TANEYTOWN, MARYLAND, FRIDAY, JANUARY 10, 1930.

FAHRNEY MEMORIAL HOME

Brief History given by Board of Managers.

Impressive services were held at the Fahrney Memorial Home for the Aged Christmas morning. Children of the Peter Gray Orphanage, under the direction of John Wishard superintendent of the Sunday School, and W. Walter Esmer superintendent of the Washington County Home for Orphan and Friendless Children, participated in the services. The management of the home and

guests extend thanks to all who contributed to the day's enjoyment. Those who contributed to the dinner include the following firms and in-dividuals: Hershey Creamery, Hag-erstown Grocery Company, Roessner erstown Grocery Company, Roessner Brothers, Westminster Sunday School, Mr. and Mrs. George Slay-baugh, Mrs. Van C Beachley, F. E. Baldwin, D. Ramacciotti, John Tay-lor and John L. Rowland. A brief history of the home should interest everyone in Washington Co.

and surrounding territory.

In 1903 representatives of the Church of the Brethren in Washingof the ton and Frederick counties and adjacent territories, formed a corporation to receive and hold, as a gift from the late Dr. Peter Fahrney of Chica-go, his country home, "San Mar" for the purpose of establishing a home for the aged. The home was soon filled and others waited for admittance

Three large additions including a chapel were added at various times, by contributions from churches and others, until at present it is large enough to care for 50 guests, who together with Superintendent, Matron and help, total in number about 60 persons. It is indeed a happy refuge for a contented family. There is never a time when there is not a considerable waiting list of applicants for admission.

Though many problems were en-countered, the Home is now in splendid financial condition with land, buildings and equipment valued at \$80,000 and \$18,000 in bank. The cash consists almost entirely of annuities and life support deposits. Endow-ments are needed, presenting an un-usual opportunity for anyone inclined to generosity to minister to the worthy poor of all creeds and faiths. The First National Bank of Hagerstown has recently been appointed trustee to hold and invest all endowment, annuity, and life support funds. This surrounds the sacred trusts with

This surrounds the sacred trusts with all necessary protection. The outstanding' accomplishment of Mr. Beachley is the water supply system. It was mainly through his efforts that a never failing spring was purchased in the Blue Ridge Mountains, two miles distant, and a pipe line laid, which supplies both our Home and the Peter Gray Ornhanage Home and the Peter Gray Orphanage directly across the highway, with the finest quality of pure water. The sup-ply is adequate for all purposes including fire protection.

I do not undertake to say who will win the Democratic primary. Only the primary can decide that. But I do undertake to say this, that the the offering help should write for the Weybright, president, Detour, Mary-land; The First National Bank, Ha-gerstown, Maryland, or A. M. Horst, secretary, Hagerstown, Md.—Hagers-town Mail.

REV. CHARLES W. HESS Rounds Out 28 Years Continuous Service at Brunswick.

The following sketch of the work of Rev. Chas. W. Hess, a former Tan-eytown boy, in his charge at Bruns-wick, Md., as published in the last issue of the Blade-Times, of Bruns-wick, will be of interest to many of

our readers: Announcement is made again of the Third Leadership Training School to be held in Taneytown under the "Today, January 2, 1930, is the 28th anniversary of the pastorate of Rev. Charles W. Hess, pastor of Bethany Lutheran Church, which record disauspices of the Taneytown District Council of Religious Education and tinguishes him as the oldest Bruns-wick minister-not in age or in the the Carroll County Council. The school will begin on Thursday eve-ning, Jan. 16, and continue each Thursday and Friday evening until point of service rendered, perhaps, in that profession, but his record of 28-years as pastor of a Brunswick con-January 31. There will be six sesgregation eclipses all others, and the sions of two hours each, and those successfully completing the work in one of the subjects will be given a unit of credit toward a Leadership Training Diploma. The courses are attractive especially to Sunday School toechers and to those who event to record his Church has attained in the community and in the church govern-ing bodies of that denomination, under his guidance and leadership might well be envied. Rev. Hess is too well-known by far teachers and to those who expect to become teachers in the Sunday

to need any introduction here, and through his activities and duties as a minister as well as his keen interest in all things designed to raise the so-cial standard of the community, and his support of movements for the community betterment, he has made many friends not only among those of his faith, but in the community at

At the time Rev. Hess took over the pastorate of the local congregation, on January 2, 1902, services were conducted in the original church building, located on what was then Second Street, which was used until 1903 when it was sold. The cornerstone of the present structure was laid on August 14, of the following year, and was dedicated July 15, 1905. In the summer of 1916 a parsonage was erected on the church lot, facing First Avenue. Rev. Hess has seen the membership grow from about 60 in 1902 to more than 300 at the present time. In addition to this, the Sunday School enrollment now is more than 350.

For many years Bethany Lutheran Church has been on the honor roll of the Maryland Synod, and has main-tained its place with the apportion-ment paid in full for 1929. The work of an able and active

The work of an able and active Mite Society and the Luther League, the latter organized in January 1928 have played no small part in the progress and growth of the Church. We congratulate Rev. Hess upon his long period of successful service in our midst and upon his achieve-

ments in the past as reflected by the progress and growth of the Church during his pastorate, and also upon his activities for the well-being of the town and community of which he has long been a part." (To the above, The Carroll Record wishes to add its personal congratu-

lations.)

DAIRY IMPROVEMENT.

1929 has been a banner year along dairy lines. There has been progress in all phases of the industry. The three dairy organizations have mark-eted one and one-half millions of gallons more milk this year than last. The membership in the 4-H Club work has almost doubled and the number of calves been greatly increased. New barns, new silos and new dairy houses have gone up in all dairy sec-tions of the State. In addition a large number of old barns have been

Baltimore is preparing in a big way for a big annual automobile show. It is particularly fortunate in its show date, January 18th. to 25th. It follows immediately after the New York Show and for this reason Balti-more is enabled to exhibit many of the identical show cars direct from the New York floor.

The twenty-fourth annual Balti-more show will open its doors to the public at 2 o'clock on Saturday, Jan. 18th., in the Fifth Regiment Armory building, and will continue through-out the following week, closing on

the evening of January 26th. What the automobile show means to the business and industrial interests of Maryland as well as the country at large, is seen from the attitude of attentiveness with which the automobile industry is being favored. The monte function is being favored. The manufacturers of the country are waiting for the motor car exhibits to sound the "go ahead" signal. The automobile interests are the best customers of dozens of other great in-dustries and one of the largest buyers of railroad freight transportation not to mention the tremendous pur-chases of steel, plate glass, fabrics, rubber and other commodities necessary to motor car production. The annual payrolls of automobile indus-try and the industries it benefits, by large purchases of their wares, runs well into the billion of dollars and ef-fects people in every walk of life. Thousands will attend the Balti-

more Automobile Show. A glimpse of the armory's interior will evidence the strides made by the automobile manufacturers. In all price classes it will be seen that the factories have out-done themselves to present new and more beautiful cars than have heretofore been constructed. And this, notwithstanding the fact that some authorities are continually proclaiming the ultimate in automobile building has been attained.

"INSIDE" INFORMATION FOR WOMEN.

Milk should be strained in the milk room, never in the barn.

In making Boston brown bread be sure to steam it for about 3½ hours in well-buttered molds before baking

it to dry out the top. Clean milk put into a sterile con-tainer and packed in ice will remain

tainer and packed in ice will remain sweet for weeks. On the other hand milk which is not cooled and kept cool may sour in a few hours. A combination of salt and sugar and saltpeter makes a good "cure" for pork. Salt used alone is apt to make the meat rather harsh - and dry, but the sugar mellows the cure and improves the flavor of the meat. A good grade of dairy salt or table A good grade of dairy salt, or table

CARROLL COUNTY SOCIETY Baltimore, Will hold Eleventh Annual Dinner.

The eleventh annual dinner of the The eleventh annual dinner of the Carroll County Society, of Baltimore, will be held on Saturday night, Jan. 18th., at 7 o'clock at the Lord Balti-more Hotel. There will be dancing of course. Mr. Worthington Holliday traveller and lecturer, will deliver a travel talk. He was former military ottache to Purgin and Light Col. in attache to Russia, and Lieut. Col. United States Army. Mr. John Ad-dison Englar, noted baritone singer, accompanied by Mrs. George M. White and Mrs. Robert Chambers, will entertain the guests with vocal and instrumental music.

The committee has arranged a sur-prise feature of the program that will be announced later. All Carroll countians, living anywhere, and their friends, are invited to this annual af-fair. You see old friends at this dinner that you have not seen for years. Parlors G. H. I. and J. on Mezzanine floor. Many people now living in Carroll County are expected

esting evening we have ever had together.

G. R. BABYLON, Sec'y.

DISARMAMENT CONFERENCE.

The following delegates were ap-pointed by our President to the World Disarmament Congress being held in London; Henry L. Stimson, Sec. of State: Charles Francis Adams, Sec. of our Navy; Dwight W. Morrow, our Ambassador to Mexico; Joseph T. Robinson, Democratic Senator from Arkansas; David A. Reed, Republi-can Senator from Pa.; our Ambassafrom dor Dawes to England and our Am-bassador Gibson to Belgium. The latter two are already in Europe. The

latter two are already in Europe. The rest sailed yesterday, Jan. 9th, on the Washington steamship. Rear-Admiral Hilary P. Jones it seems will be there too. He has been an outstanding figure at all Naval conferences for the last four years, and you will remember very little has been accomplished thus far. God grant that statesmen, and not Admir-als, sway this conference. It opens als, sway this conference. It opens Jan. 21st., and is likely to last 3 or 4 months we are told by those who ought to know.

You will remember President Hoov er issued invitations to England Italy, France and Japan—the 5 nava powers of the world. All seem eag-er to make real headway in perma-nent peace and good-will. They have hard problems, and many of them, and Christian citizens of Car-roll County they need your prayers daily, that God's grace and wisdom shall guide those men assembled from the other nations as well as our own, to make this conference which is the most important held in years, a real success

President Hoover has issued a Proclamation to the American people begging their interest in this Con-

GOV. RITCHIE SAYS WHO MAY BE NOMINATED.

Honor open to any Democrat in State of Maryland,

Governor Ritchie made a speech at the Jackson Day dinner at the Lord Baltimore Hotel, on Wednesday night, in which he gave his views on the wideness of the Primary law that permits any Democrat to be a candi-date for the nomination for Governor, whether in or out of office. He did not formally announce himself as a candidate, but reading between the lines the inference is strong that he means to be. He said on the subject: "I do not think the time has come

for me to make an announcement in regard to running for Governor again. This night particularly is a night dedicated, first, to Andrew Jackson, one of the two great founders of our party, in praise of whose memory and historic achievements all groups

of the Democratic party in this state can and do in harmony unite; and secondly, this night is dedicated to a review of those party policies and achievements which are of record for victory next November. I think you all know how I regard the Governorship of Maryland. It means very much more than adminis-tering or supervising the different de-nartments of state government sur-

partments of state government, sur rounding it are the traditions and ideals of government that have come down to us from the Calvert fathers, and are the life of democracy and liberty everywhere. These constitute the only political philosophy I have, and their force and truth and reality I have tried to proclaim not only at home, but elsewhere in the land, because I believe that in them lies our best hopes of political salvation. And I believe that next to being

President of the United States the greatest honor that can come to an American citizen is to be Governor of the State of Maryland.

It is an honor to which every Dem-ocrat in the state has the right to aspire. That is the right which the Democratic party gave to all of its members when we passed the Prim-ary election law.

Every Democrat in Maryland has the clear right to be a candidate for Governor, and nobody can criticize any who chooses to exercise this right. This admits every one. It does not exclude anybody. And it does not exclude the man who hap-pens to be Governor from submitting himself again to the free choice of a Democratic primary.

In this State of independent thought and action, it is nonesense to say that any candidate, whether in or out of office, can force his nomination on the Democratic party. The can-didate does not make the nomination. The Democratic party nominates the candidate.

do undertake to say this, that the man who does win the Democratic primary for Governor next September is going to be the next Governor of the State of Maryland.

Tickets \$3.00 per plate and can be had by writing George M. Englar, Title Guarantee and Trust Co., Lex-ington and Saint Paul Street, Baltimore, Md. We hope that you will join us in making this the most inter-

of the Democratic party in this state

meeting and election of officers last Saturday evening. The following were elected for the ensuing year: Miss Eleanor Birnie, Pres.; Miss Ina Feeser, Vice-Pres.; Mrs. Harry Fees-er, Librarian; Mr. Chas. Ridinger, Treas.; Amelia H. Annan, Secretary. Board of Managers, Miss Anna Galt, Miss Mae Sanders Mrs. Geo. Shoe-Miss Mae Sanders, Mrs. Geo. Shoe maker.

The Association wishes to express its appreciation to the Town Council and Firemen for their co-operation in providing a room with heat and light, and that it is grateful to Mr. Chas. A. Lambert for making a base to the new book case.

38 books were added to Library last year, 30 being purchased by the Library, and the other donated by Mrs. Alden Chase, of Washington and Mr. Charles Ridinger. A book narty has been planned for

A book party has been planned for the early part of February, to which every one will be invited.

The following persons have volunteered for library work for the year: Jan., Mrs. Merle Ohler; Feb., Miss Clara Brining; March, Miss Mae Sanders; April, Miss Eleanor Birnie; May, Miss Ellanora Shoemaker; June May, Miss Enalitica Showait, July, Mrs. Mrs. William Bricker; July, Mrs. Walter Wilt; August, Mrs. Allen Sanders; Sept., Miss Ina Feeser; Oct., Mrs. George Shoemaker; Nov., Miss Leah Catherine Reindollar;Dec., Amelia H. Annan; Substitute, Mrs. Harry Feese

AMELIA H. ANNAN, Sec'y.

ADVERTISING POLICY.

Advertising the best sellers seems just the opposite of the idea most storekeepers have with reference to advertising; but it is the plan of big business concerns in the country. One of them says; "Push the fast selling items with advertising, and use personal salesmanship to stimulate the slower moving items.

Another says "The fast selling items will act as pace-makers for the entire store." In other words, the plan is to get the people to come for the bargains—you can't make sales without people coming into the store. We pass on the thought to local dealers. .

A BARN BURNED.

On Wednesday morning a large bank barn and other buildings were destroyed by fire on the farm of Russell Koontz-formerly owned by John West-near New Windsor, causing a loss estimated at about \$5000., with partial insurance. The fire started in loose fodder under a truck.

Mr. Koontz is reported to have discovered the fire while it was yet small, and tried to extinguish it by using empty sacks to smother it, but there was too much breeze and his efforts failed. A lot of feed was de-stroyed in addition to the buildings, but no live stock. The wind was away from the dwelling. The Union Bridge Fire Company was called, but the absence of water prevented saving anything worthwhile.

remodeled. Dairy Improvement Associations have not only grown in numbers, but also in average production. The av-erage herd improvement cow produc-7812 lbs. of milk and 315.6 pounds of fat. This is an increase of about 400 pounds of milk and about 16 lbs. of fat over the previous year.

Each year should show that an ef-fort is being made to produce milk more economically. This means,better pastures; we should improve them; higher milk production per herd, by discarding the low producers; econoroughage and corn silage both fed in large quantities.

According to County Agent Burns, dairying is fast becoming the leading industry, not alone in Carroll County out throughout the State of Maryland. In view of this fact it behooves all of us as dairymen to study our records during the past year with the hope of stepping far ahead during the year we are now entering upon.

TANEYTOWN RED CROSS-

The annual meeting of the Taneytown Branch American Red Cross was held January 2, 1930, at the home of Miss Anna Galt, chairman, who presided. The roll-call for 1930 re-sulted in a membership of 92 and \$8.00 in donations. Miss Amelia H. Annan, Chairman of the Civilian Re-lief Committee reported that sold head lief Committee, reported that aid had been extended to seven families during 1929; and that clothing and bed clothes were distributed.

The former officers were re-elected: Miss Anna Galt, chairman; Mr. Jos. A. Hemler, vice-chairman; Mrs. Wal-ter Bower, treasurer; Miss Eleanor Birnie, se

OUR SALE REGISTER.

Our Sale Register begins in this issue. Only such names are included as are within our immediate territory, or which we have had orders to publish. No doubt there are others who desire their sale listed, and we shall be glad to have all of these as early as possible. There is no charge for the register, when other sale ad-vertising is to be done, at this office. When no service is rendered other than the register, then our charge is \$1.00 until date of sale. Blacksten, Manchester, Md. Roy R. Peck and Evalyn Mangans, Harrisburg, Pa.

The housewife should refuse to accept a can of food from the grocer when the can shows signs of leakage, bulges at the ends or snaps back when pressed. Upon opening an apparently good can, if the food is moldy, disintergated, cloudy, or otherwise abnormal, it should not be eaten.

A good home-made damp-proofing paint for selar walls or floor can be prepared by dissolving paraffin gasoline or kerosene warmed to 80°F Several coats of a 10 or 20 percent solution 34 to 11/2 pounds of paraffin per gallon of gasoline) are usually applied. The more dilute solution is best for stone, and the heavier one for brick or concrete. Work of this kind should be done only where there is good ventilation and, as gasoline is highly explosive ro highly explosive, no open flame should be permitted in the vicinity of the operation. The gasoline or kero-sene may be warmed in a vessel of water previously heated.

THE NATURAL RESULT.

The Thurmont Clarion, last week, in commenting on the discontinuance of a Sunday train on the W. M. R. R. said:

"The reason for the change? Your automobile and the thousands of other cars on the road. Don't cuss the railroad for taking off a train and cutting off expenses."

The above represents a situation and conclusion that in one form or another, has wide application. We are making our plans and forming customs without much consideration for where they may lead, or what may happen. And slowly but surely we are forcing others, either out of business, or to change their business to suit new conditions.

Just so far, and no farther, can we have things our own way; for when our conveniences and liberties clash with those of others, something is bound to happen that will hurt somebody. We can't eat our cake, and have it too.

ference and their support for the administration in its policy of "disarm ament" and "economy." Read in fellow-citizens and stand shoulder to shoulder with your President. "Peace is not a static thing. To maintain peace is as dynamic in its requirements as is the conduct of war. cannot say, 'Let there be Peace,' and go about other business" are the words of our President. He needs

The recent holiday fruit-cake poison case, in which quick action by the Food, Drug and Insecticide Adminisration of the U. S. Department of Agriculture saved from illness and perhaps death, people who had bought the cakes, leads the administration to issue a warning to housewives re-garding poisons in the household.

"They should, however, be istration.

ed, and the result is injury or even in food stores, restaurants and food

taking a toll of human lives during the Christmas holidays, had been bought as an insecticide several years ago, and had not been safely put away after use. It is supposed that one of the children finding the package of arsenic mistook it for flour, and emptied it in the flour sack in the pantry.

A somewhat similar case occurred in an Indiana store some years ago. Contaminated sugar sold by the store made a number of people ill, killing two of them. The administration found that rat poison had accidentally been thrown into an open sack of

In Los Angeles, in 1926, nineteen persons became ill from eating pies containing arsenic. The baker who made the pies did not know how the arsenic got into the food. It was delared to be accidental.

Probably none of these cases would have occurred if poisons had been kept away from the food and out of the kitchen.

PROCEEDINGS OF THE ORPHANS' COURT.

Monday, Jan. 6th., 1930.—Bertie L. Biehl and John S. Biehl, executors of Laura F. Biehl, deceased, returned inventory of personal property. Hertie A. Stonesifer, administra-

trix of Harry R. Stonesifer, deceased, returned inventory of personal prop-erty and received order to sell same Letters of guardianship on the es-

tates of Arthur L. Squirrel, Joseph S. Squirrel, Frances V. Squirrel and Samuel L. Squirrel, infants, were kranted unto D. Eugene Walsh.

Arthur L. Stonesifer and Arthur Wantz, executors of Wesley J. Hahn, deceased, returned inventory of personal property and received order to sell personal property and to sell real estate.

Letters of administration on the es-tate of Philip Flater, deceased, were granted unto Harry C. Flater, who received warrant to appraise personal property and order to notify creditors.

Letters of administration on the estate of Amelia M. Bonner, deceased, were granted unto Henry E. Bonner, who received warrant to appraise personal property and order to notify creditors.

Tuesday, Jan. 7th., 1930—Vada I. Erb, administratrix of John U. Erb, deceased, settled her first and final account.

Harry C. Flater, administrator of Philip Flater, deceased, returned in-ventories of personal property and debts due and received order to sell the former.

ANOTHER AUTO VICTIM.

Alvin Rider, of Dallastown, Pa., was instantly killed Tuesday night while walking on the Hanover-Littlestown road when struck and knock ed down by an auto driven by Hugh Topper, Jr., of McSherrystown.

Rider was returning to his automobile with a fresh supply of gasoline when he was struck from behind by the Topper car and thrown 30 ft. It is said that he was walking near the middle of the road and that Topper was blinded by the lights of an approaching car.

Fabiola, the first nurse recorded in history, was a Roman woman who established a hospital and convales-cent home for the poor after her con-version to Christianity, about 380 until next week, when we will be glad A. D.

PROHIBITION IN 1930.

The year 1930 promises to mark a decided step toward the more rigid enforcement of prohibition laws throughout the Nation, beginning at Washington, the following construc-

Washington, the following construc-tive measures having been announced at the U. S. Attorney-General's office, according to the Washington corre-spondent of the Baltimore Sun. "Attorney-General Mitchell pro-posed to Congress a "little Volstead Act" for the District of Columbia which would make of every police-man a prohibition agent. Appointment of two more judges for the District of Columbia

for the District of Columbia.

Preliminary conversations held with the Canadian Minister and the working out of plans preparatory to a conference with Dominion officials to prevent smuggling more effective-

The Department of Justice has drafted a bill unifying the Canadian order patrol, which may be increased to 10,000 men under Rear-Admiral Frederick C. Billard, commandant of the Coast Guard.

Treasury officers succeeded in get-ting industrial alcohol manufacturers voluntarily to agree to a fifteen

percent cut in the 1930 production. Senator Borah has submitted to President Hoover a detailed plan for the prevention of industrial alcohol diversion illicitly.

The Department of Justice has in preparation a bill giving United States commissioners authority to act finally in certain types of national liquor law cases.'

In addition, it is said that the wets are losing hope that the Hoover Na-tional Law Enforcement Commission will suggest any modification of the Volstead Act, but that it considers the act itself a matter for Congress alone to interpret, and, if it sees proper, to modify. Following these

developments comes statements from Philadelphia enforcement officials who declare that the "lid is on" in that city, and on to stay, and that the laws are going to be enforced to the limit.

The conservatist near- had able assistants. ly always meets with the disapproval | We say there is an "opening" in a which one member has as much voice the proper one for the hole. as another, no one has a right to become offended because other members ask for full information, and make new suggestions.

Unquestionably, there are some pure obstructionists. Some who can not let anything pass, in which they have say, without attempting to criticise, or change, a proposed course. But, the number of chronics of this sort is limited, and even they are apt to do good rather than harm, for any matter of importance that can not overcome objections, may not be fully good after all.

We find the bitterest sort of contention between political leaders and parties. A form of contest that knows no compromise, and can be settled only after a battle with ballots; and this has been adopted by the whole people as the best and safest

ditions. It would be folly to expect | nations except I. O. Q. T. W. and X. industries of all kinds to go on, as usual. Building operations would largely cease, the demand for manufacturers with the additional overhead labor cost added, would fall off. The buyer must be considered as well as the laborer, for their interests are not always in common. No, the shorter day and week, is not the

IDEAS, AND WORK.

spread application.

Lots of people get ideas-maybe good ones-but somehow they fail in working them out; that is, many of them do. A good idea is all right, but a good man to work it out, is better. The reason why it is difficult to give a man advice when he proposes starting into business, is that the adviser can not know just how much energy and brains the man can put into the business.and the answer to this makes all the difference in the world, as to whether he ought to do it or not.

Plenty of men start something but get very little farther, and in numberless cases somebody else reaps The man who has a pronounced the profit. We are apt to say in such bump of conservatism in his mental cases that so-and-so stole another make-up often finds himself on the fellow's idea; but it's hardly true, alunpopular side of many questions, ways. Most great inventions are deand oftentimes gains for himself the velopments-patents on top of patreputation of being a knocker, or ents. PENNSYLVANIA AUTO TAGS.

The following article concerning how auto tags numbered in Pennsylvania, will be of interest in other states, as it shows how many thousands of numbers can be used without placing more than five figures or letters on a tag. The article appeared in a recent issue of the Philadelphia Inquirer.

"According to the new system of numbering Pennsylvania's license tags for 1930, no license will have more than five figures. It is possible to do this by utilizing the possible combinations of ten figures and twen-ty letters. By the system it is esti-mated that \$70,000 will be saved in postage and by limiting the tags to five digits and the size 6x10 and 6x12, instead of the cumbersome 6x15 required for so many of the high num-

The first two would cause confusion with the numerals, one and zero; Q might be mistaken for zero at a has ty glance; T designates trucks and X means a dealer's car."

SENATE BECOMING A RICH MAN'S CLUB.

The Washington Correspondent of sound solution for anything like wide- the Philadelphia Ledger recently sent his paper the following comment on the make-up of the U.S. Senate.

"The Senate is not only the "most exclusive club" in the world, but it is rapidly becoming one of the wealth-

Thirteen Senators, one-eighth of the membership, are millionaires, several of the group multimillionaires, the largest number of financial elite

at one time in the history of the Chamber. Two are Democrats. Those with financial ratings of a million or more are: Baird, of New Capper, Jersey, Brock, Tennessee; Kansas; Couzen, Michigan; Deneen, Illinois; Hastings, Delaware; Kean, New Jersey; Kendrick, Wyoming; Grundy, Pennsylvania; Phipps, Colo-rado; Smoot, Utah; Wolcott, Con-nectioned and Science Version ecticut, and Sackett, Kentucky.

House, but they are anything but a init in views, party affiliations or social relations.

Brock is a Southern candy manu-facturer and Kendrick is a great cat-le raiser and wool grower. Although might be expected most of these wealthy men would come from the East, that is not the case. The two wealthiest men, whose financial rat-ings are said to be more than \$50,-000,000 each, are Westerners-Mr. Couzens and Mr. Phipps. The last two men to come to the

chamber, Grundy and Baird, are both millionaires and Republicans, and Baird's probable successor, already determined upon, Dwight Morrow, is also a millionaire. In Mr. Morrow the Senate may be said to have what s popularly characterized as a "Wall treet" man. Until he entered publife, as Ambassador to Mexico, Morrow was a partner of the inter-national banking house of Morgan. Morrow's presence in the Senate will add another liberal member to the group, already famous for its two pronounced progressives, Capper and Couzens. These men are not pro-gressives in the sense that they are associated with the insurgent group, but they vote independently and not infrequently with the latter faction. Couzens, particularly, is noted for

his independent views. In this respect he differs from Phipps, who approaches his closest in wealth, and who is one of the most regular and conservative mem-bers of the Senate."

Little Girl, 10, Eats so Much Mother Amazed

"My 10-year-old daughter had no appetite. Then we gave her Vinol, and now she eats so much we are amazed."—Mrs. W. Joosten. Beautiful Things Seen

Amid Coral Formations Stone corals grow like plants. Some look like plants without leaves. Some have the stems and branches of trees and shrub life in an earthly garden; some resemble different forms of vegetation such as cacti, lichens, and mosses. Some corals adopt fantastic forms such as fans, pipe organs, ewers, and curious shapes. All are beautiful.

If the observer remains quiet. the under-water inhabitants appear from crevices in the coral, from under the anemones and seaweeds. Curiously marked and brightly colored fish will flash here and there, brilliant starfish will move slowly over the snowy sand or cling to rock surfaces. Some are bright blue, some variegated, some orange-hued and thickly set with tubercles.

Though among the lowliest forms of life, the starfish is one of the prettiest of sea dwellers. But it is a thug among sea things and makes its living by smothering or strangling its victims.

Frequently starfish are found wrapped about shellfish, which they There are other very wealthy men appear to suck out of their shells aft-in the Senate, as there are in the er having smothered the occupant or appear to suck out of their shells aftparalyzed it with some acid secretion. Occasionally the oyster retaliates by closing on one of the starfish's rays, but the attacker disengages the limb and goes away to grow another.

Earthworms Too Bulky

for Ordinary Angler If any one wishes to angle for whales, he should go to Australia for his bait, says the New York Times. Earthworms averaging from four to six feet long are reported from that continent. One specimen was discovered which measured nine feet. The account can hardly be set down as the yarn of a "nature faker," for it appears in the British scientific magazine Nature, which is careful about what it publishes. These earthworms would have de-

lighted Darwin, who wrote a book on worms, drawing attention to the extraordinarily clever way in which they drag leaves down their holes, by the tip instead of by the stalk, so that the leaf rolls up naturally.

The Australian worms have greenish, translucent eggs, with horny shells. They are said to make "loud, gurgling noises when they retire into their burrows on the approach of an enemy." But what animal would deliberately elect to antagonize such a creature? And why should nine-foot worms run away from anything? Perhaps they are too proud to turn.

"Place of the Dead"

The old English word "hell" meant substantially the same thing as the Hebrew word "sheel," the dark place, or place of the dead. It is possible that the English word "cell," meaning a dark, underground room, and our own word "cellar," meaning the place under the house, may come from the same root. Those who have gone down on a cold winter morning to start a dead fire may appreciate the application. There are three words in

SHORTER WORKING DAYS.

Without question, the matter of unemployment in this country, especially as men have become crowded into industrial centres, needs attention of a most serious sort. And already we have as a pretty widely indorsed and shorter hours per week. But, this is largely a first-sight remedy, almost too easy to adopt hastily.

day week, is decidedly revolutionary, and somebody-almost everybodyaside from the workers themselves, would have to pay big for the unecon-omic proposition. Besides, while the resent 899,999. plan might relieve the situation so in many other classes of industry it would not work at all-for instance. not in farm work, transportation, the in associations relating to good public | runs to ZZ999, the old 1,499,999. service generally.

There is also the big question to of leisure is a good thing, ultimately, for most people; and also whether the short week, as an enforced measure, would not surely result in poorer work-in fact, in laziness.

Mechanical inventions of many kinds are undoubtedly carrying out their purpose-lower cost of production through lower expense of production; and yet, it is somewhat difficult to see just how the public in general greatly profits, especially in the essentials of life, such as food, clothing, rents and taxes.

A legal thirty-hour week, or anything near it, would surely react on itself. Capital must be considered, and investments cared for, in any plans for the betterment of labor con-

WHY PRINT A NEWSPAPER?

The merchant who says that everyone knows his place of business and that he doesn't have to advertise, can be found in Hamburg, and in every other community in the county. This merchant also says that customers come to him when in need of goods, so why should he waste his money advertising? An answer to that question has been made by a newspaper whose advertising man no doubt stumbled into places of business where the owner possessed that

This newspaper answered the question, "Why Should I Advertise?" as follows: "Of course, the newspaper man might say in rebuttal, 'Everyone in this community knows all that happens here, so what's the use of reporting the news; what's the use of printing a newspaper?' If the community can get along without a newspaper, it can get along without a number of other things which are of value.

The adults are educated and can teach the children, thus doing away with the need of schools. The parents, being religious, can train the younger ones in the creeds, thus doing away with ministers and the churches. People can loan their money to one another and thereby eliminate banks. They can swap their old clothes or learn how to make homespuns, thereby greatly reducing expense and actually putting the clothing merchants out of business.

All trade is based upon a desire for goods. Necessity is, mostly, an augumented desire. Advertising has the function of reminding people of their requirements, but its greatest func- was cut down and a cement monution-a prime factor in all progress ment with a bronze plate placed there. binations every thousandth number is represented by three ciphers and two letters, with the two letters plac-d is the fourth and prosperity—is the creating of new desires; thereby stimulating trade and production and making for H. the Bible translated "sheol." A second is "hades." And a third is "gehenna," which has reference to a valley near Jerusalem and is symbolic of the place of abandoned hope.

To stories of freak betting might be added another story of queer sporting events from Kenya. Mr. Basset Dogby in his "Tigers, Gold and Witch Doctors," tells of a couple of surveyors who discovered that a small pool up in the Kenya highlands marked off the Great divide, a stream running off in one direction to the South Atlantic, and another trickling away to form a river running into the Indian ocean. For amusement the surveyors used to drop a small newt into the center of the pool and lay bets whether it would start to swim down to one

Cleaning Pewter

ocean or the other.

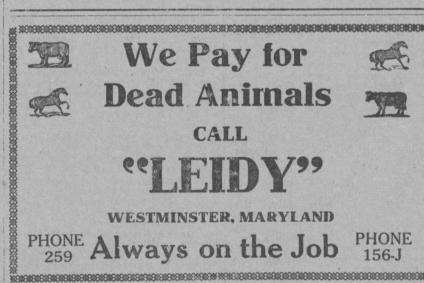

Pewter articles are in great favor in modern homes and the beauty of these may be marred by improper care. Pewter is a soft metal, and should never be cleaned with harsh powders. Fine rottenstone mixed with sufficient raw linseed oil to make a paste is an excellent cleansing agent for general use. When a more thorough scouring is necessary, use only a fine friction powder, such as whiting, and apply it with the finest grade of steel wool. After scouring pewter it should be weshed with hot soapsuds and polished with a soft clean cloth.

BAMBOOZLE HENS BY USING LIGHTS

Lengthening Day Must Be Done Carefully to Pay.

Being notoriously simple-minded, the hen can readily be bamboozled by the use of electric lights, into working 14 hours a day during the winter. But the trick is a good one only when it works, and the careless or ignorant user of lights can do his flock more damage than the extra eggs will pay for. The theory of the thing is that having more light, the hen will eat more food, which will enable her to lay more eggs.

A series of cautions for the user of lights in the poultry house, is found on the Ohio State poultry calendar. They are as follows:

1. Grade and pen pullets according to age, condition, and laying qualities, so that each group may be properly handled.

2. Excessive fall production makes it hard to keep the flock in heavy production during the winter.

3. Don't use lights to produce more than a 14-hour day. Excessive use of lights means overproduction, followed by a slump.

4. To avoid a spring molt, discontinue lights slowly in the spring.

5. Use lights on breeders only after January 1 to 15, in order to help them back into production.

6. Don't crowd production over 60 per cent, otherwise the flock will become thin and molt.

7. Be regular in management and the use of lights.

8. Feed grain liberally when using lights.

9. Always have feed and water available when lights are on. 10. Do not turn lights off too early

in the spring. 11. Do not stop feeding early and

late in the day when lights are finally eliminated.

Early Hatched Pullets

Best for Winter Eggs Where eggs in winter are wanted the early hatched pullet is, without doubt, the one to depend upon. Yearling hens and those older ones are very rarely good producers during November and December.

They are uncertain even in January and February and really do not begin to lay well until March. Where the egg production falls below 15 per cent during the winter months, one is not making much profit.

The age at which most pullets begin laying is from six to seven months; some lay at four and one-half to five months, and others not until eight or nine months of age.

This means that if a 50 per cent egg yield is wanted in November, the pullets should be hatched during March or April; May hatched pullets will lav a little. but, as a rule, not

PIED PIPER MAKES PETS OF ODD RATS

Recommends Some of Them for Children.

Washington .- Like Hamelin of legendary fame, Washington has its "Pied Piper," whose interest in rodents goes far beyond merely piping them out of town.

Rats may be but mere rats to cats and queens, but to Dr. Vernon Bailey, chief field naturalist, bureau of biological survey, Department of Agriculture, there are as many different kinds of rats and mice as there are different types of men, with a variety of habits and interests as diversified as those found among the human species.

Doctor Bailey has just returned from extensive field service in the deserts and plains of Arizona and New Mexico, where he has been studying a variety of animals in their habitats. With particular pride Doctor Bailey tells of his capture of a rare species of horned toad, which he picked up on the Kaibab plateau, north of the Grand Canyon.

Good Pet for Children.

The queer little creature, which is not a toad, but a lizard and closely related to the snake family, now is resting in the sands of an artificial home provided for it in the National museum.

"This species of horned toad," Doctor Bailey said, "would make a lovely pet for children. It is gentle and perfectly harmless and has great value in the fact that it destroys and lives on insects."

In his home Doctor Bailey has provided a room for the use and study of small animals, those of the rodent family in particular. "I have had kangaroo rats, pocket mice, grasshopper mice, deer mice and meadow mice," the doctor stated in answer to a query as to what kind of mice he thought made the best pets. "I have no use for white mice or white rats." he continued. "They are merely the albino members of the ordinary wharf rat and house mouse family, which are contemptible, filthy and destructive

animals." Doctor Bailey explains that the house or wharf rat and its cousin, the mouse, are as different from the little pets kept by him in his home as are the criminals of the human race from their

intellectual and constructive brethren. "The house mouse and the wharf rat are not indigenous to this country in the first place," said the doctor. "They have been brought to America from the old country. The American species which I have mentioned usually are wood animals, with clean habits and of value as insect exterminators.

Make Nice Pets.

"If one knows how to handle them they make nice pets, as they are clean and gentle. Take the grasshopper mouse, for instance. He lives mainly on insects and other mice. If you put one in your basement he will keep the house free of cockroaches, bugs, spiders and house mice. The grasshopper mouse will not climb into your foodstuffs, nor destroy things as the common house mouse. He also is very useful in fields, where he destroys in-

Entranced by Strains of "Magical" Calliope

That herald of the circus, the calliope, made its first public appearance in July, 1856, screeching "Old Dan Tucker" down the Worcester & Nashua railroad.

A contemporary account describes the effect as "magical, nay wonderful, exciting and amusing. Men left their workshops and rushed for the railway. Women and children swarmed like ants when their anthill is trodden on, agrin with wonder and delight. The horses danced pirouettes to the music: the very pigs relaxed the tension of their tortuous tails, and stupid calves , snuffed the music-laden air their pendent tails outstanding straight behind.

"'Twas marvelous, and we should. not have been surprised if all the bending woods, charmed by the Orphic strains, had walked adown the shaded hills and made obeisance to the Calliope even as Birnam: wood came down to Dunsinane!"

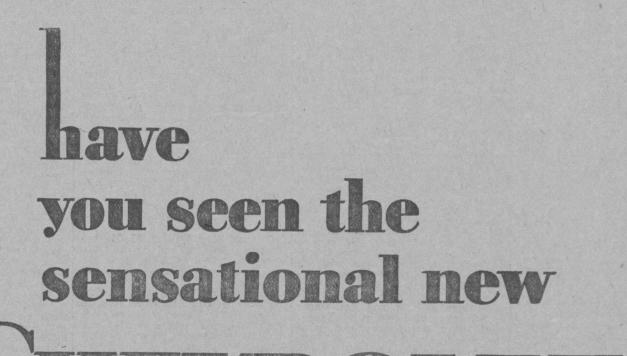

Great French Soldier

Knelt Long at Altar One day in France when thousands of guns were roaring, an American named Evans went into an old church to examine it. As he stood there with bared head satisfying his respectful curiosity a gray man with the stars of a general on the collar of his shabby uniform entered the church. Only an orderly accompanied him; no glittering staff of officers-just an order-IV.

The American soldier paid little attention to him at first but was curious to see him kneel in the church praying. The minutes passed until threequarters of an hour had gone, before the man arose from his knees.

Then Evans followed him down the street and was surprised to see soldiers salute the man in great excitement, while women and children stopped in their tracks with awe-inspired faces.

It was Foch.

A mistake was made last week in giving the burials in the M. P. ceme-tery. Miss Olevia Crouse's funeral was preached here in the M. P. church but the burial was in the Reformed

cemetery, Taneytown. Miss Beryl Erb returned to Tome Institute, this week, after her vacation.

CLEAR DALE.

Mr. and Mrs. Carroll James and son, of Littlestown; Mr. and Mrs. Melvin Miller and son, Marvin, spent Sunday evening at the home of the former's parents, Mr. and Mrs. Theo. F. James

Mr. and Mrs. Franklin Stear and daughter, Gladys, and son, James, of White Hall, spent Sunday at the home of the former's parents, Mr.

and Mrs. William Stear. Clarence Hesson, of Mt. Peasant, Mr. and Mrs. Albert E. Heiser, were entertained, on Sunday, at the home Mr. and Mrs. Oliver Hesson and Mr. and Mrs. Lester Myers. Norman James is confined to his

bed, suffering from pneumonia. Mr. and Mrs. Frank Eckenrode and son, Chester, of Littlestown; Mr. and

Mrs. Charles Eckenrode and son,

FEESERSBURG.

We are having beautiful bright spring-like days for early January, and some folks are counting the first robins—but we "ha me doots." Maurice Clabaugh and family at-tended the funeral of his mother,

Mrs. Joseph Clabaugh, on Monday afternoon, at her home, near Thur-mont. She was 79 years of age and had been in failing health for some time, but seemed better, then passed away very suddenly on Saturday morning, leaving her husband, eight sons and two daughters—6 sons served as pall-bearers. The Luther-an pastor at Thurmant, Rev. Corbett, conducted the service in the home conducted the service in the home

and buried in town cemetery. The quarterly report of Mt. Union Sunday School shows 91 names on winter roll, with an average attend-ance of 53. C. E. Service will follow S. S. next Sunday morning, with special Scripture verses beginning with the letter T. Come and wor-

Mr. and Mrs. Leonard Lynn and daughter, Edith, of Baltimore, with his sister, Mrs. Nannie Ackler, of Phoebus, Va., called on their cousins,

the Birelys on Sunday. Mrs. Clayton Koons, of Hanover, with a group of friends, visited her brother, John Starr and wife, on Sun-

The Bible Class of Middleburg S. met at the home of Mr. and Mrs. Ornie Hyde, on Wednesday evening. The infant child of Frank and Maud Clabaugh Rentzel has been quite sick, the past week, teething and a heavy cold, but is improving. We were sorry to learn of the sud-den death of Mrs. Chas. Moser, on Monday morning, leaving 7 children motherless. This family lived on the

Wm. Keefer farm, near Mt. Union, a few years ago. On Tuesday, a large truck moved much of Mrs. C. S. Koons' household goods to her home in Hanover. A kind neighbor has left our village. Oneda Keefer entertained a few of her friends, on New Year's evening. They enjoyed games and choice re-

freshments together. The school children are active gents for vegetable and flower seeds for the spring gardens already; but one of our neighbors beat their trade by planting her sweet peas on Jan. 1st., out-doors. Now, if flowers are needed for early brides, just call at our office and consult the city di-

ectory. rectory. Egg production seems to be a mathematical problem just now, ranging from 1 egg every two days to the prolific find of 14 daily. Listen! Isn't it—yes, 'tis wedding bells and the Tin Band tuning up! All joy and happiness! To be con-tinued in our next."

KEYMAR.

Mr. and Mrs. Newton Hahn have in their home a Christmas tree, which is a curiosity, and is supposed to take the lead in Carroll Co. and that is a holly tree, with red berries on. The tree is about 6 feet tall and is worth anybody's while to see the tree. Miss Grace Hahn was visiting a friend in Virginia, and she was made a pres-ent of the holly tree. Of course, Christmas is past, but the tree is still on exhibition. Miss Grace will be glad to show the tree to anybody who wishes to see a holly tree. wishes to see a holly tree.

Mr. and Mrs. Harry Reese, of Union Bridge, and Mr. and Mrs. Harry I. Reindollar and family, of Taney-town, spent last Sunday evening at the home of Mr. and Mrs. R. W. Galt. Misses Mary Elizabeth and Frances and Pearre Sappington, of Hagers-

HIGH SCHOOL NEWS TANEYTOWN.

The report cards for the second bimonthly period were given out Thursday. Twenty-one pupils made the honor roll in the High School, last time there were only twelve.

Mrs. Stewart King returned to school, on Monday, after being absent since December 10, on account of sickness.

Seventy new books have been added to the library of the elementary school. Forty-five have been ordered for the high school.

The basket-ball teams (boys and girls) defeated the Alumni Associa-tion's teams on Thursday last. Charles Carroll High School will play here Monday, January 13, 7:30 P. M. The Senior Class has selected its play entitled "Leave it to Sandy", to be given February 27 and 28. Miss Knauff, the class advisor, will coach the play.

Dr. Wm. C. Stone will start a series of lectures for Juniors and Seniors on Sex Hygiene, January 13th. These lectures will be given for eight con-secutive Mondays from 12:50 to 1:20

Mr. Smith has been appointed by Supt. Unger, chairman of a commit-tee of Science Teachers of the county to outline a course of study in First Year Science. The first meet-ing will be held in Westminster, Jan.

The mid-year examinations will be held during the week of January 13-

The basket-ball schedule includes the following schools: Westminster, Charles Carroll, New Windsor, Hampstead, Emmitsburg and Littlestown. The dates of the games will appear in the columns next week. Maurice Becker is manager of the team.

Becker is manager of the team. The Parent-Teacher Association meeting will be held Monday, Jan. 20, 7:30 P. M. The following program will be given by Philip S. Royer, vio-linist; Nevin Fisher, pianist and ten-or; and Mrs. Mary Malcolm Hunter, weder and or; and Mrs. Mary Malcolm Hunter, reader and accompanist. Suite— Presto, Adageo, Tempo Guisto by Sinding will be given by Mr. Royer as a violin solo. Ballet music from "Rosamunde," by Schubert-Ganz; the Brownies from "Fairy Pictures", by Korngold; Prelude 1, by Gershwin; Sawnee River by Fisher; will be give Korngold; Prelude 1, by Gershwin; Sawnee River, by Fisher; will be giv-en by Mr. Fisher as a piano solo. "Home" musical reading, by Edgar Guest, will be given by Mrs. Hunter accompanied by Mr. Fisher. Invictus, by Huhn; Mah Lindy Lou, by Strick-land; It's a-me O Lord, Negro Spirit-ual; will be given by Mr. Fisher as a tenor solo. Liebestraum, by Liszt; Rustle of Spring, by Sinding; Flour-ish, by Bauer; will be given by Mr. Fisher as a piano solo. "She Pow-ders her Nose" musical reading, will be given by Mrs. Hunter accompanied by Mr. Fisher. From the Canebrake, by Mr. Fisher. From the Canebrake, by Gardner; Serenade, by Drdla; Hobgoblin' Dance, by Eberhardt, will be given by Mr. Royer as a violin so-lo. Silver offering at the door will be 10. taken.

TYRONE.

Mr. and Mrs. William H. Marker, daughter, Evelyn, and Louis Bare were entertained at the home of Oscar Brown, near Littlestown, Saturday evening.

Miss Hazel Flickinger spent Sunday evening with Miss Ethel Johnson. Mrs. Nettie Halter and sons, Wilbur and Luther, visited Sunday evening, at the home of Mrs. Cora Robertson, Westminster.

Mr. and Mrs. Jacob Rodkey, Frizell-

CHRISTIAN ENDEAVOR TOPIC. Topic: How Can Nations Practice the Golden Rule?..Matt. 7:12; 20:20-28

Written by-Rev. C. W. Lockard.

My first answer would be to walk hand in hand with God. I am think-ing of Enoch, in Gen. 5:24. (Enoch walked with God, and he was not,for God took him.) Walking hand in hand with God is the precious privi-lage of all His abildran of all nations lege of all His children of all nations. Many of us have never walked with

hings and queens and other great ones on earth, and never will, but all of us may walk with the King of Heaven and earth. Not very much is known concerning the life of Enoch, but this one statement found in Con but this one statement found in Gen. 5:24 is enough for us to know of the ife of any man or Nation to be en-

abled to call them great. 1—It implies fellowship one with the other. Many of us are prone to think God afar off, seated high above upon a great white throne. We think of Him as God, the King; God the rule of the universe; God the judge; and miss the thought of the tender relation of God, the Father, as illustrated in the Bible.

Jesus has not changed in the mat-ter of His creed. (Love God with all your heart, mind, soul and strength, and your neighbor as yourself.) This sums up the one necessity of the Christian life.

We are constantly changing our church creeds. The congregational church once had long and elaborate reed covering many pages. Now they have adopted a creed that can be pasted into one page of a church nymn book.

But Jesus' creed can be stated in

bor, was to love the farmer whose farm was next to yours. He said nothing about the nationality of this farmer, the color of his skin or his hand with Him is to have this fellowand he was to be loved. Jesus would still say the same today. He has not changed in His creed. And to have His hand in mine; To be able to say, in life's darkest

It is still the same, and it is still the one great answer to race preiu-dice and hate. In one of his stories, Ralph Conner tells of a man—a rough "lumberjack" in one of the lumber, camps of British Columbia to whom there happened a wonderful thing, which made all life for him new. When he told his mates of what had come to him, some of them

began to jeer. "What!" said one, "have you swal-lowed the whole thing—Jonah and the rest of it?" A quiet wedding service was per-formed by Elder George F. Bowers, at his home, on Sunday evening, Jan. 5, at 7:30, the contracting parties be

the rest of it?" This was the simple fellow's an-swer; "I haven't much of a creed," said he, "Don't really know how discussion for Sunday evening, Jan. 5, at 7:30, the contracting parties be-ing Mr. Charles F. Kump and Irene Wildasin. The only attendant was Mrs. George F. Bowers. Carlonna, for the past month, return-data the formation of the past month, return-the dome on Sunday last. John H. Roop and family spent Sunday evening, Jan. John H. Roop and family spent Sunday last at Taneytown, with W. A. Bower and family. much I believe.

But I do believe that good is good, and bad is bad, and God and bad are not the same, and I know a man's a fool to follow the one, and a wise man to follow the other, and" he went on, lowering his voice, "I believe

God is at the back of a man who wants to get done with bad. And so it is with this great Nation of ours, as well as all others; if we come to the place where we believe that God is back of all good and is against all evil and bad, then will all Nations put into practice the Golden Some day we hope to meet you

MARRIED SIXTY YEARS AGO

But Jesus' creed can be stated in one sentence. It is the one everlast-ing solvent of all the world's political and social ills, and if believed and practiced it would put an end to war, and establish the brotherhood of man on earth. For the word "Neighbor," as Jesus used it, means the "nigh boor," "Boor in the old English use meant "farmer." So what Jesus said when He told the world to love their neigh-bor, was to love the farmer whose

Our percentage of death from gunshot wounds in the Civil war was 13.65; in the World war, 8.12. This gain in efficiency (nothing less than the saving of five more men out of every 100) was almost wholly due to the development of the aseptic and antiseptic technique.

And it was a greater gain than at first appears for without it the percentage of deaths from infections in this war would have been higher than in the Civil war, because the wounds were generally more dangerously infected, and were of a type more fa vorable to the development of infecCashler's Checks out standing 1,040.27 Deposits (time) Savings and Special. 435,021.07 Certificates of deposits 187,182.32 Bills Payable, including Certifi-cates of Deposit for money borrowed 622.203.39

on, for appendicitis, at Frederick City Hospital, is improving. An oyster supper will be held by Tom's Creek Church members, in the school-house, on Saturday evening, January 11th. Everybody wel-

Master Joseph Ohler spent several days in Baltimore, during the Christ-

mas holidays. Wilmer Naill, of Maryland Univer-sity, College Park, spent the holidays with his parents, Mr. and Mrs. Wm. Network and State Stat Naill.

Grains Used by Colonials

Rye was more important to Colonial America than it is to the presentday Americans, because the Colonials cultivated it. While they were still living in Europe their main cereals were rye and oats. Naturally when they came to the new country they brought with them these two grains. Over here they found corn or Indian maize. The portion of North America which was first settled was not particularly suitable for the raising of wheat.

Alchemy and Chemistry

Alchemy, which deals in its narrowest sense with the art of making gold and silver from baser metals, is thought to have originated with the Alexandrian Greeks. In its broadest interpretation, however, alchemy may be considered the earliest form of the study of systematic chemistry, and as such was the beginning of a science which has made remarkable contributions to the progress and welfare of the world.

Perfect Foot Measured

In a book on "Beautiful Feet," written by an Austrian professor, the perfect foot is described. The author says that the perfect foot should be three times as long as its greatest breadth, and in length exactly oneseventh of its owner's height. A person 5 feet 10 inches tall should have a foot exactly 10 inches long. Many beauty contest winners in Europe are inclined to dispute the professor, but he stands by his statements.

Thrifty Commuter

It was raining when a New Jersey commuter started for work and he shared his umbrella with a neighbor. When the train reached the terminal in New York, the neighbor was startled to see the commuter hand his unmbrella to the conductor, saying that some one had forgotten it. "What's the big idea?" asked the neighbor. "Well, it's stopped raining." said the commuter. "If I check the umbrella at the station and get it back at night it will cost me 10 cents. The conductor will turn it in to the lostand-found department and I'll just claim it tonight and save the checking fee." "And you're the guy who tells all those Scotch stories." observed the neighbor.-Boston Globe.

Locust Swarms Still Bid Defiance to Man

There have been locust plagues ever since the days of the pharaohs. They are still plaguing the earth. Only a short time ago the Kenyal (South Africa) colony fruit show had to be abandoned, as the locusts had eaten nearly the whole of the fruit crop. Cases of swarms descending on a field of crops and in a few seconds leaving it completely barren of vegetable life. are not at all uncommon; but they do even more amazing things than that. There is the case of a Buenos Aires and Pacific railway train traveling along the open country at 60 miles an hour, which was stopped dead by a plague of locusts. The driver and fireman saw them and exercised them selves to get every ounce of speed out of the engine with the idea of getting through the swarm before the impetus gave out. In a moment the train dashed straight into the swarming mass and was plowing straight through it, crushing countless numbers of insects with every revolution of the wheels. The wheels became slimed as if they had been greased. and then lost their grip of the rails. They simply spun round without moving the train. Before the train could be got moving again the fireman had to take his shovel to the front of the engine, shovel up huge masses of the insects and fling them clear of the track. By that method it became possible to move the train a few yards at a time until it was finally clear of the dense mass and could carry on with the journey.

Seems to Be "No New Thing Under the Sun"

It seems possible to find almost any desired object in an ancient tomb. The latest discovery is that of a zipper. that handy device for fastening tobacco pouches and galoshes, which was unearthed in a Viking burial ground near Tilsit, East Prussia. The modern age has known this contraption less than 15 years, and credits it to a Swedish engineer. Safety pins, supposedly a modern convenience, have been found in ancient Pompeii. A rubber shoe was reported from a tomb near Budapest, although the first historical account of rubber is in Columbus' story of his second voyage. Ur of the Chaldees yielded powder puffs and eyebrow tweezers, and the royal lipstick was found to have been laid to rest with the widow of King Tut

The preacher of the Ecclesiastes spoke wisely when he said, "There is no new thing under the sun." It would not be surprising to hear of Caligula's platinum-plated radio set being fished out of Lake Nemi's mud. or Mrs. Noah's electric washing machine reposing in the debris of the ark.

Backward Barbados

Barbados is a British island in many respects, but it lacks all the elements of progress usually found under the Union Jack. The island lies in the sweep of the trade winds is wonderfully fertile and is easily one of the most healthy islands in the Carribbean because of the equable climate. In Bridgetown, the capital of the island, the houses of

is so.

WHERE THE YEARS GO

B ACK in the Valley of Beautiful Memories, where the years go when they have finished their work in the big world, there is always a great deal of happy talk going on. Often the days go there to talk when they are waiting for their time to come forth before the world people.

And at this time Tuesday was up there. Tuesday was having a little holiday while Monday was on duty.

The years that had gone before were there, for you know when the Old Year died he always goes to the Valley of Beautiful Memories. There he is always so delighted that he does not feel sad when he welcomes his successor-the little young New Year. The years tell of the beautiful things that have happened while they

Dressed in a Rather Wild and Windy Fashion.

leave behind in a great big old bundle to be thrown away, for only the lovely memories can be taken along with

them. So it is in Fairyland. The years had been talking quite a little when Tuesday came along. He was dressed in a rather wild and windy fashion, for he was working now in a rather wild and windy month. He sat down in a beautiful green

moss chair while the years gathered about him. "What is the news of the big world?"

they asked. "Is the New Year doing well? Not such a New Year by now," they added.

"How the little years do grow up," said one old year, just as though he would have liked to add now, "I remember that little year when it was only so high."

But they all listened to what Tuesday was saying. "Tomorrow," said Tuesday, "when

I shall be on duty, is the birthday of little Dolly.

IN "JOVIAL" GHOST Lad Said to Enjoy Spirit's

Companionship.

YOUTH FINDS PAL

London .- A jovial ghost who obligingly produces money from thin air, eats apples and leaves his (her or its) teeth marks in the core, and throws about her with all of you. It seemed ink bottles when she (or it) is angry, only right that I should come here. is said to be the constant companion You know we days have noticed at of a ten-year-old boy who lives in different times how very lovely and Poona, India. how much loved Dolly is, and we've

The story was related before the National Laboratory of Psychical Research by Miss Helen Kohn, a B. A. of London university. The boy, said Miss Kohn, is her young nephew, Damodar Ketkar, who was adopted by Miss Kohn's sister when he was four.

The youngster is coming to England soon, and the National Laboratory is arranging to have a committee of reputable London doctors investigate his ghostly companion.

"Sometimes," said Miss Kohn, "the manifestations are harmless and at other times definitely destructive. There was a time when it seemed that this mysterious spirit was making a determined attempt on the boy's

life "Things were smashed so rapidly with no human explanation, that Damodar had to be fed by hand and all glass objects had to be removed. As the child moved through the room he was surrounded by broken glass, and scattered liquids, particularly saccharine, to which the spirits appeared to have an especial aversion.

"Once Damodar put out some fruit for his ghost. In a few moments it had disappeared and later the skins were flung from nowhere bearing the marks of teeth. "Another time a five rupee note

suddenly appeared in the air in the middle of a dinner party. Nobody claimed it and it was marked and locked in a trunk. It disappeared and was never found."

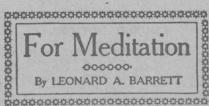

Will Spend \$7,800,000 for Bird Conservation

Washington .- A total of \$7,800,000 will be expended under authorization of the migratory bird conservation act, of which \$200,000 has been provided for the fiscal year ending June, 1931, \$600,000 for the fiscal year ending in 1932, and \$1,000,000 each for the seven succeeding years. Thereafter \$200,000 is authorized for the year ending June 30, 1940, and for each succeeding fiscal year.

Before proposed areas are definitely settled on as sanctuaries following investigation by the Department of Agriculture, the commission consisting of the secretary of the interior, and two members each from the senate and house of representatives must indorse the selections.

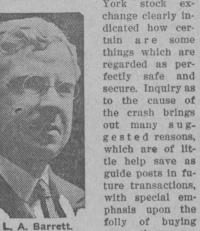

Under the act establishing the bird reservations, provision also is made for the maintenance and improvement of the areas. The establishment of the sanctuaries and administration of the act is only one of the features of the program in which bird lovers have been actively interested.

Elusive Rabbit Leads

THINGS THAT REMAIN

THE recent crash on the stock mar-ket brought about serious tragedies. Persons unable to protect their marginal accounts were unmercifully sold out by brokers, and in many cases an entire investment was lost. When this investment represented savings accumulated through a number of years, it was all the more pathetic. This unprecedented event on the New York stock ex-

more than one has cash to pay for in case of an emergency.

Now that the storm is over, we seem to sense certain values which were not in the least affected by the crash. These values by many persons are regarded as of even more importance than the values which collapsed in the recent financial debacle. These values might be thought of as "The Things That Remain." When financially ruined men went home the night of the collapse perhaps for the first time they appreciated stock values as never before. Others who might have discovered them anew appreciated the fact that the permanent things in life were unshaken.

What are these values which defied the mob psychology which swept the stock market? Many could be mentioned. May we mention but a few. The innocent laugh of little children. The confidence which others have in our integrity. Those rare privileges which fine friendship affords. The respect one receives from his fellow citizens. The cheer of the family hearth fire. The charm of the woods and the beauty of the flowers. The wonder of the stars and the voices of nature to which the sensitive ear is always alert. The love for books and the power to appreciate the messages of their silent authors. Yes, all of this, and best of all, the smile of the one we know as wife and mother. These are some of life realities that still remain.

FEED SOLDIER ON **51 CENTS A DAY**

Food Best in History of United States Army.

Washington .- Soldiers are getting the best food served in the history of the United States army and it is costing the government only 51 cents a day per man, the annual report of Maj. Gen. Frank B. Cheatham, quartermaster general, shows.

Extension of the use of rayon, adoption of roll collar overcoats, and plans to provide mounted troops with leather-laced boots to replace shoes and leggins are expected by Cheatham to contribute to appearance and morale.

The problem of obtaining satisfactory cotton cloth for uniforms has been so difficult Cheatham has recommended adoption of a khaki shade identical with that used by the marine corps in place of the familiar olive drab.

All army housing projects authorized by congress in 1927 have been completed except the hospital at the Fort Leavenworth disciplinary barracks, Cheatham reported. Building authorized in 1928 has been completed except for barracks and quarters at Fort Sam Houston, Texas; Fort Jay, N. Y.; Fort Monmouth, N. J., and Selfridge Field, Mich.

Sixteen housing or hospital projects of the 1928 program representing an expenditure of about \$3,300,000 are completed or under way. Work has not yet been started on the remaining 17 projects of the 1928 program which will require expenditure of between \$6,000,000 and \$7,000,000.

Under authority of congress Cheatham began correspondence to identify widows and mothers of American soldiers, sailors, and marines buried in Europe preliminary to pilgrimages to the graves at public expense.

"Folding Husband" Seen for Flats of Future

Washington .- "Will the busy and crowded housewife of the future, along with folding beds, folding kitchens and folding baby carriages, have a folding husband to match?"

Thus inquires the Journal of Heredity, presenting a report by Dr. Arthur Kelley on a strangely constructed man who can crease himself down the middle and touch his two shoulders together. He is able to perform this feat, quite impossible to ordinary humans, because he has no collarbone. Neither the usual physical examination methods nor X-ray photographs show a trace of this favorite subject of horseback-riding accidents

The condition presented by the "folding man" is apparently hereditary, for he reports that his mother had no collar bone; and his only child a daughter, is also without one. His only brother, now dead, was normal.

There are drawbacks to being a folding person, however. Doctor Kelley's discovery has defective bones in his head, which leave a soft spot on the top of his cranium and cause a slightly "dished" appearance at the top of his nose, and also make his features rather smaller than they are in most persons. Doctor Kelley re-

the British residents are as En as they are in Liverpool or Manchester, while the public buildings are copied from England. The negroes in this island work harder than in the others and, as they are plentiful, their pay is very low. The grinding of corn and other farm commodities is done by the old prehistoric windmill, while machinery of most kinds is taboo.

Zola on Advertising

"I shall repeat these ideas," wrote Emile Zola, the novelist, "and go on repeating them, because new things must be baptized before the public. so that they may think them new. First, I place a nail, and then with a stroke of the hammer I drive this nail into the brain of the public; then with another stroke I make it go another inch.

This rather forceful statement of the power of repetition has been quoted by a prominent advertising agency with the comment, "Does this not, in a few words, express the underiving philosophy of all advertising?"

Socrates No Beauty

The name Socrates is almost synonymous with intellectual and moral courage.

Undersized was Socrates, and ugly of countenance and figure, as well, but of such material is moral beauty sometimes fashioned.

In our admiration for his intellectual boldness, we are inclined to forget his physical courage. Twice he saved the life of Alcibiades on the field of battle. Ready to die for the cause of freedom of thought and speech, he drank the cup of hemlock as coolly as any of us takes a cup of tea.

Woodpecker "Burglar"

A burglar alarm kept sounding in the office of a Brooklyn protective agency. Two sleuths were sent with their guns and handcuffs to the signaling house. Entering with a pass key they crept up the stairs, listening to the tat-tat-tat that greeted them. like a safe being drilled. Trailing the noise, the detectives got their "man." The woodpecker which had been peck ing at one of the alarm wires was taken back to the office but it won its freedom when it refused to eat or drink.

YVE learned not to jay-walk when I in Indianapolis. The cops let you get way across and then make you go clear back where you started from It's embarrassing.

people had been killed in a year by local street accidents. During our half day there they chalked it up to 64. That was moving too fast for me, and savage feels today when he looks into I hustled along to a safer place.

BREAKING A MIRROR

THE primitive man looking at his own reflection in a still pool beheld a phenomenon he could not ex-A big central sign stated that 63 plain. He saw something which was not himself but which must be so closely related to himself that there was no joke in it. That's the way a mirror for the first time. We are Today's observation in the hotel: all descended from primitive man and savages and their ideas, Professor Freaud would say, "persist in our unconscious ego." Even in the Middle Ages a mirror was regarded as not altogether "canny" by the lower classes. What is known as sympathetic magic has always regarded a close connection as existing between a person and his "counterfeit presentment." We know better now but our "subconscious"-or our "unconscious" as some of the psychologists sayself has not fully shaken off the effect of long ages of superstition; and who Navy Orders 18 Planes is there who can see a mirror accidentally broken without a secret uneasiness? He may boast that he can do so-but can he? The smashing of the mirror destroys the reflected image-his counterfeit self or a surface which has born it, as it has also borne the image of the other members of his family. Therefore he-himself -or some member of his family, whispers the lingering voice of despised, forgotten but inherited belief in sympathetic magic, is in danger. All of which accounts for the very prevalent superstition that if you break a looking glass there will be a death in the family within the year. If no death occurs the breaking of the glass is forgotten. But suppose one does occur? Ah, then it is remembered and mirrors are handled very carefully in that household thereafter. (C) by McClure Newspaper Syndicate.) -0-

Puts Swindlers at Million

More than a million persons in the United States are living entirely on the proceeds of confidence games and other dishonest schemes of obtaining money, the vice president of a New York surety company is quoted. These leeches actually take more than three and one-half billion dollars from unsuspecting wage earners, he says.

Pursuing Dog to Death

Newark, N. J .-- A hound dog owned by Walter Sereda of Caldwell township, died under unusual circumstances. The dog chased a rabbit which took refuge in a lead pipe about a foot long. The dog dived after it and its head caught in the pipe.

The hound managed to stagger home wich the pipe on its head but neither Sereda nor anyone else was able to help and the dog died with it on.

Napoleon's Diamond Necklace Now in U.S.

New York .- The diamond necklace, which Napoleon I presented to Empress Maria Louisa on the birth of their only child, the duke of Reichstadt, has been brought to this country. The necklace consists of 47 large diamonds set in silver and gold and is valued at \$500,000. It is owned by the archduchess of Austria, Marie Theresa, now seventy-four.

at Cost of \$1,670,829

Washington .- The Navy Department has contracted with the Keystone Aircraft corporation, Bristol, Pa., to construct 18 airplanes of the "VP" type with landing gear, at a total cost of \$1,607,829.45. Rear Admiral William A. Moffett, chief of naval aeronautics, described the ships as "flying boats."

****** Woman Deserts Baby

in Theater for Crying Newark, N. J .- Angered because the wails of a three-weeksold baby boy interrupted her enjoyment of a motion picture show, a woman abandoned the infant at night in the women's lounge of a theater here. The woman, appearing to be about thirty-five years old, got up from her seat, the baby in her arms, when the child's cries became insistent.

"This brat will never let me sit through a show," she said to Miss Blanche Bernstein, of Perth Amboy, a patron of the theater. The child is now in the Babies hospital here.

tive born, of old American stock.

Mirrors as Periscopes Prove Help in Crowds

Berlin .- The ingenuity of German women has eliminated the necessity of "coming early" to get a good view of public ceremonies. When processions and similar events are held in Berlin the women at the rear of the crowd remove mirrors from their handbags and hold them above their heads as periscopes. The practice first gained attention at the funeral of Doctor Stresemann, when huge crowds lined the streets.

Town Pays \$2.16 a Day for Girl's Education

Fall River, Mass.—Gertrude Gomes' education will cost her home town \$2.16 a day. The village of Freetown has contracted to pay that amount to Walter Cudworth for carrying her in his automobile to and from the Fall River high school. Gertrude is the only resident of Freetown who attends the local institution.

Hen Goes Sightseeing on Top of Owner's Auto

Mount Carmel, Pa.-Will Whalen of Chambersburgh was embarrassed recently when the merriment of peopleon the street caused him to stop his car and investigate. His pet Plymouth Rock, Belinda, was perched on top of the gar. The bird had ridden 36. miles in a high wind.

Poorhouse Inmates, Aged 81 and 75, Wed

Amiens, France.-If Emilien Lebegue lives to be 125 and Marguerite Madar sees 131 years they may celebrate their golden wedding. As bride and bridegroom of 81 and 75 years, respectively, Marguerite and Emilien got a day off from the respective homes for aged poor, in which they live, in order to be married. Negotiations are under way to permit the bride to live with her husband at the Home for Aged Men.

Lesson for January 12

THE BAPTISM AND TEMPTATION **OF JESUS**

LESSON TEXT-Matthew 3:1-4:11 (Print Matt. 3:13-4:11). GOLDEN TEXT-This is My beloved Son.

on, in whom I am well pleased. PRIMARY TOPIC—When Jesus Was Baptized. JUNIOR TOPIC-The Baptism and

Temptation of Jesus. INTERMEDIATE AND SENIOR TOP-

IC-Jesus Facing His Life Work. YOUNG PEOPLE AND ADULT TOP-IC-Triumphing Over Temptation

I. The Baptism of Jesus, the King (8:13-17):

While the forerunner was discharging his office, the King emerged from His seclusion at Nazareth and demanded baptism at John's hands. The incongruity of this demand with the purpose of baptism brought from John a protest, but upon Jesus' satisfactory explanation, John baptized Him. Touching Christ's baptism, note:

1. Its significance. (1) Negatively. a. It did not mean His mere obedience to the commandment of God, because His entire life had been lived within the will of God. There was not a moment in His life but what was lived fully in accordance with the Father's will. b. Not because He had sinned, for He was absolutely sinless, harmless, undefiled-separate from sinners. This separation was so complete that even the devil could find no occasion against Him (John, 14:30).

(2) Positively. Its significance is found in harmony with the central purpose of His coming into the world, which was to secure for His people salvation through death and resurrection. This act was the official entrance upon His work. It was an act of consecration on His part to the work of saving His people through sacrifice.

While baptism is a sinner's ordinance, Christ was baptized not because He had sinned, but because He took the place of sinners to be a substitute for them. In this He who knew no sin was made sin for us that we might be made the righteousness of God in Him (II Cor. 5:21).

2. Approval from the opened heavens (vv. 16, 17).

Immediately following His consecration to His work, the heavens were opened and the Spirit came and abode upon him, followed by words of approval from the Father.

11. The Temptation of Jesus, the King (4:1-11).

Being thus commissioned for His work, His ability to meet the one whose destruction He had come to accomplish, must be demonstrated (Heb. 2:14). This temptation was the opening battle of the dreadful conflict be-

****************** WHEN you hear the windows shake.

Hear the rattle of each pane, When you hear the whole house make Noises like a railroad train,

Do not think that there's a war, Do not think some bandit gang Is breaking down your own front door. Don't you know? It's just Slam Bang.

When you hear an awful crash, Upstairs, downstairs, front or back,

When you hear a dish go smash, When you hear a chair go crack, When each button, bell and wire

Starts to clatter and to clang, No, there isn't any fire.

Don't you know? It's just Slam Bang.

Lots of times I read about Earthquakes where the houses fall, But I'm oftentimes in doubt If there was a quake at all.

When you heard the windows shake, When with noise the whole house rang.

When you felt the whole town quake, Don't you know? 'Twas just Slam Bang!

(C), 1929, Douglas Malloch.)

A woman there sold to a woman friend for a hundred and four dol-lars a young female slave. The French authorities heard of the trans-action, and, as slavery is illegal with-in the French zone in Africa, the buyer and seller were both in court buyer and seller were both in court. The slave was ordered liberated. But this order was received with such cries of indignation on the part of the slave as to embarrass the court. She accused the court of cruelty, insisting that she did not want to be liberated. "You know perfectly well," she said, "that liberation would ruin me. I am comfortably lodged and fed; I am content with my mistress. Why should I wish to be freed?"

So insistent and so clamorous was her demand to remain a slave that the court was compelled to com-promise, permitting her to continue to work for nothing for her mistress. That reminds me of a story of some slum dwellers in the East End of Lon-don whose homes, not only unsafe, but for years unfit for human habitation, So insistent and so clamorous was

were condemned to be torn down and replaced with sanitary, modern dwellings. A philanthropic enterprise was involved, and the tenants were to be

Fought on English Soil There is a strange story behind the memorial on Sedgemoor, the scene of the last battle fought upon English soil

It is nearly 250 years since this historic fight took place, and until the "stone of memory" was erected, visttors might easily have tramped over the ground without realizing the fact. The moving spirit in the erection of the memorial was an old lady of seventy-three-Miss E. Winter of Ched-Some years ago she had a vivid zoy. dream, in which she was urged by a ghostly visitant to raise a memorial to the men who died at Sedgemoor.

A strange contrast may be noted by those who visit the battlefield today. There is an R. A. F. camp near at hand, and modern fighting planes often circle above the moor where Monmouth's followers fought with scythes and billhooks .- London Answers.

Migrations of Sea Fauna

A recent lecture on the haunts and since the opening of the Suez canal sas City Times. fishes and crustaceans had migrated from the Red sea and the Indian ocean into the Mediterranean sea, chiefly on the Syrian coast, where they drifted with the currents. It took a cross the canal, but henceforth it multiplied rapidly and settled all along day long." the Syrian coast. The same region is cala and huge shrimps, eight inches cessfully colonized there.

Twain Made Appetite

Subject of His Humor Mark Twain dealt slyly with the emptiness of introductory speeches and the fullness of his own appetite in a letter lent to the Missouri Historical society by a relative, Cyril Clemens of Webster Groves, president of the Mark Twain society.

"I was on the point of starting," he wrote, "when a committee requested me to remain here and introduce Gen. Joseph R. Hawley (successively editor, governor of Connecticut, congressman and senator) to a political mass meeting. This was a great surprise to me, for I had supposed the man was comparatively well known. I shall do what I can to blow the fog from around his fame.

were present, is equitably distributed | long period of time. among the public charities of our several states and territories? I would not that any partiality be shown on account of political creed or geographical position, but would beg that all customs of the sea fauna revealed that | the crates be of the same heft."-Kan-

Builder Must Remember

Years May Bring Change Land is said to be developed to its highest and best use when the structure on it produces a larger return than any other building would produce, but it should be noted that this return must have a reasonable persistence. In other words, in the case of "Meantime will you kindly see that a home site, the owner should assure "Meantime will you kindly see that himself that the house he is building the portion of your banquet which $\mathbf{I} \mid$ on it will return the satisfaction and should be allowed to consume, if I | enjoyment described above for a good

> Land that is developed today with a home of exactly the right type may fall in the path of a city's industrial progress, and, as this encroachment closes around it, the home becomes less and less the best structure for the plot and its value as a homesite decreases. At the same time, with the change in the character of the neighborhood, the amount of satisfaction and enjoyment secured from the home is decreased until perhaps the location becomes unbearable, when all satisfaction and enjoyment disappears. Of course, the loss of value in such a property as a homesite may be offset eventually by an increase in value for an industrial or commercial site, but this rise in value does not usually come about at once. There is a period of transition, when the neighborhood is declining as a residential site and yet has not yet ripened to maturity as a commercial area. Moreover many people who establish permanent homes do not like to see such changes even if they bring about higher values, nor do they like to move out of districts that have become home to them.

All Conveniences for

STATES STATES

Maryland "Model City" A model city embracing all the latest ideas of community centers will be built by the Davison Chemical company on a site embracing 400 acres, near its plant at Curtis Bay, Maryland.

Central heating and refrigeration plants will be operated by the company, enabling residents to have modern conveniences. The city will be known as Davison. A harmonious plan of architecture is to be employed so that groups of houses will not be definitely unlike and yet not lack individuality.

In the center of the model town a community quadrangle is to be built for stores, shops and a moving picture theater or hall. It will be surrounded by a broad space where autos can park without charge.

One corner of the development will be used for a park which will include tennis courts, a baseball diamond and a football field. Hills and level land stretching southward will prove ample for building a golf links if desired. At the opposite end space will be reserved for a school and churches.

City Grafters Skilled

in Makeup and Acting

The woman has lived in New York for a long time and is hardened to the sight and plea of beggars. When a timid, middle-aged woman, neatly dressed, accosted her at Times Square station, she knew that here was no ordinary case.

The older woman hesitated and when she spoke her voice was refined but nervous. She had lost her way. She wanted to go uptown and found herself on the downtown platform. Would the woman direct her?

The woman did, but the inquirer held her attention for another moment. She wanted to say something and did not seem to have the courage. Finally she summoned it. She had spent her small change traveling on wrong trains and did not want to break a bill. Might she borrow a dime?

The woman gave ber a dime and started toward the stairway. She looked back once to see if the stranger was going in the right direction. The middle-aged woman had stopped and was conversing with a man. He had his hand in his pocket and he was nodding sympathetically .- New York Sun.

Boomerang

A railroad man was ready to make his usual run. His wife instructed him to get her some turkey eggs to set. In passing through a small town a dirty country lad approached the engineer and asked him: "Don't you want to buy some buzzard eggs?"

Seeing an opportunity to play a joke upon his wife, he gave the lad a nickel for them. About a month later he asked his wife:

"How are your turkeys getting along?"

"Oh, I decided it was getting too late for turkeys, so I put them in your lunch."-Forbes Magazine.

Rapid Pace

The rapid pace we've struck appalin Our patience and endurance And every new invention calls For further life insurance.

tween Christ and Satan. In this struggle note:

1. The battleground-wilderness of Judea (v. 1).

The first man was tempted in a garden with the most pleasant surroundings, and failed. The second Man was tempted in a bare wilderness, and gloriously triumphed.

2. The method of attack (vv. 3-9).

Since, as the Redeemer of mankind, Christ sustains a threefold relationship, the Son of Man, the Son of God, and as Messiah, each one was made a ground of attack. (1) As Son of Man. This was a test of the reality of His humanity to demonstrate as to whether the humanity which He obtained through the virgin birth was real. The appeal was made to the instinct of hunger. Hunger is natural and sinless. (2) As the Son of God. It was a test as to whether this personality which had taken upon itself humanity. was divine. The devil quoted from a Messianic psalm to induce Jesus to presume upon God's care. God does really care for His own, but to neglect common precautions to do the uncalled for thing, just to put God's promise to a test, is to sin and to fall. (3) As the Messiah. Christ's mission as the Messiah was to recover this world from the devil. The devil offered to surrender to Him on the simple condition that He adopt his method, thus obviating the necessity of the cross.

3. The defense-the Word of God (vv. 4, 7, 10).

Christ met the enemy each time and repulsed him with "It is written." Each time he quoted from Deuteronomy-the book which the higher critics would discredit as unreliable. Jesus had enough confidence in it to use it in this the most crucial hour of the world's history.

4. The issue (v. 11).

The enemy was completely routed. The strong man was bound, so that the spoiling of his house was possible.

To Secure Salvation

"But what can mortal man do to secure his own salvation?" Mortal man can do just what God bids him do. He can repent and believe. He can arise and follow Christ as Matthew did.-W. Gladden.

For the Millions

Christ appeals to the soul as light appeals to the eye, as truth fits the conscience, as beauty speaks to the esthetic nature .- The American Magazine.

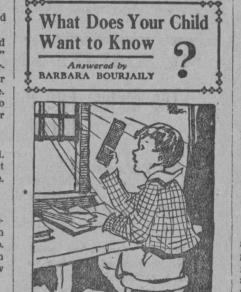

ably noused during the time that their unspeakable living quarters were being transformed into decent homes.

And yet a great hue and cry went up from these people whom it was planned to raise to a better standard of living. They protested against the inconvenience of the change. They complained of "interference," even accused their would-be benefactors of abuse in ousting them from the places they were occupying. In one voice they insisted, "Let us alone. We do not want to move!"

To people of our standards, of course, it is almost inconceivable that a slave should not want to be freed, that slum dwellers should protest against an attempt to better their condition. And yet it is not only the benighted we find sticking to a rut because they have become comfortable in it and are too lazy to move out of To the thoughtful observer every it. day brings example among those of us who are supposed to be enlightened. of people who chain themselves to some kind of slavery because it is the easiest way, because freedom would involve a change that would be too much trouble.

It isn't only in Africa and the London slums that we find self-kept slaves.

IS THERE WATER IN THE SUN? Water is just the union of The gasses H and O-The sun's too hot to let them join But keeps them there just so. (Copyright.)

Inspired Writings

Burns wrote much "when he felt like it." . Many of his poems were inspired-driven from him by some familiar goddess of music and sentiment. He composed "Tam O'Shanter" at a white heat. Then, also, there is the trout, and Jefferson, who was ready the amazing instance of Beckford's to drop, suggested: "Vathek," originally written in French and later translated, and written, we home." are assured, at a single sitting. One of the world's masterpieces-a liter- ed Cleveland. "Here we've been fishary inspiration if ever there was one. -Boston Herald.

Champion

When the fleet came in recently, a bunch of gobs invaded San Pedro on carefree shore leave and it was not long before they got into an argument with some longshoremen regarding their respective athletic prowess and tific journal Nature. This plant, a physical supremacy.

"Listen, gob," bellowed a big fellow, "I've got a six-inch chest expansion." ing leaves in less than nine days, in-"That ain't nothing," spoke up the creasing their diameter at a rate of sailor. "See that black spot on my nearly a half-inch an hour. At that chest? When I take a breath, that's rate of growth they produce between a four-masted schooner."

Two Famous Fires

The great fire of London started September 6, 1666, and burned four days, sweeping 436 acres, destroying 13,200 houses, many public buildings and 90 churches, including St. Paul's cathedral. Property loss was estimated at between 8,000,000 and 12,000.000 pounds sterling, an enormous sum con- to rescue it from the dust and bread sidering the low values of that time. crumbs. He deigned not to touch it, The great fire in Baltimore, Md., oc- but with an easy flourish drew a fresh curred February 8 and 9, 1904. The one from his waistcoat pocket and adapproximate loss was \$60,000,000.

Fog Worse Than Storm

When a ship is rolling down to her scuppers in a heavy gale her passengers grow nervous and begin to regret their past sins, but when the same ship is groping her way slowly through a thick fog the passengers go to bed and sleep soundly. Yet, paradoxically enough, the greatest peril at sea is the fog. It has been the cause of more disasters than all the storms that ever blew .-- From "Sea-Lore," by Stanley Rogers.

Quiting at the Start W. H. Crane, beloved actor, used to tell the story of a day's fishing participated in by President Cleveland,

Joseph Jefferson and himself. They fished all day, and caught nothing. About six o'clock Cleveland got a lit-

"Now that we've got a fish, let's go

"You're the strangest man," retorting all day, and just as they begin to bite you want to go home!"-Kansas City Star.

Record Leaf Growth?

A giant-leaved water lily of Japan and China probably holds the world's record for speed in leaf-growing, according to a note in the British scienrelative of the Victoria regia of South America, expands its four-foot float-15 and 25 square inches of leaf in 60 minutes.

Whistler could play the actor, too. writes Rollo Walter Brown in "Lonely Americans." One day, while he lectured informally, his monocle slipped from his eye and rolled across the floor. A dozen ardent disciples rushed susted it in his eye as he proceeded

"She"

Obviously some of the old sayings do not apply any more. Take the one, "why is a ship called she?" for which the answer used to be, "because it takes so much rigging." What could be farther from the truth in this age

pounded to a college coed she replied

ter.'

Encourage Tree Planting

Property owners are to be encouraged to plant more shade trees, and garden club directors have outlined a manner of planting by which the appearance of property may be enhanced, and by which certain characteristics as between adjoining properties may be preserved. The recommendation as to trees especially suited for the local climate and soil should be valuable, indeed.

The plan to encourage tree planting in the parking strips of vacant lots is also well worth while, and helps to round out a program which should mean much in adding to the city's natural beauty.-Bend (Ore.) Tribune.

Consider Improvements

Now is the time to think about improving your home. Is your home new or out of date? Is it comfortable and convenient, or lacking in some of the things that make life sweeter?

If your answer shows that equipment is needed, then you should join the home modernizing movement.

You should devote your thought and efforts toward making the home a more pleasant place in which to live.

There is no need to delay. You can start now as well as later. And the sooner you begin your plans, the sooner you will enjoy the delights of a modern, well-appointed home.

Trees Along Highway

The new state highway department should make some arrangements with the land owners along the many highways of the state to beautify these driveways by planting roses and other beautifying flowers, and pecan trees along its edge. Let these trees overlap the highway and the public can gather the nuts that fall in the road. The land owners could donate the land and the state the trees. Let's have the beautiful as we go along. It is just as easy as having things that are not pleasing to the eye .--Centerville (Ore.) Press.

Careful Lawn Planting

Great care should be taken that one does not overdo the planting on his lawn in his zeal to make it attractive. Spotty lawn planting should always be avoided. Shrubbery should be massed effectively as border, screen and division and foundation planting; some evergreens should always be included: they are beautiful in themselves, and add a zest to the winter landscape that nothing else can equal.

The artist for last Sunday's Baltimore American included the home of write-up of an auto trip from Baltimore to Taneytown. The picture is an excellent one of one of our best known Baltimore St. homes.

Some think Christmas trees can't possibly increase the danger of fire; but just the same a fire that originated in a Christmas tree destroyed a \$150,000 home and buildings at White Plains, N. Y., last Sunday night. Two children playing at the foot of the by servants.

good orders for 1931 calendars!

Those who spent New Year's Day with Mr. and Mrs. John Harman, of Frogtown, were: Mr. and Mrs. Lewis Hyser and daughter, Ruth; Edward and Horace Davis, of Phiadelphia; Mr. and Mrs. Steiner Engelbrecht; Master George Harman; Miss Anna Harman, Tolbert Stonesifer, of Tan-eytown.
