ROBINSON

TANEYTOWN, MARYLAND, FRIDAY, NOVEMBER 2, 1928.

THE HUNTING SEASON The Game Laws, License Fees and Various Penalties.

The upland game season, which in-The upland game season, which in-cludes rabbits, partridges, chinese ring-necked pheasants, squirrels, doves, woodcock opens Nov. 10 and closes Dec. 31, both dates inclusive. The license fees are: Resident county licenses \$1.25; resident state-wide license, \$5.25; non-resident state-wide license, \$15.50; and non-resident prop-erty owners who own land assessed to \$500. or more in the county, \$1.50. The owners of farm lands, their chil-dren or tenants or children of such Marking the Ballot Not a Very Owing to the large vote that will come out this year, do not delay vot-ing until late in the day, but if possi-ble get in by noon. If everybody familiarizes himself, or herself, with the ballot before entering the voting the ballot before entering the voting booth, it should not take over a half dren or tenants or children of such tenants shall, without procuring a liminute to unfold it, mark it and recense, have the right to hunt game fold it, and step out of the booth and

cense, have the right to hunt game during the open season. Hunting without a license, penalty \$20.00 fine. Failure to display tag carries a penalty of \$20.00 fine. A hunting license shall not be transfer-able. License must be in possession while hunting, and tag displayed in center of back between shoulders on outer garment. Bag limit per day: Rabbits 6; partridges 10; squirrels 10; doves 25; woodcock 6; Chinese ring-necked pheasants 2 (not over 6 per necked pheasants 2 (not over 6 per season). The season for raccoon and opossum opens Nov. 1 and closes Feb.

Unlawful to set any steel traps for the purpose of catching racoon and opossum. It shall be unlawful to kill any game on Sunday or when the ground is covered with snow, penalty \$25.00 to \$100.00. Twenty-five per-sons have been appointed deputy game wardens in the county to assist District Game Warden J. Gloyd Diffendal to enforce the game and fish

Rabbits and partridges are reported plentiful in almost all sections of the county. All public spirited citizens especially sportsmen should co-operate with the deputy game wardens in the enforcement of the game and fish laws, especially laws relating to hunting licenses and hunting in closed eason.

These are also followed by names of eight Republican candidates; but only one × mark is needed after Hoover and Curtis. Francis Scott Key Auto Club Meeting.

At the regular meeting of the Francis Scott Key Automobile Club, Francis Scott Key Automobile Club, on Tuesday evening, after routine business President Chas. E. H. Shrin-er gave a lengthy survey of the pres-ent situation concerning the outlook for the building of the section of high-way to the Pennsylvania line, as well as the prospects for the building of the link to Keymar. He was very optimistic over the outlook, but in-sisted that there should be greater in-terest and energy displayed by citidential candidates and electors of the "Workers" and "Labor" candidates. The third, and last column, is headed with the Presidential candidates and electors of the "Socialist" candi-tates, and immediately following are the candidates for U. S. Senate, as sisted that there should be greater in-terest and energy displayed by citi-zens and Club members, and that an important step in this direction was in immediately increasing the Club's membership from 305 to 500 or over. A motion was made and carried that women be admitted as active members and a committee was ap-WM. CABELL BROCE DEM. PHILLIPSL.GOLDSBOROUGH REP ROBERT W. STEVENS LAB. WILLIAM A. TOOLE SOC. And at the bottom of the column Middleburg districts for new mem-bers. Attention was also called to the importance of the meeting to be held in the Opera House, Nov. 19, more about which will be published later. General interest on the part of space is given for voting for, or against, the Constitutional Amendment for increasing the salaries of members of both houses of the Gen-

eral Assembly of Maryland, to \$15.00 for each day he shall attend the ses-sion, and other minor details concern-

Registered Vote of Carroll County.

From the Democratic Advocate of last week we clip the following cor-rected table of the registered vote in Carroll County. The recent new regis-tration gives the Republicans, for the first time, a lead over the Democrats, according to party affiliation, of 222, not counting 53 registered as Prohibi-tionists and 239 as Independents. As these were not tabulated by the Advo-cate, we add another column, by districts, showing these two lots of voters under P. & I.

As the Republicans have been carrying the county by several hundred, heretofore, it would seem that their majority should now be around 500 in the county.

RESTORED TO POLL BOOKS

The Names of Three Women Stricken off by Registrars.

The registration laws have been three cases brought before him of women voters who were stricken from the registration books in Westminster. The names stricken off were: Miss Mary Bostwick Shellman, Mrs. Wm. L. Seabrook, and Miss Clara B. Cop-

persmith.

own use; and that each winter for sev- and was a stockholder in other enter-

visits her home frequently over week-ends, and spends her vacation there. D. Eugene Walsh, Attorney for the Election Supervisors, admitted the right of both Miss Shellman and Mrs. Scabrook to be reinstated, and the Scabrook to be reinstated, and the Seabrook to be reinstated, and the Judge ruled in favor of Miss Copperto the poll book.

Bible Classes Rally.

GETTYSBURG CHURCH BURNS St. James Lutheran is Completely Destroyed by Fire.

St. James Lutheran Church, the largest church building in Gettysburg was completely destroyed by fire early Wednesday morning. The loss is plac-ed at \$150,000, with \$82,000 insurance. Among the valuable furnishings was a pipe organ installed three years ago

at a cost of \$23,000. The only items saved were a piano and a few chairs from the Sunday School room. The fire is supposed to have been due to a short circuit in the wiring at the organ which had been used the evening before. Only the bell tower and parts of the main walls

remain standing. The firemen were unable to save any part of the building, but by their efforts the parsonage and other adin other action of the parsonage and other action in which they were materially aided by the absence of wind. The building was erected in 1911-12. 10 78

Rabbit Fever.

With the rabbit season opening in a few days, Dr. R H. Riley, Director of the State Department of Health, ad-vises handlers and hunters to be on guard against sick or infected animals carriers of the disease known as "tu-laremia.' or "rabbit fever." The dis-ease is also known in some parts of the country as "deer fly fever." Three cases of rabbit fever were 80 72

reported to the State Department of Health during the first six months of this year, one each from Washington, Talbot and Kent counties, and four

Talbot and Kent counties, and four from Baltimore City. There were probably others, Dr. Riley said, that were not recognized as "tularemia." "Tularemia", Dr. Riley said, "gets its name from Tulare County in Cal-ifornia, where it was first studied in 1910 by Dr. G. W. McCoy of the U. S. Public Health Service in connection with an investigation of a plague-like outbreak among ground squirrels. In outbreak among ground squirrels. In 1919, Dr. Edward Francis, also of the U. S. Public Health Service, and his assistants, while investigating an out-break of "deer fly fever" among the residents of certain sections of Utah, found the disease that was affecting human-kind to be identical with the outbreaks previously investigated

"Incidentally, while engaged in the study, Dr. Francis became infected and contracted the disease himself. He recovered and has continued his studies of the disease in various parts of the country. His discoveries of the sources of the disease and the methods of transmission have won recognition for him as the outstanding au-thority on the subject. At the recent meeting of the American Medical Association in Minneapolis, he was a-warded the gold medal annually con-ferred for the most important contribution of the year, to medical

"The animals susceptible to tularemia include in addition to wild rabbits, hares and squirrels, rats, field mice, the chipmunk, opossum, wood-chuck and others of the smaller animals. The infection spreads from animal to animal and is carried from animals to human beings in three ways—by the bite of ticks with which these animals are frequently infested; by the bite of certain species of fly and direct infection from eased animals. The majority of the cases that have been investigated have been traced directly to the handling of infected animals by hunters, or in dressing infected rahbits for the market or for the table. Of twenty-two cases that occurred in the Proceedings of the Orphans' Court. city of Washington, the records of the U. S. Public Health Service show that 17 of the patients had dressed wild rabbits bought or sold in the market; 4 had dressed rabbits shot nearby, and one had dressed a rabbit killed with "The disease in human beings is accompanied by a typhoid-like fever of two or three weeks duration with great prostration and slow convales-cence. Usually an ulser develops at the site of infection, accompanied by enlargement of the lymph glands which drain the ulcer. The diagnosis may be confirmed by a blood test. Should suspected cases be found in the counties of Maryland, the laboratory of the State Department of Health is prepared to make the necessary tests and will do so at the request of the local or Deputy State Health Officer, or the family physi-

CLOSE OF CAMPAIGN IN MARYLAND

Big Registration and Issues Add to Uncertainty of Result.

After all of the boisterous campaign crowds, and all of the political oratory of the six weeks the general political outlook is much the same as it was in the outset. Nothing has been defi-nitely settled, either in fact or in the minds of voters, and the secret of Nov. 6 will not be told until after the votes are counted. What Hoover thinks, and what Smith thinks, and what their hundreds of spokesmen have said, may have strengthened both opinions and doubts, and surely have added to individual enthusiasm; but, the election will still have to be held.

Neid. So, we shall drop the general sub-ject and confine our last group of po-litical notes exclusively to informa-tion gathered from and Maryland ex-tion gathered from our Maryland ex-

changes on the state campaign. Over on the Eastern Shore the bat-tle is especially energetic. Most of the newspapers there are Democratic, and valiantly fighting for the party nominees, but Hoover for President, and likely Goldsborough for the Senate, seem assured of good sized majorities.

Havre de Grace Republican, says: Havre de Grace Republican, says: "One of the funniest angles of the present campaign is the attempted alliance of the Democratic Party with the colored voters, who, since the Civil War, have always been classed as Republicans. Surely the Democratic politicians of the old school, who have presed away would turn over in their

politicians of the old school, who have passed away, would turn over in their graves could they but see the activi-ties of those who have followed them." A special correspondent of the Bal-timore Sun finds that Carroll County is "swayed by religious prejudice," and that the county seems due to cast its vote against Smith by as much as 3000; but at the same time he notes the facts that when there was no "rethe facts that when there was no "religious prejudice" President Harrison carried the county by 1511, Coolidge by 685, and in 1923 Ritchie for Governor lost the county by 1657, and

ernor lost the county by 1057, and again in 1926 by 601 votes. Baltimore county, usually staunchly Democratic, is said to be in doubt by this same special correspondent of The Sun, but that the Democrats ex-press the greater confindence. There is no doubt of the county being large-by Democratic on registered party afly Democratic on registered party af-filiation, but there is fear of an upset this year.

Gov. Smith was given a monster enthusiastic demonstration in Baltimore, on Monday afternoon and night culminating in the meeting at the Armory where the most tumultuous greeting was given. Governor Ritch-ie and Senator Bruce were liberally applaunded, but it was the candidate for President that the tremendous crowd came to give honor and cheer. His address was featured with denun-ciation of "intolerance," the "preju-dice and bigotry" of the Anti-Saloon League and the Ku Klux Klan, accompanied with the statement that he would rather be defeated than win with such support. Later on his address became more general, covering denunciation of the Republican party's foreign policy, the power trusts, the tariff administration and prohibition, and what he called the "wiggle and wobble" policy of the Republican party and Mr. Hoover. On the whole, the Baltimore demonstration and the addresses were about the liveliest in the whole campaign. Galen L. Tait, of the Republican State Committee, has protested against the design of the ballot in Queen Annes County, which is so arranged as to make it easy to vote the Democratic ticket, and difficult to vote the Republican ticket. Dudley G. Roe, Democratic leader in the county, defends the ballot by saying that if the Republicans controlled the election supervisors, they would do the same thing—give the advantage to the Republican ticket. The colored voters of Westminster held a Hoover mass-meeting in the Opera House, Tuesday night, remark-able in the fact that it was originated entirely by themselves without the aid of the Republican County Committee. The speakers were several colored Baptist and M. E. ministers, from Baltimore. A number of white people were present by invitation. The Republican demonstration in the 5th. Regiment Armory, Baltimore, on Wednesday night, was attended by 15,000 or more who enthusiastically welcomed Phillips Lee Goldsborough, candidate for U. S. Senate, and Senator Wm. E. Borah, of Idaho, who de-livered addresses. Mr. Goldsborough spoke briefly on a few of the issues of the campaign, before Senator Borah was introduced for the main speech. The latter, who has been one of the hardest workers of the campaign for Hoover, was frequently applauded for his numerous telling points, and his answers to a number of Gov. Smith's statements. As the 15 minutes taken up by the boisterous applause cut in on the radio time contracted for, Borah's address was not fully broadcast, and he was switched off promptly at 9 o'clock, his address continuing to the audience alone. Maryland is without question in the "doubtful" state class, with the vote in Baltimore city as the determining actor. Coolidge carried the state in 1924 by 14,342, including Baltimore by 9,366. This year, however, the city is conceded to Smith, and the counties to Hoover, the question be-ing which will be the larger number.

EDWIN H. SHARETTS DEAD

Edwin H. Sharetts, one of the most considered very liberally and sensibly by Judge Francis Neal Parke, in three cases brought before him of on Monday morning, following widely known men in upper Carroll County, died at his home in Keymar,

was vice-president and Director At the hearing before the Judge it was shown that Miss Shellman owns a home in Westminster, rents a por-tion of it, but reserves rooms for her

own use; and that each winter for sev-eral years she has visited her nephew, Rev. Paul Reese, at Tulsa, Oklahoma. In the case of Mrs. Seabrook it was shown that for several years she has spent most of her time visiting at the home of her daughter, Mrs. Ralph Whitman at the Norfolk Navy Yard and at other places in Virginia. Miss Coppersmith is an employee in the Veterans' Bureau, Washington, D. C., but has a furnished room in her father's home near Westminster and C., but has a furnished room in her father's home, near Westminster, and visits her home frequently over week-land owners in the county, owning land owners in the county, owning farms individually and together; and

Judge ruled in favor of Miss Copper-smith, so all of the names are restored to the poll book. Sarah Sharetts, and was the last mem-ber of a family of nine. His wife, who was Miss Jennie Wilhide, died seven years ago. His nearest rela-tives are a number of nieces and

Prominent Citizen and Financier of Carroll County.

ing the meeting of the General Assembly.

But THREE × marks will be required for voting for President, Senator and Representative, and an additional \times mark if voting on the amendment.

The words Republican or Democratic are spelled out, following each candidate's name.

The act of voting is really simpler than it sounds. Remembering the THREE \times marks, the words **Repub**lican and Democratic just in front of the square, attached to the name of each candidate, and not to mark for the electors, is all that is necessary. In other words one \times mark in the first column, and two \times marks in the third, or last column, on the ballot; and, if voting on the Amendment, one additional \times mark down in the right hand corner.

In Frederick county, the only ma-terial change in the ballot from that used in Carroll, is in the names of candidates for Representatives in Congress—David J. Lewis, Demo-cratic, and Fred N. Zihlman, Republican.

T

*

Do not attempt to vote until you have seen a sample ballot, and understand just how to mark it.

Make all \times marks clearly within the square, and use the pencil in the booth.

If you spoil a ballot in any way, in marking it, do not attempt to cor-rect it, but call for a new ballot.

If your eyesight is poor be sure to have your spectacles with you. If you can read and see you must mark your ballot without assistance, but if you are disabled in any way call on the election officials for assistance. One voter can not help another.

Crease the ballot before you open it, then after having marked it, fold it back the same way it was received. The polls open at 6 A. M., and close

at 7 P. M. Attorney-General Robinson has issued a ruling, that all voters who are

in line at a polling place at the clos-ing hour, 7 o'clock, shall be allowed to vote after that hour; but no person arriving after 7 o'clock may have that nrivilege.

American Legion Work.

Gov. Ritchie has named the week of ment of those who were disabled in of the war.

pletion of a real Francis Scott Key highway from Pennsylvania and the north, to Frederick and the south, were advanced; among them being its historical importance, the general benefit to the section traversed, and the better protection to property against fire that a good hard road means by enabling the Fire Company to reach property that could not be reached over bad roads.

The Club adjourned to meet next Monday night, instead of Tuesday night.

Reformed Consistorial Conference.

A Consistorial Conference, of the Reformed Churches for Carroll County will be held in Grace Reformed Church, Taneytown, Thursday, Nov. 8, 1928, afternoon and evening. In the afternoon, at 3:00 o'clock, the fol-

lowing topics will be discussed. 1. The quickening of the spiritual life through church attendance, the prayer life, Christian literature, personal evangelism, and Christian living.

The causes of the Kingdom of God, Home Missions, Foreign Mis-sions, Christian Education, Ministerial Relief, presented in such a way that they appeal to the heart and to the head. disaster

The support of the Kingdom as

a holy obligation. 4. Methods of securing 100 percent support of the Kingdom.

A. Conferences for the purpose of discussing our common task.

The development of the ideal of Stewardship.

The Every-Member Canvass, C. and weekly pledge for benevolence and local church support.

D. Prompt transmission of money. General discussion of each topic is requested.

In the evening at 6:00 o'clock, supper will be served by the Aid Society of Grace Church, and at 7:30 o'clock an address will be given by Hon. Emory L. Coblentz, First Vice-President of General Synod, on the topic, The Reformed Church and Boards.'

The Constitutional Amendment.

The Amendment increasing the pay of members of the Legislature from \$5.00 a day to \$15.00 a day has Gov. Ritchie has named the word of the opinion that \$10.00 a day November 11-17 as American Legion Week, the object being for the Legion would have been more reasonable. know all about the shooting, likely in Walkersville, or nearby, and the right greatest year in its history for un- The old \$5.00 a day rate, however, is selfish service to community, state and nation, and to look after the treat-sufficient to pay actual expenses without counting pay for the itme and the great world conflict, and after the children left fatherless in the wake The state should pay its legislators

What Will the Verdict Be?

Before another issue of The Record is printed, the great battle of the ballots for President in 1928, will be history, and it will be recorded as the election with more breaks in regular party lines than any ever held in this country, and with a greater variety of issues, great and small, than have been presented heretofore.

We do not believe that the election will be a close one; but that as the "breaks" combine to favor one candidate more than the other, so will the election go, approaching a land-slide. Or, perhaps it is just an instinctive opinion-that we do not expect the result to be close.

And this means also that the story will be told by midnight on Tuesday, or at the least by 2 o'clock Wednesday, due largely to the radio, from North, West and South; for the same hook-ups that carry messages from coast to coast, will also carry election returns.

The vote of New York, due to the use of voting machines, should be heard, first of all, unless the state should be close-which is one of the "close" possibilities that we concede.

The greatest confidence seems to be on the Hoover side; but there are so many unknown quantities to figure on, that most estimates are mere guess-work. Here are the main issues and facts that voters have to consider, and which make the result

proper balance, and advocate true economy. Perhaps the radicals who But the money with which to buy is see only the size of their tax bills, more apt to be in the hands of older and care but little for community de- men-and women-who also may be velopment, are not the ones to go to classed as desirable customers."-Exfor guidance; but it is equally true change. that the "don't cares" on the other

side are equally poor advisers. What we think to be the main trouble, is, that small communities, with

limited tax-paying ability, are trying to "keep up" with the improvements they see in more prosperous communities; just as individuals of limited Bible, which takes its nickname from means are trying to "keep up" with those who can afford to gratify their expensive habits. The only differ- it reads, 'The Parable of the Vinegar, ence is that in the one case the individual pays, or contracts to pay, while in the other case the paying is "put over" by law on those who can't help themselves. The one case is a voluntary act, and the other an enforced tax.

We mention Good Roads and Schools for the reason that they are our main causes for high taxes; but their part, the two king's printers, the same argument applies alike to Robert Barker and Martin Lucas, were the cost of government all along' the line of public expenditures, met by tax-payers.

Modern Election Nights.

Demonstrations on November election nights are not what they used to be. Possibly they never will be the same again. Radio has changed it. No more howling crowds in the streets, no more eager masses jammed around billboards, no more streets littered with torn special editions, no more calling up newspaper offices to learn what has happened.

Now the people know. They get the election news at home, beside their own radiators. Not that radiators have anything to do with radio, but firesides are scarce. Bulletins drift in from all around. In an important election the news simply can't be avoided. It assails the listener at home, in the restaurant, in the theater, along the street from a thousand loud-speakers.

News and amusement with privacy -that's what the world is coming to. It grows less necessary for people to assemble.

But, ah, on this coming November, it is more than likely to be different. There are the issues that will fade into the back ground, but what about the personalities of the presidential candidates, who in their own way represent over and above all, the issues, two important dealing facts, that the people above all things are decidedly interested in at this time.

This will change the coming November election night to one of old -Bring on the bonfires .- The Marylander.

When Are You Old?

People generally are interested in knowing when they are considered old of editors. Bret Hart told of a fearand when their efficiency begins to

taxes can, and should, be paid, then ation of ideas upon things they are the magazine writers should get the to personally purchase.

Perhaps this is true, in a sense

Some Typographical Errors.

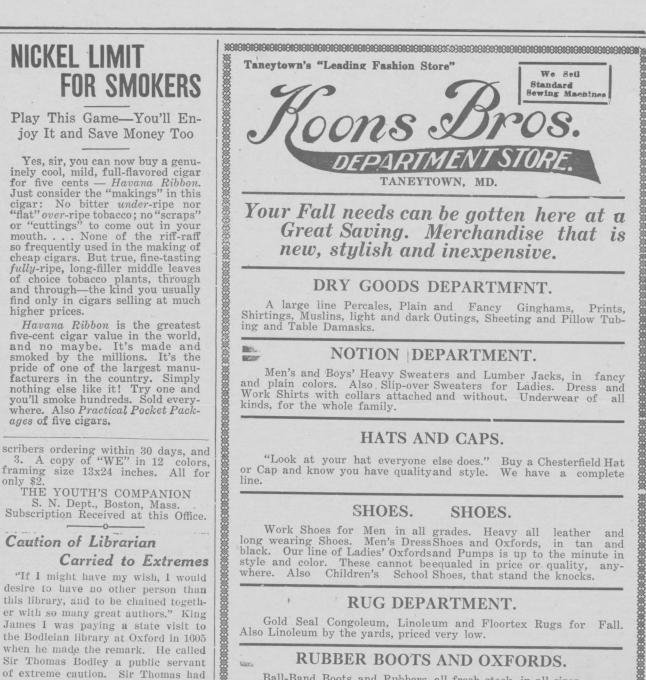

Doubtless because of its numerous editions, the Bible seems to have suffered more frequently than any other book. There is the famous Vinegar the running title of the twentieth chapter of St. Luke's Gospel, where instead of "The Parable of the Vineyard." The so-called Wicked Bible was one of the most notorious blunders in literature. In the reign of Charles I an edition of the Bible was printed with the "not" left out of the Seventh Commandment! Whether the omission was due to an impish humor, or was an innocent mistake on held sternly to account and fined £300 by the Court of High Commission. The edition was promptly suppressed, but six copies are known to have escaped. One copy is now safe in the British museum; another is in the University library at Glasgow, and the others are secluded in private libraries where they cannot spread their wanton gospel.

Some words are common misprints. One morning, among the want advertisements in a London newspaper, appeared a notice evidently addressed to the bachelors of the city. It read "For rent—room with one large widow." A compositor omitted a single letter, and an astonished public read of the "immoral works of Milton." Immortal is constantly in similar humorous difficulties.

The wonder is not that newspapers commit errors, but, considering the haste in which the dailies have to be made up, that their sins against accuracy are so few. The combination of hasty authors and careless printers, or vice versa, often has comical results. The classical example of these newspaper errors is told by Solomon Eagle about a colonel who had fought in the Civil War. He was described as a "battle-scared veteran." This imputation on his courage brought him to the office with a big stick and the demand that it be reprinted with the offensive remark correctel. It was, but another misprint crept in, and the word appeared as "bottle-scarred."

Anyone who has ever been in a composing room can understand how a letter may be transported, but it seems as though the Ithaca Journal was rubbing it in when it printed the announcement that, "Mr. Jones appeared at a fancy-dress ball dressed in the garbage of a knight."

Mistakes sometimes get by the best some slip in typography that happen

ON THE HONOR ROLL OF BANKS

Don't Ask It

Why does the Banker object so seriously to carrying Over-drafts? The answer is easy. An Overdraft is merely an unsecured Loan.

The Banker has a responsibility to his depositors. He cannot permit their money to be risked that way. Do not ask this Bank to honor your checks if you haven't sufficient funds. You are simply asking us to let you have some of our depositors money without security. We can't do that, for it is not in line with our sound business policy.

Republican-Democrat. Prohibition-wet and dry. prosperity. The ability and personality of Hoover and Smith.

The farmer question.

The Negro Vote.

The "Progressive" vote.

The activity among women voters.

The increase in registration. The millions who did not vote in

1924.

The Catholic church membership of Gov. Smith.

Government operation of public utilities.

The influence, if any, of Tammany, and the oil scandals.

The Ku Klux influence.

the candidates for President, as well 'every one-and do better work." as for the Senate and House. We are too apt to forget that our Congress makes the laws, and the former is largely an advisory and executive official. Consider all of the candidates well, then do your duty as an individual citizen as you see that duty.

"Keep Taxes Down."

magazine under the above caption, which at the same time carried an article on "the Age of Good Roads,"both being commended, but not discussed Schools, is yet to be discovered-because, roads and schools must be paid for by taxes, and are the biggest items in the tax bill.

There is, of course, such a condition as splurging too much in the direction of public improvements, possibly mainly by those who pay but little in the way of taxes, and consequently are not much interested in who pays them. But before we bewe must surely stop the spending jaunt.

If we want to stop the splurging,

farmers who are efficient in late youth The Tariff, and its industry and and early middle age, can continue efficiently at a much older age than other business people, but this question is one that has been discussed much lately.

Newspapers reported recently that a business man shot himself because he had lost a seven thousand dollar job and had no prospects of getting another anywhere near so good. In reference to this Tobacco says:

"He was over fifty, too, it seems and had said his case was hopeless on age alone.

On the other hand, another man was sixty-five about the same time. And he said:

So, the thing to do now, is to go to | not do too much running and jumping, the polls, next Tuesday, and vote your but that is no reason why they should conscientious convictions as between not do as much work with the mind as "Is there not an age limit some-

where?" he was asked.

"I have not found out yet," he answered.

"Take all the experience and judgment of men over fifty out of the world, and there would not be enough left to run it: Youngsters have their place and are necessary but the experience and judgment of men over We recently read an article in a fifty are what gives purpose and meaning to younger men's efforts."

Henry Ford-and he ought to know. He knows, also that men like his busy friend, Thomas A. Edison, over eighty, in combination. Keeping taxes down keep going because they are interestis fine advice, but the recipe for ed, industrious. Other conspicuous keeping them "down," yet at the and inconspicuous men keep right on same time having Good Roads and with their daily affairs, even though they may be sixty, seventy or eighty. One such New York man was recently depicted in the movies, shaking hands and doing business at ninetysix.

So, it is all a matter of mind.

And yet one of the large advertising agencies of the country publishes the fact that it depends on men and women under thirty to develop its ideas. It maintains that young writers, young come strong on the tax reduction idea, artists, young executives have the same viewpoint as the buyers of today. These buyers, they insist, are ceive: usually young people. They are said

and get down to figuring on what to be young with the younger gener-

nent citizen of the town died, and writing her obituary, Harte said of her, "She was distinguished among the ladies of this city for her charity." The proof which came back to him read, "She was distinguished among the ladies of this city for her chastity

He sent it back to the composing room, merely correcting the error by a question mark after the offensive word on the margin of the sheet. And the next morning her friends read in the newspaper notice of the lady's death this startling sentence: "She was distinguished among the ladies of this city for her chastity (?)."

Probably the good lady turned over "Men of sixty-five, perhaps, should in her grave. Anyway, a compositor lost his job.-Exchange.

The Happy Family.

'They do have such times together!' Little Mrs. Turner's eyes followed wistfully the disappearing figures of the MacDougall's, her neighbors across the way. Lunch and camera and sweater-laden, with the dog bounding joyously before them, they were off-father, mother, and the three young MacDougall's-for a Sat-

"I was asking Mrs. MacDougall on-ly yesterday," little Mrs. Turner went on, "how it is that although they all have special friends and hobbies of their own, they still manage to work and play and plan together so many good times. And do you know what Mrs. MacDougall answered. She laughed and said, 'Well I really think more than anything it's The Youth's Companion! In fact, I'm so sure of it that I should like to order it for a year as a present from our family to yours. Six months from now you can tell me if I wasn't right.'"

The MacDougall's are just one of thousands of households where The Youth's Companion is bringing not only entertainment in its fine booklength novels, serials, and short stor-ies, but fresh interests, new ambitions, and deeper understandings through its feature articles and many special departments. Every page offers hap-piness to young and old alike. Don't let your family be without the treat of this great monthly mag-

azine!

that a real thoroughbred individual has a fine clear skin, fine hair of either light-brown, dark-brown, black, red or auburn hue, a bright clear eye -either tall or short but not excessively fat nor lean, regular teeth, well-proportioned nose, large nostrils, well-curved jaws, full, red and moist lips, well-rounded ears, a smooth or rich and full voice.

Probably your own notion of a thoroughbred has more to do with temperament, manner and mental traits than these purely physical features, though undoubtedly there are some physical characteristics that you do consider essential to the real thoroughbred.

Perhaps you feel that a thoroughbred must, simply must, have shapely hands-and that the woman who has very stubby fingers with nails considerably broader than long cannot be a thoroughbred. That notion goes along satisfactorily until you happen to meet a women with short fingers and very stubby nails who really is very much of a thoroughbred .- Washington Star.

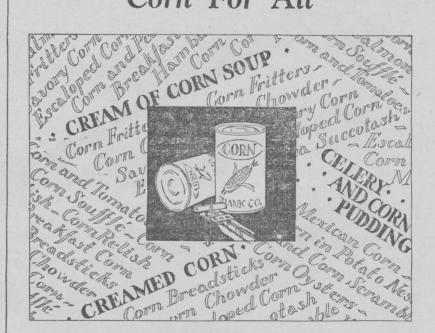

Dog's Claim as Man's Most Faithful Friend

Most boys and many girls, and 10,000 times 10,000 men and women, love dogs. We don't know when this loyal, unfailing friend of man first met him, first learned to defend his flocks, his dwelling, his person and the lives of those dear to him, but wherever we have this creature we call man, there we have found his faithful friend and companion, the dog, always willing to follow him through thick and then, never seeming to care for an instant whether his master was rich or poor, wise or ignorant, saint or sinner, alas even when beaten, starved, cruelly treated, ready to lick the hand that has hurt him. A good man once said, "When my father and mother forsake me then the Lord will take me up." Might not one say that, when a man might feel forsaken of every earthly friend, there would still be looking up into his face the gentle, trusting eyes of

his devoted dog, saying by every look and sign, "Where thou goest I will go, thy lot shall be my lot, 'nor shame,

Corn For All

U HE Gods sent not corn for the rich man only," stated a famous writer, and certainly Then simmer five minutes and serve.

when we, today, note how corn is one of the staple foods in our diet-ary, whether we be rich or poor, we recognize the truth of the state-

One reason for corn's popularity doubtless is its delicious flavor when canned, and its consequent availability the year around at a stable quality and price.

Canned corn may be used in many ways in cooking — in soup, as a vegetable dish and in many com-stock. binations. Here are some tasty recipes which illustrate this versatil- number 2 can of corn fine and add

Cream of Corn Soup: Run half an onion and the contents of a num-ber two can of corn through the pimiento, and salt and pepper to of one tablespoon butter, one table- dish and bake half an hour in a modone-fourth teaspoon pepper, sprinkle of paprika, one cup milk pimiento.

Easy to Make

Creamed Corn and Celery: Boil one cup sliced celery in a minimum of water until tender. Remove celery. Make a sauce of one tablespoon

butter, one tablespoon flour and one-half cup of the celery stock. When boiling, add to it celery, conents of a small can of corn and

Corn Pudding: Chop contents of a one cup milk, one teaspoon sugar. one egg, one tablespoon melted meat grinder. Make a white sauce taste. Pour into a buttered baking spoon onion, one-half teaspoon salt, erate oven. Serve in baking dish, a decorating the top with strips of

KING OF SLAVS IS NO PUPPET MONARCH

Alexander Takes Big Part in Nation's Affairs.

Belgrade .- Probably no other king in the world has such a grip on the affection of his country and his people as young King Alexander of turbulent Jugo-Slavia. He is not a mere symbol. Not only is he in the closest bonds with his people, but he directs the cabinet, controls the army, formulates the foreign policy, and takes an active part in every question affecting the welfare of the nation.

Only thirty-nine years old, Alexander, who was once a page in the czar's court at Petrograd, is the most powerful figure in a country which. since the World war, has increased its population from 3,000,000 to 12,000,000 and its territory from 58,000 square miles to 96,135 square miles.

Alexander is a tremendous worker. He is on the go day and night. "I have never known a man who works so hard," remarked Queen Marie about her royal son-in-law

Seeks Racial Harmony.

Alexander's greatest ambition is to achieve unity and harmony among the Croats, Slovenes, Serbs, Dalmatians, Moslems, and other diverse nationalities of Jugo-Slavia.

The king is intensely interested in mechanics, science, medicine, archeology, art, military lore, and literature. Like King George of England and King Victor Emmanuel of Italy, he is a great stamp and coin collector, having one of the finest sets in the world

The king's day begins at seven in the morning, when he goes through the newspapers, reads telegrams and answers correspondence. From ten o'clock onward he receives his ministers, the commandant of the Belgrade garrison, the governor of the capital and army and civilian leaders. At 1:30 the king has luncheon, usually with the queen, his two baby sons, court officials, and sometimes invited guests.

Like most Slavs, Alexander is a hearty and a fast eater. He is fond of Serbian national dishes.

From 2 to 4 in the afternoon he usually takes an automobile trip with the queen into the country, sitting at the wheel himself. Occasionally he varies this by a horseback ride, a long walk, or a game of tennis. From 4 to 7 he grants audiences.

Is Always Cheered.

Between 7 and 8 his majesty usually takes a stroll into town, accompanied only by an aide-de-camp. He is always enthusiastically cheered, but does not relish this public adulation.

At 8 the king dines, usually with friends or official guests. After dinner he chats with his guests, plays bridge, chess, or "listens in" on his wireless.

Like most Slavs, Alexander is very pious and goes to church every Sunday and on all feasts. He is a member of the Greek Orthodox church But he is broadminded and does not adhere to dogmas or rigid doctrines.

Although Alexander has been on the throne seven years, he has never been formally crowned. He has always insisted that his country could better devote the expense of such a coronation to other more useful ends. Only

WRETCHES!

She waited on the corner joyously, then pensively, then expectantly, then casually, then anxiously, and two hours passed.

"Man," she said, "is a perfidious animal, faithless and untrue, incapable of consummating a promise," and so she became a cynic.

Two hundred yards down the street he said the same thing about womenshe was on the wrong corner!

No Favoritism

An English laborer's wife was having her baby christened, and gave the name "Acts."

The astonished vicar said: "Do you mean that I am to christen this child "Acts'?"

"Well, yes," the mother replied. "We've got Matthew, Mark, Luke and John, why not give Acts a turn?"

GORGEOUS GORGE

She—Isn't the view gorgeous? He-Naturally. A gorge is bound to be gorgeous.

Great but Silent Influence A great man comes to public view, Triumphant o'er duplicity. Fame never puts on record who Conducted his publicity.

Civic Interest

"I've just heard that a gang of bandits robbed the bank in town this forenoon !" said Farmer Fumblegate.

"This thing has got to be stopped, I-gorry !" returned Farmer Benover. "Dadbury 'em-they'll go some'r's else to spend the money instead of turning it loose here where it came from."-Kansas City Star.

No Address

The mate had fallen overboard. He sank out of sight, then rose to the surface.

"Ahoy there!" he yelled, "drop me a line!"

The captain appeared at the rail and shouted back "All right, but what's your address

going to be?"-Capper's Weekly.

TYING UP TRAFFIC

BEES IN THE HAND

I F YOU catch a bumblebee you can hold him in the hollow of your closed hand, or between the hollows of the palms of your crossed hands, without his stinging you as long as you can "hold your breath." This is a common belief all over the country. It is a survival of a belief in that mystic character which the ancients assigned to the bee. The bees supplied the honey for the sacred mead which Odin and his warriors drank so copiously in the ringing halls of Valhalla, being thus brought into direct contact with the gods of old, and Virgil, speaking of bees, says that they are thought by some to possess a portion of the "divine intelligence." 'The belief in the necessity of telling the bees when a death occurs in the house -is a belief common all over Europe and still found existing occessionally in this country. This custom prevails also among the Hindus and was a custom of the ancient Greeks. Bees, then, are highly mystic creatures in touch with the gods and possessed of a portion of the divine intelligence. The breath was regarded by the ancients as the life, soul, spirit of a man. For, they reasoned, when the breath entirely left the body the man died. Now when a man exhales that

IN EVERY field of endeavor, wise men and women in the beginning sum up the possibility of success by carefully considering all the "ifs" and "buts" by looking ahead.

So far as they are able they leave nothing to chance.

SOMETHING TO

THINK ABOUT

By F. A. WALKER

LOOKING AHEAD

They go to the root of the matter with the same composure that an accountant adds up a column of figures. seeking cold results rather than spec ulative fancies.

What appears in its first blush to require but slight investigation must stand the test of addition and subtraction, otherwise it makes no stronger appeal to them than the thing which shows on its surface less prom-

Of courre, these considerate persons make frequent mistakes, but their errors as a rule sharpen their wits and enable them to judge accurately between the right and the wrong course.

To plunge deep into a stream with-out the ability to swim is altogether foreign to their purpose. The thought always in the minds

of those who habitually look ahead, is whether they can float.

They have a horror of getting over

Every purchaser of a new Ford is entitled to **Free Inspection Service** for the first 1500 miles

a finely built piece of machinery and it will stand a lot of abuse. Considering the work it does, it gives surprisingly little trouble. But there isn't a car made that will not run better and longer if given proper care.

The first few hundred miles are especially important because that is when the mechanism of your car

trouble later on.

ested in this matter because we believe it is our duty not only to make a good automobile, but to help the owner get the greatest possible use over the longest period of time at a minimum of trouble and expense.

With this in view, the entire Ford dealer organization has been specially trained and equipped to service the new Model A car.

Furthermore, we have instructed every Ford dealer to give the following Free

THE modern automobile is Inspection Service at 500, 1000 and 1500 miles:

Check battery Check generator charging rate Check distributor adjustment Check carburetor adjustment Check lights **Check** brakes Check shock absorber adjust-

ment Check tire inflation Check steering gear Change engine oil Lubricate chassis

No charge is made for labor or materials incidental to this service, except, of course, where repairs are necessary through accident, misuse or neglect. The only charge is for new oil.

See your Ford dealer, therefore, and get this Free Inspection of your new car at 500, 1000 and 1500 miles. Find out, too, how little it will cost to have your car given a thorough goingover at regular periods thereafter.

A checking-up by experienced mechanics, together with oiling and greasing every 500 miles, will add months and years to the life of your car and mean more

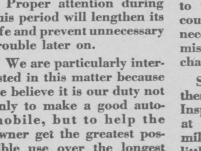

economical and pleasurable motoring every mile you drive.

is being broken in.

Proper attention during this period will lengthen its life and prevent unnecessary

once has he worn the crown, and that was when he formally assumed the throne in 1921.

Science Warns Industry Of Benzol Poison Peril

Washington.-Benzol poisoning has been found a distinct health hazard in many chemical laboratories as well as in certain manufacturing plants, reports J. J. Bloomfield of the United States public health service. In laboratories in which tests are made in connection with rubber, paint, oil and varnish, benzol is extensively used, not only in the tests but as a solvent for cleaning apparatus and the hands and arms of the workers.

The concentration of more than 100 parts of benzol in every million parts of air in the workroom constitutes a health hazard. Substitutes for this substance are recommended to be used as far as possible, particularly for cleaning.

The number of white blood cells is considerably reduced in chronic benzol poisoning, and the nature of the cells also undergoes change. Routine physical examinations of the workers, including examination of the blood, are recommended upon employment and frequently thereafter, as a means of checking this condition in plants where benzol cannot be dispensed with altogether.

Abilities of Triplets Found Fixed by Birth

Washington .- If a triplet child starts out in life bigger and brighter than his fellow triplets he is likely to remain just about the same distance ahead of others through childhood.

This is the case with a set of triplets whose mental and physical development have been recorded at intervals during fifteen years.

The triplets consist of two girls and a boy, according to E. C. Nowe of the state normal school at Mount Pleasant, Mich., who has reported the case to the Journal of Heredity. The boy was the first to cut his teeth and the first to walk and talk. He had the highest intelligence rating, and until the girls were about thirteen years, the boy was the tallest and heaviest. The boy's intelligence rating has stayed about an even distance ahead of the brighter girl, and her rating has kept ahead of the third triplet, Mr. Nowe states.

Mr. Commuter-Why didn't you speak of it sooner. I've no time to argue with you now.

LIKE ALARM CLOCK

He-How about wedding bells for you and me? She-Nothing doing. Too much like

an alarm clock.

Sudden Contrast

My radio! My radio! You keep me going some. One number is a classic And the next is just a bum.

Meanest Man

Mrs. Saymore-I'm going to get a divorce. George is the meanest man in the world.

Her Mother-Why, what did he do? "He's been teaching the parrot to take his side in an argument."

Big Business

Floorwalker (to impatient customer, leaving)-Can't you get waited on, Madame?

Madame-No, I'm afraid I came at an unfortunate time; your salesladies are in conference.

Next Thing to Dishabille

Uncle Si (just arrived in town)-I've called to see my niece. Maid-She's in her boudoir Uncle Si-Well, if that's all she's got on, I'll wait.

On His Way!

Salesman-Let me sell you an oilburning furnace, sir.

Prospect-Not a chance. When burn up oil I want to be going somewhere.

essential spiritual part of his ego his breath, the sensitive and mystic bee the purveyor of mead to the gods of Valhalla and the possessor of a portion of the divine intelligence, of course knows it at once-and signifies his knowledge by stinging. Whether the sting is given as a warning not to let too much of the breath-soul escape, or whether the breath-soul of a mortal is displeasing to the bee, accustomed to the divine afflatus of the gods, is not quite clear. That bees were regarded by the ancients as especially sensitive to the human breath is shown by another superstition to the effect that they will not do well if too much talked about and refuse to thrive if made the subject of the slightest dispute.

FOP THE GOOSE

A WOMAN that somebody loves is never homely.

Sometimes a man asks a woman that's interested in him, to marry him, because here at last is somebody he's got some'm in common with.

It's never the man that tells what he said when he proposed. Man proposes and wo: an discloses.

Women like a man if he knows what he's after. But not, as a rule, if they know.

FOR THE GANDER

Lots of times a guy flatters himself he's a rough diamond when he's only a rough rhinestone.

You often gotta neglect little things if you wanna do justice to the big ones. Lik a man clearin' a field, if he stoops to pick up every little stone, he won't have no pep left for the rocks.

Funny, ain't it, how the more you get woman to give you, the more she ac's like she's in your debt. (Copyright.)

their heads and being ne'er-do-wells, clutching at straws in the troubled waters all about them.

You will find, if you peer around you, that he men and the women who are occupying the high places, are those who in their early youth looked ahead, not with trembling and fear. but with calmness and determination, keeping their eyes open all the while and avoiding the bogs and quicksands, and sullen depths.

They looked ahead to the bald days of winter and shaped their lives accordingly.

They chartered their course in the stillness of night, while their associates were romping to jazz music, thoughtless of the future.

Lincoln looked ahead as he lay upon the floor before blazing logs, seeking knowledge which would enable him to surmount the obstacles of the future. Your past with its mistakes is gone. So while you yet have time in the present, summon all your resolution, all the strength that within you lies and scan the horizon ahead. Try to vision yourself in the proud place you are hoping to reach.

This simple effort will do you good and help you on the way.

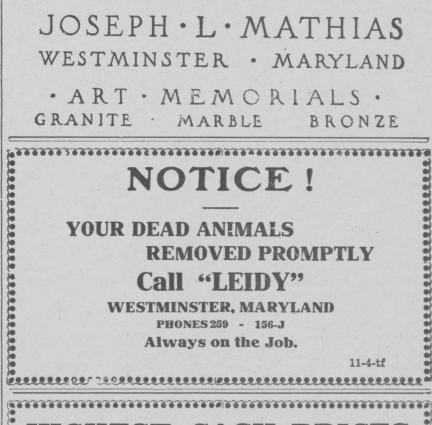

WHAT IS THREAD MADE FROM? Three kinds of thread we use at home From action, flax, or silk We buy our thread in colors bright Or strands as white as milk. (Copyright.)

RULY an artistic memorial is the Keelty tribute. Its simple grace and contour plus its talented craftsmanship gives it an air of distinctive refinement. The splendid execution of its symbolic ornamentation is worthy of appreciation.

KEYMAR

Our community was greatly shocked, last Saturday morning, when word came that Mr. Edwin H. Sharetts had a stroke. Mr. Sharetts got up in his usual way, and made the fire, and then went to the barn and done his barn work, and on his return to the house, Mrs. Shriner heard a fall, and on going down, found him lying on the floor in the kitchen, unconscious. She summoned help and had him re-Monday morning, Oct. 29th., 1928, without gaining consciousness, aged 78 years, 1 month and 3 days. Mr. Sharetts was a highly respected citi-zen, and friendly to everybody. Funeral services were held from his home, Wednesday morning, at 10:00 o'clock, with further services at Mt. Zion (Haugh's) Lutheran Church, by his pastor, Rev. Mr. Sorrick, assisted by Rev. L. B. Hafer, of Gettysburg. His wife preceded him to her grave, seven years ago. The funeral was largely attended by relatives and friends. The floral designs were many

last Saturday evening, at their home, in Keymar. Those present were:Mrs. Claude Clemson and two sons, of near Frederick; Mr. and Mrs. Harry Stone-sifer, of near Emmitsburg; Mr. and Mrs. Charles Haugh, Detour; Mr. and Mrs. R. W. Galt and David Leakins, Keymar. Refreshments were served, consisting of pumpkin and apple pie, ginger bread, apples, and the good things that goes with Hallowe'en. The table was decorated in Hallowe'en fashion, with a large pumpkin containing an electric light, which all enjoved very much.

Miss Cora Sappington, this place, accompanied by Mr. Whitehill and sister, Miss Nannie Whitehill, of Union Bridge, went to Baltimore, last Monday evening, to hear Gov. Smith speak

Scott Bollinger, this place, was one of the listeners to hear Mr. Smith speak, Monday evening.

EMMITSBURG.

Mr. Harry Baker and daughter vis-ited at the home of Mr. and Mrs. M. E. Lovell. Mrs. H. W. Baker, who had been visiting there, returned home with them.

Mr. and Mrs. Isaac Motter and family, of Baltimore, and Miss Mary Motter, of Taneytown, were visitors of Mr. and Mrs. Charles Motter, on Sunday.

Miss Flora Frizell visited Miss Ida Mehring, Uniontown, on Saturday. Mrs. Donald Kime is spending a

FEESERSBURG.

Was that a black frost, last Friday night? Well, it left all out-door plants and vines looking bady scorch-ed, and the fields in the early morning looked as if a light snow had fallen. Jack didn't come too early, this year, and now we are raking leaves. Rev. Kroh and his sister visited

most of his members, in this part of pastorate, last week. All services at Mt. Union were well

attended, on Sunday. Eighty-eight at Sunday School. Holy Communion was observed at 10:30 A. M., when William Samuel and Melvin Wilbur Utermahlen, Frances Louise Birely and Eileen Reindollar, were received into the church, by confirmation.

A number of our people attended the Men's Bible Class parade, on Sunday afternoon, and a few fell in-Sunday afternoon, and a few fell in-to the line of march to Alumni Hall, of J. W. Messler. and listened to the splendid address Miss Isabelle Garner and Junior by Mr. Davids.

The illustrated lecture, on "Yellow-stone Park," given by Mr. and Mrs. George Mather, at Mt. Union Church, on Sunday evening, was better than was expected as every one agreed. The views of hotels, camps, lakes geysers, rivers, canyons, water falls, mountains, rocks, planes, drives, ani-mals and flowers, were majestic and beautiful, described in a reverent beautiful, described in a reverent manner. The offering, shared with the lecturer,was over \$\$21.00, for mis-sionary purposes. There was a fine display of jarred fruit and vegeta-bles, 99 quarts and packages of home-made soap, for the Deaconess' Moth-er House, in Baltimore. Many of the members of the Lutheran Church in members of the Lutheran Church in Uniontown were in attendance.

Most interesting Evangelistic services continue nightly in Middleburg Church. A large crowd filled the house on Sunday night, and earnest efforts made in sermon and song for soul winning.

The autumn rally of the Missionary women of the Lutheran Churches in Carroll Co., will be held at Mt. Un-ion Church, on Tuesday, Nov. 18th., Mr. and Mrs. Wilbur H Otto and son, Thomas, gave a Hallowe'en party Mrs. L. S. Hartman, of Middletown, is the newly elected vice-president, and Mrs. Elmer Harp, Sec. Bring your lunch, and enjoy the day with

> The small lassies of Middleburg were out selling candy and doughnuts on Saturday, and had a good trade on good products for good purpose. Bless us! Only heard the far off echo of the wedding bells of Frances Crabbs to Donald Lambert, on Satur-day evening, by Rev. M. Kroh. A long, happy and prosperous life to our young friends. Mrs. Eliza Koons and Mrs. Bell

MARRIED

FEESER-DeBERRY.

Married on October 30, 1928, at the Lutheran Parsonage, Union Bridge, by Rev. P. H. Williams, Mr. George Henry D. Feeser and Luella S. Deberry. The ring ceremony was used. They will live at the home of the bride's parents.

DIED.

Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

MRS. JAMES A. WENTZ.

Mrs. Mary Alice Wentz (nee Arm-strong), wife of Mr. James A. Wentz, died at their home Lineboro, Md., on Sunday, Oct. 28, at 9:15 P. M., after a lingering illness. She is survived by her husband, three sons: Paul S., near Hobart, Pa.; James I. and Lloyd S., of Lineboro; one daughter, Mrs. George Braun, Hanover, Pa. Also her father, Daniel Armstrong, Lineboro; three brothers, J. E., Glenville, Pa.; George A. and Irvin L., Lineboro, and one sister, Mrs. George A. Wertz, of Westminster, eleven grand-children. Funeral services Wednesday, at 2, at the home and continued in Lazarus

Union Church, conducted by the fam-ily's pastor, Rev. John S. Hollenbach of the Reformed Church. Mrs. Wentz was born Dec. 9, 1866 making her age 61 years, 10 months, 19 days.

Mr. SAMUEL D. RIDINGER. Mr. Samuel D. Ridinger, died at his home in Taneytown, Sunday night, af-ter a long period of ill-health, but was bedfast for only a week. His age was 66 years and 4 months.

He is survived by his wife, one son and one daughter, Cletus S. Ridinger, at home, and Mrs. J. Emory Hahn, of Taneytown; also by two brothers and three sisters, John and Abram Rid-inger, of Harney; Mrs. Barbara Fraz-er and Mrs. Charles Hess, of Gettysburg, and Mrs. Clara Weant, near Tanevtown.

Funeral services were held on Wednesday afternoon, at the home, with further services and interment in the U. B. cemetery, at Harney, in charge of his pastor, Rev. Geo. A. Brown. The A. O. K. of the M. C., of Harney, of which he was a member, conducted their ritual at the grave.

MR. ROBERT M. WANTZ.

Mr. Robert M. Wantz, a well known and prosperous farmer, near Pleas-ant Valley, died suddenly Sunday eve-ning, at 7 o'clock, at his home, from a heart attack, aged 68 years, 8 months, 19 days. He had attended the Bible Class rally at Westminster in the afternoon, and appeared to be in his usual health, but after having completed his regular evening work, and while sitting in a rocking chair talking to his son, Leander C., he sud-denly toppled over and died almost immediately.

He was twice married; first to Miss Clara V. Frock, from which un-ion two children survive: Irvin E. Wantz and Mrs. John Myers, Pleasant Valley. His second wife was Miss Annie Nusbaum, who survives him with one son, Leander C. Wantz, at home.

IN LOVING REMEMBRANCE of our dear wife and mother. MARY FOX,

who died 10 years ago, November 4, 1918.

She who brought us so much sunshine Cheered our thoughts through darkest days, Making earth seem like Heaven By her many loving ways.

You are resting in peaceful slumber, Ten sad years have passed away; You are gone, but not forgotten, As we think of you each day.

We do not forget you, nor do we intend. We think of you often and will to the end Gone and forgotten by some you may be, But dear to our memory you ever will be.

There's one who still will linger, At the spot where you are laid, Who will come and scatter flowers On the grave that Christ has made.

The flowers we lay upon your grave May wither and decay. But the love for my mother Will never pass away. By her LOVING HUSBAND AND CHIL-DREN, MURTY AND EARCY.

In Memory of

MRS. BARBARA THOMSON who died November 11, seven years ago. "Gone but Not Forgotten."

Midnight stars are gleaming on a lonely

muscled arms and powerfully clawed hands. And his bones were of stone.

Midnight stars are gleaming on a lonely grave. Where sleeping, but not dreaming, lies the one we could not save. As we loved her then, we love her mem-ory now. We think of her in silence, No eyes can see us weep. But still within our aching hearts Her memory we shall keep. She bade none a last farewell, She said goodbye to none; The heavenly gates had opened, A lovely voice said, "Come," And with farewell unspoken She party entered home. Our dear one sleeps in silence, We'a not disturb her rest. Sad and lonely are the hearts of thoso who loved her best. BY THE FAMILY.

RESOLUTIONS OF RESPECT.

At a meeting of the Directors of The De-cour Bank, the following preamble and resolutions were unanimously adopted; Whereas, It has pleased the Supreme Architect of the Universe to remove from us our director and fellow associate, Edwin 4. Sharetts, and Whereas, The intimate relations held by he deceased with the directors of this hank, make it necessary and proper that ve should place on record our appreciation of his services and of his merits; therefore we fit

Resolved, That while we bow with hum-le submission, we do not the less mourn or the one who has been called from his hor to rest.

Are the one who has been called from the abor to rest. Resolved, That in the death of Edwin H. Sharetts this bank sustains the loss of one who was always zealous in the interests of the bank, an honest and upright man whose virtues endeared him not only to this Board of Directors, but to all of his "Howmen."

Resolved, That this expression of our sympathy and sorrow be enrolled in the proceedings of this institution. W. J. STONESIFER, P. D. KOONS, D. B. REIFSNIDER, Committee,

A Chorus of Praise

All about my garden today the birds are loud. To say that the air is filled with their song gives no idea of the ceaseless piping, whistling. trilling, which at moments ring to heaven in a triumphant unison, a wild accord. Now and then I notice one of the smaller songsters who seems to strain his throat in a madly joyous endeavor to out-carol all the rest. It is a chorus of praise such as none other of earth's children have the voice or the heart to utter. As I listen I am carried away by its glorious rapture.-George Gissing in "The Private Papers of Henry Ryecroft."

LEGEND EXPLAINS A **PETRIFIED FOREST**

Navahos Call Stone Trees Bones of Monsters.

Tucson, Arizo.-The Navaho Indians of the southwest have a strange and fantastic legend to account for the great stone tree trunks whose broken columns strew the desert in the region. of the famous petrified forest.

In the early days of the world, the Indians say, the sun did not ride tranquil and undimmed through the sky as he does now. At that time there was a black monster that was continually contesting his supremacy. His name was Yietso, and many were the battles that he and the sun fought. Lived in a Cave.

This Yietso lived in a cave in the

big mountains, and from there he

would sally forth and contend with

the sun. He had long and strongly

When he stood erect he could reach

When he was defeated in his fights he would have to rest many days and

often even many months before he

was able to renew the attack, but he

was never vanquished. Also at times

during those terrible bouts he would

get a finger, hand or limb so broken

that he would have to discard it, but

he possessed the power to grow a

new part in the place of the disabled

one. The bones of these disabled,

discarded parts, which were of stone,

he threw out from the cave over a

ridge from time to time as they got

in his way, and thus for years and

home with his mother, Shemah, and

his sister, Zonnie. One winter it got very cold. Finally, as they had no

fuel, Kee went to the mountains for

pitch wood. As the sun set before he

reached the forest he slept out where

he was. Then on the next day he

went into the mountains and found

what he supposed was pitch wood, a

Bones Instead of Wood.

growing dark the second night. So

he slept outdoors in front of his

hogan, where Zonnie found him still

sleeping when she came home in the

morning. She also noticed the wood,

just as their grandmother came out

of the house. And instead of pitch

wood he had brought bones of Yietso;

whereupon his grandmother scolded

him and told him to throw the bones

In time Kee grew to be a great

man. Time and again he visited the

mountain where he had obtained the

bone-wood, and there he prayed to

his god and made sacrifice. Then one day he discovered the cave where the

monster lived, and at the rising of

the sun on the following morning he

told him, through prayer, of the

Just as he was telling the sun the

news he saw the great black thing.

leaping above the mountains to the attack. Quickly Kee called the men

of his tribe together and they all

away.

beast's abode.

When he reached his home it was

quantity of which he chopped.

ages the stone-wood accumulated. At that time a boy by the name of Kee lived in a grass-tied feather

the sun at any place in the sky.

Mrs. Louise Fuss is visiting relatives in Hanover, Pa.

Misses Pauline Baker, Lucy Higbee, Elsie Springer, Elizabeth Hoke and Mr. Yonkers, all attended a teachers' meeting in Frederick, on Friday.

MANCHESTER.

Preparatory Services and Communion, Saturday and Sunday, conducted by the Reformed congregation, at Lineboro, were well attended.

A large crowd witnessed the rendi-tion of the Pageant, "When Youth Crusades with Christ," by the young people of Trinity Reformed Church, with the aid of the young people of St. David's Church, in the Reformed Church here. The men of the Lutheran S. S., vis-

ited at St. Matthew's Lutheran S. S., Hanover, on Sunday. A number of folks attended the

Democratic rally, at Baltimore, Monday night.

A Community Fair is being held by the Fire Co., at Lineboro, this week.

MAYBERRY.

Those who spent Sunday in the home of Mrs. Annie Keefer were: Mr. and Mrs. Ben. Wrightler, of Baltimore; Mrs. Wm. Cover, of Thurmont; Mr. and Mrs. John Grushon and daughter, Nedia, of near Emmitsburg; Mrs. Ellis Crushong and son, Abram, and daughter, Catherine, spent the after-noon at the same place. A Heavy Weight Family.

Mr. and Mrs. J. T. West, of Topeka, Kansas, whose weights are respectively 285 and 210 pounds, have four children of the following weights, Leonard, age 17 years, 400 lbs.; Bern-ard, age 15 years, 312 lbs.; Jessie 3½ years, 75 lbs., and Patsy Ann, 11/2 years, 40 lbs.

"Inside" Information for Women.

Prolong the life of shoes in wintertime, especially those worn by men and boys without rubbers, by soaking the soles in a grease that will make them waterproof. The United States Department of Agriculture recommends several simple formulas for the purpose.

Rice can be cooked in an open kettle in 15 or 20 minutes. A large quantity of water should be used. As oon as a grain pressed between the thumb and forefinger is soft and has no hard portion in the center, the rice should be taken from the fire, drained, covered with a cloth, and allowed to steam until the grains swell and eparate

In cake recipes with a number of eggs, it is possible to substitute baking powder for one or two of the eggs called for, during the period of egg scarcity. Of course the cake will not be so rich as when all the eggs re-quired are used. Allow one-half teapoon of baking powder and two ta-plespoons of milk for each egg omit-From half to two-thirds of the ted. eggs called for should be used even when this substitution is practiced. For rather novel sandwiches or thin bread and butter for afternoon tea make some orange bread. The flavor is given by the cooked peel of 2 oranges. This is cut into shreds, covered with water and cooked for about 20 minutes, or until tender, and then Next cook the peel in a drained. sirup made of one cup of sugar and $\frac{1}{2}$ cup of water until there is only about tablespoon of the sirup left. Sift together 3 cups of flour, 4 teaspoons baking powder, and ½ teaspoon salt. Cut in 1 tablespoon of butter and add 1 well-beaten egg and one and a family was formerly of that city. quarter cups of milk. Beat this mix-ture for about 3 minutes. Stir in the orange peel and mix thoroughly. Pour in a greased bread pan and bake for one hour in a moderate oven-(about 325° to 350°F.)

ent for some time from a nervous break-down, and gave no indication that she contemplated self-destruction and only a short time before the act she wrote a number of checks at the request of her husband to pay some hands employed on the farm.

She was a daughter of the late Mr. and Mrs. Uriah Englar, and was born and grew to womanhcod on the farm where she lived and died. She was a member of the Church of the Brethren and was held in the highest esteem. She is survived by her husband. three sons and one daughter, Miss Ethel, Charles, John and Walter, all at home, and by two sisters and one brother, Mrs. Edward Carlisle, New Windsor; Mrs. Ida Repp, Union Bridge, and Elder W. Philip Englar,

Uniontown. Funeral services were held on Monday afternoon at her late home, fellowed by interment in the Pipe Creek cemetery near Uniontown, the services being in charge of Elder John J. John and Dr. Edward C. Bixler.

MR. JOSEPH MILLS.

Mr. Mills, son of Mr. and Mrs. J. Bibb Mills, aged about 8 years, died Thursday in the Birmingham, Ala. Hospital. Joseph entered Western Maryland College, September, 1927, as a freshman and became a most popular student.

Some time in the middle of Novem ber he received a box of goodies from home and had invited several of his chums to his room for a feed. After the boys had left, he went to his win dow box where he kept his food, and in placing the box there, he lost his balance and fell out of the window to the ground. He suffered a broken back and was rushed to the Maryland General Hospital. There he was given every attention.

always anticipated getting well again. Specialists from the leading hospitals became interested in his case and examined him, but could not help him. From the first no hope was given. After several months in the hospital, he seemed to grow stronger and it was thought he might live a long time. His parents had him moved to the hospital in Birmingham, Ala., where the father is State Superintendent of

Funeral services Sunday afternoon at 2:30 o'clock in the Starr Methodist Protestant Church, Baltimore. The

Don't complain of hard work. The time is apt to come when we will be glad if we could only work, no matter how hard.

Hydrabad take his family out for a little ride, it is some ride. He has from 60 to 70 wives, and recently sold his stable of elephants to in stall a fleet of 25 motor cars. He is only a young man and hasn't yet acquired as many wives as his father, who has 300 Of course it takes quite a bit of money to keep up such an establishment, and the young nyzam went on a tour to collect all the revenues from his lands. He had to hire a special railway car for the purpose, and then needed all the cash he got.

Efficacious Love

The heart of man the world over is crying for a love adequate to deal with all his problems, and to cure all his sins. And the only place where we can be certain of that love is Calvary. It is for you and me to decide what we are going to do with it. We may accept what Christ offers, and take our stand by His side as the sons and daughters of God. Or we can reject what He offers, but in doing that, we must remember that we are rejecting the sublimest manifestation of the love of God that this earth contains.

NO HELP

Mrs. Brown-Have you any help now, Mrs. Jones?

Mrs. Jones-No. just a servant girl, Mrs. Brown.

Unconvinced

The doctors humbly I respect My lungs and liver showed neglect To solemn things the doctors said. Had these succumbed I might be dead!

Ideals Vs. Ideas

He-Before I met you i thought only of making money. She-Well, don't stop now. Father hasn't as much as you thought.

prayed for the powers of good to aid the sun in this battle against darkness.

Right against the face of the sun leaped the monster. It stretched its fierce arms and clawing hands to ward the sun's rim. Then the battle began in earnest. The sun attacked him with his millions and millions of rays, and, aided by the prayers of the then good people of earth, he finally overcame it.

In this battle of all battles the sun's rays pierced Yietso's body, and his blood, on reaching the earth, was congealed in lava flows. Finally he fell back to the earth dead, and the sun mounted triumphantly in the heavens, as he spread his invigorating and cheering light over land and sea. And the Plateau region is still incredibly covered with its bones, called by the Navahos Yietsobitsin, the bones of Yietso.

Trappers Dead Fifty Years Found in Cave

Sault Ste. Marie, Ont.-A long-forgotten tragedy of the fur-trading days is believed to have been uncovered. A prospector reported that he had found two skeletons and a number of rusted old-fashioned muskets in a cave north of Bruce Mines.

The skeletons were lying by the side of a small, well-hidden lake and, until he found them, A. B. Frazer, the prospector believed he was the discoverer of the lake.

Frazer said he was positive no one had visited the lake since the men met their death. The muskets were of a type which has not been used in the North for fifty years. No other articles could be found to indicate when the men died or what caused their death.

Amputates Frozen Toes With a Kitchen Knife

Prince George, British Columbia.-A trapper who amputated four of his toes with a kitchen knife when they became frozen last winter has arrived here for professional surgical attention, but was told he had done the job so well no further treatment was needed.

While inspecting his trap line on the upper Finaly river, J. Omera suffered frost bite in his right foot. On returning to his cabin, which is 50 miles from the nearest neighbor, he took three days to perform the operation. He then washed the wounds in antiseptic and bound them up.

He was always in bright spirits and

EATS SAUERKRAUT NOW, FEELS YEARS YOUNGER

"Now I eat even sauerkraut and sausage and feel fine. Adlerika end-ed stomach gas and I feel 10 years younger."—Mrs. M. Davis.

Just ONE spoonful Adlerika re-lieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter

MORAL: DON'T SEE 'EM

"You say financial troubles brought. you here?" asked the hospital visitor. "Why, that's hardly possible!"

"It's a fact, though," retorted the patient. "I was crossing to the other side of the street to avoid one of my creditors and saw another creditor on the other side. While I was trying to escape a car hit me."-Georgia Motorist.

Walter Bungled It

Henry-I hear Walter's engagement's been broken off. How's that, old man?

Herbert-He was trying to tell Phyllis how time stood still whenever he looked in her eyes, and it appears the silly ass didn't get it quite right. At any rate, he gave her to understand, that, in his opinion, her face would stop a clock.

Our Own Vaudeville

Dot-I understand that Cozette took advantage of leap year and proposed to that magazine writer, but was turned down.

Dash-Yes, he sent her a rejection slip.

BEING SORRY

He-You'll be sorry ten years from now if you turn me down. She-That's better than being sorry right away.

Self-Exploitation

He advertised himself, and yet He finds results are insecure— The merchandise, 'mid much regret, The public rates as rather poor.

Then She Woke Up

"At last Jim has been able to put 'a stop to his wife's extravagance." "How did he manage it?"

"He warned her that if she didn't let up there'd be nothing left for alimony."

plies to all other subjects. The social atmosphere of th

No, Panama Hat Isn't

From Panama at All One of life's little oddities is that the country which gives its name to the panama hat doesn't make the hat at all. And the panama isn't a straw hat, properly speaking.

The hats are made from the shredded leaves of a species of small palm which grows almost entirely in countries south of Panama. Ecuador, Peru and Colombia are among the principal producers.

The young leaves are cut, dipped in boiling water and bleached before the women who weave them begin work. The hat is not woven under water, as is commonly believed, although water does play a part in the process. Usually the weavers begin work early in the morning, to keep the shreds from drying and to keep their fingers constantly damp, an essential factor in handling the strips. A weaver will spend as much as three weeks in making a single hat. However, the time is profitably spent since a genuine panama will sell for \$50 or more in its native land-and will cost much more before it reaches

Canal Zone Line Test

you.

of One's Equilibrium

You can buy whole coconuts for a nickel from street venders on both sides of "Fourth of July avenue," nickname for the street in Balboa, Canal zone, that divides the staid, Puritan, prohibition Yankee quarter from the exotic old town of Panama. Across the center of this famous thoroughfare lies a line. On one side of the street is Old world comfort. On the other is the strictest of American discipline. On both sides there is discipline as far as sanitation is concerned, due to the activities of soldiers, whom your buggy driver tells you "must clean the streets for everybody else."

It is said to be a test of one's equilibrium to try and walk right along the straight and narrow line that separates Panama from the Canal zone, without flinching, to either side.

A Mother's Love

A father may turn his back on his child, brothers and sisters may become inveterate enemies, husbands may desert their wives, wives their husbands, but a mother's love endures through all; in good repute, in bad repute, in the face of the world's condemnation, a mother still loves on, and still hopes that her child may turn from his evil ways and repent. Still she remembers the infant smiles that once filled her bosom with rapture, the merry laugh, the joyful shout of his childhood, the opening promise of his youth; and she can never be brought to think him all unworthy .--Washington Irving.

Da Vinci Regarded as Greatest of Anatomists

Specialists reading the notes of Leonardo da Vinci have been astonished at the accuracy of the Italian's knowledge of the arts and sciences. At least one noted surgeon has called Da Vinci the greatest anatomist. A reason is to be found in the notebooks of the painstaking painter, sculptor and man of science, where about the beginning of the Sixteenth century he wrote:

"In order to obtain an exact knowledge of these (his anatomical drawings) I have dissected more than ten human bodies, destroying all the various members and removing even the very smallest particles of the flesh which surrounded the veins without causing any effusion of blood other than the imperceptible bleeding of the capillary veins. And, as one single body did not suffice for so long a time, it was necessary to proceed by stages with so many bodies as would render my knowledge complete; and this I repeated twice over to discover the differences."

Finds Average Man and Woman Is Kind-Hearted

A woman writer from the New York World got herself a peddler's license and went out on the street to make a test of New York's charity and gullibility. She found the average man and woman kind-hearted and unsuspecting-that stenographers are the most generous people in New York. "The police didn't bother me," she reports, "unless I caused a commotion. I tied up traffic on Broadway three times because of the curiosity of onlookers. New York is more generous by day. By night when I 'peddled' the white-light district I aroused curiosity rather than sympathy. Broadway crowds are somewhat cautions." . . . Begging is not allowed in New York beyond a certain dead line. This woman "beggar" found when she crossed that line the police didn't see her, indicating the presence of a heart under the uniform.

Better to Forget

First Manager-Do you think your man will remember everything he learned in his last fight? Second Manager-I hope he don't. The only thing he learned was to get knocked out.

The More the Less

Editor (rejecting manuscript)-You see, a story has to be just so to get into our magazine.

Would-be Contributor-Well, what's the matter with this one? Editor-It's only so-so.

A Tight Fix

Station Announcer-We're sunk! Electrician-What's the trouble? Station Announcer-The "Phantom Soprano" is wedged in the door to the broadcasting room!

The Kind

Ritzy Clerk-Now, what kind of suit do you want? One for sports. evening, afternoon, work, lounging? Customer-Well, just an ordinary one-like the one you wear.

WANTED THEM OUTSIDE

Goof (seeing lady of house angry) -I-I guess you want me to take my gum shoes outside?

L. O. H .-- Yes-and without removing them, please.

Stacks It Up

He makes piles of money, yet he With the wealthy does not rank; He makes piles and piles of money-He's a teller in a bank.

Is It Possible?

Bill-This is the height of something.

Jerry-What? Bill-Getting married just after serving a 12-months' sentence.

school is somewhat different from that of the village school and always will be. The teacher in the rural school should understand and appreciate rural sociology. - Successful Farming.

Trial by Stupidity

The criminal prosecution and punishment of animals was formerly common, A cock was burned at the stake the "unnatural and heinous for crime" of laying an egg. Pigs that killed children-and it seems that pigs used to kill children-were hanged, no doubt as a warning to other pigs. There are records of an eight months' trial of weevils at St. Jean-de-Maurienne in 1587. Many such prosecutions were held .- Winthrop D. Lane in The Bookman.

A Crop From Your Trees Planting of nut trees is in general

comparatively new in this country, says the American Tree association: Until within the last ten years, except in the regions where commercial nut raising had become established. the individual's proposal to plant trees for the raising of nuts was usually met by scornful comment. In some European countries nut and fruit trees along the roads are sources of material profit.

Ancient City of Birds

by us Sidonian is decorated with birds in various poses, sitting, flying, nesting, says the London Times. Many of the birds resemble storks and swans, a circumstance which suggests that this city was a center for the manufacture of glass in the time of Augustus and Tiberius.

Tree Can Shade 7,000

Probably the largest oak tree in the world is the Hooker oak which stands in Chico, Cal., and probably has been standing there for at least 1,000 years, according to the Farm Journal. It is more than 100 feet high, its longest branch extends 105 feet from the trunk, and the spread of its branches in spots is more than 200 feet. It is the tree under which Gen. W. T. Sherman estimated 7.000 men could stand in the shade.

Electrical Dust Storms

Dust storms, which charge barbedwire fences to a high voltage, stall automobiles by interfering with their ignition systems and add new worries to radio listeners by causing even worse static than thunderstorms, are among the curious phenomena that visit sections of the great plains east of the Rockies in dry seasons, says Popular Mechanics Magazine. In northwestern Kansas, during one of these disturbances, a man became curious about the amount of electricity his aerial was collecting and connected it with the ground wire through a 32 candlepower light. He obtained as brilliant light as when it was connected with his automobile battery. No thunder or lightning occurs during these electrified dust storms, nor is there any known relation between them and earth magnetism. Any metallic object insulated from the earth seems to become highly electrified.

Sounds That Climb

Recent tests show that the crowing of a rooster, the ringing of a church bell, and, under some conditions, the shout of a man, penetrate almost a mile into the upper air.

A cricket's chirp carries up 2,500 feet, and the croak of a frog can be heard at an altitude of 3,000 feet. Among sounds produced by living things, a dog yelp holds the altitude record. It has been heard by balloonists 5,900 feet up. The report of a rifle will carry about the same dis-

Of all sounds recorded, a locomotive whistle reaches highest. It has been heard m than two miles above the earth .- Popular Science Monthly.

Catching a Bird

Little Margaret was found playing in the back yard with her grandmother's best salt shaker. Margaret's mother asked what she was doing.

"I'm going to catch a bird," she replied.

"Surely you don't think you can sprinkle salt on a bird's tail and catch it?" the mother said.

"But Mr. B--- told us kids that we could sprinkle salt on a bird's tail and catch it and he wouldn't tell a lie for no bird," Margaret insisted.

"Why, Margaret, that's impossible." "Well, hasn't Aunt Carolyn a bird | new view that will also be safe." in a cage, and how did she get it?"

All persons are hereby forewarned not to trespass on my premises with dog, gun, or trap, for the purpose of shooting or taking game of any kind, nor for fishing, or in any way injuring or destroying property. Houck, Mary J. Airing, Chas. E. Baumgard'r, Clar. FHemler, P. L. Brining, Benton Hess, Wilbert N. Brining, Mrs. BentoHess, Birdie Biddinger, Claude Hill, Mrs. Helen P. Hess, Norman R. Hotson, Mrs. R. C. Brower, Vernon Case Brothers Conover, Martin E.Kanode, B. T. Crebs, Elmer Crebs, Elmer Devilbiss, John D. Keilholtz, G. J. Dichl Bros Null, Thurlow W. Koontz, Edmund C Derr, Clarence E. Reifsnider, Isaiah Shorb, Elmer C. Eckard, Curt formwalt, Harry Spangler, Mervin Forney, Jas. J. Smith, Jos. B. Hahn, Mrs. Abram Stonesifer, C. G. Hankey, Bladen W. Teeter, John S. Harner, Luther R. The Lennon Farm Hahn, Newton J. Welty, H. C. Harner, Wade H. Whimert, Anamary

Truthful Fisherman They're telling a story about a fish-

erman who tried the brooks the other day without making a catch. As he was about to start for home he ran across a youngster who had a whopping big trout dangling from the end of a string. The boy refused to sell the fish and the fisherman gave him a dime for allowing him to measure the trout so he could truthfully tell his friends how big the fish was that got away from him.

His Wheel-Chair Auto

A Denver man, almost helpless from paralysis, gets fresh air and exercise riding around in a wheel chair propelled by an electric motor. His average speed is seven miles an hour. At night he attaches the storage battery in the chair to an electric light socket and by morning it is charged again ready for another ride. A little ingenuity can make a world of difference in your environment.

Men Needed

"Only alert, progressive men can spend money intelligently and economically for new things," declares Charles Belknap, president of the Merrimac Chemical company, in the Magazine of Business. "When the man at the top has an idea, his work has just begun. He alone cannot put a new view into reality. In fact, by himself, he cannot even achieve a

tance.

Below Sidon, but above or north of Tyre, lay a city called in ancient time Ornithopolis, meaning the city of birds. Much of the glass now called

JONAHS

soned. In less enlightened times they

would have been-even as was the

The Jonah superstition is older

than Jonah. The prophet was mere-

ly the victim of a Phoenician super-

stition ancient even before his day;

but being a "celebrated case" his

name has clung to it ever since. It

is the old idea of the appeasing of

an angry god by a human sacrifice.

Human sacrifice to Baal was the main

feature of Phoenician worship, and

the Phoenicians were the great sea-

faring people among the ancients, and

took their religion to sea with them.

In Jonah's day the victim appears to

have been chosen by lot, but subse-

quently he came to be designated by

personal peculiarities or by coinci-

dence. It is thus that a "Jonah" is

The writer once knew a young na-

prophet son of Amittai.

STARTING—FINISHING

HIS world is filled with good L starters. But there is an oversupply of poor finishers.

Getting out in front isn't winning the race. It is STAYING in front. Man o' War was the greatest race horse that ever lived, not because . was always in the lead at the quarter, but because he was always first AT THE FINISH.

It isn't the fellow that leads over the first hurdle that gets the cheers and the medal. It's the boy that has nobody in front of him when he touches the tape.

There are thousands of men, successful-rich-respected-envied, who started under a good deal of disadvantage, but who are finishing with heads up and something to spare.

Some young men are hampered at the start by too much money. That's an easy obstacle to get rid of if you have judgment and good sense.

Some are hindered by the aspirations and frequently bad judgment of parents who do not know what the boy is fitted for as well as the boy himself knows. That is an obstacle hard to remove.

Earthworm Its Own **Rebuilder of "Parts"**

If any of us have been wasting tears of sympathy over the lowly earthworm we may as well employ them to better purpose, over our own hard luck, for example, for the fisherman's friend doesn't need 'em.

These unlovely dwellers of the underground, the combined bulk of which is five times that of the whole human race, clothes and all, apparently drew what was left when nature was handing out her gifts.

While we share the sunshine with the house flies, the beasts of the field and the birds of the air, these downtrodden individuals pass a lack-luster existence moving dirt from one place to another. Yet without eyes, without ears and without lungs, for they breathe through their skins, and with a string of nerve ganglia instead of a brain, they are independent of repair shops.

Whether they started that way, as science insists, or learned the stunt later to better cope with accidental encounters with the farmer's spade, the earthworms have a most admirable system of regenerating or growing brand new parts for those they may happen to lose. Cut one of them in two and ordinarily the front half will grow a new rear elevation as good as ever. And, if conditions are fairly good, as apt as not, the old rear remnant will get busy on its own account and grow itself a new front portion, thus making two complete worms out of the fragments of the original individual.-Kansas City Star.

Set Down as Illusion Another illusion has been swept

away by the observant scientist. Most of us have heard so frequently of the "silvery moon" that we have taken its silveriness for granted. Now an astronomer declares our satelite is not "silver," but yellow.

It appears he once had the good fortune to observe a white star come very close to the crescent moon, when, as he described it to the British Astronomical association, "the star looked like a globulė of mercury on a dull

The poets, however, will doubtless continue to sing of the "silvery moon." One of the greatest of our poets, Tennyson, sang of the white stars coming up one by one, whereas to the astronomer the stars show a wonderful variety of shades of color. Some very brilliant ones are red, others blue or bluish, and others a beautiful orange. And how many people have ever seen a green moon? The writer

Best Sort of Success

You may succeed without half trying, if you are twice as bright as your competitors; but they may be twice as bright as you, and then where will you be? You may succeed by working twice as hard as any of your competitors; and then, if you happen to be twice as bright as any of them. your success will be four times as great as theirs. You may succeed by doing your best and at the same time helping others to do their best, never regarding them as competitors; in that case they will push you up the hill in

Home Site Situation

of Prime Importance In considering a site for your own home it is quite necessary that your home lot be at least 40 feet wide. A lot narrower than this does not permit a proper distance between buildings, and cuts off the necessary amount of air and light.

A reasonable space is also necessary in order to guard against spread of fire from one building to another. A lot that is too narrow necessitates a certain type of house-one that is long and narrow, and this is not usually the most attractive style. On the other hand, a lot that is too wide is a source of unnecessary labor and expense. There will be more terrace or curb lawn to care for and a longer expanse of sidewalk to build and keep clean. The assessment for street improvements is also estimated from the number of feet frontage.

A lot should not be selected that is too shallow for a few outbuildings, a clothes yard and a small space for vegetables or flowers. The buyer of a lot should always bear in mind the possibility of some day selling, and should select a site which will appear attractive to others. If possible, choose a lot with some shade trees on it. If there be none, set some out at once, but do not make the mistake of buying quick-growing trees, which vill afterward prove a nuisance.

Be careful to select a lot on the most favorable side of the street. Notice whether the morning or the afternoon sun will shine into the rooms where you most desire it, or vice versa. Will your front porch be cool in the afternoon? Will your sleeping rooms have a good sweep of air?

Beauty and Coloring in Brick Treatment

For those who desire to brighten the andscape in the building of their omes there are the certain effects to be obtained by either painting or whitewashing the common brick walls. Here, too, economy can be indulged, or any well-burned, run-of-the-kiln orick will give as good results as the highest priced. If a stucco effect is desired it may be had, or the sharp contrast of white against the green of the background.

Clinker bricks, English architecture with timbered treatments and stuccoed gables, stone trim with inset irregular boulders to intensify the mass variety, all are emphasized in these later-day eatstern Pennsylvania homes of common brick which are adding so much to the beauty, the permanence, the fire safety and the real value of their communities. And both home owners and architects are coming to appreciate all this .- Building Econo-

Work to Preserve Beauty

An organized movement toward preserving the scenic beauty of Delaare county, Pennsylvania, has been launched through the co-operation of the Chester (Pa.) Real Estate board and business and civic organizations of the county.

my.

SURVIVOR TELLS OF SUBMARINE ESCAPES

Milwaukee Man Was in Four Disasters.

Milwaukee.-After having been in four submarine disasters in five years with the navy, C. H. Redding, twentyeight, Milwaukee, is still very much alive. Throughout his navy service Redding was assigned to submarine duty as an electrician.

Redding was on the S-48 when it went down with an open hatch off Bridgeport, Conn., with 43 men on board, all of whom were rescued after fighting water and gas fumes for 12 hours. The thing that stands out in Redding': mind is the droll attempt of a machinist's mate to sweep back the ocean with a broom.

"The sub went down for a deep dive, but the hatch had been left open," he said. "Water poured in. This machinist mate was sweeping up water with a broom and was unaware of what had happened, as we all were for several minutes. He kept sweeping and sweeping but the water got too much for him. Finally he went into the control room and told the officers he needed a mop. We soon learned what had happened then."

When the R-6 sank in San Pedro (Calif.) harbor in 1922 after some one inadvertently had opened a torpedo door, Redding was just coming on board for the night.

As he stepped on the sub it began to sink and he stepped off into the ocean and swam to a tender lying alongside. Six men who were asleep were drowned but the others were rescued. Redding had his head and face burned when a battery blew up on the S-37 in 1923. This accident also happened in San Pedro harbor. Six men were killed by the blast.

He was also on the L-5 which dove with an open hatch off the coast of California during the winter manauvers in 1920. The crew of 22 men were rescued.

Lighthouse Built Amid

Tempests on Coral Reef Washington .- A successful end to an 18 months' campaign to plant a lighthouse on Tubbataha reef in the Philippine islands, marked by a bitter and ceaseless struggle against the elements, has been reported by the lighthouse service of the Department of Commerce.

A low coral reef set in the midst of a nest of rock shoals, sunbaked and hurricane-swept, has been crowned with a 120-foot tower to carry the light that will warn mariners. Presently the reef will be covered with soil behind the sea wall to make a tiny park under the tower.

Work began on the construction in November, 1926, and was stopped repeatedly by hurricanes which swept the barren, low islet. Many days the sun, beating on the white coral, made labor impossible during normal working hours.

Water had to be distilled out of the sea to supply the gangs struggling with the concrete and steel. Sickness forced retirement of a high percentage of the working force, but the erection of the light has been proven a necessity to safeguard the sea traffic be-

Where Man Can Live. but Not Raise Family

Among the various climatic limits those of individual existence, reproduction, and civilization are especially important. So far as civilized man s concerned, the climatic limit of individual existence is probably not reached on the earth's surface. No place is so cold or hot, so dry or wet, so windy or still, so monotonous or so variable, that individuals cannot survive.

In primitive times and in the Glacial period, however, half of the earth's surface may have been so cold that unprotected savages would have frozen to death had they tried to live there. Even now in regions like Greenland and Antarctica the wellequipped, vigorous, adult white man stands an extremely good chance of freezing to death if he tried to remain year after year.

In such places families cannot survive. Until our skill increases very materially it would be suicidal to attempt to raise a family on the Antarctic ice sheet where the intrepid Scott froze to death. It would be almost equally foolish to make the attempt in Death valley, where the thermometer rises above 135 degrees, and the summer is one long discomfort because one's tissues call for water no matter how much one may drink.

Men can live there, but not mothers and babies; the climatic limits of reproduction are more narrow than those of individual existence .- Ellsworth Huntington in Harper's Magazine.

Western Novel Heroes Draw Rap From Critic

I wonder why, when a feller picks up a Western novel nowdays, there has to be so much smoke and dust, smoke from six-shooters and dust from one man chasing another. It seems like there's no rest for the good any more than there is for the wicked. and a feller wonders how come all the characters ain't killed in the first round of the first chapter, but if that was the case there wouldn't be no story much, so the characters have got to suffer on through and live anyhow, only the bad boys are relieved at the end, by sudden death or by a term in the pen. That's proper and as it should be, sure enough, but that ain't life. I don't object to the guns, as long as they ain't pointed toward me, what I object at, by making that big fuss over 'em, is that so much that's good in the Western life is covered up by 'em .- Will James in the Bookman.

Golfer's Composition

(1) Although I have practiced, my game is not good. (2) The second hole was worse than the first hole, and the third hole was the most bad. (3) I have struck my golf ball over 100 times. (4) The grass near the fourth hole is long and very beauti-(5) I have lost there my white ball with the pretty dots. (6) While am hunting for it my partner is angry. (7) No, I have no more golf balls. (8) Have you found my golf ball, caddy? (9) Yes, here it is under this little stone in the sand. (10) Give me my iron and then give me my niblick, too. (11) See, I have struck the ball and it is in the lake

THOUGH it is not the custom to-day to throw overboard people who are suspected of being the cause brass ball." of storms and disasters at sea, yet the beliefs in Jonahs still flourishes, and deep-water sailors still have a lingering opinion that the weather conditions would be vastly improved if the suspected persons were jetti-

is one who has.-London Tit-Bits.

Some boys make a bad start because they choose the wrong thing. Don't be afraid to change your mind. If you are in the wrong job get out of it and into the right one. No work is worth while that you cannot do earnestly, honestly and in a general way happily.

Don't be hampered at the start by the thought that perhaps there is something about you that hinders success. One of the biggest scientists in the world was a crippled hunchback. One of the big bankers of the West was minus both legs. One of the great merchants of New York was totally blind.

If your brain is all right it doesn't make so much difference about your hands or feet, your back or your face.

And when you get started and get in front STAY THERE. You don't have to worry much about the fellow that is BEHIND you. Let him do the worrying.

Don't run yourself out. Take a gait that you can hold. Don't endanger your health nor sacrifice your happiness by over effort. The man who runs too fast at the start lags at the finish unless he has extraordinary staying powers.

One morning, over in France, there was a call to go over the top. The officer in addressing the men told them what was to be accomplished and who was to lead them. It was a desperate task that was being undertaken and a pale-faced young fellow was the man upon whom the great burden had been put.

"Why did you choose Jones to head that expedition?" the commanding officer was asked after the attack had proved successful.

"Because," said he, "once he gets started, all hell can't stop him."

That's a great reputation for a man to have on the field or the farm, in the office or out on the job.

Train yourself so that once you get started nothing on earth can keep you from making a finish creditable to yourself and to your job.

(C) by McClure Newspaper Syndicate.)

Ever Think of That?

Don't expect to win in everything you undertake. If you were to do so you'd soon become so greedy you'd shove everybody else off the earth. and then you'd be too lonesome to live. - Silection (Ore.) Tribune.

val officer who, because of the mishaps which occurred to a series of ships to which he was successfully attached, became known throughout the service as "Jonah" So-and-so. Not so long ago a sailor on a coasting schooner caught in a storm cried out that the tempest was because of his wickedness and jumped overboard. The storm still continuing the sailors threw his dunnage after him-and the tempest ceased! Of such stories "the name is legion." The fact that it is getting on to three thousand years now since Phoenicia ceased to exist affords another example of the superiority of the vitality of a superstition over that of empires and races.

their gratitude, and your success will stand on top of their success. That will be the greatest success of the three.

When Pasteurization Fails The value of the pasteurization process as applied to milk has been questioned from time to time and it is undoubtedly true that for one reason or another, the operation does not always seem to be entirely satisfactory in the results. Somewhat recently it has been discovered that milk left uncooled between milking and pasteurization for a period of about four hours contains a large percentage of organisms that resist the pasteurizing process, while milk cooled and held to below 50 degrees Fahrenheit until it reaches the pasteurizer contains relatively few of these heatresisting organisms.

Sun Dogs

"Sun dogs" are mock suns, appearing in the form of a bright light near the sun, usually tinged with the prismatic colors and sometimes having a luminous train. Two or more are generally seen at the same time in connection with solar halos. They are popularly called "sun dogs" because they are attendent on or followers of the sun. They are really optical illusions and are known scientifically as "parhelia." The images are due to the prismatic reflection of the rays of light through ice crystals formed in the upper atmosphere.

Nearly a Tragedy

His absent-mindedness had got him into such an unfortunate mix-up that he resolved to end it all. He carefully stuffed the keyhole, the window cracks, and then threw himself upon the bed.

Next morning, when he did not appear for breakfast, they went upstairs and smashed the door. They found him snoring. He had forgotten to turn on the gas!

Can't Hurry Progress

Progress may be exceedingly slow, but it is exceedingly sure. Don't try to hurry it. The whole history of man's development is giving revolution another trial, and then limping back in the end to sanity, safety, and work .- Grit.

The Delaware County Parks and Boulevards association, a citizens' organization, has been incorporated to make possible the acquirement by the county of waste land along the scenic creeks and to conserve such land in its natural state.

Because of the rapid increase in values of the land every year of delay in starting such a scheme has cost the county \$1,000,000, it has been estimated. Stream valley land, which sold for \$700 an acre only a few years ago, has been discovered to have development advantages and is now bringing as high as \$8,000 an acre, park engineers state.

Traffic in Large Cities

Several leading cities in the country are adopting the policy of separating the crosswise motor traffic from the main thoroughfare at busy intersections by elevating or depressing the crosswise thoroughfare. In some cases the grade separation is effected by raising the level of one street slightly and depressing the level of the other so that there is a minimum change of grade at either thoroughfare. Among the cities which have adopted such i provements are New York, Chicago, Detroit, Pittsburgh, St. Louis and San Francisco.

Trees Spell Town's Name

The villagers of Ilion, N. Y., in the historic Mohawk valley, are setting out 5,000 pine trees in groups so as to spell the word "Ilion." Each letter will be outlined by low white birches along the outer edge of dark evergreens. The foliage sign will occupy a 1,000-acre field on the peak of Oak hill. Every letter will be ten yards wide to make this aircraft signboard visible from a great height.

Conduct Clean Up

Boy Scouts of Montesano, Wash ... recently volunteered their services to clean up rubbish along one of the principal highways of the town. Al the highway runs the fence of the loc. baseball park. Bill posters for the circus which recently showed nearby had plastered this fence with their posters The scouts did another good turn in removing the stickers.

tween Manila and Hongkong and Aus tralia, and the Philippine government kept its forces at the task.

Sea Serpent Has Sheep's Head on Body of Eel

Vancouver, B. C .- A nameless marine creature about six feet long, having an eel-like body and a head resembling that of a sheep, was on display at provincial police headquarters here as evidence of the existence of a "sea monster" which many people have reported seeing in Lake Okanogan, in the interior of British Columbia.

The strange creature was caught by the young son of Harry Alexander. Vancouver magistrate, while trolling on the lake.

Tales of the appearance of a monster in the lake have been coming from there for two years.

Most Moral Town

Linz, Austria.-This little town. capital of Upper Austria, claims to be the most moral and best governed in the world. Because of the lack of litigation, the law courts here have closed their doors, the police having reported no crimes or misdemeanors of any kind among the 50,000 inhabitants.

An article in the official press. signed by a prominent Kemalist deputy, heaped insults on the national idol, charging that his only motto was "conquest and booty."

The attack on the Father of Turkey shows a fundamental change in the national mentality since the war. The author says that if Kemal had been on hand in 1453 instead of the great sultan the European renaissance would have sprung from Turkey instead of Greece and Rome.

(12) I think I shall not play golf again because I am tired. (13) I shall go to church the next Sunday.-Kansas City Star.

Movie Show Hero

Two women sat together in a motion picture theater, and one of them, who was reading the subtitles aloud to the other, was puzzled when one appeared containing the word "kibit-Stopping in perplexity, she zer." said:

"Say, Dolly, what's 'kibitzer?"" "I'm sure I don't know," Dolly replied.

*

~

The puzzled lady was still unsatisfied. Leaning forward, she asked a gentleman sitting in front:

"Pardon me, sir, but do you know what a 'kibitzer' is?"

"Yes, madam," replied the gentleman in front, politely, but firmly. A 'kibitzer' is a person who reads the subtitles aloud in a motion picture theater, to the extreme annoyance of others within hearing."

Us Girls

Bessie spent ten cents of her own money to take her brother to see a picture show. "Mamma," said she, "couldn't I take baby Jackie with me next time I go?"

"Why, what do you want to take an eight-months-old baby to a motion picture for?" inquired her mother.

"Well," said Bessie defensively, "if I've got to take him sometime, I'd rather take him now before he gets big and expensive."

Jewish Funerals Simple

No flowers are used at Jewish funerals because the Jewish law requires that a funeral be as simple and democratic as possible. Jews use plain pine boxes and plain linen shrouds. They have no music and no flowers. There must be no distinction between the rich man and poor man.

Magic Phrase

The phrase "open sesame" was the password at which the door of the robbers' cave flew open in the "Tale of the Forty Thieves" ("Arabian Nights"); hence a key to a mystery or anything that acts like magic in obtaining a favor, admission or recognition.

State (vv. 1-7).

to Settle New World America's first real-estate development was promoted by Eric the Red. Eric anticipated modern sales methods by more than 900 years. He spent three summers moving back and forth along the west coast of the land he had discovered, searching for pleasant districts to settle, for he had made up his mind to found a colony. He was thus not only the first Arctic explorer, and the discoverer of the new western world, but also the first of that typical western product - the realtors. For the "Saga o' Eric the Red" tells us that, in connection with his plan to secure settlers, he hit upon the device of calling the place. Green Land, "conceiving that people would all the more desire to go there if it had a fair name."

That winter Eric carried out a publicity campaign so successfully that in the spring of 986 twenty-five ships set. sail with him for Greenland. The colonists were something between 400 and 700. The numbers of the domestic animals have never been estimated, but in variety they were all the common ones of Iceland-horses, cattle, sheep, goats, pigs, chickens, geese and dogs .- Vilhjalmar Stefansson in the Forum Magazine.

Passed Out of Life

to Keep Contentment Charles Driscoll thinks he knows what death will be like when it comes to him. As a boy he was once very He felt life ebbing away, saw members of the family standing around. Then to the watchers and himself he seemed to pass out of life. "I was away," he says, "so far away that space was different, and altogether limitless. I was immeasurably interested and contented. Returning to consciousness was like being born again into a strange world. Somebody was pouring whisky down my throat. I opened my eyes and a great sense of loss and disappointment overwhelmed me. I sat there a long time trying to project myself, in memory, back into that vast country in which I seemingly had been existing for uncountable ages. For in that country a moment seemed eternity. That experience remains a vivid and pleasant memory to this day. When I think of death I think of that eternity I sensed when the earth-life seemed to cease to pull me. And it seemed good, not evil."-Capper's Weekly.

Quill Pens

Many young men and women who think they can write and who would like to write, put off real work because they dislike the manual toil that writing demands. Even the most modern and smooth running typewriter becomes a wearisome machine. Pushing a pencil or a pen is even more tiresome. Few can dictate as well as they can write, even if they can afford the luxury of a secretary. What is needed, in the face of such trifling discouragements, is more downright energy and less laziness.

Remember that Charles Dickens once wrote a whole book with a single quill pen. But Dickens did not suffer from the commonest complaint of the young person-mental indolence.-Grove Patterson, in the Mobile Register.

One's Own Rooftree Makes for Ambition

Although home ownership has increased measurably during the last few years as the result of educational programs carried on by realtors and savings associations, the majority of American families still pay rent. Only about 35 per cent of American families are under their own rooftrees. This proportion could be largely increased in the opinion of a city real estate manager, if as much stress were placed on the spiritual values as on the mere financial value of home ownership.

"Assuming that the purchase is properly financed," he says, "the material advantage of home ownership over renting is indisputable. To my mind, however, the greater benefit is the enrichment of life itself that comes with planting one's own roots in the soil.

"A strange and wonderful experience comes to the man, who for the first time, owns his home. Hitherto he has been a nomad, living in other people's houses, subject to their regulations, whims and legal requirements. He may live in them a long time and never become a part of them nor they of him. But let him acquire the land and the house that stands on it-and forthwith he begins to grow in an amazing number of ways. He becomes established. He becomes identified with that piece of land and that house. It is his. He is part of it and it becomes part of him in many senses. It acquires the marks of his tastes. Its design, furnishings, upkeep and gardens all become symbols of himself.

"So many people hope to own their own homes eventually and set it as a goal in their lives, but delay too long. The time to begin owning a home is when you can get enough credit to go into debt for it. This provides a spur to ambition; a point on which he can focus his expenditures so that they bring him the greatest return in health and happiness."

Mass Coloring New

Object of Builders American commercial and domestic life is writing its history in buildings with its own individuality, says Harvey Wiley Corbett, nationally known architect and authority on construction.

Every form of architecture the world ha: known, Mr. Corbett points out, has resulted from two factors: The needs of the people, and the materials available. But it was the skill with which materials were used to meet the needs, which reflected the art and the ingenuity of the period.

With the development of this new type, Mr. Corbett says, the trend will be more and more away from petty decorative details, and toward the skillful distribution of masses, and the use of color. Instead of minute and ourposeless ornamentation, obviously superimposed upon a building, color will be applied logically, over large spaces, as an integral feature of the terra cotta, or other facing materials. The distribution of masses, Mr. Corbett declares, will meet the needs of the building's occupants, with as much

TOO RECKLESS

"Darling," a young bride whispered, who had gone to the bank with her husband to draw the down-payment on an automobile, "hadn't I better put it in my stocking?"

"I should say not!" was the reply. "That't too much money to be carried

It's Wise to Be Wise

A man told his son that two things were necessary for success. "And what are those?" the boy asked

"Honesty and sagacity." "What is honesty?" "Always keep your word." "And what is sagacity?" "Never to give your word!"

The Rich One

"I don't know why you won't have aything to do with Luis. Such a handsome man. And in addition, such fine prospects."

"I haven't heard about that." "Oh, yes; he has a bachelor uncle who is a beggar in New York."-Path-

in plain sight."-Montreal Star.

(3) It forbids defrauding in matter of moral purity (v. 9). Where the life is under the power of love, adultery cannot be committed.

- (4) It forbids murder.
- (5) It forbids stealing.
- (6) It forbids coveting.

(7) It forbids the working of any ill to one's neighbor.

III. The Supreme Motive Governing the Life of the Christian (vv. 11-14).

The attitude of the Christian is that of eager expectancy. There is no time for slumber or indifference. The time of salvation is drawing near. The salvation here mentioned is not that which we obtain in justification and sanctification, but is that which we get when our redemption is completed in glorification at the second coming of Christ. Redemption is threefold: 1. Justification through faith in the blood of Jesus.

2. Sanctification through the obedience of the Word.

3. Glorification, when the fullness of redemption shall be realized at Christ's second coming.

The reasons for this attitude of expectancy are that the night of Christ's absence is far spent and the day of His glorious appearing is at hand. The proper conduct in view of this is:

1. To put off the works of darkness (v. 12), which are revelling, drunkenness, chambering, wantonness, strife and jealousy. The child of light will not walk in drunken carousals, will not practice licentious acts and debauchery, neither engage in strife, nor be under the spell of jealousy.

2. Put on the armor of light (v. 12). The figure here is of the Roman soldier who arose from sleep and put off his slumber robes and put on his gleaming armor.

3. Put on the Lord Jesus Christ (v. 14).

This means to enthrone Jesus Christ as the Lord of the life, to bring the life under His control.

Be Thou an Example

Let no man despise thy youth; but be thou an example of the believers in word, in conversation, in charity, in spirit, in faith, in purity.-Paul,

The Lord Dwells There Every home may be a vestibule of heaven because the Lord dwells there. -A. C. Dixon.

Fighting and Praying He fights best who prays best .- J. W. Lee.

Believe Me or Not

I am frank, honest, courageous, and kind. Though I do not talk much of my accomplishments, I feel that I have a serious mind, yet I do not lack a sense of humor. People look to me with respect. I am destined to be a prominent member of my community. Often quiet in company, I nevertheless have a ready wit and a capacity for intelligent conversation. At times I am too reluctant to take other people's advice. This is bad for me. I should not be headstrong, though my naturally powerful will often leads me to make mistakes of judgement. I am very sensitive.

I have just spent 14 pennies on the fortune-telling machines.-Los Angeles Times.

Cicada Not a Locust

The cicada is referred to as the 17-year locust, a name that is incorrect in at least two particulars. It is not a locust at all, that name being properly applied only to members of the grasshopper family, and while it has a 17-year period it also has a 13-year period. It has been so long miscalled by the name of the locust, however, that there is no hope of divesting it of that incorrect appellation.

When Piano Keys Stick

To keep piano keys from sticking open the piano and take the front out where the music rack is located. Expose this place that is open to the sun and air. If any sun comes in the room, move the piano to that spot; if it does not, move the piano to a place where there is sun and air. The reason piano keys stick is because the inside of the piano is swollen with dampness.

Early Britons Unlettered

Neither Caesar's Commentaries nor the writings of Tacitus and other historians of the period of the Roman domination convey evidence that the Britons had any knowledge of letters until the Roman and Greek characters were taught them. Neither do these historians preserve any oral traditions of the British bards or druids calculated to shed much light upon the early history of the Celtic race.

beauty as is possible.

Urge Clean Homes

It is full as important to render the home safe from fire and the depredations of the elements as it is to make it colorful and cheerful for its occupants. The mission of the fall cleanup campaigns is to achieve both of these highly desirable and essential ends.

Each year larger numbers of communities are recognizing the peculiar menaces of the winter months and are holding a clean-up campaign in the fall as well as in the spring in order to safeguard themselves at both times of the year.

City Planning Pays

The present haphazard growth without planning for the future which most American cities experience now involves an annual loss of more than a billion dollars, John Nolen, landscape architect and city planner of Cambridge, Mass., declared before a convention of the International City Managers' association.

More than 200 American cities now have such plans, Mr. Nolen declared, while zoning ordinances have been adopted by 580 cities and planning commissions established by 587.

Game Clubs Are Planting

Towns and cities are doing their part in creating community forests on their idle lands and on the watershed. of their reservoirs. Wise farmers are setting slacker acres to work growing wood crops, says the American Tree association. Fish and game clubs are planting areas to serve as sanctuaries and to protect the streams. Land own ers are beautifying and making more valuable nonworking acres.

Age of Outdoor Life

This is the age of sunshine and out door life. Houses are built with many windows, sun parlors, sleeping porches and daylight basements. Homes are brighter, cheerier and healthier. To mode nize an old house is to bring the sunshine in with more and larger windows.

To be, perchance, a bore.

Of the Same Mind

Magistrate-It seems strange, to me

that you could keep on robbing that enormous corporation for so long without being caught. The Prisoner (brightly)-Well, the

corporation was pretty busy itself.

Not Very Hungry

Tramp--Lady, could you give a poor fellow a bite to-Farmer's Wife-Out there is the woodpile and the ax. Tramp-Pardon me, lady, but I'm so subject to splitting headaches.

Reason for Wealth

Mrs. Brown-Do you think they are rich? Mrs. Jones-Of course they are rich; they're still using last year's car.

SWEEPING REMARK

Miss-I don't believe Mrs. Brown ever brushes out her house. Mister-I wouldn't say that-it's too sweeping a remark.

Traveler's Note

Sometimes 1 go from here to there, With exercise of patient care;

my daughter the violin."

"To suffer in silence."-Gutierrez (Madrid).

Almost Finished

Mrs. Gnaggs-This is the end. I can Kve with you no longer. Mr. Gnaggs-Yes, I guess it's all over but the shooting.

sting the wasp.

GRAND VIEW

sting the nettle or would the nettle

He-Isn't the view grand from here?

She-It ought to be, you're looking my way.

Getting Into the Game

The bulls and bears perform In sunshine and in storm. The little lamb draws near And wants to play-Poor Dear!

This Business World

First Business Man-Was the conference a success? What did you decide?

Second Business Man-It was great. We've decided to have another conference next week.

Quite a Job

"Sundries, eh? Etcetera - hum, Items-ugh," the man was muttering. "What's up?" asked the handy in-

terlocutor. "I'm auditing my wife's budget."

Insignificant

Mr. Dubleigh-1 should really like to see myself as others see me, you know.

Miss Pert-You wouldn't give yourself a second glance.

Just Natural

Turner-Do you think that I am acting the fool? Mrs. Turner-Now, John, you know

you never could act.

Making Up for It

The Mrs.-You don't give me as handsome presents as you used to. The Mr.-No; but I pay for those you give me.

DR. W. A. R. BELL, **Optometrist**.

Apparently, the old custom of destroying and generally interfering with movable property at Hallowe'en, still has a few followers in Taneytown, who consider it their rightful privilege, once a year, to act as they see fit, but which would be considered a criminal destructiveness 'at any other time. Some persons still have to make fools of themselves in order to be funny.

We wonder what all of the campaigning and speechifying is about, vertisers against trespassing on anyway? Here in old Taneytown disfull as though both parties had been

Blocher, Miss L. Mock, Robert Baumgardner, John Bowers, Frances Utz, Margaret Hitchcock, Hilda Zepp, Janet Burke, Frank Stambaugh, Luther Ritter, Charles Ritter, Ralph Davidson, Elwood Crabbs, Daniel Teeter, Mary Teeter, Amelia Annan.

Be yourself-if other people will stand for it.

On Election day, The Record Office will have sample ballots, and will give voting information to all who may desire it.

Mr. Clyde O. Koons, Prop'r of the Koons Motor Company, Taneytown, Ford Dealer, returned yesterday from Washington, where he received details of the new Ford finance plan.

The new finance plan will be operated by the Universal Credit Company, an affiliated specialized organization controlled by the Ford Motor Company and operating solely for the purpose of financing Ford Products on a "time" basis. The branch office serving this territory is located at Washington, D. C., second floor, Investment Building, Washington, D. C.

This is of special interest to prospective purchasers of Ford Products on a "time" basis. Under this authorized finance plan, Ford customers will have a finance service available which is sound and in keeping with Ford policies and standards. The plan is nation-wide in scope and for the exclusive use of Ford dealers.

It is another step of the Ford organization in reducing costs by controlling operations from the mine to the consumer. The cost of this service will be lower than any heretofore available to Ford customers on a national basis, and automatically reduces the price of Ford cars purchased on a "time" payment basis. It is a further expression of the established Ford policy of giving outstanding values and complete service to the consumer at the lowest possible cost.

The plan also contemplates the purchase by Universal Credit Company of sound and adequate fire and theft insurance, protecting the joint interests of the purchaser, the dealer and the Company in the car.

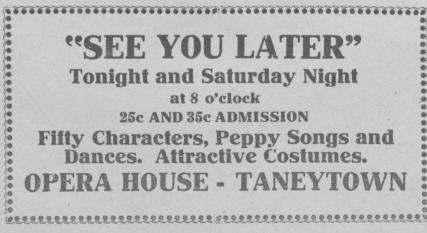

The purchaser receives a policy of standard form insurance providing protection for one year. Such policies are issued by the Home Insurance Company of New York, the largest fire insurance company in the United States. The policies provide for settlement based on the actual cash value of the car at time of loss.

The Universal Credit Company and the Ford dealer will work together in making this new economical Ford service available to all purchasers of Ford products on a "time" basis.

The Koons Motor Co. Local Ford Dealer.

will be open for business Nov. 1, and will be glad to explain all the details of the plan, which applies to both new and used cars purchased.

Immediate delivery can be made on New Ford Cars.

A few dollars and a sense of direction were what most successful men had to start with. You can start getting the dollars together in a SAVINGS ACCOUNT with us, then when you decide in which direction lies your success you will have the money to start with.

4 per-cent paid compounded semi-annually. SERVICE. SAFETY.

postpone the delights of Radio?

If you want such enjoyment of Radio as only RCA Radiolas give, think of them in terms of-buying ease.

Come in and see how our budget plan will put the set you select into your home and give you months of pleasure while you are paying for it a little at a time.

Do you want a battery-operated set at \$82.75? Or a lighting circuit operated set at \$95.00? Or a finer table or console model worth more?

The cost is little per month. And the difference in cost per month between the models is so small as to give you a widechoice of sets.

Glad to talk it over with you any time.
