BOY SCOUT

ACTIVITIES

Troop Will Make Collection in December,

A perfect evening Friday, October 28, not too cold, and the generous assistance of Norman R. Sauble and Ronnie Welker enabled the Boy Scout younger group of Troop 348, Taneytown, to stage an extremely pleasant town, to stage an extremely pleasant straw ride and Hallowe'en party enjoyed by some 23 members and their friends. Refreshments were arranged for by Senior patrol leader Peter Westine chairman, John Myers, Fran-cis Nelson and Edward Reaver; decorations were put up by Junior assistant scoutmaster Harold Slaybaugh, Grant Harman, and Donald Sharrer; program was superintended by Assistant Scoutmaster, Robert L. Bowers, Frederick Sherman, and Scoutmaster Wilbur O. Thomas; while a thorough clean-up of the meeting room was made by Quartermasters James Hemler and Charles Turner.

The scheduled Appalachian trail hike of the previous week-end, due to various conflicts, was postponed till a later date; those able to take advantage of the week-end, however, camped in Teeter's woods at the happy inspiration of Mr. Bowers, John Myers, Edward Reaver, Fred Sherman, and Mrs. Thomas joining with Explorer Scouts Lee Barnes, Robert Fitz, and Layry Mertin for a night out on na-Larry Martin for a night out on na-ture's russet oak-leaved carpet. Led by Adviser Stanley F. Frock, however, the explorers departed early Saturday morning for the squirrel hunting which they had on minds, while numerous tests were gotten off by the Boy Scout members, chiefly by Fred Sherman for second class. John Myers did another of his 10-mile walks for hiking merit badge. All three look forward to the board of the second class of the second class. review on November 10, where Reaver and Sherman expect to appear for second class rank, and Myers for star.

A close contest among Boy Scout patrols saw the Panthers in first place October 20, led by Harman, with Reaver assistant and Hemler, Louis Michea, and Turner patrol members. The beautifully colored chart made by Mr. Bowers keeps the weekly standings before their eyes in graphic form, and on that date the Raccoons were second, the Foxes third, the Leaders last (whose points are gained chiefly by attendance, since they don't participate in the boys' competitions).

Bowers, Thomas, and Westine were present at the Cub Scout graduation ceremonies October 27, where Mr. Bowers addressed a few words of con gratulations to the 11-year-old boys at the invitation of Cubmaster Kenneth C. Shorb and encouraged them to continue their scouting experience by joining the Boy Scouts, who gather every Thursday evening just down the street in the hall at the upstairs rear of the Taneytown 5 and 10 cent Store. George L. Eppler, Red Cross first aid chairman from Westminster, was present at last Monday night's Explorer meeting to instruct and examine in that vital merit badge subject, which is a required badge for Eagle, the highest rank in scouting.

"SPICE 'N' EVERYTHING NICE"

(Your Chatty Column)

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth! I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

Going to Atlantic City this time of the year was quite a surprise to me (and I love surprises) of any kind. Spending the four days there with the wonderful weather of the week-end of the 20, 21, 22 and 23rd of Oct. I was amazed at the crowd at this time but truly this time of the year is best of all. Of course, many sat in the huge beach chairs covered with two blankets from head to toe and as I glanced around saw only a nose and eyes from the tops of the blankets. It was right then that I had the ocean all to myself and although there was a cold wind, the water was delightful! And that

the water was delightful! And that was really the first time for me in the ocean at this time of the year!

Going up in the "Olds" and returning that way over the Delaware Memorial Bridge was something to sing about as far as that car. Nothing like an "Olds" for it is the only make car which engine becomes finer the longer the trip. It actually purrs! G.M. was right there with their wonderful exhibition with, "Starfire!"

The lawns where the pumpkins were

The lawns where the pumpkins were The lawns where the pumpkins were being sold were most colorful and the trees had just begun to put on their dresses of red and gold! Driving right to the direction of the hotel, "Carolina Crest" where I have remained when down in Atlantic City on North Carolina Ave. has always been such a joy. I like everything about it plus those dark shades in the mornings if one desires to sleep at a later hour and that nice Continental breakfast served in nice Continental breakfast served in the rooms. Years ago, the morning newspaper was always found at the door, too and if you desired your shoes shined—that, too was done by the colored Porter, you would put them right outside your door the night be-

All the Auction places were open

All the Auction places were open and always dozens who are gullable! Eggs on the Highway going and re-

turning were just 30 cents a dozen, frying chickens 29 cents a pound! In one of those Auction rooms on the boardwalk, I saw a man stand on a necklace of pearls to show and convince others how strong they were! But who cares about that? I like mine around my neck and I would not at-tempt to tread or stand on them! Eh? Many of Chairs were being pushed around although there were quite a few "Motor chairs" as in the summer and when I asked about that one, the Porter told me that most of the latter had been put away for

the winter. The shop windows, Ladies showed much of the Beige in coats and dresses both for afternoon and evening wear. Many suits were of checks in wool of plain and plaids. Red jewelry is plentiful! And this-believe it or not that old Boudoir Cap is again which always was a very fancy affair to be worn in the bedroom when your hair is up in curlers! Some of

them were quite expensive! as new residents. Calls are also made on special occasions such as golden read, "Welcome Retail Druggists" and

all had left the day before! The new candy in Fralinger's (where the original Salt Water Taffy Fralinger's was made all down through the years) is paddle affair of chocolate-bitter sweet with molasses on the inside and it is the best candy I have ever tasted.

Of course there was a delicious sea food dinner at Mackney's of their famous "Crab Lobster" and the ride

in the cute Jitney. Niagara was still there with their famous "DEEP" massage chair—now having three motors which is truly a brilliant, beautiful piece of furniture that is equipped with the finest massage mechanism. There are foam rubber cushions and after a five minute rest in one of these chairs, you feel as though you were born again! It is truly a manipulation and comfort to every muscle and joint of your body. Every family will own one as the years come on just as they do T.V. There are a variety of colors in leather-grained Kalistron!

And last but not least was the Pigeon trying to escape from the sly cat on the porch of the Chalfonte Hotel. NOTHING VENTURED, NOTHING GAINED

The TV program, "The \$64,000 Question," has dramatized how drastic our income taxes really are. The winner of the \$64,000 question pays \$23,000 more in income taxes than does the \$32,000 winner. For this reason mest \$32,000 winners have declined to try for the top prize.

The same discouragement in risktaking ventures occurs in business. Tax rules dictate "no" answers everyday from businessmen, investors and professional men. And New York's First National City Bank says it doesn't stop there, for "the injury is not only to the opportunities of people but also to the tax collections since risk-taking enterprise affords the richest source of government revenues".

When are we going to respect the law of diminishing returns and encourage risk-taking ventures rather than discourage them?-Industrial News Review.

Friend of Man

Lesson for November 6, 1955

PEOPLE describing themselves have a tendency to paint themselves handsomer than they really are. They do not like candidcamera shots of themselves. Even when a man has to admit that he has committed a sin or made a mistake, he will try to tell himself his motive was good, any-

way. Now Jesus' self-portrait was extremely impressive; but nobody ever called him a hypocrite or show-off. What Jesus had said of himself in the Nazareth syna-

One fact stands out, and Luke makes a great deal of it. Jesus was a healer. He never assumed that sickness or physical disability "is bound to be." He thought people's bodies were important enough to be sound and well. He never thought of himself as so "spiritual" he could be indifferent to people's physical needs and pains. Wherever he went, he brought health with him. We do not fully understand how he did this, but the Christian church has taken the cue from Jesus here. The tremendous development of hospitals in America and over the world is not today all in the hands of Christians or religious people; but it was religious people who started this kind of thing. The church of today is beginning to see how much harm another kind of illness does, and to work at curing mental diseases. Compare a Christian country like ours with a non-Christian country like Korea where the total Christian population is less than six per cent. There a cripple has ordinarily been something to

laugh at. No one would give him a job, no one bothered with him. All he could do was beg, as he crawled or sat in the dust. Now, Christian hospitals there have been doing a work the heathen world never thought of, -rehabilitating amputees, making it possible for them to be self-respecting persons again. Christianity is teaching Korea a lesson. Where once diseases of all sorts were taken as a matter of course, Christian doctors and hospitals have shown the way to national health.

Healing Souls

Some people think that if a man is healthy that is enough. If a man's body is all right, he is all right. Christians know better-because Christ has shown us. Jesus did not think he had done all he could for a man if he got him on his feet, literally. Long before modern medicine rediscovered the fact, Jesus knew that men's most serious diseases are in their souls. He was the Friend of Man,—but not friend of their bodies alone. Hospitals today are more and more making use of chaplains, of counselorsand that is another Christian idea. In every mission hospital the medical missionary is an evan-

What Friendship Means

To Jesus, friendship meant something deeper than what often goes by that name. How many people are "friends" only with the strong, the successful! How many people will be friendly only to those who can give them a lift up the ladder of ambition! This is the friendliness of a mosquito, who will stick close to you, but not with any notion of doing you good. Then again, a common idea of being friendly is to take other people without criticism, take them as they are. A word much in use with psychologists, psychiatrists and counselors nowadays is "acceptance." Now Jesus accepted all kinds of persons who were by everyone else rejected-lepers, tax collectors, the "lower classes," foreigners. But while Jesus opened his heart to these people, in the very act of acceptance he changed them. Some "friends" are like chameleons that take the color of whatever they lie on. Jesus never changed his own colors. He was the friend of sinners, indeed; but by being their friend he led them out of their sins. To be Christlike in friendship is to have a goodnere that is contagi-
