In the chill of the fall afternoon and beneath skies that were beclouded and threatening, the corner-stone of Grace Evangelical and Reformed Church Parish House and Educational Building was laid on Sunday as part of a ing was laid on Sunday as part of a special well-attended, one hour service which began at 2:30. The congregation was a sunday as part of the sunday as pa gation was very happy that the affair could take place outside as scheduled, inasmuch as there had been doubt and concern in the minds of some in view of the fact that there had been a period of several days of rainy and unsettled weather which preceded Sunsettled

The service, which was in charge of the minister, the Rev. Mr. Morgan Andreas, took place from a small platform which had been constructed on the southwest corner of the building in process. The minister and the guest speaker of the day mounted the platform while the pianist, Mrs. Romaine Motter, just inside the door of the present building, played the prelude, "Christ is Made the Sure Foundation". Following the Call to Worship and the Solemn Declaration, the assembled congregation in which the assembled congregation in which were also members of the other con-

were also members of the other congregations in town sang, "The Church's One Foundation".

Following the reading of the Holy Scripture found in the 96th Psalm and the Prayer of the day, the Chapel Choir, under the direction of Miss Margaret Shreeve, sang "Come to the House of the Lord" by Clark as it stood before the Senior Choir on the side entrance porch of the church. It was then that the President of Potomac Synod, the Rev. J. Edmund Lippy, Minister of St. Paul's E. & R. Church, Westminster, addressed the assembly with the sermon which was based on the words, "It is good for us to be here", found in the Gospel according to St. Matthew, Chapter 17, severse 4.

BEST FOOT FORWARD

Some interesting statistics have turned up the suprising news that the average person walks more than 200,-000 miles in a lifetime. And did you know:

The average woman walks 11 miles in a day's Christmas shopping. In a day's plowing a farmer walks

25 miles. A school boy at play-15 miles.

A doctor-18 miles. While the thought of all this walk-

ing makes us feel physically tired, we are inclined to click our heels and salute the source of the information, the Brown Shoe Company of St. Louis, one of the country's oldest shoe manufacturers which this year celebrates its 75th Diamond Jubilee Anniversary. And by taking Buster Brown from a cartoon character in 1904 the company gave a come-uppance to John Greenleaf Whittier who wrote those famous lines, "Blessings on thee, little man, Barefoot boy with cheek of tan!"

The ordinary shoe has come a long way-from the papyrus sandal of Egypt, the knee boot, the Colonial low-buckle, the 19th century high-button, to the modern platform,

Considering that a large part of the human race wore no shoes as late as 1600 A.D., you can see how far we've progressed since we began to walk on sole leather.—National Industrial News Service.

GRASS ROOTS OPINION

JEFFERSON, OHIO, GAZETTE: "For many years the stream of American life has been polluted by the doctrines of socialism. Its allure disguises its real philosophy, which is Communism."

WYNNE, ARK., PROGRESS: "If the United States were one of the Red dictatorships the losing candidate and his supporters would have been "liquidated' by this time, unless they had been lucky enough to get across the frontier ahead of the winner's hatchetmen. Fortunately, that is not the American way. Harsh words spoken in the heat of the campaign already have been forgotten. Real statesmen have never been 'sore-heads', and all of them are now working together to promote the interests of our country".

AFTON, WYO., STAR VALLEY INDEPENDENT: "The people have made their protest and it has been recognized. Now it is up to the new officers. They face a terrific task, much like that which the physician faces when he is brought an accident victim with two broken legs, a fractured skull, internal injuries, along with shock, and told to fix him up."

NEWBERRY, S. C., OBSERVER: "Free and individual thinking is one of the privileges we have by being citizens of the United States of Amer-

BOWDLE, S. D., PIONEER: "Let there never be again a time when security is put above the constitutional rights and we are lulled to indifference by a false sense of the importance of prosperity."

MAKE HER ETERNALLY HAPPY .

with an Electric

 To the woman in your life, with the responsibility of homemaking, gifts that shorten the time and lessen the effort demanded by household tasks are especially welcome. This Christmas show her you care with a gift that will

remind her for years to come of your love and thoughtfulness —an electric gift. An electric gift, such as these shown, will save her many, many hours of back-breaking labor and turn the heavy homemaking hours into light joymaking hours.

WATER HEATER AUTOMATIC WASHER DRYER IRONER ...

> ... all **ELECTRIC!**

To realize the carefree dependability of her hot water supply with a modern electric water heater will truly make her eyes light up this Christmas. An automatic electric washer will take her hands forever out of hot - hard - soapy water.

She'll especially enjoy

an electric dryer for drying her clothes sunshine fresh without ever stepping out of doors. Her ironing time will be cut in half with an electric ironer—fast and easy to operate—for ironing everything from shirts to sheets.

HEALTH AUTHORITIES AFTER CANNERY

Improvements ordered at the B. F. Shriver & Co. cannery near Westmin-ster, are expected to result in the elimination of a town nuisance which many have described as a "health

Health authorities announced they have ordered the improvements at the canning plant where stacks of Mrs. Harry I. Reindollar. fermenting vegetable matter near the city limits have aroused protests from nearby residents.

During periods of warm weather, according to residents, offensive odors from the fermenting materials periodically swept through practically every section of the town.

The improvements ordered health officials also are meant to prevent contamination of streams in the area

One of the orders was for an impermeable base under the stacks of vegetable matter before next year's canning season. If the company chooses not to make

Self-Raising Gate

When this unusual stock gate is unlatched, the end automatically will rise several inches off the ground enabling it to clear rocks, snow and other obstacles. If provided with two latches, one mounted a distance above the other, the gate may be left closed and in the raised position to provide a creep for smaller animals while still confining the larger ones. It is constructed and strung with barbed wire.

MINSTREL SHOW

The C. E. Society of Grace E. & R. church, Taneytown, will present, at the Taneytown High School, on Dec. 3 and 4, a Minstrel Show that promises to be truly outstanding, different, and a show that you cannot afford to

The show is entitled "Minstrel Pa-

rade", and is written by Charles George. It covers the period 1843 through 1890. The first part of the show is a portrayal of the original Virginia Minstrels which were created and presented by Billy Whitlock, Dan Emmett, Frank Brewer, and Dick Pelham. Their period was 1843 to the Civil War. The show enters the Civil War period with an operatic presentation of Harriet Beechers Stowes'
"Uncle Toms' Cabin", followed by a
Minstrel rehearsal which depicts the emotional conflicts of those hectic Civil War days when this great nation of ours came very nearly being torn apart. Out of the terrible strife, however, emerged a newly united na-tion dedicated to the proposition that all men are created equal. Along with the thankfulness and the solemnity School enrollment 315.

What Makes Right? Lesson for November 30, 1952

WHAT makes right, right? It cannot be determined by counting votes. The voice of the people is not necessarily the voice

Even if everybody in the world did exactly what is right (which has never happened in this world yet) it still would not be right merely because they all did it. If "right" meant nothing more than what everybody does or what most people do, then right would change as often as popular opinion changed. It would change with the climate, with the calendar. But right is something more enduring than popular opinions, customs or enthusiasms.

* .* *. Does "Right" Mean "Legal"?

Another notion of what it is that makes right, is Law. If it's legal it's right, if it's illegal it's wrong. But haven't we

often heard the expression, "There ought to be a law . . . "? The person who says that means that there is something which is right that isn't legal; he wants a law to match what is right. Or

again, laws are sometimes repealed. But no one would ever vote to repeal a law if he didn't think the law was wrong. Good men sometimes repeal laws; but no good man ever wanted to repeal "right."

There is a variety of this idea which has more truth in it: namely, that right is the same thing as the law of God. But God does not make acts right or wrong simply by ordering them to be so.

Could God have said, Thou shalt kill, thou shalt bear false witness? Could he have said, Thou shalt hate thy God and hate thy neighbor? Of course not. He could not have made up such nonsense-laws, such wicked commandments, because he is not that kind of God, for one thing, and for another thing because if he did,

it would have meant the destruction of the human race. Although right, and the will of God, are really the same thing, yet an act is not right because God wills or commands it because it is right.

How Jesus Looked at It

How did Jesus our Lord stand on this question? What made a thing right, for him? He got into trouble with the lawyers of his time, and he got into trouble with what we would call D.D.'s and prominent preachers and professors of theology (the Pharisees); they called him "bad" and had him executed accordingly.

So there was evidently a difference between his way of looking at "right" and their way. It was precisely on this point that they split. Jesus tried to make clear, though the Pharisees were too blind to see it, that the Sabbath law, any law of God or good rule of man, is right and good only in so far as it promotes the welfare of man. This is not setting up man above God, for God is man's Creator. Right is what develops God's children; wrong is what stunts, deforms, defeats and destroys them.

To put it in another way: The test of right and wrong is always this: Will this thing make people better and make better people? If so, it is right. All our laws, institutions and interests must be brought to the test of their effect on human welfare. And of course, in Jesus' view, the welfare of man includes social, spiritual and mental well-being and growth, not physical health and financial wealth alone.

Liquor and Welfare

This being Temperance Sunday, it is a good time to think about the liquor traffic in the light of all this. Think it out for yourself. Remember, alcohol is a habit-forming drug, and all talk about liquor cannot erase that very plain fact.

Now think about the whole busi-

ness of making it, glamorizing it in advertising, selling it and using it. Look around you in your home community, and in our nation at large, and ask: Does it bring more benefit to people in your community than it brings harm? Is the purpose of the business human welfare?

Ask the welfare agencies in your community-the Red Cross, the hospital, the agencies that look after the poor, the orphanage, and so on-ask these people: Does the liquor business make your work easier? Is the liquor trade the ally of the public school and the church? Does it make better citizens, better Christians? If it does, and only if it does, then as a Christian can you call it right.

Purina Laying Chows now research-formulated on the HIGH-EFFICIENCY PRINCIPLE

High efficiency simply means that the formula is designed with more digestible energy ingredients . . . and with less fiber. So there's more actual, usable feed in every bag. Thus, your birds eat less to make the same number of eggs you used to get on lowerefficiency rations. You can see how this may lower feed cost per dozen. HOW, TO MAKE FUN GIFTS OUT OF PRACTICAL ONES

By ANN GARY-ANS Features

WITH A BIT OF WIRE, some Christmas wrappings from last year, a few cones or other props you can find around the house, you can make a flesh brush into an amusing Santa Claus, a men's hair brush into a snow man and a lady's hair brush into a ballet dancer. It's really quite easy and you'll make a practical gift amusing

and fun to receive, by following these suggestions sent to us by Stanley Home Service.

TO MAKE THE Santa

Claus cut out two strips

of Christmas wrapping

-about ten inches long

and two inches wide. If

you have pinking shears you'll give the trousers

an extra flossiness Work the strips so that they fall over the handle of the flesh brush and disappear around

the back of the brush itself. Two red candles

Above, a flesh brush is used to create an

make wonderful arms and will stay on if you wind the bottoms with string and then wind the string through the brush at the spot where amusing Santa, a men's hair brush for a Snow Man, a lady's hair brush for a Ballet the brush goes in. Now work some cotton into the bristles and shape into a nice long beard. A small piece of red stiff paper can be folded into a nose and inserted into the open space in the top half of the brush. Top Santa with red hat held

on by pins and put some eyes on the same way and you have a merry old gent. MR. SNOWMAN is still easier to make. All you have to do is

make a hole in a tennis ball and work the ball down over the handle of the brush. Paint a face on the ball or glue on three buttons at a rakish angle. A bright dunce's cap does well for a hat. A bit of string will hold his cone arms on. If you want to whiten the bristles just run them across a bar of white soap. Then put some buttons on with straight pins. MISS BALLET DANCER is made in much the same way except

a plastic spoon has been fastened on to the brushes to look like a head. Cone arms are wound on with heavy thread or string. And a bit of tissue paper makes an appropriately fluffy skirt. And if you want to hang your tree with something practical for each member of the family cut out angel wings and attach

ith string or scotch tape to the backs of toothbrushes.
