AN INTERESTING LETTER FROM BUSY DETROIT.

Strike Conditions Pictured as They Affect Workers Generally.

For about the sixth time since we landed here, we are up against a To one not used to such things, it looks like all the common working man does out here, is to look for something to strike for, and he don't need to have very much

urging to do the same, either.

Now, I am not saying that the men who are striking now, and holding up the city's industries, have nothing to kick about, for if all reports are true, the great majority of them, the switchmen and their helpers, were working for less than \$5.00 a day, and I know you can't get very far on that amount. But that fact does not make it any easier for the balance of us, who, on account of the inability of the railroads to move coal, etc., to its destimnation, are deprived also of the opportunity to earn our usual And the strike is also holding back just what the leading men of the country are looking for—more production. About 100,000 men are loafing this week, while the order books of the factories are filled up to the last line on the last page, and thousands of dollars worth of orders are turned away every day.

Not being a union man myself, and having many friends here who are, we have had quite a number of discussions on this subject, and this case has turned out just as I told some of them-the leaders take care of themselves, while the working men who pay to keep up the organization, get the little end of the stick. And it surely looks like another case of broken promises by our infallible government at Washington, which 991/2 out of every hundred out here, are wishing out of power, right now. They surely tried to double-cross the railroad men, and this is the result

We have had to buck up against two street railway strikes, a steel strike, the coal strike, and now this railroad strike. I do not know who will strike next, but cannot think of anything that is connected either with the getting of material, or the operation of the shop, in our line, so I guess the next thing will be for the workers to strike because they have too much work.

There is one thing about these strikes that may be all right in the long run-they give the working man a little vacation, and this is wel-comed by quite a few, as the way things are now, everybody is working overtime, and a man can't stand that all the time. So, I guess all we can do is "grin and bear it," and make the most of it; so that is why I am writing this letter, which otherwise l am pretty sure I would not have done, as I am now on the night shift -12 hours for five nights every week. And if the weather out here were like it usually is this time in Maryland, we could get our garden made, but the ground is covered with snow, and an overcoat feels good when you step out of the house. We have had a long, hard winter, and goodness knows just when it will get warm.

The families of B. O. Slonaker and Ernest Cooley are now settled in their new home a few doors south of us-738 Dickerson-and seem to like it very much. As far as I know, every one of the Taneytown colony in Detroit have steady work, with such little interruptions as the strike now on. Messrs. B. O. Slonaker, Edward Slonaker, Ernest Cooley and Lyman Hitchcock are employed at the Continental Motor Works; Ray Harner at the same place; Ralph Harner at the Essex Plant, Pius Hitelbridle and William Zepp at the U. S. Tire Co's plant, while Marlin, Ervin and I are with the Timken Co., and Leighton is is with the Campbell Pharmacy-one of the largest drug stores in the east end. I have seen Archie A. Crouse's name in the directory, but have not as yet gotten in touch with him, but am sure he has a good job.

I want to say that I enjoyed the letters written by Morris Bishop very much, and as he writes of Bridgeport about the time we lived there. have been trying to think where he lived at the time. He sure has things down fine, when he writes of old "Boss" Smith, as Absalom Smith was called. I wonder if he can recall William Favorite's imitation of a band, that he used to give for the benefit of us youngsters.

We had a primary election out here, with the result that Hiram Johnson won the delegates from this State This is not to be wondered at, as Michigan was one of the four to go for the "Bull Moose" ticket in 1912, on which ticket Johnson ran for Vice-President. The primaries here are very different from those in Maryland, as a man can call for any ticket that he wants, so that a Democrat can vote a Republican ticket and vice versa. Lots of Democrats voted for Johnson, for party ties are very loose, especially among the women, a large num-ber of whom did not know what party they belonged to, but wanted to vote for "the best man." On the other hand, "wet" Republicans voted for Edwards on the Democratic ticket, giving him a respectable vote here. The result of the Newberry trial did not seem to alter the political complexion up here at all, for Democrats seemed to be very scarce on Primary

DROWNED GIRL FOUND On Surface of Water near the LeGore Bridge.

The body of Miss Lillie M. Speilman, of Detour, who was drowned on April 2, was found April 21, near LeGore's bridge, by Wm. Dorcus, of Woodsboro, who brought the body to the home of her parents, Mr. and Mrs. Robert Speilman, when under-taker, M. L. Creager, was notified. Funeral services were held at Haugh's Lutheran church, on Thursday, conducted by Rev. Patterson. Her age was 14 years, 7 months, 14

Surviving are her parents, Mr. and Mrs. Robert Speilman; two brothers, Harry, of Washington, and McKinley, of Detour; also one sister, Mrs. Baker Frailey, near Thurmont.

Taneytown's War Memorial.

It has been definitely decided to improve the triangular spot at the junction of the Uniontown road with Baltimore St., in front of Mrs. John Harman's residence, for the memorial to Taneytown district soldiers. Plans have not been made in exact detail, but will likely include a large curbed circle, in the centre of which a granite monument will be placed, and likely a smaller curbed triangle at the junction of the road and street, forming two grass plots and greatly improving the approach to the east end of the town.

The committee in charge has contracted for a very handsome polished granite monument, from Jos. L. Mathias, on which will be placed a bronze slab containing the 74 names of Taneytown district's war participants. It is believed that by making something of a mound within the circle, and properly grading, as well as providing a turn in the roadway between the circle and triangle, a very creditable location for the memorial will be the result.

At this time, it seems likely that the proper dedication of the memorial can be made on y 4, but of this, announcement will be made later. All who have subscribed to the Soldiers' Memorial, are requested to make payment of the same, promptly, to Edmund F. Smith, Treasurer; or, if more convenient, to M. A. Koons or D. J. Hesson.

Home Makers' Club Organized.

A Jr. Home Makers' Club was organized in the County Agent's office, last Monday night, with an enroll-ment of 21. The following officers were elected: Pres., Ruth Benson; Vice-Pres., Cadoline Wantz; Sec., Anna Yingling; Treas., Thelma Eng-

After talking over the work of the organization, and the project that each girl is going to carry out in her home, a demonstration on the preserving of eggs in water-glass was given by one of the girls. The next meeting will be held Tuesday night, April 27, in the County Agent's fice. Any girls desiring to join had better do so immediately. The girls are working on various projects. Some are going to do sewing work, canning, gardening, poultry, baking of bread, and keeping personal ac-counts. Most of them are taking three projects; some all six. are looking forward to a camping trip in August.

The girls would be glad if some-body who has a second-hand sewing machine that they are not using, would loan it to the club.

Poultry Specialist Demonstration.

H. W. Rickey, Poultry Specialist, will be in Westminster, May 11, 12 and 13. If you wish to consult him in any phase of poultry work, or desire him to call, notify the County Agent. The afternoons will be spent in giving demonstrations at the homes of those who are especially interested. Different points in care and selection of poultry will be demonstrated by Mr. Rickey.

Miss Ola Day and Miss Everett will also give demonstrations in the use of poultry and eggs including the canning of poultry and preserving of eggs. If you are especially interested in poultry work and can get a few of your neighbors together for such a demonstration, we will be glad to have a demonstration at your farm, if it could be arranged.

Anyone desiring such a demonstration kindly notify the County Agent, Times Bldg., Westminster.

Wood and Johnson.

General Wood and Senator Johnson will enter a contest for Mary-land's delegates at the Republican National Convention. General Wood is expected to have by far the largest following, but Senator Johnson is said to be a vote-getter, especially in the cities, and will make a personal tour of the State. Both are of the Roose velt type of men, but General Wood is more conservative, and is believed to have the strongest following of any man in the Republican party throughout the country.

Registration Day, April 27.

Next Tuesday, April 27, is general registration day for voters not preriously registered, and who will be qualified to vote at the election in November. This date is for the purpose of qualifying new voters to vote at the primary election. The registrars will sit in each district in the county, between the hours of 8 A. M. and 7 P. M.

BROTHERS CONFESSES SHOOT ING OF MERRYMAN

Tells Story at Variance with His First Story.

Since March 18, when Joshua Merryman, of near Louisville, was shot, Joshua Silas Brothers, alias "Nimmy" Brothers, and his wife, Lizzie, have been in the Carroll county jail, held as State's witnesses. Up until Sunday last they both stuck to substantially the same story as told by them when first taken into custody. On Sunday morning, Deputy Sheriff Byers went to Brothers' cell and asked him if he did not want to see a preacher, as Judge Thomas would draw the jury next day, and the time was getting short before court. Brothers asked to see the Sheriff. Sheriff Bloom went to his cell, and Brothers told him that he was sorry that he had not told the truth in the first place; that he had shot Merryman.

Later on Sunday, his mother, Mrs. Martha Brothers, of Woodberry, came to see him, and in the presence of the Sheriff, he told her the same story. He informed the Sheriff that after the shooting, as he walked with his wife to the home of Ed. Hardy, he had thrown the revolver away. On Sun-day night, State's Attorney Brown questioned Brothers and the questions and answers were taken down by the Court stenographer, Berwager, and on Monday, in the presence of witnesses (Brothers can neither read nor write), they were read to him, and he signed them with his mark, his confession.

His story in substance is as fol-He and his wife lived at Merryman's in the Spring of 1919, but left before corn planting time. During the past winter they lived with his brother, Frank, between Edgefield and Woodlawn. Some time in February he heard that Merryman wanted him to work for him again, and he and his wife came to Merryman's. Merryman hired him to work the farm for him. Brothers and his wife slept upstairs. Merryman occupied a room downstairs.

The confession was introduced by Mr. Brown's asking him whether he wanted to tell anything about the shooting. His reply was: "Yes, I shot him, and I'll tell you why. I did it because he was running after my wife." He said that his wife had told him, after they left Merryman's last year, that while they had lived there he had been after her. He had never seen anything out of the way. Asked why, after her telling him a story like that, they returned this year, he replied, that as "Liz" was queer, he did not believe there was anything in it. He said that since their return to Merryman's he had seen the old man grab at her several times; that on the afternoon of the day before the shooting, Liz had gone with Merryman's horse and buggy to Mechanicsville; that Merryamn had left the house, and he thought he had gone after her, and followed and watched, but did not see them to-

He said that on the night of the shooting, his wife was in bed. Brothers had taken off his overalls but had his trousers on. He said "The devil must have gotten into me and I came to the conclusion that I would shoot him." He got his revolver, a 32-cal., that had three shells in it; went down stairs quietly and out of doors, where he remained for ten or fifteen minutes, and then came up on the porch intending to knock at the door to get Merryman to come, but that he must have made some noise that Merry-man heard, for he came to the door. It was dark, but he could see Merryman's form inside the door and fired one shot at him, but does not know where the ball went. He then went inside and fired the second shot, and Merryman cried out "My God, my God, I'm shot."

He called Liz, who came down, and they helped the old man upstairs and laid him on their bed. Merryman did not fall when shot and he did not know that he was badly wounded; saw blood on his hand and thought he had only wounded him in the hand. After they got him to bed, Merryman asked him to go for help and let the Sheriff know about the shooting. Liz was afraid to stay alone. did not know that he had fired the shots. She went with him and they went to Hardy's, and on the way he threw away the revolver.

The authorities do not believe his story as to motive, and no one who knows either Brothers' or his wife's reputation and mode of life, can be expected to believe it. was about 75 years old, and lived alone on his farm of about 200 acres, about 10 miles from Westminster.

Bridge Bids Rejected.

At a joint meeting of the Frederick and Carroll County Commissioners at the Court house, in Frederick, last Saturday, three bids for a new bridge over Double Pipe creek, near Detour, to replace the structure recently swept away by high water, were rejected. Two of the bids were for iron bridges, ranging from \$15,000 to The Commissioners decided to ask for new bids, for iron and concrete structures, which will be opened at another joint meeting in Frederick in about ten days. Work was begun on Monday on a temporary foot bridge over the stream, pending the building of the proposed new bridge.

2 MURDER CASES FOR COURT Will be tried in Westminster in May -Jurors Drawn.

The May term of the Circuit Court for Carroll County will begin on Monday, May 10. The civil docket will probably be small. The most portant cases for the criminal docket are the cases of the State versus Dominica Fabrizio and Antonio Potenzianni, Italians, charged with the murder of Dominic Fabrizio, woman's husband, at Union Bridge, and State versus Joshua Brothers. charged with the murder of Joshua Merryman at Louisville.

Chief Judge Thomas has drawn the following jurors by districts: Taneytown-William G. Feeser, James F. Humbert, Edward G. Feeser and George A. Arnold; Uniontown, John S. Burrall, Noah H. Road Construction Held Up.

Chairman Zouck, of the State Roads Commission, has informed the Baltimore County Commissioners that all policies bearing on new road construction and repair will be held in abeyance pending the appointment of a new Commission by Gov. Ritchie. The announcement was made during a conference between Mr Zouck and the Baltimore County men who called to consult on lateral roads to be built as provided by the recent General Assembly. The Commissioners are prepared to urge the improvement of turnpikes and of other public high-

Mr. Zouck, after the conference, said that what he told the Baltimore County Commissioners applies to all the counties. He added that any pol-icy determined upon by the incumbent Commission will not be binding upon its successor. He said that he was not sure of his own reappointment because of an effort by some Democrats to dislodge him.

Gov. Ritchie will consign to the waste heap the several bills passed by the recent General Assembly authorizing the Commission to build certain There were even a score of The only weight which such bills. they would carry if signed would be in the nature of recommendations to the Commission. CLAIMANTS OF REWARD OF FERED FOR WALLACE

Many Want the \$1000.00 for Slaver of Leo M. Creager.

Asserting that she furnished the information which led to the location and apprehension of Clarence Wallace, safe blower and slayer of Leo M. Creager, of Thurmont, and that she wrote a letter to Wallace which was used by the officers of the law as a decoy, Florence Graft, of Baltimore, formally lays claim to the \$1,000 re-ward offered by the county commissioners for the capture of Wallace dead or alive.

Two more answers, and probably the last, to the county commissioners' bill concerning the payment of the Clarence Wallace reward of \$1,000 have been filed in court. Ex-Sheriff Chas. H. Klipp filed his reply through his attorney, Reno S. Harp, while Frederick Lavery, William F. Marquette, and Catharine Higgins, all of Santa Barbara, California, filed their answer through Aaron R. Anders.

Klipp's reply sets forth that he furnished the very first information concerning Wallace's identity when he discovered Martz's watch, Martz being a companion of Wallace at Thurmont, and a partner in crime, took it to Baltimore, found the ticket in a pawn shop and discovered the house in which Wallace lived, and his name, and that of the prisoner in jail and that he got from Martz and from Mrs. Florence Graft the information of the route Wallace had taken to California, and that it was at his request that mail between Wallace and Mrs. Graft was inter-cepted; that Wallace's location was discovered, and the Santa Barbara authorities notified. It was at his suggestion, the former sheriff contends, that a decoy letter was writ-ten to Wallace, the letter advertised, and later Wallace came to the Santa Barbara office to secure this letter and was captured and mortally wound-Former Sheriff Klipp consents to the passage of such decree as the court thinks proper and asked for the passage of an order taking testimony to substantiate his statements

Lavery, Marquette and Miss Higgins, filed a joint reply stating that they were the persons who actually captured Wallace, and that the reward was offered to whoever got him, dead or alive. They assented to the passage of such decree as the court thought proper, but asked to be heard. Miss Higgins is the postal mail clerk at the general delivery window, who, when Wallace asked for the decoy letter which had been advertised, turned in an alarm to the detectives and pretended to be hunting for the letter until Lavery and Marquette arrived. All of the claimants for the Wallace reward have now answered the bill of the county commissioners, except Lester Desgrandchamp, Santa Barbara's chief of police.

Board of Education Meets.

Supt. Unger reported that the agricultural work at Hampstead, Westminster, Mt. Airy, Manchester and Union Bridge were approved by the State Inspector with the understanding that certain suggestions be adopted next year for the continuation of the instruction.

Mr. Elmer Wolfe, Principal of the Union Bridge school, representing the trustees of that school appeared before the Board to urge them to put into the budget Thirty Thousand (\$30,000) Dollars for the purpose of building the Union Bridge school. After careful consideration the Board decided that it would put this item in the budget in view of the fact that it would not be according to the building program previously agreed upon between the Board of County Commissioners and the Board of Education.

Requests for contributions for the purpose indicated from the following schools were presented. The Board contributed \$10.00 to the amount Mt. Pleasant, raised in each case: library, \$28.00; Graceland, library, \$49.71; Priestland, library, \$10.00; Frizellburg, library, \$10.00.

It was deemed advisable to keep the

colored schools open until June 4 Supt. Unger was authorized to proceed to secure coal bids, and place contracts for next year.

The teachers' salary schedule for the year 1920-21 was revised so as to raise the salaries of all teachers, and passed.

Supt. Unger reported that the annual athletic meets, and baseball contest would be held on the following dates: Colored, April 17; white, May 22. The application of the Md. State

Teachers' Association for an appropriation from the Board, was received and honored to the extent of \$25,00. After Supt. Unger reported that no bids had been received for the con-struction of the Myers building, he was authorized to inform the Co. Commissioners, and ask them to express their aproval that the Board proceed to secure bids. Com. Feeser was authorized to make further effort to secure bids for the construction of the building.

OUR SHOES CHEAP IN EUROPE. Why Not Stop Exportation and Force Lower Prices Here?

Commerce Department reports show that more than 1,000,000 pairs of American-made shoes now are being shipped abroad monthly. Average prices for these export

shoes in January were, men's, per pair, \$4.65; women's, \$3.77, and children's, \$1.91. These prices are wholesale quotations declared by the shippers in customs papers. Average wholesale prices in Amer-

The full need of American buyers can only be satisfied at a price nearly double this, it is explained."

Isn't it about time for our Government officials to stop manufacturers from competing for European trade, at our expense? Our sugar has gone to Europe; our shoes and clothing; we have loaned (or given) them our money, sent them our food, and about everything imaginable. Between profiteering manufacturers, and striking labor, the average American consumer is not given as much just consideration as a foreigner-except to pay the outrageous prices forced by

What Demands of Strikers Mean.

Here are the effects of some of the demands of the railroad brotherhoods to be considered by the new Labor

Passenger conductors on the run between Washington and New York will receive \$24.64 for the round trip. They now receive \$17.28.

For the run from Baltimore to Harrisburg and return passenger conductors now receive \$6.67. They demand \$18.44.

A road engineer, working a 30-day month at 14 hours a day, will be paid \$765 a month under the proposed scale, or \$190 a week,

An engineer on a local freight train working 26 days a month for 12 hours a day, would receive \$591.50 for a month's work.

The abolition of physical examinations is demanded, without prejudice to the employe's pay. Under this system, if an engineer be disqualified because of eye weakness, he must be given a position where his eyesight makes no difference, at the same pay

he got as an engineer.

Behold the mighty army of the oppressed, with brass bands and banners, all protesting against the grinding of capital and the denial of "rights." There is no head to it, for the procession is a continuous circle. There are the soft coal miners, then the hard coal miners; next are the railroad enginemen, followed by the train men, the track men, the yard men and the shop men; the steel workers come next; the freight handlers are out in force; the textile workers are there; the carpenters, bricklayers and hod carriers are in several divisions; the telegraphers and hello girls are in with a band; the butchers, the bakers, motor men, printers, barbers and waiters, follow in order; the shipbuilders-but, what's the use of trying to remember the whole

"The strikers will accept the terms of the operators, and go back to work" What a highly pleasing head-line, thereby, that we are free for a little while, to have enough to eat-if we have the price-and to imagine that this is something of a free country, after all. All we have to do is step lively, look pleasant, be sure to "fork over" when the highwaymen appear, be careful to know our place-and not shoot.

The "overalls" wearing clubs will not cure much of the high price disease. It may be an ingredient of a general plan for good treatment, but the fight must be against more than wearing apparel. As the Philadelphia Ledger says, "poverty must be made generally fashionable"-or, the appearance of poverty. If the "beggars on horseback" class could be corraled, and their earnings allowed to accumulate for several months and if the "high-rollers" could all be sent to Europe for six months, some good effects would surely result.

How to Bring it About.

It has been proposed at different times, and most recently by Chauncey M. Depew that "the middle classes must perfect a union for self-protection," against the about ten percent. of the population that is striking, forcing, and wage and otherwise profiteering, making the other 90 pre-cent. slaves and victims. Very good, Chauncey; we thought of that, and said so, months ago; but, saying and doing a thing are separate propositions.

Work out a plan, and the ninety will be for it. We have a notion that such a plan is not so obscure, or far away, as may be imagined. The main thing needed in the way of constitution and by-laws for such a union, is the emphatic, definitely pledged resolution demanding of our public officials that they find ways and means of going right after strike leaders, strikers in the ranks, and profiteers of all kinds, whether in labor or elsewhere, or to meet with prompt oblivion as public officials.

The votes of the people will do it. Get together a bigger crowd than the present force promoters—a very much bigger crowd-and say to our officials, from the President on down, you must stop being servants of the few, and serve us, or go out of the job of trying to run the government. In such a movement, some may get hurt-in life, soul of all flesh. The spirit is the their pride, their official dignity, and in their personal preferences; and some who are innocent and honest may be hurt, too.

(For the Record.)
Man is a great storage battery. Our world without is made by our world within, " for as a man thinketh in his heart, so is he." He is just what he thinks. Man is a triune being spirit, soul and body. The body is the house in which he lives. The soul is the animal life. The blood is the intelligent being. It is the inbreathing of the Creator. Man is therefore an individualized spiritual being, the same as his Creator in quality and kind but less in degree. Man like his

These same anatomists tell us that in every child born normally ,there are from 500,000,000 to 1,200,000,000 independent brain cells or dynamos. All mysteriously connected, and each one directly charged and empowered from, and by, the one great power house, the Creator of the heavens and the earth. The provision for our spiritual life is much more abundant than for our material life, and He expects each of us to use the Godgiven powers to the full; because, each one of us will be judged according to the light he has received, and rewarded according to the works done in the body. Do you now begin to realize the unused, undeveloped, unthought of, possibilities within you?

When we were at Niagara Falls, Ont., we went into the Toronto Electric Power House. Through the courtesy of the Master mechanic we were shown every thing in detail. Many things impressed us, but the most impressive was the number of little separate dynamos, each acting independent of the other, yet, all so connected together as to act in perfect unity, at the will of the operator. All were connected with the principal generator. Then we were shown the

RUTH'S WISE CHOICE.

GOLDEN TEXT-Thy people shall be my people and thy God my God.-Ruth 1:16. ADDITIONAL MATERIAL-Ruth 2:1-4;

PRIMARY TOPIC-The Story of Ruth. JUNIOR TOPIC—Ruth and Naomi.
INTERMEDIATE AND SENIOR TOPIC YOUNG PEOPLE AND ADULT TOPIC

The Power of Personal Influence.

1. The Occasion of Ruth's Choice.

2000年200

On account of the famine in Bethlehem-Judea, Naomi with her husband and two sons sofourned in the land of Moab. After the death of her husband, her two sons married Moabitish women. After a time her sons died also. Upon the death of her sons she resolved to return to her homeland. having heard that the Lord had visited his people in giving them bread. Her family went to Moab to escape trouble, but they only got into more trouble. It was not till Naomi was thus chastised that she resolved to return. She had the good sense to recognize that the hand of the Lord was upon her for good. Ruth and Orpah accompanied her. This she permitted, but determined to place before them frankly the difficulties which would necessarily confront them. It was this frank presentation of the difficulties and her repeated urging them to go back that furnished the occasion for Ruth's wise choice.

II. The Trials of Ruth's Choice (vv. 16-18).

Much as Naomi loved-her daughtersin-law, she would not have them go into this matter blindly. She wished them to know the cost of their undertaking. She told them the worst that could come upon them, then if hardships came they could only blame themselves.

Note the difficulties which confronted Ruth:

1. No chance to get married again. Naomi told her that she had no more sons for which she could wait. In that day to be unmarried was the greatest disgrace. Furthermore, it was against God's law for the Jews to marry outside of their own people.

2. She must renounce her gods. Her idolatrous worship could not be carried on in the land where God's people dwelt. This was delicately touched upon when Orpah went back (v. 15). Orpah went back when it was plain that there was no chance to get a husband. Now Naomi puts an additional test upon Ruth, that of giving up her religion. Naomi's very frankness in dealing with her caused Ruth to be more and more determined to cast her lot with her. No doubt she learned to love the true God through the life of this true woman. She was determined to share Naomi's journey, her home, her lodging, her lot in life and her grave in death, whatever that would be. To crown it all she would renounce her heathen gods and embrace Jehovah. When Naomi saw that Ruth's mind was fully made up she quit urging her.

III. The Glorious Issue of Ruth's Choice.

Ruth was never sorry for her choice,

1. She found the true God (v. 16). 2. She found human friends (ch. 2). As she went to glean in the fields she was led to the field of Boaz-a man of wealth and grace. The servants of Boaz treated her with consideration: even Boaz gave instruction for special consideration to be given her.

3. A good husband and a happy home (chaps. 3 and 4). She not only secured a husband, but a man of God. who had abundance of this world's

4. An honored place in the Israelitish nation (4:13-17). Though she had to forsake her own people, she became one of a nobler people.

5. She became a link in the chain of Christ's ancestry (4:18-22; cf. Matt. 1:5). The one who fully decides for Christ and gives up all for him shall get a hundredfold in this life and in the world to come, eternal life.

This story is a fine exhibition of dis-

pensational truth: (1) The famine in the land indicates the testing of the Jews; (2) the going into Moab, the sojourn of the Israelites among the nations; (3) sickness and death in Moab, the chastisement of the Jews in this present age; (4) the return to the land, the gathering of Israel to their own land; (5) Ruth following, the gathering of the Gentiles through the influence of the Jews; (6) the marriage between Boaz and Ruth, the union of the church with Christ.

Faith in God.

If your faith in God is stronger for every humble task in which you need and get his aid, then that humble task is necessary to the fullness of your faith in God. It will make the music of your life more firm and solid .-Phillips Brooks.

Loom of Life Never Stops. We sleep, but the loom of life never stops, and the pattern which was weaving when the sun went down is weaving when it comes up tomorrow. -Beecher.

... April 25 Christian Principles in Personal and Public Health 1 Corinthians 6:19, 20

The two verses of our Scripture lesson are so rich in spiritual truth that it is difficult to confine them to the topic of personal and public health. Our topic has in view the health of the body, while the Scripture reference applies to the health of the whole man, spirit, soul and body. Health is wholesome; it is a kin to holiness. It is the result of the harmonious working of each separate part with every other part. This produces wholeness, holiness, health. A physical giant with a dwarfed soul and a deadened spirit is no true picture of health. The all-around man is the healthful

Calvary and Pentecost stand out conspicuously in the Scripture lesson. "Ye are bought with a price." Where and when? At the place called Calvary where Christ died for our sins. The price having been paid, it follows that "You may be that "You may be the state of the stat lows that "Ye are not your own."
This must be recognized and realized by faith. Not till then does the Holy Spirit dwell within, making the body His temple, "for if any man have not the spirit of Christ, he is none of his" (Rom. 8-9). The indwelling of the Holy Spirit is the greatest factor in the preservation of bodily health. The constructive forces of the body are quickened and strengthened by the divine indwelling.

From this center, the essential center of Christian faith, we may move out in ever-widening circles to the blessings and benefits of sanitary science, and all the activities of a Christian civilization for the further ance of personal and public health. Christian principles call for an aggressive and progressive campaign for the preservation of health and life. On the principle of love and sympathy, we have hospitals and homes for the needy. On the principle of wisdom and for the general good, we demand supervision of the milk supply in order that the lives of the little ones shall not be endangered. Legislation against child labor and the enforcement of the weekly rest day, all proceed on the plane of Christian principles. The prevention of disease rather than the application of cures for disease is an outgrowth of Christian education. Millions of dollars are being spent by our cities in the crea-tion of play-grounds and the provision of parks, all of which is an indirect result of a civilization built on Chris

How much should I give to make this a better world?

CERTAIN man in New York filled out his income tax report.

It showed an income so large that his tax was 53%. And his total gifts to church and charity for the year were \$148.

Think of it—thousands spent for luxuries and pleasure for himself; and \$148 to leave the world a little better than he found it!

Most of us do better than that; but not so very much better.

Our average daily gift for all church causes is

-less than we spend for daily papers -less than a local telephone call

-less than a third of the day's car fare -less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than \$20 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 400,000 people. No wonder that every church board and charity society is forever meeting deficits, forever passing the hat.

It isn't because we are selfish; it isn't because we don't want to help. It's just because no one has ever put up a great big program to us, and asked us to think of the work of the church in a systematic businesslike way.

The Interchurch World Movement represents the united program of thirty denominations. They have surveyed their whole task, no business could have done it better.

They have budgeted their needs; no business could have a more scientific budget. They have united to prevent the possibility of waste and duplication. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

And they come to the men or women who love America -to you- this week asking you to use them as the channel through which a certain definite part of your income can be be applied to make this a better world.

Only you can determine what part of your income that should be.

It's a good time right now to answer that question. We're passing through the world just once; how much better will the world be because you passed through?

To the Republican Voters of Carroll County

Mr. Clark seeks the nomination for Congress. He is a native of Aberdeen, Harford County, and has worked his way up from the ranks. He is a successful Attorney, a forceful speaker, and if nominated will make the hardest Campaign ever made in this old District. He has always been a consistent Republican and will win this District if nominated. His Campaign will be based on the duty of the Republican Party to point the way back to American standards of government, business and economy, from which the Nation seems to be unconsciously departing under the present Administration.

Give him your vote and give him the chance to make the fight.

He will win. He will be heard from, as he is a man of vigor, of initia-
