RALLY SPEAKER ANNOUNCED

The Taneytown District Sunday School Rally has been announced for Sunday, October 17, at 7:30 P. M., in Trinlty Lutheran Church, Taneytown with President Earl Bowers, presiding. The speaker for the occasion, the Rev. Guy P. Bready, needs no introduction to the community. For thirty-four years he has been the active and devoted Pastor of the local Reformed Parish with churches in Taneytown and Keysville. Honor has been bestowed upon him in being called as the stated clerk of the classis. As a teacher and leader in the public schools his ability and influence is equally well known. With untiring energy and devotion to a public spir-

ited cause, he saw the location chosen and the building erected for the present high school. Two generations of young people still think of him as their teacher.

Nor were other worthwhile community projects without his support. For many years he served as secretary of the Chamber of Commerce and of the local Kiwanis Club. Scarcely any organization in the community has been without his help at one time or another in preparing printed material. The Sunday School District senses the honor and privilege of hearing Pastor Bready again before his retirement from the community

on November 1 of this year. The Rally Day program will inlude, in addition the message, several choir numbers, reports of the various schools, seport of the nominating committee, the installation of officers and the presentation of the banner.

BASEBALL ON SUNDAY

The final playoff game of the series will be played at Emmitsburg on Sunday, October 17, at 2:30 between Taneytown and Littlestown.

The feature of the game will be the umpire—Jim Boyer, American League umpire. Boyer will be the chief arbiter of the four umpires that will serve at this important game.

Mr. Boyer took part in the 1947 world series between the New York "Yankies" and Brooklyn "Dodgers."

STATEMENT OF THE BOARD OF EDUCATION

School and Road Loan is the Answer to the County's Needs

I. Introduction The Board of Education of Carroll County at its meeting on September 21, considered the advisability of issuing a general statement to the citizens of Carroll County regarding the situation facing the Board in the matter of proper and adequate school buildings for the county. This state-ment should also include the attitude of the Board regarding the proposed bond issue for the construction of schools. After due consideration A short service in memoriam was observed for two of the late memstatement and directed that it be sent to the county newspapers during Oc-

II. Background of Problem
The Board of Education in 1945 studied carefully the problems relating to the providing of adequate school buildings in the County and were made aware of certain factors which will affect these problems. Prominent among the factors to be considered at the Board at this time, were (a) statistical research indicating a remarkable growth in the enrollment in the county schools especially in the primary grades due to an increasing birth rate during the war years. This makes it necessary for the Board to plan to accommodate about one-third more pupils in the primary grades than had been enrolla rapidly increasing migration of families into the county from other parts of the State and from other states. (d) An increased amount of building of homes throughout the county, especially in certain sections Manchester and others. (e) Passage of the Maryland Legislature of an act authorizing the establishment of a twelfth grade, thus increasing the enrollment in the Carroll County schools by about 300 pupils. (f) A Passage by the Maryland Legislature of a new compulsory school attendance law requiring the attendance of all pupils from 14 to 16 years of age.

(g) Passage by the Maryland Legislature in 1947 of an Act providing for the reduction in size of classes in

Earl D. Roop and Franklin H. Fair Taneytown recently visited the Purina Research Farm, at Gray Summit, Mo., where they saw many practical operations to increase the nation's supply of meat, milk and eggs.

Roop and Fair say it is possible for

most farmers to step up their production of these vital and protective foods so essential to the country's welfare simply by following more efficient management and feeding practices. With feeding profits on livestock and poultry operations at an all-time high level, such projects as year round raising and marketing of turkeys and a hog farrowing program under which sows produce an average of 18 pigs yearly on a twolitter-a-year program, attract nationwide interest.

On this 738-acre farm in the foothills of the Ozarks, Roop and Fair saw dairy heifers raised on dry feed ready for breeding at 12 to 15 months. They saw grade Holsteins which for 20 years have increased their milk production at an average rate of 285 lbs per cow per year, which is 17 times as fast as the normal rate of

16 lbs per cow per year. For more than 20 years, practical research on this farm has developed programs on breeding, feeding, sanitation and management which have steadily increased the production of meat, milk and eggs and at the same time contributed in a substantial way to the farmer's income.

TANEYTOWN LIONS

Mr. C. P. Cessna Speaks at Club's Meeting

On Tuesday, October 12, thirty-nine member of the Lions Club gathered for their twice monthly meeting at Taney Inn, Taneytown, presided over by First Vice-President, Robert E. Thomas. That is not to say that President Ohler was not present-far from it. He has inaugurated a plan whereby each vice-president has his chance to assume full charge, in order to prepare him for future service in

the speaker's chair.

A number of guests joined with the local club, and four of them from Williamsport, Md., responded in fine spirit to a humorous penalty imposed on them by the omnipresent Twister, Ted Jester-the rendition at sight of the famous old ditty, "Sweetly Sings the Donkey." The victims were J. B. Poffenburger, Joseph H. Collier, Edgar F. Poole and L. E. Downey. Other Lions attending were Downey. Other Lions attending were Alvey V. Renner, of Frederick, formerly governor of District 22-W, who spoke a few words of greeting and recalled with pleasure his duty of presenting the initial Taneytown charter, and Lions E. Preston Myers, M. R. Pfoutz, H. R. Zile and J. Her-bert Snyder, all of neighboring Union Bridge.

Asked for some word from the "Lead man." President Ohler called attention to the fact that all but two members were there that night, an improvement over the preceding week, and expressed the hope that shortly

a hundred per cent attendance would be a matter of course. Lion Thomas then introduced the evening's speaker, Lion C. P. Cessna, Gettysburg Alumni Secretary, and formerly member-at-large of Lions International. The opening portion of his talk dealt with the duties of the district officer organizational frame work. One of his points was that the International officers can be of immense assistance in any kind of promotion which might be contemplated. They have complete files on any sort of project which would be imagined, based on the experience of Lions Clubs throughout the nation, and including data on planning, advertising, or staging either an entertainment or a humanitarian service.

For his concluding remarks, Professor Cessna gave an inspiring resume of his conception of what the organization might mean to the community when such a group of men with varied talent pool that ability in any undertaking whatsoever. In-

RED CROSS INCREASES

Providing for Armed

The American National Red Cross announces that additional field directors and assistants have been assigned to domestic military installations in order to provide adequate Red Cross service to the increasing numbers in the armed forces. It is estimated that 300 more paid workers will be needed by the Red Cross by July 1949. In addition thousands of Red Cross volunteers are being recruited to augment this and other Red Cross programs, especially in chapters located near military establishments. It is expected that the combined strength of the armed forces will be around 2,166,882, by

KIWANIANS MEET

The Taneytown Kiwanis Club held its regular weekly meeting at the Taney Inn on Wednesday evening, at 6:30, President George L. Harner presiding. The period of group singing was in charge of David Smith, Chairman of the Music Committee, with Mrs. Wallace Yingling as accompanist. Thirty-eight members were present, one hundred percent of the membership. Also, Mr. Roberts, the retiring police officer in Taney-town, and his successor, Mr. Daley, as the guests of Harmon Albaugh.

The program was in charge of the Classification and Membership Commtitee, Raymond Wright and Carel E. Frock, Chairmen, Carel Frock introduced Mr. Harry O. Smith, Principal of the Frederick High School as

the speaker for the occasion.

Mr. Smith, in observance of the meeting as "Columbus Day" meeting, made the discoverer of America the subject of his address. He described the times in which Columbus lived as a dull period, with no advance in deed, such service is an eminent need of our strife-torn world, a return to tion on the part of anyone to initiate of our strife-torn world, a return to principles best enunciated almost two thousand years ago.

anything that would be for the betterment of mankind. It was believed that the end of civilization was near. The Crusades had failed, the Moors were in Spain, the "War of the Roses" was over. Moral leadership was at a low ebb. And then, there Members and friends of the four churches of the Uniontown Parish, St. Paul's, Uniontown Mt. The speaker described in some deeld in the basement.

In the afternoon at 3 o'clock the with which the discoverer had to contend until he was able to convince Queen Isabella of the feasibility of his venture, and the honors that were heaped upon him when he returned with the proof of his contention that the earth is round; although the queen, and the Court were more interested in the prospect of untold riches from the new continent than the discovery itself, or the scientific and geographic contributions of the voyof discovery.

In the evaluation of Columbus and his contribution to human welfare, the speaker cited three things which forever put the world in his debt.

1. He supplied the spark for mod-

ern development. Many voyages of discovery and search for wealth followed this first one. All sorts of adventurers set out in every direction to find out more about the ends of the earth and to take advantage of whatever of good they might give to civilization. It gave England, as well as Spain, the motive for the wave of colonization which followed South and North America, upon which the civilization and life of the Western Hemisphere is founded. He demonstrated that even now, as was true in his own time, men need to explore the frontiers which are always here.

2. He made the mistake of trying, when he was an old man, of doing a young man's job. Columbus supposed that he would always stand in high public favor and that he could continue indefinitely to explore new worlds and find new treasures. He was disappointed in this of course, with the inevitable result that in later life, his voyages were not so fruitful, and he lost his standing at Court.

3. He taught that not luck, but determination, in the face of disappointment, is necessary to get an important job done.

President Harner announced that the Agriculture Committee will be in charge of the program next week, and that there will be a "Ladies' Night" on October 27. Also that on November 3, the annual election will be held, in preparation for which the Board of Directors have made the following nominations: For President John H. Skiles; for Vice-President, Lewis E. Crumbacker; For Directors, (four to be elected), Norman Graham, Felix Westine, Albert Baldwin, Edward Reid, Charles Cluts, Wallace

The adjective "Precious" would be the only way that Your Observer could modify that little "GRAND YOUNG OLD LADY" who is nearing the one hundred mark residing "Around The Town". She made me think of a Queen on her throne as she sat cozily in the huge arm chair with the robe drape on her lap listening to the radio which she quickly turned off as I entered the living room door. Now, I can readily understand all the fine marks of that bachelor son who resembles her so greatly. The nice daughter appeared to me as-"A Lady in waiting" upon her Queen! How fortunate to have a Mother all those years! The memory of this Precious One is remarkable as she

RAISING TURKEYS

Raising turkeys can be made a right profitable business for the average farmer. I have seen a 40 pound turkey priced at as many dollars. Fifty years ago a big difference existed. The farmer at whose home I ment. boarded raised turkeys on his farm and at Thanksgiving and Christmas time butchered them and took the prepared birds to Baltimore. I recall one time when they took a large number of dressed birds to town and fronted the school authorities. As a were delighted to get as much as \$1.50 for each bird. Now these birds or those like them would fetch \$15.00 to \$20.00 each.

A chicken that would fetch 25c to 50c or more in my childhood now command \$5.00 or more. Is it because money is so cheap and plentiful? Maybe! But I have not found that plenty yet.

I go to market (A. and P. and home stores) and think I am getting tions for the erection of school builda bargain when I pay 10c to 15c a ings for the first time in the history pound for peaches and 35c to 15c for of the Maryland public schools. Folpound for peaches and 35c to 15c for

DEWEY AND TRUMAN

Reader, did you ever stop to think how it is possible for a Washington sible to plan for taking care of the newspaper correspondent to be "non-newspaper correspondent to be "non-newspaper" to be "no partisan in politics"? Here's the litical questions apart and reports the and Congress. Right now, President and Congress. Right now, President should be noted that such contracts Truman is laying up his own failures were issued at a cost which was in on Congress and accusing the Republicans of trying to make the West "an economic colony of Wall Street." That is a sample of "leadership" that the Nation does not, and cannot, continue at the top of the Government of the United States. It is as true today as it was in 1863. Abraham Lincoln said at Gettysburg that "government of the people, by the people, shall not perish from the earth." Truman cannot win on his record.

On the other hand Dewey promises to unite the Nation and to "unsnarl | agencies." Dewey's promise to "unite us as we have never been before", and to enforce a foreign policy geared to the firm belief that we can have peace, seems to be endorsed throughout our land. And as for Washington, D. C. he promises "the biggest unraveling, unsnarling, untangling operation in our history."

All experienced Washington correspondents recognize the truth and the hope expressed by Governor Dewey, and they also know that President Truman's rash attacks on a firstclass Congress are the worst kind of samples of "red herring" that he exploits .- J. E. Jones.

STATEMENT BY BOARD OF EDUCATION

county which having been built during the 1920's and 30's had now reached the point where major repairs and alterations are necessary. These re-pairs and alterations are made necessary by the expansion of the school program and by the fact that these buildings built in the period from 1930 to 1940 had not been adequate to the need existing at that time. Auditoriums were small and inadequate for the providing of an adequate physical education and auditor-

economics unit. Since the war the schools have experienced a phenomenal growth in the cafeteria service necessary for the operation of schools making the existing cafeterias quite inadequate to the task of feeding school pupils. Most buildings in existence offered inadequate toilet and sanitary facilities and in many cases had classrooms poorly lighted, poorly ventilated with many of them under the ground or in the basement.

The Board of Education therefore issued a statement in 1946 advising the citizens of the county and all others concerned that a major problem in school housing would exist during the years from 1946 to 1953 and therefore suggested that an adequate financing plan be provided by the county authorities at that time. The statement was published in the newspapers of the county and discussed representatives of the Board of Education at every opportunity be-fore school and civic groups. At this time considerable publicity was given to the results of a school survey conducted by Dr. N. E. Viles of the United States Office of Education. Dr. Viles had been employed by the Board of Education to study and offer an opin. on regarding the needed school construction in the county. Dr. Viles recommedations were made a part of the record of the Board of Education in its effort to approach judiciously the problem of providing adequate facilities. As a result of Dr. Viles' recommendation the Board of Education during the ensuing years made a sincere effort to follow out such recommendations which included the acquiring of sufficient land at the school locations in the county and the building of improved facilities at

every location possible.

At its meeting on October the 1st, 1946, the Board issued for publication its recommendations regarding the school building program for Carroll County in 1947-48-49-50. At this time the Board requested the sum of one million, two hundred thousand dollars to be distributed as needed during this period of years would be necessary to provide satisfactory accommodations for the school enroll-

The Board of Education during the following winter of 1946-47 made every effort to make not only the public but the representatives of our result of this effort on the part of the Board of Education the county Sena-tor made a sincere effort to increase so far as possible the county contribution toward construction of school buildings, making available through legislation an annual sum of money in excess of a hundred thousand dol. lars which could be used for the con-struction of school buildings. At this same session of Maryland Legislature the Maryland plan for increased salaries and for increased State aid was passed thus providing State contribuowing this session of the legislature the Carroll County Board of Educa-Quite a difference in priced as tion studied carefully the problem of advertised in Carroll Record by some using these funds for the construction of buildings in the various school centers of the county in the order in which the need appeared greatest.

Because of increased costs of construction and the rapidly growing school enrollment, the Board of Eduation found it impractical and impos-

It excess of any of the costs of any other school building already provided for in Carroll County, and the large amount of money necessary to construct this building made Board members and other citizens aware of the fact that no adequate planning for the erection of school buildings one by one on the pay as you go plan could satisfy the needs of the school communities throughout the

The Board of Education therefore felt it necessary to continue its efforts to make the public and citizens of the county aware of the fact that a more liberal financing plan should be provided through the issuance of bonds, thus enabling construction to go on in many sections of the county at the same time and eliminating the necessity for postponing the improve-ment of facilities until adequate funds were available. The Senator and Delegate and other officials in the county cooperated in the summer of 1948 at the special session of the Maryland Legislature by agreeing to allow the problem to be submitted to the voters of the county at the presidential election of 1948. The Board of Education after careful consideration suggested that the amount of money required for schools be put at \$1,'500,000 and that if it was deemed advisable the same amount of money should be included in the bill to be made available for the improvement of country roads in Carroll County. Such a bill was submitted at the Special legislation passed and signed by the governor, thus enabling the mat-ter of school and road improvement the elementary school from 35 to 30 the county in November 1948.

this time of the conditions existing in the various school buildings of the county which having be considered as a second county which having a second county which have a second county its case for the approval by the voters of the school bond issue. To substantiate its request its presents the following principals relating to its decision to request support of

this measure, 1. The Board of Education cannot provide improved school facilities in the school centers of the county as rapidly as needed under the present plan for the financing of school con-

struction.

2. The Board of Education can plan and provide for the improvement ium program. Cafeteria facilities were not provided in any of the schools except Westminster High School. In other schools the cafeterias were made a part of the home of contracts.

It therefore requests voters, the citizens, the officials and the general public in the county the support of the bond issue referendum which is a part of the ballot for the

coming election in November.
4. Unless the issue is approved by the citizens and voters of the county the Board of Education will have to proceed to take care of the existing needs one at a time as funds are made available. This plan will postpone the improvement of facilities in many sections of the county for an

indefinite number of years.

5. The Board of Education states that present needs indicate improvements and additions to be necessary at the following centers.

Westminster Elementary school (b) Westminster High School.

(c) Sykesville High and Element-(d) Mt. Airy High and Elementary School. (e) Union Bridge High and Elementary School.

(f) Taneytown Elementary school (g) Manchester High and Elementary School.

(h) Sandymount School (i) Robert Moton Colored High and Elementary.

(j) Charles Carroll School.

In addition to these critical needs the study of potential school enrollments indicates the necessity for improvements at New Windsor, Hampstead, Winfield, Uniontown, Johns-ville Colored, thus indicating a need in all the school districts of the

6. The Board of Education will proceed as rapidly as possible after the passage of the bond issue to have plans drawn and approved and contracts issued for the alteration, renovation, construction and improve-ment of school facilities in all the districts of the county where the

and complete facilities can be provided in all sections by the use of the sum of money mentioned. It is claimed that the alternative will be that many communities will wait for an indefinite period of years before anything can be done to improve the school facilities in that section.

8. The Board of Education and its representative.

representatives are quite willing to discuss before any group the issue involved in the school building program. They stand ready to meet and discuss with any group such problems at a regular meeting of the Board or at a special meeting if the need for one is indicated.

9. The Board does not propose to engage in a public controversy relating to the problem but is ready and willing to give the facts of the problem to as many groups of citizens who would like to be informed about the critical situation existing. 10. The Board of Education believes that the issue is a non-part-isan one related to the welfare of

thousand Carroll County 11. The Board of Education i planning and estimating that it will e necessary to provide for the need of many more children than the Car. roll County schools now have enrolled and that this will more rapid than any group or any individuals now

anticipate.
12. The Board of Education believes that it can depend upon the excellent cooperation of the enlightened citizens of our county and that these citizens will enlist themselves in a program of informing the voter of the needs of our schools. The Board is hopeful that a majority of the voters will approve this program.

13. The Board of Education therefore makes an earnest request of the citizens and voters of the county to provide reasonably adequate school facilities for the children of the County. We strongly believe that the 24. benefits of this fine work which will come to our county in the years ahead will be a monument to the efforts of those who are now interested in the passage of this measure. The Board of Education assures every communty that its needs will have earnest and careful consideration by the 29. Board in its efforts to put the program into effect.

G. H. ENFIELD

YOUR TEACHERS AND YOU

Again school bells are ringing, calling hundreds of thousands children to classrooms and play grounds. The majority of these boys and girls had been permitted to free runs during the school vacation. Too many of them have gone without restraint, constraint, and discipline. Not a few parents follow the way of least resistance and thus allow the youngster to do as he pleases. This practice only means additional problems for teachers who already have a multi-tude of problems to cope with and to endeavor to solve. Are you one of those parents who have been heard to say: I'll be so glad when school starts and be free from all this noise and confusion? Yet some of these same fathers and mothers are the most biting in their criticism of the teacher who must discipline the same children which they could not handle for three months during the summer.

Many of the problems with which the teacher is obliged to deal should be solved right in the home if the parents were minded to give a few lessons in discipline, command obedience and respect, and to require a few expressions of "old-fashioned manners", such as "thank you", "please," "Mam"? "Sir"? instead of eh? What? Yes, no. There are so many diamond expressions and phrases still in the rough, never pol-

ished by a fatherly or motherly touch When you feel disposed to find fault with the teacher of your child, first go, and ask permission of her to take charge of the group and to teach the class for just one day. I think your criticism, then, would be on a higher level, constructive rather than destructive. Anyway, have you not observed that criticism most of the time is made by those who don't know what they are talking about?

Two weeks ago, a university pro-fessor said, that when he was principal of a public school that one of his first grade teachers was out one day attending an educational meeting, and since he was unable to find

a substitute teacher for that day he took the class. After that experience, he said, he knew better how to sympathize with that first grade teacher, and that he never worked so hard in his life as he did that day. Don't you want to try it? Perhaps, you would soon be able to qualify for some of the BIG MONEY they receive who teach your boys and girls. ceive who teach your boys and girls.

gone?"
The words leapt like a leaping sword "Sail on! Sail on! Sail on! and on!"

These lines are taken from the poem called 'Columbus' written by Joaquin Miller. Today, the 12th of October just 456 years ago Christopher Columbus first set eyes on the shores of America. Much more then discovering a continent he demonstrated to the world that he believed in himself and in spiite of every hardship and discouragement he proved that having faith in oneself and ones dreams is the most important thing in life. The poem "Columbus" tells this story so vividly that it is worth anyone's time to read it.

Scientific research has revealed some new facts on the span of life. First, one out of every 3 persons in the United States is 45 years old or older. That is about 50 million Americans. Second, this old age group is larger and healthier than ever before. Ten years ago there was approximately 30 million in this age group; at the turn of the century about 23 million. And, third, it is reported that these 50 million can live longer and be happier, if they im-prove their eating habits. Don't put on an extra pound after you reach forty for it has been proven each extra pound after that age takes one

I was travening on a bus in which every seat was occupied, when an elderly man and his seeing eye dog got aboard. The dog stood for a mo-ment sizing up the situation. Then he walked calmly over to one of the younger passengers, looked him squarely in the eye for a moment, and gave him a slight nudge with his nose. The young man took the hint and rose. Then the dog herded the blind man into the seat and sat the blind man into the seat and sat down beside his friend. The bus, with its load of smiling passengers moved

B. A. C. CRAIG

On Thursday, October 7th, 1948, Benjamin A. C. Craig died suddenly at his home, Myrtle Hill, Keymar, Md.
On Saturday, Oct. 9th he was laid to rest in Oakwood cemetery, Falls Church, Virginia. The Rev. Fr. Albert J. deBois, Rector of the Church of Ascension and St. Agnes, assisted by the Rev. Francis Yarnall conducted the services.

Serenely dignified in his sleep, And we who knew him pass his quiet bier Without the sense of dread or doubling fear,

Although our loss is genuinely deep,
Ours is a sorrow quite untinged with
gloom,
How can we mourn for one who lived
so well,
His genial spirit burst its earthly shell,
His kindliness prevades the quiet room,
In reverence we breathe a silent prayer,
Of thankfulness because he was our
friend.

friend,
Such openheartedness as his is rare,
For he was kind to everyone he met,
We know, death the beginning, not.
The end of this dear friend, we never can

MRS. STEEL WAGEN. Benjamin Alexander Cameron Craig was a graduate of the University of Toronta and of Osgood Hall School production of corundum, having a claim from the Ontario government on all corundum bearing areas in eastern Ontario. When the first World War broke he turned his possessions into guns for the Canadian army and at once enlisted for overseas duty having served then as undergradute in the University Company of the Queen's own regiment. He took training at Shorncliffe, re-ceiving the rank of Major but in order to get to the front he took a Lieutenant's commission and was in charge of light railway construction at Vimy Ridge, one of the hottest salients in the war. He gave up his furlough to married men—although several times severely wounded and badly gassed remained for the entire duration.

At the close of the war he rrfused to act as assistant to the Advocate General in the presentation of Canadians who got into trouble in England as a result of long delay in getting shipment home since he preferred to represent their defense in those cases, feeling they had much justification for unrest at their long detention. Men have written gratefully how

he saved their lives. CARD OF THANKS

We wish to express our sincere appreciation to relatives, neighbors and friends for their kindness shown us, during the illness and after the death of our dear mother and sister, Mrs. Cora B. Stiely; also for the floral tributes and expressions of sympathy.

CARROLL COUNTY MINISTERIAL

The Rev. Dr. John H. Gardner, Jr, who recently toured the Orient and wrote a book titled "Journey to the Pacific" will be the speaker at the luncheon meeting of the Carroll County Ministerial Association, Wednesday, Oct. 12th in the World nesday, Oct. 13th., in the World Church Relief Center, New Windsor, Md. Dr. Gardner who is the minister of the First Presbyterian Church, Baltimore, is expected to speak of the experiences of voyage to inspect the work of chaplains in the Orient and Pacific area.

The speaker is one of the foremost thurch statesmen in America, hold-ng many distinguished positions in the Presbyterian Church. Last year, Dr. Gardner was Vice Moderator of the General Assembly. During the war he was chairman of Camp and Church Activities Committee being responsible for the appointment of camp pastors and service centers in and near camps. Also, Dr. Gardner was one of the leaders of Hospital-ity Houses which his denomination established across the nation. Beof Law. He went into mining and cause of his outstanding service on production of corundum, having a the National Chaplains Committee last spring the government sent Dr. Gardner and several others by plane on a five weeks inspection trip to Japan, Korea, the Philippines and Pacific Islands. It is reported that the speaker had an interview with Gen. McArthur and the Emperor of Japan.

The meeting will start promptly at 11:30 with luncheon. Following the business session, Dr. Gardner will speak to the ministers and their wives. An opportunity to inspect the Relief Center will be given at the close, 1:30 P. M.

TANEYTOWN WINS SERIES CONTEST

The Tneytown Baseball Club of the Penn-Md. League won the second game of the post-season finals to tie the series up with Littlestown. Taneytown white-washed Littlestown 7-0 in Taneytown last Sunday after losing the opening game 7-4 the previous week.

Junior Unger, who has a season record of 11 wins and 1 loss, turned in a brilliant pitching performance to shut out Littlestown and allowed only 3 hits. Weaver started for Littlestown, gave up 11 hits for 7 runs and was relieved in the sixth inning by Mehring who allowed 2 hits in the balance of the game.

Both teams threatened in the first inning but both failed to score. Lit-tlestown loaded the bases with only one out in the first inning, but a fast MR. and MRS. HARRY STIELY Riffle retired the side. Then in Tan-MR. and MRS. T. C. LeGORE. eytown's half of the first inning

Then, are the country of the control of the cont told that the present requirement is one teacher for every 40 children en-rolled. In two years the require-ment will be one teacher for every 30 children enrolled. This means that four class rooms will be needed where three are now adequate. The committee was also reminded that there are now about 480 miles of dirt roads in Carroll County. The School and Road Loan could be retired by moneys received from the Incentive Fund and the payment of racing revenues to public schools of Carroll County, and all moneys received by the county from the State in the form of motor vehicle gasoline tax or road funds.

After five months of intensive study of the schools of Carroll County and the obvious fact of 480 miles of dirt roads in the county, the committee finds that the present financial set-up of the county is inadequate to meet the immediate needs and therefore feels that the best and cheapest means of solving the problem is by the passage of the School and Road

Migration of Mennonites

Just as their forefathers migrated 150 years ago, so a little band of 51 Mennonites—a religious sect which abhors military force—has begun a migration to Asencion, Paraguay, in search of a new homeland. This first group traveled via clipper plane from Miami, Fla., and is the vanguard of 1,500 Mennonites who will follow to the South American country, where the religious sect which owns no authority but the Bible and the conscience will take up new lives. The leader of the group explained their position: "I owned 480 acres of land in Manitoba, Canada," he said. "It wasn't rich land but I made a living. We worked hard. But we cannot carry arms." In Paraguay they have been assured by the government they will be given complete freedom.

Life and Law

Lesson for October 17, 1948

YOU, friend reader, probably know less about what is in the books of Exedus, Leviticus, Numbers and Deuteronomy than any

other part of the Bible. These are the sections mostly filled with laws— 'Thou shalt Thou shalt not." You either skip these entirely or you say to yourself, "Well, that has nothing to do with If so, you Dr. Foreman have been missing

one of the most interesting sections of the Bible. Some of these old laws are dead;

but even a mummy can be interesting. Call them dead if you like; you still can learn a great deal about the times and the minds and the customs of those far-off days by reading the laws which governed people's daily lives.

But it is hardly fair to call them dead. Rather, they have been honorably retired. That is to say, they were admirable laws in their time and place, and God's will was learned through them.

The Living Soul of Law

THERE are two ways of looking at any law, or you might say there are two sides of every law, the inside and the outside, the soul and the body as it were. The body, the outside, is the letter of the law; the inside or soul of the law is the spirit or principle of the law.

The body of the law, like the body of a man, dies; it is not intended to live on and on. But the soul of the law (if it has one; some don't) lives forever.

Take, for instance, that law in Lev. 19:9, 10. The body of it, the letter, says: Do not be efficient in getting in your crops. Leave some wheat in the field. Leave some grapes on the vine.

Today that sounds rather stupid, on the face of it, and no good farmer would pay attention to it. But look at the spirit of that law: the wheat and the grapes were to be left for "the poor and the stranger." There was then no Red Cross, no bureau of displaced persons, no traveler's aid, no family service, no social security, none of our many modern agencies for the underprivileged. Those who had property were bidden to have a care for those who had none.

The duty of society to see that no one starves, the duty of all to help those in need, that is the living soul of this law, and it still breathes in laws of the 20th century-laws of old age assistance, maternity assistance, pen-

sion plans and so forth. The living soul of the Old Testament laws can be expressed this way: The love of justice and the justice of love. The best and wisest laws today are those which give this same spirit its fullest and most practical form.

Jesus' Last Word

THE Jews figured out that there were in all 613 separate commandments in all the laws combined. They used to have interesting debates as to which of all the 613 commandments was the most important.

They came to Jesus with that well-worn question. Jesus quoted only two laws, one from Deut. 6:5 and the other from Lev. 19:18. Love God, love your neighbor, he said. All the other laws depend on these two.

To this day, Christian thinkers are not entirely agreed as to just how far Old Testament laws may be binding on Christians. But all are agreed on two points: The basic principle of these laws is always good, and that fundamental principle is love.

Love Is Not Repealed

THIS is what Christians mean when they say that the laws of God are eternal. We do not mean that every law between the covers of the Bible can and should be used as the law of our land today.

What we do mean is that the spirit of these laws is immortal, for the spirit is love, and love never has been repealed.

Show me a law which helps the strong at the expense of the weak, a law which encourages cheating and selfishness and fighting, and I will show you a bad law. Show me a law which encourages and helps men to deal fairly with one another and to live together in peace, and I will show you a good law. Every law that helps you love your neighbor is a good law; indeed there is something divine about it, for God is Love.
