## CHURCH EVENTS

### Societies Presenting Fine Programs

#### CONGREGATION OBSERVES FAMILY NIGHT

Grace Evangelical and Reformed Church celebrated National Christian Family Week, as the Churchmen's Brotherhood and the Women's Guild held their meetings for the month of May simultaneously as they observed family night on Thursday evening with a covered dish supper in the dining room of the parish house.

About 85 people were in attendance for the annual occasion which began with the singing of the Doxology as the hymn of grace, as they were accompanied by Miss Alice Rue. Following a very delightful and satisfactory meal there was presented a program of which Mrs. Carel Frock served as mistress of ceremonies.

Mr. Leonard Reifsnider, accompanied at the piano by Mrs. George Motter, gave a musical recitation, "Food for Gossip", following which Barbara and John Reinhardt presented a piano duet, "Consecration". Two vocal solos, "For My Mother" and "The Desert Song" were rendered by Mr. Henry Reindollar accompanied at the piano by his father, Kenneth Reifsnider accompanied by his mother at the piano rendered the cornet solo, "The Old Kentucky Home", after which two vocal duet members entitled "Just a Cottage Small" and "An Old Fashioned Garden" were given by Mrs. G. Emerson Rue and Mrs. S. Harley Holter. They were accompanied at the piano by Miss Mary Alice Rue.

The speaker of the evening was Mrs. Gladys C. Wimer, widely known lecturer and traveler from Westminster. As she went to Germany several years ago she was the first Carroll County woman to fly the Atlantic Ocean.

Her address of the evening dwelt primarily on South America and particularly on Venezuela where last December she visited her son, who as an officer in the army is there as superintendent of the cavalry for the army and is in charge of 800 horses and 19 polo ponies.

The speaker remarked that Caracas is truly the fabulous city of the world. It is an old city made over where the population comprises the extremes of rich and poor and the military. She said that most of the people are not yet ready for the modern and progressive program set forth by the president.

She described and spoke very interestingly concerning their night life, bull fights, horse races, county fair, architecture, shopping, churches, the American Church which is interdenominational and Christmas eve. She mentioned only a few of the pieces of things such a 1 apple cost 68c, a head of lettuce was \$1.12, a half pint of cream was \$1.20 and the brown and serve rolls were 85c a pack.

Everyone was very attentive to her most interesting remarks and indicated their appreciation by a hearty applause, after which Mrs. Murray Baumgardner, Mr. and Mrs. George Motter and Mr. Delmont Koons sang the anthem, "The King of Love My Shepherd Is". They were accompanied by Mrs. Leonard Reifsnider.

Rev. Morgan Andreas made several brief remarks after which Mrs. Frock most graciously thanked all those who shared in any way in making the evening one of satisfaction and delight. The evening came to a close as all united in singing "Blessed Be The Tie That Binds".

Mrs. Romaine Motter, Mrs. Franklin Baker and Mrs. Ellsworth Lambert constituted the kitchen and dining room committee chairladies, while the chairmanship of the program committee was shared by Mrs. George Motter and Mrs. Carel Frock.

Prayer was offered by Mrs. Lulu Shirk. Mrs. Maxine Bowers and Mrs. Betty Naylor favored the society with two beautiful duets, "In the Mission of St. Augustine", and "Let The Sun Shine In."

Others taking part in the topic, "Why I Am a Lutheran", were Mrs. Charlotte Bollinger who answered the question, "What is the Holy Spirit?" Miss Pearl Bollinger, How do you regard the Bible? Mrs. Betty Sell, Can you Make up for your sins by the good that you do? Mrs. Martin Zimmerman, If you cannot earn your way to heaven, why do good? Mrs. Benjamin Cutsall, What do you think about Missions? Mrs. Elizabeth Etzler; Is it necessary to be baptized? Mrs. Louise Riffe; What Is Meant by Eternity? ## BOY SCOUTS ACTIVITIES PLANNED

### Paper Collection on Saturday, May 14

The third spring collection of rags, magazines, paper, and iron will be made Saturday, May 14, by Boy Scouts and Explorers of Troop 348, Taneytown, and with the continued support of residents of the town and surrounding area it will be another big one. This time the Uniontown road also will be thoroughly covered. Proceeds from these endeavors add to funds now being raised to get under way the meeting room building project of their sponsor, the American Legion, who have almost completed plans as to its location, by special arrangements with the Mayor and Town Council.

#### AWARDS PRESENTED

As a result of the recent Board of review conducted by Francis E. Lookingbill, committee chairman, second class badges have been awarded to James Hemler, Jr., Donald Sharrer, Charles Turner, III, and Larry Weishaar, while the coveted First class rank was attained by Ronald Hopkins and John Myers, Jr. Swimming merit badge also was earned by Hopkins, while a candidate button was presented to our newest member, Ronald Putman, of the Fox patrol.

#### EXPLORER ACTIVITIES

Following hard upon the heels of their very successful high school dance to music by the popular Keymen of Hanover, Explorer members next carried out another pet plan of theirs under the leadership of Adviser Stanley F. Frock and Assistant Robert L. Bowers. It was an overnight fishing trip to the confluence of the Monocacy and Potomac the week-end of April 22-23. Also camping out with their leaders were George Abrecht, William Abrecht, Jr., Wilmer Barnes, Jr., Charles Becker, Philip Garrett, William Pittinger, and Harold Slaybaugh. They are now preparing to lend a hand in the building project, when the call for labor volunteers is issued, and plans are in the wind to take part in the camporee at the Wayside park near Westminster May 20-22 especially because of their interest in archery.

#### SCOUT OVERNIGHT

The Boy Scout member of the troop got in their fishing too when they spent parts of three days at "Natural Dam" Pennsylvania, Apr. 29-May 1, under the leadership of Scoutmaster Thomas and Assistant explorer adviser Bowers, Richard Airing, James Hemler, John Myers, Ronald Putman, Donald Reaver, Edward Reaver, Donald Sharrer, James Tracey, Charles Turner, and Larry Weishaar made the trip, which ended with the attendance of mass and Sunday School on May 1. Hemler and Myers laid a "lulu" of a trail for neophytes Airing, Donald Reaver, and Tracey to follow, and Edward Reaver completed his firebuilding test. "Rabbi" Bowers whipped up an enjoyable campfire Saturday evening, which featured a couple of well told stories to whet young appetites for the inevitable evening snack just before taps.

Scout participation in the Wayside park camporee will center around signaling, nature, and skills needed to survive in the open under either planned or unforeseen circumstances, with their camp layout to include making fire without matches, simple pioneering, survival menus, and due to the exigencies of this location, charcoal cookery on both commercial and homemade grills. Plans will be further ironed out at troop meeting 8 p. m. May 12, following Little League and Babe Ruth League baseball practices.

The Missionary Societies of the Taneytown - Piney Creek Presbyterian Church met Wednesday evening at the home of Mrs. Robert McVaugh. Mrs. William Rittase was the leader. She opened the meeting with a meditation and worship service based on Trees, most appropriate in the setting of the attractive home of Dr. and Mrs. McVaugh. Mrs. Rittase read the poem Trees by Joyce Kilmer. An interesting reading followed in which all the group took part. This consisted of quotations from the Bible and ancient proverbs, all referring to trees.

Miss Amelia Annan read the names of the missionaries of the day and offered a prayer.

Reports were made of gifts sent to the Morris Fork Mission in Kentucky and a package of surgical dressings sent to a hospital in Miraj, India.

The topic, The Revival of Non-Christian Religions, was presented in the form of a panel discussion with Mrs. Rittase leading. Other members taking part in the topic were Mrs. Evelyn Peterson, Mrs. George Ingram, Mrs. Robert McVaugh and Mrs. Elizabeth Annan.

After the meeting the usual time of fellowship was enjoyed.

## "SPICE 'N' EVERYTHING NICE"

### (Your Chatty Column)

With all my heart, I wish you every morning  
A smile that shall last until the next day's dawning.  
I wish you health—life's greatest wealth!  
I wish you always near so that I may help to cheer.  
Each future day and in some way—help to bring you happiness!

The Aroma of the Lilacs and Lily of the Valley prevail throughout the Parsonage which is delightful.

The Azalea plants are beautiful this time of the year before the homes on every lawn in the city. Many of the Pink Dogwood also are in bloom. Such beauty to last only for so short a time.

I visited the Sherwood Gardens on Sunday afternoon in Baltimore where there also were thousands of others doing the same thing. What beauty with those 100,000 Dutch Tulips in all colors plus the huge Azalea plants and every Spring flower. I often wonder if Mr. John W. Sherwood realizes the happiness he brings to others as they stroll through the grounds. I think this year it all appeared more beautiful than other years.

As I walked along, I noticed little signs such as the following in between the plants—"How wonderful that God gave you and me, the hearts to feel the eyes to see and then for Holy, solemn hours, added the loveliness of the flowers!"

Another—"The Kiss of the Sun for Pardon, the song of the birds for mirth, you are nearer God's Heart in a garden, than anywhere else on earth!" And still this—"Our Noblest thoughts, our finest impressions are born in a garden. God's Garden!"

In Bel Air the "Booth Family Story" was shown on film last week. It was taken from the novel by Eleanor Ruggles and called, "Prince of Players". It was shown in technicolor and the new large Cinemascope. The story deals with the lives and loves of Julius, Brutus Booth and his sons, Edwin and John Wilkes. Of course, the picture of the house is shown now and then of which is in Harford County and where many times, I had visited when it was open to those interested from other States. The picture of course portrayed the life of Edwin Booth more so than his brother who was the one guilty of shooting the President of these United States. The entire story was shown and the acting was perfect.

Before writing this Column, I desired to see the exterior of the house which has lately been purchased by Harford County people. The house is being done over by a wing added on the side rear.

As I drove up the very long lane to the house, it brought back other years. My friend, an elderly lady whose Mother's Maiden name was Booth was seated beside me in the car and a direct descendant of the Booth family—her Grandfather having been born on the farm in England where she kept in touch with a Mrs. Mahoney who owned the house. It has been sold three times since then. There is much acreage to the place and it is very secluded. It will be most attractive when it is completed.

Were you surprised, Folks to learn of the re-election of the nice Baltimore Mayor for the 3rd term? Not this Columnist as I had written him the week previous that he would go over top by the thousands and that he did! To this a lovely reply came from the Mayor which I will add to my collection of famous letters.

Low French Heels, Ladies are being shown on all summer shoes—both for evening and day-time wear. Summer dresses seem to be a little more reasonably priced than last year. Very full skirts and so many sleeveless bodices attached!

That means the large hat will be very much in vogue. Large hats in summer are always good—not just alone for the beauty of them but for the usefulness by keeping the hot Sun from your face.

Those "Red Riding Hood" baskets are still being carried and hundreds being shown in the stores. But I still think it is best for the youngster under twenty-five to carry them. Very, very colorful Umbrellas are being shown today which means that we won't have any more "Black and Blue" Mondays! Eh?

So long, Folks until next week-end. Will write then of "The House and Garden Pilgrimage in Harford County", which I hope to attend. Have a grand week-end and be careful when you drive. See you soon. D.V. I am, Faithfully,

YOUR OBSERVER.

## YOUNG PARENTS AND SOCIAL SECURITY

by

Franklin M. Barnes  
District Office Manager  
Social Security Administration

What does Old-Age and Survivors Insurance, better known simply as social security, mean for young parents? It means protection—financial protection for the family which, in the event of the young father's untimely death, becomes available to the survivors in the form of monthly benefits. These monthly payments may continue until the youngest child becomes eighteen years of age.

Basically insurance is buying financial protection, by many people contributing or paying premiums into a common fund. From this fund those, who suffer the event against which they are all insured, are reimbursed in whole or in part for the amount of their losses. Thus, by sharing the risk of the occurrence of the event against which they are insured, small contributions by each member of the group serve to provide this protection for all of them. The protection may be against the risk of fire; the risk of automobile accident; the risk of loss of income due to retirement or death; or protection against the risk of any number of other contingencies.

During the period when a family is being raised, social security has an interesting similarity to certain other forms of insurance, for instance fire insurance. With fire insurance you gladly pay your premiums year after year for protection, with the hope that you will never have occasion to collect on it. So under social security, the young father maintains protection for his family in the event of his death, but quite surely with his and his family's hopes that he will live a ripe old age. Moreover, at the same time that his family is being afforded this protection he is also acquiring protection for his own retirement.

Before the age of retirement, which is the greater part of one's lifetime under social security, the thing about social security that is of constant value to the family is the very existence of the financial protection it provides for the widow and children in the event of the father's death.

It may be rather startling to some people to learn that if a young father, whose wages have averaged \$200 a month, dies and leaves a widow and two young children (ages 1 and 3), the surviving family may draw in monthly payments a total of \$30,000 over the years until the youngest child becomes eighteen. But such is the fact. It should be noted, however, that the total which can be paid to the survivors is related directly to the children's ages at the time of the father's death. Each child's benefit stops upon reaching age eighteen. Had the children in the example just given been 12 and 15 years of age when the father died, the total amount payable would not have been as much. Nevertheless it is significant to note that this family would be drawing benefits at a time when the money might be sorely needed to enable the children to finish high school.

In addition to the monthly benefits to which the widow and children can become entitled, there is a lump sum payable to help with funeral expenses. It is also pertinent to be aware that, under certain conditions, children can become entitled to monthly benefits on the basis of their deceased mother's employment under social security, even though they were being supported by their father at the time of her death.

Punch-line to the year's hottest power story—

# Chevrolet "Turbo-Fire V8"!

This is the engine that's writing a whole new chapter in the book of automobile performance records. This is the engine that has stock car timers doing a "double take" at their stop-watches wherever experts gather to compare the abilities of the 1955 cars.

For example, in the recent NASCAR\* stock car competition at Daytona Beach, Florida, Chevrolet literally ran away from every other car in its class—and a raft of others besides. In the one-mile straightaway run for low-priced cars, the first two places—and six of the first ten—went to Chev-

rolets. And in acceleration runs from a standing start against all comers, the Motoramic Chevrolet beat all other low-priced cars—and every high-priced car except one!

What's behind this blazing performance? A compact honey of a V8 that only the world's leading producer of valve-in-head engines can build. Chevrolet's new "Turbo-Fire V8".

It puts a new kind of fun in your driving life. You're in charge of 162 high-spirited horsepower—or if you're looking for even more excitement, the new "Super Turbo-Fire V8" (optional at

extra cost) puts 180 h.p. under your toe! Pick the one you'd rather have fun with, then come in and get behind the wheel. You'll see why the Motoramic Chevrolet is showing its heels to everyone else on the road!

COMPLETES COURSE IN TRAINING—WELCOME WAGON

Mrs. Monica Reifsnider, of Harney, Md., has returned from New York, N. Y., where she completed a course of training preparing her for the position of Welcome Wagon Hostess which she now holds in this community.

Mrs. Reifsnider resides at Harney, and is one of Welcome Wagon's more than 4000 Hostesses who are making over a million calls annually on families in the United States, Hawaii and in the Provinces of Canada, embracing more than 1400 cities.

These Calls on behalf of Welcome Wagon's more than approximately 50,000 sponsors are made on such important family occasions as the birth of a baby, sixteenth birthdays, engagement announcements; also when families move locally in a community and when they arrive in a community as new residents. Calls are also made on special occasions such as golden wedding anniversaries and other special family events.

Thomas W. Briggs, formerly of Memphis, Tennessee, is Founder and President of Welcome Wagon, which is now in its 28th year.

Often referred to as a service which is "in the business of building friendships", Welcome Wagon's basic policy includes cooperation with Churches of all Faiths, with worthwhile Civic and Welfare groups; also participation in those activities which keep communities good places in which to live. It is significant that Welcome Wagon has been cited for its volunteer service and achievement in community and nation by such organizations as the American Red Cross, National Foundation for Infantile Paralysis, American Heart Association, American Heritage Foundation, United States Treasury Department and many other such groups.

Welcome Wagon service is one not only of public relations but, more important, it meets a present-day need in the field of human relations.

Mrs. Reifsnider, on behalf of her sponsors here in Taneytown will bring Church and Civic information to the families on whom she calls. With her basket of gifts, Mrs. Reifsnider will extend for those sponsors to the people of this community the old-fashioned hospitality for which Welcome Wagon is so well known.

Mrs. Reifsnider knows this community. She is interested in its welfare and in its progress, including the well-being of its citizens.

A mother's affection cannot be weaned from her child, because the mother-love includes purity and constancy, both of which are immortal. Therefore maternal affection lives on under whatever difficulties.—Mary Baker Eddy.

I noticed a very large bed of just red tulips at the Russell Stonesifer home in Keysville—sorry they were not more easily seen. Mrs. William Weishaar who lives at the second home on the left (traveling from Carroll Wilhide's farm on the Forest and Stream Club Road, has a large part of her garden planted with Iris. FEESERSBURG

The Maryland Farm Bureau notified all Maryland Congressmen and Senators it was opposed to any return to high rigid price supports on basic farm commodities, up for action last week in the House of Representatives was H.R. 12 which provides for 90% price supports. The bill passed but it is doubtful if the Senate acts upon it this session. We have heard so much about Secretary Benson's flexible price support plan that many people think that it is in operation right now and is the cause of the fall in farmers income. Nothing could be farther from the truth. The flexible farm support plan does not go into effect until this coming fall. Whether a farmer is against rigid supports depends entirely upon the crops he raises. The Southern farmers are quite naturally for rigid supports because they raise peanuts, grains and cotton which are listed as basic farm crops. On the other hand farmers raising beef cattle, or in the dairy business are against rigid supports because their products are not classified as basic farm crops. It may be a good thing for farming to try flexible price support and see how it works. The business of farming must change with the times. Just as the leaders of industry must be constantly on the alert for better ways to produce their products so must the farm leaders be fully aware that farming is going through an evolution in which only the smart and alert farmer will survive.

There is no cause for alarm in the latest development in the anti-polio vaccine program although the experts can't seem to make up their minds just how to proceed from here. The public certainly has shown patience and restraint amid the confusing and conflicting statements coming from official sources. One thing is certain that of the millions of school children injected with the vaccine only 45 have developed polio. There is a certain amount of risk with any medication. Every individual reacts in certain ways differently to medicine. Even some people cannot take aspirin without harmful effects and there are many who cannot take the new "miracle drugs". And so it should not be surprising to find some children who cannot react favorably to the anti-polio serum. Twenty-five years ago when diphtheria-toxoid was being used for the first time to fight diphtheria there were some children that died after the drug was administered. There were some doctors that refused to use the new medicine, but the majority had faith in it and today we know the results. Twenty-five years ago diphtheria was feared like small pox, but today one rarely hears of a child dying with it. That old saying "Nothing risked—Nothing gained" applies to most situations but never more true than in medicine. We have great faith in the medical profession and in the Salk vaccine. We know that before any new medicine is offered to the public it is tested and retested until the amount of risk is at a minimum. Parents must remember that life itself is constantly a risk and without faith one could not endure it.

Do you have an asparagus patch in the corner of the garden? If you do, then you already know how delicious a vegetable it is, but how quickly the season is over. If you have never tried freezing it for year round use, do so this spring. It is quite easy to do and if tender, young stalks are used the freezing does not change the flavor. It is very important to blanch the stalks for three minutes (no longer) in boiling water. Cool at once in ice water, drain and pack in containers and freeze. Cut the asparagus in lengths best suited for your needs before blanching.

A good wife laughs at her husband's jokes, not because they are clever—but because she is.

Well, its fly time again and already the pests are making a nuisance of themselves. Do you remember when we thought DDT had them licked and then we woke up to find the flies had developed an immunity to the killer and passed this immunity on to their offspring. The result has been a brand new breed of flies that nothing seems to kill. Some sprays do put them in a coma for a short time but they revive more frisky than ever. What the world needs is not a better mouse trap, but a better fly trap.

Mrs. Frank Martin, Mrs. Rinaldo Martin and daughter Esther and Mr. and Mrs. Harry Bowman attended a linen shower last Wednesday given in honor of Mrs. Ralph Buffington at the home of her father, J. Wilbur Harman, near Taneytown.

The auditorium of the Elmer Wolfe School was literally bursting its seams and rafters Monday evening with spectators who came to catch a glimpse of the May Queen and her attendants. For many it was only a glimpse, too, because each year the auditorium becomes more crowded and visibility poorer. If it is one thing our school needs above all else it is a modern auditorium with comfortable seats and enough room to seat all who want to attend the programs. It is hardly fair to those who spend so much time and energy getting up a worthwhile program to have it spoiled by overcrowding, improper acoustics and confusion. Needless to say, the May Day program was up to its usual high standard of interest and the May Queen and her attendants were as lovely as the month of May herself. It is no wonder that the community has learned to look forward so eagerly for this annual event.

Mrs. Ed Caylor is a patient at Frederick Memorial Hospital where she will remain for a week or so.

A native of Australia has come to live at Merry Knoll. It is a Shell Parakeet and already he seems at home in his new surroundings. He is a beautiful bird with emerald green feathers and a yellow head with black trimmings through green feathers. Parakeets learn to talk but all the sound this one makes so far is a healthy chirp. But he has come to a very talkative family so with competition so great, he may in time talk too much.

The directors of the Annie M. Warner Hospital in Gettysburg are launching a drive to raise funds to build an addition to the present hospital. Since so many Carroll Countians use this hospital we should help to support it. Gifts may be made in one payment or spread out over a period of two years. Adequate hospital care is needed by every family sooner or later and it is comforting feeling to know that there is an efficient, well managed hospital not too far from home. Samuel E. Breth of Taneytown is a member of the hospital Board representing Carroll County.

What were you doing ten years ago on V.E. Day or can't you remember either? Last Sunday was V. E. Day plus ten and radio and T. V. made quite a splash out of it. But only a few are worth repeating. Among them are these: "People must understand and be willing to sacrifice as much for peace as they do for war. Until they do, there will be no peace."

**LETTER TO THE EDITOR**

Some of your Maryland subscribers have requested me to protest publicly against a scurrilous attack on the Daughters of the American Revolution published in your newspaper of April 28 under a column "Feasersburg," written by Mrs. Ruth Roelke, of Middleburg-Union Bridge, Md.

Accordingly, I am asking that this letter of mine be published in your columns, for the true information of your readers and in all fairness to the D. A. R., for 65 years one of the greatest patriotic organizations in our country.

In the first place, each and every application paper for membership in our Society must include proof for lineal and lawful descent through the generations, with dates and documentary evidence of births, marriages and deaths, before an applicant is admitted into D. A. R. membership; so Mrs. Roelke's implication of "illegitimacy" is most assuredly unfounded and untrue. As all our members are familiar with our rules and regulations along this line, her attack is not so much a reflection on our present members as it is against the Revolutionary patriots, who are not here to defend themselves against her smear but whose immortal deeds should be appreciated, not maligned, for they left to us as our bequest our freedoms, liberties and national sovereignty in the United States of America.

In the second place, Daughters of the American Revolution were not "upset," as your columnist claims, over the inability of President and Mrs. Eisenhower to attend our Continental Congress. They had accepted our invitation months ago, and expected to attend until the last day or two when their scheduled appearance had to be cancelled because Mrs. Eisenhower had failed to recuperate satisfactorily from recent seizures with influenza and the President became involved in pressing matters of state. We understood and agreed with their reasons, and so wrote and told them. Mrs. Eisenhower's health and strength and the President's business were far more important than their bringing their promised greetings to our delegates; and I so assured them both.

As the official spokesman for our Society, I told newspaper reporters, our Congress and the President's Secretary that it was not necessary for him to interrupt his affairs of governmental importance to come to our meeting, because he could be assured that the D. A. R. would carry on in its traditional manner of working constantly for the preservation of our Constitutional Republic and the best interests of our American Way of Life. When he did greet our delegates in 1954, he paid wonderful compliments to our National Society.

Mrs. Eisenhower not only was unable to come to our Continental Congress but also had to cancel all the engagements she had made in Washington for the entire last week, due to her health.

In the third place, Mrs. Roelke charges that the D. A. R. has not had one constructive thought for the last fifty years.

Of course, I could write reams for your paper to refute this erroneous statement. To her I am sending plenty of reading material, so that she will not again make that mistake.

For the benefit of your readers, I'll give only a few excerpts from our reports for just the past year, as instances of our constructive work; we donated, for example, just last year, \$410,000 to our own two D. A. R. schools, which we have maintained for underprivileged children during the last 35 years, and to 11 other worthy schools on our Approved Schools list; gave 7,000 prizes to American History students; took 45,000 children on historical pilgrimages; presented 1,000 large United States flags and 21,000 smaller ones to schools, camps, Scout troops, etc.; gave 4,300 Good Citizenship medals to young people and 369 Awards of Merit to adults; presented 8,000 D.A.R. Good Citizens pins to outstanding girl seniors in High Schools, with \$100 bonds for all State winners; sponsored 8,000 clubs for 315,000 Junior American Citizens; and had 311 scholarships or loans in force, including six scholarships for young Negro women studying to become nurses but not including \$29,000 in scholarships for American Indians.

Having been in newspaper work almost all my life, I think that you will be glad to print this letter in its entirety to offset any false impression Mrs. Roelke might have made on any of your readers. The RECORD of the D. A. R. since 1890 speaks for itself, and before writing on it your correspondents really should be more familiar with it, so they will not again editorialize on false premises based on ignorance. Today, of all times in this era of national problems and international tensions, all true Americans should stand together and appreciate efforts of those who are zealously seeking to guard our heritage and protect America's future through patriotic efforts, as do the Daughters of the American Revolution.

Sincerely,  
(Miss) GERTRUDE S. CARRAWAY  
President General, N.S.D.A.R.

**CARROLL COUNTY SCOUTER HONORED**

At an impressive ceremony at Mergenthaler Vocational School Auditorium on April 28th ten men received the Silver Beaver award. The Silver Beaver is the highest award that can be given by a local Council and is presented by men with outside service to boyhood.

One of the recipients of the award was Wilbur O. Thomas, Scoutmaster of Troop 348 of Taneytown. In presenting the award to Mr. Thomas Dr. Ferdinand Hamburger, Chairman of the Silver Beaver Committee, also presented the following citation.

"The most impressive evidence of Scouting's real worth is the calibre of men, who are attracted to it. As it seeks to honor Wilbur O. Thomas with the Award of The Silver Beaver, the Boy Scouts of America pays itself the compliment that this out-

standing citizen has examined its Aims, Purposes and Methods and found them good. Here is a man of conviction with the educational background and experience to make an intelligent choice of the vehicle with which he might make his contribution to the common good, and his choice is Scouting. Since his twelfth birthday anniversary when he enrolled as a Scout, he has maintained an active interest in Scouting. As a undergraduate at Harvard University he found time to serve as Scoutmaster and has continued on for thirty consecutive years. His sense of values is further reflected in the life and work of the Church as Sunday School Teacher and Leader of the Christian Endeavor Society. As President of the Lions Club of Taneytown, he brought distinction to himself and his fellow members with an outstanding record of achievement."

**Iron and Clay**

Lesson for May 15, 1955

IN PERHAPS the most famous dream mentioned in the Bible, an immense statue appeared, with a head of gold and the rest made of other materials down to the feet which were mixed of iron and clay. That dream points a good many morals; one of which is that such a statue will soon topple over. An iron foundation is strong but a foundation only partly strong won't do. So the foundations of life, if they are partly strength and partly weakness, will not endure. We have with us today (in this week's Bible study) a man who like that famed dream-image was part iron, part clay. He had his strong points and his weak ones, and he finally toppled.

Dr. Foreman

**He Loved the Soil**

This man was King Uzziah, one of the better kings of Judah. He was a strong king in many ways. It is true, he was king over a very small territory as we see it today. Dr. Stapp's rocket-sled could cover it end to end in about 20 seconds. It is said by his biographer that his fame extended to the border of Egypt . . . not over 200 miles at most. However, while his kingdom was a tiny one as countries go today, the beauty of the Old Testament is that we have something like very large-scale maps of small areas, blown up so we can see the detail. This King Uzziah succeeded in resisting ruinous invasion by the ever-greedy ruthless countries around him. He strengthened the national defense; he reorganized the army; he introduced (then) modern equipment for his armed forces. He conserved the country's small water-supply. He developed farming, both stock-raising and agriculture. He "loved the soil" (II Chr. 26:10.) Best of all, he made a serious effort ("he set himself"

as his biographer says) to keep God's laws. He listened to the prophet Zechariah, he was willing to be "instructed in the fear of God." Altogether, for a large part of his life, he gave the country a wise and strong administration because he was himself wise and strong.

**He Grew Proud**

Nevertheless he finally tumbled down. His clay underpinning at last gave way. The inspired biographer puts his finger on the weakness and names it: "He grew proud"—and adds, "to his destruction." Proud men do not think of their pride as a weakness, they consider that strength and pride go together. So they often do, only the pride tears down the strength. What happened to Uzziah has happened to many a dictator since. He thought he could do as he pleased. He scoffed at the laws he had once supported. He came to think of himself as a human exception to God's law. He declined to take advice. He no longer would listen to men of God. It is this ballooning conceit, this unwillingness to listen to any one, this feeling oneself Destiny's child, that trapped Julius Caesar and Pontius Pilate and Napoleon and Hitler and many another tyrant in history. Pride is always a weakness. It blinds the proud man to his own defects, it blinds him to the wisdom of others. It turns him from a good strong man into a little tin god, from something genuine into something "phony." It isn't only kings of old and dictators of today, it isn't only the famed in history, it can happen to obscure people too.

**He Was False to the Lord**

The most serious charge brought against Uzziah is that he was "false to the Lord" (II Chr. 26:16). To put what he did into modern terms, this king-dictator, who had run everything else successfully, at last tried to run the church. The priests took their orders, as they understood it, from God; this brash Uzziah said, in effect, "Now never mind what God has ordered; from now on you will listen to ME." To put it into modern terms again Uzziah wanted to put the Church under the direct control of the State. Against this, the high priest of that day protested, and religious persons will still protest. It may be true that from the standpoint of pure efficiency most churches are not too well run; it is true that with government force back of them churches could get more members—of a sort.

DRIVE FOR HOSPITAL FUNDS

A number of friends of the Annie Warner Hospital who wish to donate to the fund being raised to pay for a much-needed addition and have raised an important and relevant question which requires immediate answer.

"We wish to donate to the fund but wish to spread our contributions over a period of a year or two years. How can we do it?"

Those in charge of the campaign have anticipated such a question and have prepared an answer which is included in the brochure which was mailed last week to householders in the area served by the hospital.

Here it is: If, for instance, you wish to donate \$60 you may divide your donations in six equal payments over a two year period, making payments every month or every four months. These payments would be \$2.50 per month, or \$10 every four months for two years.

Similarly if you wish to donate \$120 you may pay \$5 each month or \$20 every four months for two years. Other donations would be in comparison.

A volunteer will call at all homes and places of business and explain how a donor can make a donation. Those in charge of the drive are asking all donors to give as much as they possibly can as a first payment and then divide the balance in six equal payments. The hospital building committees need money to start construction at the earliest possible moment.

The first addition will cost approximately \$250,000. As soon as that amount is received the new addition will be constructed and 32 ward patients will be transferred from the original building. That building then will be made available for the urgently needed expansion of the X-ray and other services of the hospital which are now badly cramped and overcrowded.

Individuals, families, organizations, (fraternal, social and civic) and others are urged to be prepared to make their contributions as soon as possible or when the volunteer workers call at the homes or business places.

The Ladies Auxiliary will hold a food sale in the Taneytown Firemen's building May 20.

EMMITTSBURG NEWS

The Mite Society of the Emmitsburg Presbyterian Church held their May meeting at "Thornbrook", the home of the Franklin family.

Rev. Galambos, the president of the Society conducted the evening devotions and called 46 people present to join him in prayer.

The Society joyfully received the news about the basement project which has been completed. A new kitchen fully equipped will be used the first time at the June meeting.

A play, called "Family Album" was presented by a group dressed in 19th century costumes. Miss Rhoda Gillelan was the narrator, Mrs. Dorothy Gigeous and Mrs. David Martin were in charge of the stage and costumes. A cast of 17 presented the play which was received with great ovation.

Pastor Galambos was surprised with numerous birthday gifts, 2 birthday cakes, one of them in the shape of a lamb. Mrs. Lewis Higbee, Miss Georgia Ingram and Mrs. Motter Morrison were guests of the evening.

Delicious refreshments were served by Wilson, Margaret and Leeanna Franklin. It was an evening of warm christian fellowship.

Have you given to the Firemen? It is not too late—Give to this worthy cause!
