BOARD OF EDUCATION MET WEDNESDAY

Teachers Resign. Bids Were **Opened and Contracts Awarded**

The Board of Education of Carroll County met in regular session on July 7 with all members present. The minutes of the last meeting were read and approved and all bills submitted ordered paid.

The Board accepted with regret the resignations of the following: Ruby R. Spencer, Claude Yowell, Earl Palmer, Helen Stakem, Kathleen Barnard, Dorothy LeFevre, Harold Eaton, Mabel Taylor. Mary W. Crabbs was appointed to

succeed Mrs. Spencer, clerk, and G. Watson Algire was appointed to suc-ceed Mr. Yowell who had been prin-cipal of the Hampstead High School for sixteen years. Mr. Algire has been acting as vice-principal in that attitude. Having been engaged for months in preparing the set-up of the convention which will be held next

school during the past year. The resignation of Robert D. Powell, janitor of the Westminster Elementary school, was also accepted. The appointment of Elizabeth Wodille and Cothering M Wodilla and Catherine Myers was

approved. The Board approved the recommendation of Truman B. Cash, insurance supervisor, on increasing the coverage on various school buildings of the county. This increased coverage was deemed necessary because of the in-

creased cost of replacement. Bids on stokers for several schools in the county were opened and the awarding of the contracts was left in the hands of a committee appointed by the president

The Board of Education was notified by the Register of Wills of the bequest in the will of the late H. Peyton Gorsuch. The superintendent was instructed to confer with the auditors and attorney in this matter. The contract for the repair to roofs

of various schools in the county was awarded to the Westminster Hardware Company for the sum of \$1598.20

The following district scholarships to Western Maryland College were awarded: Middleburg District, Ruth Magin (1 year); Uniontown District Rayona Hurley.

The superintendent reported a to-tal of \$52,219.35, representing the purchase of stamps and bonds by the school children during the school year 1943-44.

XX PYTHIAN SISTERS

On Tuesday evening the regular meeting of the Pythian Sisters Past Chiefs Club was held at the home of Mrs. Harry Clingan with 15 members and some guests present.

The meeting opened by singing America, followed by Scripture les-son read by the hostess, Lord's Pray-er. The minutes were read and the was issued, telephone users are asked to consult the new directory before making calls. Personal telehone roll-call was answered by members naming their favorite vegetable. The meeting was presided over by the Vice-President, Mrs. Augustus Crabbs. A happy birthday to you was sang in honor of the birthdays of two of the members, and they were each presented with a beatuiful hand-kerchief. It was decided to hold a reunion at Big Pipe Creek Park, on Sunday evening, July 30th. All mem-bers of the Lodge and their families are invited to be present and bring a basket lunch meeting at the Park at 6:00 P. M. A motion was made and passed upon to close the meeting with the Mizpah Benediction and to meet at the home of Mrs. Augustus Crabbs on Tuesday evening, Aug. 1, 1944. The hostess served refreshments.

The convention will open in Chica-go next Wednesday. It is called the Democratic convention and there will be many Democrats there, "hot under the collar." There will be many othman, Claude T. Ray Barnes, Scott S. Bair, Edward Arrington, Erman A. Shoemaker, Mrs. Randall Spoerlein, and Mrs. Gladys M. Wimert. Combined with a growing interest in a hospital for Carroll County and the knowledge that \$20,000 would be ment was very marked, though not all of it was outspoken. Former Mayor Howard W. Jackson, of Baltiers there, as for instance New Deal-ers and CIO representatives. It is a "foregone conclusion," they say, that President Roosevelt will be nommore, came out openly with the statement that he will not support Roose-velt. not issued orders as yet. It is a "foregone conclusion" that he can force the nomination of his own choice, as he did four years ago, when the convention swallowed Wallace, though it was under violent protest.

The situation is mixed. Wallace, of course, wants another chance, and the President is said to favor him, but some of the rabid New Dealers are up in arms against what they call a conspiracy to "sacrifice" Wallace, and on the other hand parts of the South are outspoken in their opposition to Wallace. Before the balloting starts for second place it is expected that a telephone message will go from Washington to Chicago, and that the matter will be then settled. We do not know how long the con-vention will last. It is supposed that it takes time for a lot of deliberation when it comes to selecting candidates for the presidency and vice-presi-dency and for the framing of a platable to a project similar to the hospi-tal in LaPlata, a 25 bed hospital, that was built, furnished and equipped in form to which the nominees are to be required to subscribe.

PLAYGROUND

The playground opened on Monday as was scheduled. Mrs. Mary Wilt who has been in charge during the opening week reports that there were close to 70 children in attendance on the first day. She also reports that the children were eager to put into action the various sliding boards, swings, seesaws, etc., and that they were very happy. And she says the conduct has been ideal.

The committee is pleased to report that the Town Council has added much to the comfort and wholesomeclean fresh drinking water and other necessary adequate facilities. We are very grateful for the kindly at-titude of our Town Council members in hehalf of the children, and we feel a great sense of security to have them behind this worthy project.

We hope to have many attractive programs at the Playground as the summer continues. You will hear about them!

The Taneytown Kiwanis Club held its regular meeting on Wednesday evening, July 12, at the Hoffman Urphanage, near Littlestown, President Clyde L. Hesson, presiding. There were present fifty-three members and guests, the occasion being a "ladies night".

The dinner was served in the large dining hall of the institution and was shared with the Superintendent and his family, and the boys and girls of the Orphanage. The members and guests availed themselves generally of the cordial invitation of the Superintendent to visit the various building of the Orphanage, especially the beautiful chapel, erected a few years ago. Rev. Arthur L. Leeming is efficient Superintendent of the institution.

Group singing led by Harry M. Mohney, with Mrs. Wallace Yingling at the piano, featured the program Mrs. Yingling also led the children in singing as a separate group, as well as with the whole group. Miss Dorothy Kephart gave a reading, which was a humorous picture of scenes and experiences in school.

As the final feature Superintendent Leeming showed three reels of sound pictures, the first being a fire-side sing-fest, the second a highly amus-ing comic, and the third a children's picture, the bathing beauties.

Effective July 1, the OPA announced a ceiling price on cucumbers. The price is \$2.00 per bushel-minimum weight 48 pounds. All farmers are covered. We would like to give the price per serving of dill pickles at that rate, but it is entirely beyond our mathematical ability. Perhaps some of our housewives or expert guessers can tell us how many tiny cucumbers there would be in a bushel. Md.

Use of party-line service by telephone subscribers is definitely aiding the war effort, since the scarcity of critical materials prevents the telephone system from being enlarged is more important than ever that neighbors sharing the same line be considerate of one another. Good telephone neighbors make calls as brief as possible, do not call several numbers in succession, avoid interrupting conversations, answer their telephone promptly and hang up the receiver carefully. If everyone on the same line cooperates, then all will receive good party-line service. -11-

SERVICE MEN LETTERS

Dear Sir:

I am dropping you a few lines tell-ing you that I have arrived safely overseas. I am somewhere in England. I miss your paper very much, as it always has the happenings in and around town. I do hope that I can get it over here, so I can keep up in town

When we all get town papers it makes us feel close to home. It gives us all more of a life in spirit. We had a swell trip over here, but it will be much better when we all can go back to our homes to stay. At this point I like to say hello to all my friends around town, and keep up the good work as we soldiers are doing our part every day over here. I also want to thank your Co. for the good work they are doing with the Record. Will have to close as it is meal time Good luck to you all.

Pfc. JOHN O. GARNER.

Dear Editor:

A line to let you know of my change in address, so that I can keep on receiving the paper. We had quite a trip down here, it was dirty but it was soon over. This is one of prettiest naval bases in the United States and upon entering it one can easily see why. It lies along the Gulf of Mexico and there are bays around us where we can go swimming in our free time. I will have to close as it is almost time for "lights out" thank-ing you for the paper. HE LOVED HIS COUNTRY

The Editor of The Cumberland News encouraged people to read Washington's "Farewell Address" on the occasion of the observance of the Fourth of July anniversary.

He termed the farewell address of the nation's first president as "one of the most magnificent human documents in existence, a great leader's last best wishes for his fellow countrymen." He continued:

Washington spoke out against factions-"to put in the place of the delegated will of the nation the will of a party, often a small but artful and enterprising minority of the community.'

These factions, he wrote, "are likely in the course of time to become potent engines by which cunning, ambitious and unprincipled men will be enabled to subvert the power of the people, and to usurp for themselves the reins of government, destroying afterwards the very engines which have lifted them to unjust dominion. . The disorders and miseries which result gradually incline the minds of men to seek security and repose in the absolute power of an individual, and sooner or later the chief of some prevailing faction, more able or more fortunate than his competitors, turns this disposition to the purposes of his own elevation on the ruins of public liberty."

This is the kind of government, he wrote, which "agitates the community with ill founded jealousies and false alarms; kindles the animosity of one part against another. It opens the door to foreign influence and cornot to be guenched.

Economically the evil of drink is an incubus and a parasite on legitimate trade.

Physically its results are disastrous Industrially, it is destructive of skill and efficiency.

Socially, it is a prolific source of overty, unemployment, and crime. Spiritually, it is the enemy of all that is good.

An editorial comment on revenue received from the traffic, reads:

If it could be shown that such revenues (liquor) paid all the expenses of the government, it would remain a tragic spectacle for a Christian civilization to consent to derive its revenues from the vices of the people. For the church to come to any sort of terms with the beverage liquor traffic is to betray the human family.

-22 FREEDOM IN LAP OF CONGRESS

Instances of unjustified regulatory oppression in the name of the war emergency, are accumulating with frightening rapidity. Even more frightening is the growing evidence that the citizen cannot seek relief from this oppression through the judiciary. Recent attempts to secure court review of War Labor Board decisions and OPA price decrees have revealed that the "emergency" laws creating such agencies are so drawn as to either deny recourse to the regular courts or, as in the case of violation of retail price regulations, make of the courts mere instruments of harsh enforcement.

If a retail merchant violates a price because that is what the Emergency law it doesn't matter if the overcharge is as little as one cent, or if it est mistake of the merchant or his and hatred. employee. The good faith of the snoop and shyster lawyer in the coun-

There are any number of reasons Reports on the President's physical condition have been alarming. He is surrounded by a clique which Americans do not trust. And besides, his running mate will, in all likelihood, be Wallace. And Wallace is hairbrained.

It's time for America to have an American government. This country believes in cooperation, but not at the price of sacrificing its sovereignty. Both the English and the Russians, as well as other nationalities, should be made to realize that, henceforth, America will be governed for Americans, and not for outside interest. And what is more, it should me made clear that America will remain a constitutional democracy, and not become a Communist dictatorship, a Fascist bureaucracy or part of the British Empire. Independence, selfinterest, and international cooperation-with reciprocal cooperation demanded of other countries-should be the bedrock of our international policy

Americans will follow the coming campaign with the profoundest interest. They welcome a clear-cut choice between New Dealism, with all its befuddled ideas of superworld governments, and candidates who, we believe, will have a sane, constructive American program to offer a harassed and long-suffering electorate. Thus every petty establish permanent peace among nations, but the education needs to be try is encouraged to search for the democratic and to reject bigotry. Germany has had plenty of education of the Nazi type, but it became subservient to the government, which was ruled by military power, and hence it helped to promote war instead of prevent it. A broad and tolerant education would lead young people everywhere to reject the idea of military domination, and try to advance their own prosperity by scientific achievement and industrial development. It would establish principles of justice between nations, and between classes and elements in the internal life of a country. It is very important to the American people that the people of Germany shall get that kind of education in future years. The Nazi youth were trained to look at military force as the means by which a country can make progress. The American educational system is the best in the world. It has brought up young people who believe in peace, and who regard war as a terrible calamity. Yet it has given them such strong loyalty to their country that they cheerfully accept military service to defend it when the country is attacked. The people should heartily support their schools, and assent cheerfully to such taxation as is necessary to give the young people a good training for useful service in the world .- The Caroline Sun.

He urged, too, the avoidance of encroachment by one governmental department upon another. "The spirit of encroachment," he said, "tends to consolidate the powers of all the departments in one, and thus to create, whatever the form of government, a real despotism."

All this was written to the people of America in 1796-one hundred and forty-eight years ago-by a man who loved his country.

PACIFIC WAR

One of the most interesting portions of Secretary Forrestal's latest summary of the Pacific war-which included announcement of the sinking of 17 enemy ships by submarineshas to do with Japan's dependence on imports. At least a third of all Japan's wartime consumption must come from overseas

And the story does not end there, for this quantitative one-third includes many strategic items, iron, oil, even food, that are essential if Japan is to continue to fight. Of course, these things can be stockpiled as they probably were before the war, but Mr. Forrestal speaks of evidence of shortages appearing in the field.

Japan's sea lines to her booty in the stolen Indies and Malaya are der some stricture now from American and British submarines. From oneprewar merchant marine now lies on the bottom.

The new bases on Biak and, soon, on Saipan do not, it is true, quite permit severance of those sea lines celerates. Soon the wings of Allied Japan will tighten.

Japan then will face an extremely difficult supply problem, with its free men if we submit to being the army engaged with Allied troops on the China mainland, far from home. -Christian Science Monitor

inadverted penny mistakes of retailers with the assurance of a rich reward for each mistake found.

One judge, in passing sentence under this travesty of democratic government, stated: "If there is any element of justice, morality or right in compelling a respectable and honest merchant such as the defendant in this case, at such a time as the present when experienced clerks are scarce and hard to obtain, to pay a penalty of \$50 for an innocent mistake of ten cents by an inexperienced clerk, in which the employer who is so mulcted had no part whatever, I have failed to discover it."

The war emergency and fear of inflation have driven the country to the verge of despotism. Congress is the last official body to whom the people can turn for relief. It can rewrite the laws and curb the authority of administrative agencies now threatening the foundation of American freedom.-Industrial News Review.

CONSUMING DESIRE ESSENTIAL

The United States came into being because a majority of our public leaders and the people were consumed with a genuine desire to be free men and the masters of government. What? No Telephones!

New Service

WE HAVE today on the wait-ing list for Maryland about 25,000 applications for home telephone service. Some of these are many months old.

The reason for this is a wartime shortage of telephone equipment, the manufacture of which, for civilian use, was practically suspended late in 1942.*

Plainly stated, the chances of filling an order depend on (1) the disconnections of present services which release facilities that are promptly reused; (2) the demands for war and essential civilian services which cannot wait.

While a considerable number of older applications will be filled during the year, it is not possible to predict when any given service can be installed. Until conditions change, the waiting period for those who apply now will be long.

But we promise this: No application will be forgotten and all will be filled in their proper turn as facilities permit.

If You Are Planning to Move So far, it has been possible to move many services from one address to another within the same town, but it does not follow that we can do it in all cases, so we suggest you call our business office if you are planning to move and if your need for a telephone might affect your plans.

Extension Telephones

COME, for whom we have moved Service, have learned that we could not give them the extension telephone they had at their old address. This is because of the Government order-a fair one under the circumstances-that only one instrument may be connected in a home. The purpose is to spread the use of existing instruments at a time when new ones are not being made for civilian use.

CPEAKING for all telephone peo-D ple, we don't like to say "No" or "We don't know when." We think we understand your disappointment when, moving into a new place, you find the previous tenant's instrument must be put back into the "pool" to fill an order ahead of yours, or when you ask how long you may have to wait, we are unable to tell you.

But, so long as fighting men have first claim on telephone equipment and until the manufacture of it for civilian use can be resumed, we will have to keep on as best we can.

Meanwhile, we genuinely appreciate the cooperation and understanding you have given us.

* The War Production Board has announced proposals for the manufacture of a limited num-ber of telephones. However, it will be necessary to retool and install machinery for this purpose, so it will be quite some time before deliveries of new telephones can start, and shortages of switchboard and outside wire capacity will still remain

How much does it cost to bomb Berlin?

SUPPOSE, in the dusk of an English evening, 1,000 huge bombers soar over the Channel and head for Berlin.

By the time those planes return to England, their motors will have consumed 2,400,000 gallons of gasoline! .

The cost . . . of the gasoline ALONE will be more than \$380,000.

To pay for the gasoline used on ONE such raid, 96,000 Americans would have to invest at least 10 percent of their next pay check in War Bonds!

You get a big kick out of reading about those 1,000-plane raids. You know that such raids, if repeated often enough, will soften up the Axis. But . . .

What are YOU doing to help pay the cost of those raids? (In addition to the gasoline they use, it costs Uncle Sam TWO HUN-DRED MILLION DOLLARS to build 1,000 4-motored bombers . . . plus the cost of training the 10,000 men who make up their crews!)

Modern war is expensive business . . . its cost runs into fantastic figures. 30,000,000 American wage earners are now putting an average of 10 percent of each pay check into War Bonds every pay day . . . but still it isn't enough!

Our air raids on the Axis are increasing in frequency and intensity. When land operations really get going, the cost will be staggering.

More and more Americans must join the Pay-Roll Savings Plan . . . more than those already in the Pay-Roll Savings Plan must begin to jack up their War Bond purchases ... must start to invest more than 10 percent!

Remember . . . War Bonds are the finest investment in the world today. You get back \$4 for every \$3 you invest. And . . . the more War Bonds you buy now, the quicker the Axis will be licked . . . and the less the war will cost in the long run.

Think it over. And every time you're tempted to put a nickel in something you don't absolutely need-put it in War Bonds instead!

Bride Loses Suit For Boy Husband

Sad Story of Romance of Marine Sweetheart.

CAMBRIDGE, MASS .- Romance had a bad day in a Probate court recently when an 18-year-old bride of a month-once voted the sweetheart of the marine corps-lost a legal fight to get her 16-year-old husband out of the custody of his parents.

She is the former Mary Ann Brydges, whose "sweetheart of the marines" title was bestowed in a contest in 1942 and followed by the girl's appearance in New York on a radio program. On February 26 she was married at Town Gates, N. Y., to Joseph Patrick Mulligan Jr., a high school junior and former schoolmate, who neglected to consult Jos-eph Patrick Mulligan Sr. concerning his plunge into matrimony.

A sad story of an interrupted honeymoon was related by the bride be-fore Judge John W. Monahan while the Mulligans, stern-faced senior and red-faced junior, listened with varied emotions.

Mary Ann said she had the blessings of her own family on the marriage and had financed the venture with \$30 she had earned.

Tulagi Native Makes

A Trade With a Yank HUMBOLDT, IOWA. - Corp. Richard Shlievert, home from the southwest Pacific, relates this merchandising sidelight: An American soldier at Tulagi carved a pipe and sold it to a native for \$15. The native displayed it to a second American who gladly paid \$75 for it and who still thinks he has a rare piece of native handicraft.

Hunt Graves of Yanks in Tunisia

Band Prowls in Mined Area To Recover Bodies.

GAFSA, TUNISIA. - A grim little band of American troops has been prowling through the mined and booby-trapped Tunisian hills to locate isolated graves of doughboys who were buried hastily on the battlefield.

The bodies are being transferred to ever-growing American military cemeteries sprinkled across Tunisia. Exploding mines have wounded several of the searchers, but they have brought in scores of bodies that otherwise might never have been recovered.

"It's easy enough to locate the plainly marked graves," said one of the graves registration workers, Sgt. Donald McHenry, an actor from New York City. "But a lot of Americans were buried by Arabs who stripped their bodies of their clothes before burial. The Arabs didn't mark the graves - and don't like to tell where they placed the bodies."

McHenry, however, has won the Arabs' confidence by giving them cigarets and candy and by doing his best to carry on friendly chats in pidgin French.

"Finally an Arab will admit he knows where one American is buried," said McHenry, "but when we get to the burial place, there will be several bodies. And when an Arab is convinced that I'm not going to shoot him for stealing, he suddenly 'remembers' where there are other graves."

Although the Arabs steal a soldier's clothes, they seldom take his "dog tags," which carry his own name and that of his next of kin.

Women Now Head Family

In 5 Million U. S. Homes WASHINGTON. - Women "wore the pants" in 5,302,940 of America's 35,088,840 families even before the draft took fathers, a survey based on the 1940 census and made public by the U. S. census bureau showed. In 1,909,900 cases, the women family heads themselves constituted

their entire family, but were never-theless counted as one-person families and accordingly the heads of those families.

The survey showed that 3,326,080 of the women family heads were widowed; 393,520 divorced, and 898, 340 single.

Housing shortages by 1940 had put. lodgers in 2,858,560 of the nation's total households, the survey showed.

WHEAT LOAN VALUES IN-CREASED

An advance of seven cents per bushel in wheat loan rates was announced last week through the State office of the Agricultural Adjustment Agency at College Park. This in-crease applies to all grades of wheat at all points.

The increase makes the loan rate for No. 2 Red Winter Garlicky wheat received by rail in Baltimore or Phila-delphia \$1.63 per bushel. Corresponding increases are applicable to wheat stored on farms or in approved county elevators. The county prices on the grade referred to above range from \$1.50 to \$1.54 per bushel, de-pending on point of origin.

The increase in loan value, accord-ing to Joseph H. Blandford, Chairman, of the State AAA Committee, was made to bring the support price on wheat more nearly in line with the price on other farm commodities. The new loan rate is based on 90% of parity, adjusted for type of wheat and locality. Mr. Blandford expects this announcement to have an immediate effect on the recently falling market price on new wheat

WELFARE BOARD MEETS

The County Welfare Board met in the local office, Westminster, on Monday, July 10. This was the first meeting for three new members. Mrs. DeVries R. Hering, Sykesville, and Mr. Sterling R. Schaeffer, Westminster, have been appointed for six year terms and Mr. Norman R. Hess will be the County Commissioners representative, appointed for a one-year term. Retiring members are L." Pearce Bowlus, Mt. Airy, and John S. Barnes, Winfield, each having completed his respective term of office. The four remaining members of the Board are Dr. Charles R. Foutz, Mrs. John D. Young, Paul J. Walsh and

Jonathan Dorsey Officers appointed for the coming year are as follows: Chairman, Dr. Foutz: vice-chairman, Mrs. Young, and secretary, Mrs. Hering. The regular Board meeting day will be the first Monday of each month.

Members were reminded of their specific duties to the Board, some of which are to consider the community's unmet needs, to assume leadership in social welfare, and to evaluate present policies, making known to the State Department of Public Welfare the needed changes and improvements.

The financial statement showed that checks totaling \$6,901.24 were issued in June to 260 aged rersons, 4 blind, 48 children eligible under the Dependent Children Act, and 39 families including 85 adults and children, classed as coming under the General assistance group.

During the same month 9 old age assistance cases were closed and 4 new applications approved. During the past six months a considerable re-duction has been made in the number of persons receiving old age assistance grants. Many are now being as-sisted by their children whose financial ability to support has increased.

BASE IN ENGLAND .- The Flying Fortress Spare Parts was forced to turn back from a raid on Berlin because of mechanical difficulties and was about ready to jettison its bombs in the channel.

Then Lieut. George H. Nye, 27, of Compton, Calif., the bombardier, spied a Nazi airfield. Drawing a bead with the toe of his flying boot as a sight he dropped his bombs. They tumbled into the operational building beside the airdrome, sending up a big column of smoke.

German defenders of the field, caught by surprise, failed to take a single shot at the lone Fortress.

400-Year-Old Murders **Bared by Allied Bombs**

LISBON .- A murder mystery 400 years old has been uncovered in the Italian city of Viterbo by Allied aerial bombs, according to a Rome dispatch in a copy of the Hambur-ger Fremdenblatt received here.

The dispatch said the bodies of two men and a woman, all with fractured skulls and clad in 16th century dress, were found in the sarcophagus of Cardinal Vice Domini when preparations were made to move it from a bombdamaged church. The cardinal died in the 13th century.

A 16th century murderer, the dispatch added, apparently hid the bodies in the sarcophagus.

Yanks in India Have Good Malaria Record

PHILADELPHIA, PA. - Because of better general health and nutrition, American troops in India withstood malaria better than natives of malaria ridden regions, Lieut. Col. Thomas Fitz-Hugh, army medical corps, said at a meeting of the American College of Surgeons.

"American mortality from the disease has been less than one-tenth of 1 per cent, while among our Chinese allies it ran as high as 1 per cent," he said.

"I think this illustrates the benefits of the American background of general good health and better nutrition.

LOCAL GUERNSEY BREEDER STARTS HERD ON OFFICIAL TEST

Andrew J. Hoff, Walnut Bottom Farm, New Windsor, has started his Guernsey herd on official production test in the Herd Improvement Di-vision of The American Guernsey Cattle Club.

The production and butterfat content of each cow's milk will be checked at least once each month with one surprise test and preliminary milking required during the lactation. Testing will be supervised by the University of Maryland and reported to The American Guernsey Cattle Club for verification and publication in the performance register.

MRS. PALFREY HOWARD II reached for one of the new genealogy volumes, and drew it from the shelf. There were five more records of her family and Palfrey II; a surprise gift for her soldier sons when they should come home with their fighting achievements to be added to the family records.

It was a proud old room, the library. Palfrey II viewed it from celestial regions, if at all, and the boys-one in Australia, the other on Guadalcanal-had not seen it since their mother had assembled the ancient family furnishings and hung the ancestral portraits.

As she opened the book, the cupboard door of her memory unlatched and a familiar chuckle slipped out. "At it again, old girl?" The chuckle and question were as natural as when Palfrey II had been a rotund earth dweller.

"I know Palfrey, that pride in our New England lineage always amused you," Mrs. Palfrey an-swered aloud. "But surely the boys will care after this war. It's the thing they are fighting for!"

"Did you 'speak, ma'am?" the voice of her maid asked from the doorway.

"No, Mollie. What is it? Oh, you have letters! I hope they are from the boys!" She rose eagerly. "They are, Mollie! That's Pal's writing. The other's from Win! I'd know his scrawl in Egypt. How wonderful to hear from them both at the same time!'

"It is indade, ma'am. I hope ye'll be findin' them both fine."

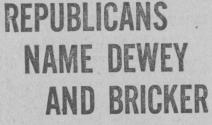

Mrs. Palfrey used a plebeian wire hairpin to slit the envelopes, ignoring the antique ivory cutter. Her lips moved as she read the first paragraph of each letter almost audibly. The maid lingered. "They are both safe, Mollie," Mrs. Palfrey announced soon, with happy tears in her eyes. She would read Pal's first-Palfrey Howard III, with the troops in Australia.

"Dear Mother:" (the letter ran)

"I'm O.K. Hope to come home on furlough, if our commander can arrange transportation. I've been in hospital. I'm all right now and I'm coming back to help finish this job as soon as I can carry a gun. Got a load in my shoulder, but it won't be long now.

"I have a surprise for you, Mother. I'm married to the sweetest Australian girl on the whole conti-nent. Her name is Sidna. You'll love her, Mom. We might blow in any time. You'll be nice to Sidna, won't you? I'll have two weeks and then off to wherever Uncle Sam needs me most. We figured it this way, Sidna and I—we've both kept clean and straight, so we think we ought to raise some pretty fine kids to grow up in the new world, once we get it safe for them. Some fresh blood in the family, eh, Mom?

"Here's hoping we see you soon. I want you to know Sidna because we plan to settle in Australia when we've finished mopping up. 'Love.

JOHN W. BRICKER of Ohio

That is the ticket unanimously named by the 1,059 delegates, with and bluffer; you cannot be a humbug an equal number of alternates, at a quack, dupe and hypocrite; and still the Republican national convention in Chicago. Those delegates re-haven't been ordained in that fashion in Chicago. reived no direction or instruction from political leaders. They had been sent to Chicago by the people in their home states, the Joes, Johns, Dicks, Harrys, Marys, Janes and Sallys, to do the bidding of that great rank and file body of Republi-

can voters of the nation. The home folks, from Maine to California, from the Canadian line to the Gulf, knew the man they They always failed. to the Guil, knew the man they wanted as a leader, the man they wanted in the White House, and would brook no compromise with their demands. They demanded Governor Dewey, and the delegates they sent to Chicago did the bid-ding of those who sent them, and drafted him as they were directed drafted him as they were directed. So far as the selection of a candi-date for president, of a leader, the convention was over before it started. The few states in which the people thought otherwise, and the limited number of delegates, who had thought of other candidates, recognized the general demand, and before the first session of the conven-tion had opened on Monday morning such a preponderance of delegate votes had lined up for Governor Dewey there was no question of whom the people wanted and demanded as a leader, and other candidates accepted the verdict.

ject or any point was there any evi-dence of even the slightest friction. There was a universal spirit of unity unusual in any great national partisan gathering. With that unity was displayed a steadfastness of serious purpose expressed by wild demonstrations of approval. They had gathered in Chicago to do those things needed to save the American way of life, to preserve American freedom, to maintain constitutional government.

I have seen many conventions of both of the major political parties of the nation. I have never before attended a convention in which there was such an entire freedom from friction, such an entire unity of purpose and approval of leaders and policies, such a sense of patriotic devotion, such an utter ab-sence of political squabbling, such and an entire submission to the will of the mass of the people. The atmos-phere was more that of a great religious revival than a partisan political gathering.

He rises when he is due. At night the stars shine if conditions are right. No man can alter this situation. God directs the machinery of the universe. And he does so in a orderly manner. And yet, man can harness these forces and use them to good advantage. That's what we usually say, "harness the forces of human nature." It would

be more appropriate to say, "harness ourselves so that we are adapted to the forces of human nature." You cannot murder, steal and lie;

"Pal." The sheet dropped from Mrs. Pal-frey's hand. Pal married! To an Australian girl! Planning to live in Australia! With trembling hands and half dazed, she drew out the second letter. Winthrop-her baby-bearing her father's name.

'Dear Mom: "Pal got word through to me and we hope to come on the same trans-

port. I'm slated for a furlough, too. I've been in hospital but the Japs didn't get this baby. I'm fine. Just wobbly, that's all.

"Say, Mom, do you mind if I bring a couple of my buddies home with They're getting out of hospital me? too. Swell guys—Abie Levine and Mike O'Hara. Abie's my bombar-dier, and Mike's my gunner. And boy, what a job we did on those little yellow bugs! They don't come any finer than Abie and Mike. We're brothers forever. I want to show them what a home and a swell mother are like. They don't remember either. We could all stand some of Mollie's cooking. See you soon we hope. Of course we can't be sure.

"Love, "Win."

Abie Levine! Mike O'Hara! Mrs. Palfrey was stunned. "We're brothers forever." She gazed into the leaping flames. Palfrey Howard III, whose ancestors had founded this country, married to a girl of un-known parentage. It did not occur to her to concede pioneer stock to a girl of another country. And Winthrop-fraternizing with the sons of immigrants!

The fire burned low. At last Mrs. Palfrey's jeweled hands were clasped, and she prayed softly, "Oh, God, I thank Thee that my boys are safe. Nothing else matters. But, God, help me to be as big as my boys!" She rose resolutely and rang for the maid. "You know, Mollie, she said, "I'm not so sure the boys will like this room after all. I think we'll bring back that etching Win always liked, and the lake pictures." "Thim's more warmin'," the girl answered simply.

A half-hour later two messages winged into space in the hope that in some way they would reach her boys. One read, "Can't wait to get my arms around you and Sidna." The other, "Certainly bring Abie and Mike." Both were signed "Mother.'

There was but a limited amount of even mild "viewing with alarm," no time wasted in violent denunciation of the opposition though the opportunity offered was great. The thoughts of the delegates, the selected officers of the convention and the speakers, were centered on the constructive moves and methods needed to restore to the people the freedoms guaranteed by the Consti-tution and the Bill of Rights.

A People's Convention

Of the 25 national conventions of Of the 25 national conventions of the two major political parties I have reported since 1896 the Re-publican gathering of 1944 was re-markable for the serious considera-tion given to the needs of America ** at this time of war and during the formation of that lasting peace that must be provided for the future. It was unique, also, for the determi-nation to follow the wishes and de-** mands of the people with no effort or thought to promote the interests of political leaders. It was in every sense, a people's convention in which ballyhoo had no place, but an interest of the interest of the sense. extreme patriotic enthusiasm was manifest.

The formalities of the convention followed the established procedure of such gatherings. Harrison Spangler, Chairman of the National Committee, called the convention to order shortly after ten o'clock on Monday morning. At that session Gov. Earl Warren of California was elected as the temporary chair-man. At the Monday evening ses-sion Governor Warren presided and delivered a ringing Republican keynote address that was far more constructive than condemnatory.

In that address he sounded the program of constructive legislation the party promised the people of the nation, legislation that would

SUCCESSES AND FAILURES OF ISRAEL

LESSON TEXT-Judges 2:6-16. GOLDEN TEXT-Righteousness exalteth a nation; but sin is a reproach to any people. -Proverbs 14:34.

The success or failure of both nations and individuals is ultimately determined by their attitude toward the law of God. He is always right and true. The constant factor in a world order that swings wildly from one extreme to another, is His law, which is perfect and eternal.

God is no respecter of persons. Even Israel, His own chosen nation, found that observing God's law meant blessing, and failure to do so brought judgment and sorrow. No man is great and powerful enough to ignore this rule—and none is exempt from its operation.

I. Remembering God Brings Blessing (vv. 6-9)

Although Israel had not fully obeyed God's command, and had been rebuked by an angel of the Lord for their failure (Judg. 2:1-5), they had come into a measure of their inheritance under Joshua.

They now possessed that inheritance and entered into enjoyment of it (v. 6). It is one thing to have an inheritance, but another thing to claim it and make use of it. Countless Christians have never taken out their inheritance in Christ. All they have is the earnest (Eph. 1:14) or "down payment."

God never meant that any child of His should live a poverty-stricken spiritual life, or should go halting on first one side and then the other., He has made provision for a full-orbed, strong and joyful life. Why not enter upon your full inheritance in Christ now?

As the people of Israel took possession of the land, they went for-ward in the way of blessing as long as Joshua, and the elders who remembered God, kept them steady and true. We have here an excellent illustration of the power of a godly example. It is far stronger than we think.

II. Forgetting God Brings Backsliding (vv. 10-13).

The fact that a people has been highly privileged and has been exalted to a place of power and honor will not save it in the day when God is forgotten. Israel no longer had God-fearing men to bring it back to God, and so began its awful drifting away from God.

We Americans are rightly proud we Americans are rightly proud of our great land, its mighty re-sources, its fine past and promising future. But wait—what is the future to be? Oh, we say, the most glori-ous days are ahead. They may be, but only if we, like our forefathers who established this nation record

Harrison Spangler, Chairman, Republican National Committee: The Republican party believes in the Constitution as our basic law. It believes in Constitutional, Billof-Rights government. It does not believe that representative gov-ernment can be short-cut with-out, sooner or later, being short-circuited. We do not believe, like todayie totalitoriane today's totalitarians, in govern-ment by men. We believe, like our forefathers, in government by law.

Republicans Will Win In '44!

In '44: Victory nationally is in the offing for the Republican Party. This is so because the trend is that way. Practically every election through-out the country since the general election of 1942, even in the ham-lets and villages, has been Re-publican... The Republican party will win nationally and throughout the states next November because, as Democrat Jim Farley says: "The people are tired of being kicked around." They are fed up on regula-tions, edicts, manifestos, directives and what not foisted upon them il-legally and unlawfully with no man-date of Congress behind them. They are sick and tired of being governed

Iron Ore Production

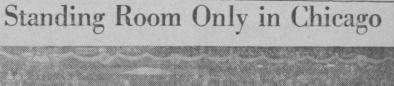

The United States is the largest producer of iron ore in the world, with an output of 75 million tons in 1940. It is also an importer, nor-mally receiving two or three mil-lion tons a year. France was the second largest prewar producer, with more than 30 million tons a year. The Soviet Republic was third, followed by Sweden, Great Britain, Germany, Luxembourg, Algeria, India and Spain. The war caused an increase of production in most countries; 1940 production in the United States was half again that of 1936.

who established this nation, recog nize God. If we do not, America will go the way of the forgotten empires of centuries past, and that in spite of all its past achievements and its present promise.

Let us always remember that America is not some vague entity apart from us, for we, you and I, are America, we determine what it shall be, and how it shall relate itself to God. Let us be sure that no one we know ever forgets God.

It is a significant thing that the leaders of our nation so often come from Christian homes, but it is sad that they are so frequently not Christians themselves. Their lives are shaped by the teaching and influence of godly parents who reared them, but what will their children do if they are not brought up in the fear and admonition of the Lord?

Forgetting God is bad enough in its immediate results, but just ahead there is great and certain disaster.

III. Forsaking God Brings Judgment (vv. 14-16).

God not only will not hold a backsliding nation guiltless, but will bring judgment even if He has to turn over His people to a despoiling nation. He has instruments of individual and national chastisement, and He is ready to use them.

Notice that wherever they went the Lord's hand was against them. There is no place to flee from the presence of God. Anyone who thinks he can do it, should read Psalm 139:7-12. It can't be done. That is a comfort to the believer, but it is not a little disquieting to the unbeliever.

God, however, always remembers mercy in the midst of judgment (Ps. 101:1). He sent judges to deliver Israel, when He was sure of their repentance (v. 16). "If there was ever a time when nations needed deliverers, it's now. The systematic looting of subjugated peoples, the deliberate murder of multitudes of Jews, the mass executions of many innocent people in reprisal for some patriotic act of resistance, are evils that cry to heaven.

"If men would call on God not merely for deliverance but in real repentance for sins committed 'perhaps the God who delivered Israel' would send deliverance to suffer-ing people still" (Arnold's Commentary).

Well-why not call on Him now, in earnest repentance and faith. Will you do it?

FARMERS are buying War Bonds to help make it possible for their countrymen fighting on the battle fronts of the world to defeat the armed forces of the aggressor nations. As a whole, farmers have shown that they are willing to make as many sacrifices as any other group in order to win the war. In proportion to their net incomes, they have and will continue to purchase their full share of War Bonds, which consti-

tutes one of the important means for obtaining money or credit to finance the conduct of the war.

While farmers would help finance the war for patriotic rea-sons alone, fortunately War Bonds also serve to help them accomplish certain personal welfare ends. Among these ends are the future security of their farm busi-ness and the attainment of certain accomplishments for their famaccompnishing the war, at least half of the productive effort in indus-trial plants is being used to pro-duce the instruments used for fighting. This means a shortage of goods available for airdian goods available for civilian purposes, both for production and consumption. Farm machinery, buildings, fencing materials that buildings, fencing materials that are depreciating and wearing out with use cannot be replaced at the usual rate. The ability to main-tain as good a standard of living as we have under wartime con-ditions is to a considerable extent explained by the fact that we had acquired durable capital goods be-fore the war which are being worn fore the war which are being worn out in production during the war. By purchasing War Bonds with the money which normally would be used for replacements, safe keeping is provided for reserves which can be used after the war to purchase new machinery huild to purchase new machinery, build-ing and fencing materials not

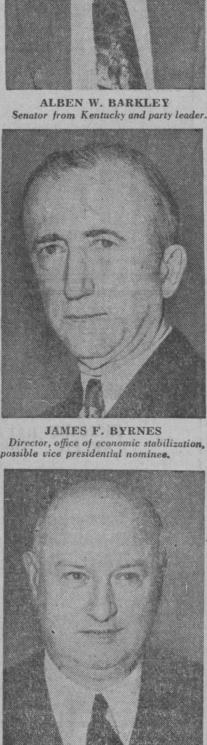

ing and fencing materials not available now. There is also an income which would be normally spent for dur-able consumption goods. By spending as little as possible now, formers help to prevent further farmers help to prevent further inflation in the prices paid for the inadequate supply of manu-factured goods for civilian pur-poses and also by refusing to fol-low the upward spiral of land prices they can help prevent up prices, they can help prevent un-due inflation in land prices. While we hope that farm prices

While we hope that farm prices will not drop too severely, it seems fairly certain that wartime prices will not continue indefinitely after will not continue indefinitely after

the war ends. Many farmers are wisely investing as much as pos-sible of their wartime cash incomes in War Bonds as a sort of comes in War Bonds as a sort of prudent insurance to protect the family against the hazards of a possible low income period some-time in the future. It also serves to provide a special reserve fund for sending the children to col-lege when they reach that stage in their development.

For the tenant farmers, War Bonds furnish an excellent means for creating a reserve for the down payment on a farm, when more farms are for sale at normal prices. Past experience has shown that the tenant farmer who has accumulated his operating capital and is ready to buy a farm at a time when a land boom is raging, will do better to remain a tenant a few years longer. The increased cost of land rents when prices of form products are at high land farm products are at high levels is small compared to the capital losses on a 160-acre farm that de-clines 25 dollars per acre below the purchase price, due to lower prices for farm products. It re-quires a good part of the produc-tive lifetime for most people to save \$4,000, for about ten dollars must be earned in order to save one dollar. In any event, it is a serious matter for anyone to lose the savings accumulated from many years of productive effort. This did happen to many thou-sands of both farm and non-farm families during the drastic decline in prices following World War I.

As contrasted with the last war, farmers are following sounder financial methods. More of them are aware of the truism that prices rise when many are eager to buy, and that prices are low when sellers are plentiful. From the standpoint of personal finance, usually only those things unlike usually only those things which are immediately necessary should be purchased when prices are high. If credit is used to gain high. It credit is used to gain ownership control over land or any durable production goods at materially higher prices, the source of repayment should be in sight within a relatively short time, a year or two at most. In general, it would be advisable to incur only short-time debts which can be remaid before prices fall can be repaid before prices fall. War Bonds furnish a convenient investment medium to help farm-

mean the preservation of constitutional government, and relief from the bureaucracy and extravagance of the present administration. When on Tuesday, Representative Jos. W. Martin, of Massachusetts, was selected as permanent chairman, he, too, promised the same kind of too, promised the same kind of legislation. That such a program was what the delegates from all states were asking in the name of the people they represented was demonstrated by the wild acclaim with which such promises were re-ceived. The American people want-ed a constructive program that would relieve them of the regimen-tation under which they were liv-ing an assurance of a continuing, an assurance of a continuance of the freedoms they had en-joyed, of their way of life. That is what the Republicans were offering.

At Tuesday night's session for-mer President Herbert Hoover, in a stirring address, assured the vast audience of the Republican guar-antee of a continuance of the 30 freedoms provided by our Bill of Rights rather than the limited four of the Atlantic Charter. His presence, and assuring words, were greeted by prolonged cheering that Chairman Martin had difficulty in quieting so the speaker might continue.

Constructive Addresses

Following Mr. Hoover, Congress-woman Clare Boothe Luce, in an address directed especially to the women, created the same kind of patriotic enthusiasm. The same enthusiastic reception was given each of the many addresses delivered during the sessions from Monday to Wednesday night when Gover-nor Dewey, who had flown from Al-bany after his nomination, accepted the call of the Republican party for his leadership. He received, as of course he would, a wildly enthusi astic ovation. He was the leader the Republicans wanted and de-manded. He was the man they would follow. Two other Republican leaders came to Chicago with a very considerable following, Governor Brick-er, of Ohio, and former Governor Stassen of Minnesota. When it became evident that the greater demand was for Governor Dewey the names of neither of these two out-standing men were presented to the delegates, and Governor Bricker seconded the nomination of Governor Dewey when his name was pre-sented to the convention by Gov-ernor Griswold of Nebraska. Gov. Earl Warren, of California, had a strong following for the vice-presidential nomination. He, like Governor Dewey, had insisted that he did not wish the nomination, and on Tuesday definitely announced he could not accept if, by chance, the nomination was offered. He could be of greater service in California. Governor Bricker had not wanted the second place on the ticket, but when he ansurged his withdrawal when he announced his withdrawal as a candidate for the first place nomination, an appeal was made that he sacrifice personal interests and inclinations and accept the vice-presidential place as a service to the cause of free government. Both nominations were made without a contest and both were the without a contest and both were the overwhelming choice of the dele-gates whose job was that of choos-ing standard bearers for the Re-publicans of America for 1944. They did the job exactly as they had been told to do it by the people who had sent them to Chicago, the peo-ple who will vote for Dewey and Bricker in November.

A Small Industry

Strawberries classify as luxuries. If they are absolutely essential to anything but strawberry shortcake, I don't know what it is. Few lower animals will touch them. Apparently they were created for the enjoyment of mankind. Their food value seems quite incidental to the pleasure they afford some people and the hives they cause to erupt on others.

Strawberries however have become a primary economic factor in the lives of a few thousand people and a good many of them are my neighbors here in White County, Arkansas. Strawberries to us are what celery is to Kalamazoo or cheese to Roquefort. What this little industry has experienced in the last three years under cut-and-dried economy is set forth very plainly in the figures below:

The Strawberry Crop White County 1944 1943 1942

Acres in Berries. .4,000 7,500 12,000 Crates per Acre.. 15 45 70 Price per Crate....\$7.80 \$5.50 \$1.50

Remember the story of Sinbad the Sailor and the Old Man of the Sea? Well-blows White County has sustained at the hand of the OPA suggest what Sinbad endured from the OMS. Large industries like Aviation, Petroleum and Textiles touch a larger number of people in a more vital way but the little ones are not exempt from the effects of official tampering. And there are many little ones.

Strawberries are extremely perishable; the season is very short and early. People in the business are prepared for inevitable "off years" when crops are damaged by weather conditions but they are almost obliged to have their occasional seasons of rich return in order to keep the wolf from the door during the lean years. The 1943 season was about average in acreage and yield per acre

Worse Than Frost

The only recent year of promising pay-off was 1942. Everything looked hopeful including the weather. Acreage was large and so was the yield. But in April the government's newly installed food rationing department did some warming-up maneuvers on The sugar shortage was sugar. bogus but there was a lot of hubbub about it and the *effect* was real. White County farmers lost out, thus:

Price to the grower that year was \$1.50 for a case of 24 quarts. It wouldn't pay for picking and packing. The fruit was fine but the buyers were afraid because they had no reason to believe Mrs. Housewife would be able to set sugar on her table at any price. Processing firms, canners and jam makers, took what they could handle and the rest (most of the crop) rotted in the field be-fore the sugar shortage fable was debunked.

Londoner Risks Life For 6 Razor Blades

LONDON. - When his house caught fire during an air raid, B. E. Bull ran into his bathroom and emerged later, his face blackened by smoke and his hair singed, but triumphantly carrying six razor blades and a razor. Watchers asked him why he had risked his life and Bull re-

of \$1.50 a crate, White County would have received \$1,260,000 for it, and gone in the red. In 1943, however, it was the consumer who paid dearly. Discouraged Arkansas growers set out 371/2 % less land and produced 35% less per acre. The farmer's price trebled but gross return to the county was still under \$2,000,000 for the season.

The 1944 season is hardly worth counting. Last summer and fall were dry and the labor shortage at plant-setting time cut the county's gross strawberry revenue below half a million dollars and next year's hopes are drooping. Farmers feel pretty certain, after the fourth consecutive disappointment, that either drouth, man-power shortage, late frost or bureaucratic price-fixing will finally ruin them.

Prevent Tree Damage

Large, high-quality trees of some species, such as oak and ash, are difficult to fell without splitting. To prevent splitting of the butts of trees in felling requires good judgment and careful cutting.

NOT MUCH LEFT FOR SUPPORT OF NEW DEAL

From the way legitimate labor, farmers, industrialists, small busimen such as grocers, meat market operators, etc., are desert-ing the Roosevelt support for a fourth term it appears that the only support the New Deal can count on now is the CIO radical labor move-ment which is an outgranth of the now is the CIO radical labor move-ment which is an outgrowth of the New Deal and fathered and moth-ered by Franklin D. and Eleanor Roosevelt, and the communists. Out-side these two organizations and the New Deal payrollers, several mil-lion strong, there seems to be no real support left for the New Deal. But—so far as financial aid is con-cerned—the CIO will, if necessary, furnish millions in cash and if the purchasing of votes by New Dealers can be continued as in the past this may prove to catch more suckers, may prove to catch more suckers, but in the end with the concerted opposition to be found everywhere this year we are certain that after the November election the New Deal will be a dead pigeon .- Quincy, Ill., Record.
