ANOTHER LETTER TO THE EDITOR

Doctor Expresses His Views Regarding Sanitary Sewer

Taneytown, Md., April 14, 1952. An open letter to the Citizens of Taneytown, Md., in regards to the Sewer System and a warning as to what their action may mean— by voting down the Bond Issue. I have read the articles in the Carroll Record—by the Mayor and City Coun-cil—the letter to the Editor—and Mr. A. H. Carpenter's letter to the people of Taneytown and also to Dr. Robert Riley, State Health Officer and approve them all; also Mr. Dunbar's letter. We must not be too harsh on the majority of the citizens of Taneytown for as Christ said when he was crucified, "Father forgive them for they know not what they do."

The citizens were not educated to the true meaning of a bond issue. A Bond Issue of \$400,000 scared the life out of them. Then the propaganda in form of unsigned circulars at the last minute threatening the tenants bewildered them and they were afraid to vote for it. The sewer plans and the need for same should have been discussed at public meeting for at least 6 months before voted on. State Health officer should have explained the Health Law—Fish Laws which prohibit any sewerage from running into streams. Building Laws which require every new house to take care of all drainage on own land ounder heavy penalty. The State should have advised the citizens of Taneytown as to what power the State Health Department has, and has used in the State compelling a city in the state to put in new filtration plant at a very large sum of money to belongton. a very large sum of money to help stop pollution of Potomac river. Same pow-er has been used in other cities. It has not been used in Taneytown to date, because Dr. Riley and the State Health Department thought that the citizens of Taneytown would vote for the Bond Issue and thus clear up this controversy which has been going on

for 35 years or longer.

I was local Health Officer for Taneytown and Taneytown District, from 1919 to a few years ago when this office was abolished. I had Dr. Riley and other state and county Health J. J. Hockensmith, James F. Burke, Reindollar Bros. & Co., Harry B Dougherty, Charles H. Hopkins, C. M. Benner, M. D.

THE EASTER HERITAGE

A dramatic cantata by Elsie Dunival of the Taneytown Junior and can Yale, was presented in Trinity Senior High School will be held in the Lutheran church, Easter Sunday eve-Wilbur Naylor, Jr.

The setting of the play was in the springtime in the garden of Joseph of Arimathea. It was a beautiful arof Arimathea. It was a beautiful arrangement of boughs of pine and flowering shrubs, cut flowers and potted plants. In the rear of the garden was the replica of a tomb. The drama was the story of the life, death and resurrection of Jesus. It was impressively rendered by each member of the cast. The lighting created of the cast. The lighting operated by Wm. Hopkins, Jr., changing from dim to glaring, enhanced the beauty of the scenes.

Great consternation was portrayed when the women went to the tomb on Easter morning to annoint the body and found the tomb open and the body

A life-size picture of Jesus was thrown on the screen, and as a voice spoke to Mary Magdalene, she portrayed in a prayerful and joyful attitude her happpiness, as she realized her Lord was living.

All of the characters, rushing to the tomb, received the Angel's message of hope, courage and the assurance of a blessed heritage.

The members of the cast deserve much credit for their portrayal of the Bible characters. The members of the choir also interested and inspired the

Each spring time of the year at the very first sign of the frogs Your Observer says (as I did when I first heard them as a child) "they are calling me to the country—a city girl!" The singing of the frogs mean so much to me! Driving along the country roads in any county, that golden yellow of the Jonguils and some yellow. yellow of the Jonquils and some yellow bushes of Forsythia just about on every lawn lends such enchantment. Many of the Azalea plants are be-ginning to bloom and the carpet of "Climbing Mountain" seems to be getting a bigger hold upon the public

each year.

Did you see the Easter Parade, on T. V. on Fifth Avenue in the big city of New York and the many celebrities on Sunday afternoon? What a mob there was and that seems to be growing each year. Eh? Then the showing of those old cars as far back as the year of 1906—"In The Merry Oldsmobile"!

On the back page of The Sunday American on Easter was just about the cutest and most clever cartoon which brought a chuckle—there was Stassen and Warren and Stevenson and Taft and Kefauver and Russell and Kerr and of course IKE all on the White House lawn with their baskets gathering up the eggs! Whose basket did you ask was filled? Ike's, of course, and Taft was next in the number of eggs! Cute? And with it all, Your Observer will be surprised. if Ike lives in that White House beif Ike lives in that White House because he does not want that big responsible job even if it is forced upon him. How fickle the public is—now that President Truman says he will not run—every individual is writing and saying kind things about him. Betcha, that if he was to run, he still would be on top!

What a mob in church on Easter Sunday morning! Would it not be wonderful if there were those same kind of days each Sunday morning in

CHRYSLER C-200 MAKES DEBUT

Newest American experimental car, Chrysler Corporation's C-200 convertible, is being shown for the first time in New York City after arriving from Europe aboard the liner S.S. Constitution. Conceived and designed in Detroit by Chrysler engineers, the C-200 was built in Italy in a further experiment to explore the blending of sports car styling with practical automobile design and engineering features. Picture at top shows the C-200 being unloaded from the liner in New York after a fast trans-Atlantic crossing. Below, a close-up view of the experimental convertible.

REPUBLICAN COUNTY CENTRAL COMMITTEE

Sherman E. Flanagan, Chairman.

Not "warmed over" but strictly brand new!

You owe it to your pocketbook to drive this Chrysler engine before you buy any fine car today.

It's not a "warmed-over" engine, but a basically brand-new one!

It gives a new kind of performance that means new value for every dollar you pay out for purchase, upkeep, or operation.

It was built brand-new around a hemispherical combustion chamber which makes better use of gasoline, and also permits sounder all-round engine structure, than any American motor car engine has had before.

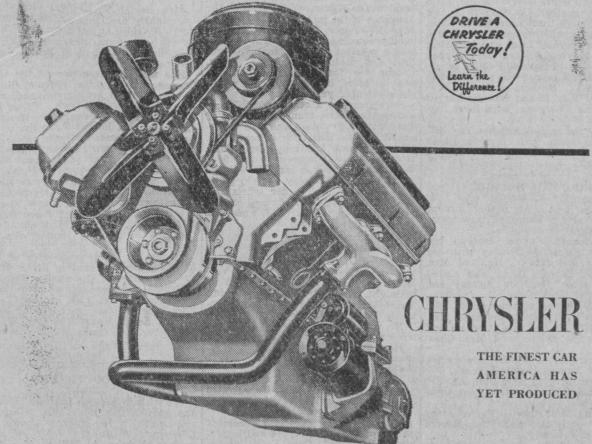

It delivers 180 horsepower . . . without requiring you to buy premium gasoline. It runs with less waste, less heat, less friction and less wear than previous designs can

equal. Its combustion is so clean it literally develops almost no carbon deposit at all.

It will last longer than any engine you've ever known. It will cost you less along the way. It will stay "young" in performance thousands of miles past the point where an ordinary engine shows old age.

And on top of all that, it makes driving a lot more pleasure! Its smooth response . . . its safety-power, in reserve for emergencies . . . its easy scorn for distance or hills . . . make you just plain feel good at the wheel as you've never felt before.

For the good of your purse and your pleasure too . . . we invite you to drive it. soon!

FEESERSBURG

Easter is over for another year. In spite of the cold rainy day, churches were filled with worshippers in the morning and in the afternoon people put on their bright Easter lothes and either visited friends or took a stroll along a city street or country lane. Children ignored the wet grass and searched for bright olored eggs and the Easter bunny. Flowers seemed to be everywhereon the altars of the churches; pinned to women's suits and dresses; filling the windows of homes and some brave enough to nod from people's awns and gardens. Easter like Christmas has become a family holiday, as well as Holy Day. Children make a special effort to visit with parents and ome families make Easter the one time in the year for a get-together. The pastors of the different churches must wish for Easter to come more often for it is one time when their churches are filled with devout mempers and friends.

Politics is in the air we breathe, the food we eat and most certainly on radio and T. V. so its no use trying to ignore it. The Democratic State entral committee of Carroll county will sponsor a dinner at the American Legion Post in Westminster, April 21, at 7:00 p. m. for Congressman Lansdale Sasscer now seeking the nomination for United States Senator. Some of the Democrats from this district are planning to attend the dinner and offer Mr. Sasscer their support.

Congratulations to Dr. Thomas H. Legg for being elected Mayor of Union Bridge! Dr. Legg has always been citizen very much interested in his community and has served in many worthwhile activities. Union Bridge has much to gain by his experience and his civic consciousness.

The Girl Scouts of Union Bridge held an Easter egg hunt on a part of George Roelke's farm Thursday af-

Scouts had 89 eggs but only 70 were found. Each Scout invited a guest. Mary Scheu found the most eggs.

Holy Communion service was held at Mt. Union Lutheran church Easter Sunday. The Rev. Donald Warrenfeltz spoke briefly on the meaning of Easter in our lives. The main thought of his sermon was that the spirit of Easter should dwell with each of us every day of the year for Easter means hope and without hope most of us could not endure long the set backs that are a part of each person's life. The church was decorated with many flowers. The members of the Sunday School placed cut flowers on the al tar. The potted plants were placed about the church by Mr. and Mrs. Edward Dayhoff, Mr. and Mrs. David Miller, Mrs. Maurice Grinder and Mr. and Mrs. Cleon Wolfe.

Hagerstown reports that the robins this year have contracted a disease similiar to Newcastle's disease and are dropping out of trees dead. New-castles is a chicken disease and affects the nervous system. The robins in this area seem very pert and healthy. We hope they stay that way. Whether you are interested or not 26 million Americans visited the race tracks last year and bet one billion and a half dollars. It we were as smart as the Irish we would use part of that money and build some new hospitals.

Since hospitals and doctors generally go together we can in a round about way comment on the increase of medical fees just recently put into effect by the doctors. The opinion of most people is that this is just hastening the day of socialized medicine. The AMA is just being short sighted in failing to solve the problems that confront both the patient and the doctor. Raising the doctor's fee may solve the doctors problem of increased cost but it leaves the basic questions still unanswered. They are: Too few doctors and the prohibitive cost of medical care to the average wage earner. These two problems could be solved by the medical profession itself if it was so inclined, but like all groups that have a monopoly on sup-ply, the AMA has become self centered and reactionary. For one thing except for doctors in small towns and rural areas, the medical profession has lost the close contact with the patient that it formerly had. It no longer knows what Tom Jones makes a week and whether he can afford to pay for the medicine prescribed for his sick child. There was a time when and office visit to a doctor also included the medicine. Today its the cost of the office call plus the trip to the drug store that is alarming the aver age wage earner. Here is one gap that could be closed. A doctor can get medicine much cheaper from a drug is this reporter's hope that it will regain that idealism and love of service to mankind that made one most proud to belong to the group of fine men and women that makes up the

We know that the weather has a deep effect on human beings. On Tuesday, a dismal, rainy, bone aching day we visited four stores in a town we are especially fond of. Usually the people are jovial and optimistic but on Tuesday their reaction to certain opics were pessimistic and hopeless. One was worrying about old age although he is perfectly healthy and far from being old; one was annoyed because he knew he would never be wealthy, another because the ground was too wet to plant the garden and a woman who just knew in a few years we wouldn't have any summer at all. If the sun is shining at the end of the week when we drop in again, these people will have forgot-ten entirely their thoughts on Tuesday. Sunshine and shadow—how much they are a symbol of our think-

EDWARD J. MYERS

Edward J. Myers, aged 79 years well-known resident of Pleasant Val-ley, died at his home last night at midnight. He had been in declining health for some time but became ser-iously ill the past few days. He was a barber by trade but re-

tired a number of years ago.

He was a life member of St. Matthews Reformed church, Pleasant Valley and served on the church council for a number of years, and a member of the Sunday School. He was also

an honorary member of the Pleasant Valley Fire Company.

He was a son of the late Frederick and Fiona Bankard Myers and is survived by his wife Cora Frock Myers, one son Guy E. Myers, Westminster, three daughters, Mrs. Harry Feeser, Westminster, Mrs. Russell Warehime, Westminster R. D. 7, and Mrs. Russell Warehime, cernoon. (Continued from First Page) farm, right of way, etc., to start a sewer system. We placed 15 inch tile through swamp to drain same, had a steam shovel to straighten out stream, and close up filth holes in sections next to Railroad. We could not finish it then as 2nd World War broke out—we could get no help from the Government, or support from the citizens. We did all in our power clean up this mess with our hands tied. In 1947 while I was President of the Town Council we had a survey of the town made by surveyors recommended by the Health Department to survey Taneytown, as the State and Federal Government required it before they would give any help. This has been followed up by other surveyors

for the sewer system.
On March 17, a mass meeting was held in the auditorium of the High Monday evening at 7 o'clock in the School to discuss the sewerage sys-United Brtehren church by the Rev. tem, which was to be voted on March 31st. At that meeting I explained the sewerage condition in Taneytown, the rock formation, that every dug is a cistern, that over 200,000 gallons of water is used every day that this water must go somewhere. They all want modern conveniences

and that means this water saturates their lots, neighbors lots, and causes grey suit and had a corsage of pink carnations. Both are employed at the Cambridge Rubber Co. They will ially outside toilets with open backs, reside at the groom's home for the no screens places for flies and mis quitos to spread disease. Some years ago we had an out break of Typhoid Fever, at which time I had the water in a number of wells in town examined and collin bacillas was found in nearly all of them, they were ordered closed and people told to use town water. A number of wells in town have been used as cesspools which is liable to contaminate the water supply compelling the town to chlorinate the city water supply children playing in this sewerage are liable to get Polio, hook are liable to get Polio, hook worm, skin eruption, and colitis ulcerative colitis, and all kinds of in-testinal disease. We have had a number of these cases during the last few years, we Doctors have been doing all in our power under these conditions with our hands tied trying to protect your health—and that of your child. The only solution is a complete sewerage system. It is the duty of every citizen to support the Mayor and City Council to help clean up this mess untie their hands, take off the shackles that you placed on them. They have a job that must be finished. Sanitary laws require; Fish laws require it which prohibit pollution to streams. Building laws require it, so there is no escape for the Mayor and

City Council.

They must do their duty and you have shackled them—risking your life and that of your children and future generations to deadly diseases and epiemic. I am sure that if the citizens of Taneytown help the Mayor and City Council to correct this condition, that those whose streams are being polluted will give them a second chance and help in every way possible

to correct this situation. If this matter had been explained properly I am sure it would have The \$400,000 Bond Issue and threat to dispossess or raise rents scared the people. A number asked me if they would put mortgages on their homes or set them out-this was never explained to them. I told them that a few years ago they wanted to build school houses and had no money The Board of Education provided and printed articles and papers for emonths, the people understood it. Harry B. Ohler, 77, husband of Mrs. Effic Stambaugh Ohler, died at his home, near Taneytown Sunday night The same would be done on sower. The same would be done on sewer bonds. They can be paid off over a per-pital and since my return home. iod of years and not miss it.

Taneytown is a very sick patient, its system is saturated with sewerage until it can hold no more. It has dropsy, water-logged, and only remedy complete sewerage system. But it must be put in right.

SAVE REPAIR BILLS-SAVE CAR LIFE

with RD-119 anti- Betholine and Sinclair

MOTORISTS are warned by statistics from Motor Service Magazine that one car in four will need a repair job to carburetor, fuel pump or fuel lines this year because of damage by rust and corrosion. Cost of these repairs may run as high as \$18 or more.

But you can protect your car by using Premium Plus Betholine or power-packed Sinclair Anti-Rust Gasolines. Every gallon of these modern motor fuels contains RD-119, the miracle chemical exclusive with Betholine and Sinclair. This amazing rust inhibitor forms a protective film inside your whole fuel system that stops formation of rust and corrosion when you use Betholine or Sinclair regularly.

Save repair bills. Save the life of your car. Save as you GO. Begin using Premium Plus Betholine or power-packed Sinclair

Jesus and the Law

Lesson for April 20, 1952

THE ELKS' CLUB has a constitution and by-laws, but if you are not an Elk you can pass by the clubhouse a dozen times a week and never so much as wonder what the by-laws are. No Elk will think the worse of you for it, either. The laws of the Elks are for Elks, not the gen-

eral public. TheChristian church also has a set of laws posted somewhere in every church building, or at least written in a book you will find in e v e r y church: n a m e l y the Ten

Dr. Foreman

Commandments. People who do not belong to the church sometimes give these laws no more thought than they would give to the Elks' constitution or to the ritual of the Signa Phi Nuthin' fraternity. But that is a mistake. The Ten Commandments are a kind of constitution of mankind, not a set of rules for a private club.

No Ladder to Heaven

HOWEVER, even inside the church, Christians often have mistaken notions about the law of God, particularly the basic laws embodied in the Ten Commandments. Two of these wrong ideas are almost exactly opposite each other, with the truth in the middle.

One mistaken idea is that the law is a kind of ladder to Heaven. That is to say: God is supposed to run a sort of book-keeping department, with a Recording Angel (or perhaps millions of them, one looking over every man's shoulder), jotting down everything a person does from birth to death. Every time he acts in accordance with the Commandments down goes a plus mark. Every time he breaks one, down goes a minus mark. At the time of his death the account is balanced. If there are more pluses than minuses, then the man is admitted to heaven; if the minus side puts the man "in the red" with God, then off he is hustled to Hell. In other words, on this theory (which is very popular though false), you write your own ticket to Heaven, you climb there on a ladder of your own good

Jesus did not hold to this notion, indeed taught quite the contrary. Call no man good! he said. For one thing, plus-marks do not cancel out and for another, thing, seen with the eyes of God, as the famous Richard Hooker said, "the best things we do have somewhat in them to be pardoned."

Jesus, the New Testament, and the church after them, teach with one voice that we are saved by faith,-It is God that saves us, not we ourselves.

Love Is No Excuse for Sin

THE mistake at the opposite end of the line is to fancy that if we love God we can do as we please. In other words, the idea is that love is a substitute for obedience. If we just love God fervently enough, then his laws do not apply

Now this mistake is just as bad as the first one. What would we say to a man who is a careless driver, and when arrested for hit-and-run driving tells the Judge, "Your honor, I love everybody, I have nothing against anybody, I love my country, and you ought not to bother me with traffic laws!"

What could we say about a man who claimed he loved his wife very much but never paid any attention to the common rules of politeness when in her presence? What would a grocer say to a man who owed him fifty dollars if the customer claimed to be such a good friend the grocer ought not to send him a bill?

Living in Obedience

ON the contrary, a Christian will be all the more eager to do what God commands, not because he fears punishment, not because he thinks he can earn his way into God's love, but because obedience is the way God has given us by which we can sincerely show our love to him and to our fellowmen.

As Cardinal Newman put it: "Justification (the theologians' word for a person's being on right terms with God) is received by faith; consists in God's inward presence, and lives in obedience.'

To put it another way: Doing what God desires is not the cause of being saved; it is the result of being saved. When we have done all we can, indeed all we have been commanded, Jesus said, we are still "unprofitable servants;" we have nothing to boast of, at our best, for our best comes from God.

a Bird lesson

Ever watch a pair of birds build a nest and rear a family? It's a fascinating process. Both birds co-operate in building the nest and raising the young ones. Co-operation works on party-line telephones too. You co-operate with others on the line when you spread out a series of calls . . . answer your telephone promptly . . . and hang up properly when you're finished. The result is better telephone service for your neighbors and for yourself!

A voice crossed the ocean in Long after midnight they waited in a little room at the Eiffel Tower in Paris — two Bell System telephone engineers and a French officer. Not far away, the guns of World War I rumbled. It was October, 1915, and the men were waiting for a miracle - the miracle of a voice crossing the ocean. At last, they heard it — a faint whisper, at first, but stronger at the end. The thing had been done - radiotelephony had reached across the ocean. It was a historic moment in communications; telephone engineers had opened the way to round-the-world telephone service!

Don't be cheated out of next winter's Egg Profits by low egg prices NOW!

Don't be misled. Use FACTS when you decide how many chicks to start. And the FACTS are that low egg prices in the spring have been followed by high egg prices in the fall every time for many years. So let the other fella quit. We think you'll be happy with a full laying house next fall,

You must start now for best profit opportunity. The months of high egg prices start in September. If you don't start now, you won't have pullets ready to cash in when prices start to hit their peak. Come in and talk it over right now. Next fall you'll be glad you did.

Order your chicks now to cash in next winter.
