INDUSTRIAL GRASH.

Labor Must Return to the Farm be-

fore Living Cheapens.

He says there is no cure for high

boys who used to work on farms be-

fore the war, have gone back to the country, and that fully half of the

American Expeditionary force, came from the farms. He says the labor situation is rapidly making it impos-

sible for the farmers to feed the country, and that eventually some-

body is going to go hungry. He does not touch on the unusual

exportation of food from this country to feed Europe, which takes food away from our own cities; nor does he mention about farmer prosperity

He

STATE TAX RATE MAY NOT GO HIGHER THAN 36.

A Big Surplus Coming in From the Present Tax Basis.

The report comes from Annapolis that the tax-payers of Maryland may have a pleasant surprise coming to them, in that there is not likely to be them, in that there is not likely to be any increase in the state tax, but that landlord raises the rent, which is it will remain at about 36c. It is thought that about Sept. 1, there will be a surplus available of about \$1,500, .000 accruing from present taxes, and that this will come near meeting the expenditures of the next two years, allowing for some needed increases in appropriations.

This, however, does not mean that there may not be a bond issue for roads. The laying of the burden of the State's share of roads construction upon bond issues calls, of course, for taxes to cover interest and sinkfor taxes to cover interest and sink-ing funds. But the amount proposed to be spent by the State, under the Governor's. plan, is only \$1,600,000 a year. Of that he probably will be able to care for \$100,000 out of the general funds, leaving \$1,500,000 to be taken from a head increased. be taken from a bond issue. Spreading the interest and sinking fund charges on that over a period of 15 years will make the immediate call on the State tax rate about 1 cent. That can be absorbed, it is likely, by increases in the assessable basis, and by economics, so that the rate can be

kept practically stationary. The final determination of the finan-cial policy to be adopted at this time has not been made, but the disposition of the administration is to make every effort to hold the disbursements within the total of the probable reve-nues of the next two fiscal years, plus the surplus of approximately \$1,500,000 expected to be on hand at the close of this fiscal year. The administration wants to avoid, if possi-ble, doing anything that would add a higher State tax rate to the already high rate in Baltimore city and the mounting local rates in many of the counties. It also is anxious to avoid having to lay indirect taxes that would be burdensome.

Everyday Price Experiences.

Every order for paper stock that comes into this office, continues to come at a higher price. The stock alone, in many cases, is now costing as much as we formerly charged for the printed and delivered job. La bor is still the main item of cos in printing, as it is in most other rod-ucts, and making fair prices, n w, is a greater problem than ever before, which means that there may be great which means that there may be greater variation in the prices given by printers, than ever before.

A price that was fair, a month ago, or for present stock, is apt to be very unfair to the printer when he finds out what it costs to replace the stock used. We do not mention this as ap-

A Visit to Taneytown, and Return to Detroit, via Niagara.

LETTER FROM DETROIT.

Everyone who has changed his residence, knows what a worry it is, and moving with the thermometer down near zero, makes it doubly so. But we are now settled in our new home, 781 Dickerson Avenue, and are grad-ually getting back to the old routine. as it was before "moving." People out here move any old time-whenevery other month or when they sell and buy some other home, as we did. They move any day in the week, Sun-day included; in fact, I suppose as many "flittings" take place on that day as on any other.

I need hardly tell the readers of the Record that I was glad to get back "home," as we still call Taneytown. So despite the fact that my father was very ill, I enjoyed my re-cent trip to Maryland very much. Ever since we moved out here, I have The been dreaming-not in my sleep, but figuratively—of the time I could again greet the friends I left behind when we emigrated to the "West," as some of you call Detroit, although we out here know that we are still East, be-cause we have Eastern time instead of Central time.

I surely was grateful at the recep-"Jim" Reaver. In fact, I never knew I had so many friends, and will always hold in happy remembrance, the short time spent with the people of Taneytown, in 1920.

On my way, it was my good fortune to spend 3 hours at Niagara Falls and as I had never seen this natural wonder before, I was much impressed by it. On arriving there, I hunted up my cousin, Alva O. Reid, son of the late L. D. Reid, who is the proprietor of a classy barber shop there, and after getting the ropes from him started on a sight-seeing trip. One of the guides, with an old-fashioned sleigh, took me across the bridge over the rapids above the American Falls, around Goat Island, down to the edge of the Falls on the American side, and then over to the Canadian Falls, giving me a good view of both. I also saw the large power houses along the banks of the river, above and below the Falls, and the Gorge, through which the water travels for miles af-ter its mighty leap.

I arrived home on Monday evening, Jan. 26, much to the surprise of my family, who had expected me to stay two weeks, and the next morning was at my place in the factory, glad to have had the trip, and glad to be back at home and at work again. I found everybody as busy—or busier, if that could be—as they were when I left, and can assure my friends in ting our debts go unprovided for. there that the outlook for work never was finer than it is now.

was finer than it is now. During the war the Timkens Plant time. No. 3, was fortunate if it turned out 2000 sets of axles a month, while yes- and are not greatly interested in busiterday, Jan. 31, we ended a month ness, but who are now chiefly engaged which set the record, with 10.040 sets in getting and spending big wages, to our credit. They say 12,000 for had better be thinking of the time-February, but I cannot see it, as we worked overtime every day during January to make the 11,000. I surely must say something about the weather in there. People out had been "in there," on Sunday morning, Jan. 18th., I am sure they would have said that the worst blizzard we have ever had since we arrived here in 1917, was not far ahead of the one you had in there. I know that day was an exception, but the real bad ones are exceptions out here. Although as a rule the winters are more severe and much longer than in Maryland. Before closing, I want to again express my appreciation of the kindness rendered me by all I met in Taney town, and assure them that I will appreciate a letter from any one of them, which would reach me if addressed to 781 Dickerson Ave., De-JOHN J. REID. troit. Proposed Amendments to Sunday

What Is The Answer?

If farmers paid the kind of wages that are paid in industrial centers, where labor is organized, where would food prices now be?

In Washington (for example) women and girls are paid \$20.00 and \$25.00 week, and more, to help run the government machine. If the farmer paid his wife and daughters each an equal amount per week, for helping to run the farm machine, what would happen ?

If the prevailing big wages, as paid to many classes, are actually required on account of the high cost of living, what would happen if the same scale of wages was extended to the millions who have not yet "got theirs" but whose "cost of living" is just as high as those who do get the big wages ?

If the argument is that the cost of living is lower in the smaller towns, the non-manufacturing and agricultural sections, 'why is it that these sections are stripped to the bone of surplus help, that has all gone to the big wage centers-to suffer from high living costs ?

If the present trend of wages and prices continues, what is to become of the millions who must eventually acknowledge themselves without the money to pay the cost of food and clothing, and unable to honestly secure it ?

CONSIDER ALL BOND ISSUES.	
Debt Payments.	Public's Information.
Bond issues are becoming almost as common as the giving of promissory notes, or "having it charged." We not only issue bonds in order to finance big new propositions, but are disposed to do so in order to pay ac- cumulating debts. We now speak of	some as to the provisions of the cor pulsory school attendance law, w give the requirements: Children 7 to 13 years of age mu attend school the full term unle

lawfully excused. bond issues for roads, and schools; with a degree of familiarity that is Children of 13 and 14 years must

attend at least 100 days, and the en-tire term if not regularly and lawbecoming dangerous. After all, a bond issue, means borrowing money, paying interest, and postponing the payment of an obligation. May we not have too many bond

fully employed. Children 15 and 16 years, who have not finished the elementary school, must attend at least 100 days each year, and the entire term if not regularly and lawfully employed. The following are given as causes

for lawful absence:

 Court summons.
 Physical incapacity, to be interpreted as meaning such a state of illness, or physical defect as shall worden the interprete of the shall render the instruction of the child impracticable in any other than a special class, or school; certificate may be required from a physician.

We are of the opinion that distinc tion should be made between girls and boys, especially in the matter of needed help on farms; also the "illness" exemption should be made to extend to members of the child's immediate family. There should also be a liberal attitude taken by the law as to whether parents purposely try to violate it, or whether their necessities actually justify keeping children at home.

Death of Ex-Gov. Frank Brown.

Former Gov. Frank Brown, died at

VAST CHURCH UNION PROPOSED THE CITIES MUST EXPERIENCE Twenty-two National Bodies in America Planning for Co-operation.

Please watch the Date }

Philadelphia. Feb. 4.-General discussion of one of the plans for the proposed organic union of 22 na-

As presented at the opening ses-sion yesterday, this plan provides for a visible organization to be created and known as the 'United churches of Christ in America.' Each constituent church would reserve the right to retain its creedal statements, its form of government in the conduct of its affairs and its particular mode of worship, but would co-operate in the activities of the work of the church, minimize | differences and band together in a vital and effect-

Among the denominations represented at the conference are the Methodist, Baptist, Congregational, Disciples, Episcopal, Primitive Methodist, Moravian, Presbyterian, Re-formed, Reformed Episcopal, United Presbyterian, United Brethren, Welsh Presbyterian, Christian Church, Christian Union of the United States and the Armenian Church.

Abram M. Zentz and wife, to Mary E. Brothers, 2 acres and 17 square perches, for \$150.

Clara S. Billingslea et al, to Jos. W. Smith, Jr., 42 lots, for \$3500. Jos. W. Smith, Jr., to Jos. W. Smith and wife, 42 lots for \$3500. August A. Witte, et al, to A.

Frank Witte and wife, 5 tracts, for \$10.00.

supply; now how it can come about that plenty of labor can be had at both places at the same time. His statements, however, are quite plausible, and are worth considering. says further: "The inability to obtain farm labor is the most serious thing. Before the war the farmer trained his children and hired help in the country. Now with the attractive wages in the city the farmer boys who were in the Army don't want to come back to the country, and I don't blame them or anybody else for staying in the city if higher wages are obtainable there. But city people must realize that as farm labor gate scores the farm labor gets scarce the country must begin offering higher wages, and thus costs of production must rise.

Add to that the great cost of distribution and you see why the cost of living is going up. Why, reckoned relatively, food is the cheapest thing of all. Our city friends ought to realfarmers selling individually. They can't be profiteers. They are helpless because they have to take what is offered them. They have no organization to fix prices and there are no signs of one. They deal individually. "Now, I know that nobody ever sold what he had to sell, either skill or labor or commodities, for less than he thought he could get. We all do it. We should recognize it as a fun-damental fact. Well, the normal source of farm help—namely,the sons of the farmers-is almost gone. The farmer boys who went into the Army got a taste of the world and city life. They have rubbed up against city companions and are lured by high wages and what appears to them a more attractive life. "Also farm laborers don't want to stay in the country if the city offers them better opportunities. Normal-ly, a farm laborer gets for his day's work the equivalent of a bushel of wheat. The other day I had some carpenter work done st my house in the city and what I paid for 10 hours' work would have bought a barrel of flour or 41/2 bushels of wheat. A man is a fool for staying in the country if he can get that much more in the city. "But some day those high-wage fellows are going to wake up and find that there isn't enough food to go around at any price. It's something like conditions after the Civil War, when we paid \$8.00 a keg for cut nails for about 4 years, and then suddenly the price dropped to about 90c a keg. We had been selling wheat at \$3.00 a bushel and then came down to 60c a bushel. And certain people get hurt in the crash. "There is little use of talking about the high cost of living when you consider the high cost of city labor. The cost of distribution moreover is all out of proportion to the cost of food production. What we need is in-creased production everywhere, in the hope of their correction without action of Congress. There are a number of these claims in Carroll County, the pay, it would be much better if every-body in the cities and factories worked harder for the present high scale of wages."

tional church bodies began today at the conference of delegates from many evangelical denominations.

Prof. T. C Atkeson, Washington representative of the National Grange, says that the economic crash that will bring down the cost of liv-ing, must originate in the cities, and reach such an extent that those who have left the country sections for "big wages" will come back to the country, and that the cities need to be more concerned about the problem than farming communities. rices that Congress, or anybody, can provide but that the situation must work itself out. solely to the printing business. It is the experience that every dealer, in every line, is meeting right along. So, don't complain when you find a price "gone up" even in a short The dealer who must charge time. the price, does not like it any more than the one who pays it.

Fruit Growers' Meeting.

All fruit growers in the county and nearby are urged to attend a meeting to be held at the County Agent's office, in Westminster, Tuesday, Feb. 10, at 2 P. M. The purpose of the meeting is to get together to discuss organization to take up the methods spraying in order to combat the apple scab and different forms of mildew and rot.

Mr. Shaw, Specialist in Horticult-ure, of the Extension Service of the Maryland State College, will be present to discuss the above questions which are so important at this time.

The financial success of most of the orchards of Carroll county, this year, will depend upon the proper time to spray, different kinds of sprays used and methods of applying

This will be a round-table discus sion and we hope everyone interested in orchard work will be present.

Mr. Shaw, specialist on fruit raising, will give a demonstration in the afternoon for the men in a nearby. orchard, and also a demonstration in judging of potatoes.

At the same time Miss Day will give a demonstration on the use of apples and potatoes.

Thursday, Feb. 12—Finksburg church. 1:30 and 7:30 P. M. Friday, Feb. 13—Mt. Airy High school. 10 A. M. and 1:30 P. M. (Lunch will be served.)

Bill to Increase Pay of Lawmakers.

President Norris of the State Senate is the backer of a bill proposing an amendment to the Constitution of ture \$1,000 for the 90-day session, in-stead of the per diem of \$5.00, or \$450 for the period.

The bill also provides that if the \$3 a day extra now allowed, a difference of \$350.

The bill lso provides that if the General Assembly is called into spe-cial session by the Governor, such session shall not continue longer than 30 days, and that the compensation of each member shall be \$10 a day, with an additional \$5 a day for the presiding officers of both Houses.

Selling Law.

Here are the amendments which are proposed to the Sunday observance

They except from their operation-'Retailers, who may sell and deliver on said day tobacco, cigars, cigarettes, candy, sodas, and soft drinks, ice, ice ices and other confectionery, cream. milk, bread, butter and eggs, gasoline, oils and greases.

"Apothecaries, who may sell on Sunday, drugs, medicines and patent medicines as on week-days; and this section shall not apply to the sale of newspapers and periodicals.

"Moving picture parlors, concert

halls and opera house, for the sole purpose of exhibiting moving pictures giving musical concerts therein; ball grounds, gymnasiums, golf courses, tennis courts and swimming pools the State, which, if adopted, will make | and exhibitions and games may be had the pay of members of the Legisla- , and played therein after the hour of 2 P. M. on Sunday, and prices of admission may be charged thereto and therefor.'

Says the bill in conclusion; "Nothsiding officer of each house shall re-ceive an additional \$500, instead of the hibit the keeping open of any pubic park or public recreation center on Sunday.

> Storm conditions were especially severe at Ocean City, Md., this week many cottages being destroyed. All along the Atlantic Coast great damhit, due to flooding and high wind.

quite likely to come-when work will not be so plenty, nor wages so high. and be "making hay" right now by building up a bank account.

issues, National, State, county and municipal, before we know it? Too many bond issues will eventually mean

"tight money," and this means when

After a while our churches will be

issuing bonds with which to raise

money to pay increased pastor's sal-aries, instead of meeting the increase

now by heavier individual payments.

The argument for the continuance of

government operation of railroads, means that the government shall con-tinue borrowing, to meet expense pay-

ments, rather than stop and place this

We are talking a great deal about the "prosperity" of the country, large-ly because we have been, in one way

r another, side-stepping our share of

increased burdens of the country. We are, in fact, handling a great deal of

money that does not actually belong to

us; and worst of all, we are spending lavishly for unnecessaries, and let-

Even those who own no property,

In

expense on railroad patrons.

Talking "panic" is not popular; but, here always say, when you speak about anything in Maryland. "I guess it's much warmer in there." If they with prices and money values; and when the panic comes, those who have the money must pay their share/ of the "settling up" that as been put off; and those who don't have the money will still be worse off, for they will be out of money, and many of them without a job-and some will go hungry.

Tax-payers, consider well all bond issue propositions, even for roads and schools. We need to know, very clear-ly, not only where we are ? but where e are going ?

We urge the members of the legislature to consider, very seriously, the same general advice. Every bill passed that carries an appropriation, carries also a future burden to taxpayers. Big spending is as apt to afflict the legislature as individuals— perhaps more so. The times are as propitious for legislative saving as individual saving, and we are convinced that there should be greatly more of the sentiment at Annapolis, than there is of—"Don't do it now, but wait a while !"

Judge Soper May Enter the Race.

Judge Morris A. Soper, of Baltimore, is being strongly urged to enter the Senatorial race against Mr. Weller, the only openly announced candidate. Judge Soper, before the people, would represent an Independent, rather than a strongly Republican candidate, although he is a Republican.

He was candidate for Attorney-General against Edgar Allen Poe, and athough defeated received sever thousand more votes than did Mr. Weller who was at the same time candidate for Governor. When candidate for Judge he was elected by 6000 votes, and also greatly outdistanced his running mates.

the bench, and is unquestionably well qualified for the Senatorship. His decision in the present situation will be made known very soon.

The legislature has been hard hit by the grippe, or mild cases of influenza, many members not being able age has been reported to shipping, to be in attendance. Senator Snader and shore resorts were generally hard is housed up at his home at New Windsor.

Tuesday morning, after a long period of ill health. He was a native of Carroll county, having been born at Springfield, near Sykesville, in 1846, He entered politics as a member of the House from this county, and served for two terms. He next became president of the Md. State Agricultural Society, and in many ways became popular and active in public affairs

He became postmaster of Baltimore in 1886, and in 1887 was a candidate for Governor, but was unsuccessful; and in 1891 again entered the race for the nomination, and won, as well as election to that office.

He was a man of considerable wealth and played politics because he liked it, and not for the money that was in it. After serving as Governor he became Collector of City Taxes in Baltimore, and handled the job as successfully as he did his other public trusts.

He was a thorough Democrat: and while he at times was a severe critic of men and methods, he was hardly ever identified with reform, but supported the nominees of the party. He always strongly opposed the present ballot, and the primary laws, and was generally very outspoken on any mat-ter of politics in his own party with which he disagreed.

The President Displeased.

The statement given out by Lord Grey, this week, announcing Great Britain's willingness to accept the Lodge reservations on the Peace Treaty, have caused a big sensation throughout this country and is supposed to have badly shaken the President's supporters in the Senate against any material modification of the terms of the Treaty as first writ-The whole matter will be again take up in the Senate, next week. The President is said to feel that Lord Grey committed a gross breach of the proprieties and that the silence of the British Government in the situation tends to confirm the inference that the British are attempting to deal with the Senate of the United States over the head of the President. Judge Soper has a fine record on he bench, and is unquestionably well ualified for the Senatorship. His dethe treaty fight, so far as the Senate is concerned, has been intimately tied up with the domestic politics in this

> In the meatime Senator Lodge and his friends are making the most of the Grey letter and confidently predict that its influence will be such as to insure acceptance by the Senate of Lodge reservations.

per., for \$600. Bernard C. Hanson and wife, to Charles H. Mercer and wife, lot, for

Government Taxes Erroneously Paid.

It is now stated on the best of authority. that the U. S. Government has collected many millions of dol-lars, illegally, in the shape of taxes, during the past two years. Representative Henry W. Watson, of Pennsylvania, will prepare a bill under which these taxes may be refunded,

as it appears that once taxes are paid into the Treasury, they can not be paid out except by order of Congress. Some of these payments have been erroneously made because of the great difficulty in understanding the complex report blanks sent out by the Government, while others are due to changes made in the laws affecting fiscal years that do not begin with January 1. It is estimated that in 1918 alone, \$12,000,000 were illegally collected.

Mr. Watson will endeavor to get an accounting from the Treasury Department, and also to have a bill passed for the return of excess payments, of which, a large number are outstanding, with apparently little

Record Company, alone, having two. A Misstatement Nailed.

Last week, an appeal was published, as addressed to President Wilson, purporting to represent the farmers of the country as joining with union labor in demanding that the railroads be not returned to their owners, but that they be continued under government operation for two years. At the Canners' Convention, held

in Cleveland, a telegram was received from T. C. Atkeson, of Washington, Secretary of the National Grange, which effectually nails the statement as false. The telegram was as follows:

"Grange position based on, action National Grange. Supports pending legislation for prompt return of railroads, re-organization into strong systems, re-valuation as based for

new capitalization and effective gov-ernment control in interest of whole public. Absolutely no relation with American Federation of Labor and strongly opposed to Plumb plan. Press agents of Plumb plan believed to be responsible for story quoted."

25,000 for Influenza Cure.

Denver, Feb. 3.-The Denver Post today announced it would pay \$25,000 to the physician finding a cure of influenza. The money is to be paid af-ter the cure has been approved by the Rockefeller Foundation and Johns Hopkins University.

Mr. Ford is said to be financing a free plate service for all newspapers that will print the proceedings of the Senator Newberry trial, in Michigan, who is charged with having spent too much money in the campaign in which Mr. Ford was defeated for the U. S. Senate.

Senator Gronna, of North Dakota, has given notice of his intention to present a bill repealing the wheat price control act. If passed, wheat

FRIDAY, FEBRUARY 6, 1920.

All articles on this page are either orig-inal, or properly credited. This has al-ways been a fixed rule with this Office, and we suggest the adoption of it by our ex-changes.

Wait a while ! Excessive caution is as serious a fault as recklessness; but, if there was ever a time in the history of this country when conservatism is needed, it is right now: The whole country is in a ferment, and old bearings have been lost. Why not come down to a slow walk, for a while. "

Don't do it now, unless it is something that must be done ! And be careful that the "must" is an actuality, and not selfish propaganda. No one wants the reputation for being non-progressive; but, making haste slowly is a mighty wise policy when the leaders do not know where they are going.

Still Playing War Game.

The whole country is loaded down with organizations and employees still playing at war work. These employments are remunerative for many thousands, who exercise their influence to keep their "jobs" going. The war is over, but maintaining the war status is still too much alive. The machine was a long time getting started, and is fully as long a times edge. getting stopped, as "saving jobs for constituents" is a regular part of the | The Monroe Doctrine vs. League of game of politics.

The average newspaper office is the daily recipient of army and navy circulars, designed to encourage enlist-Numerous invitations are ment. given to exploit chances for claims against the government, many of which are no doubt proper, but some at least should be discouraged, rather than otherwise. The evidence is already presenting itself that the world nations, and insists on a similar war is apt to be followed by a long list of "pension" and other claims, not in need, but largely because there is disagreement between the Republican

We know rows the money to pay costs of op- | all the reports about the big entereration away above receipts from op- prises slated to be located in Maryeration ?

The following portion of the appeal

is singularly pathetic;

respectfully appeal to you again, Mr. President, to consider the seriousness of this situation. The American people cannot stand any further increase in living costs. The inefficiency of private operation of the roads is admitted by the owners in their demand for higher freight rates if the roads be returned and a guaranteed compensation, while, under government operation, present rates are yielding a net profit. We know that the public welfare is your highest concern, and on the grounds of public welfare alone we earnestly ask you to modify your proclamation for the return of the roads, and again ask you to advocate the two-year extension of government operation. We believe anything short of such extension fraught with calamity, not only to farmers and labor forces of the coun-try but that it will result in disaster the legitimate business interests of the country as well."

How was the "clear majority" determined; and how is it "inefficiency penses exceed income by 50 or 60 millions a month, largely due to la- same condition. bor costs ? According to this argument, it would be "efficient operation" for the roads to try to run themselves at a loss, rather than charge the public enough to pay expenses. This sort of stuff is not public sentiment surely arrived at, but pure manufactured propaganda, which aims to secure enough plausible backing to "put it over." A few men decide what the public ought to think, then demand it. As a matter of fact, the American people, particularly in big questions which they little understand, often only demand what they have been cleverly coached to demand, and in this particular instance they have not done even that -to anybody's widespread knowl-

Nations.

The acceptance of the League of Nations has narrowed itself down to one simple, understandable, proposition for those who understand what the "Monroe Doctrine" means; which is, in few words, that the policy of the United States is one of non-interference with the affairs of European non-interference on the part of European nations with affairs on the Amerbecause the possible beneficiaries are | ican continent. With reference to the a chance to "get something from the and Democratic conferees. Senator

freight rates, who pays them now, trouble there will be along all lines

Certainly the manufacturer, if he land make a rosy outlook for continuous employment and big wages, but observe that following nearly all the "On behalf of a clear majority of statements or reports comes an of-the voters of the United States we fering of the Bonds or Stocks of the new big enterprises. Probably these Bonds and Stocks have been underwritten by some shrewd banker at a heavy discount, knowing as long as the easy money conditions remain, he can unload them on the unsuspecting part of the public, and many millions of apparent high interest-bearing securities have been placed in this way. So far so good, because the easy money could be borrowed to pay the dividends whether earned or not, but with a tight money market conditions change and the holders of these securities will be without interest and without a market for their holdings, as their value will be represented only by scraps of paper, beautifully printed, embellished by a great seal. Why go further-when the manufacturer cannot get money to pay labor to produce, and the laborer cannot get of private operation" to be unable to | work and wages-he must go hunrun the roads, when operating ex- gry, and the capitalist, when he cannot get dividends is in exactly the

When this time arrives there is a money panic-and the money now easy, reaches bank vaults and cuddy holes and there kept until normal conditions are resumed. The Banks. through the Federal Reserve Banks of the Government are being warned that it is absolutely necessary to tighten up in loans and to use all the power they have not only to stop speculation, but also to inculcate the idea into the people that unnecessary spending of money must stop now, or there will be money troubles ahead in the near future. Take heed now .--Ellicott City Times.

Tremendous Influx of Foreign Goods Will End Labor Shortage.

The recent statement by the head of a large steel concern that from now on there were to be no more clock watchers in his organization, implyng, of course, that there is a surplus of labor, is of such significance that too much importance cannot be at-Why is there a surplus Why are textile manutached to it. of labor ? facturers, and manufacturers of other lines of goods becoming very much alarmed ? This surplus of labor did not exist during the war when practically every plant in the country was working at full capacity.

The answer is simple. The manufacturing plants of the country have already begun to feel the effects of the heavy imports from Europe and they are not working full capacity.

The prediction is freely made in

Description of Great Master's Playing Well Called a Gem of Humor-

ous. Composition.

The death recently of Ed H. Smith recalled the humorous editorials which made his little newspaper, the Chula News, noted. The one which first drew attention to it follows:

"We heard the Polander, Paderewski, play the piano in Kansas City last night. The fellow is deceitful. He makes you think all the time that he is going to play a tune, but he never does. He flirts all around a tune, but never touches it. His hair looks like a wig, but it isn't. He deceives you in a hundred ways. He makes the sweetest sounds you ever heard that were not a tune. He has his piano so trained that the doggone thing will keep right on playing when he is not touching it. He reaches out slowly and strokes it, drawing back his elbows like a man brushing a girl's hair. You see the moonlight and you're there with your girl, but somehow she don't love you. We know the sorrow of that, and that's why we don't like Paderewski. There are troubles enough in the world without hearing Paderewski. A man don't want to feel like he had thrown the mutilated remains of his grandmother in the sewer. If this is Paderewski's last visit to America we're glad of it. But we wouldn't take \$100 for what we heard.'

LOOKED AS IF HE KNEW

Good Reason Why Soldiers Urged Lieutenant to Take Military Policeman's Word for It.

A colored detachment under a white lieutenant was making its way through the shattered territory near Dun-sur-Meuse during the thick of the Argonne drive. At a crossroads it encountered as traffic-directing M. P. who halted the column.

"Sorry, sir," he said to the officer in charge. "You are not allowed up that road. We have information that it is about to be shelled by the enemy."

The officer carefully examined his orders. "My instructions read differently," he declared. "I cannot believe that this is the road to be shelled. Have you any verification?" At this moment a shell burst within a hundred yards, tearing up the earth and sending debris flying in every di-

rection. The entire landscape was obliterated, and a dead silence, broken only by the crash of falling stones, ensued. Then, out of a cloud of settling dust, arose one faint, terrified voice:

"Fo' Gawd's sake, lootenant, please take de gemmun's word fo' it !"-The Home Sector.

Business Welcomes Radio Circuits. With the new radio circuits in operation between America and the far East, it is comforting to know, even if one has infrequent occasion to communicate with Japan, Hawaii and the Philippines, that the new service is considered quite reasonably inexpensive. One may communicate with Manila from the California stations for 6 cents a word, and with Hawaii for 3. Even if the rates were higher, however, the new circuits would be wel-

THE BIRNIE TRUST CO.

government."

The whole country is complaining of shortage of labor in necessary indusstill doing so-called war work, with the government as a lavish paymaster, were turned out of Washington and directed back to whence they came, the labor shortage would soon readjust itself. There is greatly too "will do," when once they lose their change. jobs, instead of putting it up to them to "get something to do," with the same avidity that they hunted their present jobs.

We are not hoping for much change in the general situation until after the Presidential election, as jobs will be nursed, and kept functioning, as long as possible, by the various personal interests and sections now feeding at the crib; but, it is to be hoped that in fact; and especially that the piling up of the government debt, which our people will eventually have to pay to the last cent, will cease.

Mere Propaganda.

An appeal is now being made to President Wilson not to turn the Railroads back to their owners, on March 1, but to continue "for at least two years," government management which has resulted in a loss to the government of many millions a month The appeal purported to be backed by organized labor, and the farmers, the plea being that with the return of the roads there will come an increase of 25% to 40% in freight rates, which they say, will represent "increased cost of living, and calamity."

As a matter of fact, the appeal, so far as it relates to "farmers," or 'especially to farmers represented by first page of this issue.

Lodge said:

"Speaking for myself alone, 'I have only this to say: That I was tries, and we are growing more and unable to agree to any change in more convinced that if the thousands reservations two and five, dealing with Article 10 and the Monroe Doctrine. In my opinion reservation No. 2, which provides that we shall assume no obligaton of any kind under Article 10, except the one mentioned in the treaty that we should ourselves much strained concern manifested as respect the boundaries of other nato what these government barnacles | tions, cannot possibly permit of

"The change proposed in reservation No. 5 in regard to the Monroe Doctrine was an absolutely vital one, because it was asserted as an official interpretation by the representatives of Great Britain that the Monroe Doctrine under the treaty was to be interpreted by the League. To this I, for one, could never assent, and in view of the statement made in Paris by the British delegation to which I the war will end in practice, as it has have referred I regard the line which it was proposed to strike out as absolutely necessary.

"The United States has always interpreted the Monroe Doctrine alone. It is our policy. No one else has ever attempted to interpret it and it is something, in my judgment, which ought never to be permitted even by the most remote implication. If we should strike out that phrase now after it had been accepted by the Senate it would lead to a direct inference that we left that question open. The right to interpret the Monroe Doctrine, pertaining to the United States alone.

must never be open to question."

Take Heed Now.

Several times lately we have cautioned in these columns against the Economist. needless extravagance existing in our midst by the apparent easy money within the reach of our hands. manufacturing circles that the tre-mendous influx of foreign goods will spell the beginning of the end of the labor crisis with which the country has been confronted for many months This can mean but one thing-less work and unemployment.

Europe is getting to work and the manufacturers over there are going to send enough goods here within the next two years, unless prompt Tariff Measures are taken, to put many of our manufacturers "flat" on their backs

A large American locomotive con cern expected to get an order for 180 locomotives from the Belgium Government. These "little busses" run about \$55,000 each. They received an order for about 50 locomotives. Germany secured the remainder of the order. Why? Because they can pro-duce these locomotives at a much der. lower figure than that quoted by the American concern, and the same is true of almost every other line of merchandise.

England, despite the contrary assertions of our export friends, who believe, or at least say they do, that only through our increased export trade can the country retain its present state of prosperity, has us beaten when it comes to foreign trade. Her merchants engaged in export trade have forgotten more than our novices in the export game may ever hope to know. Why refuse to face conditions

as they are ? Just as soon as Europe gets enough food she is going to "strip" for the trade war of the near future. Nothing will be too much to sacrifice to enable Germany, England, France and Italy to regain their pre-war trade with this country, the Orient and South America.

Is America prepared to face these conditions ? Are we to welcome these imports with outstretched arms while our factories are threatened with the prospects of cold furnaces ? Or. are we going to view conditions in a commonsense way and take the necessary precautions

The only safe way is the enactment of Tariff laws, which will Protect the American workingman. 🗕 American

For the Children.

Too much care cannot be exercised rst page of this issue. A pertinent query is, if "the people" felt, and naturally as the contraction meets these conditions. It is a fa-

ed by American bus for the development of trade, as well as the transmission of news, has been seriously handicapped by lack of facilities for communication. The United States will get a better news service in consequence, do more business, and may feel also, according to naval officers, that the national defense system has been strengthened at a weak point.-Christian Science Monitor.

Airship Construction.

Some interesting facts regarding the work required in building a large modern airship are given in a recent issue of the Engineer, which states that the general problems of design are closely allied to those of naval architecture, although the airship designer must be a highly skilled mechanical engineer and also must have a knowledge of textile technology. For the work on construction, owing to the multiplicity of parts required. a very efficient shop organization is

necessary. In a rigid airship structure, excluding the machinery, there are 20,000 different parts, a total length of structural material of 20 miles, 60 miles of wire and more than 2,000,000 rivets.

Ruskin's Birthplace for Sale. No. 54 Hunter street, Brunswick square, London, the birthplace of John Ruskin, is for sale by private treaty. In the early days of the nineteenth century, says the London Telegraph, John James Ruskin came to London from Edinburgh to enter the wine trade. In 1818 he married his cousin, Margaret Cox, and February 8, 1819, the author of "Sesame and Lilies" was born. The house in Hunter street, which is now distinguished by a commemorative tablet, is of the substantial Georgian type so well known in Bloomsbury and was erected at a time when that district was particularly in favor among city merchants.

Suspicious.

"As he came in, I noticed his face was lighted with a wonderful glow and his eyes were shining." "Say, where could he get anything

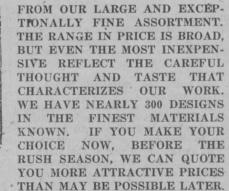

to make him all lit up that way?"

The Shorn Lamb. "Why did Wilkins decide to stay in the army?'

Dropping Boards Should Be Cleaned Weekly—Isolate Birds With Colds —Keep Away Insects.

(Prepared by the United States Department of Agriculture.)

Clean the dropping boards at least once a week, and spray the roosts once a month with kerosene or some commercial preparation for killing mites. Have a good supply of sand or dry dirt on hand to use on the dropping boards.

If any of the birds develop colds,

A Clean House Promotes the Health of Poultry.

put as much potassium permanganate as will remain on the surface of a dime into a gallon of water and keep this material in their drinking water for several days, or until the symptoms of the colds have disappeared. Remove any sick birds from the flock as soon as noted and treat them in coops by themselves or kill and bury them if they are not worth treating. Examine the pullets and hens for lice and dust thoroughly with a good insect powder or apply a mixture of equal parts of vaseline and mercurial or blue ointment, applying a piece about the size of a pea one inch below the vent of the bird, rubbing the mixture lightly on the skin. An appli-

It is an easy matter to overfeed fowls. Bear this in mind unless the fowls are on range.

Hens that are laying are not likely to accumulate fat; it is when they are not laying that they do so.

Give the fowls good dust and plenty of it. This is how they keep themselves free of vermin and well.

Hens of light breeds may be profitably kept for three seasons; those of the heavy breeds for two seasons.

Good layers are bred up and not fed up. All the feeding in the world cannot induce a naturally nonproductive hen to change her nature.

A trap nest is the one accurate way

to tell whether you are keeping a paying flock, but the poultryman who keeps it must look after the nest in a proper way.

*

If you have made a failure of everything else, don't think the chicken business will prove to be a life saver. It requires not only brains, but an overplus of energy.

Chickens never wash, as many other birds do but cleanse themselves of insects by wallowing in soil. For this

reason every poultry house should be provided with a dust box.

Five eggs out of every 100 are spoiled by being fertile. Producing infertile eggs does not require anything but the removal of the rooster from the flock after the need for hatching eggs is past.

Milk is no substitute for meat, for it is not sufficiently concentrated. It is impossible for fowls to drink enough of it to take the place of meat. When fed with animal food, milk performs excellent service.

Infertile eggs are more common among poor layers than good ones. Experiments at the Maine experiment station proved it nearly impossible to get fertile eggs from the hens that were the poorest layers.

White bread made from highly milled flour is lacking in vitamines. The grain is entirely denuded of the husk which contains the vitamine, and although white bread is more palatable it is not so nourishing nor so conducive in many respects to the maintenance of health as brown bread or as bread made from a mixture of white and brown flour.

In addition to the vitamine content, brown bread provides work for the jaws and incites the salivary glands to action and from its composition exerts a gently aperient effect. A good deal of the prejudice which obtains against brown bread is due to bad cooking. When it is well made it is palatable. In short, brown bread and butter are greatly to be preferred to white bread and margarine, however pleasing these may be in appearance and taste.

Too much faith should not be placed in the caloric value of a diet. A well balanced diet contains a sufficient caloric value and a satisfactory vitamine content. The ideal diet is nourishing, / appetizing, and satisfying, that is to say, it is well assimilated, by flavor and odor it excites appetite, and it is not deficient in bulk. Of course it must be adapted to circumstances, climate, occupation, and so on, but it cannot be termed a thoroughly nutritious and wholesome diet if it does not contain a sufficient amount of vitamines. Brown bread and butter, to a limited extent, are an excellent example of such a diet.

Why Swat the Fly Now.

No matter how long the winter lasts, the chrysalis of the fly is safe. When the warm spring weather comes the fly inside the chrysalis goes on growing again. At the right moment it bursts open its horny case and comes out like a chicken from its shell. All that it has to do is to dry its wings; then it can fly away full grown.

Flies reach their full size before coming out of their shell-like covering, says a writer in an exchange. When you see small flies and big flies together you must think that the little ones are young and the big ones old. They are different sorts of flies, but full grown. They reach full size before they are released from the cradle in which they have passed the winter. It is because most of the old ones are dead, and the young ones still in their eggs, that we seldom see flies in winter.

The common house fly when it fro

The

Why Bread Gets Stale.

The reason bread becomes stale has been investigated recently by Professor J. R. Katz of Amsterdam, who has discovered that the staleness is due to low temperatures, and not merely to loss of moisture. .The experiments of Professor Katz were based upon the keeping of bread forty-eight hours after it was taken out of the oven. He found that if the temperature was maintained at 140 degrees Fahrenheit the bread was quite tresh at the end of the period, but if the temperature was reduced to 122 degrees Fahrenheit a certain amount of staleness was discernible, the process becoming more rapid until a temperature of about three degrees below freezing point was reached. Curiously enough, at lower temperatures than this the degree of staleness is reduced, until at a temperature of liquid air the bread is again perfectly fresh. On the strength of these experiments it has been suggested that bread be kept fresh till required for use by placing it in a fireless cooker immediately af-

Why Scots Would Ban "Macbeth." A resolution demanding the elimination of Shakespeare's "Macbeth" from school curriculums on the ground that It was a libel on the Scotch in its "misinterpretation in presenting King Macbeth as a traitor and murderer," was adopted at New York by the League of Scottish Veterans of the World war.

ter removal from the oven.

The resolution was addressed to the Newark (N. J.) board of education, which recently barred "The Merchant of Venice" from the schools because of the alleged slander to the Jewish race.

"If they have banned Shylock, I see no reason why they should not ban Macbeth," said Capt. Ian McTavish. "If the Jewish gaberdine is to be cleaned they should also remove the stain from the Scottish kilt."

Why Pastor Is Worried. From California comes the story of a woman who made her pastor heir to \$87,000 on condition he would take care of 85 canaries, 31 dogs, 18 cats, and a bunch of rabbits. He is getting along pretty well with most of the menagerie, the story goes, but the rabbits are multiplying so rapidly he fears he wil' have to spend all the money to buy a ranch for them a year from now.

Bensonhurst—I certainly had and a warm one at that. "Who got the best of it?"

married?

Doris—They're not married. They're going to be.—London Answers.

, The Practical Problem.

"Make hay while the sun shines," said the offhand philosopher.

"That kind of advice is easy," commented Farmer Corntossel. "What you want to invent is some method of gettin' a crop in during_three or four weeks of steady rain."

SUMMED UP.

"Of what does a shad consist?" "A backbone, a wishbone, a funny bone and then some."

Truth and Poetry. "You should keep to the straight

and narrow path." "True," said Mr. Chuggins, with great earnestness. "The journey of

life, like every other journey, seems to be at its worst in the detours."

Bug Landlord—Drat those Appleworms, they've skipped their rent and eaten half the house besides! box, says London Answers. These women are engaged in picking up flints, which are used for repairing the roads, Buckinghamshire having no quarries from which it can obtain road material. The square wooden box into which the women pitch the stones is a measure called a "yard." This name is probably given to it because it is a measure a yard square by a yard deep, there being no bottom to the boxlike structure.

The farmer pays the women for gathering the stones and sells them later to the district council. Now comes the truly Bucks spirit for saving the ratepayer's money. Instead of counting the "yards," as they stand in the fields, the road authorities have them all heaped into a cart and removed to where they are needed on the roads. Here they are dumped down by the roadside in immense mounds. Before the farmers are paid these heaps of flints have to be again measured into "yards" by old roadmen.

[•]These roadmen are deserving fellows and it is up to the authorities to see that they are kept employed. Perhaps that is the reason why the "yards" are not counted on the field.

Example and the second s

How Leprosy Has Dwindled.

Most of the leprosy of the world is in Asia and Africa, though it is found in South and Central America, in South Russia, Greece, Turkey and Spain and on the shores of the Baltic. The disease still lingers in Norway and Iceland, and is not uncommon in Australia and Hawaii, where it was supposedly carried by the Chinese. It was anciently prevalent in all the known world, and in the middle ages was extensively diffused in Europe. Every considerable city on the continent had its leper house, and in England at one time there were 95 religious hospitals for people thus afflicted. In the fifteenth century, however, It underwent a sudden and remarkable diminution and has now virtually disappeared from civilized lands. Most of the cases in this country are of Norwegian origin and are found in the northern tier of our western

states.

UNION BRIDGE.

Last Friday night was a banner night for this community. The Business Men's Association was the guest of the Tidewater Cement Co., at the office building, and sat down to a banquet which was enjoyed by all. This was followed by a public meeting at the town hall, at which time the orator of the evening, Mr. Goldsborough, of Baltimore, empha-

sized community boosting. The Women's Club met last Thurs-day at the home of Mrs. Thomas Gaither.

Sickness has invaded so many homes during the past week that we are unable to name all. Improvement is announced in all cases.

Mr. and Mrs. Geo. Fowble visited in Baltimore, last Thursday. Miss Mary Murray attended the funeral of her cousin, in Baltimore,

Tuesday.

The magazine store has moved in-to the room formerly occupied by Waskin's annex.

Mr. Bloom has opened a barber shop in the W. M. hotel building. Mr. Tucker, who had his foot se-verely injured, had the foot ampu-

tated, to save his life.

Genuine, unadulterated, old-fash-ioned Winter is here. Did you see

your shadow on Monday ? Six tons of dynamite exploded as one shot at the quarry, made some of us think that the last day had ar-

rived. The war was fought to make the world safe for Democracy; our Christ-ian Sunday rightly observed keeps us safe for enternity. Keep it holy.

UNIONTOWN.

Joseph Dayhoff, a farmer near Linwood, has bought the home prop-erty of his brother-in-law, Henry Gobright, near town. Mr. Dayhoff will continue farming another year. A gentleman from Philadelphia has purchased of Mrs. Geo. Staub, of this place, her home property in Elizabethtown.

Miss Sallie Yingling left for her home in the city, on Tuesday, hav-ing been with her sister, Mrs. L. F. Eckard, for some months.

Word was received, on Sunday, of the illness of Mrs. Howard Hymiller, at Harmon's, by her father, John E. Heck,who with his daughter,Frances, left for that place Monday morning. We are glad to say the patient is better. Miss Frances will remain to care for her sister.

Grip is getting to be quite plenti-ful in the neighborhood; most of it

BRIDGEPORT.

Those who spent Sunday with Mr. and Mrs. James Mort and family, were, Rev. and Mrs. C. R. Banes, of Thurmont; Mr. and Mrs. Geo. Mort and sons, of Emmitsburg. Wm. Bollinger and wife, and Har-

vey Olinger and wife, spent last

Ohler, on Sunday.

Mrs. Mary Hockensmith spent Sun-day with her son, William, and wife. Wm. Bollinger is attending court,

in Frederick, this week.

Stephen Harner, of California, is

visiting relatives and friends here. Jas. Mort and wife, and grand-daughter, Ruth Bentz, spent Friday with J. E. Grimes and family.

Those who were entertained at the home of Bernard Bentz and family, on Tuesday evening, were, Edgar Miller, wife and daughters; Emory Ohler, wife and children; Mrs. Mary Hockensmith, Elmer and Clarence Fuss Bryan Byers, of Emmitsburg; Roy Sharrer and Lennie Keefer, of

Frederick. Geo. Mort, Jr., of Chicago, Ill., is visiting relatives here.

Tom's Creek school will hold a Val-

entine entertainment, on Friday eve-ning, 13th., at 7 o'clock. If weather is unfavorable, the following fair

MIDDLEBURG.

On Friday night, Jan. 30, Mr. and Mrs. Chas. Bowman, Jr., gave a party in honor of their little daughter, Dorothy's, fourth birthday.

Mr. and Mrs. Geo. Humbert are visiting their sister, Mrs. Frank Miller, in Baltimore. Mr. and Mrs. Al. Biddinger, of Ladiesburg, are spending the week here, taking care of their home.

Mrs. Harry Devilbiss, who was operated on for appedicitis, is convaescing fine.

Mrs. Edwena Bowman went to the Frederick Hospital, on Monday morning, for some throat trouble. The meat supper, on Saturday night, was not largely attended, on

account of the health condition of the neighborhood, there being 27 cases of flu, or grip, in our town, although there were no very serious cases. They are all improving, with no new cases developing

KEYSVILLE.

Mrs. George W. Cluts is very ill, threatened with pneumonia. Mrs. George Frock is on the sick

list. Miss Carrie Fox is home with a badly sprained ankle.

The new Reformed church will soon be ready for services. The windows are in and the painters are finishing up their work.

A corn-husking party was held for the benefit of A. N. Forney, composed of the following: James Kiser, Sr., Chas. Kiser, James Kiser, Jr., John Kiser, F. D. Ohler, Chas. W. Young, Frank C. Ohler, George Myers, Geo. P. Ritter, Russell Stonesifer, Harry Dilman and Edward Hahn.

EMMITSBURG.

Miss Anna Helman died at her home here, last Saturday, this being the third death in the same home within a week, a double funeral having been held on the previous Mon-day for Miss Helman's sister and sis-

More Taneytown Reminiscences.

(For the Record.)

I do not know if anybody was interested in my letter in a recent issue of your paper or not, but it did me so much good that I thought that I would write another, for I can assure you that I haven't mentioned all of Thursday at Hanover. Jones Ohler and daughter, Marie, of Harney, visited his father. Jacob my boyhood days. Some are dead and gone, while a good many are no doubt still living. To be sure, there are a great many people living in Taneytown and vicinity that I do not know, nevertheless the "old Monoc-Robert Grimes and Miss Clara Moser visited relatives and friends in Baltmore, last week. A state of the same windings and a boy, I climbed the hills and learned acy" still has the same windings and a boy, I climbed the hills and learned to swim by nearly drowning in the old swimming hole, just above that wonderful old bridge at Bridgeport, that was built in 1864, by A. Smith, I believe.

How we used to climb all over the frame-work, hunting bat's nests. Many a night I ran at the top of my speed through its dark depths for fear of what might be there (and was not) and as I passed trough it last summer, on my way to Emmitsburg, I found that the old "Plank Road" I found that the old "Plank Road" was just as straight as when as a poor bare-foot boy, I traveled it from Emmitsburg to Baltimore, with "Old Abs" Smith. Bridgeport has changed very little in 35 years. As I passed through I thought that I wurst hear the mine of "Old Rear" must hear the voice of "Old Boss." I listened for the fox hounds, but they

too must have passed away. Many a time I have seen "Boss Abs" riding "Old Bill," with Doc and Scott followed with the hounds on a fox hunt. What wonderful music the fox horn (made of a cow's horn) used to make as the sound rolled among the hills and valleys of the Monocacy and Marsh Creek. It makes me laugh up my sleeve to hear the city folks say that the country is such a dry place to live in. I am happy to say that my life as a boy in the country was far from empty. I can assure you that my wonder was no less when I rode into Taneytown. no less when I roue into raneycown, 35 years ago, on top of a load of wheat (100 bushels) than it was when a good many years later. I walked up Broadway, New York, for

the first time. At that time I first 'saw a railroad year. train. How wonderful that trip was to me. I remember, on another occasion, Anthony Sherman and myself walked from Bridgeport to Taney-town to get some flags. We were having a boys' parade in honor of Harrison's election as President. We needed some flags for decoration, so we thought nothing of making the trip on foot. We had 9 cents and bought our flags at Mr. Hagan's, the little store, as it was then, just around the corner from T. H. Eckenrode's sky-scraper. Mr. Hagan was always very nice to us country boys, there-fore, I remember him and his good wife with much pleasure. Burgess Miller was in the store at the time, and had considerable fun at our expense.

I would like to say that I think it would be a very small task for someone to write the news items from the nearby towns, however small. It may not make any difference to the home folks that Bud and Harry Clabaugh still live out at the old home place, or that J. W. Fream, or J. W. Reck, is Mayor of Harney, or that Fletch Clingan has bought a Ford, or not; but it does mean something to the folks away from home. I wish to thank the Editor for publishing my letter and for sending me a copy

of the Carroll Record. MORRIS H. BISHOP.

Flags for Soldier Dead.

Washington, Feb. 3.-One American flag for each soldier grave in the American Expeditionary Forces and one large flag for each cemetery have been ordered by General Rethers of the American Graves Registration Service in Europe, according to an announcement from the War Department.

These flags are to be forwarded for display, commencing Memorial Day of this year, at all cemeteries in France. Eighty flags of large size, known as post flags have been ordered for the large cemeteries and flags, known as storm size, have been ordered for the smaller ones. Eighty thousand five hundred flags, 8 inches by 12 inches, have been ordered for decorating the individual graves of American soldiers who lie buried in Europe.

Chronic Constipation.

There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the sys-tem and aggravate the disease they affords a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not so likely to be followed by constipation. -Advertisement

Frederick Hospital Report.

The 21st. annual report of the managers of the Frederick City Hospital shows that 1,611 patients were treated during the year. Nine hundred and forty-one operations were performed and there were 105 ambulance calls. The report of Samuel G. Duvall, treasurer of the board of trustees, showed receipts of \$15,098.90, all of which was disbursed. The report of Mrs. Charles H. Baughman, treasurer of the board of managers, showed total receipts of \$44,237.22; expenditures, \$41,614.81. The superintend-ent, Miss Mary L. Nies, reported that 129 more patients were treated during the past year than the previous

Dollars and Cents.

Counting it only dollars and cents, how much did that last cold cost you? man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months. -Advertisement

St. Giles church, in Edinburgh, stands for unadulterated Scottish tradition. From its massive stone columns, centuries old, to the crownlike dome which towers over Edinburgh. St. Giles is typically Scottish-of the old-time Scots who wore the plaid and talked a language of their own.

St. Giles has served as a background for much history and romance. In time of Civil war it has been turned

Anybody can hatch chicks with a Buckeye. It operates auto-matically and can't go wrong. You get a chick from every hatchable egg.

That's why poultrymen think "Buckeye" when they say "Incubator.

Look at this Guarantee

The Buckeye Incubator is guaranteed to hatch more chicks and better chickens than any other incubator, regardless of price, or we take it back. Verdict

The fame of this guarantee has traveled from sea to sea. Over half a million "Buckeyes" are in use by big and little breeders and over 2000 leading dealers sell it.

Come in and get a copy of our wonderfully convincing book, "The Verdict of the User." We'll give it free and show you the Buckeye.

Twas Said:-

The most-momentous associations s times attach themselves to the most thrill-ing things. Thus at a dinner the hostess said to a sour faced man on her left: "May I help you to some of the boiled rice, Mr. Smith ?"

" help you to some of the bolied rice, Mr. Smith ?" "Rice ?" No, thank you; no rice for me," Smith answered vehemently. "It is associated with one of the greatest mis-takes of my life." However, you'll make no mistake when you shop at this Store, because we take extra precaution to please every customer -to sell only the kinds of merchandise that will give long and lasting satisfac-tion-only pleasing thoughts will be asso-clated with this Store, if you do your shop-ping here.

DIED.

Obituaries, poetry and resolutions, charg-ed for at the rate of five cents per line. The regular death notices published free.

MRS. ALBERT GILBERT nee SHAW

Mrs. Albert Gilbert, nee Shaw, died at her home in Baltimore, February 3rd., in her 47th year. Funeral ser-vices were held from the home of her sister, Mrs. Evan T. Smith, of near Union Bridge, Friday, at 1 P. M. Services at the house. She is survived by her husband and mother, Mrs. Mary A. Shaw, of Bark Hill, and the following brothers and sisters Mrs. Evan T. Smith, of Bark Hill; Mrs. W. W. Winters, of Baltimore; Mr. Herbert Shaw, of Baltimore; Mr. Olin Shaw, of Baltimore and Mr. Allen Shaw, of Cecil Co. Rev. C. Amos Reynolds had charge of the services.

MRS. WILLIAM M. OHLER, JR.

Mrs. Lillie K., wife of Mr. William M. Ohler, Jr., of this district, died Wednesday night, from pneumonia and complications, after an illness of two weeks, aged 27 years. Funeral services will be held in the Lutheran Church, this Saturday morning, in charge of her pastor, Rev. W. O. Ibach, assisted by Rev. L. B. Hafer. The entire community greatly sympathizes with the stricken family

concerned.

into a well-armed fort, and in time of so-called peace it has been plundered and burned. Its many alcoves have at times been parceled out for distinctly worldly purposes, such as a jail, town clerk's office, school and court, while the nave and altar were

gregation. Of St. Giles stories, none is more popular than the dramatic adventure of Jenny Geddes and the three-legged stool. A certain king ordered the service of the Church of England read

reserved for the minister and his con-

in St. Giles which was a stronghold of the Scotch Presbyterian faith. The dean of St. Giles started bravely to conduct the service amid harmless but disturbing protests and growls from his hearers. But Jenny Geddes, an old vegetable vender, soon saw that the dean was unimpressed by mere words. She seized the three-legged stool on which she had sat and hurled it with deadly aim. The dean ducked and fled, and the Church of England service was never attempted in St. Giles again.

Why Reform Is Slow in China.

One will sometimes see groups of Chinese women comparing their feet to see who can boast of having the largest. This is particularly true of native women who have become Christians or who have been educated in the Christian schools. They feel a new independence—an independence of body as well as of mind and soul and are proud that the old bodily shackle of maimed feet is gone.

fact that China has a law prohibiting the binding of girls' feet, has not reached further than the cities and the higher classes. It has been calculated by the former Peking correspondent of the London Times, after a long journey through the interior of numbers are so immense that it will

"Dr. Fixem is making a specialty of getting people thin." "He must find that a fat job."

the fingers.

Long fingers denote perseverance and ambition, while extremely short ones indicate the habits of laziness and indifference. Those coming under che head of medium in length lay claim to vanity. The type thick at the base of the hand and which tapers to a narrow point at the finger tip usually belongs to a selfish and unforgiving individual, contrary to the person possessing fiat finger tips, wherein a stubborn nature and strong will is constituted.

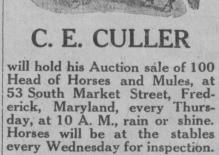

Why Bright Colors Are Popular.

There is a craze for sunshine colors in house furnishing and decoration now. The drab years have passed, says the continental edition of the London Mail, and with them have gone the taste for grays and fawns. Rooms now glow with happier tints. A firm | BRADLEY McHENRY, Manager. which guides or interprets much of the most beautiful and a good deal of EDGAR T. MERCER, Auctioneer. the most extravagant schemes of interior decoration has been lighting up the walls and windows, the carpets and the chairs of town and country Horses, Harness and Vehicles mansions with blues, purples and oranges, jade, greens and "flame," the last perhaps the newest color for faded rooms.

Why More Railroads Are Needed. Despite a border line of some 300 kilometers between France and Italy, the frontier is crossed by but two railroads, at Dodane and at Vintimille. Yet on both sides of the frontier are situated rich regions whose industrial activity could be augmented by proper railroad facilities. It is now planned by chambers of commerce representing both countries to remedy this defect. Various projects have been advanced and a certain number of them will shortly be put into execution .-Christian Science Monitor.

Why There Are Noxious Perfumes.

Wild things would disappear if we fixed the perfumes of the vegetation to suit our own desires. The things we call noxious are quite as important in the world as the things we have learned to love and enjoy. Something. somewhere, is attracted or repelled by every odor that we encounter out of doors, and the old world wobbles on in bliss because it is so well arranged for the creatures that inhabit it.-George F. Burba in Columbus Dispatch

Big Money for Perfect Potatoes. The perfect potato, which resists blight and other "spud" diseases, has been developed, according to Samuel Ryder, head of a well-known English seed firm.

He refused to give the name of the hybridist, but said he paid him \$12,000 for seed potatoes which wouldn't fill a peck measure.

"We have bought up all the hybridized seed of this expert," said Ryder. "The average potato yield in 1918 was four tons per acre in England. With the new seed, six pounds per root, or 33 tons per acre, can be produced. The full results of the perfect potato may not be reaped for two or three years."

How to Achieve Old Age.

Light diet, sobriety and considerable muscular exercise were given as means by which old age may be attained by Prof. Widal recently in a discussion before the Academy of Sciences of Prof. E. Cassagne's "Treatise of Old Age." The speaker asserted old age was more common today than in other times, pointing out that there were 1,000 centenarians reported in statistics issued during the last year.

whole lump.

J. N. O. Smith, Auct. 1-30-31

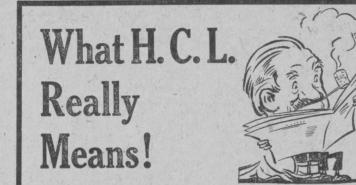

The undersigned having sold his farm will offer at publis sale on the premises near Oak Grove School-house, on TUESDAY, FEBRUARY 24, 1920,

at 12 o'clock, shapp, the following describ-ed property: 3 HEAD OF HORSES.

a next of Horses,
 1 sorrel mare, 11 years old, will work anywhere hitched;; 1 black mare, 15 years old, will work anywhere hitched; 1 bay mare, old, good off-side worker and driver. These horses are all fearless of all road objects.

Town folks think it's High Cost of Living. Farmers know it's High Cost of Loafing—not on the farm, where the day is sixteen hours long, but in factories and shops, where the workers want to quit after six or seven hours. This H. C. L. plus the H. C. S.-the High Cost of Spending-are the skyrockets that keep prices up, says

The COUN GENTLEMA

I wish you'd read about The High Cost of Loafing in the Great National Farm Weekly. It would be worth the subscription price of \$1.00 a year to you!

Farmers need to get together to combat these city-bred notions that the high cost of living originates on the farm, and they can do it better through THE COUNTRY GENTLEMAN than by any other means. The fair-minded town folks need to reconstruct their silly ideas and find out

what H. C. L. really means, and they can complete their education for \$1.00 by subscribing now for THE COUNTRY GEN-TLEMAN. I'm selling the greatest reading bargain on the market today— 52 big, interesting, helpful weekly issues of THE COUNTRY GENTLE-MAN for only \$1.00.

WHO'LL BE FIRST TO ORDER TODAY?

R. A. NUSBAUM, UNION BRIDGE, MD.

To Our Friends Who Will Want Furniture Between Now and Spring

Old Man Wisdom says: "Buy Now."

Furniture is hard to get, and prices are going higher continually. We have many pieces on our floor, away under the present market prices. Those of our customers who come first will get the benefit of these prices. You can place your order with us now, for goods desired in April; we will accept the order at present prices and hold the goods for you until then.

We want your business. Because we sell better goods for less money than you can buy elsewhere, don't we deserve it?

Reliable Furniture.	Reasonable Prices.

FIVE HEAD OF CATTLE,

wspaper Sy When Sarah Molthorpe married Arthur Allen she changed the style of "doing" her hair. Grandmother Molthorpe disapproved. "Sarah," she said in her precise, mild way, "your hair was very becoming parted in the middle as you have always worn it. Now that you have changed the parting so far to one side it gives you a very unbalanced appearance. And I have noticed in my long life," she added whimsically, "that exterior looks exert a pronounced influence on one's mental processes." To which Sarah

answered one word: "Nonsense." Two months later Grandma Molthorpe again spoke to her favorite grandchild on the same subject: "Sarah," she said gently, but decidedly, "you are giving too much time to your house and not enough to Arthur. Part your hair in the middle again, child. It will give you a more bal-anced set of values." Sarah shut her mouth tight on some words she would have spoken had this repeated advice come from anyone but her beloved grannie.

It was directly after supper that night that Arthur proposed to his wife that she accompany him over to the Sykes house next door. "I hate to miss a day day, dear. The poor fellow looks forward so much to my visits. It's no joke to be confined to one room so many months, you know, and I've made so many excuses to Mrs. Sykes on your account," he pleaded; "do come along this time."

"It's not necessary for you to make any at all," Sarah answered. "You know what I think of that womanwhat every one around here thinks. She's altogether too free-and-easy in her manner and in her dress. Anyway, it's impossible for me to go now. I never leave my supper dishes, you know."

That this was a thinly veiled accusation of Mrs. Sykes' housekeeping methods Arthur knew. "Yes, I know

elapsed, when Sarah again heard the familiar sound. When the old lady entered the room her expression was noncommittal.

"Now, child," she said, "go upstairs and comb your hair over. Part it straight in the middle. Then I will have something to tell you." Wondering, but knowing well that when her grandmother used that tone she expected to be obeyed. Sarah went. Grandma looked appraisingly at Sarah when the latter returned. "It's much more becoming that way, child. You must go over and call on the woman tomorrow, Sarah. She's a fascinating little thing, as unconventional as she looks."

"But, grandma !" Sarah broke in bewildered. "I heard her say it, I tell you. Where is Arthur?"

"Still up visiting with Mr. Sykes when I left, dear. He doesn't know anything about your coming down here."

"What-" but Sarah got no further. "Don't interrupt your elders; it's bad manners," continued Grandma Molthorpe. "Mrs. Sykes has an amusing way of naming her furniture after the persons who gave it to her. They have only a tiny mcome, and she sold most of their household goods to pay Mr. Sykes' hospital bill. So when her physician advised her to take her husband to the country, their friends gave them enough things to start in on. again. Now, tonight, just as you went over, she sat down, after a particularly hard day, in a big easy chair given by an old chum of Mr. Sykes, whom they affectionately call 'Artie.' She was talking to it, not to your Arthur."

Grandma Molthorpe laughed so infectionsly that Sarah joined in against her will. "Now, run along home, child, and take a notional old woman's advice. Never judge a person before you know him. Be a chum to your husband-not merely his housekeeper. And part your hair in the middle, child; it's much more becoming.

TRADED GOATS FOR DIAMOND

South African Millionaire Tells of Good Bargain He Made in First Business Deal.

An amusing story is told in connection with the early days of Sir J. B. Robinson, the South African millionaire, who has been figuring prominently in the London law courts.

He was crossing the Vaal river in 1869, looking for diamonds. He asked the natives if they had seen any "pretty stones," and at last he found a man. who had a diamond. It was a small stone, and the prospector offered \$50 for it, but the man refused to sell it. He increased his offer to \$60, but still the man refused.

"What will you take for it?" he was asked.

"Twenty goats," was the firm reply; "nothing less."

"I sent off to the nearest farm," says Sir J. B. Robinson in telling the story. "and bought twenty goats for \$37.50, and so got possession of my first diamond."-Philadelphia Public Ledger.

Wonderful Love Story.

A great love story is the greatest story in the world. But was there ch a story as that of Mme. Hanska and Balzac? Balzac and Mme. Hanska corresponded seventeen years before their lips met, before they married. The genius fell in love with her through her letters to him. She was the wife of a Polish nobleman and enormously rich. From her first note to him Balzac was in a frenzy of love. His letters to her are a literature. Balzac loved; madame was prudent. She had rank; he had debts and the divine They met once in Switzerland fire. in 1833. Husband Hanska died. Balzac charged upon St. Petersburg where Hanska was living. But for seven years madame fell back before the blaze of Balzac's love. At last she consented to marriage. Two months after marriage Balzac died. Madame outlived him thirty-two years. -Exchange.

REMOVE MALES FROM FLOCK

Infertile Eggs Are Best to Keep and Cost Less to Produce-Send the Roosters to Market.

(Prepared by the United States Department of Agriculture.)

Produce infertile eggs. They are worth more, as they keep better and they cost less to produce since there are no roosters to feed. No expense, education, ability, or labor other than catching and killing or selling the roosters are necessary. Remove the males at once.

While eggs are plentiful some should be preserved for the winter months, as they will be scarce and high priced. It costs but little in time, money and labor, and is so easily done that it is only common sense to do it. Use fresh, infertile eggs and let customers know that they can get such eggs for preserving. Those who have never preserved eggs should get in touch with the county or home demonstration agent, the state extension director, or the United States department of agriculture.

Now is the time to begin culling Send the roosters to the chopflecks. ping block or the market. Eliminate weaklings and deformed chicks. all Get rid of the chick that stands along the side of the coop with its wings down, its feathers ruffled, eye shut, and head down. Do not keep a single chick that you are not sure it will pay to raise

Fowls and Are Inveterate Enemies to All Poultry.

(Prepared by the United States Department of Agriculture.).

Every poultryman should be on guard continually against rats. They destroy feed, eggs and fowls, and are inveterate enemies to all kinds of poultry, from chicks, squabs, ducklings and young turkeys just out of the shell to tough old birds awaiting the hatchet at the close of a long and noisy career. Although most of their depredations are confined to eggs and young birds, when driven by hunger rats kill fullgrown fowls at roost, biting them through the head or neck.

Complaints about rats have come to the United States biological survey, department of agriculture, from many

quarters. For example, a farmer in Virginia reported 26 turkeys killed by these pests in a night. Another, in Kansas, lost between 200 and 300 chickens and many eggs by rats during the course of one summer. His neighbors had similar experiences. From New Jersey has come a report of rats killing young ducks. An Ohioan has complained that the animals burrow beneath his coops and take chicks from under the hen. In certain neighborhoods of Massachusetts half a season's hatch of chickens and ducklings have been killed by rats. Rats multiply rapidly when left un-

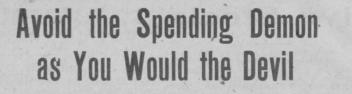

disturbed, where there is plenty to eat. One pair may increase to more than 2,000 in a single year. Whoever allows his property to become overrun by them invites vexation and loss.

MIXTURE FOR LITTLE. CHICKS

Give Equal Parts of Hard-Boiled Eggs and Rolled Oats or Stale Bread Soaked in Milk.

(Prepared by the United States Department of Agriculture.)

For the first three days chicks may be fed a mixture of equal parts of hard-boiled eggs and rolled oats or stale bread, or stale bread soaked in milk. When bread and milk are used care should be taken to squeeze all the milk out of the bread. From the third or fourth day commercial chick

Through the Screen Door Came the Soft Contralto Voice of Mrs. Sykes.

you never leave anything you may want to do on my account?" With these words Sarah's husband slammed the kitchen door behind him.

For a moment Sarah felt stunned. It was the first time Arthur had ever spoken crossly to her. Then she thought even harsher things of her next-door neighbor, who had only recently moved into the village. A married woman who wore her hair bobbed and went on the street dressed as Mrs. Sykes did was capable of anything, Sarah decided. Could Grandma Molthorpe's words have carried a hidden meaning? Were they intended as a veiled warning? Was the invalid the only attraction next door? In spite of her queer dress, Mrs. Sykes was pretty. Here Sarah's thoughts were interrupted by the sharp ringing of the telphone bell.

It was an out-of-town call. Mr. Allen was wanted. Sarah ran out to the edge of her lawn and called. There was no answer. She went fartherto the foot of the Sykes front stepsand was about to repeat her call from there. But she didn't. And this is why: , Through the screen door came the soft contralto voice of Mrs. Sykes: "Oh, Artie, dear, you don't know how heavenly it is just to sit in your lap awhile and feel your comforting arms."

It was enough. Sarah paused to listen no longer. Even ignoring the receiver left off the hook, she ran straight down the street to Grandma Molthorpe. That wise old lady listened silently, stroking the one-sided part in her favorite grandchild's hair meanwhile.

"My dear," Grandma Molthorpe spoke in her usual gentle voice, "you stay right here. I will go and see what all this is about." Sarah didn't remonstrate, just buried her head a little deeper in the sofa cushion and waited. All her life she had gone to Grandma Molthorpe when in trouble, and she had never failed her yet.

It seemed hours since grandma's cane had tapped down the front walk, but in reality only a short time had

Habit of Overeating.

The habit of overeating, at first a pleasant one, once formed, grows until, like all habits, it is difficult to break. A word to the wise is enough. When you are building or repairing a house you do not pile up material, such as bricks, mortar, timber and slates, and attempt to build them in where they are wanted. The result would be chaos. That is what happens when body-building material is crowded unthinkingly into your "tenement of clay." To begin with, habitual overeating, instead of giving strength, lowers vitality by damping down the flame of life, as a small fire in a grate is smothered by putting on an excess of fuel. It wears out the digestive system, producing dyspepsia and all its manifold train of painful and debilitating symptoms.

Phrasing of Blackbirds.

Before "the time of the singing of birds" is over-and the nightingale is beginning already to "jug-jug" rather than to launch Tennyson's "liquid note"-some musician ought to do fuller justice to the blackbird.

those of our human music; his phrases may be, and have been put down on our five-lined music paper. There is a West Sussex blackbird who sang all last May the first five notes of "The Campbells Are Coming," and he is at it again, in the same garden, this year.

Other blackbirds have composed prettier phrases, but all sound equally jolly and sweet in their trolling.-London Chronicle.

tance in growing healthy, strong, vig- old enough to eat wheat screenings or orous birds, whether they are for meat, cracked corn. eggs, or breeding.

Growing chicks should have plenty of good, nourishing food. Bone meal should be fed liberally to those intendel for layers or breeders.

seasons.

Do not forget to continue the fight on mites and lice. They must be fought all the time in all sections and in all

MONEY MADE WITH CHICKENS

Tennessee Woman Cleared \$379 in Five Years With Two Settings of Wyandotte Eggs.

(Prepared by the United States Depart-ment of Agriculture.)

Two settings of White Wyandotte eggs, costing \$2, in five years' time netted \$379 profit for a woman poultry club member in Madison county, Tenn. The first two settings of eggs were bought in 1914. In 1915, nine hens and six cockerels were sold for \$4; in 1916 43 hens and two cockerels brought \$10; in 1917 \$100 worth of eggs and birds were sold; in 1918 the value of the flock, both fowls kept and sold, was \$315; a total of \$429. Much of the feed was waste products of the farm and cost nothing.

The total cost of production was: Original settings, \$2; two breeding pens, \$30; feed, \$10; advertising, three years, \$8-a total of \$50. The profit of \$379 was made possible because of the smallness of the enterprise and the fact that most of the feed for the birds had no money value.

FOWLS YIELD \$1.14 AN HOUR

Indiana Woman Has Demonstrated That This Amount Can Be Made by Keeping Chickens.

(Prepared by the United States Depart-ment of Agriculture.)

A side line for the farmer's wife which yields \$1.14 for every hour she He is the most intelligible of all puts into it is worth the consideration birds-that is, he has intervals like of every farm woman. A Wabash county (Indiana) woman has demonstrated that this amount can be made by keeping chickens. Last year the local county agent interested this woman in keeping a farm poultry flock, and as a result she produced a net profit of \$172.24. She kept an accurate account of her work and found at the end of the season that she had received \$1.14 an hour for the time she actually devoted to caring for her flock.

PLAN FOR MARKETING EGGS

Brown and White Shells Should Be Placed in Separate Packages-Keep All Culls.

(Prepared by the United States Department of Agriculture.)

Market white-shelled and brownshelled eggs in separate packages. Eggs irregular in shape, those which Eggs irregular in shape, those which Aluminum eye cap are unusually long or thin-shelled, or S. McKinney, Druggist. should be kept by the producer for home use, so that breakage in transit may be reduced as much as possible.

All males except those needed for breeding purposes, should be got rid of as soon as possible.

One of the best inside linings for poultry houses is tar paper, tacked on smoothly. Mites do not bother it.

It is said that farmers lose millions of dollars annually on account of poor methods of producing and handling

eggs.

Be a crank about cleanliness, mites, lice and disease in your poultry yard and see if it doesn't pay a big dividend.

Diseases of poultry are frequently transmitted through the drinking water; the drinking fountain should be cleaned daily.

* * * Chicks on good range get practically all they need in the way of mineral salts through the fresh vegetables, but ranges are often overrated.

Help save eggs by keeping the nests clean and free from lice. Gather eggs twice daily, keep them in a cool, dry room or cellar, and market twice a week.

Little chickens are often bothered with the large gray-head lice. These may be destroyed by greasing the head and throat with lard or sweet oil and using a louse powder elsewhere.

* * *

COMMON WITCHHAZEL FINE FOR SORE EYES

It is surprising how quickly eye in-flammation is helped by common witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. One elderly lady, who had been troubled with chronic eye inflammation for many years, was greatly helped in two days. We guarantee a small bottle of Lavoptik to help ANY CASE weak, strained or inflamed eyes.

OU don't leave your ris in the middle of the road and go to a fencepost to read a sale bill do you? Then don't expect the other fellow to do it.

Put an ad in this paper, then, regardless of the weather, the fellow you want to reach reads your announce-ments while seated at his fireside

If he is a prospective buyer you'll have him at yoursale. One extra buyer often pays the entire expense of the sd and it's a poor ad that won't pull that buyer. An ad in this paper reaches the people you are after. Bills may be a necessity, but the ad is the thing that does the business. Don't think of having a special sale without using advertising space in this

EMPROVED UNIFORM INTERNATIONAL (By REV. P. E. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago.) (Copyright, 1920, Western Newspaper Union)

LESSON FOR FEBRUARY 8

PETER AT LYDDA AND JOPPA.

LESSON TEXT-Acts 9:32-43. GOLDEN TEXT-The prayer of faith shall save the sick, and the Lord shall raise him up.-James 5:15. ADDITIONAL MATERIAL - Luke 5: 17-26; 8:40-56. PRIMARY TOPIC-What a Kind Wom-

an Did. JUNIOR TOPIC-What Peter Did at

Lydda and/Joppa. INTERMEDIATE AND SENIOR TOP-IC-The Beauty and Influence of an Un-selfish Life.

In order to grasp the significance of this lesson, we should recall the condition which prevailed in the church as suggested in verse 31. Three characteristics are outstanding:

I. Freedom From Persecution.

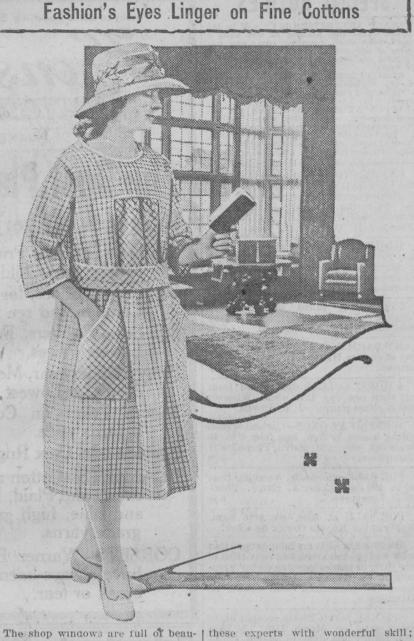

Saul, the ringleader of the persecuting forces, had just recently been converted, thereby disorganizing their forces, allowing the church to enjoy a breathing spell. This period of rest did not result in its growing lazy, indifferent, worldly, and forgetful of God, but in growth in grace and in the knowledge of the Lord Jesus. 2. Spiritual Growth and Develop-

ment. The real meaning of the word "edi-

fied" is "builded up." This does not mean merely that the members were being instructed and comforted, but that strenuous efforts on the part of the individual members, as well as the body as a whole, were being made for the advancement of the divine life. The word, "edify" contains the metaphor of some grand building or structure. As suggested by another, this metaphor involves (1) a foundation. This is Jesus Christ-no other dare be laid (I Cor. 3:12-16). (2) A continuous progress. This means that a Christian's activities are purposeful and that the work he undertakes moves forward with the proper progress. (3) Persistent effort. This means that the present day's work begins the foundation upon which tomorrow's work must be built. Thus day by day his life is being raised higher and higher, as each separate round of material is being laid by strenuous efforts. (4) A completion. Finally the work is done, the building is completed, the top stone is brought forth and placed. 3. Outward Growth.

Building up within the church causes the whole work to be admired and respected by those without, inducing them to come and identify themselves with the cause. There can be no forward movement without unless there be a correponding movement within.

Our lesson today is the record of two stupendous miracles. They are the greatest signs wrought since the day of Christ. The dreadful malady of palsy is vanquished, and a corpse is retenanted by the departed soul. The occurrence here of this miracle is in keeping with the movements of the church at this time. The Lord had promised these signs as they went

the designing.

tiful new cotton materials that lead they know how to bring out the our thoughts to the coming of spring. When the holidays are over, fashion has turned her back upon winter-all her talk is of summery clothes and summer lands, and it is evident already that her fickle eyes linger long- lending something of grace to an awkest on fine cottons. Unless all the signs fail, they are to have a great pipings of white pique and there are vogue-the exquisitely fine weaves forecast designing and workmanship keyed up to their level in all kinds of apparel. This means a return to needlework, embroidery and laces for decoration and that clothes are to be well made.

and a belt that is a wide French fold But the average woman is less intermade of bias strip of the gingham, are ested just now in the sheer, fine cottons, than in the new ginghams, or chambrays, and other weaves that are The fastening on the shoulder with to clothe her small fry when summer but it is in keeping with the rest of rolls around-she is captivated by these immediately. They are here, and along with them are the displays of children's frocks for school and for with white pipings. Some of the new other wear, made of cotton fabrics. They are simply and unusually well dethere is a great variety in them. signed; women who do their children's sewing can hardly do better than to copy them; for they are the product of trained specialists.

The "difficult" age-anywhere from nine to fifteen-is taken care of by

Pleading the Cause of Fans

There are some beautiful and more sticks, form the leaves of the fan. or less useless accessories of dress | Fans of this kind are fairly large, and that fashion never frowns upon; al- increase in size with the length of the though she treats them with consider- feathers. They are made in many beauable indifference for lengthy periods tiful, gay colors. Cleopatra was never of time. Fans and long ear-rings are cooled by a fan more beautiful than instances. About the time that we that of peacock feathers shown at the think they are forgotten, not to be re- center of the group. The incomparcalled, they emerge and find a welcome able markings and colorings of the natas if they were something new. This | ural feathers make them the most adseason has seen the reappearance of mired of the feathers used for fans. fans-with fashion smiling upon those These are mounted on tortoise shell made of feathers, and certainly nothing or other sticks, and are beautiful and ever pleaded the cause of fans more unchanging. Very long, curled ostrich plumes convincingly than these airy and smart luxuries. make the splendid fan at the bottom The holidays developed the vogue of of the group. These are shown in fans made of ostrich feathers, for they many brilliant and many light colors, were bought more freely than others; and carried as the most important but the ostrich feathers, however item in the evening costume. They belong with the rich, metallic brocades and clothes that have held sway in the realm of evening gowns and coats. They are only at home in company of this kind. The story of fans is too long to be so briefly told, but among the successful novelties are small palm leaf fans, painted in colors and bound about the edges with gold braid or faille ribbon. small bouquets of silk flowers are mounted against the fans just above the handles, all wound with ribbon like that used for binding. A full bow of the same ribbon is tied over the stems of the flowers. This is something new in fans, revealing our old and useful friend, the palm leaf fan, all dressed up in fine attire.

The Employment of Time. What do we gain when discords lurk In such illogical array, When people who decline to work Are in no mood for rest or play?

Dryness. "There are books in the running brooks," remarked the airy quotationist.

"Yes," mused Farmer Corntossel; "an' a lot of 'em is like what the fittle old stream on my place has got to be, a mighty dry proposition."

The Early Bird. Mr. Duck-Seems to me your voice

is kinda husky this morning, Mr. Pelican. Mr. Pelican-Well, you see, I went fishing earlier than usual and got a frog in my throat.-Cartoons.

Sympathy Would Be Wasted. "You know, last night they got into the grocer's, broke open his safe and took \$3,000." "He should worry. He'll get that back in a few days."

THE FISHING PLACE.

Veast-Where are you going on your vacation, old man? Crimsonbeak-I'm going fishing in

a little lake up in Maine. "Why don't you go somewheres?" "What do you mean by somewheres?"

"You're wasting your time fishing in a little lake. Statisticians tell us that Lake Erie produces more fish to the square mile than any other body is a stupid stickler for realism. of water in the world."

Thought of a Hard-Up Man. "As a rule a dwarf doesn't live to great age.'

"Well, what's the use in living if you've got to be short all your life?"

The Way of It. "Are you in good odor with her fa-

ther?' "Well, as far as he is concerned, 1

am afraid ours would be a centless marriage.

The Velvet tin is twice as big as shown here

"No Rheumatics" is a Mighty Poor Reason for Wearing a Wooden Leg

NTO sting or hot burnin' is a mighty weak-kneed recommendation for tobacco. But when tobacco is mild and cool, and yet as full of "fun" as a barrel of monkeys-well, that's another story-that's Velvet.

And 'cause why?

'Cause Velvet is brought up-not jerked up by the hair. It's raised as carefully as a favorite child. It's cured in the big fresh air. And it mellows away for two years in wooden hogsheads 'til it's smooth and rich as cream. The wonder would be if Velvet wasn't a whacking good pipe smoke.

Cheerrul Giver.

"Brain work is not always well compensated.'

"Brain workers," replied Farmer Corntossel, "is mostly too generous. Every summer boarder we had was willin' to give me advice by the hour on how to run the farm, and never charge me a cent."

Realism.

The Star-The author of this play

The Manager-I have noticed it. The Star-Why he objects to my wearing diamond rings in the scene where I pawn my hat to buy food for the children.-Tit-Bits.

Place Nearly All Right. Mistress (nervously)-I do hope the

place will suit you. New Maid-Well, the house is not bad, and I rather like the looks of the policeman on the beat, but if I stay here you'll kindly take them horrible pictures down .-- London Tit-Bits.

forth with the gospel message. They were given as encouragements to the disciples, to convince them, that the gospel did not lose any of its power by being spread, but rather that its power increased. As the church goes everywhere preaching the Word there will be a corresponding manifestation of power

I. The Healing of Eneas (vv. 32-35). This man's needy condition appealed to Peter, just as men today should appeal to us in their semi-dead state. Like his Master, Peter could not refuse the needed help. In this he did not direct attention to himself, but confidently appealed to the power in the name of Christ: "Jesus Christ healeth thee." The man who had kept his bed for eight long years immediately arose and made his bed. When the Lord heals it is done instantly. Peter wisely kept this miracle from being the end by making it the means to the end. That end was the preaching of the gospel. This brought most gratifying results, for "all that dwelt in Lydda and Sharon saw him and turned to the Lord."

II. The Raising of Dorcas (vv. 36-43).

This woman was full of good works and alms-deeds which she did, not talked of doing. She was a practical Christian woman of the kind that gets down to the practical way of showing her love by doing deeds of helpfulness. Her death was a real loss, as was evidenced by the mourning of those who had been helped. When this good woman fell sick and died the disciples sent for Peter. Peter put them all forth. At his command her soul came back to live in her body. This again caused them to believe on the Lord.

Read the Bible and Think. "It is a good plan to read a book of the Bible through rapidly at a sitting in a shady garden, or on a cliff looking over the sea; then to close the book and think."-Church Family Newspaper.

Transformed Into New Man. As iron put into the fire loseth its rust and becometh clearly red hot, so he that wholly turneth himself unto God puts off all slothfulness, and is transformed into a new man .-- Thomas a Kempis.

sumptuous, cannot outshine the fans made of the splendid feathers of the peacock. These are as wonderful as jewels. Fans of lace and of painted or spangled satin are among the things that are never out of date, and they fans.

"Let Nature mellow yo' tobacco an' that tobacco will shore mellow yo' nature," says Velvet Joe. And he's pretty nearly right.

TATURE-AGEING in the wood does more to make tobacco friendly than any camouflage you can cover it with-and don't you forget it. See, taste, smell, feel the "real tobacconess" in Velvet. Why, you can almost hear it. Velvet's the tobacco you can judge with your eyes wide open and specs on.

There's a whole lot in Nature's way of making good tobacco better. And it's all in Velvet.

Here's to a full pipe and a friendly one.

Liggettorly ere Tobacco Con

-the friendly tobacco

TANEYTOWN LOCAL COLUMN

Brief Items of Local News of Special Interest to Our Home Readers.

Rev. Paul D. Yoder of Baust Church is seriousl ill with pneumonia.

Miss Annie Flickinger, near town, who is ill with pneumonia, is reported to be improving.

Miss M. L. Reindollar returned home, last Friday, after a visit to relatives and friends in Baltimore:

Mrs. Mary Newman, daughter of Mr. and Mrs. Thomas G. Shoemaker, is at her home, here, ill with pneumonia.

Prof. and Mrs. J. L. Hunsberger are entertaining the former's sister, Miss Annie Hunsberger, of Atlantic City, N. J.

The coat faoctory has temporarily closed down, it is said because the cutters of the firm are ill and unable to supply the factories with work.

A large lot of sale work-posters and cards-is finished at this office, and ready for delivery. In fact, we are about up to date with all copy so far received.

Rev. Guy P. Bready made a misstep, this week, while visiting one of his sick members, nnd sprained the tendons of his left heel, causing temporary lameness.

Herman Le Van, who holds a responsible position with the Philadelphia & Reading Railway Co., at Reading, Pa., is spending the week with his uncle, Prof. J. L. Hunsberger.

Sliding on the sidewalks, is all right-for the kids-but just the same we are glad conditions for such amusement do not last long. If they did, we would prefer to live on the level, instead of on a hill.

Almost anything is apt to happen once in twenty-five years. Last week a large part of the issue of the Record went out with the date line on first page "January 23," but, our saying so didn't make it so.

The Council of Trinity Lutheran Church, at its meeting on Monday, voted to increase the salary of the pastor to \$1500.00 a year, beginning January 1st. This was in harmony with like advances made in several adjoining charges.

The Taneytown High School feel very grateful to the community for the generous support given at the oyster supper, last Saturday evening. The receipts amounted to \$82. After the necessary expenses are deducted there will remain about \$60.00 to be added to the piano fund.

Mrs. Agnes H. Kane, nee Hagan, has been granted an absolute divorce from Herman C. Kane, in the Circuit Court, of Baltimore City, with the custody of her two children. The plea was desertion and drunkenness, as well as harsh treatment. They were married in Taneytown, Nov. 24, 1909.

Mrs. Judson Hill is ill with an attack of grippe, but not seriously.

Mrs. Margaret Stott and Miss Anna Galt have returned home from their extended visit to New York Citv.

Harvey Frock killed a large bull this week which dressed 915 lbs., and for which he received \$176. It is one of the largest bulls killed in this section for many years.

The cases of sickness in town and community have consideraby increased, within the past week, and but few families are without complaints of some kind, chiefly colds, or mild cases of grippe.

Master John Bricker who badly | and bonds. hurt his left arm about five weeks ago, but which was thought to have been only a bad sprain, proves to have been a fracture after the taking of an X-ray picture of it at Frederick Hospital, on Monday. The arm is apt to be crooked hereafter, to some extent, but is likely to be normally strong—unless it is broken over and made straight. The fracture is of one of the bones just above the wrist.

Fiftieth Wedding Anniversary.

Mr. and Mrs. Henry M. Null, of Harney, celebrated their 50th anniversary, on Sunday, Feb. 1, with a dinner and reception.

Those present were: Mr. and Mrs. H. M. Null, Mrs. Fanny Hubner, Mrs. Ella Null, Mr. and Mrs. J. Frank Swain, Mr. and Mrs. Chas. R. Reuwer and daughters, Dolores and Bev-erly; Miss Nellie Null, Master Robert Null, Miss Ida Cole and Edw. E. ert Null, Miss Ida Cole and Edw. E. Boughter, all of Baltimore; H. A. Menchey, of Littlestown; Mrs. Eliza-beth Snider and daughter, Luella, Misses Ruth Snider, and Isabelle Eckenrode, of Harney. Owing to the sickness of Mrs. Ella Menchey, of Baltimore, and S. B. Null and family, of Harney they were used to exof Hanover, they were unable to attend.

They were presented with gold coins amounting to \$115.00, and many other useful gifts. After spending an enjoyable day, the folks departed, wishing them many more happy years.

CHURCH NOTICES.

The heaviest snow of the winter fell on Wednesday, accompanied by considerable wind that at night badly drifted many roads, making travel very difficult. The Westminster bus could not operate, on Thursday, on account of the drifted condition of the State Road. More snow this Friday morning.

Mrs. L. B. Hafer was called to Chambersburg, last Saturday, on account of the illness of her sister, Mrs. Frank Brewer, and on Monday evening the news was received here of the death of the latter. Mr. and Mrs. Brewer and family frequently visited at the parsonage. Death was due to a complication of heart and kidney trouble. She was Mrs. Hafer's only sister. Funeral services were held this Friday afternoon.

Our local physicians might at times add to the value of this column by reporting cases of serious illness, hospital cases, accidents, etc. Very frequently we do not know of such cases, and when we do, we do not know whether to publish them as some prefer such items kept out of the paper. The attending physician is apt to know best what to do, and may also prevent publication of incorrect reports.

Mr. Albert Steele, a watchmaker who has been here since last Summer, died at the Central Hotel, on Wednesday, from grippe and complications, aged 67 years. He lived here with his wife, and was doing a nice little business, having by is quiet and gentlemanly manner made many friends. In early life he was in the show business and travelled extensively throughout the country. He is said to have come here from Ashtabula, Ohio. He was buried in the Lutheran cemetery this Friday afternoon, after services at the Central Hotel by Rev. Guy P. Bready.

Pastor Declines Salary Raise.

Sunbury, Pa., Feb. 3.-The Rev. Charles E. Roth, of the First Reformed Church, today refused \$500 yearly rise in salary.

"The increase in salary cannot be accepted at present, largely because the church has big tasks ahead, growing out of the 'forward movement," said Mr. Roth. "The orphans, educations and missions must be helped first. When these children of church have been better served and after conditions generally become more normal this proposition would be most seriously considered for acceptance were it then made.

\$15,000 For Soldiers' Memorial.

Arendtsville, Adams County, Pa., a small town of less than 400 has taken up the task of raising \$15,000 for the erection of a memorial to the service men of the town and surrounding country.

It is the plan to erect an addition to the vocational school which will include an auditorium that can be converted into a gymnasium, and also to include class-rooms and labora-The fund was started with tories. two gifts of \$500 each and a cam-paign will at once be pushed so that the funds can be secured and the building erected at the earliest date.

President Wilson's often repeated argument that it was vital to the Peace Treaty to accept it as written, and that its material amendment by reservations would cause its rejec tion in Europe, seems to have lost about all of its foundations—and from Europe itself. Both England and France appear to be willing to accept the Senate's view of the American policy to avoid entangling foreign alliances and boundary quarrels.
