### CHAMBER OF COMMERCE NEWS

The Taneytown Chamber of Commerce held their regular meeting on Monday January 24, 1949, in the Mu-Building with Vice-President nicipal David Smith presiding. S. E. Breth, Chairman of the special committee to obtain information from the members as to their desires for the program for the next annual banquet, re-ported that the returns to the ques-tionnaire sent out by the committee were coming in very slowly and he urged that members return their questionnaires to him as soon as possible. A lively discussion from the floor on the garbage collection pro-blem resulted in the appointment of a special committee to meet with the Town Council in an attempt to work out the problem.

Mr. Frank Parish gave a very interesting and information talk on the displaced persons program as it is being applied in the State of Mary-land. He spoke at length giving an account of his trip to Germany, where he acted as technical advisor in the selection of approximately 300 dis-placed persons which had been ap-proved for the State of Maryland. Mr. Parish spoke also of the present laws in effect covering the entrance of these Displaced Persons into this country and also of the proposed legislation which can radically change the present picture. At the conclu-sion of Mr. Parish's talk a motion was made and seconded that the Taneytown Chamber of Commerce petition the United States Chamber of Com-

The School Building Incentive Fund provides that if in any year a county levies 5c for school building purposes, the state will furnish the difference between the money so le-vied and the amount equal to \$10 per pupil.

As our County assessment is now about \$57,000,000 and as Carroll County has about 6800 pupils in its schools, this plan provides.

### \$10.00 per pupil for 6800

money, provided for school buildings an amount in excess of \$100,000 yearly.

I might add that in 1948 the County Commissioners levied a total of 15c for school buildings, 10c over the amount required to qualify for the state money. The 1949 levy (\$1.25 as compared with \$1.33<sup>1</sup>/<sub>3</sub> in 1948) also includes a sum in addition to the required 5c.

It has been estimated that within the next five years Carroll County will need an additional 1½ million dollars to meet its school building requirements. Within the last two years the school population of the State has increased by about 25,000 pupils, and this rate of increases, because of our increased birth rate, will continue until about 1958. Carroll County's school population has kept pace with the growth throughout the State.

The 11/2 million dollar bond issue is less than the amount required to develop our buildings to meet the needs of today. When we start paying off these bonds most of the \$100,000 now annually used for school buildings will be required to meet the payments of the interest and principal on

the bonds. The current \$64.00 ques-tion is: Where is the money coming from to take care of the growth of

Recently, somthing very lovely was sent to Your Observer which is just about the most beautiful gift that about the most beautiful gift that ever was presented to me in my life time. Perhaps, because it was made by the man who sent it and because it is so fine and original and arrived at such an appropriate time. It is just a piece of a branch of a dog-Just a piece of a branch of a dog-wood tree, split in half. It is five inches in height and two inches wide. It was rubbed smooth, then shel-lacked and then highly polished which makes the grain of the wood stand out. A piece of green felt was gut around and pasted on to fit the hoftom on which it stands it there is bottom on which it stands. It wasn't just the fine workmanship all done by hand of this fine individual that I admired but what was on that shiny piece of wood. A Cross! An inlaid Cross, folks, in the center part, just three inches tall, of black walnut. I keep it before me on my secretary at all times, where I spend many happy hours. It has helped me so much since my precious Boston terrior, nine months of age, "Lady Eva-dne", was snapped of her life on Jan. 7 by a speeding truck from Pa. in front of my door. Instead of hatred in my heart which I had for that driver and as I look at that piece of wood with the black walnut Cross, I now forgive. I wonder if the fine person who made such a gift for me really understands just how I feel toward that beautiful gift and what it really has meant and done for me. I know he is a fine Christian, a real church man. God bless him.

Isn't it wonderful how a gift like that can affect a person's attitude when sadness strikes? When I was a very little girl, my beloved Dad would say to me, "It is the little things, my pet, that count in life". This happens to be one of those fine things. That little Cross of black walnut on the polished dogwood branch before me.

So long, folks. Have a nice week end. Will be seeing you next week. Now and then do think of that lovely Cross of black walnut on the branch of the dogwood tree.

A WORTHWHILE EXPERIENCE

The 6th Grade had a real treat on Thursday, Jan. 20, 1949 Yvonne Lambert asked her parents if the class could see the Inaugauration Day events over the television set in the store.

The children walked from the school to the store where they were entertained.

The pictures were very clear. was thrilling to hear and see the President and Vice-President take their oaths.

There were great crowds of people in Washington. Some had arrived as early as eight o'clock in the morn. ing in order to get good places from which to view the events.

The parade was slow in starting. While we were waiting there were pictures of many important buildings shown. It was interesting to hear that the treasury department had built on part of the White House lawn during Andrew Jackson's administration.

We saw the beginning of the pa-rade. Leading it was the President's car and its escort. District policemen on motorcycles in V information, the Army band, and the Missouri float were next in line.

We had stayed longer than we had expected, but we didn't get to see the entire parade. The class is very grateful to the Lambert Electrical very Company for giving us this delight-ful and educational exeptience. SIXTH GRADE Taneytown School.

### HIGHWAY, POST OFFICE SER-VICE INAUGURATED

On January 17 Taneytown was linked with Washington, D. C., and Lan-caster, Pa., by the establishment of Highway Post Office Service between these two cities. (Pictures on Page 6.) The first trip under actual working conditions carried Mr. T. R. Lehman, President Railway Mail Association, Mr. Arthur Bopst, Asst. Gen'l Supt. and Mr. J. N. Sparks, District Sup-erintendent of Railway Mail Service. When the Highway Post Office arrived exactly on schedule at 9:41 A. M. it was met by a reception committee composed of members of the Town Council and the Chamber of Commerce Committee and with a State Police escort was conveyed to the Post Office where it was opened to the public for inspection.

In commemorating this special event a special "Cachet" was stamped on all mail carried on the first trip. It is to be noted with considerable pride that Acting P. M., J. F. Burke had prepared a special cachet for all Taneytown mail which called attention to the fact that the Taneytown Md. Postoffice was established on Feb. 3, 1795. Envelopes carrying these special cachets will be treasured and carefully preserved as items of local history. Postmaster Burke ad-vised that about 800 envelopes were postmarked Taneytown. This Post Office on wheels normally carries a This Post personnel of three men, with Mr. Leonard J. Sanders clerk in charge. Mr. S. G. Woodruff, clerk and Mr. B. C Barnhart as operator of the vehi-

Hundreds of town people turned out to have a look at the latest in mail transportation Service and we were told by those in charge of the trip, that their Taneytown Reception was extremely cordial and that it was necessary to stop over longer than their scheduled time in order not to disappoint the crowd at Tanevtown.

The special cachet in Taneytown for mailing on this trip was the only one prepared along the Washington-Lancaster route. Taneytown had the largest crowd out to welcome the truck and the P. O. officials along the line on the first trip.

schools during the next 5 to 8 years? One solution, and I believe the

most satisfactory one suggested to date, is to triple our Incentive Fund. In other words, for each 15c (\$85,000) on the county tax bill for school buildings the state would provide \$118,500. This \$204,000, annually, would retire our bonds and leave in excess of \$100,000 per year, plus the racing money, to continue our school building program. Incidentally this would have but little effect on our county tax rate.

Another suggestion is that the State, which is in sound financial condition, issue bonds and lend this money to the Counties at whatever the ost is to the State. This plan may help those counties who have bonded them alves beyond a safe limit and still have not met their immediate school building needs, but would be of less value to counties, such as Car-roll, which are well within safe limits of indebtedness.

Senate Bill No. 92 was introduced this past week to amend the Bond Bill to permit the use of both school and roads funds, in excess of the amount required to meet the principal and interest payments for further school and road developments. The amendment makes no substantive change in the Roads-Schools Bond Bill as approved by the voters of Carroll County last Fall.

### REPEAL OF BOWLING TAX

The only other county measure introduced last week was S. B. which repeals the 1c per g 93, game bowling tax that was initiated in the 1947 Session. The County Commissioners recommended the repeal of this tax because the income therefrom does not justify the administrative work required to collect and account for the tax. The income from this tax amounts to little more than

\$100.00 during the year. Until next week, I am, sincerely, STANFORD HOFF.

It was my pleasure of working for Mr. Clousher when he lived on the farm near Piney Creek Church over forty years ago. They do not have anything to regret. They have just as good memory as ever. They talked of things that happened back in my boyhood days that I had forgotten. It is wonderful to live to such an old age.

They just celebrated their 55th wedding anniversary with four gen-erations present. ### FEWER DUSTY BIBLES

Seeing an unused Bible lying about in his home, a small boy asked his mother whose book it was, "It is God's Book," she is reported to have said. "Well," replied the boy, "don't you think we should return it. Nobody seems to read it!"

Stories like the above do not apply to all the homes of America, according to Dr. Frederick Cropp, secretary of the American Bible Society, who has spent a considerable amount of time investigating just this situation. "People are wrong who say that while the Bible may be the world's best seller, it is the least read book and the book that nobody knows," continued Dr. Cropp.

ued Dr. Cropp. The use of helps for reading the Bible and lists of suggested Scripture passages is way above pre-war years as indicated by the figures of religious publishing houses. "The Bible Society alone," declared Dr. Cropp, "distributed last year on request more than 15,000,000 copies of the bookmark containing a list of readings for the Worldwide Bible Reading between Thanksgiving and Christmas. In addition the list was reprinted more than 20.000,000 times."

In Edinburgh, it is learned, a sixyear schedule is being launched in Scottish schools which will insure that every boy and girl will receive Scripture training "on a par with mathematics and languages," and "know the Bible as well as their grandfathers."

## THERE ARE MANY WHO ARE HUNGRY

There are thoughts for meditation in this theme. We need not limit in this theme. We need not limit hunger to the stomach. There is mental hunger, heart hunger, soul hunger. We know only too well of the millions who are physically hungry in all parts of the earth. And the American people may feel justly proud of the part they are taking to relieve this plight

But there is another hunger which may not appear so apparent. This hunger is to have their dreams come true. Many people are in the world desirous of making a success of the talents entrusted to them by their Creator, and of which they are certain they possess, and there is no one to take them in, no one to offer them a word of encouragement. If we could only know how many men and wo-men of history became masters of their fate because some person took an interest in them, the record would be most interesting and stimulating reading. Each of us knows no doubt of one or more such individuals. It is comparatively easy for a young man or young woman who has a rich or influential father or uncle to scale the heights, but alas, for the poor boy or girl, who has no one to pull wires for him or her in a political age and in a political world. The hunger is strong and wide spread for those who would have their dreams of a life's career come true.

Too much cannot be said in praise of "We the People,' a program which brings, among other things, the de-sires and longings of deserving people to the attention of the public, and the response of the American people has been most generous. Again, there are large number of sponsors who by means of their programs of com-petition, discover the hidden talents of worthy youth, and start them on life's careers. Their hunger is being appeased. an interitien

What makes a lady or a gentleman in the true sense of the word? Not wealth, fine clothes nor aristocratic ancesters. Anyone can be rightly called a lady or gentleman who possesses true kindness. Kindness which springs from the heart and of which courtesy and generosity are the na-tural offspring. It is that inner feeling that never willingly or knowingly inflicts pain on another.

Have you noticed how the people are failing to drop their dime or quarter into the "March of Dime" boxes? Last year this time the response was generous and many of the boxes were full. This year its a different story and one wonders why? The need is as great as ever and no individual or community is safe against an attack of infantile paraly-During the last eleven years 40 S18. million dollars has been used and 110 thousand polio victims have been helped. Now 40 million dollars is a lot of money and one cannot help but ask why does it cost so much to help one patient. Before inflation hit us, hospital care plus special treatment cost \$25,000 per patient, now its about \$38,000. Not all this money is spent for patient care as a large percentage is used for research. How else will the disease ever be irradicated if science doesn't continue to search for the source and cause of polio? Hospital care and treatment is so costly because it's a long drawn out disease and one that requires highly skilled and trained technicians. That is why the foundation takes care of your child if he is attacked by this treacherous disease-because the cost is so great that the average parent cannot afford the treatment. If you haven't contributed your share do so now. Remember the child you help may be your own. And if you don't have a child of your own give anyway, for you, yourself could become a victim. The disease attacks the young and the old alike. If you would like to make a contribution other than thru the "March of Dime" boxes call your local chairman and she will gladly call and pick up your check or cash. Mrs. Frank Martin spent Wednes-day with her parents, Mr. and Mrs. Raymond Buffington.

Nancy Roelke's guest Wednesday night was her schoolmate Bonnie Munshower, of Detour.

The Russell Bohn's have installed a television set and are very gener-ous with it, keeping open house twen-ty-four hours a day for their friends and neighbors. Do I sound like a Mrs. Harry K. Myers returned salesman for television? Well, I am home from the Hospital on Tuesday not. I just see what Wendell Wilkie saw several years ago, that our world is really shrinking and soon we will be able to say good morning to our friends in China or Australia with the same ease and matter of factness. as we say good morning to the milk man. A gang of telephone lineman were busy putting up telephone poles through a farmer's field when the indignant farmer appeared, saw what they were doing and ordered them off his land. The line foreman then produced a document showing that the telephone company had been granted right of way to string a line through the property. Still seething with righteous rage, the farmer was unimpressed. But he presently disappeared and the linemen went back to work. A few months later they were again interrupted-this time by a vicious bull charging at them from the rear. In their haste to retreat, they might not have noticed the old farmer sitting calmly on the fence observing the whole encounter. But as they raced past him, he shouled happily: "Why don't vou show him your papers, boys?" On Friday and Saturday Aunt Jemina visited one of the stores in Taneytown and baked delicious pan cakes which she served to any one who desired some. She had some enthusiastic gents from the ranks of the small fry. There was a line of them awaiting their turn dressed in Roy Roger hats and cowboy suits and some in Indian paint. Their eyes were glued on the grill where the hot cakes were sizzling, and I am sure when they tasted those cakes cov-ered with maple syrup they were sold on pancakes the rest of their life. There is no greater compliment to any cook than a growing boy's appetite for he eats anything and everything and it pronounces it "wonderful." ### WEDDING ANNOUNCED

### LETTER FROM FLORIDA

West Palm Beach, Fla., Jan. 21.

We visited Hialeah Park last week. It is beautiful. The flamingo, white, also black swan have their home in the lake; in the center of the race track, with many varieties of tropical picture. The last two Sundays we were at the First Methodist Sunday School and Church.

Saturday, the Palm Beach County International Air Port was the scene of an Air Show; given for the bene-fit of the March of Dimes. The Jet planes are terrific. They also used F80C's in the show.

We just came home from a three days trip to the west coast of Florida. Our route was to Miami, then out the Tamiami Trail, across the Everglades. This trail was made up of there would be a large flock of white heron in the swamp by the roadside. They are so graceful; it is hard to believe they are not statues. Occasionally we would see a blue or gray heron. There were a few buzzards, crows and black birds. Many turtles were sunning themselves on the rocks

An alligator was lying on a log at the edge of the canal. It raised up its head and slid into the water when we closed the car door. Soon a baby alligator appeared on the same log. It was frightened when a passer-by closed his car door. You could see "Gar" fish in the canal by the thous-ands. They are caught by the In-dians for food. Two Indian girls dressed in their native garb had caught three large fish; using a spear on a pole about fifteen feet long. They waved when we met them. We saw many Seminole Indian huts and vil-

lages. One Indian man was in a flat botthe game showing a score of 20-14 tom canal boat, driven by a V8 Ford engine, with an airplane propeller. We were driving along the canal at the speed of 45 miles an hour, and he was still in the lead. He was dressed like an American, wearing a blue handkerchief on his head. There were many flat bottom canal boats local girls played and the score was 27-24. Doris Fair, a member of the inder engines, while others used air

trading post and warehouse. We found the town of Everglades to be a fishing center. A boat factory and lumber yard were located here. One had a feeling of being back in civilization again after seeing nice homes, a cow, pig and chickens.

Naples was also a fishing center along the Gulf of Mexico.

We visited a shell factory at Bonita Springs. It was very interesting.

Fort Myers is a very nice place. The municipal park is excellent. It is along the 'Caloosahatchee river. Imagine our surprise to find the same NG FOR ANNUAL SOLICITATION Donkey Ball outfit here that had been

### FREDERICK J. SHORB

Frederick Jerome Shorb, wellknown retired merchant of Detour, died Thursday, Jan. 20, 1949, at his home in that place at the advanced age of 94 years. He was born in Keysville, a son of the late James and Mary Dutrow Shorb, and was a resident of Detour since 1879. He operated a general store until thirteen years ago. His wife, Lillie Weant Shorb, preceded him in death twelve years ago. He was a charter member of the Keysville Lutheran Church and also of the Union Bridge Knights of Pythias Lodge. A daughter, Miss Vallie M. Shorb at home, survives. He was also the father of the late Dr. Marlin W. Shorb, of Baltimore. Funeral services were held at the The church cemetery, near Ladie//burg. L. Creager and Son were the funer-

with her son-in-law and daughter, Mr. and Mrs. J. Albert Angell, of York St., died after an illness of nine days in the Annie M. Warner Hospital, Gettysburg, where she had been a patient only since Sunday. She was a daughter of the late Ellsworth and Mary Bixler Englar and was aged 50 years. She leaves two daughters, Mrs. Angell, with whom she made her home for the last four years write and thank and Mrs. Betty Meinert, Taneytown; a son, Charles J. Hull, Jr., Rochester, N. Y., and a sister, Mrs. John P. W. Beard, Westminkter. She was a member of the Pipe Creek Church of

The cattle industry is increasing very rapidly. The ranches need rain badly.

The temperature at eight o'clock this morning at Miami was 68° and here at West Palm 74°. The average here is usually 82° during the and 70° at night. The explanation for the difference in temperature seems to be that the Gulf Stream lies closer to the shore here. We hope the cold waves missed you. Sincerely
