JUST FOR THE RECORDS

During the trial of U. S. Department of Agriculture against Shafer Bros., Westminster, I was personally accused by the Government lawyers of being hostile to the government wheat program and the Federal Court records show this accusation.

I, therefore want it thoroughly understood, that my position is just this: If I am not allowed to vote, for or against this wheat program, I do not feel obligated to permit anyone to measure my wheat land or control my planting or selling. I feel that if a farmer wants government support prices, then let the government allot his acreage and control his production.

But, if a farmer does not want support prices, then let him plant what he pleases and take a chance on the open market. Why force anyone to be controlled, we advertise Maryland as a Free State.

I do not claim to be hurt by the program. I do not even claim to be a good farmer as I have other interests. I just want to plant whatever I see fit, without government inspection or control.

The Shafers are fighting for what they feel are their rights as land owners, and I feel any man has the right to his beliefs. There is no question about it, I do not agree with the way the wheat program is voted on, (approximately 75% of the Carroll County farmers can not vote), and I do not like the forced administration of this program. So if disagreement on these matters makes me hostile, I guess I am hostile, but I still think I have the right to my own opinion.

C. L. GARTRELL.

Mr. and Mrs. John A. Schwartz and Mrs. Anna Dale had a birthday dinner on Tuesday in honor of Mrs. Gertrude Wington, mother of Mrs. Schwartz. Their guests were Mrs. Wington and her sister, Mrs. Helen Alexander, both of Blue Ridge Summit, Pa.; Mr. and Mrs. William Williams, Penns Grove, N. J., and Mr. and Mrs. Owen Ayers, Rosemont, Md.

The F.F.A. boys of the Taneytown High School would appreciate your visiting them in the tent display of The Taneytown Grain & Supply Co. The boys have purchased the purebred Holstein Heifer Calf raised by The Taneytown Grain & Supply Co. in their show window on Purina Calf Startena and Nursing Chow from three days to four months. This heifer was from Vesta Null's purebred stock and was an offspring of Show Boy, owned by the Maryland Artificial Breeders Corporation, Inc.

ANNANS HONORED

Selected as Outstanding Women by Soroptimist Club

The Soroptimist Club Committee this year found a unique situation in selecting the Carroll County Outstanding Woman of the Year. Never before had it been placed in the peculiar situation of choosing between sisters and the more members consulted among themselves the more they were convinced that it was certainly the Annan Sisters of Taneytown, the first time when two women are recognized. Each in her own way in working in the community and church, and in the county, merited the honor.

The Misses Elizabeth M. Annan and Amelia Annan are the daughters of the late Dr. Robert L. Annan and Hattie McN. Birnie Annan, and were born in Emmitsburg. They came to Taneytown to make their home at an early age and have lived in the late Dr. Clotworthy Birnie residence. Elizabeth was the school teacher for many years in the National Cathedral School in Washington and retired in 1950. She is closely associated with work in the Taneytown Presbyterian Church School. When the Kiwanis Club sponsored the bicentennial celebration of Taneytown last year, she prepared much of the historical material used for that celebration.

Amelia has carried on community interest and activities in practically all phases of the town's progress. The first Red Cross chapter in the county—the first library in the county; she was in many firsts that developed over the years. She has contributed a great deal to the Historical Society of Carroll County. Both sisters are known for their keeping of old letters, diaries, and papers of all kinds and scrapbooks of the late Dr. Birnie and P. B. Englar.

We can cover many activities for both Children's Aid Society, Red Cross, etc. But their contribution to the bicentennial, the wonderful pageant presented at nights during the celebration, and the most enjoyable fashion show on their lawn mark more years in the interest of their town and its people by the Annan sisters and so they are honored in 1955 as Carroll County's outstanding women.

WOMEN'S GUILD

The Womens Guild of Grace E. & R. Church held its regular meeting, Monday evening, June 6th, with the Christian Education Committee in charge, Mrs. Carel Frock, chairman. The topic for discussion was: "Our Young People—Our Hope for Years to Come."

The meeting opened with a piano prelude by Miss Fairy Frock. The chairman read a meditation and led the group in prayer. "Beautiful Saviour." Mrs. Alice Clem read the Scripture reading followed by responsive readings by Miss Fairy Frock and Mrs. Walter Smith. At the conclusion of the readings, Mrs. Smith led the group in prayer. The hymn, "Saviour, Like a Shepherd" was then sung.

Mrs. Frock told the group the purpose of the program: to bring out the serious problems facing the young people today as they prepare to take their places in the world. The introduction to the topic was read by Miss Alma Shriver. Mrs. Harry Mohny discussed "Understanding Young People". Mrs. Frock discussed "Guiding Our Young People" and Mrs. Geo. Motter concluded by discussing "Marriage and Homemaking."

Dennis Baumgardner favored the group with a piano solo "The Dance of the Three Plumes" and the offering was received. Miss Mary Alice Rue sang a solo "Morning" by Speaks and was accompanied by her mother.

The business meeting was in charge of the president, Mrs. G. E. Rue. An invitation was received from the Homeewood Auxiliary for members to attend a tea at Carlisle on June 16th and anyone wishing to attend should contact Mrs. Mervin Wantz. The Hood College Conference dates are July 12 to 15 and registration blanks are available from the president.

Mrs. Ellsworth Lambert and Miss Helen Bankard were named co-chairmen in charge of the Food Stand at the sale of Mrs. Otto Smith on June 18th. Members were reminded to contribute articles for the Bazaar table for Hoffman Orphanage Anniversary on June 30th and Mrs. Clyde Hesson would receive the articles.

The following nominating committee was appointed: Mrs. Otis Shoemaker, Mrs. Carel Frock and Mrs. Harry Mohny. The meeting adjourned with a brief social period. Our next meeting will be held in August.

SCHOOL PICNIC

The Harney School held its picnic on Tuesday, June 7, 1955. Although the weather was a little cool and threatening, everyone enjoyed a fine picnic lunch under the big shade trees. The school was honored by having the supervisor, Miss Ruth De Vore present who shared in the lunch served. There were in all forty-three present.

M. O. Fuss, Chairman of the dedication program committee of the Harney Volunteer Fire Co., takes this means to apologize to the VFW Post #6918 of Harney, Md., for omitting their complimentary ad in our dedication book. It was a slip up on my part and not the Harney Vol. Fire Co. Thanks. M. O. FUSS.

SIXTH GRADE

TOURS WASHINGTON

Pupils Report an Educational Trip

Mrs. Welker's sixth grade went on an educational excursion on Thursday, May 26. We left school at 7:45 a. m. and were accompanied by our teacher and six mothers.

Our first stop was for a guided tour through the Washington Cathedral, which is located on the highest point in Washington, Mount St. Albans. All denominations are welcome to worship here. The building was begun in 1907 and will probably not be completed in our lifetime. When finished it will be one tenth of a mile long, from the main entrance to the high altar, and will form a Latin cross. It is built of Indiana limestone and has no steel girders supporting it. One of the many colored windows is a rose window with its six foot figure of Christ. From where we stood this figure appeared to be about one foot high. We visited the seven chapels of the cathedral. It has four of the largest round pillars in the world and the floors are made of marble. When the cathedral's spire is completed it will rise 125 feet higher than the Washington Monument.

Our next point of interest was the Capitol. It is 751 feet long, 350 feet wide, and covers $3\frac{1}{2}$ acres. It has marble floors and many beautiful pictures. One of the corridors is longer than the Washington Monument is tall. We were fortunate enough to see the Senate and the House of Representatives in session. We visited Statuary Hill with its many statues. This ended our tour of the Capitol building.

Next we went to the Washington Monument where we ate our lunch. The monument is built of white marble and is the highest work of masonry in the world. Its height is 555 feet, $\frac{1}{8}$ inches. It has sunk only $\frac{1}{2}$ inches since it was built and sways $\frac{1}{2}$ of an inch in a 30-mile gale. From the four inch windows at the top you can see all over Washington. You get a wonderful view of the White House, the Capitol, the Jefferson and Lincoln Memorials, the Pentagon, and many other beautiful buildings.

We then went to see Cinerama. This is a movie with a wide screen and stereophonic sound. It was in Technicolor and we learned that there are five Cinerama theaters in the United States. This movie started with the beginning of black and white still pictures and it took us up to the Cinerama of today. Cinerama took us all over the United States and part of Europe. Some of the important points were: the Rocky Mountains, Cypress Gardens, and the Grand Canyon.

Concluding our excursion we went to Lincoln and Jefferson Memorials. Everyone had a wonderful time and we arrived home at 8:30 p. m.

Our class also visited Hershey, Pa., on June 2. We toured the chocolate factory the rose gardens, and the museum.

WESTMINSTER YOUTH FELLOWSHIP

The devotional service was led by Walter Plank. Rev. Galambos gave a very good discussion. The business meeting was then called to order by Betty Stambaugh in the absence of Carl Weant. The treasurer's report was then given. There were 18 members present and two guests, Allan Williams and Nancy Sites. A motion was made and seconded that we buy a ping pong table. The meeting was adjourned after which a wienner roast was held.

"SPICE 'N' EVERYTHING NICE"

(Your Chatty Column)

With all my heart, I wish you every morning
A smile that shall last until the next day's
dawning.

I wish you health—life's greatest wealth!
I wish you always near so that I may help
to cheer
Each future day and in some way—help
to bring you happiness!

There is something about a daisy and buttercup that is always most interesting. Perhaps after all it is because they are the flowers which have always appealed to us in childhood. That old saying plucking the petals, "He loves me, he loves me not!" Then the buttercup being held under the chin and if the reflection is of a deep yellow that meant you just loved butter. Remember? The new rose bushes which I planted in a very special place at the bungalow are thriving beautifully and believe it or not, the roses are in full bloom of all different colors. What a thrill after planting just to watch the first bud appear and then just as suddenly for it to burst into bloom.

Bob White in the tree outside of my bedroom window is talking to me and is quite surprised when I answer him in his own language. No doubt, that could keep up for hours as he hears my special whistle!

The Nasturtiums of all colors I planted at the foot of the huge sturdy Oak tree directly in back of the kitchen at the bungalow and they, too are thriving beautifully. This year it will be a very special treat from the picture window right there.

Hope you did not miss on T.V. the Coronation of Queen Elizabeth which was the Film Summary with commentary by Ted Maloney. Never will I forget the colorful movie of it all down in Baltimore.

Keep a date open for the week beginning July 14 through the 20th for "The Ice Capades of 1955" which is the 15th edition which will be for seven nights at the Memorial Stadium in Baltimore. All the proceeds for the engagement will go to establish a Children's Clinic. All the Stars are those who tour the States beginning in Atlantic City. You may write for reserved seats addressing your letter to "Ice Capades" % Variety Club 516 N. Howard St.

You not alone will enjoy every bit of it but you will be glad that the price of the ticket helped toward the Clinic. And be sure you enclose a stamped addressed envelope.

If you are a wife be sure and read the June issue on page 69 of "The Reader's Digest" titled, "Do European Women Make Better Wives"? That will make you think, Mrs. America?

Seems so odd that the county public schools have school on Decoration Day and the city schools do not! Yet that wonderful man—Uncle Sam is everybody's Uncle right in these United States! Eh?

Thinking of a school teacher, I know of one who presented his entire class with a Parakeet—very few refused one! Nice? Way out in Casa Grande!

Don't forget Father's Day will be rolling around shortly, Foks and he truly is the most important man in any one's life! Do something very special for him and best of all show him that you love him for all he does for you without one word of complaint!

I saw the Movie called, "Daddy Long-Legs" with Fred Astaire and Leslie Caron. It is the cutest story ever told with that loveable dancer and the grandpartner (all down through the years, Fred Astaire). That man never seems to grow one day older. You know the reason? Positively the art of dancing—makes one graceful, gives one confidence and poise and forever keeps you young. You will never again gain weight if you keep on dancing. Why there are people who condemn dancing, I have never been able to solve that one, Foks.

The Movie picture was in Technicolor and most beautiful and that girl grows and grows on you. You will love every minute of it all and no expense was too great to make this picture.

There is a very nice owner of a store (five and dime) in the cleanest little town on the map—Hamstead whom I met the other day in Bel Air. When he learned that I wrote this column, he said quickly, "I never miss!"

I sure do miss the "Movie" around the town!
Have a grand week-end, Foks. Be most careful when you drive—drive slow and have a lot of laughs—drive fast and shed a lot of tears! See you next week-end, D.V. I am,
Faithfully,
YOUR OBSERVER.

OLD-AGE SURVIVORS INSURANCE

Seriously disabled people who used to work in employment or self-employment covered by the social security law should get in touch with the social security office by June 30 and find out about having their earnings record "frozen", Franklin M. Barnes, social security district manager, announced today.

Mr. Barnes believes that many people in Maryland will be helped by the disability freeze provision in the 1954 social security amendments. This part of the law is designed to aid workers who become totally disabled after having worked for a certain number of years in employment or self-employment covered by social security. It provides that their social security rights will not decrease during the period of disability.

Many disabled people now getting retirement payments, Mr. Barnes pointed out, can qualify under this provision for a larger benefit amount as of July. If the disabled person dies after June 30, the disability can protect his family's right to survivors payments, but only if he had applied for it before his death.

Active military service in the World War II and post-war periods and employment in the railroad industry may count toward the needed amount of work.

Although the law does not provide for the payment of cash social security retirement benefits before the worker reaches 65, it is nevertheless important that a disabled individual get in touch promptly with the Social Security Administration and establish the fact of his disability.

The law provides that the workers earnings record may be "frozen" during the period of his disability. When this is done, his social security rights are protected in two ways:

- His right to benefits will not expire as time goes by and
- The amount of the payments he and his family will get when he is 65 and the amount his family will get in case of his death, will not be reduced.

"Before the wage record of a disabled worker can be protected under this law, it is necessary for him to make an application, establish that he is disabled, and to meet the other requirements of the law" Mr. Barnes stated. "We are glad to give full information to disabled workers who believe that they may be qualified, and to help them make application to have their social security records frozen".

The law permits freezing the wage records of workers who

- worked in employment or self-employment covered by social security for 5 years out of the 10 years after their disability started and for 1 1/2 years out of the 3 years before their disability started, and
- have been totally disabled for at least 6 months with a disability so severe that they are unable to do any substantial gainful work and will be disabled for a long and indefinite period.

Active military service after September 15, 1940 and before July 1, 1955, and work in the railroad industry can be counted toward the required period of work. The law applies to people who were disabled before reaching 65 no matter how old they are now". Mr. Barnes said.

The address of the North Baltimore Social Security Office is 3107 Greenmount Avenue, Baltimore 18, Maryland. If a disabled worker is unable to write or visit the office, some other member of his family should inquire for him.

More than five million U.S. farms now have electric service.

Don't argue with this baby!

All Chevrolet's competitors and most of the high-priced cars tried it recently in official NASCAR* trials—and took a licking!

Meat the champ! The new Chevrolet "Turbo-Fire V8"—the most modern V8 on the road today. Here's what happened—

Daytona Beach. NASCAR Acceleration Tests Over Measured Mile From Standing Start. Chevrolet captured the 4 top positions in its class! 8 of the first 11! And on a time basis Chevrolet beat every high-priced car, too—but one! But wait!—this is just the beginning!

Daytona Beach. NASCAR Straightaway Running. Open to cars delivered in Florida for \$2,500 or less. Chevrolet captured the first two places, 7 out of the first 11 places!

Daytona Beach. NASCAR 2-Way Straightaway Running Over Measured Mile. Open to cars from 250 to 299 cu. in. displacement. Chevrolet captured 3 of the first 5 places!

Columbia, S. C. NASCAR 100-Mile Race on half-mile track. Very tight turns. Chevrolet finished first!

Fayetteville, N. C. NASCAR Late Model Event. Chevrolet again finished first. Because of even tighter turns the driver chose to run the entire 150 laps in second gear! Yet no overheating or pit stops!

These facts you can't laugh off. Sales leader. Road leader. A crowning achievement of Chevrolet and General Motors. Try a Chevrolet... and live in a land of going-away where you win all the arguments! Soon, maybe?

FEESERSBURG

The time of year is at hand when most people dream of tossing their clothes in a suitcase and taking off for a vacation to a spot far, far from home. The opinion is that the more miles one travels the better the vacation. Nothing could be farther from the truth. Webster says in his famous "freedom from duty; intermission from employment". But more important is change of mental outlook. Unless a vacation produces mental relaxation, it isn't a vacation no matter how far one gets away from home and work.

A man that uses his brain to earn a living gains a vacation by using his muscles and resting his gray matter. A woman doing housework seven days out of the week, can take a vacation right at home if she can find someone to take over while she sits under a shade tree reading the latest book. A farmer who must stick close to his acres the year round can gain relaxation by taking off for the city a day now and then and seeing the turbulent life of city dwellers. He returns to the farm convinced more than ever that he is leading an enchanted life. And so it goes with each person. Unless a vacation gives to the individual a new outlook mentally, then it is no use to take one.

Many people take their problems with them and their worries ride right along no matter if they circle half the globe. Travel does work wonders for most people, but to those who cannot board a plane for far flung shores there are many ways of taking a vacation right in the back yard. Try and figure one out to fit your individual needs and personality. And a happy vacation to each of you.

After this week the boys and girls will be saying: "No more school, no more books no more of teacher's scornful looks" or something a bit stronger. And the parents will be waiting to themselves and maybe out loud too: "Oh, what is so rare as a day in June without the kids all out of tune; without the house in a riot and mess and we in a state of collapse and duress. Please teachers, come back and kindly take over or we will be pushing up pink headed clovers".

Children's Day services at Mt. Union Lutheran last Sunday morning were completely dominated by the small fry. No more effective scene-stealers can be found anywhere than girl's and boys of pre-school age and the girls are better at it than boys.

The church was filled with parents and members who were willing to be won over by the youngsters. The junior choir sang the background music with a duet by Bobby Royer and Nancy Roelke. Mrs. Paul Leister was responsible for the children's fine performance and Mrs. Blaine Broadwater directed the Junior choir. The Pastor, Rev. Donald Warrenfeltz addressed his sermon to the children, which is traditional on Children's Day.

Fortyfive members and guests attended the annual covered dish supper of the Missionary Society of Mt. Union Monday evening which was held in the parish house. Following the supper the young members of the Society gave a musical program. Mrs. Warrenfeltz gave a talk on the Missionary work being done in other countries and by using a large map was able to locate for the audience, the Mission established in the different countries. Mrs. Paul Crouse, President of the Society gave a brief summary of the aid given the Mission work through the Sewing Box and appointed Mrs. Russell Bohn as leader of the July 11th meeting.

Congratulations are in order to the Ford Motor Company and the C.I.O. for demonstrating so clearly this week that management and labor can reach agreement without violence when intelligent men from both sides get together and talk things over. The new contract between the two sides is a victory for three groups of society. Not only did Ford and the C.I.O. win something but the American people everywhere won something, too.

For they won the right to be proud that the leaders of two great segments of our country have matured enough to see each others side of a dispute and to recognize the rights of individuals to enjoy part of the wealth they work to create. It is a milestone in the economy of our country and it is a pattern which is going to change everyone's life more or less.

For a community the size of Harney, a great deal of history has been written about it and fascinating history at that. The citizens of the past were rugged individualists and gifted with many of the arts and trades that are lost to our times. But there are still a few around who have the skills of artists. One is Mr. Hess who not only has the ability of the finest craftsman in wood, but also the temperament of a prima-donna. We are fortunate to have several pieces of his work of art and we wish we could persuade him to part with more. But so far no luck. It was men like Mr. Hess who helped to write Harney's past history. They were men who took

extreme pride in the work they did and it reflected to the glory of the entire community. The History of Harney now appearing in the Carroll Record is good reading and we are enjoying it very much.

It won't be the communists that take over this country but it will be bugs and insects. There are three different kinds nibbling on the hay fields right now and by the looks of the grass they are nibbling night and day. Nature not only is kind but she can be cruel and we think she has a grudge against mankind. She thinks up too many ways of tormenting him. Maybe its her way of keeping him on the jump and letting him know who is boss after all. One has to do it live on a farm one year and he will be convinced for life that nature always holds four aces up her sleeve.—Ruth Roelke.

WEISHAAR—A tribute to the memory of my mon-mon on her birthday June 13.

Across the bridge of memory To greet your birthday mon-mon dear We send our thoughts of sweetest love.

To you who dwells in Heaven above. Little son, FREDDIE WEISHAAR

WEISHAAR—In Loving Memory of my daughter, Mary's birthday, June 13th.

I often sit and think of you, And speak of how you died. It think you could not say good-bye Before you closed your eyes.

We think of you in silence, No eyes can see us weep. But many silent tears are shed, When others are asleep.

A happy home we once enjoyed, How sweet the memory still But death has left a loneliness The world can never fill.

By Loving Mother and Dad, MR. & MRS. WM. F. WEISHAAR

WILSON—In loving memory of our son, Henry Lee, who passed away three years ago, June 12, 1952.

There is a sad, but sweet remembrance There is a memory fond and true; There is a token of affection, And a heartache still for you.

look ahead

You don't need a crystal ball to see a brighter future for chickens raised on Ren-O-Sal. Because Ren-O-Sal speeds up the processes of growing and maturing, pullets which have received Ren-O-Sal regularly in the water just naturally lay better. Ren-O-Sal also helps reduce disease burden by controlling the spread of cecal coccidiosis. So, when you look ahead to bigger egg profits, be farsighted—give your chicks Ren-O-Sal for a bigger and a brighter future.

Teen-Age Faith

Lesson for June 12, 1955

WE do not expect teen-agers to have the same outlook on life, or the same kind of clothes, or looks, or digestion, or habits, or occupations, as their grandmothers. Why should we expect them to have the same kind of religion? This is not saying that young people should have one religion and old people another. It is saying rather that the way a teenager thinks and acts is enough different from the way his

Dr. Foreman

elders think and act, so that we might reasonably expect that he will take the same religion with a different slant. Not all grown-up Christians are made in the same mold; and certainly it is a mistake to try to force the religious expression and ideas and beliefs of growing boys and girls into the precise pattern of Grandma, let alone St. Paul.

Teen-agers Make Top-notch Christians

Most people who are converted are converted in their teens. Most young people who have been brought up in Christian homes and have since childhood never thought of themselves as anything else but Christians, join the church (or are confirmed) during their teens. Most ministers first felt the call to the ministry before they were 20 years old. Most missionaries first thought of being missionaries during their teens. The fact is, the teens are just the time when religious reception is good. Just as there are days when radio reception is good and other days when it is bad, so it is with what we can call religious reception; there are times in life when it is better than at other times. As the teen-age is the waking-up time all along the line, so it should not be surprising that the heart of boys and girls, just at the time when they begin not to be boys and girls any more, but men and women, should be specially open to the vision and the voice of God. Teen-agers can make top-notch Christians.

But They Need Help

We have a case in point, in the story of the young king Josiah. He was eight years old when he came to the throne. His father, King Amon, had been a bad man and a bad king, so bad that his own servants had a palace revolution and killed him. There must have been something promising about little Josiah, because we read that the people of the land "made him king,"—as we would say, elected him. This was remarkable, because in the ancient Near-East it was just as it is in some of our neighboring countries today: if a king or a president is assassinated, one of the plotters is generally the next king. But the people picked out little Josiah and made him king. Boy-like, he did nothing particularly worth mentioning for eight years. Then, when he was 16 years old, he "began to seek after the God of David." Now whenever a boy with worthless parents turns out to be a fine character with a sincere faith, it is safe to guess that some one has been there influencing the boy for good. Boys and girls seldom develop into mature Christians without help. Later we read that Josiah was acquainted with the best and most God-fearing men of his time, and we can be reasonably sure that this young king's wise and steady leadership, his growth in faith, his constructive reforms, were "sparked" by some of these priests and prophets who were his close friends.

Teen-agers Are the Church of Tomorrow

Whenever a boy or girl who has been confirmed or "joined the church," stops going to church and perhaps slips down from good to bad and from bad to worse, thoughtful persons will ask, "who's to blame?" The fault may very well be in the church, not in the young people. Boys and girls need wise help from older Christians. Young people coming into the church are always "commended to the fellowship" of the church or words to that effect. But how much fellowship do they get? An officer in a church once complained that his church paid too much attention to young people. "Young folks don't contribute," he said. Not in money, of course! But don't teen-agers contribute anything?

*It's the new kind of hardtop—
The 4-Door Riviera!*

THERE seems to be some confusion about what a hardtop really is, and we'd like to set the matter straight.

A hardtop is a car that looks like a Convertible with the top up—but has a solid steel roof overhead—and no center posts in the side window areas.

Up until just recently, it could be built in volume only with two doors—not more—because it would take wholly new structural principles to hinge another set of doors without floor-to-roof center posts.

But Buick came up with those new structural principles and is now building—in volume—hardtops with four doors.

You see one pictured here. It's the 4-Door Riviera. And it's taking the country by storm...

Because here, at long last, is an automobile with the sleek and sporty styling of a true hardtop—but with separate doors for rear-seat passengers, plus the added room of a full-size Buick Sedan.

On top of that, this beauty is all Buick—with the buoyant ride of Buick's all-coil springing—the walloping might of Buick's record-high V8 power—the whip-quick

getaway and sizable gas savings of Buick's spectacular Variable Pitch Dynaflo.*

And it's available in Buick's two lowest-priced Series—the budget-tagged 188-hp SPECIAL, and the high-performance 236-hp CENTURY, illustrated here.

Come visit us for a first-hand meeting with the 4-Door Riviera—and see how quickly and how easily the last word in automobiles can be yours.

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.
