TANEYTOWN, MARYLAND, SATURDAY, APRIL 16, 1910.

No. 42

NEWS NOTES HERE AND THERE

Condensed Items of Interest from County, State and Our

Mrs. Deitrick, one of the National lecturers of the Woman's Christian Temperance Union, will deliver a lecture in the Mt. Zion (Haugh's) church, on Sunday, April 16, at 10 o'clock. All'are cordially invited.

The Hydrated lime plant of the Tidewater Portland Cement Co., at Union Bridge, will be formally opened, on Saturday, April 23. It is understood that there will be many visitors present, by special invitation, from various sections of the state.

More than 50,000 persons will be asked to join the movement to prevent the spread of tuberculosis Sunday, April 24, when in 100 churches throughout the State sermons on the methods of stamping out the disease will be delivered by the clergymen. They will explain the methods by which each person may belp in the crusade by observing rules of hygiene which will be explained.

Harry Peyton Gorsuch, appointed postmaster of Westminster, as the successor of the late Col. S. K. Herr, took charge of the office on Monday. As assistant postmaster he reappointed Theo. A. Kauffman, who was originally appointed by Colonel Herr. All the other members of the clerical force are under the civil service rules, and hence no change will take place in the subordinate offi-

Rev. Dr. E. R. Eschbach, pastor of the Evangelical Reformed Church, of Frederick, is extremely ill at the parsonage. It was stated that he was at the point of death and there was no hope of his recovery. Dr. Eschbach, who is 74 years of age, has been in ill health for over a year, and his recovery was long ago recognized as altogether improbable. Since the beginning of this week his condition has steadily grown worse. He has been pastor of the local church for nearly 36 years.

The warmest corporation election in the history of the town of Thurmont took place on Monday when a Mayor and four Commissioners were elected. The town voted almost unanimously in favor of a bond issue for municipal ownership of an electric light plant. The contest centered on the ticket for Commissioners, and the successful candidates were: Mayor, Wm. J. Freeze; Commissioners, Wm. T. Weller, Dr. E. C. Kefauver, Jos. A. Weedelman and Elmer E. Black.

A stranger entered the store of a merdays ago, and offered to sell him appli- nated this "Special Notice" ances for making his safe fireproof, or burglar-proof. The merchant declined, and, to show that his safe was impregnable, showed the man the inside, lock and the safe in general and the man went away. That night the safe was opened in regular order, and, when the merchant returned to his work in the morping he found that \$900 was gone. In the safe was a note which read as follows: "I told you you needed a new

At a citizens' meeting in Walkersville, Monday night, with County Commissioner Lincoln G. Dinterman chairman and Thomas Albaugh secretary, these candidates were nominated for town commissioners, three to be elected: Jno. Strine, Jacob L. Crum, C. Robert Moberly, Ezra L. Cramer, S. Clinton Cramer and Marshall O. Ramsburg. The citizens will also vote on raising the tax rate from 20 to 32½ cents to provide water for fire protection and other purposes. Recently a system of waterworks has been introduced in the town by a corporation.

Upon the recommendation of Attornev-General Isaac Lobe Straus, Gover nor Crothers will veto the bill which does away with the printing of the entire text of the constitutional amendments on the ballots. The bill, Mr. Straus holds, is unconstitutional, and if any amendment should be ratified by the voters under its provisions he believes that the amendment would be declared unconstitutional by the courts because the entire text had not been printed on the ballots. The bill was introduced by President Gorman, of the State Senate. 1t provides for the printing of only the chapter number and the section of the Constitution to which the amendment is made. Under the present law all constitutional amendments are printed in full.

In exactly 28 minutes \$324,000 was subsc ibed by the congregation of the Fifth Avenue Baptist Church, New York, last Sunday, after the pastor, Rev. Charles F. Aked, had made an appeal for \$500,000 with which to build a peal for \$500,000 with which to build a new Fish Law, for Frederick and Carnew church. Half of the \$324,000 was roll counties, but as there is some doubt contributed by John D. Rockefeller, who promised dollar for dollar up to \$250,-000. The largest individual contribution outside of Mr. Rockefeller's was that of Edgar L. Marston, who contributed \$25,000. Colgate Hoyt gave June, July, August, September, October Horatio Bigelow gave a similar sum. Harry Hubbard also contributed \$10,000, while Mrs. Hubbard added \$1000. There were several \$5000 donations, including one from John D. Rockefeller. Mrs. John D. Rockefeller and Mrs. John D.

Supt. Anderson not Dismayed.

The Anti-saloon League has made its final legislative report on the work of the recent session. It shows that on the vote of 50 to 48 by which the State-wide local option bill was defeated, all the delegates Exchanges.

There will be a general registration of voters, throughout the state, in 1911, the Governor having signed a bill to that counties, Talbot, (Rhodes); Carroll, (Stoner); Prince George's, (Marbury); Worcester, (Murray absent) voted for it. In Harford County, Dr. Jarrett and Mr. Osborn supported it, and Messrs Archer and Sullivan voted againstit. We quote as follows from the Superintendent's re-

"The failure to pass the local option bill this time is no ground for discouragement. In Ohio and Illinois the League was defeated in three legislative sessions, yet to-day more than four fifths of the territory of these states is "dry" under the legislation finally secured. The Maryland Local Option bill has only been beaten twice and after a showing so strong that the Governor himself came. out in an interview declaring it was a mistake for the Legislature to fail to pass

it. This statement is a most encouraging recognition of the strength of local option sentiment and will compel the Democratic party to nominate satisfactory candidates and get right on the local option question, or else give a winning issue to the opposition. The attempt which failed, because the Governor refused to approve it, to prohibit asking candidates where they stand on public questions, shows how the liquor interests questions, shows how the liquor interests dread the League's activity.

'The Anti-Saloon League is not trying to defeat or injure the Democratic party. It is not the business of the Anti-Saloon League to disturb the political balance or defeat the majority party anywhere, no matter which it is, but to make an issue so clear that the politicians will understand that the majority party can remain such only by representing public

"The defeat, this time, while disappointing, will simply strengthen the League. It has proven conclusively the folly of voting for legislators who are not known to favor local option. The refusal on the part of the Baltimore City and County delegates to pass a Local Option bill for those counties which wanted it, has shown the county members that the only way to get relief for their own peo-ple is through a State-wide bill."

Special "Wanted" Notices.

Our "Special Notice" column, which nas been such a wonderful success in the way of selling, and finding, a vast range of articles, strange to say has not been used to any extent for "Wanted" articles. There must be, continuously many of our readers who are in need of one or more things which they might easily secure by advertising for them. Perhaps a horse, cow, a piece of ma-chinery, a stove, or some household or farm implement, and perhaps somebody has just the article and would gladly dis-

pose of it.

Make use of this suggestion! A department that will sell articles for you, A stranger entered the store of a mer-nant at Amelia Courthouse, Va., a few others. The RECORD practically origicounty newspapers, and it has been copied by many of our exchanges, a fact which demonstrates its value. To some extent, the department has been misused, and we have had considerable difficulty in maintaining its intended character: still, for a number of years it has held first place as a valuable feature, and we will continue it indefinitely.

Try a "Wanted" notice, occasionally, and see whether it does not "deliver the

As to Baseball Games.

At the beginning of the baseball season, we think it proper to make a state-ment something like we made last year, to the effect that the RECORD does not intend to make a "feature" of baseball games, to the extent of writing them up in detail. We enjoy a good game of ball the sport is all right, when it is decently conducted, and we will give scores and perhaps brief comments on games in which the Taneytown club is a participant, but we do not propose to open a sporting column. In our opinion, a county paper has more important use for its space.

Lowe---Trimmer.

(For the RECORD.) A quiet but very pretty wedding took place at the home of the officiating clergyman, "Brookside Place," near Westminster, Md., at 5.30 o'clock, on the evening of April 10, 1910. The contracting parties were Miss Treca May Trimmer and Mr. Raymond A. Lowe, both of Hanover, Pa.

The ceremony was performed by Elder W. E. Roop of the Church of the Brethren, in his usual brief but impress-The bride was handsomely gowned in a suit of white trimmed in blue. The groom wore the conventional black. The happy couple begin life's journey with the best wishes of a host of friends. They will reside in Hanover.

The New Fish Law

We have been asked to publish the as to the extent of the amendments to the Wertenbaker bill, we think it best to wait for positive information. Accord-\$10,000, and the family of the late L. and November, and then only with rod and line. It also provides that net fishing is unlawful, at all times, and that

no fish baskets shall be placed. We are informed that Carroll County was made exempt from the law, except Monocacy river; but, as there is some Rockefeller, Jr., contributed \$1000 each. doubt as to just what the bill, as passed. Dr. Aked himself gave \$1000 and Mrs. provides for, we will try to give the exact information, later.

CENSUS TAKERS AT WORK.

Be Ready to Answer Questions Cheerfully, and as Intelligently as Possible.

Census enumerators all over the United States, will begin their work to-day (Friday) and are expected to finish their districts within fifteen days. It is neither a very easy, or a very agreeable or profitable job. The enumerators, for the time being, are representatives of the U.S. Government, and as such they ought to be treated courteously, and their questions answered without any hesitation or evasion; furthermore, their time is valuable, and they should not be unneces-

sarily delayed. Farmers and manufacturers have been furnished with blanks, in advance, so as to secure prompt and accurate informa-tion. These blanks should be studied, and the answers made as accurately as possible. There are good and sufficient reasons for asking every question; if there were not, the questions would not be asked. It is not necessary that everybody should know why the information is desired, nor are the enumerators sup-posed to spend their time in trying to make explanations.

All the information asked for is strictly confidential. The enumerators are under binding oath not to reveal anything that is reported to them; they do not make the questions, but the same questions are asked all over the United States, from everybody, the questions varying, of course, according to the business one is engaged in.

Do not be stubborn, or evasive, in your answers. Get rid of the enumerator as soon as possible. Refusal to answer may get you into trouble; not with the enumerators, but with the government. The words, "Refused to answer," may bring a United States marshal to you; indeed, they are very likely to do just that. Be polite, civil and prompt with your answers, and the job will be soon over.

Orphans' Court Proceedings.

Monday, April 11th., 1910.—The last will and testament of Charles Niner, de-ceased, admitted to probate. The last will and testament of John

Well Digger's Narrow Escape

Last Wednesday, Howard Harner, of Last wednesday, Howard Harner, of Harney, Md., had a narrow escape from being buried alive. He and his brother Paul were engaged in drilling a well on the farm of Elias Leppo, near Swartz's school house; the well was an old one about 82 feet deep and they had drilled 26 feet below the original depth when Mr. Harner descended to arrange the steel pipe which was to be installed. The walls of the old well started to cave in. Mr. H. jumped between the steel pipe and one side of the wall and started to work himself toward the top. He had gotten to within about 18 ft of the top when he was entirely covered with dirt. Neighbors and friends quickly dug him out and were agreeably surprised to find that he had escaped with a few scratches and bruises.

Indian Lecture at Baust Church

Mr. Harry C. Wheeler (Stranger Horse) of the Tribe of Nez Perce, of Idaho, U. S., student at the Indian School, of Carlisle, Pa., will deliver an address at Baust church, on Wednesday evening, April 20. He is an all-around athlete and foot ball player. He will appear in Indian costume and promises to attract a large crowd.

Services on Thursday and Friday evenings, when strangers will preach. A cordial invitation extended to all.

College Appropriations Reduced .

The Governor, in cutting down appropriations to institutions about \$300,000, affected Western Maryland College \$9,000., and Maryland Collegiate Institute, \$1,000. As we understand it, the appropriations to Western Maryland were \$12,500., and \$3,600 per year, for 1911 and 1912, and that the Governor has lopped off \$9,000. for the year 1912.

The appropriation for Maryland Collegiate Institute, Union Bridge, was \$1,000. a year for two years, according to our understanding. Whether the veto affects the whole appropriation, or but \$1,000. of it, we are unable to state definitely, but it would appear that the lat-

ter is probable. St. John's College, Annapolis, was also reduced \$10,000 for 1912.

Among other institutions reduced were Springfield Hospital, \$20,000., Sabillasville Sanitarium \$25,000, Owings Mills School for Feeble minded \$15,000, four Hospitals in Baltimore \$16,000, Medical and Chirurgical Faculty \$10,000, Maryland School for Boys, \$15,000.

To Builders of Houses.

One of the largest Fire Insurance Companies in the U.S., has issued a pamphlet on house construction, from which we reproduce the following;

Wood and shingles for walls and roof, and a hung chimney, have first cost advantages. That is why these types prevail. Are they, however, really any cheaper at the end of twenty years?

A good chimney resting on the ground is essentially a measure of safety in preventing fires. It will, moreover, represent a slight saving in maintenance, the amount of which cannot be stated exactly, and it makes a material saving in insurance rate. For the standard type of construction (built from ground) there is a favorable difference in rate running from 10% upwards.

If stone, brick, or concrete is used for walls no painting is needed. If wood employed, it should be painted at least once in four years. Cost of same, say \$60.00. In forty-six years this alone would consume the extra cost of stone, in thirty-two years that of brick, and in fifteen years that of reinforced concrete.

A further economy in brick or stone, contrasted with wood is the lessened cost H. Conaway, deceased admitted to probate, and letters testamentary thereon granted unto Columbus A. Conaway, Charles S. Conaway and John W. Conaway, who received warrant to appraise, and the entrance of cold and wind, which also order to notify avoid to the columbus and the entrance of cold and wind, which also order to notify avoid to the columbus and the entrance of cold and wind, which also order to notify avoid to the columbus and the entrance of cold and wind, which are uncomfortant to the columbus and the entrance of cold and wind, which are uncomfortant to the columbus and the columbus and the entrance of cold and wind, which are uncomfortant to the columbus and the colu make drafty places that are uncomfortable in cold weather and add to fuel bills. The writer has in mind a frame house built some years ago which he planned to construct with brick filling. The con-tractor, with probably the best intention recommended to omit this. It saved a couple of hundred dollars, and as an offset to that economy (?) it would be safe to estimate that \$20.00 worth of coal exinventory of debts. to estimate that \$20.00 worth of coal ex-Letters of administration on the estate tra is needed annually to keep the house of Samuel Roop, deceased, granted unto warm, besides which, in extreme weath-Theodore F. Englar and Lewis K. Woodward, who received warrants to appraise personal property and real estate, also furnace, no matter how hard it is driven. order to notify creditors.

Franz J. Seigel, executor of George Younger, deceased, filed report of sale comfort and warmth (with saving in fuel) in winter and conversely cooler and more comfortable in summer, which are electric companies, telephone and tele-Minnie G. Briscoe, administratrix of not altogether measurable in dollars and James F. Briscoe, deceased, received or- cents, there is to be considered the saving in cost of insurance by the use of fire resisting materials.

The insurance rate (and charge) on a Barbara E. Freeman, deceased, returned building extends naturally to the contents as well. In many instances the value of the contents exceeds the cost of the building itself, so for the purpose of counting the cost of poor construction it is proper to apply the insurance cost to what is in the building as well as to the building itself. Therefore, it follows that a building justifying a low insurance rate is additionally better for the builder if he is to be the occupant, and if built to be let, the feature of a minimum rate will make it rent more readily and to better advantage.

Commencement at Irving College. The fifty-fourth annual commence-

ment exercises of Irving College and Music Conservatory will be held 28th, to June 1st, inclusive. The College Dramatic Club will present "As You Like It," on Saturday evening, May 28th. The baccalaureate sermon will be preached Sunday morning, May 29th, by Prof. Jacob Fry, D. D., Philadelphia. The annual address to the Y. W. C. A. will be delivered the same evening, by Rev. A. B. VanOrmer, Ph. D., Shippensburg. The concert by the Glee Club will be given Monday morning, May 30th, and the Grand Concert by the Music Class of 1910, the same evening. The alumnae exercises will be held Tuesday morning; the annual meeting of the Board of Trustees, Tuesday after-noon; the President's Reception, Tuesday evening. The commencement will be held Wednesday morning, June 1st., when the following young women will be graduated:

In Art-Miss Ethel Schofer, Reading; Miss Zelia Schrecongost, Du Bois; Mayme Schubert, Scranton; Miss Edith Snyder, Weaversville; Miss Clover Strohm, Carlisle. In Elocution—Miss Clara Hughes, Everett; Miss Zelia Schrecongost, Du Bois. On Pianoforte -Miss Bertie Burger, Cumberland; Miss Anna Hankey, Oakmont; Miss Mary Shelley, Carlisle; Miss Alice Myers, Campbill; Miss Florence Freed, Souderton; Miss Ruth Hemsath, South Bethle-hem; Miss Helen Kistler, Alllentown; Miss Jane Ross, Messmore; Miss Manilya Zug, Mechanicsburg. With Degree of B. S.—Miss Esther Applegate, Catasauqua; Miss Emma Campbell, Mechanicsburg; Miss Grace Foutz, Harrisburg; Miss Pearl Walter, Natrona. With Degree of A. B.—Misses Beulah and Vada Castle, Mechanicsburg; Miss Belva Crissman, Martinsburg; Miss Ruth Hemsath, South Bethlemem; Miss Eliza Woodruff, Lewistown.

THE DIGGES BILL VETOED.

Governor Crothers Adopts Public Sentiment. Amendment in 1911.

Governor Crothers has withheld his approval from the Digges bills, repealing present registration laws, re-enacting those laws so as to deny negroes the right to register and transferring May electoins in Baltimore to November. He approves the Digges amendment to the Constitution to be submitted to the people next year under which, if approved, negroes will not be permitted to vote unless they own property assessed at \$500. The amendment commits the state to a uniform ballot and abolishes the Wilson trick ballot.

One objection to the Digges plan advanced by the Governor is that such a law is impracticable and could not be enforced without detriment to the state. Another is that he is disinclined to prejudge a case that must eventually be under the lee of the great liner a musical settled by the courts and which must

come before the highest federal tribunal.
Attorney General Isaac Lobe Straus Attorney General Isaac Lobe Straus has also discussed the Digges bills with the Governor. He bears in mind in considering the probable action of the United States Supreme Court a recent decision by that court in the Maryland-West Virginia boundary dispute, in which it was held that Maryland's long acceptance of the line claimed by West Virginia is the correct boundary, gave it the full force of law. Hence Maryland's long acceptance of the line claimed by West Virginia is the correct boundary, gave it the full force of law. Hence Maryland's long acceptance of the line claimed by West Virginia is the correct boundary, gave it was that for sweetness of .tone, the full force of law. the full force of law. Hence Maryland's long acceptance of the Fourteenth and Fifteenth Amendments, whose violation was proposed by the Digges bills, has given these are described in the force of law. Hence Maryland's for simplicity, for genuine heart-to-heart through dusky singers of Hawaii.

A more enthusiastic crowd than we of given those amendments the full force the Cleveland cannot be imagined, as of law, if not sustained, as they are, by we pressed forward to have wreaths of

asked in order to present protests against the bills. By his announcement in ad-vance of the visit of the league's representatives he deprives his party critics of an opportunity to say that he was influ-enced by the league and that he has joined the ranks of the reformers, thus placing himself beyond the pale of fur-ther consideration by his party organi-

His action will, however, arouse the ire of his party leaders, who accepted the disfranchising bills prepared by Messrs. Marbury, Machen and Rawls, of the Baltimore bar, and who shoved them through the Senate and House of Delegates during the closing hours under a suspension of the rules.

The Regulation of Public Utilities.

The Public Utilities bill, passed by the legislature, which provides for a commission of three and all necessary clerical help and office machinery, promises to be a very important addition to the governmental regulation of corporations, in their dealings and business with the mills of the Oahu Sugar Manufacturing Co., seeing the various processes the corp which the cane passed, from

graph companies, light, heat and refrigerating companies, water and water-power companies and virtually every tered a whole regiment by casting them other species of public utilities corpora-

The commission has power to determine rates to be charged by each public service corporation subject to the act. These rates are required by the act itself to be just and reasonable. The commission is vested with full and plenary powers to conduct investigations in order to enable it to ascertain what rates in the case of each particular public service corporation are just and reasonable.

Among the powers given to the commission for the purpose of enabling it to determine what are just and reasonable rates are the following: To summon and examine witnesses, to require the production of all books and papers, to entertain complaints and conduct hearings with respect to the reasonableness of rates and charges, to require switch connections, to require public schedules to be made out for the railroad com-panies, to prohibit undue preferences and discriminations on the part of the railroad companies, gas companies or rain-fall in some parts is considerable, any other companies subject to the act; even as high as 300 inches per year, it to require the interchange of passengers and freight, to prevent discrimination with respect to long and short hauls and to require safe and reasonably adequate | minutes under the influence of a porous and proper service on the part of the soil and fresh breeze. As we left the various corporations.

What The 1909 Amendment Cost.

advertising the Suffrage Amendment of of thing and frosts are impossible. Haw-1909. As this was the second of the aii's salubrity is due to the trade wind, "Disfranchising" amendments, and as with an average velocity of 8 miles an gins to look as though Maryland politicians have contracted an expensive

perhaps without knowing it.

This \$15,000 represents only the cost "advertising," and not the cost of printing ballots and other expenses connected with this attempted legislation. Truly, the "cost of living" comes high in Maryland.

Blue and Gray at Gettysburg.

Veterans of the Civil War, both those who wore the blue and those who wore the gray at the battle of Gettysburg 48 rainy ones more disagreeable than those years ago, will meet again on that famous battlefield this year, if the movement started by Lieut. Col. J. A. Watrous, U. A., is carried out. Owing to the fact that veterans of both armies are responding in large numbers each year to final climates, it is not good for every disease 'taps. would be better to hold such a reunion this year rather than wait until the fiftieth anniversary of the battle. Much persons afflicted with nervous diseases, Students are in attendance from many states. The college dormitories are full to their capacity. The college is having to their capacity. The college is having brought to light by this meeting.

Letter From Honolulu.

"We were all eager to catch the first glimpse of the American city, so far out in the ocean, so far from our shores, but an American city for all that. It was our first stop on the long world-voyage and the entrance to the port could not have been made under more auspicious circumstances. The German band on board played inspirited airs, the Haw-aiian Quintet club which came out in a launch to meet us, and the Hawaiian band contributed to enliven the imposing scene. It was a royal joyous wel-come and the local people received a demonstration likewise from us who early learned to say Aloha—greeting—

The official welcome was given by the promotion committee, members of which came by launch, accompanied by a bevy of Hawaiian maidens. Baskets filled with fragrant leis of maile, ferns, carna-tions, plumaria and ilima were brought out on the launch. On the bow of the launch, Kaai's quintet club was stationed, welcome was given us which was most heartily applauded and frequently encored. "Aloha Oe," "Like no a Like,"

the decisions of the court.

The Governor forestalled the hearing for which the Reform League had leis placed about our necks, many pressing the fragrant blossoms to their faces so that none of the perfume might be lcst. The leis appealed to us as one of the most charming customs of the Hawaiian Islands. Men and women alike were loud in their praise and enthusiasn over the pretty custom. Most of us wore our leis throughout the day. After the gangway was lowered the first ones up were the Hawaiian girls whose arms were filled with leis. The Hawaiian quintet came next and to stations on the promenade deck where they played to an audience, which closed them in. The German band alternated with the quintet club, the artistic touch of our drummer being regarded by the

local musicians as that of a past master.
While Mr. Clark, the conductor of the tour, had previously made most complete arrangements for seeing Honolulu, those of us who were termed Shriners, together with our wives, were met on shore by the Potentate and whirled off in many large automobiles to see the various sights. There are five hundred automobiles in this city of 45,000 and the roads are excellent.

The jurisdiction and the powers of the commission extend over all public service corporations in the State, including all common carriers, steam railroads, street railways, steamboats, canals and canal companies, ferry boats, gas and vinevards and pineapple plantations .We were whirled to the top of Mt. Pali. over the precipice on the rugged rocks below. We were driven to the grand promontory of Diamond Head, whose fiery sides were softened by a haze of green. The Punch Bowl, a perfect extinct crater 800 feet in height, was ascended on foot, and found to be brilliant with every shade of red volcanic ash, while to the south of us spread out in panoramic view lay the beautiful city of Honolulu with its cosmopolitan population—Americans, Japanese, Chinese, Portuguese, Hawaiians, negroes, half whites, "foreigners," and dark skinned Polynesians.

Hawaii is always delightful. Unlike the West Indies and most places in the Tropical Zone, summer is the dry season instead of the wet. Refreshing trade winds blow unceasingly across the cool bosom of the Pacific from the northeast tempering the days and shaking from the fleecy masses of clouds refreshing little showers of "liquid sunshine" and occurs usually at night and in a series of heavy downpours, which seem to be absorbed or to evaporate within a few dock and whirled rapidly out into the country in our automobiles we found the roads decidedly muddy, yet on our return, two hours later, some dust was already flying. Rainfall, however, varies. Among the bills signed by the Governor, was one appropriating \$15,000 for unknown. Sunstroke is an unthought there is to be another one in 1911, it be- hour from the northeast blowing with

great regularity. Hawaii has no malaria. The anopheles habit-but the tax-payers foot the bills, mosquito, through the agency of which malaria is transmitted, is not found in any of the islands. Until the white man came, Hawaii did not have such diseases as smallpox, diphtheria, tuberculosis, etc. The islands have never harbored a snake of any kind, nor a reptile or insect more dangerous than a bee or wasp, and while much of the foliage is dense one may travel with a sense of absolute security. Moreover there are no common poisonous plants such as poison ivy or

poison oak, in the whole island. prevailing during the month of June in Maryland. Surf bathing and aquatic sports are indulged in, by the children, in January and July alike. While this is a salubrious climate, unlike some Colonel Watrous believes it to which the human economy is liable. kidney troubles, etc., are justified in coming here from almost any part of the world." S. G. A. Brown. Published every Saturday, at Taneytown, Md., by The Carroll Record Printing and Publishing Company.

DON'T BLAME Roosevelt, but blame the newspapers for reporting every movement and utterance of the returning African hunter. It is a penalty of popularity, or notoriety, that hungry correspondents trail such men as hunters do game, often to the disgust of both the subject and the reading public.

GOVERNOR CROTHERS will be upheld by the best sentiment in his own party, for refusing to sign the Digges bill, a bill which should never have passed under the conditions connected with its history. Perhaps it is fortunate that it was jammed through at the eleventh hour, for otherwise the legislature might have perpetrated the additional folly of having passed the scheme over his veto, if given the opportunity.

ABOUT 1400 BILLS were introduced in the recent General Assembly of Mary- and pay higher wage scales, providing rife, and each closed with universal conland, of which, about 780 passed, and they in turn can collect more from their fidence and approval. of this number probably 200 will receive the Gubernatorial veto, leaving 580 to become laws and 820 representing wasted time and effort, not to mention cost. A sifting of the number becoming laws they can catch prosperity coming and the Administration save \$55,000,000 a will likely show a large percentage which should have been enacted by local ordinance, and some hardly of an right to participate pretty equally in tions of all corporations is already seimportance, deserving the dignity of legislative action, which would leave a comparatively small number responsible for the addition to "the cost of living" in Maryland.

Is the Republican Party Going to Pieces?

It has, at various times, and for many years, been predicted that "the Democratic party is going to pieces," but somehow or other it never did. It has another two years, in Maryland. The had, and has now, its discordant ele- call from the people has not been loud ments, and its future is not at all safely and plain enough to impress the poliassured. It is holding together, as a tical leaders. Some people must be im- never been more numerous. The apfighting force against the enemy, but pressed with a club. A bare majority proaching decisions of the Supreme internally it has its troubles, and ex- in favor of a principle is insufficient; ternally lacks great and trusted issues public sentiment must be strong and the active prosecutions of the Taft ad-, and leaders which all can follow.

But, there is a new cry in politics, for the time being, "that the "Republican largely of the namby-pamby sort; it has over trusts. party is going to pieces," and while it been in favor of a vote on the subject, is in full control of all branches of the government. The Democratic party do not object. usually showed signs of disintegration because of defeat, but success seems to bring it on the Republicans. While these courses, even though the ship be wrecked.

rarely happens that they are so rebellious true, both before and after the election. as to carry their differences to the extent

now and then, to give the people good favorable legislative action. political sense. There are always some who must touch a buzz saw to see

hands off. prosperity, produces people who the wheels go round." Then, there are strongly in favor of a vote, and thereby dler of rat traps and other small mefied until they bump somebody and get | a shape that Local Optionists must con- mass of New England people. bumped in return, and that is about the tinue the fight. Had they provided for The Jews, are unquestionably God's position in Republican party politics.

Why Not Higher Rates?

Now that the railroads are talking of raising their freight rates, on account of an increase in wages to employees, a howl is going up over the country. Why? Does not every sensible person realize that any great increase in expense must be balanced by an equivalent increase in income? Does any sane business man know of any plan by which any company, or individual, can continue in business at increased fixed charges for conducting his business, without getting, from some source, an increased fixed revenue?

We are assuming, of course, that the railroads are contemplating only an increase in charges sufficient to meet increased expenses. If they are making use of the increased wage scale to charge higher rates and leave a profit over the increase, that is another matter. We must assume that before the increase in wages there was a fair adjustment of rates to meet expense, which left only a fair profit, for before the increase in wages we heard no complaint

But, leaving the railroads out of the question, there is here involved a question of simple business sense. Nobody cares, especially, how high his expenses are, if his income is sufficient; nor does he object to paying higher wages, and more for living expenses, providing he ge's back sufficient to enable him to do so. There are people in the world-intelligent people, too-who think they ought to sell, what they produce, at high prices, and still buy everything they use, at low prices, but they are exceptions.

Suppose wheat goes to \$1.50 a bushel, and other farm produce in proportion, why should not farmers pay more for what they must buy? Suppose print tions. paper advances one-half in price, why should not the printer get an advance on his output? When flour and meat advance materially in price, why should Putting the question in another form-When one class receives higher prices, should not this class willingly pay more for the products of other classes?

accede to the demands of Union labor, patrons for their service, and there is nothing wrong about it when they try to do so. We have very little confidence in the fairness of those who think that going, and keep it up. Every man-all year and have already ended a monthly general conditions being equal-has a deficit. A public record of the operaprosperity; it is not a part of the econo- cured through the Federal tax on their my of things, that one class shall long income, for each of them, 300,000 in prosper at the expense of other number, and for the first time the reclasses, and it is a safe conclusion that corded facts exist on which to base the such can not long be the case without legislative regulation of corporate rights, enmity between those who should be powers and acts. Growing imports atharmonious friends.

Why Local Option Lost.

providing "our friends and neighbors"

has not yet been publicly recognized as railroad rates, on postal savings banks, predictions are more or less for effect's a great issue. Every paper in Baltimore on employer's liability, safety on railsake, and come readily to tongue and made light of it; almost every reference pen, there are undoubtedly strong evil to it was through a second-handed efficiency in the postoffice and providing dences that the Republican ship is source; it was treated apologetically, and the reform in the land laws needed for among the rocks of danger. There is a often sneeringly. The attitude of the fight among the pilots, and the passen- country press was largely of the same law of the land is already under debate gers are uncertain which to trust; more- order. Almost every local paper was and adoption months before any preover, there are strong indications that afraid to indorse the proposition, even these pilots are not going to agree, but when in favor of it, for fear of losing a has seen bills as important so far adthat they mean to keep on their opposite little local patronage. Candidates for vanced. If these do not pass it is not the legislature, as a rule, played on both sides of the fence, and lacked the nerve Usually, politicians will patch up their to back up their conscientious convicdifferences and follow the party flag. It tions, manfully and fearlessly. This was

of inviting oblivion, both for themselves and their party, but it looks very much act, and get what votes they could from a look of the services and their party, but it looks very much act, and get what votes they could from a look of the services and beginning and be as though the Republican "insurgents" Local Optionists, failed utterly to lend are going to do exactly that, so that it any strength to the Anti-saloon League's may turn out that the Democratic party efforts; they played the game "You may come into power, not because of a carry me, but I'll not carry you." Prompopular trend toward Democratic prin- inent people-leading church people, ciples, but because the Republicans too-talked of Local Option in whispers, said that he considered that a continuagreed to disagree over their principles. and around corners, fearing that they ance of the part in Shylock as is now No matter what the outcome may be, | might be heard by some of their patrons | portrayed in Shakespeare's play, "The the country will take care of itself. The who opposed a vote by the people. In merchant of Venice," is an insult to the people can be trusted to rule. Perhaps a word, self-interest and cowardice, all Jewish people, of this country; and we a great political revolution is needed, along the line, killed all chance for agree with him. It is true that the petty

good politics, as they would largely have prevented the issue being drawn, between parties and candidates, that year.

We are of the opinion, and always have been, that the majority of people are favorable to having an opportunity for a vote on the question. They are favorable, only their voices are weak, and just as long as they continue so, just so long will they have their wishes defeated, and just so long will they deserve defeat. An army of Mr. Anderson's could not win against such conditions, for good generals, with a cowardly soldiery, do not win battles.

But, the situation is bound to change. Unless we mistake public sentiment, it will be aggressive and plain enough, two vears bence. If the good people of this state needed an object lesson as to what they must do to win, they have had it. They must not only go to the polls with straight-out candidates, but with such men as are able to do more than vote, after election. There must be not only leaders before the election, but floor leaders after the election; men who will impress the newspapers and politicians with the fact that Local Option is a real question, and not one to be ignored and buffeted about as one without friends and following.

The RECORD has never discussed Local Option, or local prohibition, as a moral question; we have never discussed the evils of the liquor traffic, nor pretended to tell the people how to vote, should they have the opportunity to express themselves, "dry" or "wet." Perhaps | Times. this paper would take sides, should it have such an opportunity, and perhaps not. That is another question. What we want, and will continue to want, is this plain proposition—Let the people rule for themselves, on this, as well as on other questions affecting local condi-

President Taft's Record.

Congress has before it bills covering all the legislation pledged by the Republican party. Thanks to President The chief cause for the defeat of the Taft's far-reaching policy in preparing measure, this year, is the fact that it measures for Congress, legislation on roads, giving increased economy and conservation in strict obedience to the vious session of the National Legislature the fault of the President.-Phila. Press.

Every family and especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Liniment. There is no telling Political conventions, leaders and can- when it may be wanted in case of an sprains and bruises. Sold by all dealers.

The Jew.

A Rabbi of New York, in delivering a sermon last Saturday, in his remarks tricks of trade as practiced by the small Naturally, members of the legislature | Jewish traders have had a great deal to took notice of the milk-and watery atti- do with the forming of our opinion of whether "it is going," and all the tude of the people, and presumed on it the Jewish character, but we should not "fresh paint" signs that can be put up to knife all Local Option measures. In overlook the fact that in all the semitic will not compel everybody to keep doing so, they made a big political and oriental races bargaining by bickerblunder, for several reasons; they not ing is the manner in which commerce is Political success, and even National only openly allied the majority party carried on, but this small trading class with the liquor interests, but failed to does not any more fairly represent the "monkey with" the machinery and are recognize growing anti-saloon sentiment; Jewish people as a nation, although not satisfied until they see "what makes | instead of permitting a vote in counties | widely scattered, than the Yankee pedpolitical leaders, as well as people, who showing at least a small measure of fair-chanical devices represents the thought get swelled heads and are never satis- ness, they have left the situation in such culture and benevolence of the great

them with the greatest analytical minds which has made them the greatest scholars in the world; with unusual energy which has made them the greatest merchants; acumen which have made them the greatest bankers and lawyers of all times; but He has also kept unsullied in the Jewish heart the greatest of the cardinal virtues, Charity. There are no people so domestic and so true in the family relations as the Jews and in this country none of the alien races have done so much for the development of the country as the Jews, because after making money they have invested it in America, not only in bricks and mortar, but also in railroads, steamships, and other public utilities which have benefited all of the people of the American

Suppose Shylock did demand his pound of flesh, wrong, as this may seem to be, is it not but typical of what our money lenders, and in fact that we all want our own, irrespective of hardships to others? However, characters and customs have changed and with the one single exception of Religious belief, the Jewish people have been the quickest to change with them, and no other people have been so quick to absorb, and benefit by the local conditions wherever in their wanderings they have sojourned. Therefore it is wrong, very wrong, to be constantly bringing before succeeding generations the uncalled for and unwarranted fable of Shylock as typical of the Jewish character.-Ellicott City

The Demon of the Air is the germ of LaGrippe, that, breathed in, brings suffering to thousands. Its after effects are weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys. The greatest need then is Electric Bitters, the splendid tonic, blood purifier and regulator of Stomach, Liver and Kidneys, Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore health and good spirits after an attack of Grip. If suffering, try them. Only 50c. Perfect satisfaction guaranteed by R. S. McKinney, Druggist, Taneytown, Md.

Rip the Cover Off the Bosses.

Governor Hughes in a speech in Albany a day or two ago made an attack upon the Republican State machine which has stirred the Empire State from centre to circumference. The Governor is a Republican, but he has never allowed his party affiliations to influence him in discussing political conditions in the State of which he is the Chief Executive. "For years," he declared, "we have not had decent government in this State, but government that has been disreputable and indecent. The people are now aroused.

Rip the cover off. Let in the light. Get the crooks out of the State departments. For years votes have been shame lessly bought and sold at the Capitol. Send one of the bribe-talkers, properly branded, through the State, so that he may be scorned by all honest men. That will have an inestimable effect for more in its first year, and all have been good and wholesome things in the service of the State and of the people." This is true independence.

Governor Hughes, a Republican, does not hesitate to denounce corrupt Republican administration in his own State. When he concludes his present term he will, it is announced, retire trom public life-that is, so far as New York State politics are concerned. But it is almost impossible to think of Hughes in any station in life holding his tongue when corrupt government exists. And there could be no better slogan for any party than his exhortation: "Rip the cover off the bosses."-

The Middleman.

Many thousands of farmers through out the country are engaged in a brave but hopeless attempt to eliminate the middleman. Their contention is entirely logical. It is quite clear that the producer and the consumer, are the only persons who have nothing to say as to prices. If the former does not accept the offer of the first middleman he meets, his commodity, in the language of Secretary Coburn, of the Kansas Department of Agriculture, may rot on his hands; and if the consumer does not pay the price demanded of him by the last of the middlemen (for between producer and consumer there may be a dozen of these) he must do without that commodity.

Within the past five years the farmers of the Middle West-some 200,000 of them-have organized over 1500 elevator companies for the marketing of their grain on the co-operative plan. In Iowa alone there are more than three hundred of these companies, which not only deal in grain, but sell coal, lumber, farm implements, binding twine and even salt and flour. Yet these companies are forced eyentually to treat with the commission men.

The farmers have formed independent creameries, and yet each week a body of men meet in Elgin, Ills., and fix the price of butter and milk for the entire country during the next week. In a word, it is the distributer or distributers, and never the producers, who determine the prices for agricultural products.-Phila. Press.

There is no cough medicine so popular as Foley's Honey and Tar. It never fails to cure coughs and colds and is especially recommended for chronic and bronchial coughs. Sold by R. S. Mca vote in 1911, they would have played chosen people, He not only has endowed Kinney, druggist, Taneytown, Md.

HOW TO BARREL APPLES.

Grower Gives Suggestions on Packing and Heading.

There's an art in knowing how to grade and pack a barrel of apples, and the heading of the barrel is not the least thing about the job. On this topic an experienced apple grower, S. B. Shaw of Randolph county, N. C., offers these valuable suggestions:

Before beginning to pack see that the barrel is resting on a solid base. If packing in the orchard provide planks or boards on which to place the barrels while being filled. This keeps the head of the barrel clean and enables the packer to "rack" it to better advantage. "Racking" is the shaking of the barrel from time to time during the packing in order to settle the ap-

BARREL HEADER.

ples, thus making them fit firmer and closer together. The head or end that is usually opened upon reaching market is placed at the bottom end in fill-

Before starting to pack put in a corrugated apple barrel cap or two or. three layers of nicely folded white or plain brown paper. This not only keeps the fruit in better shape, but prevents it from bruising. When this is done the barrel is ready to be "faced." This consists of placing by hand from two to three rows of fruit, stem end down. After "facing" the apples are carefully poured in and the barrel frequently shaken until it is almost full. The last two or three rows may be placed by hand, stem end up. thus "facing" both ends of the pack-

The last layer of fruit should extend about one inch above the chine of the barrel and be covered either with a corrugated apple barrel cushion cap or with two or three layers of neatly

The head is then put on and forced into place with an apple barrel press. There are several types of these presses, differing slightly from the one illustrated, but all answering the same purpose. After nailing the head in place and seeing that all hoops are securely fastened in their proper positions label the barrel, and it is ready for market.

age is well filled with the same grade throughout, including top, middle and bottom. Put up a strictly first class, honest pack or keep the fruit at home. "Honesty is the best policy" and the only one that pays in the fruit busi-

LITTLE FACTS FOR FARMERS.

There are now sixty-five active beet sugar factories located in sixteen different states. Last year 365,000 acres were given over to beets, and the farmers delivered to the factories 3,470,000 tons.

Good, strong, well developed pigs from mature sires and dams will make | mean, that good growers get many better growth and more economical gains than the undersized runts that poor growers considerably less. Soak result from breeding immature sows all seed potatoes coming from Maine to some six-months-old boar pig.

Somebody has estimated from statistics that fruit trees and bushes will bear for the following periods: Apple, 25 to 40 years; blackberry, 6 to 14 away from either bags or barrels years; currant, 20 years; gooseberry, 8 to 12 years; pear, 50 to 75 years; plum. 20 to 25 years; raspberry, 6 to 14 years; strawberry, 1 to 3 years.

The largest grapevine in the world flourishes at San Gabriel, Cal. It was planted by the San Franciscan friars and is 120 years old. The stalk is one and one-half feet in diameter and eight feet high, and the branches and foliage cover 5,000 square feet. Last year it produced two and one-half tons of

Lean, lank hogs and poor fences will such a combination. With animals it seems almost a shame to see a man breeding old scrub sows to some boar | must be added transportation charges, that has no pride of ancestry or hope ef posterity. Yet this is exactly the course that about half of the farmers are following and wondering why feeding hogs is not paying substantial early maturity in the progeny.

WHY CORN IS KING.

Facts Showing Enormous Output of the Cornfields In America.

While corn is conceded to be the leading crop of America it is doubtful if even the largest corn growers realize the extent of its production. If all the corn raised in Illinois in 1909 had been shipped to market it would have made 36,540 trains of twenty cars each, extending in one unbroken line from Portland, Me., to a point in the Pacific ocean 1,000 miles west of San Francisco, or two unbroken lines extending from New York to Salt Lake City.

If all the corn raised in Illinois in 1909 had been marketed at the price prevailing in December it would have brought \$201,517,250, an amount sufficient to pay the public debts of seventeen of the largest cities in America, as follows: Chicago, Baltimore, Cincinnati, Detroit, Indianapolis, Kansas City, Los Angeles, Louisville, Minneapolis, Galveston, New Orleans, Pittsburg, San Francisco, Seattle, Salt Lake City, St. Louis and Washington.

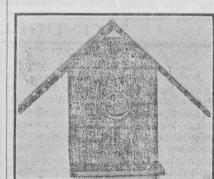

If all the corn raised in Illinois in 1909 had been exported it would have supplied the European demand for seven years. Had the European export for one year only been taken from the Illinois output there would have remained corn enough to allow sixty bushels for every man, woman and child in the state, or three and onehalf bushels for every man, woman and child of the 85,000,000 people in the United States today.

Yet Illinois is not alone. There are twenty-four other states each of which produces more than 15,000,000 bushels of corn each year and eight others whose individual output each year is in excess of 100,000,000 bushels. No wonder that corn has been crowned king, particularly in view of the fact. as Secretary Wilson has figured it, that the 1909 crop of the value of 1,720,000,000 - nearly equal to thevalue of the clothing and personal adornments of 75,000,000-"has grown up from the soil and out of the air in 120 days, \$15,000,000 a day for one crop, nearly enough for two Dreadnoughts daily for peace or war."

The gold and silver coin and bullion of the United States are not of greater value. The total annual receipts from every source of every mile of railroad in the United States are not greater. The public debt of the nation could be paid off by two years' corn crops and enough money be left to build, arm and equip 100 battleships the like of which the world has never seen. If put on the market in the aggregate, to buy one year's corn crop would require every cent of the total gold and silver money of Germany and Austria-Hungary, while the proceeds divided per capita would give \$20 to every man, woman and child in the United States today.

Unique Bird House.

T. C. Kevitt, a New Jersey man, has built a simple but useful bird house. The body is a round stick with bark left on. A large hole is bored in the top, this being covered with a square

A SIMPLE BIRD HOUSE.

pitch roof. The entrance is one inch in diameter. This house was special-In packing apples see that each pack- ly designed for the wren, an interesting bird to have around as well as an industrious insect destroyer. Such bird houses may be put in the corners of the house or on parts of trees inaccessible to cats.

Potato Importations.

Great Britain has become an item of interest to American potato growers. In spite of the very heavy transportation charges and many expenses in getting potatoes through the custom house Great Britain is making money shipping potatoes to the American market. The average yield of the Great

Britain growers is 261 bushels to the acre. This means, as all averages more per acre than this average and or other potato growing sections in formalin (or formaldehyde) solution, one quart to fifty gallons of water. Soak a full two hours. Dry carefully which have formerly held potatoes, for fear of contamination. Cut and plant only the best specimens. Give thorough cultivation. Spray with bordeaux and arsenate of lead combined from the time the plants are from four to five inches high at intervals not to exceed two weeks. Sort carefully and pack honestly. Brand every bag and barrel. Great Britain has made her record on careful cultivation and seed selection in the field from the best hills. This is proved to be the only way. Don't think it over; get busy. discourage almost any farmer who has Up to March 31, 1909, the foreigners shipped into the port, of New York that will multiply as rapidly as pigs 1.022,367 sacks of potatoes, on which was paid \$700,000 in duties. To this

Ten bushels of hardwood ashes pread to the acre over the field just before drilling have a marked effect. The ashes give a vigor to the grain profits. Never get the idea in your which may be distinctly seen in the heads that breeding from young and dark color and the healthy growth of immature breeding stock encourages the leaves. Grain that is dressed with ashes is saldom attacked by rust.

An Important Message!

We are now filled up full with Spring and Summer Goods, in all the lines, and the best and most important feature of it all, we are away down in prices, to the rock below.

The advance in prices during the winter has not affected us a particle. We are here with a larger stock than ever, and prices lower than Considering the quality, we believe we are 10% lower throughout the entire stock than ever before.

Our Carpet and Matting Stocks

are so large that we must dispose of them at any old price, in order to make room for matching up Carpets, Mattings, Linoleums, Oilcloth, etc.

Our Clothing Stock

is also beyond the limited space we have. Hence we are compelled to shove out some specials, at a sacrifice, so we may have room to place the balance.

The Shoe Line

is nobby. \$4.00 Shoes going at \$3.50—no matter about the price.

Straw Hats

are out, and are awaiting to protect you from the rays of that hot Sun. Come help us to move—every article you buy will lighten the burden that much With a prosperous season before us, we are yours to serve.

A Storekeeper Says:

"A lady came into my store lately and said:

"'I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a

comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were aston-ished. They thought that there was smell and smoke from an oil stove, and that it heated aroom just like any other stove. I told them of my experience, and one after another they got one, and now, not one of them would give hers up for five times its cost."

The lady who said this had thought an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now—she knows.

Do you really appreciate what a New Perfection Oil Cook-Stove means to you? No more coal to carry, no more coming to the dinner table so tired out that you can't eat. Just light a Perfection Stove and immediately the heat from an intense blue flame shoots up to the bottom of pot, kettle or oven. But the room isn't heated. There is no smoke, no smell, no outside heat, no drudgery in the kitchen where one of these stoves is used.

It has a Cabinet Top with a shelf for keeping plates and food hot. The mickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

Latest Items of Local News Furnished by Our Regular Staff of Writers.

All communications for this department must be signed by the author; not for publication, but as an evidence that the items contributed are legitimate and correct. Items based on mere rumor, or such as are likely to give offense, are not wanted.

The RECORD office is connected with the C. & P. and United Telephones, from 7 a. m., to 5 p. m. Use telephone, at our expense, for important items on Friday morning. We prefer regular letters to be mailed on Wednesday evening, but in no case later than Thursday evening.

Harney.

Last week while Frank Reaver was plowing for Mr. S. D. Hawn, he had the misfortune to loose his watch and plow it under. He started to turn some of the sod furrows back, but as he did not know how much was plowed, before he discovered his loss, he decided that it was useless to hunt further. We suppose it would be about like trying to find

a needle in a hay stack. Communion services were held in St. Paul's Lutheran church, on last Sunday morning, at which time five young men were taken into the church. Preparatory services were held on Saturday afternoon

Communion services were also held at the U. B. church, of this place, on last

Edward Copenhaver, who has for several years been clerk in Snider's store, left on Tuesday morning, for San Francisco, Cal. Edw. was generally liked by the people of this community, and all join in wishing him an abundant suc-

On last Saturday while Samuel Dayhoff was riding a colt, he had the mis-fortune to be thrown with much force to the ground, which resulted in a broken

collar bone and a badly bruised up shoulder. At present he is doing well. On Tuesday, Mr. B. O. Slonaker erect-ed a handsome monument on the Kep-hart burying lot in Mountain View cem-

M. R. Snider spent Thursday on a business trip to Baltimore. There is considerable talk of a Farmer's Telephone line being built from Taneytown to this place, by the way of Walnut Grove School-house, and from here to the Pennsylvania line, at which point they would connect with the Mt. Joy company and thus establishing connections with Littlestown, Gettysburg, Greenmount, and nearly all the larger

farmers throughout that section.

Mrs. Mary A. Hess, who has been suffering for some time from an enlarged gland, had the misfortune to take a cold which settled in the gland, and at pres ent she is rather worse.

A petition is being circulated to have the road from the Water Company Mill to H. D. Hess's woods widened, and an iron bridge built across Alloways Creek, at the present crossing. Thus keeping the road on the old bed instead of opening a new road as had been spoken of.

Last week Milton Spangler moved his

small house which was tormerly occupied as a dwelling for a small family, from the street to the rear end of his lot, and will convert it into a stable, buggy shed and wood house.

Keysville.

Miss Grace Knipple returned home last Saturday, after spending last week with her sisters, in Union Bridge and

rrof. Fleagle, of Taneytown, visited at Peter Baumgardner's, last Sunday.
Those visiting at Jacob Young's last

Sunday were, Mr. and Mrs. Shryock, Miss Mattie Shryock and friend, of Creagerstown; Mrs. Sarah Burdener and daughter, Goldie, and Mr. and Mrs. Mumford, of Detour.

Master Ernest Harner is on the sick list this week.

Mrs. Margaret Fogle, of Detour, who died at Frederick Hospital, last Tuesday, was interred in the cemetery at this place, Friday morning. Rev. Bergenzer officiating.

Sunday evening at 7.30 o'clock, Mrs. Dietrick will lecture at this place. During her thirty day's visit in Maryland, of last year, she visited twenty-seven places in five counties, between the Eastern Shore and Cumberland, and made fiftyfive addresses in all. She also organized two new unions, at Emmitsburg and Thurmont, gained 101 active and 66 honorary members, and distributed 2500 pages of literature. We invite all to come, for we know all will enjoy her

Our new mail carrier, Chas. G. Baumgardner has been giving us satisfactory service. On Tuesday of this week he called at the door for a larger mail box. said ours was no good to him. A bushe basket was produced, which he filled with a variety of garden seeds, not the kind we usually get, but of a substantial character, more like the one that ordered it—Congressman Goulden—to whom

we extend our hearty thanks. We are sorry to note another of Mr. Fink's children has the fever, but is not in a dangerous condition. Mr. Fink and son passed along the road yesterday, their faces looking new to us, as we had not seen them for some time

Mrs. Flickinger returned to her home this week. She spent some time with her two sons, William and Samuel, nursing her sore arm, and thinks she is able to get along again. She says she prefers living alone, although to the dis-pleasure of her children, who very earn-estly desire her to be one of the family.

Mr. and Mrs. Thos. Fleagle and son, Dewey, of Trevanion, left this week for a visit to their daughter, Mrs. Walmer, of Harrisburg.

Hon. Joseph A. Goulden made a brief visit to his old home and many friends at Taneytown, and attended the Grange meeting on Saturday evening, delivering one of his excellent talks, causing the members to wish they possessed only a small portion of the ability he masters. Roy Hiner, of near Marker's Mill, is

visiting his grandma, while his grandpa is out sampling fertilizer.

Uniontown.

Elder W. P. Englar and son, D. Myers Englar, were in Baltimore last week, and brought home a new automobile. Thos. C. Cover and wife, of Easton, Md., are visiting Mr. Cover's mother,

Mrs. Martha Culbertson, spent several days in York, Pa., last week.

Thomas Merring was at home for a few days.

Miss Mary Baughman is spending the

week with Miss Vallie Shorb, at Detour.
Mr. and Mrs. R. H. Singer entertained on Wednesday, Mrs. Sallie Morelock,
Mrs. Missouri Routson, Mrs. Martha
Singer, Miss Hilda Haines, Mr. and Mrs.
Thos. Cover and Mrs. Irene Shreeve.

The funeral services of Mrs. Susan Harbaugh, who died in Baltimore, took place on Tuesday in the Bethel. Interment in the hill cemetery.

Mrs. Hilda Eckard is confined to the house with an attack of measles, and whooping cough claims a number of

victims among the children of town.

Communion services will be held in the Uniontown Charge as follows: Winters church, April 24, at 10 a. m.; Uniontown, May 1, at 10 a. m.; Mt. Union, May 8, at 10 a. m.; Baust, May 15, at 10.30 a. m. Preparatory services on the Saturdays previous, at 2.30 p. m.

Mr. and Mrs. Allen Weist and daughter, of York, spent from Saturday until Monday with Mr. and Mrs. A. J. Kump, (Mrs. Weist's sister).

Andrew Graham, of Hagerstown, came home, sick, on Monday. He will remain with his parents until he recovers.

Harry Bloom visited his brother, at Union Bridge, on Sunday afternoon, who has been very ill, but is now better. Mrs. Isaac Bortner returned from the hospital last Saturday.
Mrs. Lucie Classon is spending some

time in Taneytown, among her sons and daughters. John Teeter has bought Mr. Utz's

farm and will farm for himself, instead of farming for Mr. Utz, as stated last Theo. Classon is beautifying his home

by erecting a new iron fence around the Mr. and Mrs. John Bair spent Wednes-

day with Mr. Bair's brother, Samuel, near Hanover.
Mr. and Mrs. Theo. Classon spent

Sunday last with friends, near Littles-Mrs. Birnie Shriner left for the hos-

pital, on Wednesday.

Mrs. Albert Frock was very sick, a few days this week, but at this writing

Mrs. Hezekiah Hahn spent last Saturday night in Taneytown. Jacob Hahn had his well drilled, last

week, to the depth of 109 feet.
Rev. and Mrs. Wheeler visited our community, this week, calling to see some of their members. We are always glad to see them.

Middleburg.

Mrs. Frank Wilson is on the sick list. Elmer, the little son of Daniel Boone, who has been quite ill with pneumonia, is improving.

Mrs. J. N. Miller, of Waynesboro,

spent several days with friends here. Mrs. John Whitmore and daughter, Miss Mary Whitmore and mother, of Thurmont, were guests of Edward Angel

daughter, of Frederick, visited the formof the stomach.

Thos. Barnes is building a new barn daughter, of Frederick, visit er's parents, over Sunday. James Coleman and niece, Miss Mc-

Kinney, spent several days with friends

John Wagner, of New Midway, spent last Sunday with his aunt, Mrs. Jacob John Dayhoff, of Linwood, visited his

daughter, Mrs. George Delphy, last Sun-R. L. Walden and F. Littlefield ship-

ped a car of 20 horses to the Pimlico races, which begin on the 20th.

Clear Ridge.

Mrs. Rachel E. Caylor is spending sometime with her daughter in Baltimore, also with relatives at Chase, Baltimore County.

Miss Marie Royer has come to make her home with Mr. and Mrs. John D. F.

Miss Ruth Crouse has gone to live for the summer, with Mr. and Mrs. George Shoemaker, near Taneytown.

Mr. and Mrs. E. H. Beard went to Baltimore last week to see their daughter, Cora, who is at the Woman's Hospital, and has undergone an operation,

we are glad to know she is getting along Prompt relief in all cases of throat and lung trouble if you use Chamberlain's Cough Remedy. Pleasant to take, southing and healing in effect. Sold by all dealers.

Frizellburg.

The bustle and stir made in the exchange for new homes has ceased. Good dinners are over, and everybody has settled down to work. Gardening is being pushed along, and needed rain is much talked of. The fruit is thought to be safe, although several frosts noticeable this week. The prospects for

hay and grain are promising.

Mrs. Jacob Marker, who is sadly afflicted, was much cheered by the kindness of her many friends, who tendered her a shower of pretty cards in honor of her birthday, which took place April 7. The cards received aggregated 161. We sincerely hope that her next anniversary

will find her completely restored.

A minstrel troupe, of Westminster, will occupy the hall here, Saturday night, April 23, and promises to give the best, and probably the last, exhibition

of the season.
Mrs. William McKenzie, of Brookfield, Missouri, who has been visiting her brother, George Harmon, near this place, for a month, started for her home on Monday last. On her return, she was accompanied by Mrs. Harmon, as far as Baltimore, where the latter will mind.

spend a few days.

Mr. and Mrs. Claude Reifsnider, of Fountain Valley, royally entertained at dinner, last Sunday, Mr. and Mrs. Samuel Fair, and grandson, Paul, of Linwood, and Mr. and Mrs. William Roop and two children, Helen and Earl,

of near Westminster.
Charles Dickensheets represented Pleasant Valley Lodge No. 132, K. of P., at the annual meeting of the Grand Lodge which met in Baltimore, this

As the result of a second attempt, a

Sabbath school was organized at the Church of God, last Sunday. It is hoped that the interest will exceed that of last Register of Wills, William Arthur, was

detained at home this week with rheu-matic trouble of the back, and scarcely able to leave his room. At this writing he is mending slowly.

Dr. Benson was here a few days, this week, and renewed many former ac-While here, he stopped quaintances. While here, he stopped with Harry L. Rinehart. All were glad to see him looking so well. He is now located at Richmond, Va., as a specialist on nervous diseases. Our best wishes go with him.

been heard of him since, only that he was seen in Baltimore. Our street oil lamps are giving excel-lent light, with one-third of the expense

incurred by the use of gasoline. Josephine Baust returned home, from Hagerstown, last Monday. Edw. Flickinger, of Meadow Branch, bought of Joseph Baust, recently, the forty acres of land adjoining his farm,

for \$45 per acre. This being convenient, makes him a total of 77 acres. The public school attendance is increasing far beyond the expectation of the teachers.

One Conductor Who was Cured

Mr. Wilford Adams is his name, and he writes about it.—"Some time ago I was confined to my bed with chronic rheumatism. I used two bottles of Foley's Kidney Remedy with good effect, and the third bottle put me on my feet and I resumed work as conductor on the Lexington, Ky., Street Railway. It gave me more relief than any medicine had ever used, and it will do all you claim in cases of rheumatism." Foley's Kidney Remedy cures rheumatism by eliminating the uric acid from the blood. Sold by R. S. McKinney, druggist, Taneytown, Md.

Woodsboro.

Mrs. G. P. Bready, of Walkersville, visited friends in town, Saturday Mr. and Mrs. A. D. Thomas, of Petersville, visited relatives at this place, the

past week. Mrs. Clay Fulton, of Walkersville, visited Mr. and Mrs. William Crouse,

the past week. Miss Bessie Ogle, of Rocky Ridge, vis-

ited friends here, recently,
Miss Grace Dorcus visited her aunt, Mrs. Edward Riggs, near Frederick, over Sunday.

Miss Nannie Delaplane has returned from a two week's visit to York, Pa.
Mr. and Mrs. Clarence Buffington, of Middleburg, paid a flying visit here, last

week.
Miss Emma Kling visited relatives at Ijames, Sunday.
Miss Mary Cutshall is on the sick list.

Pleasant Valley.

While viewing over the country it is a eautiful sight to see the trees all in full ploom, and so far all the fruit seems to be safe, though the weather was cold, it was without rain and it did not hurt the fruit. Strawberries are also in blossom. Levi Myers is crippled very much with rheumatism, and is compelled to use two and family, last Sunday.

Mr. and Mrs. Theodore Mackley and difficulty. Mrs. Myers who has been

sick for the past five weeks is able to be Jacob Frock, who has been suffering two years with an ingrown toe nail on

the right big toe, had it amputated by Dr. Stewart, on Tuesday. Miss Annie Stonesifer raised a white sweet potato two years ago, which is as perfect as the day it came out of the ground. It was given to Mrs. Frederick Myers, to sprout and it has 23 sprouts

Frederick Myers has a hen egg which is a curiosity. It is 3½ inches long and 3½ inches in circumference.

Miss Fannie Martin and Chas. Martin,

of Taneytown, spent Sunday with their sister, Mrs. John J. Myers.

Mrs. Renner, of Littlestown, visited her daughter, Mrs. Hollie Myers, from Friday until Wednesday.

Rev. Jas. B. Stonesifer will preach his farewell sermon in St. Matthew's church this place, after being pastor of the Car-

roll Charge for the past 9 years, on April 24, at 2 p. m. We wish him success in his new field of labor.
Sunday School this Sunday, at 9 a. m.; Diyine service at 10, by Rev. John

Keymar.

Mr. and Mrs. Charles H. Ilgenfritz spent a part of last week with their daughter and family, Mr. and Mrs. Milton V. Miller. Mr. and Mrs. Milton V. Miller, of Keymar, and Mr. and Mrs. Charles H. Ilgenfritz, of York, Pa., were given a fine supper, on Sunday afternoon, by Mr. and Mrs. Samuel Frock, at their home at Bruceville.

A Bill Nye Story. According to the Bookman, Bill Nye once made a short speech at an authors' dinner in London that was much relished by the bookmen present, including the publishers, at whom

it was indirectly aimed. "Just a year ago," said Nye, "I was walking on the principal street of Indianapolis when I met a man whose appearance showed that he was reduced to the very depths of poverty. His clothes were ragged, his face unshaven, his hair long and matted and his feet unshod. As I passed him a look of recognition came into his eye. "'Nye, old fellow, don't you know

me? Don't you know Abel P. Jones, who was your classmate at college?" "What, Jones! Is it really you?

Well, well! What can I do for you?' "'For heaven's sake, help me. I am starving. Lend me half a dollar.' "I felt in my pockets. They were empty. I had no money myself. But 25c Razor Strop, 20c. a bright thought flashed through my

"'Abel, I can't lend you the half dollar. I haven't got it. But, look here, I'll tell you what I will do-I'll let you publish my next book."

"Gentlemen, that was just a year ago, and this month Abel P. Jones sent me an invitation to go to Europe with him in his steam yacht."

Needed an Explanation.

A little boy was often whipped by his father for lying. He usually took it as a matter of course, but on one occasion it seemed to excite him to reflection. After it was all over he stood before his father in a thoughtful way, which attracted that worthy's atten-

"My son," said the father, "what are you thinking about?"

"Father," said the son, "when you was a little boy, did you use to tell "No, my son. When I was a little

boy! did not tell lies."
"Father," returned the son, "when mother was a little girl, did she use

to tell lies?" "No. my son," replied the father. 'When your mother was a little girl she did not tell lies. But why do you

ask me these questions?" "Well," said the little fellow, drawing a long sigh, "it is the most mysterious thing in the world to me that a father who never told lies when he was a little boy and a mother who never told lies when she was a little girl could have a boy that tells as many as I do."

Will the southron ever learn that 'plaid" is not a synonym for "tartan?" Not long ago an Englishman came into hosier's establishment in Glasgow and asked a man behind the counter to show him some "plaid ties." The attendant, perhaps wondering what this new and weird article of wearing apparel could be, was completely baffled until explanation elicited the fact that a necktie with a tartan design was required. Dickens, too, is a sinner in this respect, for he makes Bob Sawyer say with regard to whether his political proclivities are "buff" or "blue"-"I'm a kind of plaid at present, a compound of all sorts of colors." Moreover, an English dictionary gives an adjectival meaning of "plaid" as "colored in squares. I've never heard such use in Scotland, Has any one else?-Scottish Field.

Watch for the Comet

The Red Dragon of the sky. Watch the children for spring coughs and colds. Careful mothers keep Foley's Honey and Tar in the house. It is the best and safest prevention and cure for croup where the need is urgent and immediate relief a vital necessity. Its prompt use has saved many little lives. Con-tains no opiates or harmful drugs. Refuse substitutes. Sold by R. S. McKinney, druggist, Taneytown, Md.

Hall Caine's Moonshine.

Authors and artists who have become well known by means of making the moon dance in the wrong houses of heaven are numerous, but we never expected Hall Caine to join the group. Yet in "The Scapegoat," chapter 23, on Israel's return from prison after evenfall, we find that "with a wave of his hand he was gone into the darkness. It was a wonderful night. The moon, which was in its first quarter, was still low in the east."

It was indeed a wonderful night. On no other night since the creation has the moon in its first quarter ever been seen low in the east.-London

Won't Stay Retained.

This notice appears on a Flushing steamboat: "Passengers should obtain a receipt for all provisions taken on board this boat and are requested to retain the same."

Easier said than done. It reminds us of the old limerick:

There was a young man of Ostend Who said he'd hold out till the end, But when halfway over From Ostend to Dover He did what he didn't intend.

-London Globe.

His Definition. At a London board school the teacher had explained to the children the meaning of the word "ability." "Now, children." she went on, "what word

would express the opposite to ability?" A sharp faced little boy at the end of the end form bobbed up his head and exclaimed, "Please, teacher, nobility!"-Work and Play.

LEND US YOUR EARS!

We have something to say of Profit and Importance to the Stock and Poultry Raiser.

All Stock and Poultry, at this time of the year, especially, when the vitality is low, need a Stock Food. Heretofore, you have always paid exorbitant prices for the filler in such Foods. Now, we offer you one, better than them all, without filler. (However, if you have become attached to rice hulls, bran, middlings, etc., you can add them, at small cost.)

"Little Giant" Stock Food is richer in Protein and fat than all other Stock Foods. In addition to this, it

contains a plentiful supply of calcium phosphate, which no other Stock Food contains, nor even the grains or grasses supply. It is upon this ingredient that we base the most of our claims for it, for in order to get the most out of the grains and the grasses. Calcium Phosphate is absolutely processor. and the grasses, Calcium Phosphate is absolutely necessary. analysis is so good, that we cannot refrain from publishing it, inviting comparisons Phosphorus, 4 to 5 per cent.; Calcic Phosphate, 22 to 24 per cent. Protein, 22 to 28 per cent.; Fat, 9 to 12 per cent.;

Those of you who are well-read, know that these properties are needed the year round. It is a positive cure for worms. Price: 5 lb Pail, \$1.00; 10 lb Pail, \$1.50; 25 lb Pail, \$3.00.

HEN-E-TA has become so well known, that while we need no longer exploit its virtues, we print for the benefit of our customers, the following testimonial:

FAMOUS \$500.00 COCKEREL.

York, Pa., January 19th., 1910.

I have been feeding "Hen-e-ta" for over a year and many of my prize-winners have been raised on it. My famous \$500 S. C. Buff Orpington Cookerel, which took first prize at this year's Baltimore Show, was fed on "Hen-e-ta" daily; and I attribute his wonderful development entirely to the addition of "Hen-e-ta" to his feed. I would not be without "Hen-e-ta," if I had to pay 5c a pound for it. I used to feed green bone, beef scraps, oyster shells, grit and charcoal; but, have cut them all out for over a year and fed, "Hen-e-ta" instead. I am getting bigger and stronger peeps, hardier chicks, fine red combs and more eggs and more fertile eggs than ever before. "Hen-e-ta" has put my birds in "the front row" in the showroom and they are taking the Blue Ribbons wherever I exhibit. All of my birds like "Hen-e-ta" and it makes them feel good the year round; it is also saving me cousiderable grains.

Faithfully Yours, PINE ROSE POULTRY YARDS, Member National S. C. Buff Orpington Club.

R. J. Knisley, Prop'r. FAMOUS \$500.00 COCKEREL.

Chick Feed

Although we already carry three very good Chick Feeds, we wish to call attention to our "Chick-o-la," which we are now preparing. It contains pulverized Hen-e-ta. We have not presumed to rely on our own wisdom for this formula, but have gotten it from one of the first scientists of the day. To insure strong, healthy and rapid-growing chicks, we ask that you give it a trial.

REINDOLLAR BROS & CO.

Napoleon's Temper A story is told of a sudden rage into which Napoleon I. fell one day as be was at dinner. He had scarcely partaken of a mouthful when apparently some inopportune thought or recollec tion stung his brain to madness, and receding from the table without rising from his chair-his small stature per mitted that-he uplifted his foot-dash went the table, crash went the dinner. and the emperor sprang up, intending to pace the room. Quick as a flash his waiter scratched a few magic symbols on a bit of paper, and the emperor's check had grown more than double. Napoleon appreciated the delicacy of his attendant and said, "Thank you, my dear Dunand," with one of his inimitable smiles. The hurricane had

Locked Shah In House of Commons. A shah of Persia, who made a state visit to England in 1873, had a curious experience in the distinguished strangers' gallery of the house of commons. He soon got tired of watching the legislators at work, but when he made a move to go he was told he could not leave the gallery. It happened at that moment that a division was called, and in accordance with the practice which then prevailed all the doors of the house were locked until the vote was taken. Mr. Gladstone made an interesting comment on the incident. "It is," he wrote in his journal, "probably, or possibly, the first time for more than 500 years that a foreign sovereign has been under personal restraint of any kind in Eng-

A Look at the Big Ditch From the Brink of the Culebra Cut.

I shall never forget my own first real look at the canal. It was at the end of a day, about 5 in the afternoon. and I had set out to walk from Empire to Culebra along the brink of the great Culebra cut. This section is perhaps the most dramatic in the whole work. When ships sail through here the passengers on the decks will look up almost 500 precipitous feet along the sliced red side of Gold hil!

to the crest of the continental divide. The workmen were all out of the ditch now, and it was time to fire the big blasts. I waited in some trepidation, for the notion of an amount of dynamite that can be stated in tons being shot off at one time and in one place was rather appalling. And what happened was appalling, though not in just the way I expected. My eardrums have been more seriously assaulted on the Fourth of July by a four inch cannon cracker. The quality of the noise made by that blast is cather indescribable. It was immense By vast, a sort of titanic grunt. The great rocky ridges which formed the bottom of the trench heaved up bodily under a sudden cloud of brownish smoke. When it had blown away those defiant rocky ridges were gone. and in their place was chaos.

Figures don't mean much-millions of cubic yards, and so on. But the great trench I was looking at did not look man made at all. The men who were straggling back into it looked like ants. The steam shovels, arrayed en echelon, seemed hardly bigger than big black beetles. And a belated dirt train crawling up the incline out of the cut might have been a caterpillar. It seemed impossible that their puny nibblings could have made that gap ir the backbone of a continent. It looked rather like the doing of nature in one of her paroxysms. No not quite like that. It looked like a crease from the finger nail of Almighty God.-Henry Kitchell Webster in Everybody's.

Servant Girls Disappearing.

During the last thirty years the de

mand for servants has doubled, while the supply has increased only by half --in the last decade only by 5 per cent. In 1870 there was one to every twelve. Even in the recent crisis when the cities were filled with unemployed, the demand still outran the supply. And yet during the thirty years past the number of self supporting women-that is, the actual labor market-has more than trebled. Forty years ago a woman thrown upon her own resources would tend to select housework for a living-in fact, one woman in two did so select. Thirty years ago only every third woman entered domestic service. Ten years ago only one in four rapped at the kitchen door. The other three applied-where? Every one knows-at the shop, the factory, the store.-McClure's Maga-

Plato's Tree.

The giant redwood trees of the Pa cific coast have a rival in Greece in one respect, for at Athens there lives and even flourishes a tree under which, tradition says, Plato used to ex pound his doctrines to his disciples This is an olive tree-one of the longest lived kind among trees-and ex perts say that the tradition may be true, so far as its age is concerned. It is over twenty-three feet in diameter. For many years it bore no fruit, but was a source of profit to its owner, for every tourist thinks he must visit it. But a year ago it surprised every one by bearing a beautiful crop. The proud owner when the fruit was cured sent presents of these "platonic olives" to all the sovereigns of Europe. -Boston Herald.

Twelve Million Telephones.

It is reported that there are now in this country 12,000,000 telephones, or one for every two houses in the country. This does not mean that one-half of the residences in the country contain an instrument, since many business houses have a large number, but the figures are instructive and illuminating. Practically everybody who i. anybody in the cities or towns and villages has a telephone, while those in the country districts are legion. The astonishing fact is that each of these phones is used on an average of six times a day. The total number c calls in a rear runs up into the billions, and it is not appreciable by the human mind.—Philadelphia Inquirer.

Moving Pictures and Surgery. In a description of the use of the moving picture as an aid to the study of surgery the Berliner Tageblatt says: "We looked with emotion upon the late, nover to be forgotten Professor Berkmann in the fact of amputating a limb, and later there was thrown upon the screen every detail of an abdominal operation. Other operations were shown, and then the spec tator saw in magnified pictures the pulsations of a frog's heart and the movement of the stomach and the digestive organs. Among the most interesting of the pictures was the series which showed the effect of various poisons on the heart action.'

Human Body Gives Off Light. Is the human body luminous? Fashionable Intelligence.

Not at home.—Lippincott's.

He Woke 'Em Up.

A certain Scotch minister, a newcomer in the parish, finding it impossible to arrest the attention of his congregation, became desperate. No sooner did he appear in the pulpit than they promptly composed themselves to sleep.

One evening, after taking up his position, he rapped sharply on the ledge in front of him and addressed his somnolent flock in tones of severe remonstrance.

"Now, brethren," he said, "it's not fair to go to sleep, as ye always ha' done, directly I begin my sermon. Ye might wait a wee till I get alang, and then if I'm not worth hearin' sleep awa' wi' ye, and I'll no care, but dinna go before I ha' commenced. Gie me this one chance."

Finding they were all fairly awake by that time, he went on:

"I shall take for my text the two words 'Knew thyself,' but I will say before I begin the discourse that I would no advise this congregation to make many such profitless acquaintances."

There was not a snore or a nod in the kirk that evening.—Tit-Bits.

Our 23rd Business Year!

Twenty-three years ago we began to handle FERTI-LIZERS in a small way. During all these years we have eneavored to give our trade the best goods on the market, full value for their money, with the result that each year has brought us increased orders with larger sales. At the beginning of this season, (1910) we find ourselves in better shape than ever before to handle this branch of our business, and we hope with the facilities we now have to make this the banner year for our Company. Our new Fertilizer House, 36x80, just completed, and fully equipped with modern machinery, enables us to mix, bag, and deliver 30 to 40 tons

WE MIX IT WHILE YOU WAIT!

The advantages of our present method over the old (Shovels and Screens) are in evidence on every side. Cannot explain on paper, just take time enough to come and see for yourself, and be convinced that we are in a position to satisfy your wants along this line, and do it satisfactorily, as we have once of the best plants in Western Maryland. You will see the different ingredients in bulk, and you will see them go through the mixer, over the screens, into the bag, ready for delivery. What you see you must believe, and you will find our goods in better condition than ever before. We offer Two Specials,

½ - 8 - and 1, For General Purposes.

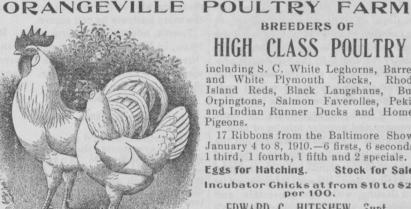

1 - 8 - and 4, Specially for Corn and Wheat. These goods will be sold at attractive prices, and guar-

anteed to be equal to any on the market of the same Analysis. Buyers who furnish sacks get a reduction of \$1.00 per

ton, but empty sacks cannot be returned for credit. We want your trade for Spring and Fall. Come and see us, or our Agents; if we do not have what you want, will be glad to quote you prices on any formula you may suggest.

Interest to the Home.

We invite contributions to this department from all readers who have something to say on topics which relate especially to home improvement, social conditions, or moral issues. While we disclaim all indorsement of sentiments which may be expressed by contributors, and desire to be as liberal as possible, we at the same time request all to avoid personalities, and stick to proper expressions of opinion.

opinion.

All articles for this department must be in our office not later than Monday morning, of each week, to be guaranteed insertion the same week, and all articles must be signed with the name of the author, even when a nom de plume is given.

Cleaning with Gasoline.

"Chiffon ruchings, which are soiled, but not crushed," says Florence M. Myers in Woman's Home Companion for April, "can be rejuvenated by shaking them in clear gasoline, and then drying them in the sunshine and air. Small articles, such as fancy neckwear in general, which must be treated gently, can be put into a fruit-jar nearly filled with gasoline. Using a rubber ring, screw the top on tightly. Let the articles soak for some time, and then shake them vigorously. Rinse in the same manner in clear gasoline. Dry in the sunshine

"Coat collars can often be cleaned by wetting a cloth in gasoline and then rubbing the soiled part. Occasionally, if the fabric will warrant it and is very much soiled, I have used an old toothbrush for this purpose, instead of the cloth. Neckties cannot always be cleanthat is so, try using a brush dipped in gasoline, to scrub the very soiled parts. Satin, of course, does not permit of this treatment. Grease spots can be removed by rubbing the spot with a good white stretch of road a model of good roadsoap after the article has been soaked in gasoline. Rub hard and rinse thoroughly. Gasoline in which soap has been used cannot be used a second time. White kid gloves, as every one knows, can be successfully cleaned in gasoline, and almost every one has her own special method. Colored gloves do not clean it. well, as a rule. It is best not to try

and store it to use from time to time. has the right slope of a drainage chan-Many fire insurance companies will not nel to carry it off. issue policies-or pay them-if this is done.

(To the above, let us add, that cleaning with gasoline is a dangerous experiment, under certain conditions. Do not attempt it at night, near a lamp, nor at any time in a closed room where fire of only in doing the work out in the air. except in a tightly corked bottle, or can, and then always keep it in an outbuilding. RECORD.)

A Profitable Industry.

has its practical fulfillment in these latter days of utilization of wasteage, in the more business he can secure. the creation of by-products. One of the latest additions to the wealth of the country is found in the systematic production of eggs by scientific means, and | ment in the United States. Mr. Shaw's the most scrupulous attention, not only to the production, but to the packing, shipping and merchandizing of these necessary and popular articles of food.

Scientific men have studied out the whole matter, and whereas the chicken problem in the hands of the average farmer has been allowed to work out its own destiny, with most uncertain and unsatisfactory results, these men have established what might be called eggproducing factories, wherein every element of hazard has been eliminated and the best results obtained. It has been found that a hen has about a given egg production during a lifetime, and that at certain ages the production is greater than at other times. The task is, by careful breeding, proper feeding and housing, to increase her productiveness during that period and then replace her with another fowl beginning her productive season.

The best hens by this treatment produce from 160 to 255 eggs per annum. At the end of her productive period she is sent to the markets as food and a younger pullet takes her place. At one of these scientific chickeries the egg production averaged 143.25 eggs for ten months, which were sold for 40 to 65 cents per dozen, averaging about 50 cents per dozen. The number of laying pullets on this farm was 1953 and they produced 279,792 eggs, or 23,316 dozens. The money derived from the sale of eggs, extra pullets, broilers and manure amounted to \$15,714.84, while all expenses were \$3194.03, making a net profit of \$12,520.81, or a profit of \$6.41 per head of laying stock.

This represents but the profit of one chicken farm whose figures are obtainable, but there are many others, and the number is rapidly increasing. The large hotels and first-class restaurants stand variable a ready market is always assur- ant and safe to take. Sold by all dealed. That the poultry and egg production ers.

THE CARROLL RECORD is no inconsiderable part of our national assets is seen by reference to the statistics of the industrial census of 1900, the last official figures available, which shows that the production of poultry in the census year in the United States was 250,623,114. The production of eggs in the census year was 1,293,662,433 dozens; and this was shown to be 3.29 poultry per capita per annum for the United States.

It is, therefore, evident that the poultry interest is by no means a small one as it now stands, but by proper business management and methodical care it may be developed considerably, to the welfare and pecuniary benefit of the individual as well as the nation .- Phila. Press.

Why do You Suffer. Good Advice to Road Builders.

A prominent physician who is an enthusiastic road builder makes the following suggestions, which those interested in the cause will find very valuable:

First go to work; talk afterward. Make up your mind at the start what kind of road you are going to build. Then when you begin work on the road give it your full attention.

If you do this much yourself you will learn more about how to make country. roads better in two hours than I could tell you in print in fourteen weeks. ed by the simple rubbing process. If Again, I repeat, go to work; talk afterward.

The second thing is, study the needs of the little stretch of road upon which you actually do your work. Make that way in every particular. See to it that every individual who drives over your road becomes a talking advertisement for highway improvement. If you must blast out rock to afford good drainage for the side gutters along your road, why, blast them out. Don't wait to talk about

Earth and water spell mud, and a muddy road is not a good road, and you "Do not buy a quantity of gasoline cannot get rid of water until the water

> Culverts constructed out of concrete are believed by many authorities to be the best means of carrying the water from a well built road.

Third, if you can, do it yourself, or, if you must, have some one else do it for you, but be sure to get good, live photoany kind is burning. Sure safety rests graphs of your road before you start to work upon it, after several hours' work Do not keep gasoline about the premises, has been done and again at the conclusion as the final exhibition test of your work. Get as many good, live people as you can to travel over your road with the specific purpose of examining it in dangerous and highly explosive gas. comparison with other roads neglected

3,000,000 Matches Used in a Minute.

New York, April 10.-An expert in the match industry estimates last year's output of matches at 1,500,000,000,000fifteen hundred billions. This provided something like 3,000,000 matches a minute for the use of the civilized world. Plenty of people now living remember when the sulphur match in its present form was unknown, and the old flint has not yet gone entirely out of use. In fact, it has had a recent revival of practical usefulness and is on sale now as a substitute for matches perhaps more extensively than at any time in the last half century. In neat little leather cases, with a pocket for the very inflammable "kindling," fire flints and steel are offered at most places where hunting outfits are for sale. They are so well made that no special skill is required in their use, and a fire is produced quite as quickly as with a match.

Among the Eskimos the possession of a flint is the sure mark of wealth, or was until fur traders from the South began bringing matches into the Arctic Circle and made it possible for a man to attain the distinction of having a fire starter by the simple exchange of a few furs for a box of safeties.

Diarrhoea should be cured without loss of time and by a medicine which like Chamberlain's Colic, Cholera and ready to take all that can be produced at Diarrhoea Remedy not only cures high prices, and as the demand is invariable a ready market is always assurated after effects. It never fails and is pleas-

Lessons from Irrigated Orchards.

When the whole story of irrigation comes to be written it is a question whether the scientific methods, which irrigation necessitates, will not prove to have been as great a factor toward success as the supply of water itself. It is a question whether if the non-arid regions of the East and Middle West adopted the same scientific methods they would not have the same fabulous crop returns as have made the irrigation farms famous.

Time out of mind the late frosts have caught and blighted the blossoms of the peach and apple orchards of the East. Yet who ever heard of the orchard growers in the East setting out forty coal-oil burners to the acre and keeping them burning till the frost had passed? Again and again the weather bureau has forewarned a cold wave coming to the East or the Middle West. Yet who ever knew of a whole Eastern town turning out through the country side as volunteer workers to fight that frost off? The agricultural scientists has been telling farmers for forty years that the weedy fence corners and unkempt grass plot below fruit trees harbor the bugs and the insects that attack fruit. Yet how many orchards in the East do you see where the soil below the trees is kept smooth as a floor and clean of weeds as your dining-room table? Punctured bark lets in disease, and the rupture of a broken limb may admit a fungus dust that will destroy the whole trunk; but can count on one hand the number of orchards you have seen in the East where every break in the bark has been waxed or paraffined or cemented over till the wound closed.

For twenty years your producer of the East and the Middle West has been howling at the extortion and tricks of the middlemen, who stand between the producer and the market. Yet how many producers' unions have been organized in the East and the Middle West with highly paid agents, -5000 a year, for example, - to handle transportation and keep tab on the outside market? These are the things that have contributed to successful irrigation farming quite as much as a supply ofwater.

What are the lessons of irrigation farmthe East; and in those eleven years there have been at least four years when drought seriously affected farm values in the East. Yet the East has never thought of irrigation except for truckgardens and green-houses. The East has plowed along in the same old furrow it was plowing in 1700. To construct water reservoirs for the East would be a joke compared to what is being done in the West; for water is always plentiful at some time of the year in the East; and the contour of hills lends to natural reservoirs. Even without irrigation storage one is constrained to ask, what would be the result if the East, right at the door of its markets, adopted the irrigation farmer's methods? Long ago the East gave of its manhood and its means for the winning of the West. The day may be at hand when the West, youthful and buoyant and perhaps even bumptious, will bring back some return or that old obligation to the East. The West has been reclaimed. Isn't it time for somebody to launch the evangel of reclaiming the East? From "Lessons from Western Fruit Culture for the East," by Agnes C. Laut, in the American Review of Reviews for April.

A Hint to Ministers.

A clergyman in a neighboring town had been much annoyed by the way members of the congregation had of looking around to take stock of late comers. After enduring it for some time he said on entering the reading desk one Sunday: "Brethren, I regret to see that your attention is called away from your religious duties by your natural desire to see who comes in behind you. I propose henceforth to save you the troube by naming each person who may enter, and hope that the services will then be allowed to proceed without interruption.

He then began: "Dearly beloved," but paused half way, to interlopate "Mr. Stubbins with his wife and daughter." Mr. Stubbins looked rather surprised but the minister with pertect gravity, resumed his exhortation. Presently he again paused: "Mr. Curtis and William Diggle." The abashed congregation kept their eyes studiously bent on their books.

The service continued in the most orderly manner, the parson interrupting himself every now and then to name some new comer. At last he said still with the most perfect gravity: "Mrs. Symons in a new bonnet." In a momoment he felt his mistake, but it was too late. Every feminine head in the congregation had turned around.

The Advantage of Being Sick.

Sickness, like all experiences, has its advantages. It teaches the sufferer much she could learn from no other source, says The Delineator for May. To illustrate: Observe two farms, one a great, sprawling, many-acred affair, seemingly too large for careful cultivation; and another, a few acres, every inch fertilized and made to produce its utmost. The

owner of the latter makes the better income. And so it is with the well girl and the sick one. The latter knows her limitations, knows how little strength she has, and she is never profligate of it. Her mental vision seems clearer than that of the physically sound girl; her brain processes are often keener, even as one dying, partly released from the bondage of flesh, sees and knows much not seen by or known to the normal person; even as a man drowning has a quickened insight. The healthy girl is interested in so many things, so much calls her attention, the fulness of living is on her in such torrential force-that her mind is here, there and everywhere, and the work she is to do to gain a livelihood hasn't a strong grasp on her

The sick girl lies on her back and thinks out plans; and thus when she undertakes to do something in a moneymaking way, her mind with avidity grasps the problem and she begins working out plans. Her life experience has developed in her the ability to lay out the whole proposition clearly, go over each point, search out each weak place, and see the strong ones, just as the blind man knows his way by the feel of things -a sense almost lost in the seeing.

This is the reason that the delicate girl who turns to money-making will far surpass, ofttimes, the rollicking friend who has never learned this use of her mental faculties, and who, when off duty, is busy with basket-ball, tennis, and the thousand and one delights of the trammel-free young. Not but that these sports are better for the girl; a thousand pities any girl should have so many cares as to rob her of the delicious playdays of young womanhood. But as these have been forbidden pleasures to our delicate girl, let her hug to her heart her compensations. She has lost much-granted; but she has gained much that will help her in the struggle for a livelihood.

Worse Than Bullets.

Bullets have often caused less suffering to soldiers than the eczema. L. W. Harriman, Burlington, Me., got in the army, and suffered with, forty years. But Bucklen's Arnica Salve cured me when all else failed," he writes. Great-est healer for sores, Ulcers, Boils, Burns, ing to the East? It is eleven years since Cuts. What Mother Goose Forgot About Jack Spratt.

Jack Spratt could eat no fat, His wife could eat no lean; And so 'twixt them both, you see, They licked the platter clean.

But, as the children older grew, And times and customs changed, The table manners of the Spratts, Peforce, were rearranged.

With six young hungry mouths to feed With twelve observing eyes to see, Of course, they could not lick.

While father carved the roast for all, The children had their broth-The heathen got a penny for Each spot upon the cloth.

Spratt and his wife have improved-Their table manners too-Which only goes to show the good That children sometimes do. -The Delineator for May.

The Showers of April.

Beneath the showers of April There's a light that smiles so sweet It turns into a blossom

Every clod beneath our feet. There's nothing just like April For the lilt that seems to say: The rose will bloom tomorrow Through the rain of yesterday!

The thunder and the lightning On the hills of cloud may glow;

But wait a minute, dearie, And the blooms will start to snow. The clouds are lambs in April

In the pasture fields of blue, And they're just so glad and frisky That they don't know what to do.

The dark skies frowned this morning, But you see this afternoon The earth is like a wedding In the lily lands of June. Beneath the showers of April Dance the fairies of the sun, And it's being between the shadows

Makes the fun a sweeter fun.

In Perfect Accord.

Some years ago there came to an American city a delightful German. Herr von Blitz, who intended to support himself by giving lessons in his native tongue. When he had been here several months and had secured a moderate number of pupils he went one day to the mother of one of them and to her great surprise asked for her daughter's hand in marriage.

"But, my dear sir," said she, "my daughter has no fortune." The suitor smiled upon her in an ex-

pansive generosity. "Me, too," said he reassuringly.

"And, although we are not rich, we have thus far been able to give her every comfort. She is indeed used to

"Me, too," was the smiling rejoinder. "But, Herr von Blitz, she will never be able to manage affairs."

"Me, too," rejoiced the lover. "And I feel obliged to tell you that Bladder Trouble. my daughter has a very high temper.

"Me too-me too." That was enough. The mother retired from the contest, and the professor won his suit.

Quick Justice at Ascot. Not only the horses, but the powers of the law, says the London Chronicle, are swift at Ascot, for the course has special tribunal for the punishment of evildoers. No sooner is the pick pocket, welsher or ticket snatcher arrested than he is standing in a little room, in the royal stand, where the evidence is heard and the verdict and sentence pronounced before the offender fully realizes that he is caught. No where else does punishment so swift ly follow crime as at this court, which is decreed by clause 31 of the indictable offenses act of 1848. This race course tribunal arose curiously in the eighteenth century from an assault upon a royal personage. In his indignation at the impossibility of instant punishment of the assailant he ordered that in future a magistrate should always attend the royal race meeting. This has ever since been done, and by the above mentioned act the chief magistrate of Bow street was constituted ex officio a justice of the peace of the county of Berks in order to enable him to hold this court at

ural age of man is by no means settled, of course, but many are of the opinion that the Frenchman Flourens was not far out of the way in his estimate of the time a man should live. Taking his observations from the group mammalia, of the class vertebrata, as having the closest resemblance to man and such species as are permitted to live the full term of their natural life under circumstances not admitting of error or doubt, Flourens found that their natural life extended to about five times the period of their lives from birth up to maturity. Applying the rule thus obtained to human life and taking the age at which the body is fully matured to be twenty years, he concluded the natural duration of the life of man to be 100 vears .- New York American.

THE SUNDAY SCHOOL.

Lesson IV.—Second Quarter. For April 24, 1910.

THE INTERNATIONAL SERIES.

Text of the Lesson, Matt. xi, 20-30. Memory Verses, 28-30-Golden Text, Matt. xi, 28-Commentary Prepared by Rev. D. M. Stearns.

Two of the foundations in the Scriptures in connection with the great truth that "other foundation can no man lay than that is laid, which is Jesus Christ," are that "God is love" and He is not willing that any should perish (I Cor. iii, 11; John iii, 16; II Pet. iii, 9). Along with this we need Acts xvii, 30, 31, "God now commandeth all men everywhere to repent, because He hath appointed a day in the which He will judge the world in righteousness by that man whom He hath ordained, whereof He hath given assurance unto all men in that He hath raised Him from the dead." We have seen John and Jesus and the twelve preaching repentance, and when we turn to Rev. ix, 20, 21; xvi, 9, 11, and read of the fearful judgments that will come upon the earth in the time of the great tribulation, after the church shall have been taken away, we learn that the object of all will be that men may repent. In this connection see Job xxxiii, 29, 30. He had chosen Chorazin, Bethsaida

and Capernaum as centers where He wrought many mighty works, but they seemed to be without result, and He tells them of judgment to come, when it will be more tolerable for other cities which never saw His mighty works. There are three future judgments spoken of-the judgment seat of Christ for believers only, the judgment of nations at the beginning of the millennial reign and the judgment at the great white throne at the end of the thousand years. Our Lord must be speaking here of the second or third of these. Note His "I say unto you" of verses 22, 24. Remember that it is the Judge Himself who is speaking, and He certainly knows whereof He affirms. The words "more tolerable" suggest different degrees of punishment and suffering, as there will be also different degrees of glory and of rewards for believers. First it is a question of saved or lost; then for the saved there will be reward according to works and for the lost punishment according to desert, and the Judge of all the earth will not fail to do right.

The nation being about to reject

Him, He seems to turn to individuals, to such as in the time of His rejection will let Himself be their rest, their all. He first talks to His Father as the Lord of heaven and earth and therefore as having a perfect right to do as He pleases with His own (Ps. exxxv, 6). He talks to Him as naturally as to people about Him, for He is in constant and conscious touch with heaven and does always those things that please the Father. Although despised and rejected, He thanks His Father, reminding us that we are in all things to give thanks (I Thess. v, 18). Some one has said that he who has learned to say always "Thank God" has the key to constant victory. The "Even so, Father," indicates perfect submission with the most absolute confidence in and satisfaction with the Father's management. Compare I Sam. iii, 18; Job i, 21. Our Lord's gratitude at this time was in connection with His Father's hiding certain things from the wise in their own conceit and revealing them to those who are teachable as babes or very little children. The mere natural man, however wise, cannot know the things of God, for they are foolishuess to him (I Cor. i, ii). "They have rejected the word of the Lord, and what wisdom is in them?" (Jer. vii, 9.) As Abraham gave to his only son all that he had, so "the Father loveth the Son and hath given all things into His hand" (Gen. xxiv, 36; John iii, 35). As all the Egyptians and all other countries had to go to Joseph in order to obtain corn by which they might live (Gen. xli, 55-57), so there is no real life, no life eternal, no knowledge of God the Father, except through Jesus Christ (verse 27).

In this sinful, Christ rejecting age would you find rest? It can be found only in Him who knew what it was to rest in His Father. Would you find the yoke of the daily life easy and the burden of the daily toil light? It can only be by yoking up with Him who here so lovingly invites us. This is an ancient message, for in Isa, xxviii, 12, we read, "This is the rest wherewith ye may cause the weary to rest, and this is the refreshing." But there the prophet had to add, "Yet they would not hear." Again, in Isa. xxx, 15, we read, "In returning and rest shall ye be saved; in quietness and in confidence shall be your strength." But again it is added, "And ye would not." Compare with these Matt. xxiii, 37; John v, 40, and see how all the difficulty is always on our side, while God is ever saying: "Come! Return! Whosoever will! Him that cometh!" There seems to be two "rests" here, one that He gives when we come to Him and the other that we find when we take His yoke upon us, but only the meek and lowly can obtain either. The first is suggestive of salvation and the second of service. If we would be saved we must be poor enough in spirit to plead guilty and accept justification freely by grace. If we would find rest in service it must be by the consciousness of being yoked with One who knows best, to whom we always say a glad "Even so, Father."

CHRISTIAN ENDEAVOR.

Frayer Meeting Topic For the Week Beginning April 24, 1910.

Topic.—Christ winning the world.—John xii, 20-32. Comment by Rev. Sherman H. Doyle, D. D.

The mission of Jesus Christ was to win the world! "God so loved the world that He gave His only begotten Son." He came first to the Jews and for the salvation of the Jews, and yet before He had begun His worldwide mission the fact that this was to be its character was clearly set forth in the Old Testament prophecies and suggested by words and actions of His own in His life upon earth. In response to the faith of the Syrophenician woman He healed her daughter. At Jacob's well He spoke of Himself as the Messiah to the Samaritan woman and called forth the faith of the inhabitants of Sychar. In the lesson for our study He received certain Greeks who desired to see Him and declared upon their coming, "The hour is come that the Son of Man should be glorified." No doubt the request of the Greeks, who represented the gentiles, to see Him inspired this utterance, for in the Jew and the gentile the people of the world were represented. Then at the close of the discourse, beginning with the words just quoted. He makes the deliberate declaration that His mission was worldwide. "I, if I be lifted up from the earth (crucified), will draw all (or all men) unto Me." And why "all" if His mission had been limited to any one nation or race of people? It was not so limited. This is the only explanation of Christ's reception of the Greeks and His use of the word "all" in referring to the result that should follow His crucifixion upon the cross. Our "hearts should burn within us" as we read these words of the Saviour. for we, being a part of the world's

ness and power to save us. The method by which Christ wins the world is indicated in the words before us. To do so He was compelled to take man's sins upon Him and die in his stead, thus atoning for him and making his salvation possible. "And I, if I be lifted up from the earth, will draw all men unto Me." This He said. John adds, "signifying what death He should die." By His death on the cross, therefore, He would pay the penalty of man's sin and at the same time "draw all" unto Him. The attractive power of the cross is wonderful. He wins men, He draws them by His love, manifested by His death, and thus they put their trust in Him, accept Him as their substitute and are saved.

"all," are thus assured of His willing-

The cross is able to draw "all men," but unfortunately all men will not be drawn. Some have given up the atoning character of Christ's death and look upon it simply as an example to men to reach moral transformation through the effect of Christ's death. Others prefer to give their lives up to sin, and the cross has no power to attract them. It often repels, for it speaks of the death of one who was sinless, and they love sin. A third class are indifferent to the cross. They are so occupied with the things of time and sense that even the glory of or I'll find a way to hurry you." the cross is lost sight of by them. But there is no fault in the cross. If one is attracted and another is repelled the difference is in the persons themselves. The cross is ever and always the same. If it does not draw you it is your heart and your life that are wrong, and they need to be changed, for you as well as all, being a sinner, need to be saved and can be saved through Christ alone.

Christ's part is done. He has been lifted up, and He is winning the How large the world once seemed, but how small it is today! Moreover, the advances of mankind are ever making it smaller. The opportunity of Christ's winning the world is thus daily growing greater and brighter. But men to be won must see the cross. They must know the story of Jesus and His love. "How shall they believe in Him of whom they have not heard? And how shall they hear without a preacher? And how shall they preach except they be sent?" Sent of God, so far as their selection is concerned, but sent of man, so far as the opening up of their opportunity is concerned. Go or send. One of these two duties rests upon every one of us. Not having gone, are we sending? Are we giving and pray ing that soul winners may be sent out the world over and win all men for Christ? If not we are failing in our mission as Christians and in the duty of the saved toward the unsaved. Can we afford to reject or to disre gard such plain duties divinely placed

BIBLE READINGS.

Isa, lii, 1-7; liii; Ps. lxxii; Mal. xii, 3; Dan. xii, 1-3; Matt. xxviii, 19, 20; John i, 35-42; iii. 16; iv, 25-29; Rom. x, 12-15; Rev. xxii, 17.

A Candle Meeting.

One of the brightest plans for a Christian Endeavor prayer meeting is that of a candle meeting. All the lights will be put out except that on the piano, which will be only a candle. After the leader has taken part he will light a candle that is on the table. Each Endeavorer will have a candle and a match, and after he has taken part he will light his candle (sometimes from a neighboring candle or, if there is none near, then with the match). Gradually, as one after another speaks, the whole room will be flooded with light. Try it. It makes a beautiful and true illustration of the subject, and the little ceremony will in itself give rise to many thoughts that will be expressed .-Amos R. Wells.

MR. MUDGE'S WOOING

A Very Homely Man Who Was a Very Persistent Lover.

By ADELAIDE RUTH HILL. [Copyright, 1910, by American Press Association.]

Jabez Chute Mudge was his name. Considering that he was the homeliest man in his state it would seem that his parents might have helped him to a more millifluous pair of surnames.

Mr. Mudge, however, came of good enough stock, was fairly well educated and was the possessor of a couple of thousand dollars a year. He lived on his own place, where he grew grapes, his only occupation. If he had had anything else to do this story would never have been written, for nine-tenths of his time was devoted to incidents recounted therein.

On a neighboring hill lived Leonidas Meredith, a gentleman whose name was as euphonius as Mr. Mudge's was discordant. Mr. Meredith possessed a daughter, Leita, who was as comely as Mr. Mudge was homely. This story recounts the wooing of Leita Meredith by Chute Mudge,

When Mudge first saw Miss Meredith and how he happened to fall in love with her doesn't matter. His first move in the direction of possessing her was made one morning when her father was getting into his carriage to drive to a train on his daily journey to the city. Mudge stepped up to him and astonished him by asking for the hand of his daughter.

"My daughter!" exclaimed the gentleman, opening his eyes very wide. "Yes, Mr. Meredith; I have loved her

"I SHALL LOVE YOU FROM A DISTANCE."

a long while and shall always love her. I can take fairly good care"-"You get out of this mighty quick

"I shall stay here, Mr. Meredith, till I get your consent."

"Tom," yelled the wrathy father to the gardener, "come here!"

Tom dropped a spade and came run-

ning toward his employer. "Just help me a bit with this fel-

Mr. Meredith took the suitor by one arm, Tom took him by the other, and, walking him down to the pond, lifted

him and with a "One, two, three,' they threw him in. Mudge came up spluttering. Mr. Meredith hurried to his carriage and

was driven away, his would be son-inlaw crying after him: "I'm not discouraged, sir. I'll try again."

When Miss Leita Meredith heard the story of her wooer's ducking she gave a little laugh, then said, "Poor fellow!" If Mudge had heard the remark possibly he might have gathered a ray of hope. The young lady's mother asked her if she had ever had any communication with Mudge, to which she replied that she had not known that there was such a person in exist-

This was the first episode in Mr. Mudge's courtship. The second was very different. Jabez kept an eye on the Meredith place and noticed a young man who called rather more frequently than the red headed lover thought might be well for his own suit. One afternoon when this gentleman was leaving the Merediths, Jabez waylaid him and asked him if he could tell him the way to B. The man replied that he could not. Jabez told him that he believed he was lying. The man promptly slapped Jabez's face, and Jabez as promptly knocked him down. The young man's jaw was pretty nearly broken, and when he got up he was in no condition to renew the fight. He went back to the Merediths for assistance, told of his encounter and spoke of his assailant as

a "red headed, monkey shaped devil." Miss Meredith, who was bathing his jaw, at once recognized her persistent lover. What woman can fail to feel some interest in a man who for her sake will first consent to be ducked by her father and then will permit no other man to pay her attention? She expressed to the gentleman under her care her abhorrence of Jabez Mudge and his act, but for her life she could not but consider him in the light of a When her visitor showed a shrinking from meeting the "red headed, monkey shaped devil" again and asked to be driven to his home Jabez Meredith had more admiration for the become Mrs. Mudge.

monkey shaped man than his oppo-

Not long after this Miss Meredith concluded to walk to the village. Her mother told her she had better go in her pony cart since she might meet Mr. Mudge, and it would be easier for her to drive away from him than to walk away. To this the girl replied that she was not afraid of Mr. Mudge and would not permit him to restrict her movements in the least. Down in the bottom of her heart she had a curiosity to talk with this singular being who was suffering and daring for her and hoped that he might join her. Jabez, constantly on the lookout for such an opportunity, saw her leave the place on the hill and sallied forth to meet her. As she approached he stood still with his hat in his hand and his head bowed.

"May I have a few words with you?" he said in a sad voice. "No.

Nevertheless he walked on beside

"Do you want another ducking?" she

"A thousand if they will bring me nearer to you."

"What in the world put it into your head to want me?" she asked. "First, you are the most beautiful woman in the world," he replied.

"Second?" "Second is all the rest of it. I must have you, and I will have you."

"And I will not have you." "Then I shall love you from a dis-

tance as long as I live." "And I wish you to understand that

in case any man pays me attention in future you are to let him alone." "Won't you at least give me the sat-

isfaction of dying by his hand? I would rather do that than live to see him possess you."

"You're too silly for anything."

By this time they had reached a fork in the road, and she signified that he must leave her. Jabez did so and walked away to his home, feeling that he had gained one point, but it was a very small point, and there was a whole picket fence of points bristling ahead of him.

Not long after this Mr. Meredith introduced a young man named Long to his daughter and intimated that he would be pleased if she and Long would make a match. The young man fell in readily with the plan and after devoting himself to the girl for some time proposed to her.

"I'm sorry," she said, "but I can't marry any one."

"Why not?" he asked, surprised. "There is a man living down there who has taken it into his silly head that he wants' me so much that I'm afraid he'll kill any one who marries

"He will, eh? Then it is time some one kills him."

"You had better not try it." "What makes you think so?"

"Why, he loves me so well that he permitted papa and Tom, the gardener, to throw him into the pond, all on my account, but he waylaid a gentleman who was calling on me and nearly broke his jaw."

"I'll see him and find out whether he's going to put another of your admirers out of the race."

"Don't." When Miss Meredith said "don't" she meant "do." She wished to know what her red headed lover would do in the matter, though she did not intend that anything serious should happen. Long went straight to Mudge and said: "I have asked Miss Meredith to mar-

ry me. She says that if she does you will kill me.' "I beg your pardon. Miss Meredith didn't say any such thing."

"Well, what are you going to do about it?"

"With Miss Meredith's permission I'll fight you any way you please-

fists, swords, pistols or rifles." "But Miss Meredith considers you as standing between her and marriage. Of course she doesn't wish me to fight

for her with you." "Then let her say so."

Somewhat surprised at this turn of the affair, Long went back to Miss Meredith and told her what had passed between him and "the red headed monkey," supposing she would at once give him something that would indicate to Mudge that she wished him to let any suitor of hers alone. Instead of that she said:

"I'll see what I can do with him." Long bowed himself away with a bearing that denoted disappointment

and displeasure. The next morning Mudge had a feeling that he should receive some communication from Miss Meredith and believed she would talk with him rather than write. He was not mistaken. During the day he saw her leave her home on foot. He went to meet her.

"Why do you persist in thrusting vourself between me and any one who wishes to marry me?" she asked. "Do you wish to marry this man

who came to see me yesterday?" There was no reply to this. "Because if you do I will do nothing

to prevent you." "I am glad that this insane freak of yours has become tinctured at last with a little common sense. Doubtless

your love is not so fierce as it was." "There is no change in my love except that it has grown greater. When it began it was selfish. Now I love you so well that I am ready to sacrifice myself for your happiness.'

She led the way on a path not much trodden, and it was two hours before she left him. When she returned to her home there was evidently some

thing on her mind. The next morning a maid left hot water in her mistress' room and found had got rid of his only rival. Miss it empty. Miss Meredith had fled to

An aching back is instantly relieved by an application of Sloan's Liniment.

This liniment takes the place of massage and is better than sticky plasters. It penetrates -without rubbing - through the skin and muscular tissue right to the bone, quickens the blood, relieves congestion, and gives permanent as well as temporary relief.

Mr. James C. Lee, of 1100 9th St., 8.E., Washington, D.C., writes: "Thirty years ago I fell from a scaffold and seriously injured my back. I suffered terribly at times; from the small of my back all around my stomach was just as if I had been beaten with a club. I used every plaster I could get with no relief. Sloan's Liniment took the pain right out, and I can now do as much ladder work as any man in the shop, thanks to

Sloan's iniment

Mr. J. P. Evans, of Mt. Airy, Ga., says: "After being afflicted for three years with rheumatism, I used Sloan's Liniment, and was cured sound and well, and am glad to say I haven't been troubled with rheumatism since. My leg was badly swollen from my hip tomy knee. One-half a bottle took the pain and swelling out."

Sloan's Liniment has no equal as a remedy for Rheumatism, Neuralgia or any pain or stiffness in the muscles or joints. Prices, 25c., 50c. and \$1.00 Sloan's book on horses, cattle, sheep, and poultry sent free. Address Dr. Earl S. Sloan,

TANEYTOWN LOCAL CULOMN.

Brief Items of Local News of Special Interest to Our Home Readers.

Miss Dora Jones spent several days this week, visiting friends in Hanover.

Misses Eliza and Eleanor Birnie, are visiting in Baltimore and Washington.

Mrs. John D. Belt and son, of Westminster, spent the past week with relatives and friends in and near town.

The Juniors of the Lutheran church, held a social Tuesday evening at the home of David Reindollar, one of the members. All seemed to have a fine

We received a supply of seeds, this week, from Hon. Jos. A. Goulden, but they lasted only a few days. We say "thank you" for those who received

Mr. John Teeter, of Florida, has purchased the farm of Elder John Utz, of this district, and is not simply "managing" it, as was stated in our last

Mr. Emanuel Overholtzer, an aged resident of this district, living near Walnut Grove school, was stricken with paralysis, on Tuesday, and has been critically ill ever since.

Regular preaching services, by the pastor, Rev. S. R. Downie, will be held on Sunday in Piney Creek Presbyterian church at 10 a. m., and in the Taneytown church at 8 p. m.

By decree of the Circuit Court for Carroll County, Mr. Franklin S. Staley was divorced, a vinculo matrimonii, from Mrs. Fannie B. Staley. Attorney Ivan J. Hoff represented the plaintiff.

For some reason unknown to us, the bundle of RECORD's for Middleburg, miscarried, and did not reach that office in time for delivery, last Saturday morning. We are investigating, and will try and fix the blame on the person responsi-

Dr. A. R. Hitchcock left Taneytown, last week, for Mt. Airy, where he will engage in the practice of Veterinary Surgery. He left many friends here who regret his departure, but wish him the abundant success in his new field that his experience and skill will no doubt

There are five unlucky days in each month-four Fridays, and the thirteenth. When there happens to be five Fridays, then there are six unlucky ones in the month, and when Friday comes on the thirteenth, the best thing to do is stay in bed and keep quiet. So says a well known Taneytown financier.

The Taneytown Juniors and an Emmitsburg team played an exciting game, in the latter place, last Thursday, the score being 8 to 8 at the close of the 9th. inning. In the 10th, inning, a disputed decision by the umpire caused the game to end. Honors were about even on both sides. A return game will be played in Taneytown.

According to our judgment, our representatives in the legislature, Messrs Hes-son and Hill, made good records for chitis and hemorrhages, hoarseness and son and Hill, made good records for themselves by their votes, supporting only such legislation as appeared to them for the best interests of the whole peoforth w ple of the state. Mr. Hesson's bill for better railroad connections at Keymar, failed to pass, but this is one of the questions which will be taken up by the Public Service Commission, and may yet result in better accommodations for the travelling public.

Taneytown is one of the greatest buggy and harness markets in this section of the state; not only because of its annual buggy sale days, but as a regular business. We not only have one manufacturer, but three additional dealers, and the four concerns do an extensive aggregate business all the time. As a matter of fact, Taneytown is becoming a noted trading centre, in all lines of business, and it's a pretty sure thing that "you can get it in Taneytown, at the right price." A reading of our advertising columns will direct you right.

Postmaster McKinney, while assisting in unloading the car containing the household goods of Rev. S. R. Downie, on Thursday afternoon, fell, while walking backwards carrying one end of a box, and broke his right arm just above the wrist. Mr. McKinney is unfortunate, as he is just recovering from breaking his left arm, near the shoulder, due to a fall on the ice, the past winter. While the break is not as bad as the former one, it will nevertheless seriously incapacitate him from work for several weeks and be painful as well.

made at the Firemen's building, this Friday evening. This is an important meeting, for the reason that a nomination practically means an election. There should be a good turn out, and if there strength of his Seminary connections, the should be a good turn out, and if there is any desire for the nomination of certain men, there should be a following on hand to see that they are named, otherwise, a few will name the ticket, as has usually been the case heretofore. We know it is a difficult matter to get found. He secured about \$200 in this good men to serve in such unprofitable place. — Gettysburg Compiler. positions, and take the chances of making enemies besides, but somebody old clothes with Lum Tum Clothes must, and will, be elected; therefore, Cleaner. Mr. Harry O. Harner will deliver a short address at the C. E. service, at Baust church, Sunday evening, April, 17, and will also address the C. E. Society of St. Paul's Lutheran church, Littlestown, April 24.

A Family Reunion.

(For the RECORD.) A family reunion was held at the home of Albert J. Ohler's, of near Taneytown, in honor of E. W. Null, of Niantic, Ill. A few selections on the piano were rendered by Mrs. J. T. Wantz, after which all were invited to the dining room to partake of the good things of the season, to satisfy the physical body, to which all did ample justice. After which all departed for their homes.

Those present were, Mr. and Mrs. S. Null, Mr. and Mrs. David Reifsnider and family, Mr. and Mrs. Walter Brower and family, Mr. and Mrs. J. T. Wantz and family, Mr. and Mrs. Harold Null and family; Mrs. Frances Rowe, of Waynesboro, Pa., and others.

A LARGE CONTRACT.

When Robt. S. McKinney the enterprising druggist, first offered a 50 cent package of Dr. Howard, s specific for the cure of constipation and dyspepsia at half price, and guaranteed to return the money if it did not cure, he thought it probable from his experience with other medicines for these diseases, that he would have a good many packages returned. But although he has sold hundreds of bottles, not one has been brought back.

Robt. S. McKinney wants every person in Taneytown who has constipation, dyspepsia, headaches, or liver trouble to come to his store or send Robt. S. McKinney 25 cents by mail and get 60 doses of the best medicine ever made at half the regular price, with his personal guarantee to refund the money if it does not cure.

To those suffering with dizziness, headache, poor digestion, constipation and straining, Dr. Howard's specific offers quick relief.

A Surprise Social.

(For the RECORD.) A social was given in honor of S. Dillon Weant, wife and son, of Carbondale, Colo., who were guests at John D. Hesson's, on their last evening in Dillon's old neighborhood. It has been 13 years since he was home last. His school teacher was Henry Lambert.
The following of his school mates and

heir families were present; Mr. and Mrs. S. Dillon Weant and son, Clide, Mr. and Mrs. Jonn D. Hesson, Mr. and Mrs. Henry Lambert, Mr. and Mrs. Milton S. Koons, Mr. and Mrs. Elmer Hess, Mr. and Mrs. Harry Wantz, Mr. and Mrs. George Shriner, Mr. and Mrs. John V. Eyler, Mr. and Mrs. Birnie Bowers; Mrs. Clara Weant and Mrs. Lavina Fringer; Misses Annie and Rena Weant, Ethel Wantz, Ruth Eyler; Messrs Paul and Lake Weant and Glen Bowers.

Saved From the Grave.

"I had about given up hope, after nearly four years of suffering from a severe lung trouble," writes Mrs. M. L. Dix, of Clarksville, Tenn. pain in my chest would be almost un-bearable and I could not do any work, me feel like a new person. Its the best medicine made for the throat and lungs." Obstinate coughs, stubborn colds, town, Md.

Forest Fires Last Sunday.

Mountaineers started a fire near Wolfsville, by burning brush in a clearing. The fire became uncontrollable and burned over a large area in the direction of Smithsburg. A third fire broke out near Edgemont, but was checked after burning over several acres.

Three boys, playing "Injuns" in the woods surrounding Buena Vista summer resort, last Sunday, started a campfire that destroyed 300 acres of fine timber land and at one time threatened to wipe out the Buena Vista Hotel and the handome summer cottages surrounding.

The boys, who belong to families liv-ing in the vicinity, went into the woods shortly before noon. One of them suggested "Injuns." A hastily gathered bundle of brush and a match completed the necessary paraphernalia, and about half an hour later residents of Buena Vista were horrified to see a column of flames leap from the woods.

The boys came running out, admitted having started the fire, and in a short time more than a hundred farmers, their wives and children were battling with

Worked the Town.

A number of Gettysburg people are looking for a middle aged man who gaye his name as Rev. C. G. Parker. He came to Gettysburg about two weeks ago, entering Seminary, alleging that his course at that institute of some years previous had been interrupted after a weeks' attendance, and he desired to go ahead with it. No evidence can be found that he was ever at Seminary before. He attended Seminary classes for Nominations for town officers will be two weeks. Last week he handed his landlady a \$20 check on a southern bank, and received \$15 in change. He secured a good suit of clothes of one of our tailors and paid for it with a check. checks being on a southern bank. Semi narians were kind to the stranger with the loans of books, safety-razors, etc. He disappeared at the close of last week as though he had never been. As far as heard from the checks are not good, and no trace of the man has yet

Wife Burned His Wooden Leg.

Wilkes-Barre, Pa., April 12.-Balancing himself on his solitary spoke and making sweeping gestures with a crutch, Michael Kinsel reached the highest flights of oratory to-day in describing to Alderman Donohue how his wife had removed his wooden leg last Saturday night and thrown it in the stove.

There was scarcely a dry eye in court as Kinsel told of the attachment that existed between himself and his hickory appendage. The husband had his wife arrested and insisted that she be locked up on a charge of arson, a statement which started Alderman Donohue searching through the city directory, city or-dinances and everything with a cover on it-in an effort to find some precedent to fit the case.

When he announced that an ordinance making it a misdemeanor to mutilate trees and telegraph poles was the only charge under which the wife could be held, Kinsel did a one-step around the room and announced that he would in-vest in no more lumber until he was certain she couldn't incinerate it.

While he was bemoaning the loss of his pedestal Mrs. Kinsel wore a smile that buttoned down the back. She surprised Alderman Donohue by admitting that she had heaped coals of fire on the leg of her husband, and gave as her defense that it was the only way she had of keeping him from the saloons on Satarday night. Every Saturday night, as long as she could remember, he had organized a personally conducted hop expedition, and she had grown tired of it.

On such occasions as he managed to reach home on one leg she had to assist him in getting into bed. In support of this she exhibited two hands filled with slivers. Frequently his burden of brew shifted to the wooden side, and then she would find him buried in the mud up to the hub. During soft weather she always carried a spade when she went looking for him, and on one occasion she discovered him just as a bunch of

"It was my leg as much as his," interrupted Mrs. Kinsel. "I gave it to him for his birthday, on his promise that he would mash potatoes for me when we had company. I had a right to burn it if I wanted to. I was bound to keep town, Md. him home if I had to burn both legs."
"Which leg was it?" inquired the Al-

"The left one," said Kinsel, depositing his stump on the Alderman's desk. 'Then you get along all right, don't

you?
"I have to," said Kinsel, "but it was an awful thing to do. Outside of the at the Hotel Bankard, Taneytown, Wedfact that a knothole broke out in it a few weeks ago, it was a perfectly good leg." a full line electrical instruments for the "I admire your pluck, Mrs. Kinsel," said the Alderman, "but I'll have to glasses. All diseases of the eye treated. bind you over to keep the peace."
"Keep the piece!" yelled Kinsel.

"Why, there wasn't enough left of it to
