### LEADERSHIP TRAINING SCHOOL IN TANEYTOWN

School Association announces its annual Leadership Training School to be conducted the month of November as follows: Friday evening, November 5 and Thursday evening, November 11 from 7:30 to 9:30 in the Lutheran Church. On the evenings of November 17, 18 24 and 26 at the same hours the school will meet in Grace Reformed Church. Because of the great difficulty in finding accredited teachers teaching accredited courses the committee found it necessary to compromise on the time of meeting. Consequently some unavoidable conflicts with other community and church functions have arisen. above schedule however, is the official schedule superceeding and correcting all previous announcements to the

Two fully accredited courses will be offered. A course on "The Church Through the Ages" will be taught by the Rev. John H. Ness, Jr., M. A., B. D., Pastor of the Frederick United Brethren Church. This course deals with the growth of the Christian Church from the time of its inception giving attention to its ideals, accomplishments and leadership. A portion of the study will consider some of the great leaders of the church through the centuries with an interpretation of the inspiration of their

ives for their day and ours.

The companion course, "My Bible" will be taught by the Rev. Professor Edwin H. Sponseller, Associate Professor of Philosophy and Religion at Hood College. This course has as its purpose the church worker's understanding and use of the Bible. Other goals are to lead the student into a fuller appreciation of what the Bible really is, to give some guidance in the matter of Bible study and inter-pretation, and to help him to find out how he can use the Bible effectively both in his own personal life and in

his work with others.

These courses are offered with full consciousness of the Sunday School teacher and his need. This is a community school designed to meet the needs of our community churches.

#### VOTE YOUR CONVICTIONS

Next Tuesday will be a very im-portant day for the citizens of the portant day for the citizens of the United States and of the world. It will be Election Day—the day the people of this country will select the one to guide the destiny of the United States for the next four years—the President of the United States.

It is the one opportunity a taxpayer is the following teachers. Was talking to a third grade Public School teacher in the big city recently on the subject and we both agreed.

There is a very good looking little wife out the Baltimore Road who writes to every contest and she is so

the important business of administration of the same.

This is a decision not to be passed over lightly, but we owe it to our-selves, and to future generations to give the matter deep, unbiased, careful, prayerful consideration.

We need to get away from the assumption that every candidate of our particular political affiliation is virtuous, and that of every other is debased. Persons placed in positions of public trust should be selected from their known record of character and ability.

There are serious problems, both domestic and foreign, facing the United States, and the man who is President for the next four years will be the one to guide them to a successful solution. This will require united action from all of the people. It is logical to expect that one who has completely united his party will be completely united his party will be better able to unite all of the people than one who, by his own acts, has disunited his party.

A majority of both Democrats and

Republicans in Congress have proven their ability and willingness to par-ticually work together for the best interests of the country, and with proper leadership will continue to do

These and other facts were brought out very clearly in an editorial in The Sun of Baltimore, Md., last Sunday morning in which they patriotically join a host of other publications in putting Americanism above party, and indorse a candidate on merits rather than on a candidate merely for the sake of party affiliation. Every American should always do the same.

The selection of people for public office transcends the matter of party affiliation—it means doing that which we believe to be right. What is right for our country, our neighbors, our families, ourselves. We cannot side-step or by-pass the issue by not bothering to vote. The unscrupulous are the ones often elected by the people who do not vote. So be sure to vote your convictions and urge your neighbor to vote.

The coming two weeks, I understand are just chucked full of all the latest hits so keep on the look out. Why pay more in the big city when you can have all the big shows by just having a little patience until they arrive in our town. Sorry to have missed the High School Dance as I do so want to hear that "Frankie" boy and his orchestra. I know they are tops before ever hearing the orchestra. How can I tell? Just this way. Ever notice the

Tell you another one whom I have noticed many times yet was not aware just where he played but I knew there was music within his Soul and that is the Organist in church "around the town". Heard there were about two hundred at that dance. Think what I missed in writing them up! Hope to be there the next time.

Have you heard one of the latest? Believe it or not, they have "Gas-A-Teries" out in the state of California where the motorist waits on himself therefore getting the gas five cents cheaper on a gallon! It was started about a year ago in Southern California and going over in a big way. Attendants are needed only to unlock the pump and take the customer's money after he has helped himself. Instead of men, the stations have cashiers (girls) dressed in snappy abbreviated costumes. Now, don't all rush to California! Betcha, it will be years and years before any part of the East adopts the plan for they say that these stations are frightfully expensive to build. To enable the girls to handle more customers some of the stations have put them on roller skates! Leave it to that State of California!

Ever pay a visit unexpectedly at the High School "Around The Town"? Well, take it from Your Observer that Principal deserves twice the amount of salary that he gets. Nothing es-caped Your Observer. #### ELECTION JUST AROUND THE CORNER

In 1944 there were 48,000,000 ballots cast for Presidential candidates. Reliable estimates indicate that there will be 55,000,000 voters in this year's election. There isn't much hope among party leaders that President Truman will be elected. Truman supporters in the National Capital claim 229 electoral votes in twenty-four States. On the other side of the house the Dewey forces claim 28 States with a total of 334 electoral votes, which is 68 more than is required to gain the election. #### WHAT TIME IS IT?

Nowadays, there isn't anything complicated about the time of day. Most of the year the country runs on Standard Time, and during the summer a large section of it moves the hands ahead an hour and switches to Daylight Saving Time. As we cross the nation, the time zones change at established intervals, and in all cases the change is one hour. It's simple

enough. But it wasn't always that way-and it might not be that way yet if it hadn't been for the railroads. Sixty-five years ago Standard Time didn't exist. Every town had its own time, and so, even, did many business concerns. Railroad stations held a confusing series of clocks-each line used the time in effect where its home office was located. Matters went to such lengths, as an example, that in Pittsburgh there were six different times in use. Few people knew what time it really was. You couldn't be sure when an appointment was scheduled unless, by lucky chance, the person you were to meet used the same time you did!

The railroads realized that something had to be done to bring order out of this chaos. The hundreds of different times in effect throughout the country were a constant and growing headache. The movement to standardize time began in 1872. And eleven years later, on November 18, 1883, every railroad clock was stopped at a given hour. When they started again, Standard Time, with its four time zones, was a going concern in the United States. It was gradually accepted by the people, and 35 years later Congress recog-

nized Standard Time and made it official. The railroads had foreseen an important need, and through voluntary agreements they furnished a workable solution .- I ndustria News Review

THE TAFT-HARTLEY LABOR LAW

The Labor Act is being thoroughly examined and explained in this campaign. A recent survey conducted by "Factory Management and Maintenance? magaline among factory workers showed that 7 out of 10 workers sampled in the poll said they were as well off, or better off, under the Taft-Hartley Act than they were before it was passed.

Summing up all of the controversial points the preponderance of opinion indicates that the people, as a whole, feel that the Taft-Hartley Act protects the rights of wage-workers and employers. If changes are needed in the present labor laws it seems perfectly clear, here in the National Capital, that the incoming Administration and Congress will work together and polish up the rough spots that are disturbing employers and workers. G. H. ENFIELD

October 31 is Temperance Sunday in the Bible Schools. I copied the following poem from the bulletin cabinet attached to the outside of the First Methodist Church, corner of State and Church Streets, Salem, Oregon, on August 5, 1948.

HE NEVER BLAMED THE BOOZE He took a bottle up to bed, drank

whiskey, hot, all night,
Drank cocktails in the morning, but
but never could get right.
He shivered in the evening and always had the blues,

Until he took a drink or two, but he never blamed the booze. His legs were swelled with dropsy, till he had to cut his shoes.

He blamed it on the doctor, but he never blamed the booze!

His joints were full of rheumatism, his appetite was slacked; He had pains between the shoulders, chills ran up his back.

He suffered from insomnia, at night he couldn't snooze, He said it was the climate, but he never blamed the booze!

Then he had the tremens, and he tackled rats and snakes.

First he had the fever, then he had the shakes.

At last he had a funeral, and his mourners had the blues.

And the epitaph they carved him was, "HE NEVER BLAMED THE BOOZE. -Temperance Advocate; 2-4-48

Each season has its own particular appeal but October seems to have special attraction for every individual. Its air is crisp and brisk and makes one feel like walking across hill and dale for miles. Failure to grant others the right to their own feelings is the main obstacle to getting along happily with other people. If you want to get along with others, don't think what they "ought" or "ought not" do but watch what they do or say in response to what you do or say and govern your actions accordingly. This is basic to all happy human relations.

After one year and nine months of happy ministry, he was stricken with serious illness which resulted in his death two months later on October 18, 1948. He preached his final sermon on August 8, 1948, at Mount Tabor Park. His theme was the Second Coming of Jesus Christ to the earth. #### True Wisdom

Lesson for October 31, 1948

WHAT is the most important thing in the world? What is worth more than anything else? Some would say Money; some Pow-

er; some Goodness; some Truth. Another answer is given by the writers of a group of books, two of which are included in our Bible. "Wisdom is the principal thing; therefore get wisdom." they say.

The books of Dr. Foreman

Proverbs and Ecclesiastes in our Protestant Bible, and the books of Ecclesiasticus and the Wisdom of Solomon in the Apocrypha, all have this viewpoint and are therefore called the Wisdom Literature.

Other writers in the Bible divide the human race into the Good and the Wicked, or the Believers and the Unbelievers; but these writers see mankind as the Wise and the Foolish. The books they wrote (especially Proverbs) were intended particularly for those who are so far neither foolish nor wise-that is to say, the young.

#### Knowledge Is Not Wisdom

WISDOM (as these writers use the word) is not the same thing as knowledge. A person may know a great many things and still be a fool. Or he may not even know how to read and write, and yet be wise. Some modern writer has said: Knowledge is knowing what to do; skill is knowing how to do it; and virtue is doing it. Wisdom is all of

these put together.

But the special feature of the "Wisdom Writers" is this: True wisdom begins with the fear of God. "The fear of the Lord is the beginning of wisdom . . . the knowledge of God is understanding." In other words, wisdom without religion, without faith, is foolish after all.

We can see how in our times the story of the Nazis has shown this once more to be true. The German Reich of 1935-1939 had the best of the science of the world; they had scholarship and wealth and "knowhow" in many fields; but they rejected God and defied his churchand so a nation was destroyed.

We too may profit by their example. We of the western nations have wealth and technical skills beyond any other peoples, we have the atom bombs-but have we the wisdom without which all these things are but as torches in the hands of madmen?

#### University on Ant-Hill

KNOWLEDGE may be expensive. It costs a great deal of money to know what it takes to be an engineer or a surgeon. Wisdom, strange to say, is less expensive. It is fact on such a low shelf that most people pass it by.

Consider where the "Wisdom Writers" tell us we may learn wisdom. One place is experience. "Experience keeps an expensive school, but fools will learn in no otherand hardly from that," says a more modern proverb.

Many of the proverbs in our Bible are simply distilled drops of experience. "A soft answer turneth away wrath, but grievous words stir up anger," for example. Do you need an angel from the sky to tell you that?

Another source of wisdom is just Nature herself. "Go to the ant, thou sluggard (lazy fellow); consider her ways and be wise." A lazy man is a fool; but how shall he learn to be wise? Not by reading books-just by watching the ants.

#### **Inspired Common Sense**

A FORMER governor of Virginia used to say that during his term of office he received more practical help from reading Proverbs than from any of the books on political science in his library. For the science, or the art, of government is simply one specialized form of that most important art, getting along with people. And the Wisdom Lit-

erature shows us how it is done. Some people think that Inspiration is always mysterious, and that the Holy Spirit would not stoop to inspire what we could learn in any ordinary way. But the Christian church, when it declares Proverbs (for example) inspired, expresses her belief that there is such a thing as Inspired Common Sense.

God may speak to us, and does speak-if we will listen-in the advice of our parents, in our everyday experiences, in the hard-working ant and the majesty of the soaring eagle. All truth is God's truth, even when we find it in our own backyard. (Copyright by the International Council of Religious Education on behalf of 40 Protestant denominations.
