RED CROSS DRIVE FOR MEMBERSHIP

The Goal for Taneytown District is \$650.00

The Red Cross Drive for membership and funds begins in Taneytown today. Why should we support the Red Cross this year especially? Just as the nation is organizing its economic life and calling its man power for military training, so is the Red Cross mobilizing its resources. Under the stress of the very grave emergency confronting this nation the government has asked the Red Cross to train 20 million people in First Aid, to provide for instant use tremendous amounts of blood and plasma, to instruct 100,000 women and girls to serve as nurses' aides, to teach many more thousands home nursing skills, to recruit and train half a million volunteers to work with the Civilian Defense organization as only the Red Cross can because of its wide experience in Disaster Relief. In addition, it must carry out its Charter obligation to aid the men in uniform and their families.

In the words of a recent editorial "A nation's real defense begins with individual effort in community life." The Red Cross shows us the way.

In recognition of this, the following citizens have consented to give their best efforts toward the Drive as local chairmen: For Industrial Interests, Mr. Merwyn Furr; for Commercial Interests, Mr. Elwood Baumgardner, for Residential Areas, Rev. Glenn Stahl and Rev. Charles Owen; for Churches and Civic groups, Mrs. George Bingham, Jr.; for the Keyville Area, Mrs. Lloyd Whitlaid and Mrs. Charles Cluts; for Harney and the Harney Road, Rev. and Mrs. Thurlow Null.

Our quota for this year is \$650.00. Last year the Taneytown District made an outstanding record in the State by raising well over its quota. Please give generously to the Red Cross!

At the meeting of the board of Directors of the Carroll County Chapter American Red Cross, held Monday night at Headquarters in the Westminster Historical House, a new plan was inaugurated by which chairmen of the different services will report monthly of their activities.

THIS 'N' THAT

(Your Chatty Column)

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth!
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

There is a Silver Moon shining down from the Heavens as I type this column and one can see for many miles across the country sides. Hundreds of stars twinkling!

Did you know that Abraham Lincoln's Mother died from poisonous milk from the family cow? They discovered poisonous snakes had been in the grass which the cow ate. Many died in the community in that section of Ill. The death was so sudden and the sad part was that Abe's father made the casket! How awful! That was in the year 1811. It was all through Mary, Lincoln's wife that he became the President of the United States which he did not desire. Their marriage was not a happy one as she was known to have a terrific temper.

This Correspondent does not think any President in any day or age has ever had the sadness which our honest Abe endured.

The very first visit as a very young man to New Orleans convinced Abe Lincoln that slavery must be abolished. There has never been a President of these United States loved as much as he. Springfield, Ill., has been built around his life.

Last year's, Carroll Record calendar was so attractive and realistic of the "Liberty Bell" with the American flags that I framed it!

Recently upon making a call upon Queen Victoria was astounded to see the insides of the piano laying on the floor and that lady did it all herself as she continued to dust every inch of that piano! Umph!

Now, here's to the men! Are you one of those individuals who carry one of those tiny change purses? If so do throw it away immediately as your very make up is judged just by that purse!

Congratulations to our "General" in our town! Feel confident there are hundreds who join me in that one which should have been done many moons ago!

Now, here's to our Chamber of Commerce! Remember last year and the year before, I suggested having

COAL COUNTRY

We are living in the center of the Anthracite coal producing country. There are said to be 12 coal seams in these regions, ranging in thickness from one inch to 64 feet. Ten of the seams are or have been worked, the other two remain for future generations to utilize. The coal seams outcrop all over the land, and these seams were in former times worked by independent operators, but the coal and iron company seeing the loss to themselves from these operations began what they call steep mining so they dug about 100 yards and took all the coal therefrom and left the independents high and dry.

These steep minings are shown all over the anthracite area and are an eye sore to all beholders. Doubtless in time the state legislature will compel the companies to fill in these steepies and if they do they will add considerable property to the productive area of the state.

This redeemed land sowed in grass and planted in fruit trees would add considerable property to the productive area of the state. Pennsylvania is capable of producing sufficient food to feed the entire inhabitants of these United States.

GRASS ROOTS OPINIONS

BUSHNELL, FLA., TIMES: "The welfare state, like Topsy, has 'grewed' to where it is about ready to engulf us. What started out as a noble idea has come to be a monster which is used politically and which is lost in a wilderness of red tape and bureaucracy."

APOLLO, PA., NEWS-RECORD: "Workers in any field are always entitled to share in increased productivity of their work, even though that productive increase may be chiefly due to labor saving machinery. But the capital which makes such labor-saving devices possible... is also entitled to a fair share."

SHAWANO, WIS., JOURNAL: "The memory of Abraham Lincoln has a very special meaning in this fateful year. Today this nation is threatened by those who are determined to substitute for the Lincoln philosophy of government of the people, by the people and for the people, a new and dangerous philosophy of government over the people."

REINBECK, IOWA, COURIER: "Glaring headlines are that prices have been pegged... the miners got their pay raise since pegging, and the coal men boosted coal... the railroad men will get their raise and up will go freight rates, and that in turn will raise prices on many commodities... what does the government mean... pegged?"

SOMERSET, PA., DAILY AMERICAN: "The 'un-freezing' of prices set upon various items of merchandise and commerce recently stabilized merely attests the discovery by the price fixers that their task is among the impossibles."

MARION, ALA., TIMES-STANDARD: "The people of this country, while devoted to the ideal of individual liberty, understand that they can delegate authority to officials for a limited time and for a particular purpose without endangering the permanence of their free institutions. Nevertheless, they should be alert, now as always, in order to safeguard the liberties that individuals cherish."

FOREST GROVE, ORE., NEWS-TIMES: "American efficiency is that indomitable spirit which neither knows nor will be deterred by any obstacle—which plugs away with businesslike prescience until every impediment has been removed—that simply must go through with a job

once it has been tackled.—Joseph Stalin, writing 25 years ago on American capitalism."

TITUSVILLE, FLA., STAR-ADVOCATE: "In these days of super-sonic speeds, observes a writer in the Saturday Evening Post, nothing has been invented that can keep up with a politician dodging an issue."

FEESERSBURG

In the March issue of the Ladies' Home Journal is an article titled, "Our Underfed Children." This piece of surprising information should be read by all parents who are interested in seeing their children grow up with strong healthy minds and bodies. Some of the startling things it reveals are that in the world's richest nation four children out of every five are crippled by partial starvation; that many diseases such as rheumatic fever, tuberculosis, heart trouble, serious liver ailments and childhood diseases can be traced back to neglect to eat the proper foods in childhood and on into adulthood. Rich children as well as the poor suffer from improper eating habits. In some sections of the country 75 per cent of the children interviewed report no egg, no milk, no citrus fruit, no green or yellow vegetables in a three day period. But children are few who report no soft drinks, no ice cream, no candy bars or other sweets, in the same period. If a child is small and immature for his age, nervous, excitable, and constantly quarreling with his classmates it may be that his diet is lacking in certain necessary food elements and he is suffering from malnutrition. The mother who, throughout the grade and high school years, conscientiously provides her youngsters with three good meals a day, and sees that they are eaten, performs a greater service than she knows.

A report out today shows that 59 million Americans are employed. This is more than at any time during our history.

If you confer a benefit, never remember it; if you receive one, never forget it. And from Abe Lincoln comes this: Most folks are about as happy as they make up their minds to be.

For an Easter treat for you and your family get all the family heirloom silver that's been in the family several generations—only everyone's been afraid to use it; the china you've put away for fear it will chip or crack and the linens that you have been afraid to put in the laundry. It would be a lot better to get some use out of these things even with the possibility of breakage or loss, than to have them waste their beauty in a chest or a dark closet. The trouble with the American housewife is she is a squirrel at heart. She has too many attics, basements, storage cabinets and now the deep freeze. If everybody would clean out their attics, use some of the nice old things they have and eat some of the billion pounds of meat and other foodstuffs now stored away, perhaps prices would come down as demands slacken off. Try it for your Easter Day dinner—dig out all those lovely things and you'll be delighted with the "ohs" and "ahs" of your family.

I have waited in vain for some leader of our country to stand up and denounce our military leaders in Korea for labeling the campaign "Operation Killer." What has happened to our christian nation that our people so calmly accept such a horror and outrage? Are our minds and souls being blunted so by the impact of tragedy and war that we no longer have any conscience nor any feeling of revulsion?

an Easter Parade" for our community and for all Carroll County selecting a girl from each little town and then the big idea of "Miss Carroll County"—well Westminster is going ahead with the plans which should have been done years ago. Best wishes down Westminster way! Perhaps there will be a Miss Taneytown, too after all!

A letter arrived from a lady from another County thanking Your Observer for that wonderful suggestion of Resinose soap to clear up a frightful blemish on her face which disappeared entirely after following the treatments as suggested! Works like Magic, Folks so run right to "Doc's" and get a bar. In two weeks you will have a lovely transparent skin for those who love to touch! Nuff sed!

Word comes from our nice former Governor that he and his wife and daughter are now cruising the Mediterranean for a much needed rest!

In the story of Molly Goldberg on T.V. which is a regular affair written by the lady herself for the sponsor, "Sanka" on Monday nights this is their uncle. Wish I had just such an uncle David!

Here's to the cook in your life! At the Silhouette Bake Shop—1863 N. Gay Street, you can secure a set of 4 stencil designs for 4 cakes for a mere 25 cents while they last which will decorate the holiday cake as only a French Chef can do. There's your chance, "Mom"! If not satisfied, your money will be refunded. Just imagine!

There is a gentleman in Carroll County who was much in love with the "great" Kate Smith of radio fame and "When the Moon comes over the Mountain" the song which was her theme song for many years. Miss Smith has never married and says she never will because she loved the guy! That settles the question now which has always been in the corner of my cranium what the real reason was and now I know. She is still the very lovely person!

A lady in our midst desired to study "Beauty Culture" a number of years ago but did not because her father objected! Well, it is never too late, Madame—go to it! If I was so gifted would start, too right now!

Thinking of just that. Folks here is a real love story and it happens to be—the lover in question was my first cousin in the Naval Academy and it all happened down in the quaint city of Annapolis (many years ago). The Mother did not desire her daughter to marry the man of her choice and demanded that she become a sister. This beautiful daughter, Madalene was madly in love and jumped over the convent wall to marry the guy! The marriage took place and they lived happily ever after! Just a year ago, the wife died following the husband's death! There was one son to tie that union. It was truly a love affair. Your Observer was presented with the ring before the death which was their engagement ring which I shall always treasure!

BILLS AT ANNAPOLIS

S. B. 111: Provides for a \$500.00 medical school scholarship for a student from each county, in addition to free tuition and laboratory fees. The scholarship is to be given on the basis of a competitive examination together with proof of financial need. After graduation the student must practice for four years in the county from which he is appointed. Carroll county has had a \$500.00 medical scholarship for years but as yet there have been no applicants. A total of \$1000.00 yearly, plus free tuition and lab fees should attract some candidates for medical school.

S. B. 196: Would require those who excavate gravel pits or sand banks and refill the same after the operation is complete.

H. B. 33: Establishes October 15th of each year as "Poetry Day". Why we must clutter our laws with stuff like this I'll never know. Those who enjoy poetry do not need a "Day" to heighten their appreciation, and those who do not enjoy it are not going to become more appreciative because some day has been designated as "Poetry Day". Anyhow, the Bill has passed and now officially, legally and by statute, for what it may be worth, October 15th is Poetry Day.

Use left-over turkey in a delicious hot pie. Seasoned mashed potatoes may be used in place of pastry to top this tasty dish.

LET'S CLEAR THE AIR!

It's Time We Looked at the Facts About Trucks

Fact No. 1

You Will Be Affected by Lower Weights

The majority of larger and more efficient trucks on Maryland roads are used by its citizens who raise crops and serve rural areas. Reduced weights, as proposed by special interests at Annapolis, would greatly affect farmers, poultrymen, tobacco growers, canners, as well as merchants in all lines.

In many cases, a farmer or merchant who uses one efficient truck to haul his product, may have to use two smaller trucks and thus double transportation costs.

Increased trucking costs will be paid by *everyone*—because *everything* you eat, wear, use or sell is carried all or part of the way by truck.

So you will be penalized by restrictions on truck loads: **YOU WILL PAY THE BILL!**

Fact No. 2

Trucks ARE Paying a Fair Share of Road Costs

In 1949, Maryland collected a total of \$11,484,950. from trucks operating in and through the State. That amount was nearly 35% of all the special State highway taxes paid. Yet all trucks make up only 15.7% of vehicles using the roads.

Fact No. 3

Present Weight Laws are Sound

It is obvious that all trucks, privately owned or for hire, want and need modern well kept roads to properly serve the growing needs of Marylanders. We believe the present weight law is proper for efficient service, and the vast majority of truckers can and do keep within the law.

There is no reason why *all* truckers cannot stay within legal limits, and to that purpose, the Maryland Motor Truck Association is dedicated.

Fact No. 4

Roads Can Be Built to Meet Modern Needs

Modern roads can be built to serve today's needs; while older roads can be modernized for the purpose. Progress demands better roads. All truckers, private owners and for hire carriers, have and will work with city, county and State officials to plan a highway system in keeping with the times. Maryland cannot afford to push the clock back—especially in these critical days!

Little Ted needs your support so that he can continue to learn to walk and some day get rid of his crutches and braces. Send contributions now to Easter Seals, Baltimore 2, Md., and join the thousands of others who are helping the crippled and handicapped through the Maryland Society for Crippled Children and Adults and its affiliate leagues.

By What Authority?

Lesson for March 11, 1951

IS IT right or wrong? This is a fair question always. But there is another question to go with it. Who is to say whether it is right or wrong? Who is the authority? "Authority" means more than "orders." It means the final judge, the court of last appeal.

Dr. Foreman

Neither You nor the Crowd

SOME SAY: Nobody can tell me what to do; I do as I please. There is no authority I am bound to recognize. Such a person has an authority, all the same; himself. For him, "what I want" and "what I like" are the only reasons for anything and all the reasons he wants.

Now aside from the fact that such people are a nuisance to all concerned, and the fact that they can't even pretend to be Christians, this point of view don't work. The person who acts as his own authority runs into others who take themselves as their authority, and the result is the awful mess called anarchy. So all sensible people do recognize some authority outside themselves. They want approval from outside, from above.

But whose approval do they want? Under whose jurisdiction, as lawyers would say, do they live? Some recognize only that vast and vague authority known as "Everybody." If everybody does it, it must be right. If nobody does it, it's bound to be wrong.

Well, this is not necessarily so. Fifty million Frenchmen can be wrong, or 150 million Americans for that matter. You can't take a vote and decide what's right and what's wrong by a simple count of Ayes and Noes. Neither you alone, nor a crowd no matter how big, can be the final Authority on life.

Calendar, Code, Conscience

ANOTHER proposed authority, believe it or not, is the calendar. Some people will not read a book or see a show or wear a dress or listen to music that isn't up to the minute. If it's "dated" it's dead, unless the date is today.

That's silly, on the face of it. But there are other more respectable authorities which are still not THE Authority. One of these is the Law. If it's legal it's right, say some people, and it can't be right unless it's legal.

There is something true in this, of course. We should by all means obey the laws, and also see that good laws are made and bad ones repealed. But law is not the final authority on right and wrong. Law-makers can make mistakes. What is a good law at one time may be a bad law under other circumstances.

The best laws can never catch up with the morals of the best people. Still other people take as their authority conscience, meaning their own conscience. This is not quite the same as taking your own wishes or pleasure for your guide. Your conscience may lay unwelcome burdens on you. But while every one should of course follow his conscience, still anybody's conscience can be asleep or mistaken.

Some of the worst crimes in history have been committed by some of the most conscientious people.

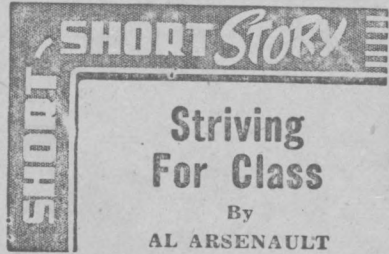

God's Last Word

WHAT, THEN, is the highest authority for the Christian? Nothing and no one less than Jesus Christ himself. As we were thinking a few weeks ago, the very word "Christ" is a symbol of authority at the highest level.

In Jesus' day there were two supreme symbols of God: the Law and the Temple. Jesus not only assumed superiority to the Law, but (as our Lesson reminds us) of the Temple itself, though he was no priest and had no ecclesiastical position whatever. If there is a difference between Christian and non-Christian today, it is not that Jesus is the authority for one and not for the other; rather it is that the non-Christian refuses to recognize what is the fact: that for us and for all men, Jesus Christ is God's "last word" to mankind.

And if some say that the law of love is the supreme authority, is there any real difference between the spirit of Jesus and the law of love? For he is God's love incarnate.

Striving For Class

By AL ARSENAULT

JIM BISHOP flipped the coin at the newsboy and got the same reply he always got.

"Thanks a lot, Mister. You're sure looking good tonight. Must have had a good day at the office."

A good day at the office! Jim reflected that it had been a long time since it had been a good day at his office. He knew he was on the ropes, that the boss was only

looking for a good excuse to fire him. Then he realized that this newsboy always had given him that same cheerful thank you every time he bought a paper at this spot.

"Hey, son. What are you always so cheerful about?"

"Why not be cheerful, Mister?" the boy asked seriously. "Seems like things are going all right most of the time, and even when they aren't, I know they'll be getting better in a day or so. Ever since I got this corner, I've mostly had good days, so I figure I ought to be nice to the people that make them that way."

"Why is this a good corner, son?"

"Cause all you people coming out of these buildings mostly buy papers, and when you buy papers, I make money. But even if you didn't buy papers, I still like to look at all of you because you look like class. I want to be class some day and come out of a building like that. That's cause enough to be cheerful, isn't it, just wanting to be class?"

"I guess you're right, kid," said Jim, and walked on to the parking lot where he kept his car.

On the way home he thought again of his own situation. Things hadn't been too good since the new supervisor took over. Jim had thought he was in line for that job. When he hadn't been promoted, it had hurt, had made him bitter about his job.

THEN he thought of the newsboy on the corner. Wonder if he was ever bitter. He couldn't be, though. Not the way he always acted cheerful towards everybody. What did he have to be cheerful about? Just a youngster and selling papers on a corner. From the looks of his clothes, he wasn't from even a middle class family. What was that he said, all the people that bought his papers look like class. He wants to be class himself someday. "Just wanting to be class is enough to make you cheerful."

When he got home, his wife met him at the door.

"Jim, it's good to see you. How did things go at the office today?"

"Just so-so."

"Again? Well, they'll improve. How did you get along with the supervisor?"

"Same as usual."

The next night Jim stopped at the same corner to pick up his paper.

A new boy was there. Jim flipped

The newsboy: "Why not be cheerful, Mister?"

the coin and the boy snapped out with "Watch it, Mister. I got an armful of papers here."

"Where's the other boy?" Jim asked.

"Aw, I don't know. He's got himself another job, says he's getting class somewhere. He was a jerk, anyway."

"A jerk," thought Jim, "a boy that wanted class. He even thought I had class. He figured you could be cheerful because you were trying to get ahead. Now he's gone up another rung."

As he opened the door when he got home, he noticed for the first time that his wife had a worried look when she came to greet him.

He looked at her anxious face. "Things went fine today, honey, just fine," he said firmly. "You know, I think that new supervisor is all right. Maybe he and I are going to get along. There's a new position coming up in the metropolitan department, and a recommendation from him would help me a lot towards getting it."

"Jim, that's good news, I'm so happy, dear. I knew you'd keep trying to get ahead."

"It isn't getting ahead, darling. It's trying to be class. That's the thing that makes you cheerful, just wanting to be class," and he grinned down at the startled eyes of his wife.

THE PLACE WAS FAMILIAR

A rather pompous county official, inspecting the local insane asylum, suddenly remembered that he had to make an important telephone call. He experienced all sorts of delay and difficulty in getting his call through, and snapped at the obviously unconcerned telephone operator, "Look here, girl, do you know who I am?"

"No, sir," she answered calmly, "but I know where you are."

Carried Responsibility

The personnel manager was interviewing a young lady for a book-keeping position. "You understand, of course, young lady," the manager affirmed, "that we are looking for a responsible person to fill this position."

"Oh, I'm responsible," the young woman replied eagerly. "On my last job, every time there was something they called a discrepancy, they always said I was responsible."

Wasted Effort

Henry Peck: "Just my luck." Friend: "What is the matter now?"

Peck: "I promised my wife I'd be home by 10 o'clock last night."

Friend: "Couldn't you make it?"

Peck: "Yes, I did even better. I got in just at 9:45, but she was sound asleep, and I failed to get any credit, I might just as well have stayed out with you boys."

Never Scot Free

The merry old knight of the road stood at the kitchen door with his battered hat in his hand.

"Come in," said the kind-hearted lady, "and I'll give you some food."

In a few minutes the tramp was up to his elbows in a hefty meal. As he ate, the old lady remarked:

"I suppose your life has been full of trials."

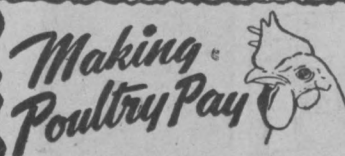

"Yessum," he sighed. "And the worst of it is that I was always convicted."

Uncle Sam Says

A lot of folks are tempted to speculate with their money. With the farmers, however, there's enough speculation in farming itself—what with the weather, insects, plant disease, livestock sickness, and prices. For the farmers, a safe, sure way of building financial security is with U. S. Savings Bonds. Should he need extra cash his money is handy, it's always there for emergencies. So, farmers, be sure that part of your fall crop or livestock check goes into Savings Bonds. They pay \$4 for every \$3 invested in ten short years. This is the time to resolve—"NOW LET'S ALL BUY BONDS."

SNOW EVERYWHERE

I sit by the window and gaze to the hill
All covered with snow everywhere
Who can number the flakes that flurry
Or tell why no two are alike.
Tis because everywhere
The currents of air
All each different while whirling
around
It's a wonderful world that we live in
All we need is early found
There are fruits on the trees
Blossoms with nectar for bees
And a lot of things in the ground.

TRUCK WEIGHT LAW CONFUSES EXPERTS

A vast difference of opinion is showing up among experts in the current controversy over the question of maximum truck weights in Maryland.

The majority report of the Maryland Truck Weight Commission, assigned to study the problem by former Governor Lane, called for reduction of truck weights from 22,400 lbs to 18,000 lbs. per axle. Most of the material in this report was based on recent tests at La Plata, Maryland.

In a minority report, filed by Guy Campbell, of Towson and Robert W. Furtick, of Baltimore, it was pointed out that no maintenance was applied to the test road during the experiments. "Experts admitted that the section of the La Plata road, after ten years of normal wear under present weight laws, was in 'excellent condition' before the present tests were begun."

Mr. Furtick said that these tests were not conclusive. He added: "Fixing axle loadings at 18,000 lbs would throttle highway transportation at a time when it is so badly needed in the nation's defense effort." He also quoted from a recent article in the "Milwaukee Journal", which said:

"There are 3,300,000 miles of road in the United States, and you can find a stretch of highway to prove almost any theory of highway deterioration you want!"

SOLDIER'S LETTER

Dear Mr. and Mrs. Stonesifer:
Would like to take this opportunity to express sincere thanks for the first two copies of the Carroll Record I received a few days ago. It's a great little paper which keeps one informed of the 'home town happenings.'

I am stationed at Wolfgang, Germany, a short ride by train from Frankfurt. A beautiful post with all brick constructed buildings and all facilities at a hand's reach. I perform the job of Personnel Clerk for our Company which has only been activated since December 20th. Recently I just graduated from the EUCOM Adjutant General's School at Lenggrease near Munich where I pursued the course in Administrative Clerk Typists. Aside from this I am Post Organist at our chapel, so you can see I am kept rather busy.

Germany is a very beautiful country and thus far have seen quite a lot of it. You find reconstruction is taking place everywhere which is a great consolation to the Germans people. Music predominates fluently and there are all sorts of Musical activities taking place. A few weeks ago while in Munich I was fortunate enough to attend the opera "Aida". A grand performance with a cast of 400 and lasting for 3¼ hours. Amusing to see the German ladies in their traditional evening attire and the men in full dress suits.

The weather the past week feels like Spring is in the air which I will welcome royally.

Extend my very best to all at the office and I hope these few lines finds you both enjoying good health.

Sincerely,
FRANK E. SHAUM.

THE WEATHER

Can you tell about the weather
Whether wet and dry together
Whether it will be rain or snow
Be quite calm or freely blow.
That's the question that must start
Palpatations of the heart
Of the people everywhere
Who have the slightest care
For the things that count the most
For the good of everyone
Till the work is fully done.
W. J. H.
