No. 37

YOUNG LADY KILLED AT BUCKEYSTOWN

The Victim a Grand-daughter of Mr. and Mrs. Geo. W. Hess.

Miss Arta Iris Jenkins, grand-daughter of Mr. and Mrs. George W. Hess, of Buckeystown, and daughter of Mr. and Mrs. Ernest H. Jenkins, of near Berrett was shot and immediately killed at the home of Mr. Hess, on Sunday last, by Harvey Gartrell, aged 20 years, an unwelcome suitor of Miss Jenkins. Gartrell turned the pistol on himself but inflicted only a slight wound, then escaped in his automobile that he had left standing

Miss Jenkins, who was a very pre-Possessing looking young lady, 17 years of age, came to the home of her grandparents the first of this year to care for her grandmother who was not in good health. Young Gartrell came to see her several times, but his attentions were objectionable, and he was so informed.

On Sunday morning, Miss Jenkins, in company with Mr. and Mrs. Hess, had attended services at the M. P. Church. On their return home Gartrell called while the ladies were in the kitchen preparing dinner. Mr. Hess invited the young man into the house, and Miss Jenkins, after hesitation, went to the parlor to meet him, and about one minute after, a scream and pistol shot were heard.

Mr. Hess rushed into the parlor and found his granddaughter lying motionless on the floor with blood rushing from a wound in her head. Gartrell then turned the weapon on him-self, fired and fell to the floor, but was not seriously injured. Mr. Hess wrenched the pistol from the murderer, who jumped to his feet and made off in his car, which was found deserted about two miles away, near the Monocacy river.

A physician was summoned, and later a coroner's jury. Death was found to have been instantaneous from a 32 calibre bullet. The bullet that the murderer fired at himself was found in the rear wall of the

Young Gartrell is the son of Mr. and Mrs. Sankey Gartrell, of near Morgans. At first it was thought that he had made for the river and drowned himself, but this supposition later proved to be incorrect. He is supposed to be still at large, notwithstanding all efforts at tracking him.

The parents of Gartrell are much depressed over the tragedy. They have a large family and are in poor circumstances. Gartrell, who was in charge of a fleet of automobile trucks at the Woodbine Canning Company plant, contributed to the support of

Mr. and Mrs. Geo. W. Hess are former residents of Taneytown district, where both have a large number of sympathetic relatives and friends who share their sorrow. Mr. Hess is a teacher at Buckeystown Industrial school.

The funeral of Miss Jenkins took place Wednesday afternoon at o'clock from the home of her grandparents. A great crowd was present at the services, conducted by Rev. M. McLynn of the Messiah Lutheran Church, Carroll County, and Rev. C. W. Kirk of the Methodist Protestant Church, in Buckeystown.

Recollections of Brower Family.

The following are extracts from a letter from H. C. Edwards, Nat. Military Home, Ohio, to his daughter,

dated February 20, 1922.
"This is 1 P. M., Monday. The weather has clouded a little. I received the Record this morning and read it. I read that you had another heavy snow and below zero weather. I hope you have no more snow this

"I also read of the death of Warren Brower. He, his sister Sidney and I, went to school together. Warren's father lived on a farm near "Long's" school-house, Uncle Wesley Wilson, as a boy, worked for him (Major Brower) and in winter went to the same school until Uncle Wesley went to New London to learn the black-8mith's trade. About the same time Major Brower quit farming and moved to the house at Poole's store, and clerked for Poole. The children were often at our house and we still went to school together, (in the early part of 1861 I think).

Major Brower died and was buried at Unionville church. I belonged to a company of "Home Guards" and we buried Major Brower with military honors. I was one of several who fired the salute over his grave. Shortly after, I joined the army, and never saw any of them again. You have notice Warren was only a few months younger than I. Friday, Feb. 24, I will be 78 years old, if I live until then. Time passes fasts as one grows older."

How to Make Home Brew.

Chase a wild bullfrog three miles and gather up the hops. To the hops add the following: Ten gallons of tan bark; one half-pint of shellac, one bar of home-made soap. Boil the mixture 36 hours, then strain through an I. W. W. sock to keep from working, then bottle up and add one grayabanner to each nint to give one grasshopper to each pint to give it the "kick."

The above receipe was sent to us by Cyrus R. Flook.—Middletown Register.

A BILL FOR NIGHT SCHOOLS. Against Unjust Ruling of State Board of Pharmacy.

A Bill now before the Senate conferring upon night schools of Pharmacy and Chemistry equal status with day schools, is of vast importance in principle, though apparently directly interesting only a few schools One of the leading schools in Baltimore-Milton University-conducting night courses, has issued a circular letter on the subject, with which The Record fully agrees.

The State Board of Pharmacy has

taken the ground that night school students are not eligible to take the State Board examinations therefore the pending bill is for the purpose of over-ruling that decision, and this Bill has passed the House. Milton's answers to the State Boards ruling,

Since 1909, the date of founding of the department the standard had been all that these advocates of higher standard were now demanding, (Catalogs from 1910 on exhibited to prove same); that there was no pharmaceutic subject that was essential that could not be taught at night, and if so why were druggists allowed to keep open at night and compound prescriptions? And that on the matter of reciprocation, it was vastly more important to legislate for Maryland men to remain in Maryland than for the birds of passage who desired to pass an easy examination to get into another state where examinations

might be more difficult.
Result of Hearing: The Bill was unanimously recommended by the Committee and passed by the House, February 27, and sent to the Senate where it now is in the hands of the Judiciary Committee of that body. In the dozen years of the Milton Night Course fully 100 students have taken the work and passed various state board examinations. A dozen of these are proprietors of pharmacies in Maryland and others in other states many are successful clerks. Surely

such a record speaks for itself and shows the Bills manifest worth.

Milton School sent, two years ,a questionnaire to all the State Board Secretaries in the United States and thirty-four responses were received and of those thirty-four only seven states then demanded that the candidate be a graduate of pharmacy to be admitted to the examinations, and it is hardly likely that much change has occurred in the two years since.

Bill No. 219 does not ask that the standard be lowered; it merely asks that the competent, no matter where educated, be given his chance.

From McMinnville, Oregon.

Editor Record :-

We are getting ready to leave Oregon. Will leave the 28th. of February, for Denver, Colo., where we will spend a few days, then will rious political organizations are exgo to Omaha, Nebraska. The weathis fine here; had very little snow this winter. We were at Pacific City and got a boat and crossed Nestuck river to get to the beach. Nestuck river empties into the Pacific ocean about one mile south of Pacific City. Last November they had a flood

that washed the bridge away at Pacific City. We traveled through a section of timber land that was burnt about sixty years ago. Some places young timber grew up again and other places the timber did not sprout up, but there are millions of tree snags standing. The forest fire was twenty miles in length, but I did not learn how wide a scope it burnt over.

The farmers are busy plowing and sowing their oats. Some people are making garden, and sowing tomatoe seed out doors in boxes on their porches. Last Thursday we were in Portland. It is a nice city, and has some fine buildings. The Columbia river runs through the city. You can stand on the mountain and see all over the city. The population is about 250,000.

We were in Montgomery and Wards building and ate lunch there. The building covers nearly a city block and is ten stories high. The fourth story is a lunch room. There are about four hundred clerks in the building. We looked around at the goods and the prices were about the same as at other stores. Then we went to the fish market. They had most any kind of fish you could think of, and most any kind of price too; fresh salmon, 40c pound.
J. D. OVERHOLTZER,

Mail Pouch Cut to Pieces.

Grand River, Iowa.

The fast mail, last Saturday morning, ran over the paper pouch thrown off at Detour, and cut its contents into pieces, among them being the package of Carroll Records for Detour. Why these papers did not reach Detour, on Friday evening, is unknown to us; but it was due to mishandling, somewhere, by the postal

Hauver, both of Foxville, Frederick Charles L. Black and Pearl E. Staton of New Windsor.

TRYING TO DEFEAT MORAL BILLS.

Both the Race Track and Liquor Bills, for Next Week.

Senator Snader introduced a bill requiring manufacturers of olemargarine, or other substitutes for butter, to pay an annual license fee of \$1000.00 a year; and further, that wholesalers shall pay a license of \$500.00 a year, retailers \$100.00 a year, restaurants serving butter substitutes \$50.00 a year, and boarding house keepers \$10.00 a year. Other features of the bill require the keep-

ing of records of sales, etc.

Both the Prohibition enforcement, and the racing bills, are in Commit-tee in the Senate, where it is said they will stay until next week. As in the House, the fight on the Enforcement Bill in the Senate will be made on a referendum amendment, and friends of racing hope either to get a referendum on the Anti-Gambling Bill or to have substituted for it another bill introduced in the Senate by Senator Frick providing for a State tax of \$10,000 a day on the four one-mile tracks, from which revenue \$100,000 is to be set aside for distribution among agricultural fairs in the several counties.

Both the "wets" and the gambling interests are in the meantime trying to arouse sentiment and excuses for defeating both bills, the loss of rev-enue to the state, in the racing bill, being played as the strong issue

A Bill passed the Senate, authorizing women, in Emmitsburg, to vote at municipal elections. Like bills have passed, relating to other towns.

The House is very much further ahead with business than the Senate, and the latter will need to put on steam to get through, especially if obstructive tactics are employed over

any of the bills.

Fourth of July celebrations will lose much of their thunder if a bill introduced in the Senate Tuesday by Senator Fox of the Fourth Baltimore district is enacted. Fire crackers and other forms or pyrotechnics would be restricted to the less violent varieunder the provisions of the bill and the cannon crackers of near-Busy Bertha dimensions would become only memories.

Following the receipt of hundreds of telegrams and letters asking for a favorable report on the resolution accepting for the State of Maryland the provisions of the Sheppard-Towner Act, known as the "Maternity Bill," Delegate Gambrill, chairman of the House Ways and Means Committee, has granted another hearing to the preponents of the measure to be held next Tuesday, at which a large delegation of women members of vapected to attend.

The enemies of the enforcement law, and of the anti-ract track bill, have been busy all week circulating propaganda hoped to influence votes in the Senate against these measures. It is believed, however, that there is a safe majority in favor of these laws that cannot be influenced, against the moral issues contained in them. For the credit of the state, both should pass.

David E. Stem Dead.

David E. Stem one of the oldest merchants of Carroll County, died at his home at Sams Creek, near New Windsor, on Saturday morning last, aged 87 years.

He was president of the Westminster Deposit and Trust Company and president of the First National Bank of New Windsor. The old Straw-bridge Meeting House of the Methodist Church was located on the farm of the first sermon by a Methodist minister in America. A few years ago Mr. Stem conveyed the site of the old M. T. church to the Methodist Episcopal Historical Society and a monument was erected. He is survived by one son, J. Ezra Stem, of Westminster, and two daughters, Miss Margaret Stem and Mrs. George E. Matthews.

Answer to the Problem.

In order to test out what the pupils in our schools are doing in arithmetic.
The Record presented its little problem of the cost of 52 sheets of paper. From the very few replies received, we are uncertain as to the situation; whether but few scholars read the Record; whether they read it, but were too lazy to exert themselves; or whether the problem was too hard for them. We have our own opinion.

The following sent correct answers -.5272 cents; Miss Edith Lemmon, Taneytown school; Miss Blanche Lemmon and Miss Vada Lemmon, Harney school. Two correct answers were furnished by adults not in-cluded in our request. One near, but incorrect, answer was received from Emmitsburg; and another that was

----× Our Dictionary Offer.

We have left only 13 copies of the Dictionary—of which we have had the second lot—and will not order in any more, unless necessary to fill orders. The combination offer lasts only until April 1, the last statement of which appears elsewhere in this isA DISTILLERY ROBBED.

A Large Portion of the Whisky Since Recovered.

A dispatch to The Sun, from Frederick, says: About 30 armed men entered the Government warehouse of the Horsey Distillery, near Burkitts-ville, early Wednesday morning and stole a large quantity of whisky, variously estimated from 50 to 70 barrels. This warehouse was also robbed last September.

The liquor was hauled away in three trucks, preceded and followed by several automobiles. One of the trucks, containing 17 barrels of the stolen goods, stalled on a steep hill near Jefferson, where it was abandoned and found some hours later. Late in the afternoon revenue officers recovered 21 barrels of the stolen whisky on the farm of John Haines, near Newmarket. Haines and his negro farm hand were arrested and committed to jail, charged with being implicated in the theft. An automobile was found abandoned in "Whipperwill Hollow," near the Baltimore State road near Newmarket, thought to have been one of the cars that accompanied the

liquor caravan. The three guards, Deputy Sheriff John T. Hemp, of Burkittsville; William Harp and John Maddock, the latter two of Baltimore, had just completed their rounds and had been in the distillery office but a short time when a crashing blow was dealt against the door, which gave way and about 20 unmasked men swarmed into the office. Each carried a gun, Hemp said, and all covered the three guards, and quickly bound, their legs with rope and their arms and hands.

The trucks, one at a time, were backed up to the door of the warehouse and were quickly loaded. As each truck was filled it drove away. Four or five men accompanied each truck, until but one man was left to

watch over the guards.

After the last guard left the office, Hemp broke the tar tape around his wrist and released the other two guards. He then secured the automobile of John Wetnight, who resides nearby, and hurried to the home of Charles T. Meyer, the owner of the distillery and notified him. Meyer at once notified Sheriff James A. Jones, and the latter and Deputy Smith went to the distillery and began an investigation. It was during the Sheriff's probe that the truck loaded with 17 barrels of whisky was found near Jefferson. The truck bore Maryland icense plates and one of the barrels had been opened. The robbers had evidently partaken of the stolen liquor for the tracks in the road which the Sheriff followed, zig-zagged from one side of the highway to the other. The truck was taken back to the distillery and the whisky unloaded.

A later report says that 38 of the 39 barrels of whisky stolen have been recovered. Development are expected that will round-up most of the gang engaged in the job

LAST EFFORT OF "WETS."

We have information this Friday morning, from Annapolis, that the liqour interests have sent 10,000 petitions throughout the state asking for the defeat of the enforcement law. They have men all over the state pushing their work, as a last effort, and will do their best to influence Senators to defeat the Bill.

Counteract this by writing Senator R. Smith Snader to stand firm against this drive, and pass the Bill as it came from the House, without any amendment. Get a dozen or more of your neighbors to sign the letter.

A Farmer's Meeting.

A meeting of all the farmers in the vicinity of Taneytown, will be held in the Opera House, Monday, March 13, at 1:30 P. M. Questions in regards to the pooling of orders to buy and sell farm supplies and produce, will be the main topic for discussion. speaker will be present from the Maryland Agricultural Corporation. Every farmer should be present at this meeting.

NEW ELECTION LAW FOR MARYLAND

Would Call for Elections only Every Two Years.

A new bill is to take the place of tne bill previously introduced. It will be introduced in the Senate and sent to the Committee on Constitutional Amendments, where the present measure now is. The plan is to report out the new bill and keep the original measure in committee until the Senate acts on the new one.

The following is the chief provis-

ions of the new bill: To hold all State elections with the "off-year" Congressional elections, as distinguished from the Presidential

elections. "To elect all county officers at the same election at which the State offi-

cers are named.
"To elect all State Senators at the same time, for the present fouryear terms, instead of half of the Senate each two years, as at present. "To arrange all appointive offices, State and county, to suit the new

system. 'To change the terms of all State and county offices to four years instead of two, three, four and six, as at present."

The proposed changes, if enacted,

will eliminate all elections every other year, except where the muni-cipal election in Baltimore intervenes and provide for the election of members of the House of Delegates for four years, or two terms, instead of two years and one session, as at pres-

It is proposed to make the changes effective in the following manner;

If the new article to the Constitution, through which the changes are proposed to be made is adopted by the voters at the Congressional elections next November, then all State and county officers who are to elected at the regular State election to be held in November, 1923, shall be elected for different terms. That is, the Governor and Attorney-General shall be named for three years, instead of four; members of the House of Delegates for three years, instead of four, and so forth, in order to bring the State elections up with the Congressional elections by 1926. After that time all of those elected, including members of the House of Delegates, shall be named for four-year

This would not entail the election of any State or county officers with the President.

Concentrating of Liquors in U.S.

Washington, March 2-The greatest movement of whisky in this country since the advent of prohibition is about to take place in the concentration of 38,000,000 gallons in guarded

This whisky, United States Commissioner Haynes said today, is now held in 304 warehouses of various characters in Kentucky, Maryland and Pennsylvania.

Special provisions to insure the safety of transportation are now being worked out by Assistant Commis-

sioner West, who has gone to Kentucky to look things over. There is in Kentucky 24,000,000 gallons of whisky, according to the calculations of the prohibition unit; 6,600,000 in Pennsylvania, and 3,000,000 gallons in The Government has 124 bonded warehouses that contain less than

100,000 gallons each, and discontinuance of their use, according to the prohibition officers will save \$500,000 a year. Where the liquor shall be stored has not been decided. In all probability most of it will go to Kentucky owing to the large amount of liquor stored there now.

The concentration of these liquors is expected to check for all time "leakages," through which the whisky has found its way into illegal chan-nels. The tax paid for withdrawals of whisky for medical purposes last December according to prohibition officials was on 140,000 gallons. In other words the 38,000,000 gallons is being consumed at the rate of 2,000,000 gallons a year.

Our "Blamed" Glands.

We print an article on editorial page, this issue, written by J. Thos. Wilhide, of Toronto, Canada, for The Record, entitled "Glands now Blamed for many Crimes." It is interesting to say the least, and no doubt much, if not all, of it worthy of acceptance. Having an unprofessional mind along this line, we are unable to decide whether we ought to eat more "hog feed," or not.

W. M. R. R. Workers Protest.

The W. M. R. . has contracted with the Dickson Construction Co., to take over the contract for the maintenanceof-way department of the system; and it is reported that many trackmen have been laid off, and others have quit.

Wages, commencing on Wednesday, were reduced from 391/2 cents an hour, to 25 cents an hour, and pass privileges of employees have been revoked As many of the employees live inconvenient to the work, the cost of transportation would interfere with their keeping their jobs.

HOW FARMERS LIVE.

By Hope and Faiht, and Market by Accident.

Mrs. Nels Radick, of Minnesota, vice-president of the United Society of Agriculture, appeared before a Senate committee, last week, to speak in favor of a bill pending before the Committee in the interests. fore the Committee, in the interests of Agriculture. She told the com-mittee the farmers' wives and children are in desperate condition because of the decrease in prices of farm products.
"Many of the farmers in my neigh-

borhood have had to take their children out of school and do work beyond their strength on the farm to get every possible bushel of corn and grain that can be gathered," she

"It cost us 72 cents to produce a bushel of oats and oats are now bringing 39 cents a bushel. We lost \$1700 on two carloads of cattle in May, 1920, and twelve farms in our own township have been advertised for delinquent taxes. We had to sell our Liberty Bonds to pay our taxes, and these bonds had been driven

down 10 to 15 points. "Farmers live by nope, faith and accident. We plow and sow in hope, live in faith and market by accident. The farmer, his wife and his family got about 5 cents an hour for last year's work. Children on the farm are just vocal agricultural implements. Six million farm women are fighting for their children."

She urged that the Government stabilize the price of staple farm products for a few years and create a farm products export corporation to finance the purchase and sale abroad of surplus farm products, all of which are virtually the provisions of the Ladd-Sinclair bill.

Road Contest Decided.

A bitterly contested road case was ended in the Circuit Court, before a jury, on Saturday last, with Judge Moss on the bench. The Sun correspondent says of the case;

"On October 20, 1920, Thomas T. Shaffer, Harry Black and 28 others filed a petition with the County Commissioners for the opening of a county road seven-eighths of a mile long in Manchester district. Examiners were appointed and the road laid out. The examiners reported that the advantages to property owners equaled the disadvantages and allowed no damages. Harvey J. T. Rhodes, of the land owners, through whose property the proposed road was laid out, with others, objected to the report of the examiners. The County Commissioners confirmed the examiners' re-

From this action Mr. Rhodes took an appeal to the Circuit Court, where the matter was heard before a jury. During the trial, which took two days, the courtroom was crowded. More than 50 witnesses were examined. The jury, by its verdict in favor of the road petitioners and by refusing to award any damages to Mr. Rhodes, confirmed the action of the County Commissioners. Messrs Bond & Parke represented the petitioners and Guy W. Steele the objectors."

So, Mr. Bryan is apt to come back as Democratic leader! Well, times have changed, Mr. Bryan, and a lot of ancient history ought not be dug up against you. The country needs leaders of the best sort, and nobody ever accused you of being morally wrong on anything.

President Harding is taking a brief rest at St. Augustine, Florida-but, Mr. Hughes has returned home to sit

All articles on this page are either original, or properly credited. This has always been a fixed rule with this Office, and we suggest the adoption of it by our ex-

Mr. Dimarco, a Baltimore city representative in the House, in a speech on the floor charged that an Allegany county delegate was an avowed "bootlegger;" that he had made this declaration while under the influence of liquor, yet had voted for "enforcement." If true, this was evidently a case of "Don't do as I do, but do as I tell you."

This shows why there is great opposition to Baltimore city holding the power it wants, in the legislature. Twenty-one of the city's delegates voted "against" the Prohibition enforcement bill and one "for" it. Seventeen city delegates voted "against" the repeal of the race-track gambling bill, and five voted "for" it. Baltimore county voted five "against" enforcement, and two "for" it; and four "against gambling repeal, and two "for" it.

Now that Senator France is pretty surely out of the way for renomination as U.S. Senator, why should not the Republicans of the state make a stand for the biggest and ablest Republican in the state-Phillips Lee Goldsborough? It is hardly likely that some of the big leaders of the party will take this advice but just the same, for real Senatorial ability, on all counts, there is not a man in the state that can match up to the Goldsborough standard, and who would "know where he is at" from the very first day in the Senate.

Senator France, who has been more or less a go-it-alone sort of Republican ever since his election, now appears to have severed about all the chances he ever had for renomination to represent the Republican party of the state, in the Senate, by repudiating the administration's fourpower treaty. It is not so much his disagreement with the treaty, as his manner of expressing himself, that counts against him, and the supreme authority he takes on himself as being the only real interpreter of the George Washington style of Americanism. The Senator appears to be taking his opinions too seriously, in a pretty general way.

Why is This True?

Most large newspapers have a "Letters to the Editor" department, or some other heading under which the public is invited to express its opinions on current topics of importance. From our observation, this privilege is more frequently taken advantage of by those opposed to, rather than by those in favor of, moral and educational uplift questions, and we wonder, Why?

It must be that the "personal libertyites" and those who favor little restriction, and the lower order of things generally, are either in the majority or are better boosters of their opinions; those who see the value of advertising along the line of opportunities to impress public sentiment; while the constitutionally upright take too much for granted, and do not go to the trouble of trying to controvert false reasoning, thinking perhaps that doing so is beneath their

This is very high-toned and mild,but it is not the way to win battles. The "public forum" these days needs to from those who represent and believe in, aggressive righteousness. Leaving the church papers to educate the public on questions of right will not be far, if at all, from meeting the Creator put into the human machine Glands? A Colon? An Appendix? Did He make a mistake? Do lic on questions of right, will not do, for the reason that only a very small the churches.

outward, indorsement, of those who think as they do. These public letter writers who favor "light wines and beer," and "race-track gambling," and "Sunday baseball," and such other liberties, should be met on the same ground, letter for letter, and show to the impressionable reader where the crowd stands, for lots of people are interested and influenced by the "biggest crowd.'

It is necessary to fight to wineven to the extent of fighting with weapons, in a way, personally disagreeable. When the other fellow chooses the ways we least fancy, he does it largely because opponents on the other side are less likely to meet him on his grounds.

Twenty-five Years from Now-and Prohibition.

We make the prediction that twenty-five years from now, a man found under the influence of liquor will be considered a common criminal and moral derelict. This appears now to be an extreme statement, but we believe that those who will then be liv- too late. ing will see nothing extreme in it, but will wonder how it could ever have been otherwise.

In looking ahead a quarter of a century, we must face several incontrovertible facts. At the end of fifteen years from now, over ninetenths of all who are now sixty years of age and over, will be dead; and in this class are contained a large percentage of those who are now making the greatest noise for the "wets." At the end of this same period, all young men and women who are now from fifteen to twenty-five years of age, will be the ruling power in this country—the heads of families, the business people, the voters, representing public sentiment. Especially those from fifteen to twenty-five years of age, now, are not addicted to the use of liquors, and never will be, consequently have no desire for them now, and fifteen years from now will have still less.

Add ten years more—or twenty-five vears-and all the school children of out with profit and advantage." today-and thousands yet unbornwill have grown to manhood and womanhood under prohibition, without a cultivated taste and habit, for booze. The men and women now forty years and over, will then largely be dead, leaving only a remnant of those, say forty-five years old now, and the most of even these will have had their appetites "dried" by that time, and will cut no figure in running either the government nor pub-

Time is a great obliterator. The business of booze-making and selling, and the buying and using of spectable habituals, with expensively book. acquired booze appetites, as well as the more common "soaks," will meet the "grim reaper" as the years roll by, and the crop to take their places story. is not growing. So, we are really ceived for the money expended.

hearing the strongest lamentations

Now the "gland" specialists are coming to the front with a bow, and of a passing army, at this time, and it will never again be heard in the same volume as now.

Ten years, fifteen years, will mark less and less of sympathy for the "cup that cheers." A new army, unhabituated, is coming, growing, and will occupy and rule. It is the inevitable; so, we say with confidence, that by 1947 the "personal libertyite, etc" who now shouts his loudest, and works the hardest, to hold fast to legalized booze by appealing for "light wines and beer" is doomed to extinction. He has already given up hopes of "hard liquor," and does not realize that this fact is the beginning of the end, and in itself a pointing of the way to complete defeat in a few years. This will be the dead sure course of things, unless the unexpected happens—the repeal or modification of National Prohibition.

"Though the mills of God grind slowly, yet they grind exceedingly small; Though with patience he stands waiting, with exactness grinds he to all.'

The Proposed Bond Issue.

The Bonding proposition for schools and roads deserves the most thoughtful and wise consideration by all taxpayers. True, the matter will be decided by a referendum vote, but before that the bill itself should be made | will go right on doing their Godas nearly as possible a fair and equitbe occupied with straight hitting able proposition, to the end that if it is finally approved by the voters, it

At this time, The Record prefers portion of the general public reads to let the matter go to its readers such papers; and it must also be given | without much comment, for or against as truth that only a small portion of No doubt sentiment within the counthe g. p. hears the word spoken in ty will vary materially, accordingly as individual districts may be benenoise and publicity; and the agencies for good, and moral uplift, need not time enough to fully consider the time enough to fully consider the gans of the body, and abuse them;

If other words, Why sell your wheat to the miller for \$1.25 per bushel, and buy back what you feed as we interfere with any of the organs of the body, and abuse them;

Why? A great deal is taken for granted, fitted, or otherwise. The only criti-

so much the inward, as more of the bill, and let their representatives know their conclusions, and this fact may result in many votes "against" the bond issue that would not otherwise be cast.

On the whole, our school problems, especially, are kept too far away from direct participation by the taxpayers of the county, beginning with the appointment by the Governor of our School Boards, instead of their election by the people; and this is a law that sooner or later the tax-payers will demand changed.

We ask for this Bond issue the fairest sort of consideration. It is too important to go wrong about, and mere personal grouches should not enter in. Better roads and schools are of too much importance to be made the object of narrow criticism, or of considering too penuriously their cost. The Record will find room for brief articles from readers, on the subject, either for or against; but, the first action necessary is to inform members of the Senate and House of opposition to any of the terms of the Bill, and this should be done at once-if not, indeed already

GLANDS NOW BLAMED FOR MANY CRIMES.

Written for The Record, by J. Thos. Wilhide, Toronto, Canada.

An old negro was blamed for steal-An old negro was blamed for stealing and eating his master's onions, of the flesh." (Lev. 17). The result and was punished accordingly, in spite of his many protestations of in-

One day he came rushing into his master's presence holding a polecat

tightly gripped in his arms.

The sting of the lash was still smarting on his brawny back, but his conscience was clear, which gave him courage to present, as he now believed with convincing proofs, the guilty party, saying, "Hea, massa, am de fella, what stole de onions. Jes' smell him breff."

The Medical Fraternity is blaming "the glands" for the many and varied ills and crimes of today. But is the proof well grounded?

In New Zealand, Prof. Hardwick Smith, lecturing before the Y. W. C. A., said: "Three feet of the colon was only a filthy cesspool, and the cause of many of the ills of women leading a sedentary life, and might be cut

In our humble opinion the surgeon would get the profit, but a woman after the operation told us, that, if she had known the discomfort and horrible sufferings which would follow she would rather have died. She did die from the effects, and in horrible

torments a few years later.

The celebrated Michnakoff of Paris, advised the same cutting operation. who have acquired the booze habit, The operations are usually successful, but what of the patient?

Another celebrity made his fortune by cutting out Appendixes. He said:
"It was not only a useless member,
but a very dangerous thing to carry round with you, that it was only relic of the primitive ape man." But after many years of experiment and failure, he publicly admitted that he had "made the mistake of his life." "boot-leg," can not stand any ex-tended period of obstruction. The re-

A business man in this city told me, his sister "had never had a well day since the operation." We personally know many with the same sad They did not get value re-

propose to show how all the ills and crimes of the day spring up; and truthfully, we want to know.

The masses have no time to study

and think on these matters. For most part, they are ignorant of the law of cause and effect, and the laws governing their own being. They are therefore at the mercy of the man who has the most letters to his name, or the most popular commendation. They follow his lead, pay the price, ask no questions, and suffer the consequences like the dumb driven sheep led to the slaughter.

How often we read of.....un-dergoing a very successful operation for.......died from heart failure. Well, no doubt if his heart had not failed, he would have run on like the old wind mill for-

ever, but......
The "gland" specialists admit, however, they did not know, and indeed, do not know now, the use of "the glands," but they propose to experiment upon willing, paying subjects,

to find out. Are you aware, that the Creator knew their use before the specialists began to experiment? Do you know that He put them there for a wise and useful purpose? To cut them out, is a direct insult to the knowledge and

wisdom of the Almighty. It is an assault—perhaps without intent to kill—but robbery, with violence upon the individual.

At best, the specialists are only thinking, guessing, cutting and hop-ing by blind experiment to discover their use. But know this, the Glandular System, the Appendix, the Colon, given work, whether men discover their use or not.
Would it be impertinent to ask

these experimentors, Why an Allthe Specialists, Scientists, Doctors and Surgeons of today know more than their Maker? Do they know better! how to manage the running gear of man, than the One who in infinite Wisdom designed him, formed him, tees him health, comfort and long

and disobey the laws governing our being, we not only rob ourselves of "the best," but open wide the door for sickness, disease, sentile decay

and pre-mature death. Every child is now taught, that this is a world of cause and effect. That we reap what we sow, and more of the same kind. Experience teaches us that when we remove the cause, the effects cease, in harmony with the laws of Nature.

Now the question? What causes diseased glands? A rotting mass in the colon? An inflamed appendix? We believe these questions can be all answered in one word-constipation. Constipation is rarely known among the Islanders and Natives; but is the curse of all so-called, civilized, christianized nations; to our shame

But what causes constipation? (a) Neglect to immediately obey the call of nature. (b) Eating the refined white flour products, sugars, cake, pastry, sweets, and all the denatured, demineralized, devitalized doctored food stuffs prepared in laboratories, mills and factories for a price, instead of in the kitchen by a sensible, wisehearted cook, for health. Remember you can add nothing to the natural products for health; that pure, rich red blood is not bought, but must be made in the body, from the food we eat, the water we drink and purified by the air we breathe.

These denatured preparations are not only devoid of body and brainbuilding elements, but in many cases are positively injurious. Their use creates super-acidity, and indigestion, which in turn inflame the intestinal canal, cause constipation and poison is a rotten mass in the colon; an inflamed appendix; a diseased glandular system, and nervous disorders, which excite the imagination and rob the victim of self-control, and lead to vice and crime.

It is true that white flour and white sugar create energy, but both are deficient in body, bone, brain and nerve building elements which make for endurance, and virility, and the perpetuity of the race.

By their constant use, with the unclean meats (Lev. 11) they not only create super-acidity of the stomach and intestinal canal but constipation which robs the expectant mother of pure, rich, red blood; so absolutely essential to the perfect development of the growing child and he making of a big body, big bones, big brain, and the coming man-normal-with big capacity, big possibilities, and highest efficiency.

"The curse causeless does not come," and when we become aware that in every 14 in Canada, and in every 10 in the United States, die from cancer, is it not about time we stop, sit up, and begin to think as intelligent beings, and find out the cause of the curse's

Owing to our lack of knowledge and wisdom; or to graft, greed and grab, we sift out all the bran and shorts from the whole wheat meal, and feed them to the hogs, which the Creator has pronounced unclean, abominable, unfit for human consumption; and the hogs grow big and fat and are seldom sick, while the masses fed on these unclean meats and denatured foods, are seldom well, over-fed and under-nourished.

These denatured, demineralized foods robbed of their body, brain and nerve-building elements in the bran and shorts also lack the rough materer troubled with a swelled pocket ial absolutely essential to excite the peristaltic action of the bowels to a regular, daily expulsion of the waste materials from the body; hence, constipation, poisoned blood stream, depleted, nervous energy, anemia, the miserable victim is left without sel-control, will-power, nerve-force

and endurance. The miller sifts out the bran and shorts, because you want it so. The cook peels the potatoes and fruits, and feeds the peelings to the hogs, for their health. She pours the water from the cooked vegetables down the sink; and sends to the table a denatured, demineralized, devitalized dish, because you mant it so. It may please the eye, and being highly spiced, may

tickle the palate, but know this, "there is death in the pot."

You may say, "O, nothing hurts me, I can eat any thing." So you can. But know this, in time you will pay the penalty in constipation, poisoned blood, inflamed glandular system, consumption, cancer, kidney and heart troubles.

It is the constant use of these de-natured foods, that leave you cold, hungry and unsatisfied after a full Nature cries out for heat and the body-building elements. You feel weak, and out of temper, touch and tone. You resort to stimulants, which you think you find in tea, coffee, sweets, spices, spirits, wines and drugs, to make up for the nervine, which you fed the hogs and threw down the sink.

Years of experience proves that the use of stimulants cause more acidity and disorders, and "the cure is often worse than the disease.'

If you want to get "the best" out of yourself you must make it your daily business to put the best into your stomach—foods in the natural. The cook is the most important, and valuable asset in the household economy, no matter how much the office may be despised.

Remember your body is made of, built up, and maintained by, the blood. The blood is made from the food you eat; the water you drink; purified by the air you breathe; and the whole system is kept in harmony by nature's sweet restorer—balmy

Now. a word to the wise, and I am done. Why feed the bran and shorts to the hogs, and continue to eat the devitalized foods; then to relieve yourself of constipation and all its host of miseries, buy Lax-o-bran back over the drug counter for 25

cents for 2 ounces? In other words, Why sell your

Hesson's Department Store

New Merchandise for Spring.

ING AT OUR STORE, SO THAT WE ARE PREPARED TO CARE FOR YOUR SEASONS NEEDS. WE INVITE YOU TO CALL AND GIVE US A TRIAL AT SUPPLYING YOUR WANTS, FOR WE ARE SURE WE CAN PLEASE YOU, AND AT THE SAME TIME SAVE

for Taylor Made Clothes for Men is here.

Adams spent one evening with Miss Ruth Stambaugh. Mrs. F. M. Snyder, of Front Royal, Va., returned home, after visiting her sister, Miss Annie Smith, and aunt, Mrs. Mary Correll, who has been ill,

but is improved. Mr and Mrs. Raymond Baumgardner and daughter, Francis, of Four Points, were visitors of Russell Oh-

ler and wife, on Sunday. The following spent Friday evening, with Harry Baker, wife and family; Frank Grusheon and wife; Edgar Miller and wife, and daugh-ters, Carrie and Elenor and Robert Wagerman and Mrs. Mary Hocken-

Mrs. J. L. Cornell was a guest at "Meadow Brook Farm," last weekend. Preaching service, this Sunday morning, at Tom's Creek M. E. Church, at 10 o'clock, by the pastor, C. R. Banes.

How to Make Money.

Get a dozen fresh eggs, a pumpkin pie, a loaf of bread, a pound of wieners, a cash register and a box of paper napkins and start a chain of paper napkins and start a chain of restaurants. The public has learned how to make this sort of business profitable. You can retail egg sandwiches at 20 cents each, giving you a profit of 350 per cent. By using a razor you can cut pumpkin pie into twelve pieces and can retail the piece at 20 cents, thus each pie would bring you \$2.40, representing a profit of 1,000 per-cent, as the original pie cost you 12 cents. You can get \$1 out of every loaf of bread by serving two small slices of toast for 10 cents. It is being done every day and so far as the fare is concerned the public simply eats it up.

As He Figured It.

"When I was at grandma's," grumbled Bobby, "she used to let me have two pieces of cake."

"Well, she shouldn't have," said his mother: "I think two pieces of cake are too much for little boys. The older you grow the more wisdom you will

DIED.

Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

MRS. SARAH SHIRK.

Mrs. Sarah Shirk died at the home of her daughter, Mrs. William Pensinger, State Line, Wednesday, after a brief illness of pneumonia aged 86 years, 4 months, 16 days. Mrs. Shirk was born in Franklin County, between Orrstown and Chambersburg and moved to Union Bridge where she resided for a number of years, moving from there to Middleburg, some twenty years ago. She was fine christian woman who displayed a most beautiful character in which there was so much purity, sincerity

and tenderness. She was a member of the Lutheran church at Mt. Union and in her younger days took an active part in all its branches. She is survived by one daughter, Mrs. William Pensinger, State Line, and one son, Shirk, of near Middleburg. Funeral services was held, Saturday, at 1 P. M., at Mt. Union; interment was made

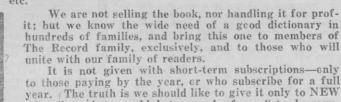

CARD OF THANKS.

We extend our sincere thanks to all friends and neighbors for their kindness and help during the illness and following the death of our daughter and wife.

FANNIE E. SAPPINGTON and S. CLAUDE WEAVER.

Our Dictionary Offer.

The 1921 "Winston Simplified" Dictionary, that we offer to new or old subscribers at \$1.40 at our office, or at \$1.50 sent by mail, is the newest and best work of the kind published; in fact it contains many new words not in any Dictionary no matter how large, and hundreds not found in other small dictionaries; for instance—"Soviet," "Camouflage," "Bolsheviki," "Camion," "Barrage," "Carburetor," "Czech," "Poilu," "Vitamine," "Fuselage," "Montessori-method," etc.

subscribers, but we think too much of our "steady regulars" to shut them out on the offer.

A valuable feature of the book is its appendix of "Mythological and Classical names," "Names and Places,"
"Foreign words and Phrases," "Glossary of Business

It is a book of 824 pages, extra fine thin paper, contains over 40,000 words, over 800 illustrations, bound in flexible kraft, round corners and blue edges. The cost, in addition to a year's subscription, or to already paid in advance subscribers over 6 months, is-

At Our Office \$1.40; Sent By Mail \$1.50

The acceptance of this offer is for your profit, not ours, except in so far as it may add materially to our list of subscribers.

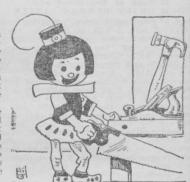

It Is About Time to Clip Horses, Mules and Cows

All milk cows should be clipped to insure a sanitary condition because the short hair keeps the cow cleaner. Horses and Mules will be healthier, feel and look better if their heavy winter coats are clipped soon. We have the necessary clipping tools in both hand and power models-quality clippers that you can depend on for good work always. Prices are lower this

Handy Andy Says-

Handy Andy SaysHonestly, Fellows, it is a real satisfaction to sell a man the kind of tools he will enjoy using and that will not fail him in the midst of his hardest jobs. It doesn't make any difference whether he is an expert mechanic, or a motorist or just a handy man around the home, he can do better work with less effort if he has an outfit of the kind of tools we sell at this store.

When a man buys tools here he can be sure that he is getting fine quality, well made goods and at a fair price. We get genuine satisfaction out of selling good tools because they please our customers and that's what we're always anxious to do. I'll be glad to show you any tools you're interested in, whenever you are ready to look.

Every Drop a Resource

As a dairy farmer you know exactly what your cream is worth and that every particle of butter fat has a special value to you, therefore you cannot afford to use a Separator that misses any of the cream.

THE PRIMROSE SEPARATOR

gets all the cream, this is because of features of construction that are entirely different from the average Separator, yet the principle on which it operates is as simple as the mechanism, the frame is open and sanitary, the supply can large and low and every gear and bearing is well oiled by the splash oil system.

The Primrose is a sure money maker. No matter what the size of your herd, you can use it with profit.

We have the size suitable for every farm. Can be belted to an engine, equipped with an electric motor, or operated by hand.

In Primrose Separators good workmanship and material close skimming and durable qualities are the distinguished points, and these are points that concern your profits. Let us demonstrate this or other points. If it is not convenient for you to call, phone or write us, and we shall be glad to bring a machine to your home and show you how it operates and what its many advantages are to you. A share of your patronage will be greatly appreciated.

PUBLIC SALE — OF — Fine Dairy Farm

I will offer my fine dairy farm at public sale, on SATURDAY, MARCH 18, 1922, at 10 o'clock, A. M., consisting of

96 ACRES OF LAND, Will offer first 44 acres in the heart TERMS-A credit of 6 months will of Priestland Valley, with public road on two sides, then will offer as a whole the 96 acres.

Possession given April 1, 1922. Easy terms, if desired. E. B. GARNER. Linwood, Md.

Look! April 1° will soon be here. Order now!

Just one mement please-have you ordered your Furniture? Take our advice don't hold off placing your order. We have received so many orders in the last few weeks that our surplus stock has almost all been sold. We have placed rush orders, but must wait out turn, some factories are already three weeks back with orders, this means many are going to be disappointed. We don't want to make any of our customers wait for their Furniture—to avoid this we ask that you come in now and give us your orders. Prices are set for the spring, so you stand no chance of paying too much. We will hold your goods until wanted and then deliver the Furniture to your home. Last year we furnished more homes than in any preceding year-this year bids fair to outstrip last. We feel this is due to the fact that we sell honest goods at reasonable prices. If you are in the market for Furniture of any kind. Take our tip. Come in now. We meet mail order prices.

Planning the Home

When you conclude to build that new house or repair the old one, we would remind you that we have a full line of Lumber under cover. In fact everything that is necessary to build and complete your house. We also are

Contractors for any kind of Buildings

including foundations, plumbing, painting, etc.

Allen W. Feeser and his force of skilled mechanics will insure you a good job. A postal card will bring our Wm. N. Cover, to see you; will be

glad to make you drawings and specifications and figure with you on any class of work. No job too large nor none too small. Try us, WM. F. COVER & SON,

KEYMAR, MD.

NOTICE

I wish to thank my many friends who so generously contributed to my success while with The Continental Life Ins. Co., and inform you that I have resigned from said company, so as to devote my entire time to the Gilpin Co. Inc. in which since April, 1921, many of my friends have invested.

Office phone 293-Home 206 Room 3 & 4, Times Bldg

Yours very truly, JAMES D. MITCHELL

WESTMINSTER, MD.

NEW IDEA IN HOUSE BUILDING

Claim Made That by This Method Unskilled Labor Can Be Put to Practical Use.

Axel Wedberg, Floral Park, L. I., has made an invention that is said to be of great importance in house building, says Foreign Language Information Service.

Mr. Wedberg's idea is to build houses with cast concrete walls made in molds, which can easily be joined by means of hooks and props. The concrete blocks are then put together in the corners by dovetailing. The roof and the sidewalls are joined in the same way.

One outstanding advantage in this method is that houses can be built by almost unskilled laborers, as most of the cast concrete blocks are made to fit exactly where they belong before being erected.

Another feature is the easy way a damaged building can be repaired, the defective block only being replaced by a new one. Wall paper and paint are easily applied. The blocks are not solid, but are provided with a fourinch air and insulating hole.

The inventor came over to this country in 1903, and has since been studying and working. For the last twelve years he has been connected with several house-building concerns.

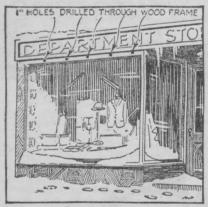

HAVING SHOP WINDOWS CLEAR

No Need to Lose Effect of Display Because Jack Frost Raises Seemingly Effective Barrier.

During cold weather many retail merchants lose the effect of their window display by allowing their shopwindows to become covered with frost.

The covering of frost is due to the change in temperature in the window space. The remedy lies in having the space inside the windows cold all day. Back windows which partition the window space from the store itself help, but are not sufficient.

Several small holes should be drilled in the top and floor of the window

The Ventliators Should Be Hooded to Shed Rain and Snow.

space to connect it with the outside. About three holes, each one inch in diameter, are sufficient for a window of average size. These holes allow the outside cold to penetrate, and equalize inside and outside temperatures.-Popular Science Monthly.

Few New Yorkers Own Homes. Fewer New Yorkers own their own homes than do inhabitants of any large city in America. There are 1278,341 homes in New York and only one-eighth are owned by the occupants. This is revealed in a study made by the division of building and housing of the federal bureau of standards, which included cities of the United States having a population of over one hundred thousand. Des Moines, Ia., with over half, or 51.1 per cent of its 31,644 homes owned by their occupants, has the best

Obnoxious Advertising Signs. Eliminating the signs from state roads should provide a good example for other roads, and in time it should have its effect upon the cities, where the citizens are obliged to wage a continuous battle to keep obnoxious advertising signs from parks and boulevards. The argument that in some cases the signs are better than the unimproved tracts of land which they hide carries some weight, but it merely invites attention to bad housekeeping methods.—Exchange.

Home Ownership.

The more home and farm owners the country has the better. Men who own their homes are likely to be good citizens. They respect property rights. They take an interest in government because they have something at stake. They increase the production of wealth. They bear responsibilities.

The Days Gone By.

"Don't you long for the good, oldfashioned days?"

"Sometimes," replied Miss Cayenne, "when I see pictures of gowns that cover the knees. But never when I think of a man with side whiskers,"

That's Not a Sure Sign.

Dadd-Why do you say that Mr. Hypp is not a good man? He goes to church more often than any man I

Keane-Yes; he devotes all his religion to going to church,—Answers.

LESSON FOR MARCH 12

AMOS WARNS ISRAEL (TEMPER-ANCE LESSON)

LESSON TEXT—Amos 6:1-8.
GOLDEN TEXT—Wine is a mocker,
strong drink is raging; and whosoever is
deceived thereby is not wise.—Prov. 20:1.
REFERENCE MATERIAL—Isa. 5:11,
12, 22, 23; 28:1-13; Hosea 4:11; Gal. 5:19-21.
PRIMARY TOPIC—God Sends Amos on

JUNIOR TOPIC-A Prophet Who Was a Friend to the Poor.
INTERMEDIATE AND SENIOR TOPIC The Consequences of Self-Indulgence.
YOUNG PEOPLE AND ADULT TOPIC
—Social Evils Yet to Be Conquered.

The kingdom of Israel reached a high state of prosperity in the time of Jeroboam II, and with it came a condition of luxury, corruption and

wickedness. The judgment wee of this lesson is directed against the sins of the upper classes in Samaria. The same sins are practiced in America, in the nation and in the church. With the increase of wealth in America has come luxury, corruption and gross wickedness which staggers the imagination. It behooves all to give a listening ear, for God will eventually enter into judgment. Our lesson is a temperance lesson. Temperance applies to other things than indulgence in intoxicating liquor. Our age is intoxicated with pleasure, pursuit of gain and selfish ambition.

fool's paradise, closing their eyes to the approaching storm of judgment as predicted by Amos. They trusted in the mountains of Samaria for their protection. They regarded their city as impregnable. They no doubt regarded the utterance of Amos as impracticable—the dreams of a fanatic.

The tragic thing about this blindness on the part of the chief ones of the nation was they were so puffed up with pride that they failed to read the signs of the times in the light of history (v. 2.) The cities of Calneh and Hamath, though great and mighty, had fallen. To disregard the lessons of history, to dismiss the thought of impending judgment, is to bring near the "seat of violence" (v. 3). Let chaotic Europe and Russia be the red lights of warning to America, and let all injustice and class selfishness be laid aside.

II. Luxury (vv. 4-6).

The luxury of these upper classes in Samaria expressed itself in: 1. Extravagant furniture (v. 4). They had beds of ivery-perhaps wood, inlaid with ivory. Costly as their furniture was in that day, it was commonplace as compared to some of the expensive furniture and fittings in our great cities.

2. Laziness (v. 4). They stretched

themselves upon their couches-lived lives of indolence. Such is the way of many still.

3. Feasted on delicacies (v. 4). The Implication here is that they had their dainties out of season. This is what many of the rich pride themselves in. 4. Adorn their feasts with music (v. 5). They sang idle songs-even invented musical instruments for this purpose. They prostituted the noble art of music to their sensual feasts. 5. They drank wine (v. 6). They were not content with ordinary drinking vessels. They drank from bowls, indicating excessive drinking. They were so mastered by the intoxicating cup that their feasts which were adorned with the refinements of music ended in drunkenness.

III. Failure to Grieve for Joseph

Joseph here stands for Ephraim and Manasseh, his two sons. Ephraim became the principal tribe of the northern kingdom, so Joseph is used as a synonym for the nation. The upper classes were indulging in these effeminate luxuries, entirely indifferent to the groanings of the masses. And whenever such a condition exist in a nation there is need of Amos to thunder God's judgment upon those who are guilty of it.

IV. The Inevitable Issue (vv. 7,8). 1. They shall go into captivity (v. 7). The northern nation was first in sin, therefore first to go into captivity. What a striking contrast this picture! Instead of lying on ivory couches feasting upon dainties, they are with the suffering exiles.

2. The certainty of the issue (v. 8). It is inevitable because of God's nature. He is a God of justice. He has sworn that judgment shall fall. He is the God of hosts-the controller of the whole universe, therefore none can escape. God hates the wickedness of the world, and He will bring into judgment the men and women who revel in luxury with no concern for the poor and needy. Though God waits long, He does not forget. The only escape for America is repentance.

Abide in Him.

And now, little children, abide in Him; that when He shall appear, we may have confidence, and not be ashamed at His coming.—I John 2:28.

Great Mischiefs.

Great mischiefs happen more often from folly, meanness, and vanity, than from the greater sins of avarice and ambition.-Burke.

Chance to Be Saved. Don't despair of a student if he has one clear idea.-Emmons.

- THE **CHRISTIAN ENDEAVOR**

- From --Moody Bible Institute Monthly Chicago, Ill.

> March 12 Habits, Good and Bad Proverbs 4:23-27 Hebrews 10:22-25

The best prevention against bad habits is the cultivation of good ones. Our New Testament Scripture mentions several good habits for a Christian to cultivate.

First: "Let us draw near," or in other words, let us cultivate the habit of fellowship with God. To do this we need "a true heart," that is, a heart imbued with the truth, the truth as revealed in our Scripture lesson and its context. When our Lord died on the cross, the veil of the temple was rent from top to bottom. This veil hung immediately in front of the most Holy place, into which none dar-ed to enter save the High Priest and he only once a year. The death of Christ made such a complete sacrifice for sin that the veil of separation be-tween sinful men and the holy God was removed. In place of that veil now, there is the word of invitation which reads: "Whosoever will let him come." Having therefore boldness of Jesus and having a High Priest over the house of God "let us draw near." Our fellowship is with the Father, and with His Son, Jesus Christ. This fellowship is to be cultivated as a daily habit of life.

In the second place, let us hold fast the confession of our faith. Circumstances may be hard and outward conditions adverse, but He is faithful that promised. He is faithful to you, I. Reckless Security (vv. 1-3). and is permitting your confession of They were blind to the perils that surrounded them. They were living in a the testing may turn to a testimony for His glory and your good. Have you confessed faith in the blood of Christ as cleansing you from sin? Have you confessed faith in the keeping power of God? Then, hold fast to this confession. Say as did another, "I believe and I will not let go." "He is faithful that promised." Make this a babit and you will know what it is a habit, and you will know what it is to live the life of faith.

The third consideration awaits us in verse 24. Not only must we cultivate the habit of drawing near and holding fast, but having done this, we should also cultivate the habit of considering others, so as to provoke or incite them to holy living and earnest endeavor. This can be done in twa ways, namely; by example and by precept, or in the words of verse 25, by the assembling of ourselves together and by exhorting one another.

---The Pneumania Month.

March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and peo-ple grow careless. When every cold, no matter how slight, is given prompt and intelligent attention, there much less danger of pneumonia. It should be borne in mind that pneu-monia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ ladened mucus and not only cures a cold but prevents its resulting in pneumonia. to take. Children take it willingly.

Sailing by Signs. Silence never has been considered a characteristic of the deep sea captain, but a 60-day voyage was recently completed during which the ship's captain might just as well have been deaf and dumb. Capt. Darwin E. Stevens, who has just returned to this country, took the new steamer Josepha from Duluth to Barcelona, there delivering her to her new owners. His crew was made up of Spaniards, none of whom could speak a word of English. The result was that Captain Stevens had to do his talking with his hands, giving orders by signs. After the 60 days were at an end the skipper found himself so in the habit of making signs that when he finally arrived among people who could speak a language that he understood he had to make unusual effort to refrain from

Some Gain. "Another artist's model is writing her memoirs."

using the sign language.-New York

"Poor stuff, I dare say." "Yes, but the illustrations are good."

A GOOD TONIC FOR OLD PEOPLE

Gude's Pepto-Mangan Restores Strength and Prevents Illness.

Aged people often need a good blood tonic. When the blood becomes clogged with poisons from the system, Gude's Pepto-Mangan purifies it by driving off the waste matter. Good blood is full of vitality and prevents illness, giving the body greater power of resistance. The weaknesses of old age are greatly helped by a supply of rich, red blood. Gude's Pepto-Mangan is sold in liquid or tablet form by all druggists. Ît has been recommended by physicians for 30 years and is a valuable tonic and builder for the weak and run-down of all ages from childhood to old age.

A Safe and Profitable Investment

In making investments great care should be exercised to see that they are safe and profitable.

The stock of the American Telephone and Telegraph Company offers an opportunity for such an investment.

It is a safe investment because it is a nation-wide industry, economically managed, and its financial policy is sound. Each share has back of it a property value of more than \$185-almost twice its par value, \$100.

It is a profitable investment because the stock can be purchased on the market for about \$119 the share and pays \$9 each year in dividends. The dividends are paid quarterly.

We are interested in having you become a shareholder because you will make a safe and profitable investment and take a greater interest in our problems and assist us in giving the public better telephone service.

Further information will be furnished upon request.

WHY=

Crowded Living Conditions Call for Restraint

Contiguity of residence in the city flat curbs one's natural liberties. This we must concede for the sake of mutual comfort. The more people there are in the world and the closer together they live, the more must liberty be subdivided into smaller bits.

The human capacity to annoy is tremendous. It may be human nature, but inexorable necessity compels its curbing. That a noted New York composer of music was compelled to carry on his work in his bathroom in order to escape the clamor of three planos, three banjos and a talking machine in an adjoining apartment exemplifies the disadvantages of the collective dwelling where the rules are lax or lenient.

One of the highest achievements in the development of character is to reach a point where one is noiseless. It is the apex of culture, a plane little lower than the angels. Not to be loud in voice, in action or in clothing, not to obtrude, that is the glorious ulti-

If it is a reform, it begins, perhaps, with care in not slamming doors. The slamming door is a bad sign, even though it be those on the corridor of a hotel where one has no social ties and where so many emphasize that fact on leaving their room at an early hour by the semblance of an explosion waking everyone within one hundred feet. -F. H. Collier in the St. Louis Globe-Democrat.

GET PAPERS TO LONELY MEN

How the Crew of the Cross Rip Lightship in Nantucket Sound Receives Its Mail.

One of the most unusual newspaper deliveries on the Atlantic coast is that by which members of the crew of the Cross Rip lightship in Nantucket sound receive their daily papers. Although the lightship is almost in the center of the sound, a rough piece of water in stormy weather, the men receive their papers nearly every day, says an exchange.

The "deep sea" delivery is made by one of the island steamers, usually the Sankaty, which summer visitors to Martha's Vineyard and Nantucket know well. These vessels pass close to the Cross Rip lightship on their way across the sound, bound from Oak Bluffs, Martha's Vineyard, to Nan-

The daily papers are delivered on the outward bound trip, which begins at New Bedford. When the island steamer is almost half way across the sound and nearly abeam of the lightship members of the crew roll up small bundles of papers, tying them securely with twine and line themselves along the rail. The helmsman of the steamer brings his vesesl as close as possible to the lightship, sometimes within 15 feet, and the newspaper deliveries let go their volley. It is a poor day when half a dozen rolls of paper do not land aboard for the men so far from land and otherwise newsless. Sometimes the bundles drop alongside and are fished up with long-handled nets.

How Airplanes Aid Exploration. Several hitherto unknown lakes and river valleys have been discovered in Jasper park, Canadian Rockles, through the use of government airplanes, says the Montreal Star. This work was undertaken by the High River air station, Alberta, and three experimental flights were carried out over the region for the purpose of exploration and reconnoisance. The Canadian air board report states: "A flight was made on each of three successive days with gratifying success, and the possibilities of the use of air craft for exploration in mountain regions, and in the administration and the general maintenance of the park system was proved without a doubt."

Why Egyptians Are Hopeful. Egypt is looking for better times on the strength of a tradition that prosperity always comes after seven lean years. She has just gone through the proverbial seven years and a return of prosperity is anticipated in a flood of tourists. In these seven years, however, great changes have taken place in the matter of the water supplies of some of the larger cities and also in the matter of transportation. Travelers will find it much more comfortable to get about than heretofore. The motor car has been extensively introduced and the main roads have been improved for them.

Why Eat Starchy Foods?

Why do we eat starchy foods fried in fat when we know that the fat surrounds the starch grains and prevents the digestive fluids from reaching them? Starches are carbohydrates. Their digestion is started by digestive juices in the mouth. Fats are not digested until they reach the intestines. Hence the layer of fat which surrounds the starch particles in fried foods is not broken down until it is too late to digest the starch.

Butter and olive oil are fats which are emulsified in the stomach, and foods fried in them are not considered indigestible.-Popular Science Monthly.

Why Auto Driver Speeded.

Who wins the world prize for excuses for motor speeding made to police court judges? Certainly, a man in El Paso deserves consideration. A local justice of the peace let him off on his plea that the speeding took place on a road past a hog farm, the odor of which was making him ill, so he had to hurry.

Gettier place, for \$950.00, at private

confined to her bed for the past week, is improving slowly.

March has been exhibiting, true to old standard form, all week, in the Heidelburg Class, Saturday afternoon weather and road lines.

The P. O. S. of A. has sent out notices of its annual banquet, on | Thursday night, the 16th.

A number of late sales appear this week, both as advertisements and in our Sale Register. Look them up.

Mrs. Eppleman, and grand-daughter, of Littlestown, were visitors at E. C. Sauerhammer's, last Sunday.

Mr. and Mrs. George W. Galt have returned to their home, in Taneytown, after having spent the winter in New Oxford, Pa.

Mrs. Martin D. Hess and her mothseriously ill from pneumonia, are opment." both improving.

Preston Smith, of Bridgeport, was taken to the Gettysburg Hospital, on Wednesday, reported to be suffering eggs. It will not force hens, thereby from appendicitis.

fell on a wet board, in the cellar of her home, on Wednesday, and received a broken arm.

Public sales have been running from good to fair. Not as much of where in France as an orderly to a the good, as desired, but not as much of the bad as feared.

Plans are reported under way for Taneytown to have a baseball team, this year, and a better equipped ground; but we have no definite information.

Saturday evening in the Fireman's Hall, the Dorcus Sewing Circle will hold a chicken and oyster supper. Supper, 35c; Oysters, 25c and 35c. Beginning at 5 o'clock.

Miss Daisy M. Formwalt, near Fairview, returned home, Thursday, after spending some time with her sister, Mrs. W. Bassett Shoemaker and family, near Taneytown.

Mr. and Mrs. William E. Wagner, who have been living in Indianapolis, the past six years, are visiting at the home of Mrs. Martin L. Buffington and Mrs. Nettie S. Angell.

Westminster degree team, Knights of Pythias, will give out Ranks of Knight, Tuesday night, March 14, in Taneytown Castle Hall. Local members are requested to be present.

Taneytowners are indulging to quite an extent in answering the "Limericks" in the Baltimore American; but up to date, the judges have shown the bad taste of not recognizing real meritorious efforts.

Miss Fannie Flohr is visiting her aunt, Mrs. George W. Hess, at Buckeystown, who has been greatly shocked by the murder of her grand-daughter, Miss Arta Iris Jenkins, an account of which appears in this issue.

The honored President of our Company, Geo. H. Birnie, paid our office a brief visit, on Monday afternoon, his first trip out of doors since his bad case of pneumonia. He is weak, but will come along all right, with time and patience.

The Record has a business reason for justifying opposition to prohibition, about equal to some of the argument now influencing some people. The law has put a stop to our sale of "Abstrain from Drink" affidavits, that this office once had considerable sale for to Justices throughout the statebut, not now.

D. J. Hesson commenced on Monday, the work of improving the old stone hotel property recently purchased by him. The new frame portion will be moved to end of lot adjoining the B. & B. Bakery, and used for a dwelling. A portion of the old building, fronting on Frederick St., coal sieve, wheelbarrow, axe, wood will be left stand and remodeled to accommodate two families. The corner will be torn down, and a fine large two story brick store room erected. The whole work will repre- of 3 months will be given the pursent a great change in appearances in chaser giving note, with approved sethe old property, and be a decided im- curity, bearing interest from day of provement. A drain to the property til settled for. is also being excavated, which will mean dry cellars.

An Expert on Tact.

A certain negro had been drafted into the army and was serving somecolonel.

One day the colonel had to go upon a journey, and calling the negro to

"Sam. I am going away for several days. I want you to look after things around here and maintain order."
"Yassah."

"But," continued the colonel, "of course, you must remember that you are a colored man and the rest of the boys around here are white so you will have to be careful not to get into trouble.

"Yassah, I sure ain't going to get into any rookus."

"Well," concluded the colonel, "you will have to use a good deal of tact." 'Yassah. I suttingly will. That's the best thing I do.'

After the colonel had left, the orderly looked up a friend of his in camp, who was also a negro, and relating what the colonel had told

"Now, what is that tact? I said I'd use it all right cause I wants to carry out the colonel's orders, but I don't exactly know what it is."

"Well," replied his friend, "I tell you. I'll illustrate it. For instance, when I was back in the States, I was workin' at the Waldwaf. Goin' along the hall one day, I happened to open a bath room door, and there was a lady in there sittin' in the bath tub. I shut that door right quick, and I

"'Excuse me,-Suh!'

"Now, that 'Excuse me' was just politeness. But that 'Suh' was tact.' New York American.

Found a Cure for Indigestion. "I use Chamberlain's Stomach and Liver Tablets for indigestion and find they suit my case better than any dyspepsia remedy I have ever tried and I have used many different medicines. I am nearly fifty one years of age and have suffered a great deal from indigestion. I can eat almost anything I want to, now," writes George W. Emory, Rock Mills, Ala These tablets contain no pepsin but strengthen the stomach and enable it to digest the food naturally.

A FIRST NATIONAL ATTRACTION 4 CHAPLIN MAKES SIX-REELER.

Charlie Chaplin's super-production, "The Kid," which took the comedian a year to make has been booked for the New Theatre, Taneytown, two days, Wednesday and Thursday, Mar. 22 and 23.

The very seriousness of the part in life that Charlie plays in the production that of foster father to a twoweeks old baby, makes it one of the most deliciously humorous pictures which he has ever given a joy-loving public. It is full feature length, running six reels, and is comedy of such high rank that it is universally known as First National's six-reels of joy.
