

## SOME OLD TANEYTOWN HISTORIC FACTS.

Mainly Connected with St. Joseph's Catholic Church.

The following interesting sketch concerning Taneytown, written by "The Traveler" appeared in the Baltimore Catholic Review, issue of August 16, one of a series of articles "concerning the Catholic places in the Archdiocese of Baltimore." The article commences as follows:

Father Joseph Little, pastor of Saint Joseph's Church, Taneytown, took from the safe in the office of his rectory a stiff covered book, much like the book which the secretaries of our Catholic fraternal organizations were wont to use a generation ago. The book which Father Little handed to us is much more than a generation old. Its pages are yellow with time and are some of the records made therein—though the ink on these records were once jet black and were written by a vigorous hand. "Take it and look at it," said Father Little to us; "you will find it interesting."

It was interesting. Looking under the marriages, I found that Father Zocchi, who was pastor of the church from 1802 to 1845, inscribed under the date of January 7, 1806, the record of the marriage of one Roger Brooke Taney and Ann Key.

Young Taney, who was 29 years old at the time of his marriage, was destined to become one of the greatest Chief Justices of the United States Supreme Court. He and Chief Justice Edward Douglas White were the only two Catholics ever to hold that office.

The Ann Key who became Taney's bride, that January day 123 years ago, was the sister of a young Frederick man who was to achieve even a greater reputation than his brother-in-law, Francis Scott Key, eight years after the marriage of his sister to Taney, wrote "The Star-Spangled Banner" as he watched the bombardment of Fort Mifflin.

Justice Taney is buried in Frederick, as the tablet above his last resting place states "in this secluded spot near the grave of his mother."

Taneytown is named after Taney. It has had a romantic history. In the days of the Revolutionary War one McGuire, his first name lost in the dust of history, organized a group of his associates in the neighborhood of the present Taneytown and went off to war with his chums to fight for American Independence.

McGuire and most of his men returned home after the war, but the leader of the little band had the wanderlust. He liked to go hunting and live in the woods. In those days sitting on top of a flagpole was considered lunacy. What became of Mac, nobody knows, but from all accounts he enjoyed life while he lived it.

If you ever go to Taneytown, and I hope you do, for you will be well repaid by the visit, see the churchyard and read the names of the dead. There is one tombstone which tells us that the stone was erected "in memory of Magdalen Adams, wife of Thomas Adams, who died at the age of 104 years, loaded with years and virtuous deeds, on the second day of January, 1826."

That means that Magdalen was born in 1722. That is going back far into history, but there is another tombstone erected to Catharine Boyle, whose birth antedated that of Mrs. Adams. Catharine was born in 1717 and died April 12, 1814. In other words she was born fifteen years before the birth of George Washington "The Father of His Country."

It is interesting to walk through the churchyard and note the changing styles of inscriptions in tombstones. For example, the style of inscriptions in the days of the Civil War and for a decade following the Civil War is entirely different from the style of any other period. The epitaphs are really script chiseled in stone.

One finds on the tombstones such names as Fink and Eckenrode, names connected with families which have played an important part in Catholicity in Western Maryland. On the tombstones one finds the present-day "Ignatius" spelled "Ignatious." One notices, too, the peculiar name "Humburg." At first glance at that last-named, one is startled, for one mistakes it to be a candid post-mortem expression of the life of one who was not liked. The visitor gives a sigh of relief when he realizes his mistake and knows that Charity reigns in God's Acre.

One of the most pretentious monuments is erected to the late Congressman, Joseph A. Goulden, who represented a district in Pennsylvania in the National House of Representatives, but who loved Maryland more, particularly that part of Carroll county in which Taneytown lies.

"The Roamer," who seems to know everybody living and dead, told me all about Congressman Goulden—how he used to be one of the leaders at the annual Carroll County Fair at Obler's Grove. The Congressman was a great friend of the late Father J. Stanislaus Cuddy, who was killed when a railroad train hit his automobile last December. The Roamer tells me that Congressman Goulden pointed out to Father Cuddy and him, on the feast of the Assumption, after Mass at Saint Joseph's Church, a number of years ago, just where he wished to be buried. Good Father Cuddy and good Congressman Goulden are now gone. God rest their souls! The monument above the Congressman's grave is of granite and on it

## FIRE AT SAUBLE'S

A Large Frame Shed Adjacent to Main Barn Destroyed.

The fire bell on Thursday morning about 11 o'clock called the Fire Company to Geo. R. Sauble's at the edge of town where a large storage shed was on fire. The building burned rapidly and for a time it was feared that the main barn and other buildings might burn, but through the efforts of the Fire Company, and a favorable air current from the south, the fire was confined to the one building and a scorched gable end of the barn.

The building contained a large lot of straw, a Hammerrill feed grinder, a large electric motor and a number of small articles. Mr. Sauble estimates his loss at fully \$3000., partly covered by insurance.

The Westminster Fire Company was also called, as at the time of the discovery of the fire it seemed quite probable that the loss would be an extensive one; but the fire was fully under control when the Company arrived.

The fire, which was of undetermined origin, must have been burning for perhaps five minutes before it was discovered, as by the time the Fire Company got there, the building was a complete mass of flames.

Mr. Sauble has all of his buildings in fine shape, all of them being in good repair and all painted this summer. With the wind in its normal course from the west there might have been a clean-up of the main barn and other buildings, if not the famous Sauble's Inn itself.

## Rescue Workers Meeting This Saturday Evening

(For the Record).

A meeting and band concert will be held by the American Rescue Workers Saturday evening, Sept. 7, at 8:00, near the square. The ministerial Association of Taneytown indorses the work.

Henry Brandon general field supervisor for the workers, addressed the K. of P. Lodge, on Tuesday evening. The local lodge indorsed the work and appointed a committee, as follows: Robert S. McKinney, Chas. E. Ridinger and Sherman Gilds.

Col. and Mrs. Samuel Ernst have been in charge of the district embracing Maryland, Delaware, Virginia and West Virginia for 15 years. The headquarters are at 749 W. Fayette St., Baltimore. The organization has the endorsement of Gov. Ritchie and Mayor Broening, and of the Merchants Retail Bureau.

## President to Visit Gettysburg.

President Hoover announced on Thursday that he had accepted an invitation given him by Gov. John S. Fisher, of Pennsylvania to deliver the Memorial Day address at Gettysburg, May 30, next.

The invitation was extended on behalf of the Sons of Veterans of Gettysburg. A committee consisting of Rev. L. B. Hafer, chairman, Judge Donald P. McPherson and John D. Kieth, Esq., waited on the Governor, who is himself a member of the order. Governor Fisher promptly agreed to co-operate with the committee, and the announcement of Thursday was the outcome. The Sons of Veterans will endeavor to make this one of the most notable memorial day observances ever held at Gettysburg.

## Taneytown Schools Open.

Taneytown schools last Monday morning, with an enrollment of 187 in the Elementary Department, and 97 in the High School. Opening exercises were held in the Assembly room with singing, scripture reading and prayer, and a vocal solo by Miss Essig, the teacher of music. Prof. J. Keller Smith, the new Principal was then introduced to the school, and made his announcements. The other new teachers, Miss Lighter, teacher of Home Economics, and Miss Harner, teacher of the second and third grades, were also introduced to the school.

## M. C. I. Students Reunion.

A reunion of the students of the former Maryland Collegiate Institute, now Blue Ridge College, will be held on the College campus on Sunday, Sept. 15. The program will be rendered in the afternoon, but all are urged to bring a basket lunch and enjoy the noon hour together.

## The Hahn Family Reunion.

The Hahn reunion will be held in Mt. Tabor Park, Rocky Ridge, Md., Sunday, Sept. 15, rain or shine.

is sculptured the Knights of Columbus' emblem.

The remainder of the article—too lengthy for our use—mainly concerns Father Zocchi, the first Taneytown priest, and his successors, as well as other interesting matters connected with the parish. The article was brought to our attention by Alex. B. Blanchard, N. Y., son-in-law of the late Col. J. A. Goulden.

(The author of this article appears wrong in stating that Taneytown was named after Chief Justice Taney, as he was not born until 1777, while the town was in existence long before that. A land grant to Raphael Taney and Edmund Diggs, dated April 24, 1754 for 7900 acres was part of the land on which Taneytown is built. Judge Taney's forefathers, in all probability, owned the land, and the name of the town likely came from the family, and not from any one member of it.—Ed. Record.)

## WIDESPREAD DROUGHT STILL CONTINUES.

The Situation is now being given Deserved Publicity.

The country at large, and the daily papers in particular, now seem to be waking up to the fact that there is a very serious drought covering the Atlantic Coast and middle west states, and that the crops are very seriously injured. A fact that will be felt by farmers, for a year to come, in very materially reduced incomes.

Sometimes it almost appears as though the truth is withheld regarding such matters, for fear it may "hurt business," and to try to induce farmers to believe that they will get over such losses better by not having them talked about. A 50 percent loss—or any other large loss—in the corn crop, is very serious indeed to farmers, especially when it is accompanied by other minor losses due to a long drouth—and is bound to have its effect on business.

This week, in addition to the continued heat and drouth, extensive forest fires have occurred in Maryland, Massachusetts, New York, Michigan, Pennsylvania, and in fact in most of the states east of the Mississippi, and the heat has been abnormal everywhere except in Boston and a few other outlying points.

Low waters are also causing great concern in many sections, especially in Frederick county where streams are failing and wells drying up. During June, July and August the rainfall has been much below normal.

In Montgomery county the situation is about the same as in Carroll and Frederick, and a 50% average corn crop is all that is hoped for, with a still smaller average for sweet corn. In the Shenandoah Valley of Virginia the report is the same—burned up crops.

Very little has been published regarding the corn situation in Ohio, Indiana and Illinois, or farther west. In the southwestern states, rains have been more plentiful and the situation is much better.

## Rules for School Bus Drivers.

The following are the rules for the school bus drivers in Frederick county:

"No one but the bus driver shall occupy the driver's seat in the bus."

"Buses must be brought to a full stop at least 25 feet from any steam or electric railway crossing. The driver must be sure that there is no danger from approaching trains or cars before attempting to drive the bus across the track."

"Buses must be brought to a full stop before taking on or letting off pupils, and drivers must see that road is clear of approaching vehicles."

"The driver must not leave the bus while the motor is running. The motor must not be in gear while a bus is stopped."

"Children shall not be allowed to stand outside the body line of the bus. The bus door shall be kept closed."

"Children shall not be allowed to put heads, arms or hands outside of bus windows."

"Unless by special permission, no pupil will be allowed to leave the bus at any station other than his regular stop."

"Drivers shall report all cases of disorder or disobedience on the part of pupils to the teachers or principal."

"Gasoline tanks shall not be filled when there are any children on the vehicle."

"Bus drivers shall test their service and emergency brakes every morning previous to loading of busses."

"Speed limit of busses 18 miles in foggy weather and 25 miles during clear days. Cut down your speed as low as possible on going down steep hills."

"On approaching machines over a hill, run at least 75 yards behind another machine. Do not pass a machine over a hill."

"No smoking will be permitted on busses."

"All busses must come to a full stop before crossing railroad track and also at boulevard intersections."

## Frederick County Forest Fires.

A forest fire broke, out on Sunday in the foothills of the Catocin mountains between Frederick and Thurmont, sweeping close to the Lawrence Ricky camp where President Hoover has passed several week-ends since his election. Fire fighters turned out in force. Mr. Rickett, who is the President's secretary, was present and aided in the fire-fighting, as well as supplied food from his camp.

The fire broke out in the Yellow Spring section where the main water supply of Frederick is located, a supply that has been considerably lowered by the excessively dry summer. And this fire, which covered about 1400 acres, may aggravate the situation.

This fire was under control Wednesday afternoon, but two new fires were reported later in the day near the McPherson estate and on the Catocin furnace ridge. One hundred men were at once sent to the new outbreak which was about two miles from the first, and is now reported to be under control, but watchers are kept engaged to report outbreaks.

It is thought that some of the fires at least are the work of firebugs, one of whom was seen piling up grass and leaves and igniting them, but the man could not be captured or identified. Fires have been started in a dozen places since last Sunday.

## YOUNG LADY KNOCKED DOWN

A Painful Auto Accident on Emmitsburg Street.

A serious accident occurred on the state road in front of Norman Sauble's, on Tuesday night, when Anna Bosarge, aged about 15 years, caretaker of two children for one of the guests at Sauble's Inn, was struck and knocked down by an auto driven by Theodore Fair, living near town.

It appears that three cars figured in the affair; two going toward Emmitsburg, and the one driven by Mr. Fair coming toward Taneytown. It was another of the rather frequent class of accidents, when a pedestrian happens to be at the point where cars going in opposite directions pass each other. Miss Bosarge stepped out of the way of the Emmitsburg bound cars, right in front of the Fair car and was thrown to the ground.

She was brought to town and given medical attention, and the county ambulance summoned which removed her to Frederick Hospital. She was badly bruised and suffers from concussion of the brain, while an X-ray examination showed a fractured pelvis. A state cop who was summoned is said to have exonerated Mr. Fair.

## Let Your Doctor Prescribe.

Calling attention to the dangers of self-medication and advising those in need of medical treatment to let their doctors prescribe for them, Dr. R. H. Riley, Director of the State Department of Health, said:

"People do not seem to realize that medicines are drugs and that drugs are potent substances, which in all cases exert a marked influence on physiological processes. They also fail to appreciate the fact that the administration of drugs can be safely directed only by a person who has had the necessary training and who is familiar with their characteristic actions and reactions."

"Just recently there came to the attention of the State Department of Health a case of poisoning by acetanilid, as a result of taking one of the widely advertised 'cold and grippe' remedies. Incidentally, nearly all of these preparations and the large class of products known as headache remedies, contain acetanilid. This substance is one of the coal tar derivatives and in action, is classed as a powerful heart depressant. In the case referred to, the medicine consisted of tablets and label indicated that each tablet contained 1.5 grains of acetanilid. This dose would ordinarily be considered safe, but it proved to be opposite to the patient, who had followed the directions and had taken a tablet every three hours."

"When seen by a physician, the patient had marked symptoms of acetanilid poisoning. The lips were blue (cyanosed), the pulse was slow and weak, the respiration slow and shallow, with convulsions and general weakness. Fortunately, the patient responded to the treatment given by the physician and recovered."

"That there is always danger in self medication is well known to all persons familiar with the action of drugs. But the people who know nothing at all about drugs or about the effect of certain drugs upon various vital processes frequently learn, only after disastrous experiences, how great such danger really is. There is no hard and fast rule for the administration of drugs. The age of the person, his habits, his physical condition must all be considered. Some persons have a pronounced antipathy for certain drugs. They become dangerously ill when these drugs are administered to them. Such possibilities must always be borne in mind when drugs are taken. Since this is the case, the safest thing to do, when you require medical treatment of any sort is to Let your Doctor Prescribe."

## Proceedings of the Orphans' Court.

Tuesday, Sept. 3, 1929.—Charles R. Schaeffer, administrator of John W. Schaeffer, deceased, received order to sell bank stock.

Harry L. Bosley, administrator of Thomas M. Bosley, deceased, reported sale of leasehold estate which was immediately ratified by the Court, on agreement of heirs.

Letters of administration on the estate of Lillian C. Shipley, deceased, were granted unto Levi Shipley, who received warrant to appraise personal property and order to notify creditors.

Wednesday, Sept. 4, 1929.—Jesse P. Garner, executor of Mary C. Beard, deceased, returned inventories personal property, debts due and current money and received warrants to appraise leasehold estate and real estate.

Ida A. Greenwood, administratrix of Isaiah Greenwood, deceased, returned inventory of personal property.

NOTE—Thursday, September 12th., 1929, being a legal holiday the office of Register of Wills, will be closed.

## Home-makers' Club Picnic Held.

The Home-makers' Clubs of Carroll county, held their picnic at Flicking's Grove, Wednesday, Aug. 28th. Each Club was well represented.

We all had lunch and then were ready for an afternoon of fun. Each Club gave one or more stunts, for the recreation, which was greatly enjoyed. Quite a number of awards were received. There were also games for the men and children. The picnic was quite a success, and we hope it will be an annual event.

Now that August is over, the happy man is he who cut out his vacation, and paid his taxes and coal bill.

## WHERE BIG BUSINESS IS TRANSACTED

Uncle Sam Buys More Than He Sells in Far East.

For the six months ended June 30, this country reported to the far east along \$411,071,000 in various commodities. Japan our best custom, purchased \$126,545,000 worth of commodities; China came second with \$78,469,000., and then in order came Australia, Philippine Islands, India, New Zealand, etc.

Classified according to commodities, raw cotton held the lead, with petroleum products second and automobiles and accessories third. The value of the raw cotton exported to the far East in the six months was \$58,470,000. Petroleum products reached \$55,695,000 and automobile exports totaled \$55,513,000.

Machinery and electrical equipment accounted for \$36,088,000, with China and the Dutch East Indies doubling the value of her imports of this commodity from the United States.

American imports from the Far East gained 9.3 percent, in the six month period, reaching a total of \$655,412,000, as compared with \$625,580,000 in the corresponding period of 1928. The Far East supplied practically all the coconut oil, raw jute, wool oil, copra and desiccated coconut absorbed by American factories.

This country also obtained from the Far East 98 percent of the raw silk used here, 90 percent of the bur-lap, 70 percent of the tea, 15 percent of the cane sugar (from the Philippines), 42 percent of the wool and 60 percent of the Oriental rugs.

Japan was the principal Far Eastern exporter to the United States, her commodities reaching \$200,000,000. The Malayan Islands was second, with \$130,000,000. Crude rubber comprised \$97,000,000 of this total, while tin exports were valued at \$33,000,000.

In exports to the United States China was third, India fourth, the Philippines fifth, the Dutch East Indies sixth and Australia seventh.

These figures, of course, represent but a small portion of the total exporting and importing business of the United States, as neither Continental Europe, England, Ireland, Scotland, South America, Africa, Cuba, Mexico, Central America and the hundreds of islands of the sea, are mentioned.

## "Inside" Information for Women.

Do you know Farmers' Bulletin 1530-F, "Fitting Dresses and Blouses" it will help in your dressmaking problems.

Oysters, clams and other sea foods are among the best known sources of iodine among the common foods.

Iron rust stains on white materials often respond to lemon juice. Spread the stained place over a vessel of actively boiling water and then squeeze lemon juice on the stain. After a few minutes, rinse the fabric and repeat.

Try a mock duck when you want a palatable, inexpensive baked meat. It's really a flank steak, stuffed with a bread crumb dressing, rolled, tied, and baked. Be sure to roll it lengthwise so that in carving the meat is cut across the muscle.

Bacon sandwiches out-of-doors can be made wherever one's picnic party happens to be. Each person can cook his own piece over a fire in the woods with the aid of a forked stick. Many persons enjoy a leaf of crisp lettuce in a bacon sandwich.

Here's a good September menu: Corn soup, made from fresh corn cut from one cob; omelet with Spanish sauce, which contains tomatoes and peppers; rice, new yellow or white turnips; apple sauce from some of the first windfalls, with cup cake.

A simple remedy for a scorch stain is to moisten the stain with water and place in the sun. For more serious cases a piece of cloth moistened with hydrogen peroxide may be placed over the stain, covered with a dry cloth, and the spot ironed with a medium hot iron. If the hydrogen peroxide soaks through, replace the upper cloth. Be careful to see that the hydrogen peroxide does not touch the iron as it will cause it to rust very rapidly. Rinse the garment thus treated before ironing. This method must be used carefully on colored fabrics as the dyes may bleach out.

## Judge McPherson Sentences Three Chicken Thieves.

Heavy penitentiary terms were given two chicken thieves in Adams county court Saturday when Judge McPherson passed sentence on Edw. W. Plitt and George Sell, both of Franklin county, and both convicted during the week, on a charge of assault with intent to kill. The case was the outgrowth of a visit of three men to the chicken house of William L. Sanders, near Gulden's Station, in May. The third man, Harry Henry, was given a jail term. All three men are married and have families.

Plitt was given a term of three and one-half to seven years, and a second sentence of from one and one-half to three years, the latter to be begun upon completion of serving the first. The second charge was breaking and entering, to which both Plitt and Sell pleaded guilty. Sell drew a sentence of from three to six years on the charge of which he was convicted and the same term as Plitt on the other indictment.

Henry was given a term of from one to two years in the county jail. He pleaded guilty to the charges against him, and was a witness for the commonwealth in the trials of Plitt and Sell.

## INVESTIGATING BUS LINES

Reckless Operation Everywhere must be Discontinued.

More complaints are being made concerning fast bus speed, this time along the Reisterstown Westminster road, where it is claimed that the rights of motorists are disregarded and that many serious mishaps have been narrowly avoided.

The State Road Commission has issued orders that all of the speed regulations shall be observed and that all passenger vehicles shall be equipped with a standard speedometer which shall be kept in good order and at all times be within view of the passengers.

The state authorities are to be commended for their activity concerning the operation of bus lines; not only for the safety of their passengers but for the safety of other users of the state highways. That drivers of the buses should at any time take advantage of the bigness of their vehicles, and crowd smaller vehicles off the road, is unthinkable and must not be permitted.

## Frederick County Taxes.

Speaking of Frederick county tax-paying, the Frederick New Citizen says:

"In view of crop and farm conditions generally, collection of state and county taxes may be called unusually good this year." This statement was made by County Treasurer, Thomas A. Chapline while commenting upon the tax situation generally.

The date collections are in excess of those up to the same period last year Mr. Chapline stated. The poor season for crops, however, is expected later on to show a marked effect on tax collections for many rural taxpayers will be hard-pressed to meet their obligations. It was added the Treasurer's office will have a disposition to co-operate and be helpful to taxpayers in whatever manner possible consistent with the law.

State and county taxes were due and payable on July 1 and interest will accrue after September 1. If accounts are settled during September, no interest will be charged providing the remittance reaches the County Treasurer's office before the close of business on September 30. After that time interest will be charged for September and for each additional month thereafter.

Notice is also given that if taxes for the year 1929 are not paid on or before the second Monday in April, 1930, together with the accrued interest and the proportional costs of notice and fees, the County Treasurer is required to offer the land and property in question to the highest bidder for cash.

## Church of the Brethren Hold South-eastern Conference.

The annual South-eastern Conference of the Church of the Brethren is being held at Bridgewater, Va., about 500 delegates being present. The region represents a membership of about 33,000, and comprises Virginia, Maryland, West Virginia, North and South Carolina, Georgia, Florida and Tennessee.

Sessions of the conference are devoted to a review of church activities during the last year and discussion of plans for the coming year.

Representative J. A. Garber, of the Seventh Virginia District, is one of the Church of the Brethren leaders taking part in the conference. Others include Dr. Frank M. Sargeant, Chicago; Dr. Marshall R. Wolfe, Blue Ridge College, New Windsor, Md.; the Rev. W. M. Kahle, Elgin, Ill.; the Rev. E. E. Bowman and the Rev. C. S. Ikenberry, of Roanoke.

## Roop Family Reunion.

The annual reunion of the Roop family was held at Meadow Branch Church, last Sunday. Regular morning service was held, the sermon being by John D. Roop, Jr., on the topic, "The Father's Will." The service was well attended. A box lunch was then enjoyed by about two hundred members and friends of the Roop family.

After the meeting called for 2:00 o'clock had assembled, all joined in singing, "Home Sweet Home" led by the Rev. Walter M. Yount, Westminster. Prayer and a memorial service followed by Elder John S. Weybright, Thurmont; Col. J. C. Roop director of U. S. Government budget, Washington, traced the Roop family from Horatius Roop, of Germantown, his grand-father to the present. Redmond I. Roop, attorney, of Christiansburg, Va., spoke of the necessity of taking an inventory.

A quartet, composed of the Rev. and Mrs. Walter H. Yount, Miss Miriam Royer and H. L. Yingling, sang "The Church by the Side of the Road." Prof. J. J. John, New Windsor, spoke on the interest in studying the history of a people, and of the many interesting facts that have been lost. During the period from 1825 to 1830 many migrated from this section and from Adams, York and Lancaster counties into Virginia and other states.

The following officers were re-elected for another year: President, John D. Roop, Jr.; secretary, Jesse P. Weybright; treasurer, Miss Anna Roop, and historian, Herbert Englar. The reunion will be held again next year at the Meadow Branch Church, the first Sunday in September. After a period of silent prayer for the late John D. Roop and Mrs. Catherine Roop Bousack and others who have passed on during the year, the meeting was closed by John D. Roop, Jr., and the quartet sang, "Some Bright Day."

# THE CARROLL RECORD

(NON-PARTISAN)

Published every Friday, at Taneytown, Md., by The Carroll Record Company.

P. B. ENGLAR, Editor and Manager.

## BOARD OF DIRECTORS.

G. A. ARNOLD, Pres. D. J. HESSON, V. P.  
G. W. WILT, Sec'y. P. B. ENGLAR,  
W. F. BRICKER, JAS. BUFFINGTON.

TERMS—Strictly cash in advance. One year, \$1.50; 6 months, \$1.00; 3 months, 75c; 4 months, 50c; single copies, 3c.

The label on paper contains date to which the subscription has been paid. ADVERTISING rates will be given on application, after the character of the business has been definitely stated together with information as to space, position, and length of contract. The publisher reserves the privilege of declining all offers for space.

All advertisements for 2nd, 3rd, 6th, and 7th pages must be in our office Tuesday morning each week; otherwise, insertion cannot be guaranteed until the following week.

All articles on this page are either original or properly credited. This has always been a fixed rule with this Office, and we suggest the adoption of it by our exchanges.

Entered at Taneytown Postoffice as Second Class Matter.

FRIDAY, SEPTEMBER 6, 1929.

Living on Main Street.

The more publicly we live the more are we responsible for our actions and for the examples we set. Just as houses on the main street of a town give the visitor an impression of the town—favorable or unfavorable—and as the attitude of leading citizens on public questions influence public sentiment, so do all of us in accordance with our station in life exert an influence.

In a true sense, while some actually live on Main Street, all live on a street of some degree of importance, and by the fronts we show and by the repair in which we keep our properties—whether of buildings, mind or action—we are bound to be estimated, as well as imitated.

All of us note street improvements, and are influenced by them. The chances are that if a street is made up of rows of houses needing paint, and one or two of the owners "paint up," others on the street are almost sure to do likewise. On the other hand, if nobody on our street "paints up" neither do we. We are, almost unconsciously, ready imitators.

But, residents of Main Street are not only responsible for their own street—and to some extent the reputation of the whole town—but also for the cross streets and others not so prominent; for those who live there will not be satisfied to have unfavorable comparisons drawn against them, their homes, or places of business, if Main Street shows them what improvement means.

So, if we are a Main streeteer in any sense of the term, we may easily see our responsibility if we make merely a common-sense study of things, and then, what to do is to act according to our findings; for when all of the streets are well kept and up-to-date, Main Street has no important advantage over us that we need worry about, and certainly none to make us responsible for to our discredit.

## Care of Byroads.

Once upon a time people regarded the highways as a sort of no man's land. They pushed their fences out and stole part of the land that belonged to the roads. That was nobody's business; the roads belonged to nobody. They pastured their cows on the grass that grew at the roadside. Who cared? The roads belonged to everybody; that is, to nobody. Anyone could pick up the apples from roadside trees. Nobody could order one off the road.

There survives in places something of the old contempt for the roads. Here and there some unthinking person carts out a load of rubbish and throws it beside the road. Usually this occurs along a byway or unimproved road, and this fact reveals that the people have not arrived at the proper appreciation of the highest value of the roads to their community.

Those byroads and country lanes soon are to become one of the country's finest assets. More and more the tourists will leave the big, straight cement highways and find enjoyment in the countryside. Country people are learning not to scorn the tourists, and, apart from the considerations of making their own homesites and their envious pleasant, is the incentive to prepare their district to bid for the profitable tourist traffic. The roadside dump is an insult and an economic loss to a community—Fredrick News.

## Labor Day.

The implications of the annual celebration of Labor Day have without doubt shifted considerably. The day is not now an occasion for protest or demonstration so much as it is a seasonable vacation before the busiest days of the year. It is the

last milestone of summer and the recognized turning point in the tide of business activity. And it is in no sense any longer a class holiday.

Yet it is still a remarkably faithful representation of the condition of American labor, using the term in a sense broad enough to cover the wide range of useful work which occupies the hands and heads of American citizens. It is an extra day of leisure, which is like a bonus to great groups of workers whose hours of labor have been steadily made more tolerable during the last generation. It is another day of holiday to a Nation which has learned the wholesome habit of holidays. It is a day of enjoyment of the unparalleled opportunities for recreation American prosperity has brought within range of so many workers. Even its chief parade is a highway parade of pleasure cars bent on anything but business.

The laborer is worthy of both his hire and his holiday. No one now questions this doctrine, though once it would have been thought preposterous. Labor Day remains a symbol of the American conviction that the worker has a proper share in the riches he helps to create and a right to leisure in which to make use of them.—Phila. Ledger.

## Thrift Not Merely in the Saving of Pennies.

"That fellow knows how to get along. The pennies do not escape him." Such a statement as this is not infrequently heard; it reflects the conception of thrift as held by many.

Thrift, however, means more than just saving pennies. Attempting to limit thrift to the saving of money is merely an effort to accept a half-truth. Altogether too much encouragement has been given to the false doctrine that the thrifty man is a penny saver. As an effect of this false viewpoint, harmful resistance to thrift has been created.

It is true that saving pennies is one of the rudiments of thrift. But it is just as thrifty to save moments; to save one's health; to save one's energy. Thrift is efficiency. Thrift is eliminating waste. Thrift is spending wisely as well as saving systematically.

Many a successful career and many a great enterprise were founded on penny saving. But to say that thrift consists of saving pennies is as far from the whole truth as to say that the alphabet is literature or that those who know the multiplication table have mastered mathematics.

Let us have more penny savers, both literal and figurative. Let us all learn more and more the value of little things. Let us do all we can to encourage the thought that a penny saved means a great deal more than a penny earned. But let us not foster miserliness or encourage the belief, already too prevalent, that there is nothing to thrift but the hoarding of pennies.

Save the pennies, but do not stop there. Money is the symbol of wealth, but it is not the symbol of human progress. The value of thrift as an essential element of individual development cannot rightly be measured from the standpoint of saving pennies.—S. W. Straus, American Society of Thrift.

## Harvesters of Cannon Fodder.

A law suit for "services rendered" discloses that a number of the great shipbuilding companies of the United States paid a man named Wm. B. Shearer, a professional agitator, has been paid to keep alive the war spirit in America and oppose any armament reduction proposals of this country and Great Britain. This "professional" has been known as a "bigger-navy man."

The president of the Newport News Shipbuilding and Drydock Company, one of the clients of the patriotic Mr. Shearer, recently attracted attention by his denunciation of the cotton mill strikers in the South.

Shearer served his clients by endeavoring to hamstring Geneva and Washington conferences and in writing articles preparing and delivering addresses and interviewing officials on behalf of a bigger navy, and opposing "pacifist propaganda." He also wrote a novel that centered around a plot by Japan to crush the United States.

It is useless to denounce the conduct of either the employers or the employee. Persons who deliberately foster a war spirit, who cold-bloodedly plan for the destruction of millions of human beings are so lost to all ordinary appeals that criticism is hopeless. While big business men, engaged in the manufacture of ships and war material, continue to display such a shocking and callous indifference toward the lives and happiness of others and can find men to carry out their schemes, universal peace seems remote. It is vain to hope for a better viewpoint on the part of such persons until the making of war profits is regarded by the world at large as a bloody and abominable

business. Wars will never cease until the profiteers and their descendants suffer social disgrace and ostracism, as long as one cent of the ill-gotten money remains in the possession of the families of the individuals who have fattened on the carnage and destruction of war.—Towson Union-News.

## Murder Only on one Side.

When a Federal prohibition enforcement officer shoots and kills a bootlegger, it is pronounced "murder" by the wet press; but when an officer is shot by a bootlegger, the same press is quite apt to say but little about it, except to give the shooting mere notice as a news event.

Or, if the first shooting is not "murder" on the part of the officer, it is practically the same thing on the part of the government when it tries to enforce government laws. This may be an extreme way of putting the cases, but something very like this is unquestionably true, as demonstrated by numerous daily papers that accept every opportunity to place the 18th Amendment, and its enforcement, in the wrong.

It is to be expected, perhaps, that officials who have in charge the capture of desperate offenders may at times be led to use desperate means; that as the bootleggers are armed, and ready to shoot, the officers are led to shoot on their own account; and it is also true that the latter make mistakes.

All of this is very regrettable on both sides; but there is just one way to prevent shootings and mistakes, and that is, for all to obey the laws. The first responsibility always rests with the law-breaker, in this and nearly all other instances in which somebody gets killed while laws are being violated.

The Washington Star recently commented on the criticism of the shootings connected with the attempted get-aways of boot-leggers, as follows:

"The only logical conclusion is that our police officers are beginning to feel that the path of least resistance is the safest. Give up the pursuit and no questions are asked. Shoot, and the officer faces loss of pay, disgrace and a possible trial as a criminal.

The logical developments from such a situation as that which now confronts the community, unless the community supports the Police Department in a drastic effort to remedy it, are fearfully apparent. Immunity from the law lies in the possession of an automobile faster than a motor cycle or police car, equipped with a smoke-screen device and defying the law to catch up. The use of mustard gas and hand grenades has not become general up to this time, as improved methods of evading bothersome police officers. All the underworld asks, however, is time and a little more maudlin sentiment from its lawabiding sympathizers."

## Working at 61

The man who thinks he is too old to work at sixty-one might profit by the example of Halley, the great English astronomer who discovered the comet. When Halley was sixty-four years old he made up his mind to observe the moon through a complete revolution of her nodes—a task which requires 18 years. His friends remonstrated with him for undertaking so long and serious a task but, as sometimes happens with our English friends, he thought his own ideas much better. He proceeded to prove this by living and completing his 18-year task, and then lived several more years and did several more pieces of work to boot.—Detroit Free Press.

## Restless Eyes

According to a Russian scientist, there is a certain rhythm to the movements of the human eye as well as to those of the heart. It roves back and forth at the rate of about 100 movements a minute.

Under normal conditions—that is, in quiet, familiar surroundings—the eyes remain at rest for a few seconds. But soon they resume their usual movements, sometimes from one side to another, sometimes up and down. It is believed by evolutionists that this characteristic restlessness of the eye is a throwback to primitive times when man's ancestors had to be constantly on the watch for danger.—Washington Star.

## World Flood

The ancient tradition common among all primitive peoples of a world-wide flood is now thought by scientists to have been sound. The cause of the ocean's rise may have been the melting of the ice cap at the North pole at the end of the last ice age, which occurred about 20,000 years ago. According to Sir Edgeworth David, famous Australian geologist, the level of the entire ocean would be raised about fifty feet if the whole Antarctic ice barrier melted. Practically every seaport town would then be under water.

## Needed Protection

Silycus—I never can understand why a chap shouldn't have more than one wife.

Sinuous—When you are older you will realize that the law protects those who are incapable of protecting themselves.—Sidney Belbin

## Primitive Ideas Still Prevail in Mourning.

Most of our funeral customs go back to primitive times when it was believed that there was danger to all except priests who had to do with a corpse, and death witchery was accepted without question. Some primitive peoples destroyed everything associated with a funeral, even going so far as to tear down the house in which the death occurred. Some of these customs have survived as marks of respect for the departed, as has the practice of removing all ornaments and ceasing all activities marking the ordinary pursuits of life. In some churches altars are stripped on Good Friday in observance of the anniversary of the crucifixion of Christ. There is a tradition in some communities that the clock stops when there is a death in the household. Mirrors are usually associated with vanity and other light attributes regarded as not in keeping with the mourning spirit in the presence of death, hence they are covered to contribute to the gloom and hush of mourning.

## Jackson Earned Place Among America's Great

In all American history, says a writer in Thrift Magazine, there never lived a more interesting character than Andrew Jackson. He possessed a fiery temper and loved a fight. But he took up his cudgels always in defense of what seemed to him a just cause. He fought the battles of the weak and the poor and was relentless in opposing those who sought to take unfair advantage of others. Notwithstanding his tumultuous life, Jackson early became imbued with the principles of thrift. Beginning life in poverty, he began saving money as soon as he had an income. In the rugged districts where his young manhood was spent, money was a scarce object and incomes were exceedingly small, but Jackson, realizing ever the great value of thrift, managed to save modest sums. He proved to be successful in business and by the time he had reached middle age had acquired what was considered in his day a very comfortable fortune.

## How "Teddy Bears" Got Their Well-Known Name

About 1888 Margarete Steiff, a crippled dressmaker living in a little village in Germany, used some left-over material to make a toy bear for a child. The bear was popular and other children in the community immediately wanted rag bears. Margarete's brother, Richard Steiff, later saw the commercial possibilities of these toys and put them on the market. George Borgfeldt & Co. of New York imported some in 1902. At that time, of course, they were not called teddy bears and nobody thought of associating them with Roosevelt. It so happened, however, that President Roosevelt went on a hunting trip to Mississippi that same fall. The public was amused when a news dispatch stated that "Teddy" had refused to shoot a small bear brought into camp for him to kill. This inspired Clifford K. Berryman, the cartoonist, to draw a cartoon picturing Colonel Roosevelt in his hunting outfit with his back to a man who is dragging in a small cub with a rope around its neck. Roosevelt, with his gun in his right hand, has his left hand raised after the fashion of a traffic cop to indicate his objection to the procedure. The cartoon is labeled "Drawing the Line in Mississippi." It was a popular hit and Berryman adopted the bear as his cartoon mascot.—Pathfinder Magazine.

Listen, for the parties.  
Put this in your pouch.  
Home is where the heart is.  
Not the mouth.

**Before and After**  
"The facial features plainly indicate character and disposition," said the knowing one. "In selecting your wife, were you governed by her chin?" he asked.  
"No," replied the timid soul, "but I have been ever since we were married."

## COCCIDIOSIS ONE CAUSE OF LOSSES

### Protect Pullets From Parasites and Various Ills.

(By M. A. SEATON, Extension Poultryman, Kansas State Agricultural College.)

Young pullets will develop into efficient egg machines if precautions are taken to protect them from parasites and diseases during the summer months and if proper feed is supplied for their development.

Coccidiosis is one of the enemies that must be conquered. It usually appears when the chicks are five to ten weeks old. Symptoms are blood in the droppings. Upon internal examination, the blind intestines are enlarged and filled with a grayish, bloody exudate. Often the liver is spotted. This disease is caused by an organism that tends to destroy the lining of the intestine. It is passed out in the droppings and carried over from year to year in the buildings and ground.

To prevent coccidiosis, move the brooder houses each year and brood on clean ground or use a sanitary platform and keep the chicks confined on the platform until ten weeks old. Keep the young and old stock separated. These precautions will usually prevent the disease.

In outbreaks of coccidiosis, the best-known treatment is to move the brooder house if possible, clean the house often, and feed large quantities of milk. If an all-mash system of feeding is being used, remove the meat-scraps from the mash and substitute 25 per cent dried buttermilk or dried skim milk. Feed this for about two weeks. Large quantities of milk solids in any form will be beneficial.

### Value of Sulphur and Charcoal for Fowls

Sulphur is a medicine, and not a food. True, small quantities of it may be found in all our grains, as well as in some other articles of feed. But sulphur as found in grain is combined with some other substance which counterbalances it.

There are times when sulphur is beneficial if judiciously administered, writes Michael K. Boyer in the Farm and Ranch. It must not be recklessly given, and never during wet or damp weather, as its use at such times is apt to cause rheumatic troubles or a stiffening of the joints.

Sulphur is a blood purifier, and often wards off disease and invigorates a run-down system. In such cases a teaspoonful, once a week, mixed with the mash, for about twenty hens, would be about right, but even so small a quantity as this should be given only during a dry period.

Charcoal consists almost entirely of carbon. It is prepared by heating wood so as to expel all the gaseous matter it contains. Ammonia is a gaseous compound-alkaline like potassa, and is often termed spirits of hartshorn.

When charcoal is properly treated there will not remain sufficient ammonia to be injurious to animal life. Any impurities that charcoal might contain would be absorbed through atmospheric conditions.

### Do Not Force Pullets Into Premature Laying

It is usually considered better not to force pullets into premature laying by feeding large quantities of mash. Instead, limit the mash until pullets are quite ready to lay and, by feeding a greater amount of grain, to get them fat. Such a ration emphasizes the fat making material and, by withholding the egg-making materials, removes the danger of a too early maturity. Mash should not be entirely eliminated, as it contains materials needed for building up the muscles of young fowls. Too much of it, however, may precipitate egg laying before it is desirable. Give the developing pullets all the grain they will eat during early fall and after they come into normal laying, gradually decrease mash with a corresponding increase in mash feeding.

### Turkey Production

The most important discovery in turkey production has been on the line of sanitation. If the turkeys are kept on ground that has not been used for poultry for a year or more, they will likely escape without any trouble similar to the old blackhead disease. Chickens are known to be carriers of the insect that causes blackhead. If you keep your turkeys away from chicken yards and where turkeys have not been the year before, they will not cause you any trouble.

### Gains for Chicks

Chicks make the cheapest and most rapid gains when they are young. It is therefore essential that an ample amount of good wholesome food be kept constantly before the birds. Mash hoppers should be of sufficient size so that a large majority of the chicks can eat at the same time, thereby avoiding the constant fighting for room to eat. The outdoor mash hopper of adequate size is very desirable for developing the young stock. All feeding utensils should be kept clean.

## HOW

### ACCUMULATION OF WATER IN "GAS" IS EXPLAINED.

It is often stated that much of the water which autoists get in their gasoline is due to the refining process in which water is used to remove acid and other chemicals employed to purify the product.

"It is true," says the Standard Oil company, "that the refining process to which gasoline is subjected involves washing with water to remove acid and other chemicals which are employed to purify the product. There is, however, little or no difficulty in removing all traces of water from gasoline. Water in gasoline is almost invariably due to condensation of water from the atmosphere in the underground tanks in which gasoline is stored. It is practically impossible to avoid the accumulation of water in these tanks and unless it is removed at proper intervals there is a chance that some of it may be drawn up by the pump and delivered to the customer."

"It should also be borne in mind that the storage tanks of automobiles sometimes accumulate water by condensation from the atmosphere, and that the customer who experiences difficulty with this impurity should regard it as characteristic either of his own car, or of the retailer from whom he purchased the gasoline."

### How Sense of Hearing Is Provided for Fish

Fish possess all the senses that men have and one besides. Mass movements of the water—slow vibrations and currents—they sense by means of their lateral-line organs—structures not possessed by land vertebrates. Thus probably they are aided in detecting approaching danger or possibly in securing food. These same organs may help them to detect currents in the water and to regulate their movements with reference to them. They may also aid the fish to detect unseen solid bodies before they swim against them. More rapid vibrations of the water they sense with their ears, as sounds. Owing to the great energy of sound waves in water, these pass through the hard tissues of the head and reach the internal ear unimpaired. Thus no other parts of the ear are necessary. But the fish ear is not only primitive in itself; it exhibits in its various conditions several grades of proficiency. In not a single primitive fish, cyclostome, or elasmobranch, has the ear been shown to be a receptor for what may reasonably be called tones. The ears of these lower fishes are stimulated only by relatively loud noises such as have been shown to be effective stimuli for the skin. In the higher fishes, the teleosts, the ears are not only stimulated by noises of the kind just mentioned, but they are stimulated by much less intense sounds and sounds in the nature of tones.

### How Human Brain Grows

At birth the brain weight is about one-third of the weight at maturity. The increase is very rapid during the first year; quite rapid during the next seven and eight years; after this it becomes very slow. The maximum weight is attained in man between the fiftieth and sixtieth years, and in woman between the fortieth and fiftieth years. A premaximum of thirteen to fifteen for males and of about fourteen for females indicating a too vigorous growth seems to be the most important cause of death at this age. At the end of the eighth year when the brain has almost completed its growth, the body has reached to a third of its mature weight. At birth the brain forms 12 per cent of the total weight of the body, while in the adult it forms 2 per cent or less.

### How Bell Is "Toned"

The McShane Bell Foundry company says that the "toning" of a bell is considered by practically all bell founders as a secret process; the fundamental requirements, however, are based on perfect mathematical calculations and acoustics. In other words, a bell to be of perfect tone should be perfectly proportioned in relation to its diameter, height, width across the top and wall thickness. If the proportions are correct the resultant tone of the bell will be likewise correct to the note for which the bell was designed. Modern methods have made it possible, where slight variations occur, to tune the bell and correct the proportions within itself automatically to correct or make positive the note for which it is designed.

### How to Make Glass Shine

When you wish your windows, mirrors or the glass doors of bookcases or china cabinets to look exceptionally nice, take a clean chamomile skin and rinse out a basin of lukewarm water to which a tablespoonful of household ammonia has been added. Begin at the top and wash downward in long, straight strokes. Never wash around or upward. The point is to keep the strokes downward only. Repeat until the surface is clean, and let dry. No wiping will be necessary, and the knack of having a lintless, sparkling and clear glass with a minimum of effort is easily learned.

Do not wash the window when the sun shines upon it, as it is more likely to be streaked.

# Community Building

## Few "Small Towns" Not Thoroughly Up to Date

The average small town now offers about everything the city has except the "rush hour" and a few other inconveniences. Convincing proof of the changes taking place in the life of the small centers is found on almost every hand. Particularly is this true in many of the older centers, which a few years back were inclined to be satisfied with conditions as they were.

There is now a new life and renewed interest. In times gone by many towns were prone to slumber on after the arrival and departure of its few daily trains. Now most centers of any consequence either are on or near one of the arteries of the state's road system. This has resulted in an almost constant traffic, such as the operation of bus lines on regular schedules and parades of motor cars, in addition to rail service.

It is a rather slow locality of any size that does not have its chamber of commerce working for the town's welfare and advancement. Country clubs, golf courses and swimming pools are becoming common. Likewise the "talkies" are about as prevalent in the smaller communities as in the cities. And the radio is tuned in on the same offerings furnished elsewhere. The women are playing as much bridge as their sisters in the more populous centers. The girls are just as modern and the boys just as shellish and up-to-date as those in the city.—Exchange.

## Money Wisely Expended on Paint and Varnish

Cleaning up the individual premises of a home owner or occupant is the first essential element in improving the appearance and health conditions of the property. After this is done painting and varnishing may follow. A small amount of money invested each year in paint and varnish keeps the property in good condition with no periods of deterioration or expensive repairs. A good surface of paint on the woodwork, both interior and exterior seals up the pores in the wood, keeping out germs, insects and decay.

The home owner may establish a system of painting his home, so that parts of it may be painted one year, other parts the next, and still more parts the third year. In this manner no heavy expenditure faces the home owner every three years or so. And at the same time, the home always appears to be in first-class condition. Painting also serves as a health measure. Any surface that is painted regularly cannot harbor germs that menace the health of the family.

### Problems of Nature Lovers

In Nature Magazine Charles Sumner Bird, Jr., chairman of the Massachusetts committee on Needs and Uses of Open Spaces, had a most interesting article, in the course of which he says:

"It is recognized today that beauty is not a luxury, but an absolute necessity to the complete life of every normal human being. The man who does not crave the beauties of nature has a twisted soul and should be an object of pity; and, if he should be the slave of a blind commercialism which impels him to destroy for others the beauties of nature, he is a bad citizen. Every problem of importance today is common to all countries; and England, the cradle of the Industrial age, faces difficulties corresponding to those which nature lovers in America are mobilizing to solve. It may be said here that the sooner this mobilization on as large a scale as possible is consummated the sooner will the ravages on the face of nature be stayed."

### Protecting the Tree

Strong wire cable scientifically installed in the tops of trees will strengthen the forks and hold the branches safe from storms that would otherwise be fatally destructive. To be effective the job must be done correctly and carefully. The weight of the limbs, the strain of the wind, the strength of the wood and the manner of branching must all be considered if proper results are to be secured. It is work for trained men.

Even so, it is comparatively inexpensive work and certainly is more than justified as a means of insuring trees against the ravages of the wind storms of summer and the sleet storms of winter.

### Driveways Worth While

An attractive concrete driveway adds much to the appearance of the grounds, because it enhances beauty and makes for neatness. Its utility lies in its providing safe passage to the street or highway the year round. Automatically a good driveway increases the value of property. It matters not how modest the home or limited the space in lawn, the driveway is an important and necessary adjunct to house and garden.

### Give Thought to Tree

Trees that are properly cared for will live almost indefinitely. A tree that is neglected can no more be expected to thrive than can the man or the woman who needs medical attention but neglects to get it. Disaster follows.

## PUBLIC SALE OF VALUABLE HOUSEHOLD FURNITURE, SOME OF IT ANTIQUE.

The undersigned will offer at public sale, at Trevanion, on WEDNESDAY, SEPT. 11th., 1929, at 12:30 sharp, the following HOUSEHOLD FURNITURE. Walnut bedroom suit, with marble top dresser and stand, all solid walnut bedroom suit complete; fine old-time bureau, 2 large wardrobes, large extension table, large buffet, fine old settee, marble top buffet, 2 large book cases, large hall rack, cherry leaf table, 2 oak bedroom suits, writing desk, 3 old-time high post walnut bedsteads, bureaus, 6 stands, parlor, rocking and kitchen chairs, 3 looking glasses, rugs and carpet, cook stove, etc.

**FARMING IMPLEMENTS.** Gasoline engine, chopping mill, large grindstone, Deering mower, 2 horse Syracuse plow, 2 very large chop chests, shovel plows, corn plow, shovels, forks, rakes, garden tools, hand-power cider press, corn sheller, 1/2-bu. measure, springtooth harrow, large meat bench, tent and poles, single and double trees, jockey sticks, 2 three-foot circular saws for saw mills, work bench and tools of all kinds, etc.

**TERMS CASH.** No goods removed until settled for.

**PERCY ADELAIDE SHRIVER, J. N. O. SMITH, Auct.**  
P. S.—Antique dealers please take notice and attend this sale. 8-30-29

## PUBLIC SALE OF Valuable Real Estate

The undersigned, Executors of the Last Will and Testament of Joseph W. Mummert, late of the borough of Hanover, Pa., will offer at public sale, on

**SATURDAY, SEPTEMBER 14, 1929,** at 2:00 o'clock, the following valuable Real Estate:  
**TRACT OF LAND,** situate in Carroll Co., Md., 2 miles east of Taneytown, Md., adjoining lands of Mr. Devilliss, Mr. Jones, Mr. Boston and Mrs. Harner, containing

**1/2 ACRE OF LAND,** more or less, improved with a **2 1/2 STORY FRAME HOUSE** and all other necessary outbuildings. Rural route passes the door; well of good water at the house.

**TERMS and conditions will be made known by—**  
**MRS. ANNIE SIX, PHILIP L. MUMMERT, W. CLEVELAND MUMMERT, Executors.**  
J. N. O. SMITH, Auct. 8-23-29

Remarkable Six-Cylinder Engine Chevrolet's remarkable six-cylinder engine impresses you most vividly by its sensationally smooth performance. At every speed you enjoy that silent, velvet-like flow of power which is characteristic of the truly fine automobile!

### Beautiful Fisher Bodies

With their low, graceful, sweeping lines and smart silhouette, their ample room for passengers and their sparkling color combinations and rich upholstery—the new Fisher bodies on the Chevrolet Six represent one of Fisher's greatest achievements.

### Outstanding Economy

The new Chevrolet Six is an unusually economical car to operate. Not only does it deliver better than twenty miles to the gallon of gasoline, but its oil economy is equal to, if not actually greater than, that of its famous four-cylinder predecessor.

### Remarkable Dependability

In order to appreciate what outstanding value the Chevrolet Six represents, it is necessary to remember that it is built to the world's highest standards. In design, in materials and in workmanship—it is every inch a quality car!

### Amazing Low Prices

An achievement no less remarkable than the design and quality of the Chevrolet Six is the fact that it is sold at prices so amazingly low! Furthermore, Chevrolet delivered prices include the lowest financing and handling charges available.

## Sand-Carved Letters are Superior

because of the distinctive legibility and mechanical precision unattainable through the old-fashioned methods of carving stone by hand. This new development does not destroy the artistic treatment of a memorial by a craftsman but increases it by calling into play his every talent in applying the many treatments made possible by the Sand-Carving process.

In the interest of providing for our clientele the very best in modern memorial art we have been equipped with the necessary machinery and apparatus which enables us to produce in our own shops the same quality of Sand-Carved workmanship as produced by the manufacturers in Barre, Vermont, the Granite Center of the World.

FRIDAY, SEPTEMBER 6, 1929.

UNIONTOWN.

Mrs. D. S. A. Macis and children, spent several days, latter part of week, with relatives in Hagerstown and Smithburg, returning on Sunday, with the Doctor. Monday, Mrs. Brown, mother of Mrs. Macis, with a daughter and some friends, spent the day with them.

Mrs. Walter Devilbiss, son Snader, and daughter, Margaret, who spent the past month at Snader Devilbiss, returned with her husband to Philadelphia, Monday.

John Bural has been seriously ill the past week.

Miss Grace Fox, left last Friday, for a trip to Bermuda, and other points of interest.

E. G. Cover, Easton, sent out the announcement, this week, of the marriage of his oldest daughter, Miss Layn Cover, to Mr. Ward, at Easton, Saturday, Aug. 31st.

Hugh Heltibrude, who moved from here to near Taneytown, last spring, moved back on Wednesday, taking the Red Men property, at west end of town.

Week's guests: Mr. and Mrs. Frank Booker, Miss Louise Booker, Mr. Simpson, Wilmington, Harry Yingling and son, Edwin, Hamilton, at T. L. Devilbiss; Harry Goodwin and family, Littlestown, at Benton Fater's; Luther Hiteshaw, Baltimore, at Nevin Hiteshaw's; Miss Nellie Rodkey, of Washington, at S. G. Repp's; Miss Lulu Birely, Keymar, at C. E. Myers; Mr. and Mrs. Ward, son Fred Ward and wife, Sparrows Point, at J. Snader Devilbiss; Mr. and Mrs. Norman Otto, son Gene, Mr. and Mrs. Paul Lindsay, the latter, formerly Miss Belle Hill, Washington, at H. H. Weaver's; Mr. and Mrs. Roswell Dubs and son, of Hanover, at Mrs. Flora Shriners; Mr. and Mrs. Grenville Erb, daughter, Ethel, Oxford, Pa., at Misses Alveta and Beryl Erb's; Mrs. Julia Waltz, Wedney Bowersox and family, of York, at Clarence Wolfe's.

The M. P. Sunday School received their treat at the church, Thursday evening, and the Lutheran school Friday evening, on the church lawn.

Our schools opened on Monday, with a full attendance. The intermediate and Primary rooms being crowded, Miss Della Myers is principal, Miss Grace Cookson and Miss Bailey, Eastern Shore, assistants.

LINWOOD.

Mrs. C. P. Price, of Baltimore, spent several days, this week, with Miss Bertha Drach.

Rev. L. H. Brumbaugh, a summer student of Chicago University, and Mrs. Brumbaugh and daughter, Jane, who spent the summer with her home folks, at Hartsville, Ohio, returned to their home, in Linwood, on Tuesday. We are glad to have them in our midst again.

Mrs. Martha Hollenbury, of Philadelphia, is visiting her niece, Mrs. Jesse P. Garner.

Rev. Ray Klingensmith, who successfully supplied the Linwood church during the absence of Rev. L. H. Brumbaugh, this summer, will leave on Monday for Ashland College. Rev. Klingensmith made a host of friends while here, who wish him success in his christian work.

We are glad to report that Mrs. R. Lee Myers who recently underwent an operation, is improving nicely.

Mr. and Mrs. Seward Englar had a delightful visit with Mr. and Mrs. R. Lee Myers, at their summer home, "Lanedom Beach," Md.

Mr. and Mrs. John Drach are spending the week at Owens Beach, Md.

R. Lee Myers is improving his home with a coat of paint.

The Sunday School of the Linwood Brethren Church had a most pleasant outing, at Braddock Heights, last Wednesday.

TYRONE.

Sunday visitors at the home of Noah Babylon and family, were: Mr. and Mrs. John P. Kaufman, Mrs. Rosa McMullen, Herschel Warehouse, Baltimore; Levi Maus, Miss Ruth Schaffer, Westminster.

Mrs. George Stoesifer, of Mayberry, spent Labor Day at the home of Mr. and Mrs. Stanley Stoesifer.

Mr. and Mrs. William H. Marker and daughter, Evelyn, of this place, and Miss Ruby Bower, of Westminster, spent Labor Day in York, Pa.

Miss Ruth Everhart, of Westminster, visited recently at the home of Pearl Johnson.

Mr. and Mrs. John Spangler, Miss Mary Spangler, Mayberry; Miss Lotie Spangler, Philadelphia; Miss Anna Flickinger, Mrs. Roy Keibel and Franklin Bowersox, Taneytown; Carroll Wilson, Baltimore; visited at the home of Mr. and Mrs. Noah Babylon, Thursday.

Mr. and Mrs. C. V. Wetzel, Miss Grace Marquet and Carroll Weishaar, spent the week-end at Atlantic City.

Miss Catherine Stuller returned home, after a week's visit with relatives in Baltimore.

Mr. and Mrs. Ivan Boose and son, Vincent, Littlestown, spent the week-end at the home of Mr. and Mrs. Samuel Crouse.

Mr. and Mrs. Pearl Johnson, daughter, Ethel, visited at the home of Guy Singer and family, Union Bridge.

Miss Florence Garner, Frederick, spent several days at Scott Garner's.

Mr. and Mrs. John Brown, Frederick, spent the week-end at the home of Mrs. Ida Marquette.

KEYMAR.

Mrs. Calvin Wilson and son, Raymond, entertained to dinner, at their home, last Sunday: Mr. and Mrs. Roy K. Heer, Strasburg, Pa.; Mr. and Mrs. George Graham, son and daughter, Ralph and Arlene, Catherine Denlinger, Kinzer, Pa.; Mrs. Mary Chamberlin, Coatsville, Pa.; Mrs. Canar Simpson and son, George, Gordenville, Pa.; Mr. and Mrs. Walter Carwelt, Hebbsville, Pa.; Mr. and Mrs. Amos Graham, Johnsville; Mrs. Geo. Cosby, Baltimore; Mr. and Mrs. Guy Babylon and daughters, Ruth and Lena, Wakefield; Mrs. Emanuel Fowble, Miss Ella Graham, Union Bridge; Mrs. Pierce Zile, New Windsor; Mr. and Mrs. Martin Eakle and daughter, Isabel, Daysville, Md.

James Johnson, of Philadelphia, spent from Friday until Tuesday with his cousin, Mrs. R. W. Galt.

C. Frey Sweigart, Agent A. C. Q. R. at Monticella, Florida, arrived in Keymar last Saturday morning. Frey is a son of the late Mr. and Mrs. W. W. Sweigart. It has been 17 years since he left Keymar and he sees a great change in Keymar.

Miss Francis Sappington, of Hagerstown, who spent the summer at the home of her grand-mother and aunt, Mrs. Fannie Sappington and daughter, Miss Cora, returned to her home last Monday.

Visitors and callers at the home of Mr. and Mrs. R. W. Galt recently, were: Mrs. Mary Crapster and daughters, Mrs. Maurice Waltersdorf and son, Washington, Pa.; Mrs. Guy Ourand and Mrs. John Smelser, Washington, D. C.; Hershey Eichelberger, of Frederick; Miss Ella Gillean, Gettysburg; Mrs. Lutie Dorsey, near Lisbon, Howard Co.; Mrs. Helen Yawdo, Fowlesburg; Mrs. Maud Hyatt, of Borton, Mass.; and Miss Anna Davis, of Towson. S. Ross Galt and Mr. Smith, New Windsor.

Raymond Wilson attended the Fair at Lingonier, Pa., last week, and won several prizes with two of his horses.

The Bruceville school opened last Monday with 16 pupils. Miss Wilson of New Windsor, teacher.

H. A. Lindsay, of Washington, D. C., spent a few days, last week, at the home of his sister and brother-in-law, Mr. and Mrs. E. Scott Koons.

C. W. Repp, near this place; Russell Stonesifer, near Keysville; Jas. Welty, Taneytown-Keymar road, have made quite an improvement on their properties, by painting up their buildings.

Mrs. Fannie Sappington, who spent several weeks at the home of her daughter and son-in-law, Dr. and Mrs. Artie B. Angell, of Baltimore, returned to her home Friday of last week.

David Reifsnider has made another improvement. He has made a pike from the Keymar and Taneytown pike, to his home, which will be a great convenience. The road from the hard road, down along the creek gets almost impassable when the roads gets bad. Mr. Reifsnider has made about one mile of pike.

Mr. and Mrs. Marshall Bell entertained to dinner, at their home, last Sunday: Mr. and Mrs. Carroll Ambrose and son, Richard; Mr. and Mrs. George Ambrose and Charles Ambrose, of Detroit, Mich.; Mrs. Nora Ambrose, son Melvin, of Thurmont; Mrs. Maggie Zent, of near this place; Mr. and Mrs. George Humbert and daughter, Miss Madeline, of Littlestown.

Mrs. M. W. Bell and Mrs. John Leakis attended the funeral of Mr. Albaugh, near Ladiesburg. Funeral services were held in the Chapel at Ladiesburg; by Rev. David Wilson; burial in Mt. Zion Hg. cemetery.

NEW WINDSOR.

Paul Smelser and wife, of Cincinnati, Ohio, spent the week-end here, with his mother, Mrs. Luu Smelser, E. E. Thompson and family, of Baltimore, were also guests for the week end.

Miss Janet Bittner, of Washington, visited Miss Elizabeth Buckley, this week.

Edwin Englar and family, of Louisville, N. Carolina, spent the week-end here, with his father, Herbert Englar, Mrs. Robert McKinney and Miss Margaret Englar, of Baltimore, were guests also, on Sunday.

Mrs. George Smith entertained her sister, from Va., this week.

Miss Florence Tudor, of Baltimore, is visiting Mrs. H. B. Getty.

Miss Hattie Ecker, of Baltimore, is visiting Mrs. T. J. Stouffer.

William Frountel and wife are spending some time with their son, Edgar and family, in Westminster.

Mrs. Laura Fuss is visiting relatives at Union Mills.

J. S. Baile and wife spent the week-end at Atlantic City.

Mrs. Catharine Stouffer entertained the Missionary Society of the Presbyterian Church, at her home, on Wednesday.

Dallas C. Reid and wife motored to Ayden, N. Carolina, and spent the week-end there, with his brother, Charles Reid.

E. I. Stouffer moved to Hagerstown, on Wednesday.

Dr. Geatty is having his home repointed and repainted.

Mrs. Eva Rhoades, of Baltimore, spent Sunday last here, with her mother, Mrs. W. Cora Stouffer.

Herbert Smelser has returned home from a summer camp in Vermont.

H. C. Roop and wife, Mrs. Ellen M. Hawk, Mrs. M. D. Reid, spent Wednesday at Timonium Fair.

Mrs. C. Hulshizer, of Philadelphia, is spending the week with Mrs. Norman Myers.

Mrs. Emma Gilbert has returned home from Pittsburgh, Pa.

Miss Hanna Shunk is visiting Mrs. Mildred Bull, in Baltimore.

MANCHESTER.

Rev. Dr. John S. Hollenbach, pastor of the Reformed Church, returned from vacation on Aug. 28th. Mr. Hollenbach and family attended the Hoffman Orphanage anniversary on Thursday.

Our schools opened Monday morning and are going along nicely.

A number of our folks attended the Hoffacker reunion, at Forest Park Hanover, on Labor Day.

FEESERSBURG.

Our gardens are perishing for lack of moisture, and the fields look pitifully parched. Of course, we do not deserve it, but we are longing for showers of blessed rain.

School bells are in full operation—the only sound that makes us wish we were young again.

August favored us with much sunshine: clear days 25, cloudy 4, rainy 2, against 14 clear last year.

Labor Day must have been a holiday for many, according to travel on the highway and rumble of heavy conveyances—toting of horns and sirens. Now that we know it's all to honor the god of Labor, we bow to it.

A party was given at the home of Frank Miller, in Middleburg, last Wednesday evening, to celebrate his birthday. About 60 guests were present and passed a happy time with music, games, dancing and abundant refreshments.

Mrs. Calvin Gresh and daughters, Lois and Romayne, of Northumberland, Pa., spent the week with their cousins, Mr. and Mrs. Elwood Harder.

Harrison McCune and family, Baltimore, spent Sunday with the Crouse Crumbacker family, taking Catherine Crumbacker back to the city with them for a week's stay.

The children of Maurice Clabaugh arranged a birthday party, in his honor, on Wednesday evening of this week. Many relatives and neighbors were invited and very pleasantly entertained and feasted.

Our local garage has just completed a large school bus for Elmer Pittinger for service from Priestland locality to New Windsor.

Several family reunions calling for relatives from this locality, are scheduled for the next two weeks—which we hope to report later.

There was Sunday School, Preaching and Catechise at Mt. Union, on Sunday morning, everyone was glad to have the pastor and his sister home again, and to greet some former friends and members: Walter Hape and wife, of Hanover; Mr. and Mrs. Wm. Ardell (nee Alberta Koons) and their aunts, Dora and Anna Smith, of Philadelphia, among other visitors.

On Monday morning, Mrs. Wade Sherman, (nee Nettie Calvert) was taken by her physician to the State Sanatorium, at Sabillasville, for treatment of lung trouble.

At the Birely home, word was received early Monday morning of the death of their cousin, Ida May Morningstar, in Los Angeles, Cal. She had been in failing health for some time, but able to walk out again, until the early hours of August 28th, when she suffered a heavy shock of paralysis, from which she never regained consciousness and passed away on Saturday, Aug. 31st. Funeral services were held at her home, on Tuesday, A. M., with cremation and burial in Hollywood, Cal. One sister, Lillie A., remains.

These ladies were daughters of G. W. Morningstar, and passed their early life in Westminster, and have many friends and relatives in Carroll Co.

Three new memorial stones have been placed in Mt. Union cemetery recently, at the graves of John Davis, and son George, and the infant daughter of Wm. and Nannie Breyer Lease.

EMMITSBURG.

Mr. and Mrs. Wm. Stoner, Thurmont, were Sunday guests of Mr. and Mrs. Francis Matthews.

Mrs. Charles Kohler, of York, Pa., is visiting her mother, Mrs. W. J. Raffensberger.

Sterling Rowe, of Philadelphia, was a week-end guest of his parents, Mr. and Mrs. Howard Rowe.

Mrs. Amanda Ford, Dr. Oglsby, wife and three children, of Latrobe, Pa., spent Sunday with Mrs. Emma Gelwicks.

Allen Kime, of Pennsylvania, visited Mrs. Fannie Eyster.

Mrs. Cloworthy Birnie and son, Jr., are spending some time with Dr. E. J. Jamison.

A free concert by the 104th. Maryland Regiment Band will be held on Green Street, on Sunday, Sept. 8th., at 2:00 P. M.

Mr. and Mrs. Charles Harner and son, Richard, spent a few days, this week, in Philadelphia and Atlantic City.

Mrs. H. W. Baker and daughter, Pauline, visited Mrs. Howard Slemmer, Frederick, on Monday.

Misses Grace Rowe, Elizabeth Hoke, Lucy Higbee, Mae Rowe, Sarana White and Mary Smith, spent Monday in Frederick.

Thomas Frailey, Mr. and Mrs. Carson Frailey and son, Wm. Frailey, all of Washington, spent their vacation with their parents, Mr. and Mrs. Oscar Frailey.

Leo Cadori and two sons, of Pittsburg, were week-end guests of Mr. and Mrs. Clarence Frailey.

DETOUR.

Mr. and Mrs. Edward Few, of Byron, Ill., Mr. and Mrs. Guy F. Woodcock, of Rockford, Ill., and Mrs. Sarah Fox, Rocky Ridge, visited at the home of Mr. and Mrs. Wm. D. Schildt and family, on Tuesday. Mr. Few is a brother of Mrs. Wm. Schildt and Mrs. John Lawrence, and this being only his second trip east in 43 years, needless to say they were delighted to see him.

Guests at the home of Mr. and Mrs. Geo. Albaugh are: Mr. and Mrs. Jno. Albaugh, Dayton, Ohio, and Mrs. Ethel Barberdale, of Lima, Ohio.

Mr. and Mrs. E. Lee Erb, Mrs. Frances Rinehart, of here, and Barbara Edwards, of Westminster, spent the week-end with friends in Phila., Pa.

Dr. Marlin Shorb, Baltimore, is spending his vacation with his home folks, Mr. and Mrs. F. J. Shorb, and enjoying the squirrel hunting season.

Miss Thelma Smith is spending some time with her sister, Margaret and husband, in Detroit, Mich.

Miss Cleo Myers spent a few days with her cousin, Mildred DeBerry.

Miss Ada Yoder, of Baltimore, is spending some time at the home of Mr. and Mrs. E. L. Warner, while Mr. and Mrs. Warner are away on a vacation, to Newport News, Yorktown, and other points of interest in Va.

KEYSVILLE.

Chas. Fuss spent the week-end with C. R. Clutz and family.

Mr. and Mrs. Harry Fleagle spent Sunday with T. C. Fox and family.

Michael Ross, Eugene Ross and Mrs. Carmel Ross, spent Saturday evening and Sunday with Upton Austin and family.

Miss Nelda Bailey and William Yohn, spent Sunday with C. R. Clutz and family.

Mr. and Mrs. John Herr and daughter, Fern; Mr. and Mrs. Alfred Cramer, daughter, Jean and son, Jack, Columbia City, Ind., are spending a few days with Carl Haines, wife and family.

Wilbur Hahn and wife, of Hanover, and Roy Baumgardner and wife, motored to Annapolis, on Sunday.

The Keysville school opened on Monday with Miss Ester Crouse as teacher.

Mrs. Ralph Fox, of Pittsburgh, is spending some time with Byron Stull, wife and family.

C. E., this Sunday evening, at 7:30 o'clock. Luther Clabaugh as leader

Marriage Licenses.

Thomas W. Lang and Myrtle E. Miller, Hampstead.

Charles H. Quickel and Florence I. Melhorn, Dover, Pa.

George A. Robenstein and Treva Feeser, Hanover, Pa.

Joseph Dulancy Manger and Louise Encleman, Westminster.

William Ernest Klohr and Gladys Sigler, Baltimore.

Harry Rowe and Margaret E. Selby New Windsor.

Russell William Leister and Gladys M. Myers, Westminster.

Albert C. Braull and Miraim M. Smith, Belair.

Chas. W. Fuller and Mary E. Berkeheimer, York.

DIED.

Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

MR. JOHN HARNER.

Mr. John Harner died at his home at Littlestown on Thursday afternoon at 3:30 o'clock from a complication of diseases, aged 75 years. He was a son of the late William and Elizabeth Harner.

He is survived by his wife, who was Miss Lydia Ann Trostle before marriage, and eleven children as follows: George W. Harner, near Emmitsburg; Mrs. William Martin, of Emmitsburg; James W. Harner, Taneytown; Mrs. Ivan Riley, near Littlestown; Mrs. Harvey Rentzel, near Gettysburg; Mrs. Harry Rentzel, of Littlestown; Mrs. Luther Harner and John Harner, Taneytown; Miss Rose M. Harner, at home; Harry Harner, Littlestown, and Charles Harner, Barlow, Pa.; twenty grand-children, two great-grand-children; one brother, William Harner, Rocky Ridge; and four sisters, Mrs. Elizabeth Livingood, Sinking Spring, Pa.; Mrs. Geo. Null, Greenmount, Pa.; Mrs. Oliver Luckenbaugh, Gettysburg, and Mrs. William Fissell, Harney, Md.

The deceased was a life-long member of the Mt. Joy Lutheran Church, Barlow, Adams Co. The funeral will be held Sunday, with brief services at the house at 12:30 P. M., and further services at Mt. Joy Lutheran Church, Barlow, with Rev. L. K. Young, pastor of the church, officiating. Interment will be made in the cemetery adjoining the church.

MR. HARRY A. ALLISON.

Mr. Harry A. Allison, prominent citizen and business man of Taneytown, died at his home on Fairview Ave., Sunday evening shortly before 6:00 o'clock. Mr. Allison had been in ill-health for several years, but most of the time was actively engaged in his business. During the past few months his condition became rapidly worse, and for the past few weeks it was known that his condition was hopeless.

Mr. Allison had been engaged in the heating and plumbing contracting business on a large scale, for about twenty years, the firm name now being Allison & Harner. He was a public spirited citizen in many ways, as well as a good business man, and found time from his main business to engage in numerous other activities.

He was a member of the Board of Borough Commissioners, vice-president of the Carroll County Fair Association, and was at various times a member of the Council of Trinity Lutheran Church.

He was a son of the late Mr. and Mrs. Johnathan Allison. He is survived by his wife, who was Miss Anna M. Null before marriage, and by two sisters, Mrs. J. W. Witheron and Miss Minnie M. Allison, of Taneytown.

Funeral services were held Wednesday morning at the home, conducted by his pastor, Rev. A. T. Sutcliffe, assisted by Rev. W. G. Minnick, of Baltimore. Interment in the Lutheran cemetery, Taneytown, the bearers being members of the Fair Association and town Commissioners.

CARD OF THANKS.

I wish to extend my sincere thanks to all who so kindly assisted in any way during the illness and after the death of my dear husband, and also for the beautiful floral tributes and use of altars.

MRS. ANNA M. ALLISON.

RESOLUTIONS OF RESPECT.

Whereas, It has pleased Almighty God in His infinite wisdom to call into himself our friend and co-worker Mr. Harry A. Allison, and

Whereas, Mr. Allison has been a faithful and conscientious member of this board for a number of years, always giving helpful advice and exerting his best efforts in behalf of the community he served so well. Therefore be it Resolved, That we bow in humble submission to him who doeth all things well, and be it

Resolved, That in the departure of our friend we have lost a faithful and diligent member and friend, and have been deprived of his timely advice, and be it further Resolved, That copies of these resolutions be sent to his widow, published in the Carroll Record, and spread upon the minutes of this board.

By Order of Burgees & Commissioners, M. C. DUTTERA, Burgess, CLAUDIUS H. LONG, NORVILLE P. SHOEMAKER, WILLIAM D. OHLER, DAVID H. HAHN, Commissioners.

CLYDE L. HESSON, Clerk.

Fleagle Family Reunion.

The fifth annual reunion of the descendants of John and Margaret Fleagle was held on the grounds of Meadow Branch Church, Carroll Co., west of Westminster, on Labor Day, Sept. 2, 1929.

The meeting of those many friends and relatives was, once more, a joyous occasion. The grove rang with the animated voices of friends happily talking and introducing their families, and the chatter and play of the children. Among the groups assembled, were found members of five generations. The oldest one present was Mr. Benjamin Fleagle, of Colonial Park, Baltimore, 87 years, the youngest one, Arline Bankard, 5 1/2 months, child of Mr. and Mrs. Paul Bankard, of Westminster.

After greetings were said, all gathered in the basement room for lunch. Here, was afterward, held the business meeting, which was opened by a song service led by Mrs. Harry Fleagle, whose portable organ added much to the singing. A prayer by Mr. Grant Shoemaker followed. Mr. B. E. Fleagle presiding for the president; Mrs. Annie Powers, called attention to changes which had taken place in the various families during the past year. Among those mentioned were the deaths of Mrs. Sam'l Repp and a brother of Mrs. Emma Reed, for which grief and deep sympathy were expressed.

The minutes were read by the secretary, Miss Cassandra Hesson. Bits of history of the Fleagle family, as found in records of the sale of farm lands near Westminster, and a poem, significant of our family tree were read by Mr. Elmer Fleagle.

Then followed the resignations of former officers, which were accepted, and a vote of thanks taken for their faithful services. The following officers were elected for the next year: Pres., Harry Fleagle; Historian, Elmer Fleagle; Sec., Miss Janette Fleagle; Chm. of entertainment Committee, Mrs. Harry Fleagle.

While the collection was being taken, the company was entertained by several solo selections, sung by H. Q. Miller, Jr. After it was decided that the reunion shall be held next year on Labor Day, 1930, at the same place, the meeting was closed by the singing of several hymns.

Those present were: Mr. and Mrs. Benjamin Fleagle, Sr., Mr. and Mrs. B. E. Fleagle, Jr., Mary C., Robert and Margaret Jane; Mr. and Mrs. Harry Fleagle; Mr. and Mrs. Chas. M. Shrinier; P. W. Fowler and Fannie E. Fowler; Mr. and Mrs. George Jolly; Oscar Baker and Curtis L. Baker; Mrs. Annie A. Powers; Mrs. R. H. Fury; Archie C. Fleagle and Mrs. Archie Fleagle; Mrs. Susan Fleagle, Mae Harper, Mr. and Mrs. Benj. S. Reighter, Miss Sallie Heltibrude, Mrs. Sallie Harbaugh, Mr. and Mrs. Chas. Myers, Gordon P. Myers, Blanche E. Myers, Miss Janette Fleagle, Mr. and Mrs. Harry Reed, Charlotte Reed, Mrs. S. Charlotte Myers, Mr. and Mrs. Walter E. Lutebecher, Robert E. Lutebecher and Mr. and Mrs. E. Carroll Murphy, of Baltimore; Mr. and Mrs. Carl A. T. Sone, Harniene Soine, Phyllis Soine and Carl W. Soine, of Towson; Mr. and Mrs. J. E. Fleagle, James L. Miriam, Benjamin, Vivian and Richard, of Reisterstown; Mrs. Reva Fleagle Kennedy, Leo F. Reightle and Paul Sloan, of Washington, D. C.; Mr. and Mrs. C. W. Jones Carol, Ruth Emma and Jimmie Jones of Woodlawn, Md.; Caroline A. M. Diller and Anna C. Diller, of Philadelphia, Pa.; Mr. and Mrs. Wm. Moore, Mr. and Mrs. Raymond C. Moore, Kathleen, Edwin, Carlos and Theodore, of York, Pa.; Chas. Staub, John D. Grushon, Ralph Grushon, Rose Grushon, Julia Burns, Oneida Grushon and Thomas Motter, of Emmitsburg, Md.; John W. Fream and Effie M. Fream, of Harney; Mr. and Mrs. L. A. Kohr, Dr. M. M. Fleagle and Dr. G. Roberta Fleagle, of Hanover; Mr. and Mrs. J. C. Wailes, of Sykesville; John A. Fleagle and Mary Fleagle, of Bridgeport, Md.; E. Grant Shoemaker, Mr. and Mrs. W. W. Shoemaker, Elizabeth, Kathryn and Wm. Sheeley, of Waynesboro, Pa.; Obedia Fleagle, Samuel Repp, Miss Margaret Repp, Bailey Fleagle, and Mrs. Rosella Fleagle, of Uniontown, Md.; Mr. and Mrs. W. H. Cover and Miss Cassandra Hesson, of Thurmont, Md.; Mr. and Mrs. Theo. Starner, Mr. and Mrs. Wm. Davis, Miss Irma Davis, Morticia Fleagle, Miss Portia Fleagle, Mr. and Mrs. Benj. J. Fleagle, and daughters, Mary R. and Gloria J., Mr. and Mrs. Walter Selby and John Selby of Union Bridge, Md.; S. Frank Fleagle, Harry R. West, Wm. E. Harper, R. I. Beck, Mrs. Marie Beck, Robert and James E. Beck, John C. Stonesifer, Mrs. Nettie Stonesifer, Mr. and Mrs. Paul Bankard, Arline Bankard, Grove Bankard and Donald Bankard, of Westminster; Jennie Clingan, Denine Rodgers, Mr. and Mrs. Edward H.

Estate of Edwin H. Sharetts, deceased. On application, it is ordered, this 20th day of August, 1929, that the sale of Real Estate of Edwin H. Sharetts, late of Carroll County, deceased, made by William E. Ritter and Upton F. Mehring, Executors of the last Will and Testament of said deceased, and this day reported to this Court by the said Executors, be ratified and confirmed unless cause be shown to the contrary, on or before the 5th. Monday, 26th. day of September, next; provided a copy of this order be inserted for three successive weeks in some newspaper printed and published in Carroll County before the 4th. Monday, 22nd. day of September, next.

The report states the amount of sale to be \$6,731.55.

**CHARLES S. MARKER, J. WEBSTER EBAUGH, LEWIS E. GREEN,** Judges.

True Copy Test: **WILLIAM F. BRICKER,** Register of Wills for Carroll County 8-23-4t

**PATTERSON-PORTER REUNION.**

The first reunion of the Patterson-Porter families was held on Saturday, Aug. 31, 1929, at the old Patterson homestead, located two miles north of the road extending from Taneytown to Emmitsburg, and now owned by Mr. Claudius Long. The various descendants of these families assembled at the home of Mr. and Mrs. Claudius H. Long, Taneytown, at 1:30 P. M., and went from there to the Patterson home.

The meeting was held in the meadow near the house under an historic oak tree where some pictures were taken. There an interesting program was rendered. The welcome consisted of a brief address and song, the former by Mrs. Alice Patterson Galt, and the latter by Miss Jane Patterson Long, the great-granddaughter of William and Eleanor (Porter) Patterson. Then there was a unanimous vote in favor of having another reunion on the last Saturday in August 1930. The following officers were elected: Pres., Mrs. Alice Galt; Vice-Pres., Mrs. Bruce Long; Sec., Miss Jane Long; Historian, Mrs. Harrietta Melick.

Letters of regret from some who were unable to be present, were read. The history of the Patterson-Porter families was given by Miss Ella Gillelan, as follows:

**Patterson Family.** William and Margaret Patterson, natives of the county of Armagh, Ireland, came to this country with their only son, Nathaniel, who is buried beside them in the graveyard of Piney Creek Presbyterian Church, located between Taneytown and Harney, Carroll County. They settled in Delaware, near the Chester County line in Penna.

In 1756 they removed to Frederick County, Md., where the old brick house which they built, is still standing. They died in 1768 and 1770. Six generations of their descendants are buried around them.

**Porter Family.** John, the first American Porter, was born in 1590 at Kenilworth, Warwickshire, England, and came to America in the ship "Anna" arriving at Dorchester, Mass., May 30th, 1627, only seven years later than the Pilgrim band who came to America in the "Mayflower" in 1620.

A number of the Porter family are buried in the graveyard at Tom's Creek Presbyterian Church, north of Emmitsburg. The church was destroyed by fire many years ago. Among those who are buried there are William and Sarah (Piercel) Porter, parents of Eleanor (Porter) Patterson, who erected a stone to their memory as indicated by the inscription thereon.

Eleanor, youngest daughter of Wm. and Sarah (Piercel) Porter, was born March 22, 1777, married Sept. 19, 1797 to William Wood Patterson, who was born July 4th, 1776. They were Presbyterians of the strictest type.

The original deed of the old Patterson homestead was read by Claudius Long. One of the interesting features of the occasion was the showing of old family pictures, especially the group picture of the six daughters and three sons of William and Eleanor (Porter) Patterson. These small pictures were all taken late in their lives, and were assembled and mounted on a large card by Mrs. Alice Galt to whom the success of the reunion was largely due, as she has known these aunts and cousins for three generations.

A unique circumstance about the reunion was the presence of two members of the Johnson family, who have a separate and direct line through both Patterson and Porter families, the two great-grand mothers, Eleanor (Porter) Patterson and Alice Porter Fleming being sisters. After a bountiful lunch they were shown through the ancestral home from which four rooms have been taken. The names of those registered as being present are as follows:

Wood Patterson Johnson, Norfolk, Va.; Mrs. Howard (Johnson) Melick, M. Neal Melick, Mrs. Alice Patterson Cox, Mr. John A. Cox, Mrs. Ellen Patterson Ourand, all of Washington, D. C.; James Johnson and Mrs. Nina Crapster Wright, Philadelphia, Pa.; Mrs. Anna Porter Smeltzer, Silver Springs, Md.; Mrs. John Johnson Crapster, Mrs. Elizabeth Crapster Waltersdorf, John Morris Waltersdorf, Jr., all of Washington, Pa.; Mrs. Alice Patterson Galt, Keymar; Miss Ella Gillelan, Gettysburg, Pa.; Mrs. William Woods Crapster, Mrs. Bruce Neely Long, Claudius H. Long, Miss Jane Patterson Long, Mrs. Ellen Long Crapster, Basil Walter Crapster, Basil Long Crapster, Wirt Patterson Crapster, Mrs. Helen Reindollar Crapster, John O'Neal Crapster, John Walter Crapster, Lewis Reindollar Crapster, Neal Patterson Crapster, Alice Dorsey Crapster, all of Taneytown.

**State of Maryland STATE ROADS COMMISSION**

**NOTICE TO CONTRACTORS**

**SEALED PROPOSALS** for building one section of State Highway, as follows: Carroll County. Contract Cl-79. One section of State Highway along the Lineboro Road from the end of Contract Cl-82 to the Pennsylvania Line, a distance of 10 mile. (Concrete.)

will be received by the State Roads Commission, at its offices, 601 Garrett Building, Baltimore, Maryland, until 12 M. on the 17th. day of September, 1929, at which time and place they will be publicly opened and read.

Bids must be made upon the blank proposal form which, with specifications and plans will be furnished by the Commission upon application and cash payment of \$1.00, as hereafter no bids will be permitted.

No bids will be received unless accompanied by a certified check for the sum of Five Hundred (\$500.00) Dollars, payable to the State Roads Commission.

The successful bidder will be required to give bond, and comply with the Acts of the General Assembly of Maryland, respecting contracts. The Commission reserves the right to reject any and all bids. By order of the State Roads Commission this 31st. day of August, 1929,

**G. CLINTON UHL,** Chairman. **L. H. STEUART,** Secretary. 9-6-2t

**A Birthday Surprise.**  
(For the Record).  
A birthday surprise party was held at the home of Mr. and Mrs. William Weishaar, in honor of Mrs. Weishaar's birthday, on Tuesday evening, Sept. 2.

Those present were: Mr. and Mrs. Wm. Weishaar, Mr. and Mrs. Upton Dayhoff, Mr. and Mrs. Newton Hahn, Mr. and Mrs. Preston Smith, Mr. and Mrs. Edward Winters, Mr. and Mrs. Wm. Davis, Mr. and Mrs. Walter Selby, Mr. and Mrs. Tolbert Shorb, Mr. and Mrs. Walter Smith, Mr. and Mrs. Jacob Anders, Mr. and Mrs. Theodore Starner, Mr. and Mrs. Paul Bankard, Mr. and Mrs. Edward Clingan, Mr. and Mrs. Isaiah Reifsnider, Mr. and Mrs. Jerry Clingan, Mr. and Mrs. Lewis Reifsnider, Herbert Winters, James Weishaar; Misses Ethel Shorb, Grace, Catherine and Marion Hahn, Grace, Velma and Gladys Smith, Ethel Clingan, Anna Harman, Mae Smith, Thelma Smith, Dorothy and Laurabelle Dayhoff, Ethel Lescalet, Mary Bowers, Fannie Houck, Helen Smith, Nadine Clingan, Arlene Bankard, Grace and Clara Weishaar, Erma Davis, Messrs George and Carroll Hahn, Glen, Earl and Kenneth Hawk, John Selby, Grover Bankard, Tolbert Stonesifer, Robert Smith, Irvin and Elmer Ohler, Norman Miller, Donald, Raymond and Samuel Clingan, Jr., Scott L. Smith, Richard Glen and Roger Reifsnider, Glen Dayhoff, George Smith, Donald Bankard, Loy Davis, Levern Clingan, Eddie and Willie Weishaar.

# The SANDMAN STORY

## FORGETFUL MAGGIE

"OH, DEAR, oh, dear, oh, dear," said Maggie, "whatever will I do, I've lost my stocking and I'm getting dressed to go to the party. 'It's one of my best stockings, too. Dear me, where can it be?' 'Where could that stocking go?' She looked and she looked and she looked. She pulled out her bureau drawers, she pulled out things from her shelves.

Looked Everywhere and Kept Calling Out to Everyone.

She looked under chairs, under the bed, behind chairs, behind the bed. She looked everywhere, and she kept calling out to everyone. "Please look for my stocking. Can anyone find my stocking?" Then she began calling out: "I'll give a penny to anyone who finds my stocking." Quite often Maggie did offer a reward like that, for she thought it made people look for her things a little harder, and she was apt to lose her things. Not for long, of course, but she had put them somewhere else than remembered. For instance, if she said to herself: "Now, I'll remember and put my piece of candy to eat after lunch on the mantelpiece instead of on the side-

board, for I'll be going into the living room right after dinner," then she would be sure to be looking for it on the sideboard and would be saying: "But I'm sure it must be on the sideboard, for I thought it would be so much better to have it in the room where I was finishing my dinner." So Maggie offered a penny reward for the stocking. It was true they did hunt for her things more when she offered a reward. It was hard on Maggie's allowance to have to offer so many rewards, but then she was always taking up everyone's time in looking for things! But the stocking, all by itself, back of the washstand where Maggie hadn't looked, where it had fallen when Maggie had left them there when she had got up in the morning—so they'd be all ready for the party, was quite sad and felt quite absurd. "She found the other stocking which was right on the washstand and she didn't look for me," the stocking objected.

"Or maybe she didn't even know that she had picked the other stocking up from the washstand. 'But how can she say that I'm lost? I didn't run away. I'm right here. I can't go anywhere without a leg to take me. 'I couldn't help falling. I haven't been anywhere, and I don't intend to go anywhere. 'Dear me, dear me, I wish I could be found.' And then, Maggie somehow remembered the stocking she had on had been on the washstand and she remembered about it. She looked back of the washstand for the other stocking and there it was. How glad she was. And she didn't have to give a reward, either. She was indeed fortunate, and the stocking was so glad to go to the party and not to lie, limp and useless, back of the washstand. It was so true, the stocking kept thinking, how little it could do unless it was worn. (Copyright.)

## How It Started

By JEAN NEWTON

### A "KNIGHT OF THE ROAD"

IT MAY exhilarate the tramp who rides surreptitiously in the baggage car and solicits pie at the kitchen doors to realize that in the name "Knight of the Road" with which we have humorously dubbed him, he is descended from the aristocracy of old. In the same spirit in which we today call the vagrant a "Knight of the Road" the term was applied in the old stagecoach days to the bold highwayman who took toll from travelers whom he regarded as his legitimate prey. Because of occasional acts of kindness to his victims, or chivalrous action to women among them, these characters took hold on popular imagination and romantic stories were woven around them like the famous old English legends of the delightful outlaw, Robin Hood. The original "Knight of the Road" however, takes us back still further to no sham gentry, but to the true and literal knighthood of Europe during and subsequent to the Crusades. Our modern phrase had its beginning with their "Knight Errant," "errant" meaning to wander, being derived from the old French error, "to travel." He was the wandering knight who, after the objective of the Crusades had been removed, traveled through France and Spain in search of adventure, of a mission, of work for his lance. (Copyright.)

"People who know what makes the wheels go round sometimes find out what stops them."

## THE WHY of SUPERSTITIONS

By H. IRVING KING

### ONIONS

THE superstition of "folk-medicine" all over the United States assigns medical virtues to onions which, therapeutically, they do not possess. The superstitions vary in different sections but all ascribe great power over disease to the onion. In some parts of New England it is said that if you hang a row of onions over a door the house will be guarded against the entry of any disease which might be brought into it by a visitor. As the visitor crosses the threshold the onions over the door "draw" any infectious or contagious disease which he may have out of him into themselves. Therefore you must on no account eat onions which have been hung over a door. The onion superstition comes down to us from the Egyptians by way of the Latins. The Italians sometimes carry an onion in their pockets as a protection against the evil eye which, according to an old Neapolitan writer, is very effective because "the devil respects the onion, the ancients having adored it equally with himself." By "the ancients" he evidently means the Egyptians with whom the onion was a sacred plant—a sort of vegetable god, powerful to protect if properly propitiated. The string of onions over the New England doorway would make a citizen of Thebes in the reign of Rameses feel quite at home. (© by McClure Newspaper Syndicate.)

### Horse Central Feature of Gypsy Divorce Case

The sacrifice of a horse was the central feature of a Scottish gypsy divorce 100 years ago. The animal was taken into the room of the woman concerned, and if it proved docile that was taken as an indication that her behavior had not been very bad. If, on the other hand, the horse became violent she was considered to have been extremely vicious. Then the husband and wife would walk around the horse in contrary directions, and finally part, walking north and south, never again to meet. The husband afterward at the horse's heart at a solemn feast, and from time to time visited the grave to see that it had not been disturbed, and to mourn over it. It was said that there were occasions when the woman as well as the horse was sacrificed.

### Still Hope

Our generation has seen the first halting steps toward the abolition of war and more good influences are at work in this direction than ever before.—The American Magazine.

### Not Free

Health is not a gift of the gods, but is an individual struggle.—Woman's Home Companion.

## Alaska May Be Dubbed

### Original Ellis Island

It is now evident that America was originally peopled by immigrants from Asia and it is probable that Alaska was the first scene of human history on this continent. Edward M. Weyer described at New Haven the relics yielded by prehistoric villages discovered during his explorations in Alaska. "The American continents are younger with regard to human occupation than the Eastern hemisphere," according to Weyer. "The very first immigrants to them, the forerunners of the American Indians, doubtless came from Asia. Thus Alaska, which lies much closer to Asia than any other part of America, probably was the gateway through which passed these early Asiatic immigrants.

"The northwestern corner of North America, therefore, can be regarded as the first scene of human history in America. No aborigines of Arctic America, so far as is known, ever used a written language. Consequently the mute relics of material culture are the only source of historical information here. Nevertheless the buried prehistoric villages of Alaska yield secrets to the archeologist."—Pathfinder Magazine.

## Famous Carnac Stones

### Puzzles to Scientists

The Stones of Carnac in Brittany are one of the wonders of the age. Nobody knows when they were erected, or why. Nowhere throughout Europe can there be seen such perplexing evidence of an early race combining the most primitive simplicity with indications of a profound knowledge. Vast alignments of huge stones attract the eye, headed or terminated by circles or dolmens (table stones commonly called cromlechs) extending at intervals as far as seven miles to Locmariaquer and bulging out in all directions to Erdeven, St. Barbe, Kermario, Kerlescan and the Quiberon. Interspersed among these are tumuli, menhirs, tolmen (holed stones) and engraved stones.

To the casual visitor they are remnants of stone worship, burying places or records of conquered foes and victories past. Their strange markings are exactly similar to the thumb marks of the human hand, but done on a large scale and with wonderful accuracy. The height of the Egyptian columns and obelisks is almost exactly the same. What relation has Carnac with Egypt?

### Camels in Australia

Many camels are used in Australia as beasts of burden. For instance, from Wyndham in northwestern Australia the cattle stations are served by camel trains which carry supplies for hundreds of miles into the interior. "The camels are driven by Afghans," says the National Geographic society. "Camel teams are familiar sights in the streets of the little township, hauling in the great wagonloads of firewood from the outlying district. The first camels were brought to Australia for the use of the early explorers. Later a fine type of dromedary was imported for domestic purposes."

### LIFE'S LITTLE JESTS

#### IN FOR A "CAREER"

Her Dad—So you are going to marry that washout just because he is such a good-looking chap, eh?  
Daughter—Well, why shouldn't a woman pick something easy on the eyes as well as a man?

Her Dad—No law against it, but I hope you make a success of your boarding house, for you can't bring him back here for me to support.

#### Diplomacy

Judge O'Flaherty—Haven't you been before me before?

Prisoner—No, yr honor; O' niver saw but wan face that looked loike yours, an' that was a photograph of an Irish king.

Judge O'Flaherty—Discharged! Call th' nixt case.

#### THE EX-COOK

"Robinson's wife leaves him regularly every three or four months."  
"Isn't that what should be expected of an ex-cook?"

## WHERE PROPER DIET IS SUPERLATIVE

THE new fifteen story addition to the Sanitarium at Battle Creek, Mich., is a superlatively modern hotel which is really not a hotel at all, but a sanitarium, a place to rest. The impressive colonnade which extends the full length of the front is of the architecture of the Italian Renaissance, the gold studded ceiling within Florentine. But undoubtedly the superlative thing about the Battle Creek Sanitarium is its food service. Not only is its spaciousness and physical beauty superlative, but the food which is served is unique. Diet is to the Battle Creek Sanitarium what eyes are to a man who wants to see. It helps in a cure, it MAKES a cure when the patient is suffering from some sort of gastric disturbance.

### Delicious Canned or Fresh Foods

No meats are served on the Sanitarium tables. No coffee, tea, condiments, are ever served. The Sanitarium has its own truck farm, dairy farm, and chicken farm. Canned and fresh vegetables are served in most appetizing fashion; canned and fresh fruits are presented in all sorts of salads. There is a delicious combination of lettuce, cottage cheese and canned pears, which because of the cottage cheese offers a large percentage of protein. There is also a canned pineapple salad served with lettuce and a special creamy type of mayonnaise which makes a guest want to come back for more. And these salads are properly served. The pear and pineapple are ice cold, and the lettuce is crisp. On the menu are always tender

delicious stringless beans, an excellent grade of canned, yellow bantam corn, and the very best pack of canned tomatoes, which by their beautiful red color show that they were the very ripest of fruit when they were picked for canning. There is also in season every fresh vegetable. High protein foods are represented by delicious nut and cereal foods, which according to the dietary system of Battle Creek are much better for human consumption than meats. The air in the dining room is changed every fifteen minutes during the meal by being forced through a water tank which is heated in winter and cooled in summer. The dining room seats six hundred, and though the Sanitarium carries a daily average of 750 patients, there is more than ample seating capacity, since not all of the patients are able to be in the dining room.

Going through the enormous kitchens and storage rooms for food, one is impressed by the fact that every equipment is of the most modern, the walls are tiled and the equipment is of monel metal, an alloy of nickel and copper, which is of great tensile strength, and which resists tarnishing by air. In one room there are three large tanks in which dairy products are kept ice cold. One is for sweet milk, one for acidophilus milk, and the other for cream. There are monel shelves, in which electric wires have been run, and on which eggs may be poached. There are many store-rooms in which vegetables, heads of lettuce are kept in a state of cold freshness, and there is a room in which are stored shelves and shelves

of canned foods. Here one finds a store of cans of stringless beans, of peas, corn, tomatoes, and the rows and rows of canned fruits, which include peaches, pears, pineapple, berries of many different kinds. For the diabetic diets, and for other dietetic purposes, there are fruits canned without sugar and vegetables canned without salt.

### Specially Canned Fruits

The fruits include apricots, figs, blackberries, cherries, grapefruit, peaches, pears, pineapple, raspberries, strawberries. The vegetables include beans, peas, tomatoes and spinach. The very finest of fresh vegetables are served from the Sanitarium's own truck gardens, and the very finest brands of canned foods are purchased in the open market.

At each place is a special menu, marked for the particular requirements of the patient, so that during his stay the patient knows that he is getting the proper amount of proteins, carbohydrates, all the essentials, in fact, of a balanced diet. For the interested guest also the protein, fat and carbohydrate content of each food is designated on the menu, so that even though he orders what he likes, he may keep track of the amount of different food constituents which he consumes. It is an instructive experience to be a guest at the Sanitarium, since one learns a great deal about the mysteries of diet, and one has, in one's memory a place of superlative service and equipment worthy of remembrance if ever the time comes when such service, diet and attention seem immediately necessary.\*

### Sauerkraut Traced to Asiatic Wild Tribes

Sauerkraut, once an alien in this country, has been completely naturalized and adopted by the nation, as evidenced by the fact that the figures show that during the last year this nation made and consumed 18,000,000 gallons of sauerkraut. This represents a valuation of \$3,500,000. It is no longer looked upon as a dietary of a foreign land. While the Germans are given the credit of originating sauerkraut, the charge is not well founded. There is evidence that it has been made in Holland and in Alsace from early times. One writer traces it to Asia, showing how the Tartars first passed on a sauerkraut recipe to the Slavic peoples of eastern Europe, who in their turn gave it to the ancient Germans. From Germany, it is conceded, the delicacy was brought here by immigrants, who as they increased in numbers spread its popularity as a food.

### Anaconda Largest and Most Vicious of Boas

The largest snake in modern times is the anaconda, an aquatic boa, living in the swamps and rivers of the dense forest of South America. It is of a general olive-brown color, with two alternating rows of large oval black spots down its back. It is white with black spots underneath. The anaconda lives in the water, but often climbs into the trees. It feeds on birds and mammals and does most of its hunting at night. Its method is to lie submerged under the water with just its head exposed, watching for prey, or to establish itself in the branches of some tree over water, or the track of game. As it belongs to the boa family, it coils around its victim, crushing it to a pulp before devouring it. It is the most ill-tempered of large boas.

### Regulating Climate

Just as in winter one opens his window to let in the cold air when the room is too warm, a Washington meteorologist suggests using the ice of the polar regions to regulate the earth's climate. This may be done by having international expeditions sail to the Arctic and Antarctic and blast huge chunks of ice from the glaciers. This would let more icebergs into the oceans and would considerably moderate the heat of summer. Those icebergs which are naturally found in the North Atlantic have a beneficial effect on the climate of Europe, among other things preventing droughts. Similarly, Antarctic icebergs are of benefit to Australia.

### Lightning Freak

One of the strangest of the many fantastic tricks lightning flashes play is the "fulgurite," which is sometimes found on the sands of a beach. It is a tube of a glassy substance, projecting above the ground like a stump of a bush. Beneath the sand it is often several feet long with many branches and twists, much like a root. It is caused by a direct stroke of lightning, the tremendous heat of which fuses the wet sand into a hollow glass tube. Another odd prank of lightning was the bolt which tore the clothes from a man's back without killing him. His perspiration apparently had been instantly transformed into steam by the mighty electric current. The miniature explosion blew off his clothing.

### Explaining Seasons' Names

There is some doubt as to how the names of the seasons originated. Spring is from the Anglo-Saxon "spring," meaning "a source of water, a spring, a rising or leap," probably in reference to the coming out of young shoots at this time of the year. Summer is from the Sanskrit "sama," meaning "year." Autumn is from the Latin "autumnus"—perhaps connected with "augere," past participle "auctus," meaning "increase," autumn being the season of produce. Winter is from the Gothic "wintris"; probably originally it meant the "snowy time."

### Hot Springs National Park

In 1832 the Hot Springs and four sections of land surrounding them were set aside by act of congress, thus making the first national park reservation. In 1921 the name was changed from Hot Springs reservation to Hot Springs National park. It contains 924 acres and includes Hot Springs mountain, North mountain, West mountain, Sugar Loaf mountain and Whittington Lake park. The springs are grouped about the base of Hot Springs mountain, and their aggregate flow is 851,308 gallons a day.

### Music in the Ant Hill

Perhaps it requires a stretch of the imagination to picture an ant playing the violin. Yet certain varieties of the tiny creatures come close to doing that very thing. Nor do they have to manufacture the music-producing instrument. Nature has provided them with a finely-edged lute fastened to the abdomen and a plectrum, or sounding board, so conveniently placed that by rasping the surface the ants can produce exceedingly delicate and high-pitched musical notes.

### Phoenician Dental Art

#### Preserved in the Louvre

The first false teeth, as far as known today, were worn by a woman of Sidon in Phoenicia about 300 B. C., according to Dr. Roy L. Moodie, of Santa Monica, Calif. The Phoenician woman's jaw, with the false teeth, is now preserved in the Louvre, in Paris. The two right incisors are represented by artificial teeth, held in place and bound to each other by gold wire. The wire has been drawn through careful perforations in the artificial teeth. Although the Egyptians pioneered in treatment of many diseased conditions of the body, this sort of dental replacement apparently was never devised by Egyptian physicians. Thousands of mummies, representing 7,000 years of life in Egypt, have been examined, but no clear evidence of such repair work has ever been found. It appears that we not only owe our alphabet and numerous geographic discoveries to the restless, inquiring minds of the Phoenicians, Doctor Moodie points out, but also we are indebted to them for this entrance into prosthetics, which is a particularly valuable field of dentistry.

### Historic American Castle

Romance, war and ghostly legend hang over Bacon's castle, whose huge diamond-shaped chimneys are landmarks for miles around the eastern edge of Surrey county, in Virginia. One of the oldest buildings in the state, built in 1655, it is marvelously preserved. Because of the castle's proximity to Jamestown, and since it was in the track of the rebels led by Nathaniel Bacon, Capt. Lawrence Baker was forced to flee from the castle during Bacon's rebellion of 1675-76. The castle was seized by young Bacon's followers and fortified, and since that time has borne the name, Bacon's castle.

### Guard Against Icebergs

The international ice patrol was organized on an international basis as a result of the international conference for the safety of life at sea, in London, 1913. It resulted from a universal demand for a protection of steamships against icebergs in the North Atlantic area after the loss of the Titanic, in April, 1912. The United States was asked to undertake the management of this service, and agreed to send two vessels to patrol the danger area during iceberg season, March 1 to July 1. Each of the contracting parties consented to bear a share of the cost in proportion to its shipping tonnage.

Moody Bible Institute of Chicago.)  
(©, 1929, Western Newspaper Union.)

### Lesson for September 8

#### NEHEMIAH REBUILDING THE WALL OF JERUSALEM

**GOLDEN TEXT**—The people had a mind to work.  
**LESSON TEXT**—Nehemiah 2:1-7:4.  
**PRIMARY TOPIC**—Working Together.

**JUNIOR TOPIC**—Working Together.  
**INTERMEDIATE AND SENIOR TOPIC**—Teamwork.  
**YOUNG PEOPLE AND ADULT TOPIC**—Co-operation in Religious Work.

In order to prepare to teach this lesson the teacher should master the contents of the book of Nehemiah.

Nehemiah was a cupbearer to the Persian king. While performing his official duty he learned of the distress of his brethren in Jerusalem. The walls of the city were broken down, its gates burnt, and the remnant of the captives were in great affliction. This news brought by his brethren greatly moved Nehemiah. He sat down and wept and mourned several days, fasting and praying before God. In answer to his prayer he was granted a leave of absence from the Persian court, and credentials from the king. He journeyed to Jerusalem and made a survey of the city by night without disclosing his purpose to anyone. Having thus obtained first-hand information, he called the representatives of the Jews together and said, "Let us build the walls of Jerusalem."

1. Preparation for the Building (chap. 3).

The division of labor in this project displayed Nehemiah's administrative ability. A wise distribution of labor makes difficult tasks easy. Observe some outstanding features of this great work:

1. Stress laid upon indifference (v. 5).

In administrative tasks it is proper that unfaithfulness should be pointed out as a warning to the unfaithful and encouragement to the faithful.

2. Help rendered by the women (v. 12).

Perhaps Shallah had no sons to aid him.

3. Stress laid upon earnestness of some (v. 20).

Recognition of fidelity will spur one to faithfulness.

4. Every one built over against his own house (vv. 10, 23, 28).

No incentive for exertion is quite so strong as that which concerns one's own family.

5. Certain guilds of men undertook certain work (vv. 8, 31, 32).

11. Hindrances Encountered (4:1-6:14).

1. Scoffing of Sanballat and Tobiah (4:1-6, cf. 2:19, 20).

The oppressors of God's servants frequently begin by hurling ridicule.

2. Conspiracy for a sudden attack (4:7-9).

When the enemy saw that the work was actually succeeding they changed from ridicule to an attempt to throw the workmen into a panic.

3. Conspiracy with the Jews (4:10-23).

They sought to hinder by inducing the Jews who were outside to discourage their brethren by the claim that the task was hopeless and that they were liable to sudden and secret attack.

4. Greed and oppression of the rich (5:1-13).

The Jews of that day, like the profiteers of our day, took advantage of the poor and oppressed them, so that they mortgaged their land and even sold their daughters into slavery.

5. Scheme to take Nehemiah's life (6:1-14).

When Sanballat and Tobiah failed in every other way they sought by craft to get Nehemiah away, that they might kill him.

III. The Wall Completed (6:15-7:4).

So energetically did they pursue their tasks that in fifty-two days the wall was completed. We may learn from this:

1. That though God's children are beset by enemies, they should not fear.

2. That when beset by enemies, they should pray (4:9).

Their faith was accompanied by wise precaution.

(a) They set a watch (4:9).

(b) Men were permitted to be with their families (4:13), and would thus fight better.

(c) Half worked and half watched, all armed for battle.

(d) They worked with sword in one hand (4:17).

(e) They slept in their clothes in readiness (4:23).

Prayer and faith are not slothful or inactive.

#### A Picture by Plato

Plato pictured the soul under the figure of a many-headed monster, a lion and a man, combined in one form. The man represented the higher nature, the reason; the lion the passionate element; and the many-headed monster the lusts and appetites. The picture is as true today as when first presented. The lion and many-headed monster exists in every person. It can only be changed by the love of the Christ, by which the lion is made to be as a lamb.

## FIERCEST FIGHTERS AT LAST CONQUERED

### Yaquis of Mexico Finally Accept Fate.

Mexico City.—Mexico's fiercest warriors, the Yaquis, have at last agreed to be commanded by non-Yaqui leaders. For 400 years—300 under Spanish rule, 100 under Mexican—the Yaquis maintained their independence, refusing to be conquered. Beaten at the end by the government, with their country in ruins, they now go one step further in becoming Mexicanized by their acceptance of a "foreign" commander.

Four hundred Yaqui soldiers are at Port Perote, a mountain near Orizaba, in the state of Vera Cruz. This is the group which for the first time in history has submitted to have a non-Indian leader. The war office's announcement of a change in the organization of this Yaqui force was regarded as signifying the disappearance of Yaquis as separate units. Hereafter they will be part of the army. Colonel Enrique Morfin Figueroa has been assigned to the group under the new arrangement.

**Manzo Conqueror of Yaquis.**  
The actual conqueror of the Yaquis was Gen. Francisco Manzo, one of the leaders of the present rebellion who recently crossed the United States border at Nogales to escape falling into federal hands. The Manzo campaign against the Yaquis, undertaken three years ago, was organized with 13,000 troops and equipment which included nine airplanes.

At that time the Yaquis controlled a region extending 100 miles north of Guaymas, in Sonora, and which included some of the best lands in the republic. The stretch under Yaqui ownership extended along the Yaqui river valley in a district larger than the Imperial valley of California and with water resources three times as great as those of the Imperial valley. Today the only Yaqui country left in Yaqui power is in the Bacatete mountains. But the power is small. All the warriors are gone or killed. Women and children and old men predominate in the last citadel.

As in the present revolution, the rebel Indians in Yaquiland lost their fight partly through the government's use of the most modern arm of war—the airplane. The nine planes that Manzo had on his front flew constantly over Yaqui territory bombing and spreading terror. The federal planes drove the inhabitants of Bacatete, the capital, into the mountains and finally destroyed it.

**Planes Aided in Conquest.**  
Ammunition ran low after the war had raged incessantly for many months, the plane raids continued unceasingly, and finally, cut off from the world and beleaguered from the air, the Yaquis surrendered. Their surrender, however, was conditional. They agreed to take service in the Mexican army provided their own chief, General Ignacio Mori, should be permitted to continue as their head.

Their liberty curtailed by the rigid discipline of the army, the Yaquis were not always good soldiers, although their valor in fighting was unquestioned. The group at Perote was for this reason perhaps little better off than prisoners.

The Yaquis still preserve their ancient language and customs. Although they are Christians, in common with other Indian tribes of Mexico, they have mixed the symbols of Catholicism with the signs of the old gods.

While the Mexican government had to all but exterminate them in order to pacify them, it seems likely that the Yaqui fighting tradition which has existed for 400 years will continue in Mexican memory at least for a long time to come.

#### All Wild Beasts Not Ruthless in Slaughter

No animal can approach the cheetah, or "hunting leopard," in speed over a short distance. The most agile antelopes of India and Africa fall victims to the cheetah.

The leopard kills for the pleasure of killing. It will enter a sheepfold and kill every living thing. In a leopard country no dog is safe.

Lions rarely become man-eaters. The reason lies partly in the boldness of the African natives, particularly the Masai, who pursue to the death any lion that dares kill one of their sheep or goats.

The lion, once most numerous in India, has almost completely disappeared, the few remaining being carefully preserved. Why they have disappeared, where once so numerous, is one of nature's mysteries.

The lion kills to live and when well filled isn't so fearful among the wild. The tiger, on the contrary, is ruthless in its slaughter, treacherous, and the dread of its fellow creatures of the wild.—Kansas City Times.

#### Whistler Didn't Hold Job

James McNeill Whistler, famous artist, once was a draftsman in the United States coast and geodetic survey, but he could not hold a job. The painter and etcher insisted on decorating the maps and charts assigned to him to make, with pretty little drawings scattered along the margins. Because of this and the fact that he insisted on doing all his drafting in his own way, Whistler did not remain long in the service of the United States government.

#### Use for Caution

Through all their years of married life he never uttered a word.  
One busy word towards his wife:  
"Four chap—be stuffered."

#### Big Polar Problem

"I suppose there are many problems which Polar explorers seek to solve," said the unscientific man.

"Yes," replied the traveler, "a great many."

"What is the most important one?" "Getting back."

#### Find Throws New Light on Geology of Asia

Thirty dinosaurs, complete, were found in Mongolia's waste places, by Dr. Sven Hedin, the famous explorer.

He declares that owing to the geological stratum in which the dinosaurs were found, the discovery fills a gap of millions of years in the knowledge of geological development in Asia. Included in the find were three infant dinosaurs fresh from the egg, about 2 3/4 inches long, all lying nestled close to their mother, and searching a higher stratum the expedition has found a dinosaur egg.

This is the first time dinosaurs from the Jurassic period have been discovered in Asia. The discovery is highly significant, as it affords knowledge of geologic development in Asia covering millions of years, about which we have hitherto been ignorant. Doctor Hedin's expedition included 60 Europeans, mostly Swedish, German, or Dutch. To reach the Urunchi headquarters the expedition traversed the Gobi desert with 300 camels.

#### Lover's Good Qualities Had Been Well Tested

The maid had been hinting that she did not think much of service, and this, in conjunction with the nightly appearance of a rather sheepish-looking young man, caused her mistress some apprehension.

"Martha, is it possible you are thinking of getting married?" said her mistress.

"Yes, ma'am," admitted Martha.

"Not to that young fellow who has been calling on you lately?"

"Yes, ma'am, he's the one."

"But you've only known him a few days."

"Three weeks come Thursday," corrected Martha.

"Do you think that is long enough to know a man before taking such an important step?"

"Well," answered Martha, "it isn't as if he was some new fellow. He's well recommended. A girl I know was engaged to him for quite a long time."—London Tit-Bits.

#### Literary Gems in Heap

When the late Sir Edmund Gosse, whose valuable collection of English plays of the Restoration period was so well known among scholars, once was searching the shelves of a Soho bookshop he found a stack of old plays, of which the bookseller was anxious to get rid.

"There were," said Gosse, "treasures lying in that ignominious heap, and if I had only had in my pocket what a single one of those plays would fetch today, I might have got off laden with spoil. There were things lying there which, in all the 50 years since, I have never cast my eyes on again. I emptied my poor purse, however, to its utmost penny."—Detroit News.

#### Grasshopper as Food

According to the bureau of American ethnology, grasshoppers played an important part in the diet of many American Indian tribes, especially on the Pacific coast and in the arid regions of the West. Even the Pawnees, during the grasshopper season, would dig a hole in the prairie and then start a fire around it at a distance of several hundred yards. The grasshoppers could be scooped from the hole by the bushel.

Locusts, which are a kind of grasshopper, are still widely used for food and considered a delicacy in many countries. They daily appear in the markets of Arabia, Syria, Egypt and Madagascar.—Pathfinder Magazine.

#### Gigantic Statuary

The measurements of the Sphinx are: Height of head from bottom of chin to forehead, 19 feet; horizontal diameter on level of forehead, 23 feet; circumference at level of forehead, 72 feet; horizontal diameter near broadest part of headgear, 29 feet; height of neck, 5 feet; horizontal diameter, 22 feet; circumference of neck, 69 feet; total height of monument, according to Mariette Bey, 65 feet; ear, 6 feet 15 inches; nose, 5 feet 10 inches; mouth, 7 feet 8 inches; face in widest part across the cheek, 13 feet; whole length of body, 140 feet; outstretched paws, 50 feet.

#### Where Turpin Tarried

On the Great North road, in England, stands a very ancient and historical inn, known as the "Eight Bells," and this inn is the cause of much disturbance amongst the local inhabitants because of the likelihood of its being closed down. This old inn has many interesting historical facts attached to it, and, amongst others, Dick Turpin is said to have made frequent calls at the "Eight Bells" during his famous rides between London and York. Another famous writer, according to local report, was Bill Sikes.

#### Whistler Didn't Hold Job

James McNeill Whistler, famous artist, once was a draftsman in the United States coast and geodetic survey, but he could not hold a job. The painter and etcher insisted on decorating the maps and charts assigned to him to make, with pretty little drawings scattered along the margins. Because of this and the fact that he insisted on doing all his drafting in his own way, Whistler did not remain long in the service of the United States government.

#### Ancient Surgical Tools Like Those Now in Use

Surgeons of 2,000 years ago used instruments similar in shape to those of today. This was shown by probes and forceps uncovered in the buried city of Pompeii, and recently exhibited in London. The large number of probes in comparison to other instruments of the collection suggests that cutting was a large part of surgical work before the year 79, when the eruption of Vesuvius buried the city.

While the shapes of the instruments in some cases are almost identical with those of the modern surgical tools, their steel is less flexible. The absence of saws from the collection indicates amputations were rarely attempted, largely because of lack of knowledge about circulation of the blood, says Popular Science Monthly.

Surgery is known to have been practiced at an early date. When Alexander the Great invaded lands east of the Mediterranean in 300 B. C., he found it being practiced by the natives with great skill. There is evidence that surgery was in use in Egypt as early as 5,000 or 6,000 B. C.

#### Famous Painting

Gainsborough's picture, "The Blue Boy," is a portrait of Jonathan Butts, son of a rich London merchant, and it was painted in 1770. Blue and brown predominate. According to tradition, Gainsborough painted it to confute the dictum of Sir Joshua Reynolds in his eighth "Discourse," in which he said in part: "It ought to be indispensably observed that the masses of light in a picture be always of a warm mellow color, yellow, red or a yellowish white, and that the blue, the gray or the green colors be kept almost entirely out of these masses and be used only to support or set off these warm colors. . . . Let the light be cold and the surrounding color warm, as we often see in the works of the Roman and Florentine painters, and it will be out of the power of art, even in the hands of Rubens and Titian, to make a picture splendid and harmonious."

#### Indian Tribes Shifted

From 1817 to 1840, the great southern tribes of Indians were removed to the Indian territory from Georgia, Alabama, Florida and Mississippi. These tribes were the Cherokee, Choctaws, Chickasaws, Creeks and Seminoles. These Indians held slaves and during the Civil war all of these tribes joined the Confederacy. They were compelled by the treaties of 1836 to cede to the United States much of their western lands upon which they had established no settlements, as a home for friendly Indians of other tribes.

#### The Fall of Man

The sermon had been about the Fall of Man. Two farmers met at the end of the service.

"Weel, Davit," asked Tammas, "and what did ye think of the sermon?"

"Oh, Davit replied, 'the sermon was a'richt, but I was just thinkin' what a difference it wad hae made to the history of the world if I'd been in Adam's place. Ye see, I dinna gie a hang for apples.'—Birmingham (England) Weekly Post.

#### Speechless

Little Bobby attended a military function at Culver, where guards in full regalia were standing about. His curiosity led him into attempted conversation with one of them, who, however, made no reply, but stood properly at attention, gazing at nothing under his hat with the military chin-strap. Finally Bobby, discouraged, remarked, "I dess he tant talk wiv dat sing under his chin!"—Indianapolis News.

#### Deposit of Travertin Uncovered in Florida

An industry that flourished 2,000 years ago, and which continues to produce great wealth for Italy, is undergoing development in the United States. Extensive deposits of travertin in Manatee county, Florida, have furnished a new and unexpected source of supply.

It was travertin that the Romans used in the Coliseum and other structures of ancient times which stand today in whole or in part. Wherever destruction has taken place it was the hand of man and not the elements that destroyed. In later centuries Italy's travertin quarries continued to supply stone for some of the great monuments of Rome, notably St. Peter's and other large churches. The medieval builders knew the beauty and wearing qualities of travertin no less than did the ancients. But travertin was a material used only in Italy and to a limited degree in the rest of Europe until the era of our great buildings began.—New York Times.

#### Marvelous Number of Nerve Cells in Brain

The piece of machinery which operates more like the brain than any other is the automatic telephone. The televox is more spectacular, but its work is limited. In the operation of the automatic telephone the selection is made in the same way—by a series of number signals rung, in succession, by a small contact point behind the telephone dial as it turns. But instead of the hundred separate signal combinations that the televox can understand, the telephone system has place for nearly ten billions.

Yet even this vast sum the human brain exceeds. The number of living nerve cells in the surface gray matter of the brain is more than 9,000,000,000. If it be assumed that these can be connected to one another in the same fashion as telephone subscribers agree is probably something like what happens during thinking—the number of possible interconnections would be about 90,000,000,000,000,000,000.

#### Proud of Mission Fathers' Work

The first settlement of California is attributed to Father Junipero Serra, who founded the mission of San Diego de Alcalá. For the next 13 years he traveled on foot north and south over a distance of 600 miles, establishing and fostering missions and preaching to the natives. During those 13 years he founded nine missions, which were afterward expanded to 22 by his successors. The history of California began with—and for more than half a century was the history of—these missions, of their founding and operations. About a century ago, however, they began to decline in power and influence, but they are still regarded with reverence by the Californians, as a part of the history of their state and of its foundation. Some of these missions are now in ruins, but others are in good repair, and still open for service.

#### Umbrella Held Danger

The earliest English writer to mention umbrellas regarded them with suspicion. In the Seventeenth century a British traveler, having returned from Italy, wrote:

"In hot regions, to avoid the beams of the sunne in some places (as in Italy) they carry umbrells, or things like a little canopy, over their heads; but a learned physician told me that the use of them was dangerous, because they gather the heat into a pyramidal point, and thence cast it down perpendicularly upon the head, except they know how to carry them."—Diderot.

#### United States Takes High Rank in Healing

At the beginning of the Nineteenth century, according to Doctor Osler, there were only three medical schools in the United States and only two general hospitals. Students who desired a better education than they could receive locally were forced to go abroad.

There were only a few medical journals in circulation in this country and almost no American medical books had been published. Around the middle of the century, many new medical schools were founded, but their standards were low and the education they gave was poor.

The reformation started in Harvard shortly after President Elliot assumed office in 1869 and quickly spread to the other medical schools of the country, stirring them all to new life and activity. We have now eighty medical schools, 4,322 general hospitals, and a medical literature so rich and voluminous as to be embarrassing.—Bessie Bunzel in the Century Magazine.

#### Resent Employment of "English" for "British"

The extreme sensitiveness of the Scotch and Welsh about the use of the word "English" as a general adjective for the inhabitants of this island is well known, writes the London correspondent of the San Francisco Chronicle. Speakers in the house of commons are continually being heckled on the subject. They must say (at least so the members from north of the Clyde insist) "British," and not "English." This has led to many plaints that the word "English" or "Englishman" can hope for a good reception anywhere in the world except in Westminster.

So sensitive are the Scots generally at being left out in this way that there is a story that once, during the World war, some Scottish soldiers who broke into the Hindenburg line were indignant to find the notice "Gott Strafe England" posted in an abandoned dugout. They immediately crossed out the last word and substituted "Britain."

#### Early Paper Money

Marco Polo, returning to Venice late in the Thirteenth century from his travels in strange countries and on unknown seas, told among other wonders how the Great Cham in far Cathay caused paper money to be made from the bark of the mulberry tree, "some of the value of a small penny, tournois; and others of the value of a Venetian silver groat; others of the value of two groats, others of five."

The Chinese had been making this paper money since the Sixth century. At first a game was played with the little paper bank notes themselves. Later, cards in the form of the paper money were made, using the old money symbols, a coin, a string of coins, myriad strings of coins, and tens of myriads of strings of coins, which are the basis of the suits today.—Boston Transcript.

#### To the Bitter End

Probably, few persons visualize a ship in distress when some one says that he will remain "to the bitter end." Those versed in sea lore, however, think of a ship scudding under bare poles (being blown along by the wind, although all sails are furled) and rapidly approaching a rock-bound coast.

As a last measure to save destruction the anchors are dropped. Since all depends on the stability of the anchors, every fathom of cable is let out, so that the pull will be more nearly horizontal than vertical, and the anchors will not tend to be pulled up. The cable is fastened to great posts built into the ship, called "bits," hence the anchor, when let out to the greatest extent of the cable, is said to be "paid out to the bitter end."

#### Earliest Savings Banks

It was in 1789 that Rev. Joseph Smith of Wrentham, England, began taking care of the savings of his parishioners throughout the summer and Christmas, adding a third to the total of each deposit. A few years later Rev. Henry Duncan of Scotland began traveling throughout the land to promote the establishment of savings banks for the poor. The first institution of the sort in America was organized in 1816, chiefly by Condy Raguet, an American diplomat and economic writer.

#### Many Books on Weather

The weather bureau at Washington has in the course of its existence accumulated a library of more than 47,000 books all relating to the weather. This library is frequently resorted to for the purpose of answering the thousands of questions which are constantly being received. The department endeavors to answer all such inquiries but sometimes finds itself stumped for it appears that there is a great deal that is not known about the weather.

#### How Perfectly Awful!

"The average blue law," says a writer in the Vancouver Impact, "is usually the result of the impact upon a minority mass psychology of an urge to sacrifice inherent in a truly vivid and full nature that has been warped by centuries of damatory teachings originally induced by material poverty."

I had no idea it was as bad as that!—Detroit News.

## Frigidaire with the "Cold Control"

freezes  
desserts better  
... makes  
ice quicker...  
keeps foods  
fresher... longer

The Frigidaire "Cold Control" has introduced a new standard in electric refrigeration. It is as important as a gas regulator on an oven. It gives you, at will, faster freezing of ice, salads and desserts. Every household Frigidaire is now equipped with the Frigidaire "Cold Control"... without added cost to the buyer. And it is found only on Frigidaire.

Let us help you win in big \$25,000 contest  
Write a letter on food preservation and win a model home, a Cadillac car or one of many other valuable awards offered by the National Food Preservation Council. Get complete information here today.

50° is the safety point for perishable foods

E. M. FROUNFELTER, Associate Dealer  
Liberty Street  
WESTMINSTER, MD.

## TANEYTOWN LOCALS

Items of news from town, or vicinity are always wanted for this column. Especially accidents, sales of real estate, fires, important happenings, visits to or from the community social events, and all matters of general interest to those at home, and away from home.

Jos. B. Elliot installed a new furnace in Mrs. N. B. Hagan's house, this week.

Mr. and Mrs. Charles O. Hesson have returned to Baltimore, after spending some time with their parents.

Mr. and Mrs. Chester Jones and two children and Mrs. Wm. Jones, of Miami, Florida, spent Monday with Mr. and Mrs. Harry Mohney.

Miss Margaret Birnie, of Washington, D. C., with her aunt and uncle Col. and Mrs. C. Smith, visited at Miss Amelia Birnie's, on Friday.

Dr. and Mrs. F. T. Elliot had as last week-end guests, Mrs. B. T. Carson, Mr. and Mrs. G. E. Baker and son, Carson, of Connellsville, Pa.

A delightful surprise social was given at the home of John M. Baumgardner, Sept. 2nd., in honor of Chas. O. Hesson. Thirty guests were present.

Miss Virginia Ott entertained a number of friends at a porch party, on Thursday evening in honor of her guest, Miss Martha Fogle, of Westminster.

The Willing Workers Society of the Reformed Church was entertained on Monday evening at the home of Mrs. Edgar Sauerwein. Refreshments were served.

A post-card received by the Editor from Mrs. Anna Cunningham, was dated at Luzeren, Switzerland. The Cunningham family is enjoying a fine European trip.

Mrs. Mary Crapster, Mrs. Elizabeth Waltersdorf, Mrs. Anna Smeltzer, Mrs. Ellen Ourand, Mrs. Nina Wright and Mr. and Mrs. John Cox, visited the Crapster families here, this week.

As we fully expected, our bargain paper offer is being generally accepted, and the first pads made up sold out in a day. However we have a big new lot made up, and can now supply all comers. We sold 50-lbs. to one customer.

Carolyn and Edna Trone, Hanover, Pa., spent the week-end with Ethel and Charlotte Hilterbrick, near Taneytown. Mr. and Mrs. Nelson Miller, Mt. Union, Pa.; Mr. Joseph Weishaar, Fairfield, Pa., spent Monday at the same place.

Rev. Dr. George Scholl, the father of Mrs. James Cattanaach, who died last Friday, was buried in Loudon Park cemetery, Baltimore, on Monday. Dr. Scholl was a former Secretary of the Board of Foreign Missions of the United Lutheran Church. He frequently visited Taneytown while his daughter, Mrs. Cattanaach, was the mistress of the Presbyterian Manse.

The airplane that circled over Taneytown several times on Wednesday morning, carried as pilot Albert LeFevre, son of Frank T. LeFevre and W. Wallace Reindollar as passenger. The trip was from Gettysburg via Emmitsburg. Mr. LeFevre is demonstrating the plane throughout the East in company with the owner, Mr. Burr, of Alliance, Ohio. It is known as "The Arga" 7 cylinder, 115 horse power.

Two field fires occurred on Tuesday of this week. At Edward P. Myers' farm, near Greenville, several acres were burned over, and Wm. Kramer's buildings were in great danger; and at the LeGore farm, Piney Creek, along the P. R. R., quite a large portion of the farm was burned over and some buildings were endangered there. This fire was started by a passing freight train.

Hickman W. Snider, near town, unloaded a lot of sheep for feeding purposes, on Wednesday. After taking them home and while putting bells on some of them, a young man who was helping found the animal he was handling to be too strong to hold, the result being that in the struggle Mr. Snider's right arm and hand were caught against a stone wall, and one of the bones of the arm was broken off close to the wrist. Dr. Elliot was called and mended the break.

Mr. and Mrs. Wm. M. Ohler and daughter, Carolyn, and Mr. and Mrs. Ralph Conover, have returned home, after spending several days on an auto trip through the Shenandoah Valley of Virginia, stopping at Winchester, Staunton, Lexington, Natural Bridge, Lynchburg and Richmond, where they visited the capitol and other historical places, returning by Fredericksburg and Washington. They also visited the Pohick Church, near Alexandria, where George Washington attended.

Miss Marie Little returned to St. Joseph's College, Emmitsburg, to complete her four-year course, on Wednesday.

Mr. and Mrs. Carroll Baumgardner and daughter, near Emmitsburg, spent Sunday evening with Mr. and Mrs. M. T. Brown, near town.

Clotworthy Birnie and Miss Eliza Birnie, of Washington are spending some time with Mrs. G. H. Birnie and daughter, Miss Eleanor.

Mr. and Mrs. Chas. Hilterbrick and Mr. and Mrs. John Stambaugh, returned home after visiting relatives and friends, at West Salem, Ohio.

Miss Gady's Ewing, of Pittsburgh, Pa., spent last week with Mr. and Mrs. C. B. Mohney. Mr. Mohney who has been ill continues about the same.

The Taneytown baseball team lost to Woodsboro, on Wednesday, at Woodsboro, the score being 5 to 4, and the game a good one as the score indicates.

The Sunday School class of Mrs. G. A. Brown, of the U. B. Church, will hold a cake and candy sale, on Saturday, Sept. 7, in front of C. G. Bowers' store.

Mr. and Mrs. David Little and family, spent Sunday with Mr. and Mrs. George Henry, of Hanover. Mr. and Mrs. Chas. Fishel, were visitors at the same place.

Charles B. Kephart and family, Taneytown, are having as their guests, this week-end, Major Calvin Kephart and family, of Washington, and Arlington County, Va.

Mrs. Estella Koons and daughter, Betty, of Detroit, Mich., have returned home after spending two weeks with Mr. and Mrs. J. A. Koons and other relatives near town.

Mr. and Mrs. Thomas Weaver, daughter, Mary, of Littlestown, and Mr. and Mrs. Chas. Weaver, of McSherrystown, were recent visitors at Mr. and Mrs. Chas. Kuhns.

September started in to increase personal discomfort, as well as the drouth situation, by giving us 92° heat on the 1st.; 94° on the 2nd., 96° on the 3rd., and 91° on the 4th.

Mr. and Mrs. — Gilmore and son, Howard, of Steelton, Pa., spent Sunday with Tobias Hockensmith and family. Miss Margaret Shreeve accompanied them to Steelton to resume her school duties.

Mrs. Sarah Albaugh, of town, and Mr. and Mrs. Clarence Abaugh, near town, attended the funeral of the former's brother-in-law, Mr. Isaac I. Albaugh, at Ladiesburg, on Saturday. Interment in Haugh's cemetery.

Mr. and Mrs. D. J. Hesson entertained at dinner on Sunday: Mr. and Mrs. Charles Hesson, Baltimore; Mr. and Mrs. Doty Robb, Derry, Pa.; Mr. and Mrs. Clyde L. Hesson and Mr. and Mrs. John Baumgardner, of town.

Jacob Witmer, of Elizabethtown, Pa.; Mr. and Mrs. Peter Witmer and daughter, Miss Ruth, of near Marietta, Pa., and Miss Blanche Brubaker, near Petersburg, Pa., spent Friday afternoon with Mrs. Jesse Myers and family.

Alexis B. Blanchard and son, of New York City, arrived here on Wednesday evening for a brief stay at Glen Burn, their homestead, and also to inspect a handsome white marble tomb stone erected in St. Joseph's cemetery to the memory of Mrs. Blanchard who died July 28, 1929.

Mr. and Mrs. John Aulhouse and children, Robert and Annabelle, of Altoona, Pa.; Mr. and Mrs. Ralph Aulhouse, of Hanover; Mr. and Mrs. Samuel Aulhouse and daughters, Edna and Martha, son Paul, of Littlestown, Pa., spent Wednesday evening with Mrs. J. A. Anders and family.

Mrs. Sarah Albaugh entertained at supper on Wednesday: Mr. and Mrs. Theodore Bittner, of Myersdale, Pa.; Mr. and Mrs. Geo. Albaugh, Mrs. Harvey Albaugh, Misses Hazel and Bertha Albaugh, of New Midway; Mrs. Ethel Jaberdiel, of Lima, Ohio, and Mrs. John Albaugh, of Dayton, Ohio.

The second annual outing of the Taneytown Fire Co., was held on the Fair grounds, on Labor Day, Sept. 2. There were 37 members present, and the amusements, horseshoe pitching and baseball, were enjoyed by all, and good eats, in plenty, were served. R. S. McKinney was toastmaster, and a number of the firemen made addresses.

(Rev.) Paul E. Hyser, son of Mr. and Mrs. Ervin Hyser formerly of near Taneytown, who claims to be an evangelist, and who, with his wife, has been something of a floater for quite a while, mainly in the neighborhood of Hanover and Carroll county, was arrested last Friday by Sheriff Fowble on a worthless check charge, and lodged in jail until given a hearing before Justice Benson.

Mrs. Margaret Bankard is visiting Mrs. Carroll Hess.

Miss Florence Boston, of Frederick, is visiting Miss Lulu Brower, this week.

Rev. and Mrs. W. O. Ibach and son, Clarence, of Salona, Pa., visited Mr. and Mrs. George L. Harner, last week.

Mrs. Charles Boston and son, Alton, spent from Sunday until Wednesday with Dr. and Mrs. Wilbur Mehring, at Silver Springs, Md.

Mrs. Minnie Lerley, of Passaic, New Jersey, accompanied by her two sons, spent the week-end in town visiting her father, J. Albert Angell.

Miss Helen Boston, a graduate at Mercy Hospital, is spending a two weeks' vacation at her home. She expects to return to Baltimore and take up nursing.

Walter Smith, tenant on the R. H. Alexander farm, lost his left hand on Thursday forenoon, while feeding a fodder shredder. These machines are very useful on a farm, but they have taken off many a hand.

Mr. and Mrs. James Semerteen, Mr. Jesse Semerteen and daughters, of Gordon Heights, Wilmington, Del., and Mr. and Mrs. Robert Pierce, of Moores, Pa., were guests of Mr. and Mrs. Carroll Hess, over Labor Day.

Mrs. Fraser James, Mrs. Bessie Jennings, Mr. Fraser James, Jr. and Mr. Graham Torrill, of Spartanburg, S. Carolina, who have been motoring in New-England, spent Thursday at the home of Miss Amelia Birnie, en route home.

Owing to the heavy rain the supper at Piney Creek Presbyterian Church, was not served on Thursday. The weather being favorable it will be served Friday, Sept. 6th.; if unfavorable, in the Firemen's Building, Taneytown.

The fine rain of Thursday—the first worthwhile rainfall since May 29—would have been worth many more thousands of dollars to Carroll County six weeks ago; but it is very thankfully received now for the good it will yet do. And many more of the same kind are still needed.

### Miller Family Reunion.

The third annual reunion of the late William H. Miller family will be held Sept. 22, at the home of Edward H. Miller. All members of this family are requested to attend and bring basket lunch.

### CARD OF THANKS.

We desire to thank all those who came to help fight the field fire, on ours and adjoining farms. The Taneytown Fire Company having been called, but was at another fire. Your quick response to the call for help was greatly appreciated.

E. P. MYERS.

### CARD OF THANKS.

Mr. and Mrs. George R. Sauble extend their hearty thanks to all Firemen, and others, who helped in any way during the fire at their place on Thursday.

## NOTICE

This is to inform the public that I will continue the Heating and Plumbing Business heretofore conducted by Allison & Harner, and all accounts due the said firm are payable to me.

GEORGE L. HARNER.
