Dear Observer:-I do not know if you will answer the following ques-tions or not as I knew you when you lived in Carroll County when I would meet you "Around The Town". Would you ever move here here or do you you ever move back here or do you prefer Harford County? I don't know even if you remember me and I hope you do not think I am bold in asking you these questions. Answer:- No, I do not think you are bold and I will be glad to state the following. When I drive over to Car-roll County as I strike Hampstead and see the rolling acres, it is truly like going home. One does not just pick up and forget all the wonderful memories when they leave but circumstances made it impossible to con-tinue right there. I discovered this, that no county can compare with Carroll County as to living expenses and reasonable taxes and much else. Of course, I enjoy Harford County very much as now everything connecting us with this place is right here as you realize. After all we have been here for six years. Deep down in my heart, I wish I still had "Loves' Retreat"! I have known quite a number of peo-ple who have moved to lovely places in other states and yet moved had in other states and yet moved back around and near the town! Remember Dear Observer:- Although I am aged and crippled very much with arthritis, I do want to ask you this. Someone told me that you had cured yourself when you noticed arthritis pains. Will you help me? Answer:- I am so sorry that you have arthritis and I firmly believe that it was this awful pain which struck me in my elbow and all I did for it was to place an electric pad around the elbow every night for three months while I slept. It must have just start-ed for I have never had signs of it there since. Have a grand week end, folks. Hope to be seeing you along Charles Street in "The Easter Paradé" but will see you D.V. "HORSE AND BUGGY MAILS"

The US Post Office is a three bill lion dollar a year business. With half a million people on the payrolls, it is the nation's third largest employer, ranking after the Telephone Company and General Motors.

Through its 40,000 branch offices flows 60 percent of the world's maila piece a day for every man, woman and child in the US! But it flows more slowly than it did before World War II, for-although this stream has reached flood proportions-the Post Office "uses the same methods of gathering, sorting and delivering the mail that it did 100 years ago."

This is today's picture of the Government institution that most directly affects the life of every citizen-that spends two million dollars a day more than it takes in-as presented by Wolfgang Langewiesche in the May issue of Reader's Digest.

Wages, says this article on "Our Horse and Buggy Mails", represent 75 percent of postal costs. To cut these costs, mechanization must replace the presently wasteful "primitive procedures". The Post Office, says Mr. Langewiesche, has ignored the industrial law: "the bigger the volume, the lower the costs". But he points out that "it's a technological law, you're supposed to work with machines-bigger, faster, more efficient machines."

To get in step with industry-even with presently superior European postal service-says the author, will

The National Foundation for Infantile Paralysis will not forget them. We must not forget the Foundation. Give as generously as you always have to the March of Dimes. Help clean the slate of Polio."

ALBANY, ORE., GREATER ORE-GON: "Forty-four years ago on February 25, the federal government was given the power to levy an income tax on individuals. It was felt at the time that rates could never reach 10 percent. In 1913, a single man with a \$5,000 a year income paid \$20 tax; today, he pays \$944. Rates the first year were 1 to 6 percent; they range today from 20 to 91 percent."

TAYLORVILLE, ILL., DAILY BREEZE-COURIER: "It costs each of us MORE when the Federal government helps us to pay for our local, state and community improvements. A great many people have been fooled into thinking that grants-in-aid are fine and they as such have become quite popular on the strength that someone else is paying the bill buteverytime we avail ourselves of these pleasures it ends up costing us more than it would have had we taken care of ourselves.'

require intensive research. He reminds us that the Post Office is asking four million dollars for that purpose this year and says: "That's chicken feed! Especially when, for lack of research, it spends beyond its income half that much a day!"

The article points out that proportionately, the Telephone Company. spends 18 times as much on research, and that, if it had been satisfied with earlier methods, all the females in the US would be unable to handle today's telephone traffic! So perhaps we'd better do something about the Post Office before we have to draft postal workers like soldiers in wartime.

GRASSROOTS OPINION

BEAVER FALLS, PA., NEWS-TRIBUNE: "With literary standards what they are in some circles today it's difficult to know whether to wash Johnny's mouth out with soap when he picks up bad words, or to buy him a typewriter.'

MONTICELLO, IND., TIMES: "In his state of the Union message to Congress, President Eisenhower devoted considerable space to the subject of inflation. The chief executive noted that the nation stands on a peak of prosperity. He then went on to say: 'But in any realistic appraisal even the optimistic analyst will realize that in a prosperious period the principal threat to efficient functionings of a free enterprise system is inflation. This was a clear warning, supported by further remarks about the responsibility of government, business, labor and individual citizen to guard against any further undermining of the dollar.'

KNOXVILLE, IOWA, EXPRESS: "The big question today is not whether a lot of men try to beat the government. It is whether the government can beat you with vicious taxation, inflation, etc.

MEET MR. GIRL SCOUT

Here's my question for today - if a man can be a Girl Scout, can a must have an appropriate title the Bicentennial Committee has decided woman be a member of the Foreign Legion? I don't know the answe and a prize of two box seat tickets to for the Foreign Legion, but the Gir Scout news is official. These days he extravaganze will be the reward to the most suitable title selected. The winner will receive special recognition Juring the big affair which starts June when you talk about Girl Scouts, you have to specify whether you mean girl Girl Scouts, lady Girl Scouts on 22 and terminates on June 29. contest is open to the general public men Girl Scouts - because - yes there very definitely are such things Men are Girl Scout presidents - Gir Scout program consultants, Gir Scout fund raisers - let's face it of the judges by April 15.

However this year the Girl Scouts are doing more than accepting men. They'r actively and happily looking for the mity to the Mason-Dixon Line, col-liges, Indians, etc. All entries in the contest must be men who, in all modesty, never sus pected that this stronghold of fem mailed to the Emmitsburg Chronicle before Monday, April 15. Persons desiring information con-cerning the Bicentennial will be acthan women. And they are often better qualified to teach woodwork, carpentry, and simple electronics to the Girl Scouts than are the women volunteers. So men serve as program commodated by a person in charge of the headquarters. The headquar-ters will be operated on a full-time basis from Monday until the terminaconsultants in these fields and thereby help assure that the Scouts will get the benefit of a well balanced program. mitsburg, and if possible the name of the chairman of the division inter-But Girl Scout men are not limited to program consultants. Many men ested in such as parade, special events. serve on committees that help supervise Girl Scout activities, raise Girl Scout funds and plan special events. Other Girl Scout men, who work at a desk all week, find that building a road at a Girl Scout camp or some similar outdoor assignment, provides the change of pace and extra exer-cise they need and want. Girl Scout men don't have to be supermen - but the ladies testify that when it comes to moving heavy equipment and the like - it's awfully nice to have a man around.

And there is one more very important reason why men join the Girl Scouts. Today - more than ever - men and women are aware that bringing up daughter is the responsibility of both parents. And parental guidance

doesn't stop at the front door. Dads and daughters who share the companionship of Girl Scouting have a chance to work and play together. It's good for the girls - it's equally good for their dads. Being a hero to daughter may seem a small return

for all that men bring to Girl Scout-ing - but most Girl Scout fathers think they're getting the better half of the bargain And so today - the news is that ov-or two and a half million girls, and

more than 600,000 women are being joined by thousands of men. Girl Scouting today is very definitely a family affair.

DARI-KOOL CAN OPERATE ON LOW - COST "OFF - PEAK" ELECTRIC RATES

No other cooler can match Dari-Kools fast cooling and year-after-year low operating and mainte-nance costs.

• Milk is cooled to 38° in only one hour — assuring a lower bacteria count and better milk. The milk cannot freeze because it is cooled with ice water.

• Dari-Kool's inner milk tank — with its moist, refrigerated side walls — retards the formation of milk stone. This makes Dari-Kool tanks much easier to clean.

• All Dari-Kool tanks are stainless, steel—inside and out (not painted black iron). A rugged 10-gauge steel frame and pre-expanded milk tank assure accurate calibration and correct payment. Dari-Kools are electronically calibrated at the factory.

• Compare them all and you'll choose a farm-proven, guaranteed Dari-Kool — America's largest-selling bulk milk cooler.

letters of Paul, the power with which God raised Christ from the dead is called the same power that works in Christians. The victory over sin and death which we see in Christ, can be the hope and to an increasing degree the experience of our own lives. There really is a difference between living and said, climaxed by the resurrecwe only think. Before Christ, no of faith do know. The other achievement of D-Day's victory is, for us, sharing in God's certainty of victory which finally shall be complete. One of the easiest and subtfall is to wonder whether God may not at last be overwhelmed by a universe which he created but cannot now control. Realizing what D-Day means, we need never have such fears.

tical messages for the Christian. They are not mere admirationdays, when we can sing happily about what God has done. They are challenge-diys calling us to thought, attitude, action, as befits children of the mighty God. As for death, we can see clear through it. Christ has shown us the glory on the other side. As for sin, Christ bore our sins with Him "to the tree" as Peter said. The power that wrought in Him is available for us in our struggles against evil. But there is something more than this. John Baillie speaks of our era, between the time of Jesus and the end of time, as "the years of grace," that the great task of Christians is just the very thing which Matthew leaves with his readers as the climax of his story of Christ. "All authority has been given me . . . therefore-(sit down and be at ease? wait quietly for the end? spend your time singing my praises? no, none of these.)therefore GO, and Make Disciples," The going, winning Christian is the one in whom the victory of Easter moves op toward final triumph

MEETING OF POLIO PREVENTION WORKERS

The initial "Push-Over" for the Salk vaccine shots for the age of 20 to 40 years was launched on Tues-day evening by the Carroll County Chapter for Infantile Paralysis at a dinner meeting at Hoffman's Inn, E. Main Street Westminster, at 6:30 o'clock. The meeting was called by the county chairman, Mrs. Gladys M. Wimert, and about 40 persons were present representing clubs, organi-zations and groups throughout the county county.

Throughout the meeting, emphasis was given on the importance of per-sons in the age group of 20 to 40 years to secure the shots from their family physician at once, so that at least two shots can be obtained before the polio season begins. The third shot could follow in the early

Promoting polio shots at this time was undertaken by the local chapter following the recommendation at the March meeting of the Carroll County Medical Association. The members of that Association unanimously recommended that persons of ages 20 to 40 years should get their polio shots at the cost of an office call at \$3 per

shot. The meeting was called to order by Mrs. Wimert. The invocation was given by Samuel M. Jenness, superin-tendent of public schools for Carroll County. Mrs. Wimert stated the purpose of the meeting and urged that each one should go back to his or her respective group and stress the need

of the polio shots at this time. Donald Leitch, director for the Maryland Chapter of Infantile Paral-ysis, commended Carroll County for its outstanding activities in the state. He gave the state and national pic-

He gave the state and national pic-ture at present on the need and as-sured the group that there would be adequate vaccine by the time this concentration would be effected. Dr. Martin Gross, president of the Carroll County Medical Association and Dr. James T. Marsh, Westmin-ster, added their urgency to the time-liness of getting the shots at once. Dr. George Schochet, Carroll Coun-ty Health Deputy, was enthusiastic in the school massed innoculations now in progress and he reported nearly a

Mr. Jenness spoke on the coopera-tion of the School Board with the Health Department in carrying out the innoculations in the schools and he expressed pride in feeling that the school children in Carroll County were benefited against the dread disease

Recognition was given district chairmen and their workers for their contribution to the recent March of Dimes Campaign when \$17,668, was realized. Guests stood and gave their name and the organization they represented. After all were intro-duced, they pledged their support in "telling everyone to get Polio shots now". now.

now.' ' A high light of the evening was the tape recording made by Mrs. Wimert with Gerald Williams, age 29 years, of 12 Hersh Avenue, Westminster, who was stricken with Polio on No-vember 20th and returned from the hospital on Friday and is now able to cet about without the aid of centches get about without the aid of crutches but wearing braces. He gave a vivid account from the time he was stricken to the present and urged all to get shots from the ages of 20 to 40, be-cause when the head of the house, man or woman, is stricken, the rest of the family suffers. Neither Mr or Mrs. Williams had gotten their shots before he was stricken. Both arms and hands and left leg were affected. This recording will be sent to national headquarters in New York where copies will be made for further use in the campaign. It will also be heard over radio station WTTR on a "Chat With Gladys" on Wednesday, April 10th. from 1:15 weakesday, April 10th. 110h 1115 to 1:45 p. m. Mrs. Wimert, in reporting on the campaign recently conducted for the March of Dimes, said that the cam-paign costs amounted to only 6 per cent to operate and that the activi-tics in the county were outstanding ties in the county were outstanding. There will be over 30,000 pieces of important literature on vaccination for adults to be given to school chil-dren to take home for their parents early next week. Parents are urged to carefully read this material. Every effort is being made by the Chapten to reach as many adults as possible urging them to get their polio shots at once.
