ALUMNI NEWS

ni Association held a special meeting in the High School on Monday evening, March 21, at 8 P. M.

The final reports on the Minstrel Show which was held recently were given. The show proved to be very successful. The Association extended its thanks to Mr. Donatelli for his untiring efforts, deep interest and spirit of cooperation as writer and director of this splendid show. He in turn thanked the Association and ex-pressed his appreciation for the coop-eration which he received from the cast and from the various commit-

tees.
The possibility of taking the show to several other places was discussed. Two of these possibilities are being investigated and the reports are to be made at the next meeting of the

all-around boy and the best-all-around girl in the senior class. These persons are to be selected by the Faculty of the school. A committee was appointed to purchase these awards. The condition of the school grounds

was discussed. It was suggested that part of the grounds should be paved so that the children would not have to remain in the building during the winter and spring months. It was decided to send letters to the Super-intendent of Schools, to the Board of Education and to the County Commissioners, stating the conditions be improved by the paving of a por-tion of the school grounds.

The Annual Alumni Banquet was

discussed but no specific date was set

for this occasion.

It was decided to hold the meetings from now on the third Monday evening of each month at 7:30 P. M. instead of on the first Friday of the month. So Alumni be sure to set aside the third Monday night of each month as Alumni night.

-21-TWELFTH ANNUAL MARYLAND HOUSE & GARDEN PILGRIMAGE

The twelfth of Maryland's House and Garden Pilgrimages, annual springtime affairs which have enjoyed rapidly growing public interest and attendance, will be held this year from Friday, April 29, through Monday, May 9, beginning with two simultaneous tours of historic old Howard County and Baltimore's environs on the opening day, and ending with a tour of equally historic and pictur-esque Carroll County. Altogether, seventeen different areas will be visited, and some of them contain buildings and gardens dating back over 300 years of the state's history.

ONE GREAT HOUR PRAISED BY MAGAZINE

Christian Century Explains the Purpose of the Event

Nothing like it ever happened be-fore! On Sunday, March 27, more than 76,000 churches are expected to cooperate in an all-out effort for overseas relief. On the previous evening at ten o'clock eastern standard time, all the major networks will combine to broadcast a dramatization of the service being rendered to suffering humanity by America's churches. The editors of this paper have not seen Robert Sherwood's script, but we have seen what the churches are doing in Europe and Asia, and we are confident that their story cannot be told with more drama and heart-moving power than the The giving of medals to seniors at Graduation was discussed. It was decided to give an award to the best Hour." It is great because its aim is Hour." It is great because its aim is the noblest of all purposes—an unselfish ministry to children, women and men who are hungry, ragged, homeless, discouraged. It is great because it is conceived on a magnificent scale, bringing together for one evening hour the whole of the American community and then on the following morning calling all the people of this nation together in their churches to worship God and to dedi-cate their gifts to his needy children. It is great because here at last is a cause that is big enough and importunate enough to unite Roman Catholic and Protestant Christians under one banner of compassion. Msgr. Eugene A. Loftis of the National Catholic Welfare Conference says that this collaboration should "make a profound impression on the people of Europe." We agree, and add that it should be equally impressive here. When this can happen, then the gospel of the merciful Chair process that it is the hope of Christ proves that it is the hope of the world because it can still move the people who claim it as their own to an imaginative and unprecedented deed of Christian love.

ANNAPOLIS LETTER

REMOVAL OF PIMILCO RACE TRACK

One of the bitterest fights of the current session appears to be developing over Senate Bill 310. This bill would authorize the removal of the Pimlico race track by merger or consolidation with one of the other tracks in the state. The Maryland Jockey Club, operator of the track at Pimlico, is seeking the passage of S. B. 310 to permit the racing days now allocated to Pimlico to be used at Laurel.

The passage of this bill permitting the abandonment of Pimlico would end all racing in the vicinity of Baltimore and central Maryland. It is rumored that the subsequent move would involve the closing of the track at Havre de Grace and the removal of its operations to the Laurel

Baltimore City is preparing to oppose the passage of this measure and it will probably be allied with the Chamber of Commerce of the City and other business organizations. The loss of many thousands of dollars now spent in the city by racing fans with the local hotels, restaurants, clubs, stores and bars.

If such a move would result in a diminution of racing revenues in the state each of our counties now participating in the distribution of the racing tax would share in the loss.

DOG VIVISECTION

How it started no one seems to know but since the beginning of the session all legislators have been bombarded with telegrams, letters and petitions opposing a bill that would direct dog pounds to turn unclaimed dogs over to medical schools for the purpose of experimentation. Delegates and Senators have been examining their files of more than 800 (to date) bills in a desperate, but vain, effort to locate this measure. Some and by managers of Cooperative of the more harrassed members have offered rewards for its discovery and

capture, without success. It is now the general consensus of opinion that this proposal never has been made, directly or indirectly, whether in the form of a bill, petition, resolution or otherwise, and, we are reliable informed, won't be made. The General Assembly has stopped looking for the bill. It is now looking for the party who started this

business. JURORS' PAY Carroll County's jurymen may look to their next tour of duty in the County's service with less disdain and apprehension. S. B. 322 would raise their pay from the present \$4.00 per day to \$5.00 (and possibly \$6.00) per

S. B. 314, introduced at the request of the city officials of Westminster, would give the city the power to reg-ulate and control the use of taxi cabs within the city limits of Westminster. S. B. 340 prohibits the recording of any plats for developments or sub-divisions, within the City limits of Westminster, unless approved by the Mayor and Common Council. By this means the City can control the location of all proposed streets and alleys and can insure their correlation with existing thoroughfares.

This property purchased by the Taneytown Recreation Association consists of 15 acres and 3 square rods of land which lays directly back of the properties on the south side of West Baltimore St. and between the Reformed Church cemetery and the

Corporation boundary. Plans are being made to improve this property with recreation facili-ties for young and old. These im-provements will include a regulation provements will include a regulation baseball field with stands for the comfort and convenience of the spectators, a hard surfaced parking area, tennis, handball, and volley ball courts are included in the plans. A section of the park will be improved with swings, sliding boards and sand boxes for the youngsters so that they have a safe place to play. There will have a safe place to play. There will be picnic tables and fire-places so that whole families may enjoy an outing at the park.

Since money is the organizations greatest need at the present time, even though you have not been solicited please come forward with whatever help you can give. To make this project a success, it will take the combined efforts of the whole community. This is a community project, sponsored by the Taneytown Recreation Association, and to be enjoyed by the entire community. This Park may well become the Tan-eytown War Memorial.

MINIMUM WAGE LAW

This week the Committee on Education and Labor took another step into socialism. We march on down the road to serfdom under the Lesinski banner bearing the slogan "Minimum Wage Law," H.R. 3190. It sounds humanitarian. It pretends to do for the people what they cannot or will not do for themselves. Like all demogogic promises of government to fix prices, its sole practical purpose is to rob one group to benefit another that has the most votes in it.

This Administration under the Leisinski Bill proposes to make all employers engaged in interstate commerce pay the apprentice, the learner, the slow worker, the handicapped or injured veteran, the old, the parttime worker, even the baby sitters at least 75 cents an hour for 40 hours a week and \$1.121/2 for overtime. If the father and mother are engaged in interstate commerce while the baby sitter sits 75 cents an hour for 40 hours a week and \$1.121/2 per hour for all overtime must be paid unless specifically exempted from the bill. The law denies to all such persons the right to work at all unless they can induce somebody to pay the legal rate. If they can't, then they must go on the relief rolls. They dare not take even 73c an hour. The bill is actually a compulsory unemployment bill. That is planned economy. That is socialism in any country, including America.

To illustrate how it works. We have more than 6,000 country weekly newspapers. Traditionally they employ many newsboys and paper carriers. They employ apprentices to learn the printing trade. The testimony showed that there are more than 23,000 G. I's learning the printing trade and working for less than 75 cents an hour while they are learning. Instead of going to school at taxpayers' expense, they learn a trade and get a little compensation while they learn. The Secretary of the Newspaper Association testified that this arbitrary government management of the small newspaper business from Washington would revolutionize it, destroy some of it, and cause tens of thousands to be unemployed. Everyone knows that a learner breaks more machinery on a farm than he is worth for the first six months or a year. No farmer can pay 75 cents an hour to boot. When the government fixes the price of grain, feed went so high that beef and butter producers could not pay it. Farmers went out of business. The public got less beef and butter at higher prices. When the government fixed the price of rent so as to rob the little property owners, the property owners liquidated, went out of business, stopped renting and quit building any new apartments. The result has, been that the tenants have robbed themselves and have gone out on the streets and into the arms of the rent chiselers.

This is the way all humanity suffers under socialism around the world. A moral breakdown of government ultimately hurts worst of all the learner, the apprentice, the least productive, the low income group, the pensioners. They become unemployed and unhoused and unfed first of all-dependents on the government.

What sense does it make for the government to decree that you cannot legally sell 1/2 bushel of apples for less than 75 cents when the public will pay only 50 cents? The government stops trade by making it impossible for one group to do business with the other, It should be obvious that we must all trade with each other at prices each can pay. No one but the people themselves dealing in and exchanging goods and services with each other freely can know just what a seller will take or a buyer be willing to pay. That's what we call doing business in a free economy as against the planned or socialist economy. The Labor Committee is in great disagreement and may refuse in the end to vote out the Lesinski Bill. When shall we Americans reverse the trend?-Ralph W. Gwinn,

HOW MUCH MORE!

Parents delight to give their children things that please them. Frequently, however, thru ignorance we give things that harm, or are not for their good. We give then a stone when they need bread. We give that which we have the projets heavily more them when we weighs heavily upon them when we should give that which sustains Bread nourishes and sustains life. A stone destroys life. A stone is an instrument of death in the hands of a ruthless boy. Bread is a means of life in the hands of a hungry boy.

If our children need fish, and what child doeesn't shall we give them ser-pents instead! Some serpents are poisonous. What parent has not at one time or another allowed his child to partake of, indulge in, and feed upon that which demoralizes and poisons the moral life!—comic books, certain types of movies, and question-able amusements and pastimes. There are those people who appear unable to discriminate between that which is good and that which is evil. They are not able apparently to distinguish between a serpent and a fish.

Sometimes the diet should be an egg and instead we place before the child a scorpion. Why are parents so lax in their consideration for the welfare of their sons and daughters? They leave too much to the unbalanced judgment and the inexperience of youth. This is, for the time being, an easier way out of a situation. Yes, we parents do this when we really intend to do the very best for those young lives which the Heavenly Father has entrusted to our guidance discipline, and care. Now, if we delight to give good gifts unto our chilling the state of the Heavenly the Heave dren, how much more does the Heavenly Father delight to give good things to them that ask him! God demonstrated His delight when He gave the world its Greatest Gift—His Only Begotten Son.

It is not always easy to know what is the best gift for an individual. We must be wise as serpents, and harmmust be wise as serpents, and harm-leess as doves in our choices. That we might possess such ability, we must be guided by principles and teachings of the world's benefactors, especially, the greatest of these, the Son of God Himself.

DEVOTIONAL READING: Acts

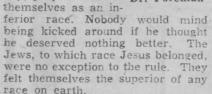

The Race Question

Lesson for March 27, 1949.

ESUS DID NOT know there was a race question. That is to say, there was no question for him, though he well knew that his neigh-

bors found the race problem a hot one. All the germs of any race problem, even of race riots, were there in Palestine as in all of our world to-

First there was the feeling of racial superiority. Few, if any, peoples think of Dr. Foreman

Two Sides of the Question

IN JESUS' time the Jew of Palestine was in the middle. The Romans, having conquered the land, were top-dog in Palestine. With the Romans, the Jews saw the under-side of the race question. But there were other races, much less pure than the Jews, races called "Canaanito" for want of a better name. These people were kicked around by the Jews, just as the Jews in turn were 'icked around by the Romans. Looking at the Canaanites, the Jews saw the race question from the top side.

In Palestine the wounds of race quarrels were made worse by the vinegar of religious differences. In those days it was taken for granted: Different race, different religion.

Jesus' neighbors and relatives in Nazareth, like most Jews, supposed that God would favor only the "chosen people," namely themselves. So the Jew's resentment toward the Romans above him and his contempt of the Canaanites beneath him were made more bitter by his conviction that they would all end in hell except his own race.

What Jesus Did About It

THE TWO STORIES in our lesson (see the Scripture references) show the astonishingly simple way in which Jesus walked straight through those walls as if they did not exist. He passed no resolutions, denounced nobody; he simply treated all races alike. He helped the Roman army officer and the Canaanite woman precisely as if they had been Jews. (By the way, his remarks to that woman should not be misunderstood as rude. She did not take them that way. He spoke to her, we may well believe, with a smile, and she took him with equal good humor.) Jesus appreciated faith wherever he found it.

He was the last person to fancy that all human beings are alike. But he was the first to give all an equal chance. He took people as human beings, not as "Romans" or "Cana-

He neither cringed to the Romans nor bullied the Canaanites. He looked at all men and women with level eyes, seeing not their skins nor their clothes, but their hearts.

What We Can Do

OUR NORTH AMERICA is also criss-crossed by walls of prejudice - racial, political and religious. In Canada (for example) there is the friction between Canadians of French and those of English or Scotch descent; in the United States (not by any means confined to the South) between Negroes and white people, or between Japanese and white people; between the "old stock" and recent immigrants; and so on. Those walls look pretty solid; but a Christian will find that if he follows Jesus' example he can walk right through them. Last winter a national interdenominational organization challenged its 28 million members and through them the Christian world, with one of the most sweeping declarations of human rights ever drafted by an American church body.

Hitting at every type of diserimination-r a c i a l, political, social, economic, religious-the group has challenged the Church to work for the creation of a nonsegregated society "as proof of their sincerity."

Yet the real breakdown of human prejudices, hatreds and contempts, with the injustices growing out of these, does not come at one stroke by resolutions. It comes only by degrees, as Christ-inspired individuals make their own bright doorways.

Collective Farmer in USSR Given Small Plot of Land

Collective farms, operated by farm cooperatives, occupy the principal place in Soviet a coulture. The basis of those accoming ons is the collective ownership of the land and of the instruments and means of production.

A co"cetive far n is a large association of form families. On an average, a collective form has at its disposal 1.270 cores of orable land. To direct it s'-ilfully and insure a proper disposition of mannower, a well thought' out system of organization of the collective farm labor is essential. Such a system has been in existence from the first days of the organization of these cooperative farms. A model statute governing collective farms was adopted in 1905.

All the members of a collective farm are divided into brigades. A field brigade usually consists of 45 to 60 persons. Each of these brigades is placed in charge of defininte portions of land, and is provided with draft animals, implements, etc.

The measure of labor is the workday. For all his labor on the farm the collective farmer is credited with

In addition to the "work days" earned by each man and woman farm worker, every farm family of the collective farm has its house and tract of ground varying from two and a half to five or ten acres. What the family produces on its plot-grain, vegetables, fruit, dairy and poultry products, livestock and so on, is its own, for use or sale.

cause, long ago, alchemists tried to turn silver into gold. They failed to get gold, but they discovered silver nitrate which is sensitive to light. Centuries later, using silver nitrate, photographic films were developed, and film-malting became a leader among the many industrial uses of

Uncle Sam Says

In February we observe the birthdays of two very famous Americans, George Washington and Abraham Lincoln. Practical men, they understood the value of thrift, the necessity for a well-ordered method of saving. You specify the sum to be alloted each payday, where you work. That is the Payroll Savings Plan. If self-employed, use the Bond-a-Month Plan at your bank. And in 10 years, you reap the reward—\$4 for every \$3 you invest.

Here's extra comfort for Ford's famous "Mid Ship" Ride! The seats are placed where the going is smoothest. They provide plenty of hip and shoulder room for six big people!

Feel those "Magic Action" Brakes

They're King-Size and 35% easier to apply because "Magic Action" uses part of the car's own momentum!

Feel that heavy-gauge steel

Feel that "Equa-Poise" Power

you get from the new 100 h.p. V-8 or the new 95 h.p. Six with up to 10% more gas
