### MD. LEGISLATURE

#### Usual Volume of Bills Crowding the Session

Perhaps your representatives at Annapolis are growing soft, but in this day of taxes and more taxes, we have agreed to introduce a bill exempting a segment of our citizens from paying real property taxes in Carroll County. for He is the vanishing American so we won't have to exempt him for many years. As far as I am concerned they represent the cream of a fine crop. Living within our borders are aged couples who want to live out their lives in the good old American style, to-wit, without surrendering to the government with its long list of hand outs. They have worked long and hard during a life time of usefullness and productivity. They own their home but their earning days are past. home but their earning days are past. They have a little nest egg in the bank or government bonds. Their total income may be as low as \$500 per year, but with their self-disciplined brand of accustomed thrift they could meet the demands of life except for a certain bill for county taxes of perhaps \$175.00. I am for preserving the last reminents of this almost extinct self-respecting citizen. Yes, it will add ten cents to my bill, but I would like to have one dollar added to erect a monument to this "vanishing tribe."

The bill reads in part: Every person over the age of 68 years who has been a bona fide resident of Carroll County for the preceding five years and whose total income is less than

When one realizes that over 1600 bills were introduced in the Mary-land legislature this year the complexity of government can be appreciated. This is the trend with no end in sight. Personally I regret that our society has become over en-acted. However, we did think that some corrective measures should be passed. As a result, the tax on the cheaper cigars was reduced by 50% and the others given corresponding macaroni, sweet potatoes, baked corn, peaches, cake and coffee. #### POLIO VACCINATION MAKES SENSE

Suppose someone took you aside and said: "You have an enemy who may waylay you and cripple you for life. But I know how you can stop this enemy. You'll have to act fast. It won't cost much money, and it will take only 180 seconds of your time." If you knew the facts were true, you'd take him up on it, wouldn't

you? Well, the facts are true. The enemy is paralytic polio. If you're under 40 years old, you're a possible victim. If polio strikes, you may face a life shattered by disease and disability.

There is no cure for paralytic polio, but there is a way to prevent it. The preventive is the Salk vaccine. It is safe and it works. Three properly spaced shots-at 60 seconds a shotgives you protection.

Over 45,000,000 Americans have been smart enough to get this protection. But 60,000,000 in these ceptible age group have been foolhardy enough to neglect it.

Don't be one of the foolhardy ones. The polio season starts soon. You still have time to safeguard yourself and your family if you act at once. Go to your doctor or your clinic now. Vaccinate-before it's too late!-Industrial News Review.

#### REVENGE!

anniversary. But it wasn"t one that it will be for us." was received with cheers. It was the 44th anniversary of the federal income tax.

A look backward is in order. In 1913, in the tax's infancy, the normal rate was one per cent and the highest surtax was six per cent.

Today the tax starts at 20 per cent, on the lowest taxable incomes, and rises to a high of 91 per cent. The Portland Oregonian makes

this wry and apt comment: "We didn't invent the income tax. The British started using it to support their military campaigns in the late 1700s, shortly after we licked them at Yorktown and won our independence. Well, they have their revenge." -Industrial News Review.

#### CUTTING THE BUDGET

The proposed \$71.8 billion federal budget-largest in our peace-time history-has caused more stir and more concern than any domestic problem in a long time. And that coneern is not of a partisan nature. It is shared by men high in the President's official family, and by Senators and Representatives of both parties.

There are all manner of suggestions as to where and to what extent this budget can be cut: The details of budget-cutting constitute a field for the experts. But you don't need to be an expert to understand one thingthat the logical place to make the deepest cuts is in areas where the government is carrying on jobs, at taxpayers' expense, which could and should be done by taxpaying private enterprise.

This simply means that it is time we got the government out of business. And an excellent place to begin would be the non-taxpaying socialized electric power systems.

Some time ago various prominent men suggested that these systems be sold to private enterprise. That proposal gained wide and enthusastic response. Unfortunately, little has been heard of it lately. But it is even more valid, even more urgent, now then in the past. Sale of the systems would bring in a huge amount of money. It is felt that some of the systems, incidentally, would bring the government more than they cost, as they were built at a time when the dollar had much greater value.

That would be only the beginning. reservations. The systems for the most part, are both free of taxes and are subsidized by taxes.. In private hands, the subsidies would end-and in addition the House. systems would become major taxpayers. The importance of this is illustrated by the fact that the average independent utility company now pays about 23 per cent of all its revenues from power sales in taxes.

It would take time to make these sales. Meanwhile, we could further brighten the budget picture by putting the socialized systems on a business basis and demanding that they pay all the costs of operation, as do private concerns-including taxes .-Industrial News Review.

Funeral services were conducted at the U. B. Church, on

Saturday morning.

There really should be some plan devised for sewering Taneytown, and devised for sewering Taneytown, and for providing a surface drainage system in general, for streets, alleys, and lots. The problem will no doubt be a difficult one, owing to the peculiar lay of the land on which the town is built, and because of the red rock subsoil which lays close to the surface and prevents the rapid sinking of wasubsoil which lays close to the surface and prevents the rapid sinking of water, but there should be an intelligent effort made to relieve existing very unsanitary and generally unsatisfactory conditions, and we hope that the next Board of Commissioners will give the question due consideration. With a good light system and good sewerage and drainage, Taneytown would be a country town hard to beat. We can have both if everybody will work together to that end.

The legislature should be asked to grant the extension of the corporate limits of Taneytown, at the coming

FEESERSBURG

A Voice From Carroll)

There are a few contrary souls who solemnly declare that the weather has absolutely no affect upon them or their outlook on living. Sunshine and rainy days may come and go but their tranquil existence just keeps rolling along like old man river. They really believe it, and who are we to try and prove to them that the first few days of balmy spring can make even the most regulated and regimented soult do some strange unortho-dox things. Last week when spring was straining at its leash we happened to drive through a small town and at every house the were acting like ants in an anthill which had just been turned over by a gardner's shovel. Some were raking off the garden; some were busy with hammer, saw and nails, while others were setting out their summer garden furniture. Indeed the activity was so catching that we were tempted to hurry home and put some lettuce seed in the ground. Even the farm animals caught the spring bug. The cows when turned out took off across the field like polo ponies, with their tails in the air signalling spring to hurry up and get some green grass on the fields. The blackbirds, robins and doves jammed traffic on the skyways trying to beat each other to the choice nesting accommodations. One persistent straling almost dislocated his neck trying to get into a wren box. It took him or her two days to be convinced that although his head went into the opening his body would not follow. Yes, the spring air has something in it besides oxygen and nitrogen. The poets recognized another potent element in it long ago, but one need not be either a poet or a scientist to know that spring contains some-thing that affects everyone in some way and any person who denies it has already died, although he doen't know it. If someone could find a method to bottle spring air so that we all could take a sniff of it the year round, this old world would be so filled with hymen consent that it was all to the spring air so that we all could take a sniff of it the year round, this old world would be so filled with hymen consent that it was all the spring and the spring are some some spring and the spring are spring as the spring as the spring are spring as the spring as the spring are spring as the spring as t filled with human energy that it would revolve twice as fast on its axis. We doubt very much though that it would contribute much to life or the pursuit

The Elmer Wolfe P.-T.A. is sponsoring a luncheon April 3rd in the Fireman's Hall. This will be a good reason for the family cook to escape from the kitchen and enjoy lunching with friends for a spring "pick-me-up". Usually with children in school and hubby off on his job mother has to eat alone at lunch time. So here is an excellent opportunity to do something different. The luncheon will be served at 12:30 and everyone is invited to attend. Tickets may be purchased from Mrs. Joseph Coshun or Mrs. Lee Rhinehart. If the family cook can't go without the family by all means take them along.

The name of the organization is: "Carroll County Civic Council" with George E. Knox, Gamber as President. Any person who is interested in the objectives of the council and who are willing to uphold its policies and subscribe to its by its policies and subscribe to its bylaws may become members by contacting Mr. Knox. There is no easy way to solve Carroll County's problems and no magic formula for improving the community. Only work and coopera-tion by its citizens can move our toward better things. One thing that has led to the formation of this new civic group is the fact that the population of Carroll has increased while its income has decreas-This is an unhealthy situation and one that can be remedied only by attracting new businesses and industries to our county.

The Uniontown Lutheran Parish will lose its Pastor April 1st when Rev. Donald Warrenfeltz accepts a call to a Lutheran Parish at Leitersburg, near Hagerstown. He has served the four churches that makes up the Uniontown Parish for seven years and his departure will mark the years and his departure will mark the end of seven years of devoted service to his parishioners. Not only the Pastor, but his family have become a part of the community and we deeply regret to see them leave.

The other day someone asked me why do people give up certain things during Lent. We couldn't answer the question except to say it was a christian custom. We learned later that we deny ourselves certain things during the forty days before Easter in imitation of Christ who fasted forty days before He was crucified. However it wasn't until four hundred years after Christ died that Lent was observed by the Christians. We believe the Jews observed fasting days long before Christ was born so it can not be considered only a Christian ideal. Is there a need for people to deny themselves certain things during Lent or is it just an empty gesture? We believe that there is a good reason for self-denial for the simple reason it helps build stronger characters. We prove to ourselves that we can control our wants and desires and are therefore master of our senses. But while self-denial for forty days is a step in the right direction, it would work better if we practised it the year

The post-office department is once again trying to get congress to raise the price on postage stamps. The cost of sending first class mail should not be changed but we would like to see third and fourth class mail pay for itself. We get so tived of herical self. We get so tired of burning advertisements which we receive and don't even open and we feel sorry for the postal workers and mail carriers handling so much worthless mail. The people who use the mails to sell their products should be the ones to pay more . . . not the once-a-week letter writer.

Recently school authorities in several states have been talking about keeping the schools open the year round. They point out that school buildings are not used three months out of a year and this is pure waste. No child would go to school all twelve months, but would attend nine months in staggered classes. Parents reaction has not been aired as yet; neither has the teachers. The idea is certain to

the teachers. The idea is certain to bring on a battle though if it ever gets out of the talking stage.

Polio vaccine, recently made available in quantity to the Carroll County Health Department is being administered in the schools of the county to pupils, who have been unable to take advantage of protection prior to this time. This is accessible through the cooperation of the Health Department and is arranged by them on a schedule made with local school administration.

This is offered free of charge to those pupils who have been unable to be protected at other times.

The project has the approval of the Carroll County Board of Education and the vaccine can be secured for the protection of those who have not secured it until this time.

#### LETTER TO THE EDITOR

The Carroll Record, Taneytown, Md.

Gentlemen: The last week's issue of The Carroll Record contains Black's School. The teacher James J. Harner, who was my father. This picture was taken about 62 or 63 years ago. I am not on the picture, but have a sister in that group.

### Yours Truly, MERVIN J. HARNER.

### CHURCHES SEND CALVES TO PUERTO RICO

Thirty Maryland heifer calves sail from Baltimore on Thursday, February 28, to start herds for boys in Puerto Rico. All the Holstein calves have been contributed by church people in Maryland for this unusual but practical good-will shipment.

The project was sponsored by the Town and Country Department of the Maryland-DelawareCouncil of Churches. Rev. Robert Mitzel, a Methodist minister of Maryland Line, Maryland supervised the round-up

land supervised the round-up.
Caretaker of the 8 month old calves during the 3 day trip will be Rev. Charles Michael of Mt. Airy, Md. One of the calves on board will be contributed by his Methodist parishoners.

### LITTLE-KNOWN FACTS FROM THE CURRENT READER'S DIGEST

Since the day after Lincoln's death the outpouring of words about him has never ceased. There are now some 6000 Lincoln books and pamphlets, states Greer Williams in the current Reader's Digest. Biographies have been written in German, Spanish, Norwegian and Japanese. The little book in which Lincoln as a boy wrote, "Abraham Lincoln, his book and pen." "Abraham Lincoln, his book and pen, time, it's too late. he will be good but God knows when," brought \$3600 at a New York City auction in 1952. A copy of the 266-word Gettysburg address—one of five which exist in Lincoln's handwriting -sold for \$150,000. Hoaxes have given much trouble to truth-seekers about Lincoln. ### how Advertising BY CHARLES B. ROTH helps you

#### Midst of Revolution

EVERY American school child, quick juices. the American Revolution, knows how the staunch colonists overthrew the existing government, freed themselves from the shackles of political and religious slavery, and stood forth as free men. But it took violence and bloodshed. But don't all revolutions take vio-

lence and bloodshed? Not any more they don't. Some and gains, such as the tremendous

revolution in living.

This is the newest style in revolutions - and the force which is motivating it is advertising!

To be an eye witness of this great revolution take an observer's place, as one noted advertising man, Fairfax M. Cone, did at the checking stand of a modern super market.

Watch the people as they go by and check what they have in their baskets. They have all manner of wonderful things . . . wonder- our existence, advertising never ful things like ready-cut cello- served us better than in pointing phane-wrapped meat . . . cake mix the road to modern revolutionary and oven-ready biscuits . . . froz- living!

en chicken pies and pizza. . fresh frozen vegetables . . . concentrated quick frozen vegetable and fruit

But the folks who are enjoying these miracles are not the rich people. They are the everyday people of every American town.

If you follow them out to their

cars, you will see them climb into sleek new shiny sedans, more beautiful and efficient than the rich men's cars of a few years of the most drastic revolutions are ago. And they will drive to new accompanied only by pleasantness ranch-type homes, in which you will find a TV set, a couple of radios, an electric refrigerator, a home freezer, automatic dishwasher, and washing machine.

We take these things for granted, but we shouldn't, they did not "just happen." All were caused, all were caused in exactly the same way-by the miracle of advertising, which showed the way to the revolutionary way of life we Americans are living.

In every way a good force in

#### THE CHANGING SCENE

GOD AND HIS PLAN-(Part 2)

Conditions they tell us, were static in days of old—
(Men, they say, only did as they were told)?
For centuries, they all lived, the same way—
Just so things were, in our great-grandfather's day! Many people lived and died at the place of their birth-

(Their world was only 20 sq. miles of earth)!

Over that part of terra firma they used to go,
Even though old Robbin's pace was sometimes slow. But, to-day man is up; and, rearing to go!—
(Nothing happens o nearth that he does not know)!
He is no longer content with the buggy and sleigh;

So, for locomotives, he seeks a new way. What is it, you ask, that has made such a change?

The answer is simple—they did not use their brains!
The old fellow, they say, preferred a life of ease;
But, the new generation is much harder to please. The whole thing, they say, was a change of thought-

Just think of the many inventions it has brought! Thought is creative energy, the saints all say; So. that is why we no longer go the old way!

The law is, the thing you want, your mind must see;
So make it as real as that thing can be!
And, your sub-conscious mind will find a way
To make it a reality in some future day.

Your mind is a storage battery they all say—
So, whatever you think materializes in some way;
That is why all around us, so much sickness you see,
We all imagine conditions which ought not to be.

Remember, mind has all power, the experts say; But, you must use it right to bring things your way—You must make thought dynamic, they all say,
To cause things you want to come your way.

In the moment of creative thinking your conscious mind Becomes a creator, like God, I find; It partakes of the power of Universal mind; For, to be like our Father, we are all inclined.

Just as the sap pushes off dead leaves from the tree, Thought can make a new creature of you and me For, God is the Life of all things seen by the eye o, unless we do as He says, we shall surely die.

The only reason people die, the doctors all say,
Is, that their system gets clogged from day to day;
It is just like the fellow who has a new cold—

He don't struggle hard enough to get rid of the old. So, as I have said, as the sap pushes dead leaves from the tree, You must push off thoughts of disease and poverty; There is nothing so powerful as thought, experts say; So, think God's thoughts; and, do things God's way.

To get what you want from Life, experts say,
You must think about it, from day to day—
Center all your resources on what you want, they say;
And, the thing you long for shall come your way.

Many people on earth fear death, in our day; But, they have come and gone often, great writers say; And, the reason we come and go, they shall some day know; For, God makes us perfect here below.

Death is not like Life; all great writers say; We leave the old to get a new body of clay; For ages, they tell us, that has been God's plan To make of you a perfect man.

The hardened mariner is a sample, they say, Of how God wants us to be in our day; He turns on the steam; and faces the squall, Even though the tempest is great ,and his vessel small.

And, that is the way God wants us all to be
As we face the billows on Times raging sea;
And, if like Jesus, we always obey His will,
We, too, can say to the waves: "Be still".

We always look for help outside, some say;
But, to do things right, we must do them God's way;
God gave you a mind; use it! That is all you need;
And, from fear and disease you shall be freed.

Man would have to live on and on through all eternity
To be like our Great God, it seems to me;
But, one thing I know, if he follows His plan,
God will make of him a perfect man.

The secrets of God's plan puzzle many to-day,
Because the scriptures say "His way is not our way";
And, we were made in His image, they also say;
But, to be exactly like Him, man must change his way.

#### **Hypocrites**

Lesson for March 24, 1957

THE word "hypocrite" can be I thrown around recklessly. Some one asked Dr. W. L. Lingle once why there are so many hypocrites in the church. His reply was that there are really not so many as some people think. The church, he says, is full of half-way Christians, stupid Christians, ignorant

Christians, even 21/2% Christians. But a genuine hypocrite is a person who is bad and knows it, and pretends to his badness.

Such persons, Dr. Foreman says Dr. Lingle, are few. However, we should not sit back and suppose that all the hypocrites were Bible characters. Still less should any one imagine that today all the hypocrites are in the church. People who are at least

temporary hypocrites can be found

all around us. Perhaps in us! **Family Hypocrites** 

We don't have to go to church to be hypocrites. We can practice right at home, and some of us do all too well at it. The word originally meant simply "actor." We are all hypocrites when we act better than we know we are; or when our preachments fly at a higher level than our practice. When Father gives the children a lecture on honesty, the very day when he sells a piece of real estate for more than he knows it is worth; when he spanks the children for losing their tempersbut doesn't spank them till he has lost his own; when Mother tells the children at table to be patient, though she wouldn't wait in line at the post office but squeezed in out of turn; or when she greets the visiting Mrs. Jones like a long-lost sister, only to say before the visitor gets into her car, that she hopes that bore never comes again;-Father and Mother are being play-actors.

Even the children may be playacting when they take their parents' lectures or discipline as if they heard every word and meant to do better next time, when all the while they are thinking about something else; and they may be terrible little hypocrites about school-how mean the teacher is, and how all the children pick on

**Business Hypocrites** 

Dwight L. Moody admitted the church harbors a good many hypocrites, but-he said-there are a lot more outside the church. There are indeed. Take business for instance. Listening to the high priests of big business in America, reading the advertisements, the man from Mars might take it seriously and believe that the main object of business is service. The jolly fellowship at luncheon clubs might be taken in the same way; how can these people be deadly rivals? The answer is, they aren't. The club rules allow admittance of only one person from each "classification." But in each classification the man may be a ruthless rival of other men in the same line not in this club. And as for service, it is quite true this is an aim of business, but the aim is making money. Even men in "professions" which have a long and honorable record of service, may be there for the simple reason that there is more money in it than in anything else they would find congenial. When a town finds itself year after without a resident doctor or minister simply because it is a town of poor people, the citizens are a little dubious about the "Service" professions.

Hypocrites in Church Which brings up the kind of hypocrites who drew Jesus' fire-the hypocrites in church. Aren't we all hypocrites when we tip our heads back and sing," "Jesus, I my cross have taken, all to leave and follow thee"-when we decline even the small opportunities for service the church offers us? Isn't a minister a hypocrite when he exhorts his people to virtues which in his position are very easy but which he would find pretty hard if he were in their place? (Temperance, for instance.) Isn't the church member a hypocrite who hastens to dust off the Bible when she sees the minister coming up the front walk? Isn't the churchman a hypocrite who is extra careful of his language around the preacher? And aren't we all hypocrites when we pray, "Thy Kingdom come," -and back the prayer up with one

thin quarter? (Based on outlines copyrighted by the Division of Christian Education, National Council of the Churches of Christ in the U. S. A. Released by Community Press Service.)

This meeting was a follow-up to a similar meeting held here last November and was held for the purpose of putting final approval on the various phases of a Certified Wiring Program which has been developed through the cooperation of local electrical contractors and the Potomac Edison Company

Edison Company.

This certified wiring program, as finally approved at the meeting, is aimed at providing safe, adequate, and efficient electric service for the customer and will include the issuing of a certified wiring certificate to home owners whose dwellings meet the

standards established.

During the recent meeting here, the various requirements of the certified wiring program were discussed and recommendations were made to be incorporated into the final program which will be released to the public about April 1.

Those attending the meeting were also presented with the various advertising and promotional materials which have been developed for use by the contractors, bankers, and builders in connection with the certified Wiring

One of the highlights of the meeting was the showing of a kinescope of a specially closed circuit telecast recently sponsored by the "Live Better Electrically" program. #### LETTER TO THE EDITOR

Dear Fellow Editor: My heartfelt thanks to you for the important part you played in making the Brotherhood Week observance in your community a complete success. I am indebted to you for enlisting an outstanding citizen as Brotherhood week chairman and for the wonderful publicity your newspaper gave to the observance. Never before has the brotherhood message reached so many people!

words cannot express my deep appreciation to you for all the time and effort you have given to this important cause. My kindness regards and best wishes, LOUIS B. SELTZER,

National Brotherhood Week Chairman Barley
