## BROTHERHOOD MEETS

The Brotherhood of Trinity Lutheran Church held their regular monthly meeting on Feb. 1, 1956 with 36 members present. The program was planned by Franklin Fair and Carroll Hess, and Harris Frock, the Past President of the Maryland Synodical Brotherhood was the guest speaker. Mr. Frock told of the program set up by the State of Maryland in the Mission Field here in our own state and what each Brotherhood has to do in order to meet this goal. A special quartet consisting of David, Wilbert and Loy Hess, and Henry Reindollar, accompanied on the piano by Mr. Harry Reindollar, rendered two very fine selections. James Fair reported on the benefits that our church can receive from the Lutheran Brotherhood Insurance Company that he represents. Kenneth Shorb, Cub Master of Cub Scout Pack #714 of which Trinity Lutheran Brotherhood sponsors, told of the very desperate need for Den Mothers and Committee members if we are to continue this very worthy cause. It is believed that most parents do not realize the importance of carrying on this work in such an important time of a boy's life. After the business session a very enjoyable fellowship session was held at which time all the members were able to sit and enjoy each other's presence. Promptness in the openings and closings of meetings are stressed in the belief that men will return for future meetings if they know the meetings will not last too long.

## "SPICE 'N' EVERYTHING NICE"

(Your Chatty Column)

With all my heart, I wish you every morning a smile that shall last until the next day's dawning. I wish you health—life's greatest wealth! I wish you always near so that I may help to cheer. Each sunny day and in some way—help to bring you happiness!

What a lifter-upper to have that grand gardenia plant filled with the pure white gardenias in the kitchen and the delightful aroma as I go about the kitchen duties! Nothing could be finer. Now, Mrs. Housewife, that Easter is coming along, be sure you purchase one of these delightful plants and give it the care of warmth and water and you can watch it thrive. Keep it out in the open all summer until October when you bring it in doors as you must never let the plant in any way get a chill. You will love that one, I'm sure.

Here are few Betcha's — Betcha that due to the awful car strike again in Baltimore more used and even new cars will be sold than ever before. Betcha, due to the continued cold of so many days in rotation that the public will not complain about the heat this summer. Betcha, Ike has known all the time that he will tell the U. S. that he will not run again! Betcha, that oil companies for heat and fur business stores did a bigger business this winter so far than anytime for a number of years. Betcha, there has never been another Governor in the Mansion who has refused at all times to serve intoxicating drinks! Betcha, in time that if the Transit strikes continue that the State will take it over. And, Betcha, there will be more colleges opened in years to come for both individual White and Black!

Hope you did not miss the President's Heart Dr. on TV last week. He stated that people of 50 and 60 should weigh the same pounds as they did when they were 25! That made me think, too. For now, when spending the evening out and refreshments are served, I bring forward the apple or orange and munch on that instead of those refreshments. You can do it, too. At first there were gasps and some laughs and questions. So it is all over now and they are getting used to it and one telling the other. Another grand way the big Heart Specialist told me was always to refuse any second helping at any time. How wonderful to know after a rigid examination that one's heart is just excellent! Everyone should have this done now and then.

Did you miss the debut of that grand actress Joan Fontaine on TV on Sunday night? She was tops and appeared more beautiful than ever and the play was most interesting. Hope you did not miss "Beverly Hills", too.

If you have a real old pair of shoes of suede you can easily dye them a most rich brown with "Griffin's Dye". They appear as a professional job.

Large hats are to be worn this spring, Madame, plus much tighter fitting dresses. Many light shades are being worn for the winter in hats and coats although black and browns will always have their special places.

What a nice letter from Mr. John Charles Daly of "What's My Line?" He always has made me think of another grand man—a man named Stevenson!

Here's a tip for you ladies if you want your hair to grow more quickly. Each night give it a real hard pull! I will guarantee that one!

If you are going to take a drive be sure if you happen to be on route 40 to stop and dine at the "Bayou Restaurant" just above Harve de Grace. It is next door to one of those big Johnson Restaurants. The atmosphere is most charming and you will enjoy every minute of it. The proprietor and his wife are from the big state of Louisiana! (Located opposite Chesapeake Courts)

It was really most sociable with everyone the first day of the car strike and there was lots of fun. Those walking were given rides in many of the cars going downward to the big city and the public seemed in a jovial mood, making the best of it all.

Prices in about everything in any kind of merchandise are way below the average as the big sales continue. And don't forget that Tuesday is "Valentine Day" so be sure and purchase that very special card and gift. Flowers always say the things you cannot say, too. Tell that one you love her over and over again for it is "Love That Makes The World Go Round!"

So long, folks. Have a grand week end. Be most careful when you drive and whatever you do, don't throw trash on the highway in any county. Keep America beautiful. Until next week D.V., I am,

Faithfully,

#### LINCOLN'S WORDS, TODAY

Every time that Lincoln's Birthday rolls around we gain a new appreciation of his greatness, and of the wisdom of his many pronouncements.

Most of them are as meaningful today as they were in Lincoln's time, and one of them is that "you cannot help men permanently by doing for them what they could and should do for themselves."

Certainly this applies to government in business. During the 1930's and 40's, the federal government built up a multi-billion dollar system of government-owned enterprises competing with private business. At least 78 government corporations and agencies were set up to handle such activities.

President Eisenhower has made a start toward reducing the size and scope of governmental operations—a move which must be continued and expanded. Getting—and keeping—the federal government out of business and out of competition with business could save the American people billions of dollars.

#### THE ROAD TO THE SEA

When I was a boy, I was curious to know  
The course of the rivulets—just how they go;  
It was then a puzzle, and so it is to-day,  
For I still see them going the very same way.

The meandering creeks, and little rills,  
Which wind around the lofty hills,  
Are wiser than I shall ever be,  
Since they know the way from a spring to the sea.

They roll on as if they knew just where to go;  
That, too, is something I do not know;  
And to him who is standing on the shore,  
They act as though they had gone before.

And, so they had, many and many a time;  
That is how they knew the peaks to climb;  
Just so with man, some day he shall know  
The way God intends that he shall go.

It may seem like a simple thing to do,  
But, just try it; and, when you are through,  
You shall find the course of the babbling brook  
Was not laid out from reading a book.

It was done by Him whose unfathomable mind  
Is greater than all Encyclopedias combined,  
Who laid out the course of all the rivers which flow;  
But, how He did it, I do not know.

He had no surveyor to compass the land,  
The hills and the mountains which look so grand,  
Yet, stand as barriers; but around them they flow  
As on their way to the sea they go.

God put mountains of salt in every sea  
That, from stagnation, they should be free,  
To purify the water which the rivers drain  
That it may return pure to earth again.

It is all a part of His great plan  
To make Earth a perfect home for man;  
Were it not for Him, and His provident care,  
Disease and infection would exist everywhere.

In the summer-time, the sun-healed air  
Is a cause of discomfort everywhere;  
It is then that the rain-cloud may be seen  
Which sprinkles the earth to keep it green.

The sun draws the water from the sea  
To temper the winds for you and me;  
They and the mountains, as in days of yore,  
Send it to our very door.

While the mountains beautify the land,  
Still they are servants which obey God's command;  
They direct all the winds which blow,  
And send the rain-cloud where it should go.

Were it not for the mountains and winds which blow,  
The rivers of Maryland would cease to flow;  
The wind and the mountains by God's command,  
Send the water to rejuvenate the land.

Someday we shall know of God's wonderful plan,  
Which includes the present and future of man;  
So, until we do, let us all do our best,  
Feeling sure that He will do the rest.

The numerous turns which the rivers make,  
On their way to the sea or a lake,  
Remind us all of our sojourn through Time,  
And the many barriers which we must climb.

Like the rivers we all must climb  
To be made pure in the Sea of Time  
The arrival of some may be a little late,  
But God is satisfied to wait.

Man is just like the rivers which flow—  
We see him come, and we see him go;  
Over many barriers he, too, must climb  
To be purified in the great Sea of Time.

Reincarnation is a part of the plan  
By which God shall make a perfect man;  
So like the rivers, he must come and go  
Till all of life's secrets he shall know.

When, at last, he has made the grade  
Other plans for him have been made;  
He shall dwell like a Prince in his Paradise home;  
And, through its green fields forever roam.

Perfection is the goal mortal man must seek,  
And we all must reach it, though we now seem weak;  
Not one on this Earth shall ever be lost,  
Regardless of what his salvation may cost.

**CURRENT EVENTS  
FIFTY YEARS AGO**

Moonlight skating parties have been popular, this week, among the young people.

Chicken pox is prevalent among the little folks, in a pronounced form, yet none are seriously ill.

A new installment of books, from the State Library Association, has been received at McKneys.

Rev. Father Mead paid the Record office an appreciated visit on Thursday. His advice still is "Go to California" for health.

The medicine show last week did a rushing business as such concerns usually do in Taneytown. It's a wonder that some company of this kind doesn't play to audiences in the Opera House for the whole season. There does not seem much use in fooling away money traveling around when there's a sure thing, for a long time, right here.

A notice is given elsewhere of an Electric Light meeting to be held here next Tuesday night. Our citizens will readily understand the great importance of this meeting, which ought to fill the Opera House with a representative assembly of our business men and property owners. Taneytown is now on trial before the people of this section of the state who are watching to see what we are going to do about it.

Rodkey-Krenzer—On Feb. 4, 1906 at the Lutheran Parsonage, Uniontown, by Rev. G. W. Baughman, Mr. Howard M. Rodkey, of Tyrone and Miss Emma M. Krenzer, of Hanover, Pa., were married.

Study-Yingling—On Jan. 28, 1906, Mr. John E. Study, of Silver Run, and Miss Lillie K. Yingling of Mayberry, were married.

FEESERSBURG

(A Voice from Carroll)

Sometimes when reading the financial page of a newspaper one finds some things there besides stock quotations. People dealing and reporting the condition of the economic pulse of our nation don't often turn philosopher too, but J. A. Livingston in his column titled "Business Outlook" writes the following: "The wide diffusion of expanding incomes in the United States is the outstanding social achievement of our times. The ownership of a good home and automobile by an American family is now the rule rather than the exception. Nevertheless, too many families and individuals have to get along on incomes that are inadequate by American standards. There can be no better time than the present, when the Nation as a whole is enjoying the greatest prosperity in its history, to make a special effort to improve the economic status of the least fortunate among us. Theodore Roosevelt expressed almost the same idea when he wrote: "This country will not be a really good place for any of us to live in if it is not a really good place for all of us to live in."

The Society of Christian Endeavor was born just 75 years ago. The Reverend Francis E. Clark a young Congregational minister in Portland, Maine conceived the idea in his parish. The idea grew until thousands of Societies were formed everywhere in the United States and in foreign countries. The Christian Endeavor Societies of Carroll County celebrated the diamond jubilee February 2 with a banquet in the Reese and Community Fire Hall. A turkey dinner was served by the Ladies Auxiliary of the Reese Fire Company. Following the dinner a program titled "Our Citizenship under Christ." The toastmaster was Rev. Cronise H. Barr, while the speakers were Rev. Donald Warrenfeltz, Roger Boone and Charles O. Heyward. The recreation hour was in the guidance of James I. Evans and the devotional service by the Rev. Ernest Baker. Miss Roberta Garvin served as pianist and Glen Copenhagen as song leader. Approximately 95 persons attended the banquet including representatives from Mt. Union, Keysville and Uniontown.

It might be better if we kept vice-president Nixon from making any more visits outside the United States. Every time he goes on a jaunt it costs the taxpayer millions. We see by the paper his recent visit to Brazil will cost us 35 million dollars. Its in the form of a loan in which the country of Brazil will develop its big steel mill. Some time ago we loaned them 70 million for the same purpose. I wonder why we try to build up some other nation's industry? Is it because if we don't the Russians will?

Everyone knows that the 2nd of February was groundhog day, when the state of the weather is predicted for the next six weeks, but how many know that the third of February is the birthday of the income tax law which every year predicts the state of one's pocketbook for the next twelve months. Forty-three years ago the law was a mild and friendly thing compared to what it has grown in too. At the passing of the law of 1913 a single person received an exemption of 3 thousand dollars while a married person 4 thousand. We are not complaining only lamenting that fighting two wars and trying to pay for them has increased the tax rate to such a degree in less than 50 years.

Once upon a time there was a traveling man stuck in a country village over a week end. He decided to attend the local church. After the sermon started and went on and on for two hours he became restless and nervous. Finally he asked the old man sitting beside him how long the preacher had been preaching there. "About ten years," the old man whispered. "Well, I'll stay then" said the man. "He must be almost through."

One of the coter fashion ideas which has lasted longer than most is the frivolous petticoat worn in twos and threes and even half dozens under a dress or skirt. How many women know that the petticoat was once a male garment worn by them, not for looks but for warmth. It seems that when knights were bold and often cold

in their steel-encased armor a smart tailor thought up the idea of making a short, snug coat to wear under the coat of mail. Since this undergarment was shorter than the outer coat it was called a petticoat. It proved so popular that soon everyone was wearing one. How it grew into the glamorous petticoat of today, I don't know, but it doubtless went through many uses and changes before it became the scene-stealer it is today. Something like the ugly worm that turns into a beautiful butterfly.

We don't know whether to feel discouraged or flattered because a cake only lasts two days at our house.

Its seldom that a doctor takes the time to bawil the fact that two thirds of his patients were the by-products of misguided parents and poor teachers in elementary schools. He explained that fathers and mothers frequently expect too much from their offspring. They are overly ambitious and do not realize that they push their children beyond their inherent abilities. The results are fear-ridden boys and girls who become neurotics and mal-adjusted individuals who sit in a doctors office with imaginary ailments. The importance of elementary school teachers in molding the character of our youngsters has not received enough attention. A good teacher knows that a child learns more than is in books. It is in the school room that mental hygiene is in the making. It is here that a child learns to get along with others; to respect the rights of others; to respect authority, not fear it; and to learn to be fair in dealing with others. A teacher owes a deep responsibility to every child she teaches. If she is fair and objective she is worth her weight in gold, but if she is prejudiced and antagonistic, the damage she does cannot be measured. The results of her influence are found in the waiting rooms of doctors, in the form of mal-adjusted men and women complaining of some mysterious illness.

Don't ever feel discouraged. For over two thousand years the world has been going to the dogs and hasn't gotten there yet.—Ruth Roelke.

Mr. and Mrs. Luther Zimmerman visited with Mr. and Mrs. Walter Myers on Wednesday afternoon.

Some of our women are busy sewing, making rugs, and quilting quilts. It is nice to do this kind of work when the weather is cold, with ice and snow on the outside. Mrs. Walter Marker is now working on her second quilt. Last Tuesday, Jan. 31, her mother, Mrs. Calvin Stamer and her aunt, Mrs. Lydia Senft visited with her and helped to quilt.

Quilting is a pleasant past-time for the winter months, and has been handed down from one generation to another. Although most of our younger girls are not interested in this art, we older folks enjoy the work and what is nicer than a pretty quilt, especially if made by your grandmother.

The Baust 4-H Club met Tuesday evening at the home of Teresa and Judy John, near Uniontown, with eleven present. Teresa and Judy gave a demonstration on "Making a Devils Food Cake". The Club is carrying the Home Furnishing Unit and Miss Joyce Riggs, assistant Home Demonstration agent, demonstrated making articles for better looking storage in the bedroom. Center, bringing the total to eighty seven dollars raised by the club and presented to the Agricultural Center of Carroll County. The next meeting will be with the Westminster Girls' 4-H Club on Saturday morning, Feb. 11, at 9:30, at the Ag. Center. At this meeting each girl will make a clothes hamper for her room. TIGERETTES STILL UNDEFEATED IN LEAGUE COMPETITION

What makes a good team? The Coach, the Captain, or the Players. Why it that one school has a much better team than the other? Why is it that two schools may have equal competition between individual players, but together as a team one is better than the other? Every one of the answers lies in the mere fact that a team is made up of every single one of the players working together. The team could have an exceptionally talented player, yet a game is not won by one player without the cooperation and enthusiasm of the other five.

With the loss of our previous coach, Mrs. Berchok, the team had little hope of becoming victorious in any of the games. Our present coach, Mrs. Thomas, came to the school, not as an experienced coach, but she was asked to fill this position this year, due to the shortage of Physical Education Teachers. She was very much interested in working with young people, but I'm sure she did not realize just how much of a job being a coach was. She definitely needed cooperation and help among the students. At first, the girls were very discouraged, and were sure that without an experienced coach, they would be lost in the league this year. With the help of a few students and teachers, Mrs. Thomas got off to a good start. What happened to the team? Well, they had to make up their minds to accept their coach and if they wanted to win some games, they had to practice hard and go to the games with the school spirit to win. They felt independent and if they were to be successful they had to start the season right, not to admit defeat even before they got started. Some evenings, Mrs. Thomas could not stay to help the girls practice, so they had to go on their own and do their best.

Speedball season started on Oct. 5, and at the close of the season on Nov. 11, the girls found themselves to be the County Champs. With the five league games that were played, four of the defending teams were scoreless, with only one school with 2 points. The T.H.S. girls have not been County Speedball Champs for a number of years. To the girls, this was a great victory.

With this booster, the basketball season began on December 15 with much enthusiasm. With a little help, Mrs. Thomas announced the team members, which consists of 5 seniors, and 1 junior on the first string. The remaining team is: 2 seniors, 3 juniors, 6 sophomores, and 1 freshman. It was hoped that more junior high girls would try for the team because most of the seniors had been participating on the team for 3, 4, and 5 years. This proves that the more experience, the better the player.

The T.H.S. basketball team proved to be good competition for the Alumni girls. The Alumni was downed 40-29, and it was a pretty rough and tumble game. The Alumni have a good team, and have not been beaten by the school in a long time. The girls also downed Manchester 61-50, last year's champs. Here again was a great victory. With only 6 schools in the county league, 4 have been played and won, with only 2 remaining. It looks as though the team has a good chance to be this year's basketball champs. Lets hope they keep up the good work, and when they play these two remaining schools, may the best man win.

This proves that a successful team is not judged by the coach, the captain or the players individually. It takes each and every one working together with team cooperation. Do not admit defeat even before you try. We want to thank Mrs. Thomas for her efforts also. She is doing a wonderful job.

**ELECTRICITY  
FROM THE ATOM**

*What will it be like?*

Now that electric light and power companies are building plants to produce electricity from the atom, you may well ask—what's atomic electricity like?

The answer: exactly like the electricity you're using now. The only difference is in the electric power plants themselves, where there's an atomic furnace instead of a furnace that burns coal, oil or gas.

But that difference can be important to your future. For you—and all America—will need much more electricity in the years to come, and atomic energy promises a vast new source of heat to make it.

Today many electric companies across the country are working on the development of atomic-electric power plants. They're among the companies—like this one—that have brought abundant electricity to a whole nation in the span of a single lifetime. They have the experience to find the best and quickest way to bring atomic-electric power to all.

**Effective Praying**

Lesson for February 12, 1956

WHEN most people think of prayer they think of only one kind though there are several. The word "prayer" suggests asking for something; though it ought to suggest thankfulness, confession of sin, aspiration, trust. But leaving all these other kinds of prayer out of account, what a wonderful thing prayer is! If I could go to a millionaire once a year and ask him for anything I wanted; or if I could have an interview with the most famous person in the world with the privilege of asking one favor,—how dizzy I Dr. Foreman would be at the pleasure of the prospect! Yet God has more treasure than a millionaire, and the fame of the most renowned men is nothing compared to his glory. It is such a God to whom I can take my desires and requests, every day, every night of the year. It is only because prayer is so free that we take it for granted and fail to appreciate it. We might value the opportunity more if we had to pay well for it.

**The Price of Prayer**

In a way, prayer does have a price. That is to say, if prayer is to be effective, certain conditions have to be met. Jesus told some stories which bring out what these conditions are. One is the tale of two men who went into the same temple to pray. One was an old hand at it,—if there was a "praying class" of Jews (corresponding to a working class, or a professional class) in those days, he was a prominent member of it. The other man had perhaps very seldom prayed. The first man was a regular contributor to his church; the other man—if he was like the average in his profession—seldom darkened the door of a place of worship. But in Jesus' story these two men found themselves side by side in the same temple, and only one was "justified," that is to say, only one got favorable attention from God. And that one was the man who had nothing to say but "God, be merciful to me a sinner." To ask God for this and for that, as if we deserved it, as if it were our right to demand gifts from God,—this is no way to pray. Effective prayer begins with confession and repentance, not with demands.

**Not to the Proud**

Let us make a short list of some differences between wrong prayer and right prayer. Wrong prayer is really talking to oneself, or talking so as to be overheard by some one we want to impress. Right prayer is addressed to God alone. Wrong prayer is proud; right prayer is humble. Wrong prayer wants God to support the pride of the prayer. Right prayer casts pride away and comes to God without a claim. In wrong prayer, I come to God asking him to do something for me which will give me a better reason than I now have for being proud of myself. In right prayer, I come to God asking him to cleanse me of the pride which makes me feel that God himself is hardly necessary. In wrong prayer, the one who prays rises from his knees just as he was, for he has no wish to be changed; in right prayer, the one who prays rises a better man, for he asked God to forgive and change him.

**Keeping at It**

Jesus seldom if ever tried to put all the truth into one parable. He was generally content with setting out one truth at a time. So the parable of the bothersome widow, the woman who finally wore out a stubborn and selfish judge just by keeping after him,—that parable does not say everything about prayer. But it does teach one thing: Keep at it! Jesus is careful not to say that God is anything like that judge. What he does mean is that if even a bad character like that judge can be moved to do the right thing by a persistent woman, surely God our Father in heaven, who is neither lazy nor stubborn nor ill-willed, will listen to persistent prayer. We must be careful not to read into this parable more than Jesus said. There is no promise here that God counts the number of times we pray for a thing, and that if we only pray enough times he will be sure to answer. There is no guarantee that God will answer any prayer we can think of if we say it often enough. What Jesus promises is that God will bring justice at last if we keep on wanting it.

**BEST TAKE-OFF YET**

FIRST thing you need in a car, of course, is power to spark performance.

And you get that in a 1956 Buick in plenty — from big 322-cubic-inch V8 engines that hit new highs in horsepower and compression.

But the power under the hood must be carried to the rear driving wheels in the form of twisting force on the drive shaft.

That's torque — the end-product of your transmission.

And the higher the torque build-up — the greater the "torque multiplication" in starting and accelerating — the better the getaway and response.

So if you want to feel take-off that leaves your breath behind you, come try a '56 Buick with Variable Pitch Dynaflo.\*

For in this airplane-principled transmission, Buick engineers raised the ceiling on torque to give you the best getaway yet.

They did it with something they call "double

regeneration" — a new way to make flowing oil add to its own velocity.

And when you use the full torque of a Buick beauty like the one pictured above, you're using the highest torque multiplication to be had in any standard-production American automobile today.

Come see for yourself what that means in new thrills and new safety.

You'll find brilliant new getaway response in the first inch of pedal travel — plus greater gas mileage to boot. You'll find an electrifying new safety-surge of full-power acceleration when you floor the pedal and switch the pitch.

And you'll find this spectacular performance blended into the smoothest-traveling, the sweetest-riding, the highest-powered and the easiest Buicks yet built. Drop in on us this week — today, if you can — and judge things firsthand.

\*New Buick Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century — optional at modest extra cost on the Special.

The joint meeting of the Piney Creek-Taneytown Presbyterian Missionary Societies was held Wednesday evening in the Piney Creek social hall. Mrs. Ralph Harver and Mrs. Marlin Six were the hostesses. Mrs. Harver was the devotional leader.

The meeting was opened by the hymn, "We've a Story to Tell to the Nations", responsive reading was led by Miss Anna Galt. A very interesting presentation was given, entitled "Enfold", emphasizing our responsibilities in sharing the problems of God's children everywhere. Six ladies displaying the letters of the word Enfold made these problems very concrete.

Members taking part were: Mrs. Peterson, Mrs. Lake Weant, Mrs. William Abrecht, Mrs. Stambaugh, Mrs. Six and Mrs. Chester Neal. The program was concluded with a series of meditations with pauses for silent prayer led by Miss Amelia Annan. **GOLDEN RULE CLASS MEETS**

The Golden Rule Class of Grace E. & R. Church met on Tuesday evening, Feb. 7, at 7:30 at the home of Mrs. Jacob Stambaugh.

**INSURANCE**

You can buy an insurance policy most anywhere, but to make sure you are getting proper protection at the lowest possible cost, always buy from an independent agent, writing under the American Agency System. To my opinion, no one company has the best coverage, financial standing, and rates in all lines and can handle all types of insurance. I therefore, represent a variety of companies, that after careful study, I consider the best in the business. I buy my insurance for security so I want to know the company has sufficient money to take care of even catastrophes, I want to know they are going to give me a fast and fair adjustment, I also want to know that my agent is going to give me service and work for his insureds interest as well as his companies interest.

Every man is entitled to his own belief, it is no secret, I do not believe in assessable insurance and do not write any of that type, but even with Banker competition, I wrote over a million dollars worth of Non-Assessable insurance last year and am sure if you will accurately check the facts and figures of the kind I sell, I will write your insurance too.

I am glad to be in the insurance business, because I now feel I am much better protected. I feel my customers have proper protection at the right prices. The troublesome thing about insurance is when a man thinks he has proper coverage, but when the loss occurs, finds that he is not covered. Make sure of your insurance. Call

Even more important, his words and principles are so well known that they serve as a guiding star to many public-spirited citizens of today.
