinarian: Turpentine, three-quarters of a pint; wood alcohol, three-quarters of a pint; tincture of iodine, three-quarters of a pint; camphor gum, six ounces; crude petroleum, one and one-half ounces; oil of thyme, one-half ounce. Cut the camphor into small pieces and dissolve it in the alcohol and turpentine mixed. Then mix in the other ingredients and shake thoroughly. Before applying wash the parts well with strong soapsuds, taking care to wash off the hair and rub the remedy in for fifteen minutes every other day. For

Feeding Hopper For Horse. A practical farmer with a mechanical turn says: If your horse has the habit of bolting his feed you can remedy it by making a self feeder on his feed box. The accompanying drawing shows how a feeder may be made similar to a poultry feed hopper. The contrivance may be made of inch boards large enough to hold one feed.

spavin rub the same time every day.

SELF FEEDER FOR HORSE.

The horse can get the grain only in small quantities and so cannot eat i more rapidly than he should. The bottom must be made with enough slant to insure the feed coming out in

THE SHEPHERD

Pumpkin seeds have always been a safe and effective home remedy for expelling worms from sheep. Even tapeworms can be got rid of by them, the seed containing a special element which is fatal to them.

Sheep Destroy Weeds. One great value of sheep on the farm is that they destroy brush and sprouts and reduce the crop of weeds. It will almost pay a farmer to keep a small flock of sheep simply to keep down underbrush vegetation.

Silage a Valuable Food. Silage is fed to sheep on many farms. When well preserved it is relished by animals and affords a valua-

ble succulent food. From three to four pounds per head daily is about as much as experienced sheepmen care to Fed in larger quantities or if too acid it is liable to cause serious indigestion. Rape For Feed.

The time will soon come on the ma-

jority of well managed farms maintaining sheep when the flock will be turned from the regular pastures to rape fields or patches. The flock owner who has never before given his sheep access to rape need not feel alarmed over the prospect of the change, for, as in the handling of all kinds of farm stock, if common sense be exercised good results can safely be expected.

An Improvement Over Nature. It should be remembered that the sheep is in a sense an artificial animal. If Nature were allowed her way it is doubtful if the sheep would grow as heavy a fleece as it does now, but by our methods of breeding and improving we have increased the length of the fiber and at the same time made a fleece more dense and compact. These facts should be taken into consideration by the flock owner who would at all times manage his flock to the best advantage.

Another New Proposition For the People of Taneytown and Sur-rounding Community.

A Most Popular Line of Ladies' and Misses' Tailor-made Suits, now in Stock at MEHRING'S GENERAL STORE.

We have purchased a line of Tailor-made Suits and we would appreciate a visit from every lady within reach of Taneytown. We feel proud to open up a line to the public like this. Stop to think! when a lady can buy a Tailor-made Suit for a \$5.00 bill, surely some people away from here must be working almost

for the bread they eat. We have them up to \$25.00.

The best and cheapest line of Children's Coats, from 2 to 14 yrs, both Cloth and Fur, that we ever had the privilege to deal for.

Ladies' Skirts, from a Plain Brilliantine up to a French Voile, on hand

Everything else in the entire stock is filling up for Fall.

Sweaters of all kinds are now in.

The Dry Goods line has been replemished in all the heavy domestics and at

Shoe line is filled up to the top, no more room.

Pick up a few specials and help to make room for goods not yet arrived. They

are bargains that cannot be surpassed. Ask for Campbell Varnish Stains. Any lady can renew her furniture with this new preparation, at a cost of a few cents. All furniture shades and colors.

Run no risk! But buy the Lisk,

Imperial Enameled Ware. Money refunded if this ware cracks or breaks at any time.

Horses Are Stupid. Consider this paradox of animal

training. There have been on exhibition at various times horses that are apparently prodigies of mathematical insight, that can do anything with numbers that the trainer can do. Yet we absolutely know that no animal can so much as count at all. Furthermore, it is always the horse that performs these marvels, though the horse is the most utterly stupid of all the dumb creatures that man has made

his friends. That is precisely why the horse is always taken to be made into an arithmetician. He is so stupid that he can be taught anything-any habit, that is or nauseate. and, having no mind to be taken up

with his own affairs, can be relied on to do exactiy as he is told.

Clydesdale Draft Horse. This is the draft horse breed of Scotland and there has been bred pure for many generations. It originated in the upper ward of the county of Lanark, commonly called the Clydesdale district, and at the present time this type of horse is well disseminated throughout the country. Heavy black Flemish stallions, as with all other heavy draft breeds, were freely used to found the Clydesdale, and indisputable records show that such horses were employed as early as 1715. Ever since then great attention has been paid to the improvement of the breed and the preservation of purity of blood and records of pedigree.

The Record office is connected with the C. & P. and United Telephones, from 7 a. m., to 5 p. m. Use telephone, at our expense for important items on Friday morning. We prefer regular letters to be mailed on Wednesday evening, but in no case later than Thursday evening.

Harney.

Last week, Mr. S. S. Shoemaker and Mr. Edward E. Shoemaker made a trip to Virginia, with the view of pur-chasing some land, but from what we have learned they were not as favorably impressed with conditions as was antici-

Mr. C. W. Bush, of Victor, Colorado, oldest son of the late Dr. John C. Bush, paid this section a brief visit. It has been about 21 years since he visited his old home, and as might well be expected he noted many changes among his many friends and acquaintances. With the exception of being a little older, "Clate" is about the same jolly goodhearted old boy he was when he left this section, nearly 30 years ago. During all these years he has been engaged in the mining business. At present he is superintendent in the mechanical department

of the mines, and is doing well.
On last Friday, Mrs. Ella Study and daughter, Miss Maud, of Baltimore county, and Mrs. Emanuel Study and grand-daughter, Romaine, of near Littlestown, spent a very pleasant day at the hospitable home of Mr. and Mrs. Ervin

Quite a number of our people attended the York Fair, last week, and pro-

nounce it quite a success.

On last Saturday night, Mr. Wm. E. Koontz, of near this place, had a fine horse, an old stick wagon and a set of harness, stolen from his stable. Nothing definite has been heard from it since.

We are certainly glad to announce that our new doctor, Harry C. Preston, has been doing considerable work. On Mon-day, Dr. C. Birnie called at his office to extend his best wishes and fraternal

on last Tuesday evening, a birthday surprise was given to Miss Zona Staub, of near this place. Her many friends met at the appointed hour and made their grand march to the Staub home. After extending birthday greetings, all turned in for a jolly good time. After spending a few hours in the various amusements of the season, all were invited to the dining room, where refreshments were served in abundance, and what the hungry visitors did to the most bountiful supply was a plenty. After wishing Miss Zona many happy birth-

days, all returned to their home.

The A. O. K. of the M. C., of this place, have commenced on their new hall. Work was started last Saturday by digging out the cellar, and by the time this reaches its readers the foundation will be completed. The hall will be 24x56, two stories of 12 ft. each, with slate roof. The Lodge hall proper will he about 24x40, with three private ante-rooms attached, so that each Lodge can enter through their own ante-room, and when completed will be one that all of our Lodges can well be proud of. If the weather is favorable 16 is expected that it will be ready to occupy by December 1st.

Woodsboro.

Mrs. W. B. Stambaugh made a business trip to Baltimore, Friday and Saturday.
Miss Emma Shaup spent some time

with friends in Baltimore.
Mrs. C. W. Dorcus and Miss Jane LeGore were delegates to the Missionary Convention, which convened in Balti-

more, last week. Alice Cramer, of Lewistown, visited friends at this place, Saturday.
Mr. Thomas Kling, of Ijamsville, visited his parents, Mr. and Mrs. J. D.

Verdie Jackson visited Miss

Maud Wisner, of Fountain Rock, over

Mrs. Margaret Barrick, of Frederick, visited relatives at this place.

Maryland Collegiate Institute.

Rev. Jacob Hollinger, of Washington, D. C., will begin a series of sermons in the College Chapel on Saturday evening. Oct. 16th. The meeting will continue during the coming week, and will close on the following Sunday evening. Rev. Hollinger will preach in the church in town on Sunday morning the 17th.
At 4.20 Wednesday evening the faculty

met in a business session. Several important questions were ably discussed. R. P. Smith, a student of last year, who is now an auditor for the W. F. & G. R. R., at Frederick, paid us a visit last Saturday. He brought with him Calvin Keeny, of Woodsboro. They entered into a tennis contest with M. D. Authony and Prof. J. A. Blair. The visitors carried off the laurels in the game of the doubles, but our boys re-

deemed themselves in the singles. About thirty or forty of our students with several teachers, will spend Saturday in the mountain near Thurmont, gathering chestnuts.

sessions of the Eldership, at German-On Monday last, Aunty Fuss passed her 91st. milestone. Her friends gave her a souvenir birthday card shower, over 200 cards, each card contained a Scripture reference, typewritten by Mrs.

Murray.

Miss Reine Heck has entered the high school, at Union Bridge.
Mrs. Harry Cover and Mrs. Kate Roop,

of Westminster, were visitors in town, on

Chicken thieves have been in the neighborhood. Mr. Robinson, near town, portant though little known feature of having had 30 or more stolen on Monday night. Mrs. Clara Davis is very ill.

Mrs. Mary Cover attended the Hagerstown Fair, this week.

Communion services will be held in the Lutheran church, on Sunday morning; Preparatory services on Saturday, at 2.30 p. m.

Detour.

Mr. Emory L. Warner is very poorly at present writing.

Mrs. Shorb is spending a few weeks with her son, F. J. Shorb. Misses Edna and Vallie Fitez spent

Misses Edna and Vallie Fitez spent Sunday afternoon with their cousin, Harry B. Fogle.
Mrs. Edward Essick and Mrs. A. C.
Miller, visited Mrs. Wm. Eyler, at Thur-mont, Tuesday.
Mrs. Dorsey Diller and Mrs. Maggie Fogle, attended the funeral of Mrs. John

Eiler, in Hanover, on Tuesday.
Mr. and Mrs. P. D. Koons spent Sunday at Mr. Adam Birely's.

Quite a number of town folks attended the Hagerstown fair, this week. Don't forget the excursion to Balti-

Clear Ridge.

Mrs. Ida Repp and Mrs. Lovie Bankard, of New Windsor, spent several days with their sister, Mrs. John Stoner.

Mrs. B. B. Ellis, who spent two months with Mr. and Mrs. John Stoner, left Friday for her home, in Dayton,

Mrs. Fannie Beard, of Roop's Mill, sent a blood red beet to the Ridge which weighed six pounds. It is no sugar beet, but one which any one would be pleased to grace their table with.

Mrs. Bertha Smith with her children, Ruth and Vernon, of Greencastle, Pa., are visiting Mrs. Smith's parents, Mr. and Mrs. C. F. Reindollar. Mr. and Mrs. C. F. Reindollar, paid a visit to their son, Lester and wife, at

Manchester, the first of last week. Mr. and Mrs. Samuel Reck, of Gettysburg, Pa., were guests of the Misses Merring for a few days.

Miss Ida Belle Beard, is able to resume her studies at M. C. I., after being kept at home two weeks, by a dislocated Mrs. John Dayhoff, has been suffering

with rheumatism. At this writing is somewhat improved.

Everybody is done seeding but Peter Tumbledown.
Mr. and Mrs. J. Harvey Fowble,

Southern Carroll.

Sykesville, visited his brother, W. F. Fowble, on Sunday. W. J. Beck spent Tuesday and Wednesday nights with his parents.

The chestnut crop, in this section, is good and the nuts are bringing excellent Dr. and Mrs. S. F. Hess and Miss

Lillian Hatfield, have returned from a week's sojourn among relatives, about Taneytown and Harney

Wm. A. Dorsey, of Berrett, is quite ill with Bright's disease and dropsy. wm. Dorcus spent a short time in Hanover, this week.

Mrs. Irving Albaugh and daughter, of Libertytown, visited relatives here, the past week.

Mrs. Dorcus spent a short time in Rev. E. B. Boyer, of Gettysbury Seminary, preached at Messiah and Calvary Lutheran churches, on Sunday last.

Ice was seen the morning of the 19th

Ice was seen the morning of the 13th. The following speakers will participate in the C. E. Rally, at Brandenburg M. P. church, at Berrett, on Saturday night and Sunday, Oct. 16th and 17th: Dr. J. E. Shreeve, Jr., Pres. of Carroll Co. Union, and Rev. Albert Dadley, of Sykesville, on Saturday night; Mr. Jos. Cromlish, of Harford Co., and Revs. P. D. Davis, L. Taylor, J. T. Pritchard and E. O. Ewing, on Sunday. Prof. J. Bradley Hyatt, Mr. and Mrs. J. L. Burdette, Mrs. Jos. Cromlish, and Mr. Asa Watkins, will render special music. Asa Watkins, will render special music Come and help make this a glorious day in the "King's Business."

----Silver Run.

Holy Communion was held in St. Mary's Lutheran church, last Sunday morning, and was largely attended. George W. Dutterer, of near this place, ost a very valuable horse by death, last

Miss Elsie Knipple, of Hanover, Pa. pent Sunday with her parents, Charles H. Knipple and family.
Miss Cecelia S. Burgoon, is spending

sometime with Harvey Dutterer and family, of near Littlestown, Pa.
Miss Florence Flickinger, of Hanover, Pa., spent several days with her aunt and uncle, Edward Flickinger and tam-ily, of near this place.

Josiah Hahn and wife, of Littlestown, Pa., spent Sunday, with friends in this

Alvin Boose has returned to his home in Kentland, Indiana, after visiting relatives in this place. Mr. Boose, while in this community, purchased and shipped a carload of apples to Indiana.

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy. This great remedy stops the pain and the irregularities, strengthens and builds up these organs and there is no danger of Bright's disease or other serious disorder. Do not disregard the early symptoms. R. S. McKinney, Druggist, Taneytown, Md.

Frizellburg.

Last Thursday evening, Miss Malvia Marker entertained at her home, in Frizellburg, Misses Bessie Zile, Alice Clousher, Lulu Myers, Pauline and Clousher, Lulu Myers, Pauline and Ethel Hively; Messrs. Harry Boltz, of Lebanon, Pa., Paul Devilbiss, and William Hively. Mr. Boltz, who is the organist in one of the Episcopal churches of Lebanon, rendered some excellent music, and was much enjoyed by all.

The Four Stomachs of the Cow wil surely not respond to the elements intended to act only upon the One Stomach of the Horse. That is why there is a Separate Fairfield's Blood Tonic for each of these animals. Also separate Tonics for Poultry and for Hogs. (Ask for Fairfield's Free Stock Book.) Sold under written guarantee by S. C. Reaver, Taneytown, G. W. Yeiser, Union Mills, T. W. Mathers & Sons, Manchester and M. R. Snider, Harney.

RANGE AUTOCRATS.

Sheep Shearers Whose Earnings Average \$10 a Day.

The sheep shearers who gather this country's harvest of wool form an imwestern life. Everybody knows about the cowboy, and there is more or less knowledge of the life and duties of the lonely sheep herder, but the sheep shearer has come on the scene so quietly that few persons realize the impor-

tant role he is playing. In order to get an idea of the importance of the sheep shearer's work one must take a glance at the tremendous growth of the sheep industry in the big states of the west. Wyoming has something over 4,600,000 sheep within its borders. Montana, which held the record until last year, has 4,500,000 sheep. Then come Idaho, with 2,500,000, and Oregon, with 2,000,000 sheep, and so on down the list until the nation's total reaches the astonishing number of 40,000,000 sheep, four-fifths of which are west of the Mississippi river.

To harvest the wool from such an enormous number of backs is something that calls for expert shearersmen who can handle the big shears or the machine clippers with a skill that comes from long practice. The shearing must be done at the right time of year. If the wool is clipped too early the sheep suffers from cold. If the shearing comes too late the sheep suffers from intense heat and in either case is bound to lose weight and value. To meet the exacting conditions a class of men have arisen peculiar to the sheep shearing business. These shearers start work in southern California, Utah, middle California, etc. Another month finds them busy in the great sheep states of Wyoming, Montana. Idaho and Oregon, where they find steady employment until July, when they go to the ranges of Canada. In this way the shearers keep busy nearly all the year at high wages. In fact, they are the most prosperous class of wage earners in the west, as a good shearer will average about \$10

The champion shearer of the United States is C. M. Marquis, whose record of 320 sheep sheared in eight hours. made at Two Dot, Mont., several years ago, has never been equaled. It takes a man of iron constitution to be a successful sheep shearer, as the work is very exhaustive, owing to the fact that the shearer has to remain in a stooping position during the entire operation of removing a fleece. There is a great variation in the weight of fleeces also, which has its effect on the shearer's work. Some sheep, such as those off the best ranges in Oregon, Montana and Wyoming, will average an eight pound fleece, full of natural oil, while sheep from the more sterile alkaline ranges of New Mexico will not average much over five pounds of wool.-San Francisco Chronicle

Everybody should have on hand Mc-Kellip's Cholera and Diarrhoea Syrup The great remedy for all bowl complaints. -Manufactured only by J. McKellip.

Night Signals For Airships.

The Aero club of Berlin has been giving its attention to the question of guiding lights for the use of aeronauts at night. It suggests a combination of letters in vivid colors, which will be clearly seen at a distance in the dark and which will be placed at the top of elevated structures. The letters which indicate frontiers or the neighborhood of the sea will be specially distinguished if the Aero club has its way. Germany is to be divided into ninety sections by ninety combinations of letters, and France, it is proposed, should adopt a special sign for each department. The project has been submitted to all of the principal aeronautical societies in France, Belgium, Holland, Austria-Hungary, Italy. Spain, England and America for con-

Your cough annoys you. Keep on hacking and tearing the delicate mem-branes of your throat if you want to be annoyed. But if you want relief, want to be cured, take Chamberlain's Cough Remedy. Sold by all dealers.

Whitewash.

Liberal use of plain old fashioned whitewash is urged in a bulletin issued by the Chicago sanitary bureau. Inspectors of workshops and tenements are ordered to insist upon the use of "lime wash" in dark basements and workshops. In addition to adding materially to the light of premises, it is declared an important aid in fighting tuberculosis. "When made of only seventy grains of lime and five grains of salt to a gallon of water it has a proved power," the bulletin says, "of killing germs on dry surfaces. When used on such surfaces it possesses both a chemical and mechanical action, killing germs and bacteria by the first and sealing them in by the other."

FOR THE HOUSEWIFE

In the Laundry.

Before ironing eyelets open the closed eyelets with a wooden skewer or stiletto, and you will have less trouble in bringing out the best effects.

Bran makes an excellent lather for

delicately colored needlework. Turpentine removes paint if applied before washing.

Salt and lemon remove wine stains. For mourning wash goods use neither soap nor starch. Boil one quart clear wheat bran for an hour in three gallons of water. While still warm strain through cheesecloth and wash the black muslin or linen in it. Press while damp.

When dampening clothes for ironing the water should be as hot as the hand can bear. It will not require as much water as when cold is used.

For the Amateur Nurse. Do not allow the patient to remain

too long in one position. Give medicine exactly on time ordered. Do not vary three minutes. Measure medicine accurately. A few drops extra of some medicine might

mean death. Keep the medicine glass covered. Make a round cover of white paper and

lay upon the top. Replace cork in medicine bottle immediately after using.

Don't ask the patient what he wants to eat. Prepare a surprise for him. Before serving food bathe patient's face and hands and freshen the air in the room.

Be patient and considerate, but firm in carrying out the physician's orders.

Idealized Baked Apples. Peel and core good cooking apples that will not cook soft too quickly. Make a thin sugar sirup and flavor with orange peel, lemon or vanila, add the apples and cook them until tender, but not broken. Take them from the sirup and place them in a glass dish that will stand the heat of the oven. Sprinkle the apples with sugar and pounded burnt almonds and place them in the oven to acquire a delicate brown. Scatter some cubes of tart jelly over the top and cover the whole with stiff whipped cream. Serve very cold.

Homemade Carpet Beater.

Secure a piece of old garden hose about three feet long, slip one end on a two foot length of broom handle and tie it securely. Cut the loose end of

HOSE CARPET BEATER.

the hose in narrow strips, allowing them to hang from the part tied to the broom handle. This makes an excellent beater for rugs and carpets.-Popular Mechanics.

Flemish Onions.

Slice full grown new onions and throw into cold water to soak for an hour. Slice an equal number of sour apples. Drain the onions, dry them in a cloth and dredge them and also the apples with flour and lightly brown in hot butter. Then lay them in alternate layers in a buttered pudding dish, with a light dredging of crumbs between the layers, sprinkling each layer with a tablespoonful of sugar, a teaspoonful of lemon juice and dotting with bits of butter. Bake for ten minutes.

To Keep the Lamp Clean.

Those that use kerosene oil lamps know how the dirt accumulates in the bottom of the lamp and clogs the wick, thus affecting the light. To prevent this take a few lengths of knitting yarn, tie up into a small ball, clipping out all around so that ends of the wool may be loose. Drop this into the lamp, and it will gather up the dirt, making the oil look clear. It can be renewed as often as necessary.

Delicate Cabbage. Boil a white cabbage fifteen minutes; then change the water for more out of the boiling teakettle. When tender drain and allow it to become perfectly cold. Chop fine and add two well beaten eggs, a tablespoonful of butter, three tablespoonfuls of milk or cream and some pepper and salt. Stir well and bake in a buttered pudding dish till brown. Serve very hot.

Beefsteak Pudding.

Line a dish with thin suet crust, cut some steak into slices, mix a little pepper and salt together and dip slices into it, then place around the dish in layers till nearly full. Fill the middle with oysters or mushrooms, tie cloth over it tightly and boil for three hours, but do not let the water in pan reach to top of dish, which should be a deep bowl.

Cleaning Lace Curtains. For two pairs or curtains use two gallons of gasoline to a quart of flour. See that material is well covered with gasoline, then add flour and rub in well. Hang out and when thoroughly dry brush well with a stiff brush and you will find your curtains as bright

Carpet Cleaner.

'To one bar of white soap cut fine in a gallon of water-let it boil until well dissolved-add one ounce of ether and use with scrub brush and take clear warm water and cloth to wipe off suds. It will renew all colors and make goods like new.

SMILE! GRIN! LAUGH!

Whenever you're confronted By some puzzling situation And for hours you have hunted For some simple explanation
Don't start acting mean and spiteful,
Don't stir up a rough house frightful.
Have a merry heart delightful;
Smile!

Grin! Laugh!

Whene'er you're discontented Or when things don't come your way, When the whole world seems demented And won't let you have your way, Don't go round and start a-kicking, Don't you start out fights a-picking. Chances are you'll get a licking.
Smile!

Grin!

When your mother-in-law is sassy
Or your wife won't treat you right,
When your darling little lassie
Keeps you walking floors at night,
Don't reel off a lot of swearing,
Don't go on the warpath tearing.
Be both patient and forbearing;
Smile! Smile!

Grin! Laugh!

TITH a basty farewell to Mr. Bradley and the officers and encouraged with a cheer from all on board, we left the motherly yacht for our new home and mission. The yacht stood off to avoid drifting ice and await the return of the motorboat.

When we were set ashore we sat down and watched with saddened eyes the departure of our friends and the severing of the bond which had held us to the known world of life and happiness.

The village of Annootok is placed in a small bay just inside of Cape Inglefield. Its population changes much very small area about the nole. from year to year, according to the known luck of the chase or the ambition of the men to obtain new bearskin trousers.

Scattered about it were twelve sealship tents, which served as a summer the descent of latitude. shelter for an equal number of vigorous families. In other places nearer the sea were seven stone igloos. Upon winter shelter had already begun.

Harvesting Food and Firel For the Polar Trin. Narwhal Hunting an Exciting Sport Jo Jo THIRD ARTICLE

meons, and the periods are named in accord with the movements of various creatures of the chase.

In early September at Annootok the sun dips considerably under the northern horizon. There is no night. At sunset and at sunrise storm clouds hide the bursts of color which are the glory of twilight, and the electric afterglow is generally lost in the dull gray which bespeaks the torment of the storms of the setting sun.

The gloom of the coming winter night now thickens. The splendor of the summer day has gone. A day of siv months and a night of six months are often ascribed to the polar regions as a whole, but this is only true of a

As we come south the sun slips under the horizon for an ever increasing part of each twenty-four hours. Preceding and following the night as we come from the pole there is a period of day and night which lengthens with

the first animals to leave our shores.

The quest of the walrus and the nar-

possible gathering of white men.

of line and lashings was prepared.

Still others came up in the rear, for the narwhal cannot easily see backward and does not often turn to watch its enemies, its speed being so fast that it can easily keep ahead of other troublesome creatures.

Hunting the Narwhal.

The harpoon is always delivered at close range. When the dragging float marked the end of the line in tow of the frightened creature the line of skin canoes followed. The narwhal is timid by nature. Fearing to rise for breath, he plunged along until nearly strangulated. When it did come up there were several Eskimos near with drawn lances, which inflicted deep gashes.

Again the narwhal plunged deep down with but one breath and burried along as best it could. But its speed slackened, and a line of crimson mark ed its hidden path. Loss of blood and want of air did not give it a chance to fight. Again it came up with a

spout; again the lances were hurled. The battle continued for several hours, with many exciting adventures, but in the end the narwhal always succumbed, offering a prize of several thousand pounds of meat and blubber. Victory, as a rule, was not gained until the hunters were far from home, also far from the shore line. But the Eskimo is a courageous hunter and an intelligent seaman.

Towing the Carcass.

To the buge carcass frail kayaks were hitched in a long line. Towing is slow, wind and sea combining to make the task difficult and dangerous.

cure an important supply of grass to

DI. COOR IN ARCITC COSTUME.

One sees nothing of the narwha! and very little of the kayak, for dashing seas wash over the little craft, but the double bladed paddles seesaw with the was required without a word from us regularity of a pendulum.

engenders a prodigious amount of hara work, but there is energy to spare, for a wealth of meat and fat is the culmination of all Eskimo ambition.

Seven of these ponderous animals were brought in during five days. making a heap of more than 40,000 pounds of food and fuel. Then the narwhals suddenly disappeared, and we saw no more of them.

Three white whales were also obtained in a similar way at Etah at about A LOVE AFFAIR.

Original and Selected Articles of Interest to the Home.

We invite contributions to this department from all readers who have something to say on topics which relate especially to home improvement, social conditions, or moral issues. While we disclaim all indorsement of sentiments which may be expressed by contributors, and desire to be as liberal as possible, we at the same time request all to avoid personalities, and stick to proper expressions of opinion.

opinion.
All articles for this department must be in our office not later than Monday morning, of each week, to be guaranteed insertion the same week, and all articles must be signed with the name of the author, even when a nom de plume is given.

Cost of Living, Higher.

The Baltimore News says:

"While the unfortunate consumer is wailing and writhing in anguish of spirit this fall, the cow and chicken are both getting in their innings and butter and milk are soaring like a Wright aeroplane. With them are foodstuffs, vegetables and meats. Digging down a little deeper into the much-used pocket of his trousers, poor "hubby" pulled out 40 cents this morning for a pound of first-class butter, and a little later on at the earnest solicitation of his wife he went into the same recess again and annexed 34 cents for a dozen eggs.

"Living is steadily getting higher and higher," said a housekeeper this morning, "and I for one don't see when the end will be. For Sunday's dinner I went out and got a rib roast that five years ago would not have been a cent over 45 cents. Saturday I paid 85 cents for it, and other meats are going up, too. Five years ago I could set a good table for myself and husband for \$5 a week; to-day I can hardly do it for \$9. They tell us that production is greater than ever before, but wages in general are no better, and prices are certainly higher. I have a friend who used to be able to run a small flat well on \$10 a week. She said that to-day this is impossible. Most vegetables cost more, all the meats, and after a foodstuff has once gone up there is no chance for it ever coming down again. It is awful hard on the poor people who are not making more money, but are compelled to pay more tor the necessities of life."

A critical review of the prices, both retail and wholesale, of standard articles at this time this year and for the corresponding date last year shows that most of the articles are to-day selling at higher rates. In the wholesale market the price fixed by the Baltimore Fruit and Produce Association for eggs from Maryland, West Virginia and the West at this time last year was 25 cents. The same Association to-day places the price at 26 cents, but buyers say that 34 cents must be paid in open market for good eggs. At wholesale, butter shows a jump of from two to three cents, for the same butter that went begging last October for 30 cents now is offered to the consuming public at 34 cents wholesale and 40 cents retail.

Fortunately for the lover of that staple vegetable-the white potato-it is cheaper this year. At wholesale it runs from 55 to 63 cents a bushel, while 20 cents more was required last year to get a like of from 20 to 30 cents a bushel, and the lowly cabbage takes an awful jump. The prices of the various grades of fowl from the warlike and aggressive hen to the dainty little broiler remain about the same. This is welcome news to the poultry-devouring public.

As a whole, this has been a successful year for the production of fruit.

The proposed increase either in the price of an ordinary loaf of bread or a decrease in its size has been a source of great alarm, especially to the poorer class, as the bakers say that they are telephone over which you are gossiping. compelled to pay more for their flour, and to protect themselves they must make some change.

At local restaurants all of the restaurant owners say that they are now paying for their foods more than they were last year. The restaurateur however, still displays the ubiquitous ham sandwich and succulent lemon pie at the old price of 5 cents, and thinks he is safe. The restaurant proprietors say that their profits are much less and that it is a constant fight to let prices remain the same for the sandwich, stew and steak." ----

Silent Thunderbolts.

In a general way we understand the theory of thunderstorms. As a matter of fact that there is no phenomenon of nature, not excepting even earthquakes, of which we know so little.

tricity of the highest power which we itation and changeableness of the percan artificially produce—will act according to certain known laws. It will, for instance, travel along a conductor of your treatment of the young woman stencil on a shade, the extreme edges

But a flash of lightning will frequently leap from a well-defined metal path and it is almost impossible to be always defect may be hidden by stippling the and launch itself through the air or some adjacent object which is an infinitely poorer conductor.

This may be due to the almost inconceivable force of a flash of lightning. It is estimated that a flash of lightning a that are regularly fed Fairfield's Blood

THE CARROLL RECORD 300,000-horsepower. Put it in other words, if we could find some means of saving and using lightning we should be the richer by £200 for every flash.

Lightning is, as we know, usually accompanied by a peal of thunder, which is louder the near the hearer is to the point of the discharge; but this is not an invariable rule. There are cases on record of most destructive lighning flash which were unaccompanied by sound.

Such a phenomenon occurred at Bradford some years ago. What is described as "a silent thunderbolt" fell in a graveyard, destroying one monument and smashing to atoms nearly 70 glass cases containing wreaths and flowers.

In the same summer Swanscombe, in Kent, was terrified by a freak of lightning. All of a sudden "a great mass of blue fire" swept along the street and next moment it was seen that the fine old parish church built nearly 700 years ago had been struck.

The building, with all its fine old carved oak, was soon a roaring furnace and only a part of the chancel was

Scientists are still hopelessly at sea as to the cause of that peculiar phenomenon known as globe lightning. At Coventry some years ago during a violent thunderstorm it passed along a street like a soap bubble built of blue fire and drifted into a shed, where it exploded, blowing the roof off the place.

At Rheims, in France, a similar fireball came into a cobbler's shop through the open window. The solitary occupant of the place sat perfectly still, paralyzed with terror, while his fearful visitant hovered for several seconds overhead. Then it moved toward the fireplace and presently passed up the chimney.

Next moment there was an explosion like a shell bursting, and the upper part of the chimney came crashing down.

Not long ago Count G. Hamilton made record of a similar freak of electricity. He was sitting at dinner at a house on Lake Wener, in Sweden, when just after a vivid flash of lightning a brilliant white hanging poised there for some seconds was quite close to several people. Those who saw it suggested it was like a ball of cold lightning.

In November, 1902, Sydney, Australia, the midst of which a perfect rain of laziness included! What other human electric fireballs began to fall. These interest can move 77,000 out of a popuset fire to a number of houses and a lation of 435,000, to dress, and take at most appalling panic set in. A cry was least two hours of their time, and raised that the end of the world was at pay an average of twenty-five to fifty hand, and people rushed out of their cents, and that not occasionally but houses into the ink black, dust deep regularly every Sunday? If the church

Is Church Attendance Declining?

The assertion that church attendance has fallen off to an alarming degree is not merely made, but assumed as a matter of fact, without argument or evidence, says Edward Tallmadge Root in The Delineator for November. When figures are given a little examination often shows that they are inconclusive because only partial in place, time or details. Nevertheless the decline is assumed and its causes gravely asked and enumerated.

It is to be admitted, at the start, that church attendance to day is not satisfactory to those who loyally believe in the church and its mission. There is no need of multiplying statistics. One illustration may suffice. According to a cenball appeared over the table and after sus of church-going in the upper section of Manhattan, New York City, Novemwent off with a loud bang. Fortunately ber, 15, 1904, with a population of 438,it did no harm to anyone, although it 165, only 17.60 per cent. were at church, 7.20 being Protestant and 10.40 Catholic. But even this means that religion attracts more than any other one human interest. It is not fair to contrast it with all other was visited by a terrific duststorm, in concerns combined, sheer weariness and is not satisfied, it is because its ideal is The most amazing and terrifying dis- so high-because, according to its great plays of the power of lightning are seen | commission, it can never rest until it is on mountaintops. In 1890 a party were proclaiming its glad tidings to every McKinney's Drug Store, Taneytown, Md.

But even so, the church should ask: What ratio of attendance to population cluded infants, invalids and others incapable of attendance. Of the remainder, increasingly complex civilization, the number of occupations which can not be completely suspended at any hour must increase. What percentage ought to be deducted?

In a canvass by the Boston City Missionary Society, out of 4,785 individuals 1,900, or approximately two-fifths, were detained from church for good reasons. With this agree the most carcful estimates. Not more than sixty per cent. of the population could assemble for worship at any one time.

Making all these allowances, however, it is evident that the impression that church attendance is unsatisfactory is justified by statistics available. Iustead of the possible 60.

The pleasant purgative effect experienced by all who use Chamberlain's Stomach and Liver Tablets, and the healthy condition of the body and mind which they create, makes one feel joyful. Sold by all dealers.

AUTUMN LEAVES.

Beautiful leaves that show their ruddy tints in the fall will be seen ere we realize that that "melancholy season" has one can use them in stencil effect, but Do not tell things which you do not they must, first of all, be prepared for wish known over the telephone. Con- the purpose. Gather the leaves and ling crystal filled with magnificent yelwill be perfectly flat, smooth and the which should be yery thin when applied. Prepare a gum arabic paste, apply it to the leaves and press them tightly in place. If the leaves are used as operators who answer your calls. THE VALUE OF TIME.

Making Every Moment Count the Secret of a Successful Life. The average woman does not appre-

giate the value of time. She is rushed and beated and overworked because she does not make the

spare moments count. I have seen women sit a whole morning idle and then rush madly around all the afternoon, undoing all the good

work of that rest. When you sit down to chat with a friend, why don't you do some simple sewing, such as finishing seams, sewing on buttons or adjusting loose hooks?

You will need to do all these things up at the very time when you have an engagement to keep. If you are late for that engagement it puts you back for the entire day.

Before you go to bed at night lay out your clothes for the next morning. See that you have clean shields in your waist, a fresh tie and collar and that your shoes are polished.

And don't throw your things around. You take more time hunting for them than you would take in putting them where they belong.

Don't waste your days with people that do you no good. Associate with those who stimulate you mentally or aid you to rise in the world. It isn't necessary to be a snob or a climber to do this. The idea is not to make companions of those inferior to you. That is a sheer waste of time that

had better be spent at home resting. When you work don't allow people to walk in on you and make you lose precious minutes. If you must meet them do so at certain hours. Keep the rest of the day to yourself in order that you may concentrate fully and in that way finish your work quicker with less labor on your part.

Learn to make time work for you and you will always accomplish everything you have to do.

The women who are the most rushed most minutes.

WHY THEY PREFER ENGLAND.

American Women Who Find Society There More Agreeable.

The London Daily Mail has been interviewing some American womensocial leaders in New York—as to whether they prefer to live in England and if so why so. All agree that English society is far more agreeable. "American society." said one, who stipulated that her name be withheld. "is a very badly ordered system. Indeed, it has ended in being no system at all. Every one in it is trying to get

on the other hand, social order is not questioned. This gives those living there a most restful feeling." Still, this lover of English society sees "a certain restlessness" creeping into it, "due." she explains, "not to the to English parvenus of enormous

ahead of every one else. In England.

Another woman says that England is the best place for a mother with daughters to launch. "Presentation at court is such an excellent sendoff." she says. The English, too, are better mannered than Americans, and especially she likes their deference to older

women Another reason for the liking wealthy Americans have for England is that most of them are brought up by English governesses, says the woman quoted. "English governesses are the best in the world and are to be found in all parts of the world," she said. "They are the greatest propagandists of English civilization.

Good Form at Summer Hotel. Women who go year after year to the same hotel in summer grow to feel a proprietorship, such as they would at home, and can add to the pleasure of others who go for the first time. It is the simplest matter and perfectly good form for one woman to speak to another on a big piazza i they have been meeting face to face for several days. In that case they clock, turn the hands to the hour at already know each other by sight, and an act the woman speaking first should do immediately and in which the stranger should follow suit.

It is always good form for one woman to speak to another in the house of a friend, even though they may never have seen each other before and have not been introduced. In garden parties or big receptions it is kind for one who has many acquaintances present to notice for a moment the one who is obviously a stranger. There is no need of presenting the outsider. for she too has the same privilege of speaking, but the fact that she is an unknown many times renders her shy in drawing attention to herself.

For a Baby.

In these days when the baby is out of doors practically all the time his mother wants to be assured of his safety and comfort. One of the big shops is showing a canvas pen made with a strong framework of wood. with sides high enough to prevent the baby from climbing out unless he is particularly acrobatic.

The pen is so arranged with ropes at each corner that it may be raise! off the floor of the porch or room to keep the baby entirely out of a draft. The canvas floor has enough spring to It to be entirely comfortable to sleep on and is big enough to allow the baby plenty of room to creep about in.

Equipped with such an arrangement a mother would be spared many hours of fretting with a small child, not to speak of the unnecessary handling the baby would be spared.

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disap-Sore and inflamed lungs are healed and strengthened, and the cold is expelled from the system. THE SUNDAY SCHOOL.

Lesson IV .-- Fourth Quarter, For Oct. 24, 1909.

THE INTERNATIONAL SERIES.

Text of the Lesson, Acts xxvi, 19-32. Memory Verses, 27-29-Golden Text, II Tim. i, 12-Commentary Prepared by Rev. D. M. Stearns.

After being two years or more a prisoner at Caesarea, Festus being governor instead of Felix and having gone up to Jerusalem, the high priest and chief of the Jews inform him against Paul and desire him to bring Paul to Jerusalem, intending, if he consented, to lay in wait for him and kill him. Festus replied that they must come to Caesarea and there appear against him. This they did; but, as before, it was simply a case of complaints which they could not prove. In reply to Festus' question, "Wilt thou go up to Jerusalem and there be judged?" he appealed to Caesar. King Agrippa having come to visit Festus, the case is brought to his attention as one of Jewish superstition concerning one Jesus who was dead, but whom Paul affirmed to be alive (xxv, 19). The world cares just about as much today about Him of whom they spake as "one Jesus," and the church does not commend Him to the world much more, if any, than the Jews did their God, of whom they cried, "Hear, O Israel, the Lord our God is one Lord" (Deut.

Agrippa and Bernice having entered the place of hearing with great pomp, accompanied by the chief captains and principal men of the city, Paul is brought before them, and, after a brief statement by Festus, Paul is permitted to speak for himself. He told of his early life as a Pharisee and his zeal against the followers of Jesus until the risen and ascended Christ met him on the way to Damascus, saved him and made him His messenger to the gentiles to turn them from darkness to light and from the power of Satan unto God, that they might receive forgiveness of sins and inheritance among them are sanctified by faith in Christ. He told how, in obedience to the vision from heaven, he had at Damascus, Jerusalem, throughout Judea and to the gentiles preached that they should repent and turn to God and prove the reality of it in their lives; that all their prophets had testified that the Messiah of Israel should suffer and die and rise from the dead and that He should through Israel, the twelve tribes, give light to the gentiles after the resurrection at the second coming of Christ. Along this line of truth as to the teaching of the prophets and the fulfillment of their predictions both Peter and Stephen and our Lord Himself, in Luke xxiv, all taught. It is the one story which the Scriptures tell and authorize us to tell, that Israel's Messiah shall bless the world through

On the way to Damascus Jesus had revealed Himself to Saul as truly the Messiah, but had also at some time taught him a mystery not revealed in the prophets—that during Israel's rejection because of their rejection of have made their lives failures. If the their Messiah He would gather from all nations a people called the church, His body, who should by discipline here be fitted to come with Christ in His glory and reign with Him in His kingdom, when Jerusalem shall be the throne of the Lord and Israel a righteous nation. It is our privilege, as it was Paul's, to go into all the world with the glad tidings of forgiveness of sins for all who will receive the Lord Jesus because of His suffering for sins, the just for the unjust, that He might bring us to God. And all who in this age truly receive Him shall be manifested with Him when Israel shall see Him coming in the clouds with power and glory and shall say, "This is our God; we have waited for Him, and He will save us" (Isa. xxv, 9). As to the mystery of this age specially revealed to Paul, see Rom. xi, 25-27; rvi, 25, 26; Eph. iii, etc. We may be quite sure that that company of earth's great ones never heard a story like this before, and we do not wonder that Festus said with a loud voice, "Paul, thou art beside thyself; much learning doth make thee mad" (24). There are very few companies of the Lord's people (so called) who today know the story as Paul set it forth that day, and where there is a preacher who thus believes and teaches he is not apt to be counted a man of much learning, but, rather, an unlearned man, weakminded, mentally unbalanced. We can reply, as Paul did, "We are not mad, but speak forth the words of truth and soberness" (25). The test question is that which Paul addressed to Agrippa, "Believest thou the prophets?" for "surely the Lord God will do nothing, but He revealeth His secret unto His servants the prophets" (Amos iii, 7).

In Agrippa's reply there are three words which are specially full of significance, "almost a Christian." We think of another, "not far from the kingdom of God." but we remember that all who were not actually in the ark with Noah perished, and then those startling words, "He that hath not the Son of God hath not life;" "He that believeth not the Son shall not see life, but the wrath of God abideth on him" (I John v, 12; John iii, 36). So that "almost a Christian" simply means "lost," but who can tell the meaning of that word? May none who read ever know the doom of the lost. With a burning heart and with burning words Paul declared his longing that not only Agrippa, but all who heard him that day, might stand in Christ as he did.

CHRISTIAN ENDEAVOR.

Prayer Meeting Topic For the Week Beginning Oct. 24, 1909. Topic.-Why some men and women do not succeed in life.-Josh. i, 1-9.

The story of Joshua's life is a story of continued success. In his first appearance as the leader of Israel's army at the battle of Rephidim against the Amatekites he won a signal victory. As one of the twelve spies sent into Canaan, when Israel first reached Canaan, he, with Caleb, brought back an honest report. The majority were against him, and his counsel was disregarded. But his seeming failure was finally a success, for he and Caleb were on the Lord's side, and they of all the original hosts of Israel who came out of Egypt entered the promised land. The mantle of Moses fell upon him when that great leader and lawgiver died, and he was a most worthy successor of his distinguished predecessor. Canaan was conquered. The land was peaceably divided. In good old age Joshua died after delivering to his fellow countrymen a most inspiring address, which has had an in-

Such success in high places is not possible to all. But he who in any walk of life fully meets the duties and responsibilities that fall to his lot attains as great success in life in degree if not in kind as Joshua did. Successful lives explain the cause of life's failures by contrast. If all men and women possessed the characteristics of Joshua and wrought into their lives the elements that were woven into his there would be no failures. But, alas, in too many instances such is not the case! The result is that life's pathway is strewn with many wrecks and failures. Contrasting such lives with that of Joshua, let us study the causes of

fluence upon all succeeding generations

of his own people as well as upon

Christianity, the flower and fruit of

these failures. 1. Joshua was a firm believer in God and a true follower of God's commands. God was writ large in the entire life of Joshua. Its opening at Rephidim was mingled with an appeal to God. As the successor of Moses he had the promise of God to be with him, which he believed. His life work closed with an appeal to Israel to put away idols and to serve their God. No life is a failure that gives God His proper place in it. Every life is a failure that does not do so. Many keep God out of their life. Disobedience to His commands explains the vast majority of failures. If we would avoid failure let us therefore give God a still larger place both in our inward and outward lives.

2. Joshua had capacity for thought and labor. He had mental ability and used it. He had physical endurance and preserved it. Genius has been defined as "the capacity for hard work." Incessant toil has often accomplished what to the world has seemed impossible except through some special gift or exceptional mental power. But how many brilliant men and women have not succeeded in life through failure to use their splendid gifts! They have idly dreamed life away or wrecked it through dissipation. How many possessed of physical capacity have failed in accomplishing anything in life! Thus talents have lain dormant. In idleness or as human parasites they ingenuity and perseverance of half the idle bums and beggars in the world were put into legitimate channels of

business they would produce success. But some may disclaim the possession of capacity. If this be entirely so they should become the wards of the state and taken care of. But it is not usually so, only an excuse for failure to do life's work. Moreover, capacity increases with use. Christ taught this fact in the parable of the talents. Joshua increased in military mastership, as he used that which he possessed. Our capacity for doing things may seem small to us, but having something to do and doing it to the very best of our ability will produce results of which we have never even dared to dream.

3. Joshua had self reliance, founded upon his reliance in God. Self reliance, confidence in one's ability to do things, is a great factor in success. The absence of it is a great factor in failure. In the most critical period of his life the Lord said to Joshua: "As i was with Moses, so I will be with thee. * * * Be strong and of good courage." And Joshua was strong and courageous. He trusted in God and believed in himself. Success therefore crowned his labors. God's promises apply also to us. Let us follow Joshua's example-have faith in God and faith in ourselves. The rest will be easy. Put away fears and doubts and murmurings. "Be strong and cour-

In the world's broad field of battle, In the bivouac of life. Be not like dumb driven cattle.

Be heroes in the strife. BIBLE READINGS. Josh. vi, 12-21; viii, 1-7; xxiv, 14-18; Ps. i, 1-6; xxiii, 1-6; xxxvii, 1-5; Matt. xxv, 14-30; I Tim. vi, 17-19; II Tim. iv, 1-8; Heb, xii, 14-17.

Its Strongest Point. A minister who was asked, "What is the strongest point in the work of your Christian Endeavor society?" replied: "The number it has added to the week night prayer meeting, not merely of those who attend, but of those who are ready to take an active part. There are thirteen or fourteen from the Endeavor society who will lead in prayer at this larger service. Besides, it is wonderful how much sympathy in his work the minister gets from these young people, who themselves write papers or otherwise assist in Endeavor meetings. They come to understand how much a min-

ister's work costs."

A MATTER OF FIGURES

Natalie's Mistake and the Explanation That Came Later.

By MATHILDA HENDERSON [Copyright, 1909, by Associated Literary Press.]

"Yes, auntie." Natalie stood in the doorway.

"That letter to Anne Whitmore in regard to those purchases for Coralie's trousseau with which she is to be commissioned-can't you attend to it for me, please? Coralie ought to be here to attend to her shopping in person. You'll find the list with her letter there on your desk. Write in your own person so as not to disturb me for the signature. You know what I wish you to say. I went over it with you this morning. Don't forget the outside limit-\$1,200. George would utterly spoil Coralie if I permitted it, and Anne Whitmore would abet him."

Natalie turned at once to her task. Coralie's letter with its dazzling list lay at hand. Such beautiful things! But Natalie felt no envy of this favored cousin, whose rich bachelor uncle made it his chief pleasure to indulge. Her own life as housekeeper for dear

NATALIE SAT WHITE FACED AND STUNNED. Uncle Joshua, who was a widower, childless and far from rich, was as happy as it was busy

Envy Coralie? Natalie envied no one, particularly now, when Ted Markham was coming to Forestville to spend his vacation. She had met him last winter during a visit to Cousin Adaline. Ted was paying teller in the same bank where Cousin Adaline's husband was bookkeeper, and his calls at the pretty flat had been frequent during the three weeks of Natalie's visit. Then all the spring there had been his letters.

And only yesterday had come a box of roses. Her note of acknowledgment should go by this mail, but Aunt Esther's letter must be first. She wrote this conscientiously, then looked at the tiny clock as she signed her name. She had time for Ted's note yet if she hurried.

The postman's whistle broke into the signature as she finished, and, hastily thrusting the letters into their respective envelopes, already stamped and addressed, she sealed them and, going to the open window, laughingly threw them on the gravel at the feet of the carrier, who was just turning

Four days later Ted's answer came, Natalie flew with it to her own room, while Aunt Esther seated herself on the piazza with the letter brought her by the same mail.

"Natalie!" The call came sharply up to where Natalie sat, white faced and stunned. with Ted Markham's letter before her. "I have thought best to change my plans," she had read. "Some fellows are going camping and have asked me to go with them. We shall be somewhere in the Maine woods, not, I imagine, in very close proximity to a postoffice, so that you will probably not hear from me while I am away."

That was the gist of the letter. The rest didn't matter.

"Natalie!"

"Yes, auntie."

"I wish you'd hear this, please!" whereupon Natalie descended. When she had reseated herself Mrs.

Eldred read: "My Dear Esther—Your habit of delegating your letter writing to whosoever will relieve you of the duty has in this instance resulted in the inclosed jumble, from which I am unable to extract anything that will serve me as a working

"With much love and some pardonable riosity, ANNE WHITMORE." Natalie glanced at the inclosure which her aunt handed her, her face paling and flushing by turns-the first page of her letter to Mrs. Whitmore and her note of acknowledgment to Ted! For a moment she sat staring; then her overwrought nerves gave way, and she fled upstairs to her room. There, later, with head bowed on her crossed arms, her aunt found her.

"Why, don't take it like that, child! The mistake can be easily rectified." "He isn't-isn't coming!" she managed at length to sob out.

"Isn't coming!" Mrs. Eldred adjusted her glasses. "Natalie, let me see that young man's letter, please." Natalie obediently passed it over.

Mrs. Eldred was puzzled. "He should at least have your note

him that, of course."

"He doesn't expect me to write him again. He-he doesn't want me to!" Mrs. Eldred reread the letter. It did seem as if the young man were slowing down the correspondence, and, with

ing down the correspondence, and, with a sigh, she laid the missive down at Natalie's elbow and softly withdrew.

The matter troubled her for days, however. Meanwhile she did some thinking, the final result of which was that on the very day but one before that on the very day but one before his vacation ended Ted Markham was handed the following letters forwarded from his bank to the little postoffice. seven miles from the camp where he had spent a restless and thoroughly unsettled twelve days:

My Dear Mr. Markham-I have reason My Dear Mr. Markham—I have reason to believe my niece. Natalie Dare, sent you, instead of the inclosed note, a list of materials my friend, Mrs. Whitmore, was to select for the trousseau of my daughter, who is to marry Mr. Harry Gaston, bookkeeper in the First National bank of our town. My brother, with whom Coralie and I live and who is very wealthy, spoils my daughter dreadfully, as the list will show. Will you kindly mail the letter to me at your earliest convenience? Yours very truly, Yours very truly, ESTHER ELDRED.

Mr. Markham had just time for the 10:18 for New York. It would land him in New York in time to catch a train for Forestville, which would give him just four hours of his precious vacation with Natalie.

Once settled on the train, he took a worn envelope from his pocket, extracted a letter-more properly speaking, part of a letter-and read:

Aunt Esther insists that the inclosed list must come within an expenditure of \$1,200. She considers this quite sufficient for a girl who is to marry a bank clerk, even though a fond uncle is willing to indulge her extravagantly. Very sincerely, your NATALIE DARE.

It was Natalie herself who the next evening answered Ted's ring at the door and who listened to the explanation he lost no time in making.

"I've been a fool, Natalie," he wound "But those figures! Twelve hundred dollars-why, they simply floored me! That was almost the extent of my salary for a year, and if that was what you were accustomed to and what you considered a reasonable and even an economical outlay for clothes at one clip-well, girlie, there seemed but one thing for me to do, and that was to forget what I had hoped for." "But the things were for a trous-

seau," began Nataiie. "There wasn't a word about a trousseau in my part of the letter! I'm glad there wasn't. That would have put a quietus on my hopes with a vengeance, Natalie."

"But I said the girl was to marry a bank clerk," Natalie hurried on indignantly. "How, then, could you sup-

Tod's arms shot out and took her into a swift embrace.

"How could I suppose anything else" To me there was only one girl in the world-and one bank clerk who loved her. It was unwarrantable presumption on my part, Natalie, but can't you see? And won't you forgive?" And Natalie both saw and forgave.

Pussy on the Ocean. The great stage scene of the piece was a shipwreck, and after the vessel had gone down only the comic man and the heroine were to be seen tossing on a frail raft on the boundless ocean.

The comedy merchant had expected that his woebegone appearance would raise a laugh, but even he was astonished at the roar which went up when they saw him. At last he was able to get a hearing.

"I wish," he said to the heroine, "that we could get out and walk home, but it's so jolly wet."

The audience was too exhausted to laugh any more, and the voice of the man in the gallery sounded painfully

"If I was you," he said, "I should do it. There's a cat been hopping about on the waves for the last five minutes. and she don't seem to 'ave suffered much."-London Answers.

A Witty Comment.

None of Dickens' children inherited his genius, but Charles Dickens, Jr., had some of his father's humor. When in Boston a number of years ago he was the guest at a dinner given by a club whose membership included many admirers of his father. The presiding officer in an endeavor to emphasize this circumstance as particularly grateful to the guest by an unfortunate slip of the tongue declared that the hosts were delighted to welcome Charles Dickens the younger not only on his own account, but for his father's. Mr. Dickens in response said that he cordially concurred in the estimate of his father as his superior and always appreciated manly candor combined with critical acumen. The situation was saved by a wit calling out, "Long live Charles the second, who never lost his head!"-Boston Transcript.

Historical Divisions of Time. For convenience time is by historians usually divided into three great eras-ancient, mediaeval (or middle) and modern. The ancient period is considered to extend from the earliest times down to the fall of the Roman empire in the west in A. D. 476, the mediaeval from that date to the discovery of America by Columbus in 1492 and the modern from that time to the present. Some historians prefer to put the end of the mediaeval period at the capture of Constantinople by the Turks, about forty years earlier than the Columbus event. The dark ages are often held to be coeval with the think that the term should be applied only to the part of the era extending from the downfall of the empire of Charlemagne, in the ninth century, onward.

Although but few houses have been built here this summer, out-door mechanics of all kinds have been busy on small jobs, small improvements and repairs. Paint, porches, pavements and other like work, have helped the apof what was doing, turned around and pearance of the town generally, this

Mr. Chas. W. Favorite, son of the late William Favorite, of this district, with his wife, paid Taneytown a yisit, this week, the first for many years. He will be remembered by many. Mr. Favorite is a machinist in the employ of the Star-Independent, one of the leading papers of Harrisburg, Pa. He found Taneytown so changed as to be scarcely recognizable, and naturally he needed an introduction to his one-time friends.

Mr. John Baird, painter, narrowly escaped very serious injury, on Wednesday morning early while chopping wood. His raised axe caught in an obstruction over head, causing it to descend irregularly, a corner of the blade cutting a bad gash on the bridge of his nose. Had he not had a good hold on the bandle, so as to partly centrol its fall, he might have been killed, or at least very seriously injured.

Rev. Herman A. Goff, D. D., and family, left on Wednesday evening for their new home at Winona Lake, Indiana. Taneytown loses a popular pastor and family, and fully demonstrates the fact in universal expressions of regret. Dr. Goff goes to a wider field for the exercise of his special talents, and we have not the slightest doubt of his ability to become as popular in his new field, as he has been in the old. Our best wishes accompany him and his family.

Floral Antiseptic Tooth Powder,

The P. O. S. of A. will present a large flag to the High School, on Thanksgivday, the event to be preceded by a parade of the local Camp and visiting members of other Camps. Rev. A. B. Wood, of Baltimore, will deliver the presentation address. Full program will be announced later.

It is in time of sudden mishap or accident that Chamberlain's Liniment can be relied upon to take the place of the family doctor, who cannot always be found at the moment. Then it is that Chamberlain's Liniment is never found wanting. In cases of sprains, cuts, wound and bruises Chamberlain's Liniment takes out the soreness and drives away the pain. Sold by all dealers.

Ample Reason.

During the trial of a man who had made an unsuccessful attempt at suicide, a lawyer had badgered the witnesses to an exasperating degree, and evidently intended to pursue the same course with a meek-appearing little Irishman, who next took the stand.

"You say you talked with the accused an hour after his attempt?" the lawyer

demanded.

'Oi did,' was the direct reply.

'And did he give any reason for attempting to commit suicide?''

"He did, an' it was a good reason."
"Well, and what reason did he give?" "Sure, an' he said he wanted to kill himself," Pat answered, and for a moment even his honor could not control town, Md. his laughter.-Harper's Weekly.

Chance for RECORD Readers.

In order to test the RECOBD's great circulation and its superior advertising value, the Dr. Howard Co. has made arrangements with R. S. McKinney the popular druggist to offer one of his best selling medicines at half price to anyone who will cut out the following coupon and present it at his store:

COUPON

This coupon entitles the holder to one 50c ackage of Dr. Howard's specific for the cure of constipation and dyspepsia at half price 25c. I will refund the money to any R. S. McKinney.

TWENTY-FIVE CENTS.

Dr. Howard's specific for the cure of constipation and dyspepsia is not an unknown remedy. It has made many remarkable cures right here in Taneytown, and so positive is Druggist R. S. McKinney of its great superiority in curing I am out of the county now nine years, dyspepsia, constipation, sick headache

Between Two Fires.

She was desperately gone on them doubt, for one she was bound to refuse.

She gazed at them both in despair, quite puzzled to know what to do. As soon as she thought about one she cared for the other one, too.

They still remained under her gaze, little recking the trouble they brought. It really was hard to decide. They were both so delightful, she thought.

It's really exceedingly hard selecting a new autumn hat.

Its a Top Notch Doer.

Very Misleading.

Battersby came across this interesting item in the household department: "If men would answer their wives kindly and courteously when asked for money it is undoubtedly true that the amount requested would not be half as much as it would be if the husband's reply was surly and antag-

Battersby read this item over twice to make sure he grasped its meaning, and just then his wife entered the

"George," she said, "I want some money."

Battersby smiled affably. "Yes, my dear," he pleasantly remarked, "and how much do you

Mrs. Battersby stared at him in amazement.

"I said I wanted some money." This time she spoke with much distinctness. "And I asked you how much you

wanted," Battersby merrily reminded "Fifty dollars!" she snapped.

Battersby almost fainted. He had imagined she was after \$5 and that his genial tone would cut the amount to \$2.50.

But he handed over the fifty without further ado-and then tore the misleading item into infinitesimal clenses the teeth, purifies the breath. 10c bottle.—Get at McKellip's. 7-10-3mo fragments.—Cleveland Plain Dealer.

Animais and Instinct.

It is a mistake to imagine that animals are prevented by instinct from eating injurious food. A chicken will drink paint; a cow partakes of water in which noxious chemicals have been washed; ducks cheerfully swallow snails and choke themselves in the process. No; animals, like children, need watching.

Recently numerous cases of poisoning in ducks, which followed the consumption of cabbage leaves, have attracted much attention. A few hours after feeding poisoning has manifested itself by loss of appetite, great weakness, tottering steps and sometimes death. From time immemorial ducks have thrived on cabbage leaves. The poultry farmers were greatly puz-

Then it was discovered that various caterpillars were concealed in the cabbage leaves; hence these tears. But the point is that, far from instinctively detecting any danger and behaving accordingly, the ducks consumed great quantities of the leaves with much apparent relish.-London Answers.

Mr. F. G. Fritz, Oneonta, N. Y., writes: "My little girl was greatly benefitted by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is mild, pleasant and effective, and cures habitual constipa-tion. R. S. McKinney, Druggist, Taney-

Pleasure and Sacrifice.

An alert little five-year-old was visiting a city park with her mother for the first time. She had noticed the beautiful red and white swan boats as they passed through in the morning, and her mother had promised they should come back after the shopping was done and have a ride.

Shortly after dinner they stood on the bridge over the lagoon watching the boats below and listening to the cry of the barker as he tried to induce the passing crowds to patronize his swan boats.

But when her mother started toward the boat landing little Elsie declared very vigorously that she did not want to go at all and, as her mother urged her, broke forth in tears.

This sudden fear was so different from her former eagerness that her mother could not understand it until she noticed the boatman's call.

He was crying: "Come along! Come along! Ride clear round the pond. Only 5 cents for ladies and gents! Children thrown in!"

Apples as Omens.

In parts of England many quaint superstitions still center round the apple. Apples hung on strings and twirled before the fire are said to fall off in the order that the marriages of the various owners will proceed. An apple eaten before a looking glass is supposed to give a view of the inquirer's future husband, who will be seen peeping over milady's shoulder. Peel safely taken from an apple, tossed three times round the head and thrown to the ground unbroken forms the first letter of a future lover's name. A more recent, though hardly more serious, custom necessitates a bowl of water in which are floating a number of apples. Mothers must drop forks into the bowl from a distance of about four feet. If the fork pierces an apple the feat is believed to protect the performer's children from catching cold.-London Scraps.

The Laber Language.

"There's a language in hotel labels, the same as in stamps or flowers," said a courier. "All over Europe the hotel porters paste the hotel labels on your trunks in such a way that the porters in future towns will know what sort of a tipper you are.

"Up at the top of the trunk the label means you are generous. In the middle it means you're a middling sort. Down very low it means you are no good."

Willing to Help.

"Ma, what are the folks in our church gettin' up a subscription fer?" "To send our minister on a vacation to Europe."

"Won't there be no church services while he's gone?"

"No, dear." "Ma. I got \$1.23 in my bank. Can I

give that?"-Cleveland Leader.

Franklin and the Balloon. When the balloon was first discovered some one said to Franklin, "What will ever come of it?" Franklin pointed to a baby in its cradle and said, "And what will ever come of that?"
