My Dear—you should have no trou-ble at all with that part as there are so many delicious frozen vegetables or greens on the market today and in every grocery store and they are so easily prepared. Just follow directions on the package. Have the potatoes peeled in the morning before you go to your office and place them in cold water and in the evening always put them onto boil in very hot water. That is quick and most economic as to gas or electric stoves. Always serve meat once daily and if it must be quick broil or if you desire ground beef and always get the top choice for that. You can have your dessert ready too and let it be Orange Jello. Place public schools. And this from a fine old Gentleman, (from a little town) Dear Mrs. Ob-server:-You have helped others in this column and I wonder if you could help me? I am past 70 years of age and the father of seven children. I would like to live in a nice refined boarding house as I can pay my way as my children are all good children but they do not have room for me in their homes. Signed—Lonely. Lonely, I am sorry that in all those seven homes there is no door opened to you. Yet you still think (just like all other parents) that your children are fine. Thank God, Lonely that you still can pay your way at your age. Why not go away first for a little trip just say for a change of scenery until ou decide what and where you would like to live. "THE WORST THING THAT CAN HAPPEN TO LABOR"

On many occasions, labor leaders have denounced the profits earned by industry-saying, directly or by inference, that these profits amount to a species of robbery, with the working people the principal victims.

Happily, that attitude is not universally true, as an editorial in the August issue of The Electrical Workers' Journal attests.

The editorial began by quoting Samuel Gompers, one of the great labor leaders and organizers of all time, as saying: "The worst thing that can happen to labor, is for the employer not to make a profit."

Then it continued: "It's still the right, the just, the honorable thing to 'give a good day's work for a good day's pay,' and when any member of organized labor forgets that, he is stealing, whether his conscience tells him so or not.

"We of organized labor earnestly desire labor-management cooperation. We want free collective bargaining. Well, we must never forget for an instant our part, the labor part of labor-management cooperation. We must have the employer's interest at heart, if we expect him to have our interests at heart."

This is the attitude that, in the long run, will do more to advance the welfare of labor than anything else. -Industrial News Review.

SOCIAL SECURITY

Self-employed persons over age 65 who have retired during 1953, or expect to retire before January 1954 would do well to consult with their social security office or itinerant station before the end of September, accord-ing to Mr. Franklin M. Barnes, manager of the Baltimore (North) social security field office. In some cases, Mr. Barnes indicated a delay in filing an application until the last three months of the year may result in some-what lower monthly old-age insurance payments. But, he emphasized, the problem is limited to only a few of the self-employed persons retiring this year, and does not at all affect individuals who intend to continue oper-ating their businesses after this year. Social security payments are tied in to the individual's average monthly earnings over the years since 1950 when social security coverage was exearnings are figured by dividing the total earnings covered by social se-curity by the number of months elapsing after 1950. Since, under the law, earnings from self-employment are reported and counted only once a year -after the individual has filed his in-come tax return-the 1953 earnings of a self-employed person filing this year cannot be counted in figuring his

average earnings. If application is made before the If application is made before the end of September, the situation is eased somewhat by the fact that un-der the law a period of up to six months before the calendar quarter in which the application is filed may be ignored in the calculation of aver-age earnings. This means that the individual's total net income from self-employment for the two calendar years, 1953 and 1952, will be divided by a corresponding 24 months. If apby a corresponding 24 months. If ap-plication is filed after September, however, the same total net income in most cases must be divided by 27 months. Therefore, Mr. Barnes sug-gests that self-employment persons who have retired this year or plan to retire before January visit the social security office or itinerant station be-fore the end of this month. Members of his staff will be glad, he said, to discuss with each the advantages of his filing during this month or waiting until later

"ACCIDENT FACTS"

The casualty list for 1952-96,000 killed and 9,600,000 injured! That isn't the Korean war toll. It's

the nation's accident totals for last year announced by the National Safety Council.

"Accident Facts", the Council's statistical yearbook, which is just off the press, shows that one person was injured accidentally every three sec-onds during 1952. Deaths from acci-dents occurred at the rate of one every five minutes five minutes.

During the year, motor vehicle ac-cidents killed at the rate of four per-sons per hour and injured at a rate of 150 per hour.

Building costs up 50 per cent in three years? My home and household

Yes, Uncle Joe, it's a fact and there are many more folks like you. It will pay you to check your 🚿 fire insurance now in the light of today's increased values. We'll be glad to help you with this

What this country needs, according to Senator Frank Carlson (Rep) of Kansas, is five-cent postage. The Senator, as chairman of the Senate Post Office Committee, and also head of an advisory group studying the Post Office Department, says that his students may recommend that Congress boost non-local first class postage from 3 to 5 cents. This, he thinks, would boost postal revenue \$330,000,000. And in loosing this trial balloon at this time, he is probably trying to find out also how much it would raise the public bloodpressure.

For five cents, he points out, we would really get some grade A service. For one thing, letters going more than 400 miles would be flown, which would, in effect, he says, practically do away with the present six cent air mail rate.

But it seems to us this would also, in effect, mean a reduction in the air mail rate and elimination of normal service. And since air mail at six cents still requires subsidy payments, we don't see where that extra \$330,-000,000 is coming from. As we pointed out a few weeks ago in these columns, the railroads are now hauling your mail at one-twentieth the cost per letter that the airlines receive.

And at five cents a' letter, who could afford to fall in love ?--- U. S. Press Association.

GRASS ROOTS OPINION

OKLAHOMA CITY, YE TOWNE CRYER: "Anyone who watches the legislature or the Congress closely knows that there is far too much of 'you vote for my bill and I'll vote for yours.' A new pressure group is needed badly-a pressure group which has no interest except in the people as a whole."

EL DORADO, KAN., TIMES: "For many years, the public generally has been told that there was no way for taxes to go except up. Some rare and remarkable officials here and there. and on occasion, are discovering that taxes also can go down The reasonable conclusion in the matter must be 0. The president of the Maryland Press Association, Norman W Har rington, publisher, Easton Star-Dem-ocrat, is busily campaigning to keep the channels of news free from consor by public officials in the state. MPA has three times adopted reso lutions calling for a law which would require that meetings of county com-missioners and similar elective and appointive boards be conducted in

Finding a sympathetic friend in the Maryland legislature in Senator L. L. Goldstein, who has proposed such a law, Harrington wrote him a letter "We agree with you that it is vital

to the preservation of our system of government that public officials con-duct the public's business in public. An informed citizenry is the very core of our concept of democracy. Passage of adequate preventive legislation in Maryland will do much to preserve for the people one of their met the people one of their most precious rights-their right to know.'

"I can tell I don't have TB because I don't feel sick." When you hear anyone make that statement, speak right up and say, "It isn't true.". Tuberculosis is an insidious dis-

ease. A person may feel perfectly well and yet have the disease in its early stages.

By the time the familiar symptoms of TB appear on the scenecough, fever, night sweats, and loss of weight—the disease has probably been at work for some time and curing the patient may be a long and difficult job

TB found early is relatively quick and easy to cure. Before long, the patient is out of the hospital, back

home, and back on the job. How can you tell whether or not you have TB? There is one sure way—a chest X-ray. Every adult should go to his doctor

for a physical checkup and a chest X-ray once a year, oftener if there is reason to suspect that he has been exposed to infection from an active case of TB. The eye of the X-ray can see beneath the surface. With this and other scientific tests, the doctor can discover tuberculosis before there are any obvious outward signs of the

MY FAVORITE'S THE AUTOMATIC WASHER-

I'm a busy housewife with quite a family to care for. My automatic washer gives me lots more leisure time for all I have to do is set the dial, then go about my other chores while the family's soiled clothes are washed, rinsed bright and clean and spun nearly dry.

For years and years I had been hauling soggy, heavy clothes up the cellar stairs and out to the clothesline. It was a pain in the backliterally! Then my next-door neighbor, a new bride, showed me her modern new electric dryer. After seeing the speedy job it did in all types of weather, I got one. Now, I wouldn't be without it. Rain or shine, day or night, I can dry clothes indoors, with no clothes line, clothes-pin or weather worries

Designed for a time-of-your-life party-our Barbecued Corned Beef Hashburgers. They are easy to cook, attractive to serve and the proof of it all is in the eating. It's a one-tray meal in keeping with modern ranch house living. Let the man-of-the-house carry it triumphantly to porch or yard for popular outdoor eating. It will match the appetites of good neighbors assembled for impromptu cat-togethers get-togethers.

Menus which include foods that can be arranged on one large serv-ing platter or tray are most suitable for transporting to a cool, breezy dining spot. The hashburgers, on toasted buns, are prepared with a minimum of time and effort. Food trays need the impact of color and here it is in the sparkling green of fresh or frozen string-less beans and the relish garnishes.

FEESERSBURG

On Tuesday, Marylanders under-went an air-raid test, but while they practiced hiding from an atom bomb their thoughts were not on possible obliteration by atomic energy. They were wondering if they might not be destroyed by lack of economic energy. There is no use denying that there is a growing feeling of apprehension about falling farm prices, high in-terest rates, a jittery stock market and the laying off of thousands of workers. People are becoming cau-tious in spending their money and

when Americans stop flinging their money around its time to ask why. A depression is still a bogey man to all that earn a living and have a family to support. As yet there seems to be no concrete evidence of a depression in the making. In fact there are a great many things that point to the contrary. There is one assurance the people have today that wasn't forthcoming twenty-five years ago-it is the willingness of the Federal government to step in when private industry bogs down under its own collosal weight. But industry today fears a depression as much as the working man and will do all in its power to keep a fully employed economy. There is a certain amount of readjustment to be made in all groups. Business must reduce prices, labor should ad-just wages to the cost of living and

farmers must learn to produce ac cording to the needs at a reasonable price to the consumer. Each of us can

Greenmount evened its South Penn League Shaughtnessy finals series by beating Taneytown 9 to 1, Sunday A home run barrage off lefty Charles Jnger, last week's winning pitcher, rocketed Greenmount to a victory over Taneytown. Their defeat sends the teams into a third and deciding con-test Sunday for the South Penn League Shaughnessy championship. The game will be at Taneytown where last Sunday opened the best-of-three series with a 2-0 triumph. Taneytown, which wound up with six hits and an error, spoiled John Fissel's whitewash red with an unearned tally in the eighth. Greenmount spanked Unger for a total of 16 hits. CLASS MEETS The regular meeting of the Graceful Workers Class was held at the home of Frances Stonesifer, on Sept. 17 with 16 members present

The meeting opened with the sing-ing of Rock of Ages. The hostess read Psalm 113 followed by prayer by Doris Stonesifer. The group sang the following songs

"Juanita, Wait for the Wagon and a Spanish Cavalier." Jean Harman conducted the busi-

ness meeting. The minutes of the last meeting were read and approved; also

the Treasurer's report. Discussion was held and tentative plans were made for family night at the Parish House on October 13th. The class would have charge of the

tables A short program followed the business meeting. Anna Motter rendered a piano solo; followed by a vocal solo by Marian Rue. Jean Harman gave

a very interesting reading. Several games were played and prizes were won by Geraldine Cluts and Freda Lambert.

THOUGHTS FOR THOUGHT

A man assuming authority Loves to flaunt about, Saying to those under him, "It's better that you get out."

Too many women are poor apprais-ers as to the length of time it takes them to dress.

The fault-finder burns out his own soul and endeavors to spread the fire that other souls may be burned in the conflagration.

Stupidity is to be detested wherever found, that is, the acquired type.

Progressive Education! "Well, Bill, (a fifth grade boy) sup-pose you are working hard today?" "T'm not doing much, I've been at high school nearly all morning". "Checking up?" "No, watching movies".

Delbert Clark, of the Fund for Adult Education, "feels that our schools are failing in their efforts to teach students to think, with the unhappy result that the average adult

today is poorly equipped to participate intelligently in civic affairs. "Clark believes that our public schools should inculcate within the students a fervant enthusiasm to con-tinue to educate themselves the continue to educate themselves through-out their lives."

"A small boy showed up at a doc-tor's office. He had a note from his mother. The note read: 'Dear Doctor: Please will you do something to Wil-lies face. He's had it for sometime and It's spreading.'"—The Pelican.

A placard on the side of a building on Wells Street, Chicago: "Mom and Pop when kids are lit-tle teach them safely instead of rid-dles."

"Where are you?" Gen. 3:9 (RSV) "A married couple that never quar-rels is usually a dull pair. A quarrel has a 'tendency to brighten the flame of love. As Tennyson put it: 'Bless-ings on the falling out that all the more enders. When we fall out with those we love and kiss again with tears'. However, quarreling can be overdone. It should be brief. No lovers' quarrel should last over three minutes. During the first year of minutes. During the first year of minutes. During the first year of marriage quarrels should be limited to four minutes. After six years of marriage eight minutes is about the right time for a quarrel. Those mar-ried that long have more to quarrel about, more to get off their chests. Besides a good quarrel gives the wife a chance for much needed emotional release. It is unfair for any husband, who has been married six years or who has been married six years or more, to leave the room during a quar rel and slam the door as he goes out before eight minutes have elapsed."— E. V. Durling's rules for Fighting With Your Wife.

Are you really sure that the car dealer who gives you "the best deal in town" really gives you the best BUY in town?

As you well know, the best BUYS are based on value.

Because value lasts longer than any other quality-and, in automobiles, that means longer motoring pleasure, greater safety, lower upkeep, and a better trade-in allowance later on.

The new Packard CLIPPER has made news all year long as "the buy of the year." Way

back last winter, the "insiders"-men of recognized automotive experience and instinct-tagged the CLIPPER as the car of the year in the medium-price field. A real, old-time PACKARD value.

You know very well that you never bought an automobile right off the printed page. You bought it ONLY after a demonstration when features either come to life or amount to nothing.

So we urge you: before you take that "best deal in town" ... take a demonstration in the new Packard CLIPPER and value-check the features with which we challenge all other cars!

Did you know that you can own a new Packard CLIPPER for as little as

bad combination. A Christian owner and a pagan slave, or the other way around, would not be a good combination. But when they were both brother-Christians the whole relationship would be different. Once Christianize master and slave, and the end of slavery was in sight.

What Christian **Brotherhood Is**

People talk of the brotherhood of man; but the brotherhood of Christians is a higher brotherhood, indeed the highest possible. Christians recognize in one another not simply that they are all human, which is true enough, but that they are all Christ's brothers, they accept God for their Father-which goes much deeper than singing about him. Accepting the brotherhood of man, one can look at any man anywhere and think: He too is a man as I am; we belong to one race. But accepting the brotherhood of Christ, one can look at any Christian anywhere and think: He too is a man for whom Christ died as he died for me; we' belong to one family. How deeply this enters into the heart, only Christians who have begun to realize this kind of brotherhood can know.

The next question, then, is: Who can you trust most?

We Ford Dealers are established business men with large investments at stake. Our business reputation depends on every business transaction-whether it is a new car sale, a used car sale or a service operation.

We want your used car business, and some day we

hope to sell you a new car or another used car. And we want your service business, too!

"But," you say, "granted that you Ford Dealers have reputations to uphold, granted that your mechanics and service facilities make it easier to put your used cars in good shape-how do you compare in price?"

Let us give you some facts and the answer will be obvious. Ford Dealers handle used cars and trucks as a service to customers who trade them for new cars. When we get overloaded with trade-ins, our capital is tied up. Like everyone else, we have to pay our bills. So we must always offer used cars at rock-bottom prices to keep things moving.
