3-day Event Promises to be **Bigger and Better** Once again the 4-H boys and girls

ANNUAL 4-H FAIR

of Carroll county are planning and preparing for their annual 4-H Fair. This year's three day event promises

This year's three day event promises to be bigger and better than ever be-fore, and well worth seeing. In the five years since the fair was first held it has grown into a major event. It began in 1947 as a one day achievement day, with a minimum of exhibits and exhibitors, but today's fair is being put on by 640 boys and girls, representing Carroll County's 15 hoys 4-H Clubs and 20 circle clubs 15 boys 4-H Clubs and 20 girls clubs The fair brings before the public the projects and achievements of the coun-

ty's youth. The Fair is the project of the 4-H-ers themselves. They exhibit the projects they've worked on during the year, and state specialists in every field are invited to judge the exhibits. The girls' exhibits fall into four classes: Home Management, Home Furn-ishing, Clothing and professional results in food. The boys exhibit their handicrafts, and in the livestock division some of the best livestock in the state is shown, in all breeds. The boys are rightly proud of their purewell worth seeing. This year's fair will prove that

girls are not the only ones who can bake, nor are boys alone capable of raising prize livestock. Among the girl's cakes will be some of the boys' best efforts, and girls will show their livestock along with the boys. Judging results in these classes are worth waiting for.

Some of the highlights of the fair include the Tractor Operator's con-test, where the boys will show their ability to maneuver tractors around obstacles, and in belting and hitching contests. All makes of tractors will be available for the boys to use,

and will be on display for the public. But the days' activities do not end with the sun. With the help of the Farm Bureau and the Senior Council, events continue during the eve-ning. The Farm Bureau Farm Queen Contest will be held, as well as the 4-H girl Style Revue, and Senior Council's open-to-the-public square

dancing. All in all this year's Carroll County 4H Fair, July 22, 23, and 24, promises to be a gala event. The public is cordially invited to see not only what Carroll County's 4-H boys and girls own, but what they can do. So come to the Fair.

TRINITY MISSION CIRCLE EN-TERTAINS WOMEN'S MIS-SIONARY SOCIETY

On Wednesday evening, July 9, the Trinity Mission Circle entertained the Women's Missionary Society of Trini-ty Lutheran church. The meeting was to be held on the parsonage lawn but due to the weather, it was held in the church

The program was in charge of Mrs. Louise Riffle, Mrs. Mary Jane Smith and Mrs. Charlotte Shorb. The topic for the evening was 'The Pacific Rim" which dealt with the conditions of the countries in the Pacific as compared to our North American countries. The musical numbers included Miss

Mary Shriver playing two numbers on the accordian and Miss Fairy Frock a piano solo. Both were beautifully a plano solo. Both were beautifully presented and very much appreciated. Mrs. Ernest Dunbar, President of the Women's Missionary Society, gave a very inspiring and interesting talk on her trip to Mexico. Our last speaker was Mrs. Carl Baumgardner, Littles-town Be, who cause a very humorous town, Pa., who gave a very humorous reading about Katrina visiting New York. Everyone was in stitches listen-

"It's a Family Affair"! When one reads about those nice homey affairs of the family reunions annually, it is even much nicer than it reads. Your Observer was a guest at the "WEBB" reunion at Fawn Grove two weeks ago Tuesday evening former President of the U. S., Herbert Hoover address-ed the convention assemblage. Wednesday evening a vote on the seating of certain state delegates was the order of business. The nominations of candidates for President were made Thursday eve-ning. You will enjoy every min-ute of it and as for that one dance of Cone Kelly? with the umballe in Gene Kelly's—with the umbrella in the pouring rain—well—it was worth double the price of the show. You will sit there spellbound! Another one you must not miss is "LOVELY TO LOOK AT"! There are many laughs and the combination is a full cost and the combination is a full course dinner of story, gaiety and pictorial-ness that is bound to satisfy the appetite of the most exacting fan. It is truly a rival attraction in the Great Fashion spectacle of "An American in

Paris.' Have you seen Mr. Smith's Chair? Really it is Mr. Dallas Smith a young police officer from Indiana who invented such an economical piece of furniture which seems to be going every place. Here is the story of its origi-nality. Mr. Smith was invited to a party where there were more guests than chairs so Mr. Smith sat himself down on a fiberboard crate. It was strong and he wondered why furniture could' n't be made of the same material. He then began to experiment and after a period of designing, he turned out an arm chair. Since then these chairs have received national recognition. They are so reasonably priced meets the purse very nicely of Mr. and Mrs. Newly Wed. They are around the price of 20 dollars or a little more. These chairs can support just one ton of weight and yet it only weighs 16 pounds! They can be purchased in the The Keysville Evangelical Lutheran Missionary Society began its meeting Tuesday evening by singing, "The Church's One Foundation." On rainy days, the Sun will shine for you, Mother as the small fry can then play there for hours until nap time. The kiddies can even ride the bikes in that room, too and it can be made most attractively. Here's a new wrinkle! And all caused by a snake! Your Observer was awaiting a package in the Conowingo Railway Station and while sitting waiting for the hour for the station to be opened, was talking to a man from Indiana who was recently sent East as Supervisor. There was trouble up in the switch which was turned off due to a snake crawling up there and which was immediately electrocuted consequently causing the power to be shut off at this point! Maryland public school system lost one of its most distinguished members and the public school students lost a sincere and interested counsellor when death unexpectedly claimed Dr. R. F Cromwell, state supervisor of hig schools July 4 at his home in Baltimore. Dr. Cromwell was a pioneer in the field of educational guidance. In his address, several years ago to the graduating class of the Elmer Wolfe school he suggested that schools should accommodate themselves to the need of the less able as well as the average and the gifted child. He be lieved in the youth of the state and was always happy and willing to help girls and boys work out an education al plan to fit them for their particular career. It was this personal inter est in their problems that made him the best-loved among Maryland educators. Dr. Cromwell was born in Walkersville and graduated from Western Maryland College in 1922. Years of teaching and school administrative work followed before he obtained his doctorate in education from George Washington University in 1940

The Democratic party has always had the reputation for doing it's po litical fighting before the eyes of the public while the Republicans, if they fought at all, did it in the wood shed out of sight. This week, at their National Convention they reversed them. selves and on Monday staged one of the bitterest political fights in the his-tory of the party. To the Democrats it must have been a very encouraging spectacle, while to the independent voter it must have been an amazing It certainly convinced everyone one. that there is some fight in the old ele phant yet and maybe when the fur ceases to fly there will emerge a new elephant who has learned to forget a lot that should have been forgotten years ago.

Cucumbers this year are worth their weight in green backs or almost. They have been selling as high as 15 dollars a bushel in Salisbury, but are now averaging 9 dollars per bushel. Wicomico county is Maryland's leading cucumber producer and one of the top six in the nation. At the normal price of \$2.50 farmers realize very little profit since it costs about \$1.50 to pick, harvest and package a bush-el of cucumbers and this does not in-

clude the cost of planting. If you find a "tussock moth" or a caterpillar, light in color with black stripes, capering across your porch on lawn, get in touch with the county agent for this little pest is a menace to the poplar tree. The Japanese beetle is also still with us, though in re duced numbers. They must have incisors as sharp as razors, the way they saw off the leaves of a tree. They must never sleep but eat 24 hours a day by the way they consum the foliage of a chinese elm in a short period of time.

Listening to the speeches from the ster, and Mr. Luthe. Zimmerman, Republican convention one was impressed with one glaring fact. Every speaker dwelled on the past. Not one looked to the future. The speakers looked to the future. The speakers seemed not to realize that this is 1952 and not the age of Lincoln's day. It was as if they wanted to forget that this is the age of jet airplanes, of increased population, of new problems, of world brotherhood and new methods. Just as Lincoln was far ahead of his party in 1860, the Republican leaders are just as far behind theirs, in 1952.

It is mosquito time again and it might help to know that when a mosquito alights on your skin he or rather she starts drilling instead of biting. In two seconds, the mosquito can stab through the skin with four slender, rapier-like mandibles. She then injects a flexible, pointed tube called a fasci-To increase bleeding and deter coagulation she squirts in an irritant saliva. That leaves only the actual injection of the blood, which may take a full minute if the diver is not disturbed. The residual irritant is believed to cause the itching and swelling. It may interest you to know that again the female is more deadly than the male for it is only the female mosquito that does the drilling and she doesn't do it for revenge. Instinct tells the expectant mother that only a meal of blood will enable her to lay a brood of healthy eggs. To the person that is being bitten a mosquito is a mosquito but actually there are 1400 species. DDT was quite effective on mosquitos when first used, but like the fly, the new generation of mosquitos have built up an immunity to this once powerful exterminator. All this information is no help at all when one trying to sleep and the hum of the mosquitos wings, make one duck be tween the sheets trying to evade the sneak attack. There is only one con-solation. You may be the type of person the mosquito may not care to drill. Your skin may be too tough or some other reason of which the experts are not certain. It is like try-

to determine why one person takes poison ivy and another one doesn't. The Ben Kings gave a picnic supper Sunday evening for their week-end visitors that included Mr. and Mrs. J. A. GASOLIN

Manchester and Tuc Roads Westminster, Md.

BOTH GIVE YOU MORE MILES FOR LESS MONEY

Who said all gasolines are alike? Here are gasolines so different, they are now PATENTED . . . so revolutionary, they not only power your car but PROTECT it at the same time—to give you more miles of car life with less money for repairs.

Used regularly, *patented* Betholine and Sinclair Anti-Rust Gasolines, with amazing rust inhibitor RD-119[®], prevent the costly damage to your fuel system caused by rust and corrosion —which is a constant threat with ordinary gasolines.

Remember—with patented Betholine or Sinclair, you get flashing Power and Long Mileage PLUS the Anti-Rust protection of RD-119—an exclusive extra ... AT NO EXTRA COST! BETHOLINE, first among premium fuels. SINCLAIR, first among regular priced gasolines.

World's first Anti-Rust Gasolines... keep rust out at no extra cost

1.

HERE'S WHERE PATENTED ANTI-RUST GASOLINES SAVE YOU MANY DOLLARS

Used regularly, Betholine and Sinclair protect against repairs to your car's fuel system ... carburetor and fuel pump ... that can cost you up to \$18 a year.

She put a head, only it was not her idea, she claimed for it the authority of God.

Barak was to be a general, he was to recruit an army. She told him, there under the palm tree, where he was to get his army, where he was to take it and what to do with it when he got there.

Space does not permit the details that would show that Deborah's ideas were absolutely sound from a military point of view. She was a whole General Staff by herself.

But Barak backed off from his great opportunity. He would go, he said, provided she would go along. Now Deborah didn't like that. She liked a man who would go out on his own without having to have a lady at hand to tell him what to do. So she went: but she told him the journey would not be for his honor.

That, however, is another story. The point is that this Deborah was a woman so wise that the ablest man in the country at the time was not willing to do anything important without her advice.

Deborah's Daughters

DEBORAH was not the last woman whose wisdom and whose decisions have led men to success.

There are today in the United States women in congress, both in the senate and in the house; a woman is in charge of manpower; at least one woman is a U.S. circuit judge, the next highest in rank below the Supreme Court. There was a woman governor of Wyoming as far back as 1924.

But for every woman who makes the headlines and Who's Who, for every woman who has some official position, there are hundreds of others, un-nominated and unsung, who are known in their homes and in their home towns for their unfailing good advice.

"Ask Mrs. -' is the first thing the neighbors think when something comes up. And sometimes a wise woman's reputation doesn't even get around to the neighbors. Sometimes it is only her family that know how wise she is.

But it is a safe guess that if you took out of our modern life all that women contribute, all the good acts and far-sighted policies that they have thought of first, ours would be a much worse world than it is.

Vou'll discover a lot that you like in this neat, fleet and nimble traveler the first mile you drive it.

Such things as cushions broad and deep - six-passenger room unsurpassed by any car in America – fabrics rich, soft, harmonious.

As you take it through traffic-breast a hill or two-try it out on back roadsyou'll find that you handle Dynaflow Drive* as if you had always used ityour ride is serenely level-and a great tide of power comes surging up as you need it.

This, you will say, is very Super indeed.

But no one-time sample can tell you the deep-down enduring thrill that is yours when you own this great middle series Buick.

How easy it is to park in round-town driving, especially if you have Power Steering.[†]

How relaxed you and the family will feel at the end of a long day's vacation jaunt-with Dynaflow Drive to let you drive at ease on the open road, without the tenseness of clutch-pushing in traffic -plus a Million Dollar Ride to protect the comfort of the family.

That ride is something to talk about. More than a dozen selected engineering features control roll and wander on curves-snub dip and sway before they get past the frame-carry you over all kinds of roads with lullaby smoothness.

And that Fireball 8 Engine-man, what a docile thunderbolt you'll find it to be! Here's a high-compression valve-inhead that really wrings miles from a gallon of gas.

In other words, all the miles you travel in this Buick are going to make you gladder and gladder that you bought it -for comfort, for fun, for thrill and for thrift.

What are you waiting for? Come in and get your sample today.
