### REPUBLICANS SWEEP THE COUNTRY IN THE ELECTION ON TUESDAY

### Although Returns Are Not Quite Party Hope for Majority in Congress

President-elect Dwight D. Eisenhower's landslide victory on Tuesday

gave him the greatest popular vote ever given an American and the number of votes case were the highest total in American history.

The sixty-two-year-old General smashed twenty years of Democratic White House rule with a tremendous personal vote that soared well over 31,000,000. Gov. Stevenson his opponent, received a popular vote of over 24 million. No presidential candidate ever came close to that before—not 31,000,000. Gov. Stevenson his opponent, received a popular viscosity of the steven and close to that before—not even the late President Roosevelt with all his popular appeal and political wizardry. Roosevelt had polied the

wizardry. Roosevelt had polled the previous high for any presidential candidate, 27,751,597 against Alf M. Landon in 1936.

The total for both Eisenhower and Stevenson headed toward the 60 million mark-another all-time record above the previous peak of 49,820,312 in the Roosevelt-Wilkie race of 1940.

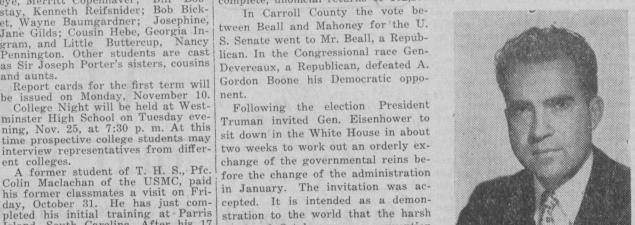

The report Wednesday evening was that Eisenhower was the winner or leading in 39 states with 442 electoral votes, Stevenson in 9 states with 89 electoral votes. Of course the candidate to win the presidential seat needs only 266 electoral votes. Eisenhower's running mate Sen.

Nixon helped in making the victory decisive. In California Nixon's home state a popular vote of over 2 million were reported for the Republicans. This gave the winning candidates 32 electoral votes. In Congress the Republican party will have a majority, although small, in both the Senate and the House of Representatives.

In Maryland the swing to the

winning side was also enjoyed by Republicans. Gen. Eisenhower defeated Gov. Stevenson on the basis of

complete, unofficial returns of 102,203 votes.

At the monthly meeting of the Mayor and City Council this week there were two outstanding items of interest to the citizens of this community. The first was the acceptance of the request of the Taneytown Re-creation Association to take over the park about the first of January. The Taneytown Chamber of Commerce once more enjoyed an outstanding event of the year, spiritually, socially and physically when meeting at the Taneytown High School for its 24th annual Banquet, on Thursday evening Nov. 6. The event opened with the singing of one stanza of "America", directed by Mr. Harry Mohney with Mrs. George L. Harner, Pianist, and followed with the invocation by the Rev. A. W. The Elks Chorus was called upon to sing and they gave three more selections which were beautiful and interpreted so well by the men.

Last but far from the least our Governor, the Honorable Theodore R. McKeldin, was introduced by the President, M. C. Fuss.

The Governor with his wit, humor The Governor with his wit, humor and spiritual insight gave one of the highlight messages of the year. Some lessons from history which the Governor depicted were: 1. Whom the Gods would destroy; 2. The mills of the gods grind slowly: 3. The bee always fertilizes the flower it robs; 4. Whom it gets dork enough you can When it gets dark enough you can see the stars and we have seen the 5-star General enter.

The Governor then related his trip The Governor then related his trip to Israel in April as the guest of their government. He stated that the world has become a neighborhood, and also must see it become a brotherhood.

Then he traveled on to the Red Sea where Moses and the Israelites cross-He said that no matter how dark gets God will deliver His people, and you cannot stand on the banks of the Red Sea and expect God to do what you can do yourselves.

He also visited Jerusalem, Mount of Olives, Garden of Gethesame, Calvary, Jericho and spent Easter Sunday in old Jerusalem. He also followed the path of "via Deloroso," the path of sorrow.

He closed with "create within me a new heart and renew the right spirit within me." Now in America we are experiencing spiritual bewilderment, social and political degeneration and need a day of national humiliation America needs a rededication of the spirit and "I believe under God we are going to have one.

#### THE COUNTRY WINS

Although the Republican Party staged a decisive battle at the election on Tuesday it was a moral victory for, the country. It was and is the opinion of many members of both parties that each candidate for the presidency is of a high caliber.

From the results of the election it is believed that the many votes received by Dwight D. Eisenhower came not alone from the Republicans but from the Democratic ranks and the Independent voter.

Although Adlai Stevenson received the lessor number of votes it should paper like ours, devoting most of its not be said that the reason for this was not entirely against the candidate but principally that many desired a change in the Washington adminis-

In the past twenty years of Democratic rule in Washington many good things were done and no good American citizen can deny it but the change that will take place January 4 is the healthiest thing for this country. It will mean a new and hopeful outlook for the future to many.

Life in general is always appreciated when a change is made, especially if the change is in the form of hope for the better.

#### WHAT WOULD LIFE BE LIKE WITHOUT OUR NEWSPAPERS?

Like Will Rodgers all I know is what I read in the newspapers and I see by them that National Newspaper Week has just passed. I got to thinking what it would be like if there weren't any papers not just the "big City" kind but our kind, which is an invaluable daily memorabilia of the people and things we know.

Someone has said "life's big is made up of a million littles". I like that because we are part of the liveaday, workaday world of littles.

Newspaper people are more conscious than any other human agency of their weaknesses. No one is ever 100 per cent right. Just as we toss bouquets and brickbats, so these symbols are tossed back in our faces. We make mistakes-very stupid ones at times-which bring letters to the editor and all sorts of wisecracks from the readers.

But with all the criticisms leveled at us we have a very strong conviction that something very helpful to the public would be lost if newspapers ceased to print.

Like Rachael in her taunt to Reuben, I've been thinking what a strange world this would be if all newspapers

were on "leave." Business would be adversely affected because stores couldn't advertise.

All kinds of events would have to be cancelled because they could not be announced. People would get married and di-

vorced and have babies, and no one would know about it except their close

Dogs, pocketbooks and jewelry would stay lost because there would be no lost and found columns.

Firms desiring to hire workers would be unable to do so because there would be no newspapers to reach those seeking employment.

Absurd and exaggerated rumors would run rife because there would be no newspapers to publish accurate information.

With only high spots of news broadcast, the populace would know few details of world situations or any other event.

No one would know what movies to go to or what television shows to watch or radio programs to listen to for there would be no programs published daily.

A Yale University scientist has engraving firms, ink wholesalers and described an "atomic calendar" based on Carbon 14 that enables scientists to determine the age of objects as old as 20,000 years. could go on and on concerning life

Edward Deevey, Jr., associate professor of biology and director of the Yale geochronometric laboratory where tests with Carbon 14 are being conducted, said that scientists now for the first time have an accurate method of dating such events as would be without our paper for my and the origin of agriculture. the melting of the great ice sheets

The method is based on the discovery by Willard Libby of the University of Chicago that natural carbon is radioactive. Carbon 14, the radio-active form of carbon, occurs in animals and plants, and after their death disintegrates at a steady rate.

Since the rate of disintegration is known, scientists can measure the age of fossil as well as the geologic or archeologic event that led to its preservation, according to Mr.

The Yale scientist said that Carbon 14 tests at Chicago have already verified past estimates by archeologists of the age of various fossils. Wood from Egyptian tombs estimated at about 4,500 years have proved to be that age when tested by radiocarbon.

#### Most Primitive Insects May Inherit the Earth

Earth's most primitive insects are the proturans-blind, wingless, minute creatures found under bark and in leaf litter. They presumably represent one of the earliest stages in insects evolution and thus are one form of the type of animal which, it has been said, may succeed man in dominion over the

Few kinds of proturans are known to entomologists. They are seldom seen, and when they are noticed they might be mistaken for larvae of some other insect. So obscure are the creatures that the order Protura itself was not discovered until 1907. One of the few species known has just been described by Miss Grace Glance, Smithsonian Institution entomologist. It is the second proturan known from South America, the first from that continent having been discovered 14 years ago. Adults of the new species, about a millimeter long, are dark yellow and covered with a protective shell of chitin.

Sluggish and slow-moving, proturans have three pairs of legs but only two pairs are used for locomo-The front pair is held up in front of the insect as it moves. These legs apparently serve the purpose of the antennae found in all higher insect orders, and are provided with primitive sense organs of touch.

#### Lightning Protection

Lightning protection equipment isn't something to be installed by anyone who is "handy around the house". It should be designed by experts and installed by someone who has previous experience. When it is finished, it should carry the master label from the Underwriters' Laboratories, which certifies approval of its materials and construction. Good protection last year may not be so good now. Some systems are subject to corrosion, and any system that has been in service several years should be checked carefully. Lightning has a particular love for television antennaes. To discourage any romance, home owners should be sure the antenna is well grounded and that an approved lightning arrester is installed at the lead-in to protect the television receiver.

#### Mexico Cotton Crop

The importance of Mexico as a cotton-producing country is becoming more evident each year. 1951 crop, estimated at 1,300,000 bales, was the greatest in the country's history. For 1952, despite severe drought in some areas, the crop is expected to be even larger than the one in 1951. The 1951 crop of 1,300,000 bales was almost 13 times greater than the Mexican crop of 1932. With adequate irrigation facilities planned for 1952, Mexico peak production will be more than 10 times the output of ten years

#### A Hard Life

The life of a divorce court judge is not an easy one. He has to wrestle with the legality and logic of many an odd excuse for cutting the marriage tie. In Milwaukee, for example, Mrs. Leona Reuter accused her husband of turning off his hearing aid whenever she tried to talk to him. And in Brazil, Ind., Mrs. Geneva Pollum called it "the last straw" when her husband cut off her supply of popsicles from the corner grocery.

More Killed Last 1 ... There were 162,800 more persons injured in U.S. motor vehicle accidents last year than in 1950.

"KICK-OFF" DINNER

1953 Campaign for Support of Scouting Inaugurated

The 1953 campaign for the support of Boy Scouting in Carroll County was inaugurated at a dinner meeting held in the American Legion din-ing room on Monday evening, Oct. 20, 1952. This was the annual "Kick-off" dinner which for several years has inaugurated the annual campaign and was called to order by Jas.
Shriver, Chairman of the campaign.
Mr. Shriver requested Father James
Dwyer, pastor of St. John's Catholic Church, Westminster, to offer the invocation. The group enjoyed a fine dinner and shared many scouting experiences since all districts of the county were represented at the din-ner. Mr. Shriver also expressed his appreciation for the interest on the part of those who attended the dinner and his thanks for their willingness to assist in the campaign. Mr. Shriver stressed the volunteer aspects of scouting and emphasized the fact that scouting depends for its leadership on volunteer service by in-terested citizens toward the end that character and citizenship training shall have a favorable influence on the boys of the county. He expressed the hope that the scouting program would eventually reach 1500 boys in the county instead of 800 now reached by the program, stating that new troops, new packs, new leaders and more volunteer personnel were needed in the county neighborhoods. A brief description of the fine work done in the county campaign center at Deep Run, and the facilities which exist there for camping at this time was given. In this connection he stressed the contribution of the Comming ed the contribution of the Camping and Activities Committee, Stuart A. Widener, chairman. Mr. Shriver appealed that workers engage vigorously in the Financial Campaign and bring it to a successful conclusion between the dates, November 1 to November

the current year.

A number of those present were introduced by Mr. Shriver including the Vice-Chairman of the Carroll District, John A. Bankert and the County District chairman, K. Ray Hollinger, Chairman of Finance Committee, J. C. Barnsley and Mr. Ward Parrick who represented the Baltimore Area Council and is the Assistant Executive Secretary. #### Holiday Traffic Accidents Take Life Adeptly as War

Holiday traffic accidents in the last six years have killed half as many Americans as the Korean war, the National Safety Council said re-

The five holidays of Memorial Day, Fourth of July, Labor Day, Christmas and New Year's have claimed 8,936 lives since 1946, while the Korean war death toll currently is in excess of 17,000.

The Council also pointed out that the H-Day (for holiday) traffic toll in the same period was three times that of the Pearl Harbor death toll.

"War is a much nastier business than driving a car, of course," said Ned H. Dearborn, Council president, "and we compare the two only to make the average driver realize that we need an armistice on killing at home, too.

"It is terrible to add up these figures and realize the high price America pays for fun on its holidays. We have a purpose in Korea, but there is no rhyme or reason to the wanton squandering of lives on the highway—especially during holiday celebrations."

### **Band Seeding Method** Improves Alfalfa Crop

#### **Ohio State University** Reports on New Method

Ohio State University reports the development of a band seeding method that points the way to important savings on legume seed, better results from fertilizer, and higher alfalfa yields.

Success of the band seeding method depends on having the seed directly over the fertilizer, but not in contact with it. Then the seedling roots can grab the nutrients and grow. In this method, legume and grass seed is dropped behind the drill, so that most of it is directly above a band of fertilizer drilled in 1 to 11/2 inches.

It is estimated that savings of at least \$3 to \$4 an acre on seeding costs are possible with the banding method.

ference in the picture above. Fertilizer was drilled with the band seeded alfalfa (left). Broadcast alfalfa (right) had no fertilizer.

Agronomists point out that alfalfa, clover and all types of legume-grass mixtures are well suited to summer seeding where the growing season is relatively long. One of the advantages of summer gooding in that pures are now. mer seeding is that nurse crop competition is eliminated during the hot summer months when the soil is comparatively dry.

Any time between late July and mid-August is suitable for seeding the legumes.

Three essentials for sturdy, vigorous growth are: (1) A good seed bed; (2) planting at the proper depth; (3) giving the young seed-lings the nutrients they need for quick, sustained growth.

We notice that for the first time in many, many months mixed feeds for the farmer's stock and chickens has been reduced 4 to 5 dollars per ton by the Southern States Cooperative. Manufactured feeds have been too high for a long time in relation to the price the farmer has been getting for meat, milk and eggs. There must be some way to bridge this gap without put-ting either the farmer nor the grain dealer in the red.

Remember when grandmother used a board to scrub clothes on when she did the family washing? Materials had to be mighty tough to withstand the treatment they received on washday then. We wonder what would happen to modern nylons, rayons and acetate fashions of they were treated

We sincerely hope so, and we trust that the American peo ple will forget the bitterness of the campaign and unite behind the new President. Indeed we have no other choice if we wish to survive at all. For with the ending of this campaign, we must face reality once again. All the problems that faced us before the campaign began are still there-to be solved and no one man can solve them alone. Our responsibility did not end with casting our ballot—that was only the beginning. The new President and his party deserves our loy-alty. He represents the whole Unit-ed States and the United States represents each one of us.

There are twelve on a jury because court astrologers who had charge of choosing juries used to select one man for each of the signs of the Zodiac. The idea was that, because this would bring every type of mind and every type of individual to consider the question, the verdict would be most fair. This theory doesn't hold up in the modern courtroom, where the lawyer to win his case, appeals to the emotions of the jury rather than their

(Continued from First Page) cles-Antique doll bed, antique fans, Your Observer's Book of pictures of our late President Franklin Delano Roosevelt from childhood to his death which I started immediately after his death of collecting pictures of him. (That won a Blue Ribbon 1st award!) That is always the way, Folks after a great man is dead—then the public begins to realize and in years to come he will be considered the greatest man of these times!

There were antique buttons, tea sets, samplers, trays, wash stand plus a lovely set of five pieces for the stand in old times, pictures and stamp col-

lections and many more.

Here's to the Chamber of Commerce around the town! Why not introduce a Hobby show for the purpose to promote social, civic and economic welfare of the little town of TANEYTOWN? That would help in TANEYTOWN it is a grand "get tomany ways and it is a grand "get to-gether". It would also aid the town and make it grow by patronizing the local merchants. It would go over big as I know there are many in and around the town who would have most unusual and rare things as the above for exhibitions.

Many inquiries and letters have come to me asking what my opinion was as to the Grammar case!

On the day of that awful crime,
Your Observer wrote what I thought and placed it in a sealed waxed en-

velope!

It was exactly fitting the almost reference of the state of the s married! The entire thing was very plain to understand for any outsiderone did not have to be a lawyer or Judge to define it all. It was most evident! That murder was planned weeks and even months before! This is another case where the wife refus-ed to consent to a divorce and that is one of the big reasons Your Observer stated several times about divorce— "THERE WOULD BE MORE MUR DERS COMMITTED IF DIVORCE

WAS NOT POSSIBLE"! You cannot revive love when love is dead and it is sinful to live together under a false pretense. Gramma was the most cruel, scheming and artful individual yet his crime" caught up with him!

### Compassion

Lesson for November 9, 1952

ARE Americans becoming bru-talized? Some thoughtful people believe we are. As Dr. Charles T. Leber reports, when his father and mother read the account of

the sinking of the Lusitania back before World War I, they were so upset they could not eat. Now we can read about the destruction of an entire city and go right on eating breakfast. We in America

Dr. Foreman

invented and used the A-bomb and now we conceive the H-bomb. We train men to kill other men with flaming jellied gasoline, with knives, with whatever seems to be most usable and deadly. We kill people on the highways, or we don't do enough to keep them from killing themselves, in such quantities that we don't even read the newspaper reports about it unless some friend of ours happened to be in the smash. If as many people died in your town of polio, or of typhoid fever, as die in accidents, you would all be in almost a panic.

#### A Word We Need

There is an old English word that is not used often nowadays. Maybe the reason it is seldom used is that the thing it means is seldom met with. It is the word "compassion." Literally, it means "suffering-with." When it is said by Matthew that Jesus had compassion on the crowds, it means literally that he knew how they felt, what they needed, where they hurt; and that in his own heart he suffered with them. Their needs were his needs, their pain his pain. That is compassion; but it is not yet the whole of it. There is something more. An artist (let us say a novelist) has to have compassion, of a sort. Many novels and stories have been written, for instance, about bull-fighters, and some of the story-tellers have shown a high degree of imaginative power. You might almost

fancy they had been bullfighters themselves, as to be sure some of them have been. But few if any of these story-writers have done anything to put a stop to the brutal sport of bull-fighting. They feel the tragedy of the whole business yet they do not propose to do anything about it. Compassion, as Jesus felt it, never was a mere emotion. It was emotion harnessed to action

#### Harrassed and Helpless

The Revised Standard Version translates beautifully Matthew's description of the crowds who moved Jesus to compassion. They were "harassed and helpless," he says. The interesting thing is that it took Jesus to see this. Some could see only that there were a lot of people, and they took up a lot of room, and there was hardly room or time for Jesus to eat. Others-the Pharisees-could see only their ignorance: "This multitude that knows not the law is accursed." Others (as was the case with the disciples on a later occasion) realized only that the crowd looked hungry. Well, the people were numerous, they were no doubt ignorant, and most of them were chronically ill-fed. But the point is, the people who saw them in this light did not have compasion, all they felt was annoyance. The crowds were a nuisance. Jesus felt quite different toward them. He saw them as they were, harassed and helpless. You yourself run into crowds, or you read about them. How do they strike you? Do they frighten you, amuse you, annoy you or make you angry? The masses today are very little different from the masses in Jesus' time. Can you see them as they are, harassed and helpless? And does it stir you to do something about it? Then you know something about the compassionate heart.

#### The Inmost Need

There is another important fact about Jesus' compassion. One cannot call it unique, for the best Christians have shared it. He was able to see beneath the surface of things to people's real needs. The young man brought by his four friends to Jesus probably was thinking chiefly about his helpless arms and legs. Jesus looked and saw his helpless soul. The publican Matthew may well have felt sorry for himself because business was bad, or because he was not popular. Jesus' compassion went deeper; he felt Matthew's real need-to get away from the publican business altogether. Compassion goes even deeper than sympathy; it is spiritual interpreta-

# Like your travel with a JOYOUS THRILL?

We have News for a lot of folks who want more fun from driving than they get from their present cars.

There's a trim bundle of eager high-powered energy that's just the ticket for you - a spirited automobile that can give you thrill after joyous thrill, for mile after fleeting mile. Why not come in and try the Buick we have

The excitement starts with your first look at it, your first sitting in it, your first fingering of its slender wheel.

in mind?

But wait till Dynaflow Drive\* begins working its magic-and its constant and complete smoothness fills you with never-ending

Wait till you feel the bubbling exuberance

of taking your first hill with a high-compression Fireball 8 Engine doing the honors. That's when you get a man-sized sampling of the tremendously able and instantly responsive power you command here.

Wait till you feel the serene satisfaction of skimming over rough roads, cobbles or ridged crossings. That's when you know, better than words can tell, what a million dollars' worth of ride engineering can do in the way of magnificent comfort.

Wait till you jockey into a real tight parking space and note the fun and ease that Power Steering\*\* brings to a once-tough job.

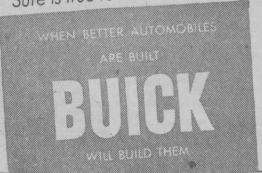

But—why wait?

There's a Buick that can do all this - and more, far more - all ready for you to try it. And listen: If you can afford a new car, you can afford a Buick.

How about coming in this week for a real sampling of this joyous travel?

The world's first Christian Western film will be shown at the Taneytown Evangelical United Brethren church, Evangelical United Brethren church, this Sunday, Nov. 9th, at 7:30 p. m., and the name of the film is "Mr. Texas." This film is the first major production of Billy Graham Evangelistic Films, Inc., and features the young evangelist and his evangelistic team. The leading roles in the full length color picture are Redd Harper and Cindy Walker, both professional western stars who have recently made their decision to give their lives and talents to Christian service.

Cindy Walker is playing the part as Kay Tyler. She left her home in Waco, Texas, and started on the carreer as a singer. She took to Hollywood some of her western songs and twenty minutes after arriving she was seated in Bing Crosby's office selling him on the idea of recording her.

twenty minutes after arriving she was seated in Bing Crosby's office selling him on the idea of recording her "Lone Star Trail." The "Western Music Magazine" has given her the title of being "the true queen of hill-billy song writing." She won a place with the western players in Holly-wood and she tailored many songs to fit the scenes of western pictures. She also operated her own studios and taught vocal lessons in that city. It was in 1951 that Cindy took the stand for the Christian faith and work which in the end she took the leading part in "Mr. Texas" under the direction of Dick Ross.

Redd Harper, a cowboy of the west, took the role in this picture of just being himself. He too took parts in Western pictures which are shown to the world, but at one of Billy Grahams meetings he made a decision likewise to do real Christian work for God. He began in 1948 to broadcast the "Redd Harper's Hollywood Roundup" over the network from California that touched the service men of our country. This program has still remained on the network in the west He holds the number two spot in the mail response in the entertainment world. But he has a wife and a son. world. But he has a wife and a son. He still is broadcasting and is doing much work for the Christian cause by speaking for the different events. His favorite expression is, "I just love the Lord."

favorite expression is, "I just love the Lord."

"Mr. Texas' has amazed the religious leaders and the motion picture authorities alike for the great number of people it has touched in its showing. At the film's preview in Hollywood Bowl on Oct. 1, 1951, a record throng of 25,000 persons jammed into this huge amphitheatre for the largest attendance of any motion picture ever.

The Gideons International of the Delmardic States (Delaware, Maryland, and District of Columbia) are holding their annual State Communications of the paper to read each week. So thanks a lot if you will send it to my new address. Yours truly
