This column is not for use in advertising any money-making program, fair, supper, party or sale. It is intended for news, personals, and such matters as may be of community interest. All communications for this department must be signed by the author; not for publication, but as an evidence that the items contributed are legitimate and correct. Items based on mere rumor, or such as are likely to give offense, are not wanted.

Mr. and Mrs. Chester M. Cartzen-daffer and daughter Joan spent the week in New York.

The Mite Society of Trinity Lutheran church will meet Wednesday, September 5th, at 8 P. M.

Mrs. Retta Cutsail returned home Monday from the Annie Warner hospital, Gettysburg. She is improving.

## LIONS CLUB MEETING

### Taneytown Sewer Project Explained by the Speaker

The Lions met on Tuesday evening at Taney Inn with President, Harry Dougherty presiding. The program for the evening was in charge of Lion Raymond Perry. Henry Reindollar accompanied by his father, Mr. Harry Reindollar, rendered two delightful solos, "Can't You Hear Me Calling Caroline" and "In the Garden of Tomorrow."

Lion Perry then introduced the guest speaker for the evening, Mr. Ritter, a Sanitation Engineer from Baltimore. Mr. Ritter is in the process of preparing plans and an estimate for the sewerage disposal system which is being considered at the present time for the community of Taneytown.

It was briefly pointed out that due to the existing conditions, further expansion of the town is practically prohibited until a proper disposal system has been installed. Mr. Ritter pointed out briefly the manner in which the sewer would be laid and he further stated that once installed, the plant would take care of at least double the present population of Taneytown.

The method of financing such a project was then discussed. It was pointed out that there are three methods commonly used by most towns and cities, namely: (1) bond issue, (2) a charge per foot frontage of and or (3) an assessment based on real estate.

The lively discussion session which followed Mr. Ritter's remarks emphasized the keen interest taken by the citizens of Taneytown in a project of this size.

President Harry Dougherty announced that the next meeting would be held at Baseoar's restaurant in Littlestown and it would be charter night and ladies night. Present plans indicate that this will be a very special meeting and all club members are urged to attend.

## LET'S GIVE THE CHILDREN A BREAK

Vacation is over and school has started again. Now, you will be sharing your children with us for more than 25% of every school day! How can we work together for the best interests of this precious human cargo, for your children are our children!

The schools are in good sanitary condition. Buildings have been entirely cleaned and repairs made as necessary. Health services will be provided by the county to help safeguard the pupils.

Reading, writing, and arithmetic will be taught better than ever as essential equipment for all citizens. Trained teachers will use available scientific research to teach certain knowledge and skills so your child may live intelligently in a troubled world.

The schools will do much to teach love, justice, honesty, and fair play—the basis of good citizenship. Books, audio-visual aids, projects and plans, bus trips, and various educational materials are available for constant use.

See that your child has plenty of sleep at regular hours, Fatigue slows down all his faculties. Set your clocks right. Few tardies are the fault of the children. A tardy child is often emotionally upset for the rest of the day.

Feed him as good food as you can afford—a balanced diet. Be sure he eats an adequate breakfast in leisurely fashion. He must start the day right!

Insist on clean hands before touching food. Take extra good care of his teeth. This is important! Keep a sick child at home. Keep your child happy. Morale is a tremendous factor in his success. See that he leaves home early enough to arrive at school promptly without hurrying. A tired pupil is in no condition to work carefully.

Instruct your child to come directly home after school.

WHAT WE CAN DO TOGETHER: We can have the same objective—the children's welfare.

We can consult with each other, teachers, parents, nurses, superintendent.

We can make the child understand that school is his business!

We can help train the youngsters to meet life squarely and face its issues with courage. They must learn to give and take.

We can stimulate good thinking habits. We want the pupils to succeed. Failures double the cost of education and are detrimental to good school morale.

We can inspire high ideals by example and precept. We can work for better school legislation. It will affect your child. We can teach the children the art of getting along together—the science of human relationships.

We can get acquainted! Some parents never visit school until trouble arises. Do visit us soon. We'll like each other! We have a mutual friend—your child!

## "OLD HOME WEEK" AT EMMITSBURG

### Full Program to be Presented from Aug. 30 to Sept. 8

Emmitsburg opened its 10-day program of "Old Home Week" last (Thursday) evening with a large parade. Preceding the parade was the coronation of the Queen of "Old Home Week", Miss Mary Fiery, by Mayor Thornton W. Rodgers. This ceremony was performed on the square.

Following the parade and coronation Mayor Rodgers made the official welcoming address on the carnival grounds. Other activities were a band concert by the Hagerstown Civic Band and the awarding of prizes to the winners of the different parade classifications.

The 10-day activities and celebration is being sponsored by the Chamber of Commerce and the Memorial Hall Association, co-sponsored by twenty-one other organizations and churches.

Friday, Aug. 31—Carnival all evening with gigantic fireworks display at rear of baseball field.

Saturday, Sept. 1—Carnival late afternoon and all evening on the grounds. Bicycle parade and races with Hill Billy Band in afternoon on the main streets of Emmitsburg. Bonfire, McDonnell's Range Hotshots furnishing music on carnival grounds in the evening.

Sunday, Sept. 2—Home-coming and open house services and masses at the churches in the morning.

Old-timers vs Legion baseball game 2 p. m.

"Open-air" community program with old home-coming community chorus of approximately 75 voices directed by Mr. William Simpson. Address by a distinguished guest of honor 7:30 p. m. on the community field.

Monday, Sept. 3, (Labor Day)—Carnival afternoon and evening with a water carnival and baseball game in the afternoon and band concert in the evening.

Tuesday, Sept. 4th—Carnival with band concert in the evening on the carnival grounds.

Wednesday, Sept. 5th—Carnival with Hill Billy Band in the evening on the carnival grounds.

Thursday, Sept. 6th—Carnival on the carnival grounds with Harbaugh's Hill Billy Band all evening. "Crazy Daze" home talent show at the Emmitsburg High school auditorium, at 7:30 p. m.

Friday, Sept. 7th. Carnival on the carnival ground with music all evening. "Crazy Daze" home talent show, High school auditorium, 7:30 p. m.

Saturday Sept 8th. Closing night of carnival. Band concert. In addition to the scheduled program there will be such things as tours of the Historical window displays, inspection tours of Mount St. Mary's College, St. Joseph's College, Rainbow Reservoir, Historic grave of Samuel Emmitt, founder of Emmitsburg, contests and other activities.

Attracting much attention are the window displays of the town. Practically every business house has a display. Many interesting and valuable items are exhibited in the windows.

## CHECKUP FOR SCHOOL

His wardrobe may be in order, the new schoolbag complete with copy-book, ruler and pencil-case, yet your child may be far from properly prepared for school. A more important question then clothes or equipment is, "has your youngster had a pre-school medical examination?"

For many reasons, the parent-teacher associations, official health agencies, and such organizations as the voluntary tuberculosis associations affiliated with the National Tuberculosis Association are stressing complete physical examinations of children before they enter school.

First, through the pre-school examinations, certain correctable defects and conditions which respond best to early treatment can be detected at an early stage, a factor often important in treatment. Typical are: overweight and underweight, decayed and infected teeth; defective vision and hearing, infected tonsils, speech defects early rheumatic fever, early tuberculosis, and anemia.

Secondly, a child has his best chance of getting the most out of school when he is in good physical condition. High grades and good report cards generally are impossible if the child is out of school frequently with sore throats and toothaches or if he cannot see the blackboard or hear the teacher. Many children suffering from an undetected physical defect are unjustly labeled mentally slow when the pre-school correction of some physical deformity or illness might have made him a scholastic star.

Finally, a pre-school examination is one of the most important a child will ever undergo because it comes at a crucial time in his life, a time when he is entering a whole new world. Things are difficult enough for him—suddenly changing from all-day play and sheltered home life—without an extra handicap of physical imperfection that might easily be corrected. The child who is sent to school with the doctor's o.k. has the best chance of being a good pupil, easy to get along with, and easy to adjust to the strange, new life of getting an education.

## KIWANIANS MEET

### Judge Charles B. Kephart Was the Speaker

The regular meeting of the Kiwanis Club was held at Taney Inn, Wednesday evening with its president David Smith presiding. Group singing was led by Raymond Wright with Mrs. Wallace Yingling as piano accompanist.

John Manspeaker, principal of the Taneytown High school was the guest of George W. Crouse and Mr. Coblenz of the C. & P. Telephone Company was the guest of William Hopkins. James Lantz and Huston Curd of the Westminster Club were present. Lt. Governor of the Key Clubs of Capital District, Kenneth Morelock and Andrew Alexander of the Taneytown Key Club were also present.

Howell Royer acting for Z. O. Fiscus who is in the Gettysburg hospital, presented the speaker Judge Charles B. Kephart. Mr. Kephart former member of the Maryland House of Delegates and now serving as a Judge of the Orphans' Court for Carroll County spoke on "County Government". Judge Kephart is not only capable in recalling dates and historical events of the county but is also very active in the present day welfare of the county's government.

He told how the county was officially formed from Frederick and Baltimore county Jan. 19, 1837. The formation of the county was by a vote between two parties then in existence, namely the Whigs and Democrats.

John Baumgardner of Taneytown was the first judge of the Orphans' Court and Sterling Galt another Taneytown man was appointed Clerk of the Circuit Court at that time. The first business of the Carroll County Court was transacted in the Willis Building (now Hoffman's Inn).

Among some of the legislative acts that Mr. Kephart was interested in were the State Income Tax of 1933 and the unemployment insurance act of 1937. During the depression years, about 1917, Mr. Kephart told how he was concerned about the Federal relief that was coming to the different counties—Carroll and Harford counties being opposed to all forms of Federal relief. Other highlights of Mr. Kephart's speech were the historical background of the Prohibition Act, Consolidation of Schools and the June 1917 War session when Camp Meade was made the site of an army training camp.

The meeting next week will be in charge of Thomas Albaugh. Following the regular dinner meeting a Band concert will be given on the lawn of Taney Inn. This band is from Pikesville and is sponsored by the Pikesville Kiwanis Club and the public is invited to hear this concert.

## TANEYTOWN ELEMENTARY SET FOR NEW SCHOOL YEAR

The Taneytown Elementary school will open on Monday, Sept. 4, with buses operating on the same schedule as last spring. The same school regulations will be in effect as last year in that the building will be open from 8:00 a. m. until 4:00 p. m., each school day and only town pupils who have notes from their parents will be allowed to eat at home. The cafeteria will serve full lunches at the same price as last year, starting the first day of school and will be under the supervision of Mrs. Ruth Putman.

The Elementary school will have the same teaching staff. In addition, Mrs. Ethel Walker, former teacher in Union Bridge, has been assigned to teach the section of the 6th grade. Instrumental music will again be offered, this year under the direction of Mr. Robert Kelsey.

All new pupils, who have not yet been registered, may do so on Friday, August 31 from one to three o'clock at the school office. Parents of new first graders should bring both birth and health certificates of their child.

It is sincerely hoped that this new school year will be very successful in the educating of every child. The schools belong to the people and all parents are cordially invited to visit the school at any time, and to feel free to request information about the progress of their child.

All first grade children will be dismissed at 2:15 p. m. until Sept. 24. Any town parent desiring their children at that time may come for them.

## SCHOOL NEWS

Taneytown High school will open for the new term with a full day's session on Tuesday, Sept. 4, 1951. Both school and school buses will operate on daylight saving time.

The cafeteria will be open on Tuesday as previously announced. Pupils are urged to use the school lunch program. However, town pupils will be excused to go home for lunch upon written request by parents. The time of the lunch period for Junior High students will be 11:15 a. m. to 12:31 p. m., and for Senior High school students 12:48 p. m. to 1:18 p. m.

Pupils are asked to report to school with a notebook, preferably loose-leaf type, and a pencil.

Use lettuce while it's still fresh. Lettuce loses flavor value if kept too long, even in the refrigerator.

## WELFARE BOARD CON-FERS WITH ST. ATT'Y

### The Law Discussed on the Handling of Cases

On Aug. 1, the Carroll County Welfare Board met in the agency office on John St., Westminster. The principal subject under discussion was the procedure in handling assistance cases in which, for various reasons, persons have received money to which they are not entitled. The Board invited other persons who could help in working out some method of action on these cases. Mr. Donald Sponseller, State's Attorney, for Carroll county, Mr. A. Earl Shipley, Attorney for the Board, and Mr. James Shilling, County Commissioner, met with the Welfare Board.

The Maryland law in setting up the Public Welfare program clearly takes into account fraudulent acts. "Whoever knowingly obtains, or attempts to obtain, or aids, or abets any person to obtain by means of a willfully false statement or representation or by impersonation, or other fraudulent device, assistance to which he is not entitled, or assistance greater than that to which he is justly entitled; or whoever knowingly or willfully sells or aids or abets in selling, or whoever knowingly or willfully buys or aids or abets in buying, or in any way disposing of the property, either personal or real, of a recipient of assistance, while such person is receiving assistance or while his application for assistance is pending, without the consent of the County Department and with the intent to defeat the purposes of this Article, shall, upon conviction, be deemed guilty of the offense of false pretenses and subject to the terms and penalties provided in Section 150 of Article 27 of this Code, 1939, Edition, and any amendments thereto or supplements thereof."

After the Board has discussed such cases they are presented to the State's Attorney who decides whether or not to present them to the Grand Jury. The Board was very grateful for the opportunity to talk over this problem with the State's Attorney and County Commissioners. Their help and cooperation in setting such cases where there is a possibility of fraud is most valuable in having a sound public welfare program.

In dealing with approximately 600 people each month, all of whom are mentally or physically handicapped to some extent, it is almost natural that there will be mistakes and attempts to cheat. There would be many reasons for this. It has been found that since August 1, 1950, there have been nine cases in which the questions of fraud or false pretenses has come up. In four of these cases, the client has returned to the agency all assistance received to which he was not eligible. Three others have been referred to the State's Attorney and the remaining two are now under the Board's consideration.

It is most important that case workers be thorough in establishing eligibility and in looking realistically at situations brought to their attention. Then, too, every complaint received by the agency must be carefully looked into and a decision reached as to whether there is any truth in it. Proper legal steps are also necessary when there is a question of fraud so that a settlement can be made that will be fair and just for all persons concerned. Though it might not be possible to prevent overpayments and frauds completely in such a large group of people, it is possible to make them few and infrequent.

July expenditures totaled \$15,115.15 with a case load of 320 persons. For the first six months of 1951, expenditures have been as follows:

GPA	\$ 4,803.90
OAA	48,916.91
(Burial inclusive)	251.50
ADC	19,288.48
ATB	1,978.97
APTD	4,579.25
Board of Children Administration	9,767.31
Total	\$89,949.06

Expenditures for the first six months of 1950 were \$99,372.50.

## BLOOD DONOR REPEAT

Mr. and Mrs. A. Olin Grimes of Pinksburg are loyal veteran blood donors to the Red Cross. When Mrs. Grimes appeared recently at the Carroll County office to volunteer to give blood, she was answering a call to which she had responded many times before. In World War II Mr. and Mrs. Grimes, through the Baltimore headquarters, each gave a total of a gallon of blood. In recognition of their patriotic contribution they were presented with twin plaques by the Department of Md. 29th Division Association. Mrs. Grimes will be in the first group of 9 to give blood when the Bloodmobile visits in Westminster on Monday, Sept. 10, from 10 to 4 at St. Paul's Parish House on Bond St. Further donors are urgently needed for this visit. If you have not as yet made your own appointment as a donor, please call Red Cross Headquarters, Westminster 212, without delay.

## THIS 'N' THAT (Your Chatty Column)

With all my heart, I wish you every morning. A smile that shall last until the next day's dawning. I wish you health—life's greatest wealth! I wish you always near so that I may help to cheer. Each future day and in some way—help to bring you happiness!

Believe it or not a farmer's wife right near our town on the 71 Highway last Friday evening was 'fishing' and right in her own yard, no doubt for the evening meal! Just nothing like that—all!

If there is a handy man or woman in our household, you can possess the most attractive 'Spice' cabinet right in your kitchen which will save the little wife many steps especially this winter when more baking is done. All you do is ask your grocer for a small crate and cut it down to about 18 inches, making four compartments. Paint it a Jet black and trim all edges and sides with Decals of red. You will be much pleased with the results. Your Observer made one and just about everyone who enters the kitchen passes many compliments. It is so easy to do and takes just about one hour to complete.

Many years ago, our Grandmothers always boasted of an Oak Spice cabinet with drawers instead of the compartments. The latter is much more sanitary.

How nice to have "The Butcher Boy" back with his father. Uncle Sam held onto him for more than three years!

This is to the man in your life. When you purchase a box of Chocolates for any special treat, be sure you read upon the box that they are really chocolates as sometimes another type may be handed you of the frosted kind which are sickening sweet.

That nice little Druggist's wife is home again and is now just 100% well. Here's best wishes and hope she keeps that way.

Down at Baugher's near Westminster each Friday night there is a big crowd. The attraction? Auction that's all!

Now, there is a chocolate Bar that won't melt in your hand and the soldiers get it first! Cute?

If you really desire to marry, girls and just can't find Mr. Right in these parts of the U.S.—just pick up everything and go way out in the Midwest as there are 145 men to every 100 women! Wow—that seems unbelievable but it is true!

Never say, "you can't" before you try anything no matter how difficult it appears to be. Your Observer has always had the greatest desire to write a short play and I just finished one called, "Just an Old Fashioned Evening" which both old and young will enjoy. More about that one in a later column. There are 25 old songs to be sung. Twelve characters in the script. (Just one man and 11 women!)

Now, here's to that nice Policeman around our town; All the "Concord" grapes were taken from our huge grape arbor last week! It would have been so much nicer to have asked for them! Eh?

To the ladies! When you do the family laundry—don't do another bit of housework of any kind and you will soon discover that wash days are not hard days after all!

Driving through Hampstead last week, I stopped to gaze upon some of the oldest hand made quilts, I had ever seen. The patterns were just different. Soon a dear little lady, (God bless her) came out to greet me telling me the story of these quilts. She went to the house next door as a bride many years ago until about 40 years ago, they built the house where she now resides. She made most of the quilts hanging on these lines to be aired with the exception of two which were the most beautiful I have ever seen. They were made by her husband's great-grandmother! Soon a pleasant lady came out and across the lawn from the house next door where her mother had been the bride in this true story!

Now, here's to "VIRGO" individuals and I do know quite a few in Carroll County. These people both men and women are very neat, precise, accurate and discriminating. They are fond of poetry, music and mathematics and take great delight in the study of Chemistry and the sciences. They are graceful and charming with well proportioned figures.

These people having such a time texture of skin should always be most careful in selecting soap for their complexions as their skin is extremely sensitive. They ask many questions but keep most silent about their own affairs. They are what the Astrologers call the "safe middle", due to the fact that they never go to extremes in anything they do as they are well balanced. A people born under this sign have an innate refinement, purity and sensitiveness in their nature. They demand personal freedom at all times and never like to be questioned.

So long, Folks. Have a grand week end and always remember that "Yesterday is gone, Tomorrow is uncertain; Today is here. Use it!

What is defeat? Nothing but the first step to something better! Will be seeing you next week D.V. Until then, I am,

YOUR OBSERVER. Faithfully,

Tomatoes with growth cracks will seldom keep long but are satisfactory for immediate consumption.

#### BOOK LEARNING

What we get out of books is valuable but not so valuable as what we get from experience by direct contact with the subject.

It is to be doubted if any one ever learned to kill a beef or butcher a hog by mere book learning. It takes the experience of observation of others doing the job to perfect the untrained to do the deed.

One of America's great men—all things considered, perhaps the greatest—Abraham Lincoln—had but little book learning, aside from what he acquired himself, yet his orations and speeches contain more meat—more real vital value than those of any other American. For brevity of sentence, simplicity of words, depth of meaning the Gettysburg address has few equal and no superior in our language or any language. Jesus alone spoke with greater simplicity.

#### GRASS ROOTS OPINION

MORRISON, ILL., NEWS: "Our government may topple because you and I have neglected our Ship of State. Directly and indirectly we are sabotaging that sleek, swift vessel designed by the framers of the Constitution to gracefully and successfully take the lead among world governments in the race for a better world. We have allowed barnacles to accumulate on her hull, and her timbers and planking to rot. We have rigged her with ignorance and manned her with incompetence."

BEREA, OHIO, ENTERPRISE: "The construction cost of our own Economic Planners' Arizona irrigation project together with its so-called 'multi-purpose' trimmings, is to be \$708,780,000. But that's just the beginning of what the American taxpayers would have to pay. The Interior Department itself admits that actual cost to the taxpayers, counting interest on the borrowed money necessary to build it, would be \$2,784,509,000. That's almost 10 times the total value of all farm lands and buildings in the whole State of Arizona as recorded by the U. S. Census Bureau. Yes planning by government economic planners comes high!"

CENTRAL CITY, COLO., REGISTER-CALL: "Through June 30, 1951 overseas assistance in all forms since the end of the war has amounted to \$55 billion. In other words, 'post-war' rehabilitation and reconstruction abroad has cost the American taxpayers more than arms assistance during the war."

PALM BEACH, FLA., POST: "If a pubnacious Pegler takes a literary poke at a perambulating Pearson, you can read both poke and retort in our paper. Mostly, we do not agree with either of them, which goes to show what is meant by Free Press."

GARNER, IOWA, LEADER: "The inflation which is lifting our living costs higher and higher is primarily the result of long term deficit financing by the government, in the opinion of this editor. Every time the government goes to the banks for funds to make up deficits, the banks are forced automatically to pump an equivalent amount of new money into the economy."

MANCHESTER, TEN., TIMES: "If all the wealth in Manchester were divided equally among its people, each person would have \$1,699.76. This sounds like a near amount of pocket change for every man, woman and child in Manchester, but after all, it doesn't amount to much. If each person paid his per capita share of the national debt, it would take \$1,166.00 of this amount. That would leave only \$533.76. His share of the state debt would be \$32.00 which would leave him \$501.76."

### The Enduring Foundation

A GROUP of men stood watching the erection of a large office building upon a site which a century before had been under water as a part of a nearby bay. The land had been filled in and a large city had grown up around it, making it valuable property. This made-land, however, did not have sufficient firmness to sustain the weight of the reinforced concrete building planned for the site, so it was necessary to drive long piling to bedrock, spacing the piles only five feet apart in order to carry the tremendous load.

One of the group was not seeing the actual construction work so much as the amount of thought that had gone into the preliminary planning; the many calculations made to determine the lengths and number of piles required; the tests that had been run on samples of cement and steel to ensure a quality which would withstand the enormous tensile and compressive stresses involved; and the care and supervision necessary to make sure that the specifications of the architects and engineers were followed throughout.

It is axiomatic that for a thing to endure it must possess enduring qualities. It is said that the giant sequoias of California, supposedly the oldest living thing, have attained their long life because they contain within their structure certain qualities which resist such enemies as time, insects, fire, and water.

Abraham, we are told in the Bible (Hebrews 11:10), "looked for a city which hath foundations, whose builder and maker is God," not human ambition or material power. Being obedient to God's every command, he wished to be sure that his home was established in spiritual understanding and had those enduring foundations which Spirit alone can provide.

Each one of us is engaged in building his own individual life structure. What pattern are we following? Is it according to the specifications of the Christ? Has God planned it for us, or are we following our own uncertain outline? If it is to endure it must have a spiritual foundation.

Mary Baker Eddy, the Discoverer and Founder of Christian Science, writes in "Pulpit and Press" (p. 2) as follows: "The real house in which 'we live, and move, and have our being' is Spirit, God, the eternal harmony of infinite Soul. The enemy we confront would overthrow this sublime fortress, and it behooves us to defend our heritage. How can we do this Christianly scientific work? By intrinsching ourselves in the knowledge that our true temple is no human fabrication, but the superstructure of Truth, reared on the foundation of Love, and pinnacled in Life. Such being its nature, how can our godly temple possibly be demolished, or even disturbed? Can eternity end? Can Life die? Can Truth be uncertain? Can Love be less than boundless?" —The Christian Science Monitor.

### Farmers of the Future May Find TV Indispensible

Tired of trudging to the barn to check up on the cows and chickens? Soon you may be able to make such nocturnal inspections by flipping a switch and looking at a television screen.

Scientists of the Radio Corporation of America have unveiled an experimental laboratory model of what could be the television intercom of the future. It could save farmers many a step when they hear a noise in the barn or chicken house at night.

Key to the apparatus is RCA's industrial TV system. This compact equipment uses a home-movie-size camera, which could be installed in any convenient spot where it could overlook the interior of the barn. The camera's sensitive pickup tube can see in almost any light the human eye can.

The picture is transmitted over several hundred feet of cable to a master control unit no bigger than the smallest table-model TV set. Install the unit by your bedside, hang up your coat, and prop up your feet. Television may be a farm fixture before you know it.

#### Word Background

"Filibuster" did not always apply to talk marathons by legislators. According to editors of the World Book, the word comes from the Dutch and originally meant "free-booter." It was a name applied to the buccaneer or pirate of the 1600's. Later, the term came to mean members of privately hired and organized expeditions which promoted rebellion in countries other than their own.

#### Finish Is Vital

Whether it's guns or communications equipment, food containers or helmets, the finish is vital. In the case of helmets, for instance, their finish must be able to withstand extremes of abuse: weather, abrasion, salt water—even frequent use as a cooking utensil! In texture and color, the finish must blend with the ground and must be of extremely low reflectivity.

#### Sleep Value

Longfellow once said, "Joy, temperance and repose slam the door on the doctor's nose." He didn't state that this repose should be on good resilient bedding, but it's true that only on the proper sleep foundation can complete, restful repose be obtained—the kind of repose that will make one healthier, happier and more efficient.

### DRIVER'S LICENSE

This is your license to drive a car: To be watchful ever where children are; To travel the streets and keep in mind That people are sometimes deaf and blind And lame and feeble and care distraught And accidents come from lack of thought.

This is your license to drive and so All that it means I would have you know. Though it isn't printed in language plain

It's an affidavit that you are sane; And it also tells that your state has found Your faculties clear and your body sound, It says that your state has faith in you; That never a wrongful act you'll do; That you know how dangerous you can be; That you'll pass no car where you cannot see A long clear stretch of the thoroughfare And wherever you're going you'll drive with care.

Carry your license to drive with pride For how shamed you'd be were it once denied! It is sworn-to-proof that the rules you know, That you're neither stupid nor witted-slow; That your state through its officers finds you are fit to be trusted to drive a car.

—Edgar A. Guest.

### HISTORICAL SOCIETY TOURS

The tour of the Carroll County Historical Society to points of interest in Hampstead and Manchester districts proved to be one of the most enjoyable events of the summer. Forty-five cars containing approximately one hundred and fifty people formed the caravan which started from the home of the Society in Westminster.

Dr. Arthur G. Tracey of Hampstead guided the group by means of beautifully constructed maps which he had made. They marked not only patent dates and places but also the names of the original owners.

The first stop was at Bachman's Mills. After Dr. Tracey had introduced Mr. Clarence Bachman, the present owner of the property, the latter conducted visitors to the old stone home of Christian and Veronica Bauer. A stone, bearing the date 1785, invokes God's blessing on the dwellers in the house and records the above-mentioned names, in crude German characters. Mr. Bachman traced the history of the early settlement from time the land was patented to William Hall June 6, 1744 on through four re-surveys. At one time on the 207 acres there was a community which included a blacksmiths shop, a distillery, a school, a mill, a church and a brick yard.

Mrs. Daniel Shipley, III, directed the attention of the group to the present church as 'she recalled highlights in the history of its predecessors. The original structure, Jerusalem Church, was also known as Bauer church because it was built on land donated by Christian and Veronica Bauer. Their tombstones show that he was born in 1734 and died in 1791. His wife survived him five years. Her stone records a marriage of 32 years and 13 children. The inspection on the first church was in German: "Jerusalem's Gemeinshafftliche Kirche-Gehaurt in Jahr 1797, und verfertiget in 1811." Caspar Lawyer and Joseph Machias cut the first logs.

Leaving Bachman's Mills, the caravan observed the highest spot in Carroll county as they proceeded to Mason and Dixon stone #60 where Dr. Tracey and Mrs. Edgar Barnes narrated interesting events connected with the old Indian Trail which the survey somewhat follows.

From there the route led to a scenic spot which marks the site of Ulrich Wissler's old mill. Here Mr. Sinclair Hook related events from the days of the Plymouth patent in 1747. Then the cars moved on to Manchester and everyone proceeded to enjoy picnic suppers under the old oak tree of the Lutheran church. Afterward, just at sunset, Miss Boneta Wentz told in an interesting manner the story of the original church on this site built in 1760 and also the story of the old oak tree, Mrs. Walter Kriel even older. It measures seventeen feet in circumference. Miss Wentz also pointed out the brick farm house which was once a part of Irving College and she outlined the history of the school from the time of its founding by Ferdinand Dieffenbach in 1861. Finally, she narrated incidents connected with the colorful chronicles of old Manchester Academy.

Just as twilight was falling around the old oak tree, Mrs. Walter Kriel gave a description of White Hall Tavern, the ruins of which still remain a mile north of Hampstead. Back in 1794 it was an old stage coach stop surrounded by a large wall in courtyard manner.

The tour ended at the home of Dr. and Mrs. Tracey in Hampstead with enthusiastic demands for a repeat performance next year.

People attended from almost all districts of Carroll County. Out of county guests came from Baltimore, Philadelphia, Washington, Ohio, Illinois, California and Hawaii.

Here's a nice honey dressing for fruit salad. Use 1/2 cup honey and 1/2 cup lemon juice. Shake the two together.

Hogs should have plenty of shade and water in hot weather.

With egg prices expected to be good this fall, a little extra care now with the poultry will net good returns.

Spraying weeds with 2,4-D has its dangers—the chemical may kill legumes and other plants you may want if it hits them.

FEESERSBURG

It's a little late in the season to bring up the subject of whether husbands and wives should take separate vacations, but its one topic which can always start an argument or discussion that can go on for hours and even days. Just recently this question was put to a cross-section of men and women in approximately 200 communities of all types across the nation and the results were quite interesting. The majority of husbands and wives were against separate vacations. But among the twenty percent that thought separate vacations a good idea, the women were more in favor of it than the men. There are times in every marriage when a two or three day vacation acts as a tonic and sort of gives the husband and wife a long range view of one another. They return home convinced more than ever that their particular spouse is the best in the world, and their home is a mighty nice place to be after all.

Mr. and Mrs. Frank Arthur of Wilmington, Delaware, were guests last week of Mr. and Mrs. William Albaugh.

To those people and most of all to the young generation who wonder if they will ever live a normal life the answer is "no". There is no such condition as normalcy. Life does not stay put and one must forever be making adjustments for changes one cannot foresee. It seems in this day and for many days to come the one great asset is to be "adjustable".

Due to TV the sport of wrestling has become very popular. So much interest has been shown by both men and women that the Bee Hive Club of Westminster will sponsor an evening of wrestling bouts at the Armory, September 20 at 8:30 p. m.

Mr. and Mrs. George Roelke and daughters Sylvia and Susan and Miss Dorothy Fuse returned home Monday after enjoying a week's vacation in Southern Maryland.

Timonium Fair will open on Wednesday at Towson and continue through Sept. 8, Saturday, Sept. 1, has been set aside as Armed Forces Day and drill teams from the four branches of the Armed Services will perform at the grandstand at 7:30 p. m. Miss Betty Jean Endsow of Harford County has been chosen Maryland Farm Queen and will preside over the State Fair.

The pair of doves that make their home in our Austrian pine tree launched their second brood of fledglings the other day. Teaching them to leave the nest under their own power takes a lot of patience and some physical effort on the part of mother dove. Birds are almost human in the love and care they shower on their young.

Next Tuesday the bright yellow school buses will be on the road again and mothers will be packing lunches, hunting books and pushing the children out the front door toward the school house. Most children look forward to the first day of school with pleasure and excitement. They are anxious to get back and meet their classmates and old friends. It is the little first grader, leaving home under his own power for the first time that needs the kindly understanding of a sympathetic teacher. The world looks strange and frightening as he leaves home and the protection of mother's apron strings. A wise mother has long before prepared her first grader for this first day at school and in most cases that adjustment is easily made. But even for a well prepared child the transition from home to school at the age of six is a trying period. It means so many changes at one time when the child prefers no change at all. A wise teacher understands all this and will give her first graders a breathing spell to become settled and acquainted with the new environment and regulations before expecting too much from them.

This spring we had six cosmos plants given to us and it is surprising how much pleasure and beauty we have gotten from them. The blossoms are a deep reddish purple with very stiff stems. Displayed in vases with bright green foliage for company they make a beautiful splash of color for the house.

Approximately 400 members of the Maryland Cooperative Milk Producers Association met in the Towson High school Saturday, August 25 in a special meeting to vote upon the proposed change in the by-laws as recommended by the "Committee of

Ten." Mayor Louis E. Lamborn of McDonough School, who served as moderator to the "Committee of Ten" presented the findings of the committee to the assembled members. Upon the recommendation of the "Committee of Ten" Dr. R. W. Sherman submitted his resignation to the Board of Directors, effective November 17, 1951. Mr. L. K. Wallace was unanimously selected by the Board to succeed Dr. Sherman as manager of the Dairyman's Association beginning Nov. 18. Mr. Wallace is a native of Iowa and attended Iowa State College where he majored in Agricultural Economic and marketing. He has served with different cooperatives throughout the United States and is well qualified to make an aggressive manager for the Maryland Milk Producers Association. The proposed changes in the by-laws as recommended by the "Committee of Ten" were adopted at the meeting. The "Committee of Ten" was organized three months ago to study the organization and marketing problems of the Maryland Dairy farmer. After much time and effort the "committee" finally submitted its findings at Towson Saturday afternoon. The "committee" feels that it has made a beginning into the problems of the milking situation in Maryland, but it realizes it is only a beginning. Like any other business the milk industry needs constant vigilance and changes as marketing conditions change. Both the farmer and the association must be prepared, and be constantly on the alert. The "Committee of Ten" is composed of the following members: Paul B. Harland, Churchville; E. A. Shoemaker, Woodbine; I. E. Nicodemus, New Windsor; W. D. Akehurst, of Monkton; Charles E. Miller, Ellicott City; Phillip Knatz, Owings Mills; Mr. Umberger, Aberdeen; Morris Zentz, Emmitsburg; A. Millard Roelke, Union Bridge; William Powell, Ellicott City.

MARRIED

CRABILL — STERNER

Miss Catherine Lucille Sterner, daughter of Mr. and Mrs. Glenn L. Sterner, Gettysburg R. D. 1, became the bride of Martin Luther Crabill, son of Mr. and Mrs. Gilbert C. Crabill, Gettysburg R. D. 4, Sunday afternoon in St. James Lutheran church Gettysburg. The double ring ceremony was performed by the Rev. Ivan L. Sterner, an uncle of the bride, assisted by the Rev. Dr. Ralph R. Gresh, pastor of the church.

Church decorations included white gladioli and palms. Mrs. Treva Crouse Gettysburg, was the soloist, and Prof. Richard B. Shadle, Gettysburg, the organist and accompanist.

Given in marriage by her father, the bride wore a gown of white organza, made with a sweetheart neckline outlined by a pointed portrait collar, a sleeveless tightfitting bodice and a full-gored skirt which ended in a long train. She also wore elbow-length mitts. Her long veil was attached to a headdress of seed pearls. Her necklace of pearls was a gift of the bridegroom. She carried a white Bible topped with an orchid, from which fell streamers of white rosebuds.

Mrs. Milton Hoffman, Gettysburg R. D. 5, attended her sister as matron of honor. She wore a gown of pink rayon taffeta identical to that of the bride and carried a colonial bouquet of white carnations and blue delphinium. Bridesmaids were Mrs. Harry Spangler, Gettysburg R. D. 3, sister of the bride, and Mrs. Clyde Deatrick, Littlestown R. D. 1, sister of the bridegroom. Both wore gowns of aqua taffeta pointed necklines and full skirts, and carried colonial bouquets of white carnations and yellow delphinium. All wore matching mitts.

Joseph Crabill, Gettysburg R. D. 4, brother of the bridegroom, was best man. Ushers were Wilbert Waybright, Gettysburg R. D. 1, and Clyde Deatrick, Littlestown R. D. 1, brother-in-law of the bridegroom. Linda Sterner, sister of the bride, was the flower girl and Ronald Wolfe, nephew of the bridegroom, was the ring bearer.

Immediately following the ceremony, a reception was held at the home of the bride's parents for approximately 200 guests from Pennsylvania, Washington, D. C., New Jersey, Virginia, Maryland and New York. The couple then left for a wedding trip to an unannounced destination. For a traveling costume, Mrs. Crabill wore a rust-colored fall suit with navy blue accessories and an orchid corsage. They will reside in an apartment on West York St., in Biglerville. The bride was graduated from Gettysburg High school in 1950 and is employed as a stenographer at the Adams Electric Co-operative, Inc., Gettysburg. The bridegroom graduated from Gettysburg High school in 1949 and is employed locally.

Funeral services will be conducted at 2 p. m. Saturday in the Bender Funeral Home, Gettysburg. The Rev. Thurlow W. Null will officiate. Interment will be in the Evergreen cemetery, Gettysburg. Friends may call at the funeral home after 7 p. m. today (Friday).

The pallbearers will be Ralph Hess, Norman Hess, Joseph Reaver, Fred Bloom, Rodney Myers and Floyd Strickhouser.

In Memoriam of our son and brother, CHARLES U. MEHRING, JR., who passed away seven years ago September 2, 1944

There is someone who misses you daily. And feels alone since you are gone. There's someone who grieves daily for you But tries to be brave and strong.

The tears in our eyes do not glisten. Our faces are not always sad. There never is a night or morning But what we think of the dear son and brother we had.

God gave us strength to bear it. And courage to fight this blow. But what it means to lose our son and brother. No one will ever know.

MR. and MRS. CHARLES U. MEHRING and FAMILY.

In Loving Memory of our dear mother, BESSIE VIRGINIA SIX, who departed this life 5 years ago August 29, 1946

God made lots of beautiful things: Sunset, and roses, and trees, Birds, and starlight and loyal friends And after he made all of these He gave to the earth a gift more rare More loving, and more true Of all God's gifts, the one most rare A Mother as dear as you.

A loving Mother, so dear, so rare The trials she went thru, so few could bear. She never complained, she wasn't that kind She was one of those mothers, so hard to find Her heart was the truest, in all the wide world Her love the best, to recall No one on this earth, could take her place For she is still the dearest of all. Loving daughter, CATHERINE AND FAMILY.

TEVIS HEADS CARROLL COUNTY CRUSADE FOR FREEDOM

Stanley H. Trevis, Jr., has been named to head the Crusade for Freedom in Carroll county by William C. Purnell, head of the state Crusade organizations.

Throughout September, millions of Americans will be called on to register their individual protests against the tyranny and oppression of communism by enrolling in the Crusade for Freedom and contributing funds to be used in maintaining and expanding the facilities of Radio Free Europe.

Radio Free Europe is the network of privately sponsored radio stations broadcasting daily to people behind the "iron curtain." It carries messages of hope and encouragement to oppressed people, and builds a spirit of resistance among those who will some day throw off the yoke of Russian oppression.

In addition to the radio broadcasts, the Crusade for Freedom is sponsoring the new system of sending printed messages to subjugated people via balloons, and this organization made possible the World Freedom Bell which now hangs in Berlin.

Mr. Trevis will be aided by members of trade, labor, service, and social groups, youth organizations and veterans groups in the county Crusade for Freedom campaign.

A uniform temperature in the laying house will mean more eggs and higher profits. Insulation and ventilation will keep the temperature uniform, says Russell Hinds, University of Maryland Extension poultryman.

### More lives than a cat:

Ralph Nicols, 40, of New York, knows today what it means to say a cat has nine lives. Last Friday he discovered he possessed more lives than a feline. He drained a bottle of a quart of wood alcohol, partook a quarter pound of DDT, swallowed 18 aspirins, the equivalent of 12 sleeping pills, and turned on all five gas jets in the kitchen range.

Earl Saturday morning Kings county hospital reported his condition was "good."—(Source of information, Oregon Journal)

### He gets a laugh:

Robert A. Nordin, 23, of South Bend, Indiana, is a totally disabled Vet, and is receiving a 100 per cent disability pension from the veterans' administration. He has spent more than four years in bed.

The father reports his son is suffering from tuberculosis of the spine, left hip and leg, and "is in a complete body cast."

Robert being a veteran is eligible for the draft since he served only nine months prior to June 24, 1948.

When he failed to appear for draft pre-induction physical examination, his draft board last June classified him 1-A.

Despite his protest, the draft board has ordered him to report to Indianapolis on August 28 for a pre-induction physical examination.

"I'll be glad to go if they send an ambulance," laughed Robert.

Even though it isn't from Missouri, the draft board has to be shown.

### A kiss wits a would-be holdup youth:

It is reported that a youth about 21 years of age came into Mrs. Mabel Brill's store, Portland, brandishing a toy pistol and demanding money. She leisurely took out the account books and showed the stick-up youth a loss of \$16 for the month.

When she offered him the few dollars in the cash register, he turned the offer down. Thereupon Mrs. Brill asked him about his mother and receiving no reply, planted a motherly kiss on his forehead.

The youth then fled from the store and sped away in a car which police later reported had been stolen.

THE FORDOMATIC FORD GIVES YOU AN ENTIRELY NEW KIND OF DRIVING!

Combines best features of previous drives! Fordomatic gives you two automatic drives in one—a torque converter for smoothness—and automatic gears for get-up-and-go.

Fordomatic Drive optional at extra cost on V-8 only. Equipment, accessories and trim subject to change without notice.

**Practically drives itself!** Fordomatic thinks for you. It smoothly and automatically provides a countless number of drive ratios through which engine power is fed to the rear wheels.

**You're boss every second.** Step down on the accelerator and you get an extra spurt of power for hill climbing and passing. Going downhill you can shift to low at any speed for extra engine braking.

**Easier rocking!** It's even easier to "rock" out of sand, snow or mud with Fordomatic than with Conventional drive. Just move the selector back and forth between low and reverse.

**It's a gas-saving powerhouse!** Fordomatic's automatic intermediate gear provides smooth, fast, economical "getaway" without wasteful engine racing. Uses no more gas than the savingful conventional Ford.

# Down the Line with Johnny Bell

## Strong language

From a 1919 telephone directory: "Ringing on a line before 6 A. M. or after 10 P. M. is positively forbidden, except for a doctor. Subscribers must not hold the line for more than 5 minutes. Butting in, interrupting a conversation, whistling, or making other noises will be deemed cause for removal of telephone." Things have come a long way since then. Today, modern equipment and methods make the telephone more readily available to more people ... and there's more and better rural service.

## Off the hook

A telephone off its cradle, or a receiver off the hook, will cause your line to register "busy" to anyone calling you. And if it's a party line, all telephones on your line will be "busy." Care about this small detail will help both you and your neighbors enjoy better service. And that goes for a long list of calls, too. Spacing them out makes it possible for others to reach you quickly ... often with calls you wouldn't want to miss.

## Speaking of Bows

The Rose Bowl, the Cotton Bowl, the Orange Bowl, the Sugar Bowl, the Yale Bowl, plus Yankee Stadium and Soldier's Field, plus much more space would be needed to assemble the 600,000 people who work together throughout the nation to give you such excellent telephone service. That's a lot of people—but there's a lot of work to be done. In times like these, the nation is hurrying. And the telephone, Long Distance especially, hurries with them and for them. This vast network of Long Distance lines is one of the first, and strongest, of our national defense lines.

**THE BIBLE SPEAKS**

International Uniform Sunday School Lessons

BY DR. KENNETH J. FOREMAN

SCRIPTURE: John 4:4-14; Acts 10:25-28; Colossians 3:11

DEVOTIONAL READING: ISAIAH 11:1-10.

**One World**

Lesson for September 2, 1951

HOW rare it is to think of persons simply as persons, without any tags or labels! We think "policeman" or "lawyer" or "soldier" or "farmer" or "Japanese" before we think "man."

Dr. Foreman

One of the commonest tags we use is the race-tag. So-and-so is a Negro or an Italian or a Pole or a Mexican or a Scotchman, — at least that is the way he looks to us, even before he is Dan or Tony or Steve or whatever his name is.

**A Lower Race**

THE story of Jesus and the Samaritan woman shows how Jesus treated a person of a "lower" race than his. We needn't argue the question whether the Samaritans were actually Jews treated the Samaritans like dirt.

On top of all that, the particular woman with whom Jesus talked at Jacob's well was poor and with no good reputation even among her own people. The disciples were surprised that Jesus talked with her at all. But as we read the story, it is clear that while Jesus "spoke of her condition" as the old expression is, he was dealing with her all the time as a particular human being, not merely as "a Samaritan."

Evidently, to be sure, she was greatly inferior to Jesus, and admitted as much herself; yet this fact did not raise a barrier between them.

**A Dominant Race**

WE often talk of "race prejudice" as if it were prejudice of top-dog against under-dog. But prejudice runs in both directions. Of course all race prejudice includes a strain of contempt; but a citizen of a conquered nation may despise his conquerors, the weak may despise the strong quite as easily as the other way around.

In the Bible we have an excellent example of a Christian coming into contact with a dominant, that is, a conquering, race: the story of St. Peter and the Roman officer Cornelius.

Peter at first did not want to have anything to do with Cornelius. God had to shake him into it, so to speak. But once Peter saw the point, he saw it plainly: God made no difference between Cornelius and Peter's own people, the Jews.

It was not for Peter to call any man, even an officer of the foreign army that occupied his little nation and held the Jews severely down, common or unclean.

Which is harder: for a Jew to treat a Samaritan like a human being, or to treat a Roman the same way? Which is harder, for a white man to treat a Negro like a human being, or for a Negro to treat a white man like one? It may be hard either way, but it is Christian.

**"In Christ, There Is No East or West"**

AN old Scotch elder tells this story. "My church had invited the youth fellowship of all the denominations in the state to meet in our church, and the officers of our church were to serve the communion on the last afternoon. It had never occurred to me that some of the delegates would be Negroes, but when I stood up to pass the bread and wine, there sat some Negro young people right beside the white ones.

For a minute I thought I couldn't do it. In forty years as an elder in the church, I had never passed the communion plate to any but white persons. But then I thought, after all I am not passing the bread and wine to Negroes and white people, but only to Christians. So I went ahead with it and I never felt such a blessing as I had that afternoon.

The elder had discovered that what Paul wrote is true: in the "new creature" in Christ there is neither Greek nor Jew, slave nor free man; that in Christ's presence the stone walls that divide the human race melt like snow.

(Copyright 1951 by the Division of Christian Education, National Council of Churches of Christ of the United States of America. Released by WNT Features.)

**Packaged Chimneys**  
In its campaign for up-to-date building codes, the National Association of Home Builders has advised local communities that many changes in structural requirements in new homes can be made without sacrificing either quality or safety. For example, says the NAHB, even though Fire Underwriters' Laboratories' tests show that approved packaged chimneys are as safe or safer than masonry chimneys, many antiquated codes still read "chimneys shall be of masonry."

**Multi-Purpose Utility Drill**  
A new, lightweight utility drill kit, including a 14-inch drill steel and three assorted-size rock bits, a star drill adapter and 25 feet of air hose, has been placed on the market. The self-rotating pneumatic hammer drill weighs only 19 pounds, but can bore through concrete, brick or stone with standard drill steel, and by virtue of a stop-rotation feature can be converted to a lightweight chipping hammer or pick.

**Servicemen's Comfort**  
Currently the bedding industry is producing for the Army and Navy nearly 3,000,000 mattresses and cots, as well as several million pillows and sleeping bags and substantial quantities of hospital beds and springs. By providing the maximum sleeping comfort for our soldiers and sailors, they are more fit for combat, both mentally and physically, than they would be in less comfortable circumstances.

**Easy Rug Dye**  
Household rugs as large as 9x12 feet can now be dyed right on the floor with a new concentrated liquid dye. The dye, called "Rugadub," is mixed with water, and applied with an ordinary scrub brush on pile-type, woven or hooked rugs. It comes in billiard green, deep hedge green, tobacco brown, maroon and midnight blue and is said to dry to a smooth, even color overnight.

**Co-Op Parking Lots**  
In Miami, parking meters are installed on parking lots on a co-operative plan. The city leases a plot of ground from the owner, paves it, installs meters, and operates it as a parking lot. The rental paid by the city to the owner is 35 per cent of the meter revenue, and the city absorbs the property tax.

**Families Getting Smaller**  
Families are getting smaller. The size of households has declined from 3.2 persons in 1940 to 3.0 persons in 1950. The number of one-person and two-person households increased by 35 to 45 percent, respectively. The number of households of five or more persons declined relatively.

**Lure the Sandman**  
The habit of deep breathing is a good way to lure the sandman. This steady breathing will relax muscles so that sleep comes easily. The combination of regular deep breathing exercises and a good, level sleeping surface will insure complete rest and relaxation every night.

**Allied Sciences**  
Astronomy and ballistics are twin sciences. There is a peculiar affinity between the motion of heavenly bodies and the less heavenly paths of projectiles. Many astronomers worked in ballistics laboratories during World War II.

**Clean Game Boards**  
Do sticky finger marks on game boards and wooden toys used by children cause you trouble? Clean, dry and then apply a thin coat or two of fresh shellac. Then a quick sweep with a damp cloth will clean the board or toy.

**Cover Grease Spots**  
Before re-papering a room cover any grease spots that may be on the wall with a thin coat of fresh shellac. The shellac will seal in the grease and prevent it from penetrating the new wallpaper.

**Separate Region**  
The Red River valley of eastern North Dakota and northwestern Minnesota has been made a separate region for sugar beet minimum wage requirements.

**Church Funds**  
A Roman Catholic church in Verboort, Oregon, was built partly by funds obtained from huge sausagekraut and sausage feeds.

**Aids Growth**  
Tulips and many other bulbs can be brought to full bloom in eight to ten weeks when the bulbs are planted in Terra-Lite vermiculite.

**Watch Your Step**  
Falls cause about one-half of all fatal accidents in the home, according to the National Safety Council.

**Good Invitation**  
Place cards at a Mt. Vernon, Ia., restaurant carry the message: We invite you to say grace if you wish.

**Save School Kits**  
Children's school kits will last twice as long if mended and reinforced with cellophane tape.

**Handy Andy**  
Tempered Preswood may be used indoors or out. There are more than 1,600 known uses.

**Missionary Group**  
One of every 100 Moravians is a missionary.

**Organic Matter Vital To Soil Building Plan**  
Legumes and Grasses Are Recommended for Plan

Feed the soil so it can feed the growing crops, if you want to get high yields per acre, advises Dr. J. B. Peterson, Purdue University agronomist.

Dr. Peterson says the best way to tell what your soil needs is to study the land, its management history, its past cropping program and then have the soil tested. The soil tests will tell what fertilizer is

needed and how much is required to keep the soil well stocked with a well-balanced nutrient supply.

But Dr. Peterson points out that till and soil structure must be good if the plant food is to do its crop nourishing job. Crops can starve in the midst of plenty and fertilizer can be wasted if the soil's structure is poor.

Poor soil structure shuts off drainage and ventilation. It keeps air and water out. Crop roots can't penetrate the tightly-compacted soil to reach needed nutrients.

Dr. Peterson says the best way to correct soil compaction and repair damaged structure is to add organic matter. This can be done by including well-fertilized legumes and grasses regularly in the rotation and by returning manure and crop residues to the soil. Legumes and grasses do a two-way soil building job. The deep-probing taproots of alfalfa and sweet clover do their soil-mellowing work in the heavy subsoils. Filbrous-rooted grasses such as brome or timothy open up tough surface soils and make them granular and porous.

**Good Pasture Cuts Milk, Beef Production Costs**

Since the time when man first began cultivation of the earth, growing grass for pasture and hay has been one of his major projects. Only in recent years, however, have farmers learned the importance of pasture as a way of cutting milk and beef production costs. It is becoming one of the farmers main money crops.

According to department of agriculture reports, about two-thirds of the nation's land is now in grass. And some farm experts believe a 25 per cent increase in the acreage is justified for a more efficient type of agriculture even though greater crop production has been demanded of the nation's farms.

With the nation demanding a greater production of beef, the farmer who has a good grass program will make more profit per acre in the coming year than was anticipated in 1950.

**Soil Testing**

An accurate and inexpensive soil testing kit, which may be obtained from local garden supply or hardware stores is now on the market. The kit contains all the solutions needed to make tests for nitrogen, phosphorous and potash. The kits come with complete easy-to-understand instructions and may prove of great value to home gardeners.

**Spring Is Time to Check All First-Aid Supplies**

"Be ready with gauze and first-aid remedies. Mother, lest you're caught napping in an emergency," is the advice of Miss Marguerite Briggs, family life specialist, at the University of Illinois. Miss Briggs suggests that now is the time to check first-aid supplies, replace antiseptics and salves that have lost their strength and replenish tape and bandages to take care of the summer accidents.

The Eppley Sisters Gospel Quintette of York, Pa., will appear at the Piney Creek Church of the Brethren September 9, 1951, at 2.30 P. M.

The five sisters render a deeply spiritual program featuring vocal quintettes, soprano and alto solos, artistic piano-playing and numbers on the following instruments—Vibra-Harp, Violin, Electric Hawaiian Guitar, Saxophone, Accordions and Cathedral Chimes. These five sisters are known from Coast to Coast and also in Canada. They are widely used in Youth for Christ Rallies.

If you wish to hear a musical program that is unique and different and has been rated as one of the best programs of its kind in the country, come and hear these five sisters. They have appeared in churches of 38 different denominations the past seven years. Their recent concert tours have included leading churches and Radio stations in United States and Canada. Thousands have heard this group, churches have been crowded to capacity and many turned away. Some of the girls are graduates of Wheaton College, Wheaton, Ill., others of the Dumfries School of Music, Harrisburg, Pa., and at present all are special vocal students of Messiah Bible College, Grantham, Pa.

The public is cordially invited to attend and is urged to come early!

**Legal Holiday Notice**

Monday, September 3, 1951 in observing Labor Day our Banks will be closed.

**The Progress of American Labor**

When Labor Day was first celebrated (by the Knights of Labor in New York City in 1882) who could have visualized a time when more than 60 million workers in the United States would be gainfully employed! Not only is this current figure close to an all-time high, but the average pay is at record levels.

The role of the worker in the nation, his skill, his productive capacity, and his influence have never been more important than at present.

No business will be transacted by this bank on Labor Day.
