A letter is a bridge between father and mother and their grown children; between friends, between business concerns a few city blocks away or thousands of miles away, and many countries apart. Across this bridge flows news some hanny some sad flows news—some happy, some sad, some important, and some merely routine. But most letters are important to the persons who write them

and the persons who receive them.

The basic strength of this "bridge" is the Post Office Department and the efficient and trustworthy services it guarantees to every user of the mails. But the Department and the services would be meaningless without the devoted dedication to postal service of the many thousands of postal work-

SOCIAL SECURITY DEADLINE

A considerable number of widows, young children, and aged parents of working people who died between June 1940 and September 1950 have failed to claim the monthly benefits payable to them under a 1954 change in the social security law, L. J. Gillespie, Social Security Field Representative announced today. Those who do not apply for their benefits before October 1, he pointed out, will not be able to receive benefits for all the months back to September 1954, the effective date of the new provision in the law.

Under this provision, it is now possible to pay monthly social security benefits to the qualified survivors of workers who died between June 1940 and September 1950 if the deceased wage earner had credit for as little as a year and a half of work under social security. The families of many of these workers applied for benefits at the time of the family bread winner's death, Mr. Gillespie said, but were told that they could not receive payments because under the law, as it then stood, the worker had not earned enough social security credit to provide survivors benefits for his family

"Announcements of the change in the law were made in all newspapers, in pamphlets, and on radio and television", Mr. Gillespie said, "and many persons in the Carroll County area have applied for these benefits since September 1, 1954".

Where a claim for social security benefits is filed within 12 months of the time a beneficiary is first eligible. his payments can be made to him retroactively for the whole period, Mr. Gillespie pointed out. But if a claim is delayed for more than 12 months, benefits for some months will be lost. He therefore urged the survivors of workers who died between June 1940 and September 1950 to get in touch with their nearest social security offices before October 1, 1955. Qualified claimants who apply before that date can be paid benefits back to September 1954.

Monthly benefits under this provision may be paid to the aged widows of such workers who at the time of death had worked on jobs under social security for at least a year and a half -to surviving children under 18 years of age, and to their mothers. Where no widow or children survived the worker, payments can be made to his aged parents if he was providing their support.

TRIP THROUGH THE STATES AND CANADA

Mr. and Mrs. Hugh Heaps, Galen and Patricia Heaps, of Street, Md., Rev. Hilton, of Gettysburg Seminary and Mr. and Mrs. Calvin Keeney, of Walkersville, helped Mr. and Mrs. Charles Cluts celebrate their homecoming on Sunday also Mr. Cluts' birthday.

They returned Tuesday night, Sept. 20, from thirty-seven days of touring the states and provinces of Canada, Saskatchewan, Alberta and British Columbia and the Great Canadian Landis was 100 years old last Thurs-day. Her address is Williamsport, Minnie B. Hatch, a cousin who had visited them during the summer motored to Bluffs, Ill., where they were joined by another cousin, Mr. Carl Ritter, of Naples and together they boarded the train at Springfield, Illi-nois and were on their way. The trip was made by train, bus tours at every stop and three boat trips From Van-couver B.C. to Victoria we sailed on Princess Margaret and from Victoria to Seattle, Wash., we sailed on Princess Patricia. Anyone doubting there is a Supreme

Being should visit the Canadian Rock ies marvelous canyons, Bauff, Lake Louise and the Columbian Ice Fields. San Francisco along with its wonderful sights gave our party their first experience of an earthquake. While riding on the train along the Pacific Ocean enroute to Los Anegles we witnessed the great forest fire that burned over hundreds of thousands of acres of red woods and grazing lands. It was a pathetic sight to see the great red wood trees burning, the cattle on range with no means of escape, the homes in peril, thick black clouds of smoke and the flickering blaze leaping from one mountain range to another. Even though Los Angeles treated us to a temperature of 107 degrees and the "smog" extra measure we managed to see Forrest Lawn Cemetery, Knotts Berry Farm, Beverly Hills, Hollywood, Farmers Market and the Old Mission San Juan Capistrano and Glendale. Leaving there we went to Cheyenne, Wyo., Estes Park, Colo., Denver, Colo, saw the famous red rock gardens at Denver, the amphitheatre where the Easter sunrise services are held and Buffalo Bill's grave. Then on to Buffalo Bill's grave. Then on to Kansas City, St Louis and back to Springfield. This time riding on the train named Ann Rutledge.

Given in marriage by her father, We had a wonderful trip. The scenic the bride wore a street length dress tours give you food for thought for of ice blue brocade, matching hat and mitts. Lesson for October 2, 1955

A MAKE-BELIEVE story can be just as entertaining as a true one, and more so. The tale of Little Red Riding Hood is more interesting than some of the items in this week's paper. Furthermore, a make-believe story can

sometimes get a truth across to people just as well as a true story does. For example, from Little Red Riding Hood we may learn not to trust strangers - they may turn out to be wolves in Grand.

Dr. Foreman

mother's clothing. Many a fable and fairy-tale has fixed in children's minds many a useful truth. Nevertheless, the make - believe story sometimes only conveys falsehood. If I told you that my grandfather was the Most Wanted Man by the police of six states, that he came to his death in a gun battle with the sheriff in which he shot three deputies before they finally got him, it would be a much more interesting tale than the true one, of a simple law-abiding Christian dying in his bed of a very ordinary disease. But it would give a totally wrong impression, it would be a lie for which there would be no excuse.

Jesus and Amida Now, believe it or not, there are today and there have often been in the past, those who claim that it makes no difference whether the Christian gospels are fact or fairy-tale, no difference whether Jesus was a historical character like Caesar or a made-up one like Cinderella. The Christian church has always resisted such a notion as this. For the gospel story aims to tell us something true about God, something true about man; and if the gospel story is not true, then what it says about man and God is not true either. Compare the Buddhist story of Amida. The story of Amida is very

much like the story of Christ; it is the tale of a god, or at least a god-like superior being, who came to live among men a life of service and sacrifice. Songs are sung about him, - "Amida loves me, this I know, for the (Buddhist) Scriptures tell me so." Temples are erected to him. But when you nquire, when and where did this Amida Buddha live? you discover that no one claims he ever lived anywhere. He is a great big official fairy-tale. A temple to him is like a temple to Cinderella's fairy god-mother. Amida was brave, self-sacrificing, loving, godlike only, he never existed!

World B. C. For centuries, historians have counted time before and after Christ. All dates are either B. C. -Before Christ, or A. D.-Anno Domini, "in the Year of our Lord." B. C. does not mean Before Civilization or Before Culture or Before Columbus but Before Christ. What makes the world B. C. different from the world A. D. is Christ. The world B. C. was a world in which the "best" people supposed that without slavery you could not have civilization; a world in which a man could be required legally to have only one wife at a time, but in which it would have been thought ridiculous to expect him to be faithful to that one wife; a world in which unwanted babies (and tragically numerous they were) were simply left out of doors to die, unless men in the slavery business cared to pick them up to be sold later on; a world in which social responsibility as we know it was unknown, a world in which men who held government posts were expected to get rich out of them. If you want to see what the world B. C. was like, read Romans 1. Paul had been

World A. D. Who knew, that first Christmas night, that the birth of that baby to those poor people from Nazareth was the turning point of the history of the world? God knew it; and men have found it out. The world A. D. is so different from the world B. C. that even a stupid man, if he found himself carried back by a time-machine to B. C., would pray to get back to A. D., to a world where life is sacred, where children are welcomed and cared for, where Christian homes are found, where service is a common ideal, a world where there are millions of true Christians. Such real changes in the real world were not made by a make-believe Jesus, only by a real one.
